- **Shutter speed**
- **Exposure level indicator**
- **ISO speed**
- **Aperture**
- **AE lock**
- **Flash-ready**
- **Flash exposure compensation**
- **Shutter speed**
- **Aperture**
- **Spot metering circle**

**Basic Zone Modes**

All the settings necessary for shooting are set automatically. You just press the shutter button, and the camera does the rest.

**Creative Zone Modes**

You can change the camera settings as desired to shoot in various ways.

**P: Program AE**

The camera automatically sets the shutter speed and aperture in the same way as the <P> mode.
- Set the Mode Dial to <P>.
- Turn the < dial to set the desired shutter speed, then focus the subject.
- The aperture will be set automatically.
- If the aperture display blinks, turn the < dial until it stops blinking.

**Tv: Shutter-priority AE**

- Set the Mode Dial to <Tv>.
- Turn the < dial to set the desired shutter speed, then focus the subject.
- The shutter speed will be set automatically.
- If the shutter speed display blinks, turn the < dial until it stops blinking.

**Av: Aperture-priority AE**

- Set the Mode Dial to <Av>.
- Turn the < dial to set the desired aperture, then focus the subject.
- The shutter speed will be set automatically.
- If the shutter speed display blinks, turn the < dial until it stops blinking.
