Quick Start Guide

1. Insert the battery.
2. Insert a SD card.
3. Attach the lens. Align the lens’ white or red index with the camera’s index in the matching color.
4. Set the power switch to <ON>, and set the Mode Dial to <AF> (Scene Intelligent Auto).
5. Set the lens focus mode switch to <AF>
6. Flip out the LCD monitor.
7. Focus the subject. Aim the viewfinder center over the subject and press the shutter button halfway to autofocus.
8. Take the picture. Press the shutter button completely to take the picture. The captured image will be displayed for 2 sec. on the LCD monitor.
9. View the image. The selected image will be displayed on the LCD monitor.

Image Playback

Focus the subject. Aim the viewfinder center over the subject and press the shutter button halfway to autofocus.
