Quick Start Guide

1. Insert the battery.
2. Insert a SD card.
3. Attach the lens. Align the lens’ white or red index with the camera’s index in the matching color.
4. Set the lens focus mode switch to <AF>.
5. Set the power switch to <1>, and set the Mode Dial to <A> (Scene Intelligent Auto).
6. Flip out the LCD monitor.
7. Focus the subject. Aim the viewfinder center over the subject and press the shutter button halfway to autofocus.
8. Take the picture. Press the shutter button completely to take the picture.
9. View the image. The captured image will be displayed for approx. 2 sec. on the LCD monitor.
