Printing Options Using Rolls and Sheets

The printer supports both rolls and sheets.

This section introduces the main features of each, as well as the main printing methods available. Select rolls or sheets to suit your particular printing application.

- For information on the types of paper the printer supports, see **"Types of Paper."** →P.352
- A variety of other ways to print are available besides those introduced here. For details, see **"Enhanced Printing Options."** →P.31

Roll printing

Media in spooled rolls is generally called Roll Media. Rolls are loaded on the Roll Holder, which are in turn loaded in the printer.

Rolls can be used to print large photos or create posters or banners that cannot be printed on regular sheets.

- Large-format printing
Easily print vertical or horizontal banners from familiar applications such as Microsoft Office applications.
(See **"Printing Vertical or Horizontal Banners (Large-Format Printing)."**) →P.88
- Borderless printing
Print without a margin (border) around posters or photos.
(See **"Borderless Printing on Paper of Equivalent Size."**) →P.77
(See **"Borderless Printing by Resizing Originals to Fit the Roll Width."**) →P.81
(See **"Borderless Printing at Actual Size."**) →P.70
- Banner printing
You can print multiple pages as a single continuous image, without margins between pages.
(See **"Printing Multiple Pages Continuously."**) →P.106
- 90-degree rotation before printing
Originals in portrait orientation are rotated 90 degrees when possible to use paper more efficiently.
(See **"Conserving Roll Paper by Rotating Originals 90 Degrees."**) →P.127
- Enlarged/reduced printing
You can freely adjust the size of originals by enlarging or reducing originals before printing.
(See **"Resizing Originals to Match the Paper Size."**) →P.54
(See **"Resizing Originals to Fit the Roll Width."**) →P.56
(See **"Resizing Originals by Entering a Scaling Value."**) →P.60
- Free Layout (Windows) and imagePROGRAF Free Layout (Mac OS)
Print multiple documents from multiple applications (such as word-processing programs, spreadsheet programs, and so on) next to each other.
(See **"Printing Multiple Originals Next to Each Other."**) →P.102

Sheet printing

Sheets refer to individual sheets of paper.

Insert the sheet between the Platen and the Paper Retainer.

- Enlarged/reduced printing

You can freely adjust the size of originals by enlarging or reducing originals before printing.

(See "Resizing Originals to Match the Paper Size.") →P.54

(See "Resizing Originals by Entering a Scaling Value.") →P.60

- Free Layout (Windows) and imagePROGRAF Free Layout (Mac OS)

Print multiple documents from multiple applications (such as word-processing programs, spreadsheet programs, and so on) next to each other.

(See "Printing Multiple Originals Next to Each Other.") →P.102

Turning the Printer On and Off

Turning the printer on

- 1 Press the **Power** button to turn on the printer.
The printer will now start up.
After the Display Screen shows the Canon logo, "**Starting up... Please wait.**" is displayed.

- 2 The **Power Lamp** is lit when the printer finishes starting up, and the printer is now in **Standby**.

The printer will not go into **Standby** in the following situations. Take the appropriate action.

- The Top Cover is open
Close the Top Cover.
- The Ink Tank Cover is open
Close the Ink Tank Cover.
- The Printhead is not installed
see "Replacing the Printhead." →P.578
- An Ink Tank is not installed
see "Replacing Ink Tanks." →P.568
- If "**ERROR**" is shown on the Display Screen
see "Error Messages." →P.640

- The **Power Lamp** and **Message Lamp** are not lit (even once), and nothing appears on the Display Screen

Make sure the printer is plugged in correctly. Check the connection at the plug and electrical outlet.

Important

- Starting the printer when it is connected via the USB cable to a Mac OS computer that is off may cause the computer to start up at the same time. To prevent this, disconnect the USB cable before starting the printer. Connecting the printer to the computer via a USB hub may solve this issue.

Turning the printer off

Important

- Never disconnect the printer's power supply or unplug it during a print job. This may damage the printer.

1

Make sure no print jobs are in progress.

If the **Message Lamp** is flashing, check the message on the Display Screen and take action as necessary. (See "Error Messages.") → P.640

If the **Data Lamp** is flashing, the printer is receiving a print job. Turn off the printer only after printing is finished.

2

Hold down the **Power** button for more than a second.

After "**Shut Down.. Please Wait..**" is shown on the Display Screen, the printer shuts off.

Loading and Printing on Rolls

These are the basic steps for loading and printing on rolls. Follow these steps to load and print on rolls.

- If you use the optional Stand, you can store printed documents in the Output Stacker. see "Using the Output Stacker." → P.391
- You also can install and use the printer on a table, etc., instead of using the Stand.

Important

- Keeping a roll in the printer for a long time without printing on it may leave a depression on the leading edge. When printing quality is most important, we recommend setting **TrimEdge Reload** to **On** or **Automatic** so that the paper edge is automatically cut before printing.
- Before printing banners or other long documents, tap the Output Stacker. We recommend that you spread a clean cloth or paper on the floor and select **Eject** as the cutting method for rolls to prevent the printed surface from becoming dirty or scratched. (See "**Specifying the Cutting Method for Rolls.**") →P.376

Note

- For details on supported sizes and types of rolls, see **Paper Sizes** or the **Paper Reference Guide**. (See "**Paper Sizes.**") →P.352 (See "**Types of Paper.**") →P.352
- To wait until the ink dries after printing before cutting the roll, set **Drying Time** in the printer driver. (See "**Specifying the Ink Drying Time for Rolls.**") →P.374
- Once you have used all the paper on a roll, clean the platen. If the Platen inside the Top Cover becomes dirty, it may soil the underside of paper. (See "**Cleaning Inside the Top Cover.**") →P.592

1

Turn the printer on. (See "**Turning the Printer On and Off.**") →P.17

2

Load the roll on the Roll Holder. (See "**Loading Rolls on the Roll Holder.**") →P.363

- 3** Load the roll in the printer. (See "Loading Rolls in the Printer.") →P.365

- When printing without borders, definitely set the blue Switch on the platen to the ● side. If the switch is set incorrectly, print quality may deteriorate. (See "Setting the Blue Switch on the Platen.") →P.626

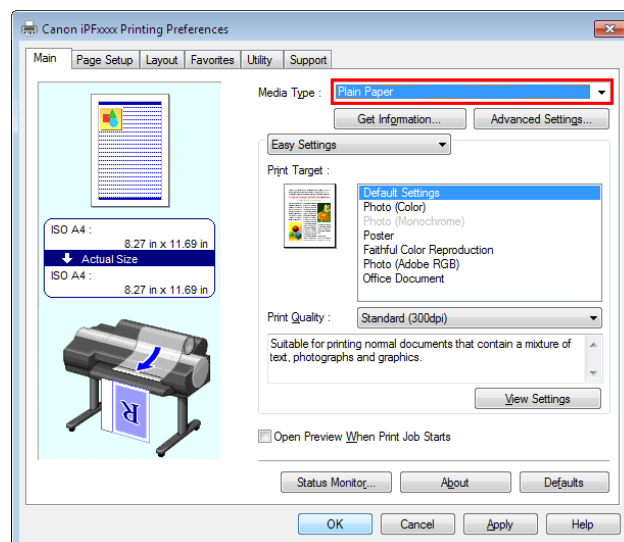

- 4** Select the type of paper. (See "Changing the Type of Paper.") →P.368

- If no barcode has been printed on the roll and you have set **ManageRemainRoll** to **On**, specify the roll length after the type of paper. (See "Specifying the Paper Length.") →P.369

- 5** Complete settings in the printer driver for the type of paper and other details.

- Specifying Paper in the Printer Driver (Windows) →P.152
- Specifying Paper in the Printer Driver (Mac OS) →P.269

6 Send the print job.

- **Printing in Windows** →P.22
- **Printing from Mac OS** →P.23

The printer now starts printing the print job.

- Do not forcibly pull out paper once a roll has been advanced. This will prevent further feeding. If you accidentally pull out the paper, see "Removing the Roll from the Printer." →P.370

Loading and Printing on Sheets

These are the basic steps for loading sheets and then printing.
Follow the steps below to load and print on sheets.

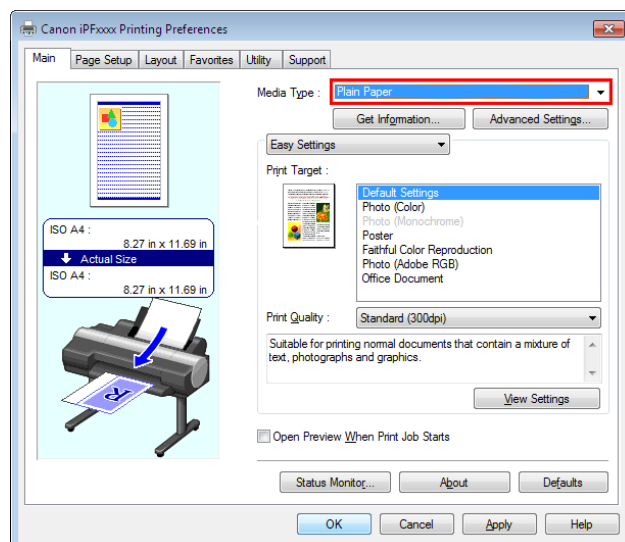

- For details on supported types and sizes of paper, see **Paper Sizes** or the **Paper Reference Guide**. (See "Paper Sizes.") →P.352 (See "Types of Paper.") →P.352
- Borderless printing is not supported on sheets. For the features and the main printing methods available for sheet printing, see "Printing Options Using Rolls and Sheets." →P.16

1 Turn the printer on. (See "Turning the Printer On and Off.") →P.17

2 Complete settings in the printer driver for the type of paper and other details.

- **Specifying Paper in the Printer Driver (Windows)** →P.152
- **Specifying Paper in the Printer Driver (Mac OS)** →P.269

3 Send the print job.

- Printing in Windows → P.22
- Printing from Mac OS → P.23

4 Load a sheet manually. (See "Loading Sheets in the Feed Slot.") → P.388

The printer now starts printing the print job.

Printing in Windows

Print from the application menu.

- We recommend exiting unnecessary applications before printing. Running several applications while printing may interrupt the transfer of print data and affect printing quality.

1 In the source application, select **Print** from the **File** menu to display the dialog box for printing conditions.

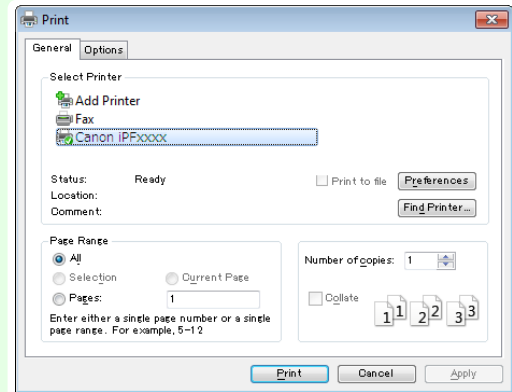

2 After confirming that the printer is selected in the dialog box, click **Print** or **OK** to start printing.

Note

- The appearance of the dialog box varies depending on the software application. In most cases, the dialog box includes basic printing options and enables you to choose the printer, specify the range of pages, number of copies, and so on.

Example: Print dialog box displayed by the application

- If another printer is selected, select the printer you want to use under **Select Printer** or in the dialog box displayed after clicking **Printer**.

Settings for many printing methods (including enlarged or reduced printing, borderless printing, and so on) are displayed in the printer driver dialog box. There are two ways to access the printer driver dialog box, as follows.

- From the application
(See "Accessing the Printer Driver Dialog Box from Applications .") →P.157
- From the operating system menu
(See "Accessing the Printer Driver Dialog Box from the Operating System Menu .") →P.159

Printing from Mac OS

Print from the application menu after registering the printer.

Important

- We recommend exiting unnecessary applications before printing. Running several applications while printing may interrupt the transfer of print data and affect printing quality.

Registering the printer

Before printing, you must register the printer in **Print & Scan** in **System Preferences** (or **Print & Fax**).

For instructions on registering the printer, see "Configuring the Printer Driver Destination ." →P.509

Important

- During this setup process, the printer will not be listed among available printers if it is off or disconnected.

Printing from the application software

1 In the application software, select **Print** from the **File** menu to display the dialog box for printing conditions.

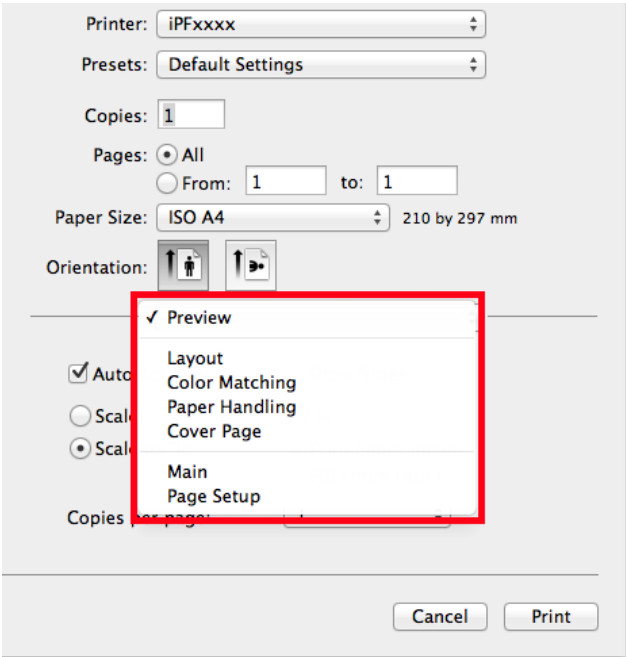

Note

- This dialog box includes basic printing options and enables you to choose the printer, specify the range of pages, number of copies, and so on.

2 Select the printer in the **Printer** list.

3 Click **Print** to start printing.
As shown in the following illustration, you can switch to other panes in this dialog box to complete settings for various methods of printing, including enlarged and reduced printing, borderless printing, and so on.

Canceling print jobs

Canceling Print Jobs from the Control Panel	25
Canceling Print Jobs from Windows	26
Canceling Print Jobs from Mac OS	26

Canceling Print Jobs from the Control Panel

To cancel printing or reception of print jobs, press the **Stop** button on the Control Panel.

When you press the **Stop** button during printing, printer operation varies depending on the current status.

- If you press the **Stop** button before printing starts
Pressing the **Stop** button before printing starts will display a confirmation message. To cancel the print job, select **Yes**.

- If you press the **Stop** button during printing
Pressing the **Stop** button during printing will display a confirmation message. To cancel the print job immediately, select **Yes**.

Canceling Print Jobs from Windows

In the printer window, you can cancel jobs that are being sent to the printer.

Using **imagePROGRAF Status Monitor**, you can cancel print jobs that have already been received by the printer or that are currently being printed.

- 1 Click the printer icon in the taskbar to display the printer window.

Note

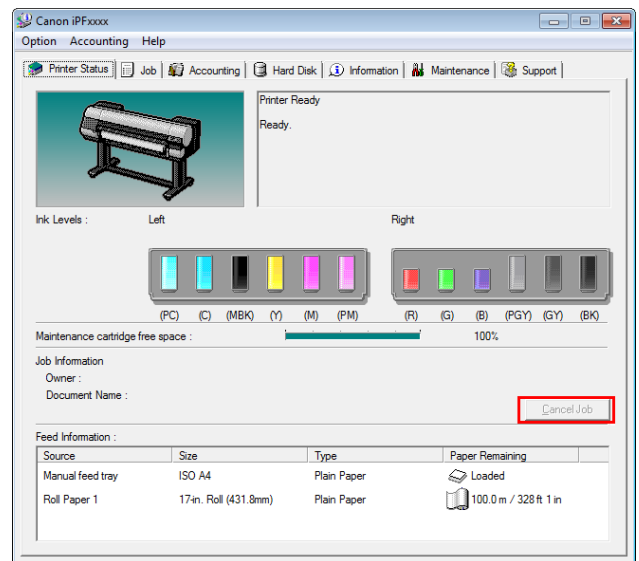

- You can proceed from the folder for configuring the printer settings in the OS you are using. For example, in Windows 7, open the **Devices and Printers** window from the **start** menu and double-click the printer icon.

- 2 Right-click the job to cancel and select **Cancel**.

- 3 If the job to cancel is not shown in the printer window (that is, if the print data has already been received by the printer), double-click the taskbar icon to display **imagePROGRAF Status Monitor**.

- 4 On the **Printer Status** sheet, click **Cancel Job**.

Note

- The screen may differ slightly depending on the model you are using.

Canceling Print Jobs from Mac OS

In the printer window, you can cancel jobs that are being sent to the printer.

Otherwise, you can cancel jobs from **imagePROGRAF Printmonitor** if they have been received by the printer or are currently being printed.

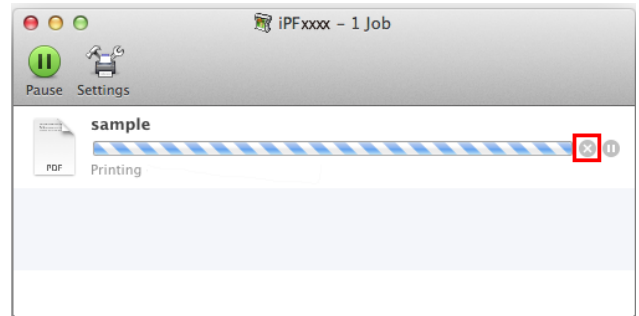

Note

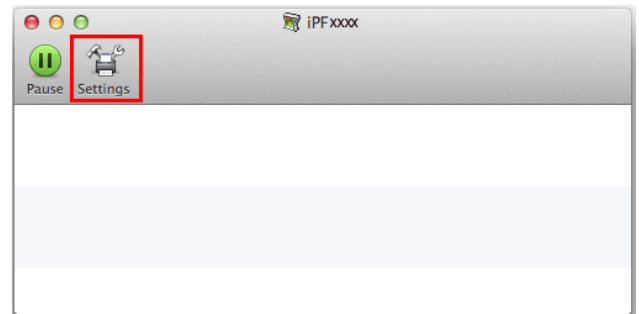

- Print jobs are shown in the printer window while they are being sent from the computer. After transmission, jobs are not displayed even during printing.
- Print jobs are displayed in the imagePROGRAF Printmonitor window from the moment the printer starts receiving the print data until the moment printing is finished. They are not displayed before print data is sent to the printer, even if the computer has started preparing the print data.

1 Click the printer icon in the **Dock** to display the printer window.

2 Either click **×** for the job to cancel printing or select the job to cancel printing and then click **Delete** to delete the job.

3 If there are no jobs to stop in the printer window (if sending the print data to the printer has finished), either click **Settings**, **Utility**, and then **Open Printer Utility**, or click **Utility** to open the imagePROGRAF Printmonitor.

4 Select the print job to cancel and click  to delete the print job.

Note

- The screen may differ slightly depending on the model you are using.

The job sent to the printer is canceled.

5

Exit imagePROGRAF Printmonitor. In the printer window, click **Resume** or **Resume Printer**.

**Important**

- Always follow these steps if you cancel print jobs from imagePROGRAF Printmonitor. If you do not restart job processing, the next job cannot be printed.

Pausing Printing

Pausing Printing

During printing, if you set **Pause Print** in the Control Panel menu to **On**, printing is stopped at that point and the printer enters a state in which printing is paused. (See "Control Panel Display.") → P.456
Printing from the job queue is not possible in this state.

To restore normal operation after this state, set **Pause Print** to **Off**.

Note

- In the following cases, the status is cleared even if you do not set **Pause Print** to **Off**, and printing from the job queue resumes.
 - When paper is advanced
 - When you execute **Chg. Paper Type** in the **Paper Menu**

- 1 During printing, on the **Tab Selection screen** of the Control Panel, press ◀ or ▶ to select the Job tab ().

Note

- If the **Tab Selection screen** is not displayed, press the **Menu** button.

- 2 Press the **OK** button.
The **Job Menu** is displayed.
- 3 Press ▲ or ▼ to select **Pause Print**, and then press the **OK** button.
- 4 Press ▲ or ▼ to select **On** or **Off**, and then press the **OK** button.

Choosing Paper for Printing

Choosing a Paper for Printing	32
➔ Changing the Type of Paper	368
Specifying Paper in the Printer Driver	32
➔ Specifying Paper in the Printer Driver (Windows)	152
➔ Specifying Paper in the Printer Driver (Mac OS)	269

Choosing a Paper for Printing

Select the appropriate media type from the printer control panel or printer driver to match the paper loaded in the printer. The appropriate media type differs between the case of genuine Canon paper or Canon feed confirmed paper and the case of paper other than Canon feed confirmed paper. Select the media type by following the description below. For information on how to select the media type in the printer control panel, see **Changing the Type of Paper** ➔P.368 , and for information on how to select the media type in the printer driver, see **Specifying Paper in the Printer Driver (Windows)** ➔P.152 or **Specifying Paper in the Printer Driver (Mac OS)** ➔P.269 .

• If you use paper other than Canon feed confirmed paper, Canon provides absolutely no guarantees regarding print quality or paper feed properties.

• Genuine Canon paper and Canon feed confirmed paper are detailed in **Paper Reference Guide**.
• An error message is displayed on the printer Control Panel if the media type specified in the printer driver does not match the media type specified in the printer. Although you can print under these conditions, the printing results may not be suitable.

Genuine Canon paper or Canon feed confirmed paper

For genuine Canon paper or Canon feed confirmed paper, select the settings that are optimized for that type of paper. For more information on the settings for genuine Canon paper or Canon feed confirmed paper, see "**Displaying the Paper Reference Guide**." ➔P.356

Paper other than Canon feed confirmed paper

For paper other than Canon feed confirmed paper, one method is to select from existing settings and another method is to create a new media type and add it to the printer control panel and printer driver. For details, see "**Using Paper Other Than Genuine Paper and feed confirmed Paper**." ➔P.354

Specifying Paper in the Printer Driver

If you replace the paper, complete the printer driver settings for the paper type and size. For instructions on configuring paper settings in the printer driver, refer to the following topics, as appropriate for your computer and operating system.

- **Specifying Paper in the Printer Driver (Windows)** ➔P.152
- **Specifying Paper in the Printer Driver (Mac OS)** ➔P.269

Printing Photos and Office Documents

Printing Photos and Images	33
Printing Photos and Images (Windows)	33
Printing Photos and Images (Mac OS)	35
Using PosterArtist to Compose Originals	37

Printing Photos and Images

By selecting the following **Print Target** from **Easy Settings** of the printer driver, you can easily configure the printing of illustrations and photos.

	Print Target	Description
	Photo (Color)	Print photographic images from digital cameras with an optimal setting.
	Poster	An optimal setting for posters. Print in vivid colors with impact and high saturation.
	Faithful Color Reproduction	Print with minimum color difference. Suitable for printing scanner images and when print results are too vivid.

**Important**

- Depending on the **Media Type** setting, some **Print Target** options may not be available.

**Note**

- You can check the settings values for each print target by clicking **View Settings**.
- You can also fine-tune these values as needed. (**Advanced Settings**)
For details on **Advanced Settings**, see "Giving Priority to Particular Graphic Elements and Colors for Printing." →P.47

For instructions on printing photos and images, refer to the following topics, as appropriate for your computer and operating system.

- Printing Photos and Images (Windows) →P.33
- Printing Photos and Images (Mac OS) →P.35

Printing Photos and Images (Windows)

This topic describes how to print photos based on the following example.

- Document: Photo image from a digital camera
- Page size: 10×12 inches (254.0×304.8 mm)
- Paper: Roll
- Paper type: **Canon Premium Glossy Paper 2 280**
- Roll paper width: 10 inches (254.0 mm)

- 1 Choose **Print** in the application menu.
- 2 Select the printer in the dialog box, and then display the printer driver dialog box. (See "Accessing the Printer Driver Dialog Box from Applications .") →P.157

3 Make sure the **Main** sheet is displayed.

4 In the **A Media Type** list, select the type of paper that is loaded. In this case, click **Canon Premium Glossy Paper 2 280**.

In the **A Media Type**, choose the type of paper used for printing, such as **Glossy Paper**, **Canon Coated Paper**, and so on. Make sure the paper you select is loaded in the printer.

Note

- The paper type setting in the printer driver and related software (as well as on the Control Panel) is updated when you install the Media Configuration Tool from the User Software CD-ROM or if you change paper information by using the Media Configuration Tool. For details, see "Media Configuration Tool (Windows)." → P.393

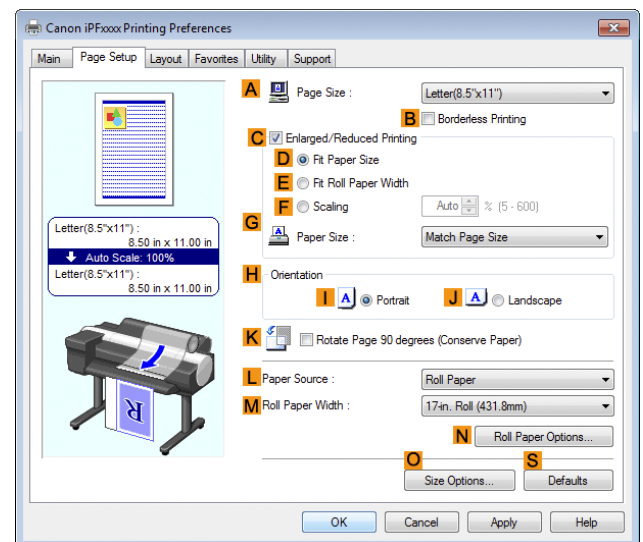

5 After confirming that **D Easy Settings** is selected, click **Photo (Color)** in the **E Print Target** list.

Note

- You can check the settings values selected in the **E Print Target** list by clicking **G View Settings**.

6 Click the **Page Setup** tab to display the **Page Setup** sheet.

7 In the **A Page Size** list, click the size of the original as specified in the application. In this case, click **10"x12"**.

8 Select and click a roll paper in the **L Paper Source** list.

9 Select the width of the loaded roll in the **M Roll Paper Width** list—in this case, **10-in. Roll (254.0mm)**.

10 Specify additional printing conditions.
For details on available printing conditions, see "Printer Driver Settings ." →P.150

11 Confirm the print settings and print as desired.

Note

- For instructions on confirming print settings, see "Confirming Print Settings ." →P.154

Printing Photos and Images (Mac OS)

This topic describes how to print photos based on the following example.

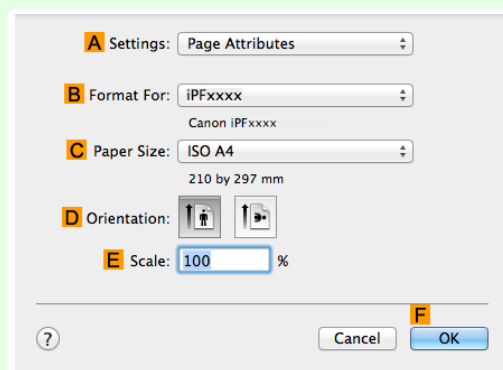

- Document: Photo image from a digital camera
- Page size: 10×12 inches (254.0×304.8 mm)
- Paper: Roll paper
- Paper type: **Canon Premium Glossy Paper 2 280**
- Roll paper width: 10 inches (254.0 mm)

1 This sets the **B Format for** and **C Paper Size**.

Note

- The configuration method varies depending on the OS and application software you are using.
If **Page Setup** is displayed in the application menu, the settings are configured by opening the **Page Attributes** dialog box from **Page Setup**.

If it is not displayed, the settings are configured in the upper part of the printer driver displayed when you select **Print** from the application software menu.

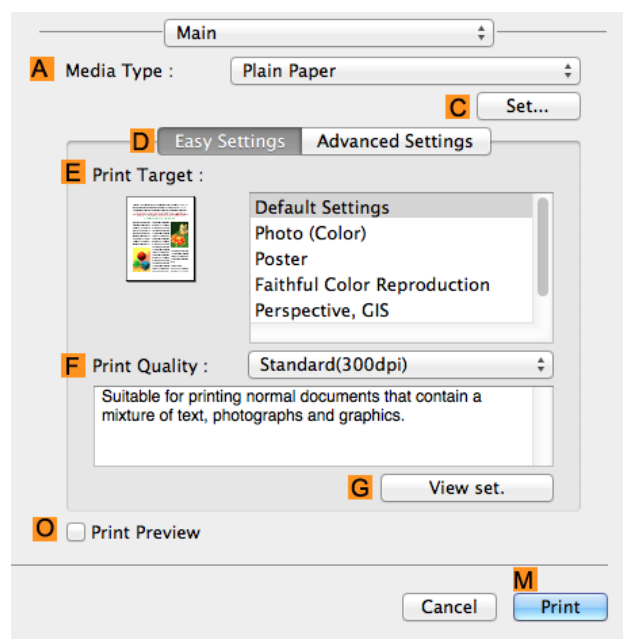

2 Select the printer in the **A Printer** list.

3 In the **F Paper Size** list, click the size of the original. In this case, click **10"x12"**.

4 If you configured the settings using the **Page Attributes** dialog box, click **F OK** to close the dialog box, and then select **Print** from the application software menu.

5 Access the **Main** pane.

6 In the **A Media Type** list, select the type of paper that is loaded. In this case, click **Canon Premium Glossy Paper 2 280**.

Make sure the paper you select is loaded in the printer.

Note

- The types of paper indicated in the printer driver and related software (as well as on the Control Panel) are updated when you install the Media Configuration Tool from the User Software CD-ROM or if you change paper information by using the Media Configuration Tool. For details, see "Media Configuration Tool (Mac OS)." →P.422

7 After confirming that **D Easy Settings** is selected, click **Photo (Color)** in the **E Print Target** list.

Note

- For information on settings optimized for printing photos and images, see "Printing Photos and Images." →P.33
- You can check the settings values selected in the **E Print Target** list by clicking **G View set..**

8 Make your selection in the **F Print Quality** list.

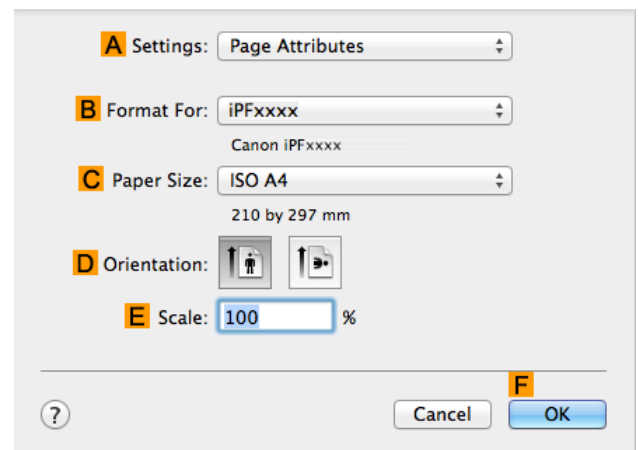

9 Access the **Page Setup** pane.

10 Select and click a roll paper in the **A Paper Source** list.

11 Select the paper width of the roll loaded in the printer for **B Roll Width**. In this case, **10 in. (254.0mm)** is selected.

12 Make sure **C Page Size** on the **Page Setup** pane shows the original size as specified in **C Paper Size** in the **Page Attributes** dialog box—in this case, **10"x12"**.

13 Specify additional printing conditions.

For details on available printing conditions, see "Printer Driver Settings ." →P.268

14 Confirm the print settings, and then click **M Print** to start printing.

Note

- For tips on confirming print settings, see "Confirming Print Settings ." →P.271

Using PosterArtist to Compose Originals

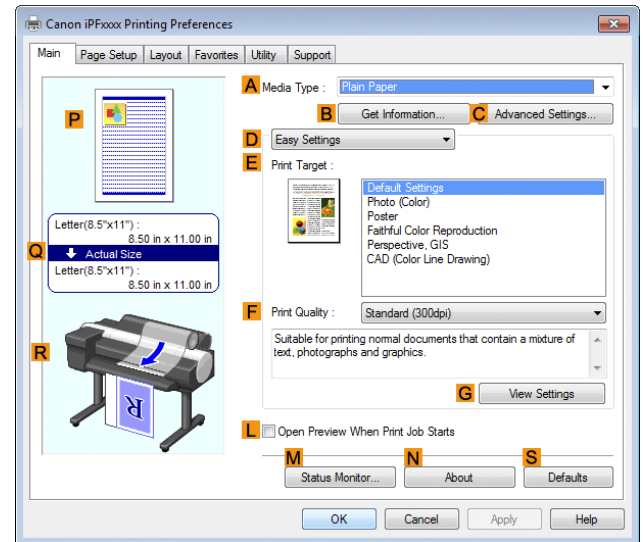

You can print a variety of source documents from word-processing or spreadsheet programs or screen shots from web browsers after composing an original with them using PosterArtist.

This topic describes how to use PosterArtist to compose originals from multiple applications, creating a poster layout for printing.

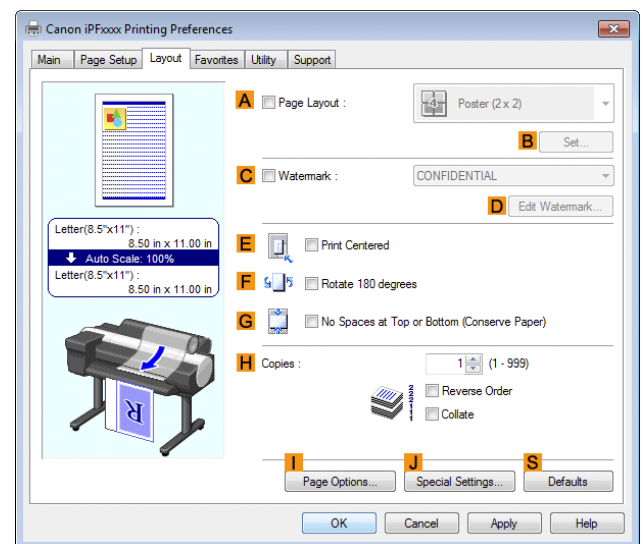

1 Choose **Print** in the application menu.

2 Select the printer in the dialog box, and then open the printer driver dialog box. (See "Accessing the Printer Driver Dialog Box from Applications (Windows).") → P.157

3 Make sure the **Main** sheet is displayed.

4 Click the **Layout** tab to display the **Layout** sheet.

5 Select the **Page Layout** check box.

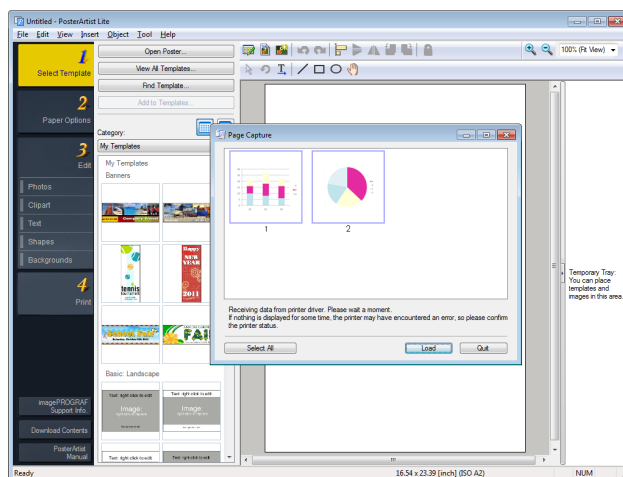

6 Click in the **Edit Using PosterArtist** in the **Page Layout** list.

Note

- This function cannot be used with a 64-bit version OS.

- 7** When you attempt to print, PosterArtist starts up and the PageCapture window is displayed. (At this point, the document will not be printed yet.)

- 8** Choose the page to load in PosterArtist.

- 9** Edit and rearrange the image in the PosterArtist window as desired. Without closing the PosterArtist window, repeat steps 1-8 to arrange originals from multiple applications on the same page.

Note

- For details on how to edit and sort images, refer to the PosterArtist Manual.

- 10** Print from the PosterArtist menu.

Adjusting Images

Adjusting the Color in the Printer Driver	40
Fine-Tuning Colors of Photos and Images (Windows)	41
Fine-Tuning Colors of Photos and Images (Mac OS)	44
Giving Priority to Particular Graphic Elements and Colors for Printing	47
Choosing the Document Type and Printing Conditions (Windows)	49
Choosing the Document Type and Printing Conditions (Mac OS)	51

Adjusting the Color in the Printer Driver

Color settings specified in the application for your documents are essentially given priority over other settings for each print job, but further color adjustment is possible in the printer driver.

• Color Mode

Choose how the printer driver processes color, as desired.
The available options vary depending on the color mode.

Color Mode	Description	Color Adjustment
Color	Print in color.	You can select the color balance and color matching functions.
Monochrome	Print in grayscale.	You can adjust the color balance.
No color correction (*1)	Prints without performing color-matching in the printer driver.	You can adjust the color balance.

*1: If **No color correction** is selected, the **Matching** sheet / **Matching** pane is not displayed.

• Color Adjustment

You can adjust colors separately for images, graphics, and text documents.

Adjustment Item	Description
Cyan	Fine-tune color tones by adjusting the levels of Cyan , Magenta , and Yellow .
Magenta	
Yellow	
Gray Tone	Adjust the grayscale, in a range from cool, blue tones to warm, red tones.
Brightness	Adjust the brightness of printed images while keeping the darkest and lightest portions intact.
Contrast	Adjust the contrast of the darkest and lightest portions relative to each other. For soft gradation, decrease the contrast. For hard gradation, increase the contrast.
Saturation	Adjust the level of color saturation, in a range from subdued to vivid.

• Click **Object Adjustment** to open the **Object Adjustment** dialog box, which allows you to select the color adjustment target from **Image**, **Graphics**, and **Text**.

• Matching

You can choose the color-matching mode and method.
By adjusting the color-matching mode and method, you can make printed colors match the colors of on-screen images more closely.

• If **No color correction** is selected under **Color Mode**, the **Matching** cannot be changed.

Matching Mode	Description	Remarks
Driver Matching Mode	Enables printing of optimal color tones using a driver specific color profile.	You should normally select this mode.
ICC Matching Mode	Enables color matching using ICC profiles. Select this if you want to print by specifying the input profile, printer profile, and matching method in detail.	This allows you to use ICC profiles for digital cameras and scanners, ICC profiles created using the profile creation tool, etc.
Host ICM Mode	Enables color matching by the host computer using the ICM function of Windows. Select this if you want to print from an application that supports the ICM function.	Available when using Windows.
ColorSync	Enables color matching by using the ColorSync function of Mac OS. Select this if you want to perform soft proofing using ColorSync before printing.	Available when using Mac OS. To select ColorSync , choose ColorSync on the Color Matching panel.

Matching Method	Description	Remarks
Auto	Color-matching optimized for images, graphics, or text.	The available options and their display order vary depending on your selected color-matching mode, as well as the operating system.
Perceptual	Color-matching optimized for printing typical photos attractively. Smooth gradation is a feature. This is also an easy-to-use mode when performing color adjustment using application software.	
Colorimetric	Color-matching optimized for printing image data with accurate colors in input color space. This is the easiest-to-use mode when you want to adjust the color and print. However, gradation may be lost for colors of wider range than the color reproduction range of the printer. Generally, this is also called relative colorimetric.	
Colorimetric (No Wht-pnt Corr)	The processing method of color-matching is identical to Colorimetric. Use this when you want to further reproduce the target paper material color of the image data. Generally, this also is called absolute colorimetric	
Saturation	Color-matching optimized for printing posters, etc., vividly.	

For instructions on color adjustment, refer to the following topics, as appropriate for your computer and operating system.

- Fine-Tuning Colors of Photos and Images (Windows) →P.41
- Fine-Tuning Colors of Photos and Images (Mac OS) →P.44

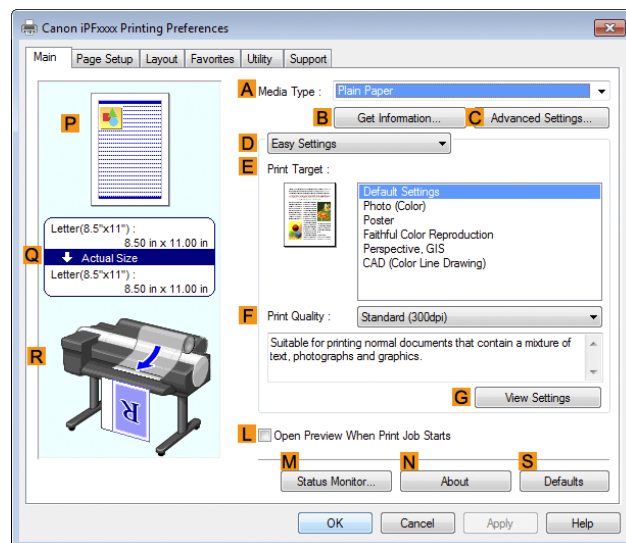

Fine-Tuning Colors of Photos and Images (Windows)

You can specify your own print settings instead of using the **Print Target** presets. This topic describes how to fine-tune the color tone of photos before printing.

- 1 Choose **Print** in the application menu.

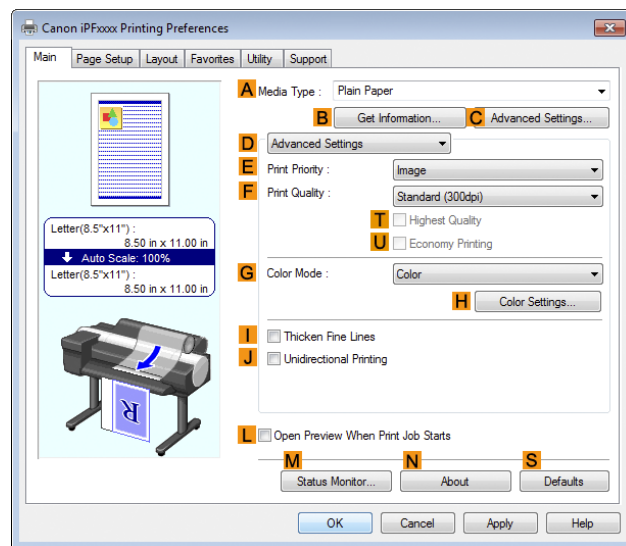

2 Select the printer in the dialog box, and then display the printer driver dialog box. (See "Accessing the Printer Driver Dialog Box from Applications .") →P.157

3 Make sure the **Main** sheet is displayed.

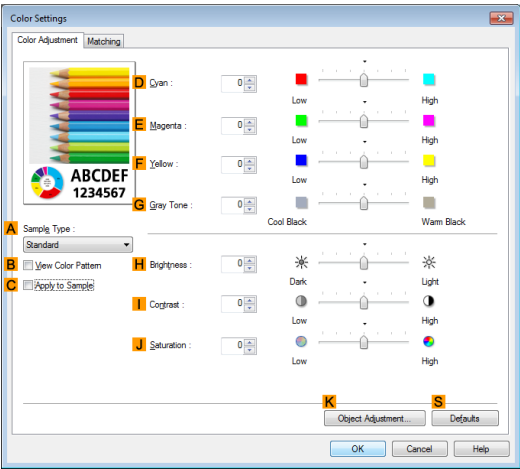

4 In the **A Media Type** list, select the type of paper that is loaded.

5 Click **D Advanced Settings** to switch the print mode.

6 Click **Color** in the **G Color Mode** list.

7 Click **H Color Settings** to display the **Color Settings** dialog box.

8 On the **Color Adjustment** sheet, adjust the color tones, brightness, and so on as desired.

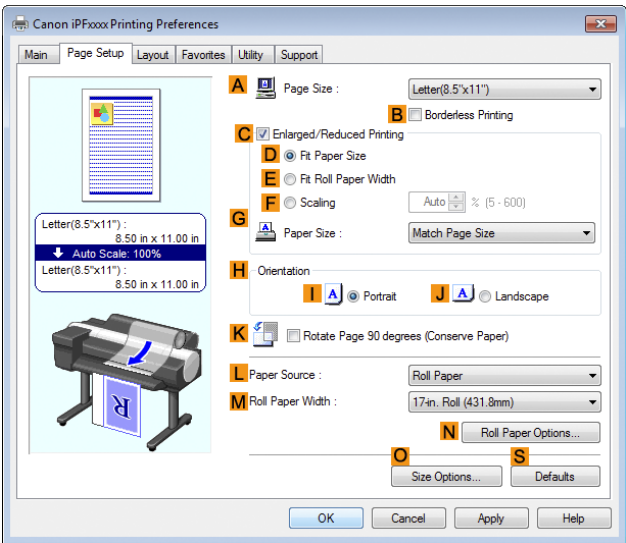

Adjustment Item	Description
D Cyan	Fine-tune color tones by adjusting the levels of Cyan, Magenta, and Yellow.
E Magenta	
F Yellow	
G Gray Tone	Adjust the gray tone. Choose cool black (tinged with blue), pure black (neutral), warm black (tinged with red), and so on.
H Brightness	Adjust the brightness of printed images while keeping the darkest and lightest portions intact.
I Contrast	Adjust the contrast of the darkest and lightest portions relative to each other. For soft gradation, decrease the contrast. For hard gradation, increase the contrast.
J Saturation	Adjust the level of color saturation, in a range from subdued to vivid.

• Click **Object Adjustment** to open the **Object Adjustment** dialog box, which allows you to select the color adjustment target from **Image**, **Graphics**, and **Text**.

9 Close the **Color Settings** dialog box.

10 Click the **Page Setup** tab to display the **Page Setup** sheet.

11 Confirm the settings of **A Page Size**, **L Paper Source**, and so on.

12 Confirm the print settings and print as desired.

- For tips on confirming print settings, see "Confirming Print Settings ." → P.154

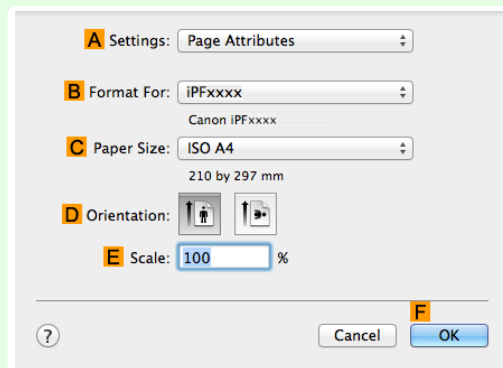

Fine-Tuning Colors of Photos and Images (Mac OS)

You can specify your own print settings instead of using the **Print Target** presets. This topic describes how to fine-tune the color tone of photos before printing.

1 This sets the **B Format for** and **C Paper Size**.

- The configuration method varies depending on the OS and application software you are using. If **Page Setup** is displayed in the application menu, the settings are configured by opening the **Page Attributes** dialog box from **Page Setup**.

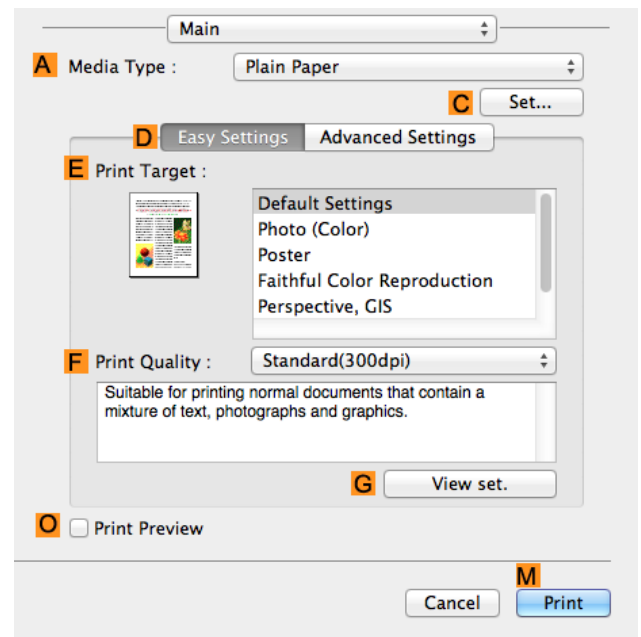

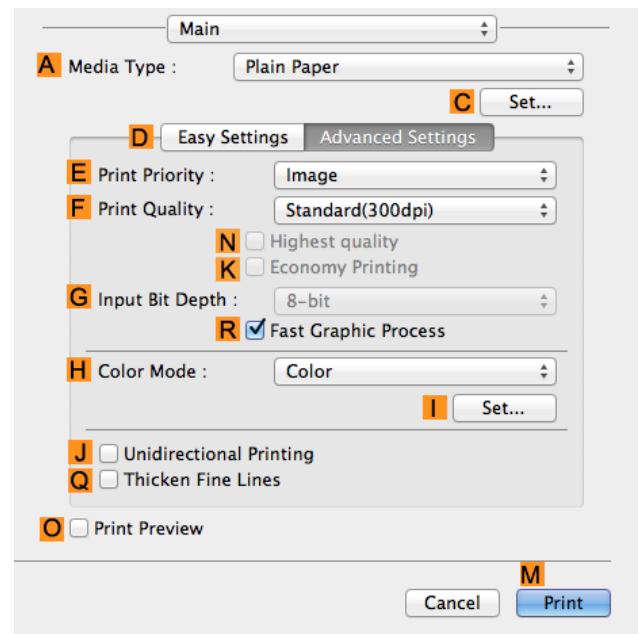

If it is not displayed, the settings are configured in the upper part of the printer driver displayed when you select **Print** from the application software menu.

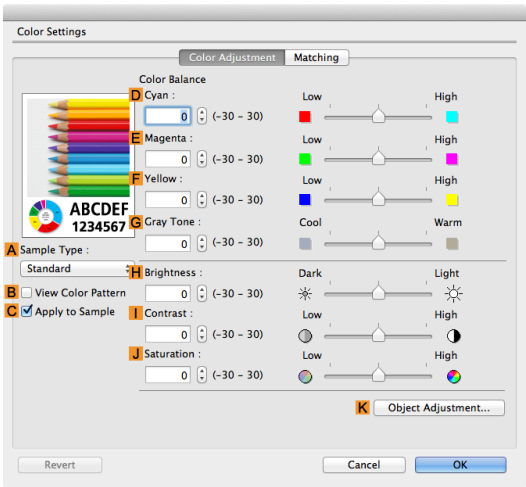

2 Select the printer in the **A Printer** list.

3 Choose the original size in the **F Paper Size** list.

4 If you configured the settings using the **Page Attributes** dialog box, click **F OK** to close the dialog box, and then select **Print** from the application software menu.

5Access the **Main** pane.**6**In the **A Media Type** list, select the type of paper that is loaded.**7**Click **D Advanced Settings** to switch the print mode.**8**Click **Color** in the **H Color Mode** list.

9 Click **Set** to display the **Color Settings** dialog box.

10 On the **Color Adjustment** pane, adjust the color tones, brightness, and so on as desired.

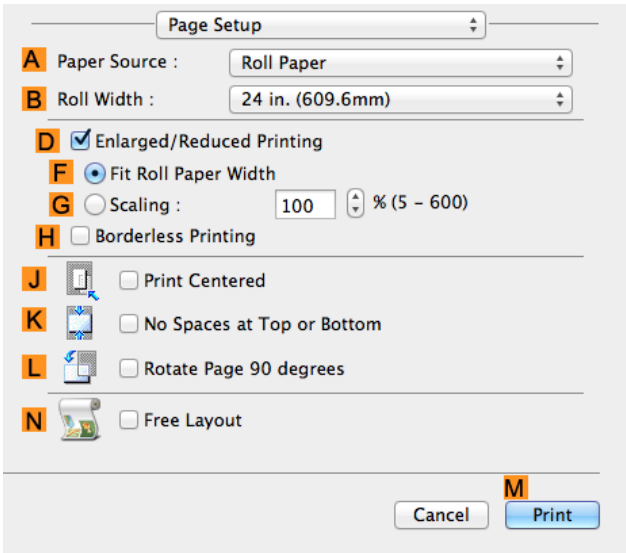

Adjustment Item	Description
D Cyan	Fine-tune color tones by adjusting the levels of Cyan, Magenta, and Yellow.
E Magenta	
F Yellow	
G Gray Tone	Adjust the gray tone. Choose cool black (tinged with blue), pure black (neutral), warm black (tinged with red), and so on.
H Brightness	Adjust the brightness of printed images while keeping the darkest and lightest portions intact.
I Contrast	Adjust the contrast of the darkest and lightest portions relative to each other. For soft gradation, decrease the contrast. For hard gradation, increase the contrast.
J Saturation	Adjust the level of color saturation, in a range from subdued to vivid.

- Click **Object Adjustment** to open the **Object Adjustment** dialog box, which allows you to select the color adjustment target from **Images**, **Graphics**, and **Text**.

11 Click **OK** to close the **Color Settings** dialog box.

12 Access the **Page Setup** pane.

13 Confirm the settings of **A Paper Source** and **C Page Size**.

14 Confirm the print settings, and then click **M Print** to start printing.

• For tips on confirming print settings, see "Confirming Print Settings ." →P.271

Giving Priority to Particular Graphic Elements and Colors for Printing

You can specify detailed print settings as desired for the quality level, colors, and other criteria.

• Advanced Settings

For printing results that appear just as expected for your original, you can specify which graphic elements and colors to prioritize for printing.

• **Easy Settings** are also available, providing convenient presets. To use the presets, simply choose the printing application.
For details on **Easy Settings**, refer to the following topics.

- **Printing Photos and Images** →P.33

• Print Priority

Choose the graphic elements that you want to emphasize for printing.

Print Priority (*1)	Description
Image	A setting for posters or other documents made up mainly of photos or images, or for emphasizing photos or images in printed documents.
Line Drawing/Text	Choose this setting for CAD drawings made up mainly of intricate lines, or to enhance the finishing of fine text. However, the quality may not be sufficient when printing photos or images that require a lot of color coverage. In this case, choose Image instead.

*1: Options suitable for the selected type of paper are listed under Print Priority.

• Print Quality

Choose the print quality.

The printing mode is determined by a combination of the print quality and resolution.

Print Quality (*1)	Description	Print Priority
Highest	A setting for printing at the highest resolution when quality is most important. Printing takes longer and consumes more ink than in other modes, but this mode offers superior printing quality.	Image
High	Choose this setting to print at high resolution when quality is most important. Printing takes longer and consumes more ink than in Standard or Fast modes, but this mode offers exceptional printing quality.	Image Line Drawing/Text
Standard	Choose this setting to print at standard resolution when quality and speed are both important. Printing takes less time than in Highest or High mode.	Image Line Drawing/Text
Fast	Choose this setting to print faster. Printing in draft mode can help you work more efficiently when checking layouts.	Image Line Drawing/Text

*1: Options suitable for the selected Print Priority are listed under Print Quality.

• Color Settings

Setting Item	Options	Description
Color Mode (*1)	Color Monochrome No color correction	Choose whether to print in color or monochrome. (See "Adjusting the Color in the Printer Driver.") → P.40
Color Adjustment (Images)	Cyan Magenta Yellow Gray Tone Brightness Contrast Saturation	You can adjust the levels of cyan, magenta, and yellow as well as the brightness, contrast, saturation, and gray tone separately for images, graphics, and text documents. If you choose Monochrome in Color Mode only Brightness and Contrast can be adjusted.
Color Adjustment (Graphics)		
Color Adjustment (Text)		
Color-Matching Modes	Driver Matching Mode ICC Matching Mode	Choose the color-matching mode. Other color-matching modes may be provided by the computer operating system, such as ICM and ColorSync.
Color-Matching Method (*2)	Auto Perceptual Saturation Colorimetric other	Choose the color-matching method. The available options vary depending on your selection in Color-Matching Mode .
Gamma	2.2 1.8	You can adjust the gradation of intermediate tones in an image. You can select only after Driver Matching Mode has been selected in Matching Mode .

*1: Options suitable for the selected **Print Priority** and **Media Type** are listed under **Color Mode** **Print Priority**.

*2: The order of options displayed varies depending on the operating system.

Enhancing printing quality

Setting Item	Description
Highest quality	This prints at the highest resolution. Printing takes longer and consumes more ink than in other modes, but this mode offers superior printing quality.
Thicken Fine Lines	Prints making fine lines appear thicker.
Unidirectional Printing	Prints by suppressing color variations and misaligned ruled lines. However, this takes more time than regular printing.
Economy Printing	When this mode is selected, the quality is diminished from that of regular printing, however less ink is consumed. Select this mode if you want to conserve ink when printing to check drawings, for example. Depending on the Media Type and Print Quality settings, this mode may not be available.

 To print at a higher level of quality, in the printer driver, choose **High** or **Highest** in **Print Quality**, and select the **Unidirectional Printing** check box.

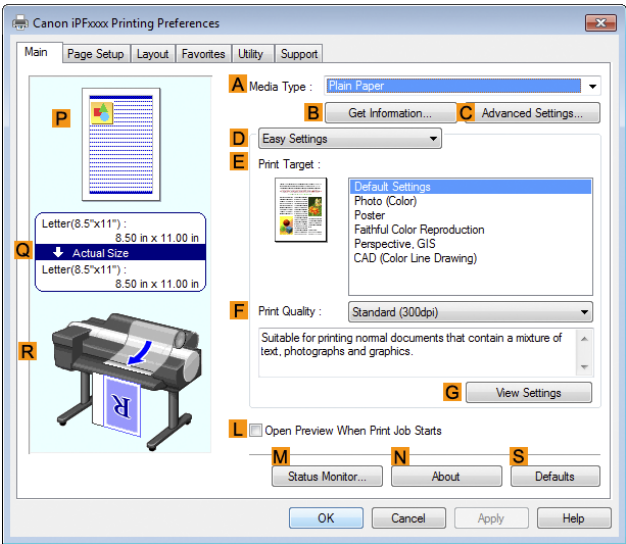

For instructions on specifying the print quality and color settings before printing, refer to the following topics, as appropriate for your computer and operating system.

- Choosing the Document Type and Printing Conditions (Windows) →P.49
- Choosing the Document Type and Printing Conditions (Mac OS) →P.51

Choosing the Document Type and Printing Conditions (Windows)

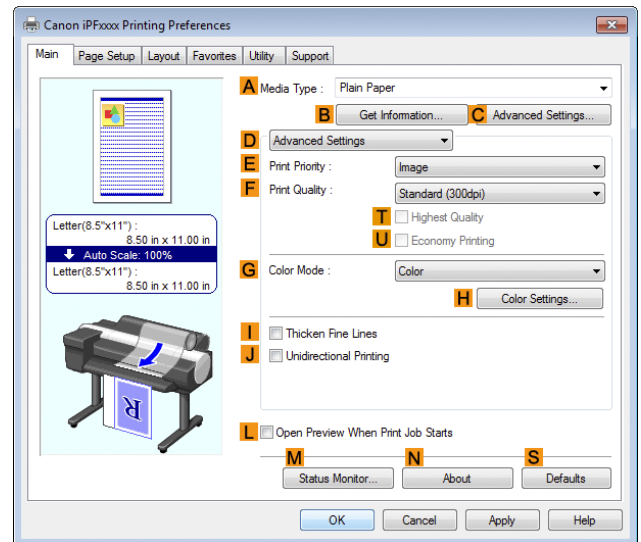

You can specify your own print settings instead of using the **Print Target** presets. This topic describes how print photographic images in monochrome.

- 1 Choose **Print** in the application menu.
- 2 Select the printer in the dialog box, and then display the printer driver dialog box. (See "Accessing the Printer Driver Dialog Box from Applications .") →P.157
- 3 Make sure the **Main** sheet is displayed.

- 4 In the **Media Type** list, select the type of paper that is loaded.

- 5** Click **D Advanced Settings** to switch the print mode.

- 6** Click **Image** in the **E Print Priority** list.

- 7** Click **High (600dpi)** in the **F Print Quality** list.

Note

- Options displayed in the **F Print Quality** list vary depending on the type of paper.

- 8** Click **Monochrome** in the **G Color Mode** list.

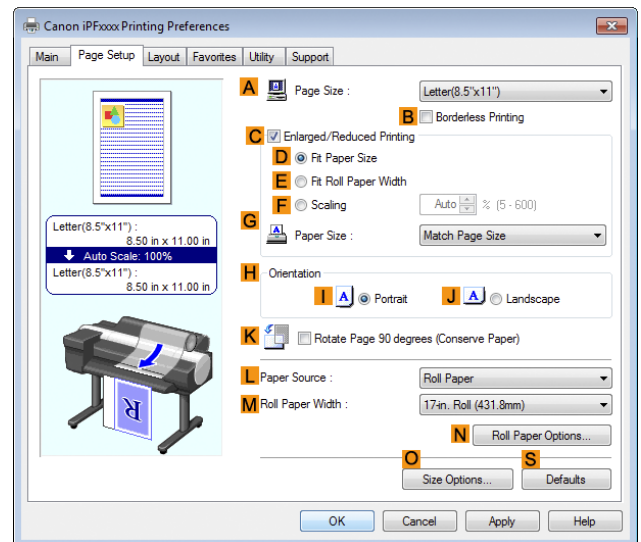

- 9** To adjust the brightness and contrast, click **H Color Settings**.

Note

- For instructions on adjusting brightness and contrast, see "Adjusting the Color in the Printer Driver." → P.40

- 10** Click the **Page Setup** tab to display the **Page Setup** sheet.

- 11** Confirm the settings of **A Page Size**, **L Paper Source**, and so on.

12 Confirm the print settings and print as desired.

- For tips on confirming print settings, see "Confirming Print Settings ." → P.154

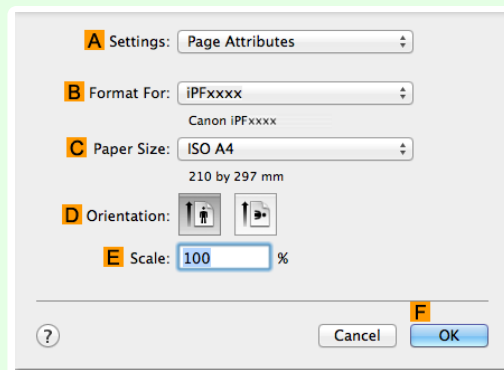

Choosing the Document Type and Printing Conditions (Mac OS)

You can specify your own print settings instead of using the **Print Target** presets. This topic describes how print photographic images in monochrome.

1 Choose **Page Setup** from the application menu to display the **Page Attributes** dialog box.

- The configuration method varies depending on the OS and application software you are using. If **Page Setup** is displayed in the application menu, the settings are configured by opening the **Page Attributes** dialog box from **Page Setup**.

If it is not displayed, the settings are configured in the upper part of the printer driver displayed when you select **Print** from the application software menu.

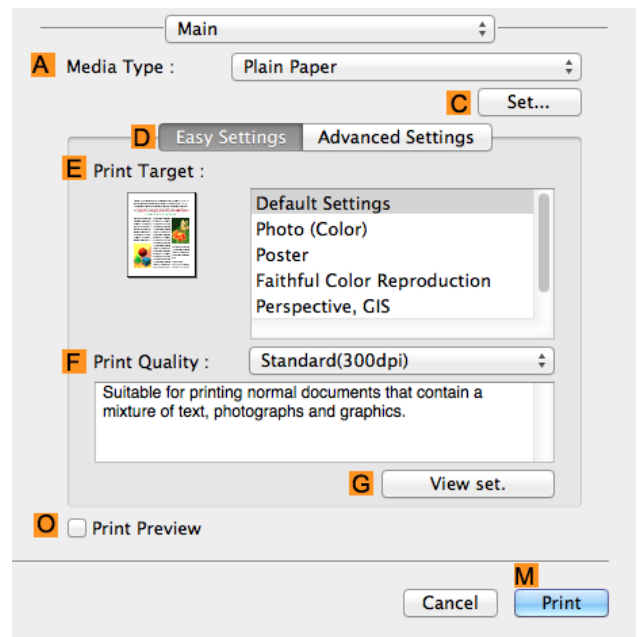

2 Select the printer in the **B Format for** list.

3 Choose the original size in the **C Paper Size** list.

4 Click **OK** to close the dialog box.

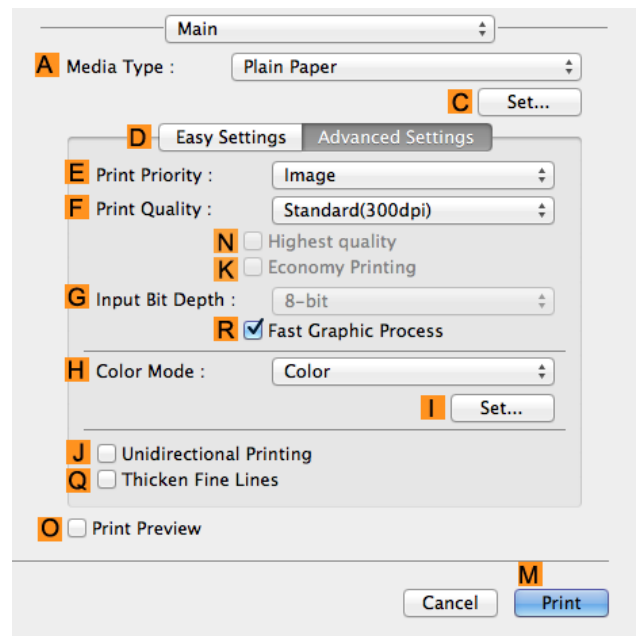

5 In the application menu, choose **Print**.

6 Access the **Main** pane.

7 In the **A Media Type** list, select the type of paper that is loaded.

8 Click **D Advanced Settings** to switch the print mode.

9 Click **Image** in the **E Print Priority** list.

10 Click **High (600dpi)** in the **F Print Quality** list.

Note

- Options displayed in the **F Print Quality** list vary depending on the paper type.

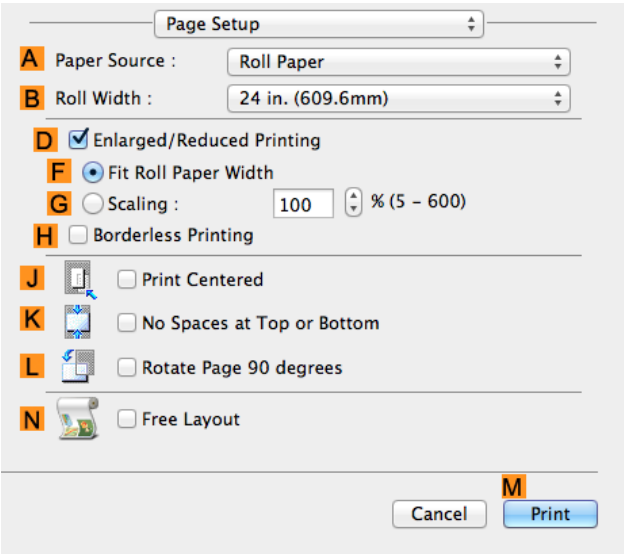

11 Click **Monochrome** in the **H Color Mode** list.

12 To adjust the brightness and contrast, click **I Set**.

Note

- For instructions on adjusting brightness and contrast, see "Adjusting the Color in the Printer Driver." →P.40

13 Access the **Page Setup** pane.

14 Confirm the settings of **A Paper Source** and **C Page Size**.

15 Confirm the print settings, and then click **M Print** to start printing.

Note

- For tips on confirming print settings, see "Confirming Print Settings ." →P.271

Printing enlargements or reductions

Resizing Originals to Match the Paper Size	54
Resizing Originals to Match the Paper Size (Windows)	54

Resizing Originals by Entering a Scaling Value (Windows)	61
Resizing Originals by Entering a Scaling Value (Mac OS)	63

Resizing Originals to Match the Paper Size

You can freely adjust the size of originals by enlarging or reducing them as desired.

- **Enlarged/Reduced Printing**
Enlarge or reduce the original in the printer driver, as desired.
- **Fit Paper Size**
Enlarge or reduce the original to match the size of the paper you are using.

For instructions on printing with resizing to fit the paper size, refer to the following topics.

- **Resizing Originals to Match the Paper Size (Windows)** →P.54

Note

- To print with resizing to fit the paper size on Mac OS, use **Scale to fit paper size** in the **Paper Handling** panel provided by the OS.
For more information, see the Mac OS User Manual.

- For better printing results when enlarging photos from a digital camera in TIFF or JPEG format, use an image-editing application software such as Adobe Photoshop to specify an image resolution of 150 dpi or more at actual size.

Resizing Originals to Match the Paper Size (Windows)

This topic describes how to enlarge originals before printing to match the paper size, based on the following example.

- Document: Any Type

- Page size: A4 (210.0×297.0 mm)/Letter (8.3 × 11.7 in)
- Paper: Roll
- Paper type: Plain Paper
- Roll paper width: A2/A3 roll (420.0 mm [16.5 in])

- 1 Choose **Print** in the application menu.
- 2 Select the printer in the dialog box, and then open the printer driver dialog box. (See "Accessing the Printer Driver Dialog Box from Applications .") → P.157
- 3 Make sure the **Main** sheet is displayed.

- 4 In the **A Media Type** list, select the type of paper that is loaded. In this case, click Plain Paper.
- 5 Select the printing application in the **E Print Target** list.
- 6 Click the **Page Setup** tab to display the **Page Setup** sheet.

- 7 Select and click a roll paper in the **L Paper Source** list.
- 8 Select the width of the loaded roll in the **M Roll Paper Width** list—in this case, **ISO A2/A3 Roll (420.0mm)**.
- 9 In the **A Page Size** list, click the size of the original as specified in the application. In this case, click **ISO A4**.

- 10** Select the **C Enlarged/Reduced Printing** check box.
- 11** Select the **D Fit Paper Size** check box.
- 12** Click **ISO A3** in the **G Paper Size** list.
- 13** Confirm the print settings and print as desired.

Note

- For tips on confirming print settings, see "Confirming Print Settings ." [→P.154](#)

Resizing Originals to Fit the Roll Width

You can freely adjust the size of originals by enlarging or reducing them as desired.

- Enlarged/Reduced Printing**

Enlarge or reduce the original in the printer driver, as desired.

- Fit Roll Paper Width**

Enlarge or reduce the original as a whole to match the roll paper width, as desired.

For instructions on resizing originals to match the roll paper width, refer to the following topics, as appropriate for your computer and operating system.

- Resizing Originals to Fit the Roll Width (Windows)** [→P.56](#)
- Resizing Originals to Fit the Roll Width (Mac OS)** [→P.58](#)

Note

- For better printing results when enlarging photos from a digital camera in TIFF or JPEG format, use an image-editing application software such as Adobe Photoshop to specify an image resolution of 150 dpi or more at actual size.

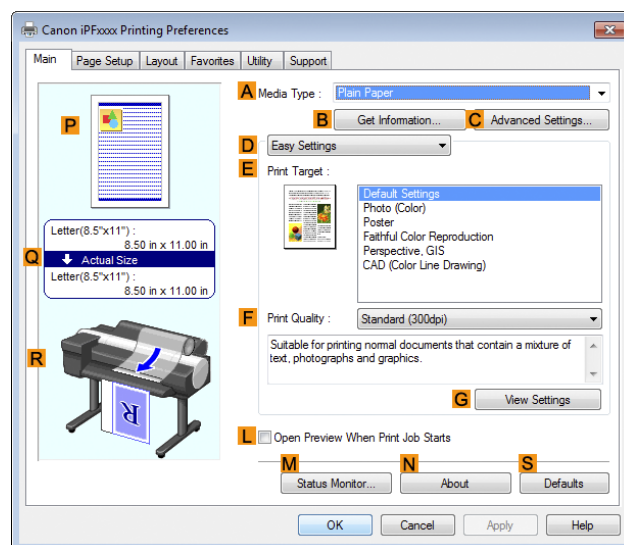

Resizing Originals to Fit the Roll Width (Windows)

This topic describes how to enlarge originals before printing to match the roll width, based on the following example.

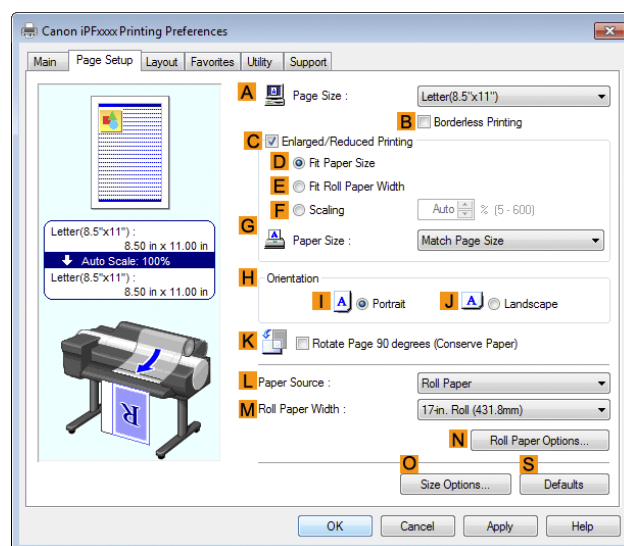

- Document: Any type
- Page size: A4 (210.0×297.0 mm)/Letter (8.3 × 11.7 in)
- Paper: Roll
- Paper type: Plain Paper
- Roll paper width: 16 inches (406.4 mm)

- 1** Choose **Print** in the application menu.

- 2 Select the printer in the dialog box, and then display the printer driver dialog box. (See "Accessing the Printer Driver Dialog Box from Applications .") → P.157
- 3 Make sure the **Main** sheet is displayed.

- 4 In the **A Media Type** list, select the type of paper that is loaded. In this case, click Plain Paper.
- 5 Select the printing application in the **E Print Target** list.
- 6 Click the **Page Setup** tab to display the **Page Setup** sheet.

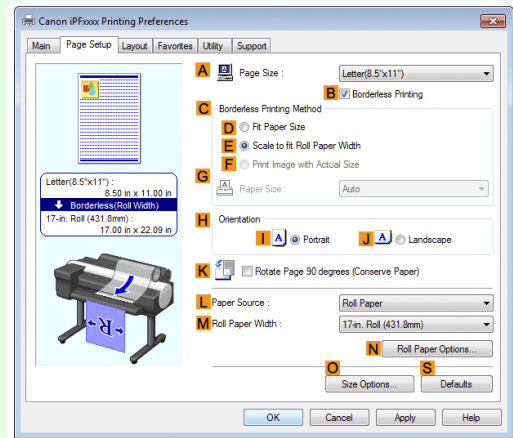

- 7 Select and click a roll paper in the **L Paper Source** list.
- 8 In the **A Page Size** list, click the size of the original as specified in the application. In this case, click **ISO A4** or **Letter (8.5"x11")**.

9 Select the **C Enlarged/Reduced Printing** check box.

- If the **C Enlarged/Reduced Printing** check box is not displayed on the **Page Setup** sheet, clear the **B Borderless Printing** check box.

10 Click **E Fit Roll Paper Width**.

- After you click **E Fit Roll Paper Width**, the **Information** dialog box is displayed. Select the width of the loaded roll in the **Roll Paper Width** list and click **OK**.
- Make sure the roll paper width you specify matches the width of the loaded roll.

11 Confirm the print settings and print as desired.

- For tips on confirming print settings, see "Confirming Print Settings ." → P.154

Resizing Originals to Fit the Roll Width (Mac OS)

This topic describes how to enlarge originals before printing to match the roll width, based on the following example.

- Document: Any Type
- Page size: A4 (210.0 × 297.0 mm [8.3 × 11.7 in])
- Paper: Roll paper
- Paper type: Plain Paper
- Roll paper width: 16 inches (406.4 mm)

1 This sets the **B Format for** and **C Paper Size**.

- The configuration method varies depending on the OS and application software you are using. If **Page Setup** is displayed in the application menu, the settings are configured by opening the **Page Attributes** dialog box from **Page Setup**.

If it is not displayed, the settings are configured in the upper part of the printer driver displayed when you select **Print** from the application software menu.

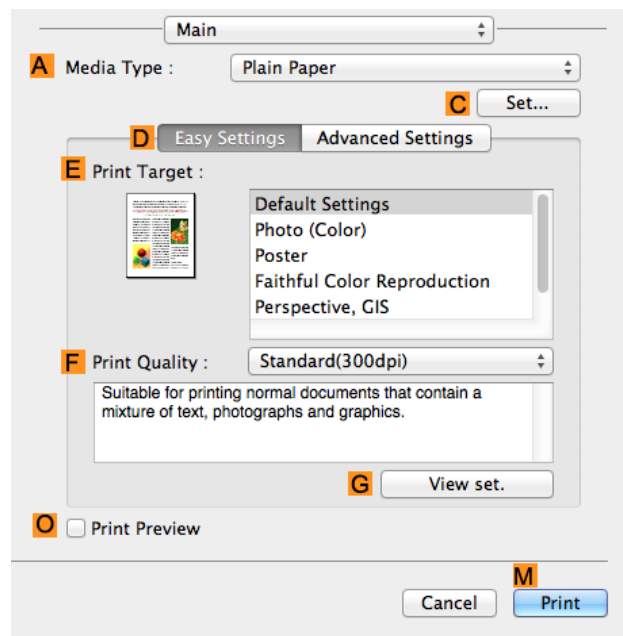

2 Select the printer in the **A Printer** list.

3 In the **F Paper Size** list, click the size of the original. In this case, click **ISO A4**.

4 If you configured the settings using the **Page Attributes** dialog box, click **F OK** to close the dialog box, and then select **Print** from the application software menu.

5 Access the **Main** pane.

6 In the **A Media Type** list, select the type of paper that is loaded. In this case, click Plain Paper.

7 Make your selection in the **E Print Target** list.

8 Make your selection in the **F Print Quality** list.

9

Access the **Page Setup** pane.

10

Select and click a roll paper in the **A Paper Source** list.

11

Select the paper width of the roll loaded in the printer for **B Roll Width**. In this case, **16 in. (406.4mm)** is selected.

12

Make sure the **C Page Size** setting matches the original size as selected in **C Paper Size** in the **Page Attributes** dialog box—in this case, **ISO A4**.

13

Select the **D Enlarged/Reduced Printing** check box.

14

Click **F Fit Roll Paper Width**.

15

Confirm the print settings, and then click **M Print** to start printing.

Note

- For tips on confirming print settings, see "Confirming Print Settings ." → P.271

Resizing Originals by Entering a Scaling Value

You can freely adjust the size of originals by enlarging or reducing them as desired.

• Enlarged/Reduced Printing

Enlarge or reduce the original in the printer driver, as desired.

• Scaling

Enlarge or reduce originals by a particular amount, as desired.

For instructions on entering a scaling value to resize originals, refer to the following topics, as appropriate for your computer and operating system.

- **Resizing Originals by Entering a Scaling Value (Windows)** → P.61
- **Resizing Originals by Entering a Scaling Value (Mac OS)** → P.63

Note

- For better printing results when enlarging photos from a digital camera in TIFF or JPEG format, use an image-editing application software such as Adobe Photoshop to specify an image resolution of 150 dpi or more at actual size.

Resizing Originals by Entering a Scaling Value (Windows)

This topic describes how to enlarge originals before printing by entering a scaling value, based on the following example.

- Document: Any Type
- Page size: A4 (210.0 × 297.0 mm [8.3 × 11.7 in])
- Paper: Roll paper
- Paper type: Plain Paper
- Roll paper width: A2/A3 roll (420.0 mm [16.5 in])

Important

- In borderless printing, you cannot resize originals by entering a scaling value.

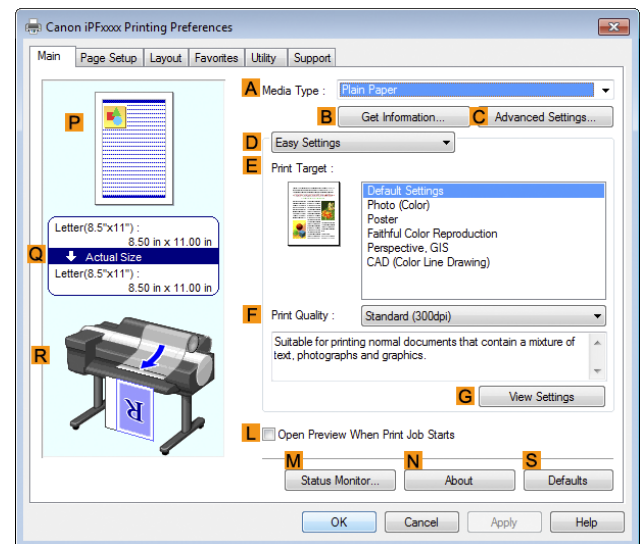

1

Choose **Print** in the application menu.

2

Select the printer in the dialog box, and then display the printer driver dialog box. (See "Accessing the Printer Driver Dialog Box from Applications .") → P.157

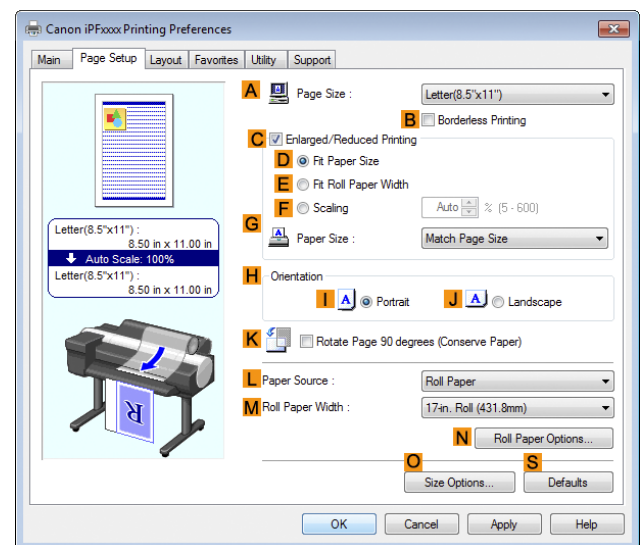

- 3** Make sure the **Main** sheet is displayed.

- 4** In the **A Media Type** list, select the type of paper that is loaded. In this case, click Plain Paper.

- 5** Select the printing application in the **E Print Target** list.

- 6** Click the **Page Setup** tab to display the **Page Setup** sheet.

- 7** Select and click a roll paper in the **L Paper Source** list.

- 8** Select the width of the loaded roll in the **M Roll Paper Width** list—in this case, **ISO A2/A3 Roll (420.0mm)**.

- 9** In the **A Page Size** list, click the size of the original as specified in the application. In this case, click **ISO A4**.

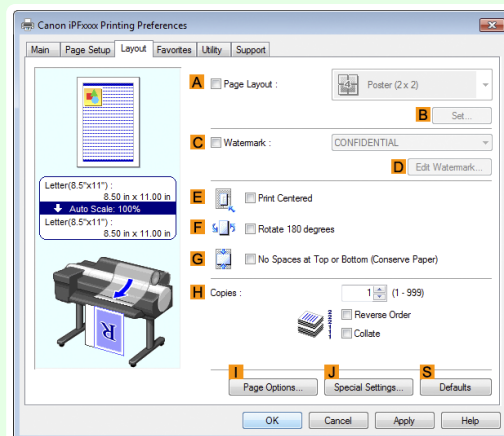

- 10** Select the **C Enlarged/Reduced Printing** check box.

- 11** Click **ISO A4** in the **G Paper Size** list.

12 Click **F Scaling** and enter **120**.

Note

- You can specify enlargement that exceeds the paper size, but in this case, the portions off the bottom and right edges of the paper will not be printed.
- If the original size after enlargement or reduction is smaller than the paper size, the original is printed in the upper-left corner. In this case, you can center originals by selecting **E Print Centered** on the **Layout** sheet.

**13** Confirm the print settings and print as desired.

Note

- For tips on confirming print settings, see "Confirming Print Settings ." → P.154

Resizing Originals by Entering a Scaling Value (Mac OS)

This topic describes how to enlarge originals before printing by entering a scaling value, based on the following example.

- Document: Any Type
- Page size: A4 (210.0 × 297.0 mm [8.3 × 11.7 in])
- Paper: Roll paper
- Paper type: Plain Paper
- Roll paper width: A2/A3 roll (420.0 mm [16.5 in])

1 This sets the **B Format for** and **C Paper Size**.

- The configuration method varies depending on the OS and application software you are using. If **Page Setup** is displayed in the application menu, the settings are configured by opening the **Page Attributes** dialog box from **Page Setup**.

If it is not displayed, the settings are configured in the upper part of the printer driver displayed when you select **Print** from the application software menu.

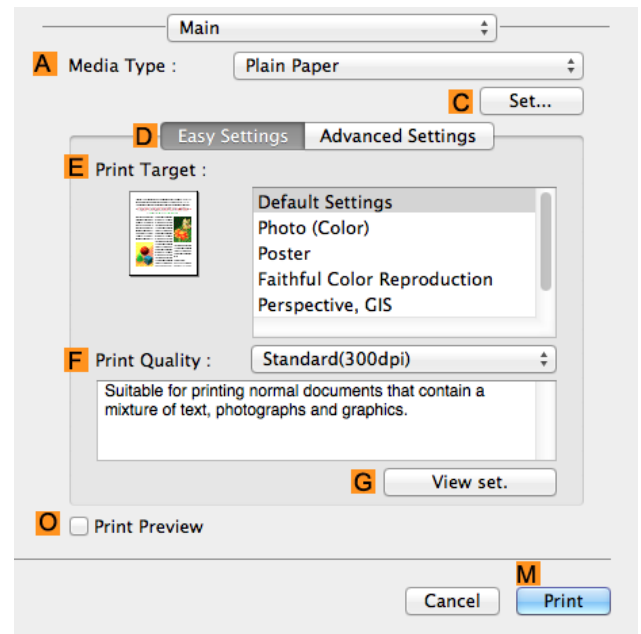

2 Select the printer in the **A Printer** list.

3 In the **F Paper Size** list, click the size of the original. In this case, click **ISO A4**.

4 If you configured the settings using the **Page Attributes** dialog box, click **F OK** to close the dialog box, and then select **Print** from the application software menu.

5 Access the **Main** pane.

6 In the **A Media Type** list, select the type of paper that is loaded. In this case, click Plain Paper.

7 Make your selection in the **E Print Target** list.

8 Make your selection in the **F Print Quality** list.

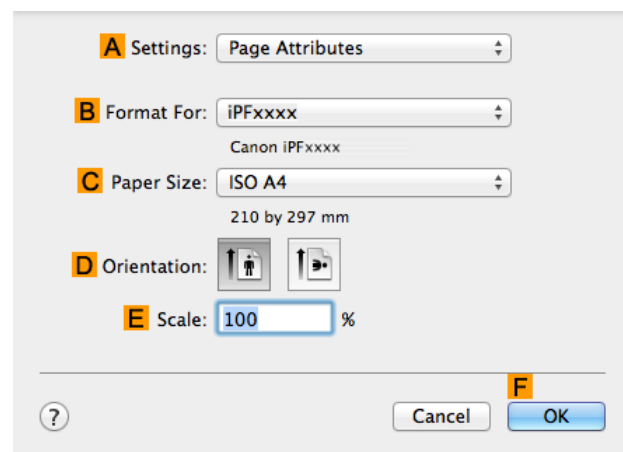

9 Access the **Page Setup** pane.

10 Select and click a roll paper in the **A Paper Source** list.

11 Select the paper width of the roll loaded in the printer for **B Roll Width**. In this case, **ISO A2/A3 (420.0mm)** is selected.

12 Make sure the **C Page Size** setting matches the original size as selected in **C Paper Size** in the **Page Attributes** dialog box—in this case, **ISO A4**.

13 Select the **D Enlarged/Reduced Printing** check box.

14 Click **G Scaling** and enter **120**.

Note

- You can specify enlargement that exceeds the paper size, but in this case, the portion off the edge of the paper will not be printed.
- If the original size after enlargement or reduction is smaller than the paper size, the original is printed in the upper-left corner. In this case, you can center originals by selecting the **J Print Centered** check box.

15 Confirm the print settings, and then click **M Print** to start printing.

Note

- For tips on confirming print settings, see "Confirming Print Settings ." →P.271

Printing at full size

Printing on Oversize Paper	66
Printing at Full Size (Windows)	67
Printing at Full Size (Mac OS)	68
Borderless Printing at Actual Size	70
Borderless Printing at Actual Size (Windows)	72
Borderless Printing at Actual Size (Mac OS)	74

Printing on Oversize Paper

You can print all areas of the original at full scale by selecting the paper size from **Oversize** (sizes where the margins needed for printer operation have been added to the page size). We recommend when printing with a focus on image.

- If you prepare an original for printing without a margin and print it on paper of regular size, the image near the edge will not be printed.

• Oversize

When printing on standard paper sizes, printing is performed by taking the margins necessary for printer operations inside the region of the original. (See "Print Area.") →P.661 For example, printing the A4 size (210 x 297 mm) original shown in Figure (b) gives the result as shown in Figure (a).

However, if **Oversize** paper is selected, printing is performed by taking the margins necessary for printer operations outside of the region of the original to give the result as shown in Figure (c).

The A4 size print as shown in Figure (b) can then be obtained by trimming the margins from the periphery after printing.

Important

- When printing on **Oversize** paper, load paper larger than the page size—a size that includes the margin required by the printer.
 - Sheets: Load paper that is at least 6 mm (0.24 in) wider and 26 mm (1 in) higher than the page size
 - Rolls: Load paper that is at least 6 mm (0.24 in) wider and 6 mm (0.24 in) higher than the page size

Note

- Paper larger than the maximum size supported by the printer cannot be used as paper for oversized printing. (See "Paper Sizes.") →P.352
- Oversized printing (selecting **Oversize** in **Page Size**) is only available in Windows.
- If you are performing oversized printing in Mac OS, you need to configure printing on non-standard paper sizes.
- To specify a non-standard paper size in oversized printing, register the paper size as a Custom Paper Size. Oversized printing is not available with **Custom Size**. (See "Printing on Non-Standard Paper Sizes.") →P.96

For instructions on oversized printing, refer to the following topics, as appropriate for your computer and operating system.

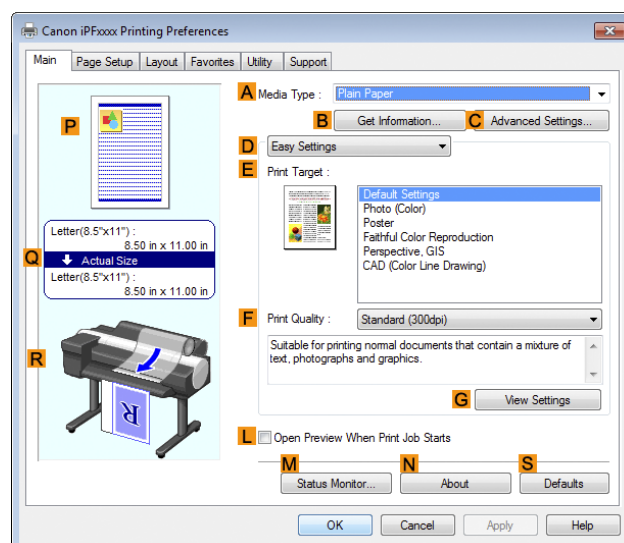

- **Printing at Full Size (Windows)** → P.67
- **Printing at Full Size (Mac OS)** → P.68

Printing at Full Size (Windows)

This topic describes how to print at full size based on the following example. (Oversized Printing)

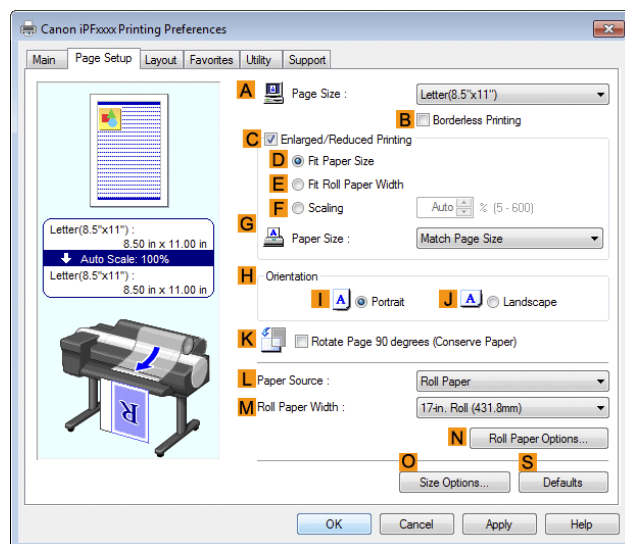

- Document: Any Type
- Page size: A4 (210.0×297.0 mm)/Letter (8.3 × 11.7 in)
- Paper: Roll
- Paper type: Plain Paper
- Roll paper width: A2/A3 roll (420.0 mm [16.5 in])

- 1 Choose **Print** in the application menu.
- 2 Select the printer in the dialog box, and then display the printer driver dialog box. (See "Accessing the Printer Driver Dialog Box from Applications .") → P.157
- 3 Make sure the **Main** sheet is displayed.

- 4 In the **A Media Type** list, select the type of paper that is loaded. In this case, click Plain Paper.

- 5** Click the **Page Setup** tab to display the **Page Setup** sheet.

- 6** Click **Size Options** to display the **Paper Size Options** dialog box.
- 7** In the **Paper Size Options** dialog box, select the **Oversize** check box in **Display Series**.
- 8** Click **OK** to close the **Paper Size Options** dialog box.
- 9** Click **Oversize - ISO A4** in the **Page Size** list.
- 10** Select and click a roll paper in the **Paper Source** list.
- 11** Select the width of the loaded roll in the **Roll Paper Width** list—in this case, **ISO A2/A3 Roll (420.0mm)**.
- 12** Confirm the print settings and print as desired.

Note

- For tips on confirming print settings, see "Confirming Print Settings ." → P.154

Printing at Full Size (Mac OS)

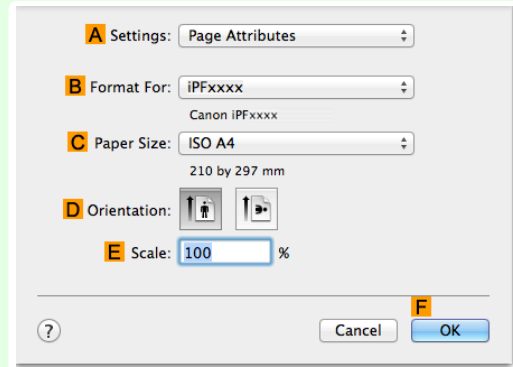

This topic describes how to print at full size based on the following example. (Oversized Printing)

- Document: Any Type
- Page size: A4 (210.0 × 297.0 mm [8.3 × 11.7 in])
- Paper: Roll paper
- Paper type: Plain Paper
- Roll paper width: A2/A3 roll (420.0 mm [16.5 in])

1 This sets the **B Format for** and **C Paper Size**.

- The configuration method varies depending on the OS and application software you are using. If **Page Setup** is displayed in the application menu, the settings are configured by opening the **Page Attributes** dialog box from **Page Setup**.

If it is not displayed, the settings are configured in the upper part of the printer driver displayed when you select **Print** from the application software menu.

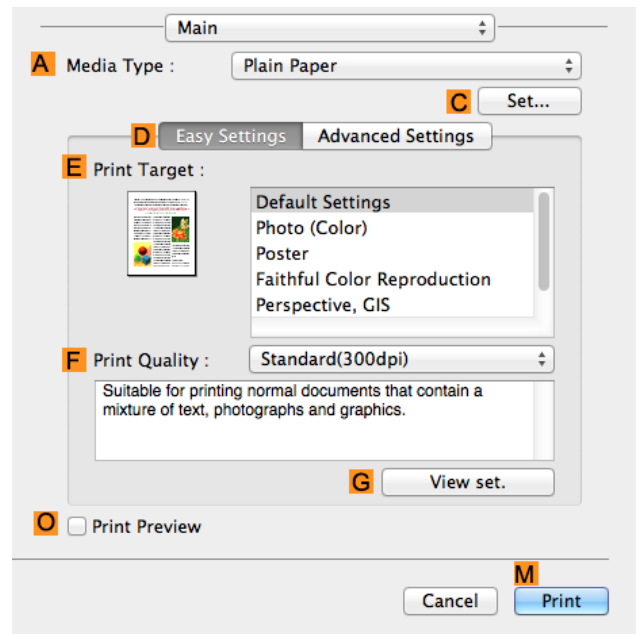

2 Select the printer in the **A Printer** list.

3 In **F Paper Size**, click the size of the original. In this case, click **ISO A4 - Oversize**.

4 If you configured the settings using the **Page Attributes** dialog box, click **F OK** to close the dialog box, and then select **Print** from the application software menu.

5 Access the **Main** pane.

6 In the **A Media Type** list, select the type of paper that is loaded. In this case, click Plain Paper.

7 Make your selection in the **E Print Target** list.

8 Make your selection in the **F Print Quality** list.

9 Access the **Page Setup** pane.

10 Select and click a roll paper in the **A Paper Source** list.

11 Select the paper width of the roll loaded in the printer for **B Roll Width**. In this case, **ISO A2/A3 (420.0mm)** is selected.

12 Make sure **C Page Size** shows the original size as specified in **C Paper Size** in the **Page Attributes** dialog box—in this case, **ISO A4 - Oversize**.

13 Confirm the print settings, and then click **M Print** to start printing.

Note

- For tips on confirming print settings, see "Confirming Print Settings ." →P.271

Borderless Printing at Actual Size

Take advantage of borderless printing to print documents such as posters (made up mainly of photos or images) without a surrounding margin, or border.

In regular printing, a margin required by the printer is added around the original. With borderless printing, you can print documents without the margin, so that the printed image covers the entire surface of the paper.

- Borderless printing is only available with rolls.
- Paper you can use for borderless printing is restricted to particular types of paper and rolls of particular widths. (See "Displaying the Paper Reference Guide.") →P.356

- Although it normally prints borderless on the top, bottom, left, and right (4-edge borderless), in the following cases, it becomes borderless only on the left and right (2-edge borderless) because the top and bottom of the printed image are not automatically cut.
 - When paper where the borderless printing is described as two edges only in the **Paper Reference Guide** (paper where printed image areas cannot be cut cleanly) is selected
 - When the following settings are made in the printer control panel
 - Cutting Mode** is **Manual**
 - CutDustReduct.** is **On**
 - When auto cut is configured as not performed in the printer driver

- When printing without borders, be certain to set the blue switch on the platen to the ● side. If the switch is set incorrectly, print quality may deteriorate. (See "Setting the Blue Switch on the Platen.") → P.626
- Borderless printing is not possible if details such as crop marks and margins are included as data on the periphery of the original.
- If the length of the image to print is short, then since the roll paper is fed out to a prescribed length before cutting in order to prevent cutting problems and ejection problems, the trailing edge of the roll paper might not be printed borderless.
- If you use an A1 or A2 roll for borderless printing, insert the provided Spacer for Borderless Printing on the Roll Holder. (See "Loading Rolls on the Roll Holder.") → P.363
If you do not attach the Spacer for Borderless Printing, the Platen may be soiled from borderless printing.
- These features cannot be used in combination with borderless printing: special page layouts, centering originals, and printing cut lines on rolls.
- If **Fit Paper Size** or **Print Image with Actual Size** (Windows only) is selected while performing borderless printing, **Rotate Page 90 degrees (Conserve Paper)** cannot be selected. Note that if borderless printing is possible, then even if the original is rotated 90 degrees, it will be printed by automatically rotating the page by 90 degrees.

Choose the method of borderless printing that suits the original, as desired.

• Print Image with Actual Size

Prints originals at actual size, without enlarging or reducing them. We recommend when focusing on image quality. You should create the original at a size larger by 3 mm on each side than the paper size.

Note

- Not all page sizes are available.
- When performing borderless printing without using **Print Image with Actual Size**, the image deteriorates slightly because the image is automatically enlarged.

For instructions on borderless printing of photos and images at actual size, refer to the following topics, as appropriate for your computer and operating system.

- Borderless Printing at Actual Size (Windows)** → P.72

- **Borderless Printing at Actual Size (Mac OS)** →P.74

Borderless Printing at Actual Size (Windows)

This topic describes how to print borderlessly at actual size based on the following example.

If you use an A1 or A2 roll for borderless printing, insert the provided Spacer for Borderless Printing on the Roll Holder. (See "Loading Rolls on the Roll Holder.") →P.363

If you do not attach the Spacer for Borderless Printing, the Platen may be soiled from borderless printing.

Important

- When borderless printing is used, the edge of the paper is cut during printing. Thus, ink density may be uneven at the edges. If you require higher image quality, select **No** from the **Automatic Cutting** list in the **Roll Paper Options** dialog box. In this case, the paper can be printed without borders on the left and right sides only. Once printed and cut, please cut the upper and lower bands with scissors.

- Document: Any type
- Page size: 10×12 inches (254.0×304.8 mm)
- Paper: Roll
- Paper type: **Canon Heavyweight Coated Paper**
- Roll paper width: 10 inches (254.0 mm)

- 1 Create the original in the source application 3 mm (0.12 in) larger on each side than 254.0×304.8 mm (10 × 12 in) —that is, 260.0×310.8 mm (10.2 × 12.2 in)

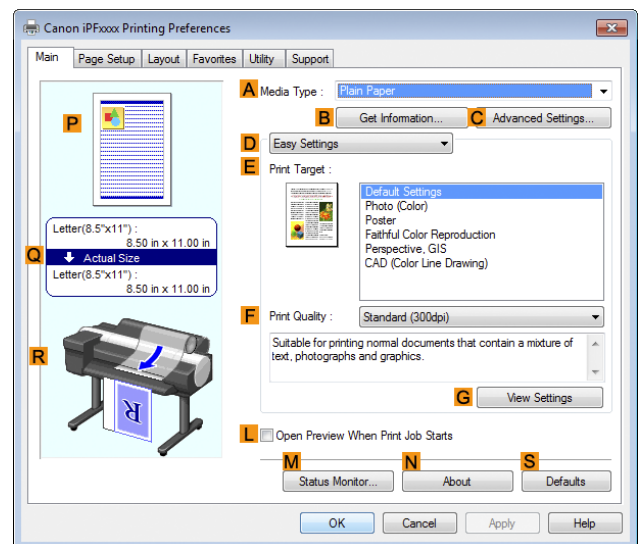

Note

- If you can specify the margin, as in Microsoft Word, set the margin at 0 mm. For instructions on specifying the margin, refer to the software documentation.
- The extra 3 mm (0.12 in) on each side will not be printed. Create the original so that it fits inside the paper area to be printed on.

- 2 Choose **Print** in the application menu.

- 3 Select the printer in the dialog box, and then display the printer driver dialog box. (See "Accessing the Printer Driver Dialog Box from Applications.") →P.157

- 4 Make sure the **Main** sheet is displayed.

- 5 In the **A Media Type** list, select the type of paper that is loaded. In this case, click **Canon Heavyweight Coated Paper**.

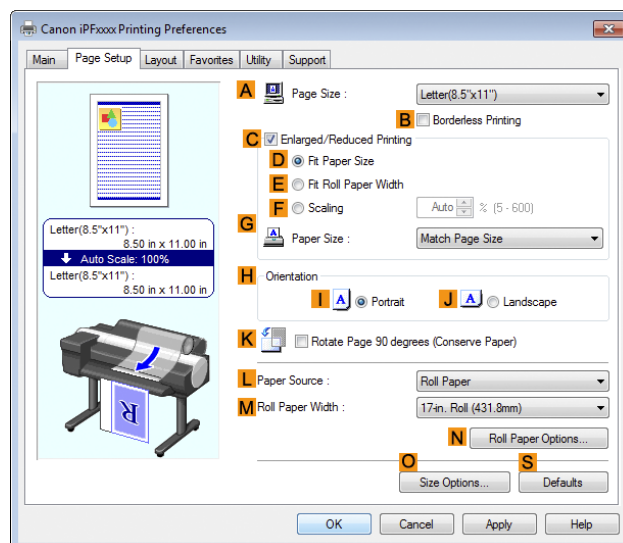

6 Select the print target in the **E Print Target** list.

Important

- When you are using paper that takes longer for ink to adhere for borderless printing and the Cutter Unit touches printing surfaces that are not dry yet, it may damage the paper or the edge of the document that is cut, depending on frequency of use. In this kind of situation, change the ink drying time using the following procedure.
- Click **Advanced Settings** in **Media Type**.
- Select an ink drying time in the list for the **Between Pages** setting of **Drying Time**.

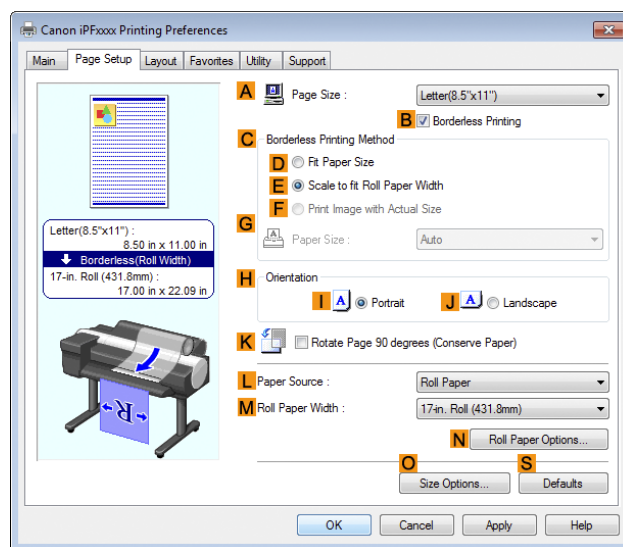

7 Click the **Page Setup** tab to display the **Page Setup** sheet.

8 In the **A Page Size** list, click the size of the original as specified in the source application. In this case, click **10"x12"**.

9 Select and click a roll paper in the **L Paper Source** list.

10 Select the **B Borderless Printing** check box to display the **Information** dialog box.

11 Select the width of the loaded roll in the **Roll Paper Width** list—in this case, click **10-in. Roll (254.0mm)**.

12 Click **OK** to close the **Information** dialog box.

13 In **C Borderless Printing Method**, click **F Print Image with Actual Size**.

14 Confirm the print settings and print as desired.

Note

- For tips on confirming print settings, see "Confirming Print Settings ." →P.154

Borderless Printing at Actual Size (Mac OS)

This topic describes how to print borderlessly at actual size based on the following example.

If you use an A1 or A2 roll for borderless printing, insert the provided Spacer for Borderless Printing on the Roll Holder. (See "Loading Rolls on the Roll Holder.") →P.363

The platen may be soiled from borderless printing if you do not attach it.

Important

- When borderless printing is used, the edge of the paper is cut during printing. Thus, ink density may be uneven at the edges. If you require higher image quality, select **No** from the **Automatic Cutting** list in the **Paper Detailed Settings** dialog box. In this case, the paper can be printed without borders on the left and right sides only. Once printed and cut, please cut the upper and lower bands with scissors.

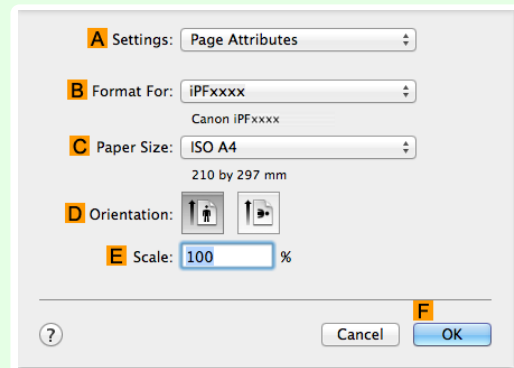

- Document: Any type
- Page size: 10 × 12 inches (254.0×304.8 mm)–Borderless
- Paper: Roll
- Paper type: **Canon Heavyweight Coated Paper**
- Roll paper width: 10 inches (254.0 mm)

1 Choose **Page Setup** from the application menu to display the **Page Attributes** dialog box.

Note

- The configuration method varies depending on the OS and application software you are using. If **Page Setup** is displayed in the application menu, the settings are configured by opening the **Page Attributes** dialog box from **Page Setup**.

If it is not displayed, the settings are configured in the upper part of the printer driver displayed when you select **Print** from the application software menu.

2 Select the printer in the **B Format for** list.

3 In the **C Paper Size** list, choose a paper size supported for borderless printing. Here, click **10"x12" - Borderless**.

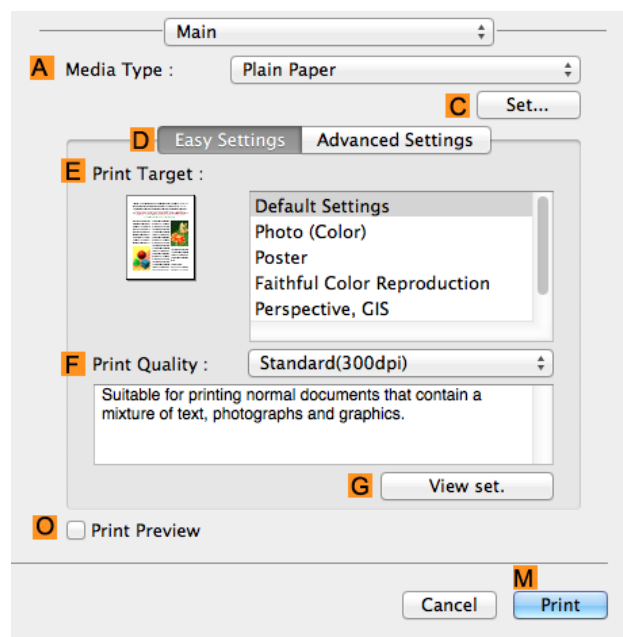

Note

- Paper sizes supported for borderless printing are indicated by **-Borderless**.

4 Click **F OK** to close the dialog box.

- 5** In the application, create an original that takes up the entire space of the paper size.
- 6** Choose **Print** in the application menu.
- 7** Access the **Main** pane.

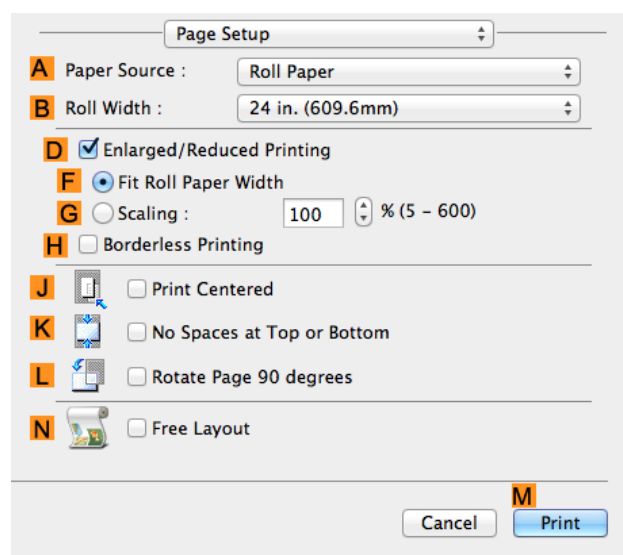

- 8** In the **A Media Type** list, select the type of paper that is loaded. In this case, click **Canon Heavyweight Coated Paper**.
- 9** Select the print target in the **E Print Target** list.

Important

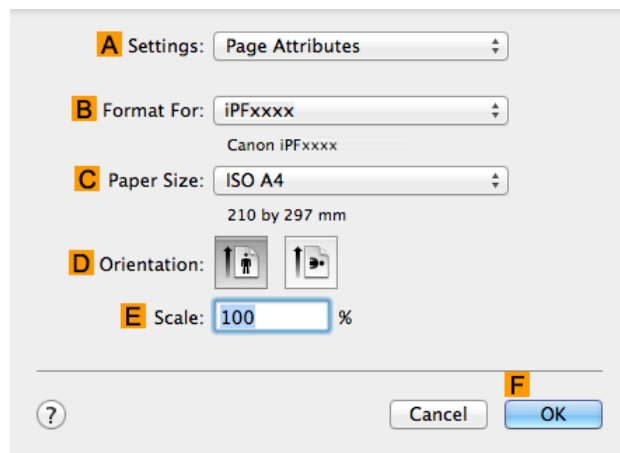

- When you are using paper that takes longer for ink to adhere for borderless printing and the Cutter Unit touches printing surfaces that are not dry yet, it may damage the paper or the edge of the document that is cut, depending on frequency of use. In this kind of situation, change the ink drying time in **Between Pages** in the **Paper Detailed Settings** dialog box.

- 10** Access the **Page Setup** pane.

11 Select and click a roll paper in the **A Paper Source** list.
Select the paper width of the roll loaded in the printer for **B Roll Width**. In this case, **10 in. (254.0mm)** is selected.

12 Make sure the **C Page Size** setting matches the original size as selected in **C Paper Size** in the **Page Attributes** dialog box—in this case, **10"x12" - Borderless**.

13 Confirm the print settings, and then click **M Print** to start printing.

- For tips on confirming print settings, see "Confirming Print Settings ." →P.271

Borderless Printing

Borderless Printing by Resizing Originals to Fit the Roll Width (Windows)	82
Borderless Printing by Resizing Originals to Fit the Roll Width (Mac OS)	84
Borderless Printing at Actual Size	70
Borderless Printing at Actual Size (Windows)	72
Borderless Printing at Actual Size (Mac OS)	74

Borderless Printing on Paper of Equivalent Size

Take advantage of borderless printing to print documents such as posters (made up mainly of photos or images) without a surrounding margin, or border.
In regular printing, a margin required by the printer is added around the original. With borderless printing, you can print documents without the margin, so that the printed image covers the entire surface of the paper.

- Borderless printing is only available with rolls.
- Paper you can use for borderless printing is restricted to particular types of paper and rolls of particular widths. (See "Displaying the Paper Reference Guide.") →P.356
- Although it normally prints borderless on the top, bottom, left, and right (4-edge borderless), in the following cases, it becomes borderless only on the left and right (2-edge borderless) because the top and bottom of the printed image are not automatically cut.
 - When paper where the borderless printing is described as two edges only in the **Paper Reference Guide** (paper where printed image areas cannot be cut cleanly) is selected
 - When the following settings are made in the printer control panel
 - **Cutting Mode** is **Manual**
 - **CutDustReduct.** is **On**
 - When auto cut is configured as not performed in the printer driver

Important

- When printing without borders, be certain to set the blue switch on the platen to the ● side. If the switch is set incorrectly, print quality may deteriorate. (See "Setting the Blue Switch on the Platen.") →P.626
- Borderless printing is not possible if details such as crop marks and margins are included as data on the periphery of the original.
- If the length of the image to print is short, then since the roll paper is fed out to a prescribed length before cutting in order to prevent cutting problems and ejection problems, the trailing edge of the roll paper might not be printed borderless.
- If you use an A1 or A2 roll for borderless printing, insert the provided Spacer for Borderless Printing on the Roll Holder. (See "Loading Rolls on the Roll Holder.") →P.363
If you do not attach the Spacer for Borderless Printing, the Platen may be soiled from borderless printing.
- These features cannot be used in combination with borderless printing: special page layouts, centering originals, and printing cut lines on rolls.
- If **Fit Paper Size** or **Print Image with Actual Size** (Windows only) is selected while performing borderless printing, **Rotate Page 90 degrees (Conserve Paper)** cannot be selected. Note that if borderless printing is possible, then even if the original is rotated 90 degrees, it will be printed by automatically rotating the page by 90 degrees.

Choose the method of borderless printing that suits the original, as desired.

• Fit Paper Size

Enlarge or reduce the original to match the size of the paper you are using.

- The printer driver automatically enlarges originals 3 mm (0.12 in) past the dimensions of the paper on each side. The 3 mm portion beyond the edge on each side is not printed.

For instructions on borderless printing of photos, images, and other documents to match the paper size, refer to the following topics, as appropriate for your computer and operating system.

• Borderless Printing by Resizing Originals to Match the Paper Size (Windows) → P.78

- To perform borderless printing with resizing to fit the paper size on Mac OS, select borderless in **Paper Size** and use **Scale to fit paper size** in the **Paper Handling** panel provided by the OS. For more information, see the Mac OS User Manual.

Borderless Printing by Resizing Originals to Match the Paper Size (Windows)

This topic describes how to enlarge originals before borderless printing to match the paper size, based on the following example.

If you use an A1 or A2 roll for borderless printing, insert the provided Spacer for Borderless Printing on the Roll Holder. (See "Loading Rolls on the Roll Holder.") → P.363

If you do not attach the Spacer for Borderless Printing, the Platen may be soiled from borderless printing.

- When borderless printing is used, the edge of the paper is cut during printing. Thus, ink density may be uneven at the edges. If you require higher image quality, select **No** from the **Automatic Cutting** list in the **Roll Paper Options** dialog box. In this case, the paper can be printed without borders on the left and right sides only. Once printed and cut, please cut the upper and lower bands with scissors.

- Document: Any type
- Page size: 10×12 inches (254.0×304.8 mm)
- Paper: Roll
- Paper type: **Canon Heavyweight Coated Paper**
- Roll paper width: 10 inches (254.0 mm)

- 1 In the application, create an original that takes up the entire space of the paper size.

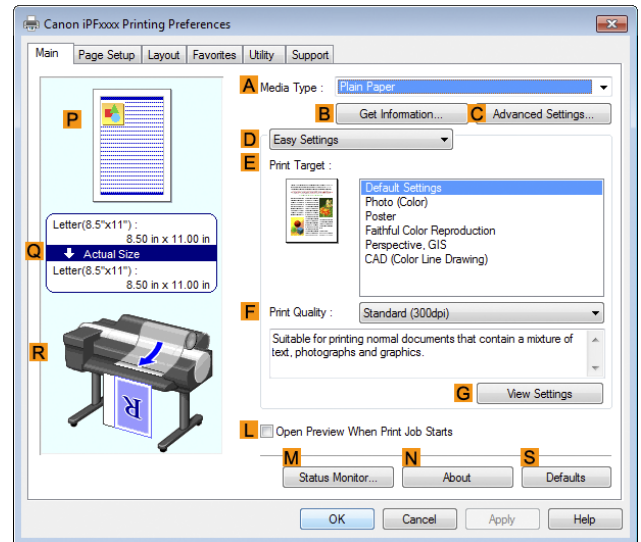

- If you can specify the margin, as in Microsoft Word, set the margin at 0 mm. For instructions on specifying the margin, refer to the software documentation.

- 2 Choose **Print** in the application menu.

- 3 Select the printer in the dialog box, and then display the printer driver dialog box. (See "Accessing the Printer Driver Dialog Box from Applications .") → P.157

- 4 Make sure the **Main** sheet is displayed.

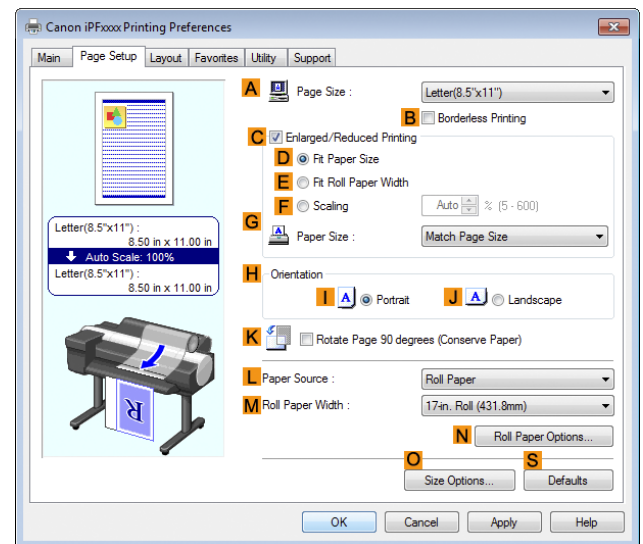

- 5 In the **A Media Type** list, select the type of paper that is loaded. In this case, click **Canon Heavyweight Coated Paper**.

- 6 Select the print target in the **E Print Target** list.

- When you are using paper that takes longer for ink to adhere for borderless printing and the Cutter Unit touches printing surfaces that are not dry yet, it may damage the paper or the edge of the document that is cut, depending on frequency of use. In this kind of situation, change the ink drying time using the following procedure.
 - Click **Advanced Settings** in **Media Type**.
 - Select an ink drying time in the list for the **Between Pages** setting of **Drying Time**.

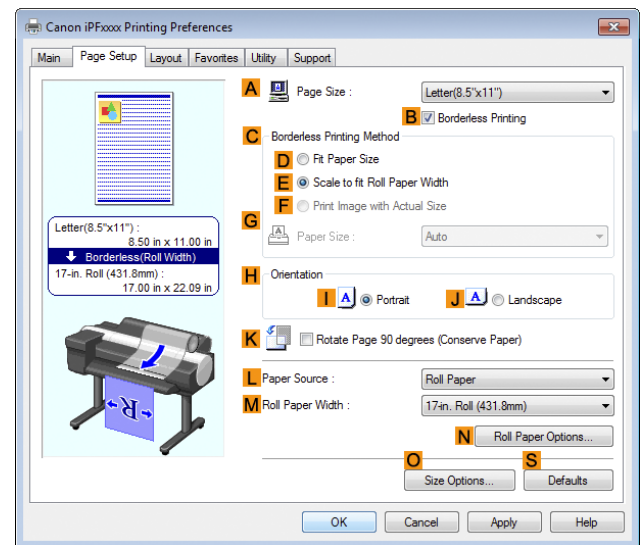

- 7** Click the **Page Setup** tab to display the **Page Setup** sheet.

- 8** In the **A Page Size** list, click the size of the original as specified in the application. In this case, click **10"x12"**.

- 9** Select and click a roll paper in the **L Paper Source** list.

- 10** Select the **B Borderless Printing** check box to display the **Information** dialog box.

- 11** Select the width of the loaded roll in the **Roll Paper Width** list—in this case, click **10-in. Roll (254.0mm)**.

- 12** Click **OK** to close the **Information** dialog box.

- 13** In **C Borderless Printing Method**, click **D Fit Paper Size**.

- 14** Click **Match Page Size** in the **G Paper Size** list.

- 15** Confirm the print settings and print as desired.

Note

- For tips on confirming print settings, see "Confirming Print Settings ." →P.154

Borderless Printing by Resizing Originals to Fit the Roll Width

Take advantage of borderless printing to print documents such as posters (made up mainly of photos or images) without a surrounding margin, or border.

In regular printing, a margin required by the printer is added around the original. With borderless printing, you can print documents without the margin, so that the printed image covers the entire surface of the paper.

- Borderless printing is only available with rolls.
- Paper you can use for borderless printing is restricted to particular types of paper and rolls of particular widths. (See "Displaying the Paper Reference Guide.") →P.356
- Although it normally prints borderless on the top, bottom, left, and right (4-edge borderless), in the following cases, it becomes borderless only on the left and right (2-edge borderless) because the top and bottom of the printed image are not automatically cut.
 - When paper where the borderless printing is described as two edges only in the **Paper Reference Guide** (paper where printed image areas cannot be cut cleanly) is selected
 - When the following settings are made in the printer control panel
 - **Cutting Mode** is **Manual**
 - **CutDustReduct.** is **On**
 - When auto cut is configured as not performed in the printer driver

Important

- When printing without borders, be certain to set the blue switch on the platen to the ● side. If the switch is set incorrectly, print quality may deteriorate. (See "Setting the Blue Switch on the Platen.") →P.626
- Borderless printing is not possible if details such as crop marks and margins are included as data on the periphery of the original.
- If the length of the image to print is short, then since the roll paper is fed out to a prescribed length before cutting in order to prevent cutting problems and ejection problems, the trailing edge of the roll paper might not be printed borderless.
- If you use an A1 or A2 roll for borderless printing, insert the provided Spacer for Borderless Printing on the Roll Holder. (See "Loading Rolls on the Roll Holder.") →P.363
If you do not attach the Spacer for Borderless Printing, the Platen may be soiled from borderless printing.
- These features cannot be used in combination with borderless printing: special page layouts, centering originals, and printing cut lines on rolls.
- If **Fit Paper Size** or **Print Image with Actual Size** (Windows only) is selected while performing borderless printing, **Rotate Page 90 degrees (Conserve Paper)** cannot be selected. Note that if borderless printing is possible, then even if the original is rotated 90 degrees, it will be printed by automatically rotating the page by 90 degrees.

Choose the method of borderless printing that suits the original, as desired.

• Scale to fit Roll Paper Width

Enlarge or reduce the original as a whole to match the roll paper width.

- You can combine this function with rotating pages 90 degrees before printing so that the original width (relative to portrait orientation) matches the roll paper width in borderless printing.

For instructions on borderless printing of photos, images, and other documents to match the roll paper width, refer to the following topics, as appropriate for your computer and operating system.

- Borderless Printing by Resizing Originals to Fit the Roll Width (Windows) → P.82
- Borderless Printing by Resizing Originals to Fit the Roll Width (Mac OS) → P.84

Borderless Printing by Resizing Originals to Fit the Roll Width (Windows)

This topic describes how to enlarge originals before borderless printing to match the roll width, based on the following example.

If you use an A1 or A2 roll for borderless printing, insert the provided Spacer for Borderless Printing on the Roll Holder. (See "Loading Rolls on the Roll Holder.") → P.363

If you do not attach the Spacer for Borderless Printing, the Platen may be soiled from borderless printing.

- When borderless printing is used, the edge of the paper is cut during printing. Thus, ink density may be uneven at the edges. If you require higher image quality, select **No** from the **Automatic Cutting** list in the **Roll Paper Options** dialog box. In this case, the paper can be printed without borders on the left and right sides only. Once printed and cut, please cut the upper and lower bands with scissors.

- Document: Any type
- Page size: A4 (210.0×297.0 mm)/Letter (8.3 × 11.7 in)
- Paper: Roll
- Paper type: **Canon Heavyweight Coated Paper**
- Roll paper width: 10 inches (254.0 mm)

1 In the application, create an original that takes up the entire space of the paper size.

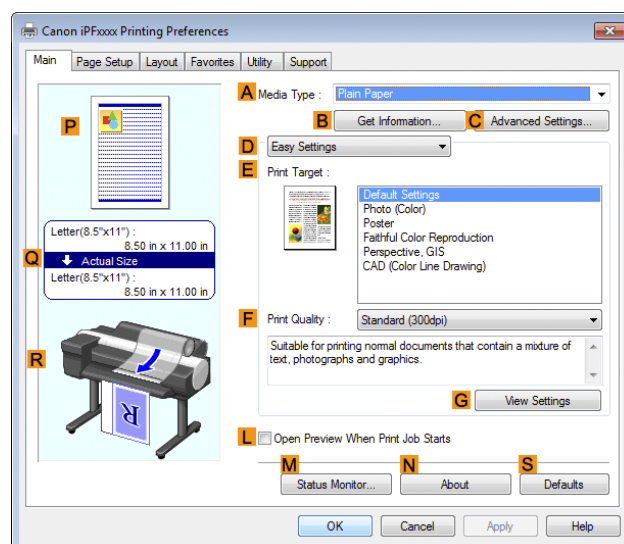

- If you can specify the margin, as in Microsoft Word, set the margin at 0 mm. For instructions on specifying the margin, refer to the software documentation.

2 Choose **Print** in the application menu.

3 Select the printer in the dialog box, and then display the printer driver dialog box. (See "Accessing the Printer Driver Dialog Box from Applications.") → P.157

4 Make sure the **Main** sheet is displayed.

5 In the **A Media Type** list, select the type of paper that is loaded. In this case, click **Canon Heavyweight Coated Paper**.

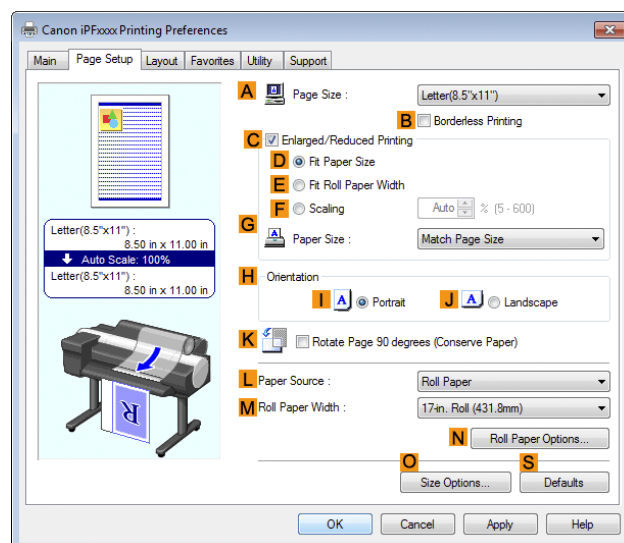

6 Select the print target in the **E Print Target** list.

• When you are using paper that takes longer for ink to adhere for borderless printing and the Cutter Unit touches printing surfaces that are not dry yet, it may damage the paper or the edge of the document that is cut, depending on frequency of use. In this kind of situation, change the ink drying time using the following procedure.

- Click **Advanced Settings** in **Media Type**.
- Select an ink drying time in the list for the **Between Pages** setting of **Drying Time**.

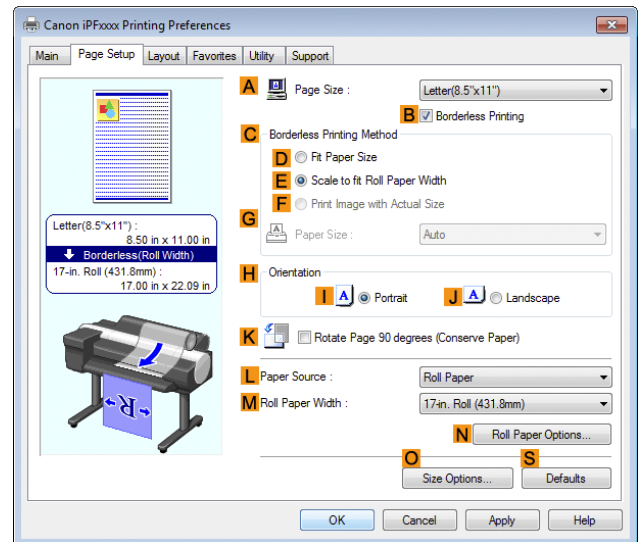

7 Click the **Page Setup** tab to display the **Page Setup** sheet.

8 In the **A Page Size** list, click the size of the original as specified in the application. In this case, click **ISO A4**.

9 Select and click a roll paper in the **L Paper Source** list.

- 10** Select the **B Borderless Printing** check box to display the **Information** dialog box.

- 11** Select the width of the loaded roll in the **Roll Paper Width** list—in this case, click **10-in. Roll (254.0mm)**.
- 12** Click **OK** to close the **Information** dialog box.
- 13** In **C Borderless Printing Method**, make sure **E Scale to fit Roll Paper Width** is selected.
- 14** Confirm the print settings and print as desired.

Note

- For tips on confirming print settings, see "Confirming Print Settings ." →P.154

Borderless Printing by Resizing Originals to Fit the Roll Width (Mac OS)

This topic describes how to enlarge originals before borderless printing to match the roll width, based on the following example.

If you use an A1 or A2 roll for borderless printing, insert the provided Spacer for Borderless Printing on the Roll Holder. (See "Loading Rolls on the Roll Holder.") →P.363

If you do not attach the Spacer for Borderless Printing, the Platen may be soiled from borderless printing.

Important

- When borderless printing is used, the edge of the paper is cut during printing. Thus, ink density may be uneven at the edges. If you require higher image quality, select **No** from the **Automatic Cutting** list in the **Paper Detailed Settings** dialog box. In this case, the paper can be printed without borders on the left and right sides only. Once printed and cut, please cut the upper and lower bands with scissors.

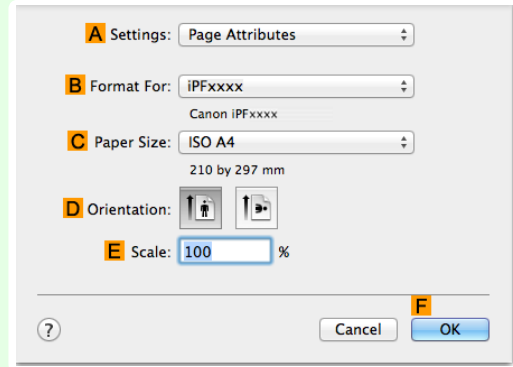

- Document: Any type
- Page size: A4 (210.0×297.0 mm)/Letter (8.3 × 11.7 in)
- Paper: Roll
- Paper type: **Canon Heavyweight Coated Paper**
- Roll paper width: 10 inches (254.0 mm)

- 1 Choose **Page Setup** from the application menu to display the **Page Attributes** dialog box.

Note

- The configuration method varies depending on the OS and application software you are using. If **Page Setup** is displayed in the application menu, the settings are configured by opening the **Page Attributes** dialog box from **Page Setup**.

If it is not displayed, the settings are configured in the upper part of the printer driver displayed when you select **Print** from the application software menu.

- 2 Select the printer in the **B Format for** list.

- 3 In **C Paper Size**, click the size of the original. In this case, click **ISO A4**.

Note

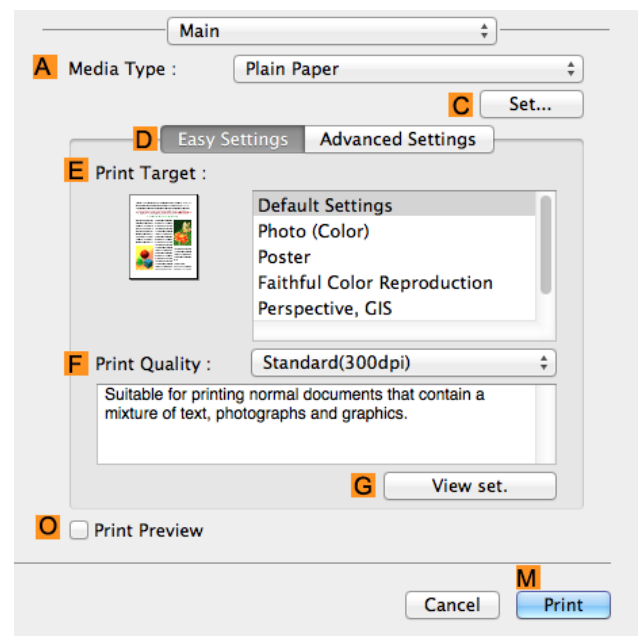

- All sizes are available in borderless printing if you resize originals to fit the roll width.

- 4 Click **F OK** to close the dialog box.

- 5 In the application, create an original that takes up the entire space of the paper size.

- 6 Choose **Print** in the application menu.

- 7 Access the **Main** pane.

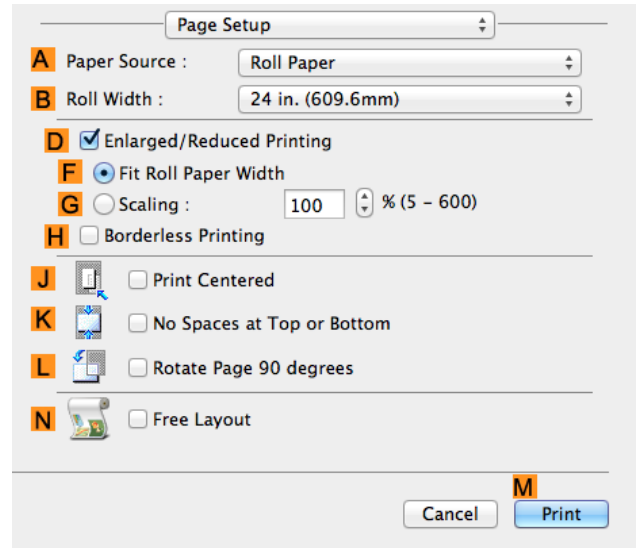

8 In the **A Media Type** list, select the type of paper that is loaded. In this case, click **Canon Heavyweight Coated Paper**.

9 Select the print target in the **E Print Target** list.

- When you are using paper that takes longer for ink to adhere for borderless printing and the Cutter Unit touches printing surfaces that are not dry yet, it may damage the paper or the edge of the document that is cut, depending on frequency of use. In this kind of situation, change the ink drying time in **Between Pages** in the **Paper Detailed Settings** dialog box.

10 Access the **Page Setup** pane.

11 Select and click a roll paper in the **A Paper Source** list.

12 Select the paper width of the roll loaded in the printer for **B Roll Width**. In this case, **10 in. (254.0mm)** is selected.

13 Make sure the **C Page Size** setting matches the original size as selected in **C Paper Size** in the **Page Attributes** dialog box—in this case, **ISO A4**.

14 Select the **D Enlarged/Reduced Printing** check box.

15 Select the **H Borderless Printing** check box.

This ensures that **F Fit Roll Paper Width** is automatically selected in **D Enlarged/Reduced Printing**.

16 Confirm the print settings, and then click **Print** to start printing.

Note

- For tips on confirming print settings, see "Confirming Print Settings ." [→ P.271](#)

Printing banners or at other non-standard sizes

Printing Vertical or Horizontal Banners (Large-Format Printing)	88
Printing Vertical or Horizontal Banners (Large-Format Printing; Windows)	89
Printing Vertical or Horizontal Banners (Large-Format Printing; Mac OS)	93
Printing on Non-Standard Paper Sizes	96
Printing on Non-Standard Paper Sizes (Windows)	96
Printing on Non-Standard Paper Sizes (Mac OS)	99

Printing Vertical or Horizontal Banners (Large-Format Printing)

On this printer, large-format printing of up to 18.0 m is available using rolls.

If you use Print Plug-In for Office or PosterArtist, you can easily print maximum 18.0 m vertical or horizontal banners. (Refer to "Print Plug-In for Officefeatures (Windows)" →P.227 and "Using PosterArtist to Compose Originals" →P.37 .)

However, you may not be able to print 18.0 m due to restrictions in the settable document size according to the application software.

Fit Roll Paper Width

To match the width of vertical and horizontal banners with the width of rolls, use the printer driver function for automatically enlarging/reducing and printing.

For example, if you automatically enlarge a document created with application software such as Microsoft Word, you can print the full width of the roll easily.

For instructions on printing vertical or horizontal banners, refer to the following topics, as appropriate for your computer and operating system.

- **Printing Vertical or Horizontal Banners (Large-Format Printing; Windows)** →P.89
- **Printing Vertical or Horizontal Banners (Large-Format Printing; Mac OS)** →P.93

Important

- Before printing, check how much of the roll paper is left. If you have activated automatic detection of the remaining roll paper, a warning message is displayed when there is not enough roll paper left.
- If not much ink is left, prepare replacement ink tanks.
- To print at a higher level of quality, in the printer driver, choose **High** or **Highest** in Print Quality, and choose **Unidirectional Printing** as the direction of printing.

Printing Vertical or Horizontal Banners (Large-Format Printing; Windows)

By automatic enlargement of a document created with an application software by the printer driver, you can print maximum 18.0 m vertical or horizontal banners.

However, you may not be able to print 18.0 m due to restrictions in the settable document size according to the application software.

This topic describes how to print a banner about five times as long as the roll width based on the following example.

- Document: A horizontal banner created in Microsoft Word
- Page size: Non-standard (100×500 mm [3.9×19.7 in])
- Paper: Roll
- Paper type: Plain Paper
- Roll paper width: 16 in (406.4 mm)

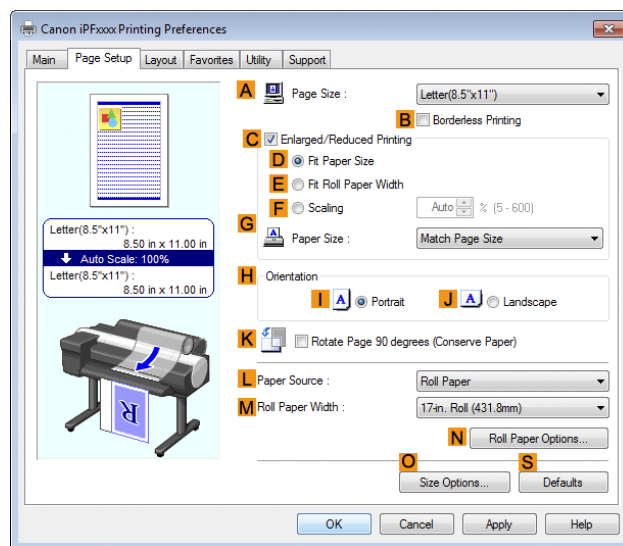

The print procedure is as follows.

1. Register a Custom Paper Size in the printer driver.
Call a non-standard paper size registered in the printer driver with Custom Paper Size.
Once you register Custom Paper Size, you then can select it repeatedly from the paper size list.
Custom Paper Size can be set up to 18.0 m.
2. In the application, create an original in the size you registered.
3. Print the banner, using the settings that correspond to banners.

Registering a Custom Paper Size

This example describes how to register a paper size that is horizontally elongated and suitable for banners in either horizontal or vertical format.

- 1 Display the printer driver dialog box. (See "Accessing the Printer Driver Dialog Box from the Operating System Menu .") → P.159
- 2 Click the **Page Setup** tab to display the **Page Setup** sheet.

- 3 Select and click a roll paper in the **L Paper Source** list.
- 4 Click **O Size Options** to display the **Paper Size Options** dialog box.
- 5 Enter a desired paper name in **Custom Paper Size Name**. **My Horizontal Banner** is used in this example.
- 6 In **Units**, click **mm**.

- 7** Under **Paper Size**, enter **100** in **Width** and **500** in **Height**.
- 8** Click **Add** to add the paper size of **My Horizontal Banner**.
- 9** Click **OK** to close the **Paper Size Options** dialog box.
- 10** Close the printer driver dialog box.

Note

- Although you can even set **Custom Size** for the paper size, the maximum settable size is 3.2 m. The setting of **Custom Size** is disabled when you exit the application software. For more information, see "Printing on Non-Standard Paper Sizes ." [→P.96](#)

Creating the banner in the application

Follow the steps below to create the banner in Microsoft Word using the Custom Paper Size you registered.

- 1** Start Microsoft Word.
- 2** Choose **Page Setup** from the **File** menu to display the **Page Setup** dialog box.
- 3** Under **Paper Size**, click the Custom Paper Size you registered—**My Horizontal Banner** in this example.

Important

- If **My Horizontal Banner** is not listed, make sure this printer is selected as the printer to use.
- In applications such as Microsoft PowerPoint that do not enable you to choose registered paper sizes, use the custom paper size setting in **Custom** and specify 100×500 mm (3.9×19.7 in)

- 4** Set the printing orientation to horizontal.
- 5** Create the banner.

Printing the banner

Follow these steps to print the banner using the corresponding banner settings.

- 1** Choose **Print** in the Microsoft Word menu.
- 2** Select the printer in the dialog box, and then display the printer driver dialog box. (See "Accessing the Printer Driver Dialog Box from Applications .") [→P.157](#)

3 Make sure the **Main** sheet is displayed.

4 In the **A Media Type** list, select the type of paper that is loaded. In this case, click Plain Paper.

5 After confirming that **D Easy Settings** is selected, click **Poster** in the **E Print Target** list.

6 Click the **Page Setup** tab to display the **Page Setup** sheet.

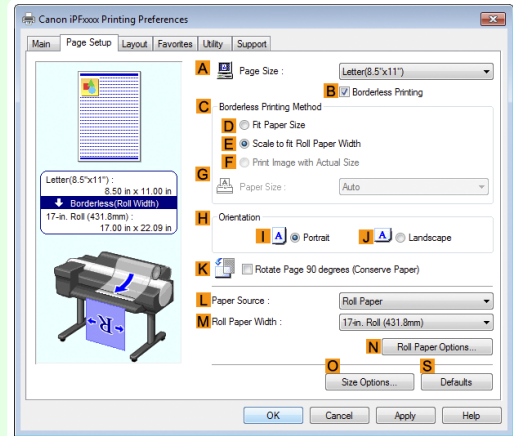

7 In the **A Page Size** list, click the size you registered, **My Horizontal Banner**.

8 Select the **C Enlarged/Reduced Printing** check box.

Note

- If the **C Enlarged/Reduced Printing** check box is not displayed on the **Page Setup** sheet, clear the **B Borderless Printing** check box.

9 Select and click a roll paper in the **L Paper Source** list.

10 After you click **E Fit Roll Paper Width**, the **Information** dialog box is displayed.

11 Select the width of the loaded roll in the **Roll Paper Width** list. In this case, click **16-in. Roll (406.4mm)**, and then click **OK**.

12 Confirm the print settings and print as desired.

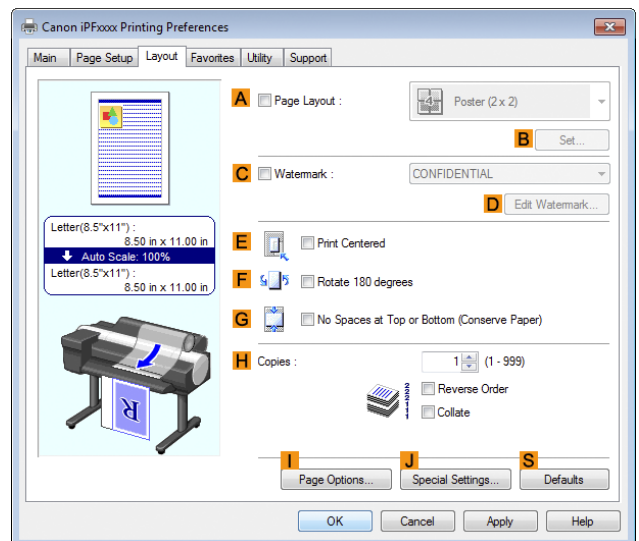

Note

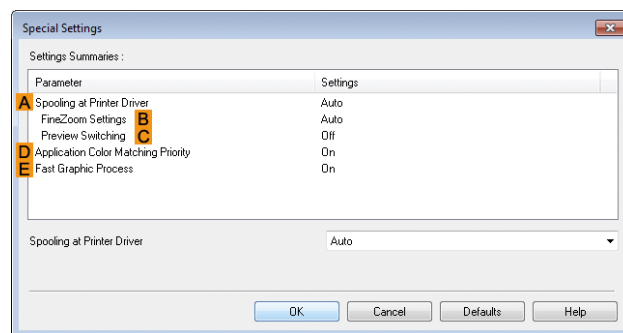

- For tips on confirming print settings, see "Confirming Print Settings ." →P.154

If printing is unsuccessful, you may be able to print after completing the following setting.

1 On the **Layout** sheet, click **J Special Settings** to display the **Special Settings** dialog box.

- 2** In the **FineZoom Settings** list, click **Yes**.

Printing Vertical or Horizontal Banners (Large-Format Printing; Mac OS)

By automatic enlargement of a document created with an application software by the printer driver, you can print maximum 18.0 m vertical or horizontal banners.

This topic describes how to print a banner about five times as long as the roll width based on the following example.

- Document: An original designed for a horizontal banner
- Page Size: Non-standard (100×500 mm [3.9×19.7 in])
- Paper: Roll
- Paper type: Plain Paper
- Roll paper width: 16 inches (406.4 mm)

The print procedure is as follows.

1. In the application, create an original in the format of a horizontal or vertical banner.
2. In **Page Setup**, register **Custom Paper Sizes**.
Once you register **Custom Paper Sizes**, you then can select it repeatedly from the paper size list.
Custom Paper Sizes can be set up to 18.0 m.
3. Print the banner, using the settings that correspond to banners.

Note

- The following procedures are based on OS X v10.7. The method of setting up non-standard paper sizes varies depending on the version of Mac OS and setup.

Register a Custom Paper Sizes

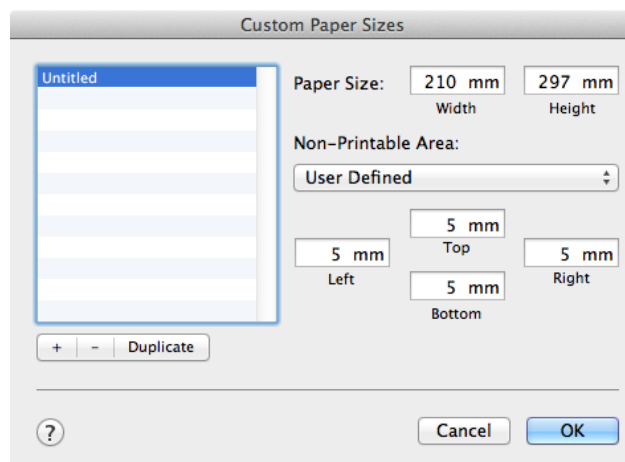

This example describes how to register and print using a page size that is horizontally elongated and suitable for banners in either horizontal or vertical format.

- 1 Create the document in the application.
- 2 Choose **Print** in the application menu.

- 3 Select the printer in the **A Printer** list.

- 4 Click **Manage Custom Sizes** in the **F Paper Size** list to display the **Custom Paper Sizes** dialog box.

- 5 Double-click **Untitled** in the list at left, and then enter a name for the page size you want to register. Here, enter **100*500**.
If the **Untitled** size is not listed at left, click **+** below the list.
- 6 Under **Paper Size**, enter **10** in **Width** and **50** in **Height**. Here, measurements are entered in centimeters.
- 7 Specify the margins by entering **0.3** in **Non-Printable Area**. Here, too, measurements are entered in centimeters.
- 8 Click **OK** to close the **Custom Paper Sizes** dialog box.
- 9 In the **F Paper Size** list, click the size of the original. In this case, click **100*500**, the size you registered.
- 10 In **G Orientation**, click the icon of the document in landscape orientation.
- 11 If you configured the settings using the **Page Attributes** dialog box, click **OK** to close the dialog box.

Print the banner

Follow the steps below to print the banner using the corresponding banner settings.

- 1 Choose **Print** in the application menu.

2 Access the **Main** pane.

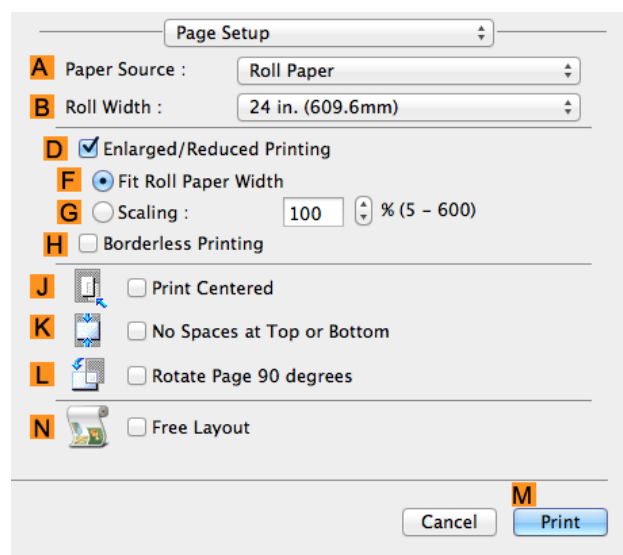

3 In the **A Media Type** list, select the type of paper that is loaded. In this case, click Plain Paper.

4 Make your selection in the **E Print Target** list.

5 Make your selection in the **F Print Quality** list.

6 Access the **Page Setup** pane.

7 Select and click a roll paper in the **A Paper Source** list.

8 Select the paper width of the roll loaded in the printer for **B Roll Width**. In this case, **16 in. (406.4mm)** is selected.

9 In **C Page Size**, make sure **100*500** is displayed, as registered in **Page Setup**.

10 Select the **D Enlarged/Reduced Printing** check box.

11 Click **F Fit Roll Paper Width**.

12 Confirm the print settings, and click **M Print** to start printing.

Note

- For tips on confirming print settings, see "Confirming Print Settings ." →P.271

Printing on Non-Standard Paper Sizes

For printing on non-standard size paper, first register the paper size in the printer driver.

Once you register a paper size, you then can select it repeatedly from the paper size list. The paper size can be set up to 18.0 m.

Note

- In Windows, although you can even set **Custom Size** for the paper size, the maximum settable size is 3.2 m. The setting of **Custom Size** is disabled when you exit the application software.

For instructions on specifying non-standard paper sizes for printing, refer to the following topics, as appropriate for your computer and operating system.

- **Printing on Non-Standard Paper Sizes (Windows)** →P.96
- **Printing on Non-Standard Paper Sizes (Mac OS)** →P.99

Printing on Non-Standard Paper Sizes (Windows)

For printing on non-standard size paper, first register the paper size in the printer driver.

Call a non-standard paper size registered in the printer driver with Custom Paper Size.

Once you register Custom Paper Size, you then can select it repeatedly from the paper size list.

Custom Paper Size can be set up to 18.0 m.

Note

- Although you also can set **Custom Size** for the paper size temporarily, the maximum settable size is 3.2 m. Also, the setting of **Custom Size** is disabled when you exit the application software.

Registering and Printing With a Custom Paper Size

This topic describes how to register a non-standard paper size by the name of **430 mm Square** and print based on the following example.

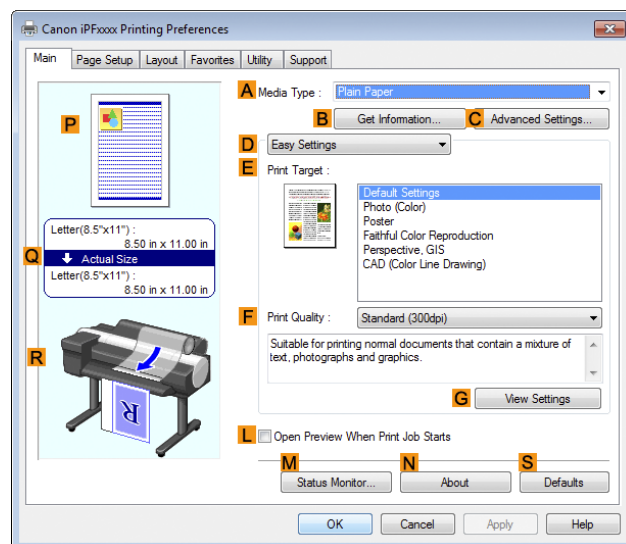

- Document: Any Type
- Page Size: A square sheet (430 × 430 mm [16.9 × 16.9 in])
- Paper: Sheets
- Media Type: Any type
- Paper Size: A square sheet (430 × 430 mm [16.9 × 16.9 in])

1 Load the square paper (430 × 430 mm [16.9 × 16.9 in]) in the printer.

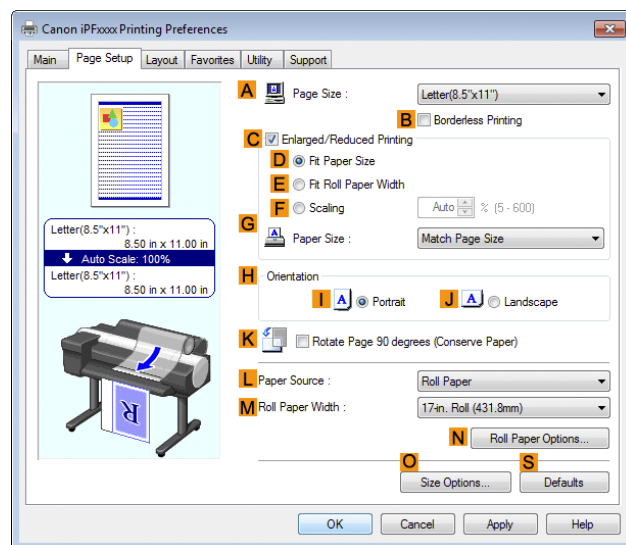

2 Choose **Print** in the application menu.

3 Select the printer in the dialog box, and then display the printer driver dialog box. (See "Accessing the Printer Driver Dialog Box from Applications .") →P.157

- 4** Make sure the **Main** sheet is displayed.

- 5** In the **A Media Type** list, select the type of paper that is loaded.
- 6** After confirming that **D Easy Settings** is selected, select from the **E Print Target** list.
- 7** Click the **Page Setup** tab to display the **Page Setup** sheet.

- 8** Click **O Size Options** to display the **Paper Size Options** dialog box.
- 9** Enter a desired paper name in **Custom Paper Size Name**. **430 mm Square** is used in this example.
- 10** Select **mm** in **Units**.
- 11** Enter **430** (16.9 in) in both **Width** and **Height**.

Note

- If you select the **Fix the Ratio of the Width to Height** check box, after you enter a value in either **Width** or **Height**, the other value will be automatically applied based on the original aspect ratio.

- 12** Click **Add** to register **430 mm Square**.
- 13** Click **OK** to close the **Paper Size Options** dialog box.

- 14** Click **Cut Sheet** in the **L Paper Source** list.
- 15** In the **A Page Size** list, click the size you added, **430 mm Square**.
- 16** Confirm the print settings and print as desired.

Note

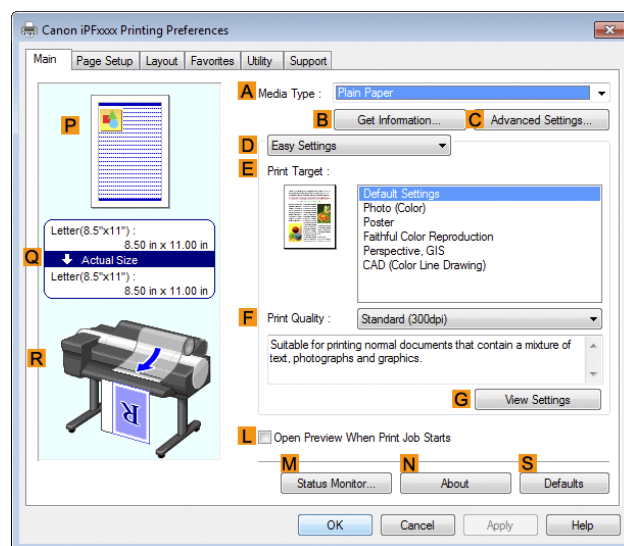

- For tips on confirming print settings, see "Confirming Print Settings ." → P.154

Printing by using **Custom Size**

This section describes how to print using **Custom Size** based on the following example.

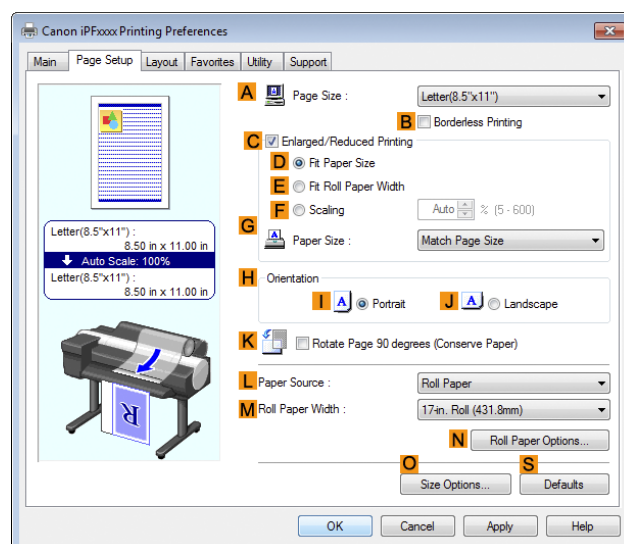

- Document: Any Type
- Page size: Square of non-standard dimensions (430×430 mm [16.9×16.9 in])
- Paper: Sheets
- Paper type: Any type
- Paper Size: A square sheet (430 × 430 mm [16.9 × 16.9 in])

- 1** Load the square paper (430 × 430 mm [16.9 × 16.9 in]) in the printer.
- 2** Choose **Print** in the application menu.
- 3** Select the printer in the dialog box, and then display the printer driver dialog box. (See "Accessing the Printer Driver Dialog Box from Applications .") → P.157
- 4** Make sure the **Main** sheet is displayed.

- 5** In the **A Media Type** list, select the type of paper that is loaded.
- 6** After confirming that **D Easy Settings** is selected, select from the **E Print Target** list.

- 7** Click the **Page Setup** tab to display the **Page Setup** sheet.

- 8** Click **Cut Sheet** in the **L Paper Source** list.
- 9** Click **Custom Size** in the **A Page Size** list to display the **Custom Size Settings** dialog box.
- 10** Confirm that **mm** is selected in **Units**.
- 11** Enter **430** (16.9 in) in both **Width** and **Height**.
- 12** Click **OK** to close the **Custom Size Settings** dialog box.
- 13** Confirm the print settings and print as desired.

Note

- For tips on confirming print settings, see "Confirming Print Settings ." → P.154

Printing on Non-Standard Paper Sizes (Mac OS)

For printing on non-standard size paper, first register the paper size in the printer driver.

Call a non-standard paper size registered in the printer driver with **Custom Paper Sizes**.

Once you register **Custom Paper Sizes**, you then can select it repeatedly from the paper size list.

Custom Paper Sizes can be set up to 18.0 m.

This topic describes how to register a non-standard paper size by the name of **430*430** and print based on the following example.

- Document: Any Type
- Page Size: A square sheet (430 × 430 mm [16.9 × 16.9 in])
- Paper: Sheets
- Media Type: Any type
- Paper Size: A square sheet (430 × 430 mm [16.9 × 16.9 in])

Note

- The following procedures are based on OS X v10.7. The method of setting up non-standard paper sizes varies depending on the version of Mac OS.

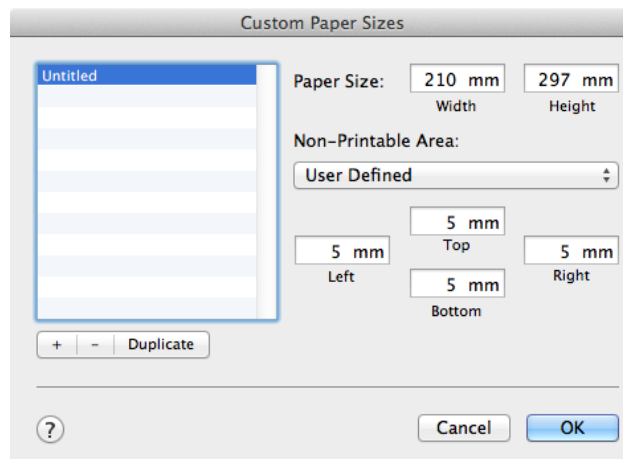

- 1** Create the document in the application.
- 2** Load the square paper (430 × 430 mm [16.9 × 16.9 in]) in the printer.

3 Choose **Print** in the application menu.

4 Select the printer in the **A Printer** list.

5 Click **Manage Custom Sizes** in the **F Paper Size** list to display the **Custom Paper Sizes** dialog box.

6 In **Paper Size**, enter the height and width of the original. Here, enter **43.00 cm** in **Height** and **Width**.

7 In **Non-Printable Area**, enter **0.5** for the top and side margins and **2.3** for the bottom margin. Here, measurements are entered in centimeters.

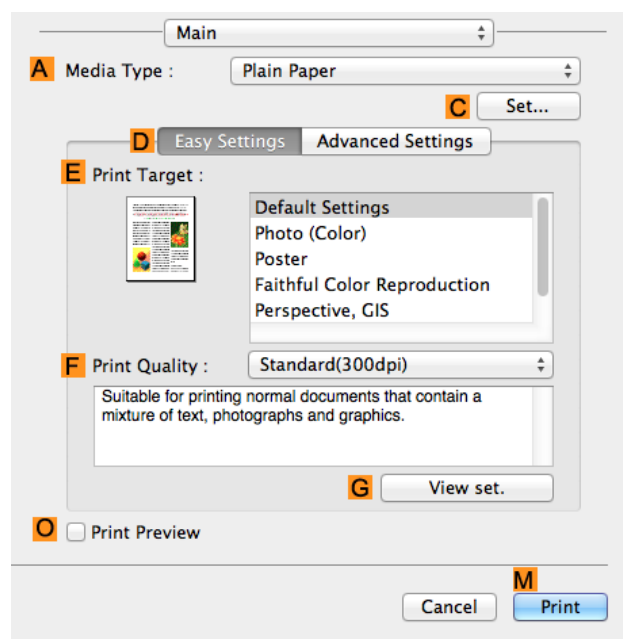

8 Double-click **Untitled** in the list at left in the **Custom Paper Sizes** dialog box and enter the paper name—in this case, **430*430**.

9 Click **OK** to close the **Custom Paper Sizes** dialog box.

10 In the **F Paper Size** list, click the size of the original. In this case, click **430*430**, the size you registered.

11 If you configured the settings using the **Page Attributes** dialog box, click **OK** to close the dialog box, and then select **Print** from the application software menu.

12 Access the **Main** pane.

13 In the **A Media Type** list, select the type of paper that is loaded.

14 After confirming that **D Easy Settings** is selected, select from the **E Print Target** list.

15 Make your selection in the **F Print Quality** list.

16 Access the **Page Setup** pane.

17 Click **Cut Sheet** in the **A Paper Source** list.

18 In **C Page Size**, make sure **430*430** is displayed, as registered in **Page Setup**.

19 Confirm the print settings, and then click **M Print** to start printing.

Note

- For tips on confirming print settings, see "Confirming Print Settings ." →P.271

Printing Multiple Originals Next to Each Other

By arranging originals from word-processing or spreadsheet programs or web browser screen shots next to each other on single sheets, you can create highly expressive presentation materials, easy-to-understand meeting materials, and a variety of other printed documents.

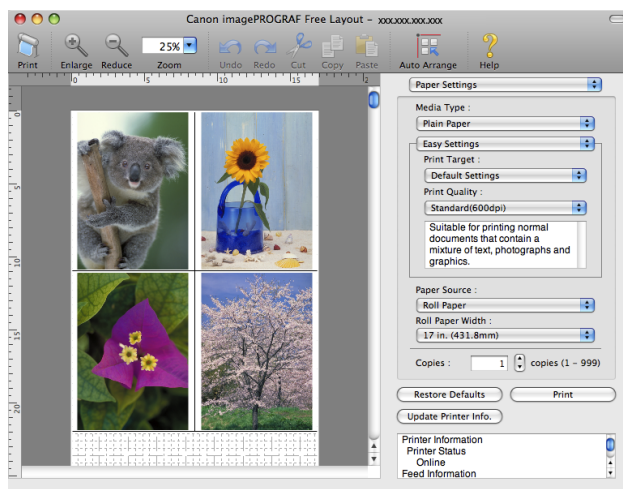

- **Free Layout (Windows)**

Besides combining multiple pages in a single-page layout, you can combine originals from multiple files—even multiple source applications—in a single-page layout.

• Free Layout (Mac OS)

Besides combining multiple pages in a single-page layout, you can combine originals from multiple files—even multiple source applications—in a single-page layout.

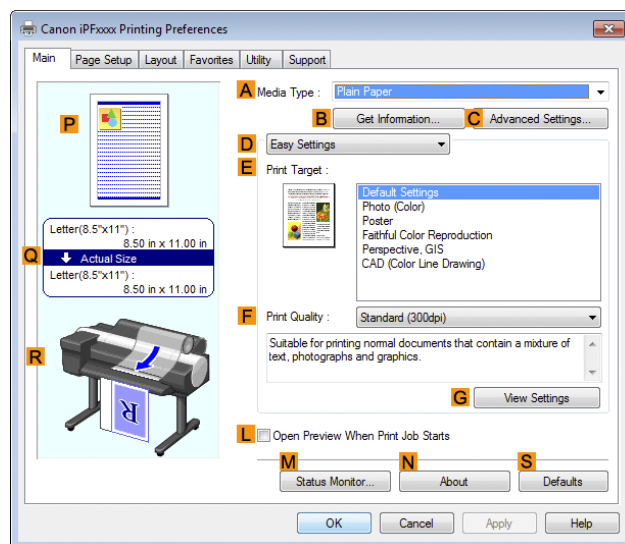

For instructions on arranging originals from multiple applications, refer to the following topics.

- **Printing Multiple Originals Next to Each Other (Windows)** →P.103
- **Printing Multiple Originals Next to Each Other (Mac OS)** →P.105

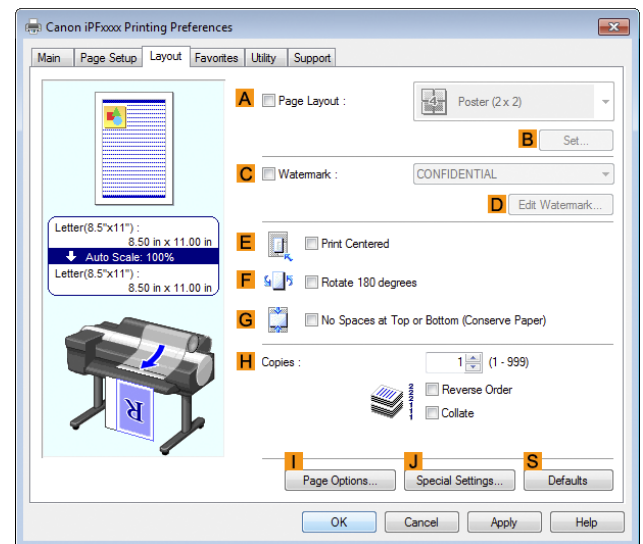

Printing Multiple Originals Next to Each Other (Windows)

This topic describes how to arrange multiple originals using the **Free Layout** function.

- 1 Choose **Print** in the application menu.
- 2 Select the printer in the dialog box, and then display the printer driver dialog box. (See "Accessing the Printer Driver Dialog Box from Applications .") →P.157
- 3 Make sure the **Main** sheet is displayed.

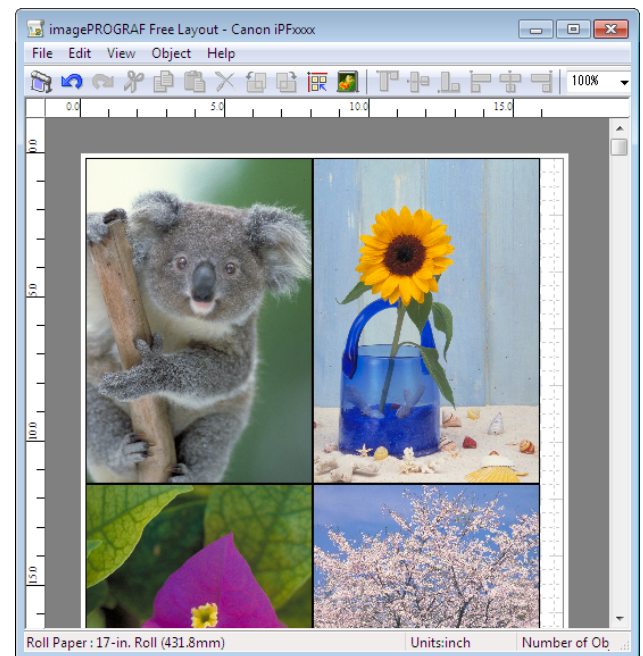

4 Click the **Layout** tab to display the **Layout** sheet.

5 Select the **Page Layout** check box.

6 Click **Free Layout** in the **Page Layout** list.

7 When you attempt to print, the **imagePROGRAF Free Layout** window is displayed. (At this point, the document will not be printed yet.)

8 Edit and rearrange the image in the **imagePROGRAF Free Layout** window as desired.

Note

- Without closing the **imagePROGRAF Free Layout** window, repeat steps 1–7 to arrange originals from multiple applications on the same page.
- For instructions on editing and rearranging images, refer to the **imagePROGRAF Free Layout** help topic.

9 Print from the **imagePROGRAF Free Layout** menu.

Note

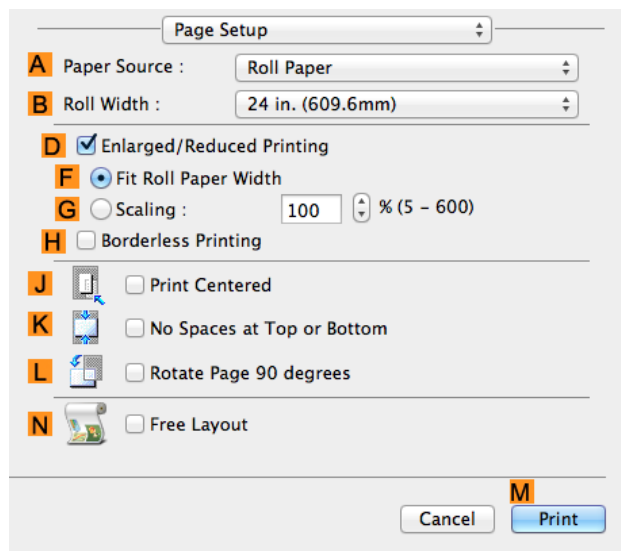

- For details on **imagePROGRAF Free Layout** functions, see "Free Layout." → P.193

Printing Multiple Originals Next to Each Other (Mac OS)

This topic describes how to use the **Free Layout** function to arrange multiple originals next to each other before printing.

1 Choose **Print** in the application menu.

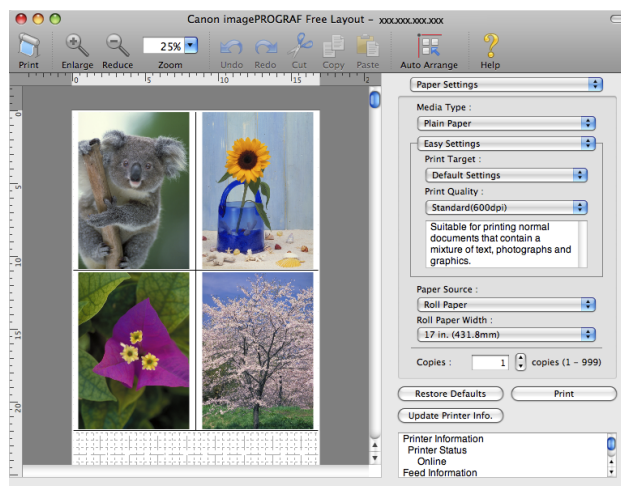

2 Access the **Page Setup** pane.

3 Select the **N Free Layout** check box.

4 Click **M Print**.

5 The **Canon imagePROGRAF Free Layout** window is displayed.

6 Edit and rearrange the image in the **Canon imagePROGRAF Free Layout** window as desired.

- Without closing the **Canon imagePROGRAF Free Layout** window, repeat steps 1 to 4 to arrange originals from multiple applications on the same page.
- For instructions on editing and rearranging images, refer to the **Canon imagePROGRAF Free Layout** help topic.

7 Print from the **Canon imagePROGRAF Free Layout** menu.

Note

- For details on **Canon imagePROGRAF Free Layout** functions, see "Free Layout." →P.310

Printing Multiple Pages Continuously

You can print multiple pages as a single continuous image, without margins between pages.

• Banner Printing

Important

- This feature is only available with rolls. It cannot be used when printing on sheets.
- When using Banner Printing, some of the settings are disabled, including Borderless Printing, Enlarge/Reduce Printing, and Layout.

For instructions on printing multiple pages continuously, refer to the following topics, as appropriate for your operating system.

- **Printing Multiple Pages Continuously (Windows)** →P.106
- **Printing Multiple Pages Continuously (Mac OS)** →P.108

Printing Multiple Pages Continuously (Windows)

This topic describes how to print multiple pages as a single continuous image, without margins between pages.

Important

- This feature is only available with rolls. It cannot be used when printing on sheets.
- When using Banner Printing, some of the settings are disabled, including Borderless Printing, Enlarge/Reduce Printing, and Layout.

1 Choose **Print** in the application menu.

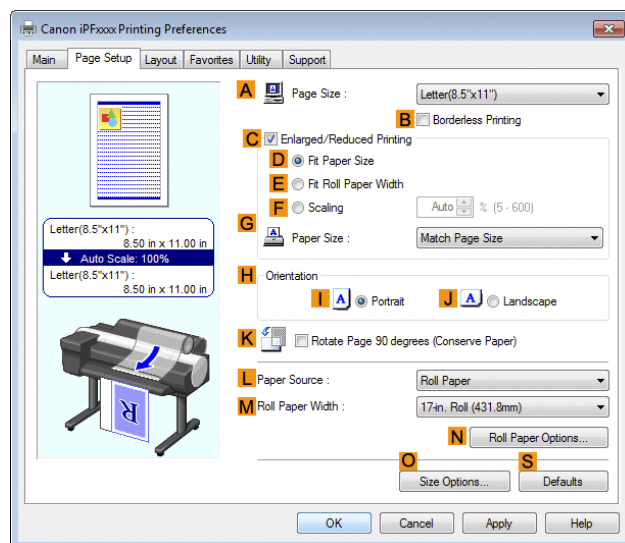

2 Select the printer in the dialog box, and then display the printer driver dialog box. (See "Accessing the Printer Driver Dialog Box from Applications.") →P.157

3 Make sure the **Main** sheet is displayed.

4 In the **A Media Type** list, click the type of paper that is loaded.

5 Click the **Page Setup** tab to display the **Page Setup** sheet.

6 Select and click a roll paper in the **L Paper Source** list.

7 Click **N Roll Paper Options** to display the **Roll Paper Options** dialog box.

8 Select the **B Banner Printing** check box.

9 Click **OK**.

10 Confirm the print settings and print as desired.

Note

- For tips on confirming print settings, see "Confirming Print Settings ." → P.154

Printing Multiple Pages Continuously (Mac OS)

This topic describes how to print multiple pages as a single continuous image, without margins between pages.

Important

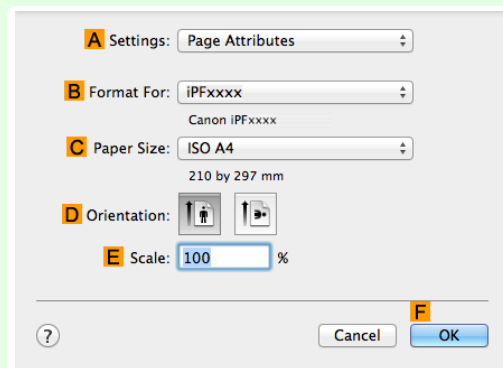

- This feature is only available with rolls. It cannot be used when printing on sheets.
- When using Banner Printing, some of the settings are disabled, including Borderless Printing, Enlarge/Reduce Printing, and Layout.

1 This sets the **B Format for** and **C Paper Size**.

Note

- The configuration method varies depending on the OS and application software you are using. If **Page Setup** is displayed in the application menu, the settings are configured by opening the **Page Attributes** dialog box from **Page Setup**.

If it is not displayed, the settings are configured in the upper part of the printer driver displayed when you select **Print** from the application software menu.

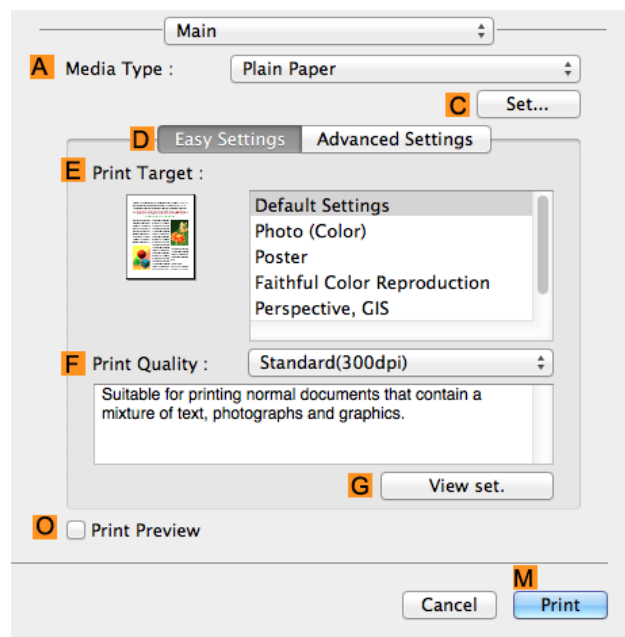

2 Select the printer in the **A Printer** list.

3 Click the original size in the **F Paper Size** list.

4 If you configured the settings using the **Page Attributes** dialog box, click **F OK** to close the dialog box, and then select **Print** from the application software menu.

5 Access the **Main** pane.

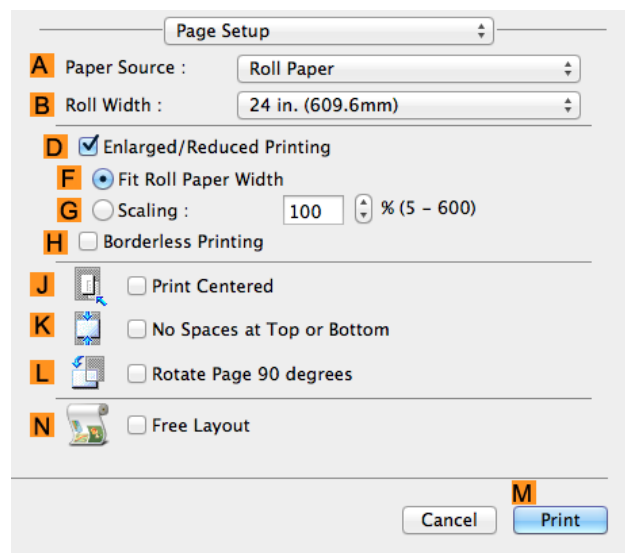

6 In the **A Media Type** list, click the type of paper that is loaded.

7 Make your selection in the **E Print Target** list.

8 Make your selection in the **F Print Quality** list.

9 Access the **Page Setup** pane.

10 Click **Roll Paper (Banner)** in the **A Paper Source** list.

11 Confirm the print settings, and then click **M Print** to start printing.

Note

- For tips on confirming print settings, see "Confirming Print Settings ." →P271

Printing Multiple Pages Per Sheet

To conserve paper, you can print several pages of the original on a single sheet by reducing the original and dividing the sheet into areas for each page.

• Page Layout

Specify a number of pages of the original to print on a single sheet, in a layout of multiple pages per sheet.

Important

- This function cannot be combined with the following options.
 - Borderless Printing
 - Scaling Originals (Windows)
 - Banner Printing (Windows)
- When printing using this function, the **Print Centered** setting is disabled.

Note

- You can print up to 16 pages of the original on a single sheet.
- You can also change the page layout order and print page boundary lines, as desired.

For instructions on printing multiple pages per sheet, refer to the following topics, as appropriate for your computer and operating system.

- **Printing Multiple Pages Per Sheet (Windows)** →P.110
- **Printing Multiple Pages Per Sheet (Mac OS)** →P.112

Printing Multiple Pages Per Sheet (Windows)

This topic describes how to print four pages of originals together on a single sheet based on the following example.

- Document: Any Type
- Page size: A3 (297.0×420.0 mm [11.7×16.5 in])
- Paper: Roll
- Paper type: Plain Paper
- Roll paper width: A2/A3 roll (420.0 mm [16.5 in])

1

Choose **Print** in the application menu.

2

Select the printer in the dialog box, and then open the printer driver dialog box. (See "Accessing the Printer Driver Dialog Box from Applications .") →P.157

3 Make sure the **Main** sheet is displayed.

4 In the **A Media Type** list, select the type of paper that is loaded. In this case, click Plain Paper.

5 Make your selection in the **E Print Target** list.

6 Make your selection in the **F Print Quality** list.

7 Click the **Page Setup** tab to display the **Page Setup** sheet.

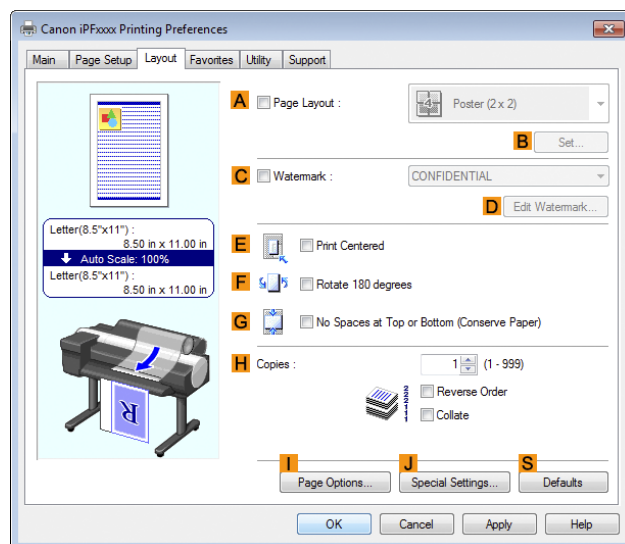

8 In **A Page Size**, click the size of the original as specified in the application software. In this case, click **ISO A3**.

9 Select and click a roll paper in the **L Paper Source** list.

10 Select the width of the loaded roll in the **M Roll Paper Width** list—in this case, **ISO A2/A3 Roll (420.0mm)**.

11 Click the **Layout** tab to display the **Layout** sheet.

12 Select the **A Page Layout** check box.

13 Click **4 Pages/Sheet** in the **A Page Layout** list.

Note

- You can select the layout order for placing four pages on a sheet and a frame border in the **Page Layout Printing** dialog box by clicking **B Set**. If you select a pattern to print borders, the size of the images are reduced about 5% to create space for the printed border. If **None** is selected, then the images are not reduced for printing.

14 Confirm the print settings and print as desired.

Note

- For tips on confirming print settings, see "Confirming Print Settings ." → P.154

Printing Multiple Pages Per Sheet (Mac OS)

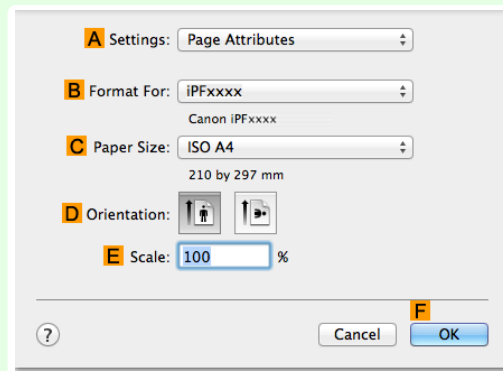

This topic describes how to print four pages of an original on a single sheet, based on the following example.

- Document: Any Type
- Page size: A3 (297.0 × 420.0 mm [11.7 × 16.5 in])
- Paper: Roll paper
- Paper type: Plain Paper
- Roll paper width: A2/A3 roll (420.0 mm [16.5 in])

1 This sets the **B Format for** and **C Paper Size**.

- The configuration method varies depending on the OS and application software you are using. If **Page Setup** is displayed in the application menu, the settings are configured by opening the **Page Attributes** dialog box from **Page Setup**.

If it is not displayed, the settings are configured in the upper part of the printer driver displayed when you select **Print** from the application software menu.

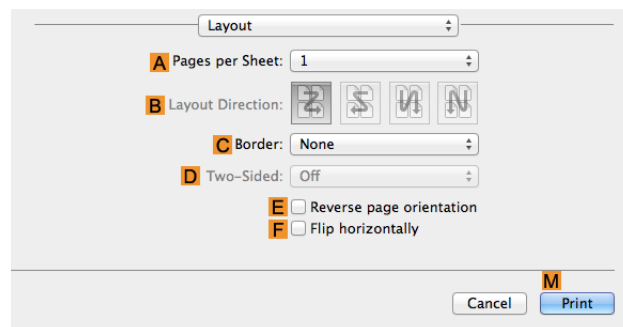

2 Select the printer in the **A Printer** list.

3 In the **F Paper Size** list, click the size of the original. In this case, click **ISO A3**.

4 If you configured the settings using the **Page Attributes** dialog box, click **F OK** to close the dialog box, and then select **Print** from the application software menu.

5 Access the **Layout** pane.

6 Click **4** in the **A Pages per Sheet** list.

- You can choose the layout order and specify a boundary line for the four pages in **B Layout Direction** and **C Border**.

7 Access the **Main** pane.

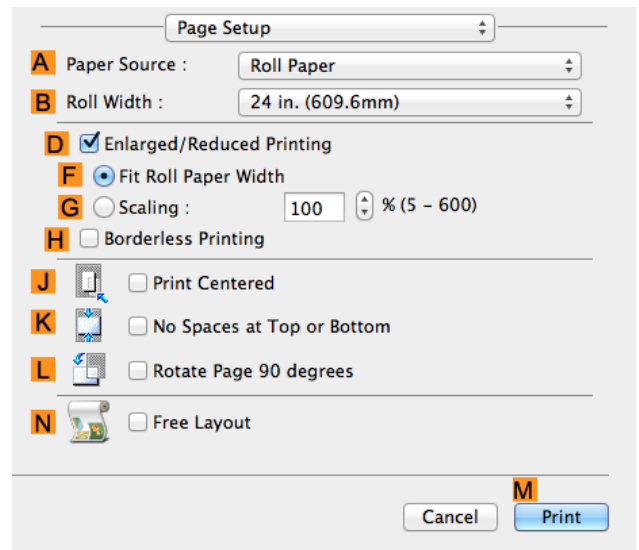

8 In the **A Media Type** list, select the type of paper that is loaded. In this case, click Plain Paper.

9 Make your selection in the **E Print Target** list.

10 Make your selection in the **F Print Quality** list.

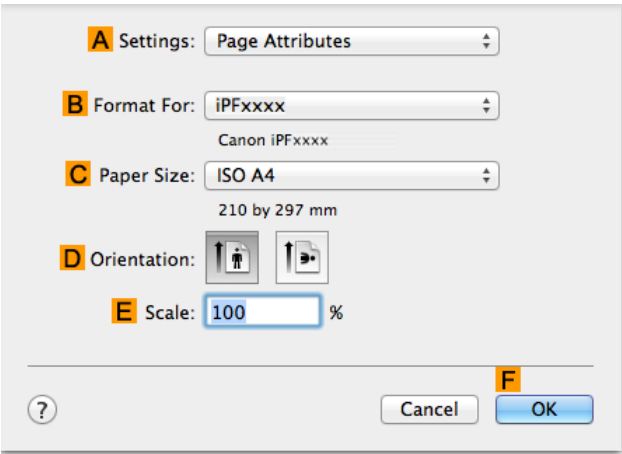

11 Access the **Page Setup** pane.

12 Select and click a roll paper in the **A Paper Source** list.

13 Select the paper width of the roll loaded in the printer for **B Roll Width**. In this case, **ISO A2/A3 (420.0mm)** is selected.

14 Make sure **C Page Size** shows the original size as specified in **C Paper Size** in the **Page Attributes** dialog box—in this case, **ISO A3**.

15 Confirm the print settings, and then click **M Print** to start printing.

• For tips on confirming print settings, see "Confirming Print Settings ." →P.271

Printing Posters in Sections

You can enlarge an original to print it in sections on several sheets. By assembling the printed sheets, you can create a poster larger than the maximum supported paper size of the printer.

• **Page Layout**
Choose poster printing.

• When printing using this function, the **Print Centered**, **Watermark**, **No Spaces at Top or Bottom (Conserve Paper)**, and **Page Options** settings are disabled.

For instructions on printing large posters, refer to the following topics, as appropriate for your computer and operating system.

- **Printing Large Posters (Windows)** →P.115

• This method of poster printing is supported in Windows.

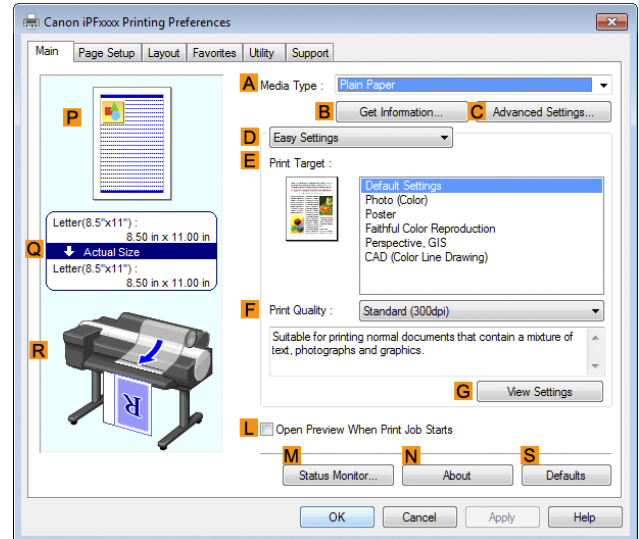

Printing Large Posters (Windows)

You can enlarge an original to print it in sections on several sheets. By assembling the printed sheets, you can create a poster larger than the maximum supported paper size of the printer. This topic describes how to enlarge an A2 original for printing it in sections on four sheets, based on the following example.

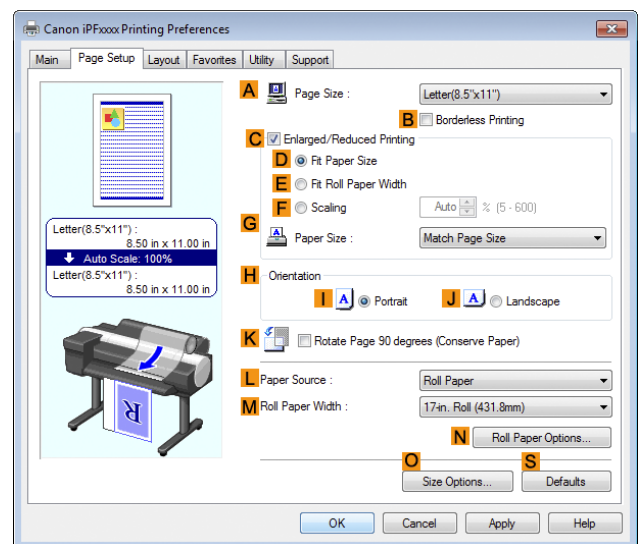

- Document: Poster
- Page size: A2 (420.0×594.0 mm [16.5 × 23.4 in])

- Paper: Sheets
- Paper Size: A2 (420.0 × 594.0 mm [16.5 × 23.4 in])

- 1 Choose **Print** in the application menu.
- 2 Select the printer in the dialog box, and then display the printer driver dialog box. (See "Accessing the Printer Driver Dialog Box from Applications .") →P.157
- 3 Make sure the **Main** sheet is displayed.

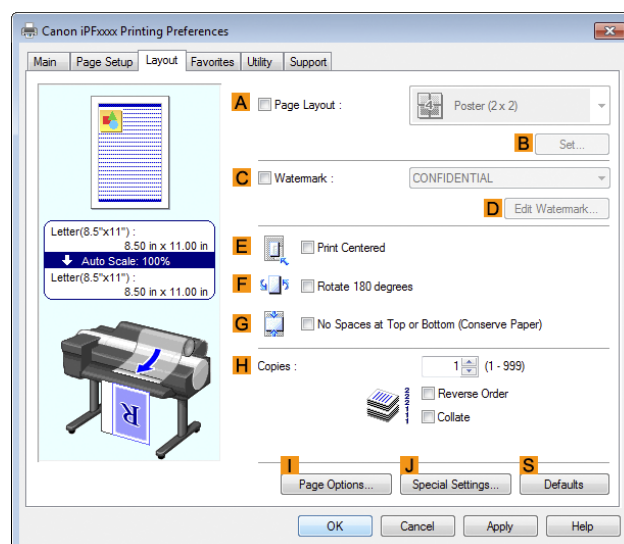

- 4 In the **A Media Type** list, select the type of paper that is loaded.
- 5 Click **Poster** in the **E Print Target** list.
- 6 Click the **Page Setup** tab to display the **Page Setup** sheet.

- 7 In **A Page Size**, click the size of the original as specified in the application. In this case, click **ISO A2**.
- 8 Click **Manual** in the **L Paper Source** list.

- 9** Click the **Layout** tab to display the **Layout** sheet.

- 10** Select the **A Page Layout** check box.

- 11** Click **Poster (2 x 2)** in the **A Page Layout** list.

Note

- Follow the steps below to print only a portion of the poster as divided for printing.
- Click **B Set** under **A Page Layout** to display the **Pages to Print** dialog box.
- On the **Pages to Print** dialog box, clear the check boxes of the portion you do not want to print.
- Click **OK** to close the **Pages to Print** dialog box.

- 12** Confirm the print settings and print as desired.

Note

- For tips on confirming print settings, see "Confirming Print Settings ." → P.154

Centering originals

Printing Originals Centered on Rolls	118
Printing Originals Centered on Rolls (Windows)	118
Printing Originals Centered on Rolls (Mac OS)	120
Printing Originals Centered on Sheets	122
Printing Originals Centered on Sheets (Windows)	122
Printing Originals Centered on Sheets (Mac OS)	124

Printing Originals Centered on Rolls

You can print originals centered on a page—for example, if the paper is larger than the original, or if you are reducing the original.

- **Print Centered**

If you use originals smaller than the roll paper width, you can center them relative to the width when printing.

For instructions on centering originals when printing on rolls, refer to the following topics, as appropriate for your computer and operating system.

- **Printing Originals Centered on Rolls (Windows)** →P.118
- **Printing Originals Centered on Rolls (Mac OS)** →P.120

Printing Originals Centered on Rolls (Windows)

This topic describes how to center originals before printing on rolls based on the following example.

- Document: Any type
- Page size: A4 (210.0×297.0 mm)/Letter (8.3 × 11.7 in)
- Paper: Roll
- Paper type: Plain Paper
- Roll width: A3/A4 roll (297.0 mm [11.7 in])

- 1** Choose **Print** in the application menu.
- 2** Select the printer in the dialog box, and then display the printer driver dialog box. (See "Accessing the Printer Driver Dialog Box from Applications .") →P.157

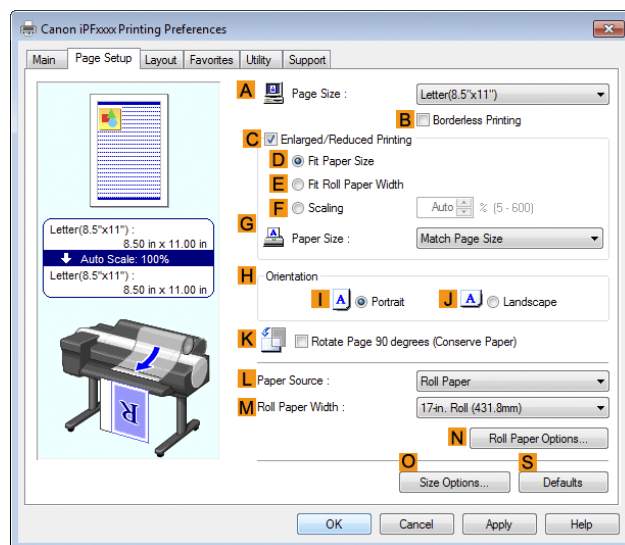

3 Make sure the **Main** sheet is displayed.

4 In the **A Media Type** list, select the type of paper that is loaded. In this case, click Plain Paper.

5 Select the print target in the **E Print Target** list.

6 Click the **Page Setup** tab to display the **Page Setup** sheet.

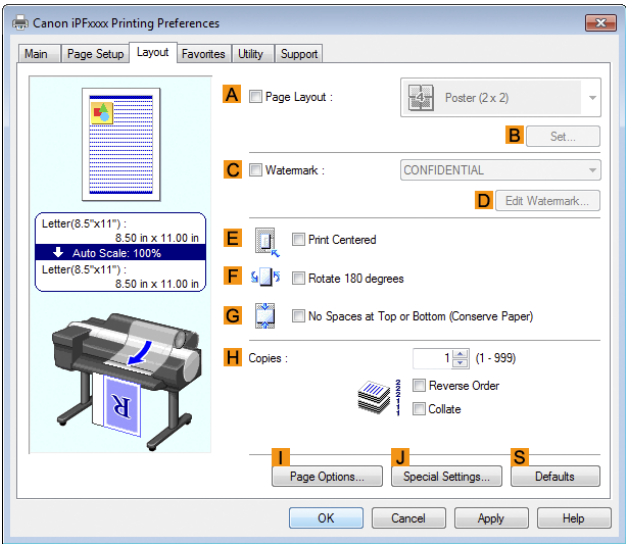

7 In the **A Page Size** list, click the size of the original as specified in the application. In this case, click **ISO A4** or **Letter (8.5"x11")**.

8 Select and click a roll paper in the **L Paper Source** list.

9 Select the width of the loaded roll in the **M Roll Paper Width** list—in this case, **ISO A3/A4 Roll (297.0mm)**.

10 Click the **Layout** tab to display the **Layout** sheet.

11 Select the **E Print Centered** check box.

12 Confirm the print settings and print as desired.

Note

- For tips on confirming print settings, see "Confirming Print Settings ." →P.154

Printing Originals Centered on Rolls (Mac OS)

This topic describes how to center originals before printing on rolls based on the following example.

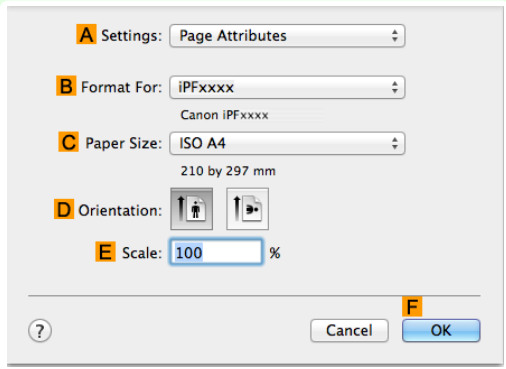

- Document: Any Type
- Page size: A4 (210.0 × 297.0 mm [8.3 × 11.7 in])
- Paper: Roll paper
- Paper type: Plain Paper
- Roll paper width: A3/A4 roll (297.0 mm [11.7 in])

1 This sets the **B Format for** and **C Paper Size**.

Note

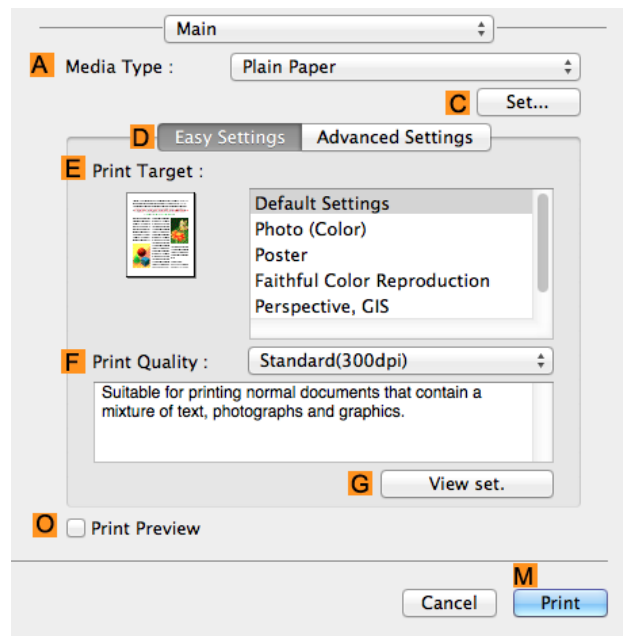

- The configuration method varies depending on the OS and application software you are using. If **Page Setup** is displayed in the application menu, the settings are configured by opening the **Page Attributes** dialog box from **Page Setup**.

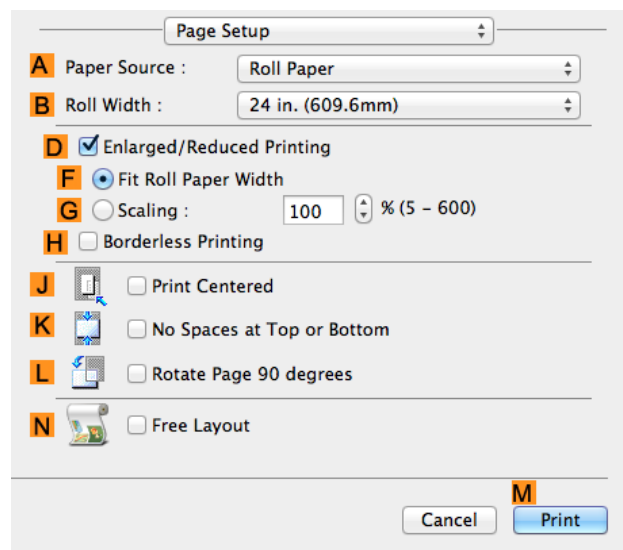

If it is not displayed, the settings are configured in the upper part of the printer driver displayed when you select **Print** from the application software menu.

- 2 Select the printer in the **A Printer** list.
- 3 In the **F Paper Size** list, click the size of the original. In this case, click **ISO A4**.
- 4 If you configured the settings using the **Page Attributes** dialog box, click **F OK** to close the dialog box, and then select **Print** from the application software menu.
- 5 Access the **Main** pane.

- 6 In the **A Media Type** list, select the type of paper that is loaded. In this case, click Plain Paper.
- 7 Make your selection in the **E Print Target** list.
- 8 Make your selection in the **F Print Quality** list.
- 9 Access the **Page Setup** pane.

- 10 Select and click a roll paper in the **A Paper Source** list.

11 Select the paper width of the roll loaded in the printer for **B Roll Width**. In this case, **ISO A3/A4 (297.0mm)** is selected.

12 Make sure the **C Page Size** setting matches the original size as selected in **C Paper Size** in the **Page Attributes** dialog box—in this case, **ISO A4**.

13 Select the **J Print Centered** check box.

14 Confirm the print settings, and then click **M Print** to start printing.

- For tips on confirming print settings, see "Confirming Print Settings ." →P.271

Printing Originals Centered on Sheets

You can print originals centered on a page—for example, if the paper is larger than the original, or if you are reducing the original.

• Print Centered

If you use paper larger than the original size or print originals after reduction, the printed images may be aligned in the upper-left corner of the paper. In this case, you can center originals on sheets when printing.

For instructions on centering originals when printing on sheets, refer to the following topics, as appropriate for your computer and operating system.

- Printing Originals Centered on Sheets (Windows) →P.122
- Printing Originals Centered on Sheets (Mac OS) →P.124

Printing Originals Centered on Sheets (Windows)

This topic describes how to reduce an original 50% for printing centered on a sheet.

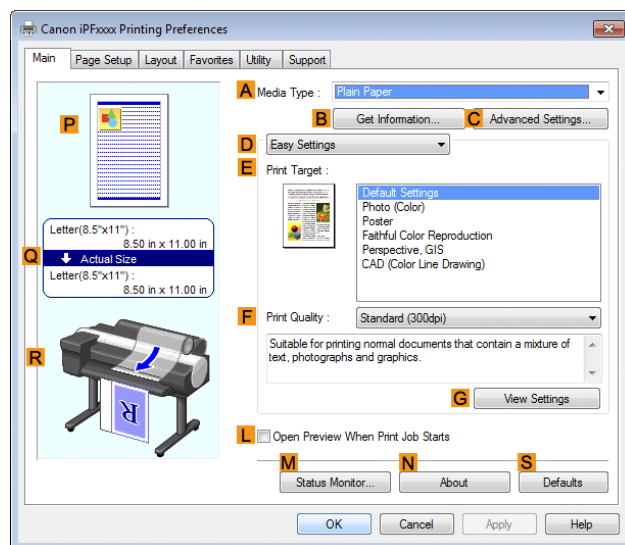

- Document: Any Type

- Page size: A4 (210.0 × 297.0 mm [8.3 × 11.7 in])
- Paper: Sheets
- Paper type: Plain Paper
- Paper size: A4 (210.0 × 297.0 mm [8.3 × 11.7 in])

1 Choose **Print** in the application menu.

2 Select the printer in the dialog box, and then display the printer driver dialog box. (See "Accessing the Printer Driver Dialog Box from Applications.") → P.157

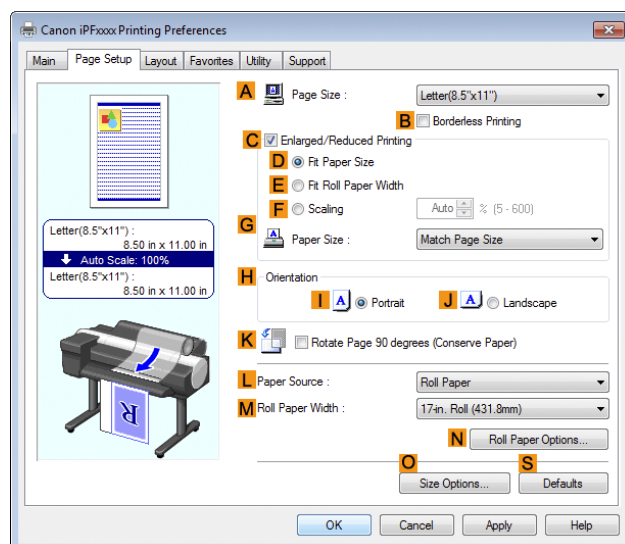

3 Make sure the **Main** sheet is displayed.

4 In the **A Media Type** list, select the type of paper that is loaded. In this case, click Plain Paper.

5 Make your selection in the **E Print Target** list.

6 Click the **Page Setup** tab to display the **Page Setup** sheet.

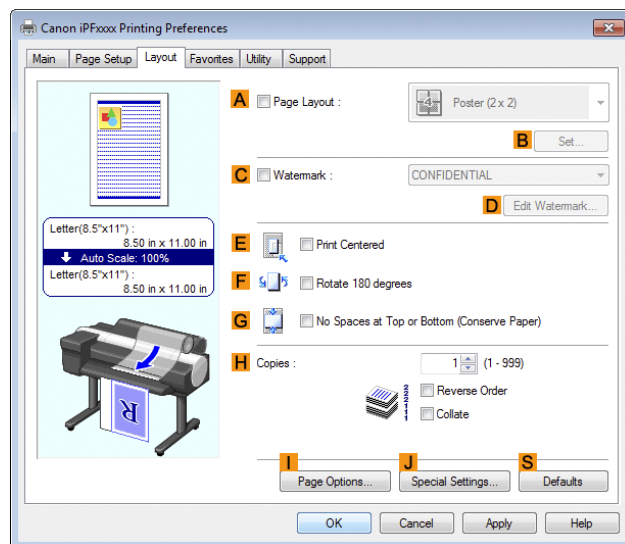

7 In the **A Page Size** list, click the size of the original as specified in the application. In this case, click **ISO A4**.

8 Select the **C Enlarged/Reduced Printing** check box.

9 Click **Match Page Size** in the **G Paper Size** list.

- 10** Click **F Scaling** and enter **50**.
- 11** Click **Manual** in the **L Paper Source** list.
- 12** Click the **Layout** tab to display the **Layout** sheet.

- 13** Select the **E Print Centered** check box.
- 14** Confirm the print settings and print as desired.

Important

- If you have selected **Manual** as the paper source, follow the instructions on the printer control panel to enter the paper size.

Note

- For tips on confirming print settings, see "Confirming Print Settings ." → P.154

Printing Originals Centered on Sheets (Mac OS)

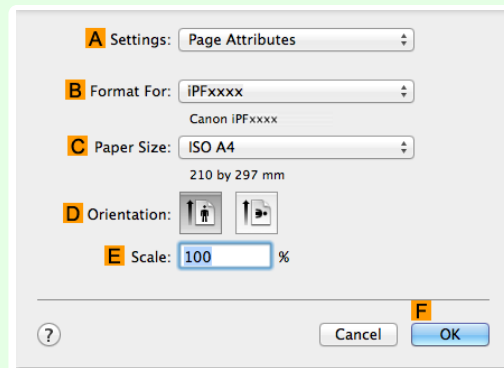

This topic describes how to center originals for printing on sheets, based on the following example.

- Document: Any Type
- Page size: A4
- Paper: Sheets
- Paper type: Plain Paper
- Paper size: Non-standard

1 This sets the **B Format for** and **C Paper Size**.

- The configuration method varies depending on the OS and application software you are using. If **Page Setup** is displayed in the application menu, the settings are configured by opening the **Page Attributes** dialog box from **Page Setup**.

If it is not displayed, the settings are configured in the upper part of the printer driver displayed when you select **Print** from the application software menu.

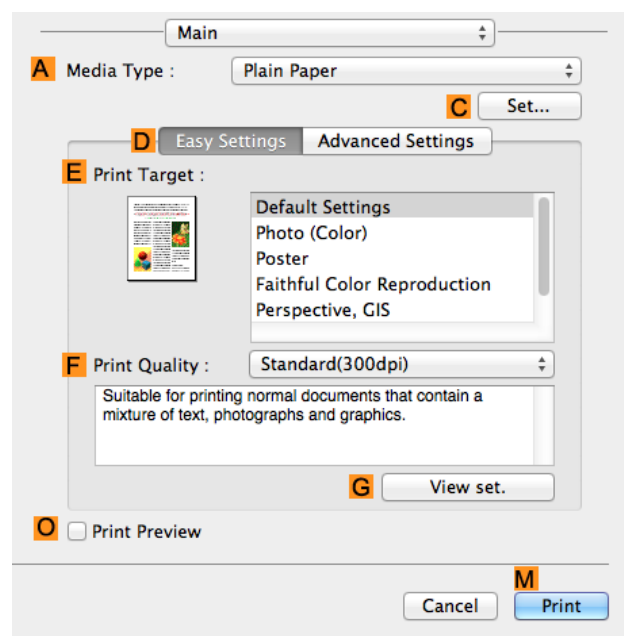

2 Select the printer in the **A Printer** list.

3 In the **F Paper Size** list, click the size of the original. In this case, click **ISO A4 - for Paper Tray (Large Margins)**.

4 If you configured the settings using the **Page Attributes** dialog box, click **F OK** to close the dialog box, and then select **Print** from the application software menu.

5 Access the **Main** pane.

6 In the **A Media Type** list, select the type of paper that is loaded. In this case, click Plain Paper.

7 Make your selection in the **E Print Target** list.

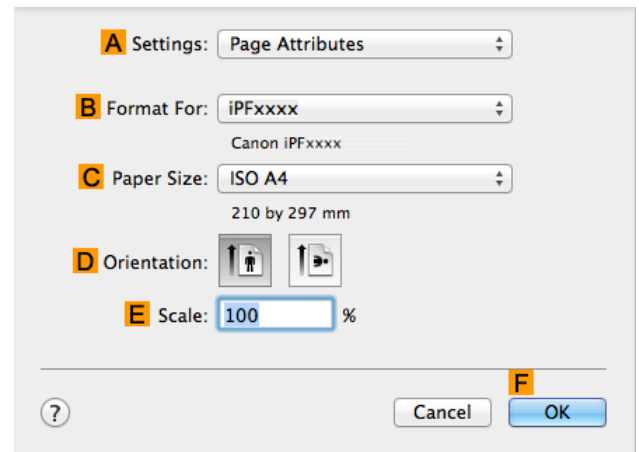

8 Make your selection in the **F Print Quality** list.

9 Access the **Page Setup** pane.

10 Click **Manual** in the **A Paper Source** list.

11 Make sure the **C Page Size** setting matches the original size as selected in **C Paper Size** in the **Page Attributes** dialog box—in this case, **ISO A4 - for Paper Tray (Large Margins)**.

12 Select the **J Print Centered** check box.

13 Confirm the print settings, and then click **M Print** to start printing.

Note

- For tips on confirming print settings, see "Confirming Print Settings ." →P.271

Important

- If you have selected **Manual** as the paper source, follow the instructions on the printer control panel to enter the paper size.

Conserving roll paper

Conserving Roll Paper by Rotating Originals 90 Degrees	127
Conserving Roll Paper by Rotating Originals 90 Degrees (Windows)	127
Conserving Roll Paper by Rotating Originals 90 Degrees (Mac OS)	129
Conserving Roll Paper by Printing Originals Without Top and Bottom Margins	131
Conserving Roll Paper by Printing Originals Without Top and Bottom Margins (Windows)	132
Conserving Roll Paper by Printing Originals Without Top and Bottom Margins (Mac OS)	133

Conserving Roll Paper by Rotating Originals 90 Degrees

You can conserve roll paper by specifying particular settings as suitable for your original.

- **Rotate Page 90 degrees (Conserve Paper)**

When originals are printed in portrait orientation, the original is rotated 90 degrees before printing if it fits within the roll width. This enables you to conserve paper.

- If the page would exceed the roll paper width after rotation, use this function with Scale to fit Roll Paper Width to print rotated pages.

For tips on conserving roll paper, refer to the following topics, as appropriate for your computer and operating system.

- **Conserving Roll Paper by Rotating Originals 90 Degrees (Windows)** →P.127
- **Conserving Roll Paper by Rotating Originals 90 Degrees (Mac OS)** →P.129

Conserving Roll Paper by Rotating Originals 90 Degrees (Windows)

This topic describes how to conserve paper by rotating originals 90 degrees before printing, based on the following example.

- Document: Any type
- Page size: A4 (210.0×297.0 mm)/Letter (8.3×11.7 in)
- Paper: Roll
- Paper type: Plain Paper
- Roll paper width: A3/A4 roll (297.0 mm [11.7 in])

This example illustrates how to rotate an A4 (210.0×297.0 mm)/Letter (8.3×11.7 in) original in portrait orientation 90 degrees to fit within the width of A3/A4 roll paper (297.0 mm [11.7 in]), which enables you to conserve paper.

- 1

Choose **Print** in the application menu.
- 2

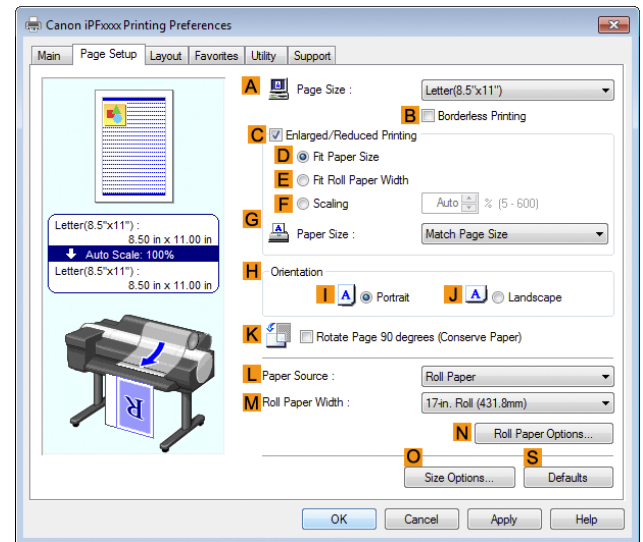

Select the printer in the dialog box, and then open the printer driver dialog box. (See "Accessing the Printer Driver Dialog Box from Applications .") →P.157

3 Make sure the **Main** sheet is displayed.

4 In the **A Media Type** list, select the type of paper that is loaded. In this case, click Plain Paper.

5 Click the **Page Setup** tab to display the **Page Setup** sheet.

6 In the **A Page Size** list, click the size of the original as specified in the application. In this case, click **ISO A4** or **Letter (8.5"x11")**.

7 Select and click a roll paper in the **L Paper Source** list.

8 Select the width of the loaded roll in the **M Roll Paper Width** list—in this case, **ISO A3/A4 Roll (297.0mm)**.

9 Select the **K Rotate Page 90 degrees (Conserve Paper)** check box.

10 Confirm the print settings and print as desired.

Note

- For tips on confirming print settings, see "Confirming Print Settings ." →P.154

Conserving Roll Paper by Rotating Originals 90 Degrees (Mac OS)

This topic describes how to conserve roll paper by rotating originals 90 degrees before printing, based on the following example.

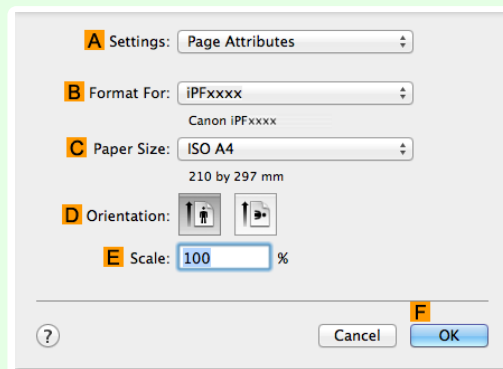

- Document: Any Type
- Page size: A4 (210.0 × 297.0 mm [8.3 × 11.7 in])
- Paper: Roll paper
- Paper type: Plain Paper
- Roll paper width: A3/A4 roll (297.0 mm [11.7 in])

This example illustrates how to rotate an A4 (210.0×297.0 mm)/Letter (8.3 × 11.7 in) original in portrait orientation 90 degrees to fit within the width of A3/A4 roll (297.0 mm [11.7 in]), which enables you to conserve paper.

1 This sets the **B Format for** and **C Paper Size**.

- The configuration method varies depending on the OS and application software you are using. If **Page Setup** is displayed in the application menu, the settings are configured by opening the **Page Attributes** dialog box from **Page Setup**.

If it is not displayed, the settings are configured in the upper part of the printer driver displayed when you select **Print** from the application software menu.

2 Select the printer in the **A Printer** list.

3 In the **F Paper Size** list, click the size of the original. In this case, click **ISO A4**.

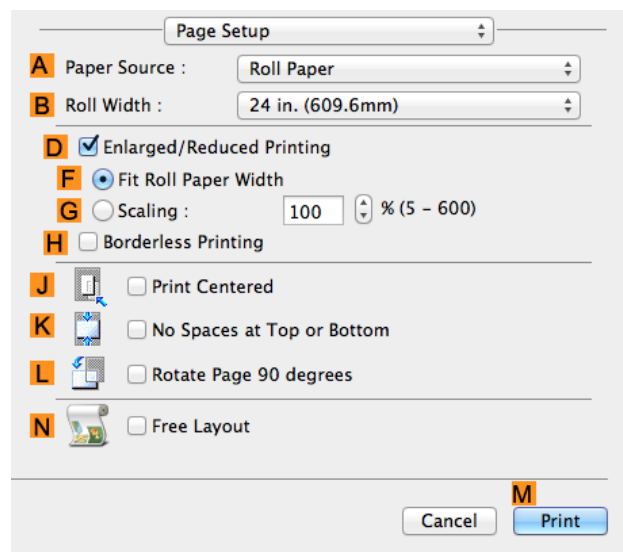

4 If you configured the settings using the **Page Attributes** dialog box, click **F OK** to close the dialog box, and then select **Print** from the application software menu.

5 Access the **Main** pane.

6 In the **A Media Type** list, select the type of paper that is loaded. In this case, click Plain Paper.

7 Access the **Page Setup** pane.

8 Select and click a roll paper in the **A Paper Source** list.

9 Select the paper width of the roll loaded in the printer for **B Roll Width**. In this case, **ISO A3/A4 (297.0mm)** is selected.

- 10** Make sure the **C Page Size** setting matches the original size as selected in **C Paper Size** in the **Page Attributes** dialog box—in this case, **ISO A4**.

- 11** Select the **L Rotate Page 90 degrees** check box.

- 12** Confirm the print settings, and then click **M Print** to start printing.

Note

- For tips on confirming print settings, see "Confirming Print Settings ." →P.271

Conserving Roll Paper by Printing Originals Without Top and Bottom Margins

You can conserve roll paper by specifying particular settings as suitable for your original.

• No Spaces at Top or Bottom (Conserve Paper)

You can print without feeding the paper for blank portions of originals if there are top and bottom margins in originals. This enables you to conserve as much paper as the size of the margins.

Important

- Printing without the top and bottom margins is not supported in the following cases.

- If you have chosen poster as the type of page layout

Note

- Even during borderless printing, you can print without the top and bottom margins.
- Printing without the top and bottom margins may cause inconsistency in the size of printed documents, depending on the layout of images or text in your originals.

For tips on conserving roll paper, refer to the following topics, as appropriate for your computer and operating system.

- Conserving Roll Paper by Printing Originals Without Top and Bottom Margins (Windows) →P.132
- Conserving Roll Paper by Printing Originals Without Top and Bottom Margins (Mac OS) →P.133

Conserving Roll Paper by Printing Originals Without Top and Bottom Margins (Windows)

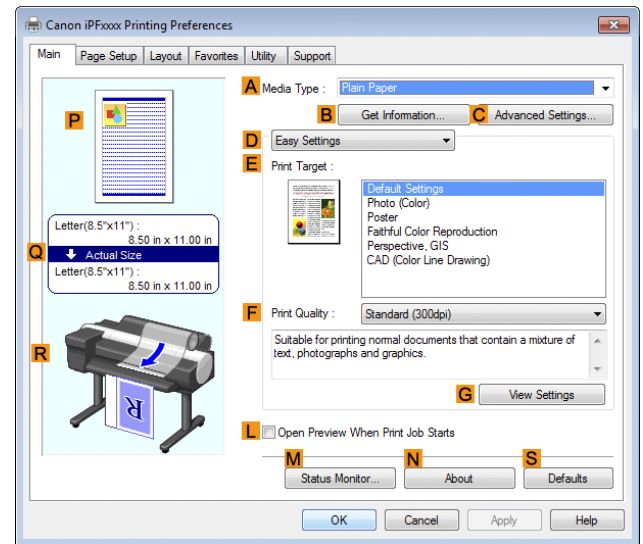

This topic describes how to conserve roll paper when printing originals that have a top and bottom margin, based on the following example.

- Document: Any type
- Page size: A4 (210.0×297.0 mm)/Letter (8.3 × 11.7 in)
- Paper: Roll
- Paper type: Plain Paper
- Roll paper width: A3/A4 roll (297.0 mm [11.7 in])

1 Choose **Print** in the application menu.

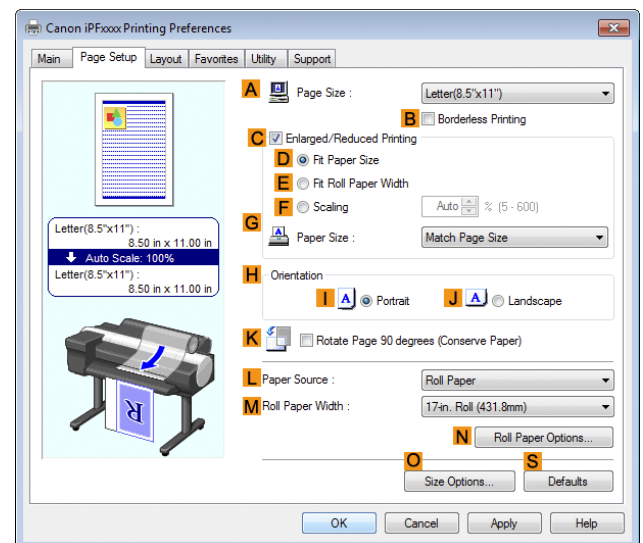

2 Select the printer in the dialog box, and then display the printer driver dialog box. (See "Accessing the Printer Driver Dialog Box from Applications .") →P.157

3 Make sure the **Main** sheet is displayed.

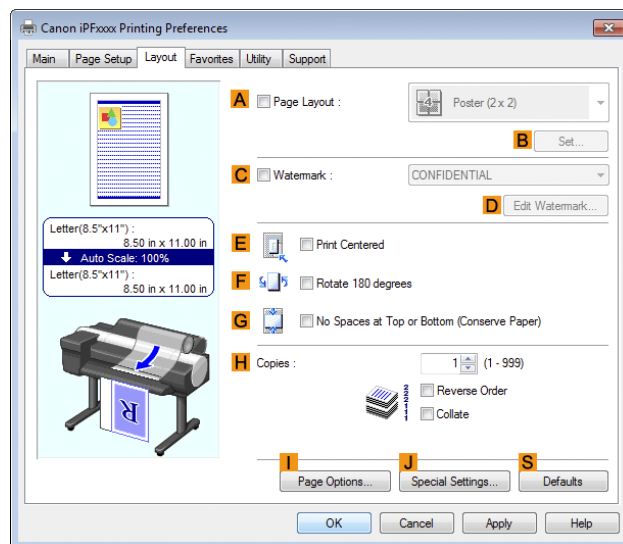

4 In the **A Media Type** list, select the type of paper that is loaded. In this case, click Plain Paper.

5 Click the **Page Setup** tab to display the **Page Setup** sheet.

6 In the **A Page Size** list, click the size of the original as specified in the application. In this case, click **ISO A4** or **Letter (8.5"x11")**.

- 7** Select and click a roll paper in the **L Paper Source** list.
- 8** Select the width of the loaded roll in the **M Roll Paper Width** list—in this case, **ISO A3/A4 Roll (297.0mm)**.
- 9** Click the **Layout** tab to display the **Layout** sheet.

- 10** Select the **G No Spaces at Top or Bottom (Conserve Paper)** check box.
- 11** Confirm the print settings and print as desired.

Note

- For tips on confirming print settings, see "Confirming Print Settings ." →P.154

Conserving Roll Paper by Printing Originals Without Top and Bottom Margins (Mac OS)

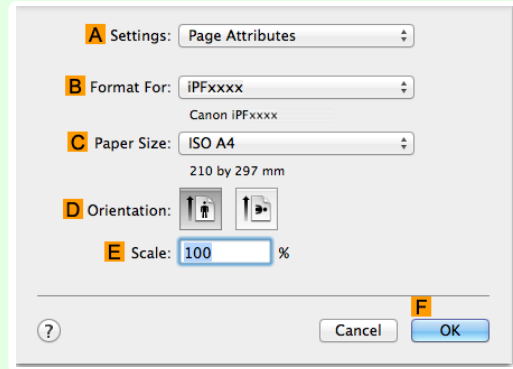

This topic describes how to conserve roll paper when printing originals that have a top and bottom margin, based on the following example.

- Document: Any Type
- Page size: A4 (210.0 × 297.0 mm [8.3 × 11.7 in])
- Paper: Roll paper
- Paper type: Plain Paper
- Roll paper width: A3/A4 roll (297.0 mm [11.7 in])

1 This sets the **B Format for** and **C Paper Size**.

- The configuration method varies depending on the OS and application software you are using. If **Page Setup** is displayed in the application menu, the settings are configured by opening the **Page Attributes** dialog box from **Page Setup**.

If it is not displayed, the settings are configured in the upper part of the printer driver displayed when you select **Print** from the application software menu.

2 Select the printer in the **A Printer** list.

3 In the **F Paper Size** list, click the size of the original. In this case, click **ISO A4**.

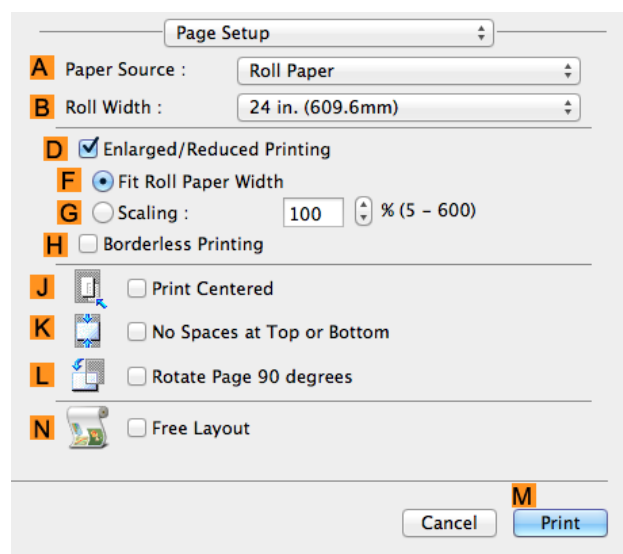

4 If you configured the settings using the **Page Attributes** dialog box, click **F OK** to close the dialog box, and then select **Print** from the application software menu.

5 Access the **Main** pane.

6 In the **A Media Type** list, select the type of paper that is loaded. In this case, click **Plain Paper**.

7 Access the **Page Setup** pane.

8 Select and click a roll paper in the **A Paper Source** list.

9 Select the paper width of the roll loaded in the printer for **B Roll Width**. In this case, **ISO A3/A4 (297.0mm)** is selected.

10 Make sure the **C Page Size** setting matches the original size as selected in **C Paper Size** in the **Page Attributes** dialog box—in this case, **ISO A4**.

11 Select the **K No Spaces at Top or Bottom** check box.

12 Confirm the print settings, and then click **M Print** to start printing.

Note

- For tips on confirming print settings, see "Confirming Print Settings ." →P.271

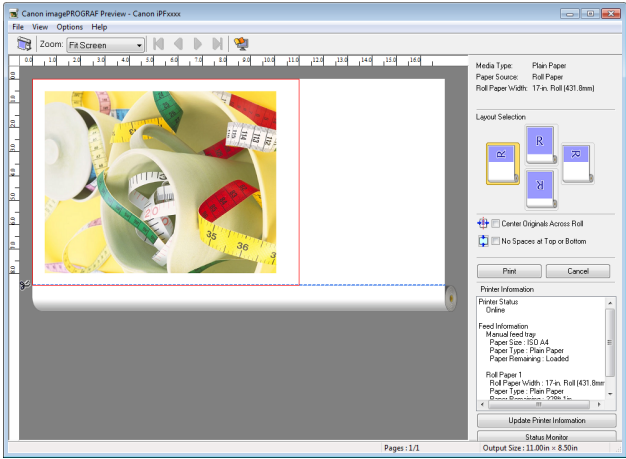

Checking Images Before Printing

Checking the Layout in a Preview Before Printing

You can check the print layout on the preview screen.

- **Open Preview When Print Job Starts (Windows)**

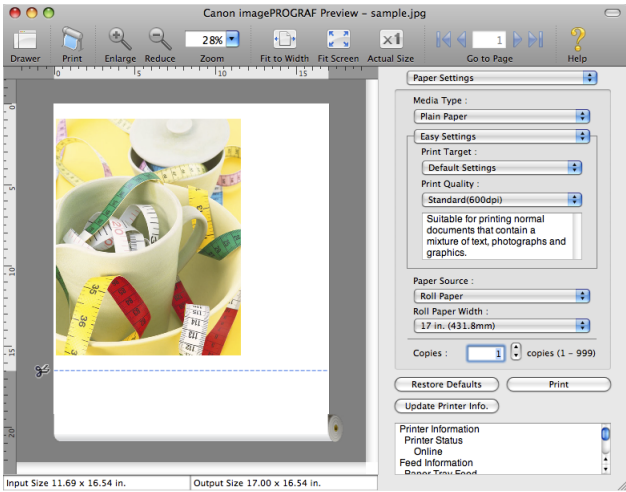

While viewing the preview screen, you can also adjust orientation or other settings, and your changes will be instantly applied on the preview screen.

• Under some settings and in some environments, PageComposer may be started.

- **Preview (Mac OS)**

While viewing the preview screen, you can also adjust layout or size settings, and your changes will be instantly applied on the preview screen.

For instructions on how to check the layout before printing, refer to the following topics:

- **Checking the Layout in a Preview Before Printing (Windows)** →P.154
- **Checking the Layout in a Preview Before Printing (Mac OS)** →P.271

Printing With Watermarks

You can add watermarks (background images) to documents that require special handling.

• Watermark

Watermarks are applied to all pages of your document.

• Watermarks are not printed if you select poster as the type of page layout.

The following watermarks are provided:

- CONFIDENTIAL
- COPY
- DRAFT
- FILE COPY
- FINAL
- PRELIMINARY
- PROOF
- TOP SECRET

You can also create your own watermarks. Specify the following options to customize your watermark.

- Watermark string: Specify the font, size, color, and so on. Surround the watermark with a frame, if desired.
- Watermark position: Specify the position on the page, the angle, and so on.
- Watermark printing method: Specify whether to print the watermark superimposed or under the document image. You can also print the watermark only on the first page, if desired.

Note

- Watermarks are supported in Windows.
- In addition to the provided watermarks, you can create up to 50 original watermarks.

For detailed instructions on printing with watermarks, refer to the following topics:

- **Printing with Watermarks—COPY, FILE COPY, and so on (Windows)** →P.138

Printing with Watermarks—COPY, FILE COPY, and so on (Windows)

This topic describes how to print with watermarks, based on the following example of printing with a **FILE COPY** watermark.

- Document: Any type
- Page size: A2 (420.0×594.0 mm [16.5 × 23.4 in])
- Paper: Roll paper
- Paper type: Plain Paper
- Roll paper width: A2/A3 roll (420.0 mm [16.5 in])

1

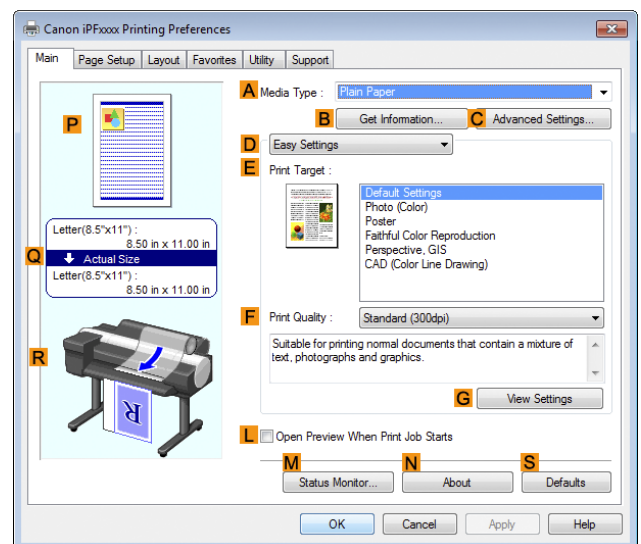

Choose **Print** in the application menu.

2

Select the printer in the dialog box, and then display the printer driver dialog box. (See "Accessing the Printer Driver Dialog Box from Applications.") →P.157

3

Make sure the **Main** sheet is displayed.

4

In the **A Media Type** list, select the type of paper that is loaded. In this case, click Plain Paper.

5

Make your selection in the **E Print Target** list.

Note

- You can check the settings values selected in the **E Print Target** list by clicking **G View Settings**.

- 6** Click the **Page Setup** tab to display the **Page Setup** sheet.

- 7** In **A Page Size**, click the size of the original as specified in the application software. In this case, click **ISO A2**.
- 8** Select and click a roll paper in the **L Paper Source** list.
- 9** Select the width of the loaded roll in the **M Roll Paper Width** list—in this case, **ISO A2/A3 Roll (420.0mm)**.
- 10** Click the **Layout** tab to display the **Layout** sheet.

- 11** Select the **C Watermark** check box.
- 12** Click **FILE COPY** in the **Watermarks** list.

Note

- Click **D Edit Watermark** to open the **Edit Watermark** dialog box. In the **Edit Watermark** dialog box, you can create custom watermarks and change the position and angle of watermarks.

- 13** Confirm the print settings and print as desired.

Note

- For tips on confirming print settings, see "Confirming Print Settings ." →P.154

Making the Original Orientation Match the Paper Orientation

You can specify the original orientation to match the orientation of the paper for printing.

- **Orientation**

Paper is usually loaded in the printer in portrait orientation. When you have an original in landscape orientation, you can specify the printing orientation so that the original is printed in landscape orientation.

- **Rotate 180 degrees**

The original is rotated 180 degrees to print it upside down.

- **Mirror**

A mirror image of the original is printed.

For instructions on specifying the original orientation before printing, refer to the following topics, as appropriate for your computer and operating system.

- Making the Original Orientation Match the Paper Orientation (Windows) →P.140
- Making the Original Orientation Match the Paper Orientation (Mac OS) →P.142

Making the Original Orientation Match the Paper Orientation (Windows)

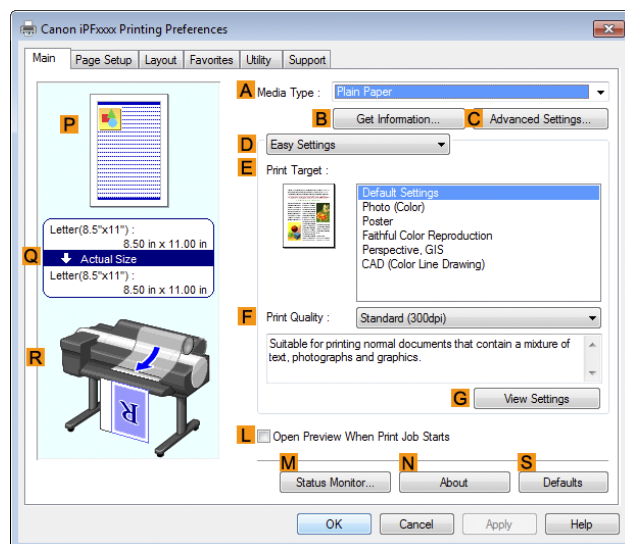

This topic describes how to print an original in landscape orientation after matching the paper orientation, based on the following example.

- Document: An original in landscape orientation
- Page size: A4 (210.0 × 297.0 mm)/Letter (8.3 × 11.7 in)
- Paper: Roll
- Paper type: Plain Paper
- Roll paper width: A2/A3 roll (420.0 mm [16.5 in])

1 Choose **Print** in the application menu.

2 Select the printer in the dialog box, and then open the printer driver dialog box. (See "Accessing the Printer Driver Dialog Box from Applications .") →P.157

3 Make sure the **Main** sheet is displayed.

4 In the **A Media Type** list, select the type of paper that is loaded. In this case, click Plain Paper.

5 Make your selection in the **E Print Target** list.

6 Make your selection in the **F Print Quality** list.

7 Click the **Page Setup** tab to display the **Page Setup** sheet.

8 In the **A Page Size** list, click the size of the original as specified in the application. In this case, click **ISO A4** or **Letter (8.5"x11")**.

9 In **H Orientation**, click **J Landscape**.

10 Select and click a roll paper in the **L Paper Source** list.

11 Select the width of the loaded roll in the **M Roll Paper Width** list—in this case, **ISO A2/A3 Roll (420.0mm)**.

12 Confirm the print settings and print as desired.

- For tips on confirming print settings, see "Confirming Print Settings ." → P.154

Making the Original Orientation Match the Paper Orientation (Mac OS)

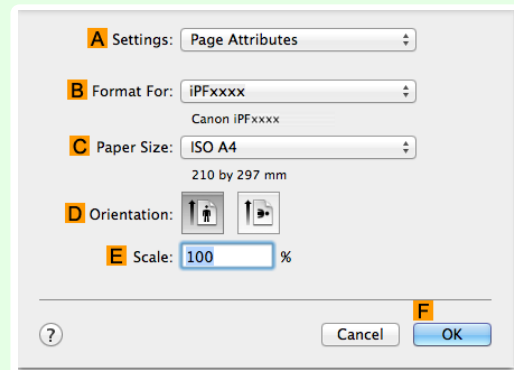

This topic describes how to print an original in landscape orientation after matching the paper orientation, based on the following example.

- Document: An original in landscape orientation
- Page size: A4 (210.0 × 297.0 mm [8.3 × 11.7 in])
- Paper: Roll paper
- Paper type: Plain Paper
- Roll paper width: A2/A3 roll (420.0 mm [16.5 in])

1 This sets the **B Format for** and **C Paper Size**.

- The configuration method varies depending on the OS and application software you are using. If **Page Setup** is displayed in the application menu, the settings are configured by opening the **Page Attributes** dialog box from **Page Setup**.

If it is not displayed, the settings are configured in the upper part of the printer driver displayed when you select **Print** from the application software menu.

2 Select the printer in the **A Printer** list.

3 In the **F Paper Size** list, click the size of the original. In this case, click **ISO A4**.

4 In **G Orientation**, click the icon of the document in landscape orientation.

5 If you configured the settings using the **Page Attributes** dialog box, click **F OK** to close the dialog box, and then select **Print** from the application software menu.

6 Access the **Main** pane.

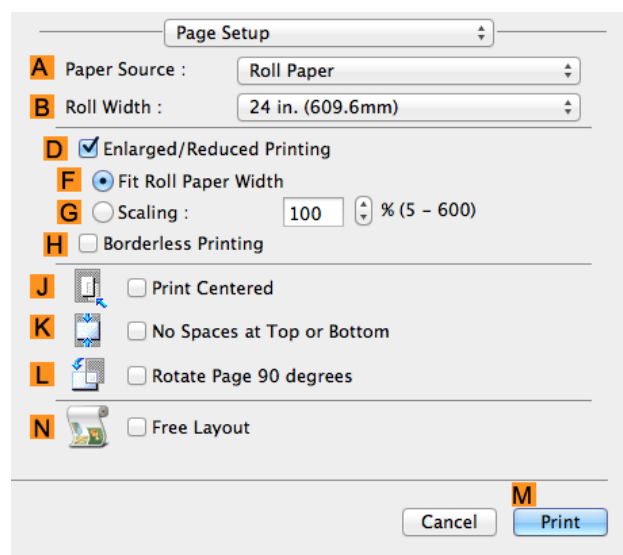

7 In the **A Media Type** list, select the type of paper that is loaded. In this case, click Plain Paper.

8 Make your selection in the **E Print Target** list.

9 Make your selection in the **F Print Quality** list.

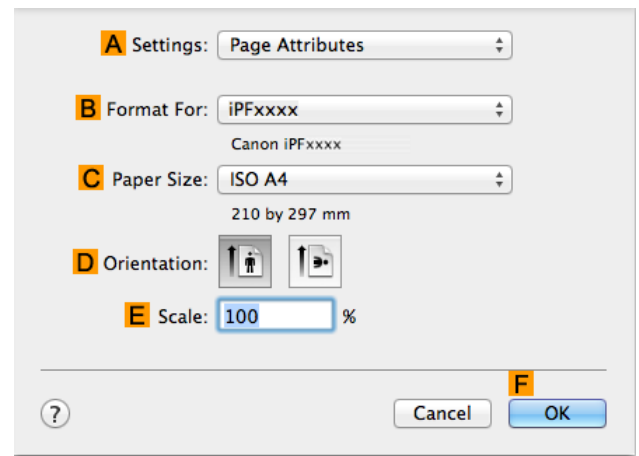

10 Access the **Page Setup** pane.

11 Select and click a roll paper in the **A Paper Source** list.

12 Select the paper width of the roll loaded in the printer for **B Roll Width**. In this case, **ISO A2/A3 (420.0mm)** is selected.

- 13** Make sure the **C Page Size** setting matches the original size as selected in **C Paper Size** in the **Page Attributes** dialog box—in this case, **ISO A4**.

- 14** Confirm the print settings, and then click **M Print** to start printing.

- For tips on confirming print settings, see "Confirming Print Settings ." →P.271

Using Favorites

You can register print settings as **Favorites** to reuse settings from a particular job that met your expectations, or settings for a particular page size that you will use repeatedly.

• Favorites

Registering a favorite for later use. You can choose the settings you have registered from a list before printing, and you can check the settings details.

- You can also save the favorite settings as files. Using these files is a convenient way to print under the same conditions on another computer. (In Windows.)

For instructions on using favorites to print, refer to the following topics, as appropriate for your computer and operating system.

- Using Favorites (Windows) →P.156
- Using Favorites (Mac OS) →P.272

Cutting Roll Paper After Printing

Roll paper can be automatically cut after printing.

- It may not be possible to cut certain types of paper, such as adhesive paper. For details on types of paper that cannot be used with the auto cut feature, see the **Paper Reference Guide**. (See "Types of Paper.") →P.352

• Automatic Cutting

Roll paper is cut automatically after printing. If you prefer, you can print continuously without cutting the roll, or you can print a cut line.

For instructions on cutting roll paper after printing, refer to the following topics, as appropriate for your computer and operating system.

- Cutting Roll Paper After Printing (Windows) →P.145
- Cutting Roll Paper After Printing (Mac OS) →P.146

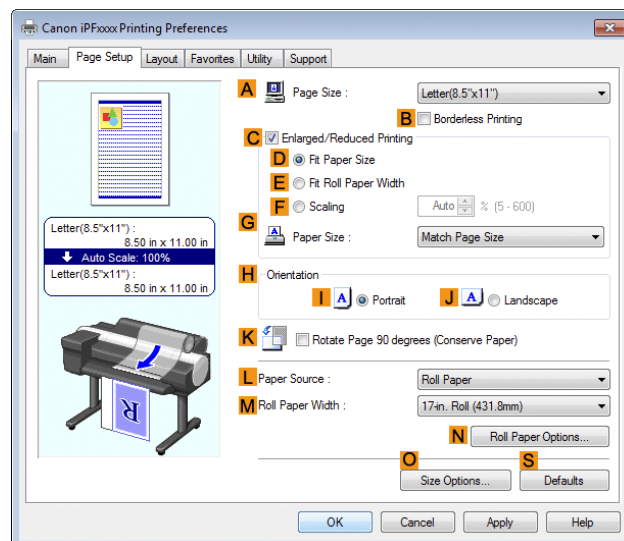

Cutting Roll Paper After Printing (Windows)

This topic describes how to cut roll paper automatically after printing (using the auto cut function), as well as how to print a cut line for manual cutting.

- The auto cut function is activated on the printer by default and when the printer driver is installed. Follow the steps below to reactivate the function if it is disabled, or to select the setting for printing a cut line instead.

- 1 Choose **Print** in the application menu.
- 2 Select the printer in the dialog box, and then display the printer driver dialog box. (See "Accessing the Printer Driver Dialog Box from Applications .") →P.157
- 3 Click the **Page Setup** tab to display the **Page Setup** sheet.

- 4 Select and click a roll paper in the **L Paper Source** list.
- 5 Click **N Roll Paper Options** to display the **Roll Paper Options** dialog box.

- 6 To enable automatic cutting, click **Yes** in the **A Automatic Cutting** list. If you prefer to cut the paper later yourself, click **Print Cut Guideline**.
- 7 Click **OK** to close the **Roll Paper Options** dialog box.
- 8 Confirm the print settings and print as desired.

- For tips on confirming print settings, see "Confirming Print Settings ." →P.154

Roll paper will be automatically cut after printing.

Cutting Roll Paper After Printing (Mac OS)

This topic describes how to cut roll paper automatically after printing (using the auto cut function), as well as how to print a cut line for manual cutting.

Note

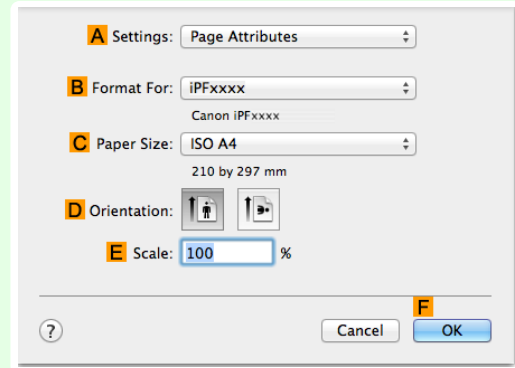

- The auto cut function is activated on the printer by default and when the printer driver is installed. Follow the steps below to reactivate the function if it is disabled, or to select the setting for printing a cut line instead.

1 This sets the **B Format for** and **C Paper Size**.

Note

- The configuration method varies depending on the OS and application software you are using. If **Page Setup** is displayed in the application menu, the settings are configured by opening the **Page Attributes** dialog box from **Page Setup**.

If it is not displayed, the settings are configured in the upper part of the printer driver displayed when you select **Print** from the application software menu.

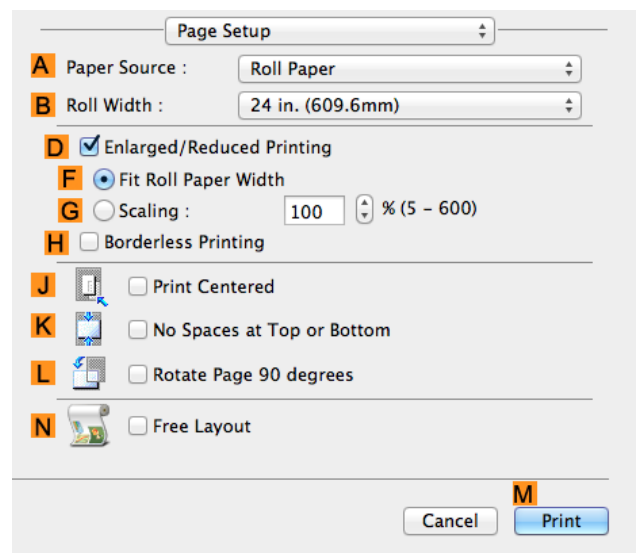

2 Select the printer in the **A Printer** list.

3 Choose the original size in the **F Paper Size** list.

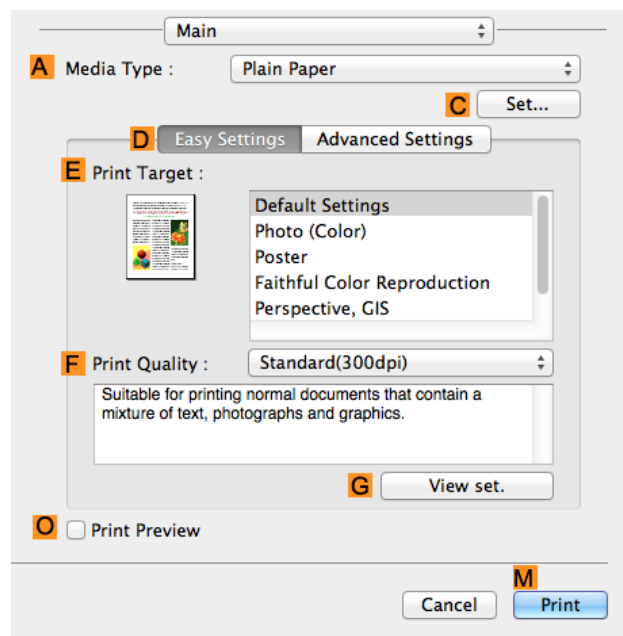

4 If you configured the settings using the **Page Attributes** dialog box, click **F OK** to close the dialog box, and then select **Print** from the application software menu.

5 Access the **Page Setup** pane.

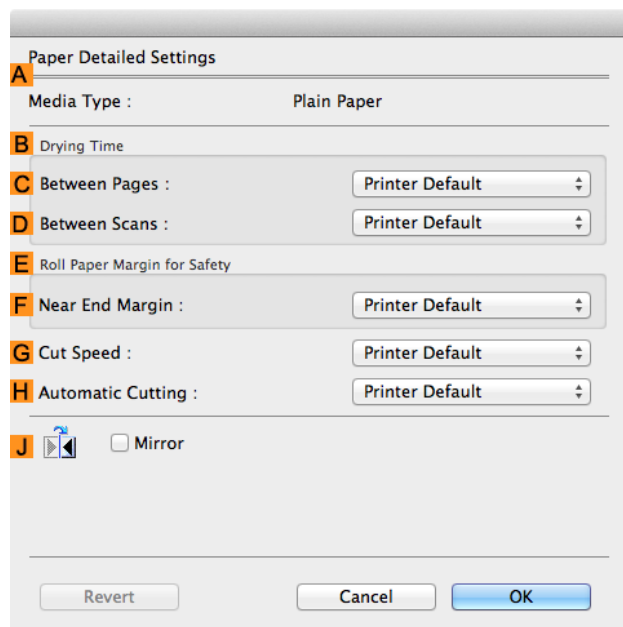

6 Select and click a roll paper in the **A Paper Source** list.

7 Access the **Main** pane.

8 In the **A Media Type** list, select the type of paper that is loaded.

9 Click **C Set** to display the **Paper Detailed Settings** dialog box.

10 To enable automatic cutting, click **Printer Default** in the **H Automatic Cutting** list. If you prefer to cut the paper later yourself, click **Print Cut Guideline**.

- If the automatic cut function has been deactivated on the printer, change the auto cut setting on the printer Control Panel.

11 Click **OK** to close the **Paper Detailed Settings** dialog box.

12 Confirm the print settings, and then click **Print** to start printing.

Note

- For tips on confirming print settings, see "Confirming Print Settings ." → P.271

Printer Driver Settings

For instructions on accessing the Windows printer driver, refer to the following topics.

- Accessing the Printer Driver Dialog Box from Applications →P.157
- Accessing the Printer Driver Dialog Box from the Operating System Menu →P.159

For information on the Windows printer driver settings, refer to the following topics.

- **Main Sheet** →P.160

You can specify the type of paper, color processing, print quality, print preview, and other settings. Choose **Easy Settings** to specify basic print settings based on the printing application or **Advanced Settings** to complete more detailed settings as desired.

- Paper Detailed Settings Dialog Box →P.163
- View Settings Dialog Box for the Printing Application →P.165
- Color Adjustment Sheet: Color →P.166
- Object Adjustment Dialog box: Color →P.167
- Matching Sheet →P.167
- Color Adjustment Sheet: Monochrome →P.169
- Object Adjustment Dialog box: Monochrome →P.170

- **Page Setup Sheet** →P.171

You can specify the page size of the original, borderless printing, enlargement or reduction, the orientation, the paper size and feed source, and automatic cutting.

- Paper Size Options Dialog Box →P.173

- **Layout Sheet** →P.174

You can specify the page layout, watermarks, the orientation, the number of copies, and print processing options.

- Page Options Dialog Box →P.176
- Special Settings Dialog Box →P.177

- **Favorites Sheet** →P.178

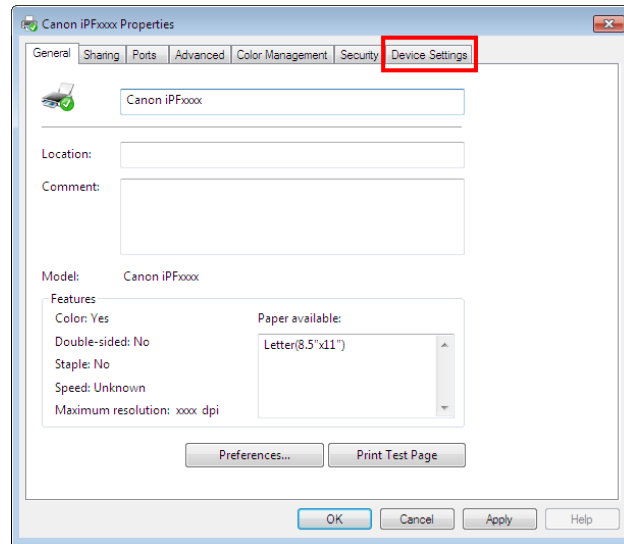

Groups of print settings you select on each sheet can be saved as a favorite. Favorites you have added can be edited or used at the time of printing as desired.

- **Utility Sheet** →P.179

You can specify settings related to maintenance for the Printhead and feed amount, as well as settings for **Color imageRUNNER Enlargement Copy**.

- **Support Sheet** →P.180

You can view support information and the user manual.

- **Device Settings Sheet** →P.181

You can display settings for optional equipment installed on the printer and see the version information for the printer driver.

imagePROGRAF Free Layout is a feature for freely arranging originals from various source applications on a single page as desired before printing. For details, see "**Free Layout**." →P.193

Color imageRUNNER Enlargement Copy is a feature for automatic enlargement and printing of scanned originals from a **Color imageRUNNER**. For details, see "**Color imageRUNNER Enlargement Copy**." →P.216

Note

- **Color imageRUNNER Enlargement Copy** cannot be used on 64-bit version of Windows.

Specifying Paper in the Printer Driver

If you have replaced the paper, you must complete the following settings in the printer driver.

Important

- Always specify the same type and size of paper in the printer menu and printer driver.

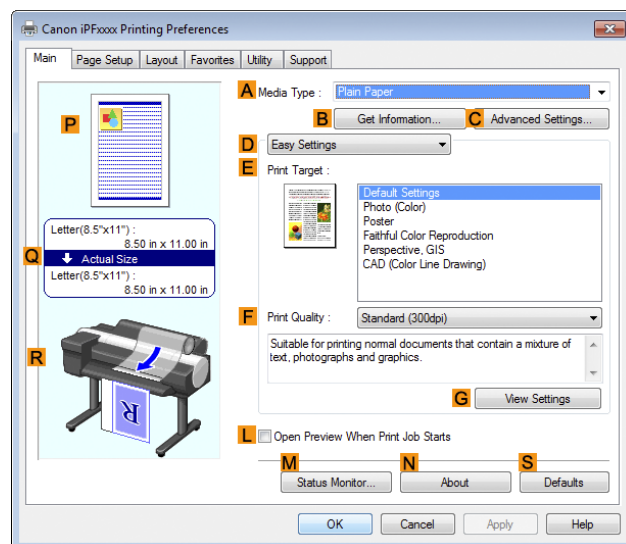

1

Choose **Print** in the application menu.

2

Select the printer in the dialog box, and then display the printer driver dialog box. (See "**Accessing the Printer Driver Dialog Box from Applications** .") →P.157

3 Make sure the **Main** sheet is displayed.

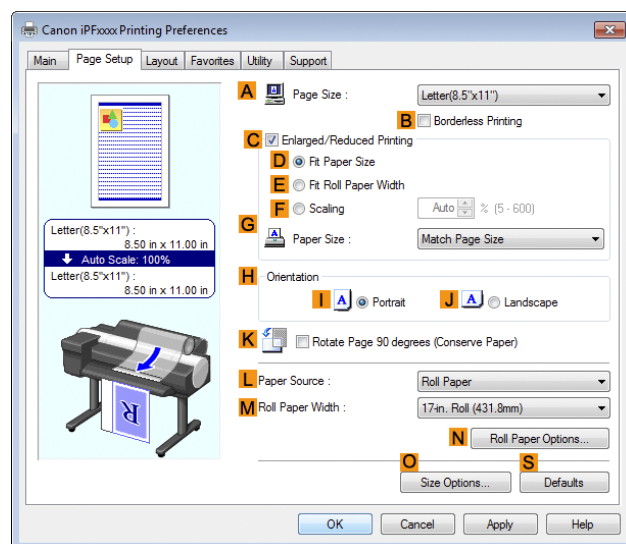

4 In the **A Media Type** list, select the type of paper that is loaded.

Note

- Click the **B Get Information** button to display the **Paper Information on Printer** dialog box. On the **Paper Information on Printer** dialog box, you can obtain information on the paper in the printer and configure printer driver settings for the feed source and type of paper. This function requires that the **Status Monitor** be installed.

5 Click the **Page Setup** tab to display the **Page Setup** sheet.

6 In the **A Page Size** list, select the size of the original as specified in the application.

7 In the **L Paper Source** list, select how paper is supplied.

8 If you have selected roll paper in **L Paper Source**, select the width of the loaded roll in **M Roll Paper Width**.

Note

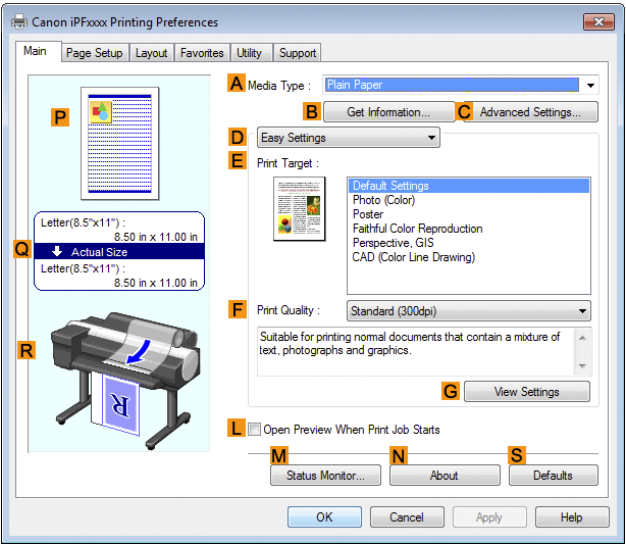

- A variety of settings are available in the printer driver to suit different printing applications. For details on available printing conditions, see "Printer Driver Settings ." → P.150

Confirming Print Settings

There are two ways to confirm the print settings, as follows.

• Checking a preview of the settings

A preview of the settings is displayed on the left side of the **Main**, **Page Setup**, and **Layout** sheets. By checking illustrations and numerical values in the preview, you can confirm current settings for the page size, orientation, paper source, layout, and so on.

Display Area	Information Displayed
P Top illustrations	Illustrations indicate the orientation, page layout, borderless printing selection, color mode, and other settings information.
Q Middle, bordered area	The page size, paper size, and method and percentage of enlargement or reduction are indicated.
R Bottom illustrations	Illustrations indicate the feed source, orientation, borderless printing selection, and other settings information.

• To confirm the **Print Target** specified in **Easy Settings**, click **G View Settings** on the **Main** sheet to display the **View Settings** dialog box.

• Checking a print preview

You can check an image of the original just as it will be printed.
When you activate this feature, **imagePROGRAF Preview** or PageComposer is started before printing. Confirming how documents will be printed this way helps prevent printing errors.
For details on print previews, see "Checking the Layout in a Preview Before Printing." →P.136

Checking the Layout in a Preview Before Printing

This topic describes how to preview images of print jobs before actually printing them.

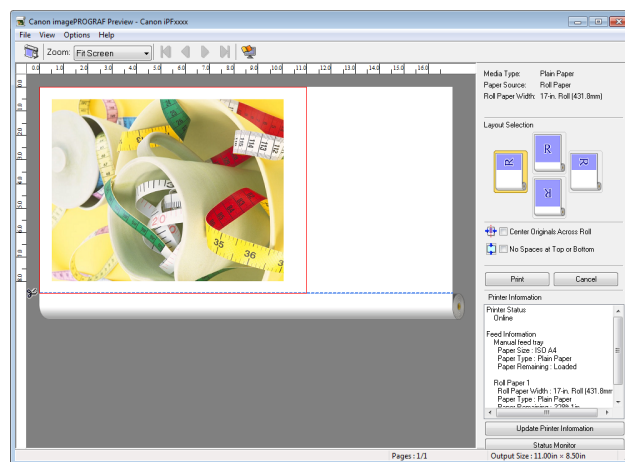

- 1 Choose **Print** in the application menu.
- 2 Select the printer in the dialog box, and then display the printer driver dialog box. (See "Accessing the Printer Driver Dialog Box from Applications .") →P.157

3 Make sure the **Main** sheet is displayed.

4 Select the **L Open Preview When Print Job Starts** check box.

5 After you click **OK**, when you print a job, the **image-PROGRAF Preview** window will be displayed.

Note

- If PageComposer is running, access the **Special Settings** dialog box from the **Layout** sheet and clear **Enable Preview Switching**.

6 On the main window, you can check the layout and change settings as needed.

7 To print, click **Print** in the **File** menu.

Note

- For details on **imagePROGRAF Preview** functions, see "**Preview**." →P.182

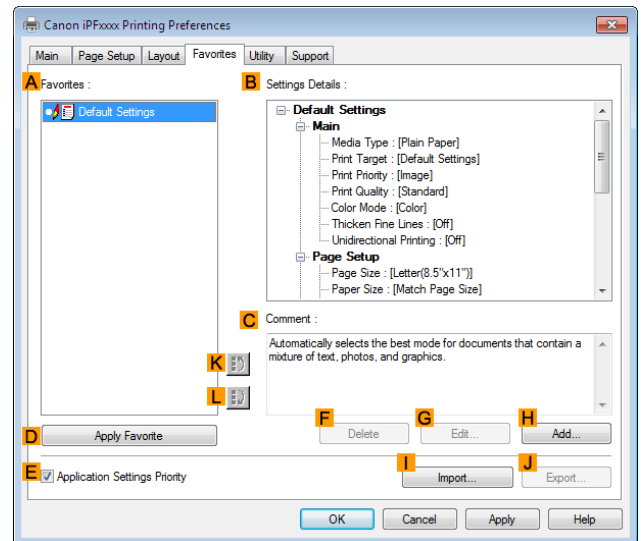

Using Favorites

This topic describes how to register favorites and print using favorite settings.

Registering a favorite

This section describes the procedure for registering printing settings that have been changed in the driver as **Favorites**.

- 1 Choose **Print** in the application menu.
- 2 Select the printer in the dialog box, and then display the printer driver dialog box. (See "Accessing the Printer Driver Dialog Box from Applications .") →P.157
- 3 Perform normal printing settings.
The favorite is registered from here.
- 4 Click the **Favorites** tab to display the **Favorites** sheet.

- 5 Click **Add** to display the **Add** dialog box.

- 6 Enter a desired name in **Name**, such as **Photos for Presentations** or **Monthly Report**.
- 7 Choose a fitting icon for these print settings in the Icon list.
- 8 In **Comment**, enter a description of the favorite to be added, as desired.

- 9** Click **OK** to close the **Add** dialog box.
The favorite you have added is now displayed in **A Favorites**.

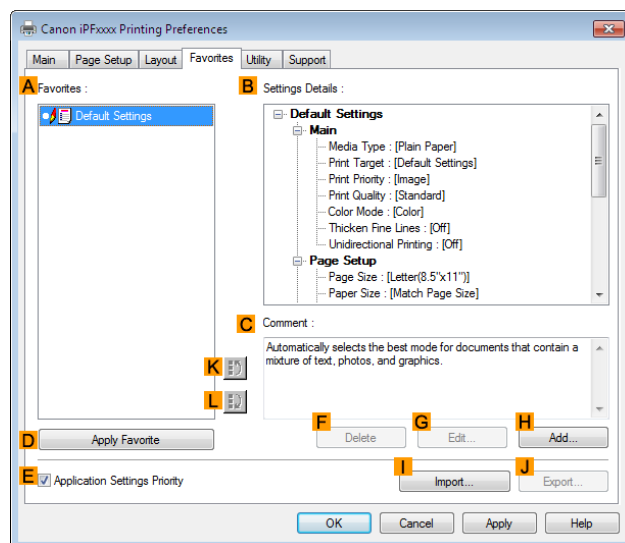

Note

- To save a favorite as a file, click **J Export** and specify the file to save.

Printing using the favorite

Follow the steps below to print using the favorite you have registered.

- 1** Choose **Print** in the application menu.
- 2** Select the printer in the dialog box, and then display the printer driver dialog box. (See "Accessing the Printer Driver Dialog Box from Applications .") →P.157
- 3** Click the **Favorites** tab to display the **Favorites** sheet.

- 4** In the **A Favorites**, choose the favorite you registered.

Note

- To import a favorite, click **I Import** and specify the favorite file.

- 5** Click **D Apply Favorite** to replace the favorite settings with the current print settings.

- 6** Confirm the print settings and print as desired.

Note

- For instructions on confirming print settings, see "Confirming Print Settings ." →P.154

Accessing the Printer Driver Dialog Box from Applications

- 1** Choose **Print** from the **File** menu to display the dialog box for printing conditions.

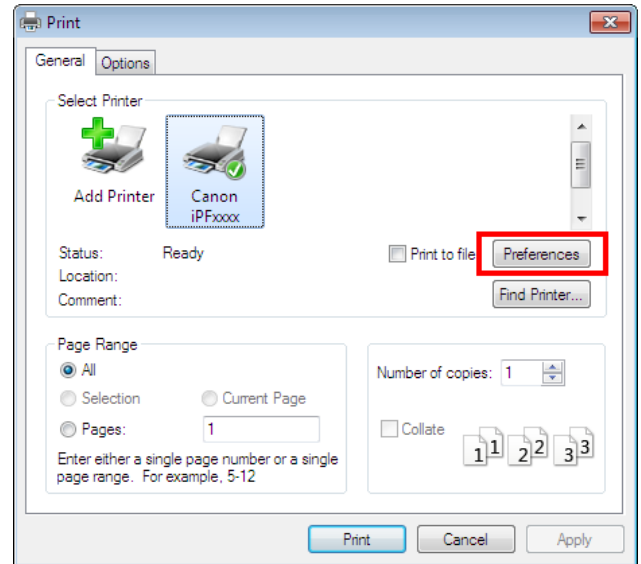

2 Select the printer, and then display the printer driver dialog box.

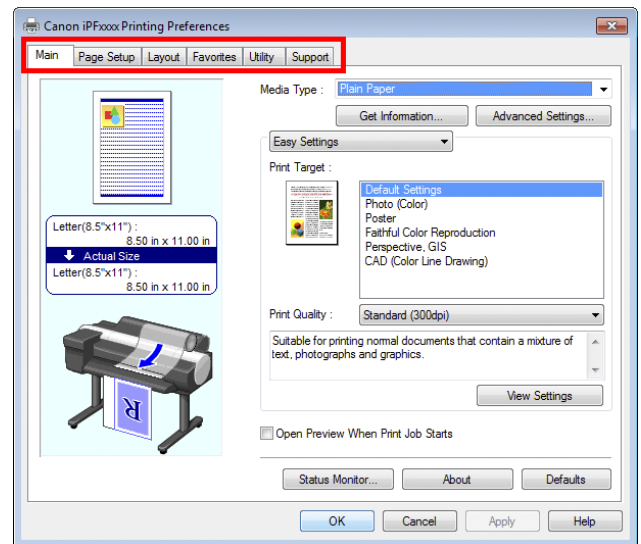

Note

- The dialog box for specifying printing conditions varies depending on the source application. In some cases, when you select the printer, a sheet for configuring the printer driver is added to the dialog box. In the following case, click **Preferences**.

- Example: **Print** dialog box displayed by the application software

Six sheets of print settings are displayed by the printer driver: **Main**, **Page Setup**, **Layout**, **Favorites**, **Utility**, and **Support**.

Note

- The titles of dialog boxes may vary depending on the application, and sheets other than these six sheets may be displayed.

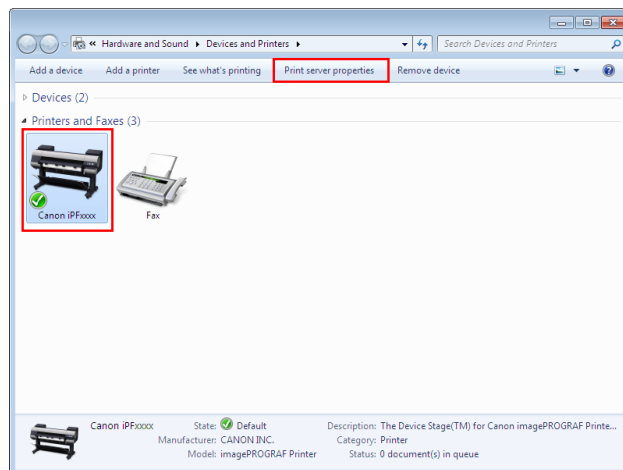

Important

- If you access the printer driver dialog box from the source application, changes you make to the settings will only apply temporarily to that application. Because these are sizes you specify temporarily in the printer driver, the sizes will not be available after you exit the application.
- You can also access the printer driver dialog box from the Windows system menu. To use the settings continuously in all applications, open the printer driver from the system menu to make the settings.
(See "Accessing the Printer Driver Dialog Box from the Operating System Menu .") → P.159

Accessing the Printer Driver Dialog Box from the Operating System Menu

- 1 Click **start > Printers and Faxes** (or **Printers**).
- 2 Select the printer, and then display the printer properties dialog box.

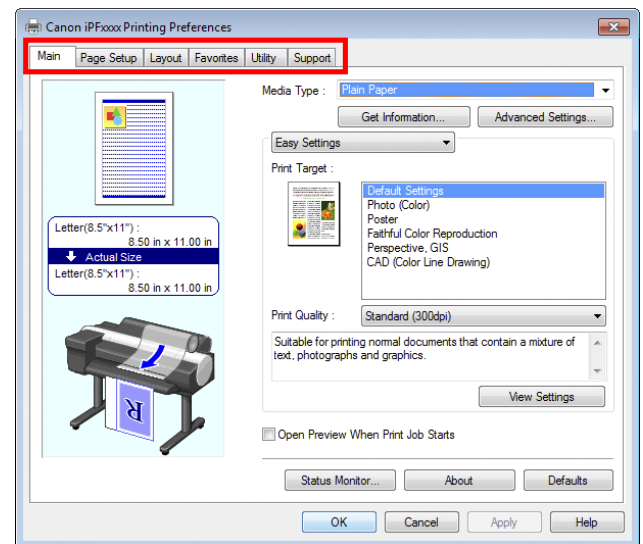

- 3 Click **Printing Preferences** to display the **Main(or Printing Preferences)** dialog box, titled with the name of this printer.

Note

- The **Device Settings** sheet is also an extension of the printer driver. (See "Device Settings Sheet .") →P.181

Six sheets of print settings are displayed by the printer driver: **Main**, **Page Setup**, **Layout**, **Favorites**, **Utility**, and **Support**.

- If you access the printer driver dialog box from the operating system menu, changes you make to the settings will apply to all applications you use for printing.
- You can also access the printer driver dialog box from applications.
(See "Accessing the Printer Driver Dialog Box from Applications.") → P.157

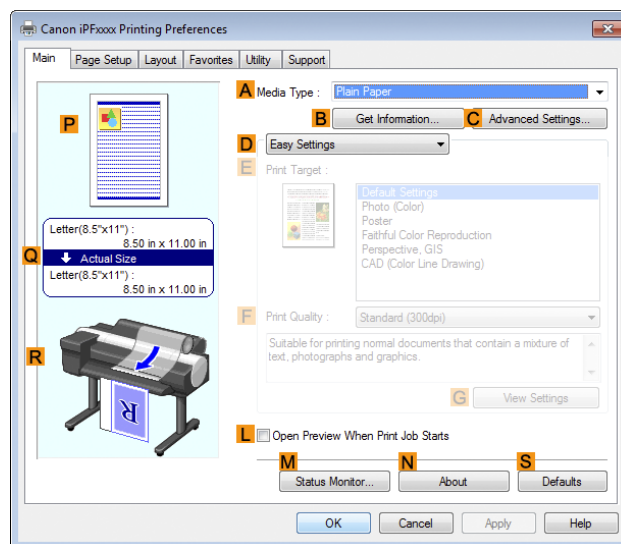

Main Sheet

The following settings are available on the **Main** sheet. For details on settings items, refer to the printer driver help file.

- On the **Main** sheet, choose **Easy Settings** to specify basic print settings based on the particular printing application, or switch to **Advanced Settings** to complete more detailed settings as desired.

Common Items

• A Media Type

Select the type of paper.

For information on the types of paper the printer supports, refer to the **Paper Reference Guide**. (See "Displaying the Paper Reference Guide.") → P.356

• **B** Get Information

Displays **Paper Information on Printer**. You can update the printer driver settings for the feed source, media type, and roll width by selecting the feed source.

- Paper Information on Printer Dialog Box →P.163

• **C** Advanced Settings

Displays **Paper Detailed Settings**. You can configure the printing settings to match the type of media, such as the ink drying time.

- Paper Detailed Settings Dialog Box →P.163

• **L** Open Preview When Print Job Starts

If you select this option, **imagePROGRAF Preview** starts before printing. This allows you to check on-screen previews of documents before printing.

- Checking the Layout in a Preview Before Printing →P.136

• **M** Status Monitor

Starts **imagePROGRAF Status Monitor**.

You can check the printer status, job status, and other conditions.

You can also set up email notification if printer errors occur by completing the **Email Notice** settings.

For details, refer to the **Status Monitor** help file.

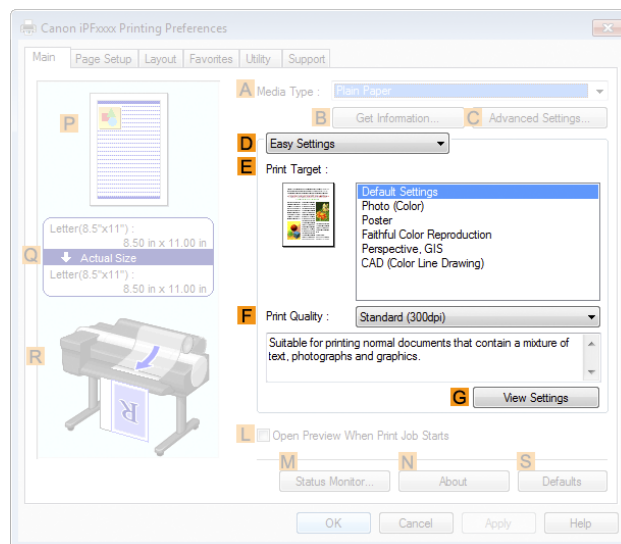

• **N** About

Displays version information for the printer driver.

• **S** Defaults

Restores all settings on the sheet to the default values.

Configuration using **Easy Settings**

• **E** Print Target

Choose presets that match the type of document to be printed.

- Printing Photos and Images →P.33

Note

- Depending on the **A** Media Type setting, some **E** Print Target options may not be available.

- **F Print Quality**

Choose the level of print quality.

- Giving Priority to Particular Graphic Elements and Colors for Printing →P.47

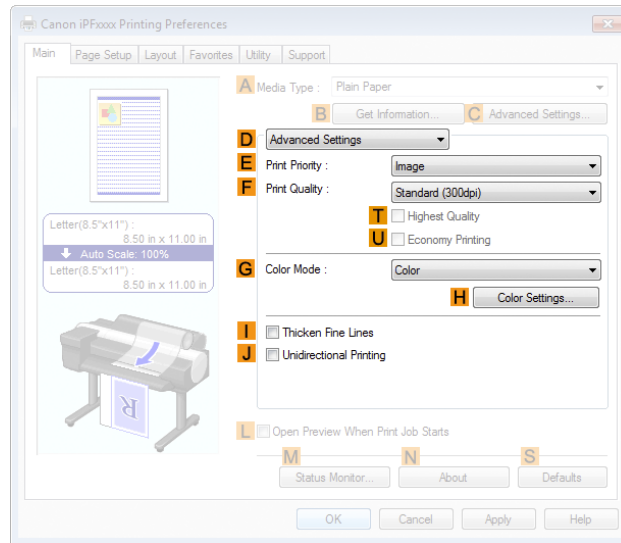

- **G View Settings**

Displays the **E Print Target** setting values.

You can view and change the order of **E Print Target** setting values.

- View Settings Dialog Box for the Printing Application →P.165

Configuration using **Advanced Settings**

- **E Print Priority**

Choose the graphic elements that you want to emphasize for printing.

- Giving Priority to Particular Graphic Elements and Colors for Printing →P.47

- **F Print Quality**

Choose the level of print quality.

- Giving Priority to Particular Graphic Elements and Colors for Printing →P.47

- **T Highest quality**

If you select this option, the document will be printed with enhanced quality at the highest resolution. Compared to the other options, more time and ink are consumed in printing, however you will attain print results with the highest quality.

Note

- If you set **F Print Quality** to **High**, you can select **T Highest quality**. However, depending on **A Media Type** and **E Print Priority**, you may not be able to select **T Highest quality**.

- **U Economy Printing**

If you select this option, you can print with less ink consumed. However, print quality is lower than in regular printing.

Select this option to save ink, such as when printing to check drawings. Depending on the settings of **A Media Type** and **F Print Quality**, you may not be able to select this option.

Note

- If you set **F Print Quality** to **Fast**, you can select **U Economy Printing**. However, depending on **A Media Type** and **E Print Priority**, you may not be able to select **U Economy Printing**.

• **G Color Mode**

Choose the color mode.

- Giving Priority to Particular Graphic Elements and Colors for Printing →P.47

Note

- Depending on the **A Media Type** setting, some **G Color Mode** options may not be available.

• **H Color Settings**

Click to display the **Color Settings** dialog box for more advanced color settings.

- Adjusting the Color in the Printer Driver →P.40

• **I Thicken Fine Lines**

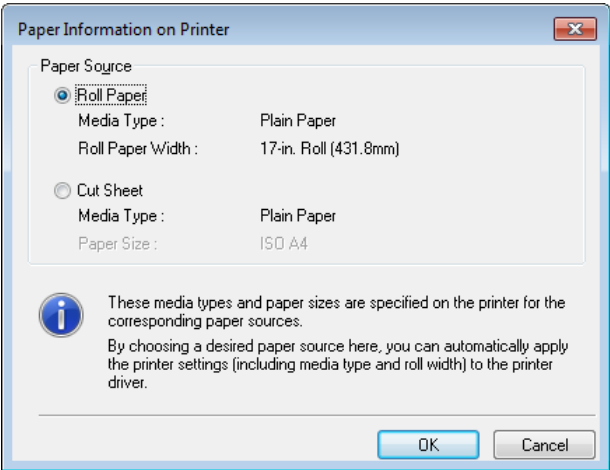

Select this option to print fine lines more distinctly.

• **J Unidirectional Printing**

Select this checkbox to prevent problems such as misaligned lines and improve the print quality. However, the printing speed becomes slower.

Paper Information on Printer Dialog Box

On the **Paper Information on Printer** dialog box, you can obtain information on the paper in the printer and configure printer driver settings for the paper source and media type.

Note

- To display the **Paper Information on Printer** dialog box, on the **Main** sheet, click **Get Information by Media Type**. (See "Main Sheet .") →P.160

• **A Paper Source**

Shows the paper source supported by the printer, as well as information about the loaded paper. To update the paper source and media type settings in the printer driver, select the desired **Paper Source** option and click **OK**.

Paper Detailed Settings Dialog Box

In the **Paper Detailed Settings** dialog box, you can set **Drying Time** for the paper selected with **Media Type** of the **Main** sheet, etc.

You can display this dialog box by clicking **Advanced Settings** of **Media Type** on the **Main** sheet. (See "Main Sheet .") →P.160

As for the items for which you can select **Printer Default** in this dialog box, you also can set them from the control panel of the printer. (See "Menu Settings.") ➔P.474

A Drying Time

Specify the time that the printer waits for ink to dry, as needed. The **Between Pages** setting is only valid for rolls.

• **B Between Pages**

You can set the time to wait after printing 1 document page until ejecting the paper. Since waiting time is required for ink to dry before a roll is cut, you can deliver paper in the Output Stacker with the ink dried even if **Cutting Mode** is set to **Automatic**.

Setting Item	Details
Printer Default	The setting of the control panel of the printer is applied.
Off	Paper is ejected immediately after printing completes.
30 sec. / 1 min. / 3 min. / 5 min. / 10 min. / 30 min. / 60 min.	Paper is ejected when the set time elapses after printing completes.

• **C Between Scans**

You can set the time to wait after printing 1 line on a page until printing the next line. Set this to avoid bleeding or color unevenness such as when bleeding occurs on a page or when color unevenness occurs during borderless printing.

Setting Item	Details
Printer Default	The setting of the control panel of the printer is applied.
Off	The next line is printed immediately after a line is printed.
1 sec. / 3 sec. / 5 sec. / 7 sec. / 9 sec.	The next line is printed when the set time elapses after a line is printed. * Increase the time according to the occurrence condition of bleeding or unevenness.

D Roll Paper Margin for Safety

You can specify the length of a margin on the leading edge of paper to ensure that paper susceptible to curling is held firmly against the Platen.

• **E Near End Margin**

Specify the length of the **Near End Margin** (the leading edge margin) of the roll, as needed.

Setting Item	Details
Printer Default	The setting of the control panel of the printer is applied.
3 mm (0.12 in)	The document is printed in the standard size. * Select this when you do not have any problems in printing.

Setting Item	Details
20 mm (0.8 in)	Select this when rubbing against the printhead occurs such as when using paper that tends to curl.

F Cut Speed

Select the speed of automatic cutting, as needed. You can adjust this setting if paper is not cut well when automatic cutting is used.

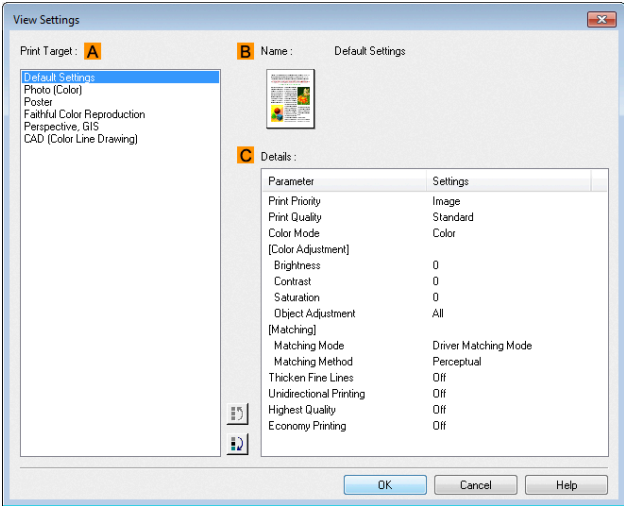

Setting Item	Details
Printer Default	The setting of the control panel of the printer is applied.
High Speed	When the Standard setting does not result in cutting the surface cleanly, select this.
Standard	Select this when you do not have any problems in automatic cutting.
Low Speed	This helps prevent adhesive from sticking to the cutter and keeps the cutter sharp if you select it when using adhesive paper.

G Mirror

Specify whether to print a mirror image, as needed. Select this option to print a version of the document or image with the left and right sides inverted.

View Settings Dialog Box for the Printing Application

In the **View Settings** dialog box, you can check details of the selected printing application.

To display the **View Settings** dialog box, on the **Main** sheet, click **View Settings by Print Target**. (See "Main Sheet .") ➔P.160

• A Print Target

Shows all **Print Target** options (settings items for the printing application).

• B Name

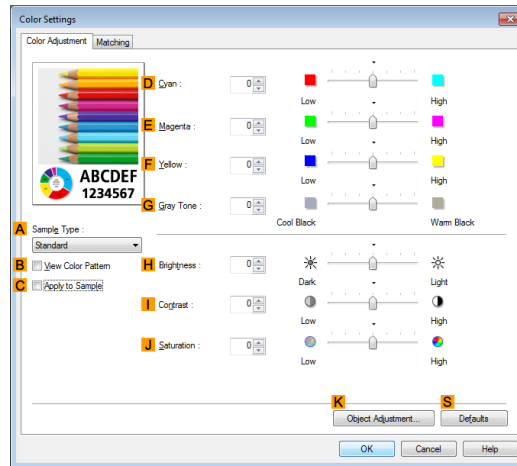

Identifies the item selected in **Print Target** by its name and an icon.

• C Details

Here, you can confirm detailed settings values for each listed item for the selected **Print Target**.

Color Adjustment Sheet: Color

If the color tone as printed is not as you expected, you can adjust it on the **Color Adjustment** sheet.

Note

- To display the **Color Adjustment** sheet, on the **Main** sheet, click **Color Settings** by **Color Mode** in **Advanced Settings**. (See "Main Sheet .") →P.160

• A Sample Type

Choose a sample image from **Standard**, **Portrait**, **Landscape**, or **Graphics**.

• B View Color Pattern

Select this checkbox to display the color pattern.

• C Apply to Sample

Select this checkbox to apply the changed settings to the sample image.

• D Cyan/ E Magenta/ F Yellow

Fine-tune color tones by adjusting the levels of each color.

• G Gray Tone

Adjust the color tone of grays as desired. Choose **Cool Black** (tinged with blue) or **Warm Black** (tinged with red).

• H Brightness

Adjust the overall image brightness as desired. You can adjust the brightness if the printed document is lighter or darker than the original image (that is, the original photo that was scanned or the original graphic as it appears on the computer screen).

• I Contrast

Adjust the contrast of the darkest and lightest portions relative to each other, as desired. Increasing the **Contrast** makes images sharper, and reducing the **Contrast** softens images.

• J Saturation

Adjust the color intensity as desired. Increasing the **Saturation** setting makes colors more vivid, and reducing the **Saturation** makes colors more subdued.

• K Object Adjustment

Select this option to display the **Object Adjustment** dialog box, in which you can specify objects subject to color adjustment.

- Object Adjustment Dialog box: Color →P.167

• **S Defaults**

Click to restore all settings on the sheet to the default values.

- For details on settings items, see "Adjusting the Color in the Printer Driver." →P.40

Object Adjustment Dialog box: Color

In the **Object Adjustment** dialog box, you can specify what type of print jobs to apply color adjustment to. If an original comprises images, graphics, and text, you can specify which portion to apply color adjustment to.

- To display the **Object Adjustment** dialog box, click **Object Adjustment** on the **Color Adjustment** sheet.

• **A Image**

Select this option to apply color adjustment to image areas, such as photos.

• **B Graphics**

Select this option to apply color adjustment to graphics, such as lines and circles.

• **C Text**

Select this option to apply color adjustment to text.

Matching Sheet

On the **Matching** sheet, you can specify color matching to compensate for differences in the appearance of colors on various devices.

- If **No color correction** is selected under **Color Mode**, the **Matching** sheet is not displayed.

- To display the **Matching** sheet, on the **Main** sheet, click **Color Settings** in **Color Mode** in **Advanced Settings**, and then click the **Matching** sheet. (See "Main Sheet .") →P.160

Driver Matching Mode

The following options are available when you select **Driver Matching Mode** in the **A Matching Mode** list.

- **A Matching Mode**

Select the color matching mode to use, as desired.

Normally, select **Driver Matching Mode**. For color matching based on ICC profiles, select **ICC Matching Mode** or **Host ICM Mode**, depending on your color matching system.

- **B Matching Method**

Select the color matching method that suits the document to be printed. Various **Matching Method** options are available depending on your selection in **Matching Mode**.

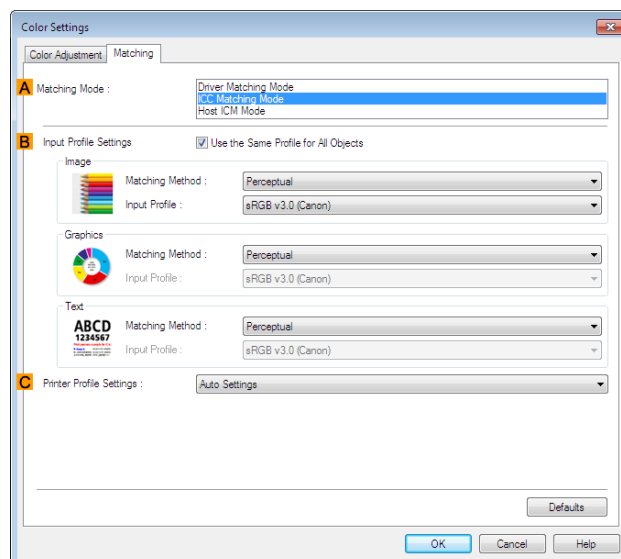

- **E Gamma**

You can adjust the gradation of intermediate tones in an image.

2.2 is normally selected. If you want a softer impression than **2.2**, select **1.8**.

ICC Matching Mode and Host ICM Mode

The following options are available when you select **ICC Matching Mode** or **Host ICM Mode** in the **A Matching Mode** list.

• **A Matching Mode**

Select the color matching mode to use, as desired.

• **B Input Profile Settings**

You can select **Image**, **Graphics**, or **Text**. You can choose **Matching Method** and **Input Profile**. Various options are available depending on your selected **Matching Mode**.

To apply the same input profile automatically for **Graphics** and **Text**, select **Use the Same Profile for All Objects**. To apply separate input profiles to **Graphics** and **Text**, clear **Use the Same Profile for All Objects** and specify the individual settings.

• **C Printer Profile Settings**

Specify the printer profile as desired. Normally, select **Auto Settings**.

We recommend that you select an ICC profile created using commercially available profile creation software in order to perform color management accurately on paper other than genuine Canon paper and feed confirmed paper.

The created ICC profile needs to be saved in the following folder on the computer you are using.

C:\Windows\system32\spool\drivers\color folder

Note

- C: may vary according to the user environment.

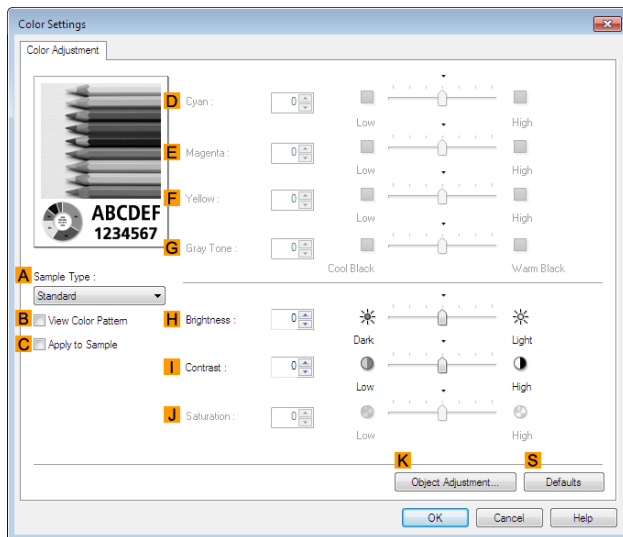

Note

- For details on settings items, see "Adjusting the Color in the Printer Driver." → P.40

Color Adjustment Sheet: Monochrome

On the **Color Adjustment** sheet for monochrome printing, you can adjust the brightness and contrast.

Note

- To display the **Color Adjustment** sheet, on the **Main** sheet, click **Color Settings** by **Color Mode** in **Advanced Settings**. (See "Main Sheet.") → P.160

• **A Sample Type**

Choose a sample image from **Standard**, **Portrait**, **Landscape**, or **Graphics**.

• **B View Color Pattern**

Select this checkbox to display the color pattern.

• **C Apply to Sample**

Select this checkbox to apply the changed settings to the sample image.

• **D Cyan/E Magenta/F Yellow**

Not available.

• **G Gray Tone**

Not available.

• **H Brightness**

Adjust the overall image brightness as desired. You can adjust the brightness if the printed document is lighter or darker than the original image (that is, the original photo that was scanned or the original graphic as it appears on the computer screen).

• **I Contrast**

Adjust the contrast of the darkest and lightest portions relative to each other, as desired. Increasing the **Contrast** makes images sharper, and reducing the **Contrast** softens images.

• **J Saturation**

Not available.

• **K Object Adjustment**

Select this option to display the **Object Adjustment** dialog box, in which you can specify objects subject to color adjustment.

- Object Adjustment Dialog box: Monochrome →P.170

• **S Defaults**

Click to restore all settings on the sheet to the default values.

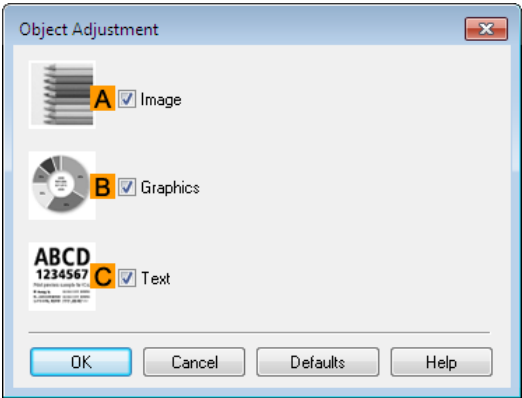

Note

- For details on settings items, see "Adjusting the Color in the Printer Driver." →P.40

Object Adjustment Dialog box: Monochrome

In the **Object Adjustment** dialog box, you can specify what type of print jobs to apply color adjustment to. If an original comprises images, graphics, and text, you can specify which portion to apply color adjustment to.

Note

- To display the **Object Adjustment** dialog box, click **Object Adjustment** on the **Color Adjustment** sheet.

• **A Image**

Select this option to apply color adjustment to image areas, such as photos.

- **B Graphics**

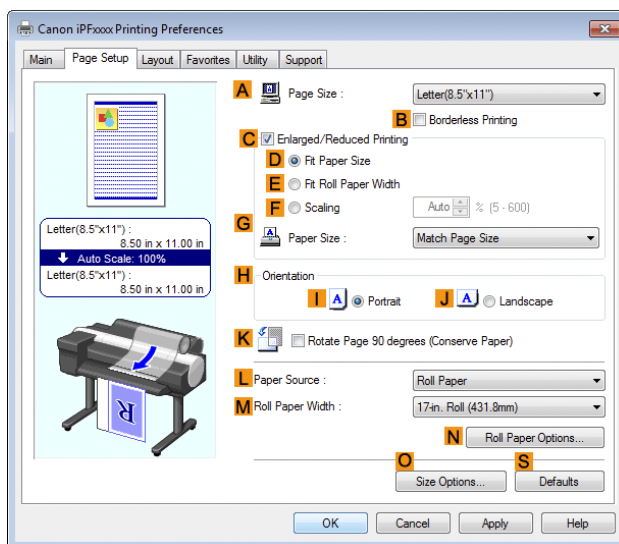

Select this option to apply color adjustment to graphics, such as lines and circles.

- **C Text**

Select this option to apply color adjustment to text.

Page Setup Sheet

The following settings are available on the **Page Setup** sheet. For details on settings items, refer to the printer driver help file.

- **A Page Size**

Select the page size as specified in the source application.

For details on available page sizes, see "Paper Sizes." →P.352

- **B Borderless Printing**

Borderless printing is available if roll paper is selected in the **L Paper Source** list. Choose from the following options when this setting is activated.

- Borderless Printing on Paper of Equivalent Size →P.77
- Borderless Printing by Resizing Originals to Fit the Roll Width →P.81
- Borderless Printing at Actual Size →P.70

- **D Fit Paper Size**

Scales the document image to match the paper size.

- **E Scale to fit Roll Paper Width**

Scales the document image to match the roll width.

- **F Print Image with Actual Size**

Prints documents at their actual size. This function is available when you have selected the size same as the width of **Roll Paper** for either the length or width of the document from the **A Page Size** list.

- **G Paper Size**

Available when **D Fit Paper Size** is selected.

Choose the size of the paper you will print on.

For details on available paper sizes, see "Paper Sizes." →P.352

Paper sizes compatible with borderless printing are shown in the list.

- **C Enlarged/Reduced Printing**

Choose from the following options when this setting is activated.

- Resizing Originals to Match the Paper Size →P.54
- Resizing Originals to Fit the Roll Width →P.56
- Resizing Originals by Entering a Scaling Value →P.60

- **D Fit Paper Size**

Scales the document image to match the paper size.

- **E Fit Roll Paper Width**

Scales the document image to match the roll width.

- **F Scaling**

Resizes the document image based on a specified scaling value. Enter a value in a range of **5–600**.

- **G Paper Size**

Choose the size of the paper you will print on.

For details on available paper sizes, see "Paper Sizes." →P.352

- **H Orientation**

Choose the printing orientation.

- Making the Original Orientation Match the Paper Orientation →P.140

- **K Rotate Page 90 degrees (Conserve Paper)**

Activate this setting to rotate the document image by 90 degrees before printing.

- Conserving Roll Paper by Rotating Originals 90 Degrees →P.127

- **L Paper Source**

Choose the feed source, as desired.

Options displayed in the list vary depending on the selection in **Media Type** on the **Main** sheet.

- **M Roll Paper Width**

Choose the roll width.

For details on available roll widths, see "Paper Sizes." →P.352

• **N Roll Paper Options**

Complete optional roll paper settings. Click to display the **Roll Paper Options** dialog box.

Under **A Automatic Cutting**, you can specify **Yes** or **No** and **Print Cut Guideline**.

- **Cutting Roll Paper After Printing** →P.144

Select **B Banner Printing** when printing multiple pages continuously.

- **Printing Multiple Pages Continuously** →P.106

• **O Size Options**

Click to display the **Paper Size Options** dialog box, which enables you to register additional paper sizes or select the size system for use.

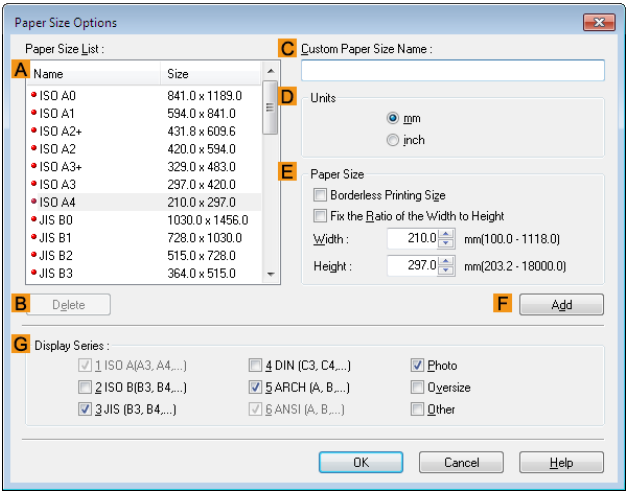

- **Paper Size Options Dialog Box** →P.173

• **S Defaults**

Restores all settings on the sheet to the default values.

Paper Size Options Dialog Box

In the **Paper Size Options** dialog box, you can create and register your own Custom Paper Size. The sizes you define are listed with standard paper sizes for selection later as needed.

Important

- You cannot create any arbitrary roll paper width as a Custom Paper Size.
- If you select a **Paper Size** from **Paper Size Options**, load paper of a size equal to or larger than the **Paper Size Options** into the printer. If the size of the loaded paper is smaller than the **Paper Size Options**, an incomplete output image may be printed.

Note

- To display the **Paper Size Options** dialog box, on the **Page Setup** sheet, click **Paper Size Options**. (See "Page Setup Sheet .") →P.171

- **A Paper Size List**

Shows the names and sizes of paper that can be used with the printer driver.

- **B Delete**

Custom paper sizes created by users can be deleted from the **A Paper Size List**, as needed. However, they cannot be deleted in the following situations.

- If a standard paper size of the printer driver is selected.
- If an oversized paper size is selected.
- If a paper size marked with a red circle is selected.

- **C Custom Paper Size Name**

You can name Custom Paper Size as desired.

- **D Units**

Specify the desired unit of measure for the Custom Paper Size height and width.

- **E Paper Size**

Specify the desired **Width** and **Height**. You can make your selection from sizes that are compatible with **Borderless Printing** by selecting **Borderless Printing Size**. To maintain the aspect ratio of the **Width** and **Height** as you resize the paper, select **Fix the Ratio of the Width to Height**.

- **F Add**

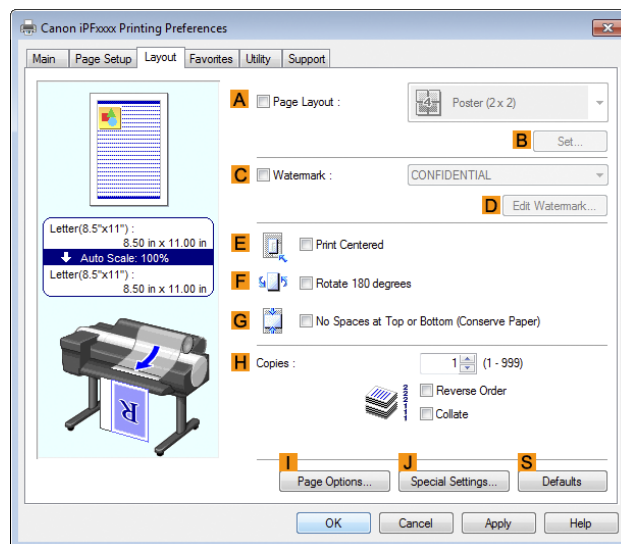

Enables you to register the custom paper size you have specified or overwrite an existing custom paper size.

- **G Display Series**

You can limit the number of options shown in **Page Size**, **Paper Size**, and **Paper Size List**.

Layout Sheet

The following settings are available on the **Layout** sheet. For details on settings items, refer to the printer driver help.

- **A Page Layout**

Activate this setting to select a particular page layout.

- **Printing Multiple Pages Per Sheet** → P.110
- **Printing Posters in Sections** → P.115
- **Printing Multiple Originals Next to Each Other** → P.102
- **Using PosterArtist to Compose Originals** → P.37

- **B Set**

Click to display one of the following dialog boxes depending on the selection in **A Page Layout**. In these dialog boxes, you can specify layout details and which pages to print, as well as other settings.

- **Page Layout Printing**
- **Pages to Print**
- **Free Layout Settings**

- **C Watermark**

Activating this option makes two settings available, **Watermarks** and **D Edit Watermark**.

- **Printing With Watermarks** →P.137
- **Watermarks**

Lists the provided watermarks. Choose the watermark to print.

- **D Edit Watermark**

Click to display the **Edit Watermark** dialog box for creating your own, original watermark.

- **E Print Centered**

Activate this setting to print document images in the center of the paper.

- **Printing Originals Centered on Rolls** →P.118
- **Printing Originals Centered on Sheets** →P.122

- **F Rotate 180 degrees**

Activate this option to rotate document images by 180 degrees before printing.

- **G No Spaces at Top or Bottom (Conserve Paper)**

Activate this setting to print the next image skipping blank areas above and below printable data in documents, which enables you to conserve the paper.

- **Conserving Roll Paper by Printing Originals Without Top and Bottom Margins** →P.131

- **H Copies**

Enter the number of copies to print, in a range of **1–999**.

- **Reverse Order**
Activate this option to print pages in reverse order.
- **Collate**
Activate this option to print complete sets in the specified quantity.

- **I Page Options**

Click to display the **Page Options** dialog box, which enables you to complete settings for printing the user name, date, or page number in the header or footer.

- **Page Options Dialog Box** →P.176

- **J Special Settings**

If the printing results are not as you expected, click this option to display the **Special Settings** dialog box and change how printing is processed.

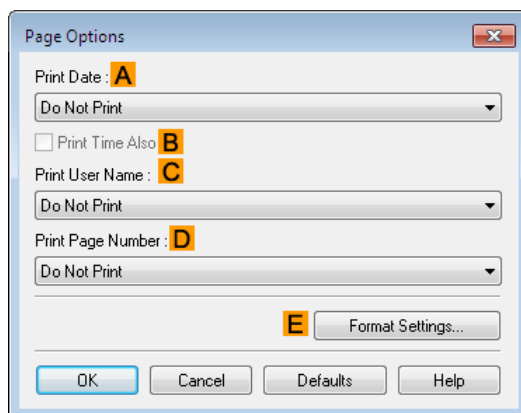

- **Special Settings Dialog Box** →P.177

- **S Defaults**

Click to restore all settings on the sheet to the default values.

Page Options Dialog Box

The **Page Options** dialog box offers the following settings.

Note

- To display the **Page Options** dialog box, on the **Layout** sheet, click **Page Options**. (See "Layout Sheet .") →P.174

- **A Print Date**

Select where the date is printed, as desired. To print the time as well, select **B Print Time Also**.

- **C Print User Name**

Select where the user name is printed, as desired.

- **D Print Page Number**

Select where the page number is printed, as desired.

- **E Format Settings**

Click to display the **Format Settings** dialog box, which enables you to complete format-related settings.

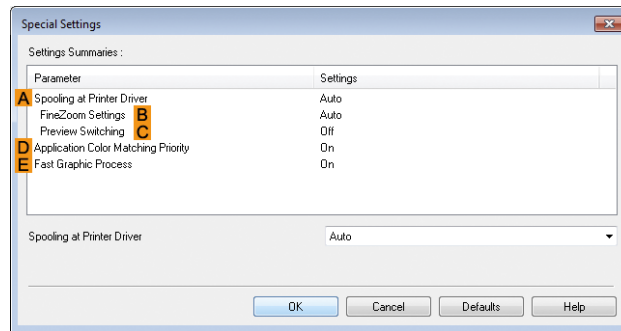

Note

- If you specify the same position for multiple items, the items are printed from left to right in this order: date, user name, and page number.
- When you print multiple pages per sheet using **Page Layout Printing** or similar functions, these items will be printed for each page.

Special Settings Dialog Box

If the printing results are not as you expected, you can change how printing is processed in the **Special Settings** dialog box.

Note

- To display the **Special Settings** dialog box, on the **Layout** sheet, click **Special Settings**. (See "Layout Sheet .") → P.174
- Click the processing method for **Parameter** within the **Settings Summaries** frame to display a list of the setting details under the frame.

• A Spooling at Printer Driver

Sets whether or not print jobs are spooled in the printer driver and processed by PageComposer. Printing results may be improved in some cases by setting this to **No** or **No (EMF Spooling)**.

Note

- When set to **No** or **No (EMF Spooling)**, functions such as **Page Layout**, **Watermark**, **Reverse Order**, **Page Options**, **FineZoom Settings**, and **Preview Switching** can no longer be used.

• B FineZoom Settings

This function is used in large-format printing.

If it is set to **Yes**, problems in the printing may be improved.

If it is set to **No**, image distortions such as fine lines disappearing may be improved.

• C Preview Switching

When this setting is turned on, PageComposer starts when printing is performed with the **Open Preview When Print Job Starts** check box selected in the **Main** sheet.

• D Application Color Matching Priority

When this is on, you can give applications priority in color management.

• E Fast Graphic Process

Turning this setting on may help produce the expected results if image colors are inconsistent in printed documents or if lines are printed in varying thicknesses.

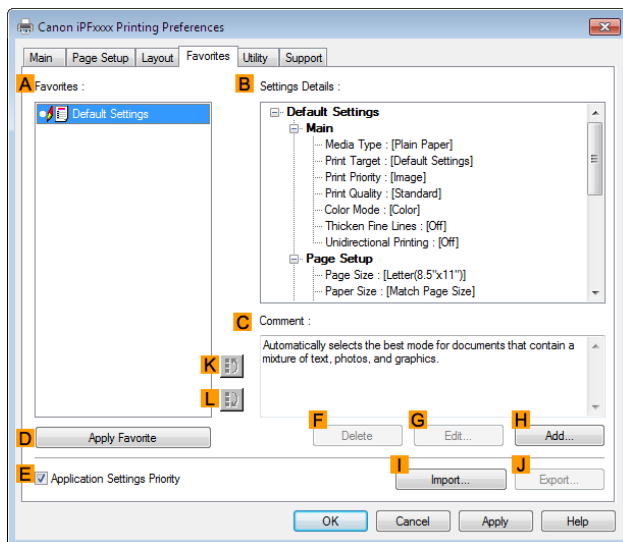

Note

- This function cannot be used on 64-bit version of Windows.

Favorites Sheet

The following settings are available on the **Favorites** sheet. For details on settings items, refer to the printer driver help.

- **A Favorites**

Printing favorites you have created are listed with **Default Settings** favorites.

- Using Favorites → P.144

- **B Settings Details**

Displays details of the favorite selected in the **A Favorites**.

- **C Comment**

Displays notes registered in the favorite.

- **D Apply Favorite**

Click to change the current print settings to those of the favorite selected in the **A Favorites**.

- **E Application Settings Priority**

Activate this setting to use settings values specified in the source application in preference to favorite settings selected in the **A Favorites**, when clicking **D Apply Favorite**. For details on the settings items used in preference, refer to the printer driver help.

- **F Delete**

Click to delete the selected favorite from the **A Favorites** list.

- **G Edit**

Click to display the **Edit** dialog box, which enables you to change the name and icon for the favorite selected in the **A Favorites** list.

- **H Add**

Click to display the **Add** dialog box, which enables you to add the current print settings as a favorite.

- **I Import**

Click to display the **Open** dialog box, which enables you to import favorite settings saved as a file.

- **J Export**

Click to display the **Save As** dialog box, which enables you to save the favorite settings as a file.

- **K Up**

Click to move the selected favorite up in the **A Favorites** list.

- **L Down**

Click to move the selected favorite down in the **A Favorites** list.

Utility Sheet

The following items can be executed on the **Utility** sheet. For details on the utilities, refer to the relevant utility help.

- **A Maintenance**

Click to start the **imagePROGRAF Status Monitor**, which offers the following maintenance for the printer.

- Nozzle (ink ejecting outlet) check
- Nozzle (ink ejecting outlet) cleaning
- Head alignment adjustment
- Feed amount adjustment

- **B Color imageRUNNER Enlargement Copy**

Click to launch **Color imageRUNNER Enlargement Copy** (iR enlargement copy), which enables you to create hot folders used for **Color imageRUNNER Enlargement Copy** and assign print settings to hot folders.

- **Printing Enlargements of Scanned Originals from a Color imageRUNNER** →P.225

For details, see "Color imageRUNNER Enlargement Copy." →P.216

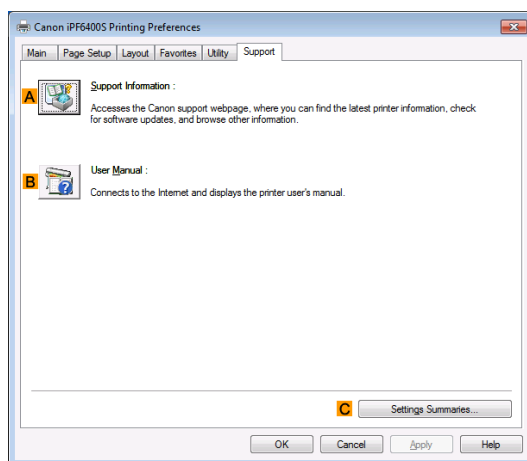

Note

- This function is not available on 64-bit version of Windows.

Support Sheet

On the **Support** sheet, you can view support information and the user's manual.

- **A Support Information**

Click to access the Canon support webpage, where you can find the latest information on the printer and consumables, check for printer driver updates, and browse other information.

- **B User Manual**

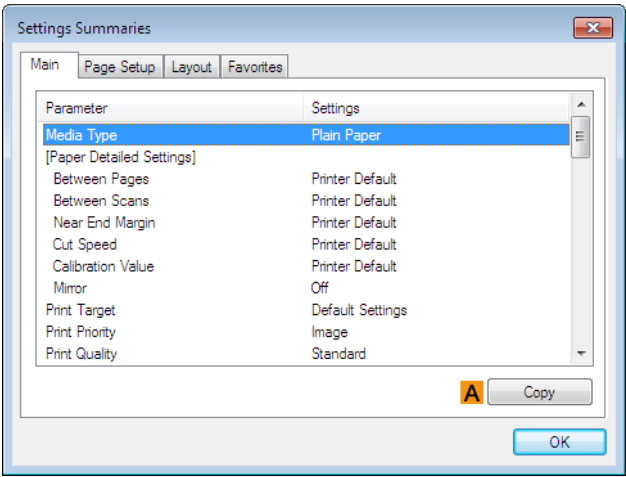

Click to connect to the Internet and display the printer user's manual.

- **C Settings Summaries**

Click to display the **View Settings** dialog box, which enables you to confirm the settings for the **Main**, **Page Setup**, **Layout**, and **Favorites** sheets.

Settings Summaries Dialog Box

The **Settings Summaries** dialog box enables you to confirm the settings for the **Main**, **Page Setup**, **Layout**, and **Favorites** sheets.

• **A Copy**

Click to copy the settings information to the clipboard. You can paste the settings information into a file created with a text editor or similar application.

Device Settings Sheet

Many settings items on the printer properties sheets are controlled by Windows applications. However, the **Device Settings** sheet is for configuring the printer, and it is an extension of the printer driver. The following settings are available on the **Device Settings** sheet.

• **A About**

You can display version information for the printer driver.

Preview

The Features of Preview	182
Starting Preview	182
Preview Main Window	184
Dialog Area	186
Enlarge/Reduce the screen display	187
Moving a Page	187
Using the ruler	187
Priority setting for rotating 90 degrees	188
Printing with Selecting the Layout	189
Print on the Center	191
Not Print Spaces at the Top/Bottom	192

The Features of Preview

The main features of Preview are as follows.

- While viewing this screen, you can adjust layout settings of a document created with application software.
- You can not only adjust layout settings but also your changes will be instantly applied on the preview screen, and you can print the preview screen as it is seen.

- The media type, image size, detailed media settings, and the printer settings can cause the actual print output to differ from the Preview settings.

Starting Preview

Follow the procedure below to start the Preview.

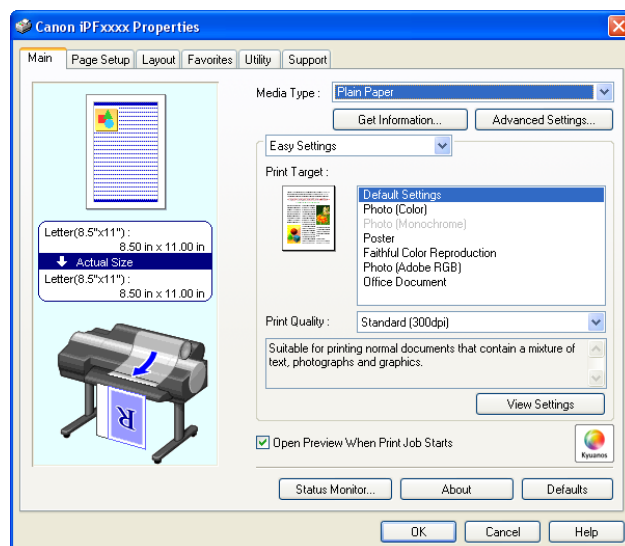

- 1 Start the application software which you use.
- 2 From the application software's **File** menu, select the printer setup menu to open the **Print** dialog box.

- Normally, select **Print** from the **File** menu.

3

On the **Main** sheet, click on the **Open Preview When Print Job Starts** check box.
Click the **OK** button to save the settings.

Note

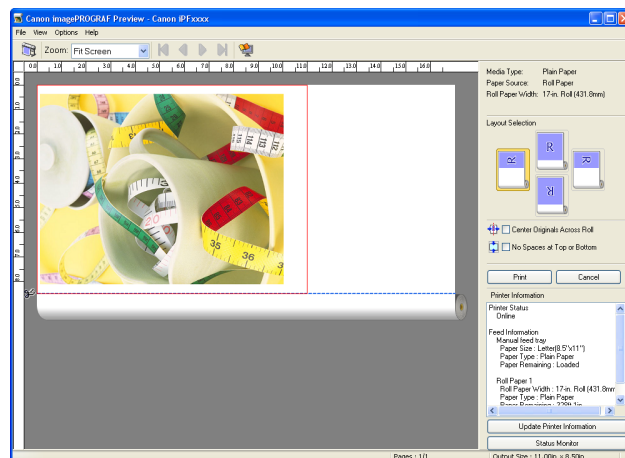

- Your printer is depicted in the lower-left area of this screen.

4

On the **Print** dialog box in the application software, click the **Print** button.

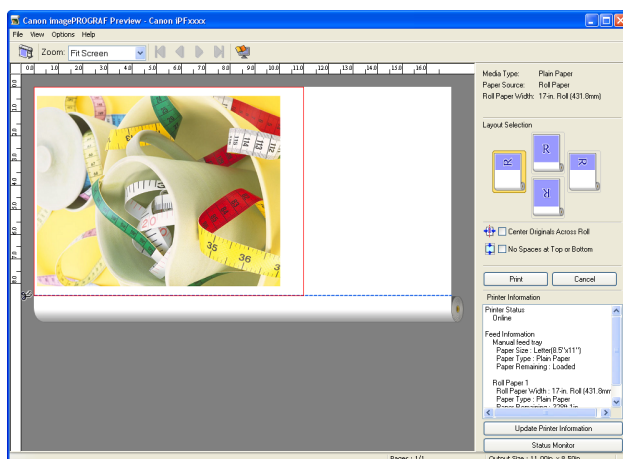

5

Preview main window is displayed.

Preview Main Window

The Preview main window consists of the menu and tool bars, preview and dialog area and status bar.

Note

- You can use the **View** menu to show or hide the tool bar.

- Menu Bar**

This allows you to select menus required for operations.

- Tool Bar**

This allows you to select tool buttons required for major operations.

- Preview Area**

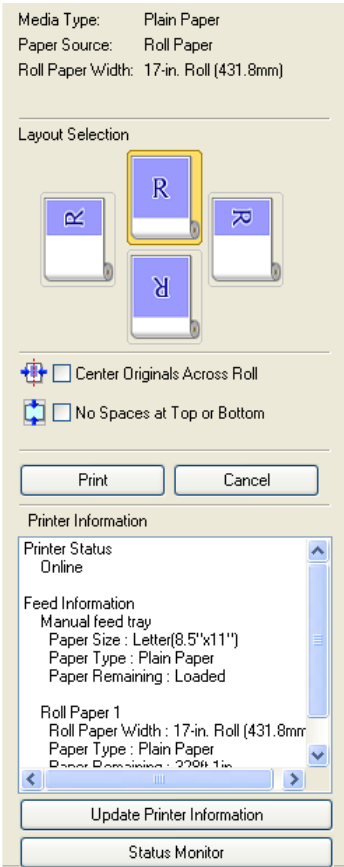

You can check the settings you made in this area.

• Dialog Area

This allows you to set the print conditions and perform a print job.

For more information about Dialog Area, see "Dialog Area." →P.186

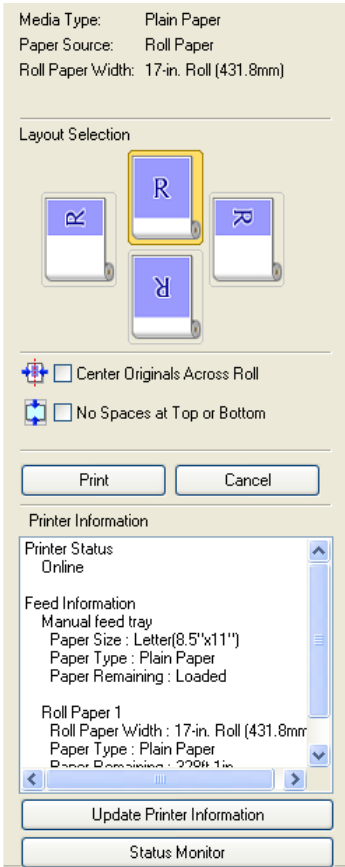

• Status Bar

This shows the message, **Pages** and **Output Size**.

Dialog Area

You can select the layout and print on the center.

Media Type/Paper Source/Paper Size

You can confirm the information that is set.

Layout Selection

You can print which conserves paper by selecting the layout.

For more information about **Layout Selection**, see "Printing with Selecting the Layout." →P.189

Center Originals Across Roll

You can print on the center of the media loaded in the printer.

For more information about **Center Originals Across Roll**, see "Print on the Center." →P.191

Note

- Available only if rolls are selected in **Paper Source**.

No Spaces at Top or Bottom

You can save paper on not to feed roll paper for the empty spaces when the print data contains spaces at the top or bottom.

For more information about **No Spaces at Top or Bottom**, see "Not Print Spaces at the Top/Bottom." →P.192

Note

- Available only if rolls are selected in **Paper Source**.

Print Button

Click the button to start printing.

- **Cancel Button**

Click the button to stop printing.

- **Printer Information**

You can confirm the information acquired from the printer.

- **Update Printer Information Button**

Click the button to update the printer information with connecting to the printer.

- **Status Monitor Button**

Click the button to start **Status Monitor**.

Enlarge/Reduce the screen display

You can enlarge or reduce the screen display when you select **Zoom** from the **View** menu.

Setting	Details
Fit Screen	Display all.
Fit to Width	Display to the width of the paper.
Reduce	Display at half of the standard size.
Standard	Display at the standard size.
Enlarge	Display with the double of the standard size.
Enlarge More	Display with the triple of the standard size.

Note

- This item can be selected even if you have clicked the ▼ button in the toolbar **Zoom**.

Moving a Page

You can move a page to display when you select **Go to Page** from the **View** menu.

Setting	Details
First Page	Go to the first page.
Previous Page	Go to the previous page.
Next Page	Go to the next page.
Last Page	Go to the last page.
Go To Page	Go to the specified page.

Note

- You can also move a page by clicking  on the tool bar.

Using the ruler

You can confirm the layout with using the ruler.

- Switching the ruler Show/Hide
In the **View** menu, select **Ruler** to switch the ruler Show/Hide.
- Changing the ruler unit
You can set the ruler unit when you select **Units** from the **View** menu.

Setting	Details
mm	Use mm as the ruler unit.
inch	Use inches as the ruler unit.

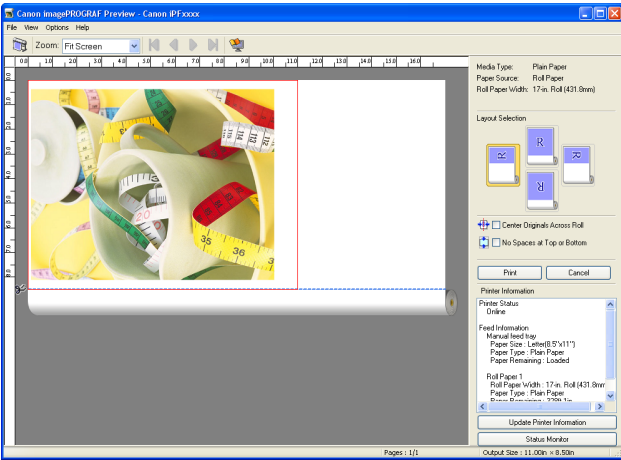

Priority setting for rotating 90 degrees

You can select **Rotate 90 Degrees If Possible** or **Use Driver Settings** from the **Options** menu.

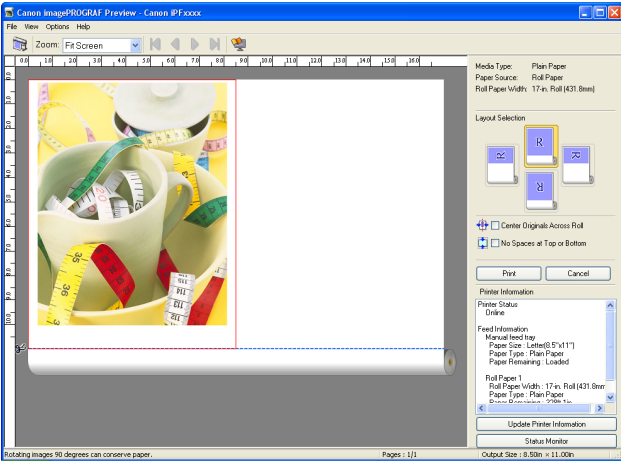

Setting	Details
Rotate 90 Degrees If Possible	Rotates pages in portrait orientation 90 degrees before printing. Pages are only rotated if they can fit lengthwise across the roll.
Use Driver Settings	Follows printer driver settings when determining whether to rotate pages.

Selecting **Rotate 90 Degrees If Possible** or Placing a checkmark for **Rotate Page 90 degrees (Conserve Paper)** on the printer driver

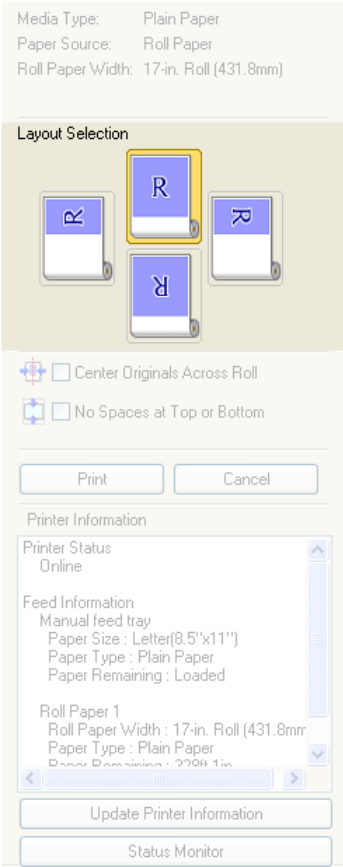

Selecting **Use Driver Settings**

Printing with Selecting the Layout

You can print which conserves paper by selecting the layout.

- 1 In **Layout Selection**, click the layout button to use.

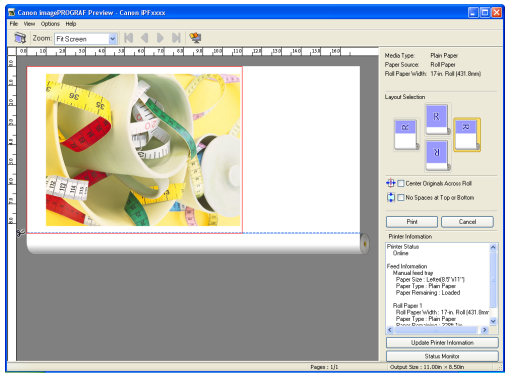

Button	Details
Upper Button	Turn at the position of  .
Right Button	Turn at the position of  .
Left Button	Turn at the position of  .
Lower Button	Turn at the position of  .

Note

- **Right Button** or **Left Button** can be selected only when the rotated pages can fit lengthwise across the roll.
- By clicking **Right Button** or **Left Button**, you can save paper by printing in landscape orientation on roll paper.
- You can select only **Upper Button** or **Lower Button** if **Cut Sheet** is selected.

Button	Details
	The button is selected currently.
	The button can be selected.
	The button can not be selected.

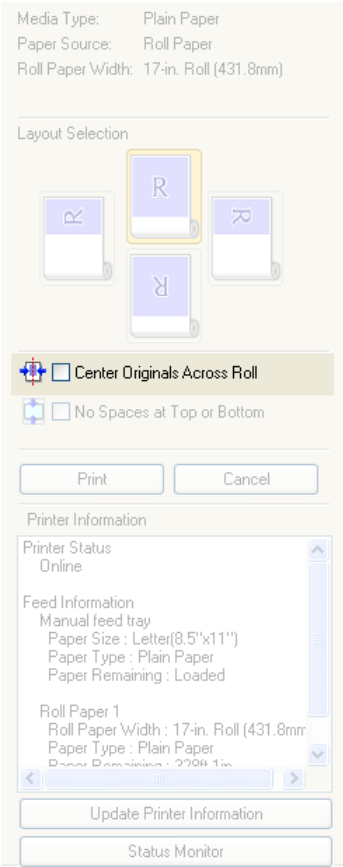

2

Click the **Print** button.
Printing on the selected layout begins.

Print on the Center

You can print on the center of the media loaded in the printer.

- 1
- Click the **Center Originals Across Roll** check box on.

- 2
- Click the **Print** button.
Printing on the center begins.

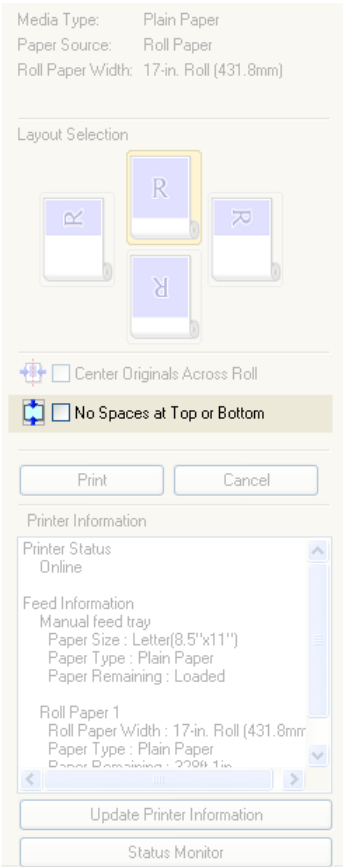

Note

- Available only if rolls are selected in **Paper Source**.

Not Print Spaces at the Top/Bottom

You can save paper on not to feed roll paper for the empty spaces when the print data contains spaces at the top or bottom.

1 Click the **No Spaces at Top or Bottom** check box on.

2 Click the **Print** button.
Printing on the settings with no spaces at top or bottom begins.

The Features of Free Layout

The main features of Free Layout are as follows.

- Allows you to lay out at will and print a document created with application software.
- You can not only lay out multiple pages on one page but also lay out and print a multiple-file document on one page, or lay out and print a document created with multiple application programs on one page.
- Any two pages can be arranged and printed in a layout that becomes duplex on folding.
This can be used such as for advertising posters that are suspended from the ceiling.

• The media type, image size, detailed media settings, and the printer settings can cause the actual print output to differ from the Free Layout settings.

Starting Free Layout

Follow the procedure below to start the Free Layout.

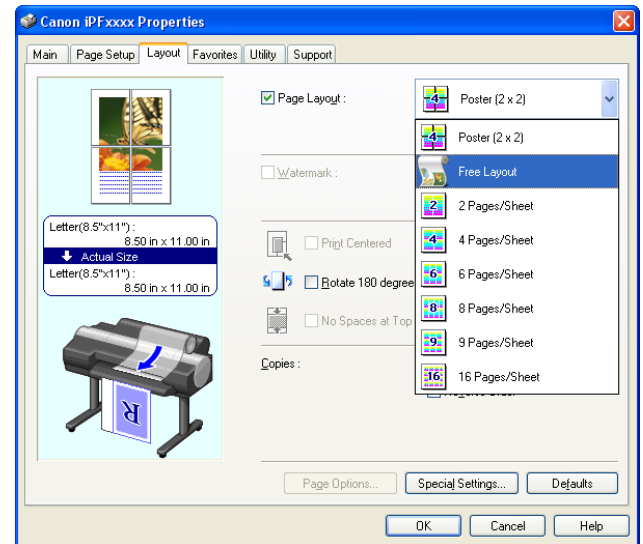

- 1 Start the application software which you use.
- 2 From the application software's **File** menu, select the printer setup menu to open the **Print** dialog box.

Note

- Normally, select **Print** from the **File** menu.

- 3 From the list, select the printer and select the **Layout** sheet.

Note

- Your printer is depicted in the lower-left area of this screen.

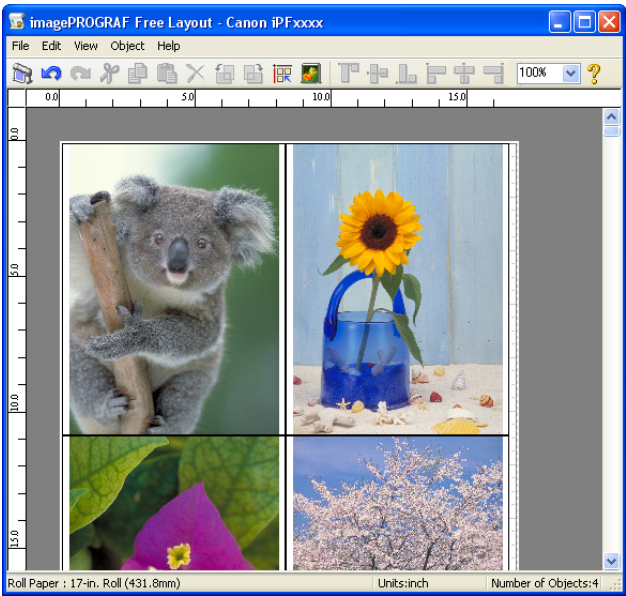

- 4 In the **Layout** sheet, click on the **Page Layout** check box and select Free Layout from the list. Click the **OK** button to save the settings.

Note

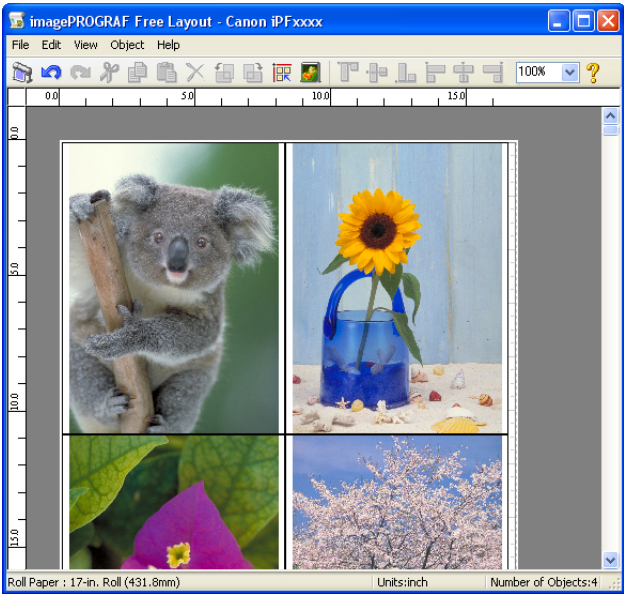

- When you select Free Layout, all other setting items will be disabled.

- 5
- On the **Print** dialog box in the application software, click the **Print** button.
Free Layout main window is displayed.

Free Layout Main Window

The Free Layout main window consists of the menu and tool bars, layout area and status bar.

- You can use the **View** menu to show or hide the tool and status bar.

Note

Menu Bar

This allows you to select menus required for operations.

- Tool Bar

This allows you to select tool buttons required for major operations.

- Layout Area

This allows you to lay out objects and edit the object size and orientation.

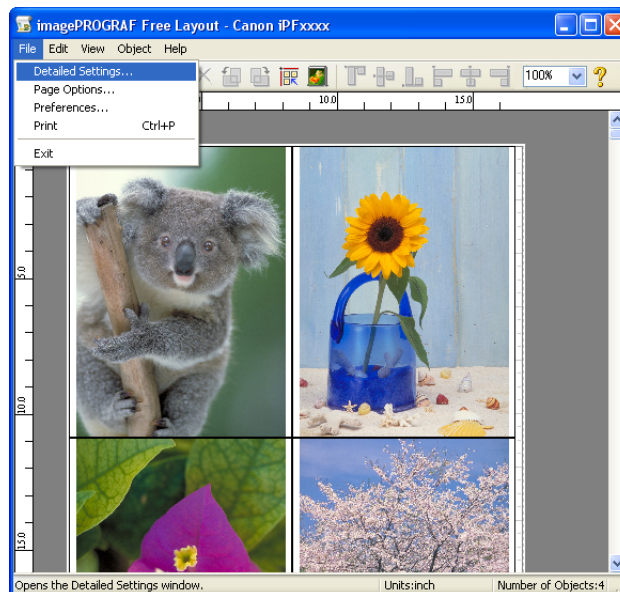

- Status Bar

This shows the paper size, unit of length, and number of objects.

Detailed Settings

The printer driver opens when you select **Detailed Settings** from the **File** menu. The printer driver is used to configure basic settings to match the type of media loaded in the printer.

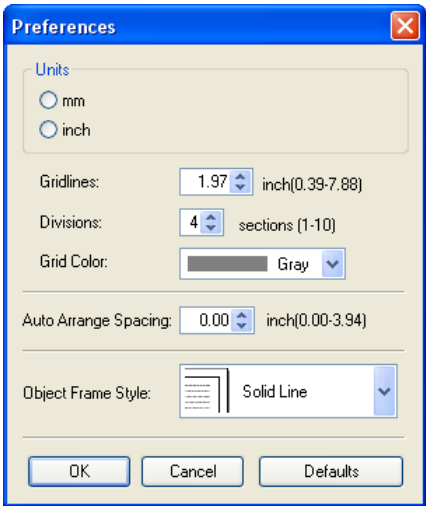

Refer to "Printer Driver" →P.150 for details on the printer driver.

- Note
- When you select the **Detailed Settings**, the only three sheets displayed are the **Main** sheet, the **Page Setup** sheet, and the **Layout** sheet. Some of the printer driver settings may be disabled.

Preferences Dialog Box

This dialog box appears when you select **Preferences** from the **File** menu. This allows you to configure the preferences of Free Layout.

• Units

Set the unit for paper length, margins, and so on.

• Gridlines

You can input a grid line width value in numerical characters so that they serve as a guide to laying out objects.

- Note
- You can input between 10.0 and 200.0(mm) (between 0.39 and 7.88(inch)).
 - You can change the numbers by clicking either ▲ button or ▼ button.

• Divisions

You can change the number of divisions of grid lines so that they serve as a guide to laying out objects.

- Note
- You can input between 1 and 10.
 - You can change the numbers by clicking either ▲ button or ▼ button.

• Grid Color

Select the grid line color.

• Auto Arrange Spacing

Change the object-to-object spacing to be applied in the operation of laying out objects automatically.

- Note
- You can input between 0.0 and 100.0(mm) (between 0.00 and 3.94(inch)).
 - You can change the numbers by clicking either ▲ button or ▼ button.

• Object Frame Style

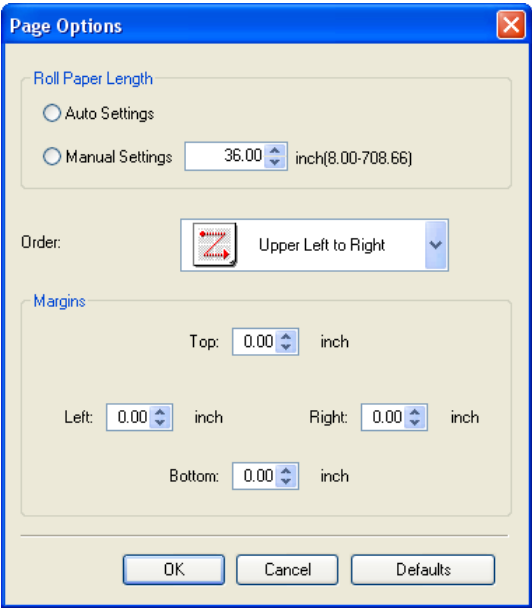

You can select the object frame style for printing.
The following settings are available for the object frame style.

Setting	Details
None	You can print with no frame style.

Setting	Details
Solid Line	You can print the solid line as the frame style.
Dotted Line	You can print the dotted line as the frame style.
Dashed Line	You can print the dashed line as the frame style.
Crop Marks	You can print with the crop marks.

Page Options Dialog Box

This dialog box appears when you select **Page Options** from the **File** menu. This allows you to configure the roll paper length, object layout order, and margins of Free Layout.

• Roll Paper Length

Set the length of one page to print on roll paper.
The following settings are available for roll paper length.

Setting	Details
Auto Settings	The one-page length to be printed on roll paper is automatically set so that the laid-out objects are printed on one page.
Manual Settings	You can input the length of one page to print on roll paper in numerical characters.

- Available only if rolls are selected in **Paper Source**.
- You can input between 203.2 and 18000.0(mm) (between 8.00 and 708.66(inch)).
- You can change the numbers by clicking either ▲ button or ▼ button.

• Order

Set the object layout order.
The following settings are available for order.

Setting	Details
Upper Left to Right	The objects are laid out from upper left to right.
Upper Left to Bottom	The objects are laid out from upper left to bottom.
Upper Right to Left	The objects are laid out from upper right to left.
Lower Left to Top	The objects are laid out from lower left to top.

- When you have selected **Roll Paper Length > Auto Settings** and **Paper Orientation > Vertical**, you can choose **Upper Left to Right** or **Upper Right to Left**.
- When you have selected **Roll Paper Length > Auto Settings** and **Paper Orientation > Horizontal**, you can choose **Upper Left to Bottom** or **Lower Left to Top**.

• **Margins**

You can input the paper margins in numerical characters.

- You can input between 0.0 and 50.0(mm) (between 0.00 and 1.97(inch)).
- You can change the numbers by clicking either ▲ button or ▼ button.

Zoom Dialog Box

This dialog box appears when you select **Zoom** from the **View** menu. You can enlarge or reduce the screen display.

• **Scaling**

Set the magnification for enlargement or reduction of the screen display.

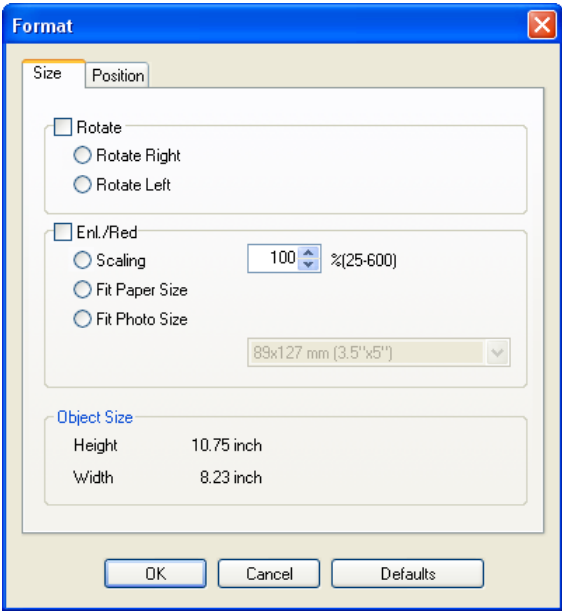

- You can input between 25 and 400.
- You can change the numbers by clicking ▼ button.

Format Dialog Box

This dialog box appears when you select **Format** from the **Object** menu after you select an object.

Size Sheet

You can rotate, enlarge, or reduce an object.

Note

- When the objects are not selected, you can not select **Format**.

• **Rotate**

When you place a checkmark here, you can select **Rotate Right** or **Rotate Left**.

Setting	Details
Rotate Right	Rotates the object 90 degrees clockwise.
Rotate Left	Rotates the object 90 degrees counterclockwise.

Note

- When several objects are selected, you cannot select **Rotate**.

• **Enl./Red.**

When you place a checkmark here, you can select **Scaling**, **Fit Paper Size**, or **Fit Photo Size**.

Setting	Details
Scaling	Allows you to input the value of the enlargement or reduction ratio of an object.
Fit Paper Size	Prints by enlarging or reducing each object to match the paper size. If you are using roll paper, objects are enlarged or reduced so that the width of each object matches the width of the roll paper.
Fit Photo Size	Prints all of the objects at the specified photo size.

Note

- You can input between 25 and 600.
- You can change the numbers by clicking either ▲ button or ▼ button.

Position Sheet

You can rotate, enlarge, or reduce an object.

Note

- When the objects are not selected, you can not select **Format**.

• **Object Position**

You can move the object position by changing the values.

Setting	Details
Vertical Pos	You can input the number of the vertical position in numerical characters.
Horizontal Pos	You can input the number of the horizontal position in numerical characters.
Page Pos	You can input the number of the page position in numerical characters.

• **Object Size**

You can confirm the object size.

- When several objects are selected, you cannot display **Object Size**.

Laying out a Multiple-File Document on One Page

You can lay out and print a multiple-file document on one page.

1

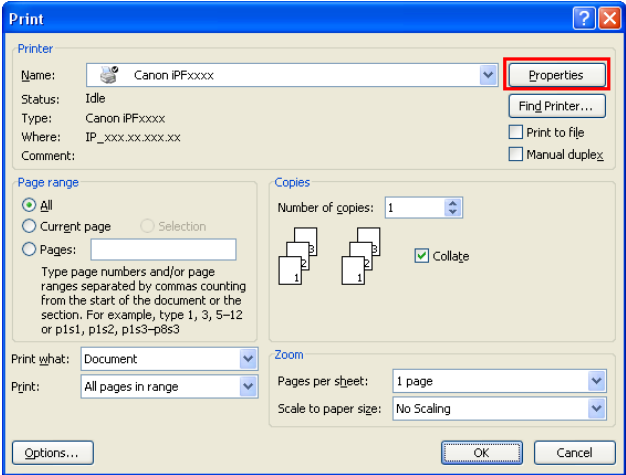

From the application software's **File** menu, select the printer setup menu to open the **Print** dialog box.

- Normally, select **Print** from the **File** menu.

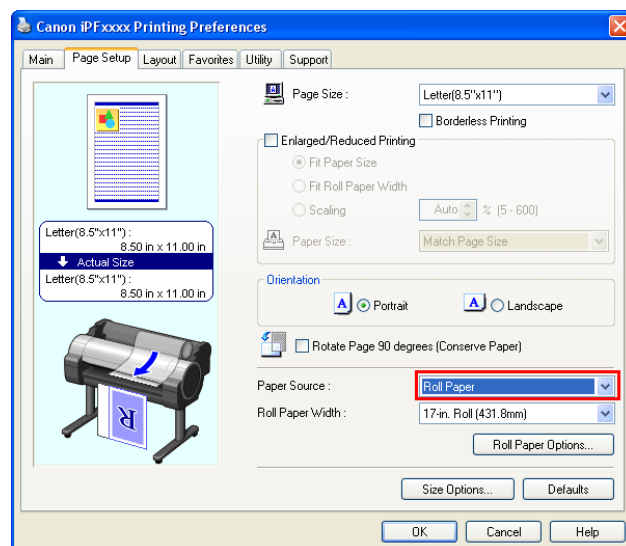

2

Click **Properties** to open the **Properties** dialog box.

3

In the **Page Setup** sheet, select **Paper Source**.

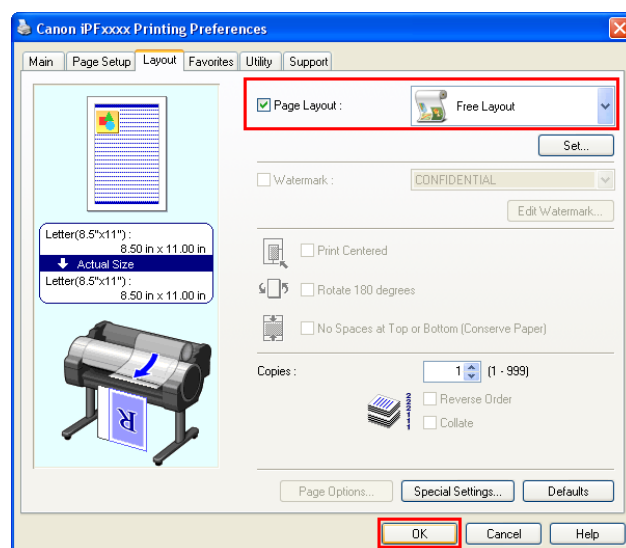

Note

- Your printer is depicted in the lower-left area of this screen.

4

In the **Layout** sheet, click on the **Page Layout** check box and select **Free Layout** from the list.

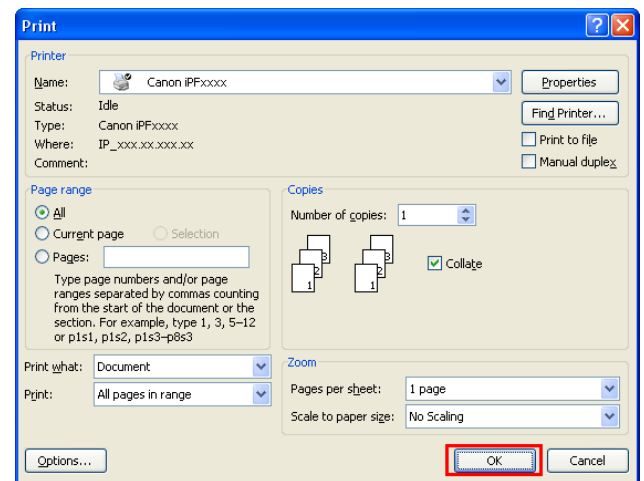

Note

- Your printer is depicted in the lower-left area of this screen.
- When you select Free Layout, all other setting items will be disabled.

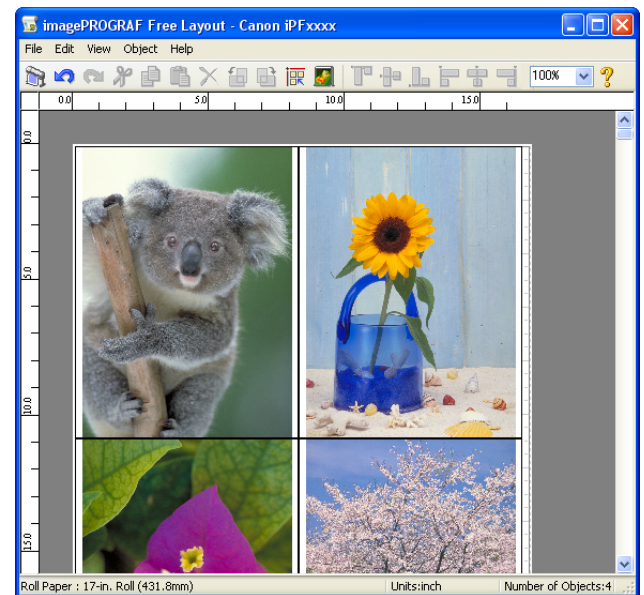

5

Click the **OK** button to save the settings.

- 6** In the **Print** dialog box, select the pages to print and the number of copies, and click the **OK** button.

Free Layout starts, laying out the document created with application software in the layout area as an object.

- 7** Leaving Free Layout running, open other files with the application software and repeat the above steps.

Laying out a Document Created with Multiple Application Programs on One Page

You can lay out and print a document created with multiple application programs on one page.

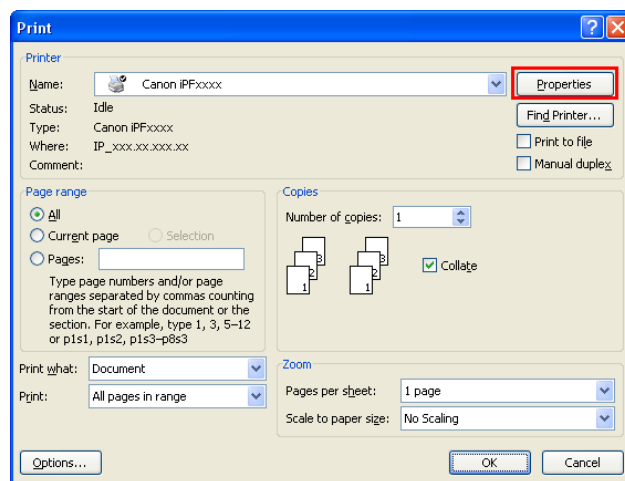

- 1** From the application software's **File** menu, select the printer setup menu to open the **Print** dialog box.

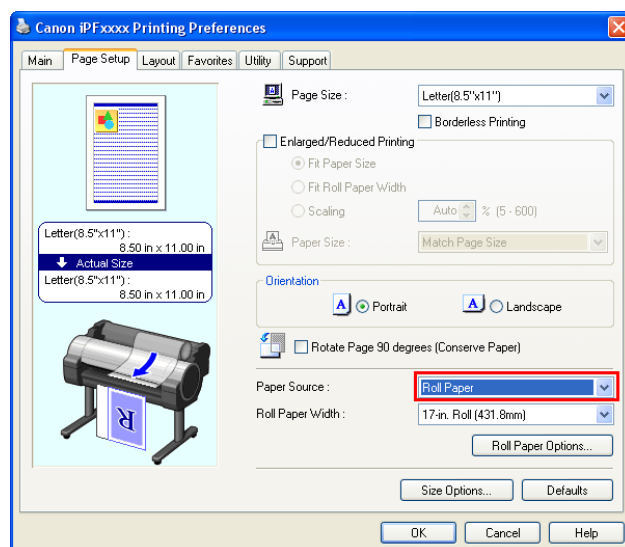

Note

- Normally, select **Print** from the **File** menu.

2 Click **Properties** to open the **Properties** dialog box.

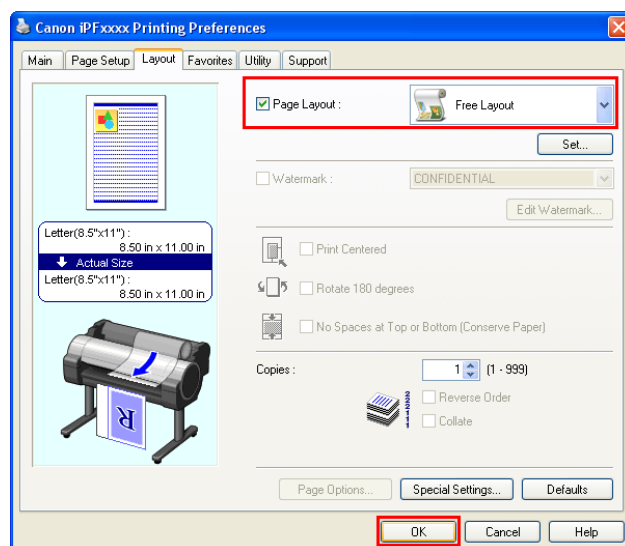

3 In the **Page Setup** sheet, select **Paper Source**.

Note

- Your printer is depicted in the lower-left area of this screen.

4 In the **Layout** sheet, click on the **Page Layout** check box and select Free Layout from the list.

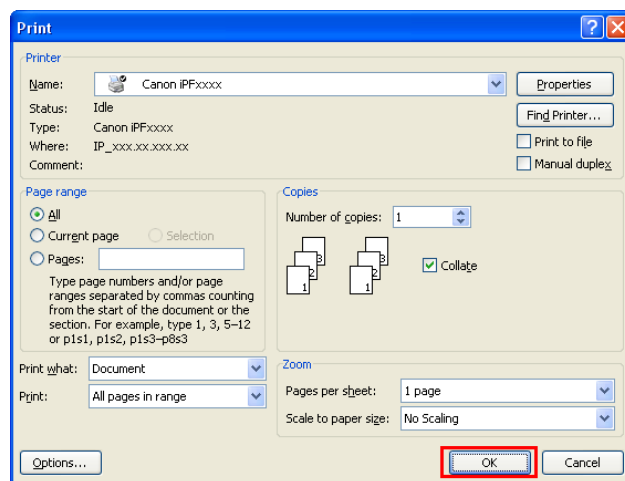

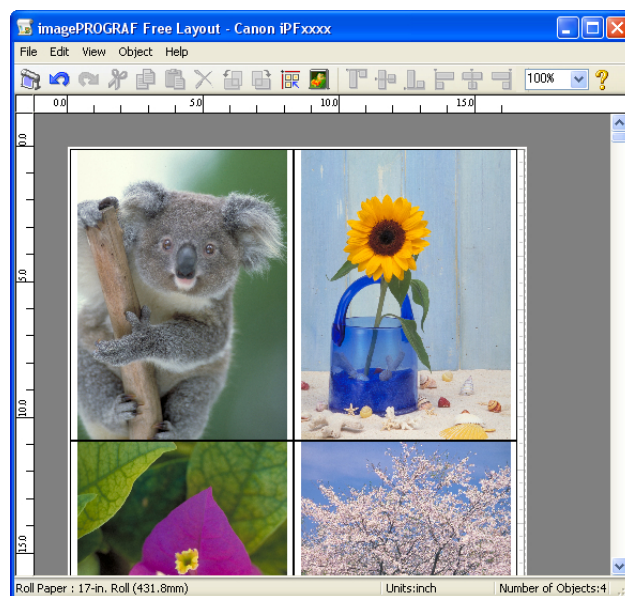

- Your printer is depicted in the lower-left area of this screen.
- When you select Free Layout, all other setting items will be disabled.

5 Click the **OK** button to save the settings.

6 In the **Print** dialog box, select the pages to print and the number of copies, and click the **OK** button.

Free Layout starts, laying out the document created with application software in the layout area as an object.

7 Leaving Free Layout running, open other files with other application software and repeat the above steps.

Selecting an Object

When an object is selected, a select box (blue border) appears around the object.

Note

- To select an object, click that object.
- To select multiple successive objects, click them while holding down the Shift key.
- To select multiple arbitrary objects, click them while holding down the Ctrl key.
- To select all objects, select **Select All** from the **Edit** menu.
- When you specify the area with dragging the mouse, the object in the area is selected.

Changing the Object Size

You can change the object size by means of mouse operation or by specifying a scaling value.

Note

- The vertical-to-horizontal ratio remains unchanged when the object is enlarged or reduced.

Resizing by means of mouse operation

1

Select an object.

- 2 Place the pointer at a corner of the selection box around the object to show the arrow handle, and drag this handle to change the object size.

Resizing by specifying a scaling value

- 1 Select an object.
Click on the **Enl./Red.** checkbox in the **Format Dialog Box** → P.199 and select **Scaling**.

- 2 You either enter numbers directly.

- You can input between 25 and 600.
- You can change the numbers by clicking either ▲ button or ▼ button.

- 3 Click the **OK** button.

Moving an Object

You can move the object position.

- 1 Select an object.
- 2 Place the pointer inside the selection box of the object to show the crosshair handle, and drag it to move the object.
Alternatively, you can move the **Object Position** by changing the values in **Vertical Pos**, **Horizontal Pos** and **Page Pos** in the **Format Dialog Box** → P.199 .

Rotating an Object

You can rotate the object.

- 1 Select an object.

- 2** Select **Rotate Left 90 Degrees** or **Rotate Right 90 Degrees** from the toolbar. Alternatively, you may click on the **Rotate** check box in the **Format Dialog Box** → P.199 then select **Rotate Right** or **Rotate Left**, and click the **OK** button.

Laying out Objects Automatically

Click **Auto Arrange Object** in the tool bar. This automatically lays out objects. Alternatively, you may select **Auto Arrange Object** from the **Object** menu.

Note

- The object layout order varies depending on the **Order** setting in the **Page Options Dialog Box** → P.198 dialog box.

Aligning Objects

You can align objects systematically.

- Select multiple objects.
- Click the align button from the toolbar. Alternatively, you may select the align menu from the **Object** menu.

- Align Top**

Lays out the objects, justifying them to the top.

- **Center Vertically**

Lays out the objects, justifying them to the vertical center.

- **Align Bottom**

Lays out the objects, justifying them to the bottom.

- **Align Left**

Lays out the objects, justifying them to the left.

- **Center Horizontally**

Lays out the objects, justifying them to the horizontal center.

- **Align Right**

Lays out the objects, justifying them to the right.

Changing the Object Overlapping Order

You can change the object overlapping order.

1 Select an object.

2 Select the Overlapping Order menu from the **Object** menu.

Note

- The order of overlapping affects the order of objects automatically laid out.
- You can also select by clicking the right button of the mouse on an object.

- **Bring to Front**

Moves the object to the frontmost position.

- **Send to Back**

Moves the object to the backmost position.

- **Bring Forward**

Moves the object one position to the front.

- **Send Backward**

Moves the object one position to the back.

Pasting a Copied or Cut Object

- 1 Click **Copy** or **Cut** from the toolbar.
Alternatively, you may select **Copy** or **Cut** from the **Edit** menu.

- 2 Click **Paste** from the toolbar.
Alternatively, you may select **Paste** from the **Edit** menu.

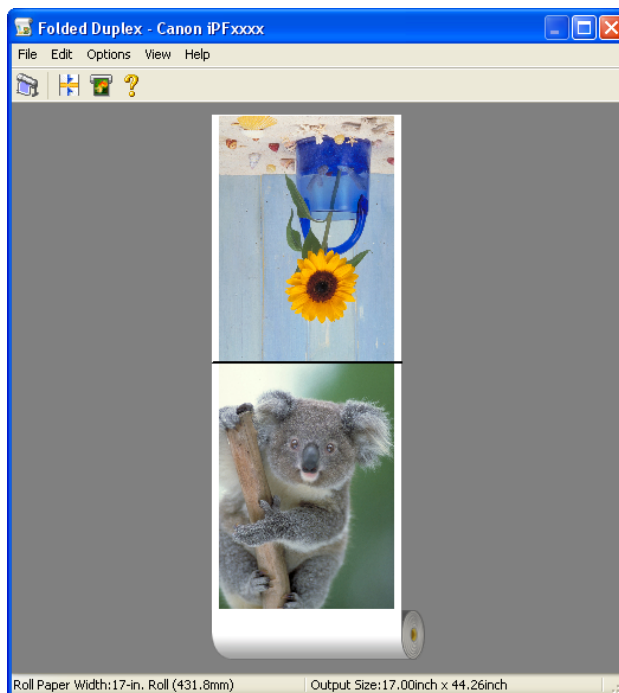

- The copied or cut object is laid out at the end of the page.
- You can also select by clicking the right button of the mouse on an object.
- In order to paste an object on any position that you like, you can paste the object with **Pointed Paste** by clicking the right button of the mouse on any position that you want.

Folded Duplex Window

This window is displayed if you select **Folded Duplex** from the **Edit** menu after selecting an object. Using the **Folded Duplex** function allows you to print with fold lines added.

The **Folded Duplex** window consists of the menu and tool bars, layout area and status bar.

Note

- The toolbar and status bar can be toggled between hidden and displayed from the **View** menu.

• Menu Bar

This allows you to select menus required for operations.

File Edit Options View Help

• Tool Bar

This allows you to select tool buttons required for major operations.

• Layout Area

This allows you to check the arrangement and orientation of objects.

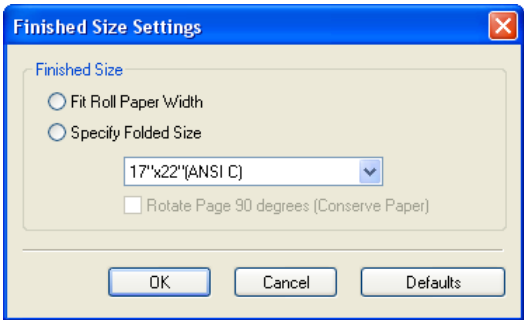

• Status Bar

This shows the paper source, roll paper width, and output size.

Finished Size Settings Dialog Box

This dialog box is displayed when you select **Finished Size Settings** from the **Edit** menu. This allows you to configure finished size settings.

• Finished Size

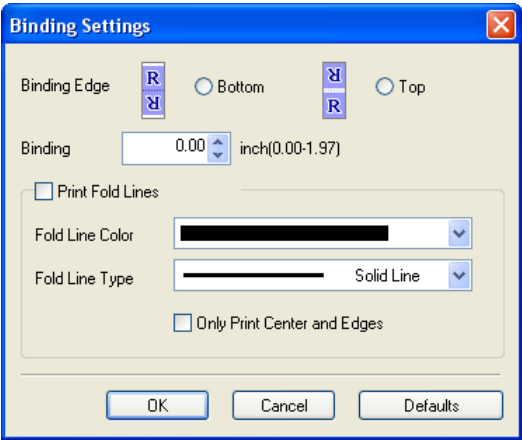

Selects the method for setting the finished size.
The following settings are available for the finished size.

Setting	Details
Fit Roll Paper Width	Prints by automatically enlarging or reducing the entire document so that the width of the document matches the roll paper width.
Specify Folded Size	Prints by automatically enlarging or reducing the entire document to match the size of the paper. Select the actual size of the paper you want to print on in Fit Paper Size .

Setting	Details
Rotate Page 90 degrees (Conserve Paper)	Prints by rotating pages by 90 degrees. Pages are automatically rotated if they will fit within the roll paper width when rotated, and are not rotated if they will not fit within the roll paper width.

Binding Settings Dialog Box

This is displayed when you select **Binding Settings** from the **Edit** menu. This allows you to configure the binding edge settings.

• Binding Edge

Configures the binding edge when folding paper.
The following settings are available for the binding edge.

Setting	Details
Bottom	Prints by placing the binding margin (gutter) at the bottom of the document.
Top	Prints by placing the binding margin (gutter) at the top of the document.

• Binding

Configures the binding margin (gutter).
Prints by creating a binding margin (gutter) of the specified size. Enter the margin size as a number.

- The values that can be entered are 0 to 50 (mm).

• Print Fold Lines

Configures the color and type of fold lines.

- To not print fold lines, clear the **Print Fold Lines** checkbox.

• Fold Line Color

You can select the fold lines.

• Fold Line Type

You can select the fold lines.
The following settings are available for the fold line type.

Setting	Details
Solid Line	You can print the solid line as the frame style.
Dotted Line	You can print the dotted line as the frame style.

Setting	Details
Dashed Line	You can print the dashed line as the frame style.

• **Only Print Center and Edges**

To print fold lines at the center and both edges, select the **Only Print Center and Edges** checkbox.

Prints using Folded Duplex

This prints 2 pages consecutively. Folding back the paper at the fold lines of the center substitutes for duplex printing.

- 1

Select two objects from the layout area of Free Layout.
- 2

Select **Folded Duplex** from the **Edit** menu of Free Layout.
Open the **Folded Duplex** window and arrange the selected objects in the layout area.
- 3

Open the **Finished Size Settings** dialog box from the **Edit** menu.
- 4

Select **Fit Roll Paper Width** or **Specify Folded Size** in **Finished Size**.

• **Rotate Page 90 degrees (Conserve Paper)** is also available when **Specify Folded Size** is selected.
- 5

Click **OK** to save the settings.
- 6

Open the **Binding Settings** dialog box from the **Edit** menu.
- 7

Select **Bottom** or **Top** in **Binding Edge**.
- 8

Specify the **Binding** width in **Binding**.
- 9

Configure the **Fold Line Color** and **Fold Line Type** from **Print Fold Lines**.

• When the **Only Print Center and Edges** checkbox is selected, fold lines are only printed at the three locations of the center and both edges.
- 10

Click **OK** to save the settings.
- 11

Confirm the print setting and begin printing.

Color imageRUNNER Enlargement Copy

The Features of Color imageRUNNER Enlargement Copy	216
Starting Color imageRUNNER Enlargement Copy	216
Color imageRUNNER Enlargement Copy Dialog Box	217
Hot Folder	218
Creating a New Hot Folder	219
Specifying an Existing Shared Folder as a Hot Folder	222
Setting the Print Parameters	225
Printing Enlargements of Scanned Originals from a Color imageRUNNER	225

The Features of Color imageRUNNER Enlargement Copy

The main features of Color imageRUNNER Enlargement Copy are as follows.

- Allows the document scanned with the Color imageRUNNER to be automatically enlarged and printed.
- You can perform basic printer settings such as printer selection, media type and output profile selection, and matching methods, in addition to borderless printing and enlargement/reduction process without growing through the printer driver.

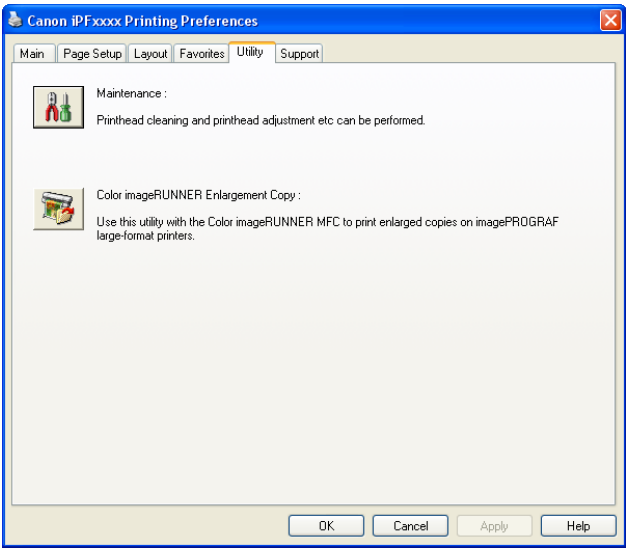

- The media type, image size, detailed media settings, and the printer settings can cause the actual print output to differ from the Color imageRUNNER Enlargement Copy settings.

Starting Color imageRUNNER Enlargement Copy

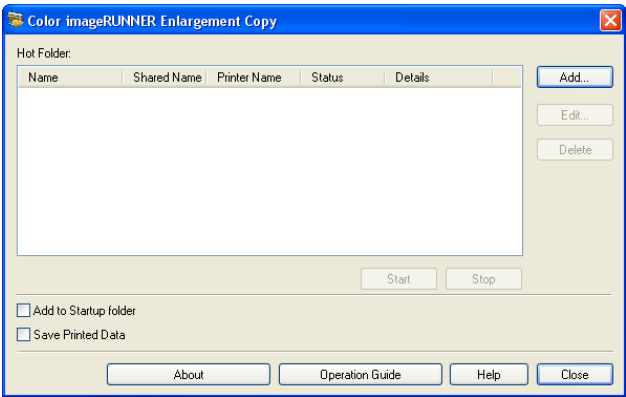

Follow the procedure below to start the Color imageRUNNER Enlargement Copy.

To start by selecting **Printers and Faxes** from the **start** button

- 1 Open the folder of the OS you are using for configuring printers.
For example, on Windows XP click the **start** button on the desktop, and then select **Printers and Faxes**.
- 2 Right-click the Printers icon and select **Printing Preferences** to open the **Printing Preferences** dialog box.
In the **Utility** sheet, click the **Color imageRUNNER Enlargement Copy** button.

3 The **Color imageRUNNER Enlargement Copy** dialog box displays.

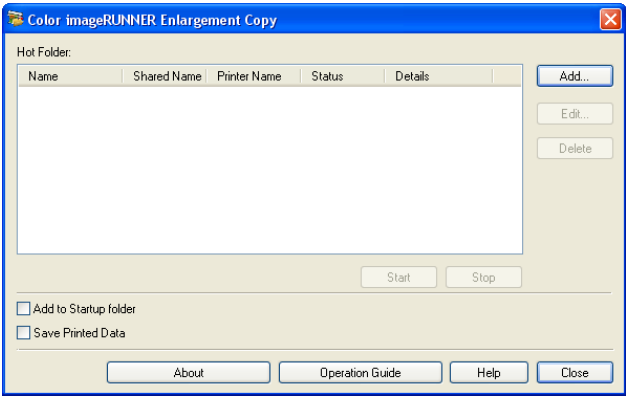

- If you click on the **Add to Startup folder** check box in the **Color imageRUNNER Enlargement Copy** dialog box, the icon of Color imageRUNNER Enlargement Copy utility will appear on the task bar when starting Windows thereafter.

To start by selecting **Color imageRUNNER Enlargement Copy** from the **start** button

1 From the Windows **start** button, select **Color image-RUNNER Enlargement Copy**.

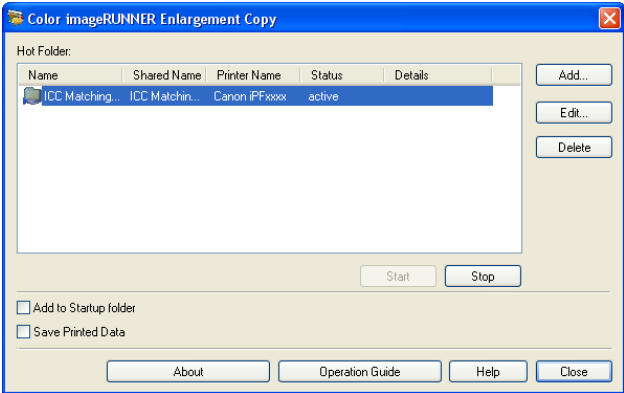

2 The **Color imageRUNNER Enlargement Copy** dialog box displays.

Color imageRUNNER Enlargement Copy Dialog Box

The explanation below is on the **Color imageRUNNER Enlargement Copy** dialog box.

Note

- For the step to open the **Color imageRUNNER Enlargement Copy** dialog box, see "Starting Color imageRUNNER Enlargement Copy." →P216

• Hot Folder

The hot folder list appears.

• Add Button

Click the button to open the **Easy Setup Wizard** dialog box so that you can add a hot folder.

• Edit Button

From the **Hot Folder** list, select a hot folder and click the button to open the **Add/Edit Hot Folder** dialog box that allows you to edit the hot folder.

• Delete Button

From the **Hot Folder** list, select a hot folder and click the button to delete the hot folder.

• Start Button

Clicking the button changes the status of the selected **inactive** Hot Folder to **active**.

• Stop Button

Clicking the button changes the status of the selected **active** Hot Folder to **inactive**.

• Add to Startup folder

Register the application in the Windows startup menu.

• Save Printed Data

Automatically saves printed data.

• About Button

Click the button to display the name and the version number of the utility.

• Operation Guide Button

Click the button to display the **Color imageRUNNER Enlargement Copy Setup Manual**.

Hot Folder

Hot folder refers to a folder used for Color imageRUNNER Enlargement Copy.

- When transferred to the PC's hot folder, the document data scanned with the Color imageRUNNER is printed in enlarged size from the printer according to the print conditions set in the hot folder.
- You can create a new hot folder, edit or delete an existing one, and set print conditions at will.

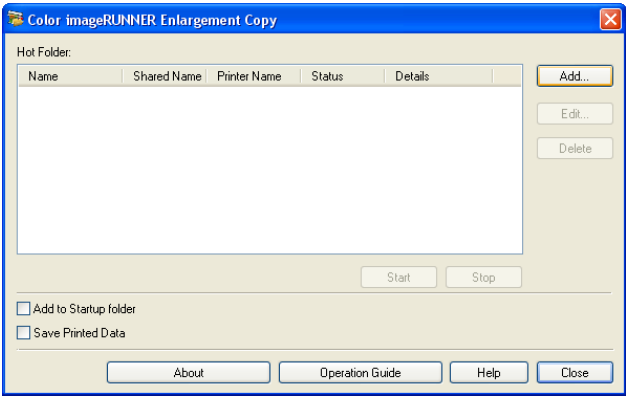

Note

- You can create up to 20 hot folders.

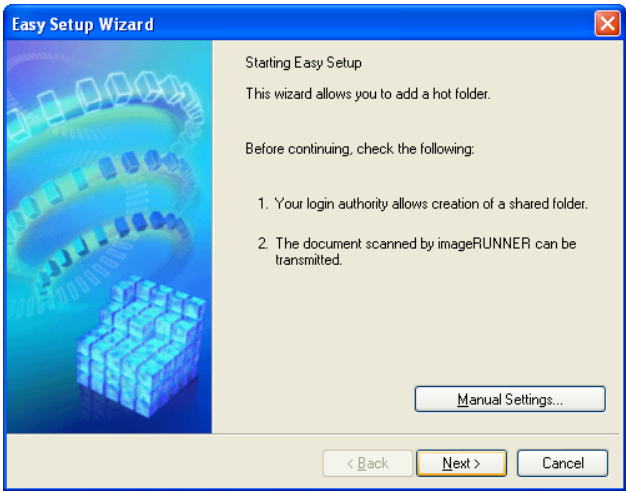

Creating a New Hot Folder

1 Open the **Color imageRUNNER Enlargement Copy** dialog box, and then click the **Add** button.

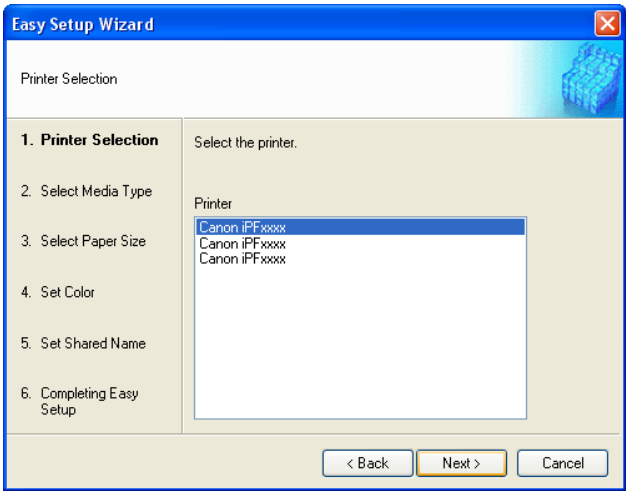

• For the step to open the **Color imageRUNNER Enlargement Copy** dialog box, see "Starting Color imageRUNNER Enlargement Copy." →P.216

2 The **Easy Setup Wizard** dialog box displays. Click the **Next** button.

3 Select the type of printer to use. Click the **Next** button.

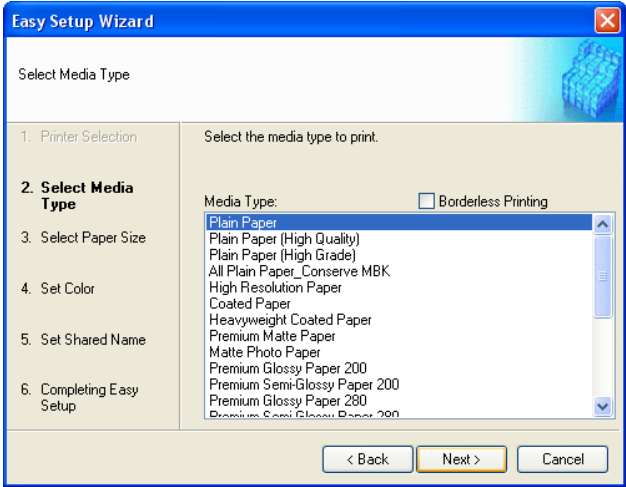

4 Select the media type to print.

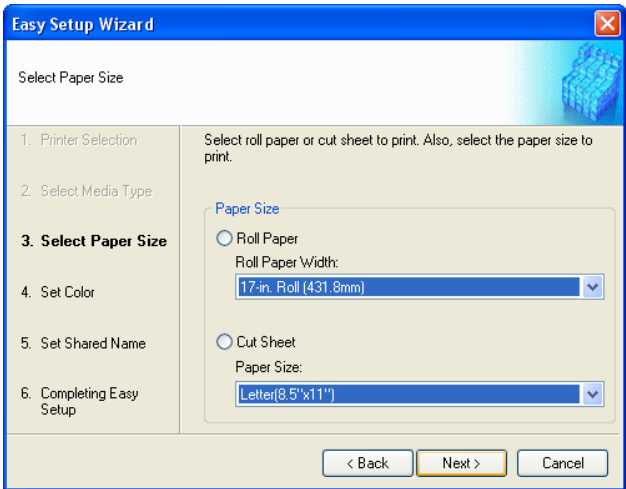

- If the **Borderless Printing** checkbox is checked, only media types that can be used for borderless printing are displayed in the list.

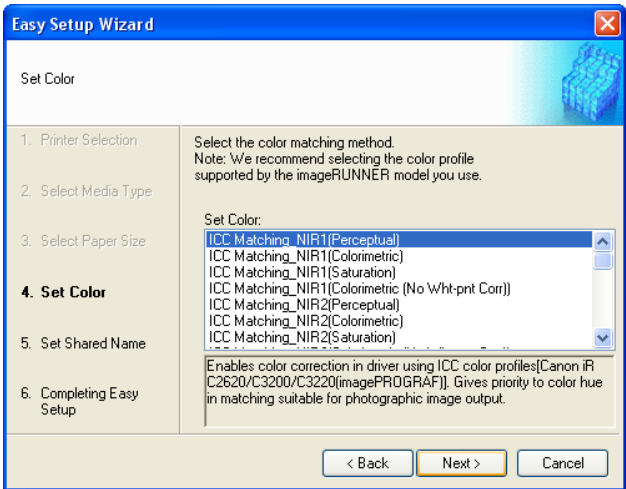

Click the **Next** button.

5 Select roll paper or cut sheet to print. Also, select the media size to print. Click the **Next** button.

6 Select the color matching method. Click the **Next** button.

7 To receive a document scanned with the Color imageRUNNER, you need to share a folder. Enter the folder shared name in **Shared Name**. Click the **Next** button.

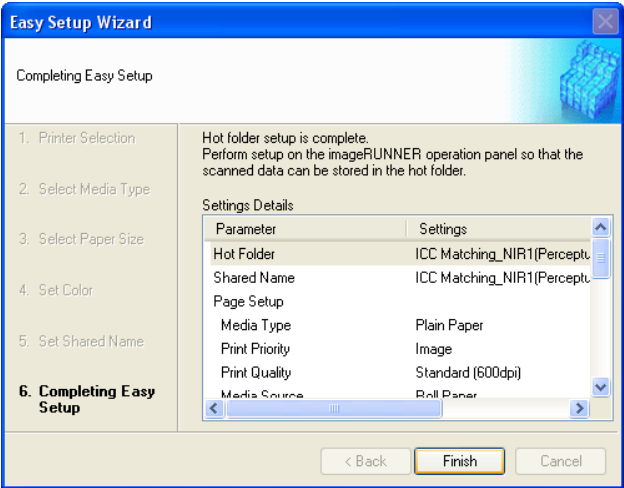

Note

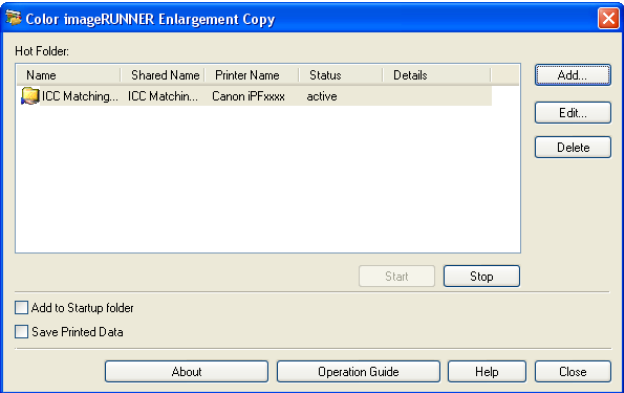

- This shared name is used as the name of the hot folder.
- You cannot use the **Back** button, after clicking the **Next** button here.

8 Click **Finish** button to close the **Easy Setup Wizard** dialog box.

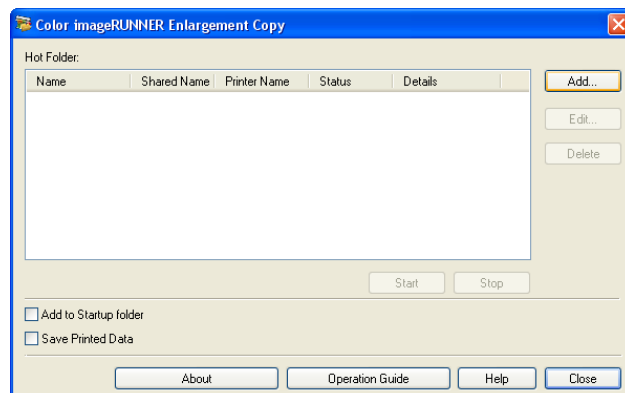

The hot folder you have created appears in the **Hot Folder** list in the **Color imageRUNNER Enlargement Copy** dialog box.

Specifying an Existing Shared Folder as a Hot Folder

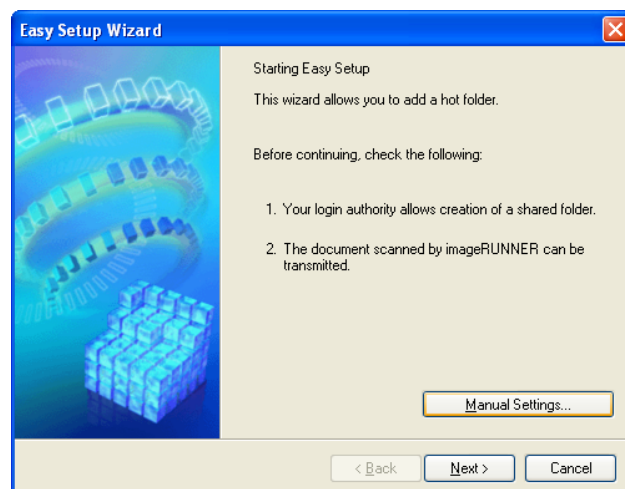

- 1 Share the folder you want to specify as a hot folder.
- 2 Open the **Color imageRUNNER Enlargement Copy** dialog box, and then click the **Add** button.

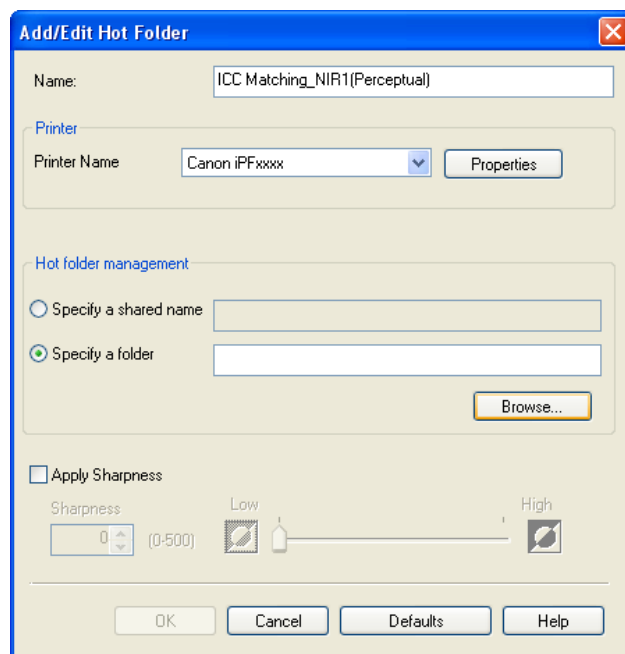

Note

- For the step to open the **Color imageRUNNER Enlargement Copy** dialog box, see "Starting Color imageRUNNER Enlargement Copy." → P.216

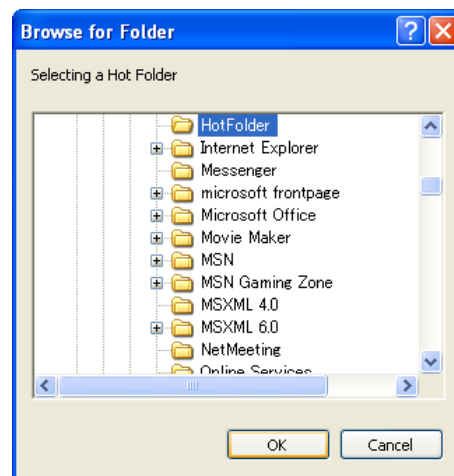

- 3 The **Easy Setup Wizard** dialog box displays. Click the **Manual Settings** button.

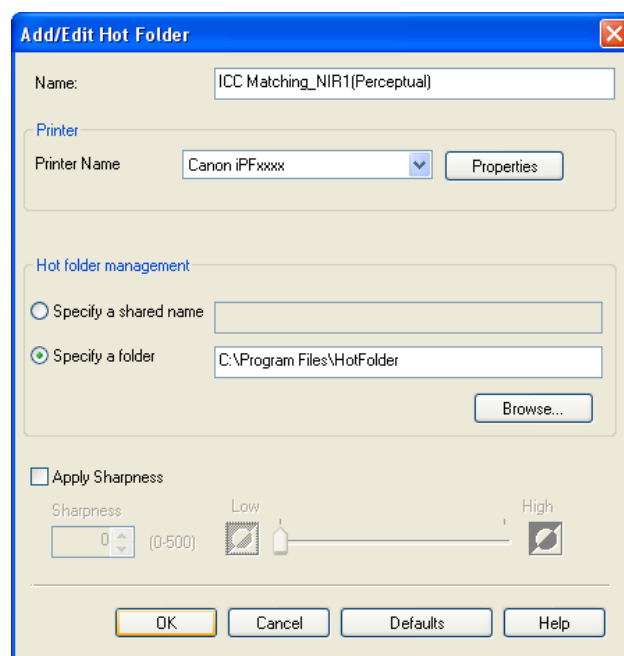

- 4** The **Add/Edit Hot Folder** dialog box displays. Enter the hot folder name in **Name**. Click the **Browse** button, with selecting **Specify a folder**, to set the existing shared folder.

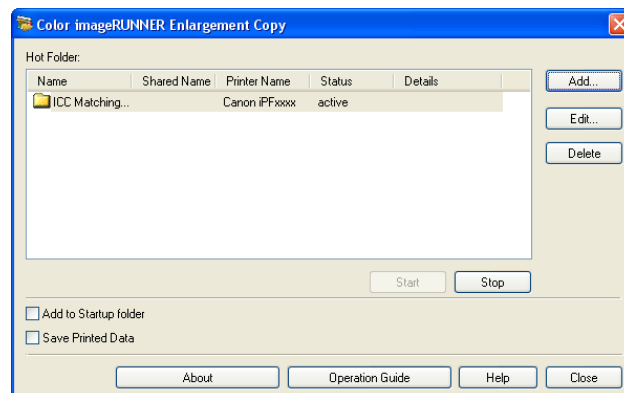

- 5** The location of the folders will appear. Select the folder to specify a hot folder, and click the **OK** button.

- 6** As necessary, set the print conditions in the hot folder. (See "Setting the Print Parameters.") → P.225
Click the **OK** button to close the **Add/Edit Hot Folder** dialog box.

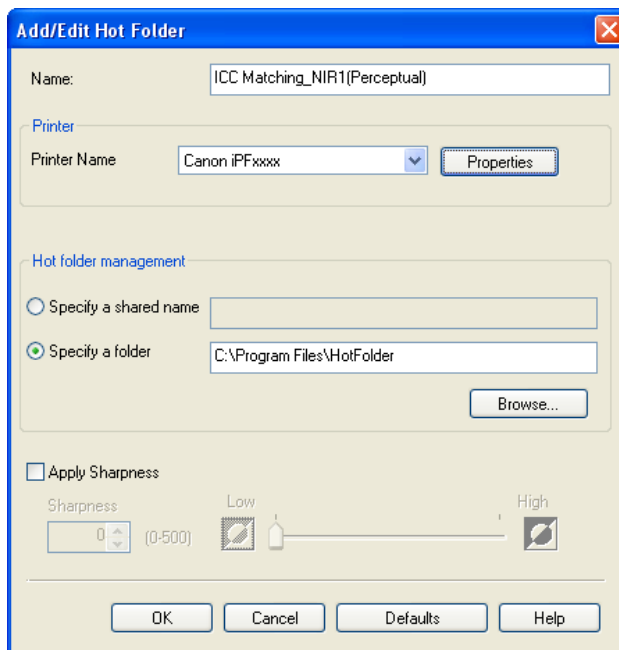

The hot folder you have created appears in the **Hot Folder** list in the **Color imageRUNNER Enlargement Copy** dialog box.

Setting the Print Parameters

The printer driver opens when you click the **Properties** button in the **Add/Edit Hot Folder** dialog box. The printer driver is used to configure basic settings to match the type of media loaded in the printer.

Refer to "Printer Driver" → P.150 for details on the printer driver.

Note

- The only three sheets displayed are the **Main** sheet, the **Page Setup** sheet, and the **Layout** sheet. Some of the printer driver settings may be disabled.

• Apply Sharpness

Place a checkmark here to set the sharpness.

Drag the slider bar to the left or right to adjust. You can also adjust by directly entering a number in the numeric input field.

Note

- You can input between 0 and 500.
- You can change the numbers by clicking either ▲ button or ▼ button.
- You cannot be applied to PDF files.

Printing Enlargements of Scanned Originals from a Color imageRUNNER

Scanned originals from a Color imageRUNNER can be enlarged and printed automatically.

Originals you create by scanning with a Color imageRUNNER are transferred to a "hot folder" and printed automatically after enlargement according to printing conditions you specify for that folder.

This processing sequence is called the **Color imageRUNNER Enlargement Copy** function.

To use **Color imageRUNNER Enlargement Copy**, first complete these settings in the following order.

1. Register a hot folder on your computer.
Register a hot folder on your computer for storing scanned originals from the Color imageRUNNER and complete the settings for enlargement copy. For details, see "Creating a New Hot Folder." → P.219
2. Complete the scanning settings on the Color imageRUNNER.
Configure the Color imageRUNNER to send scanned originals to the hot folder.

After these settings are complete, you can print enlarged copies of scanned originals from the Color imageRUNNER.

Completing the scanning settings on the Color imageRUNNER.

Configure the Color imageRUNNER to send scanned originals to the hot folder. It is easy to send scanned originals to the hot folder if you assign the scanning settings and destination to a **Favorites** button on the Color imageRUNNER. For instructions on assigning scanning settings and destinations to a **Favorites** button, refer to the setting manual, displayed by clicking **Color imageRUNNER Enlargement Copy Setup Manual** button of **Color imageRUNNER Enlargement Copy** utility, or refer to the Color imageRUNNER manual.

Scanning the original and print an enlargement

Follow the steps below to scan an original on the Color imageRUNNER for enlarged printing on the printer. For detailed instructions, refer to the Color imageRUNNER manual.

- 1** Load the original on the platen glass or document feeder of the Color imageRUNNER.
- 2** Press **Send** to display the screen for transmission.
- 3** Press **Favorites**, and then press the **Favorites** button assigned to the hot folder.
- 4** Press **Start** on the control panel. If you scan originals on the platen glass, after scanning all originals, press **Done** on the touch-panel display.
Scanned originals are sent to the hot folder and automatically enlarged and printed following the conditions you specified for the folder.

Print Plug-In for Officefeatures

Print Plug-In for Office is a Plug-In that enables easy printing from **Microsoft Office**.

- It is displayed on the toolbar/ribbon, so it is easily accessible.
- It can be set by just selecting from the Wizard.
- **Large-Format Printing** custom size can also be set in the Wizard from **Microsoft Word** or **Microsoft PowerPoint**.
- Custom size can be set automatically from **Microsoft Excel**.
- The layout can be checked before printing by starting the preview screen.

Note

- 64 bit edition Windows OS operates only on WOW64 (32 bit emulator).

Important

- The **Print Plug-In for Office** toolbar/ribbon might not be displayed in **Microsoft Office** after installing **imagePROGRAF Print Plug-In for Office**. For details, refer to "When Print Plug-In for Office is not displayed" →P.231 .
- If you opened the Office document from **Internet Explorer**, the software will not run correctly.
- If you are editing an embedded object or link object, the software will not run correctly.
- If you added the **imagePROGRAF Print Plug-In** ribbon to the **Microsoft Office** Quick Access toolbar, the software will not run correctly.

Steps to install

Below are the steps to install **Print Plug-In for Office**.

Note

- You must log into Windows as an Administrator before the installation.

1

Insert "User Software CD-ROM" into the CD-ROM drive and start the installer.

Note

- If the installer screen does not appear automatically, open the CD-ROM drive icon of your computer and double-click the **ipFInst.exe** icon.

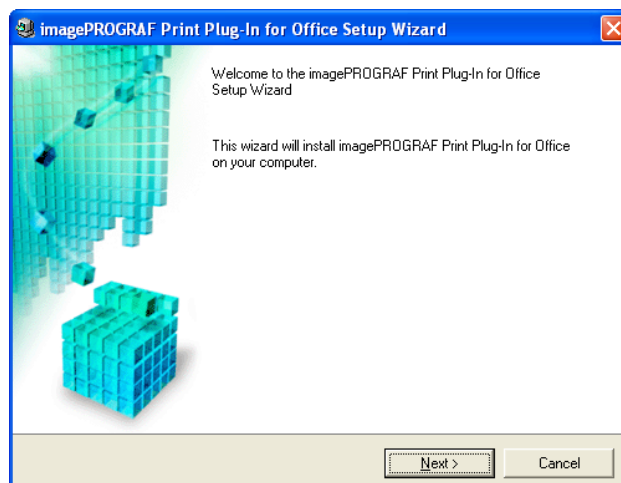

2

Click the **imagePROGRAF Print Plug-In** button.

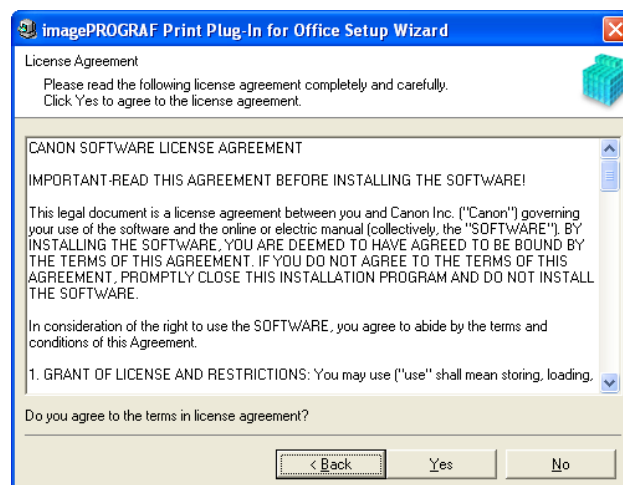

3

Click the **Next** button.

- 4** Read the **License Agreement**, and click the **Yes** button.

- 5** Click the **Start** button.

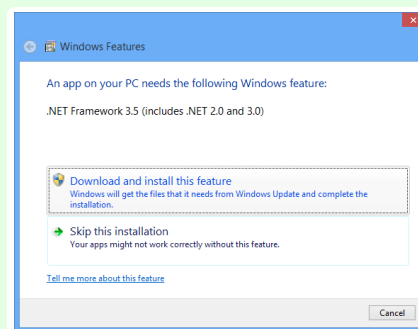

- 6** Click the **Yes** button.

Note

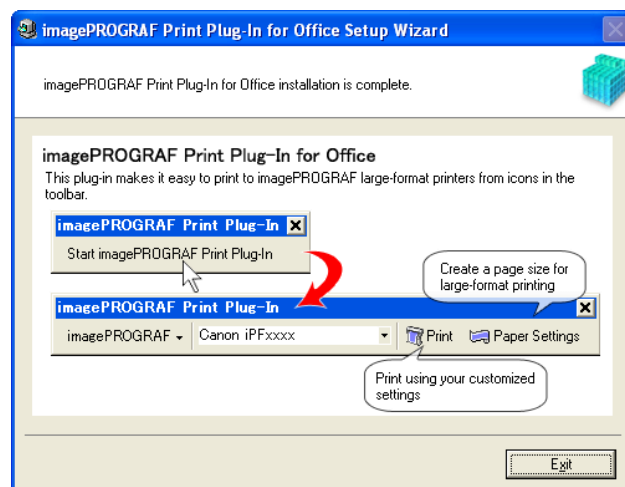

- The following message may be displayed in Windows 8 or a later OS. If this happens, install the **.NET Framework** by following the procedure.

7

Click the **Exit** button.

The installation for **Print Plug-In for Office** is complete.

- When you install this software, the virtual printer **Canon imagePROGRAF PrintPlugIn** may be installed. If you want to use this software, do not uninstall the virtual printer **Canon imagePROGRAF PrintPlugIn**.
- The **Print Plug-In for Office** toolbar/ribbon might not be displayed in **Microsoft Office** after installing **imagePROGRAF Print Plug-In for Office**. Refer to the following topic for details on how to display the **imagePROGRAF Print Plug-In for Office** toolbar/ribbon.
 - When Print Plug-In for Office is not displayed → P.231

Steps to uninstall

Below are the steps to uninstall **Print Plug-In for Office**.

1

If **Microsoft Office** is open, close it.

2

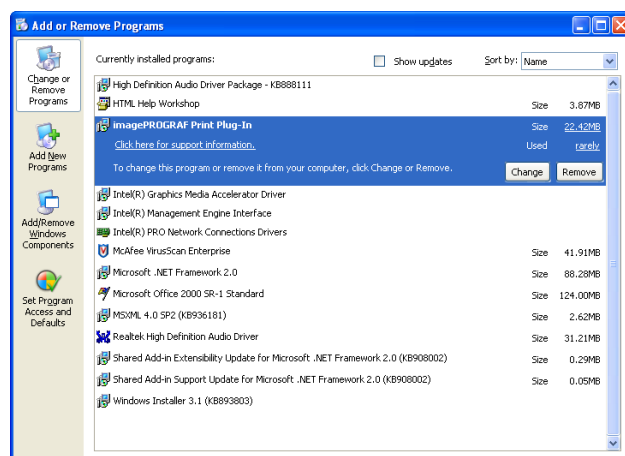

Select **Control Panel** from the **start** menu.

3

Open **Add or Remove Programs**.

4

Select **imagePROGRAF Print Plug-In**, and click the **Remove** button.

- You cannot uninstall **Print Plug-In for Office** if an Office application is running. When a message appears, select **Cancel** and close all Office applications that are running.

When Print Plug-In for Office is not displayed

Buttons such as **Start imagePROGRAF Print Plug-In** sometimes do not appear in the **Word**, **PowerPoint** and **Excel** Office applications, and the **Print Plug-In for Office** functions are not available.

In this event, re-install **Print Plug-In for Office**.

If you are using **Microsoft Office 2003** or later, you can also enable add-ins to display **Print Plug-In for Office**. See below for the procedure for re-installing the plug-in or enabling add-ins.

Re-installing Print Plug-In for Office

If a problem occurs, such as the system or an application terminating abnormally, the **Microsoft Office** application disables add-ins as a safety precaution.

In this event, you will need to re-install **Print Plug-In for Office** to display the **imagePROGRAF Print Plug-In** toolbar/ribbon.

- You cannot re-install **Print Plug-In for Office** once an Office application is running. When the message appears, select **Cancel** and close the active Office application.

Re-install **Print Plug-In for Office** as follows:

1 Close **Microsoft Office** if it is open.

2 Install **Print Plug-In for Office**.
For information about installing, see "Steps to install." → P.228

Enabling Print Plug-In for Office for items disabled in Office applications

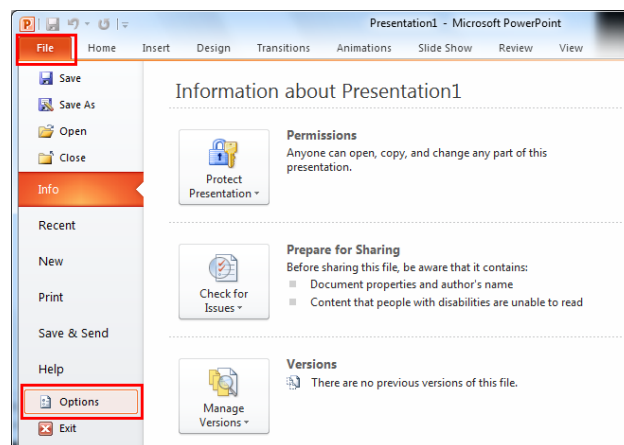

If a problem occurs, such as the system or an application terminating abnormally, the **Microsoft Office** application disables add-ins as a safety precaution.

In this event, you will need to restore the disabled add-ins in order to display the **imagePROGRAF Print Plug-In** toolbar/ribbon.

Use the procedure below to restore the add-ins disabled by **Microsoft Office**.

- For **Microsoft Office 2010 or later**

1 Select **Options** from the **File** menu.

2 From the list on the left side of the **<application name> options** dialog box, select **Add-ins**.

- 3** Select **Disabled Items** in the **Manage** combo box and click the **Go** button.

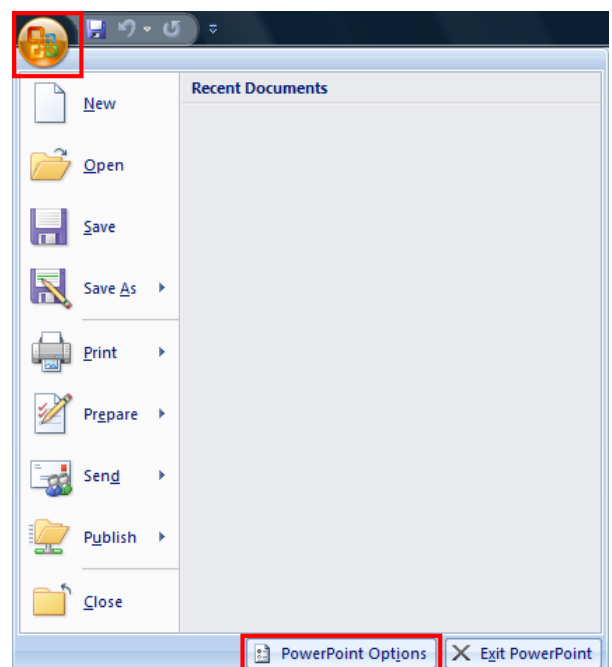

- 4** If Addin imageprograf print plug-in (ipfaddinif.dll) is displayed in the **Disabled Items** dialog box, select it and click the **Enable** button.

- 5** Close all the dialog boxes and restart the Office application.

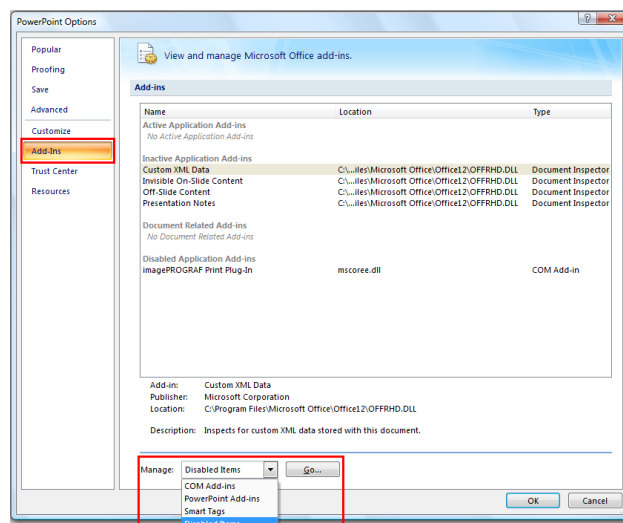

- For **Microsoft Office 2007**

- 1** Click the **Office** button and then click the **<application name> options** button.

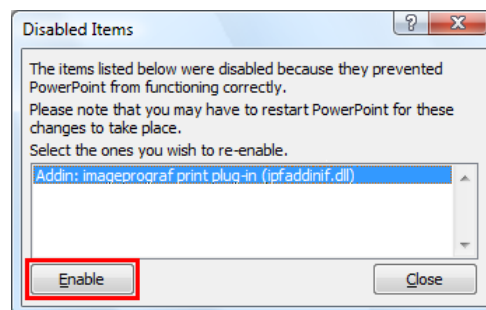

- 2** From the list on the left side of the **<application name> options** dialog box, select **Add-ins**.

- 3** Select **Disabled Items** in the **Manage** combo box and click the **Go** button.

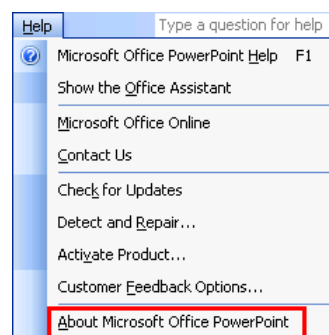

- 4** If Addin imageprograf print plug-in (ipfaddinif.dll) is displayed in the **Disabled Items** dialog box, select it and click the **Enable** button.

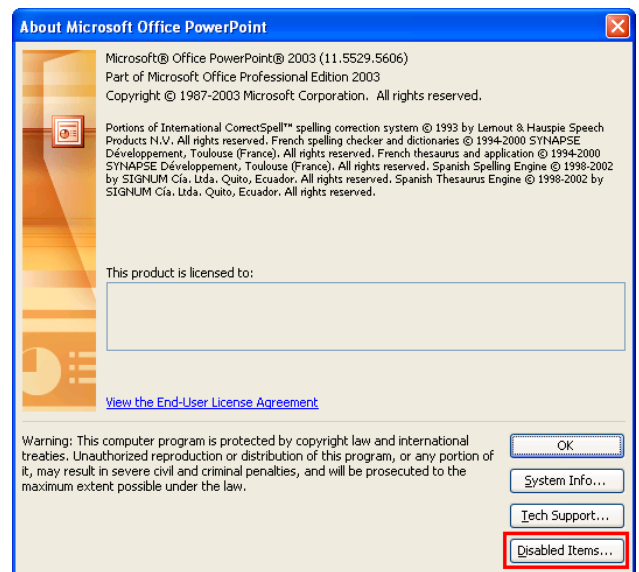

- 5** Close all the dialog boxes and restart the Office application.

- For **Microsoft Office 2003**

- 1** Click **About <application name>** in the **Help** menu of application.

- 2** Click the **Disabled Items** button in the **About <application name>** dialog box.

- 3** If **Addin imageprograf print plug-in (ipfaddinif.dll)** is displayed in the **Disabled Items** dialog box, select it and click the **Enable** button.

- 4** Close all the dialog boxes and restart the Office application.

To start from Microsoft Word

Below are the steps to start **Print Plug-In for Office** from **Microsoft Word**.

- 1** Start **Microsoft Word**.
- 2** If **Start imagePROGRAF Print Plug-In** is displayed on the toolbar/ribbon, click it.

Important

- If the **imagePROGRAF Print Plug-In** toolbar/ribbon is not displayed, refer to the following.
- "When Print Plug-In for Office is not displayed" → P.231

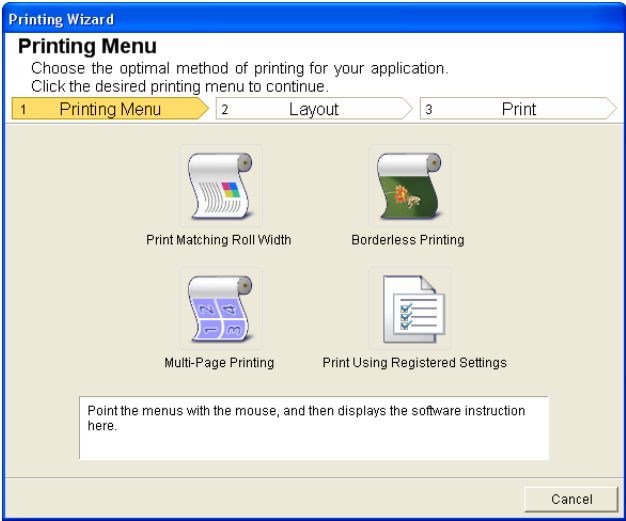

- 3** Check that the **imagePROGRAF Print Plug-In** toolbar/ribbon is displayed.

4 Click the buttons on the toolbar/ribbon according to the items you want to set.

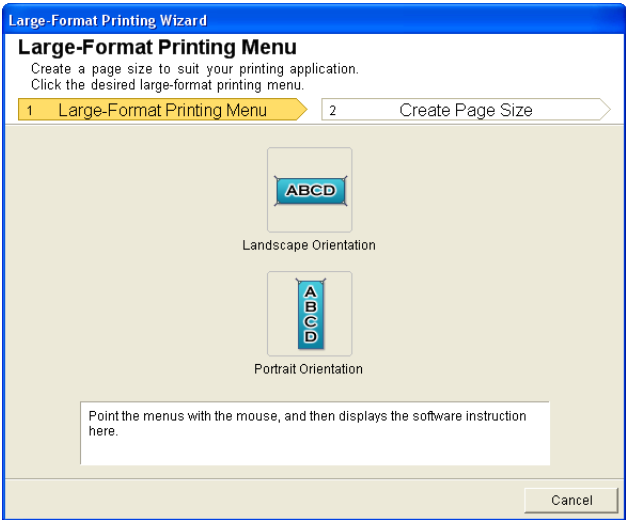

Icon	Contents
 Menu	Displays the About , Help , and Special Settings dialog boxes. You can change the settings using the Special Settings dialog box. Refer to "Configuring Special Settings" →P.266 for details.
 Printer list	Select Printer. If you select Show All Printers , the imagePROGRAF printers will be displayed again. Select this when you want to display all printer drivers or update the display.
 PrintButton	The print Wizard is displayed. The settings Print Matching Roll Width , Borderless Printing , Multi-Page Printing , and Print Using Registered Settings can be set.
 Paper Settings Button	Large-Format Wizard is displayed. Settings for Portrait or Landscape Orientation can be set.

Printing Wizard dialog box

- If you want to change the display to another file or application while the **Printing Wizard** is open, close the **Printing Wizard** dialog box. Otherwise, you may not be able to change displays or operate the toolbar/ribbon.

Large-Format Printing Wizard dialog box

Important

- If you want to change the display to another file or application while the **Large-Format Printing Wizard** is open, close the **Large-Format Printing Wizard** dialog box. Otherwise, you may not be able to change displays or operate the toolbar/ribbon.
- The layout may collapse if you create a form using existing data. If that is the case, modify the data again.

Print Matching Roll Width(Word)

Prints to the edge of the roll width. You can print large exhibits and posters, and also print Portrait and Landscape orientations made in **Large-Format Printing Wizard**.

- 1** Start **Microsoft Word**.
- 2** If **Start imagePROGRAF Print Plug-In** is displayed, click it.

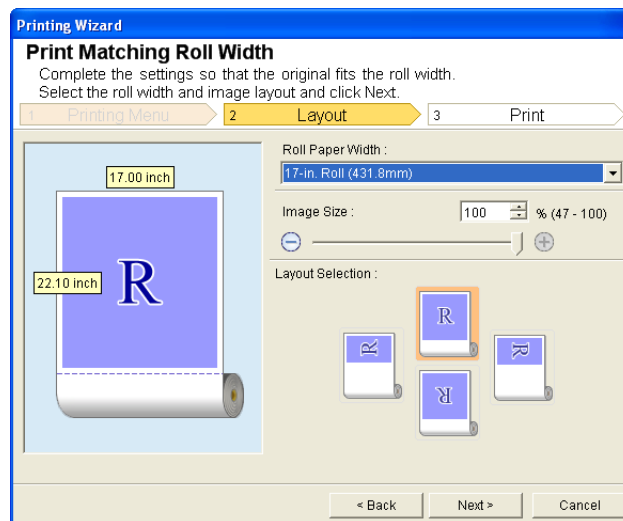

- 3** Click **Print** from the **imagePROGRAF Print Plug-In** toolbar/ribbon. The **Printing Wizard** dialog box is displayed.

- If you want to change the display to another file or application while the **Printing Wizard** is open, close the **Printing Wizard** dialog box. Otherwise, you may not be able to change displays or operate the toolbar/ribbon.

4 Click **Print Matching Roll Width**.

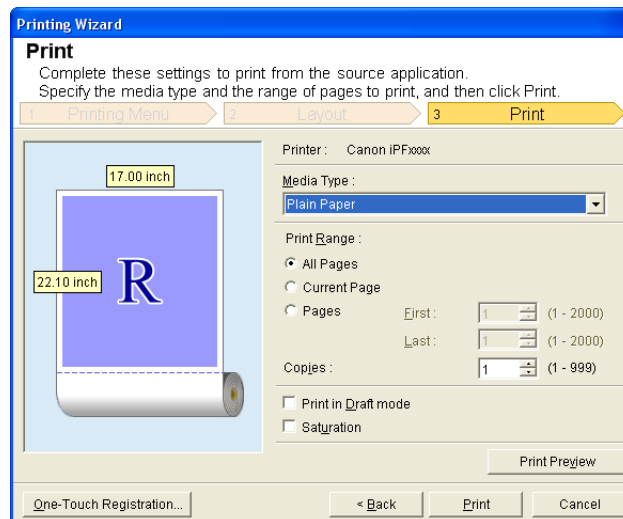

5 Select **Roll Paper Width** that is set in the printer.

6 Select image size.

7 Select layout.

8 Select **Next**.

9 Select **Media Type**.

10 Select **Print Range** from **All Pages**, **Current Page**, and **Pages**. If **Pages** is selected, enter the number of pages.

11 Enter Copies.

Note

- When **Print in Draft mode** is selected, printing is fast but the print quality is poor.
- When **Saturation** is selected, you can print posters, etc., vividly.
- The settings are registered when the **One-Touch Registration** is pressed. This is convenient if you need print multiple times using the same setting.
- Press the **Print Preview** button to display the preview screen. You can check and make changes to the layout in the preview screen.
- When you print to the edge of the roll width, the maximum length will be the lesser of 5.587 times the roll paper width, or 18.0m.

12 Press **Print** to start printing.

Borderless Printing(Word)

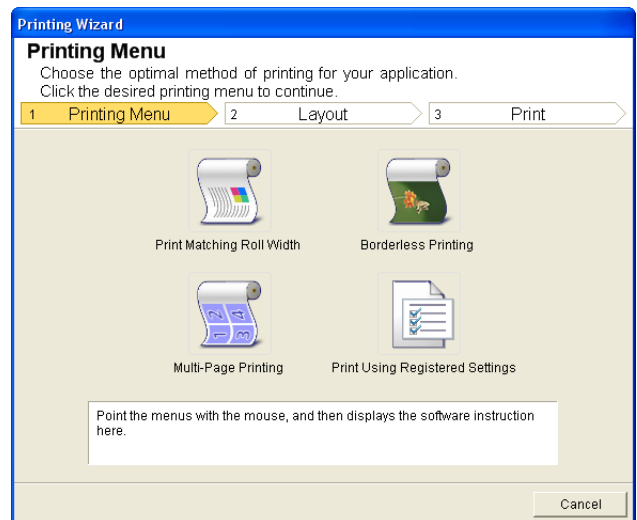

Prints up to the border of the media. Photos and posters can be printed without worrying about margins.

1 Start **Microsoft Word**.

2 If **Start imagePROGRAF Print Plug-In** is displayed, click it.

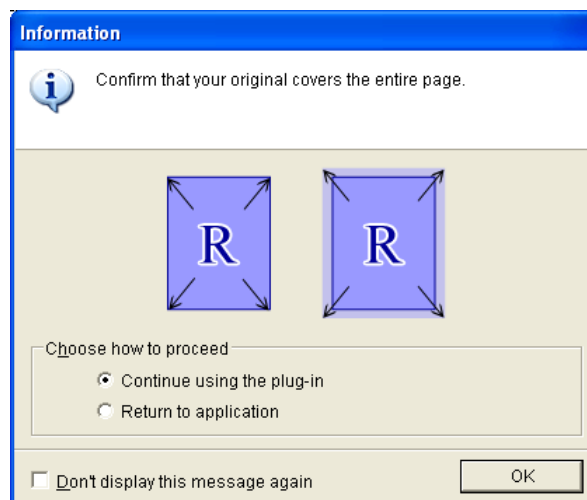

3 Click **Print** from the **imagePROGRAF Print Plug-In** toolbar/ribbon. The **Printing Wizard** dialog box is displayed.

Important

- If you want to change the display to another file or application while the **Printing Wizard** is open, close the **Printing Wizard** dialog box. Otherwise, you may not be able to change displays or operate the toolbar/ribbon.

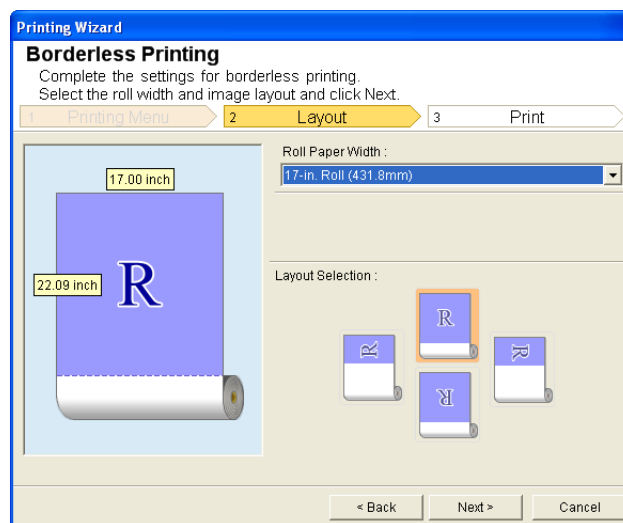

4 Click **Borderless Printing**.

5 A confirmation dialog box is displayed. If the data fills up the page, confirm that **Continue using the plug-in** is selected in **Choose how to proceed** and press **OK**.

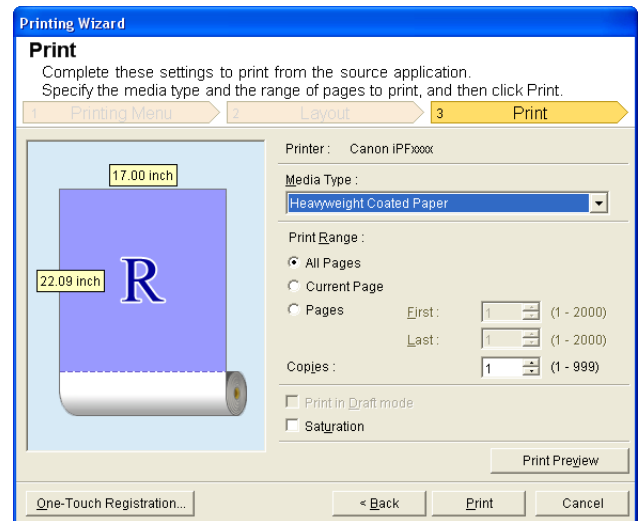

- To adjust the data, select **Return to application** and press **OK**. Exit **Print Plug-In for Office** and return to the application.

6 Select **Roll Paper Width** that is set in the printer.

7 Select layout.

8 Select **Next**.

9 Select **Media Type**.

10 Select **Print Range** from **All Pages**, **Current Page**, and **Pages**. If **Pages** is selected, enter the number of pages.

11 Enter **Copies**.

Note

- When **Print in Draft mode** is selected, printing is fast but the print quality is poor.
- When **Saturation** is selected, you can print posters, etc., vividly.
- Press the **One-Touch Registration** button to register the settings. This is useful for multiple printing using the same settings.
- Press the **Print Preview** button to display the preview screen. You can confirm and make changes to the layout in the preview screen.
- The maximum length for Borderless Printing is the lesser of 5.587 times the roll paper width, or 18.0m.

12 Press **Print** to start printing.

Multi-Page Printing(Word)

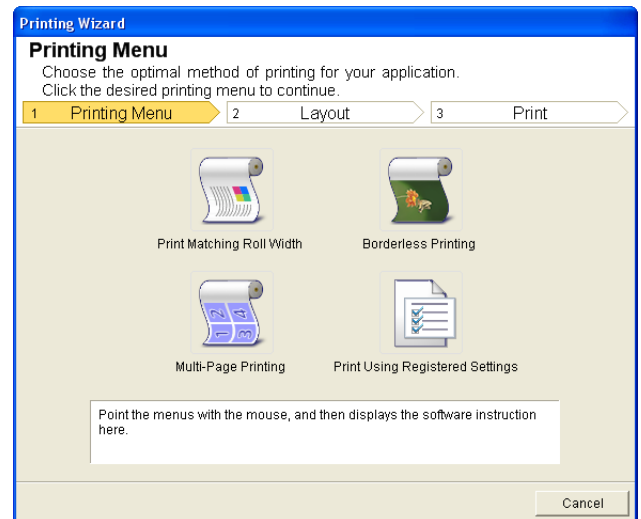

Prints multiple pages as one page. You can print handouts into a single page, or print matter with many pages.

1 Start **Microsoft Word**.

2 If **Start imagePROGRAF Print Plug-In** is displayed, click it.

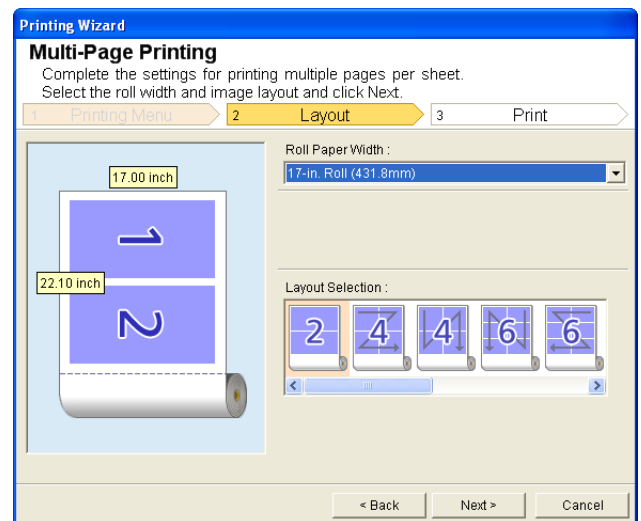

- 3** Click **Print** from the **imagePROGRAF Print Plug-In** toolbar/ribbon.
The **Printing Wizard** dialog box is displayed.

- If you want to change the display to another file or application while the **Printing Wizard** is open, close the **Printing Wizard** dialog box. Otherwise, you may not be able to change displays or operate the toolbar/ribbon.

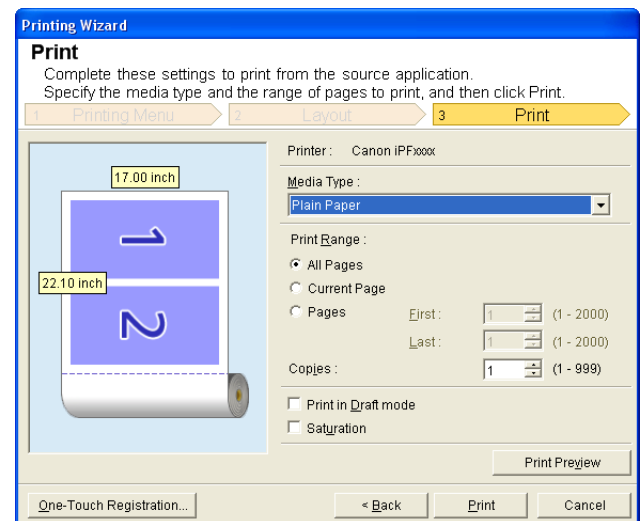

- 4** Click **Multi-Page Printing**.

- 5** Select **Roll Paper Width** that is set in the printer.

- 6** Select layout from **Layout Selection**.

7

Select **Next**.

8

Select **Media Type**.

9

Select **Print Range** from **All Pages**, **Current Page**, and **Pages**.If **Pages** is selected, enter the number of pages.

10

Enter **Copies**.

Note

- When **Print in Draft mode** is selected, printing is fast but the print quality is poor.
- When **Saturation** is selected, you can print posters, etc., vividly.
- The settings are registered when the **One-Touch Registration** is pressed. This is convenient if you need print multiple times using the same setting.
- Press the **Print Preview** button to display the preview screen. You can check and make changes to the layout in the preview screen.
- The maximum length for Multi-Page Printing is the lesser of 5.587 times the roll paper width, or 18.0m.

11

Press **Print** to start printing.

Register the settings (Word)

If you are going to print multiple times using the same setting, you can select **One-Touch Registration**. Registered settings can be recalled from **Print Using Registered Settings**.

1

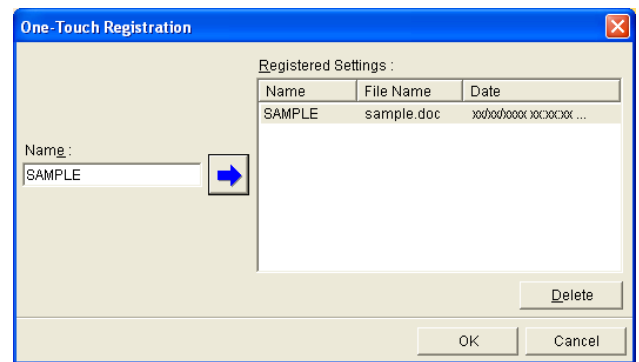

Set up to the **Print** screen from **Print Matching Roll Width**, **Borderless Printing** or **Multi-Page Printing** of **Printing Menu**.

Note

- Up to 20 items can be registered.
- The available settings are as follows.
 - **Print Matching Roll Width(Word)** → P.236
 - **Borderless Printing(Word)** → P.238
 - **Multi-Page Printing(Word)** → P.240

- 2** Click the **One-Touch Registration** button.

- 3** Enter name in **Name**.
Up to 31 characters can be entered.

- 4** Click . The name you entered is displayed in **Registered Settings**.

- 5** Click **OK**, and return to the **Print** screen.

- 6** Click **Print** to print, and click **Cancel** to cancel the print.

Note

- Clicking **Cancel** in the **Print** screen will not delete the registered settings.

Print Using Registered Settings(Word)

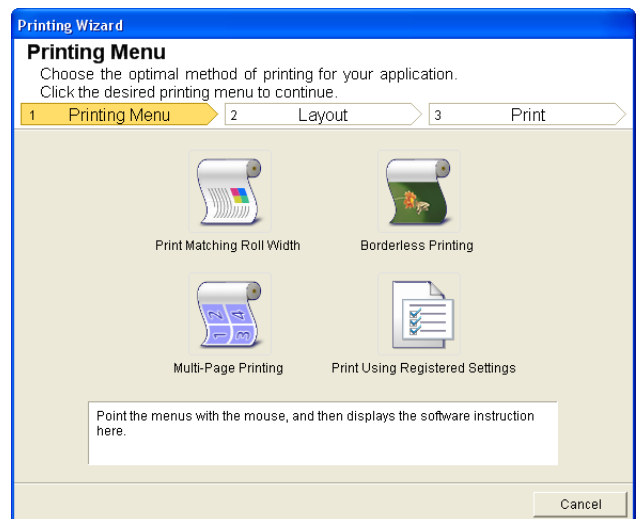

Prints using the registered settings.

- 1** Start **Microsoft Word**.

- 2** If **Start imagePROGRAF Print Plug-In** is displayed, click it.

- 3** Click **Print** from the **imagePROGRAF Print Plug-In** toolbar/ribbon.
The **Printing Wizard** dialog box is displayed.

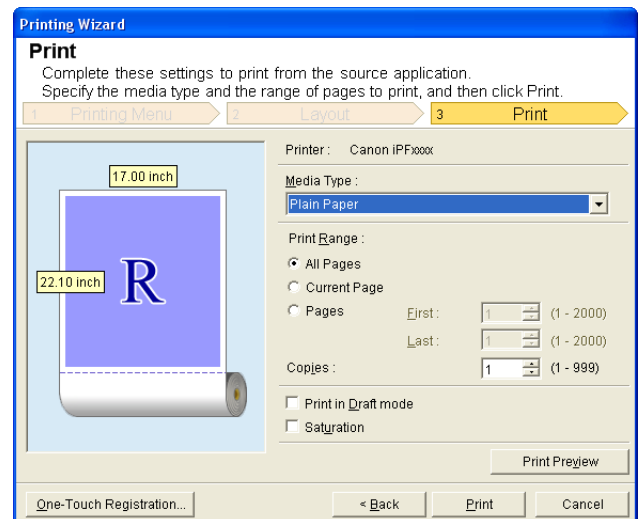

- If you want to change the display to another file or application while the **Printing Wizard** is open, close the **Printing Wizard** dialog box. Otherwise, you may not be able to change displays or operate the toolbar/ribbon.

4 Click **Print Using Registered Settings**.

5 Click the **Next** button.

6 Select **Media Type**.

7 Select **Print Range** from **All Pages**, **Current Page**, or **Pages**. If **Pages** is selected, enter the number of pages.

8 Enter **Copies**.

Note

- When **Print in Draft mode** is selected, printing is fast but the print quality is poor.
- When **Saturation** is selected, you can print posters, etc., vividly.
- Press the **Print Preview** button to display the preview screen. You can check and make changes to the layout in the preview screen.
- The maximum print length when printing with the registered settings is the lesser of 5.587 times the roll paper width, or 18.0m.

9 Press **Print** to start printing.

Portrait Orientation/Landscape Orientation(Word)

Print to the edge of the roll width. You can print large exhibits and posters, or print the Landscape or Portrait Orientation Page Sizes made in the **Large-Format Printing Wizard**.

Create Page Size in Portrait or Landscape Orientation.

Use the **Large-Format Printing Wizard** to create portrait page sizes for Potrait Orientation, and landscape page sizes for Landscape Orientation.

1 Start **Microsoft Word**.

2 If **Start imagePROGRAF Print Plug-In** is displayed, click it.

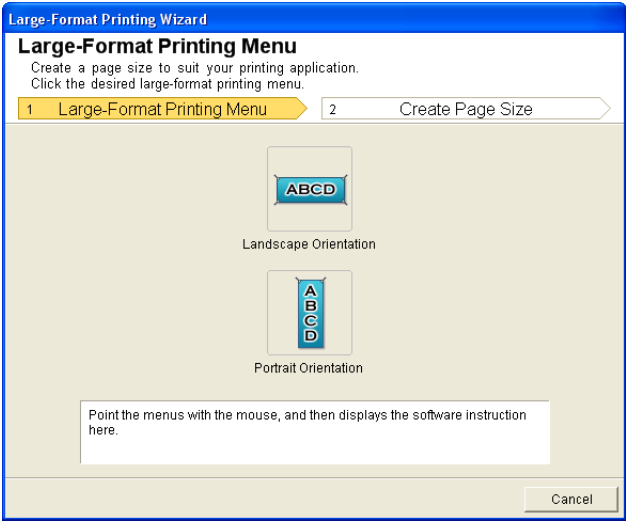

3 Click **Paper Settings** from the **imagePROGRAF Print Plug-In** toolbar/ribbon. The **Large-Format Printing Wizard** dialog box is displayed.

Note

- If you want to change the display to another file or application while the **Large-Format Printing Wizard** is open, close the **Large-Format Printing Wizard** dialog box. Otherwise, you may not be able to change displays or operate the toolbar/ribbon.

4 Click **Portrait Orientation** or **Landscape Orientation**.

Note

- The steps taken to create a Portrait Page Size will be used as an example to explain the procedure.

5 Adjust **Length** from the list-box or slide-bar.

6 Click the **Create Page** button.

7 Click **OK** if the message is displayed.

8 Edit and create the document.

Note

- Printing is done in **Print Matching Roll Width** of the **Printing Wizard**. For details on **Print Matching Roll Width**, see "Print Matching Roll Width(Word)." →P.236

Important

- The layout may collapse if you create a form using existing data. If that is the case, modify the data again.

To start from Microsoft PowerPoint

Below are the steps to start **Print Plug-In for Office** from **Microsoft PowerPoint**.

1 Start **Microsoft PowerPoint**.

2 If **Start imagePROGRAF Print Plug-In** is displayed on the toolbar/ribbon, click it.

**Important**

- If the **imagePROGRAF Print Plug-In** toolbar/ribbon is not displayed, refer to the following.
- When Print Plug-In for Office is not displayed →P.231

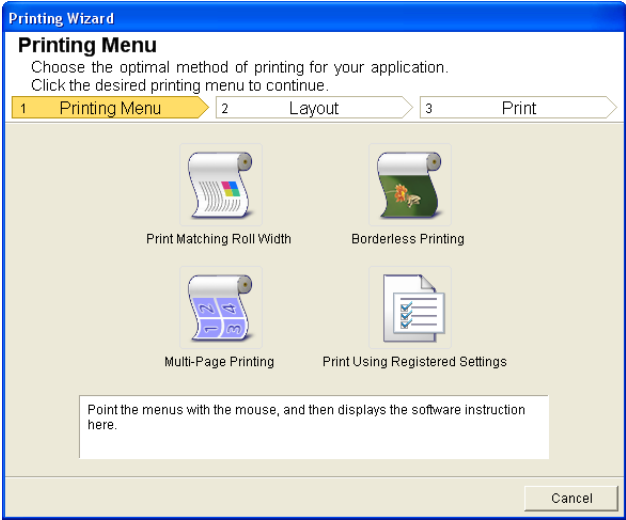

3 Check that the **imagePROGRAF Print Plug-In** toolbar/ribbon is displayed.

4 Click the buttons on the toolbar/ribbon according to the items you want to set.

Icon	Contents
 Menu	Displays the About , Help , and Special Settings dialog boxes. (See "Configuring Special Settings.") →P.266
 Printer list	Select Printer. If you select Show All Printers , the imagePROGRAF printers will be displayed again. Select this when you want to display all printer drivers or update the display.
 PrintButton	The print Wizard is displayed. The settings Print Matching Roll Width , Borderless Printing , Multi-Page Printing , and Print Using Registered Settings can be set.
 Paper Settings Button	Large-Format Wizard is displayed. Settings for Portrait or Landscape Orientation can be set.

Printing Wizard dialog box

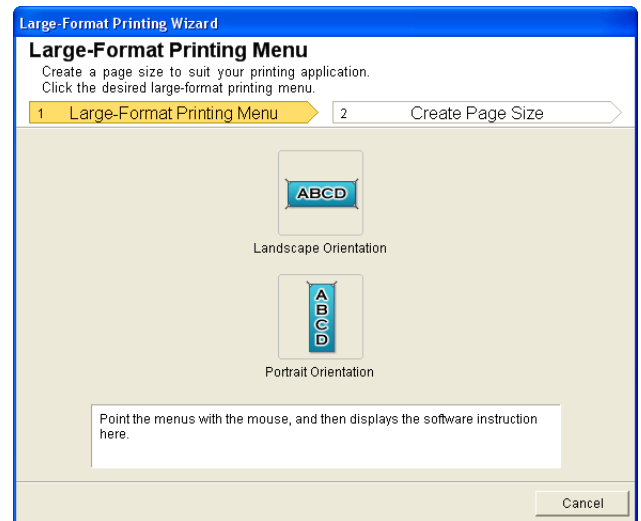

**Important**

- If you want to change the display to another file or application while the **Printing Wizard** is open, close the **Printing Wizard** dialog box. Otherwise, you may not be able to change displays or operate the toolbar/ribbon.

**Note**

- If you open a password protected document as read-only, the **Printing Wizard** cannot be run.

Large-Format Printing Wizard dialog box

Important

- If you want to change the display to another file or application while the **Large-Format Printing Wizard** is open, close the **Large-Format Printing Wizard** dialog box. Otherwise, you may not be able to change displays or operate the toolbar/ribbon.
- The layout may collapse if you create a form using existing data. If that is the case, modify the data again.

Note

- If you open a password protected document as read-only, the **Large-Format Printing Wizard** cannot be run. Remove the password protection.

Print Matching Roll Width(PowerPoint)

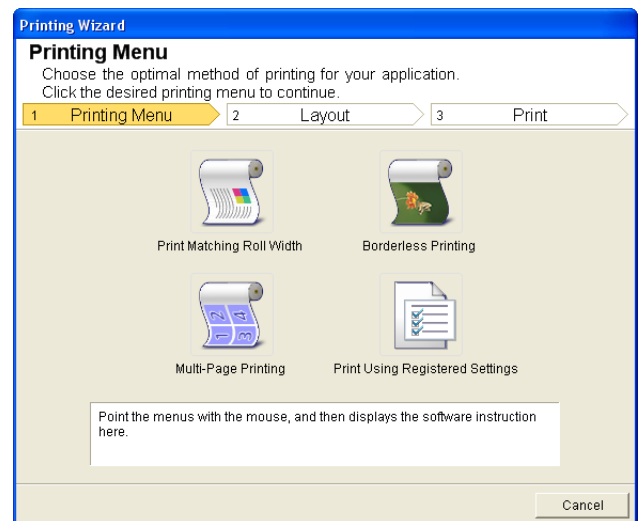

Prints to the edge of the roll width. You can print large exhibits and posters, and also print Portrait and Landscape orientations made in **Large-Format Printing Wizard**.

1 Start **Microsoft PowerPoint**.

2 If **Start imagePROGRAF Print Plug-In** is displayed, click it.

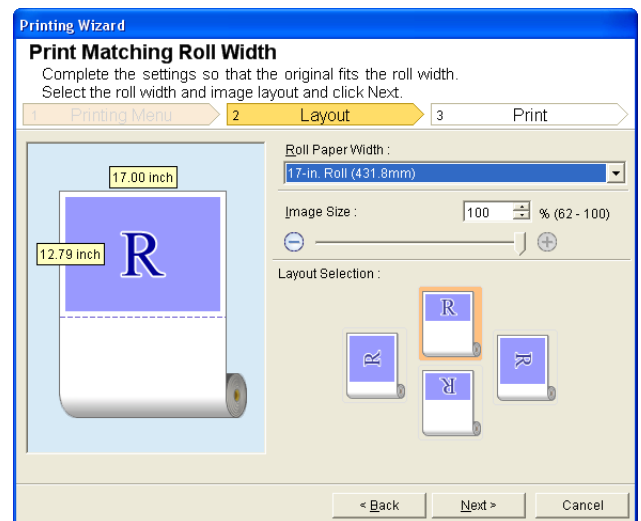

- 3** Click **Print** from the **imagePROGRAF Print Plug-In** toolbar/ribbon.
The **Printing Wizard** dialog box is displayed.

Important

- If you want to change the display to another file or application while the **Printing Wizard** is open, close the **Printing Wizard** dialog box. Otherwise, you may not be able to change displays or operate the toolbar/ribbon.

- 4** Click **Print Matching Roll Width**.

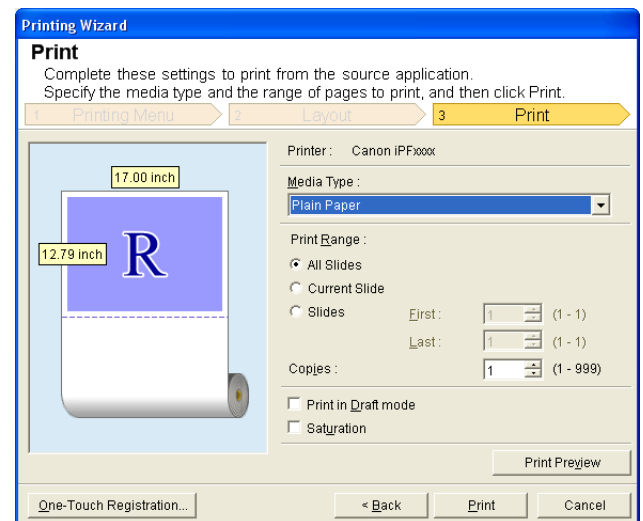

- 5** Select **Roll Paper Width** that is set in the printer.

- 6** Select image size.

- 7** Select layout.

8 Select Next.

9 Select Media Type.

10 Select Print Range from All Slides, Current Slide, and Slides. If Slides is selected, enter the slide number.

11 Enter Copies.

Note

- When **Print in Draft mode** is selected, printing is fast but the print quality is poor.
- When **Saturation** is selected, you can print posters, etc., vividly.
- The settings are registered when the **One-Touch Registration** is pressed. This is convenient if you need print multiple times using the same setting.
- Press the **Print Preview** button to display the preview screen. You can check and make changes to the layout in the preview screen.
- When you print to the edge of the roll width, the maximum length will be the lesser of 14.22 times the roll paper width, or 18.0m.

12 Press Print to start printing.

Borderless Printing(PowerPoint)

Prints up to the border of the media. Photos and posters can be printed without worrying about margins.

1 Start Microsoft PowerPoint.

2 If Start imagePROGRAF Print Plug-In is displayed, click it.

3

Click **Print** from the **imagePROGRAF Print Plug-In** toolbar/ribbon.
The **Printing Wizard** dialog box is displayed.

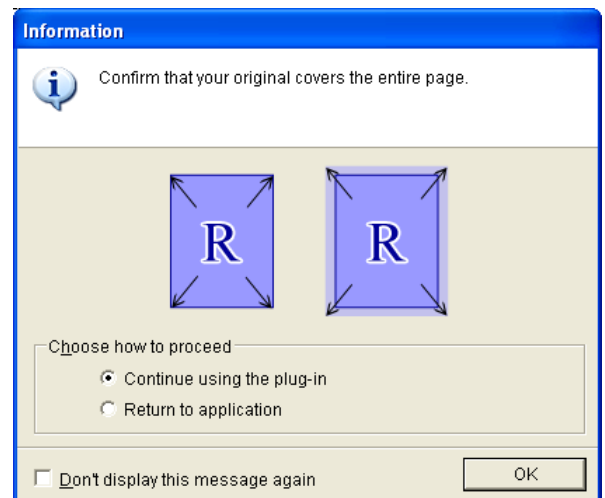

Important

- If you want to change the display to another file or application while the **Printing Wizard** is open, close the **Printing Wizard** dialog box. Otherwise, you may not be able to change displays or operate the toolbar/ribbon.

4

Click **Borderless Printing**.

5

A confirmation dialog box is displayed. If the data fills up the page, confirm that **Continue using the plug-in** is selected in **Choose how to proceed** and press **OK**.

Note

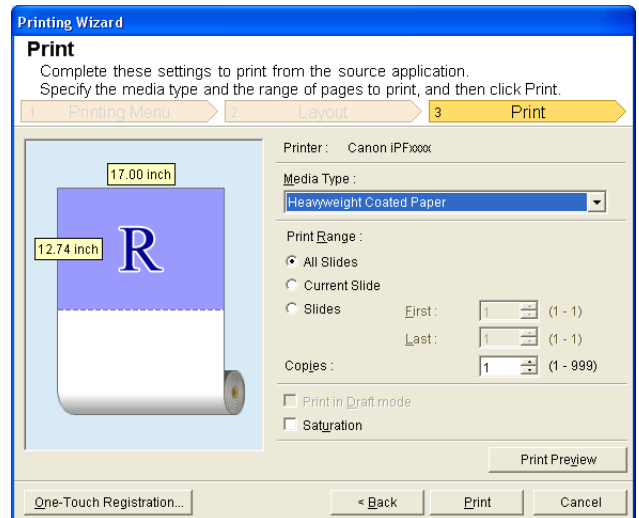

- To adjust the data, select **Return to application** and press **OK**. Exit **Print Plug-In for Office** and return to the application.

6 Select **Roll Paper Width** that is set in the printer.

7 Select layout.

8 Select **Next**.

9 Select **Media Type**.

10 Select **Print Range** from **All Slides**, **Current Slide**, and **Slides**.
If **Slides** is selected, enter the slide number.

11 Enter **Copies**.

Note

- When **Print in Draft mode** is selected, printing is fast but the print quality is poor.
- When **Saturation** is selected, you can print posters, etc., vividly.
- Press the **One-Touch Registration** button to register the settings. This is useful for multiple printing using the same settings.
- Press the **Print Preview** button to display the preview screen. You can confirm and make changes to the layout in the preview screen.
- The maximum length for Borderless Printing is the lesser of 14.22 times the roll paper width, or 18.0m.

12 Press **Print** to start printing.

Multi-Page Printing(PowerPoint)

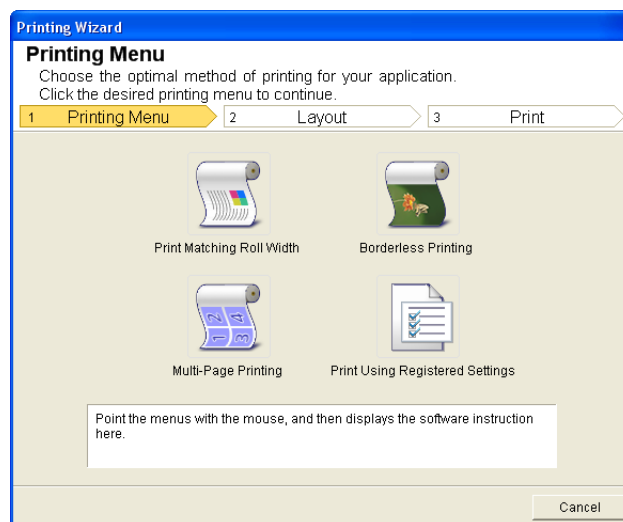

Prints multiple pages as one page. You can print handouts into a single page, or print matter with many pages.

1 Start **Microsoft PowerPoint**.

2 If **Start imagePROGRAF Print Plug-In** is displayed, click it.

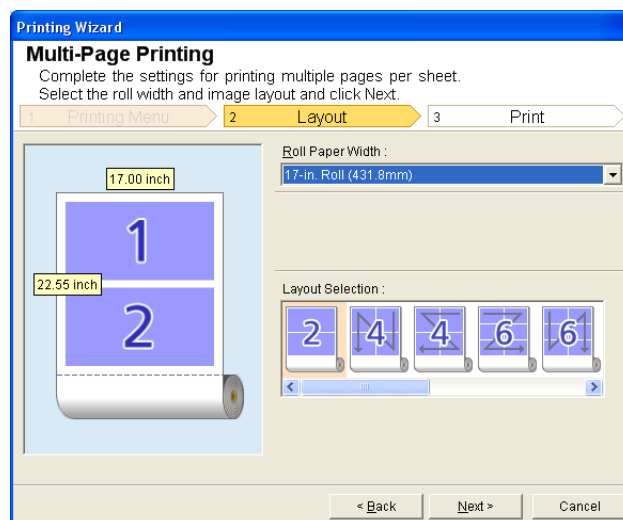

3 Click **Print** from the **imagePROGRAF Print Plug-In** toolbar/ribbon.
The **Printing Wizard** dialog box is displayed.

Important

- If you want to change the display to another file or application while the **Printing Wizard** is open, close the **Printing Wizard** dialog box. Otherwise, you may not be able to change displays or operate the toolbar/ribbon.

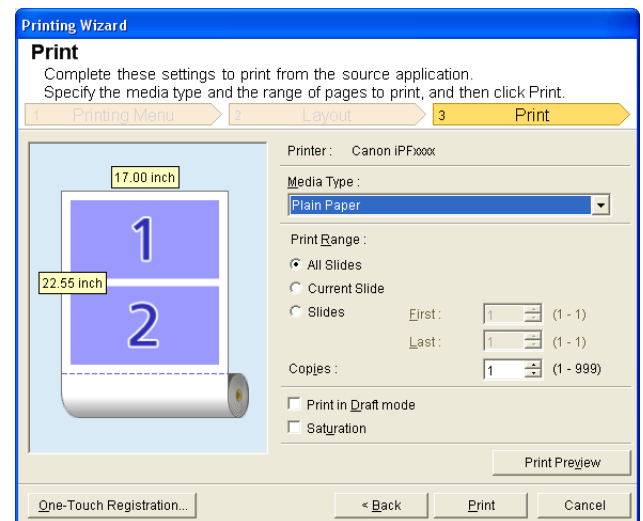

4 Click **Multi-Page Printing**.

5 Select **Roll Paper Width** that is set in the printer.

6 Select layout from **Layout Selection**.

7 Select Next.

8 Select Media Type.

9 Select Print Range from All Slides, Current Slide, and Slides. If Slides is selected, enter the slide number.

10 Enter Copies.

Note

- When **Print in Draft mode** is selected, printing is fast but the print quality is poor.
- When **Saturation** is selected, you can print posters, etc., vividly.
- The settings are registered when the **One-Touch Registration** is pressed. This is convenient if you need print multiple times using the same setting.
- Press the **Print Preview** button to display the preview screen. You can check and make changes to the layout in the preview screen.
- The maximum length for Multi-Page Printing is the lesser of 14.22 times the roll paper width, or 18.0m.

11 Press Print to start printing.

Register the settings (PowerPoint)

If you are going to print multiple times using the same setting, you can select **One-Touch Registration**. Registered settings can be recalled from **Print Using Registered Settings**.

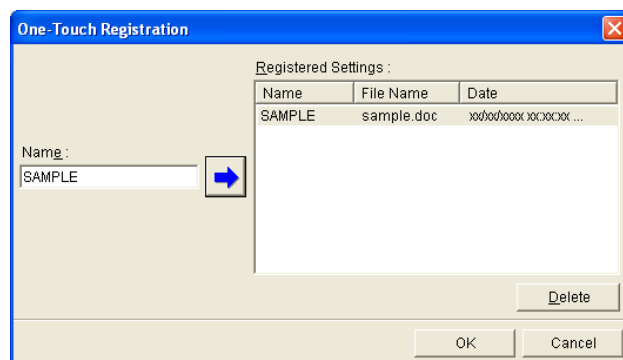

1 Set up to the Print screen from Print Matching Roll Width, Borderless Printing or Multi-Page Printing of Printing Menu.

Note

- Up to 20 items can be registered.
- The available settings are as follows.
 - Print Matching Roll Width(PowerPoint) → P.248
 - Borderless Printing(PowerPoint) → P.250
 - Multi-Page Printing(PowerPoint) → P.253

- 2** Click the **One-Touch Registration** button.

- 3** Enter name in **Name**.
Up to 31 characters can be entered.

- 4** Click . The name you entered is displayed in **Registered Settings**.

- 5** Click **OK**, and return to the **Print** screen.

- 6** Click **Print** to print, and click **Cancel** to cancel the print.

Note

- Clicking **Cancel** in the **Print** screen will not delete the registered settings.

Print Using Registered Settings(PowerPoint)

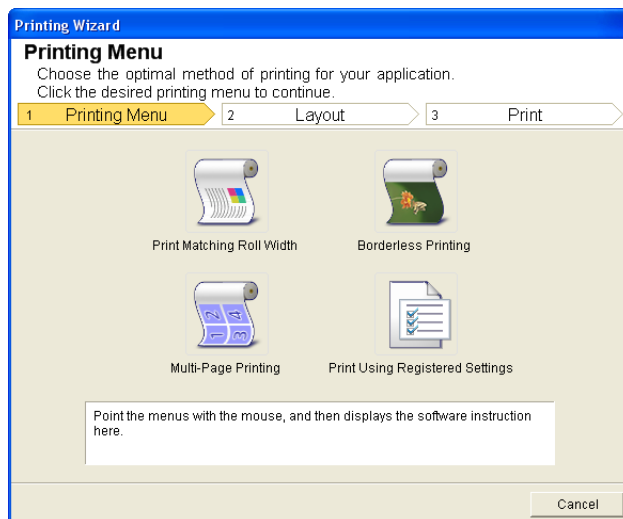

Prints using the registered settings.

- 1** Start **Microsoft PowerPoint**.

- 2** If **Start imagePROGRAF Print Plug-In** is displayed, click it.

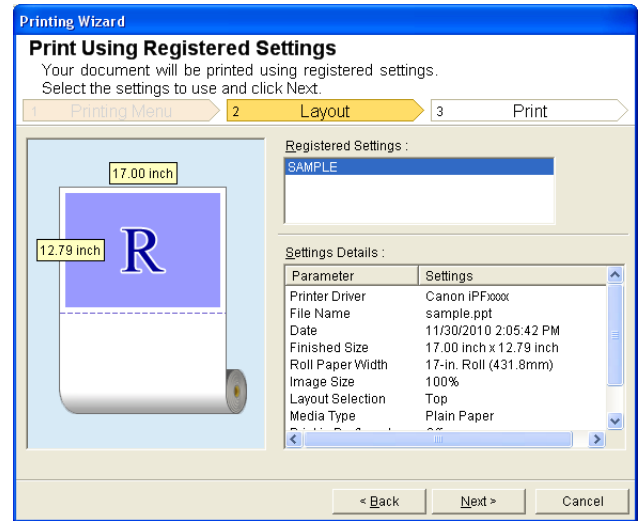

- 3** Click **Print** from the **imagePROGRAF Print Plug-In** toolbar/ribbon.
The **Printing Wizard** dialog box is displayed.

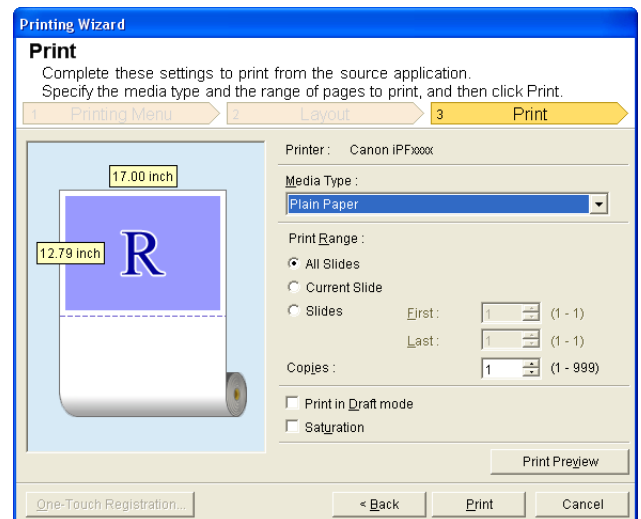

- If you want to change the display to another file or application while the **Printing Wizard** is open, close the **Printing Wizard** dialog box. Otherwise, you may not be able to change displays or operate the toolbar/ribbon.

4 Click **Print Using Registered Settings**.

5 Click the **Next** button.

6 Select **Media Type**.

7 Select **Print Range** from **All Slides**, **Current Slide**, and **Slides**. If **Slides** is selected, enter the slide number.

8 Enter **Copies**.

Note

- When **Print in Draft mode** is selected, printing is fast but the print quality is poor.
- When **Saturation** is selected, you can print posters, etc., vividly.
- Press the **Print Preview** button to display the preview screen. You can check and make changes to the layout in the preview screen.
- The maximum print length when printing with the registered settings is the lesser of 14.22 times the roll paper width, or 18.0m.

9 Press **Print** to start printing.

Portrait Orientation/Landscape Orientation(PowerPoint)

Print to the edge of the roll width. You can print large exhibits and posters, or print the Landscape or Portrait Orientation Page Sizes made in the **Large-Format Printing Wizard**.

Create Page Size in Portrait or Landscape Orientation.

Use the **Large-Format Printing Wizard** to create portrait page sizes for Potrait Orientation, and landscape page sizes for Landscape Orientation.

1 Start **Microsoft PowerPoint**.

2 If **Start imagePROGRAF Print Plug-In** is displayed, click it.

3 Click **Paper Settings** from the **imagePROGRAF Print Plug-In** toolbar/ribbon. The **Large-Format Printing Wizard** dialog box is displayed.

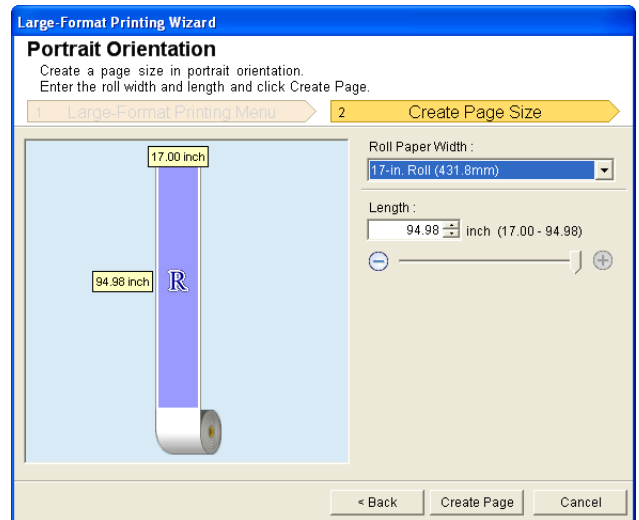

Important

- If you want to change the display to another file or application while the **Large-Format Printing Wizard** is open, close the **Large-Format Printing Wizard** dialog box. Otherwise, you may not be able to change displays or operate the toolbar/ribbon.

4 Click **Portrait Orientation** or **Landscape Orientation**.

Note

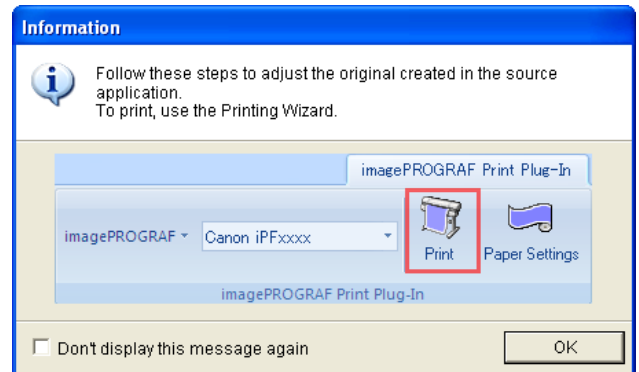

- The steps taken to create a Portrait Page Size will be used as an example to explain the procedure.

5 Adjust **Length** from the list-box or slide-bar.

6 Click the **Create Page** button.

7 Click **OK** if the message is displayed.

8 Edit and create the document.

Important

- The layout may collapse if you create a form using existing data. If that is the case, modify the data again.

Note

- Printing is done in **Print Matching Roll Width** of the **Printing Wizard**. For details on **Print Matching Roll Width**, see "Print Matching Roll Width(PowerPoint)." →P.248

To start from Microsoft Excel

Below are the steps to start **Print Plug-In for Office** from **Microsoft Excel**.

1 Start **Microsoft Excel**.

2 If **Start imagePROGRAF Print Plug-In** is displayed on the toolbar/ribbon, click it.

**Important**

- If the **imagePROGRAF Print Plug-In** toolbar/ribbon is not displayed, refer to the following.
- When Print Plug-In for Office is not displayed →P.231

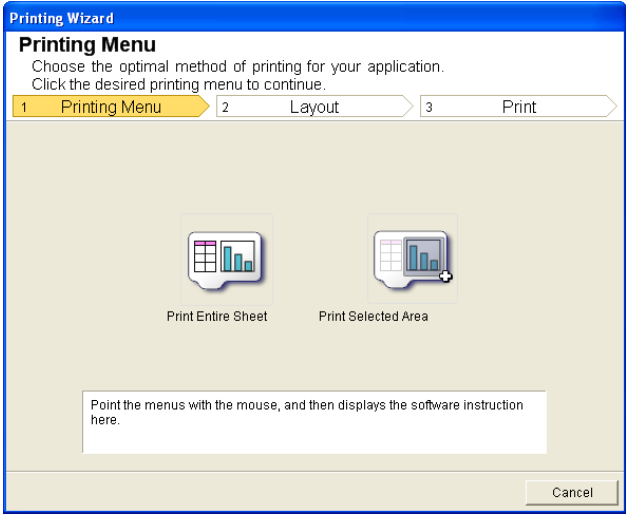

3 Check that the **imagePROGRAF Print Plug-In** toolbar/ribbon is displayed.

4 Click the buttons on the toolbar/ribbon according to the items you want to set.

Icon	Contents
 Menu	Displays the About , Help , and Special Settings dialog boxes. (See "Configuring Special Settings.") →P.266
 Printer list	Select Printer. If you select Show All Printers , the imagePROGRAF printers will be displayed again. Select this when you want to display all printer drivers or update the display.
 PrintButton	The print Wizard is displayed. The settings Print Entire Sheet and Print Selected Area can be set.

Printing Wizard dialog box

**Important**

- If you want to change the display to another file or application while the **Printing Wizard** is open, close the **Printing Wizard** dialog box. Otherwise, you may not be able to change displays or operate the toolbar/ribbon.
- The **Printing Wizard** will not start if you click the **Print** button on the toolbar/ribbon while editing a cell.
- When more than one worksheet is selected, the **Printing Wizard** cannot be run. Select only one worksheet and click **Print** again.
- When an object is selected, the **Printing Wizard** is not started if you click the **Print** button on the toolbar/ribbon.
- If the paper size in Excel is blank, the **Printing Wizard** cannot be run. From the **File** menu in Excel, select **Page Setup** and check **Paper size**.

- If you click the **Print** button with a graph selected, a message dialog box will appear asking if you want to continue printing. If you click **No**, you will return to the application.
- If you click the **Print** button with a page break set, a message dialog box will appear asking if you want to continue printing. If you click **No**, you will return to the application. If you do not use the set page break, check the page break preview and change the setting.
- If you click the **Print** button with a page range set, a message dialog box will appear asking if you want to continue printing. If you click **No**, you will return to the application. If you do not use the set page range, check the page break preview and change the setting.
- If you click the **Print** button with a worksheet or cell protected, a message dialog box will appear asking if you want to continue printing. If you click **No**, you will return to the application. If you want to change the setting, remove the protection from the worksheet or cell.

Print Entire Sheet(Excel)

For resizing the entire sheet to fit the roll width. Choose this option to enlarge the currently displayed sheet before printing.

1 Start **Microsoft Excel**.

2 If **Start imagePROGRAF Print Plug-In** is displayed, click it.

3 Click **Print** from the **imagePROGRAF Print Plug-In** toolbar/ribbon.

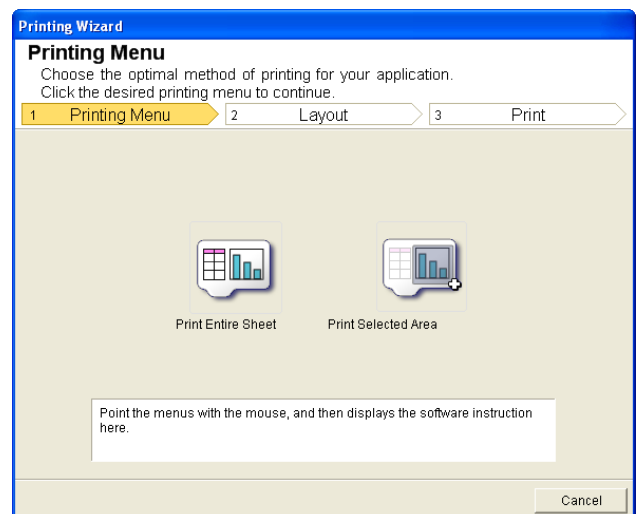

- When more than one worksheet is selected, the **Printing Wizard** cannot be run. Select only one worksheet and click **Print** again.

If a print area is set, a confirmation message dialog box will appear.

To print the entire sheet, cancel the setting of the print area.

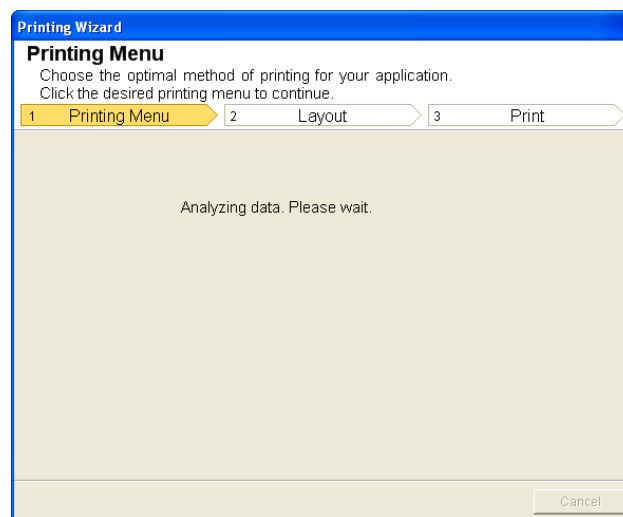

The **Printing Wizard** dialog box is displayed.

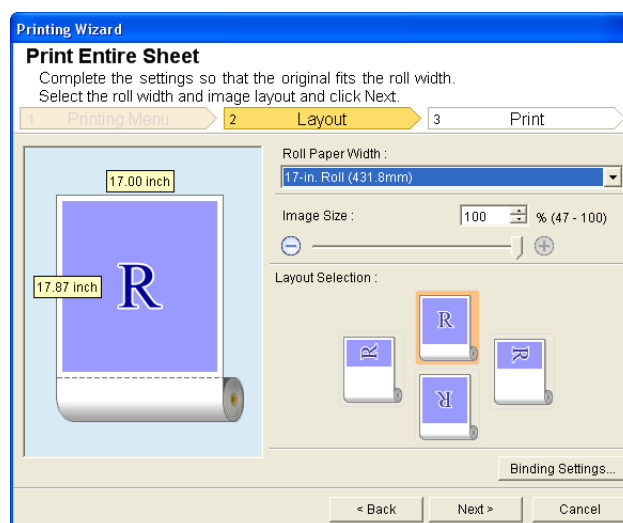

4

Click **Print Entire Sheet**.

A message will appear informing you that analysis is in progress.

The Layout menu will appear automatically.

Note

- If data analysis requires time, a message dialog will appear. If you select **No**, you will return to the application.

5

Select **Roll Paper Width** that is set in the printer.

6

Select image size.

7

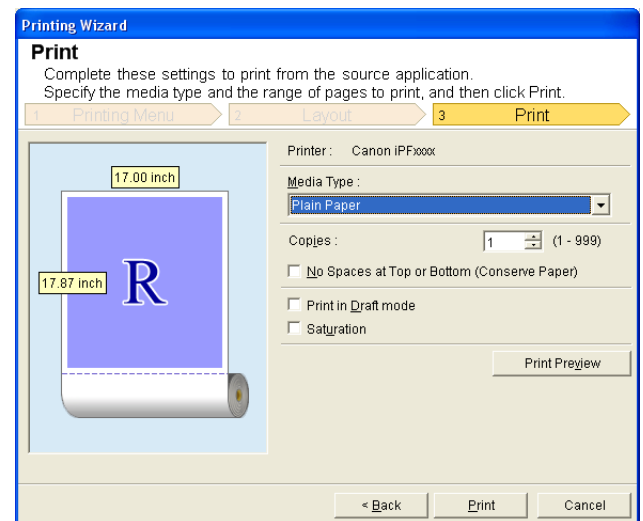

Select layout.

8

To configure **Binding**, click the **Binding Settings** button.

Refer to "Configuring Binding (Excel)" → P.265 for details on the procedure for configuring **Binding**.

9 Select Next.

10 Select **Media Type**.

11 Enter **Copies**.

12 If the upper and lower margins are too wide, check **No Spaces at Top or Bottom (Conserve Paper)**. The upper and lower margins can be checked in **Print Preview**.

Note

- When **Print in Draft mode** is selected, printing is fast but the print quality is poor.
- When **Saturation** is selected, you can print posters, etc., vividly.
- Press the **Print Preview** button to display the preview screen. You can check and make changes to the layout in the preview screen.
- When you print to the edge of the roll width, the maximum print length is 18.0m.

13 Press **Print** to start printing.

Important

- If divided into plural pages, try reducing the data size or the range you select.
- You cannot run **Print** or **Print Preview** if you select it for a worksheet with no data displayed.

Print Selected Area(Excel)

For resizing the selected range of cells to fit the roll width. Choose this option to enlarge a particular part of the sheet before printing.

1 Start **Microsoft Excel**.

2 If **Start imagePROGRAF Print Plug-In** is displayed, click it.

3 Click **Print** from the **imagePROGRAF Print Plug-In** toolbar/ribbon.

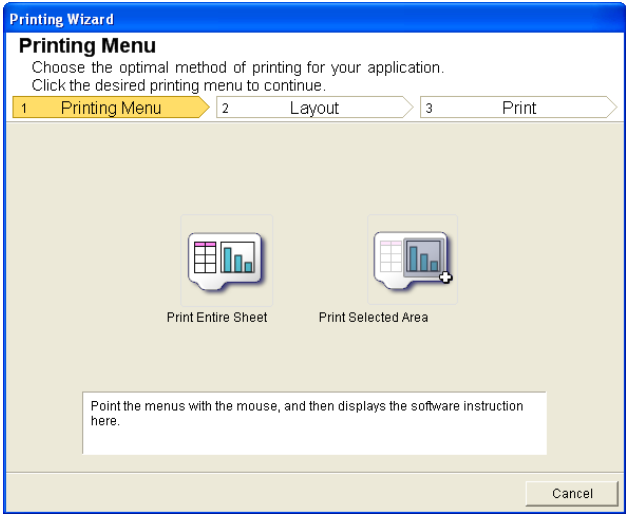

Important

- When more than one worksheet is selected, the **Printing Wizard** cannot be run. Select only one worksheet and click **Print** again.

If a print area is set, a confirmation message dialog box will appear.
To print the selected area, cancel the setting of the print area.

The **Printing Wizard** dialog box is displayed.

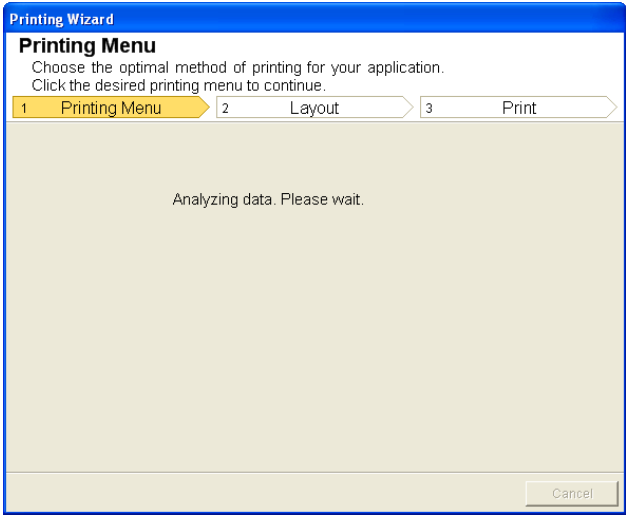

4 Click **Print Selected Area**.

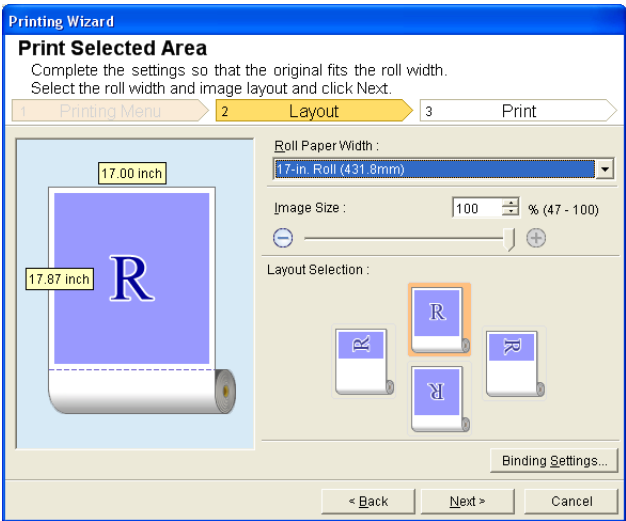

Important

- If only one cell is selected, **Print Selected Area** cannot be selected.

A message will appear informing you that analysis is in progress.

The Layout menu will appear automatically.

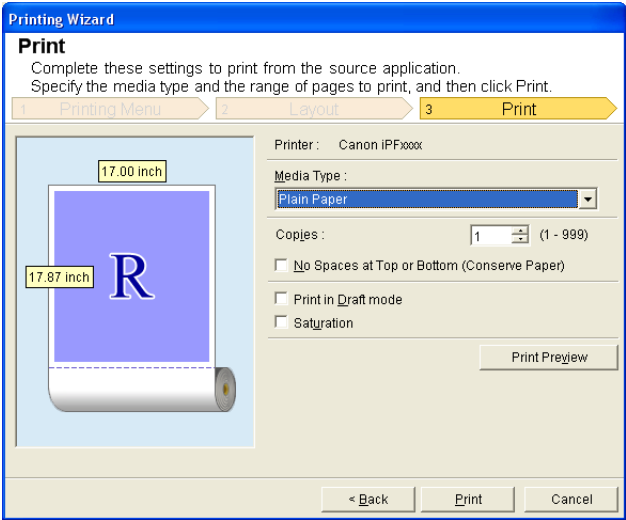

- 

Important
- If the range selected in **Excel 2007 or later** is too large, it will not be possible to analyze the data. Select a smaller range and then run the analysis.
- 

Note
- If data analysis requires time, a message dialog will appear. If you select **No**, you will return to the application.

- 5**
- Select **Roll Paper Width** that is set in the printer.
- 6**
- Select image size.
- 7**
- Select layout.
- 8**
- To configure **Binding**, click the **Binding Settings** button.
Refer to "Configuring Binding (Excel)" →P.265 for details on the procedure for configuring **Binding**.
- 9**
- Select **Next**.

- 10**
- Select **Media Type**.
- 11**
- Enter **Copies**.

- 12** If the upper and lower margins are too wide, check **No Spaces at Top or Bottom (Conserve Paper)**. The upper and lower margins can be checked in **Print Preview**.

Note

- When **Print in Draft mode** is selected, printing is fast but the print quality is poor.
- When **Saturation** is selected, you can print posters, etc., vividly.
- Press the **Print Preview** button to display the preview screen. You can check and make changes to the layout in the preview screen.
- When you print to the edge of the roll width, the maximum print length is 18.0m.

- 13** Press **Print** to start printing.

Important

- If divided into plural pages, try reducing the data size or the range you select.
- You cannot run **Print** or **Print Preview** if you select it for a worksheet with no data displayed.

Configuring Binding (Excel)

You can configure **Binding** margins for binding printouts.

- 1** Configure the settings up to **Layout Selection** in the **Layout** screen in **Print Entire Sheet** or **Print Selected Area**.

Refer to "Print Entire Sheet(Excel)" → P.260 and "Print Selected Area(Excel)" → P.262 for the configuration methods.

- 2** Click the **Binding Settings** button.

Important

- You cannot click the **Binding Settings** button in the following situations.
 - When the **Image Size** is set to a value smaller than **100%**
 - When a graph is selected
 - When page breaks have been set
 - When a sheet or cell is protected

Open the **Binding Settings** dialog box.

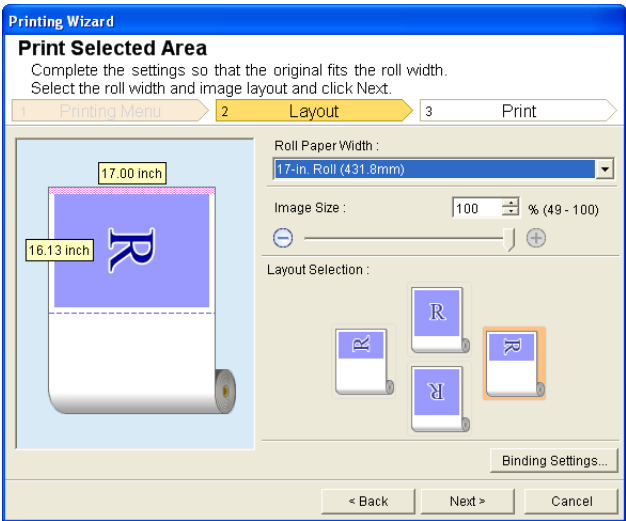

- 3** If the **Binding** checkbox is not checked, select it to turn binding on.

- 4** Select **Binding Edge**.

- 5** Select **Binding Margin**.

- 6
- Click the **OK** button.
Return to the **Layout** screen.

Check that the **Binding** settings are applied in the pre-view screen.

- 7
- Configure the settings in the **Printing Wizard** dialog box.

Configuring Special Settings

You can configure **Special Settings** from the **imagePROGRAF Print Plug-In** toolbar.

- 1
- Click **imagePROGRAF** in the toolbar, and select **Special Settings**.

- 2
- Turn the checkbox for the item you want to change on or off.

Item	Details
Show progress indicator during plug-in startup	When this setting is off, hides the progress indicator that appears while the plug-in is starting up.
Center sheets and print areas	When this setting is off, printing is performed without changing the position. When this setting is on, printing is performed with the top, bottom, left, and right margins layed out equally. When this setting is off, printing is performed without changing the position. This function is only valid in Microsoft Excel .
Ensure image quality when creating page sizes	When this setting is on, documents are created at the maximum size. This reduces the enlargement ratio during actual printing, which minimizes degradation of the quality of photos, etc. This function is only valid in Microsoft PowerPoint .
Correct the print area when analyzing	For data that cannot be processed with usual data analysis, the print area is corrected and then the data is processed. When data analysis fails, you may be able to print by turning on this checkbox. This function is only valid in Microsoft Excel .

- 3
- Click **OK** to close the **Special Settings** dialog box.

Printer Driver Settings

For instructions on accessing the Mac OS printer driver, refer to the following topics.

- Accessing the Printer Driver Dialog Box from Applications →P.273

For information on the Mac OS printer driver settings, refer to the following topics.

- Main Pane →P.273
You can specify the media type, color processing, print quality, print preview, and other settings. Choose **Easy Settings** to specify basic print settings based on the printing application or **Advanced Settings** to complete more detailed settings as desired.
 - Paper Detailed Settings Dialog Box →P.277
 - View set. Dialog Box for the Printing Application →P.279
 - Color Settings Pane: Color →P.282

- Object Adjustment dialog box: Color →P.283
- Matching pane →P.279
- Color Settings Pane: Monochrome →P.283
- Object Adjustment dialog box: Monochrome →P.284
- Page Setup Pane →P.285

You can specify the page size of the original, borderless printing, enlargement or reduction, the orientation, the paper size and source, and automatic cutting.

With the **imagePROGRAF Free Layout** feature, you can arrange originals from various source applications on a single page before printing. For details, see "**Free Layout**." →P.310

With the **imagePROGRAF Preview** feature, you can check the layout before printing and adjust layout or size settings while viewing a preview screen. For details, see "**Preview**." →P.287

With the **Color imageRUNNER Enlargement Copy** feature, you can automatically enlarge and print scanned originals from a **Color imageRUNNER**. For details, see "**Color imageRUNNER Enlargement Copy**." →P.335

Specifying Paper in the Printer Driver

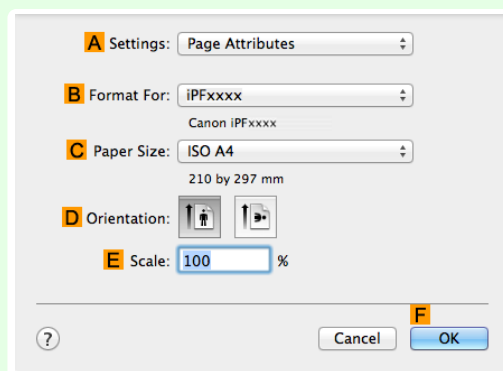

If you have replaced the paper, you must complete the following settings in the printer driver.

- 1 This sets the **B Format for** and **C Paper Size**.

Note

- The configuration method varies depending on the OS and application software you are using. If **Page Setup** is displayed in the application menu, the settings are configured by opening the **Page Attributes** dialog box from **Page Setup**.

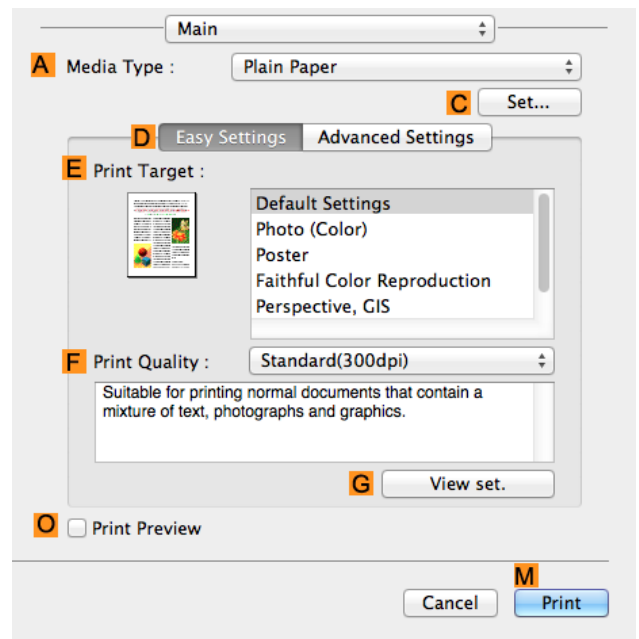

If it is not displayed, the settings are configured in the upper part of the printer driver displayed when you select **Print** from the application software menu.

- 2 Select the printer in the **A Printer** list.
- 3 Choose the original size in the **F Paper Size** list.
- 4 If you configured the settings using the **Page Attributes** dialog box, click **F OK** to close the dialog box, and then select **Print** from the application software menu.

5

Access the **Main** pane.

6

In the **A Media Type** list, select the type of paper that is loaded.

7

Access the **Page Setup** pane.

8

In the **A Paper Source** list, select how paper is supplied.

9

If you have selected **Manual** in **A Paper Source**, make sure the size as selected in **Page Setup** is displayed in **C Page Size**. If **Roll Paper** is selected in **A Paper Source**, select the width of the roll paper that is loaded in **B Roll Width**.

Note

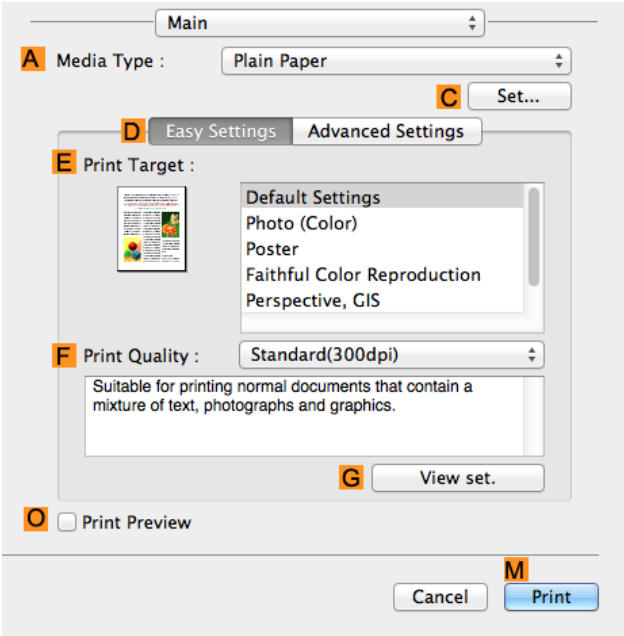

- A variety of settings are available in the printer driver to suit different printing applications. For details on available printing conditions, see "Printer Driver Settings ." → P.268

Confirming Print Settings

There are two ways to confirm what printing conditions have been specified, as follows.

Checking a preview of the settings

A preview of the settings is displayed on the left side of the **Main**, **Page Setup**, **Utility**, and **Additional Settings** panes. By checking images and numerical values in the preview, you can confirm current settings for the page size, orientation, paper source, and so on.

Display Area	Information Displayed
Pane displayed when the H Images tab is clicked	On top, illustrations indicate the page size of the original, the paper size, orientation, layout, borderless printing selection, color mode, and other settings information. Under this, the page size, paper size, and method and percentage of enlargement or reduction is displayed.
Pane displayed when the I Size tab is clicked	Paper size details are indicated numerically.
Pane with printer and paper illustrations	Illustrations indicate the paper source, orientation, borderless printing selection, and other settings information.

- To confirm the **Print Target** specified in **Easy Settings**, click **G View set.** on the **Main** pane to display the **View set.** dialog box.

Checking a print preview

You can check an image of the original just as it will be printed.
Confirming the image of print jobs beforehand helps prevent printing errors.
For details on print previews, see "Checking the Layout in a Preview Before Printing." →P.136

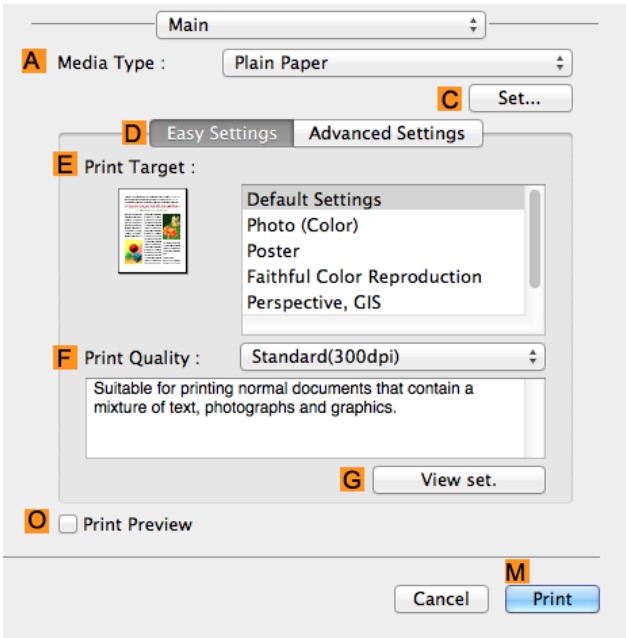

Checking the Layout in a Preview Before Printing

This topic describes how to check the layout before printing using the **Canon imagePROGRAF Preview** function.

- 1 Choose **Print** in the application menu.

2

Access the **Main** pane.

3

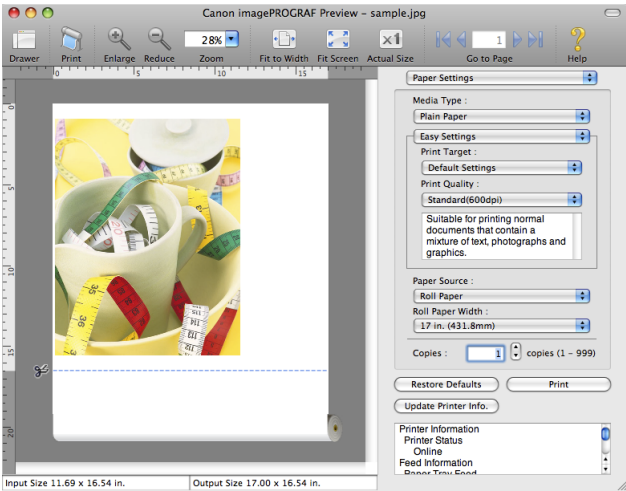

Select the **Print Preview** check box.

4

Click **Print**.

5

The **Canon imagePROGRAF Preview** window is displayed.

6

Check the layout and adjust settings in the **Canon imagePROGRAF Preview** window as desired.

7

Print from the **Canon imagePROGRAF Preview** menu.

• For details on **imagePROGRAF Preview** functions, see "Preview." →P.287

Note

Using Favorites

You can use the **Presets** function in Mac OS for favorite-based printing.

- In the printing dialog box, click **Save As** in the **Presets** list to save the current print settings. This is a standard feature of the operating system. For details, refer to the Mac OS documentation.

Accessing the Printer Driver Dialog Box from Applications

1 In the application software, select **Print** from the **File** menu to display the dialog box for printing conditions.

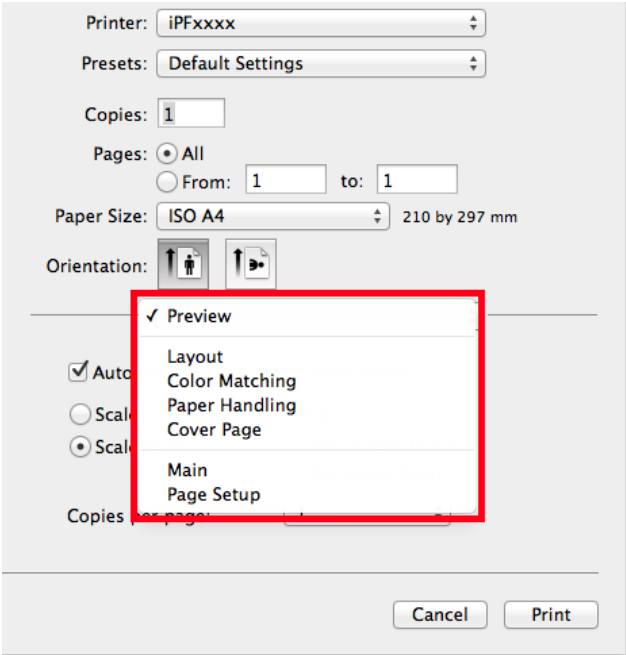

- This dialog box includes basic printing options and enables you to choose the printer, specify the range of pages, number of copies, and so on.

2 Select the printer in the **Printer** list.

3 Click **Print** to start printing.
As shown in the following illustration, you can switch to other panes in this dialog box to complete settings for various methods of printing, including enlarged and reduced printing, borderless printing, and so on.

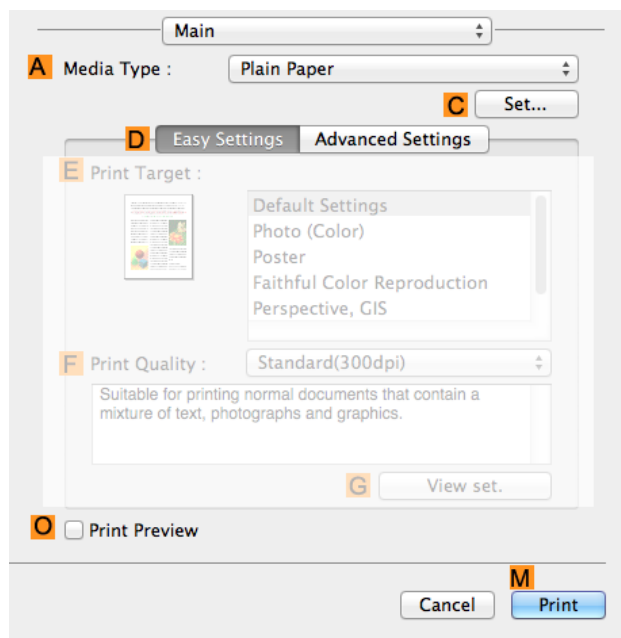

Main Pane

The following settings are available on the **Main** pane. For details on settings items, refer to the printer driver help.

- On the **Main** pane, choose **Easy Settings** to specify basic print settings based on the print target, or switch to **Advanced Settings** to complete more detailed settings as desired.

Common Items

- **A Media Type**

Select the paper type.

For information on the types of paper the printer supports, refer to the **Paper Reference Guide**. (See "Displaying the Paper Reference Guide.") →P.356

- **C Set**

Displays **Paper Detailed Settings**. You can configure the printing settings to match the type of media, such as the ink drying time.

- Paper Detailed Settings Dialog Box →P.277

- **O Print Preview**

If you turn this on, **imagePROGRAF Preview** starts before printing.

This allows you to check on-screen previews of documents before printing.

Important

- When **Free Layout** is selected on the **Page Setup** panel, **Free Layout** is disabled.

- Checking the Layout in a Preview Before Printing →P.136

Configuration using **Easy Settings**

- **E Print Target**

Choose presets that match the type of document to be printed.

- **Printing Photos and Images** →P.33

- **F Print Quality**

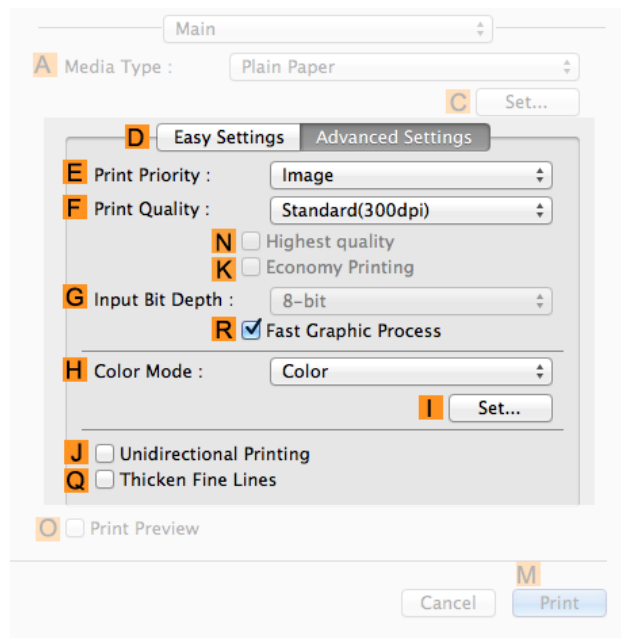

Choose the level of print quality.

- **G View set.**

Click to display the **View set.** dialog box, which enables you to confirm the settings for the selected item from the **E Print Target** list or change the order of items listed in **E Print Target**.

- **View set. Dialog Box for the Printing Application** →P.279

Configuration using **Advanced Settings**

• **E Print Priority**

Choose the graphic elements that you want to emphasize for printing.

- Giving Priority to Particular Graphic Elements and Colors for Printing →P.47

• **F Print Quality**

Choose the level of print quality.

- Giving Priority to Particular Graphic Elements and Colors for Printing →P.47

• **G Input Bit Depth**

Choose the levels of gradation in print data, either **8-bit** or **16-bit**. Optimal results when printing data with rich gradation are possible by choosing **16-bit**. For example, this option is particularly suited to printing images created after specifying 16 bits per channel in Photoshop.

• **N Highest quality**

If you select this option, the document will be printed with enhanced quality at the highest resolution. Compared to the other options, more time and ink are consumed in printing, however you will attain print results with the highest quality.

Note

- If you set **F Print Quality** to **High**, you can select **N Highest quality**. However, depending on **A Media Type**, you may not be able to select **N Highest quality**.

• **K Economy Printing**

When this mode is selected, you can print with less ink consumed. However, print quality is lower than in regular printing. Select this option to save ink, such as when printing to check drawings. Depending on the **A Media Type** and **F Print Quality** settings, this mode may not be available.

Note

- If you set **F Print Quality** to **Fast**, you can select **K Economy Printing**. However, depending on **A Media Type**, you may not be able to select **K Economy Printing**.

• **R Fast Graphic Process**

Select this option to print faster than usual, when possible.

- H

Color Mode

Choose the color mode.

 - Giving Priority to Particular Graphic Elements and Colors for Printing →P.47
- I

Set

Click to display the **Color Settings** dialog box for more advanced color settings.

 - Adjusting the Color in the Printer Driver →P.40
- J

Unidirectional Printing

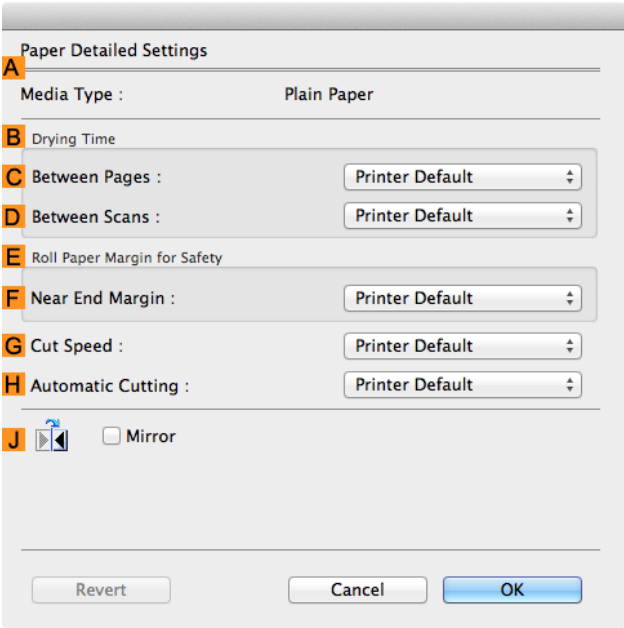

Select this checkbox to prevent problems such as misaligned lines and improve the print quality. However, the printing speed becomes slower.
- Q

Thicken Fine Lines

Activate this option to print fine lines more distinctly.

Paper Detailed Settings Dialog Box

The **Paper Detailed Settings** dialog box offers the following settings. For details on settings items, refer to the printer driver help.

Note

- To display the **Paper Detailed Settings** dialog box, on the **Main** pane, click **Set** by **Media Type**. (See "Main Pane.") →P.273

A Media Type

The paper selected with **Media Type** of the **Main** panel is displayed.
For information on the types of paper the printer supports, refer to the **Paper Reference Guide**. (See "Displaying the Paper Reference Guide.") →P.356

B Drying Time

Specify the time that the printer waits for ink to dry, as needed. The **Between Pages** setting is only valid for rolls.

• C Between Pages

You can set the time to wait after printing 1 document page until ejecting the paper. Since waiting time is required for ink to dry before a roll is cut, you can deliver paper in the Output Stacker with the ink dried even if **Cutting Mode** is set to **Automatic**.

Setting Item	Details
Printer Default	The setting of the control panel of the printer is applied.
None	Paper is ejected immediately after printing completes.
30 sec. / 1 min. / 3 min. / 5 min. / 10 min. / 30 min. / 60 min.	Paper is ejected when the set time elapses after printing completes.

• D Between Scans

You can set the time to wait after printing 1 line on a page until printing the next line. Set this to avoid bleeding or color unevenness such as when bleeding occurs on a page or when color unevenness occurs during borderless printing.

Setting Item	Details
Printer Default	The setting of the control panel of the printer is applied.
None	The next line is printed immediately after a line is printed.
1 sec. / 3 sec. / 5 sec. / 7 sec. / 9 sec.	The next line is printed when the set time elapses after a line is printed. * Increase the time according to the occurrence condition of bleeding or unevenness.

E Roll Paper Margin for Safety

You can specify the length of a margin on the leading edge of paper to ensure that paper susceptible to curling is held firmly against the Platen.

• F Near End Margin

Specify the length of the **Near End Margin** (the leading edge margin) of the roll, as needed.

Setting Item	Details
Printer Default	The setting of the control panel of the printer is applied.
3 mm (0.12 in)	The document is printed in the standard size. * Select this when you do not have any problems in printing.
20 mm (0.8 in)	Select this when rubbing against the printhead occurs such as when using paper that tends to curl.

G Cut Speed

Select the speed of automatic cutting, as needed. You can adjust this setting if paper is not cut well when automatic cutting is used.

Setting Item	Details
Printer Default	The setting of the control panel of the printer is applied.
High Speed	When the Standard setting does not result in a clean cut surface, select this.
Standard	Select this when you do not have any problems in automatic cutting.
Low Speed	This helps prevent adhesive from sticking to the cutter and keeps the cutter sharp if you select it when using adhesive paper.

H Automatic Cutting

Set whether to perform roll cutting automatically or print a cut line.

The following settings are available for automatic cutting.

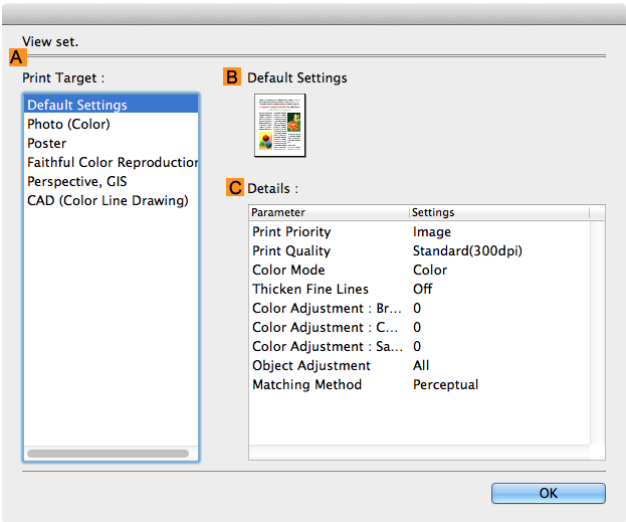

Setting Item	Details
Printer Default	The setting of the control panel of the printer is applied.
None	After printing completes, the roll is not cut per page, and the next page of data is printed successively.
Print Cut Guideline	After printing completes, a line is printed per page, and the next page of data is printed successively.

J Mirror

Specify whether to print a mirror image, as needed. Select this option to print a version of the document or image with the left and right sides inverted.

View set. Dialog Box for the Printing Application

In the **View set.** dialog box, you can check details of the selected printing application.

To display the **View set.** dialog box, on the **Main** pane, click **View set.** by **Print Target.** (See "Main Pane .") →P.273

Note

• A Print Target

Shows all **Print Target** options (settings items for the printing application).

• B Name

Identifies the item selected in **Print Target** by its name and an icon.

• C Details

Here, you can confirm detailed settings values for each item selected in the **Print Target** list.

Matching pane

On the **Matching** pane, you can specify color matching to compensate for differences in the appearance of colors on various devices.

Important

The **Matching** pane is not displayed when **No color correction** or **Monochrome** is selected in **Color Mode.**

Note

- To display the **Matching** pane, on the **Main** pane click **Color Settings** by **Color Mode** in **Advanced Settings**, and then click the **Matching** tab. (See "Main Pane .") →P.273

Driver Matching Mode

The following options are available when you select **Driver Matching Mode** in the **A Matching Mode** list.

- A Matching Mode**

Select the color matching mode to use, as desired.

Normally, select **Driver Matching Mode**. For color matching based on ICC profiles, select **ICC Matching Mode** depending on your color matching system.

- B Matching Method**

Select the color matching method that suits the document to be printed. Various **B Matching Method** options are available depending on your selection in **A Matching Mode**.

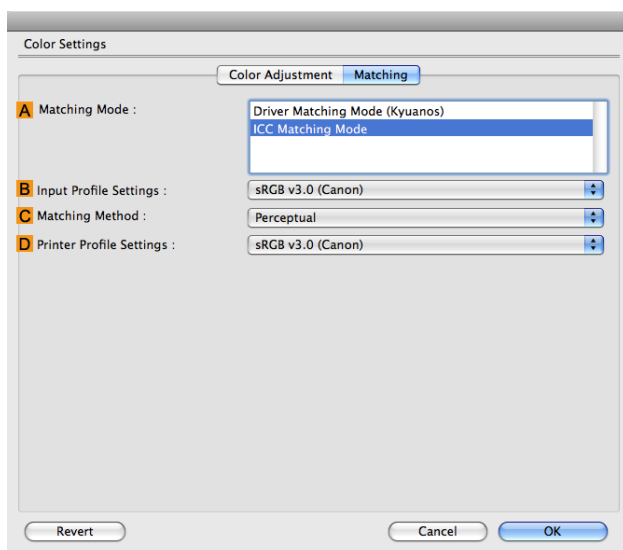

- E Gamma**

You can adjust the gradation of intermediate tones in an image.

2.2 is normally selected. If you want a softer impression than **2.2**, select **1.8**.

ICC Matching Mode

The following options are available when you select **ICC Matching Mode**, in the **A Matching Mode** list.

Note

- To display the **Matching** pane, on the **Main** pane, click **Color Settings** by **Color Mode** in **Advanced Settings**, and then click the **Matching** tab. (See "Main Pane .") →P.273

• **A Matching Mode**

Select the color matching mode to use, as desired.

• **B Input Profile Settings**

You can choose **Input Profile**.

Various options are available depending on your selected **A Matching Mode**.

• **C Matching Method**

You can choose **C Matching Method**.

Various options are available depending on your selected **A Matching Mode**.

• **D Printer Profile Settings**

Specify the printer profile as desired.

We recommend that you select an ICC profile created using commercially available profile creation software in order to perform color management accurately on paper other than genuine Canon paper and feed confirmed paper.

The created ICC profile needs to be saved in the following folder on the computer you are using.

/user/(user name)/library/ColorSync/Profiles folder

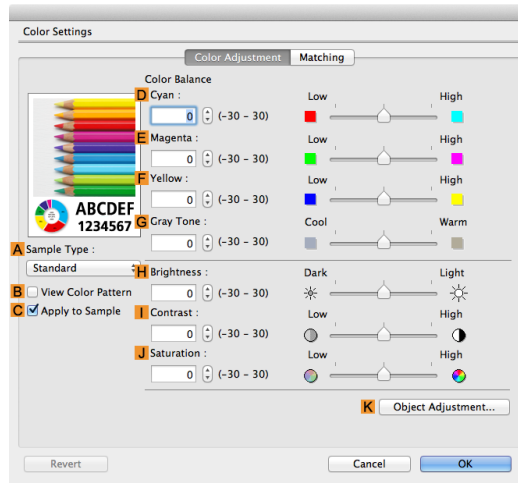

Note

- For details on settings items, see "Adjusting the Color in the Printer Driver." →P.40

Color Settings Pane: Color

In general, make any needed adjustments to the color of documents in the application used to create them. However, if the color tone as printed is not as you expected, you can also adjust the color in the printer driver.

If the color tone as printed is not as you expected, you can adjust it on the **Color Adjustment** pane.

Note

- To display the **Color Adjustment** pane, on the **Main** pane click **Color Settings** by **Color Mode** in **Advanced Settings**. (See "Main Pane .") →P.273
- For details on settings items, see "Adjusting the Color in the Printer Driver." →P.40

• A Sample Type

Choose a sample image from **Standard**, **Portrait**, **Landscape**, or **Graphics**.

• B View Color Pattern

Select this checkbox to display the color pattern.

• C Apply to Sample

Select this checkbox to apply the changed settings to the sample image.

• D Cyan/ E Magenta/ F Yellow

Correct color tones by adjusting the levels of each color.

• G Gray Tone

Adjust the color tone of grays as desired. Choose **Cool** (tinged with blue) or **Warm** (tinged with red).

• H Brightness

Adjust the overall image brightness as desired. You can adjust the brightness if the printed document is lighter or darker than the original image (that is, the original photo that was scanned or the original graphic as it appears on the computer screen).

• I Contrast

Adjust the contrast of the darkest and lightest portions relative to each other, as desired. Increasing the **Contrast** makes images sharper, and reducing the **Contrast** softens images.

• J Saturation

Adjust the color intensity as desired. Increasing the **Saturation** setting makes colors more vivid, and reducing the **Saturation** makes colors more subdued.

• K Object Adjustment

Select this option to display the **Object Adjustment** dialog box, in which you can specify objects subject to color adjustment.

- Object Adjustment dialog box: Color →P.283

Object Adjustment dialog box: Color

In the **Object Adjustment** dialog box, you can specify what type of print jobs to apply color adjustment to. If an original comprises images, graphics, and text, you can specify which portion to apply color adjustment to.

- To display the **Object Adjustment** dialog box, click **Object Adjustment** on the **Color Adjustment** panel.

Note

• **A Images**

Select this option to apply color adjustment to image areas, such as photos.

• **B Graphics**

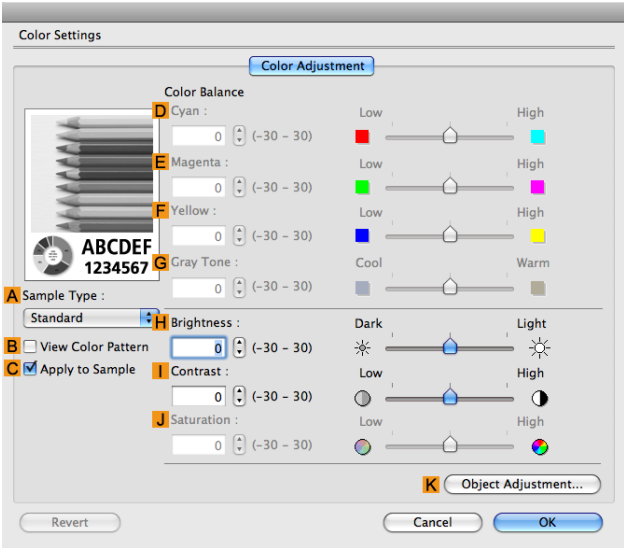

Select this option to apply color adjustment to graphics, such as lines and circles.

• **C Text**

Select this option to apply color adjustment to text.

Color Settings Pane: Monochrome

On the **Color Adjustment** pane for monochrome printing, you can adjust the brightness and contrast.

Note

- To display the **Color Adjustment** pane, on the **Main** pane, click **Color Settings** in **Advanced Settings**. (See "Main Pane.") →P.273
- For details on settings items, see "Adjusting the Color in the Printer Driver." →P.40

• **A Sample Type**

Choose a sample image from **Standard**, **Portrait**, **Landscape**, or **Graphics**.

• **B View Color Pattern**

Select this checkbox to display the color pattern.

• **C Apply to Sample**

Select this checkbox to apply the changed settings to the sample image.

• **D Cyan/ E Magenta/ F Yellow**

Not available.

• **G Gray Tone**

Not available.

• **H Brightness**

Adjust the overall image brightness as desired. You can adjust the brightness if the printed document is lighter or darker than the original image (that is, the original photo that was scanned or the original graphic as it appears on the computer screen).

• **I Contrast**

Adjust the contrast of the darkest and lightest portions relative to each other, as desired. Increasing the **I Contrast** makes images sharper, and reducing the **I Contrast** softens images.

• **J Saturation**

Not available.

• **K Object Adjustment**

Select this option to display the **Object Adjustment** dialog box, in which you can specify objects subject to color adjustment.

- Object Adjustment dialog box: Monochrome →P.284

Object Adjustment dialog box: Monochrome

In the **Object Adjustment** dialog box, you can specify what type of print jobs to apply color adjustment to. If an original comprises images, graphics, and text, you can specify which portion to apply color adjustment to.

Note

- To display the **Object Adjustment** dialog box, click **Object Adjustment** on the **Color Adjustment** panel.

• **A Images**

Select this option to apply color adjustment to image areas, such as photos.

• **B Graphics**

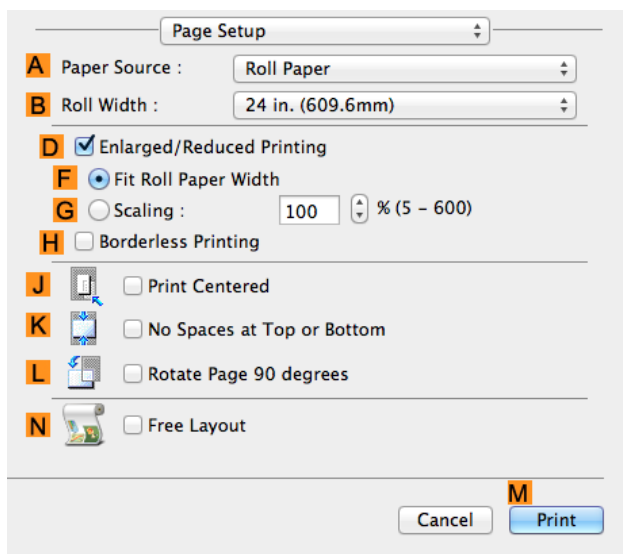

Select this option to apply color adjustment to graphics, such as lines and circles.

• **C Text**

Select this option to apply color adjustment to text.

Page Setup Pane

The following settings are available on the **Page Setup** pane. For details on settings items, refer to the printer driver help.

• **A Paper Source**

Choose how paper is supplied.

Options displayed in the list vary depending on the selection in **A Media Type** in the **Main** pane.

• **B Roll Width**

Select the paper width of the roll loaded in the printer.

• **D Enlarged/Reduced Printing**

Select this checkbox to choose the following options.

- Resizing Originals to Fit the Roll Width → P.56
- Resizing Originals by Entering a Scaling Value → P.60

• **F Fit Roll Paper Width**

Resizes the document image to match the roll width.

• **G Scaling**

Resizes the document image based on a specified scaling value. Enter a value in a range of **5–600**.

• **H Borderless Printing**

Borderless printing is available if roll paper is selected in the **A Paper Source** list.

Activate this setting for borderless printing to match the size and width of the paper.

- **Borderless Printing by Resizing Originals to Fit the Roll Width** →P.81
- **Borderless Printing at Actual Size** →P.70

• **J Print Centered**

Select this checkbox to print document images in the center of the paper.

- **Printing Originals Centered on Rolls** →P.118
- **Printing Originals Centered on Sheets** →P.122

• **K No Spaces at Top or Bottom**

Select this checkbox to print the next image skipping blank areas above and below printable data in documents, which enables you to conserve the paper.

- **Conserving Roll Paper by Printing Originals Without Top and Bottom Margins** →P.131

• **L Rotate Page 90 degrees**

Select this checkbox to rotate the document image by 90 degrees before printing.

- **Conserving Roll Paper by Rotating Originals 90 Degrees** →P.127

• **N Free Layout**

Select this checkbox to start **imagePROGRAF Free Layout** before printing.

This allows you to print multiple documents next to each other.

Important

- When **Print Preview** is selected on the **Main** panel, **Print Preview** is disabled.

- **Printing Multiple Originals Next to Each Other** →P.102

The Features of Preview

The main features of Preview are as follows.

- While viewing this screen, you can adjust layout settings of a document created with application software.
- You can not only adjust layout settings but also your changes will be instantly applied on the preview screen, and you can print the preview screen as it is seen.

- The media type, image size, detailed media settings, and the printer settings can cause the actual print output to differ from the Preview settings.

Starting Preview

Follow the procedure below to start the Preview.

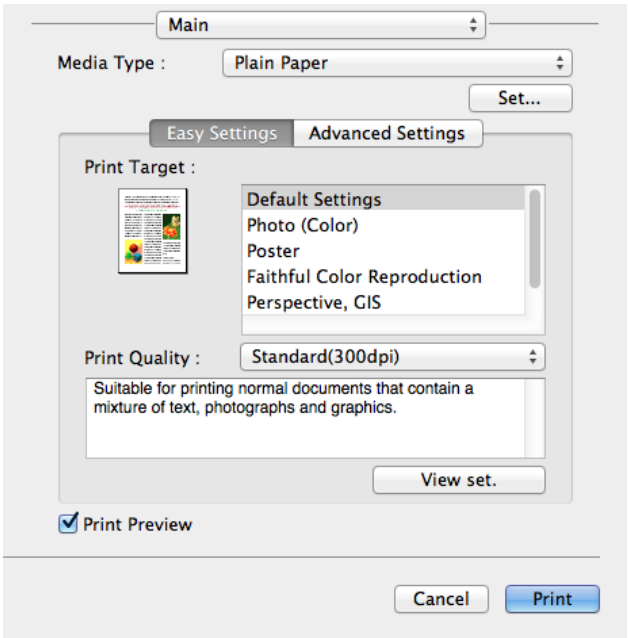

- 1 Start the application software which you use.
- 2 From the application software's **File** menu, select the printer setup menu to open the **Print** dialog box.

- Normally, select **Print** from the **File** menu.

- 3 Click **Print Preview** in the **Main** panel to attach a checkmark.

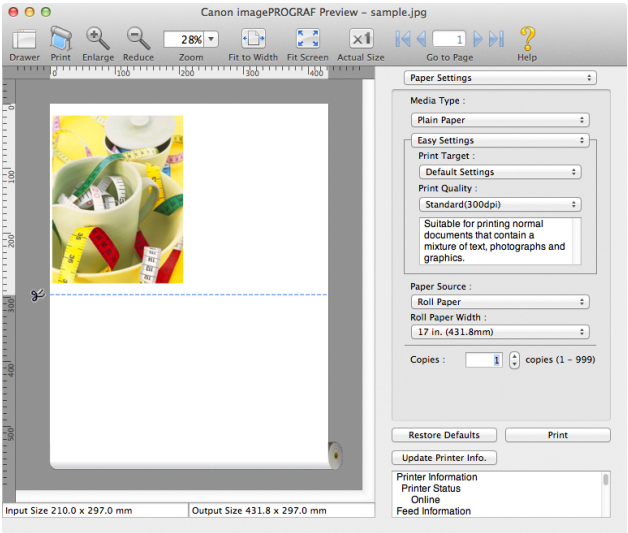

4 Click the **Print** button in the **Print** dialog box.

• Your printer is depicted in the lower-left area of this screen.

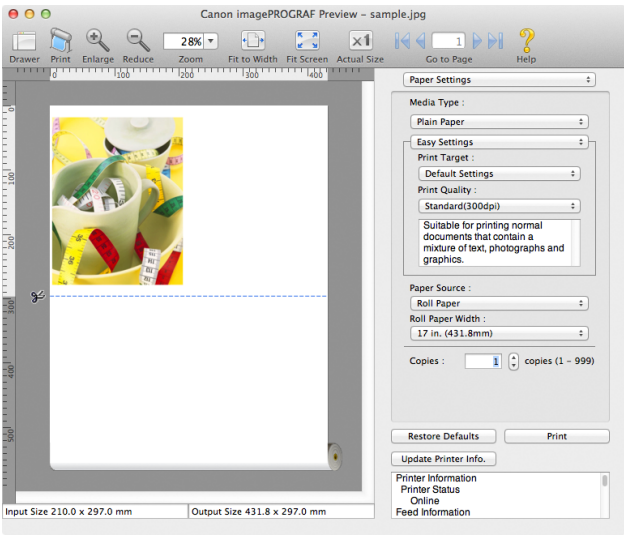

Note

5 Preview main window is displayed.

Preview Main Window

The Preview main window consists of the menu and tool bars, and preview, dialog , drawer and status area.

- You can use the **View** menu to show or hide the tool bar.

Menu Bar

This allows you to select menus required for operations.

Tool Bar

This allows you to select tool buttons required for major operations.

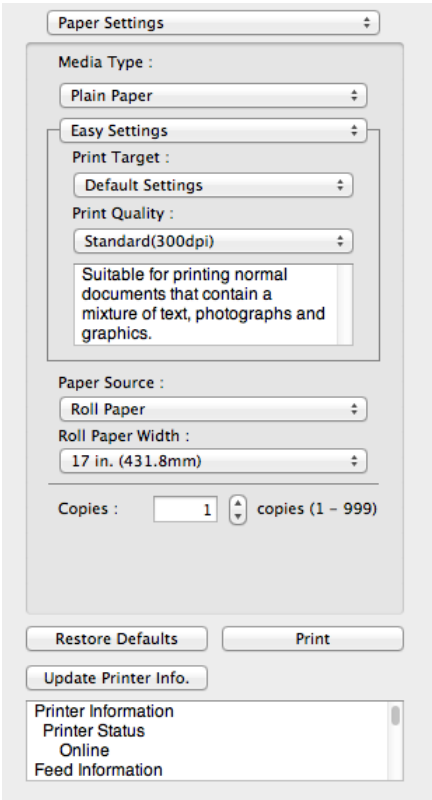

• Preview Area

You can check the settings you made in this area.

• Dialog Area

This allows you to set the print conditions and perform a print job.

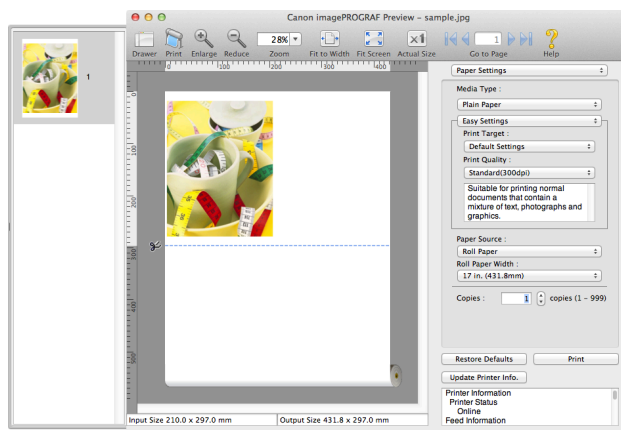

• Drawer Area

This allows you to display the thumbnails of a document.

This area appears when you click  **Drawer** from the tool bar.

Alternatively, you may select **Drawer** from the **View** menu.

- **Status Area**

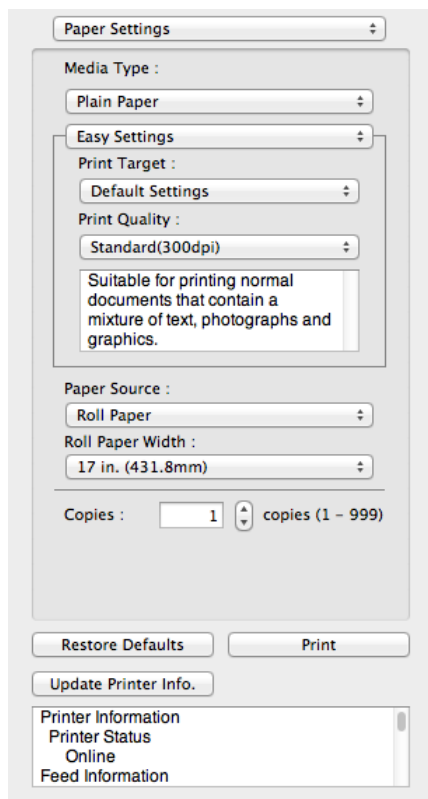

This shows **Input Size** and **Output Size**.

Input Size 16.54 x 23.39 in.

Output Size 24.00 x 23.39 in.

Paper Settings Panel

This panel appears when you select **Paper Settings** in the dialog area.

- **Media Type**

This allows you to select the media type.

- Always select media type that is actually set in the printer. When the media you chose is different from the media set in the printer, you may not receive the desired print results.

• **Easy Settings / Advanced Settings**

Two modes are available to provide the optimum print settings for jobs.
The settings available on each mode are as follows.

- **Easy Settings** →P.293
- **Advanced Settings** →P.294

• **Paper Source**

You can select the paper source.
The following settings are available for paper source.

Setting	Details
Manual	Select for manual paper feed printing.
Manual (3mm margins)	Select for manual paper feed printing when you want to minimize the margin at the far end edge of paper.
Roll Paper	Select to print on roll paper.

- When you select **Manual (3mm margins)** for **Paper Source**, the far end edge of printed image may become defective depending on the paper used. If this happens, select another paper source.

• **Roll Paper Width**

This selects the width of the roll media set to the printer.

- Available only if rolls are selected in **Paper Source**.

• **Copies**

You can input the number of print copies in numerical characters.

- The maximum value is 999.
- You can change the numbers by clicking either ▲ button or ▼ button.

• **Restore Defaults Button**

Click the button to reset to the setting when starting Preview.

• **Print Button**

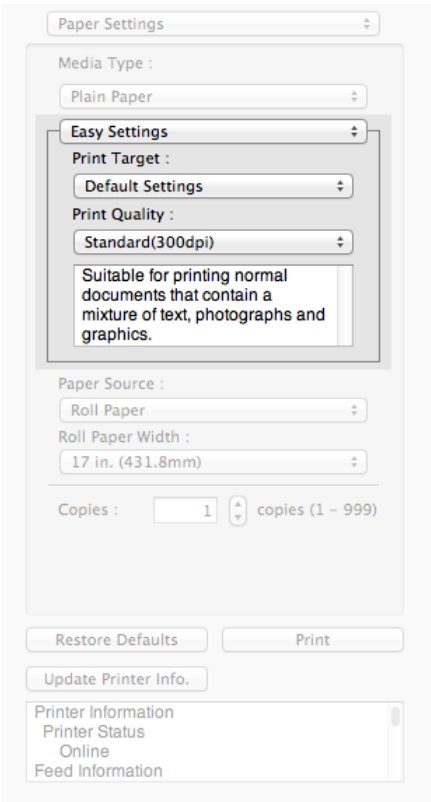

Click the button to begin printing.

• **Update Printer Info. Button**

Click the button to acquire printer information.

Easy Settings

You can easily select the best settings for the print job by just selecting an item from the print target list that matches the content of the document.

• Print Target

You can easily select the best settings for the print job simply.
If you select each **Print Target** item the corresponding comment for that item is displayed below the list.

Setting	Details
Default Settings	Suitable for printing normal documents that contain a mixture of text, photographs, and graphics.
Photo (Color)	Suitable for printing photographic images captured with a digital camera.
Poster	The best setting for posters. Prints using vivid and high impact colors.
Faithful Color Reproduction	Prints by minimizing color differences. Suitable for when the printing results are too vivid or when printing scanned images.
CAD (Color Line Drawing)	Suitable for printing fine lines such as drawings clearly.
Perspective, GIS	Suitable for attractive printing of 3D-CAD drawings, perspective drawings, and GIS drawings including maps.
Custom Settings	Suitable for printing documents for which Advanced Settings have been specified.

- The number of settings available for selection depends on the media type.

Note

• Print Quality

Selecting print quality strikes a balance between the quality of the printed image and printing speed.

The level of the print quality and resolution settings are displayed in the following combinations.

Setting	Details
Print Quality	High / Standard / Fast
Resolution	600dpi / 300dpi

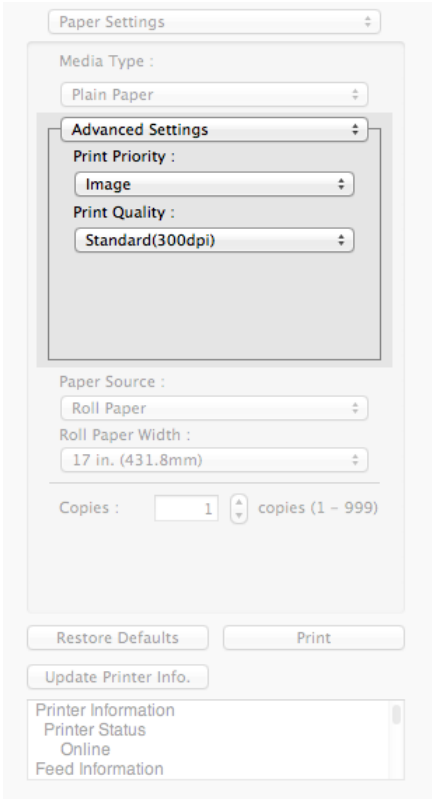

Note

- The availability of settings is determined by the media type and print priority selections.
- Printing time is longer and more ink is consumed with **High** than with **Fast**, however, print quality is higher.
- Printing time is shorter and less ink is consumed with **Fast** than with **High**, however, print quality is lower.

Advanced Settings

Presents detailed settings for the print quality, the color mode, and other items so you can select the values for these settings yourself.

• Print Priority

Select a print quality mode that is appropriate for the print job.

Setting	Details
Image	This mode achieves the best results for printing photographic images and illustrations.
Line Drawing	This mode is best for printing CAD drawings with fine lines or wall newssheet or other documents that contain large amounts of text. However, you may not achieve the quality you expect with printing photographs or other images with many filled areas. For these types of jobs, select Image .

Note

- The number of settings available for selection depends on the media type.

• **Print Quality**

Selecting print quality strikes a balance between the quality of the printed image and printing speed.

The level of the print quality and resolution settings are displayed in the following combinations.

Setting	Details
Print Quality	Highest quality / High / Standard / Fast
Resolution	600dpi / 300dpi

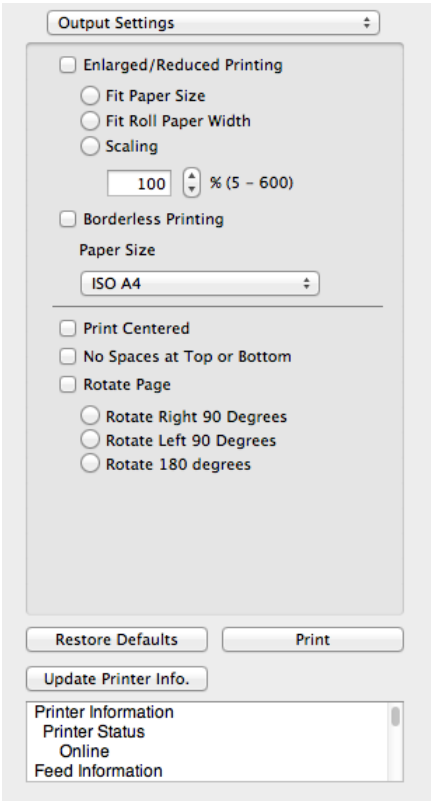

Note

- The availability of settings is determined by the media type and print priority selections.
- Printing time is longer and more ink is consumed with **High** than with **Fast**, however, print quality is higher.
- Printing time is shorter and less ink is consumed with **Fast** than with **High**, however, print quality is lower.
- For **Highest quality**, the resolution is not displayed.

Output Settings Panel

This panel appears when you select **Output Settings** in the dialog area.

• **Enlarged/Reduced Printing**

Select the method for enlarged/reduced printing.

The following settings are available for enlarged/reduced printing.

Setting	Details
Fit Paper Size	Enlarges/reduces the whole page automatically to fit the media size selected for output. Select the media size to print from Paper Size .
Fit Roll Paper Width	Enlarges/reduces the whole page automatically to fit the width of the roll paper with the page width. *Make sure that the width of the roll paper in the printer is set correctly for Roll Paper Width in the Paper Settings panel.

Setting	Details
Fit Roll Paper Width	*Displayed only if rolls are selected in Paper Source .
Scaling	Enlarges/reduces the whole page by the scaling rate as specified. Input the scaling value in numerical characters. You can specify a range between 5 and 600%. *You can change the numbers by clicking either ▲ button or ▼ button. *Although Scaling can be set to make the image larger than the media size, the part that does not fit in the media cannot be printed. *This is not displayed when a checkmark is placed in Borderless Printing .

• **Borderless Printing**

You can print the media without margins on all sides when the roll paper with the specific width and the specific media type is used.

For more information about **Borderless Printing**, see "Print with No Borders." →P.305

Note

- Available only if rolls are selected in **Paper Source**.
- This is not displayed when a checkmark is placed in **Print Centered**.

• **Paper Size**

You can select the size of the print media.

Note

- This is not displayed when **Fit Roll Paper Width** is set in **Enlarged/Reduced Printing**.

• **Print Centered**

You can print on the center of the media loaded in the printer.

For more information about **Print Centered**, see "Print on the Center." →P.306

Note

- This is not displayed when a checkmark is placed in **Borderless Printing**.

• **No Spaces at Top or Bottom**

You can save paper on not to feed roll paper for the empty spaces when the print data contains spaces at the top or bottom.

For more information about **No Spaces at Top or Bottom**, see "Not Print Spaces at the Top/Bottom." →P.306

Note

- Available only if rolls are selected in **Paper Source**.

• **Rotate Page**

Select the method for rotating page.

The following settings are available for rotating page.

Setting	Details
Rotate Right 90 Degrees	Rotates the portrait page right 90 degrees and print in landscape orientation. When the rotated page can fit in the width of roll paper, the page is rotated automatically, and when it can not fit in the width of roll paper, the page is not rotated.
Rotate Left 90 Degrees	Rotates the portrait page left 90 degrees and print in landscape orientation. When the rotated page can fit in the width of roll paper, the page is rotated automatically, and when it can not fit in the width of roll paper, the page is not rotated.
Rotate 180 degrees	Allows you to rotate the image 180 degrees from the vertical to the right.

• **Restore Defaults Button**

Click the button to reset to the setting when starting Preview.

• **Print Button**

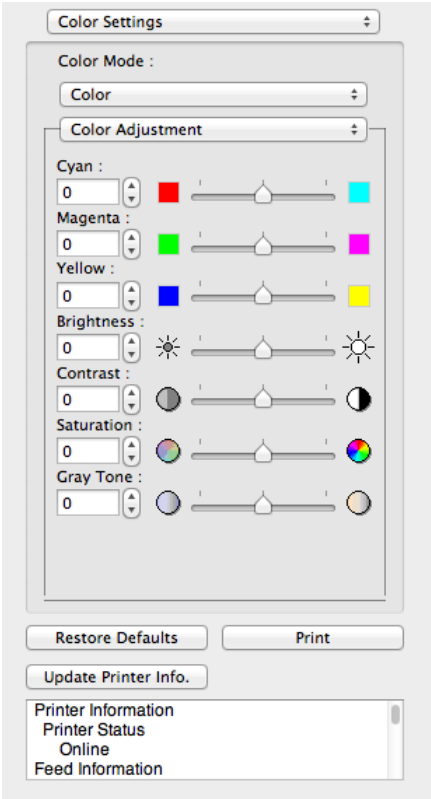

Click the button to begin printing.

• **Update Printer Info. Button**

Click the button to acquire printer information.

Color Settings Panel

This panel appears when you select **Color Settings** in the dialog area.

• **Color Mode**

You can select a color mode to suit the print job.

Setting	Details
Color	Enables color printing.
Monochrome	Disables color printing and converts image from continuous color to grayscaled mono-chrome.
No color correction	Prints without performing color matching in the printer driver. Select this when color matching is performed by the application such as Adobe Photoshop or when you want to print color charts using the profile creation tool.

• The availability of settings depends on the print priority and media type selections.

Note

• **Color Adjustment / Gray Adjustment / Matching**

You can set the color adjustment and matching.

- **Color Adjustment** ➔P.298
- **Matching** ➔P.300

• **Matching** is not displayed if **No color correction** has been selected in **Color Mode**.

• **Restore Defaults** Button

Click the button to reset to the setting when starting Preview.

• **Print** Button

Click the button to begin printing.

• **Update Printer Info.** Button

Click the button to acquire printer information.

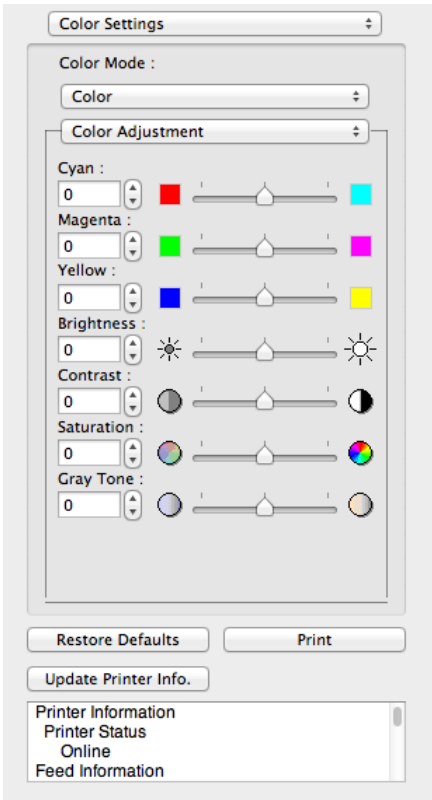

Color Adjustment

You can set the color adjustment.

Adjusting Color

Normally colors should be adjusted in the software application, but if you see colors in the printout that do not match colors on the screen, you can perform color adjustments.

- 1 Select **Color** on **Color Mode** in the **Color Settings** panel.
- 2 Select **Color Adjustment**.

- 3 Drag each slider to the left or right to adjust.

Setting	Details
Cyan	Adjusts the strength of colors to compensate the hues.
Magenta	Adjusts the strength of colors to compensate the hues.
Yellow	Adjusts the strength of colors to compensate the hues.

Setting	Details
Brightness	Adjusts the brightness of the entire image. When the results of the printout are brighter than the original images such as the original photo before scanning and graphics created on the display, or when you want to print in different degrees of brightness, use this feature.
Contrast	Adjusts the relative brightness between the brightest and darkest portions of the image. *For soft gradation, decrease the contrast. For hard gradation, increase the contrast.
Saturation	Adjusts the hues for vivid color or dark color.
Gray Tone	Adjusts gray from cool black (bluish tones) to warm black (reddish tones).

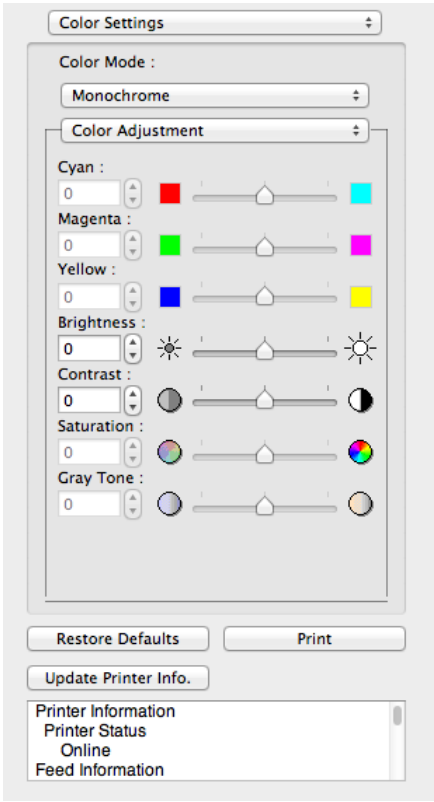

• You can also click the up or down arrow, or enter the number directly to increase or decrease the value.

Adjusting Monochrome

Use the monochrome setting to print monochrome images of color photographs captured with a scanner or digital camera or other color images.

- 1
- Select **Monochrome** on **Color Mode** in the **Color Settings** panel.
- 2
- Select **Color Adjustment**.

- 3
- Drag each slider to the left or right to adjust.

Setting	Details
Brightness	Adjusts the brightness of the entire image. When the results of the printout are brighter than the original images such as the original photo before scanning and graphics created on the display, or when you want to print in different degrees of brightness, use this feature.
Contrast	Adjusts the relative brightness between the brightest and darkest portions of the image.

Setting	Details
Contrast	*For soft gradation, decrease the contrast. For hard gradation, increase the contrast.

- You can also click the up or down arrow, or enter the number directly to increase or decrease the value.

Matching

You can set the matching.

Important

- If **No color correction** is selected under **Color Mode**, the **Matching** is not displayed.

• Matching Mode

You can select a matching mode to suit the print job.

Setting	Details
Driver Matching Mode →P.302	Enables printing of optimal color tones using a driver specific color profile. You should normally select this mode.
ICC Matching Mode →P.303	Enables color matching using ICC profiles. Select this if you want to print by specifying the input profile, printer profile, and matching method in detail. This allows you to use ICC profiles for digital cameras and scanners, ICC profiles created using the profile creation tool, etc.
ColorSync →P.304	Enables color matching by using the ColorSync function of OS X. Select this if you want to perform soft proofing using ColorSync before printing.

Note

- You need to set each correction on the printer driver.
- ColorSync** needs to be selected in the **Color Matching** panel of the driver in order to select **ColorSync**.

- **Matching Method**

You can select a matching method to suit the print job.

- **Gamma**

You can adjust the gradation of intermediate tones in an image. **2.2** is normally selected. If you want a softer impression than **2.2**, select **1.8**.

Note

- You can select only after **Driver Matching Mode** has been selected in **Matching Mode**.

- **Input Profile**

Select the input profile.

Note

- You can select only after **ICC Matching Mode** has been selected in **Matching Mode**.

- **Printer Profile**

Select the printer profile.

Note

- You can select only after **ICC Matching Mode** has been selected in **Matching Mode**.

- **Soft Proof**

When you place a checkmark here, **ColorSync** applies to the preview area.

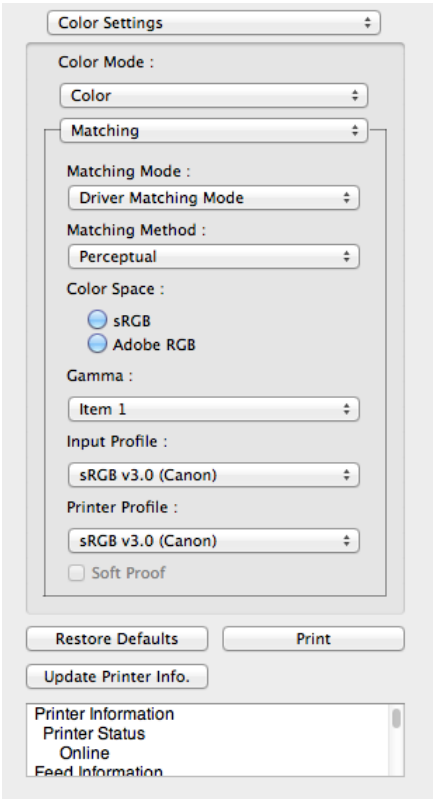

Note

- You can select only after **ColorSync** has been selected in **Matching Mode**.

Driver Matching Mode

1 Under **Matching Mode**, select **Driver Matching Mode**.

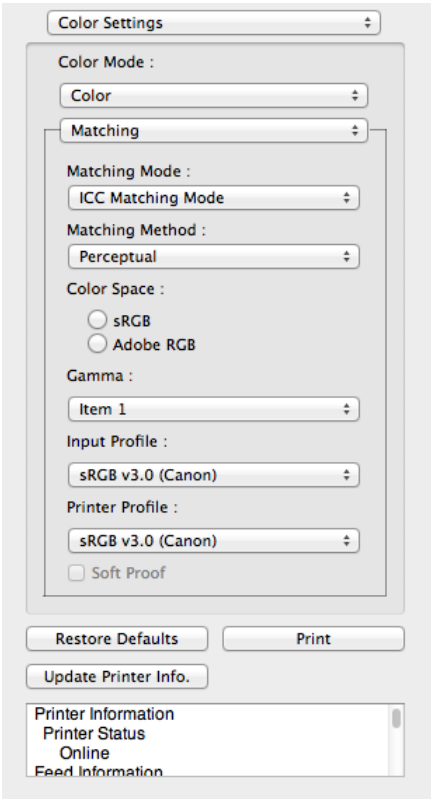

2 Click the **Matching Method** list, and then select a setting.

Setting	Details
Auto	Automatically selects the best color matching method for each Image, Graphics, Text.
Perceptual	Color-matching optimized for printing typical photos attractively. Smooth gradation is a feature. This is also an easy-to-use mode when performing color adjustment using application software.
Saturation	Color-matching optimized for printing posters, etc., vividly.
Colorimetric	Color-matching optimized for printing image data with accurate colors in input color space. This is the easiest-to-use mode when you want to adjust the color and print. However, gradation may be lost for colors of wider range than the color reproduction range of the printer. Generally, this is also called relative colorimetric.

ICC Matching Mode

1 Under **Matching Mode**, select **ICC Matching Mode**.

2 Click the **Matching Method** list, and then select a setting.

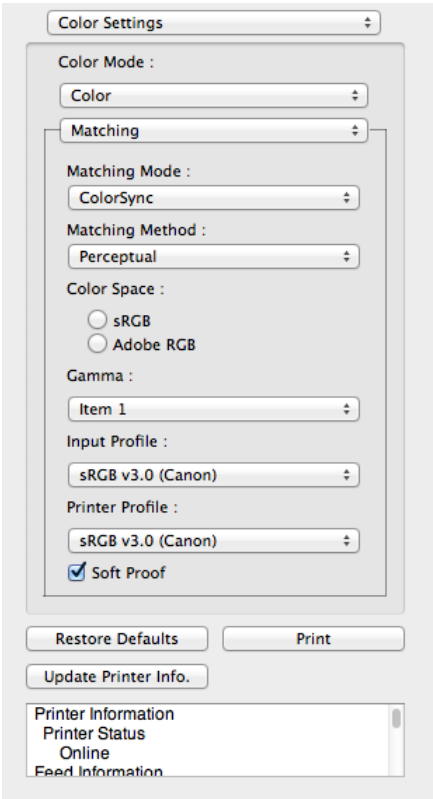

Setting	Details
Perceptual	Color-matching optimized for printing typical photos attractively. Smooth gradation is a feature. This is also an easy-to-use mode when performing color adjustment using application software.
Saturation	Color-matching optimized for printing posters, etc., vividly.
Colorimetric	Color-matching optimized for printing image data with accurate colors in input color space. This is the easiest-to-use mode when you want to adjust the color and print. However, gradation may be lost for colors of wider range than the color reproduction range of the printer. Generally, this is also called relative colorimetric.
Colorimetric (No White-Point Correction)	The processing method of color-matching is identical to Colorimetric . Use this when you want to further reproduce the target paper material color of the image data. Generally, this also is called absolute colorimetric.

3 Click the **Input Profile** list and select an input profile.

4 Click the **Printer Profile** list and select a printer profile.

ColorSync

1 Check that **ColorSync** is selected in **Matching Mode**.

2 To apply **ColorSync** to previews, check the **Soft Proof** check box.

Preferences Dialog Box

This dialog box appears when you select **Preferences** from the **imagePROGRAF Advanced Preview** menu. You can set the preferences for Preview.

• Units

Set the unit for paper length, margins, and so on.

Zoom Dialog Box

This dialog box appears when you select **Zoom** from the **View** menu. You can enlarge or reduce the screen display.

• Scaling

Set the magnification for enlargement or reduction of the screen display.

Note

- You can input between 10 and 400.
- You can change the numbers by clicking ▼ button.

Go to Page Dialog Box

This dialog box appears when you select **Go to Page** from the **View** menu.

Note

- You can not select **Go to Page** if the document is only one page.

• Page

Input the page number in numerical characters to display in the preview area.

Note

- You can change the numbers in the range of the page of the documents.

Print with No Borders

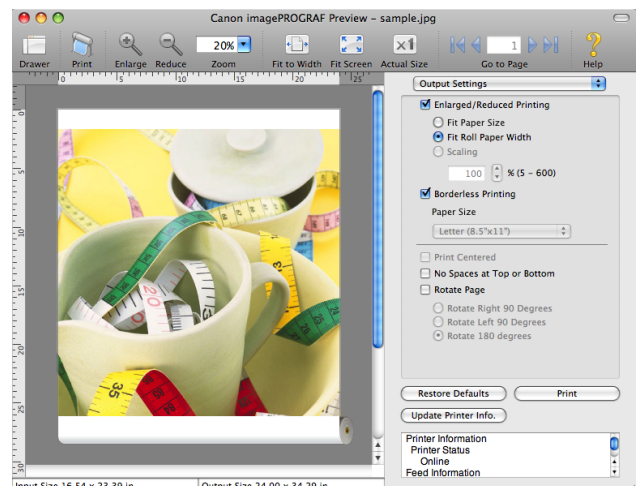

You can use the borderless printing function to print without margins surrounding the image.

Note

- With some media borderless printing can be performed only between two edges.
- To use the borderless printing function, the specified media must be set to the printer.

- 1 On the **Paper Settings Panel** (→P.291), select **Roll Paper** in **Paper Source**.
- 2 On the **Output Settings Panel** (→P.295), click the **Enlarged/Reduced Printing** check box on.
- 3 Select **Fit Roll Paper Width**.
- 4 Click the **Borderless Printing** check box on.

- 5
- Click the **Print** button.
Borderless printing begins.

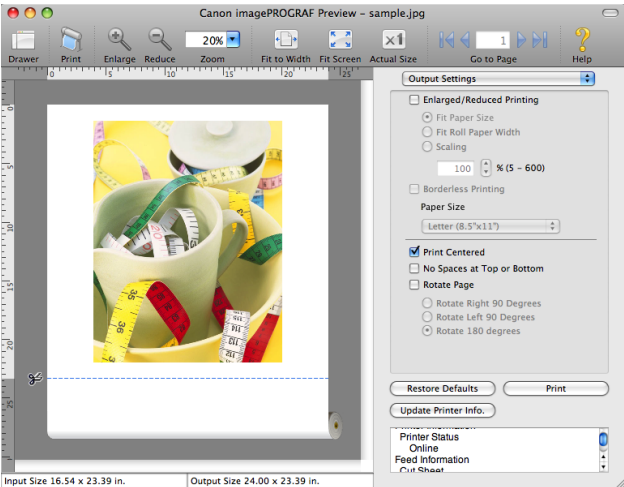

Print on the Center

You can print on the center of the media loaded in the printer.

- This is not displayed when a checkmark is placed in **Borderless Printing**.

- 1
- On the **Output Settings Panel** →P.295 , click the **Print Centered** check box on.

- 2
- Click the **Print** button.
Printing on the center begins.

Not Print Spaces at the Top/Bottom

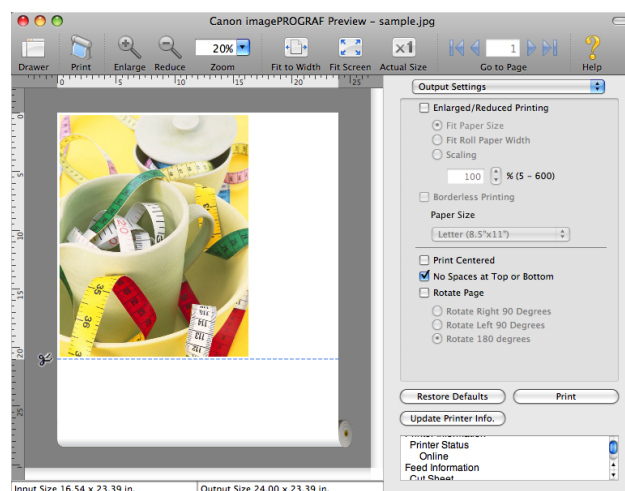

You can save paper on not to feed roll paper for the empty spaces when the print data contains spaces at the top or bottom.

- This is not displayed when a checkmark is placed in **Borderless Printing**.

- 1
- On the **Paper Settings Panel** →P.291 , select **Roll Paper** in **Paper Source**.

- 2** On the Output Settings Panel →P.295, click the **No Spaces at Top or Bottom** check box on.

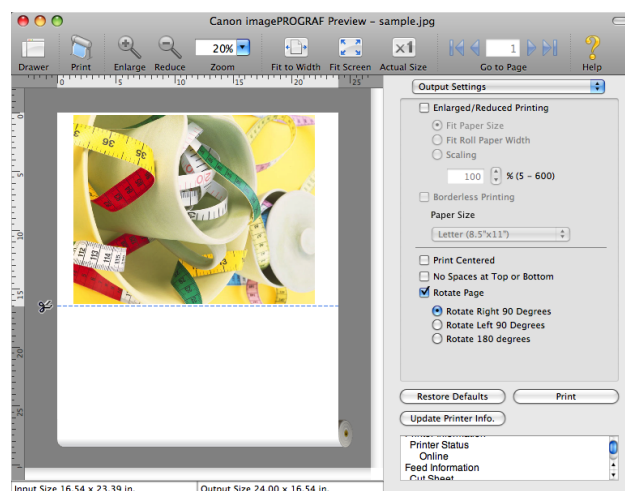

- 3** Click the **Print** button.
Printing on the settings with no spaces at top or bottom begins.

Print Page Rotated 90 Degrees

You can save paper by printing in landscape orientation on roll paper.

- 1** On the Paper Settings Panel →P.291, select **Roll Paper** in **Paper Source**.
- 2** On the Output Settings Panel →P.295, click the **Rotate Page** check box on.
- 3** Select **Rotate Right 90 Degrees** or **Rotate Left 90 Degrees**.

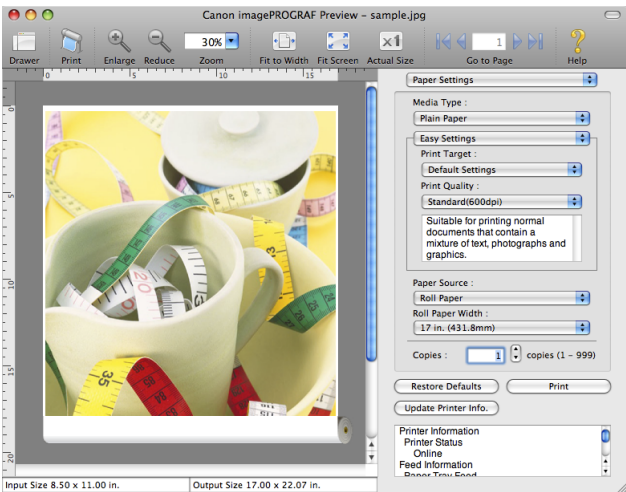

- 4** Click the **Print** button.
Printing on rotating 90 degrees begins.

Display with Fitting to the Width of the Paper

In the preview area, you can display to the width of the paper.

- 1** Select  **Fit to Width** from the tool bar.

2 Fitting to the width of the paper, it is displayed.

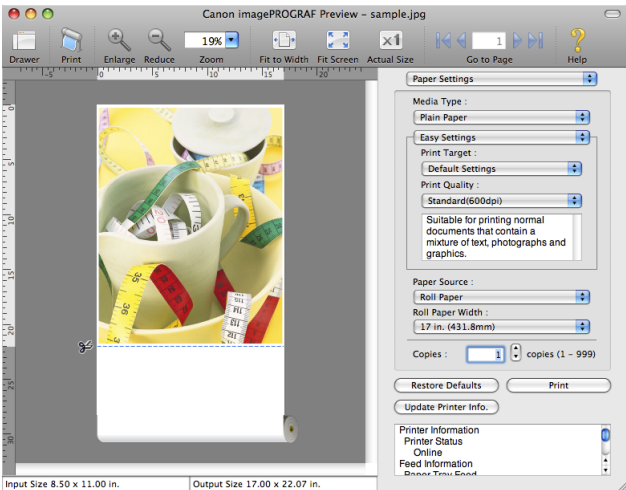

Display with All

In the preview area, you can display all.

1 Select  **Fit Screen** from the tool bar.

2 All is displayed.

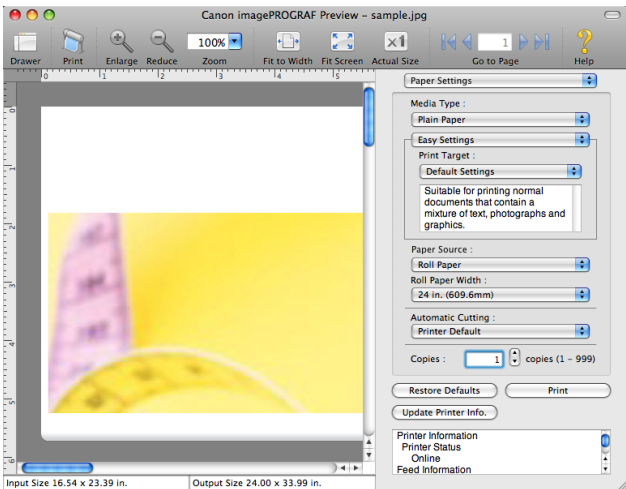

Display with Actual Size

In the preview area, you can display the actual size.

1 Select  **Actual Size** from the tool bar.

2

Actual size is displayed.

Moving a Page

You can move a page to display in the preview area.

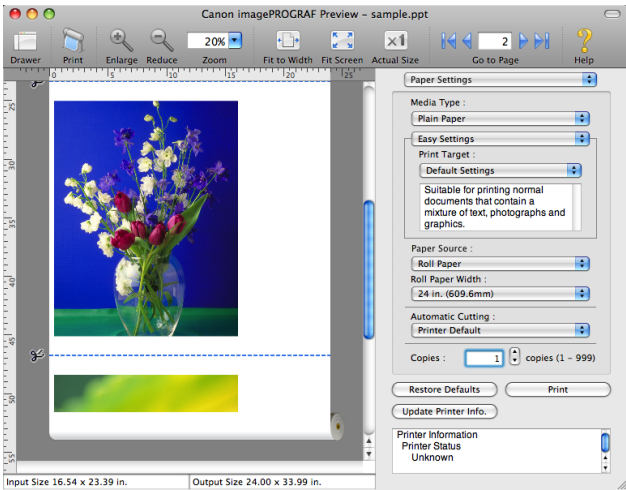

1

Select each button in **Go to Page** on the tool bar.

Setting	Details
	Go to the first page.
	Go to the previous page.
	Go to the next page.
	Go to the last page.

2

The target page appears.

- You can also move a page by clicking the page on the thumbnails.

The Features of Free Layout

The main features of Free Layout are as follows.

- Allows you to lay out at will and print a document created with application software.
 - You can not only lay out multiple pages on one page but also lay out and print a multiple-file document on one page, or lay out and print a document created with multiple application programs on one page.
- 

The media type, image size, detailed media settings, and the printer settings can cause the actual print output to differ from the Free Layout settings.

Starting Free Layout

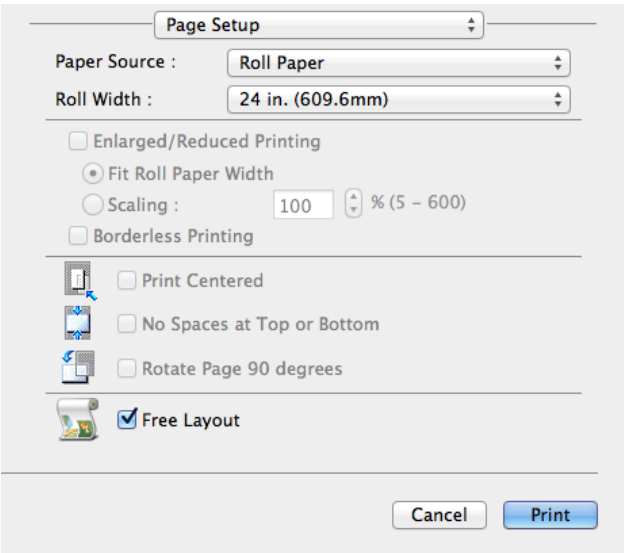

Follow the procedure below to start the Free Layout.

- 1 Start the application software which you use.
- 2 From the application software's **File** menu, select the printer setup menu to open the **Print** dialog box.

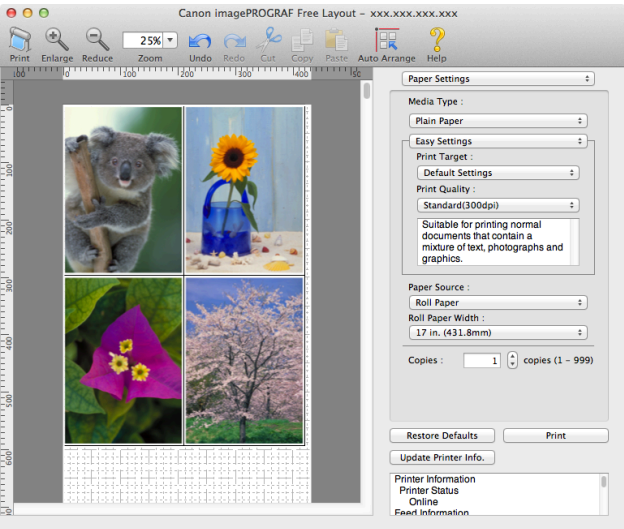

Normally, select **Print** from the **File** menu.
- 3 Click on **Free Layout** in the **Page Setup** panel to attach a checkmark.

4 Click the **Print** button in the **Print** dialog box.

 • Your printer is depicted in the lower-left area of this screen.
Note

5 Free Layout main window is displayed.

Free Layout Main Window

The Free Layout main window consists of the menu and tool bars, layout area and dialog areas.

- You can use the **View** menu to show or hide the tool.

• Menu Bar

This allows you to select menus required for operations.

• Tool Bar

This allows you to select tool buttons required for major operations.

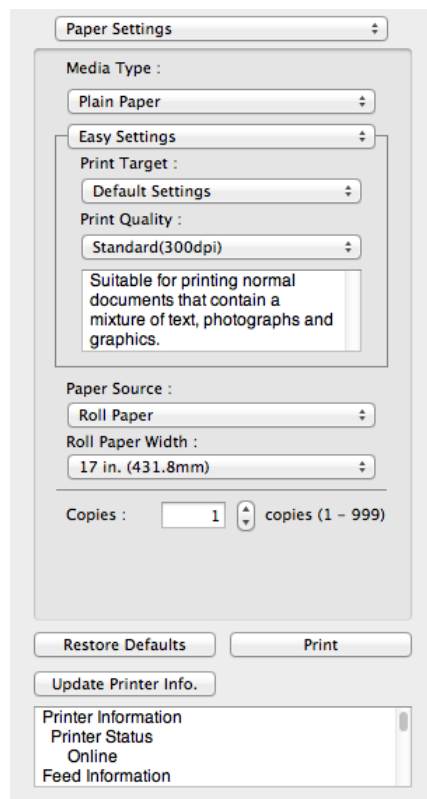

- **Layout Area**

This allows you to lay out objects and edit the object size and orientation.

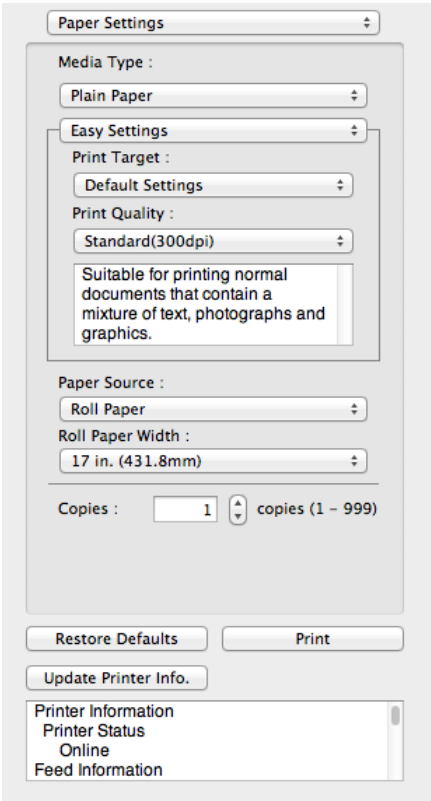

- **Dialog Area**

This allows you to set the print conditions and perform a print job.

Paper Settings Panel

This panel appears when you select **Paper Settings** in the dialog area.

• Media Type

This allows you to select the media type.

- Always select media type that is actually set in the printer. When the media you chose is different from the media set in the printer, you may not receive the desired print results.

• Easy Settings / Advanced Settings

Two modes are available to provide the optimum print settings for jobs.
The settings available on each mode are as follows.

- Easy Settings →P.315
- Advanced Settings →P.317

• Paper Source

You can select the paper source.
The following settings are available for paper source.

Setting	Details
Roll Paper	Select to print on roll paper.
Manual	Select for manual paper feed printing.
Manual (3mm margins)	Select for manual paper feed printing when you want to minimize the margin at the far end edge of paper.

- When you select **Manual (3mm margins)** for **Paper Source**, the far end edge of printed image may become defective depending on the paper used. If this happens, select another paper source.

• **Roll Paper Width**

This selects the width of the roll media set to the printer.

- Available only if rolls are selected in **Paper Source**.

• **Copies**

You can input the number of print copies in numerical characters.

- The maximum value is 999.
- You can change the numbers by clicking either ▲ button or ▼ button.

• **Restore Defaults** Button

Click the button to reset to the setting when starting Free Layout.

• **Print** Button

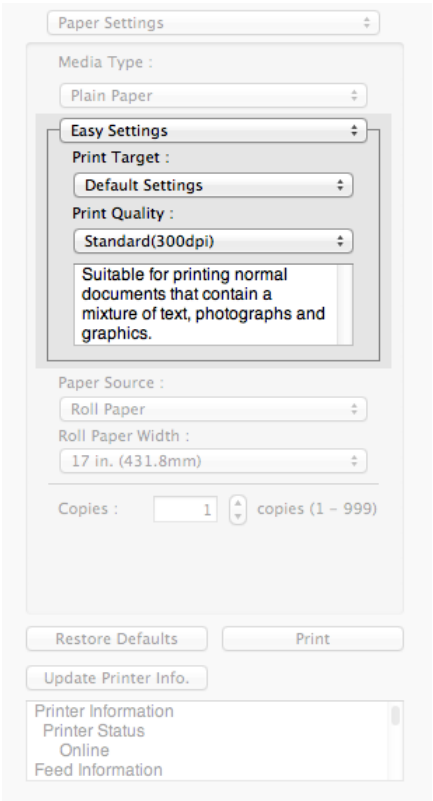

Click the button to begin printing.

• **Update Printer Info.** Button

Click the button to acquire printer information.

Easy Settings

You can easily select the best settings for the print job by just selecting an item from the print target list that matches the content of the document.

• **Print Target**

You can easily select the best settings for the print job simply.

If you select each **Print Target** item the corresponding comment for that item is displayed below the list.

Setting	Details
Default Settings	Suitable for printing normal documents that contain a mixture of text, photographs, and graphics.
Photo (Color)	Suitable for printing photographic images captured with a digital camera.
Poster	The best setting for posters. Prints using vivid and high impact colors.
Faithful Color Reproduction	Prints by minimizing color differences. Suitable for when the printing results are too vivid or when printing scanned images.
CAD (Color Line Drawing)	Suitable for printing fine lines such as drawings clearly.
Perspective, GIS	Suitable for attractive printing of 3D-CAD drawings, perspective drawings, and GIS drawings including maps.
Custom Settings	Suitable for printing documents for which Advanced Settings have been specified.

Note

- The number of settings available for selection depends on the media type.

• Print Quality

Selecting print quality strikes a balance between the quality of the printed image and printing speed.

The level of the print quality and resolution settings are displayed in the following combinations.

Setting	Details
Print Quality	High / Standard / Fast
Resolution	600dpi / 300dpi

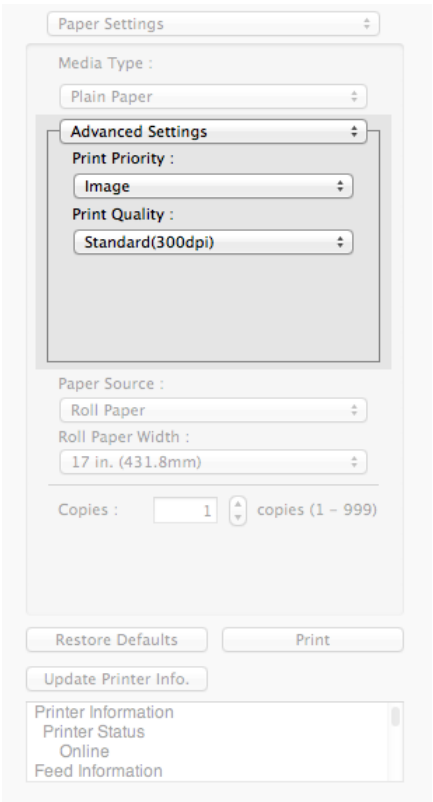

Note

- The availability of settings is determined by the media type and print priority selections.
- Printing time is longer and more ink is consumed with **High** than with **Fast**, however, print quality is higher.
- Printing time is shorter and less ink is consumed with **Fast** than with **High**, however, print quality is lower.

Advanced Settings

Presents detailed settings for the print priority, the print quality, and other items so you can select the values for these settings yourself.

• Print Priority

Select a print quality mode that is appropriate for the print job.

Setting	Details
Image	This mode achieves the best results for printing photographic images and illustrations.
Line Drawing	This mode is best for printing CAD drawings with fine lines or wall newssheet or other documents that contain large amounts of text. However, you may not achieve the quality you expect with printing photographs or other images with many filled areas. For these types of jobs, select Image .

• The number of settings available for selection depends on the media type.

• Print Quality

Selecting print quality strikes a balance between the quality of the printed image and printing speed.

The level of the print quality and resolution settings are displayed in the following combinations.

Setting	Details
Print Quality	Highest quality / High / Standard / Fast
Resolution	600dpi / 300dpi

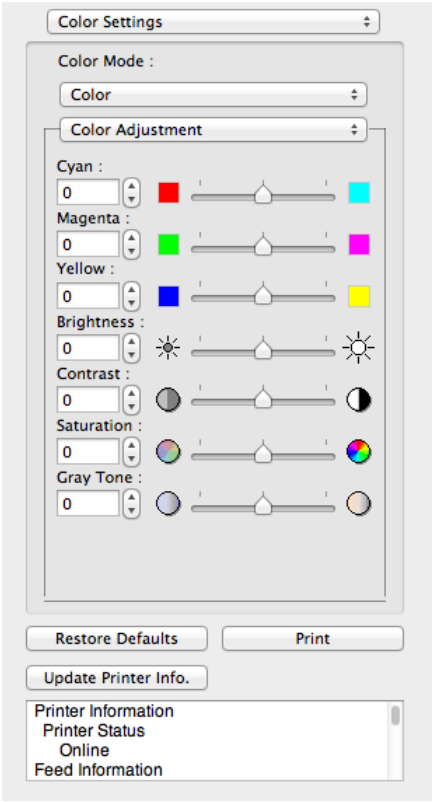

Note

- The availability of settings is determined by the media type and print priority selections.
- Printing time is longer and more ink is consumed with **High** than with **Fast**, however, print quality is higher.
- Printing time is shorter and less ink is consumed with **Fast** than with **High**, however, print quality is lower.
- For **Highest quality**, the resolution is not displayed.

Color Settings Panel

This panel appears when you select **Color Settings** in the dialog area.

• Color Mode

You can select a color mode to suit the print job.

Setting	Details
Color	Enables color printing.
Monochrome	Disables color printing and converts image from continuous color to grayscaled monochrome.
No color correction	Prints without performing color matching in the printer driver. Select this when color matching is performed by the application such as Adobe Photoshop or when you want to print color charts using the profile creation tool.

Note

- The availability of settings depends on the print priority and media type selections.

• Color Adjustment / Matching

You can set the color adjustment and matching.

- **Color Adjustment** →P.319
- **Matching** →P.321

• **Matching** is not displayed if **No color correction** has been selected in **Color Mode**.

• **Restore Defaults** Button

Click the button to reset to the setting when starting Free Layout.

• **Print** Button

Click the button to begin printing.

• **Update Printer Info.** Button

Click the button to acquire printer information.

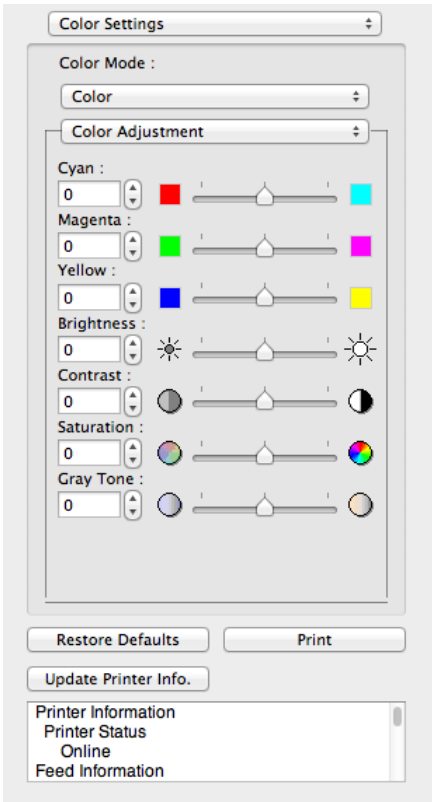

Color Adjustment

You can set the color adjustment.

Adjusting Color

Normally colors should be adjusted in the software application, but if you see colors in the printout that do not match colors on the screen, you can perform color adjustments.

- 1
- Select **Color** on **Color Mode** in the **Color Settings** panel.
- 2
- Select **Color Adjustment**.

- 3
- Drag each slider to the left or right to adjust.

Setting	Details
Cyan	Adjusts the strength of colors to compensate the hues.
Magenta	Adjusts the strength of colors to compensate the hues.
Yellow	Adjusts the strength of colors to compensate the hues.

Setting	Details
Brightness	Adjusts the brightness of the entire image. When the results of the printout are brighter than the original images such as the original photo before scanning and graphics created on the display, or when you want to print in different degrees of brightness, use this feature.
Contrast	Adjusts the relative brightness between the brightest and darkest portions of the image. *For soft gradation, decrease the contrast. For hard gradation, increase the contrast.
Saturation	Adjusts the hues for vivid color or dark color.
Gray Tone	Adjusts gray from cool black (bluish tones) to warm black (reddish tones).

• You can also click the up or down arrow, or enter the number directly to increase or decrease the value.

Adjusting Monochrome

Use the monochrome setting to print monochrome images of color photographs captured with a scanner or digital camera or other color images.

- 1
- Select **Monochrome** on **Color Mode** in the **Color Settings** panel.
- 2
- Select **Color Adjustment**.

- 3
- Drag each slider to the left or right to adjust.

Setting	Details
Brightness	Adjusts the brightness of the entire image. When the results of the printout are brighter than the original images such as the original photo before scanning and graphics created on the display, or when you want to print in different degrees of brightness, use this feature.
Contrast	Adjusts the relative brightness between the brightest and darkest portions of the image.

Setting	Details
Contrast	*For soft gradation, decrease the contrast. For hard gradation, increase the contrast.

Note

- You can also click the up or down arrow, or enter the number directly to increase or decrease the value.

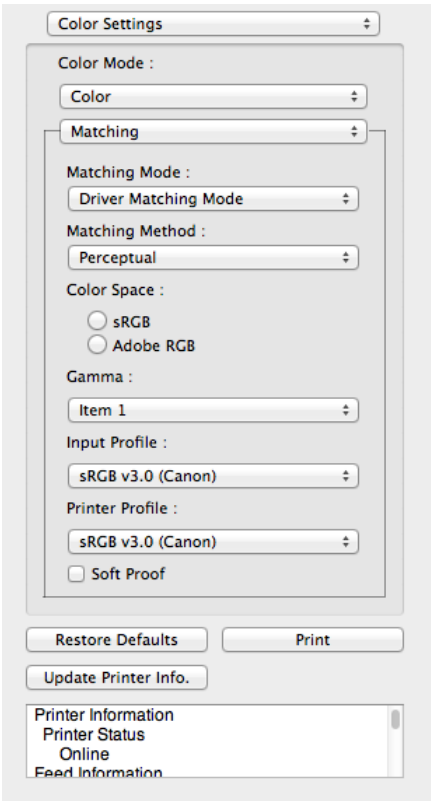

Matching

You can set the matching.

Important

- If **No color correction** is selected under **Color Mode**, the **Matching** is not displayed.

• Matching Mode

You can select a matching mode to suit the print job.

Setting	Details
Driver Matching Mode →P.323	Enables printing of optimal color tones using a driver specific color profile. You should normally select this mode.
ICC Matching Mode →P.324	Enables color matching using ICC profiles. Select this if you want to print by specifying the input profile, printer profile, and matching method in detail. This allows you to use ICC profiles for digital cameras and scanners, ICC profiles created using the profile creation tool, etc.
ColorSync →P.325	Enables color matching by using the ColorSync function of OS X. Select this if you want to perform soft proofing using ColorSync before printing.

Note

- You need to set each correction on the printer driver.
- ColorSync** needs to be selected in the **Color Matching** panel of the driver in order to select **ColorSync**.

- **Matching Method**

You can select a matching method to suit the print job.

- **Gamma**

You can adjust the gradation of intermediate tones in an image. **2.2** is normally selected. If you want a softer impression than **2.2**, select **1.8**.

Note

- You can select only after **Driver Matching Mode** has been selected in **Matching Mode**.

- **Input Profile**

Select the input profile.

Note

- You can select only after **ICC Matching Mode** has been selected in **Matching Mode**.

- **Printer Profile**

Select the printer profile.

Note

- You can select only after **ICC Matching Mode** has been selected in **Matching Mode**.

- **Soft Proof**

When you place a checkmark here, **ColorSync** applies to the layout area.

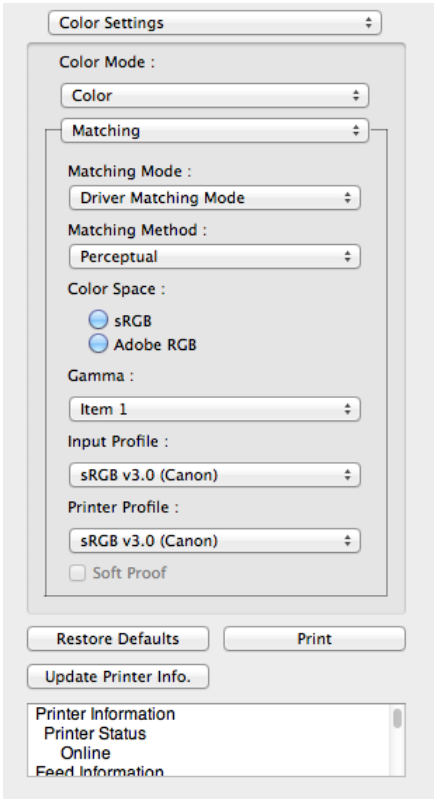

Note

- You can select only after **ColorSync** has been selected in **Matching Mode**.

Driver Matching Mode

1 Under **Matching Mode**, select **Driver Matching Mode**.

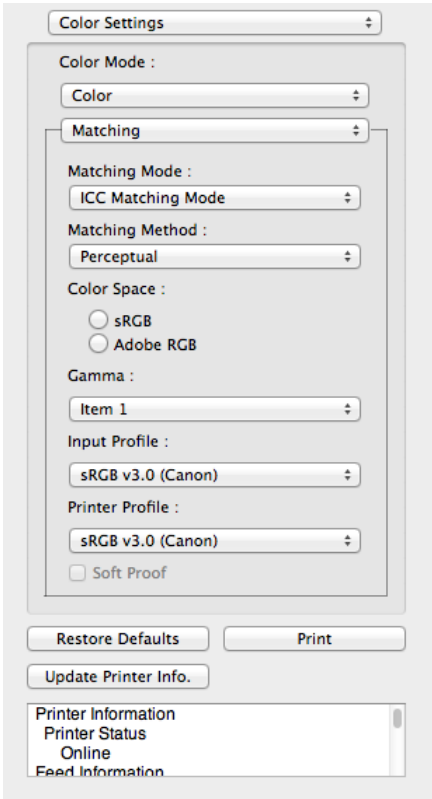

2 Click the **Matching Method** list, and then select a setting.

Setting	Details
Auto	Automatically selects the best color matching method for each Image, Graphics, Text.
Perceptual	Color-matching optimized for printing typical photos attractively. Smooth gradation is a feature. This is also an easy-to-use mode when performing color adjustment using application software.
Saturation	Color-matching optimized for printing posters, etc., vividly.
Colorimetric	Color-matching optimized for printing image data with accurate colors in input color space. This is the easiest-to-use mode when you want to adjust the color and print. However, gradation may be lost for colors of wider range than the color reproduction range of the printer. Generally, this is also called relative colorimetric.

ICC Matching Mode

1 Under **Matching Mode**, select **ICC Matching Mode**.

2 Click the **Matching Method** list, and then select a setting.

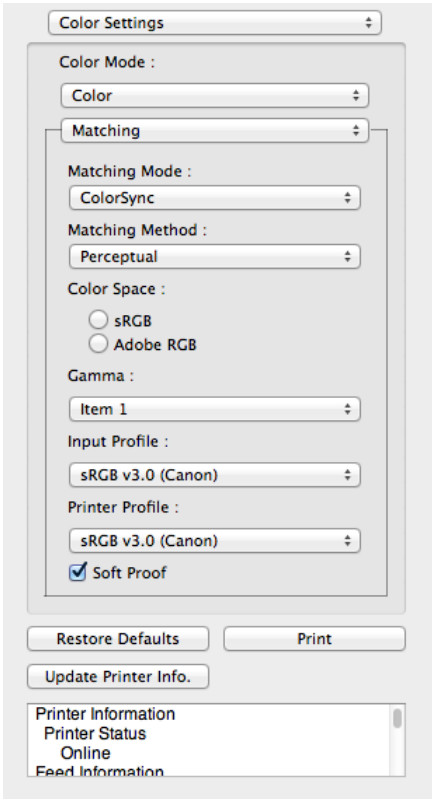

Setting	Details
Perceptual	Color-matching optimized for printing typical photos attractively. Smooth gradation is a feature. This is also an easy-to-use mode when performing color adjustment using application software.
Saturation	Color-matching optimized for printing posters, etc., vividly.
Colorimetric	Color-matching optimized for printing image data with accurate colors in input color space. This is the easiest-to-use mode when you want to adjust the color and print. However, gradation may be lost for colors of wider range than the color reproduction range of the printer. Generally, this is also called relative colorimetric.
Colorimetric (No White-Point Correction)	The processing method of color-matching is identical to Colorimetric . Use this when you want to further reproduce the target paper material color of the image data. Generally, this is also called absolute colorimetric.

3 Click the **Input Profile** list and select an input profile.

4 Click the **Printer Profile** list and select a printer profile.

ColorSync

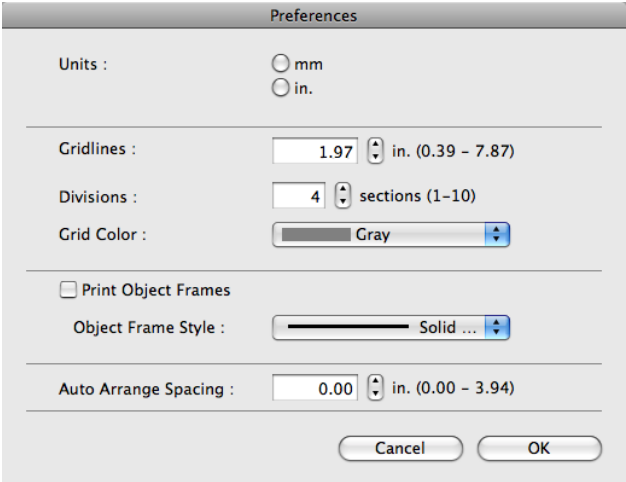

1 Check that **ColorSync** is selected in **Matching Mode**.

2 Place a checkmark on **Soft Proof** to simulate the output product in Layout Area.

Preferences Dialog Box

This dialog box appears when you select **Preferences** from the imagePROGRAF Advanced Preview menu. You can set the preferences for Free Layout.

• Units

Set the unit for paper length, margins, and so on.

• Gridlines

You can input a grid line width value in numerical characters so that they serve as a guide to laying out objects.

Note

- You can input between 10.0 and 200.0(mm) (between 0.39 and 7.87(inch)).
- You can change the numbers by clicking either ▲ button or ▼ button.

• Divisions

You can change the number of divisions of grid lines so that they serve as a guide to laying out objects.

Note

- You can input between 1 and 10.
- You can change the numbers by clicking either ▲ button or ▼ button.

• Grid Color

Select the grid line color.

• Print Object Frames

You can print the object border.

Note

- If you do not want to print the object border, deselect the **Print Object Frames** check box.

• Object Frame Style

You can select the object frame style for printing.
The following settings are available for the object frame style.

Setting	Details
Solid Line	You can print the solid line as the frame style.
Dotted Line	You can print the dotted line as the frame style.
Dashed Line	You can print the dashed line as the frame style.

• Auto Arrange Spacing

Change the object-to-object spacing to be applied in the operation of laying out objects automatically.

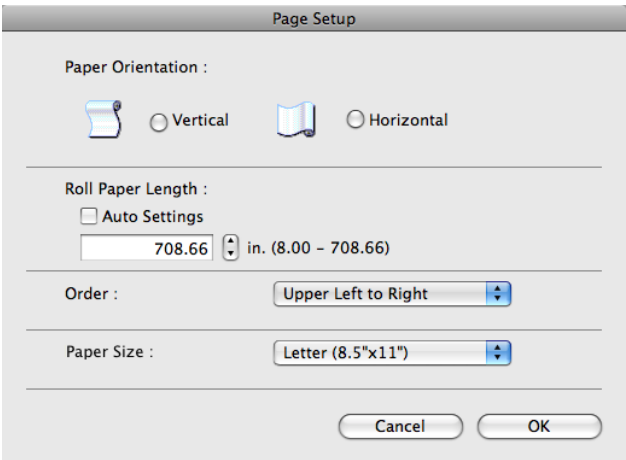

Note

- You can input between 0.0 and 100.0(mm) (between 0.00 and 3.94(inch)).
- You can change the numbers by clicking either ▲ button or ▼ button.

Page Setup Dialog Box

This dialog box appears when you select **Page Setup** from the **File** menu. This dialog box provides selections for setting the media size, orientation and other important features.

• Paper Orientation

This selects the paper orientation.

The following settings are available for orientation.

Setting	Details
Vertical	Prints the image and text created with the application software in the orientation as it is.
Horizontal	Prints the image and text by rotating sideways 90 degrees from the orientation as specified in the application.

• Roll Paper Length

Set the length of one page to print on roll paper.

When you place a checkmark on **Auto Settings**, the one-page length to be printed on roll paper is automatically set so that the laid-out objects are printed on one page.

- Available only if rolls are selected in **Paper Source**.
- You can input between 203.2 and 18000.0(mm) (between 8.00 and 708.66(inch)).
- You can change the numbers by clicking either ▲ button or ▼ button.

• Order

Set the object layout order.

The following settings are available for order.

Setting	Details
Upper Left to Right	The objects are laid out from upper left to right.
Upper Left to Bottom	The objects are laid out from upper left to bottom.

- When you have selected **Roll Paper Length > Auto Settings** and **Paper Orientation > Vertical**, you can choose only **Upper Left to Right**.
- When you have selected **Roll Paper Length > Auto Settings** and **Paper Orientation > Horizontal**, you can choose only **Upper Left to Bottom**.

• Paper Size

You can select the size of the print media.

- You cannot display this if **Roll Paper** is selected in **Paper Source**.

Zoom Dialog Box

This dialog box appears when you select **Zoom** from the **View** menu. You can enlarge or reduce the screen display.

• Scaling

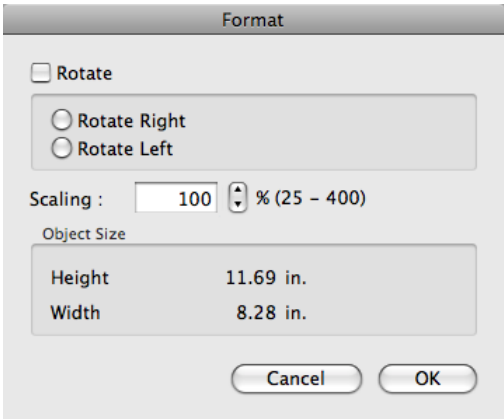

Set the magnification for enlargement or reduction of the screen display.

- You can input between 10 and 400.
- You can change the numbers by clicking ▼ button.

Format Dialog Box

This dialog box appears when you select **Format** from the **Object** menu after you select an object. You can rotate, enlarge, or reduce an object.

- When the objects are not selected, you can not select **Format**.

• Rotate

When you place a checkmark here, you can select **Rotate Right** or **Rotate Left**.

Setting	Details
Rotate Right	Rotates the object 90 degrees clockwise.
Rotate Left	Rotates the object 90 degrees counterclockwise.

- When several objects are selected, you cannot select **Rotate**.

• Scaling

You can input the value for enlargement or reduction of the obeject in numerical characters.

- You can input between 25 and 400.
- You can change the numbers by clicking either ▲ button or ▼ button.

• Object Size

You can confirm the object size.

- When several objects are selected, you cannot display **Object Size**.

Laying out a Multiple-File Document on One Page

You can lay out and print a multiple-file document on one page.

1

From the application software's **File** menu, select the printer setup menu to open the **Print** dialog box.

- Normally, select **Print** from the **File** menu.

2

Click on **Free Layout** in the **Page Setup** panel to attach a checkmark.

3 In the **Print** dialog box, select the pages to print and the number of copies, and click the **Print** button. Free Layout starts, laying out the document created with application software in the layout area as an object.

4 Leaving Free Layout running, open other files with the application software and repeat the above steps.

Laying out a Document Created with Multiple Application Programs on One Page

You can lay out and print a document created with multiple application programs on one page.

1 From the application software's **File** menu, select the printer setup menu to open the **Print** dialog box.

Note

- Normally, select **Print** from the **File** menu.

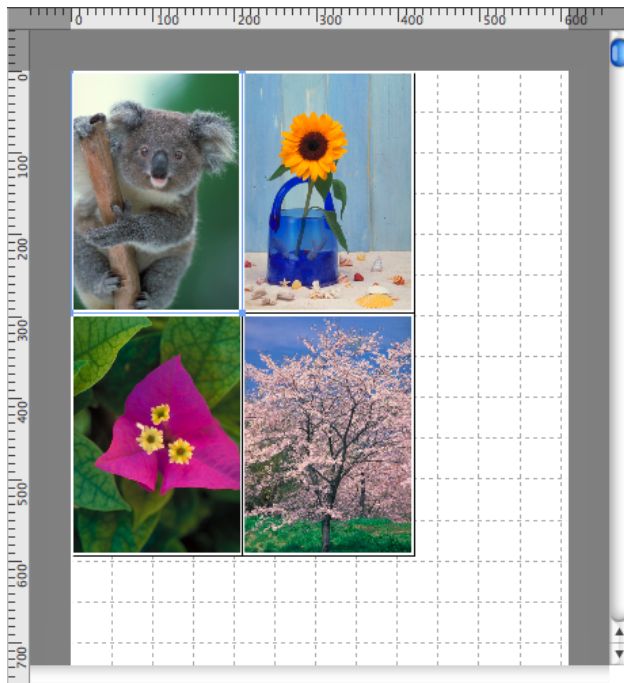

2 Click on **Free Layout** in the **Page Setup** panel to attach a checkmark.

3 In the **Print** dialog box, select the pages to print and the number of copies, and click the **Print** button. Free Layout starts, laying out the document created with application software in the layout area as an object.

4 Leaving Free Layout running, open the files with other application software and repeat the above steps.

Selecting an Object

When an object is selected, a select box (blue border) appears around the object.

Note

- To select an object, click that object.
- To select multiple successive objects, click them while holding down the shift key.
- To select multiple arbitrary objects, click them while holding down the command key.
- To select all objects, select **Select All** from the **Edit** menu.

Changing the Object Size

You can change the object size by means of mouse operation or by specifying a scaling value.

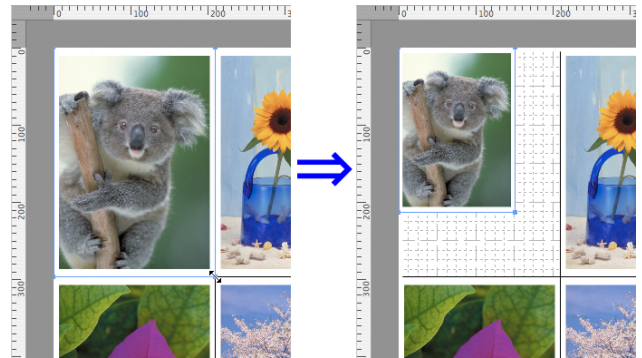

Note

- The vertical-to-horizontal ratio remains unchanged when the object is enlarged or reduced.

Resizing by means of mouse operation

- 1 Select an object.
- 2 Place the pointer at a corner of the selection box around the object to show the arrow handle, and drag this handle to change the object size.

Resizing by specifying a scaling value

- 1 Select an object.
- 2 Open the **Format Dialog Box** → P.328 .
- 3 Use **Scaling** to set the magnification for enlargement or reduction. You either enter numbers directly.

Note

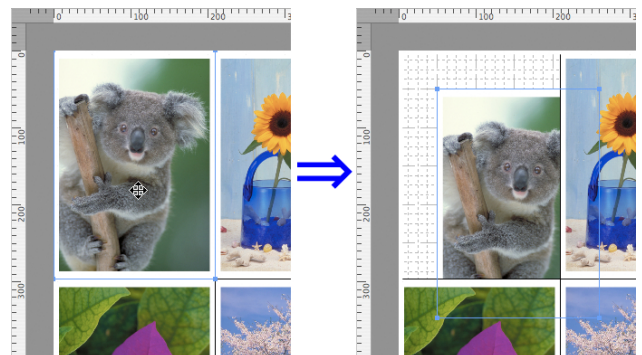

- You can input between 25 and 400.
- You can change the numbers by clicking either ▲ button or ▼ button.

- 4 Click the **OK** button.

Moving an Object

You can move the object position.

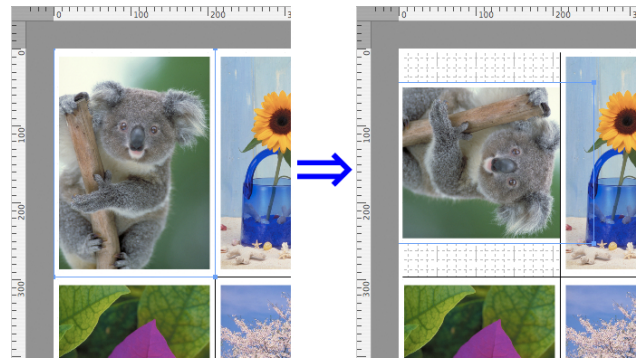

- 1 Select an object.
- 2 Place the pointer inside the selection box of the object to show the crosshair handle, and drag it to move the object.

Rotating an Object

You can rotate the object.

- 1 Select an object.
- 2 Select **Rotate Left** or **Rotate Right** from the toolbar. Alternatively, you may click on the **Rotate** check box in the **Format Dialog Box** → P.328 then select **Rotate Right** or **Rotate Left**, and click the **OK** button.

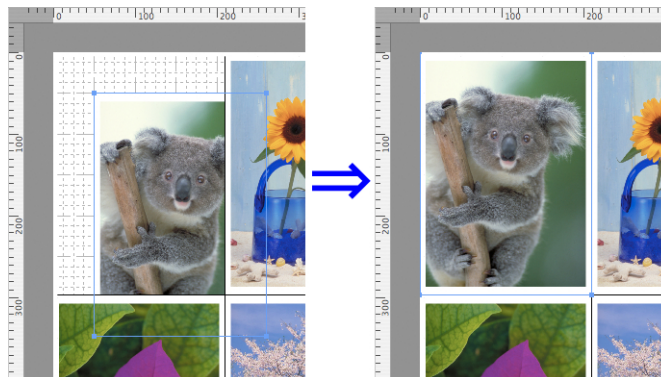

Note

- When several objects are selected, you cannot select **Rotate**.

Laying out Objects Automatically

Click **Auto Arrange** in the tool bar. This automatically lays out objects. Alternatively, you may select **Auto Arrange Object** from the **Object** menu.

Note

- The object layout order varies depending on the **Order** setting on the **Page Setup Dialog Box** → P.326 .

Aligning Objects

You can align objects systematically.

- 1 Select multiple objects.

2Select the align menu from the **Object** menu.

- **Align Top**

Lays out the objects, justifying them to the top.

- **Center Vertically**

Lays out the objects, justifying them to the vertical center.

- **Align Bottom**

Lays out the objects, justifying them to the bottom.

- **Align Left**

Lays out the objects, justifying them to the left.

- **Center Horizontally**

Lays out the objects, justifying them to the horizontal center.

- **Align Right**

Lays out the objects, justifying them to the right.

Changing the Object Overlapping Order

You can change the object overlapping order.

- 1 Select an object.
- 2 Select the overlapping order menu from the **Object** menu.

- **Bring to Front**

Moves the object to the frontmost position.

- **Send to Back**

Moves the object to the backmost position.

- **Bring Forward**

Moves the object one position to the front.

- **Send Backward**

Moves the object one position to the back.

Pasting a Copied or Cut Object

- 1 Click **Copy** or **Cut** from the toolbar.
Alternatively, you may select **Copy** or **Cut** from the **Edit** menu.

- 2 Click **Paste** from the toolbar.
Alternatively, you may select **Paste** from the **Edit** menu.

Note

- The copied or cut object is laid out at the end of the page.

Color imageRUNNER Enlargement Copy

The Features of Color imageRUNNER Enlargement Copy	335
Starting Color imageRUNNER Enlargement Copy	335
Color imageRUNNER Enlargement Copy Dialog Box	336
Hot Folder	336
Creating a New Hot Folder	337
Editing a Hot Folder (Setting Print Conditions)	338
Deleting a Hot Folder	340
Setting the Print Parameters	341
Paper Settings Panel	341
Easy Settings	343
Advanced Settings	344
Output Settings Panel	345
Color Settings Panel	347
Driver Matching Mode	348
ICC Matching Mode	349
Printing Enlargements of Scanned Originals from a Color imageRUNNER	349

The Features of Color imageRUNNER Enlargement Copy

The main features of Color imageRUNNER Enlargement Copy are as follows.

- Allows the document scanned with the Color imageRUNNER to be automatically enlarged and printed.
- You can perform basic printer settings such as printer selection, media type and output profile selection, and matching methods, in addition to borderless printing and enlargement/reduction process without growing through the printer driver.

- The media type, image size, detailed media settings, and the printer settings can cause the actual print output to differ from the Color imageRUNNER Enlargement Copy settings.

Starting Color imageRUNNER Enlargement Copy

You can start the utility by clicking on the **Color imageRUNNER Enlargement Copy.app** icon in **Applications > Canon Utilities > iR Enlargement Copy**.

- If you are using OS X v10.7 and later, start it from Launchpad.

Color imageRUNNER Enlargement Copy Dialog Box

The explanation below is on the **Color imageRUNNER Enlargement Copy** dialog box.

Note

- For the step to open the **Color imageRUNNER Enlargement Copy** dialog box, see "Starting Color imageRUNNER Enlargement Copy." →P.335

• Delete files in the folder

From the Hot Folder list, select a hot folder and click the **Delete** button to delete only files in the hot folder.

• Delete the entire folder, as well as items in the list above

From the Hot Folder list, select a hot folder and click the **Delete** button to delete the hot folder.

• Delete Button

Select **Delete files in the folder** or **Delete the entire folder, as well as items in the list above** and click this button to delete the hot folder or only files in the hot folder.

• Add Button

Click the button to open the **Destination Selection** dialog box so that you can add a hot folder.

• Edit Button

From the Hot Folder list, select a hot folder and click this button to open the **Add/Edit Hot Folder** dialog box that allows you to edit the hot folder.

• Monitor Hot Folder Constantly

If the check box is selected, the Hot Folder is monitored from after the next login.

Hot Folder

Hot folder refers to a folder used for Color imageRUNNER Enlargement Copy.

- When transferred to the PC's hot folder, the document data scanned with the Color imageRUNNER is printed in enlarged size from the printer according to the print conditions set in the hot folder.
- You can create a new hot folder, edit or delete an existing one, and set print conditions at will.

Note

- You can create up to 10 hot folders.

Creating a New Hot Folder

- 1 Open the **Color imageRUNNER Enlargement Copy** dialog box.

Note

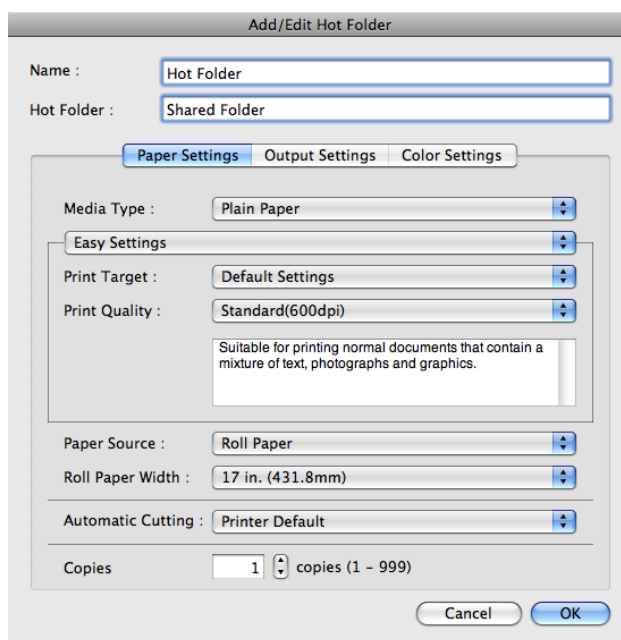

- For the step to open the **Color imageRUNNER Enlargement Copy** dialog box, see "Starting Color imageRUNNER Enlargement Copy." → P.335

- 2 Click the **Add** button in **Enlarged Copy Settings** to open the **Destination Selection** dialog box.

- 3 From the printer list in **Destination**, select the printer of destination.

- 4 Click the **OK** button to open the **Add/Edit Hot Folder** dialog box.

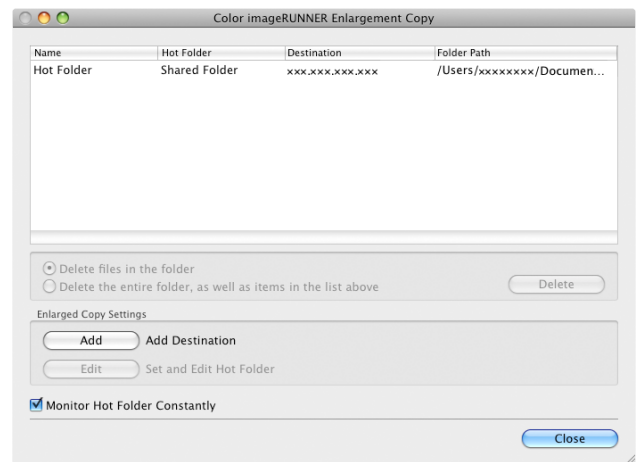

- 5 In **Name**, enter the name to display in the Hot Folder list.

- 6 In **Hot Folder**, enter the Hot Folder name.

7

Click the **OK** button. The created Hot Folder is listed in the **Color imageRUNNER Enlargement Copy** dialog box.

8

Click the **Close** button to close the **Color imageRUNNER Enlargement Copy** dialog box.

9

From the **Apple Menu**, open the **Sharing** dialog box for **System Preferences**.

10

For OS X v10.6:

Check the **File Sharing** checkbox and click the **Options** button.

Check the **Share files and folders using FTP** and **Share files and folders using SMB** checkboxes to configure the sharing.

For OS X v10.7 and later:

Check the **File Sharing** checkbox and click the **Options** button.

Check the **Share files and folders using SMB** checkbox to configure the sharing.

Note

- You can create up to 10 hot folders.

Editing a Hot Folder (Setting Print Conditions)

1

Open the **Color imageRUNNER Enlargement Copy** dialog box.

2

Select the Hot Folder from the Hot Folder list.

3

From **Enlarged Copy Settings**, click **Edit** button to open the **Add/Edit Hot Folder** dialog box.

4 Make the necessary settings in the Paper Settings Panel →P.341 .

Add/Edit Hot Folder

Name : Hot Folder

Hot Folder : Shared Folder

Paper Settings Output Settings Color Settings

Media Type : Plain Paper

Easy Settings

Print Target : Default Settings

Print Quality : Standard(600dpi)

Suitable for printing normal documents that contain a mixture of text, photographs and graphics.

Paper Source : Roll Paper

Roll Paper Width : 17 in. (431.8mm)

Automatic Cutting : Printer Default

Copies 1 copies (1 - 999)

Cancel OK

5 Make the necessary settings in the Output Settings Panel →P.345 .

Add/Edit Hot Folder

Name : Hot Folder

Hot Folder : Shared Folder

Paper Settings Output Settings Color Settings

☐ Enlarged/Reduced Printing

☒ Fit Media Size

☐ Fit Roll Paper Width

☐ Scaling 100 % (5 - 600)

☐ Borderless Printing

Paper Size : ISO A4

☐ Print Centered

☐ No Spaces at Top or Bottom

☐ Rotate Page

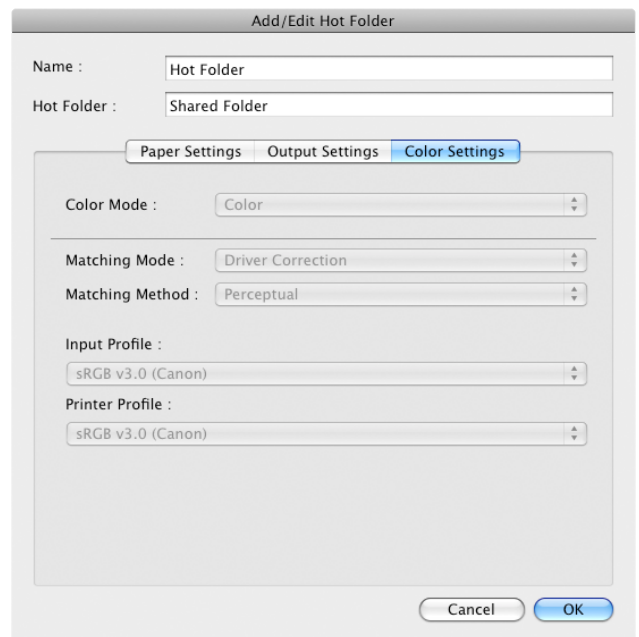

☐ Rotate Right 90 Degrees

☐ Rotate Left 90 Degrees

☒ Rotate 180 degrees

Cancel OK

- 6** Make the necessary settings in the **Color Settings Panel** → P.347 .

- 7** Click the **OK** button to close the **Add/Edit Hot Folder** dialog box.
- 8** From the **Apple Menu**, open the **Sharing** dialog box for **System Preferences**.
- 9** For OS X v10.6:
Check the **File Sharing** checkbox and click the **Options** button.
Check the **Share files and folders using FTP** and **Share files and folders using SMB** checkboxes to configure the sharing.
For OS X v10.7 and later:
Check the **File Sharing** checkbox and click the **Options** button.
Check the **Share files and folders using SMB** checkbox to configure the sharing.

Note

- If you've made shared settings when you created a new Hot Folder, you do not need to execute steps 8 to 9.

Deleting a Hot Folder

- 1** Open the **Color imageRUNNER Enlargement Copy** dialog box.

- 2** Select the Hot Folder you want to delete from the Hot Folder list.

- 3** Select **Delete the entire folder, as well as items in the list above**, and then click the **Delete** button.

- 4** Read the message and then click the **OK** button.

Note

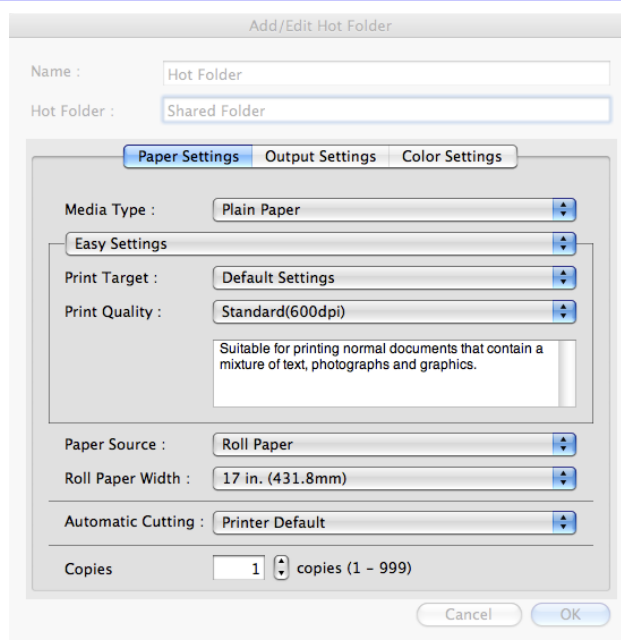

- Select **Delete files in the folder** to delete only files in the hot folder.

Setting the Print Parameters

You can set the print conditions in the setting panels within the **Add/Edit Hot Folder** dialog box. The settings available on each panel are as follows.

- Paper Settings Panel →P.341
- Output Settings Panel →P.345
- Color Settings Panel →P.347

Paper Settings Panel

• Easy Settings / Advanced Settings

Two modes are available to provide the optimum print settings for jobs. The settings available on each mode are as follows.

- Easy Settings →P.343
- Advanced Settings →P.344

• Media Type

This allows you to select the media type.

- Always select media type that is actually set in the printer. When the media you chose is different from the media set in the printer, you may not receive the desired print results.

• Paper Source

You can select the paper source.

The following settings are available for paper source.

Setting	Details
Manual	Select for manual paper feed printing.
Manual (3mm margins)	Select for manual paper feed printing when you want to minimize the margin at the far end edge of paper.
Roll Paper	Select to print on roll paper.

- When you select **Manual (3mm margins)** for **Paper Source**, the far end edge of printed image may become defective depending on the paper used. If this happens, select another paper source.

• Roll Paper Width

This selects the width of the roll media set to the printer.

- Available only if rolls are selected in **Paper Source**.

• Automatic Cutting

You can set the printer to cut roll paper automatically or print a guideline for cutting.

The following settings are available for automatic cutting.

Setting	Details
Printer Default	The value set on the printer operation panel takes priority.
None	Each page is not cut after it is printed and printing continues without interruption.
Print Cut Guideline	A print cut guideline is printed after each page and printing continues without interruption.

- Available only if rolls are selected in **Paper Source**.

• Copies

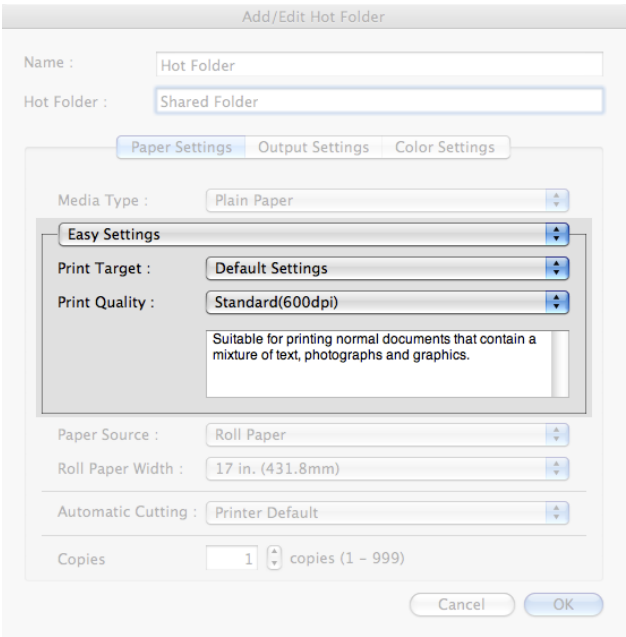

You can input the number of print copies in numerical characters.

- The maximum value is 999.
- You can change the numbers by clicking either ▲ button or ▼ button.

Easy Settings

You can easily select the best settings for the print job by just selecting an item from the print target list that matches the content of the document.

• Print Target

You can easily select the best settings for the print job simply.
If you select each **Print Target** item the corresponding comment for that item is displayed below the list.

Setting	Details
Default Settings	Suitable for printing normal documents that contain a mixture of text, photographs, and graphics.
Photo (Color)	Suitable for printing photographic images captured with a digital camera.
Poster	The best setting for posters.Prints using vivid and high impact colors.
Faithful Color Reproduction	Prints by minimizing color differences. Suitable for when the printing results are too vivid or when printing scanned images.
CAD (Color Line Drawing)	Suitable for printing fine lines such as drawings clearly.
Perspective, GIS	Suitable for attractive printing of 3D-CAD drawings, perspective drawings, and GIS drawings including maps.
Custom Settings	Suitable for printing documents for which Advanced Settings have been specified.

• The number of settings available for selection depends on the media type.

• Print Quality

Selecting print quality strikes a balance between the quality of the printed image and printing speed.
The level of the print quality and resolution settings are displayed in the following combinations.

Setting	Details
Print Quality	High / Standard / Fast
Resolution	600dpi / 300dpi

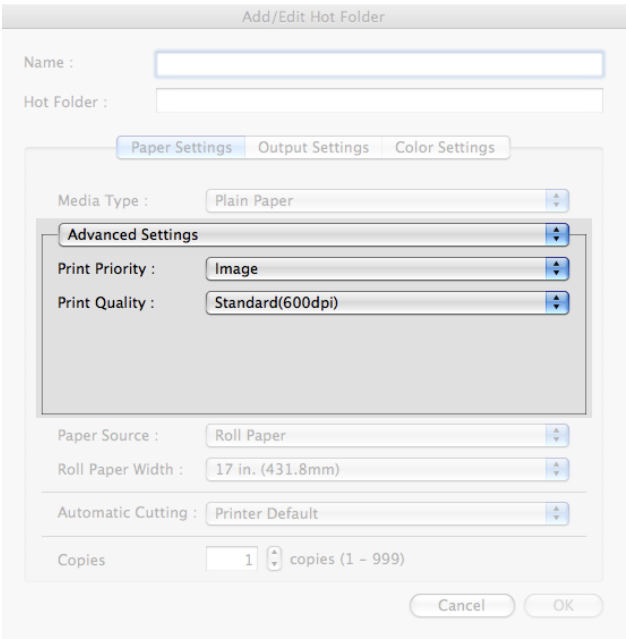

Note

- The availability of settings is determined by the media type and print priority selections.
- Printing time is longer and more ink is consumed with **High** than with **Fast**, however, print quality is higher.
- Printing time is shorter and less ink is consumed with **Fast** than with **High**, however, print quality is lower.

Advanced Settings

Presents detailed settings for the print priority, the print quality, and other items so you can select the values for these settings yourself.

• Print Priority

Select a print quality mode that is appropriate for the print job.

Setting	Details
Image	This mode achieves the best results for printing photographic images and illustrations.
Line Drawing	This mode is best for printing CAD drawings with fine lines or wall newsheet or other documents that contain large amounts of text. However, you may not achieve the quality you expect with printing photographs or other images with many filled areas. For these types of jobs, select Image .

Note

- The number of settings available for selection depends on the media type.

• Print Quality

Selecting print quality strikes a balance between the quality of the printed image and printing speed.

The level of the print quality and resolution settings are displayed in the following combinations.

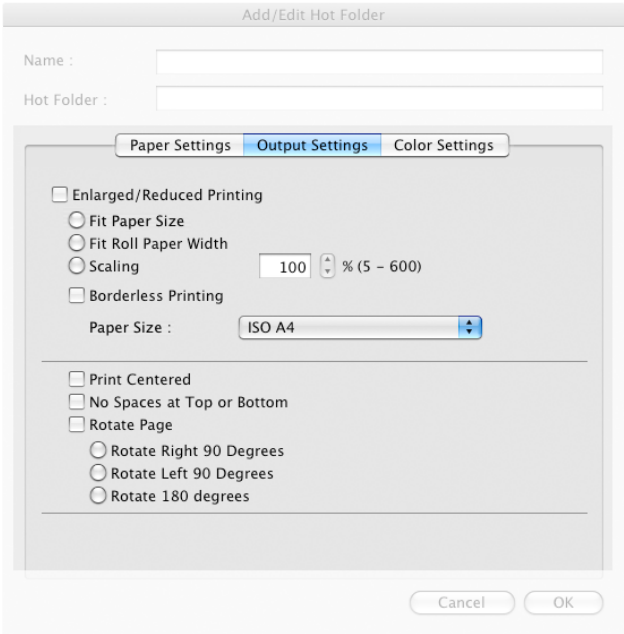

Setting	Details
Print Quality	High / Standard / Fast
Resolution	600dpi / 300dpi

Note

- The availability of settings is determined by the media type and print priority selections.
- Printing time is longer and more ink is consumed with **High** than with **Fast**, however, print quality is higher.
- Printing time is shorter and less ink is consumed with **Fast** than with **High**, however, print quality is lower.

Output Settings Panel

• Enlarged/Reduced Printing

Select the method for enlarged/reduced printing.
The following settings are available for enlarged/reduced printing.

Setting	Details
Fit Paper Size	Enlarges/reduces the whole page automatically to fit the media size selected for output. Select the media size to print from Paper Size .
Fit Roll Paper Width	Enlarges/reduces the whole page automatically to fit the width of the roll paper with the page width. *Make sure that the width of the roll paper in the printer is set correctly for Roll Paper Width in the Paper Settings panel. *Displayed only if rolls are selected in Paper Source .
Scaling	Enlarges/reduces the whole page by the scaling rate as specified. Input the scaling value in numerical characters. You can specify a range between 5 and 600%. *You can change the numbers by clicking either ▲ button or ▼ button. *Although Scaling can be set to make the image larger than the media size, the part that does not fit in the media cannot be printed. *This is not displayed when a checkmark is placed in Borderless Printing .

• Borderless Printing

You can print the media without margins on all sides when the roll paper with the specific width and the specific media type is used.

Note

- Available only if rolls are selected in **Paper Source**.

• Paper Size

You can select the size of the print media.

- This is not displayed when **Fit Roll Paper Width** is set in **Enlarged/Reduced Printing**.

• Print Centered

Select this feature to print the image in the center of a cut sheet or to print left and right margins evenly from the edges of roll paper.

- This feature is useful when you print the document enlarged or reduced with **Scaling** as well. When an image is scaled, it is always enlarged or reduced in reference to a starting point in the upper left corner of the page. If the image is reduced, the bottom and right margins are enlarged and the top and left margins remain unchanged. At that point, you can set all margins evenly with this feature.

• No Spaces at Top or Bottom

You can set the printer to print without any empty area when the print data contains empty area at the top or bottom. Since the printer does not feed paper over the empty area, you can save paper.

- Available only if rolls are selected in **Paper Source**.

• Rotate Page

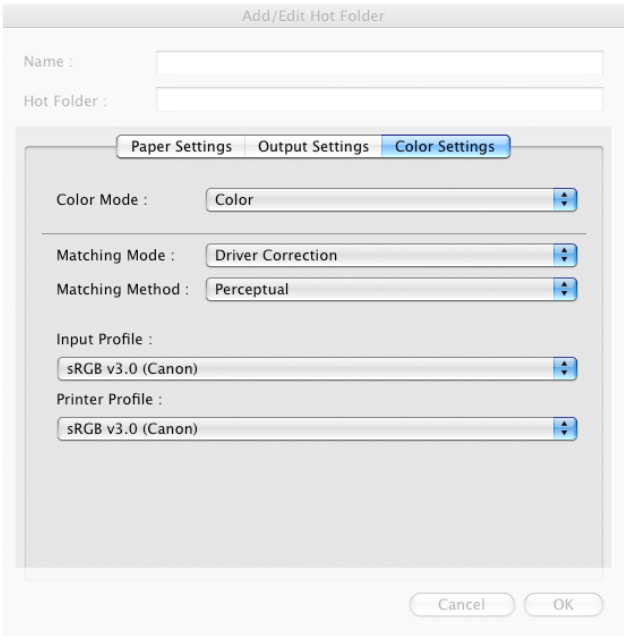

Select the method for rotating page.
The following settings are available for rotating page.

Setting	Details
Rotate Right 90 Degrees	Rotates the portrait page right 90 degrees and print in landscape orientation. When the rotated page can fit in the width of roll paper, the page is rotated automatically, and when it can not fit in the width of roll paper, the page is not rotated. *When Fit Roll Paper Width is selected under Enlarged/Reduced Printing , then the image is enlarged or reduced after rotating to fit the width of the roll paper.
Rotate Left 90 Degrees	Rotates the portrait page left 90 degrees and print in landscape orientation. When the rotated page can fit in the width of roll paper, the page is rotated automatically, and when it can not fit in the width of roll paper, the page is not rotated. *When Fit Roll Paper Width is selected under Enlarged/Reduced Printing , then the image is enlarged or reduced after rotating to fit the width of the roll paper.
Rotate 180 degrees	Allows you to rotate the image 180 degrees from the vertical to the right.

- Available only if rolls are selected in **Paper Source**.

Color Settings Panel

• Color Mode

You can select a color mode to suit the print job.

Setting	Details
Color	Enables color printing.
Monochrome	Disables color printing and converts image from continuous color to grayscaled monochrome.

• The availability of settings depends on the print priority and media type selections.

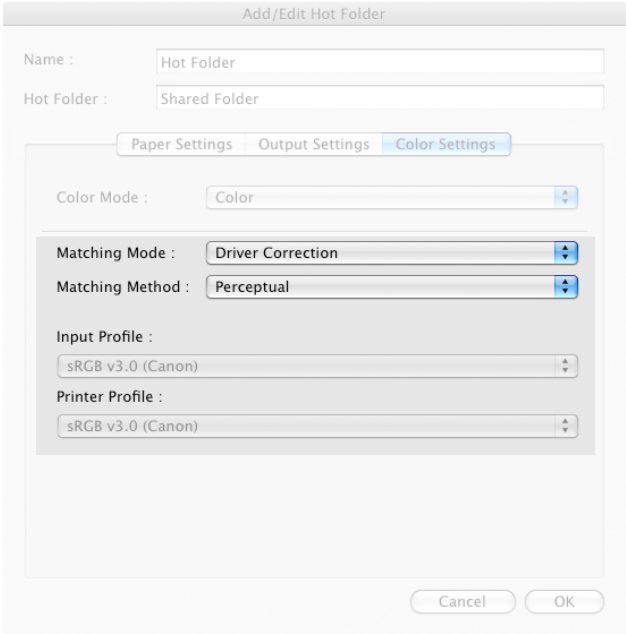

• Matching Mode

Under **Matching Mode**, select the matching mode.

Setting	Details
Driver Matching Mode →P.348	Enables printing of optimal color tones using a driver specific color profile. You should normally select this mode.
ICC Matching Mode →P.349	Enables color matching using ICC profiles. Select this if you want to print by specifying the input profile, printer profile, and matching method in detail. This allows you to use ICC profiles for digital cameras and scanners, ICC profiles created using the profile creation tool, etc.
No Correction	No color matching is performed. Select this option when you want to perform color matching in the software application.

Driver Matching Mode

1 Under **Matching Mode**, select **Driver Matching Mode**.

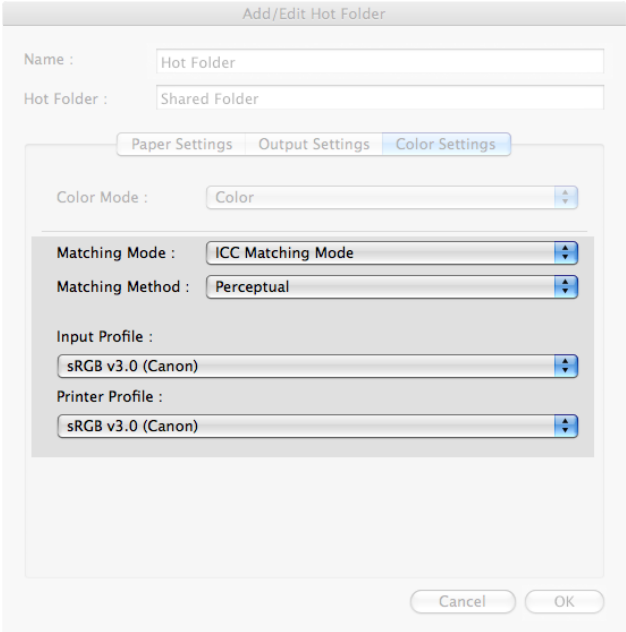

2 Click **Matching Method** list, and then select a setting.

Setting	Details
Auto	Automatically selects the best color matching method for each Image, Graphics, Text.
Perceptual	Color-matching optimized for printing typical photos attractively. Smooth gradation is a feature. This is also an easy-to-use mode when performing color adjustment using application software.
Saturation	Color-matching optimized for printing posters, etc., vividly.
Colorimetric	Color-matching optimized for printing image data with accurate colors in input color space. This is the easiest-to-use mode when you want to adjust the color and print. However, gradation may be lost for colors of wider range than the color reproduction range of the printer. Generally, this is also called relative colorimetric.

ICC Matching Mode

1 Under **Matching Mode**, select **ICC Matching Mode**.

2 Click **Matching Method** list, and then select a setting.

Setting	Details
Perceptual	Color-matching optimized for printing typical photos attractively. Smooth gradation is a feature. This is also an easy-to-use mode when performing color adjustment using application software.
Saturation	Color-matching optimized for printing posters, etc., vividly.
Colorimetric	Color-matching optimized for printing image data with accurate colors in input color space. This is the easiest-to-use mode when you want to adjust the color and print. However, gradation may be lost for colors of wider range than the color reproduction range of the printer. Generally, this is also called relative colorimetric.
Colorimetric (No White-Point Correction)	The processing method of color-matching is identical to Colorimetric . Use this when you want to further reproduce the target paper material color of the image data. Generally, this also is called absolute colorimetric.

3 Click the **Input Profile** list, and then select an input profile.

Note

- To match the color on the printing, select the input profile for Color imageRUNNER Enlargement Copy of the Color imageRUNNER type in use.

4 Click the **Printer Profile** list, and then select a printer profile.

Printing Enlargements of Scanned Originals from a Color imageRUNNER

Scanned originals from a Color imageRUNNER can be enlarged and printed automatically. Originals you create by scanning with a Color imageRUNNER are transferred to a "hot folder" and printed automatically after enlargement according to printing conditions you specify for that folder. This processing sequence is called the **Color imageRUNNER Enlargement Copy** function. To use **Color imageRUNNER Enlargement Copy**, first complete these settings in the following order.

1. Register a hot folder on your computer.

Register a hot folder on your computer for storing scanned originals from the Color imageRUNNER and complete the settings for enlargement copy. For details, see "Creating a New Hot Folder." →P.337

2. Complete the scanning settings on the Color imageRUNNER.
Configure the Color imageRUNNER to send scanned originals to the hot folder.

After these settings are complete, you can print enlarged copies of scanned originals from the Color imageRUNNER.

Completing the scanning settings on the Color imageRUNNER.

Configure the Color imageRUNNER to send scanned originals to the hot folder. It is easy to send scanned originals to the hot folder if you assign the scanning settings and destination to a **Favorites** button on the Color imageRUNNER. For instructions on assigning scanning and sending settings to the **Favorites** button, refer to the Color imageRUNNER manual.

Scanning the original and print an enlargement

Follow the steps below to scan an original on the Color imageRUNNER for enlarged printing on the printer. For detailed instructions, refer to the Color imageRUNNER manual.

- 1 Load the original on the platen glass or document feeder of the Color imageRUNNER.
- 2 Press **Send** to display the screen for transmission.
- 3 Press **Favorites**, and then press the **Favorites** button assigned to the hot folder.
- 4 Press **Start** on the control panel. If you scan originals on the platen glass, after scanning all originals, press **Done** on the touch-panel display.
Scanned originals are sent to the hot folder and automatically enlarged and printed following the conditions you specified for the folder.

Types of Paper

The following types of paper are supported by the printer. For details on the paper supported by the printer, refer to the **Paper Reference Guide**. (See "Displaying the Paper Reference Guide.") →P.356

- Plain Paper
- Coated Paper
- Photo Paper
- Glossy Paper
- CAD-dedicated Paper Etc.

The following content is described in the **Paper Reference Guide**.

- Types of paper
- Paper handling
- Paper product specifications
- Use precautions
- Setting of printer driver, control panel etc.

- For more information on how to use paper that is not listed in the **Paper Reference Guide**, see "Using Paper Other Than Genuine Paper and feed confirmed Paper." →P.354

- **Paper Reference Guide** display method

You can display the **Paper Reference Guide** from [imagePROGRAF Support Information]. (See "Displaying the Paper Reference Guide.") →P.356

1. Method of Updating Supported Paper

Photo Paper

To use newly released paper, register the latest paper information on the printer with the Media Configuration Tool. (See "Updating paper information.") →P.359

Important

- To install the **Paper Reference Guide** and register paper types applicable to your region on your printer even when not using the printer driver, install the Media Configuration Tool.
(See "Media Configuration Tool (Windows).") →P.393
(See "Media Configuration Tool (Mac OS).") →P.422

Paper Sizes

Rolls

Rolls that meet the following conditions are supported.

- Outer diameter: Up to 150 mm (6 in)

- Inner diameter of paper core: 2 or 3 inches
- Printing side out

Roll Width	Roll Paper Width Setting in Printer Driver (*1)	Borderless Printing (*1)
609.6 mm (24.00 in)	24-in. Roll (609.6mm)	Yes
594.0 mm (23.39 in)	ISO A1/A2 Roll (594.0mm)	Yes (*2)
515.0 mm (20.28 in)	JIS B2/B3 Roll (515.0mm)	Yes
431.8 mm (17.00 in)	17-in. Roll (431.8mm)	Yes
420.0 mm (16.54 in)	ISO A2/A3 Roll (420.0mm)	Yes (*2)
406.4 mm (16.00 in)	16-in. Roll (406.4mm)	Yes
355.6 mm (14.00 in)	14-in. Roll (355.6mm)	Yes
329.0 mm (12.95 in)	A3+ Roll (329.0mm)	No
300.0 mm (11.81 in)	300mm Roll (300.0mm)	No
297.0 mm (11.69 in)	ISO A3/A4 Roll (297.0mm)	No
257.0 mm (10.12 in)	JIS B4 Roll (257.0mm)	Yes
254.0 mm (10.00 in)	10-in. Roll (254.0mm)	Yes
203.2 mm (8.00 in)	8-in. Roll (203.2mm)	No

*1: For information on types of paper compatible with borderless printing, refer to the **Paper Reference Guide**. (See "Types of Paper.") → P.352

*2: Requires the Spacer for Borderless Printing.

Sheets

Sheets of the following sizes are supported.

Paper Sizes	Dimensions
ISO A1	594.0 × 841.0 mm (23.39 × 33.11 in)
ISO A2	420.0 × 594.0 mm (16.54 × 23.39 in)
ISO A2+	431.8 × 609.6 mm (17.00 × 24.00 in)
ISO A3	297.0 × 420.0 mm (11.69 × 16.54 in)
ISO A3+	329.0 × 483.0 mm (12.95 × 19.02 in)
ISO A4	210.0 × 297.0 mm (8.27 × 11.69 in)
ISO B2	500.0 × 707.0 mm (19.69 × 27.83 in)
ISO B3	353.0 × 500.0 mm (13.90 × 19.69 in)
ISO B4	250.0 × 353.0 mm (9.84 × 13.90 in)
JIS B2	515.0 × 728.0 mm (20.28 × 28.66 in)
JIS B3	364.0 × 515.0 mm (14.33 × 20.28 in)
JIS B4	257.0 × 364.0 mm (10.12 × 14.33 in)
22"x34"(ANSI D)	558.8 × 863.6 mm (22.00 × 34.00 in)
17"x22"(ANSI C)	431.8 × 558.8 mm (17.00 × 22.00 in)
11"x17"(Ledger)	279.4 × 431.8 mm (11.00 × 17.00 in)
13"x19"(Super B)	330.2 × 482.6 mm (13.00 × 19.00 in)
Letter(8.5"x11")	215.9 × 279.4 mm (8.50 × 11.00 in)
Legal(8.5"x14")	215.9 × 355.6 mm (8.50 × 14.00 in)
24"x36"(ARCH D)	609.6 × 914.4 mm (24.00 × 36.00 in)
18"x24"(ARCH C)	457.2 × 609.6 mm (18.00 × 24.00 in)
12"x18"(ARCH B)	304.8 × 457.2 mm (12.00 × 18.00 in)

Paper Sizes	Dimensions
9"x12"(ARCH A)	228.6 × 304.8 mm (9.00 × 12.00 in)
DIN C2	458.0 × 648.0 mm (18.03 × 25.51 in)
DIN C3	324.0 × 458.0 mm (12.76 × 18.03 in)
DIN C4	229.0 × 324.0 mm (9.02 × 12.76 in)
20"x24"	508.0 × 609.6 mm (20.00 × 24.00 in)
18"x22"	457.2 × 558.8 mm (18.00 × 22.00 in)
14"x17"	355.6 × 431.8 mm (14.00 × 17.00 in)
12"x16"	304.8 × 406.4 mm (12.00 × 16.00 in)
10"x12"	254.0 × 304.8 mm (10.00 × 12.00 in)
10"x15"	254.0 × 381.0 mm (10.00 × 15.00 in)
US Photo 16"x20"	406.4 × 508.0 mm (16.00 × 20.00 in)
Poster 20"x30"	508.0 × 762.0 mm (20.00 × 30.00 in)
13"x22"	329.0 × 558.0 mm (12.95 × 21.97 in)
Poster 300x900mm	300.0 × 900.0 mm (11.81 × 35.43 in)
Custom Paper Size	203.2 × 279.0 mm (8.00 × 10.98 in) to 610.0 × 1600.0 mm (24.02 × 62.99 in)

- For details on non-standard paper sizes, see "Printing on Non-Standard Paper Sizes." →P.96
- Borderless printing is not supported on sheets.

Using Paper Other Than Genuine Paper and feed confirmed Paper

When using this printer to print on paper other than genuine Canon paper and feed confirmed paper, use paper that meets the following conditions.

- Refer to **Paper Reference Guide** for details on genuine Canon paper and feed confirmed paper. (See "Displaying the Paper Reference Guide.") →P.356

- Paper where the size is described in "Paper Sizes" (See "Paper Sizes.") →P.352
- Paper where the thickness is described in "Paper Thickness" in "Specifications" (See "Specifications.") →P.660
- Paper where bleeding and ink overflow does not occur when printing
- Paper that does not warp severely when loading the paper or printing

- If you use paper other than genuine Canon paper and feed confirmed paper, Canon provides absolutely no guarantees regarding print quality or paper feed properties. Refer to **Paper Reference Guide** for details on genuine Canon paper and feed confirmed paper. (See "Displaying the Paper Reference Guide.") →P.356

After loading the paper in the printer, select the media type in the control panel and printer driver and then perform the printing. For the media type, you can select easily from existing settings or you can create and use settings for the paper you are using.

Printing Using Existing Settings

You can print easily by selecting from existing settings provided in the printer control panel and printer driver. (See "Printing on Paper Other Than Genuine Paper and feed confirmed Paper Using Existing Settings.") →P.355

Printing Using Additional Settings

You can print by using the **Add Custom Paper** function in the Media Configuration Tool to create settings suitable for the paper other than genuine paper and feed confirmed paper you are using and adding these settings as a new media type to the printer control panel and printer driver. (See "Printing on Paper Other Than Genuine Paper and feed confirmed Paper by Adding a Media Type.") →P.356

Printing on Paper Other Than Genuine Paper and feed confirmed Paper Using Existing Settings

You can easily print on paper other than genuine Canon paper and feed confirmed paper without making complicated settings by selecting existing settings provided in the printer control panel and printer driver depending on the media type you are using. The existing settings consist of general-purpose paper settings provided for each media type and special settings that allow you to select the amount of ink to use.

- The genuine Canon paper settings provided in the printer control panel and printer driver are optimized for genuine Canon paper. If these settings are selected for printing on paper other than genuine Canon paper, the ink may bleed or the printhead may rub against the paper. In order to easily print on paper other than genuine Canon paper and feed confirmed paper, we recommend that you select one of the following general-purpose paper settings or special settings.

Note

- For an overview of the media types, see "Types of Paper." →P.352
- For details on how to select the media type in the control panel and printer driver, see "Types of Paper." →P.352

Choosing General-Purpose Paper Settings

Since these settings anticipate a wide variety of paper other than genuine Canon paper and feed confirmed paper, these settings will make it difficult for bleeding ink and the printhead rubbing to occur. Refer to the following table for the relationships between the conditions of the paper other than genuine Canon paper and feed confirmed paper and the media type to select.

Type	Approximate weight	Approximate thickness	Printer control panel	Printer driver
Plain Paper	70 g/m ²	0.09 mm (0.0035 in.)	Plain Paper	Plain Paper
Coated Paper	90 g/m ²	0.13 mm (0.0051 in.)	LW. Coated Paper	Lightweight Coated Paper
Coated Paper	170 g/m ²	0.22 mm (0.0087 in.)	HW. Coated Paper	Heavyweight Coated Paper
Photo Paper	180 g/m ²	0.18 mm (0.0071 in.)	LW. Photo Paper	Lightweight Photo Paper
Photo Paper	260 g/m ²	0.26 mm (0.010 in.)	HW. Photo Paper	Heavyweight Photo Paper
Sign/CAD Paper	470 g/m ²	0.35 mm (0.014 in.)	Bannr Vinyl	Banner Vinyl
Sign/CAD Paper	300 g/m ²	0.28 mm (0.011 in.)	Adhesive Vinyl	Adhesive Vinyl
Sign/CAD Paper	240 g/m ²	0.18 mm (0.0071 in.)	Glossy Film	Glossy Film
Sign/CAD Paper	150 g/m ²	0.11 mm (0.0043 in.)	CAD Clear Film	CAD Clear Film

Selecting Special Settings

Special settings are provided that allow you to select the amount of ink used in steps. You can fix lackluster colors or bleeding ink by selecting special settings where the amount of ink used is suitable for the paper you are using. The special settings are organized as follows so that they can be used as follows depending on the type of black ink and the media type.

Type of special settings	Type of black ink	Example of applicable paper
"Special 1" to "Special 5"	BK (photo black)	Glossy Paper
"Special 6" to "Special 10"	MBK (matte black) (*1)	Coated Paper, Matte Paper

*1: There may be cases of using not only with MBK, but with a mixture of BK ink.

"Special 1" and "Special 6" use the least amount of ink, with the amount of ink used increasing through 5 steps as the number increases up to "Special 5" and "Special 10" which use the greatest amount of ink. Although colors become more vivid as the amount of ink used increases, bleeding also occurs more easily. We recommend that you try in order starting from "Special 1" or "Special 6" while checking the state of the printing.

Note

- If you cannot obtain sufficiently good image quality by selecting the general-purpose settings or special settings, you can create settings as suitable for the paper you are using by using the "Add Custom Paper" function in the Media Configuration Tool. For details, see "Printing on Paper Other Than Genuine Paper and feed confirmed Paper by Adding a Media Type." →P.356

Printing on Paper Other Than Genuine Paper and feed confirmed Paper by Adding a Media Type

The **Add Custom Paper** function in the Media Configuration Tool is provided as a method for improving print quality and feed properties over printing paper other than genuine Canon paper and feed confirmed paper using the general-purpose settings. This can be expected to improve properties such as print quality because it allows you to configure settings such as the maximum amount of ink to use and the height of the printhead depending on the characteristics of the paper you are using. Furthermore, printing can be performed by adding the settings created using this function to the printer control panel and printer driver as a new media type.

For details on Media Configuration Tool, refer as follows.

- Media Configuration Tool (Windows) →P.393
- Media Configuration Tool (Mac OS) →P.422

Important

- For details on how to select the added media type in the control panel, see "Changing the Type of Paper." →P.368
- For details on how to select the media type in the printer driver, refer to the following topics.
Specifying Paper in the Printer Driver (Windows) →P.152
Specifying Paper in the Printer Driver (Mac OS) →P.269
- We recommend that you use an ICC profile created using commercially available profile creation software in order to perform color management accurately on paper other than genuine Canon paper and feed confirmed paper. The created ICC profile can be registered to the printer driver and printed. For details, see "Matching Sheet (Windows)." →P.167

Displaying the Paper Reference Guide

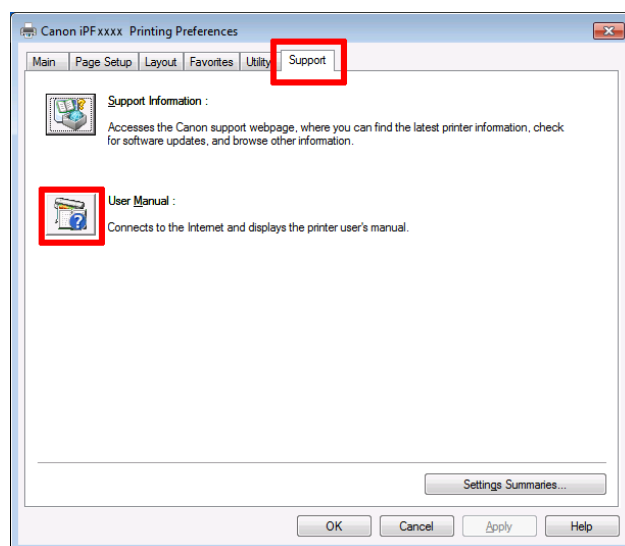

The **Paper Reference Guide** are not included. To view, display the **Paper Reference Guide** on the website from the links in the installed software. An Internet connection is required in order to view them.

- Windows

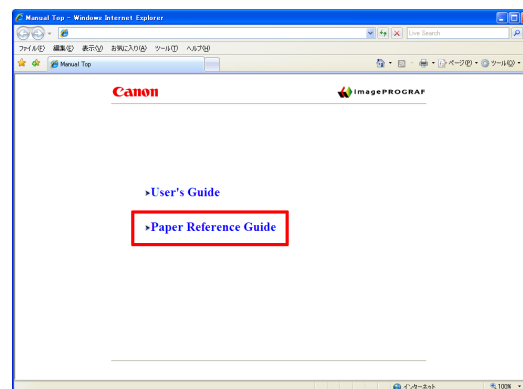

The basic instructions for displaying the **Paper Reference Guide** from the printer driver are as follows.

1. Open the printer driver.
(See "Accessing the Printer Driver Dialog Box from Applications (Windows).") →P.157
(See "Accessing the Printer Driver Dialog Box from the Operating System Menu (Windows).") →P.159

2. Select the **Support** sheet and click the **User Manual** button.

3. Click **Paper Reference Guide**.

- Mac OS

The basic instructions for displaying the **Paper Reference Guide** from the imagePROGRAF Printmonitor are as follows.

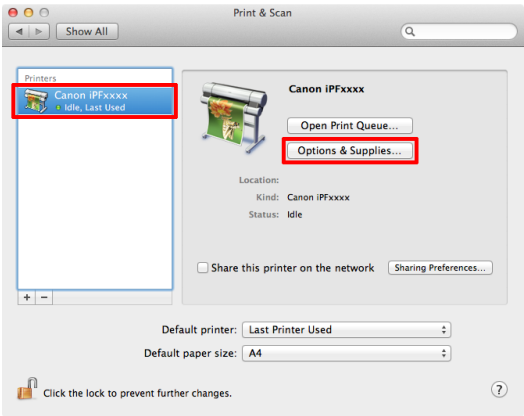

1. Click the **System Preferences** icon in the **Dock**.

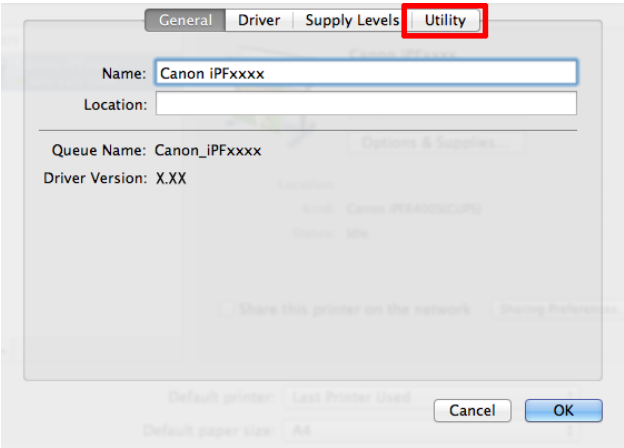

2. Click **Print & Scan** (or **Print & Fax**).

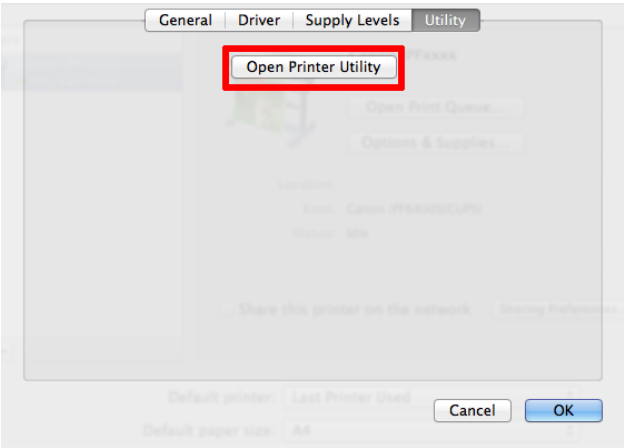

3. Select the printer from the list of printers and click **Options & Supplies**.

4. Click **Utility**.

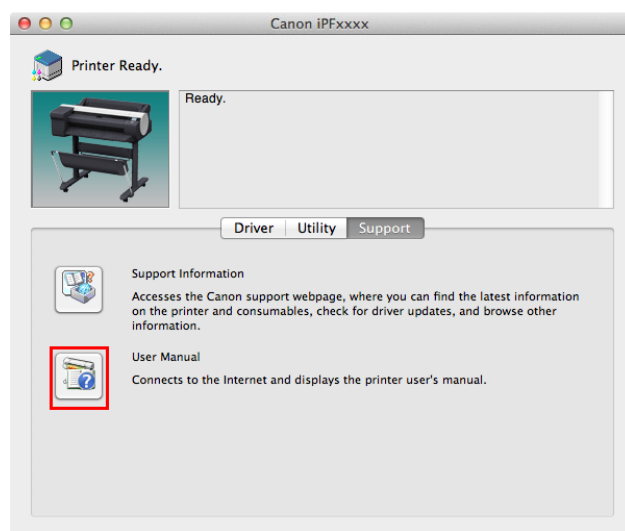

5. Click **Open Printer Utility**.

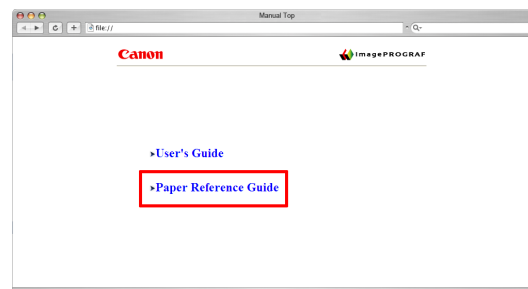

6. Click **Support**.

7. Click the **User Manual** button.

8. Click **Paper Reference Guide**.

Updating paper information

As for paper information of the printer Control Panel and printer driver, you can update it to the latest information by downloading and installing the latest version of **Media Information File** from the imagePROGRAF website.

The latest **Media Information File** can be downloaded by accessing the imagePROGRAF website from the links in the software installed on your computer. Contact your Canon dealer if you are unable to download it.

For details on **Media Information File** (Media Information File), refer as follows.

- Media Configuration Tool (Windows) → P.393
- Media Configuration Tool (Mac OS) → P.422

- When your version of Media Configuration Tool is older than the version released on the imagePROGRAF website, download and install the latest version of Media Configuration Tool before installing **Media Information File**. If you do not install the latest version of Media Configuration Tool before installing **Media Information File**, the latest paper information cannot be updated.

• Windows

The basic instructions for accessing the dedicated website from the printer driver are as follows.

1. Open the printer driver.
(See "Accessing the Printer Driver Dialog Box from Applications (Windows).") → P.157
(See "Accessing the Printer Driver Dialog Box from the Operating System Menu (Windows).") → P.159
2. Select the **Support** sheet and click the **Support Information** button.

The default browser on your computer is started and the imagePROGRAF webpage is displayed.

• Mac OS

The basic instructions for accessing the dedicated website from the imagePROGRAF Printmonitor are as follows.

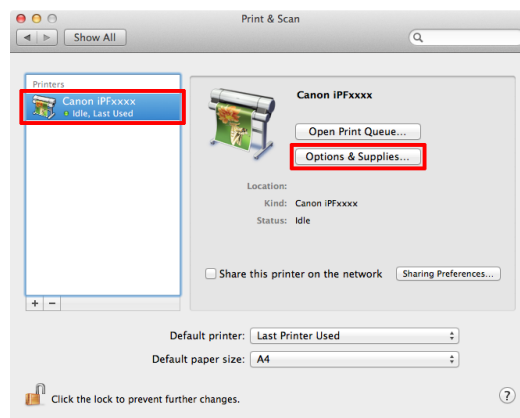

1. Click the **System Preferences** icon in the **Dock**.

2. Click **Print & Scan** (or **Print & Fax**).

3. Select the printer from the list of printers and click **Options & Supplies**.

4. Click **Utility**.

5. Click **Open Printer Utility**.

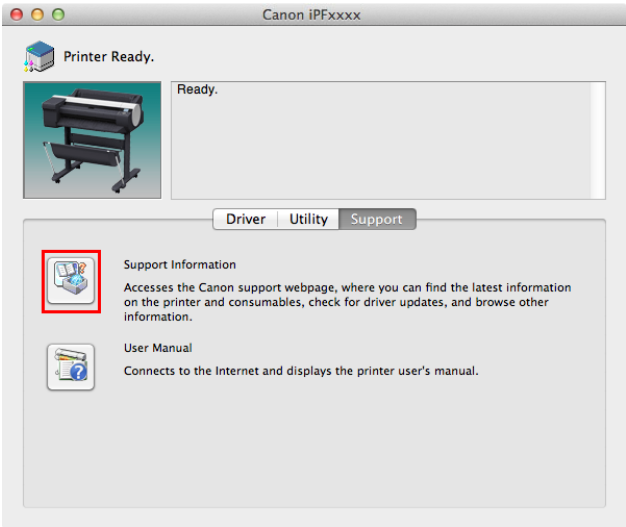

6. Click **Support**.

7. Click the **Support Information** button.

The default browser on your computer is started and the imagePROGRAF webpage is displayed.

Handling rolls

Loading Rolls on the Roll Holder	363
Loading Rolls in the Printer	365
Changing the Type of Paper	368
Specifying the Paper Length	369
Removing the Roll from the Printer	370
Removing Rolls From the Roll Holder	372
→ Clearing Jammed Roll Paper	611
→ Clearing Jammed Paper (Paper Feed Slot)	616
Feeding Roll Paper Manually	373
Keeping Track of the Amount of Roll Paper Left	373
Specifying the Ink Drying Time for Rolls	374
Specifying the Cutting Method for Rolls	376
Cutting the Leading Edge of Roll Paper Automatically	382
Reducing Dust from Cutting Rolls	384
Roll Holder Set	384
Removing the Roll Feed Unit	385
Installing the Roll Feed Unit	386

Loading Rolls on the Roll Holder

When printing on rolls, attach the Roll Holder to the roll.

Rolls have a two- or three-inch paper core. Use the correct Holder Stopper and attachment for the paper core.

For borderless printing on A1 (594 mm) or A2 (420 mm) rolls, attach the included Spacer for Borderless Printing to the Roll Holder.

Using Rolls with a 2-inch Paper Core		Using Rolls with a 3-inch Paper Core	
Holder Stopper	Roll Holder Side	Holder Stopper	Roll Holder Side
For 2-inch paper cores	No Attachment Needed	For 3-inch paper cores	3-Inch Paper Core Attachment
			

**Caution**

- Set the roll on a table or other flat surface so that it does not roll or fall. Rolls are heavy, and dropping a roll may cause injury.

Important

- When handling the roll, be careful not to soil the printing surface. This may affect the printing quality. We recommend wearing clean cloth gloves when handling rolls to protect the printing surface.
- Use scissors or a cutting tool to cut the edge of the roll paper if it is uneven, dirty, or has tape residue. Otherwise, it may cause feeding problems and affect the printing quality. Be careful not to cut through any barcodes printed on the roll.
- Align the edges of the paper on both ends of the roll. Otherwise, it may cause feeding problems.

Note

- For details on supported sizes and types of rolls, see **Paper Sizes** or the **Paper Reference Guide**. (See "Paper Sizes." →P.352 (See "Displaying the Paper Reference Guide." →P.356
- To view instructions as you attach the Roll Holder, press the **Navigate** button. (See "How to View Instructions with Navigate." →P.461

1 Remove the Holder Stopper from the Roll Holder.

2 Insert the attachments for the roll paper on the Roll Holder.

• Using rolls with a 3-inch paper core

Attach the included 3-Inch Paper Core Attachment on the Roll Holder.

Align the triangular part (b) of the 3-Inch Paper Core Attachment (a) with the triangular part (c) of the Roll Holder as shown, and insert the 3-Inch Paper Core Attachment into the Roll Holder.

Use the Holder Stopper for 3-inch paper cores.

• Borderless printing on A1 or A2 rolls

Attach the included Spacer for Borderless Printing to the Roll Holder.

Insert the protrusions (b) of the Spacer for Borderless Printing (a) into the holes (c) of the Roll Holder, as shown.

- 3** With the Roll Holder resting horizontally and the edge of the roll paper facing forward as shown, insert the roll in the Roll Holder from the left. Insert the roll firmly until it touches the flange (a) of the Roll Holder, leaving no gap.

- Always have the Roll Holder resting horizontally when loading rolls. Attempting to load rolls with the Roll Holder upright may damage the Roll Holder.

- 4** Insert the Holder Stopper from the left in the Roll Holder as shown. Push it firmly in until the flange (a) of the Holder Stopper touches the roll. Attach the appropriate Holder Stopper for the size of the paper core.

Loading Rolls in the Printer

Follow these steps to load rolls in the printer.

- Always load rolls when the printer is on. If the printer is off when you load a roll, the paper may not be advanced correctly when you turn the printer on.
- Before loading a roll, confirm whether the inside of the Top Cover or the Ejection Guide is soiled. If soiled, we recommend cleaning in advance. (See "Cleaning Inside the Top Cover.") → P.592

1 Press the **Load** button.

2 Press **▲** or **▼** to select **Roll Paper**, and then press the **OK** button.

- If any paper has been advanced that will not be used, a message is shown requesting you to remove it. Press **▲** or **▼** to select **Yes**, and then press the **OK** button. Remove the paper and go to the next step.

3 Open the Roll Feed Unit Cover.

4 Holding the Roll Holder flange (a), load the Roll Holder shaft into the guide grooves (b) on both sides of the Roll Holder Slot. At this time, load the shaft so that the color of the Roll Holder shaft (c) matches the color of the guide groove.

- Do not release the flanges until you load the holder fully in the Roll Holder Slot. Rolls are heavy, and dropping a roll may cause injury.
- Be careful not to pinch your fingers between the guide grooves (b) and the Roll Holder shaft (c) when loading rolls.

- Do not force the Roll Holder into the printer with the right and left ends reversed. Otherwise, it may damage the printer or Roll Holder.

- If it is difficult to load rolls from the front of the printer, load rolls from the back of the printer.

5 Insert the edge of the roll in the Paper Feed Slot (a) and advance the roll until you hear the feed tone.

- Be careful not to soil the printing surface of roll paper as you insert it in the slot. This may affect the printing quality. We recommend wearing clean cloth gloves when handling rolls to protect the printing surface.
- If the paper is wrinkled or warped, straighten it out before loading it.
- Load paper straight so it is not fed askew.

6 Once paper feeding starts, you will need to do the following, based on the **ManageRemainRoll** setting and the barcode printed on rolls. (See "Keeping Track of the Amount of Roll Paper Left.") →P.373

ManageRemainRoll	Barcodes	Printer Operation After the Paper is Fed
Off	Printed	A menu for selection of the type of paper is shown on the Display Screen. Press ▲ or ▼ to select the type of paper, and then press the OK button.
	Not printed	
On	Printed	The type and amount of paper left is automatically detected based on the barcode printed on the roll. There is no need to specify the type and length of the paper.
	Not printed	A menu for selection of the type and length of paper is shown on the Display Screen. Press ▲ or ▼ to select the type and length of paper loaded, and then press the OK button.

- For details on types of paper to select, see the **Paper Reference Guide**. (See "Displaying the Paper Reference Guide.") →P.356

7 Close the Roll Feed Unit Cover.

- Cut the edge of the roll using the **Paper Cutting** function if the edge is creased or soiled. (See "Specifying the Cutting Method for Rolls.") →P.376

- Adjusting the printhead alignment with the type of paper to be used in printing may enhance printing quality. (See "Automatic Adjustment to Straighten Lines and Colors.") →P.552
- If you set the detection of paper leading edge to **Do not perform**, a margin of about 23 cm is created at the paper leading edge when printing starts. (See "Specifying the Cutting Method for Rolls.") →P.376

Changing the Type of Paper

Follow these steps to change the type of paper specified on the printer after you have loaded paper. If you will continue using this type of paper later, selecting **Keep Paper Type > On** will save the time and effort of configuring the media type setting when you load the paper again. The current media type settings before you select **On** will be automatically selected at that time. (See "Using the Same Type of Paper Regularly.") →P.369

Important

- For best printing results, the printer fine-tunes the print head height and the feed amount for each type of paper. Be sure to select the type of paper to use correctly before printing.
- Because the printer fine-tunes the feed amount for each type of paper, the margins and the size of printed images may vary depending on the type of paper used. If margins and the size of images are not as you expected, adjust the paper feed amount.
(See "Adjusting the Feed Amount.") →P.558

Changing the Type of Paper

Note

- When you load a roll, a menu for selection of the type of paper is shown on the Display Screen. Select the type of paper, and then press the **OK** button.
If no barcode has been printed on the roll and you have set **ManageRemainRoll** to **On**, specify the roll length after the type of paper. (See "Specifying the Paper Length.") →P.369

1 On the **Tab Selection screen** of the Control Panel, press ◀ or ▶ to select the Paper tab ().

Note

- If the **Tab Selection screen** is not displayed, press the **Menu** button.

- 2** Press the **OK** button.
The **Paper Menu** is displayed.
- 3** Press ▲ or ▼ to select **Chg. Paper Type**, and then press the **OK** button.
- 4** Press ▲ or ▼ to select the type of paper loaded (**Roll Paper** or **Manual Paper**), and then press the **OK** button.
- 5** Press ▲ or ▼ to select the type of paper loaded in the printer, and then press the **OK** button.

Important

- Be sure to select the correct paper type. If this setting does not match the loaded paper, it may cause feed errors and affect printing quality.

Note

- For details on types of paper, see the **Paper Reference Guide**. (See "Types of Paper.") →P.352 By default, Plain Paper is selected.

Using the Same Type of Paper Regularly

Configure this setting so that current media type settings will be automatically selected when you load the same type of paper later.

- 1 On the **Tab Selection screen** of the Control Panel, press ◀ or ▶ to select the Paper tab ().

Note

- If the **Tab Selection screen** is not displayed, press the **Menu** button.

- 2 Press the **OK** button.
The **Paper Menu** is displayed.

- 3 Press ▲ or ▼ to select **Keep Paper Type**, and then press the **OK** button.

- 4 Press ▲ or ▼ to select **On**, and then press the **OK** button.

Note

- The specified media type setting is updated in the following situations.
 - When using sheets, if you send a print job before loading a sheet, the media type setting is updated to match the type of paper specified by the print job.
 - When you have selected **ManageRemainRoll > On** on the Control Panel and a barcode is printed on the roll, the media type setting is updated to match the type of paper specified by the barcode.
 - To change the media type setting, see "Changing the Type of Paper." →P.368

Specifying the Paper Length

When changing the length of paper after the paper has been advanced, specify the length as follows.

Note

- Specify the paper length when you have set **ManageRemainRoll** to **On**. (See "Keeping Track of the Amount of Roll Paper Left.") →P.373

- 1 On the **Tab Selection screen** of the Control Panel, press ◀ or ▶ to select the Paper tab ().

Note

- If the **Tab Selection screen** is not displayed, press the **Menu** button.

- 2 Press the **OK** button.
The **Paper Menu** is displayed.

- 3 Press ▲ or ▼ to select **Chg. Paper Size**, and then press the **OK** button.

4 Press ▲ or ▼ to select **Roll Length**, and then press the **OK** button.

5 Press ▲ or ▼ to select the length of paper loaded in the printer, and then press the **OK** button. Specify the roll length as follows.

1. Press the ◀ or ▶ button to move to the next field for input.
2. Press the ▲ or ▼ button to enter the value.
3. Repeat steps 1 and 2 to finish entering the value, and then press the **OK** button.

Removing the Roll from the Printer

Remove rolls from the printer as follows.

Important

- Once a roll has been advanced, do not pull the paper out by force. This will prevent further feeding, and the printer will be unable to keep track of the amount of roll paper left. If you accidentally pull out paper, follow these steps to remove the roll, and open the paper feed slot.

Note

- If you need to cut the roll, see "Specifying the Cutting Method for Rolls." → P.376

1 On the **Tab Selection screen** of the Control Panel, press ◀ or ▶ to select the (Paper tab) .

Note

- If the **Tab Selection screen** is not displayed, press the **Menu** button.

2 Press the **OK** button.
The **Paper Menu** is displayed.

3 Press ▲ or ▼ to select **Eject Paper**, and then press the **OK** button.

4 Press ▲ or ▼ to select **Yes**, and then press the **OK** button.
The roll is rewound.

Important

- If you have selected **ManageRemainRoll > On** in the Control Panel menu, a barcode is printed on the leading edge of the roll. Do not remove the roll before the barcode is printed. You will be unable to keep track of the amount of roll paper left. (See "Keeping Track of the Amount of Roll Paper Left.") → P.373

5 Open the Roll Feed Unit Cover.

6 Using both hands, rotate the Roll Holder toward the back to rewind the roll.

Note

- If it is difficult to perform operations from the front of the printer, perform operations from the back of the printer.

7 Holding the Roll Holder flange (a), remove the holder from the Roll Holder Slot.

Note

- For instructions on removing rolls from the Roll Holder, see "Removing Rolls From the Roll Holder." → P.372

8 Close the Roll Feed Unit Cover.

- To load new paper in the printer at this point, see "Loading Rolls in the Printer." →P365

Removing Rolls From the Roll Holder

- 1 Remove the Holder Stopper from the Roll Holder.

- 2 Remove the roll from the Roll Holder.

- 3 Remove any attachments as follows.

- 3-Inch Paper Core Attachment
Spread the tips (b) of the 3-Inch Paper Core Attachment that protrude by the triangular label (a) of the Roll Holder as shown and remove the 3-Inch Paper Core Attachment.

- Spacer for Borderless Printing
Remove the Spacer for Borderless Printing from the Roll Holder as shown.

- Store the roll in the original bag or box, away from high temperature, humidity, and direct sunlight. If paper is not stored properly, the printing surface may become scratched, which may affect the printing quality when you use it again.

Feeding Roll Paper Manually

After a roll has been advanced, you can press the **Feed** button to feed or retract the roll with the ▲ and ▼ buttons.

- 1 Press the **Feed** button.
- 2 Press the ▲ or ▼ button to advance or retract the roll.
Press ▲ to retract the roll manually.
Press ▼ to advance the roll manually.

- If you hold down ▲ or ▼ for less than a second, the roll will move about 1 mm (0.04 in).
If you hold down ▲ or ▼ for more than a second, the roll will move until you release the button. Release the button when the Display Screen indicates "End of paper feed. Cannot feed paper more."

Keeping Track of the Amount of Roll Paper Left

Setting **ManageRemainRoll** to **On** in the **Paper Menu** of the Control Panel will print a barcode with text on the roll when the roll is removed that identifies the type of paper and amount left. When **ManageRemainRoll** is **On** and you load rolls with printed barcodes, the type of paper and amount left are automatically detected after rolls are loaded. The barcode will be cut off after it has been read.

- If the barcode on the roll is not detected, enter the type and length of paper on the Control Panel.

Follow these steps to set **ManageRemainRoll** to **On** as follows.

- 1 On the **Tab Selection screen** of the Control Panel, press ◀ or ▶ to select the Paper tab (□).

- If the **Tab Selection screen** is not displayed, press the **Menu** button.

- 2 Press the **OK** button.
The **Paper Menu** is displayed.

3 Press ▲ or ▼ to select **ManageRemainRoll**, and then press the **OK** button.

4 Press ▲ or ▼ to select **On**, and then press the **OK** button.

Specifying the Ink Drying Time for Rolls

When you are using paper that takes longer for ink to adhere, ink may be transferred onto the paper surface during ejection, soiling it. In that case, you may be able to improve the condition by setting the time to wait for the ink to dry after printing.

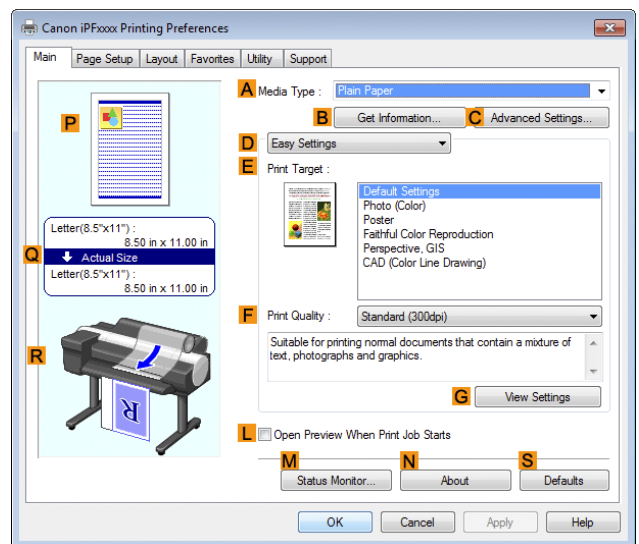

Note

- If the Cutter touches the print surface on which the ink is not dry, the paper surface may become scratched or soiled, or the paper surface may rub when the paper falls and the surface may become soiled. To wait for the ink to dry without allowing printed documents to fall after printing, set **Cutting Mode** on the menu of the printer to **Eject**. (See "Specifying the Cutting Method for Rolls.") →P.376
- The settings can also be made from the Control Panel on the printer. Select the type of paper from **Paper Details** in **Paper Menu**. (See "Menu Settings.") →P.474

Windows

1 Display the printer driver dialog box.
(See "Accessing the Printer Driver Dialog Box from the Operating System Menu (Windows).") →P.159

2 Select the **Main** sheet and click **C Advanced Settings** in **A Media Type**.

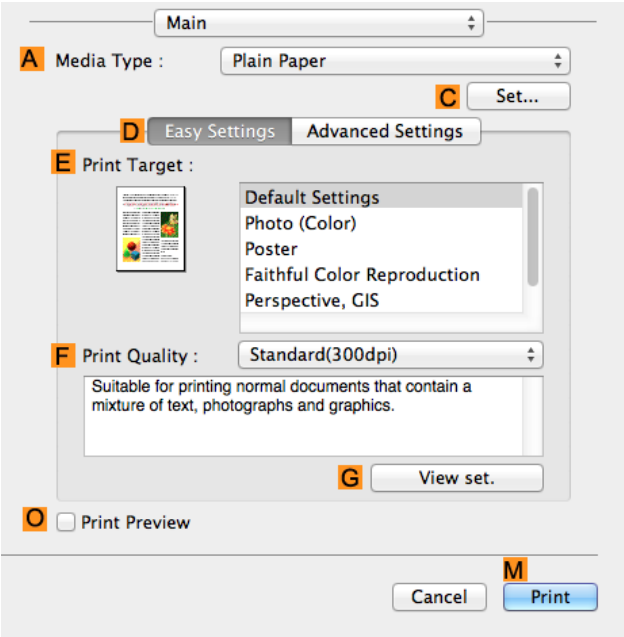

3 In the **Paper Detailed Settings** dialog box displayed next, select the desired settings values in **B Between Pages** and **C Between Scans** in **A Drying Time**, and then click **OK**.
(See "Paper Detailed Settings Dialog Box (Windows).") →P.163

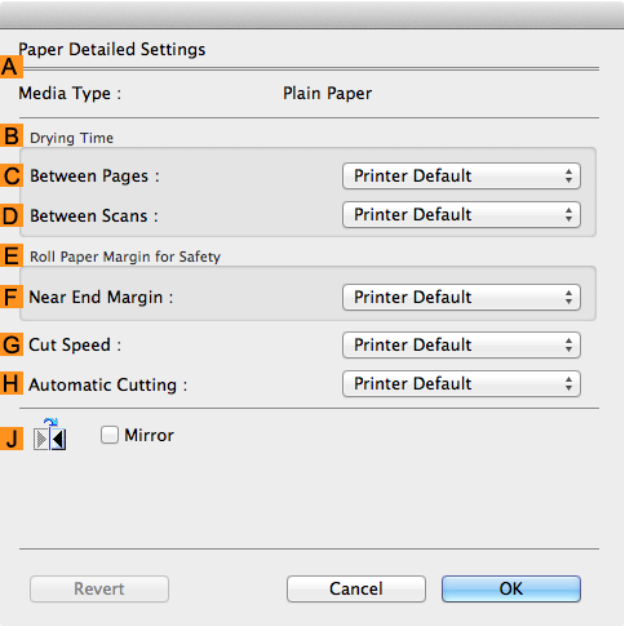

Mac OS

- 1
- Choose **Print** in the application menu.
- 2
- Select the **Main** pane and click **C Settings** in **A Media Type**.

- 3
- In the **Paper Detailed Settings** dialog box displayed next, select the desired settings values in **C Between Pages** and **D Between Scans** in **B Drying Time**, and then click **OK**.
(See "Paper Detailed Settings Dialog Box (Mac OS).") →P.277

Specifying the Cutting Method for Rolls

How rolls are cut after ejection varies depending on printer settings.

Cutting Method		Printer Setting		Driver Setting	
Automatic	The roll is automatically cut by the Cutter Unit following printer driver settings.	Media Menu > Paper Details > (Various Types of Paper) > Cutting Mode	Automatic	Automatic Cutting (See "Cutting Roll Paper After Printing.") → P.144	Yes
Eject (when the paper surface is being scratched / to wait for ink to dry)	Select this to move the cutter by key operation and cut paper. Although there are cases with Automatic in which the paper falls and the paper surface is scratched, you can avoid damaging the paper with this method since you can cut by holding the paper with your hand so that the paper does not fall when cutting. Also, since you can cut while visually confirming the drying of the ink, you can avoid ejecting paper before the ink has dried. To cut the roll with the Cutter Unit, press the Cut button.		Eject		Yes
Manual (when using media that cannot be cut with the Cutter Unit)	Select this for paper that cannot be cut with the Cutter Unit and for paper of which the leading edge curls strongly and rubs the printhead. Cut each page from the roll using scissors. For continuous printing (if you will cut each page later), select Automatic Cutting > Yes or select Print Cut Guideline .		Manual		No, Yes, Print Cut Guideline
Paper cutting (to have the roll cut at your specified position)	Choose this option if you want to cut pages by pressing Cutter Unit buttons for manual cutting after printing when Automatic Cutting > No is selected or Print Cut Guideline is selected in the printer driver. Otherwise choose this option if you want to cut the roll edge after loading a roll.	Cut button pressed	Yes		No, Print Cut Guideline

Note

- Automatic and Eject are valid only when you have selected **Automatic Cutting > Yes** in the printer driver.
- With Eject, printing does not resume after a series of jobs have been printed continuously until the roll is cut.
- **Eject** is the preset selection in **Cutting Mode** for some types of paper. For this paper, we recommend keeping the preset cutting mode.
- If documents printed using Automatic, Eject, or manual cutting are short, rolls are advanced a specific amount before cutting to prevent problems with cutting and paper ejection. This may create a wider bottom margin, in some cases.

Cut rolls manually in the following cases:

Eject (when the paper surface is being scratched / to wait for ink to dry)

- When cutting wide printed documents after ejection, have two people support the documents. If the paper drops, printed documents may be damaged.
- Do not lift the paper when holding printed documents before cutting. If the paper rises, it may affect the printing quality or cause rough cut edges.

- Once the following step has been performed, the procedure can be started from step 7 the next time.
- Printing the second and subsequent times
- Printing after replacing with the same type of paper

- 1 On the **Tab Selection screen** of the Control Panel, press ◀ or ▶ to select the Paper tab ().

- If the **Tab Selection screen** is not displayed, press the **Menu** button.

- 2 Press the **OK** button. The **Paper Menu** is displayed.
- 3 Press ▲ or ▼ to select **Paper Details**, and then press the **OK** button.
- 4 Press ▲ or ▼ to select the type of paper, and then press the **OK** button.
- 5 Press ▲ or ▼ to select **Cutting Mode**, and then press the **OK** button.
- 6 Press ▲ or ▼ to select **Eject**, and then press the **OK** button.
- 7 Print the job.
When printing is finished, the printer will stop without cutting.

- 8** Holding the printed document to prevent it from dropping, press the **Cut** button to cut the roll.

Manual (when using media that cannot be cut with the Cutter Unit)

Note

- Once the following step has been performed, the procedure can be started from step 8 the next time.
- Printing the second and subsequent times
- Printing after replacing with the same type of paper

- 1** On the **Tab Selection screen** of the Control Panel, press ◀ or ▶ to select the Paper tab ().

Note

- If the **Tab Selection screen** is not displayed, press the **Menu** button.

- Press the **OK** button. The **Paper Menu** is displayed.
- Press ▲ or ▼ to select **Paper Details**, and then press the **OK** button.
- Press ▲ or ▼ to select the type of paper, and then press the **OK** button.
- Press ▲ or ▼ to select **Cutting Mode**, and then press the **OK** button.
- Press ▲ or ▼ to select **Manual**, and then press the **OK** button.
- When "**Perform the detection of paper leading edge?**" is displayed, select **Perform(recommend)**.
- Print the job.
The printer stops advancing the paper after printing.

9 Press the **Feed** button.

Roll paper is fed to the specified cut position and then automatically stopped.

10 Cut the roll paper manually with scissors or the like.

11 Press the **OK** button.

After the roll is rewound, it stops automatically.

Manual (for paper of which the leading edge rubs the printhead)

Note

- Once the following step has been performed, the procedure can be started from step 10 the next time.
- Printing the second and subsequent times
- Printing after replacing with the same type of paper

- 1** On the **Tab Selection screen** of the Control Panel, press ◀ or ▶ to select the Paper tab ().

Note

- If the **Tab Selection screen** is not displayed, press the **Menu** button.

- 2** Press the **OK** button. The **Paper Menu** is displayed.
- 3** Press ▲ or ▼ to select **Paper Details**, and then press the **OK** button.
- 4** Press ▲ or ▼ to select the type of paper, and then press the **OK** button.
- 5** Press ▲ or ▼ to select **Cutting Mode**, and then press the **OK** button.
- 6** Press ▲ or ▼ to select **Manual**, and then press the **OK** button.
- 7** When "**Perform the detection of paper leading edge?**" is displayed, select **Do not perform**.

Note

- If you set the detection of paper leading edge to **Do not perform**, a margin of about 23 cm is created at the paper leading edge when printing starts.

- 8** Press the **Feed** button.

- 9** Press ▲ or ▼ to align the paper leading edge (a) with the leading edge (c) of the metal plate (b) on the output tray.

Caution

- Do not touch the metal plate (b) as doing so may cause injuries.

- 10** Print the job.
The printer stops advancing the paper after printing.

Note

- The printer can continue to receive print jobs from computers. If a print job is received and printed here, it can be printed without the margin of about 23 cm being created at the paper leading edge.

- 11** Press the **Feed** button.

Roll paper is fed to the specified cut position and then automatically stopped.

- 12** Cut the roll paper manually with scissors or the like.

Important

- Cut at the dotted line printed on the paper. If you cut on the printer side of the dotted line, the paper leading edge may rub against the printhead and may deviate from the paper retainer.

- 13** Press the **OK** button.

After the roll is rewound, it stops automatically.

Paper cutting (to have the roll cut at your specified position)

Feed paper the cutting position
by pressing ▲ or ▼

Paper Cutting

- 1 Press the **Feed** button.
- 2 Press the ▼ button to advance the roll to the position for cutting.
- 3 Press the **Cut** button.
- 4 Press ▲ or ▼ to select **Yes**, and then press the **OK** button.
After the roll paper is cut, it is rewound automatically.

Cutting the Leading Edge of Roll Paper Automatically

If the leading edge of the paper is cut crooked or is not cut straight when roll paper is loaded, it will not print correctly. If this happens, you can cut the leading edge of the paper straight when loading a paper roll by using **Trim Edge First** in the Control Panel menu.

Trim Edge First offers the following options.

- **Automatic**

If the leading edge of the paper is cut crooked and is not cut straight when loading roll paper, cut the leading edge straight and eject the fragment of paper to prevent printing on the platen and soiling the printer.

• On (Preset Len)

The amount to cut from the leading edge of the paper varies depending on the media type, and is cut to a prescribed length. For more information on the prescribed length, see the leading edge precut length in the **Paper Reference Guide**. (See "Displaying the Paper Reference Guide.") → P.356

• On(Input Length)

The amount to cut from the leading edge of paper is specified in the control panel. The amount to cut from the leading edge can be specified in the range of lengths displayed in the control panel. The range of lengths differs between each media type.

Note

- The amount to cut from the leading edge of paper cannot be set shorter than the length displayed in the control panel.

• Manual

The amount to cut from the leading edge of the paper can be adjusted by pressing the ▲ and ▼ buttons. After making the adjustment, you can cut the paper by pressing the **Paper Cutting** button and selecting "Cut paper".

After the paper has been cut, press "Finish paper set".

Note

- If you do not press "Finish paper set" after cutting the paper, you will not be able to print again.

• Off

The edge is not cut and scraps are not removed.

Follow these steps to change the **Trim Edge First** setting.

- 1 On the **Tab Selection screen** of the Control Panel, press ◀ or ▶ to select the Paper tab ().

Note

- If the **Tab Selection screen** is not displayed, press the **Menu** button.

- 2 Press the **OK** button.
The **Paper Menu** is displayed.
- 3 Press ▲ or ▼ to select **Paper Details**, and then press the **OK** button.
- 4 Press ▲ or ▼ to select the type of paper, and then press the **OK** button.
- 5 Press ▲ or ▼ to select **Trim Edge First**, and then press the **OK** button.
- 6 Press ▲ or ▼ to select the desired setting option, and then press the **OK** button.
This setting takes effect the next time you load a roll.

Reducing Dust from Cutting Rolls

For media such as Backlit Film that are more likely to generate debris when cut, select **CutDustReduct. > On** in the **Paper Menu** of the Control Panel. This option reduces debris from cutting by printing black lines at the leading and trailing edges of documents. It may help prevent Printhead damage. You can specify for **CutDustReduct.** to be activated for particular types of paper.

- Do not set **CutDustReduct.** to **On** for paper that wrinkles easily, such as Plain Paper or lightweight paper. This may impair cutting and cause paper jams.
- Borderless printing is not available when **CutDustReduct.** is set to **On**. To use borderless printing, select **CutDustReduct. > Off**.

Set **CutDustReduct.** to **On** as follows.

- 1 On the **Tab Selection screen** of the Control Panel, press ◀ or ▶ to select the Paper tab ().

- If the **Tab Selection screen** is not displayed, press the **Menu** button.

Note

- 2 Press the **OK** button.
The **Paper Menu** is displayed.
- 3 Press ▲ or ▼ to select **Paper Details**, and then press the **OK** button.
- 4 Press ▲ or ▼ to select the type of paper loaded in the printer, and then press the **OK** button.
- 5 Press ▲ or ▼ to select **CutDustReduct.**, and then press the **OK** button.
- 6 Press ▲ or ▼ to select **On**, and then press the **OK** button.

Roll Holder Set

Load a roll on the roll holder and then load the holder in the printer. The Roll Holder in the Roll Holder Set RH2-25 is for use with both 2-inch and 3-inch paper cores. Use the correct attachment for the particular paper core. For borderless printing on A1 (594 mm) or A2 (420 mm) rolls, attach the included Spacer for Borderless Printing to the Roll Holder. (See "Loading Rolls on the Roll Holder.") →P.363

- Roll Holder Set RH2-25

- Roll Holder (for 2- and 3-inch paper cores)

- Attachments

Using Rolls with a 2-inch Paper Core	Using Rolls with a 3-inch Paper Core	
Holder Stopper (for 2-inch paper cores)	Holder Stopper (for 3-inch paper cores)	3-Inch Paper Core Attachment
		
<ul style="list-style-type: none"> Borderless Printing on A1 or A2 Rolls Spacer for Borderless Printing 		

Removing the Roll Feed Unit

Important

- Always turn off the printer before removing the Roll Feed Unit. The printer may be damaged if you do not turn it off first.

1 Remove the roll from the Roll Feed Unit. (See "Removing the Roll from the Printer.") →P.370

2 Use a coin or screwdriver to loosen the screws (a) on both sides of the back of the Roll Feed Unit, and remove the screws.

- 3** Holding the Carrying Handles (a) of the Roll Feed Unit, remove the Roll Feed Unit from the printer.

Installing the Roll Feed Unit

Important

- Always turn off the printer before attaching the Roll Feed Unit. The printer may be damaged if you do not turn it off first.

- 1** Holding the Roll Feed Unit by the Carrying Handles (a), insert the two pins of the Roll Feed Unit (b) into the each hole on the back of the printer (c).

2

Use a coin or screwdriver to tighten the two screws on the back of the Roll Feed Unit (a) to secure it to the printer.

Handling sheets

Loading Sheets in the Feed Slot	388
Changing the Type of Paper	368
Removing Sheets	390
→ Clearing a Jammed Sheet, Fed Manually	614
→ Clearing Jammed Paper (Paper Feed Slot)	616

Loading Sheets in the Feed Slot

For manual feed, load the paper in the Top Paper Feed Slot.

Selecting the Paper Source and Type of Paper

- If a print job was received
Sheets are automatically selected, and the media type and size specified by the print job are shown on the Display Screen.

- 1 Press ▲ or ▼ to select **Load Paper**, and then press the **OK** button.
- 2 Load the paper in the Top Paper Feed Slot.
(See "Loading Sheets in the Top Paper Feed Slot.") →P.388

- If no print job was received

- 1 Press the **Load** button.

- 2 Press ▲ or ▼ to select **Manual Paper**, and then press the **OK** button.

 **Note** • If any paper has been advanced that will not be used, a message is shown requesting you to remove it. Press ▲ or ▼ to select **Yes**, and then press the **OK** button. Remove the paper and go to the next step.

- 3 Press ▲ or ▼ to select the type of paper, and then press the **OK** button.
Select the type of paper to print and load it in the Top Paper Feed Slot. (See "Loading Sheets in the Top Paper Feed Slot.") →P.388

 **Note** • Refer to **Paper Reference Guide** for details on type of paper to select. (See "Displaying the Paper Reference Guide.") →P.356

Loading Sheets in the Top Paper Feed Slot

-  **Important**
- One sheet of paper can be loaded at a time. Do not load multiple sheets. This may cause paper jams.
 - Before feeding the paper and before printing, check that the paper has not curled over towards the front of the printer. The sheet may jam if it curls before feeding or printing and the trailing edge drops toward the front.
 - Paper that is wrinkled or warped may jam. If necessary, straighten the paper and reload it.
 - Load the paper straight. Loading paper askew will cause an error. (See "Paper loaded askew..") →P.646

Note

- Store unused paper in the original package, away from high temperature, humidity, and direct sunlight.

1

Slide the Width Guide (a) to align it with the size of paper you will load.

a

2

Load one sheet, printing-side up, in the Top Paper Feed Slot. Insert the paper until it touches the far end of the tray lightly.

Important

- In some cases, the paper may fall down behind the printer under the weight of the paper. Support the back of the paper with your hand so that it does not fall down.

Note

- If it is difficult to load rolls from the front of the printer, load them from the back of the printer.

- 3** Move the Width Guide (a) to match the size of paper loaded.
Set the Width Guide against the edge of the paper to prevent the paper from becoming crooked or wrinkled.

- 4** Press the **OK** button.
- If a print job was received
After the paper is advanced, the printer starts printing the print job.
 - If no print job was received
The printer now starts feeding the paper.

Removing Sheets

- 1** On the **Tab Selection screen** of the Control Panel, press ◀ or ▶ to select the Paper tab ().

Note

- If the **Tab Selection screen** is not displayed, press the **Menu** button.

- 2** Press the **OK** button.
The **Paper Menu** is displayed.
- 3** Press ▲ or ▼ to select **Eject Paper**, and then press the **OK** button.
- 4** Press ▲ or ▼ to select **Yes**, and then press the **OK** button.
The paper is ejected from the front of the printer.

Important

- If the trailing edge of a sheet is not ejected, pull the sheet out, keeping the front edge level. Accidentally removing the sheet at an angle may scratch the printed surface.

Output Stacker

Output Stacker Precautions	391
Using the Output Stacker	391

Output Stacker Precautions

Documents can be stored in the Output Stacker after printing from rolls.
To use the Output Stacker, push down Basket Rod #1 (b) fully toward the front, keeping it even on the left and right so that Basket Rod #2 (a) is not slanted.

The Output Stacker can hold one sheet. When printing multiple pages, remove each sheet after it is printed.

Using the Output Stacker

This topic describes how to use the Output Stacker.
Use the Output Stacker in position (1) when storing printed documents.

When the Output Stacker is not used, fold the stacker to stow it in position (2).

Important

- The Output Stacker can hold paper up to 36 inches (914.4 mm) long.
- The number of sheets that can fit in the Output Stacker is one sheet. When printing multiple pages, remove each sheet after it is printed.
- Before printing banners or other long documents, tap the Output Stacker. We recommend that you spread a clean cloth or paper on the floor and select **Eject** as the cutting method for rolls to prevent the printed surface from becoming dirty or scratched. (See "Specifying the Cutting Method for Rolls.") →P.376
- If you perform high density printing on thin paper, the paper may become warped and might not stack correctly in the Output Stacker. If this happens, use the Output Stacker folded up.

The Features of Media Configuration Tool

In imagePROGRAF, the best printer settings for each paper are collected together in media information files in order to give the highest quality printing results. Settings for Canon genuine paper and Canon feed confirmed paper are provided by Canon in these media information files.

Note

- Canon genuine paper and Canon feed confirmed paper are detailed in the Paper Reference Guide. Any other paper is called custom paper.

The Media Configuration Tool allows you to perform the following tasks.

- When supported paper has been newly added to the printer, you can add that media type to the printer control panel and printer driver by using the media information file provided by Canon.
- You can customize Canon genuine paper and feed confirmed paper media information files to create a media information file for custom paper (paper that is neither Canon genuine paper or feed confirmed paper), and add that media type to the printer control panel and printer driver.
Furthermore, you can also import the created media information file into other computers and printers, and add media types to the printer drivers and printers of the computers where the data was imported.
- You can rearrange lists of the types of paper on the printer control panel and in printer driver dialog boxes and rename them, in addition to other functions.

Important

- Normally, the Media Configuration Tool is installed and the media information is configured when you install the printer driver from the User Software CD-ROM. Use this software if you want to add new media information or edit existing media information.
- Administration of paper information using the Media Configuration Tool should be performed by the printer administrator.

Drivers Applicable with Media Configuration Tool

- imagePROGRAF Printer Driver

Installation Procedures

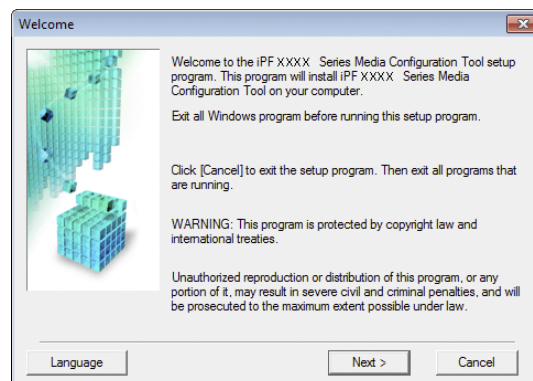

The Media Configuration Tool installation screen appears when you start the installation of a new version of the Media Configuration Tool. The installation procedure started from this screen is described below.

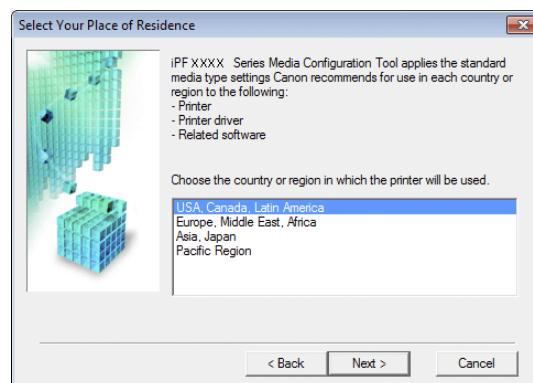

Important

- When you install the printer driver from the User Software CD-ROM, the Media Configuration Tool is also installed and the media information is also configured. The following procedure is therefore not normally needed. Perform the following procedure if you are installing the Media Configuration Tool without using the User Software CD-ROM, such as by downloading the latest version of the Media Configuration Tool from the Canon website.
- You must be logged in as Administrator when installing software in Windows.

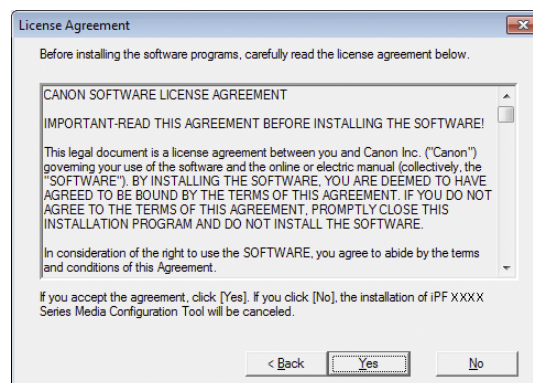

- 1 Start the Media Configuration Tool installer.
Click the **Next** button.

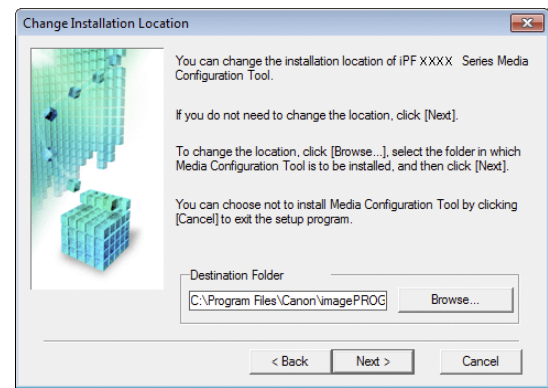

- 2 The next screen presents selections for the country or area where the printer is used.
Select a country or territory then click the **Next** button.

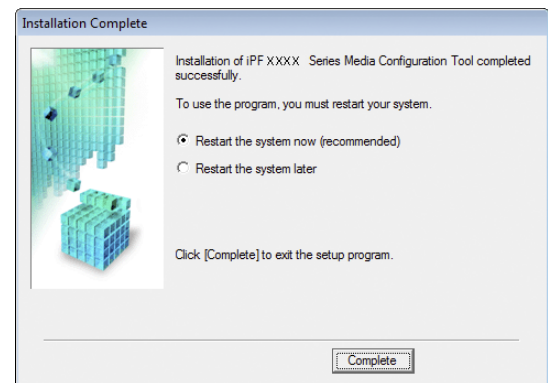

- 3 The **License Agreement** is displayed.
If you accept the agreement, click **Yes**.

- 4** The **Change Installation Location** screen appears.
Select the destination folder then click the **Next** button.

- 5** The **Installation Complete** screen appears.
Click the **Finish** button.
This completes the installation of Media Configuration Tool.

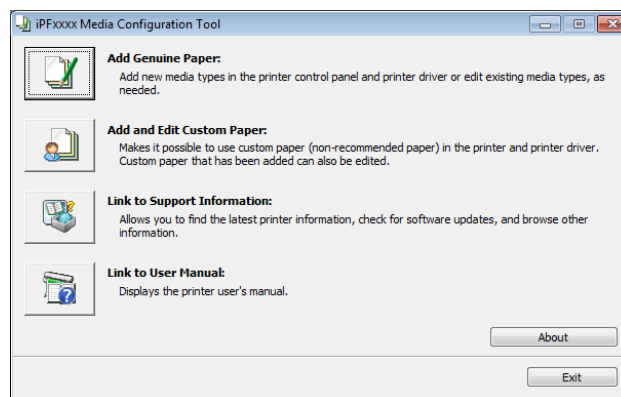

Starting Method

Follow the procedure below to start Media Configuration Tool.

From the **start** menu go to **All Programs > iPFxxxx Media Configuration Tool > iPFxxxx Media Configuration Tool**.

Media Configuration Tool main window is displayed.

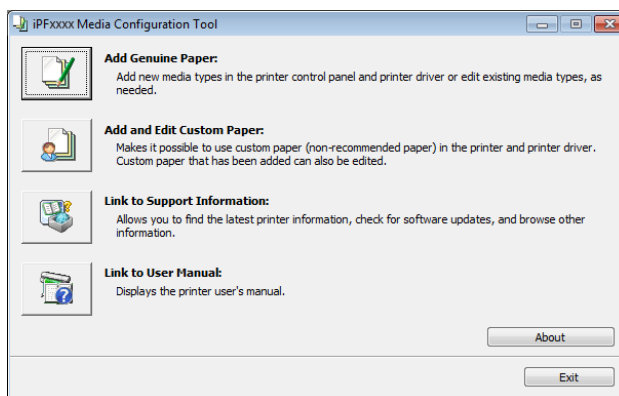

Note

- If you only start the Media Configuration Tool, the media information on the printer control panel and in the printer driver is not updated. If this screen is displayed, select **Add Genuine Paper** in the main window, and click the **Update** button in the **Edit Media Types** screen to update the media information.

Media Configuration Tool Main Window

The explanation below is on the Media Configuration Tool main window.

Note

- For the step to open the Media Configuration Tool main window, see "Starting Method." →P.395

- **Add Genuine Paper** button

When this button is clicked, the **Edit Media Types** dialog box is displayed, which allows you to add media information files released by Canon to the printer control panel and printer driver. You can also change names, toggle between displaying and hiding, and delete added media types.

You can also change the display order of Canon genuine paper and custom paper.

Refer to "Editing Media Type Information for Genuine Paper and Feed Confirmed Paper" →P.397 for details on **Add Genuine Paper**.

- **Add and Edit Custom Paper** button

When this button is clicked, the **Add and Edit Custom Paper** dialog box is displayed, which allows you to added custom paper to the printer control panel and printer driver.

Refer to "Using Paper Other than Genuine Paper and Feed Confirmed Paper" →P.407 for details on **Add and Edit Custom Paper**.

- **Link to Support Information** button

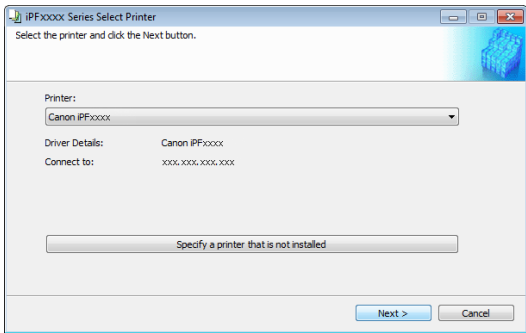

You can check information such as the latest information for the product and software version upgrade information.

- **Link to User Manual** Button

Displays the printer user's manual

Editing Media Type Information for Genuine Paper and Feed Confirmed Paper

To add genuine paper and feed confirmed paper to the printer control panel and printer driver and edit the media type information, click the **Add Genuine Paper** button in the Media Configuration Tool main window. Confirm the printer, where media type information is to be updated, to be displayed in **Printer** in the **Select Printer** dialog box, and then click the **Next** button.

Communication with the printer begins.

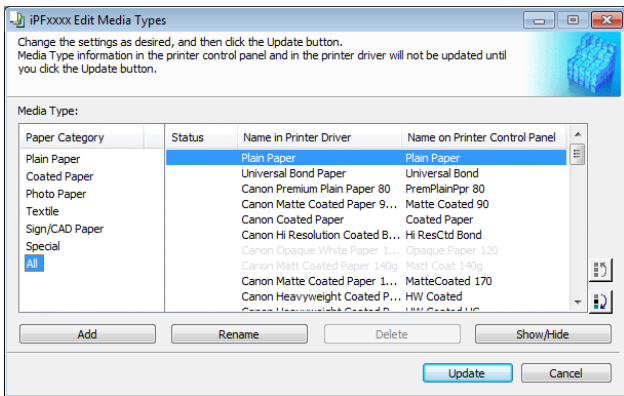

- Do not attempt to print or turn the printer off while the program is communicating with the printer.

The **Edit Media Types** dialog box is displayed.

- In the following screens, you cannot change the printer where media type information is to be updated.

- Paper that is displayed grayed out does not appear in the printer driver or printer panel.

• Add Button

To add genuine paper or feed confirmed paper to the printer control panel and printer driver, click this button. For details on the procedure for adding media types, see **"Adding Media Types."** →P.398

- To add media types, download the media information file (.amf file) in advance from the Canon website.

• Rename Button

To change the name on the printer control panel and the name in the printer driver for genuine paper and feed confirmed paper, select the paper to change and click this button.

For details on the procedure for changing paper display names, see "Changing Media Names." →P.401

• Delete Button

To delete added genuine paper and feed confirmed paper from the printer control panel and printer driver, select the paper to delete and click this button.

For details on the procedure for deleting added media types, see "Deleting Media Types You Have Added." →P.403

• Show/Hide Button

To change whether or not genuine paper or feed confirmed paper is displayed in the printer control panel and printer driver, select the paper to change and click this button.

For details on the procedure for changing whether or not to display media types, see "Switching Media Types Display Show/Hide." →P.404

• Change Display Order button (or)

To change the display order of a media type in the printer control panel and printer driver, select the paper to change and click this button.

For details on the procedure for changing the display order of media types, see "Changing the Display Order of Media Types." →P.406

Note

- The display order for custom paper can also be changed.

Important

- When you update the media type information, perform the same update on all of the PCs that are using that printer.

Note

- It may not be possible to deleting, showing/hiding, and changing the display order under some conditions.

Adding Media Types

Media information files (.amf files) released by Canon are registered in the printer control panel and printer driver.

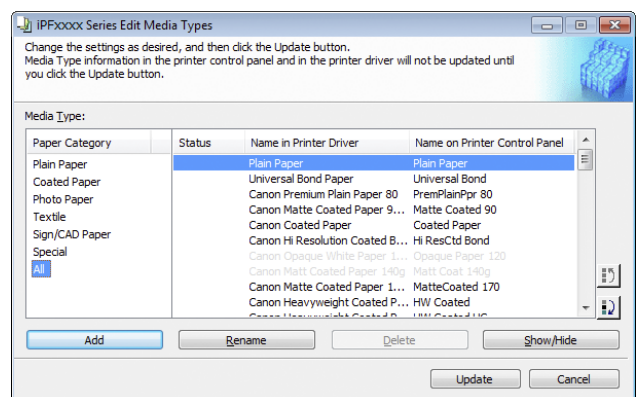

Important

- Do not perform printing on the target printer while adding the media types.
- Reinstalling Media Configuration Tool after registering a media information file may delete the registered media information file. In this case, first download and install latest Media Configuration Tool, then download and register the required media information file.

1

Open the **Edit Media Types** dialog box, and then click the **Add** button.

Note

- For details on the procedure for opening the **Edit Media Types** dialog box, see "Editing Media Type Information for Genuine Paper and Feed Confirmed Paper." →P.397

2 The **Add Media Type** dialog box displays. Click the **Browse** button.

3 Open the folder that contains the media information files (.amf files).

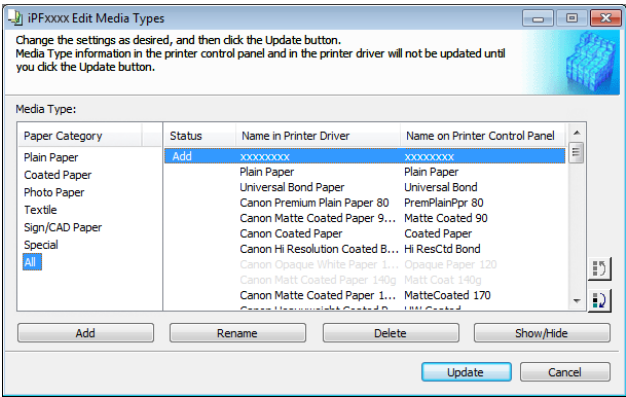

4 The names of the media information files contained in the selected folder are displayed in **Media Information File** in the **Add Media Type** dialog box. Select the check box for the paper you want to add and click the **OK** button.

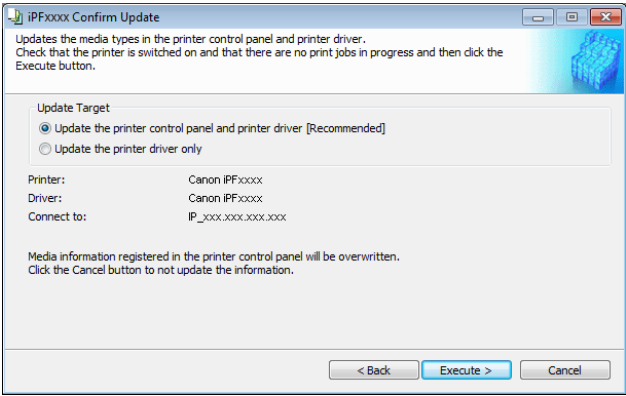

- If **Master Media Information File** is displayed as the **Type** of the **Media Information File**, the media type display order and media type display/non-display settings are initialized. Reconfigure these after added the master media information file.

5 Click **OK** when the confirmation message is displayed.

6 In the **Edit Media Types** dialog box, click the **Update** button.

7 The **Confirm Update** dialog box is displayed. Configure Update Target and click the **Execute** button. Communication with the printer begins.

- 

Note
- You should normally select **Update the printer control panel and printer driver**.
- 

Important
- When setting a data to the printer that differs from the data to be updated, the selected media information file is updated. When you would like to remain the data that is set to the printer, click the **Cancel** button.
 - Do not attempt to print or turn the printer off while the program is communicating with the printer.

8 Click the **OK** button.

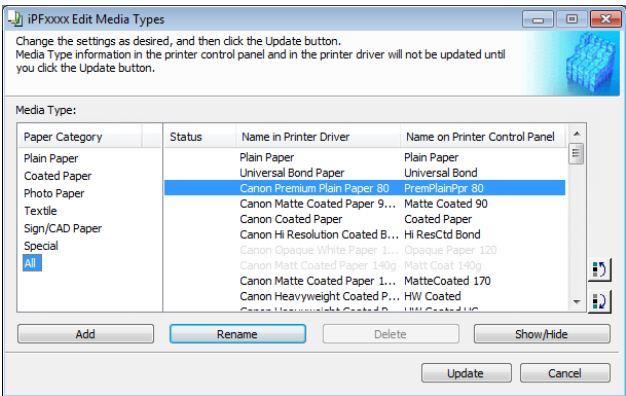

Changing Media Names

1 Open the **Edit Media Types** dialog box.

- For details on the procedure for opening the **Edit Media Types** dialog box, see "Editing Media Type Information for Genuine Paper and Feed Confirmed Paper." →P.397

2 In the **Media Type** list, select the name to change. Click the **Rename** button.

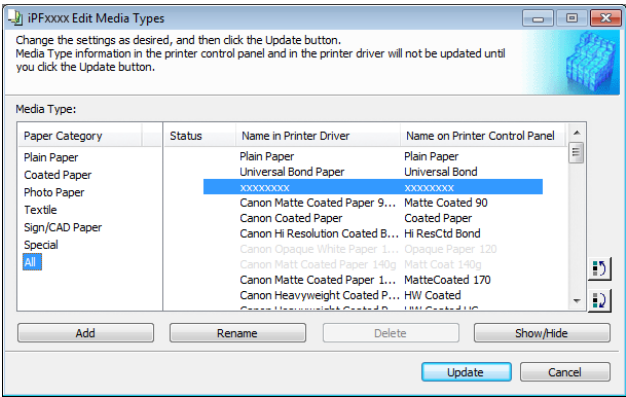

3 The **Rename Media** dialog box is displayed. Edit the names in **Name in Printer Driver** and **Name on Control Panel** and click the **OK** button.

- To restore the original names, click the **Restore** button.
- The characters that can be entered for **Name in Printer Driver** and **Name on Control Panel** are stated below.
alphanumeric, space, "-", ".", "_", "(", ")", "+", "%", ",", "/"
- For **Name in Printer Driver** up to 32 one Byte characters can be entered, and for **Name on Control Panel** up to 16 one Byte characters can be entered.

4 In the **Edit Media Types** dialog box, click the **Update** button.

5 The **Confirm Update** dialog box is displayed. Configure Update Target and click the **Execute** button. Communication with the printer begins.

- You should normally select **Update the printer control panel and printer driver**.

Important

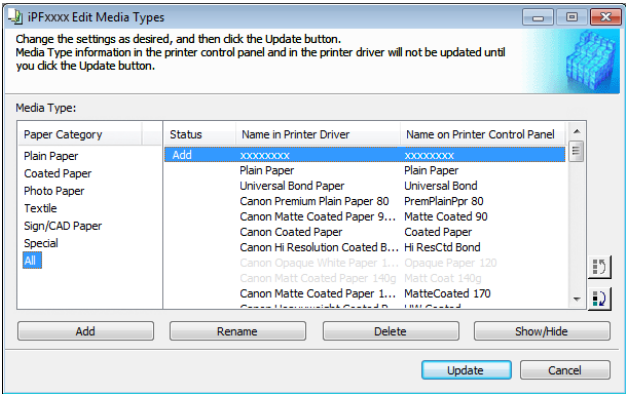

- When setting a data to the printer that differs from the data to be updated, the selected media information file is updated. When you would like to remain the data that is set to the printer, click the **Cancel** button.
- Do not attempt to print or turn the printer off while the program is communicating with the printer.

6 Click the **OK** button.

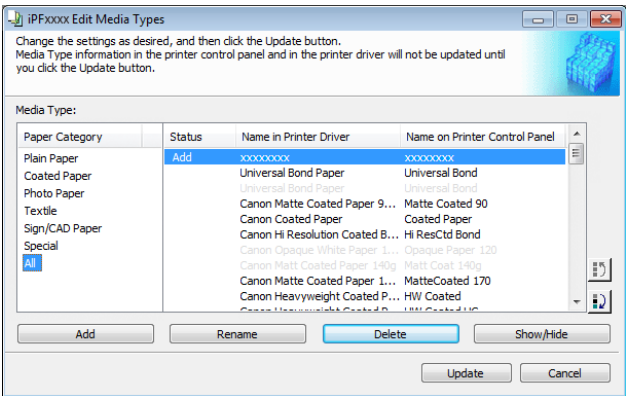

Deleting Media Types You Have Added

1 Open the **Edit Media Types** dialog box.

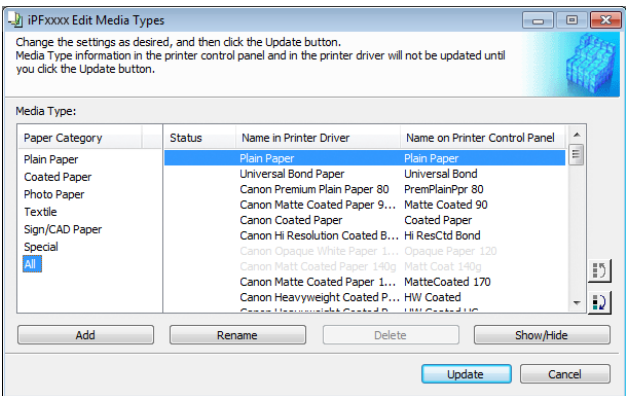

• For details on the procedure for opening the **Edit Media Types** dialog box, see "Editing Media Type Information for Genuine Paper and Feed Confirmed Paper." →P.397

2 In the **Media Type** list, select the name of the media to delete.
Click the **Delete** button.

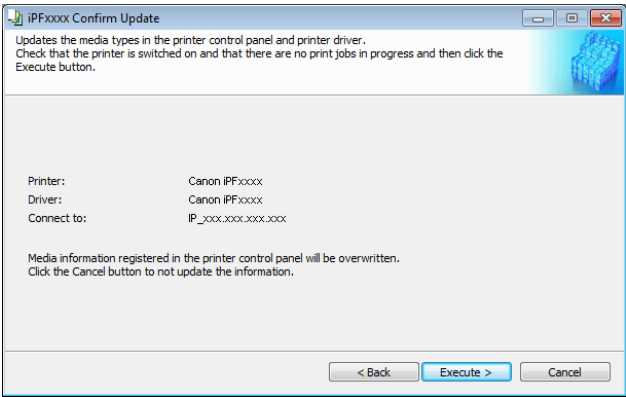

• Only paper for which **Status** in the **Media Type** is **Add** can be deleted.

3 In the **Edit Media Types** dialog box, click the **Update** button.

- 4
- The **Confirm Update** dialog box is displayed.
Click the **Execute** button.
Communication with the printer begins.

Important

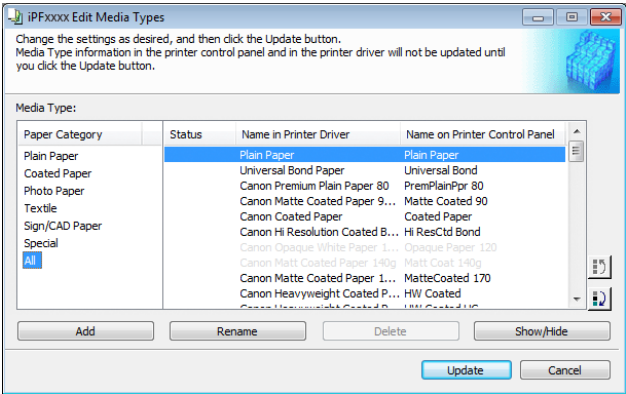

- When setting a data to the printer that differs from the data to be updated, the selected media information file is updated. When you would like to remain the data that is set to the printer, click the **Cancel** button.
- Do not attempt to print or turn the printer off while the program is communicating with the printer.

- 5
- Click the **OK** button.

Switching Media Types Display Show/Hide

- 1
- Open the **Edit Media Types** dialog box.

Note

- For details on the procedure for opening the **Edit Media Types** dialog box, see "Editing Media Type Information for Genuine Paper and Feed Confirmed Paper." →P.397

- 2** In the **Media Type** list, select the name of the media to switch off or on for display.
Click the **Show/Hide** button.
The selected paper is alternately shown or hidden.

- Note**
- You can select multiple paper.
 - The names of media switched for non-display appear grayed out in the **Media Type** list.
 - Each time you click the **Show/Hide** button, the display mode cycles from showing both the printer driver and printer panel, to hiding both the printer driver and printer panel, and then to showing only the printer panel.

- 3** In the **Edit Media Types** dialog box, click the **Update** button.

- 4** The **Confirm Update** dialog box is displayed. Configure Update Target and click the **Execute** button. Communication with the printer begins.

- Note**
- You should normally select **Update the printer control panel and printer driver**.

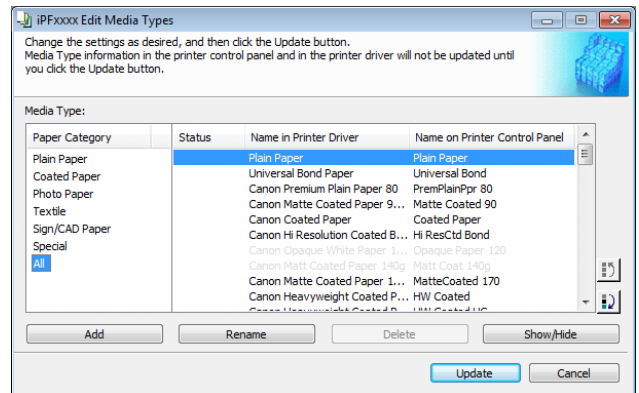

- Important**
- When setting a data to the printer that differs from the data to be updated, the selected media information file is updated. When you would like to remain the data that is set to the printer, click the **Cancel** button.
 - Do not attempt to print or turn the printer off while the program is communicating with the printer.

5 Click the **OK** button.

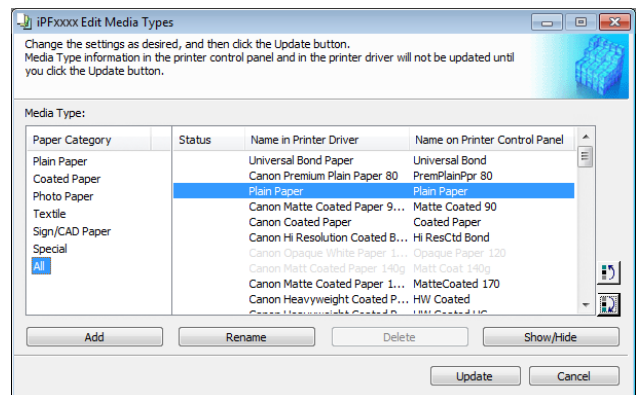

Changing the Display Order of Media Types

1 Open the **Edit Media Types** dialog box.

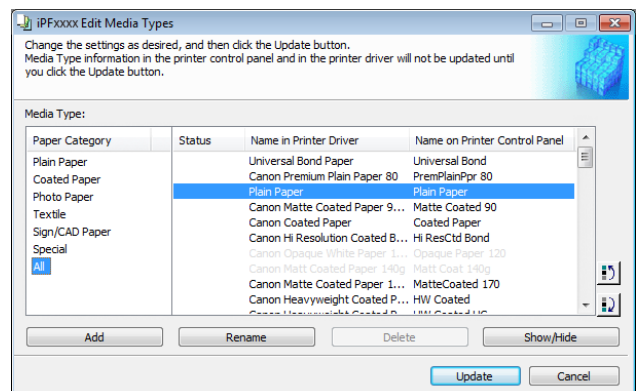

- For details on the procedure for opening the **Edit Media Types** dialog box, see "Editing Media Type Information for Genuine Paper and Feed Confirmed Paper." → P.397

2 Select the paper in the **Media Type** list for which to change the display order, and then click the buttons to move the item ( or ).
The selected item moves one line up or down for every button click.

3 In the **Edit Media Types** dialog box, click the **Update** button.

- 4** The **Confirm Update** dialog box is displayed. Configure Update Target and click the **Execute** button. Communication with the printer begins.

Note

- You should normally select **Update the printer control panel and printer driver**.

Important

- When setting a data to the printer that differs from the data to be updated, the selected media information file is updated. When you would like to remain the data that is set to the printer, click the **Cancel** button.
- Do not attempt to print or turn the printer off while the program is communicating with the printer.

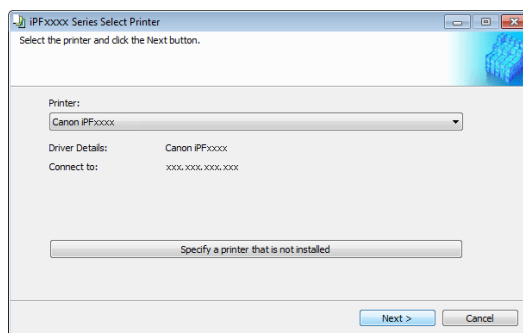

- 5** Click the **OK** button.

Using Paper Other than Genuine Paper and Feed Confirmed Paper

To add paper other than Canon genuine paper and feed confirmed paper to the printer control panel and printer driver, and export and import the media information file for that paper, click the **Add and Edit Custom Paper** button in the Media Configuration Tool main window.

Confirm the printer, where media type information is to be updated, to be displayed in **Printer** in the **Select Printer** dialog box, and then click the **Next** button.

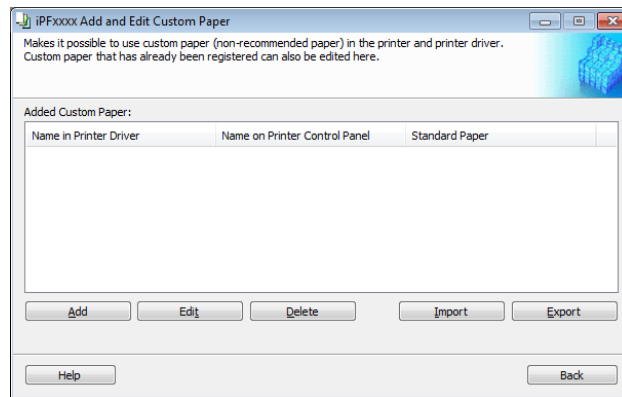

Communication with the printer begins.
The **Add and Edit Custom Paper** dialog box is displayed.

Note

- In the following screens, you cannot change the printer where media type information is to be updated.
- Custom paper is paper other than Canon genuine paper and feed confirmed paper (paper that is detailed in the Paper Reference Guide).

- **Added Custom Paper**

Added custom paper is displayed here.

- **Name in Printer Driver**
Added custom paper is displayed in the printer driver using this name.
- **Name on Printer Control Panel**
Added custom paper is displayed on the printer control panel using this name.
- **Standard Paper**
Displays the paper selected as the standard paper when the custom paper was added.

- **Add Button**

To add new custom paper to the printer control panel and printer driver, click this button.

For details on the procedure for adding custom paper, see "Add Custom Paper." →P.410

- **Edit Button**

To change the settings of added custom paper, select the paper to edit and click this button.

For details on the procedure for changing custom paper settings, see "Edit Custom Paper." →P.416

- **Delete Button**

To delete added custom paper from the printer control panel and printer driver in your computer, select the paper to delete and click this button.

For details on the procedure for deleting custom paper, see "Delete Custom Paper." →P.416

- **Import Button**

To add custom paper to the printer control panel and printer driver by importing a Custom Media Information File saved in a folder, click this button.

For details on the procedure for importing a Custom Media Information File, see "Import Custom Media Information." →P.418

- **Export Button**

To export media information for added custom paper to a file, select the paper to export and click this button.

For details on the procedure for exporting media information for custom paper, see "Export Custom Media Information." →P.417

**Important**

- When adding custom paper, designate a computer for managing paper in advance and always add custom paper from that computer. To use that custom paper on other computers, first export the Custom Media Information File (.am1 file) for that custom paper from the computer for managing paper, and then import it into another computer for use.
- To use a Custom Media Information File (.am1 file) created outside of the network where the target printer is being used, first import it into the computer for managing paper. If you also want to use it on other computers, import and use a Custom Media Information File (.am1 file) newly exported from the computer for managing paper.
- When importing a Custom Media Information File (.am1 file) that was created on the computer for managing paper, first delete custom paper that does not exist on the computer for managing paper.
- When deleting custom paper, make the same changes on all of the other PCs that use the target printer.
- When using custom paper in another printer, always add the custom paper to that printer before use.

**Note**

- Canon genuine paper and feed confirmed paper cannot be changed from this dialog box. Refer to "Editing Media Type Information for Genuine Paper and Feed Confirmed Paper" → P.397 .
- Changing the display order of media types displayed in the printer control panel and printer driver is performed from the **Edit Media Types** dialog box regardless of whether it is Canon genuine paper or custom paper. Refer to "Editing Media Type Information for Genuine Paper and Feed Confirmed Paper" → P.397 .

Compatible Paper

Paper specifications

Refer to "Specifications" and "Paper" for specifications such as thickness and size of paper that can be added as custom paper (See "Specifications.") → P.660

Notes on the operating environment

In low humidity environments (below 40%), your printer may develop the following problems.

- Paper becomes curled or wrinkled.
- Paper and the printhead are more likely to touch each other, resulting in a scratched print surface or damaged printhead.
- The cut printed matter sticks to the printer and will not fall down (film media).
- Paper sticks to the printer, making its transfer impossible and preventing its normal ejection (film media).
- Uneven printing (film media)

In high humidity environments (over 60%), your printer may develop the following problems.

- Printed matter will not dry.
- Wavy paper surface
- Cut edges are ragged (fabric media).
- Margins remain due to borderless printing.

**Important**

- Canon offers absolutely no guarantees regarding the print quality or paper feed properties of customer paper (paper that is not Canon genuine paper or Canon feed confirmed paper).

Add Custom Paper

In order to add new custom paper to the printer control panel and printer driver, first select the media type to use as the basis from among the Canon genuine paper and feed confirmed paper. Add this as custom paper after making various changes to the standard paper as necessary.

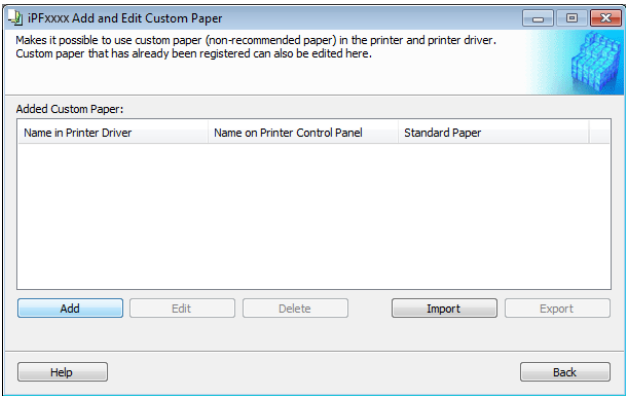

- **Important**
- Canon offers absolutely no guarantees regarding the print quality or paper feed properties of customer paper.
 - For Canon genuine paper and Canon feed confirmed paper, print using the media type as recommended in the Paper Reference Guide. The print quality and feed properties are not guaranteed if you use Add Custom Paper in the Media Configuration Tool.
 - Do not execute printing on the target printer while adding custom paper.
 - When adding custom paper, check the specifications of paper that can be added using "Compatible Paper" →P.409 .

1 Open the **Add and Edit Custom Paper** dialog box.

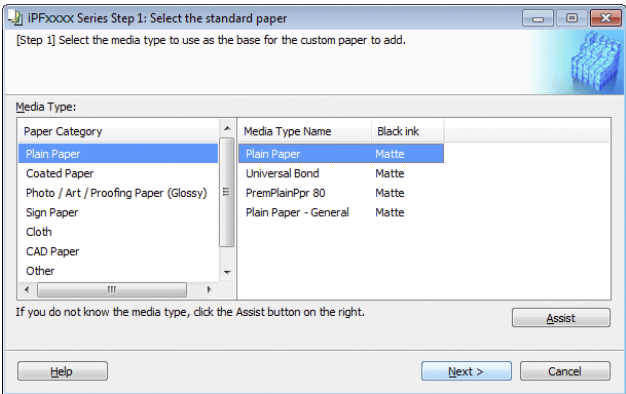

- For details on the procedure for opening the **Add and Edit Custom Paper** dialog box, see "Using Paper Other than Genuine Paper and Feed Confirmed Paper." →P.407

2 Click the **Add** button.

3 The **Step 1: Select the standard paper** dialog box is displayed. In **Paper Category**, select the category of media type to use as the basis of the custom paper you are adding.

- **Important**
- Select the category that you think is the closest to the custom paper you are adding.

- 4** The media type names of the Canon genuine paper and feed confirmed paper within the selected category are shown in **Media Type Name**. Select the media type to use as the basis of the custom paper, and click the **Next** button.

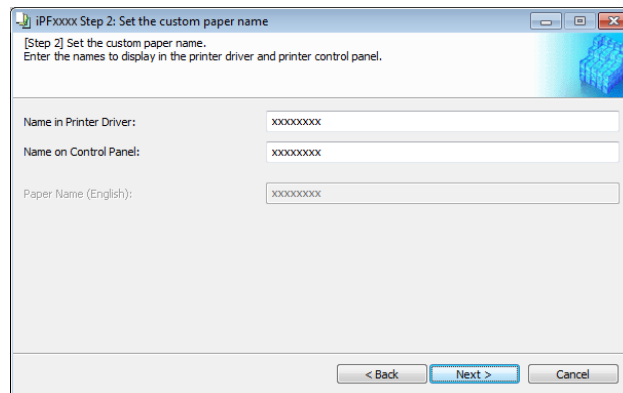

Note

- If you do not know which media type to use as the basis of the custom paper, click the **Assist** button to open the **Media Type Selection Assistance** dialog box, and then set either the **Weight (grammage)** or the **Thickness**. The Media Configuration Tool automatically selects the appropriate paper from the selected paper category. Alternatively, select the media type called **General** from among the displayed **Media Type Name**.
- Depending on the selected category, there might not be a media type called **General**.
- Depending on the selected category, the **Assist** button may be disabled.

- 5** The **Step 2: Set the custom paper name** dialog box is displayed.

Enter an arbitrary name to display in the printer control panel and printer driver, and then click the **Next** button.

Note

- Depending on the selected standard paper, you might not be able to input the **Name in Printer Driver** and add the created custom paper to the printer driver. To use the custom paper in the printer driver, create it by changing the standard paper to another paper.
- The characters that can be entered for **Name in Printer Driver** and **Name on Control Panel** are stated below.
alphanumeric, space, "-", ".", "_", "(", ")", "+", "%", ",", "/"
- For **Name in Printer Driver** up to 32 one Byte characters can be entered, and for **Name on Control Panel** up to 16 one Byte characters can be entered.
- **Paper Name (English)** is used in keeping track of the amount of roll paper left, in status print, etc. For **Paper Name (English)** up to 16 one Byte characters can be entered.

- 6** Load the custom paper in the printer and then click the **OK** button.

Important

- Do not load paper that is curled or that has already been printed on.

7 The **Step 3: Paper Source Settings** dialog box is displayed. Select the paper source where the custom paper is loaded and then click the **OK** button.

8 The **Step 4: Paper feed adjustment** dialog box is displayed. Click the **Execute** button to execute paper feed adjustment. The adjustment pattern is printed, and the paper feed is automatically adjusted based on the printing result. Once the paper feed adjustment is complete, click the **Next** button.

**Important**

- Check that there is no paper left on the ejection guide.
- If **Paper Feed Adjustment** is not executed, horizontal stripes with different color tones may appear in the printed material. Paper feed adjustment does not need to be executed more than once. Execute paper feed adjustment only once each time you add a custom paper.

9 The **Roll Paper Settings** dialog box is displayed.

**Note**

- If a paper source other than **Roll Paper** is selected in the **Step 3: Paper Source Settings** dialog box, this screen is not displayed.

Configure the following settings as necessary, and then click the **Next** button.

Setting	Details
Automatic Cutting Settings	Configures the method for cutting roll paper when it is ejected after printing. <ul style="list-style-type: none">• Automatic Cut:Roll paper is automatically cut by the cutter unit.• Eject Cut:When the Cut key is pressed on the printer control panel, the roll paper is cut by the cutter unit. Select this if you do not want the printed material to drop immediately after printing, such as to wait for the ink to dry.

Setting	Details
Automatic Cutting Settings	<ul style="list-style-type: none"> • User Cut: Cutting is not performed by the cutter unit. Cut the roll paper using scissors after each sheet. Select this for paper that cannot be cut by the cutter unit.
Drying Time	<p>Specify the time that the printer waits for ink to dry, as needed.</p> <ul style="list-style-type: none"> • Off: Ejects immediately after printing finishes. • 30 sec./1 min./3 min./5 min./10 min./30 min./60 min.: Ejects after the specified time has elapsed after printing finishes.
Borderless Printing	<p>Configures whether or not to permit borderless printing.</p> <ul style="list-style-type: none"> • Permit: Borderless printing is permitted. • Deny: Borderless printing is denied.

Important

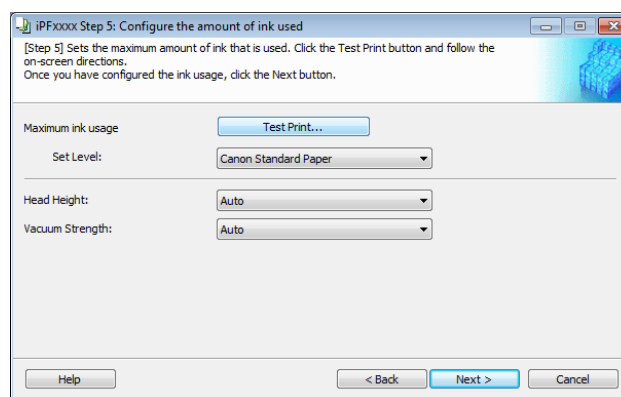

- Depending on the paper, there are types that cannot be cut by the cutter unit, and types that speed deterioration of the blade and cause damage to the cutter. For thick paper, hard paper, etc. do not use the cutter unit, and instead cut the roll paper using scissors, etc. after printing. In this case, select **User Cut** as the **Automatic Cutting Settings**.
- If borderless printing is performed on paper where the ink drying is poor, the cutter unit may leave scratches where it touches the printed surface, or may not cut correctly. In this kind of situation, configure the amount of time to wait for the ink to dry after printing using **Drying Time**. Alternatively, if the paper cannot be cut well by the cutter, set the **Automatic Cutting Settings** to **User Cut** and cut the roll paper using scissors, etc.
- Paper where borderless printing can be performed is limited by the media type and roll paper width. Refer to "Compatible Paper" → P.409 .
- For custom paper where there is a need to set the **Automatic Cutting Settings** to **User Cut**, set the **Borderless Printing** to **Deny**.

10

The **Step 5: Configure the amount of ink used** dialog box is displayed.

The upper limit on the amount of ink used to print to the custom paper is set on this screen by selecting from among several levels.

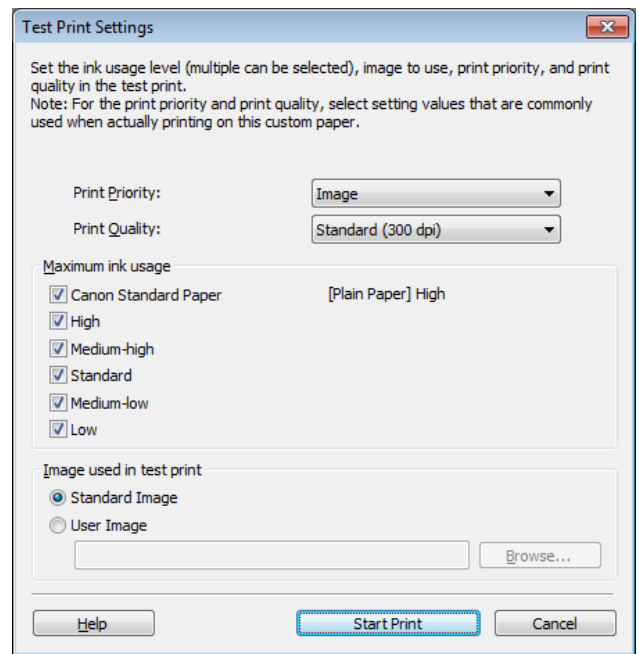

First, click the **Test Print** button to perform a test print of each level.

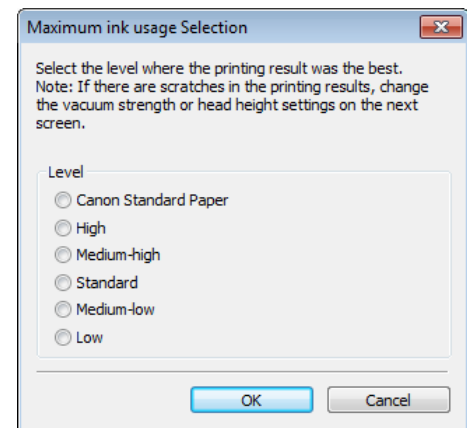

Note

- If a standard paper that does not display the **Name in Printer Driver** is selected in the screen in Step 5, you cannot perform test prints or configure the maximum amount of ink to use.

- 11** The **Test Print Settings** dialog box is displayed. Select the print priority and print quality of the test print using **Print Priority** and **Print Quality**. Set the level to test print using **Maximum ink usage** and the image to use using **Image used in test print**, and then click the **Start Print** button.

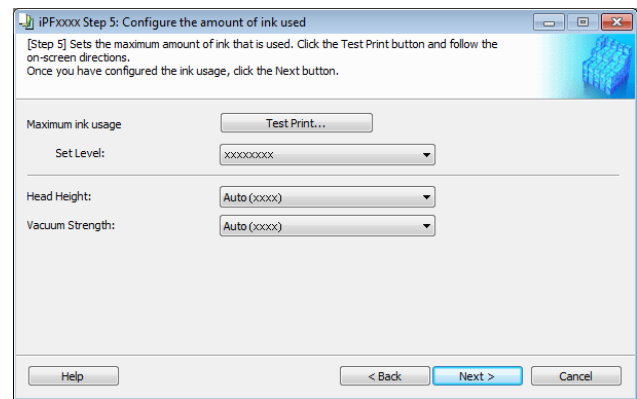

- 12** Determine and set the ink level that is thought to give the best visual test print results with no bleeding or scraping of ink.

Note

- Select the optimal ink level by referring to the help.
- If you cannot obtain sufficiently high quality printing no matter which maximum ink usage level you select, use the **Step 1: Select the standard paper** dialog box to change the paper that is the basis of the custom paper to another paper.
- Because this settings imposes an upper limit on the amount of ink used during printing, the printing result might not change even if the level is changed depending on the image.
- The color tone cannot be configured using the Media Configuration Tool. Although the color tone may change when the maximum ink usage is changed, at this point you should select the optimal level by only focusing on bleeding and scraping of ink. If the color tone needs to be adjusted, provide an ICC color profile that matches the paper you are using, and select that ICC color profile in your software. For details on how to specify the ICC profile in the printer driver, see "Matching Sheet ." →P.167
- Depending on the maximum ink usage setting, some of the print qualities in the printer driver may become unselectable.

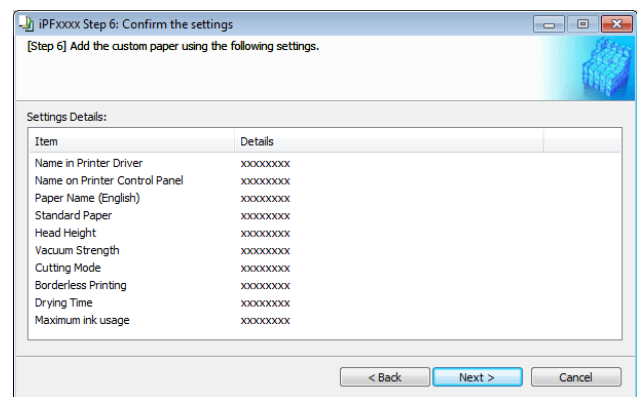

- 13** Configure **Head Height** and **Vacuum Strength** as required and click the **Next** button.
Usually, these do not need to be set.

Important

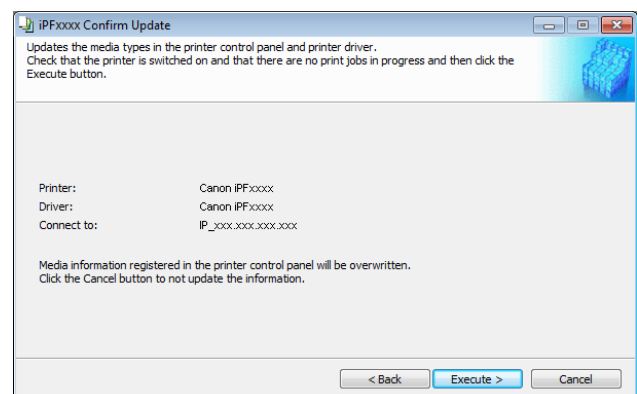

- If you set the **Head Height** lower than the automatically set height in parentheses (), check that the print-head does not rub against the paper. (If the printhead rubs against the paper, there will be scratches in the printing results.) If the printhead rubs against the paper, this can cause damage to the printhead.
- If you change the **Vacuum Strength**, check that the printhead is not rubbing against the paper. (If the printhead rubs against the paper, there will be scratches in the printing results.) If the printhead rubs against the paper, this can cause damage to the printhead.
- For details on the **Head Height** and **Vacuum Strength**, refer to the help.

- 14** The **Step 6: Confirm the settings** dialog box is displayed.
Configure the settings of the custom paper, and then click the **Next** button.

- 15** The **Confirm Update** dialog box is displayed.
Confirm the updates and then click the **Execute** button.

The custom paper is added to the control panel of the printer and to the printer driver of the PC you are using.

Note

- When the custom paper is correctly added to the printer driver, the name of the added custom paper is displayed in the **Edit Media Types** dialog box that is opened by **Add Genuine Paper** in the Media Configuration Tool window.

Delete Custom Paper

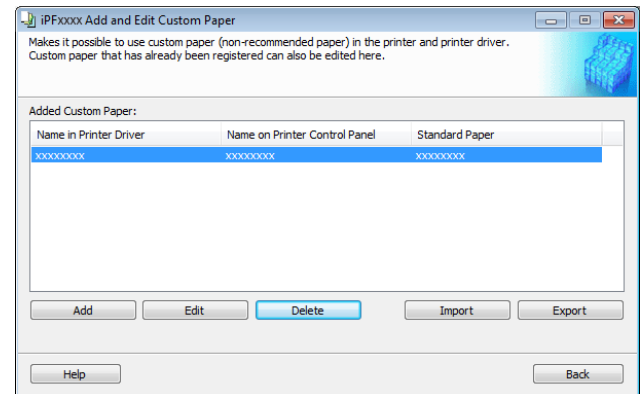

You can delete custom paper that you have already added from printer control panel and from the printer driver of the PC you are using.

- 1 Open the **Add and Edit Custom Paper** dialog box.

- For details on the procedure for opening the **Add and Edit Custom Paper** dialog box, see "Using Paper Other than Genuine Paper and Feed Confirmed Paper." →P.407

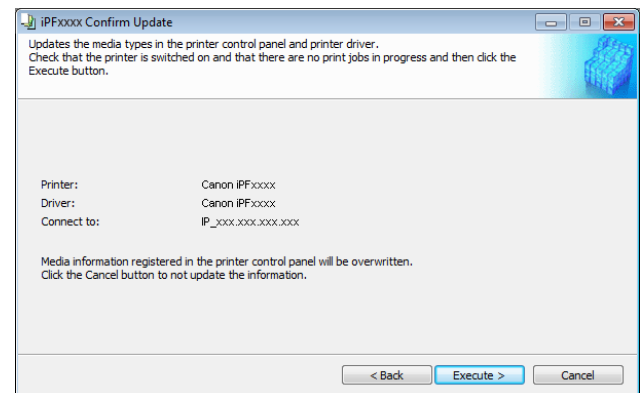

- 2 Select the paper you want to delete from the **Added Custom Paper** list and then click the **Delete** button.

- You can select multiple paper.

- 3 The **Confirm Update** dialog box is displayed. Confirm the updates and then click the **Execute** button.

The custom paper is deleted from the control panel of the printer and from the printer driver of the PC you are using.

Edit Custom Paper

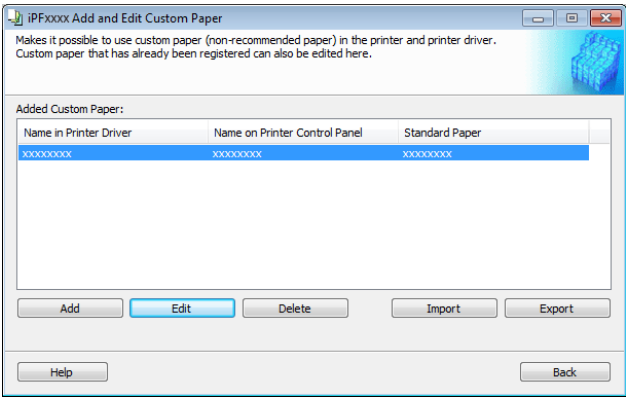

You can change the settings of custom paper you have already added.

- 1 Open the **Add and Edit Custom Paper** dialog box.

- For details on the procedure for opening the **Add and Edit Custom Paper** dialog box, see "Using Paper Other than Genuine Paper and Feed Confirmed Paper." →P.407

2 Select the paper you want to edit from the **Added Custom Paper** list and then click the **Edit** button.

3 The View Settings dialog box is displayed.
Follow the on-screen directions and change the settings as required.

- Refer to Steps 5 to 15 of the "Add Custom Paper" →P.410 for details on how to configure each setting.

Export Custom Media Information

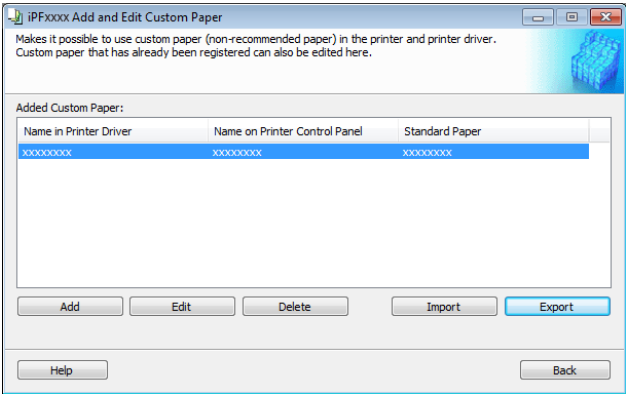

You can export to file and save media information about custom paper that you have added. The saved Custom Media Information File can be used by importing it into another printer or PC. Refer to "Import Custom Media Information" →P.418 for details on "importing custom media information".

1 Open the **Add and Edit Custom Paper** dialog box.

- For details on the procedure for opening the **Add and Edit Custom Paper** dialog box, see "Using Paper Other than Genuine Paper and Feed Confirmed Paper." →P.407

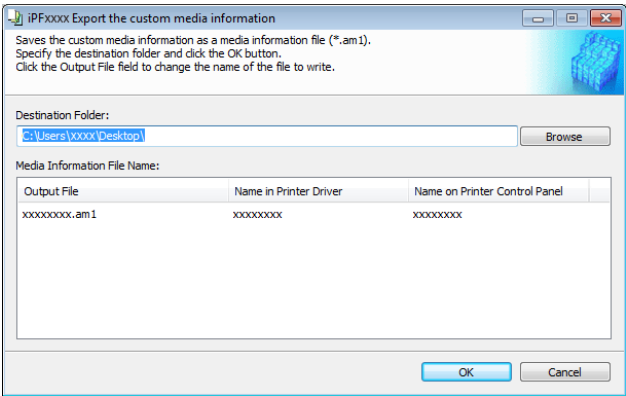

2 Select the paper you want to export to media information file from the **Added Custom Paper** list and then click the **Export** button.

- You can select multiple paper.

3 Specify the location to save the Custom Media Information File.

- You can change the file name by selecting and editing the File. A Custom Media Information File (.am1 file) is saved.

Import Custom Media Information

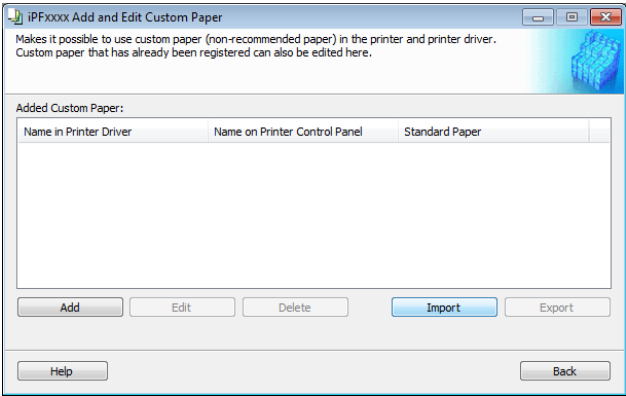

You can import a Custom Media Information File that has been saved in a folder, and add the file to the printer control panel and to the printer driver of the PC you are using.

1 Open the **Add and Edit Custom Paper** dialog box.

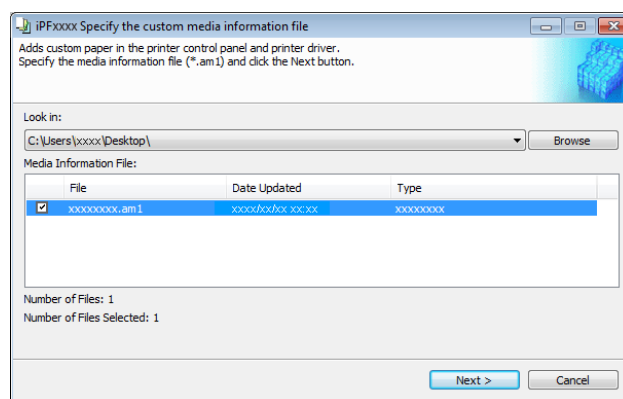

- For details on the procedure for opening the **Add and Edit Custom Paper** dialog box, see "Using Paper Other than Genuine Paper and Feed Confirmed Paper." →P.407

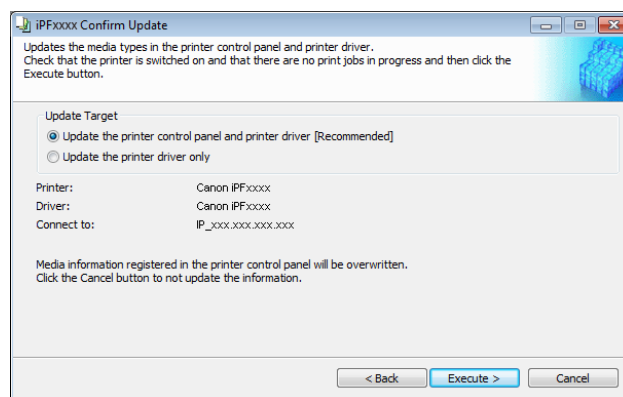

2 Click the **Import** button.

- 3** Select the Custom Media Information File (.am1 file) to import.

- 4** The **Confirm Update** dialog box opens. Click the **Execute** button.

Note

- You should normally select **Update the printer control panel and printer driver**. The custom paper is added to the control panel of the printer and to the printer driver of the PC you are using.
- When the custom paper is correctly added to the printer driver, the name of the added custom paper is displayed in the **Edit Media Types** dialog box that is opened by **Add Genuine Paper** in the Media Configuration Tool window.
- After importing custom paper, adjust the paper feed amount for that custom paper. For details on the method for adjusting the paper feed amount, see "Automatic Banding Adjustment." → P.559

Warnings

Take note of the following warnings when added custom paper other than Canon genuine paper and feed confirmed paper to the printer driver and the printer itself.

About the Cutter

- Depending on the paper, there are types that cannot be cut by the cutter unit, and types that speed deterioration of the blade and cause damage to the cutter. For thick paper, hard paper, etc. do not use the cutter unit, and instead cut the roll paper using scissors, etc. after printing. In this case, select **User Cut** as the **Automatic Cutting Settings** in the **Roll Paper Settings** dialog box.

Note

- If the cutter is damaged, contact your Canon dealer for assistance.
- For details on the methods for cutting roll paper, see "Specifying the Cutting Method for Rolls." → P.376

About the Printhead

- If the printhead rubs against the paper during printing, this may cause damage to the printhead. If the printhead is rubbing against the paper, configure the **Vacuum Strength** in the **Step 5: Configure the amount of ink used** dialog box as follows.
 - For paper-based media such as Heavyweight Coated Paper: Set to **Strong** or **Strongest**
 - For film-based media such as CAD Tracing Paper: Set to **Standard**, **Strong**, or **Strongest**
 - For thin paper of thickness 0.1mm or less: Set to **Weakest**

- If the printhead still rubs even after changing the **Vacuum Strength**, set the **Head Height** to be higher in the **Step 5: Configure the amount of ink used** dialog box.
- For details on how to handle the printhead rubbing against the paper, see "Paper rubs against the printhead." →P.622

About Borderless Printing

- When performing borderless printing on paper where the ink does not dry well, the cutter unit may leave scratches where it touches the printed surface, or may not cut correctly. In this kind of situation, configure the amount of time to wait for the ink to dry after printing using **Drying Time** in the **Roll Paper Settings** dialog box. Alternatively, if the paper cannot be cut well by the cutter, set the **Automatic Cutting Settings** to **User Cut** in the **Roll Paper Settings** dialog box, and cut the roll paper using scissors, etc.

About the Print Quality

- If the edges of images are blurry, set the **Vacuum Strength** to be weaker in the **Step 5: Configure the amount of ink used** dialog box.
- If lines are warped or scratched, set the **Head Height** to be lower in the **Step 5: Configure the amount of ink used** dialog box.
- If the amount of ink used is too much, wrinkles may appear and the ink may bleed in the printed material. Furthermore, if the amount of ink used is too little, color production may be poor and lines may become scratched. In this kind of situation, change the amount of ink used in the **Step 5: Configure the amount of ink used** dialog box.
- If horizontal bands with different color tone appear in the printed material, execute **Paper Feed Adjustment** in the **Step 4: Paper feed adjustment** dialog box. If you have already executed **Paper Feed Adjustment**, execute **Adj. Fine Feed** from the printer control panel and fine tune the amount of paper feed.

- For details on **Adj. Fine Feed**, see "Fine-Tuning the Paper Feed Amount." →P.562
- If horizontal bands appear even after executing **Adj. Fine Feed**, refer to "Banding in different colors occurs" in "Troubleshooting". (See "Banding in different colors occurs.") →P.624

- If printed sheets are affected by banding in different colors toward the end of the sheet (about 20–30 mm from the edge), try adjusting the feed amount of the trailing edge of sheets. (See "Adjusting Color on the Trailing Edge of Sheets.") →P.564
- If you cannot obtain sufficiently high print quality, change the maximum ink usage, or change the media type used as the basis for the custom paper in the **Step 1: Select the standard paper** dialog box.
- If there is no luster in printed material, set the paper used as the basis for the custom paper to a paper that uses photo ink as the Black ink. The types of Black ink used are displayed on the right side of each media type in the **Step 1: Select the standard paper** dialog box.

- For details on problems with printing quality, see "Problems with the printing quality." →P.621

About the Color Tone

- The color tone cannot be configured using the Media Configuration Tool. If the color tone needs to be adjusted, provide an ICC color profile that matches the paper you are using, and select that ICC color profile in your software. For details on how to specify the ICC color profile in the printer driver, see "**Matching Sheet** ." →P.167
- Custom paper cannot be used with the ambient light adjustment function or Monitor Matching in Color-Matching Method.

Checking the update

After updating the media information using the Media Configuration Tool, you can check whether the update has been applied to the printer in the control panel of the printer.

- 1 Click the **About** button in the Media Configuration Tool main window to open the **About** dialog box.
- 2 Check the value **xx.xx (xxxx)** of **MIT DB Version**.
- 3 Check the value **xx.xx (xxxx)** of **MIT** in **Set./Adj. Menu > Printer Info > System Info** in the printer control panel.
If the values in Steps 2 and 3 are the same, the update has been applied to the printer.

The Features of Media Configuration Tool

In imagePROGRAF, the best printer settings for each paper are collected together in media information files in order to give the highest quality printing results. Settings for Canon genuine paper and Canon feed confirmed paper are provided by Canon in these media information files.

- Canon genuine paper and Canon feed confirmed paper are detailed in the Paper Reference Guide. Any other paper is called custom paper.

The Media Configuration Tool allows you to perform the following tasks.

- When supported paper has been newly added to the printer, you can add that media type to the printer control panel and printer driver by using the media information file provided by Canon.
- You can customize Canon genuine paper and feed confirmed paper media information files to create a media information file for custom paper (paper that is neither Canon genuine paper or feed confirmed paper), and add that media type to the printer control panel and printer driver.
Furthermore, you can also import the created media information file into other computers and printers, and add media types to the printer drivers and printers of the computers where the data was imported.
- You can rearrange lists of the types of paper on the printer control panel and in printer driver dialog boxes and rename them, in addition to other functions.

- Normally, the Media Configuration Tool is installed and the media information is configured when you install the printer driver from the User Software CD-ROM. Use this software if you want to add new media information or edit existing media information.
- Administration of paper information using the Media Configuration Tool should be performed by the printer administrator.

Drivers Applicable with Media Configuration Tool

- imagePROGRAF Printer Driver

Procedures for Installing

Start the installer in the new version of Media Configuration Tool, and follow procedures below to install the Media Configuration Tool.

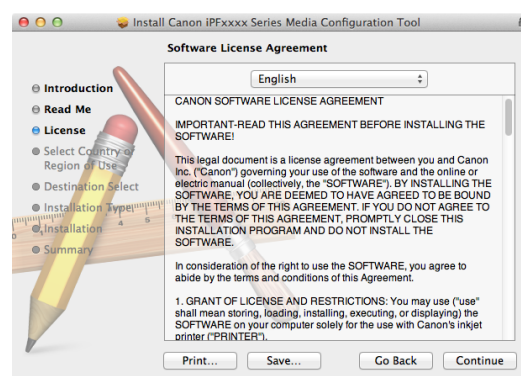

Important

- When you install the printer driver from the User Software CD-ROM, the Media Configuration Tool is also installed and the media information is also configured. The following procedure is therefore not normally needed. Perform the following procedure if you are installing the Media Configuration Tool without using the User Software CD-ROM, such as by downloading the latest version of the Media Configuration Tool from the Canon website.

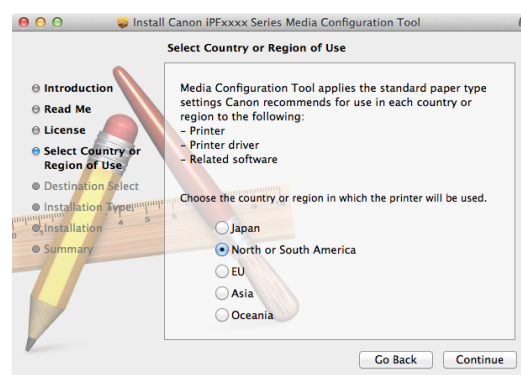

- 1 Double-click **Canon iPFxxxx Series Media Configuration Tool.pkg** to start the Media Configuration Tool installer.

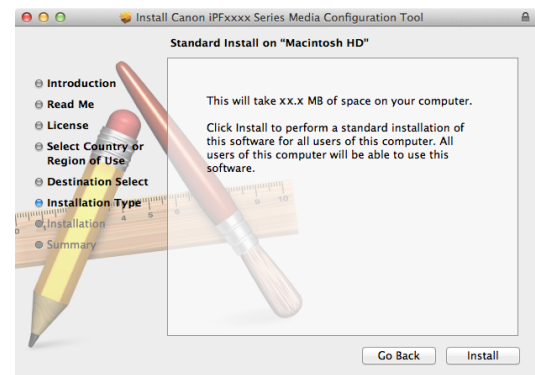

- 2 The **Software License Agreement** is displayed. After you have read Canon Software License Agreement, click the **Continue** button.

- 3 The next screen presents selections for the country or area where the printer is used. Select a country or territory then click the **Continue** button.

4 Click the **Install** button.

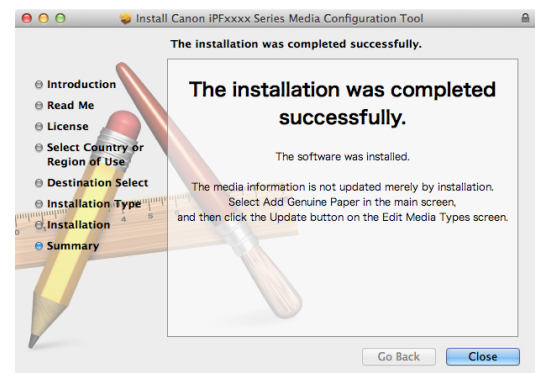

5 Enter an administrator name/password and click the **Install Software** button.

6 Click the **Close** button.

The installation of Media Configuration Tool is complete.

Note

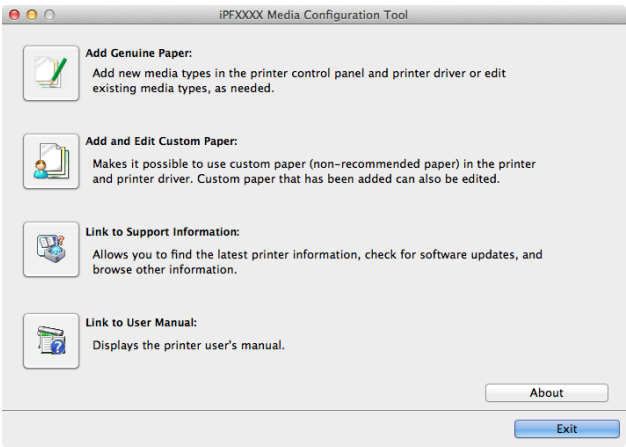

- When the installation is completed properly, the Media Configuration Tool folder is saved in the following folder.
Applications > Canon Utilities > iPFxxxx Media Configuration Tool
- The **iPFxxxx** in the folder above will be the printer name in use.

Starting Method

Follow the procedure below to start the Media Configuration Tool.

From the **Applications** menu > **Canon Utilities** > **iPFxxxx Media Configuration Tool** > **MCTxxxx.app**.

Media Configuration Tool main window is displayed.

Note

- If a compatible printer driver is not installed, the Media Configuration Tool will not start. If you attempt to start the Media Configuration Tool when a printer driver is not installed, the warning message below is displayed.

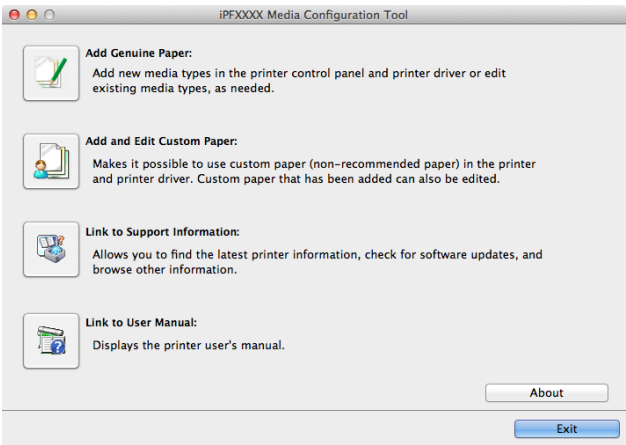

- If you only start the Media Configuration Tool, the media information on the printer control panel and in the printer driver is not updated. If this screen is displayed, select **Add Genuine Paper** in the main window, and click the **Update** button in the **Edit Media Types** screen to update the media information.

Media Configuration Tool Main Window

The explanation below is on the Media Configuration Tool main window.

Note

- For the step to open the Media Configuration Tool main window, see "Starting Method." → P.424

- **Add Genuine Paper** button

When this button is clicked, the **Edit Media Types** dialog box is displayed, which allows you to add media information files released by Canon to the printer control panel and printer driver. You can also change names, toggle between displaying and hiding, and delete added media types.

You can also change the display order of Canon genuine paper and custom paper.

Refer to "Editing Media Type Information for Genuine Paper and Feed Confirmed Paper" →P.426 for details on **Add Genuine Paper**.

- **Add and Edit Custom Paper** button

When this button is clicked, the **Add and Edit Custom Paper** dialog box is displayed, which allows you to added custom paper to the printer control panel and printer driver.

Refer to "Using Paper Other than Genuine Paper and Feed Confirmed Paper" →P.437 for details on **Add and Edit Custom Paper**.

- **Link to Support Information** button

You can check information such as the latest information for the product and software version upgrade information.

- **Link to User Manual** Button

Displays the printer user's manual

Editing Media Type Information for Genuine Paper and Feed Confirmed Paper

To add genuine paper and feed confirmed paper to the printer control panel and printer driver and edit the media type information, click the **Add Genuine Paper** button in the Media Configuration Tool main window.

Confirm the printer, where media type information is to be updated, to be displayed in **Printer** in the **Select Printer** dialog box, and then click the **Next** button.

Communication with the printer begins.

Important

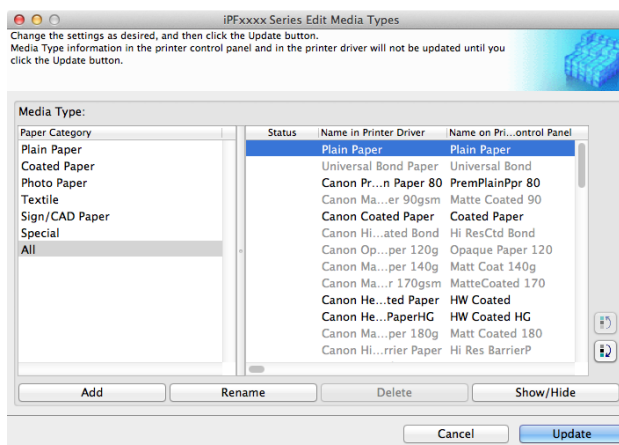

- Do not attempt to print or turn the printer off while the program is communicating with the printer.

The **Edit Media Types** dialog box is displayed.

Note

- In the following screens, you cannot change the printer where media type information is to be updated.

- Paper that is displayed grayed out does not appear in the printer driver or printer panel.

Note

• Add Button

To add genuine paper or feed confirmed paper to the printer control panel and printer driver, click this button. For details on the procedure for adding media types, see **"Adding Media Types."** →P.428

Important

- To add media types, download the media information file (.amf file) in advance from the Canon website.

• Rename Button

To change the name on the printer control panel and the name in the printer driver for genuine paper and feed confirmed paper, select the paper to change and click this button.

For details on the procedure for changing paper display names, see **"Changing Media Names."** →P.430

• Delete Button

To delete added genuine paper and feed confirmed paper from the printer control panel and printer driver, select the paper to delete and click this button.

For details on the procedure for deleting added media types, see **"Deleting Media Types You Have Added."** →P.432

• Show/Hide Button

To change whether or not genuine paper or feed confirmed paper is displayed in the printer control panel and printer driver, select the paper to change and click this button.

For details on the procedure for changing whether or not to display media types, see **"Switching Media Types Display Show/Hide."** →P.434

• Change Display Order button (or)

To change the display order of a media type in the printer control panel and printer driver, select the paper to change and click this button.

For details on the procedure for changing the display order of media types, see **"Changing the Display Order of Media Types."** →P.436

Note

- The display order for custom paper can also be changed.

Important

- When you update the media type information, perform the same update on all of the PCs that are using that printer.

- It may not be possible to deleting, showing/hiding, and changing the display order under some conditions.

Adding Media Types

Media information files (.amf files) released by Canon are registered in the printer control panel and printer driver.

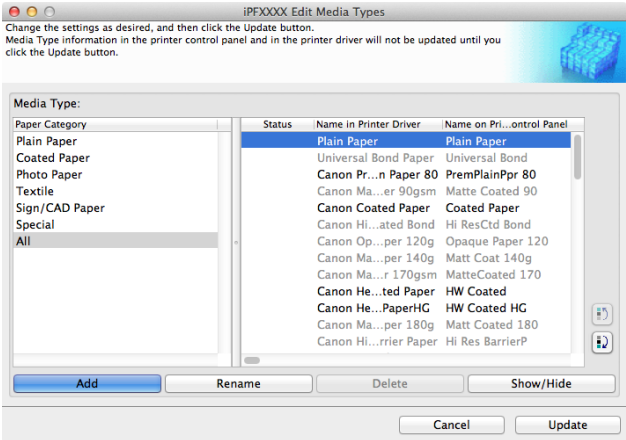

Important

- Do not perform printing on the target printer while adding the media types.
- Reinstalling Media Configuration Tool after registering a media information file may delete the registered media information file. In this case, first download and install latest Media Configuration Tool, then download and register the required media information file.

1

Open the **Edit Media Types** dialog box, and then click the **Add** button.

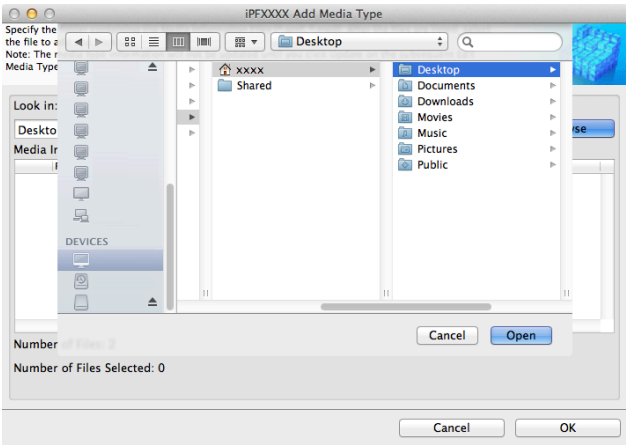

- For details on the procedure for opening the **Edit Media Types** dialog box, see "Editing Media Type Information for Genuine Paper and Feed Confirmed Paper." → P.426

2

The **Add Media Type** dialog box displays. Click the **Browse** button.

3 Open the folder that contains the media information files (.amf files).

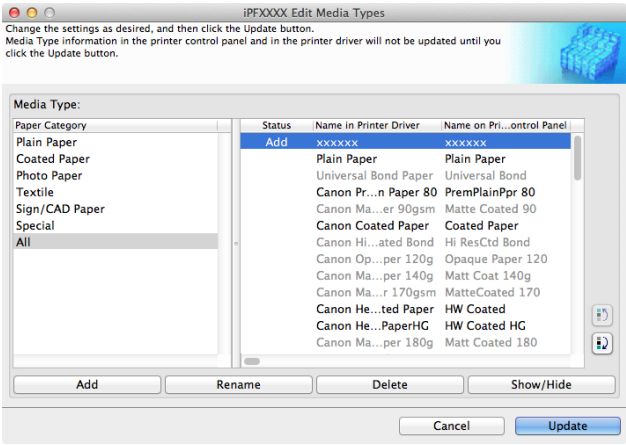

4 The names of the media information files contained in the selected folder are displayed in **Media Information File** in the **Add Media Type** dialog box. Select the check box for the paper you want to add and click the **OK** button.

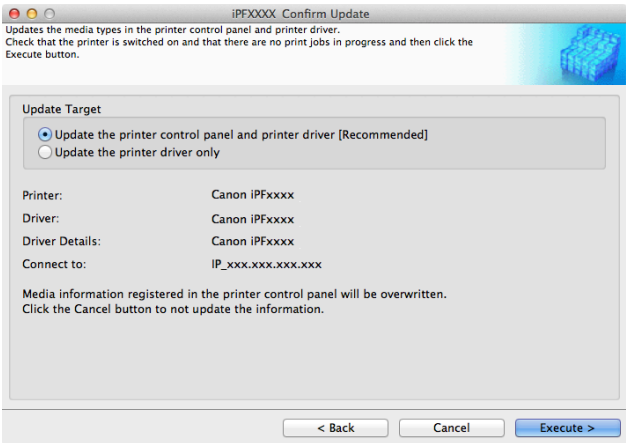

• If **Master Media Information File** is displayed as the **Type** of the **Media Information File**, the media type display order and media type display/non-display settings are initialized. Reconfigure these after added the master media information file.

5 Click **OK** when the confirmation message is displayed.

6 In the **Edit Media Types** dialog box, click the **Update** button.

7 The **Confirm Update** dialog box is displayed. Configure Update Target and click the **Execute** button. Communication with the printer begins.

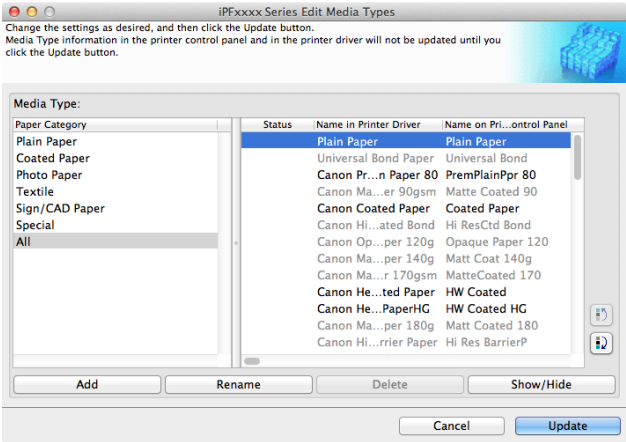

- **Note**
- You should normally select **Update the printer control panel and printer driver**.
- **Important**
- When setting a data to the printer that differs from the data to be updated, the selected media information file is updated. When you would like to remain the data that is set to the printer, click the **Cancel** button.
 - Do not attempt to print or turn the printer off while the program is communicating with the printer.

8 Click the **OK** button.

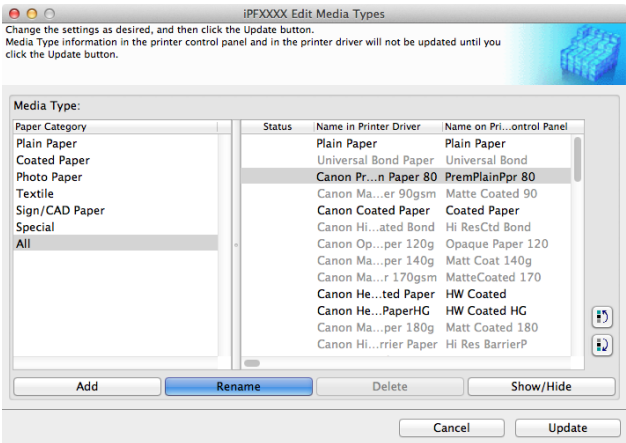

Changing Media Names

1 Open the **Edit Media Types** dialog box.

- **Note**
- For details on the procedure for opening the **Edit Media Types** dialog box, see "Editing Media Type Information for Genuine Paper and Feed Confirmed Paper." →P.426

2 In the **Media Type** list, select the name to change.
Click the **Rename** button.

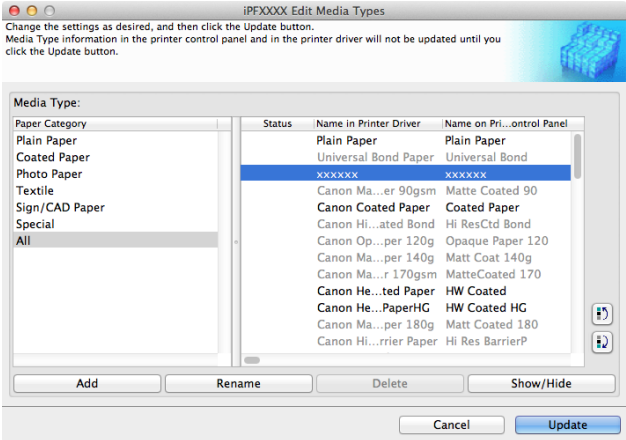

3 The **Rename Media** dialog box is displayed.
Edit the names in **Name in Printer Driver** and **Name on Control Panel** and click the **OK** button.

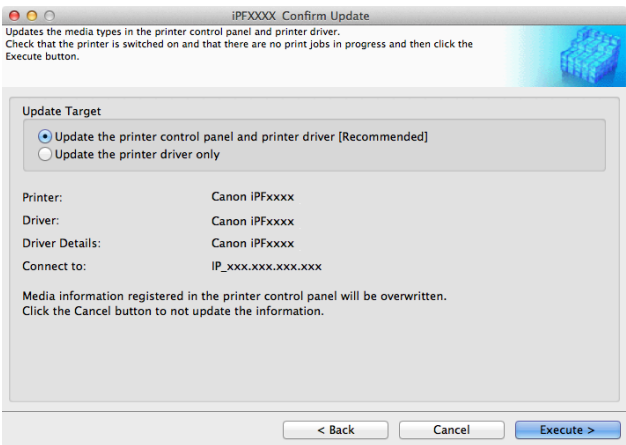

- To restore the original names, click the **Restore** button.
- The characters that can be entered for **Name in Printer Driver** and **Name on Control Panel** are stated below.
alphanumeric, space, "-", ".", "_", "(", ")", "+", "%", ";", "/"
- For **Name in Printer Driver** up to 32 one Byte characters can be entered, and for **Name on Control Panel** up to 16 one Byte characters can be entered.

4 In the **Edit Media Types** dialog box, click the **Update** button.

5 The **Confirm Update** dialog box is displayed. Configure Update Target and click the **Execute** button. Communication with the printer begins.

- 

Note
- You should normally select **Update the printer control panel and printer driver**.
- 

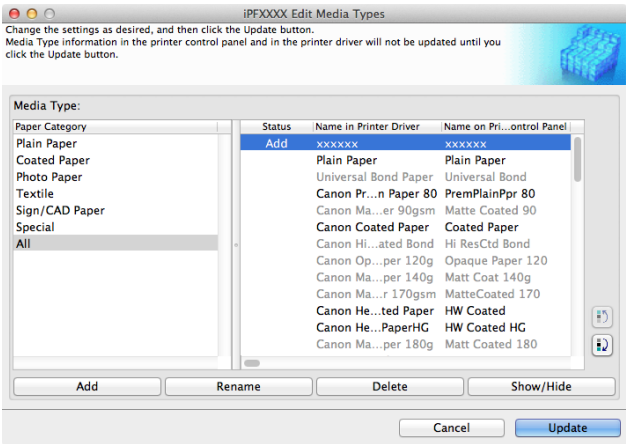

Important
- When setting a data to the printer that differs from the data to be updated, the selected media information file is updated. When you would like to remain the data that is set to the printer, click the **Cancel** button.
 - Do not attempt to print or turn the printer off while the program is communicating with the printer.

6 Click the **OK** button.

Deleting Media Types You Have Added

1 Open the **Edit Media Types** dialog box.

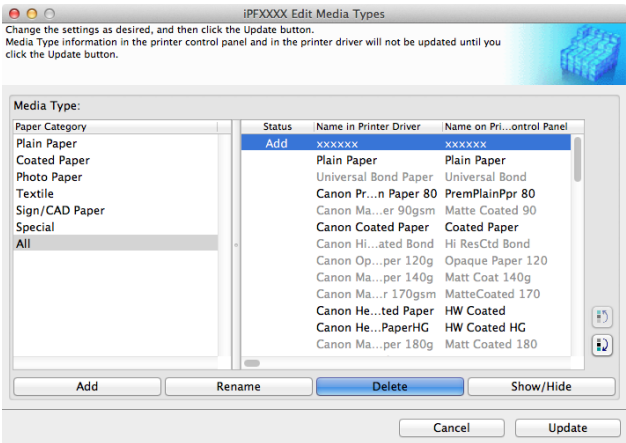

- 

Note
- For details on the procedure for opening the **Edit Media Types** dialog box, see "Editing Media Type Information for Genuine Paper and Feed Confirmed Paper." →P.426

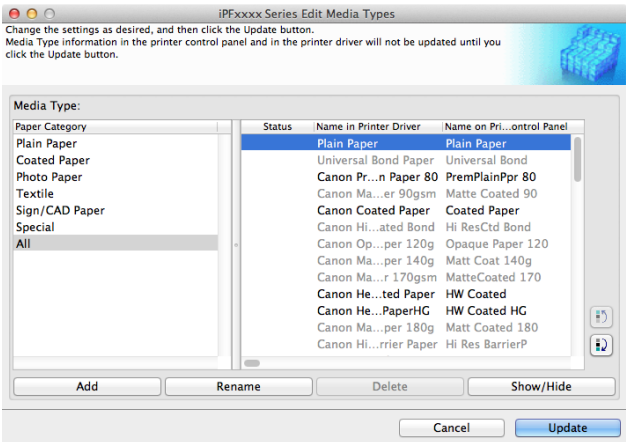

- 2
- In the **Media Type** list, select the name of the media to delete.

Click the **Delete** button.

- 
Note
- Only paper for which **Status** in the **Media Type** is **Add** can be deleted.

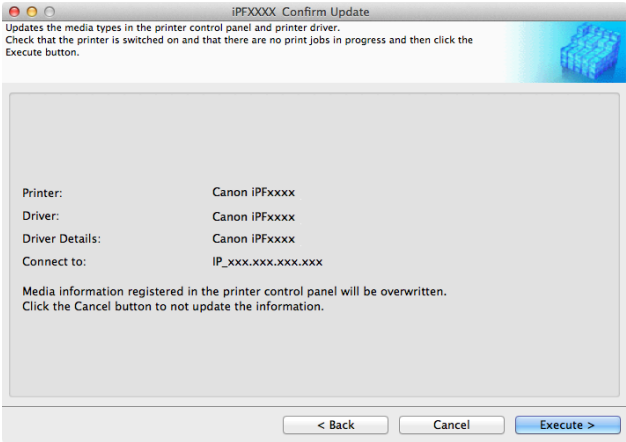

- 3
- In the **Edit Media Types** dialog box, click the **Update** button.

- 4
- The **Confirm Update** dialog box is displayed.

Click the **Execute** button.

Communication with the printer begins.

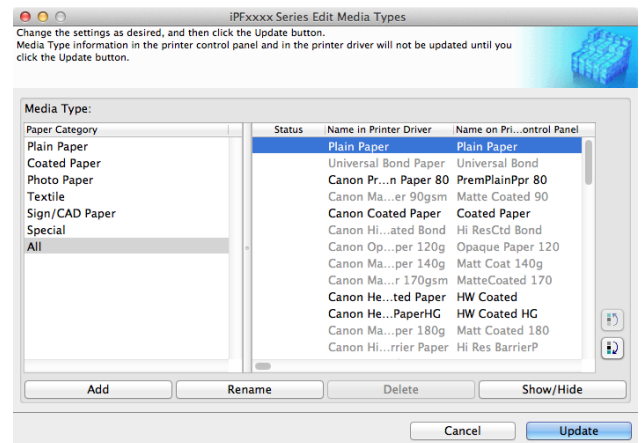

- 
Important
- When setting a data to the printer that differs from the data to be updated, the selected media information file is updated. When you would like to remain the data that is set to the printer, click the **Cancel** button.
 - Do not attempt to print or turn the printer off while the program is communicating with the printer.

5

Click the **OK** button.

Switching Media Types Display Show/Hide

1

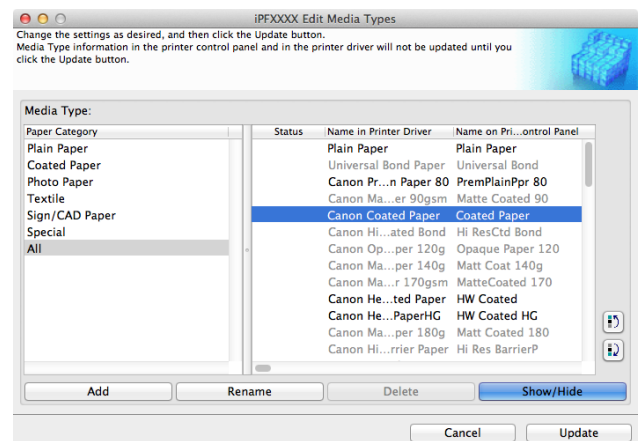

Open the **Edit Media Types** dialog box.

Note

- For details on the procedure for opening the **Edit Media Types** dialog box, see "Editing Media Type Information for Genuine Paper and Feed Confirmed Paper." → P.426

2

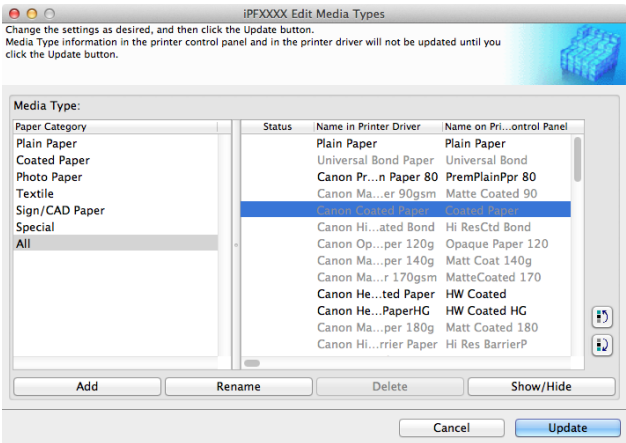

In the **Media Type** list, select the name of the media to switch off or on for display.
Click the **Show/Hide** button.
The selected paper is alternately shown or hidden.

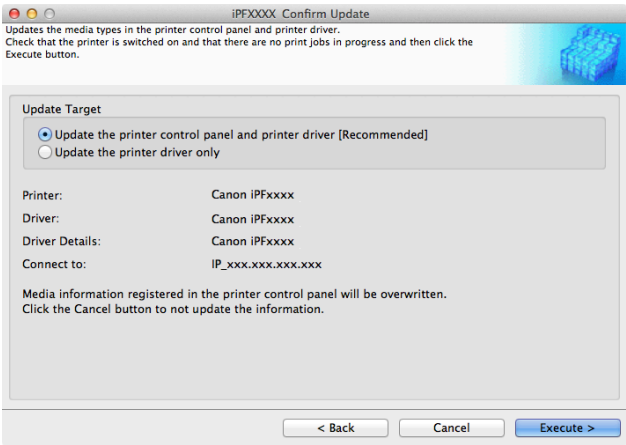

Note

- You can select multiple paper.
- The names of media switched for non-display appear grayed out in the **Media Type** list.
- Each time you click the **Show/Hide** button, the display mode cycles from showing both the printer driver and printer panel, to hiding both the printer driver and printer panel, and then to showing only the printer panel.

3 In the **Edit Media Types** dialog box, click the **Update** button.

4 The **Confirm Update** dialog box is displayed. Configure Update Target and click the **Execute** button. Communication with the printer begins.

- You should normally select **Update the printer control panel and printer driver**.

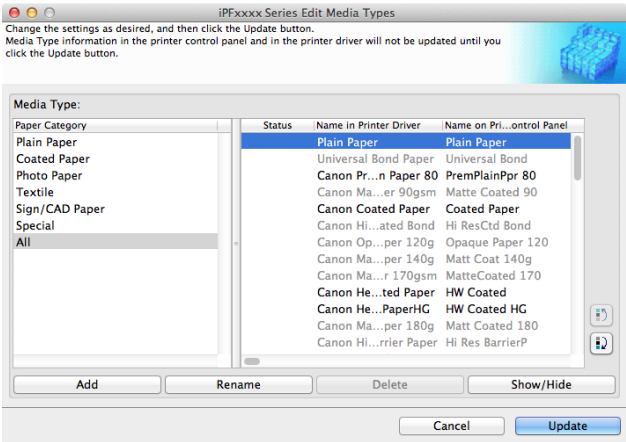

- When setting a data to the printer that differs from the data to be updated, the selected media information file is updated. When you would like to remain the data that is set to the printer, click the **Cancel** button.
- Do not attempt to print or turn the printer off while the program is communicating with the printer.

5 Click the **OK** button.

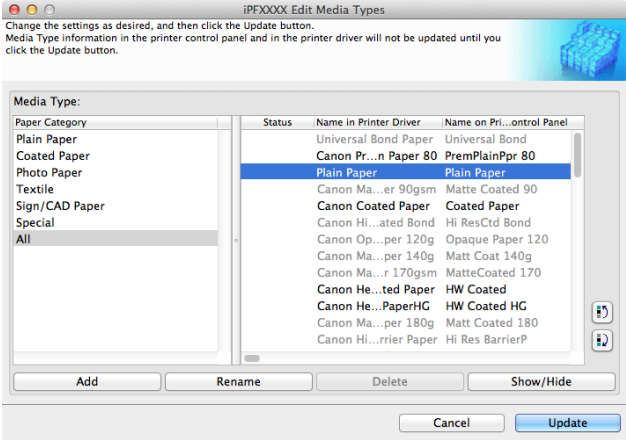

Changing the Display Order of Media Types

1 Open the **Edit Media Types** dialog box.

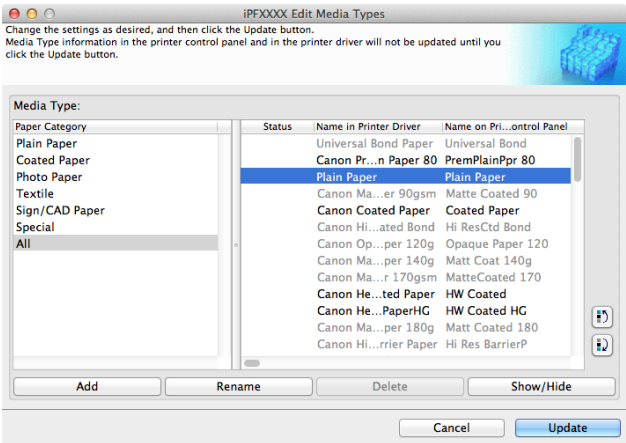

Note • For details on the procedure for opening the **Edit Media Types** dialog box, see "Editing Media Type Information for Genuine Paper and Feed Confirmed Paper." →P.426

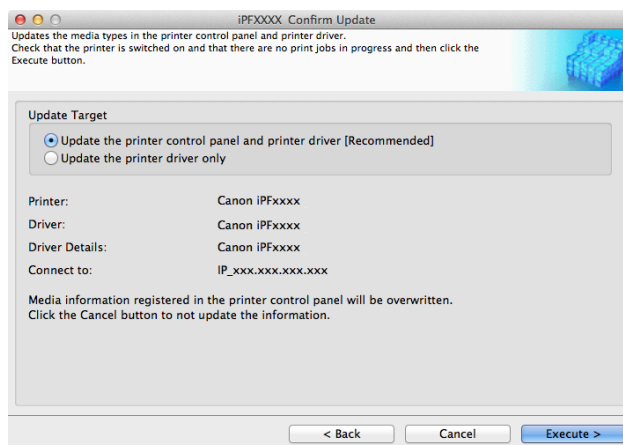

2 Select the paper in the **Media Type** list for which to change the display order, and then click the buttons to move the item ( or ).
The selected item moves one line up or down for every button click.

3 In the **Edit Media Types** dialog box, click the **Update** button.

- 4** The **Confirm Update** dialog box is displayed. Configure Update Target and click the **Execute** button. Communication with the printer begins.

Note

- You should normally select **Update the printer control panel and printer driver**.

Important

- When setting a data to the printer that differs from the data to be updated, the selected media information file is updated. When you would like to remain the data that is set to the printer, click the **Cancel** button.
- Do not attempt to print or turn the printer off while the program is communicating with the printer.

- 5** Click the **OK** button.

Using Paper Other than Genuine Paper and Feed Confirmed Paper

To add paper other than Canon genuine paper and feed confirmed paper to the printer control panel and printer driver, and export and import the media information file for that paper, click the **Add and Edit Custom Paper** button in the Media Configuration Tool main window.

Confirm the printer, where media type information is to be updated, to be displayed in **Printer** in the **Select Printer** dialog box, and then click the **Next** button.

Communication with the printer begins.
The **Add and Edit Custom Paper** dialog box is displayed.

Note

- In the following screens, you cannot change the printer where media type information is to be updated.
- Custom paper is paper other than Canon genuine paper and feed confirmed paper (paper that is detailed in the Paper Reference Guide).

• Added Custom Paper

Added custom paper is displayed here.

- **Name in Printer Driver**
Added custom paper is displayed in the printer driver using this name.
- **Name on Printer Control Panel**
Added custom paper is displayed on the printer control panel using this name.
- **Standard Paper**
Displays the paper selected as the standard paper when the custom paper was added.

• Add Button

To add new custom paper to the printer control panel and printer driver, click this button.

For details on the procedure for adding custom paper, see "Add Custom Paper." →P.440

• Edit Button

To change the settings of added custom paper, select the paper to edit and click this button.

For details on the procedure for changing custom paper settings, see "Edit Custom Paper." →P.447

• Delete Button

To delete added custom paper from the printer control panel and printer driver in your computer, select the paper to delete and click this button.

For details on the procedure for deleting custom paper, see "Delete Custom Paper." →P.446

• Import Button

To add custom paper to the printer control panel and printer driver by importing a Custom Media Information File saved in a folder, click this button.

For details on the procedure for importing a Custom Media Information File, see "Import Custom Media Information." →P.448

• Export Button

To export media information for added custom paper to a file, select the paper to export and click this button.

For details on the procedure for exporting media information for custom paper, see "Export Custom Media Information." →P.447

- When adding custom paper, designate a computer for managing paper in advance and always add custom paper from that computer. To use that custom paper on other computers, first export the Custom Media Information File (.am1 file) for that custom paper from the computer for managing paper, and then import it into another computer for use.
- To use a Custom Media Information File (.am1 file) created outside of the network where the target printer is being used, first import it into the computer for managing paper. If you also want to use it on other computers, import and use a Custom Media Information File (.am1 file) newly exported from the computer for managing paper.
- When importing a Custom Media Information File (.am1 file) that was created on the computer for managing paper, first delete custom paper that does not exist on the computer for managing paper.
- When deleting custom paper, make the same changes on all of the other PCs that use the target printer.
- When using custom paper in another printer, always add the custom paper to that printer before use.

- Canon genuine paper and feed confirmed paper cannot be changed from this dialog box. Refer to "Editing Media Type Information for Genuine Paper and Feed Confirmed Paper" → P.426 .
- Changing the display order of media types displayed in the printer control panel and printer driver is performed from the **Edit Media Types** dialog box regardless of whether it is Canon genuine paper or custom paper. Refer to "Editing Media Type Information for Genuine Paper and Feed Confirmed Paper" → P.426 .

Compatible Paper

Paper specifications

Refer to "Specifications" and "Paper" for specifications such as thickness and size of paper that can be added as custom paper (See "Specifications.") → P.660

Notes on the operating environment

In low humidity environments (below 40%), your printer may develop the following problems.

- Paper becomes curled or wrinkled.
- Paper and the printhead are more likely to touch each other, resulting in a scratched print surface or damaged printhead.
- The cut printed matter sticks to the printer and will not fall down (film media).
- Paper sticks to the printer, making its transfer impossible and preventing its normal ejection (film media).
- Uneven printing (film media)

In high humidity environments (over 60%), your printer may develop the following problems.

- Printed matter will not dry.
- Wavy paper surface
- Cut edges are ragged (fabric media).
- Margins remain due to borderless printing.

- Canon offers absolutely no guarantees regarding the print quality or paper feed properties of customer paper (paper that is not Canon genuine paper or Canon feed confirmed paper).

Add Custom Paper

In order to add new custom paper to the printer control panel and printer driver, first select the media type to use as the basis from among the Canon genuine paper and feed confirmed paper. Add this as custom paper after making various changes to the standard paper as necessary.

- **Important**
- Canon offers absolutely no guarantees regarding the print quality or paper feed properties of customer paper.
 - For Canon genuine paper and Canon feed confirmed paper, print using the media type as recommended in the Paper Reference Guide. The print quality and feed properties are not guaranteed if you use Add Custom Paper in the Media Configuration Tool.
 - Do not execute printing on the target printer while adding custom paper.
 - When adding custom paper, check the specifications of paper that can be added using "Compatible Paper" [→P.439](#) .

1 Open the **Add and Edit Custom Paper** dialog box.

- For details on the procedure for opening the **Add and Edit Custom Paper** dialog box, see "Using Paper Other than Genuine Paper and Feed Confirmed Paper." [→P.437](#)

2 Click the **Add** button.

3 The **Step 1: Select the standard paper** dialog box is displayed. In **Paper Category**, select the category of media type to use as the basis of the custom paper you are adding.

- Select the category that you think is the closest to the custom paper you are adding.

- 4** The media type names of the Canon genuine paper and feed confirmed paper within the selected category are shown in **Media Type Name**. Select the media type to use as the basis of the custom paper, and click the **Next** button.

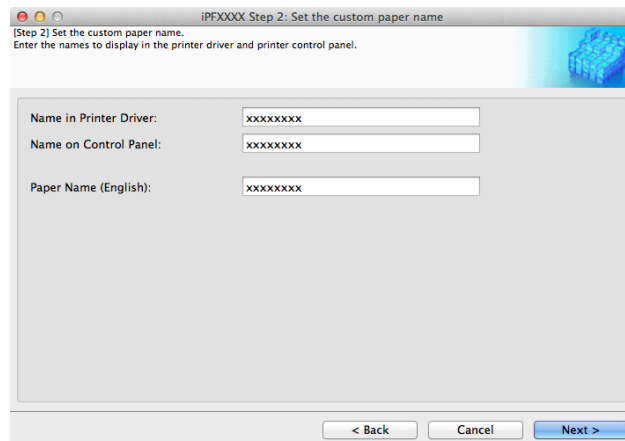

Note

- If you do not know which media type to use as the basis of the custom paper, click the **Assist** button to open the **Media Type Selection Assistance** dialog box, and then set either the **Weight (grammage)** or the **Thickness**. The Media Configuration Tool automatically selects the appropriate paper from the selected paper category. Alternatively, select the media type called **General** from among the displayed **Media Type Name**.
- Depending on the selected category, there might not be a media type called **General**.
- Depending on the selected category, the **Assist** button may be disabled.

- 5** The **Step 2: Set the custom paper name** dialog box is displayed.

Enter an arbitrary name to display in the printer control panel and printer driver, and then click the **Next** button.

Note

- Depending on the selected standard paper, you might not be able to input the **Name in Printer Driver** and add the created custom paper to the printer driver. To use the custom paper in the printer driver, create it by changing the standard paper to another paper.
- The characters that can be entered for **Name in Printer Driver** and **Name on Control Panel** are stated below.
alphanumeric, space, "-", ".", "_", "(", ")", "+", "%", ";", "/"
- For **Name in Printer Driver** up to 32 one Byte characters can be entered, and for **Name on Control Panel** up to 16 one Byte characters can be entered.
- **Paper Name (English)** is used in keeping track of the amount of roll paper left, in status print, etc. For **Paper Name (English)** up to 16 one Byte characters can be entered.

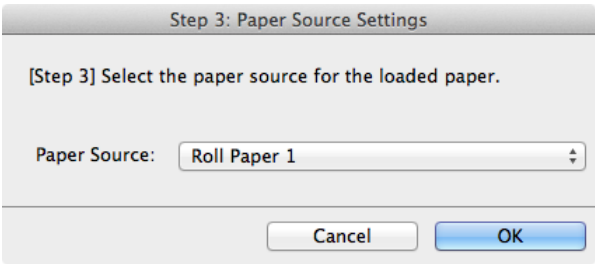

- 6** Load the custom paper in the printer and then click the **OK** button.

Important

- Do not load paper that is curled or that has already been printed on.

7 The **Step 3: Paper Source Settings** dialog box is displayed. Select the paper source where the custom paper is loaded and then click the **OK** button.

8 The **Step 4: Paper feed adjustment** dialog box is displayed. Click the **Execute** button to execute paper feed adjustment.
The adjustment pattern is printed, and the paper feed is automatically adjusted based on the printing result. Once the paper feed adjustment is complete, click the **Next** button.

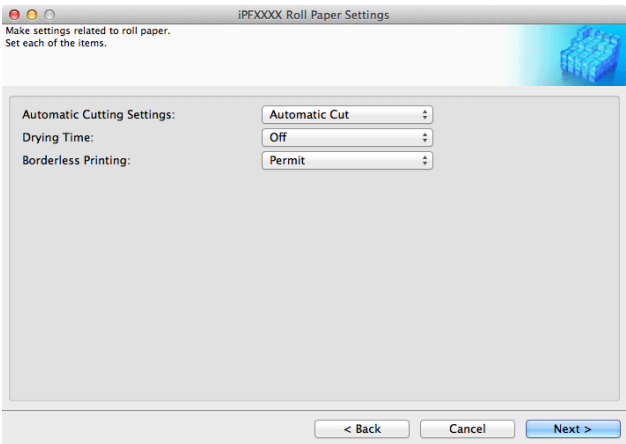

Important

- Check that there is no paper left on the ejection guide.
- If **Paper Feed Adjustment** is not executed, horizontal stripes with different color tones may appear in the printed material. Paper feed adjustment does not need to be executed more than once. Execute paper feed adjustment only once each time you add a custom paper.

9 The **Roll Paper Settings** dialog box is displayed.

Note

- If a paper source other than **Roll Paper** is selected in the **Step 3: Paper Source Settings** dialog box, this screen is not displayed.

Configure the following settings as necessary, and then click the **Next** button.

Setting	Details
Automatic Cutting Settings	Configures the method for cutting roll paper when it is ejected after printing. <ul style="list-style-type: none">• Automatic Cut:Roll paper is automatically cut by the cutter unit.

Setting	Details
Automatic Cutting Settings	<ul style="list-style-type: none"> • Eject Cut: When the Cut key is pressed on the printer control panel, the roll paper is cut by the cutter unit. Select this if you do not want the printed material to drop immediately after printing, such as to wait for the ink to dry. • User Cut: Cutting is not performed by the cutter unit. Cut the roll paper using scissors after each sheet. Select this for paper that cannot be cut by the cutter unit.
Drying Time	<p>Specify the time that the printer waits for ink to dry, as needed.</p> <ul style="list-style-type: none"> • Off: Ejects immediately after printing finishes. • 30 sec./1 min./3 min./5 min./10 min./30 min./60 min.: Ejects after the specified time has elapsed after printing finishes.
Borderless Printing	<p>Configures whether or not to permit borderless printing.</p> <ul style="list-style-type: none"> • Permit: Borderless printing is permitted. • Deny: Borderless printing is denied.

Important

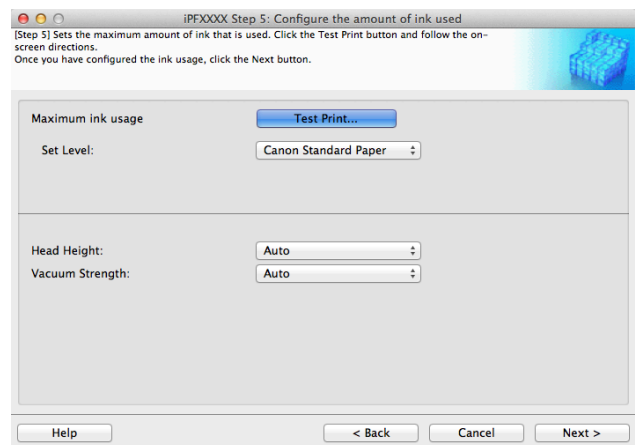

- Depending on the paper, there are types that cannot be cut by the cutter unit, and types that speed deterioration of the blade and cause damage to the cutter. For thick paper, hard paper, etc. do not use the cutter unit, and instead cut the roll paper using scissors, etc. after printing. In this case, select **User Cut** as the **Automatic Cutting Settings**.
- If borderless printing is performed on paper where the ink drying is poor, the cutter unit may leave scratches where it touches the printed surface, or may not cut correctly. In this kind of situation, configure the amount of time to wait for the ink to dry after printing using **Drying Time**. Alternatively, if the paper cannot be cut well by the cutter, set the **Automatic Cutting Settings** to **User Cut** and cut the roll paper using scissors, etc.
- Paper where borderless printing can be performed is limited by the media type and roll paper width. Refer to "Compatible Paper" → P.439 .
- For custom paper where there is a need to set the **Automatic Cutting Settings** to **User Cut**, set the **Borderless Printing** to **Deny**.

10

The **Step 5: Configure the amount of ink used** dialog box is displayed.

The upper limit on the amount of ink used to print to the custom paper is set on this screen by selecting from among several levels.

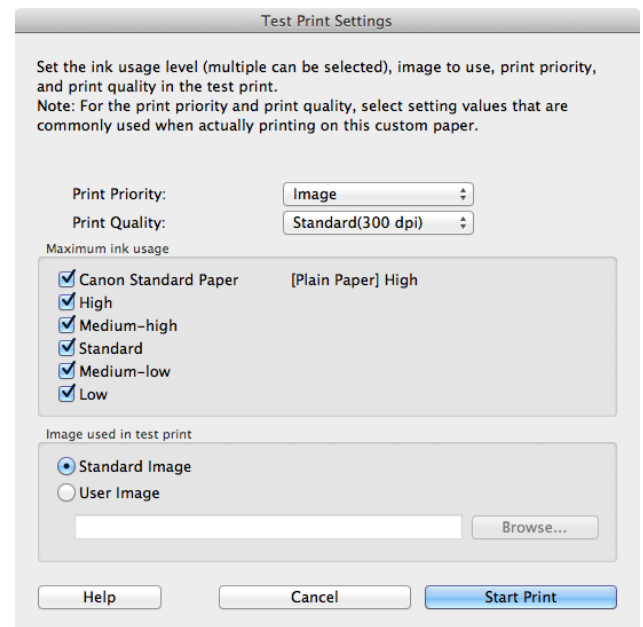

First, click the **Test Print** button to perform a test print of each level.

Note

- If a standard paper that does not display the **Name in Printer Driver** is selected in the screen in Step 5, you cannot perform test prints or configure the maximum amount of ink to use.

- 11** The **Test Print Settings** dialog box is displayed. Select the print priority and print quality of the test print using **Print Priority** and **Print Quality**. Set the level to test print using **Maximum ink usage** and the image to use using **Image used in test print**, and then click the **Start Print** button.

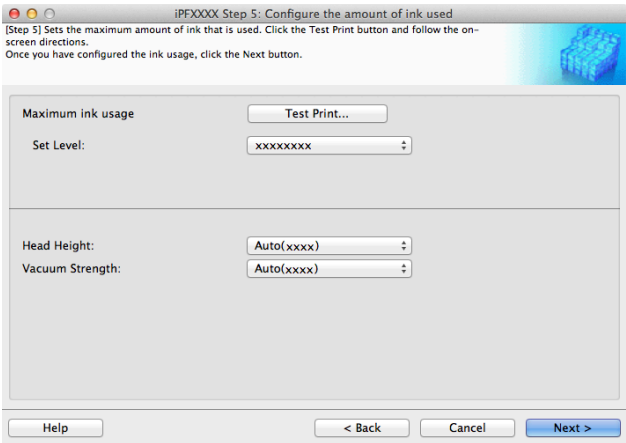

- 12** Determine and set the ink level that is thought to give the best visual test print results with no bleeding or scraping of ink.

Note

- Select the optimal ink level by referring to the help.
- If you cannot obtain sufficiently high quality printing no matter which maximum ink usage level you select, use the **Step 1: Select the standard paper** dialog box to change the paper that is the basis of the custom paper to another paper.
- Because this settings imposes an upper limit on the amount of ink used during printing, the printing result might not change even if the level is changed depending on the image.
- The color tone cannot be configured using the Media Configuration Tool. Although the color tone may change when the maximum ink usage is changed, at this point you should select the optimal level by only focusing on bleeding and scraping of ink. If the color tone needs to be adjusted, provide an ICC color profile that matches the paper you are using, and select that ICC color profile in your software. For details on how to specify the ICC profile in the printer driver, see "Matching Sheet ." → P.167
- Depending on the maximum ink usage setting, some of the print qualities in the printer driver may become unselectable.

13 Configure **Head Height** and **Vacuum Strength** as required and click the **Next** button.
Usually, these do not need to be set.

- If you set the **Head Height** lower than the automatically set height in parentheses (), check that the printhead does not rub against the paper. (If the printhead rubs against the paper, there will be scratches in the printing results.) If the printhead rubs against the paper, this can cause damage to the printhead.
- If you change the **Vacuum Strength**, check that the printhead is not rubbing against the paper. (If the printhead rubs against the paper, there will be scratches in the printing results.) If the printhead rubs against the paper, this can cause damage to the printhead.
- For details on the **Head Height** and **Vacuum Strength**, refer to the help.

14 The **Step 6: Confirm the settings** dialog box is displayed.
Configure the settings of the custom paper, and then click the **Next** button.

15 The **Confirm Update** dialog box is displayed.
Confirm the updates and then click the **Execute** button.

The custom paper is added to the control panel of the printer and to the printer driver of the PC you are using.

Note

- When the custom paper is correctly added to the printer driver, the name of the added custom paper is displayed in the **Edit Media Types** dialog box that is opened by **Add Genuine Paper** in the Media Configuration Tool window.

Delete Custom Paper

You can delete custom paper that you have already added from printer control panel and from the printer driver of the PC you are using.

1 Open the **Add and Edit Custom Paper** dialog box.

Note

- For details on the procedure for opening the **Add and Edit Custom Paper** dialog box, see "Using Paper Other than Genuine Paper and Feed Confirmed Paper." →P.437

2 Select the paper you want to delete from the **Added Custom Paper** list and then click the **Delete** button.

Note

- You can select multiple paper.

3 The **Confirm Update** dialog box is displayed. Confirm the updates and then click the **Execute** button.

The custom paper is deleted from the control panel of the printer and from the printer driver of the PC you are using.

Edit Custom Paper

You can change the settings of custom paper you have already added.

1 Open the **Add and Edit Custom Paper** dialog box.

Note

- For details on the procedure for opening the **Add and Edit Custom Paper** dialog box, see "Using Paper Other than Genuine Paper and Feed Confirmed Paper." →P.437

2 Select the paper you want to edit from the **Added Custom Paper** list and then click the **Edit** button.

3 The View Settings dialog box is displayed.
Follow the on-screen directions and change the settings as required.

Note

- Refer to Steps 5 to 15 of the "Add Custom Paper" →P.440 for details on how to configure each setting.

Export Custom Media Information

You can export to file and save media information about custom paper that you have added.
The saved Custom Media Information File can be used by importing it into another printer or PC. Refer to "Import Custom Media Information" →P.448 for details on "importing custom media information".

1 Open the **Add and Edit Custom Paper** dialog box.

Note

- For details on the procedure for opening the **Add and Edit Custom Paper** dialog box, see "Using Paper Other than Genuine Paper and Feed Confirmed Paper." →P.437

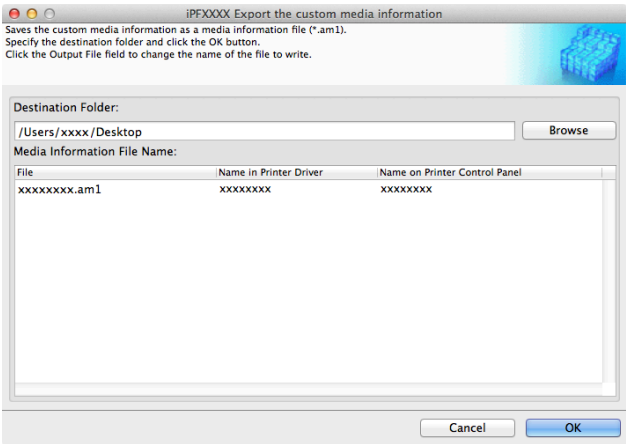

- 2
- Select the paper you want to export to media information file from the **Added Custom Paper** list and then click the **Export** button.

Note

- You can select multiple paper.

- 3
- Specify the location to save the Custom Media Information File.

Note

- You can change the file name by selecting and editing the File.
A Custom Media Information File (.am1 file) is saved.

Import Custom Media Information

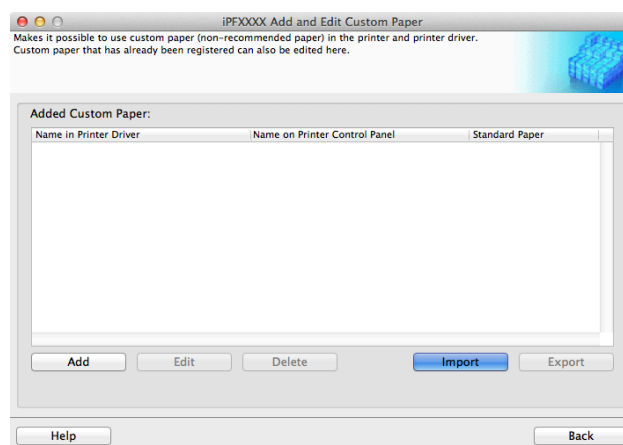

You can import a Custom Media Information File that has been saved in a folder, and add the file to the printer control panel and to the printer driver of the PC you are using.

- 1
- Open the **Add and Edit Custom Paper** dialog box.

Note

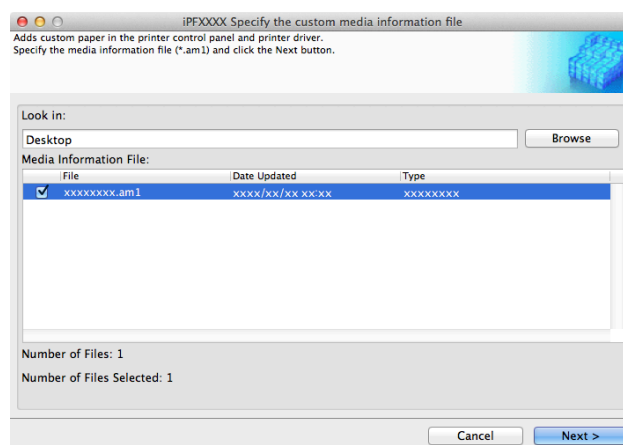

- For details on the procedure for opening the **Add and Edit Custom Paper** dialog box, see "Using Paper Other than Genuine Paper and Feed Confirmed Paper." [→P.437](#)

2

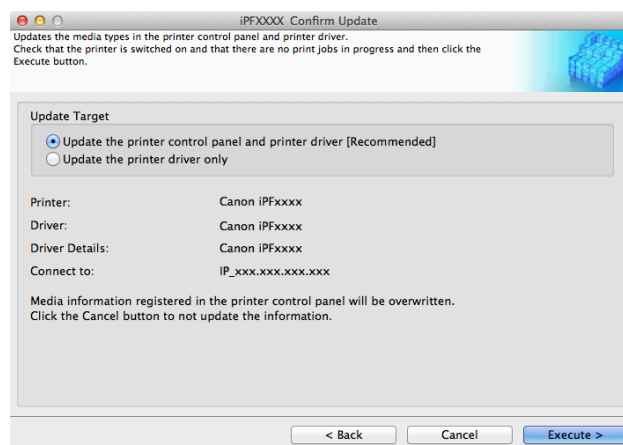

Click the **Import** button.

3

Select the Custom Media Information File (.am1 file) to import.

4

The **Confirm Update** dialog box opens. Click the **Execute** button.

Note

- You should normally select **Update the printer control panel and printer driver**. The custom paper is added to the control panel of the printer and to the printer driver of the PC you are using.
- When the custom paper is correctly added to the printer driver, the name of the added custom paper is displayed in the **Edit Media Types** dialog box that is opened by **Add Genuine Paper** in the Media Configuration Tool window.
- After importing custom paper, adjust the paper feed amount for that custom paper. For details on the method for adjusting the paper feed amount, see "Automatic Banding Adjustment." → P.559

Warnings

Take note of the following warnings when added custom paper other than Canon genuine paper and feed confirmed paper to the printer driver and the printer itself.

About the Cutter

- Depending on the paper, there are types that cannot be cut by the cutter unit, and types that speed deterioration of the blade and cause damage to the cutter. For thick paper, hard paper, etc. do not use the cutter unit, and instead cut the roll paper using scissors, etc. after printing. In this case, select **User Cut** as the **Automatic Cutting Settings** in the **Roll Paper Settings** dialog box.

Note

- If the cutter is damaged, contact your Canon dealer for assistance.

- For details on the methods for cutting roll paper, see "Specifying the Cutting Method for Rolls." →P.376

About the Printhead

- If the printhead rubs against the paper during printing, this may cause damage to the printhead. If the printhead is rubbing against the paper, configure the **Vacuum Strength** in the **Step 5: Configure the amount of ink used** dialog box as follows.
 - For paper-based media such as Heavyweight Coated Paper: Set to **Strong** or **Strongest**
 - For film-based media such as CAD Tracing Paper: Set to **Standard**, **Strong**, or **Strongest**
 - For thin paper of thickness 0.1mm or less: Set to **Weakest**

Note

- If the printhead still rubs even after changing the **Vacuum Strength**, set the **Head Height** to be higher in the **Step 5: Configure the amount of ink used** dialog box.

- For details on how to handle the printhead rubbing against the paper, see "Paper rubs against the printhead." →P.622

About Borderless Printing

- When performing borderless printing on paper where the ink does not dry well, the cutter unit may leave scratches where it touches the printed surface, or may not cut correctly. In this kind of situation, configure the amount of time to wait for the ink to dry after printing using **Drying Time** in the **Roll Paper Settings** dialog box. Alternatively, if the paper cannot be cut well by the cutter, set the **Automatic Cutting Settings** to **User Cut** in the **Roll Paper Settings** dialog box, and cut the roll paper using scissors, etc.

About the Print Quality

- If the edges of images are blurry, set the **Vacuum Strength** to be weaker in the **Step 5: Configure the amount of ink used** dialog box.
- If lines are warped or scratched, set the **Head Height** to be lower in the **Step 5: Configure the amount of ink used** dialog box.
- If the amount of ink used is too much, wrinkles may appear and the ink may bleed in the printed material. Furthermore, if the amount of ink used is too little, color production may be poor and lines may become scratched. In this kind of situation, change the amount of ink used in the **Step 5: Configure the amount of ink used** dialog box.
- If horizontal bands with different color tone appear in the printed material, execute **Paper Feed Adjustment** in the **Step 4: Paper feed adjustment** dialog box. If you have already executed **Paper Feed Adjustment**, execute **Adj. Fine Feed** from the printer control panel and fine tune the amount of paper feed.

Note

- For details on **Adj. Fine Feed**, see "Fine-Tuning the Paper Feed Amount." →P.562

- If horizontal bands appear even after executing **Adj. Fine Feed**, refer to "Banding in different colors occurs" in "Troubleshooting". (See "Banding in different colors occurs.") →P.624

- If printed sheets are affected by banding in different colors toward the end of the sheet (about 20–30 mm from the edge), try adjusting the feed amount of the trailing edge of sheets. (See "Adjusting Color on the Trailing Edge of Sheets.") →P.564
- If you cannot obtain sufficiently high print quality, change the maximum ink usage, or change the media type used as the basis for the custom paper in the **Step 1: Select the standard paper** dialog box.
- If there is no luster in printed material, set the paper used as the basis for the custom paper to a paper that uses photo ink as the Black ink.
The types of Black ink used are displayed on the right side of each media type in the **Step 1: Select the standard paper** dialog box.

Note

- For details on problems with printing quality, see "Problems with the printing quality." →P.621

About the Color Tone

- The color tone cannot be configured using the Media Configuration Tool. If the color tone needs to be adjusted, provide an ICC color profile that matches the paper you are using, and select that ICC color profile in your software. For details on how to specify the ICC color profile in the printer driver, see "Matching Sheet ." →P.167
- Custom paper cannot be used with the ambient light adjustment function or Monitor Matching in Color-Matching Method.

Checking the update

After updating the media information using the Media Configuration Tool, you can check whether the update has been applied to the printer in the control panel of the printer.

- 1 Click the **About** button in the Media Configuration Tool main window to open the **About** dialog box.
- 2 Check the value **xx.xx (xxxx)** of **MIT DB Version**.
- 3 Check the value **xx.xx (xxxx)** of **MIT** in **Set./Adj. Menu > Printer Info > System Info** in the printer control panel.
If the values in Steps 2 and 3 are the same, the update has been applied to the printer.

Checking Instructions During Printer Operations	463

Control Panel

a Display Screen

Shows printer menus, as well as the printer status and messages.

b Power button (green)

Turns the printer on and off. (See "Turning the Printer On and Off.") →P.17

The **Power** button is lit when the printer is on or in Sleep mode.

c Stop button

Cancels print jobs in progress and ends the ink drying period.

d Navigate button

Enables you to check instructions for loading and removing paper or replacing ink tanks or printheads, as well as other operations. (See "How to View Instructions with Navigate.") →P.461

e Arrow buttons

• ◀ button

Press this button on the **Tab Selection screen** to move to another tab.

In menu items requiring numerical input, press this button to move to another digit.

• ▲ button

Press this button in the menu to move to another item.

In menu items requiring numerical input, press this button to increment the number.

• ▶ button

Press this button on the **Tab Selection screen** to move to another tab.

In menu items requiring numerical input, press this button to move to another digit.

• ▼ button

Press this button in the menu to move to another item.

In menu items requiring numerical input, press this button to decrement the number.

f OK button

Press this button on the **Tab Selection screen** to display the menu of the tab shown.

Pressing this button in menu items of each tab for which  is displayed at left will move to the lower level of the menu item, enabling you to execute menu commands or set menu values.

Also press this button if the Display Screen indicates to press the **OK** button.

g Back button

Displays the screen before the current screen.

h Menu button

Displays the **Tab Selection screen**. (See "Menu Settings.") →P.474

i Cut button

Pressing this button when rolls are loaded cuts the paper, if you have specified **Automatic** or **Eject** in **Cutting Mode** in the Control Panel menu. (See "Specifying the Cutting Method for Rolls.") →P.376

j Feed button

Pressing this button when rolls are loaded enables you to reposition the paper. (See "Feeding Roll Paper Manually.") →P.373

k Load button

Press this button when loading or replacing paper.

(See "Loading Rolls in the Printer.") →P.365

(See "Loading Sheets in the Feed Slot.") →P.388

l Cut Sheet lamp (green)

Lit when sheets are selected as the paper source.

m Roll Media lamp (green)

Lit when rolls are selected as the paper source.

n Message Lamp (orange)

- On

A warning message is displayed.

- Flashing

An error message is displayed.

- Off

The printer is off or is operating normally.

o Data Lamp (green)

- Flashing

During printing, the Data lamp flashes when the printer is receiving or processing print jobs. Otherwise, this lamp flashes when the print job is paused or the printer is updating the firmware.

- Off

There are no active print jobs when the Data lamp is off.

- In **Sleep** mode, any button can be pressed except the **Power** button to recover from **Sleep** mode.

Note

Control Panel Display

After the printer starts up, the **Tab Selection screen** is displayed.
Each of the four tabs presents status, menus, and error information related to the particular tab.

Types of tabs

The **Tab Selection screen** presents four tabs. Each tab is represented by an icon in the top row. Press the ◀ or ▶ button to access other tabs.

<div>Paper tab</div> <div></div>	<div>A tab indicating status and showing menus related to paper. Pressing the OK button when this tab is highlighted will display the Paper Menu.</div> <div><ul style="list-style-type: none">• Top line displayed The paper icon is highlighted.• Middle line displayed Indicates the printer status and shows menu names.• Bottom line displayed The first and second lines display the paper type and size.</div>
<div>Ink tab</div> <div></div>	<div>A tab indicating status and showing menus related to ink. Pressing the OK button when this tab is highlighted will display the Ink Menu.</div> <div><ul style="list-style-type: none">• Top line displayed The ink icon is highlighted.• Middle line displayed Indicates the printer status and shows menu names.• Bottom line displayed Here, the remaining ink level is indicated. (See "Checking Ink Tank Levels.") →P.574</div>
<div>Job tab</div> <div></div>	<div>A tab indicating status and showing menus related to print jobs. Pressing the OK button when this tab is highlighted will display the Job Menu menu.</div> <div><ul style="list-style-type: none">• Top line displayed The job icon is highlighted.• Middle line displayed Indicates the printer status and shows menu names.</div>
<div>Settings/Adj. tab</div> <div></div>	<div>A tab indicating status and showing menus related to settings and adjustment. Pressing the OK button when this tab is highlighted will display the Set./Adj. Menu.</div> <div><ul style="list-style-type: none">• Top line displayed The settings/adjustment icon is highlighted.• Middle line displayed Indicates the printer status and shows menu names.• Bottom line displayed The remaining Maintenance Cartridge capacity is shown on the first line and Tot.Print Area on the second. The display unit for Tot.Print Area can be specified in the Length Unit menu. (See "Menu Settings.") →P.474</div>

Printer status and modes

Printer status is classified according to the following five modes.

<div><div>Standby</div><div><div></div><div>Ready OK: Paper Menu</div><div>Plain Paper ISO A2 Roll</div></div></div>	<p>The printer is ready to receive jobs sent from the computer. Jobs sent from the computer are printed immediately.</p>
<div><div>Printing Paused</div><div><div></div><div>Offline OK: Job Menu</div></div></div>	<p>Printing is paused on the printer. Any jobs sent from the computer are held without being printed.</p>
<div><div>Printing</div><div><div></div><div>Printing 9:59:59 OK: Job Menu x x x x x x x x x Plain Paper ISO A2</div></div></div>	<p>Printing is in progress on the printer. Jobs sent from the computer are printed after the current job. The time left until printing is finished is indicated in the upper-right corner of the screen. (Values exceeding 10 hours are not shown.)</p>
<div><div>Sleep</div><div><div>Blank display</div></div></div>	<p>The printer is in power-saving mode. The printer automatically enters Sleep mode to conserve power when idle for a specific period (by default, five minutes), that is, if no print jobs are received or buttons are pressed while all covers are closed.</p> <p>You can specify the period before the printer enters Sleep mode in the Sleep Timer menu. (See "Menu Settings.") →P.474</p> <p>After entering Sleep mode from Standby mode, the printer automatically recovers if print jobs are received, and the jobs are printed.</p>
<div><div>Off</div><div><div>Blank display</div></div></div>	<p>The printer is not on.</p> <p>If no operations are performed on the printer for the duration of the time set in Shut Down Timer after entering Sleep mode, the printer automatically turns off. (See "Menu Settings.") →P.474</p>

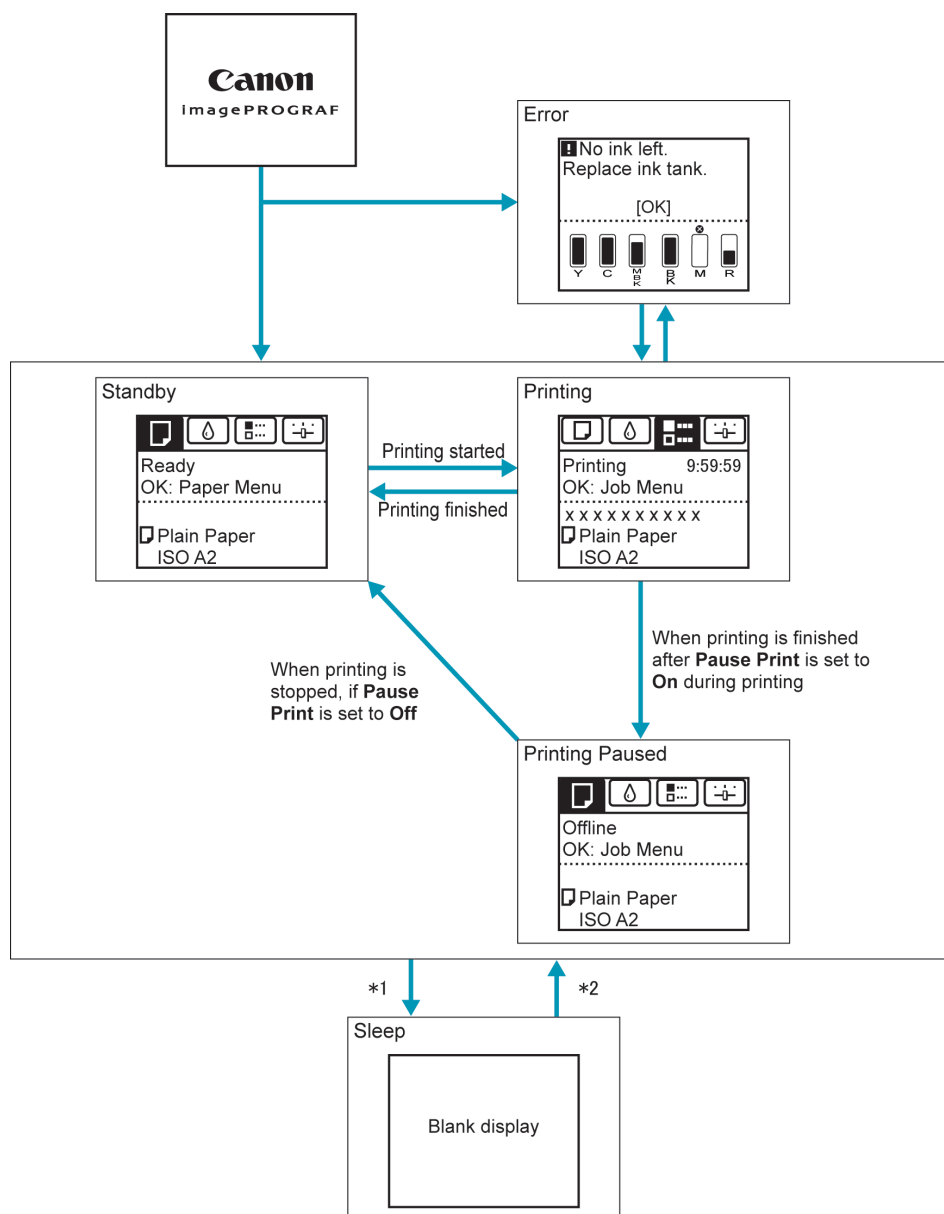

Error

The printer requires your attention. Any jobs sent from the computer cannot be processed. The tab related to the error is displayed.
For information about the display in the case of multiple errors, see "Display Transitions in Error Status."

Display Transitions in Normal Status

The display transitions while the printer is in the normal status (the status where no errors have occurred) are shown below.

- *1: The printer automatically enters **Sleep** mode when idle for a specific period (by default, five minutes), that is, if no print jobs are received or buttons are pressed while all covers are closed. However, it does not enter **Sleep** mode while error messages are displayed or when a roll can be manually advanced by pressing the **Feed** button.
- *2: When the printer is in **Sleep** mode, you can press any button except the **Power** button to recover from **Sleep** mode. **Sleep** mode is also terminated if a print job is received or a command is issued from RemoteUI.

Display Transitions in Error Status

The display transitions while an error has occurred on the printer are shown below.

If multiple errors have occurred, the tabs for errors that have occurred other than the currently displayed error are displayed flashing. You can move between the tabs to check the errors by pressing the ◀ and ▶ keys. If multiple errors have occurred in the Job tab and Settings/Adj. tab, the error message switches every four seconds within each tab.

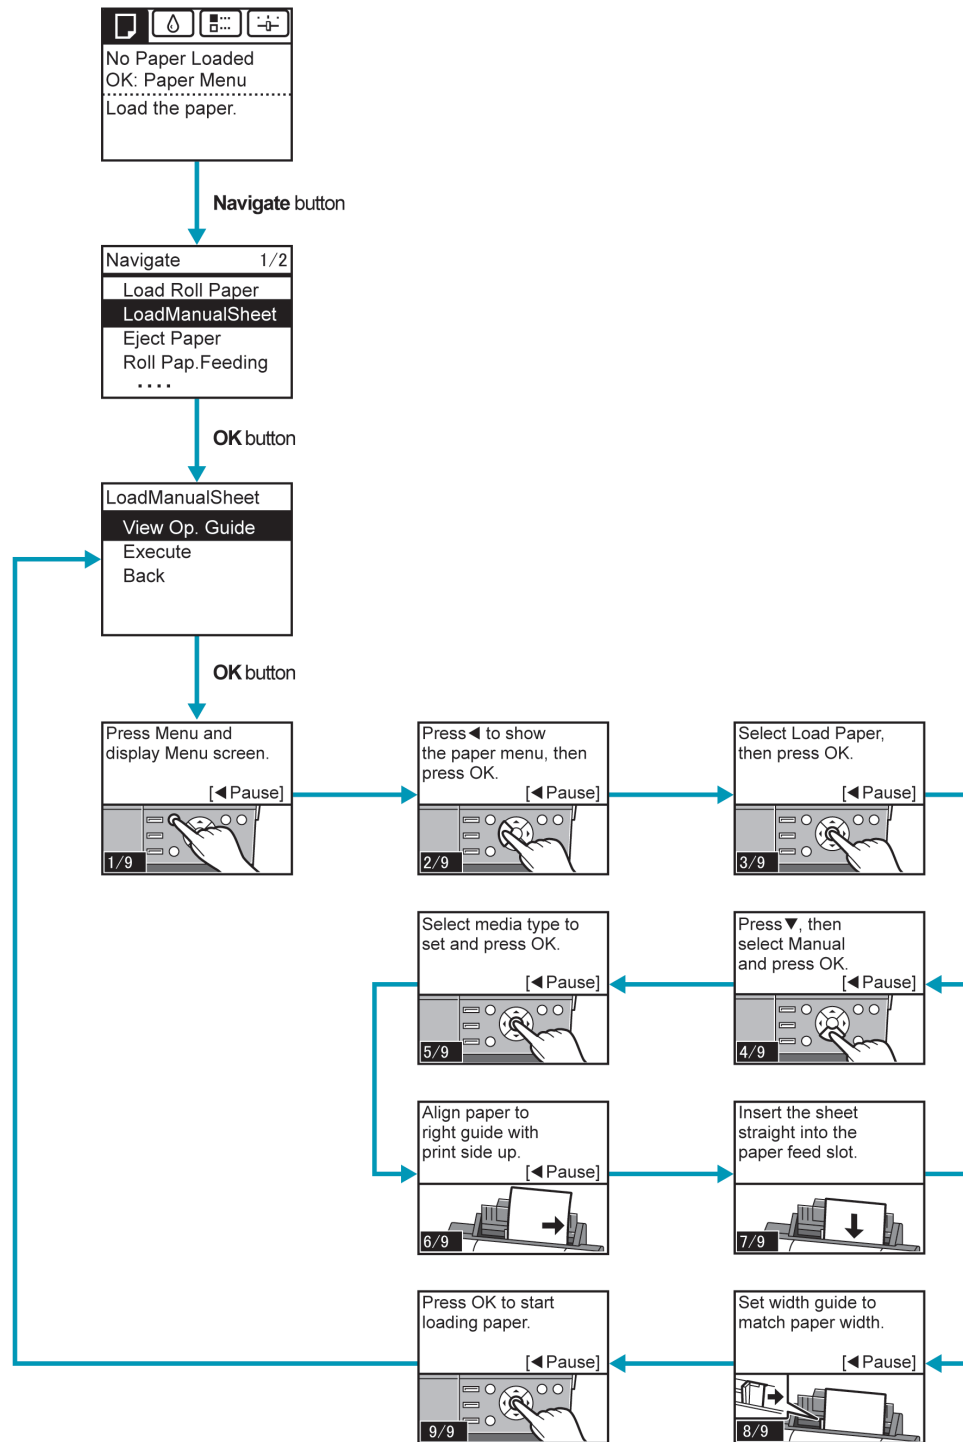

How to View Instructions with Navigate

You can refer to instructions for loading paper, replacing ink tanks, and performing other operations on the printer control panel.

- 1** Press the **Navigate** button.
- 2** Press ▲ or ▼ to select the desired navigation menu.
- 3** Press ▲ or ▼ to select **View Op. Guide**, and then press the **OK** button.
Instructions are now displayed.

Example: Loading sheets

Checking Instructions During Printer Operations

You can refer to instructions on the printer control panel when loading paper, replacing ink tanks, or performing other operations.

How to view instructions

Once you complete an action described in the instructions, the printer detects the action and switches to the next instruction screen.

In the case of actions the printer cannot detect, instruction screens are switched every four seconds, and the sequence of operations is shown repeatedly.

When all actions in the sequence are finished, the instruction screen for the next step is displayed.

Example: Ink tank replacement

- During a continuous display of instructions, you can press the ◀ button to pause the instructions on the current screen. Press the ◀ or ▶ button to display the previous or next screens. If you do not press the ◀ or ▶ button within 30 seconds, continuous display is resumed. Press the **OK** button to display the instruction screen for the next step.

Printer Menu

Printer Menu Operations	465
Menu Operations	466
Menu Structure	469
Menu Settings	474
Status Print	482
Printing Interface Setting Reports	485

Printer Menu Operations

The printer menu is classified into regular menu items available when no print job is in progress and menu during printing items only available while printing is in progress.

- Regular menu operations →P.465
- Menu operations during printing →P.465

Regular menu operations

To view available menus organized on tabs, select a tab on the **Tab Selection screen** and press the **OK** button.

- If the **Tab Selection screen** is not displayed, pressing **OK** will not display menus. Menus can be selected after you resolve the problem.

The following operations are available from the menu.

- **Paper Menu**
Paper menu settings
- **Ink Menu**
Ink menu operations
- **Job Menu**
Menu operations to manage print jobs
- **Set./Adj. Menu**
Menu operations for printer adjustment and maintenance

For a description of specific menu items available, see "**Menu Settings.**" →P.474

For instructions on selecting menu items, see "**Menu Operations.**" →P.466

- By default, menu settings apply to all print jobs. However, for settings that are also available in the printer driver, the values specified in the printer driver take priority.

Menu operations during printing

During printing, only a limited set of menu items are displayed. Menu items that are not displayed during printing should be operated after printing has finished.

To display menus during printing, select a tab on the **Tab Selection screen** on the Control Panel, and then press the **OK** button.

- If the **Tab Selection screen** is not displayed, pressing **OK** will not display menus. Menus can be selected after you resolve the problem.

The following operations are available from the menu during printing.

- **Ink Menu**

Ink menu operations

- **Job Menu**
Menu operations to manage print jobs
- **Set./Adj. Menu**
Fine-tuning paper feeding
Display of printer-related information

For a description of specific menu items available, see "Menu Settings." →P.474
For instructions on selecting menu items during printing, see "Menu Operations." →P.466

Menu Operations

To view available menus organized on tabs, select a tab on the **Tab Selection screen** and press the **OK** button. For details, see "Menu Settings." →P.474

- Menus (when the Ink tab is selected and the **OK** button is pressed)

- If the **Tab Selection screen** is not displayed, press the **Menu** button.

Note

Simply press buttons on the Control Panel to access menus on various tabs from the **Tab Selection screen** and set or execute **Menu** items.

The following section describes menu operations.

- Accessing menus →P.466
- Specifying menu items →P.468
- Specifying numerical values →P.468
- Executing menu commands →P.468

Accessing menus

Printer menus are grouped by function.

Menus are displayed with the upper line selected. You can use the buttons on the Control Panel to access each menu.

- Press **Back** to access a higher menu in the menu list, and press **OK** to access a lower one. If not all menu items are displayed, hold down ▲ or ▼ to scroll through higher and lower menu items. Items you select are highlighted.

The scroll bar at right indicates the current position in the overall menu.

- Lower menus are available if + is displayed at left next to the second and subsequent rows. To access the lower menus, select the menu and press the **OK** button.

Specifying menu items

Menu items can be set as follows.

- 1

Press ▲ or ▼ to select the desired setting, and then press the **OK** button.

After two seconds, the display reverts to the upper level menu.

• If a confirmation message is displayed regarding the setting you entered, press the **OK** button. The setting is applied, and the printer is now in **Standby**.

Specifying numerical values

Follow these steps to enter numbers. In this example, network settings items are entered.

- 1

Press the ◀ or ▶ button to move to the next field for input.

- 2

Press the ▲ or ▼ button to enter the value.

• Hold down ▲ or ▼ to increase or decrease the value continuously.

- 3

Repeat steps 1 and 2 to complete the settings, and then press the **OK** button.

• If a confirmation message is displayed regarding the setting you entered, press the **OK** button. The setting is applied, and the printer is now in **Standby**.

Executing menu commands

Menu commands can be executed as follows.

- 1

Press ▲ or ▼ to select the action to execute, and then press the **OK** button.

The menu command is now executed.

Menu Structure

The menu structure is shown categorized by tab. The * on the right side of an item indicates the default value. The printer menu is classified into regular menu items available when no print job is in progress and menu during printing items only available while printing is in progress. see "Printer Menu Operations." →P.465

Regular menu	Menu during printing
Paper Menu	Not displayed
Ink Menu	The same Ink Menu as normal is displayed.
Job Menu	The same Job Menu as normal is displayed.
Set./Adj. Menu	A limited Set./Adj. Menu containing the following items is displayed. <ul style="list-style-type: none">• Adj. Fine Feed(*1)• Printer Info

*1: Only displayed in the menu during printing. Not displayed in the regular menu.

For instructions on menu operations, see "Menu Operations." →P.466
For details on menu items, see "Menu Settings." →P.474

- *1: Available if **Adj. Priority** is **Automatic** or **Print Quality**.
- *2: Available if **Adj. Priority** is **Automatic** or **Print Length**.
- *3: Not displayed if **IPv4 Mode** is **Manual**.
- *4: Not displayed if **NetWare** is **Off**.
- *5: Not displayed if **Auto Detect** is **On**.
- *6: Follows the setting in **Date Format**.
- *7: Restrictions apply if a password is configured using **Change Password** in the **Admin. Menu**.
Viewing and configuration is possible for administrators, and only viewing for other users.
- *8: Restrictions apply if a password is configured using **Change Password** in the **Admin. Menu**.
Viewing and configuration is possible for administrators only.
- *9: Not displayed if **IPv6 Support** is **Off**.
- *10: Default setting for the time to enter the power save mode/Sleep mode is recommended.
- *11: Displayed as the menu during printing while printing is in progress.
- *12: Not displayed in the regular menu.

Menu Settings

Menu items are as follows.
The printer menu is classified into regular menu items available when no print job is in progress and menu during printing items only available while printing is in progress. see "Printer Menu Operations." →P.465

Regular menu	Menu during printing
Paper Menu	Not displayed
Ink Menu	The same Ink Menu as normal is displayed.
Job Menu	The same Job Menu as normal is displayed.
Set./Adj. Menu	A limited Set./Adj. Menu containing the following items is displayed. <ul style="list-style-type: none">• Adj. Fine Feed (*1)• Printer Info

*1: Only displayed in the menu during printing. Not displayed in the regular menu.

For instructions on selecting menu items, see "Menu Operations." →P.466
For details on the displayed menu hierarchy, see "Menu Structure." →P.469

Paper Menu

The Paper Menu is not displayed during printing.

Setting Item		Description, Instructions
Load Paper		Select either manually loaded sheets or rolls and load the paper.
Eject Paper		Choose this item before removing loaded paper.
Chg. Paper Type (*1)		Change the type of paper loaded. (See "Changing the Type of Paper.") →P.368
Chg. Paper Size		Change the size of paper loaded. (See "Specifying the Paper Length.") →P.369 (See "Paper Sizes.") →P.352
ManageRemainRoll		Choose On to print a barcode at the end of a roll before you remove it. The printed barcode can be used in managing the amount of roll paper left. Choose Off if you prefer not to print the barcode. (See "Keeping Track of the Amount of Roll Paper Left.") →P.373
Paper Details	(The type of paper is displayed here.) (*1)	Head Height Adjust the Printhead height. (See "Troubleshooting Paper Abrasion and Blurry Images.") →P.556
		Skew Check Lv. If you print on Japanese paper (washi) or other handmade paper that has an irregular width, choose Loose for a higher skew detection threshold, or choose Off to disable skew detection. However, if paper is loaded askew when detection is Off , note that paper jams or Platen soiling may occur.
		Cutting Mode Specify whether or not to cut with the standard round-bladed cutter. If you choose Automatic , the roll will be cut automatically using the Cutter Unit, depending on the printer driver settings. Select Eject to prevent printed documents from falling immediately after printing such as when you wait for the ink to dry, etc. Manual prints lines at the cut position instead of cutting after printing. If you select Manual , the setting screen for detection of the paper leading edge is displayed. (See "Specifying the Cutting Method for Rolls.") →P.376
		Cut Speed Choose the cutting speed. The preset selection represents the optimal cutting speed for the type of paper. We recommend keeping the preset cutting speed. If you use adhesive paper, choosing Slow helps prevent adhesive from sticking to the cutter and keeps the cutter sharp.

Setting Item		Description, Instructions
Paper Details (The type of paper is displayed here.) (*1)	Trim Edge First	Selects whether or not to automatically cut the leading edge of the roll paper when roll paper is loaded. (See "Cutting the Leading Edge of Roll Paper Automatically.") →P.382
	CutDustReduct.	If you choose On , a line will be printed at the cut position when paper cutting is selected. This option reduces the amount of debris given off after cutting. It also helps prevent adhesive from sticking to the cutter and keeps the cutter sharp if you use adhesive paper. (See "Reducing Dust from Cutting Rolls.") →P.384
	VacuumStrngth	Specify the level of suction that holds paper against the Platen. (See "Adjusting the Vacuum Strength.") →P.565
	Scan Wait Time	Specify the time to wait for the ink to dry between each scan (after the printhead finishes moving in one direction), in consideration of how quickly the ink dries. Also specify the applicable area for the ink drying time. Select Entire area to apply the ink drying time after each scan until the document is fully printed. Select Leading edge to apply the ink drying time after each scan only in the area 110–140 mm from the leading edge. (The applicable length varies depending on the Print Quality setting.) Note that printing will take longer if you specify the Scan Wait Time setting. In particular, when Leading edge is selected, colors may be uneven in the boundary between the areas with and without a drying time.
	Roll DryingTime	Specify the time to wait for the ink to dry for each sheet.
	NearEnd RollMrgn	Specify the minimum margin at the leading edge of roll paper to ensure better printing quality at the leading edge. Note that if you choose 3mm , it may lower the printing quality at the leading edge and affect feeding accuracy. The printed surface may be scratched, and ink may adhere to the leading edge. It may also cause the Platen to become soiled.
	NearEnd Sht Mrgn	Specify a margin at the leading edge of sheets to ensure better printing quality at the leading edge. Note that if you choose 3mm , it may lower the printing quality at the leading edge and affect feeding accuracy. The printed surface may be scratched, and ink may adhere to the leading edge.
	BordlessOver-size	Select the amount of oversize extension of the original during borderless printing. Normally, we recommend that you set this to Standard . If it is set to Little , although it will reduce soiling on the back surface, white patches may remain on the printed surface.
Return Defaults		Choose OK to restore Paper Details to the default values.
Paper Details		Print the paper settings as specified in Paper Details .
Keep Paper Type		Select On when printing on a particular type of paper regularly. (See "Changing the Type of Paper.") →P.368

*1: For information on the types of paper the printer supports, refer to the **Paper Reference Guide**. (See "Displaying the Paper Reference Guide.") →P.356 Types of paper in the printer driver and related software (as well as on the Control Panel) are updated when you install the printer driver from the User Software CD-ROM or if you update paper information with the Media Configuration Tool. (See "Updating paper information.") →P.359

Ink Menu

Setting Item	Description, Instructions
Rep. Ink Tank	Replace the Ink Tank at this point. Follow the instructions displayed to complete the required procedure. (See "Replacing Ink Tanks.") → P.568
Head Cleaning A	Printhead cleaning options. (See "Cleaning the Printhead.") → P.577 Execute Head Cleaning A if printing is faint, oddly colored, or contains foreign substances.

Job Menu

Setting Item		Description, Instructions
Job Log	(Choose from information about the last three print jobs.)	Document Name
		Indicates the document name of the selected print job.
		User Name
		Indicates the name of the user who sent the print job.
		Page Count
		Indicates the number of pages in the job.
		Job Status
		Indicates the printing results.
		Print Start Time
		Indicates when the print job was started.
		Print End Time
		Indicates when the print job was finished.
		Print Time
		Indicates the time required to print the job.
		Output Img. Size
		Indicates the image size in the print job.
		Media Type
		Indicates the type of paper in the print job.
		Paper Consumed
		Indicates the total amount of paper consumed.
		Paper Length
		Indicates the length of paper.
		Paper Width
		Indicates the width of paper.
		Interface
		Indicates the interface used for the print job.
		Ink Consumed
		Indicates a rough estimate of how much ink was consumed per job.(*1)
		Print settings
		A counter for maintenance purposes. Indicates job print settings.
		Head Height
		A counter for maintenance purposes. Indicates the head height when jobs were printed.
		Temp./Humidity
		A counter for maintenance purposes. Indicates the temperature and humidity when jobs were printed.

Setting Item			Description, Instructions
Job Log	(Choose from information about the last three print jobs.)	Adjustment req.	A counter for maintenance purposes. Indicates adjustment conditions applied to jobs.
Print Job Log			Print a record of print jobs, including the paper type and size, amount of ink consumed, and so on. Ink consumption indicates a rough estimate of the amount of ink consumed per print job.(*1)
Pause Print			Choose On to stop printing.

*1: A rough estimate of the amount of ink consumed per print job is displayed. Actual ink consumption may be different. The average margin of error for estimates calculated according to Canon measurement conditions for ink costs is $\pm 15\%$. Canon does not guarantee the accuracy of these estimates. Estimates may vary depending on conditions of use. Calculation of these estimates does not include ink consumed when cleaning printheads by forceful ejection of ink.

Set./Adj. Menu

Limited items are displayed during printing. The displayed items are indicated by annotations.

Setting Item			Description, Instructions
Test Print	Nozzle Check		Print a test pattern to check the nozzles.
	Status Print		Print information about the setting values and condition of the printer.
	Interface Print		Print interface settings information.
	Paper Details		Print the paper settings as specified in Paper Details .
	Print Job Log		Print a record of print jobs, including the paper type and size, amount of ink consumed, and so on. Ink consumption indicates a rough estimate of the amount of ink consumed per print job.(*1)
	Menu Map		Print the menu structure.
Adjust Printer	Head Posi. Adj.	Standard	An adjustment pattern is printed and the print position is automatically adjusted to fix misaligned printing. Select Standard if vertical lines in printed material are warped or colors are out of alignment. Select Standard also if the printing results are not improved by executing Simple . (See "Automatic Adjustment to Straighten Lines and Colors.") → P.552
		Simple	An adjustment pattern is printed and the print position is automatically adjusted to fix misaligned printing. Simple executes a simple adjustment in a short time. Select Simple when frequently adjusting the printhead, such as during daily maintenance. (See "Automatic Adjustment to Straighten Lines and Colors.") → P.552
		Other	Initial adjustmt Printhead position adjustment is executed during the initial setup. If adjusting the printhead position has not been performed such as due to an error during initial setup or the state of the operating settings when replacing the printhead, select Initial adjustmt . (See "Adjustment When Installing the Printhead.") → P.555

Setting Item				Description, Instructions	
Adjust Printer	Head Posi. Adj.	Other	Manual	Input the setting values from the adjustment pattern printing results and adjust the printing position to fix misaligned printing. Normally, select Standard . However, when printing on special paper, or if printing is not improved after Standard , try Manual . (See "Manual Adjustment to Straighten Lines and Colors.") →P.554	
			Feed Priority	Adj. Priority	Automatic
	Print Quality				
	Print Length				
	Adj. Quality	Auto(GenuinePpr)	Specify this mode with paper identified in the Paper Reference Guide . (See "Displaying the Paper Reference Guide.") →P.356 The printer prints and reads a test pattern for automatic adjustment of the feed amount. (See "Automatic Banding Adjustment.") →P.559		
				Auto(OtherPaper)	Specify this mode with paper not in the Paper Reference Guide . (See "Displaying the Paper Reference Guide.") →P.356 The printer prints and reads a test pattern for automatic adjustment of the feed amount. Note that this function takes more time and consumes more ink than Auto(GenuinePpr) . (See "Automatic Banding Adjustment.") →P.559
		Manual	Use this mode with highly transparent media or other paper for which Auto(GenuinePpr) or Auto(OtherPaper) cannot be used. Print a test pattern for adjustment of the feed amount based on the type of paper. (See "Manual Banding Adjustment.") →P.560		
				Adjust Length	Adjustment-Print
	Change Settings	A:High B:Standard/Draft	Displayed when you have selected Feed Priority > Adj. Priority > Print Length . Adjustment relative to the amount of stretching or shrinkage of the current paper. Enter either the adjustment results from AdjustmentPrint or the discrepancy that you measured (as a percentage). For paper that tends to stretch, increase the feed amount by choosing a higher adjustment value. For paper that tends to shrink, decrease the feed amount by choosing a lower adjustment value. (See "Adjusting Line Length.") →P.563		
				Adj Far Ed Feed	
	Maintenance	Head Cleaning			Clean the Printhead. (See "Cleaning the Printhead.") →P.577 Choose Head Cleaning A if printing is faint, oddly colored, or contains foreign substances. Choose Head Cleaning B if no ink is printed at all, or if printing is not improved by Head Cleaning A .
		Nozzle Check			Print a test pattern to check the nozzles.

Setting Item				Description, Instructions			
Maintenance	Replace P.head			Execute when replacing the Printhead. Follow the instructions displayed to complete the required procedure. (See "Replacing the Printhead.") ➔P.578 Not displayed during a warning message that the remaining Maintenance Cartridge capacity is low.			
	Repl. maint cart			Execute when replacing the Maintenance Cartridge. Follow the instructions displayed to complete the required procedure. (See "Replacing the Maintenance Cartridge.") ➔P.585			
	Clear remain pcs			This process is needed if there are any scraps left in the Paper Feed Slot. (See "Clearing Jammed Paper (Paper Feed Slot).") ➔P.616			
	Head Info			Indicates information about the printhead.			
	Clean Platen			Move the Carriage in preparation for cleaning the Platen.			
Interface Setup	EOP Timer			Specify the timeout period before cancellation of print jobs that cannot be received by the printer.			
	TCP/IP	IPv4	IPv4 Mode		Choose whether the printer IP address is configured automatically or a static IP address is entered manually.		
			Protocol	DHCP		Specify the protocol used to configure the IP address automatically.	
				BOOTP			
				RARP			
			IPv4 Settings	IP Address		Specify the printer network information when using a static IP address. Enter the IP address assigned to the printer, as well as the network subnet mask and default gateway. The value that was automatically configured is displayed if you have set IPv4 Mode to Automatic .	
				Subnet Mask			
				Default G/W			
			DNS Settings	DNS Dync update		Specify whether DNS server registration is updated automatically.	
				Pri. DNS SrvAddr		Specify the DNS server address.	
				Sec. DNS SrvAddr			
				DNS Host Name		Specify the DNS host name.	
				DNS Domain Name		Specify the DNS domain name.	
			IPv6	IPv6 Support		Specify whether to connect via IPv6.	
				IPv6 StlessAddrs		Specify whether a IPv6 stateless address is used.	
				DHCPv6		Specify whether DHCPv6 settings are used.	
				DNS Settings	DNS Dync update	Statefull Addr	Specify whether DNS server registration is updated automatically.
						State-less Addr	
					Pri. DNS SrvAddr		Specify the DNS server address.
		Sec. DNS SrvAddr					
		DNS Host Name		Specify the DNS host name.			
		DNS Domain Name		Specify the DNS domain name.			
		NetWare	NetWare		Specify the NetWare protocol. To apply your changes, choose Register Setting .		
	Frame Type		Specify the frame type to use.				

Setting Item			Description, Instructions
Interface Setup	NetWare	Print Service	Choose the print service.
	AppleTalk		Specify whether to use the AppleTalk protocol. To apply your changes, choose Register Setting .
	Ethernet Driver	Auto Detect	Specify the communication method. To apply your changes, choose Register Setting . Choose On for automatic configuration of the LAN communication protocol. Choose Off to use settings values of Comm.Mode and Ethernet Type .
		Comm.Mode	Choose the LAN communication method.
		Ethernet Type	Choose the LAN transfer rate.
		Spanning Tree	Choose whether spanning-tree packets are supported over the LAN.
		MAC Address	Indicates the MAC address.
	Interface Print		Print interface settings information.
	Return Defaults		Choose OK to restore Interface Setup settings to the default values.
System Setup	Sleep Timer		Specify the period before the printer enters sleep mode.
	Shut Down Timer		Sets the time until the printer turns off automatically. If no operations are performed on the printer for the duration of the time set in Shut Down Timer after entering Sleep mode, the printer automatically turns off.
	Buzzer		Choose On for the buzzer to sound once for warnings and three times for errors.
	Contrast Adj.		Adjust the Display Screen contrast level.
	Date & Time	Date	Set the current date.
		Time	Set the current time. Available only if the Date setting is specified.
	Date Format		Specify the date format.
	Language		Specify the language used on the Display Screen.
	Time Zone		Specify the time zone. Time zone options indicate a main city in this time zone and the difference from Greenwich Mean Time.
	Length Unit		Choose the display unit for length. Change the unit displayed for the remaining amount of roll paper, Tot.Print Area , and so on.
	Detect Mismatch		Specify printing behavior if the type and size of paper specified in the printer menu does not match the type and size in the printer driver. Choose Pause to have printing paused under these circumstances. Choose Warning to continue printing after notification. Choose None to continue printing without notification.
	Paper Size Basis	Roll Selection 1	If roll size detection is activated, choose whether ISO A3 (297mm) or 300mm Roll is applied when a roll of an intermediate width is detected.
		Roll Selection 2	If roll size detection is activated, choose whether 10in. (254mm) or JIS B4 (257mm) is applied when a roll of an intermediate width is detected.

	Setting Item	Description, Instructions
System Setup	Keep Paper Size	<p>Choose On to use the paper size setting as the basis for printing instead of other settings. The margin setting of the printer menu will be used instead of the margin setting of the printer driver if the latter is smaller, which may prevent text or images in the margin from being printed.</p>  <p>Choose Off to give priority to margin settings. The larger value is used if the margin specified in the printer driver does not match the margin in the printer menu.</p> 
	TrimEdge Reload	<p>Specify whether to trim the leading edge of the currently retracted roll when the roll is advanced. Cut the edge if you are concerned about any marks left on the roll when the roll is left in the retracted position.</p> <p>Specify On to have rolls cut when printing begins after Sleep mode or when the power is restored. Selecting Automatic will trim the edge when the roll has been in the retracted position for two days or more.</p>
	Rep.P.head Print	<p>Choose On to have the printer automatically execute the Advanced Adj. operations after you replace the Printhead. (See "Automatic Adjustment to Straighten Lines and Colors.") → P.552</p>
	Nozzle Check	<p>In Frequency, specify the timing for automatic checks of nozzle clogging. Choose Standard to have the printer adjust the timing for checks based on the frequency of nozzle use. Choose 1 page to check once per page. Choose 10 pages to check once per 10 pages. Choose Off to not execute check.</p> <p>If On is selected in Warning, a warning may be displayed on the Control Panel depending on the result of the nozzle check.</p>
	Use RemoteUI	<p>Choosing Off prohibits access from RemoteUI. Settings can only be configured from the control panel.</p>
	Reset PaprSetngs	<p>Restores settings that you have changed with Media Configuration Tool to the default values.</p>
	Show Job Log	<p>Selecting Off prevents display of the log in Job Menu > Job Log. Additionally, the log is not printed if you choose Job Menu > Print Job Log. Note that because job logs are not collected, the Status Monitor accounting functions will not work correctly.</p>
Prep.MovePrinter		<p>When transferring the printer to another location, choose the level of transfer and follow the instructions on the screen. (See "Preparing to Transfer the Printer.") → P.600</p>

Setting Item		Description, Instructions
Prep.MovePrinter		Not displayed during a warning message that the remaining Maintenance Cartridge capacity is low.
Admin. Menu	Change Password	<p>The password that can be entered is a number from 0 to 9999999.</p> <p>The restriction states and main items are shown below. For more specific information on restricted items, see "Menu Structure." → P.469</p> <ul style="list-style-type: none"> Viewing and configuration by administrators only Change Password Init.Admin.Pswd Etc. Viewing and configuration by administrators, and only viewing by other users Date & Time Time Zone Use RemoteUI Etc.
	Init.Admin.Pswd	Choose OK to restore the Admin. Menu password to the default values.
Adj. Fine Feed (*2) (*3)		Displayed when you have selected Feed Priority > Adj. Priority > Automatic or Print Quality . Fine-tune the feed amount manually.
Printer Info (*2)	Paper Info	Indicates the current paper size, type, and related printer settings.
	Ink Info	Indicates ink levels and maintenance cartridge capacity.
	Head Info	Indicates information about the printhead.
	System Info	Indicates the firmware version, serial number, and interface information.
	Error Log	Indicates the most recent error messages (up to five).
	Other Counter	Indicates the total printing volume of the printer.

*1: A rough estimate of how much ink was consumed per job is displayed. Actual ink consumption may be different. The average margin of error for estimates calculated according to Canon measurement conditions for ink costs is $\pm 15\%$. Canon does not guarantee the accuracy of these estimates. Estimates may vary depending on conditions of use. Calculation of these estimates does not include ink consumed when cleaning printheads by forceful ejection of ink.

*2: Displayed as the menu during printing while printing is in progress.

*3: Not displayed in the regular menu.

Status Print

You can print a **Status Print** report indicating the current status of the printer.

With **Status Print**, information is printed regarding the printer firmware version, various settings, and the status of consumables.

Printing Status Print reports

1

Load paper.

If using cut sheets, load paper A4/Letter-sized, you will need three sheets.

2 On the **Tab Selection screen** of the Control Panel, press ◀ or ▶ to select Settings/Adj. tab ().

 • If the **Tab Selection screen** is not displayed, press the **Menu** button.

Note

3 Press the **OK** button.
The **Set./Adj. Menu** is displayed.

4 Press ▲ or ▼ to select **Test Print**, and then press the **OK** button.

5 Press ▲ or ▼ to select **Status Print**, and then press the **OK** button.

Checking the information in **Status Print** reports

The following information is included in **Status Print** reports.

Canon imagePROGRAF iPFxxxx Status Print	Printer model
Firm	Firmware version
Boot	Boot ROM version
MIT(DBF)	MIT database format version
MIT(DB)	MIT database version
S/N	Printer serial number
Date	Indicates when the status print report was printed.

Paper Menu			Information on the loaded paper.
	Paper Type		
		Roll Media	
		Cut Sheet	
	ManageRemainRoll		
	Keep Paper Type		

Job Menu		Job-related information.
	Job Log	A counter for maintenance purposes. Various information about previous jobs.

Set./Adj. Menu			Settings and adjustment information.
	System Setup	Sleep Timer	Printer system settings, as well as settings regarding warnings and errors.
		Shut Down Timer	
		Buzzer	
		Contrast Adj.	
		Date Format	

	Language		Printer system settings, as well as settings regarding warnings and errors.
	Time Zone		
	Length Unit		
	Detect Mismatch		
	Paper Size Basis		Paper-related settings.
		Roll Selection 1	
		Roll Selection 2	
	Keep Paper Size		
	TrimEdge Reload		
	Rep.P.head Print		Settings after a test pattern was printed following head replacement.
	Nozzle Check		Nozzle-check settings.
		Frequency	
		Warning	
Use RemoteUI		Settings used by RemoteUI.	
Show Job Log		Print job settings.	
Adjust Printer			Adjustment settings.
	Head Posi. Adj.		A counter for maintenance purposes. Head position adjustment values for previous jobs.
		Adjust Log	
Printer Info			Ink information, RAM usage, and a record of errors.
	Ink Info		Ink-related information.
		MC	Maintenance Cartridge capacity (%)
		Y, C, MBK, BK, M, R	Ink levels. The remaining ink is displayed in a five-level scale.
	System Info		Indicates the total amount of RAM.
		RAM	
	Error Log		The past five error codes.

HEAD LOT NUMBER/ DATE OF INSTALLATION			The printhead lot number and date and time when the Printhead was installed.	
	HEAD INFxx			
PARTS STATUS			Utilization status of replacement parts that require servicing.	
	COUNTER			
COUNTER			Utilization status of the cutter, media, and other items (indicating how much they have been used).	
	CUTTER			
	MEDIA			
		LIFE TTL		
		LIFE ROLL		
		LIFE CUTSHEET		
	MEDIA 1-7,OTHER			

	NAME	Utilization status of the cutter, media, and other items (indicating how much they have been used).
	TTL	
	ROLL	
	CUTSHEET	
AFTER INSTALLATION		

DUTY		Counters for maintenance purposes. Needed when service is requested.
	UNIT:m2	
	UNIT:sq.f	
	UNIT:A4 Sheet	
	UNIT:Letter Sheet	

Printing Interface Setting Reports

You can print an **Interface Print** report indicating the current interface settings values of the printer.

Printing **Interface Print** reports

- 1 Load the paper.
If using sheets, load paper A4/Letter-sized, you will need at least three sheets.
- 2 On the **Tab Selection screen** of the Control Panel, press ◀ or ▶ to select the Settings/Adj. tab ().

- If the **Tab Selection screen** is not displayed, press the **Menu** button.

- 3 Press the **OK** button.
The **Set./Adj. Menu** is displayed.
- 4 Press ▲ or ▼ to select **Test Print**, and then press the **OK** button.
- 5 Press ▲ or ▼ to select **Interface Print**, and then press the **OK** button.

Confirming **Interface Print** information

The following information is included in the **Interface Print** report.

Canon imagePROGRAF iPFxxxx Interface Print		Printer model
Firm	Firmware Version	
Boot	Boot ROM Version	
MIT(DBF)	MIT Database Format Version	
MIT(DB)	MIT Database Version	
S/N	Printer serial number	

Date	The date when the interface setup print report was printed.
------	---

EOP Timer		Specify the timeout period before cancellation of print jobs that cannot be received by the printer.
TCP/IPv4	Frame Type	IPv4 settings values.
	Use DHCP	
	Use BOOTP	
	Use RARP	
	Enable DNS Dynamic Update	
	Use Zeroconf Function	
	IP Address	
	Subnet Mask	
	Gateway Address

Inside the Roll Feed Unit Cover	493
Carriage	494
Ink Tank Cover (Inside)	494
Vents	496
Control Panel	454

Front

Standard

With the Ejection Guide removed

a Top Cover

Open this cover to install the Printhead and remove any jammed paper from inside the printer, as needed. (See "Top Cover (Inside).") →P.492

b Roll Feed Unit

Load rolls in this unit.

c Roll Feed Unit Cover

Open this cover to load rolls. (See "Inside the Roll Feed Unit Cover.") →P.493

d Control Panel

Use this panel to operate the printer and check the printer status. (See "Control Panel.") →P.454

e Ejection Guide

Supports output paper.

f Output Tray

All printed documents are ejected from this slot.

g Cutter Unit

A round-bladed cutter for automatic roll cutting.

h Ink Tank Cover

Open this cover to replace an Ink Tank. (See "Ink Tank Cover (Inside).") →P.494

- i Maintenance Cartridge**
Absorbs excess ink.

Back

- a USB Port**
Connect a USB cable to this port. The printer is compatible with Hi-Speed USB connections.
- b Ethernet Port**
Connect an Ethernet cable to this port.
- c Power Supply Connector**
Connect the power cord to this connector.
- d Carrying Handles**
When carrying the printer, hold it by these handles under both sides.

Top Cover (Inside)

a Carriage

Mounts the Printhead, and moves to the left and right. This is an important part for printing. (See "Carriage.") →P.494

b Carriage Shaft

The Carriage slides along this shaft.

c Paper Retainer

Important in supplying the paper. This retainer holds paper as it is fed.

d Platen

The Printhead moves across the platen to print. Vacuum holes on the platen hold paper in place.

e Borderless Printing Ink Grooves

For catching ink outside the edges of paper during borderless printing.

f Cleaning Brush

When cleaning inside the printer under the Top Cover, use this brush to sweep away paper dust on the Platen. Also use the brush to move the blue Switch on the Platen.

g Linear Scale

The linear scale serves a key role in detecting the Carriage position. Be careful not to touch this part when cleaning inside the Top Cover or clearing paper jams.

h Switch

Set the switch to the side opposite ● if the edges of printed images are blurred. Set the switch to the ● side before borderless printing. (See "Setting the Blue Switch on the Platen.") →P.626

Paper Feed Slots

- a Width Guide**
When loading a sheet, move the guide to match the paper size.
- b Top Paper Feed Slot**
When loading a sheet, insert it here.
- c Output Tray**
Guides printed documents as they are ejected.

Inside the Roll Feed Unit Cover

- a Roll Holder**
Load the roll on this holder.

b Holder Stopper

Secure rolls on the Roll Holder with this part.

c Roll Holder Slot

Slide the Roll Holder into this slot.

Carriage

**a Printhead Fixer Cover**

Holds the Printhead in place. Do not open this part except during Printhead replacement.

b Printhead

The printhead is equipped with ink nozzles. It serves a key role in printing.

c Printhead Fixer Lever

Locks the Printhead Fixer Cover. Do not open this part except during Printhead replacement.

Ink Tank Cover (Inside)

**a Ink Tank**

Cartridges of ink in various colors.

b Ink Tank Lock Lever

A lever that locks the Ink Tank in place and protects it. Lift and press down the lever when replacing an Ink Tank.

c Ink Lamp (Red)

Indicates the state of the Ink Tank as follows when the Ink Tank Cover is opened.

- On

The Ink Tank is installed correctly.

- Off

No Ink Tank is installed, or the ink level detection function is off.

- Flashing Slowly

Not much ink is left.

- Flashing Rapidly

Ink tank is empty.

d Ink Color Label

Load an Ink Tank that matches the color and name on this label.

Vents

There are vents at three positions of the printer as shown: on top (1), on the right (2), and on the bottom on the right (3).

Important

- Do not block these vents.
- Also, avoid setting paper or other light objects near the vents.

Optional accessories

Stand	497
Stand Parts	498
Roll Holder Set	384

Stand

The following Stand can be used with the printer.

- Printer Stand ST-29

For more information on the main parts of the Stand, see "Stand Parts." →P.498

Important

- Always set the Locking Caster to the OFF side to unlock it before moving the Stand. Accidentally moving it while the Locking Caster is locked may scratch the floor.

Note

- For instructions on installing the Stand, refer to the instructions provided with the Stand.

Stand Parts

a Stand

A stand that holds the printer. It is equipped with casters to facilitate movement.

b Output Stacker

Printed documents are ejected into the output tray.

For more information on using the Output Stacker, refer to "Using the Output Stacker" →P.391 and the "Output Stacker Precautions" →P.391 .

c Locking Caster

A locking caster that, when the lock is in the ON position, immobilizes the printer.

Always set the Locking Caster to the OFF side to unlock it before moving the Stand.

Accidentally moving it while the Locking Caster is locked may scratch the floor.

d Accessory Pocket

Store printer manuals, assembly tools, and other items in this pocket.

Network Environment

Network Environment

System requirements

The system requirements, which vary depending on your network, are as follows.

- Printing over a TCP/IP network (when using IPv4)

- Compatible operating systems
 - Windows XP
 - Windows Server 2003
 - Windows Vista
 - Windows Server 2008
 - Windows 7
 - Windows 8
 - Windows Server 2003 x64
 - Windows Vista x64
 - Windows Server 2008 x64
 - Windows Server 2012 x64
 - Windows 7 x64
 - Windows 8 x64
 - Mac OS X v10.2.8 or later
 - Unix (Solaris 9)
 - Unix (Red Hat 9)

- Printing over a TCP/IP network (when using IPv6)

- Compatible operating systems
 - Windows Vista
 - Windows Server 2008
 - Windows 7
 - Windows 8
 - Windows Vista x64
 - Windows Server 2008 x64
 - Windows Server 2012 x64
 - Windows 7 x64
 - Windows 8 x64
 - Mac OS X v10.3.8 or later

- When using IPv6, you must specify IPv6 on the Control Panel or in RemoteUI. For instructions, "Configuring TCP/IPv6 Network Settings" → P.508 or see "Configuring the Printer's TCP/IP Network Settings With RemoteUI." → P.509
- The imagePROGRAF printer driver is supported in Mac OS X v10.6.8 or later.
- The imagePROGRAF printer driver is not compatible with Unix.

- Printing over an AppleTalk network

- Compatible operating systems
 - Mac OS X v10.2.8–10.4

- The printer cannot be used over a LocalTalk network.
- Compatible with EtherTalk Phase 2.
- The imagePROGRAF printer driver is not compatible with AppleTalk.

- Printing over a NetWare network

- Compatible servers
 - Novell NetWare 4.2/5.1/6.0
- Compatible clients
 - Windows XP (Professional)

Note

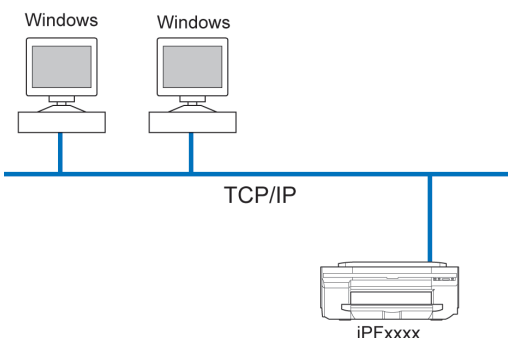

- In NetWare 6.0, iPrint is not supported.

Network Environment

After confirming what type of network environment you will connect the printer to, set up the printer and computers as needed. For the specifications of the network interface, see "**Specifications.**" → P.660

- Example of a Windows network

In Windows networks, print over TCP/IP.

Note

- NetBIOS is not supported.

- Example of a Mac OS network

In Mac OS networks, print over TCP/IP using the Bonjour function.

Note

- The imagePROGRAF printer driver is not compatible with AppleTalk.

- Example of a NetWare network

**Note**

- Even if there is a NetWare server in your network environment, you can use it in conjunction with TCP/IP or AppleTalk. In this case, complete the settings for each protocol you will use.

Using RemoteUI

Using RemoteUI

RemoteUI is software with which you can access the printer via the network from your Web browser to confirm the printer status, operate jobs, and configure the settings. Since the software (Web server) for using RemoteUI is built in the printer, preparing software other than a Web browser is unnecessary. You can use RemoteUI if an imagePROG-RAF printer on a network is connected to your computer. If you start your Web browser and specify the IP address of the printer, the RemoteUI screen is displayed, and you can use RemoteUI.

- To use RemoteUI, an IP address must be set on the printer in advance. For the method of setting an IP address, see "Configuring the IP Address on the Printer." →P.505

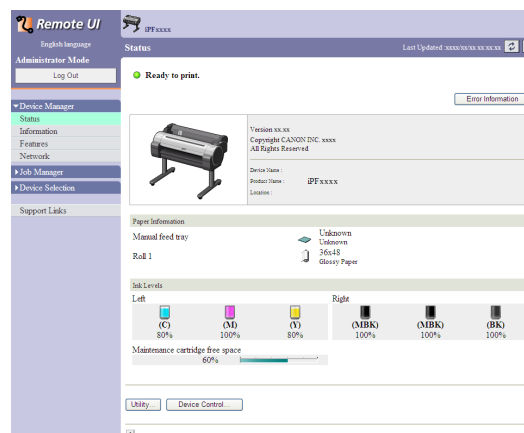

What You Can Do With RemoteUI

With RemoteUI, you can access the printer via a network, configure network settings, and display the current status of the printer, various types of information, the processing status of jobs, etc.

Starting RemoteUI

Start RemoteUI by the following operations.

- 1 Start your Web browser.
- 2 Enter the following URL in **Address** or **Location**.
http://printer IP address or name/
Example: http://xxx.xxx.xxx.xxx/
- 3 The RemoteUI screen is displayed.

Note

- The screen slightly differs depending on the model of printer.

Configuring the Network With RemoteUI

For details on configuring printer settings for networks, refer to the following topics.

- Configuring the Printer's TCP/IP Network Settings With RemoteUI →P.509
- Configuring the Printer's AppleTalk Network Settings →P.523
- Configuring the Printer's NetWare Network Settings With RemoteUI →P.518
- Specifying Printer-Related Information →P.524

**Important**

- For the Web browser, use Netscape Navigator 6.0 or later, Internet Explorer 5.01 or later, or Firefox 1.5 or later. For Mac OS X, Safari 1.32 or later or 2.03 or later also is supported.
- This cannot be used connected via a proxy server. In environments where a proxy server is used, add the printer's IP address to **Exceptions** (addresses accessed without a proxy server) in the web browser proxy server settings. (Settings may vary depending on the network environment.)
- Enable JavaScript and cookies in the web browser.
- If you access RemoteUI with the printer name instead of its IP address, make sure the DNS settings are correctly configured.
- Depending on the network environment, you may not be able to start RemoteUI.
- Confirm whether **System Setup > Use RemoteUI** is set to **On** on the Control Panel of the printer.

**Note**

- RemoteUI also offers many other features. You can display the ink levels, check error messages and other status information, and cancel print jobs.
- By factory default, the English screen is displayed. To change the display language, select the desired language under **Language** before logging on in administrator mode.

Initial Settings

Configuring the IP Address on the Printer	505
Configuring the IP Address Using imagePROGRAF Device Setup Utility	527
Configuring the IP Address Using the Printer Control Panel	505
Configuring the IP Address Using ARP and PING Commands	506
Configuring TCP/IPv6 Network Settings	508
Configuring the Printer Driver Destination (Windows)	508
Configuring the Printer Driver Destination (Mac OS)	509
Configuring the Printer's TCP/IP Network Settings With RemoteUI	509

Configuring the IP Address on the Printer

You must configure the printer's IP address before using the printer in a TCP/IP network. The printer's IP address is configured automatically when you install the printer driver following the instructions in the Setup Guide. Configure the IP address by using **imagePROGRAF Device Setup Utility**, the printer Control Panel, or ARP or PING commands, if the IP address is changed, or if you change the printer connection mode to a network connection. For details on configuring the IP address, refer to the following topics.

- **Configuring the IP Address Using imagePROGRAF Device Setup Utility** →P.527 (Windows)
- **Configuring the IP Address Using the Printer Control Panel** →P.505
- **Configuring the IP Address Using ARP and PING Commands** →P.506

- If you use a DHCP server for automatic assignment of the printer's IP address, printing may no longer be possible after the printer is turned off and on. This is because an IP address different from before has been assigned. Thus, when using DHCP server functions, consult your network administrator and configure the settings in one of the following ways.
 - Configure the setting for dynamic DNS updating
In the printer menu, either set **DNS Dync update** to **On**, or activate the setting **Enable DNS Dynamic Update** in RemoteUI.
(See "Menu Settings.") →P.474
(See "Configuring the Printer's TCP/IP Network Settings With RemoteUI.") →P.509
 - Configure the setting for assignment of the same IP address each time the printer starts up

- We recommend configuring the printer's IP address even if you will use the printer in networks other than TCP/IP networks. Configuring the printer's IP address enables you to use RemoteUI to configure the network settings and manage the printer with a web browser.
For details on RemoteUI, see "Using RemoteUI." →P.503

Configuring the IP Address Using the Printer Control Panel

This topic describes how to configure the printer's IP address on the Control Panel.

- 1 On the **Tab Selection screen** of the Control Panel, press ◀ or ▶ to select the Settings/Adj. tab ().

Note

- If the **Tab Selection screen** is not displayed, press the **Menu** button.

2

Press the **OK** button.
The **Set./Adj. Menu** is displayed.

3

Press **▲** or **▼** to select **Interface Setup**, and then press the **OK** button.

4

Press **▲** or **▼** to select **TCP/IP**, and then press the **OK** button.

5

Press **▲** or **▼** to select **IPv4**, and then press the **OK** button.

6

Press **▲** or **▼** to select **IPv4 Settings**, and then press the **OK** button.

7

Press **▲** or **▼** to select **IP Address**, and then press the **OK** button.

8

After you press **◀** or **▶** to select the input field, numerical input is possible.

9

Press the **▲** or **▼** button to enter the value.

Note

- Hold down **▲** to increase the value continuously. However, 0 follows 2 for digits of 100 and 0 follows 9 for digits of 10 and 1.
- Hold down **▼** to decrease the value continuously. However, 2 follows 0 for digits of 100 and 9 follows 0 for digits of 10 and 1.
- Hold down **▲** or **▼** to increase or decrease the value continuously.
- Make sure the IP address you enter for the printer is not the same as any computer IP address in your network.

10

Repeat steps 8 and 9 to complete the settings, and then press the **OK** button.

11

Press the **Menu** button.
If you have changed the settings, a confirmation message is displayed. Press **▲** or **▼** to select **Yes**, and then press the **OK** button.

Important

- Be sure to complete step 11. This will activate the values you have entered.
- If an error message is displayed, check the settings and correct any invalid values.

Note

- You can also specify the subnet mask and default gateway on the Control Panel.
- The DNS can also be configured from the printer Control Panel.

Configuring the IP Address Using ARP and PING Commands

This topic describes how to configure the IP address using ARP and PING commands.

To use the ARP and PING commands, you will need to know the printer's MAC address. You can confirm the MAC address on the Control Panel.

1 Check the printer's MAC address.

You can confirm the MAC address on the Control Panel as follows:

1. On the **Tab Selection screen** of the Control Panel, press ◀ or ▶ to select the **Settings/Adj. tab** ().

2. Press the **OK** button.
The **Set./Adj. Menu** is displayed.
3. Press ▲ or ▼ to select **Interface Setup**, and then press the **OK** button.
4. Press ▲ or ▼ to select **Ethernet Driver**, and then press the **OK** button.
5. Press ▲ or ▼ to select **MAC Address**, and then press the **OK** button.

Note

- If the **Tab Selection screen** is not displayed, press the **Menu** button.
- You can investigate the MAC address by printing an interface setting report.
(See "Printing Interface Setting Reports." → P.485)

- 2 In Windows, open a command prompt, or in Mac OS X, start Terminal.

- 3 Execute the following command to add entries to the ARP table for managing IP addresses and corresponding MAC addresses.

arp -s [IP address] [the printer's MAC address you have verified]

Example: arp -s xxx.xxx.xxx.xxx xx-xx-xx-xx-xx-xx

Note

- In Mac OS X when using Terminal, enter the arp command in the format
arp -s xxx.xxx.xxx.xxx xx-xx-xx-xx-xx-xx.
For details, refer to the help file for the command line.

- 4 Execute the following command to send the IP address to the printer and configure it.
ping [IP address as specified in the ARP command] -l 479
Example: ping xxx.xxx.xxx.xxx -l 479

Note

- In -l, the l is the letter l.
- In Mac OS X when using Terminal, enter the ping command in the format
ping -s 479 xxx.xxx.xxx.xxx.
For details, refer to the help file for the command line.

Note

- The subnet mask and default gateway are set to 0.0.0.0. Use RemoteUI to change the subnet mask and default gateway to match your network settings.
For details on RemoteUI, see "Using RemoteUI." → P.503

Configuring TCP/IPv6 Network Settings

When printing in a TCP/IPv6 network, you must configure the TCP/IPv6 settings on the Control Panel. Follow the steps below to configure the TCP/IPv6 network settings.

- 1
- On the **Tab Selection screen** of the Control Panel, press ◀ or ▶ to select the Settings/Adj. tab ().

• If the **Tab Selection screen** is not displayed, press the **Menu** button.

Note

- 2
- Press the **OK** button.
The **Set./Adj. Menu** is displayed.
- 3
- Press ▲ or ▼ to select **Interface Setup**, and then press the **OK** button.
- 4
- Press ▲ or ▼ to select **TCP/IP**, and then press the **OK** button.
- 5
- Press ▲ or ▼ to select **IPv6**, and then press the **OK** button.
- 6
- Press ▲ or ▼ to select **IPv6 Support**, and then press the **OK** button.
- 7
- Press ▲ or ▼ to select **On**, and then press the **OK** button.

Important

• Once you set **IPv6 Support** to **On**, the **IPv6 StlessAdrrs** setting takes effect.

Note

- You can also configure **IPv6 StlessAdrrs** and **DHCPv6** from the printer Control Panel.
- The DNS can also be configured from the printer Control Panel.

Configuring the Printer Driver Destination (Windows)

This topic describes how to specify the printer driver destination if the printer's IP address is changed, or if you will use the printer over a network connection instead of via USB connection.

The procedure described below is the configuration based on the LPR or Raw protocol using the standard TCP/IP port in Windows (**Standard TCP/IP Port**).

Important

- If you will use the printer in a TCP/IP network, make sure the printer's IP address is configured correctly.
- **Configuring the IP Address on the Printer** → P.505

Note

- This section describes the procedure in Windows 7.

- 1
- Open the **Devices and Printers** window.
- 2
- Right-click the icon of this printer and choose **Printer Properties** to open the printer properties window.
- 3
- Click the **Port** tab to display the **Port** sheet.

- 4

Click **Add Port** to display the **Printer Ports** dialog box.
- 5

In the **Available Port** list, select **Standard TCP/IP Port**.
- 6

Click **New Port**.
After the wizard starts, a window is displayed for the **Welcome to the Add Standard TCP/IP Printer Port Wizard**.
- 7

Click **Next**.
- 8

In **Printer Name or IP Address**, enter the printer's IP address. If the DNS is configured, you can also enter the DNS Domain Name.
- 9

Follow the instructions on the screen to add a printer port.
- 10

Click **Close** to close the **Printer Ports** dialog box.
- 11

Make sure the printer port you added is displayed under **Ports**, and that the port is selected.
- 12

Click **Close** to close the printer properties window.

Configuring the Printer Driver Destination (Mac OS)

Specify the printer driver destination as follows if the printer's IP address is changed, or if you will use the printer over a network connection instead of via USB connection.

- If you switch to printing in a TCP/IP network, or if the printer's IP address is changed, see "Configuring the Destination in TCP/IP Networks ." →P.521
- If you switch to printing in a Bonjour network, see "Configuring the Destination for Bonjour Network ." →P.521

Configuring the Printer's TCP/IP Network Settings With RemoteUI

Follow the steps below to configure the TCP/IP network settings.

When using an IPv4 IP address

- 1

Start the web browser and enter the following URL in the **Location** (or **Address**) box to display the RemoteUI page.
http://**printer IP address or name**/
Example: http://xxx.xxx.xxx.xxx/
- 2

Select **Administrator Mode** and click **Logon**.

 • If a password has been set on the printer, enter the password.
- 3

Click **Network** in the **Device Manager** menu at left to display the **Network** page.
- 4

Click **Edit** in the upper-right corner of the **TCP/IPv4** group to display the **Edit TCP/IP Protocol Settings** page.
- 5

Refer to the TCP/IP Settings Items table to complete the settings.

TCP/IP Settings Items		
Item	Details	Default Setting
Use DHCP	Activate this setting to use DHCP for configuring the IP address.	Off
Use BOOTP	Activate this setting to use BOOTP for configuring the IP address.	Off

Item	Details	Default Setting
Use RARP	Activate this setting to use RARP for configuring the IP address.	Off
Enable DNS Dynamic Update	Activate this setting to perform DNS server registration automatically.	Off
Use Zeroconf Function	Activate this setting to use Bonjour.	On
IP Address	Specify the printer's IP address.	0.0.0.0
Subnet Mask	Specify the printer's subnet mask.	0.0.0.0
Gateway Address	Specify the printer's default gateway.	0.0.0.0
LPD Printing	Activate this setting to use LDP Printing.	On
IPP Printing	Activate this setting to use IPP Printing.	On
IPP Printer URI	Specify the URI of the printer used for IPP printing using up to 252 characters.	printer
RAW Printing	Activate this setting to use Raw Printing.	On
RAW Mode Bi-direction	Activate this setting to use Raw mode bidirectional communication.	Off
FTP Printing	Activate this setting to use FTP Printing.	On
Use Discovery	Activate this setting to use SLP Discovery function.	On
Scope	Enter the SLP search range.	default
SMTP Server Address	Specify the SMTP server's IP address. You can also specify the SMTP server domain name, if desired.	0.0.0.0
Primary DNS Server Address	Specify the IP address of the primary DNS server.	0.0.0.0
Secondary DNS Server Address	Specify the IP address of the secondary DNS server.	0.0.0.0
DNS Host Name	Specify the printer host name, up to 63 characters (1–63 characters). Use single-byte letters, numbers, and - (hyphens). Do not use numbers or - for the first character or - for the last character.	NB-18GBipxxxxxx
DNS Domain Name	Specify the printer domain name, up to 63 characters. Use single-byte letters, numbers, - (hyphens), and . (periods). Do not use numbers, -, or . for the first character, or - or . for the last character.	blank
Multicast DNS Service Name	Specify the printer's Multicast DNS service name. (1–63 characters) This name will be displayed when Bonjour functions are used.	Canon iPFxxxx (xxxxxx)

6 Click **OK** to display the **Network** page.

- If you specify to configure the IP address using DHCP, BOOTP, or RARP, there must be a server that supports such protocol running in the network.
- If you specify to configure the IP address using DHCP, BOOTP, or RARP, the IP address obtained by this method is used first. If you cannot obtain the IP address, the address specified in **IP Address** is used.
- It takes up to two minutes to determine whether DHCP, BOOTP, or RARP are available. We recommend clearing check boxes of options you will not use.
- If you are using a DNS server, select **Enable DNS Dynamic Update** and enter the IP Address for DNS servers and DNS domain name in **Primary DNS Server Address**, **Secondary DNS Server Address** and **DNS Domain Name**, respectively.

When using an IPv6 IP address

1 Start the web browser and enter the following URL in the **Location** (or **Address**) box to display the RemoteUI page.
http://**printer IP address or name**/
Example: http://xxx.xxx.xxx.xxx/

2 Select **Administrator Mode** and click **Login**.

Note

- If a password has been set on the printer, enter the password.

3 Click **Network** in the **Device Manager** menu at left to display the **Network** page.

4 Click **Edit** in the upper-right corner of the **TCP/IPv6** group to display the **Edit TCP/IPv6 Protocol Settings** page.

5 Refer to the TCP/IPv6 Settings Items table to complete the settings.

TCP/IPv6 Settings Items

Item		Details	Default Setting
Use IPv6		Activate to enable IPv6.	Off
Use DHCPv6		Activate when using a DHCPv6 server to acquire the IP address.	Off
Use a stateless address		Activate when using an IPv6-compatible router to acquire the IP address.	On
Use a manual address		Activate when configuring the IP address manually.	Off
	IP Address	Enter the printer's IP address.	::
	Prefix Length	Enter the IP address prefix length.	
	Default Router Address	Enter the default router address.	::
	Prefix Length	Enter the prefix length of the default router address.	
Primary DNS Server Address		Specify the IP address of the primary DNS server.	::
Secondary DNS Server Address		Specify the IP address of the secondary DNS server.	::
Use the same host name and domain name as IPv4		Activate when using the same DNS host and domain names as for IPv4.	Off
	DNS Host Name	Specify the printer host name, up to 63 characters (1–63 characters). Use single-byte letters, numbers, and - (hyphens). Do not use numbers or - for the first character or - for the last character.	NB-18GBip6xxxxxx
	DNS Domain Name	Specify the printer domain name, up to 63 characters. Use single-byte letters, numbers, - (hyphens), and . (periods). Do not use numbers, -, or . for the first character, or - or . for the last character.	blank
Perform dynamic updating of stateful addresses		Activate this setting to automatically register the stateful address with the DNS server.	Off
Dynamically update the stateless address		Activate this setting to automatically register the stateless address with the DNS server.	Off
Dynamically update the manual address		Activate this setting to automatically register the manual address with the DNS server.	Off

6 Click **OK** to display the **Network** page.

- If you are using a DNS server, select **Enable DNS Dynamic Update** and enter the IP Address for DNS servers and DNS domain name in **Primary DNS Server Address**, **Secondary DNS Server Address** and **DNS Domain Name**, respectively.

NetWare Settings

Configuring NetWare Network Settings	513
Specifying the Printer's Frame Type	513
Specifying NetWare Print Services	516
Configuring the Printer's NetWare Network Settings With RemoteUI	518

Configuring NetWare Network Settings

To print over a NetWare network, configure the network environment as follows.

- To configure network settings, you must be logged in with administrative rights such as Administrator account. We recommend that your network administrator configure the network settings.

- This section describes the procedure in Windows 7.

- 1** Specify the Ethernet frame type for communication between the printer and computers.
For instructions, see "Specifying the Printer's Frame Type." →P.513
- 2** Specify the NetWare print services, including the print server and queue.
For instructions, see "Specifying NetWare Print Services." →P.516
- 3** Specify NetWare protocol details besides the frame type.
For details on how to configure the settings, see "Configuring the Printer's NetWare Network Settings With RemoteUI." →P.518
After you have completed the steps above, configure each computer for printing over the NetWare network.
- 4** Connect to the NetWare network.
Install NetWare client software on each computer to be used for printing over the network, and log in to the NetWare server or tree. For instructions on connection, refer to the NetWare and operating system documentation.
- 5** Install the printer driver.
Follow the instructions of your network administrator to install the printer driver on each computer to be used for printing. When installing the printer driver, choose **Network Printer** as the printer destination, and then choose the print queue created from the NetWare print service settings.
- 6** Follow these steps to configure the printer port. This step is not necessary if you specified the printer destination during installation of the printer driver.
 - 1.** Open the **Devices and Printers** window.
 - 2.** Right-click the icon of this printer and choose **Printer Properties** to open the printer properties window.
 - 3.** Click the **Port** (or **Advanced**) tab to display the **Port** (or **Advanced**) sheet.
 - 4.** As the destination port, specify the print queue created by configuring the NetWare print service settings.

Specifying the Printer's Frame Type

To enable communication between the printer and computers on your network, specify the Ethernet frame type in your NetWare environment.

Follow the steps below to specify the frame type by using **imagePROGRAF Device Setup Utility** or the printer Control Panel.

Important

- Before specifying the frame type, make sure the printer is on and connected to the network.

Note

- You can specify the frame type by using RemoteUI if the printer's IP address is configured.
- For instructions on installing **imagePROGRAF Device Setup Utility**, see "Installing imagePROGRAF Device Setup Utility." →P.527 .

Specifying the frame type using **imagePROGRAF Device Setup Utility**

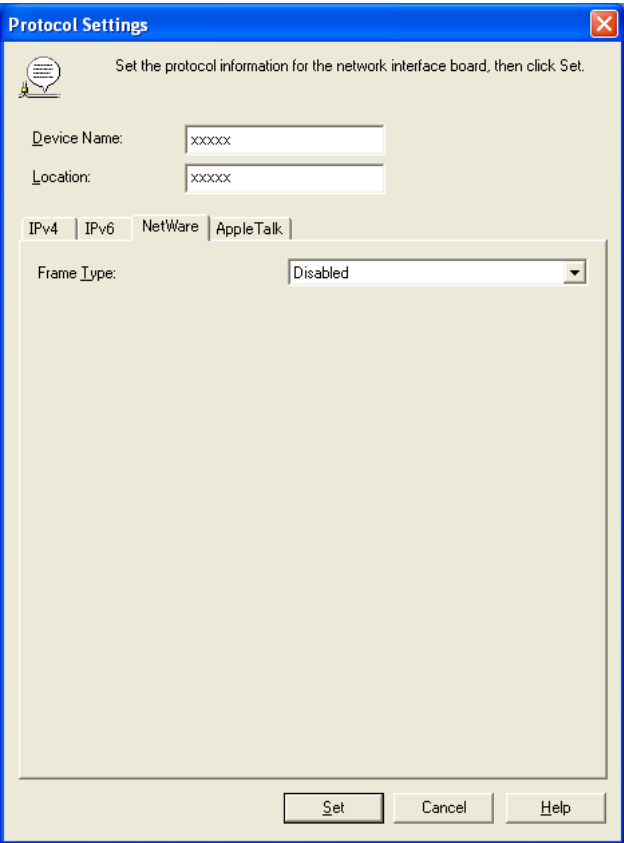

1 Start **imagePROGRAF Device Setup Utility**.

2 In the list of printers, select the printer to configure.

3 Choose **Protocol Settings** from the **Printer** menu.

4 Click the **NetWare** tab and select the frame type in the **NetWare Frame Type** list.

- 5** Select the **IPv4** tab. In **IP Address**, enter the IP address assigned to the printer, and then enter the subnet mask in **Subnet Mask** and the default gateway in **Gateway Address**.

The **Protocol Settings** dialog box is shown with the **IPv4** tab selected. It contains fields for **Device Name** and **Location**, both set to "xxxxx". Below these are tabs for **IPv4**, **IPv6**, **NetWare**, and **AppleTalk**. The **IPv4** section includes a **Frame Type** dropdown set to "ETHERNET II", a **Setting IP Address** dropdown set to "Manual", and three checkboxes for **RARP**, **BOOTP**, and **DHCP**, all of which are unchecked. Below these are input fields for **IP Address**, **Subnet Mask**, and **Gateway Address**, each containing "xxx . xxx . xxx . xxx". At the bottom are **Set**, **Cancel**, and **Help** buttons.

- You must specify the IP address here to be able to configure NetWare protocol settings using RemoteUI.

- 6** Click **Set**.
- 7** Click **OK** after the **Confirmation** message is displayed.
- 8** Exit **imagePROGRAF Device Setup Utility**.

Specifying the frame type using the printer Control Panel

- 1** On the **Tab Selection screen** of the Control Panel, press ◀ or ▶ to select the **Settings/Adj. tab** ().

- If the **Tab Selection screen** is not displayed, press the **Menu** button.

- 2** Press the **OK** button.
The **Set./Adj. Menu** is displayed.
- 3** Press ▲ or ▼ to select **Interface Setup**, and then press the **OK** button.

- 4** Press ▲ or ▼ to select **NetWare**, and then press the **OK** button.
- 5** Press ▲ or ▼ to select **NetWare**, and then press the **OK** button.
- 6** Press ▲ or ▼ to select **On**, and then press the **OK** button.
The display reverts to the **NetWare** menu.
- 7** Press ▲ or ▼ to select **Frame Type**, and then press the **OK** button.
- 8** Press ▲ or ▼ to select the frame type to use, and then press the **OK** button.
The display reverts to the **NetWare** menu.
- 9** Press ▲ or ▼ to select **Print Service**, and then press the **OK** button.
- 10** Press ▲ or ▼ to select the desired print service, and then press the **OK** button.
The display reverts to the **NetWare** menu.
- 11** Press the **Menu** button.
If you have changed any settings, a confirmation message is displayed. In this case, press the **OK** button.

Important

- Be sure to complete step 11. This will activate the values you have entered.

Note

- If an error message is displayed, check the settings and correct any invalid values.
- To cancel this process, press the **Back** button.

Specifying NetWare Print Services

Before printing in a NetWare network, you must configure print services such as print servers, print queues, and so on. You can configure the print service settings from a computer using any of the following Novell software provided with NetWare.

- NWADMIN
- PCONSOLE

Important

- If you use NWADMIN to configure the print service settings, Novell Client (the Novell NetWare client software) must be installed as the client software application.
- NetWare networking is unsupported in Windows Vista, Windows Server 2008 and Windows 7.

This topic gives instructions for configuring NetWare print services. The order of this procedure may vary depending on the environment.

Choosing the type of print services

Before completing print service settings, choose the type of print service. Refer to the following descriptions as needed.

Note

- In NetWare 5.1 or 6.0, NDPS may also be used as the print service. If you use NDPS, use the Novell printer gateway included with NetWare. For details on configuring NDPS, refer to the NetWare documentation.

- NDS (Novell Directory Service) and bindery

NDS and bindery are both supported. Use the mode that is compatible with your network environment.

- Queue server mode and remote printer mode
Queue server mode and remote printer mode are both supported.
 - Queue server mode
When using queue server mode, all print server functions are supported, so there is no need for other print server software or hardware. In NDS queue server mode (NDS PServer), the NDS print server is used for printing. In bindery queue server mode (Bindery PServer), the bindery print server is used for printing. Note that if you use queue server mode, a NetWare user license is required for each network interface.
 - Remote printer mode
In remote printer mode, the printer is controlled by the NetWare print server. Thus, a NetWare print server is required. In NDS remote printer mode (NPrinter), the NDS print server is used for printing, and in bindery remote printer mode (RPrinter), the bindery print server is used for printing.

Using NWADMIN or PCONSOLE to set up the print server

Use NWADMIN to set up the print server if NDS queue server mode or remote printer mode is used.

1 Log into NetWare as Administrator or with equivalent rights, and then start NWADMIN.

2 Run Quick Setup.

- 1.** Choose **Print Services Quick Setup** in the **Tools** menu.
- 2.** Enter a desired name in **Print Server Name**. To use an existing print server, click the button at right and choose the name from the list.
- 3.** Enter a desired printer name in **Name**.
- 4.** To use the printer in queue server mode, choose **Other/Unknown** in **Type**. To use the printer in remote printer mode, choose **Parallel** in **Type**, click **Communications**, and set **Ports** to **LPT1** and **Connection Type** to **Manual Load**.
- 5.** Enter a desired queue name in **Name**.
- 6.** In **Volume**, enter the volume object (that is, the object representing the physical volume on the network) where the print queue will be created. Click the button at right to choose from a list.
- 7.** Complete other settings as needed and click **OK**.

- The print server name will be required when configuring the printer's protocol settings. Write down the print server name for future reference.
- When running Quick Setup, the printer is assigned printer number 0. When using the printer in queue server mode, do not change the printer number from 0.

3 Set a password.

- 1.** Right-click the print server created in step 2 and choose **Details**.
- 2.** Click **Change Password** to open the password input dialog box. Enter the password.
- 3.** Click **OK** to close the password input dialog box.
- 4.** Click **OK** or **Cancel** to close the details dialog box.

- 4 To use the printer in remote printer mode, start the print server.
To use the NetWare file server as the print server, enter **LOAD PSERVER.NLM** at the file server and press the Enter key.

Note

- This procedure is not required when using queue server mode.

Use PCONSOLE to set up the print server if bindery queue server mode or remote printer mode is used.

- 1 Log into NetWare as Admin and start PCONSOLE.
- 2 Switch to bindery mode.
- 3 If the print server has not been created, create it.
 1. In **Available Options**, select **Quick Setup**, and press the Enter key.
 2. Enter the name of the new print server, the new printer, and the queue.

Note

- The print server name will be required when configuring the printer's protocol settings. Write down the print server name for future reference.

- 4 Specify the printer type.
 1. To use the printer in queue server mode, choose **Other/Unknown** in **Type**. To use remote printer mode, set **Printer Type** to **Parallel** and **Position** to **Manual Load**.
 2. Press the Esc key.
 3. After the confirmation message is displayed, choose **Yes** and press the Enter key.
- 5 Set a password.
 1. In **Available Options**, select **Print Servers** and press the Enter key.
 2. Select the print server created in step 2 and press the Enter key.
 3. Select **Password**, and press the Enter key to display the password input dialog box.
 4. Enter the password and press the Enter key.
- 6 Press the Esc key several times to display the dialog box for confirming that PCONSOLE is finished.
- 7 Click **Yes** to exit PCONSOLE.

Configuring the Printer's NetWare Network Settings With RemoteUI

Follow the steps below to configure NetWare protocol settings other than the frame type by using RemoteUI.

Note

- For details on RemoteUI, see "Using RemoteUI." → P.503

- 1 Start the web browser and enter the following URL in the **Location** (or **Address**) box to display the RemoteUI page.
http://printer IP address or name/
Example: http://xxx.xxx.xxx.xxx/
- 2 Select **Administrator Mode** and click **Logon**.

- 3** If a password has been set on the printer, enter the password.
- 4** Click **Network** in the **Device Manager** menu at left to display the **Network** page.
- 5** Click **Edit** in the upper-right corner of the **NetWare** group to display the **Edit NetWare Protocol Settings** page.
- 6** Refer to the NetWare Settings Items table to complete the settings.

NetWare Settings Items

Item		Details	Default Setting
Frame Type		Specify the type of frame to use in NetWare.	Disabled
NCP Burst Mode		Activate this setting to use NCP Burst Mode. This mode supports fast data transfer when printing in queue server mode. Normally, leave the setting On.	On
Print Application		Choose the print service. The print service selected here is enabled. Multiple print services cannot be enabled simultaneously. <ul style="list-style-type: none"> • Bindery PServer • RPrinter • NDS PServer • NPrinter 	NDS PServer
Packet Signature		Select If Requested by Server to use packet signature.	If Requested by Server
Bindery PServer	File Server Name	Specify the name of a file server that has a NetWare print server. (0–47 characters)	—
	Print Server Name	Specify the name of a NetWare print server. (0–47 characters)	—
	Print Server Password	Set a password for the print server. (0–20 characters)	—
	Polling Interval	Specify the interval to confirm jobs. (1–15 seconds)	5
RPrinter	Print Server Name	Specify the name of a NetWare print server. (0–47 characters)	—
	Printer Number	Specify the number of the printer connected to the NetWare print server. (0–15)	0
NDS PServer	Tree Name	Specify the name of an NDS tree that has a NetWare print server. (0–32 characters)	—
	Context Name	Specify the name of a context that has a NetWare print server. (0–255 characters)	—
	Print Server Name	Specify the name of a NetWare print server. (0–64 characters)	—
	Print Server Password	Set a password for the print server. (0–20 characters)	—
	Polling Interval	Specify the interval to confirm jobs. (1–255 seconds)	5
NPrinter	Print Server Name	Specify the name of a NetWare print server. (0–47 characters)	—
	Printer Number	Specify the number of the printer connected to the NetWare print server. (0–254)	0

7

Complete the following settings based on the selected service.

- If you have selected Bindery PServer: Queue Server Mode (Using a Bindery Print Server)
 1. In **File Server Name**, enter the file server name.
 2. In **Print Server Name**, enter the name of the print server created in "Specifying NetWare Print Services" → P.516 .
 3. In **Print Server Password**, enter the password of the print server created in "Specifying NetWare Print Services" → P.516 .
 4. In **Polling Interval**, specify the interval at which the printer checks the NetWare print queue.
- If you have selected RPrinter: Remote Printer Mode (Using a Bindery Print Server)
 1. In **Print Server Name**, enter the advertising name of the print server created in "Specifying NetWare Print Services" → P.516 .
 2. In **Printer Number**, enter the same printer number specified in "Specifying NetWare Print Services" → P.516 .
- If you have selected NDS PServer: Queue Server Mode (Using an NDS Print Server)
 1. In **Tree Name** and **Context Name**, enter the tree and context name of the print server.
 2. In **Print Server Name**, enter the name of the print server created in "Specifying NetWare Print Services" → P.516 .
 3. In **Print Server Password**, enter the password of the print server created in "Specifying NetWare Print Services" → P.516 .
 4. In **Polling Interval**, specify the interval at which the printer checks the NetWare print queue.
- If you have selected NPrinter: Remote Printer Mode (Using a NDS Print Server)
 1. In **Print Server Name**, enter the advertising name of the print server created in "Specifying NetWare Print Services" → P.516 . Usually, the advertising name is the same as the name of the print server.
 2. In **Printer Number**, enter the same printer number specified in "Specifying NetWare Print Services" → P.516 .

8

Click **OK** to display the **Network** page.

Mac OS Settings

Configuring the Destination in TCP/IP Networks	521
Configuring the Destination for Bonjour Network	521
Configuring the Destination for AppleTalk Networks	521
Configuring the Printer's AppleTalk Network Settings	523

Configuring the Destination in TCP/IP Networks

If you use the printer in a TCP/IP network, register the printer in **Print & Scan** (or **Print & Fax**) in the Mac OS **System Preferences**.

- 
 - For details on how to register a printer using a TCP/IP network, see the OS User Manual.
- 
 - If you use the printer in a TCP/IP network, make sure the printer's IP address is configured correctly. (See "Configuring the IP Address Using the Printer Control Panel.")[→ P.505](#)

Configuring the Destination for Bonjour Network

If you use the printer in a network that uses the Bonjour function, register the printer in **Print & Scan** (or **Print & Fax**) in the Mac OS **System Preferences**.

- 
 - For details on how to register a printer using Bonjour, see the OS User Manual.
- 
 - Bonjour and IP Print (Auto) do not support printing to a printer on other network groups that require a router for connection. Make sure the computer and printer are on the same network. For information about network settings, ask your network administrator.
 - By default, Bonjour is activated on the printer. You can activate or deactivate the Bonjour function or change the printer name by using RemoteUI. For instructions on changing it, see "Using RemoteUI."[→ P.503](#)

Configuring the Destination for AppleTalk Networks

To print over an AppleTalk network, activate the AppleTalk protocol and configure the destination as follows.

Activating AppleTalk on the printer

- 
 - By default, the AppleTalk protocol is disabled on the printer.

- 1

On the **Tab Selection screen** of the Control Panel, press ◀ or ▶ to select the Settings/Adj. tab ().

- 
 - If the **Tab Selection screen** is not displayed, press the **Menu** button.

- 2 Press the **OK** button.
The **Set./Adj. Menu** is displayed.
- 3 Press **▲** or **▼** to select **Interface Setup**, and then press the **OK** button.
- 4 Press **▲** or **▼** to select **AppleTalk**, and then press the **OK** button.
- 5 Press **▲** or **▼** to select **On**, and then press the **OK** button.
- 6 Press the **Menu** button.
If you have changed any settings, a confirmation message is displayed. In this case, press the **OK** button.

Important

- Be sure to complete step 6. This will activate the values you have entered.

Note

- By using RemoteUI, you can also specify the object name used for AppleTalk, as well as the printer zone name. For details on RemoteUI, see "Using RemoteUI." →P.503

Configuring the Destination (Mac OS)

Important

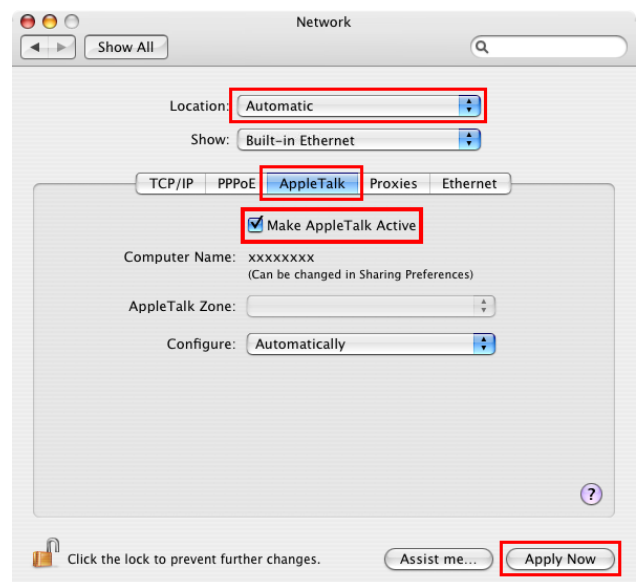

- AppleTalk is supported in Mac OS X 10.2.8–10.4.

Note

- The following procedures are based on Mac OS X 10.4. The method of configuring the destination varies depending on the version of Mac OS.
- The imagePROGRAF printer driver is not compatible with AppleTalk.

- 1 In **System Preferences**, click **Network** to display the **Network** window.
- 2 In **Show**, choose **Built-in Ethernet**. Next, click **AppleTalk**, select **Make AppleTalk Active**, and click **Apply now**.

3 Close the **Network** window and save the settings.

Configuring the Printer's AppleTalk Network Settings

Follow the steps below to configure the AppleTalk network settings.

- 1** Start the web browser and enter the following URL in the **Location** (or **Address**) box to display the RemoteUI page.
http://printer IP address or name/
Example: http://xxx.xxx.xxx.xxx/
- 2** Select **Administrator Mode** and click **Login**.
- 3** If a password has been set on the printer, enter the password.
- 4** Click **Network** in the **Device Manager** menu at left to display the **Network** page.
- 5** Click **Edit** in the upper-right corner of the **AppleTalk** group to display the **Edit AppleTalk Protocol Settings** page.
- 6** Refer to the AppleTalk Settings Items table to complete the settings.

AppleTalk Settings Items		
Item	Details	Default Setting
Phase Type	Specify whether to use AppleTalk. If you will use AppleTalk, choose Phase 2 . If you will not use AppleTalk, choose Disabled .	Disabled
Name (*1)	Specify the object name used by AppleTalk (in up to 31 single-byte or 15 double-byte characters). However, do not use the following single-byte characters: @, *, ., and =.	Canon NB-18GB (xxxxxx)
Zone (*2)	Specify the printer zone name, up to 31 single-byte characters. However, do not use the following single-byte characters: Also avoid using * (which represents the default zone) in the middle of a string.	*

*1: The object name you have specified in **Name** is displayed in **Printer Setup Utility** (or **Print Center**) in Mac OS X 10.2.8–10.4. If you use multiple printers in the same zone, assign a unique name to each printer. By default, the network interface name is **Canon NB-18GB (xxxxxx)**. (Here, xxxxxx is the last six digits of the printer's MAC address.)

*2: If zones have been created on the network, enter the name of the printer's zone. If there are no zones, leave the asterisk * entry (for the default zone) as it is. If you enter a network zone name that does not match created zones, the printer will not be detected by Mac OS computers. Consult your network administrator for information on zone names.

7 Click **OK** to display the **Network** page.

Other Settings

Specifying Printer-Related Information	524
Configuring the Communication Mode Manually	525
Email Notification When Printing is Finished or Errors Occur	526
Initializing the Network Settings	526

Specifying Printer-Related Information

Follow the steps below to specify device information and security settings.

- 1

Start the web browser and enter the following URL in the **Location** (or **Address**) box to display the RemoteUI page.
http://printer IP address or name/
Example: http://xxx.xxx.xxx.xxx/
- 2

Select **Administrator Mode** and click **Logon**.

Note

- If a password has been set on the printer, enter the password.
- 3

Click **Information** in the **Device Manager** menu at left to display the **Information** page.
- 4

To display the relevant settings page, click **Edit** in the upper-right corner of **Device Information** or **Security**, depending on what information you want to specify.
To change the administrator password, click the **Change Password** button in the **Security** group.
- 5

Refer to the table of settings for device information and security as you complete these settings.
Security setting items are displayed when you click the **Change Password** button in the **Security** group.

Device Information Settings

Item	Details	Default Setting
Device Name	Enter a device name. (0–32 characters)	blank
Location	Enter the location where the device is installed. (0–32 characters)	blank
Administrator	Enter the administrator's name. (0–32 characters)	blank
Phone	Enter the administrator's contact information. (0–32 characters)	blank
Comments(E-mail)	Enter any comments regarding the administrator. (0–32 characters)	blank

Security Settings

Item	Details	Default Setting
New Password	Enter the new password. (0-9999999)	blank
Confirm	Enter the new password again to confirm it. (0-9999999)	blank

*1:On the **Security** settings screen, besides entering a password, you can specify other security-related information, such as IP address-based SNMP or TCP usage restrictions, MAC address-based access restrictions, or IPP and FTP authentication settings.

- 6 Click **OK** to activate the settings.

Configuring the Communication Mode Manually

This topic gives instructions for configuring the communication mode manually.

- 1 On the **Tab Selection screen** of the Control Panel, press ◀ or ▶ to select the **Settings/Adj. tab** ().

- If the **Tab Selection screen** is not displayed, press the **Menu** button.

Note

- 2 Press the **OK** button.
The **Set./Adj. Menu** is displayed.
- 3 Press ▲ or ▼ to select **Interface Setup**, and then press the **OK** button.
- 4 Press ▲ or ▼ to select **Ethernet Driver**, and then press the **OK** button.
- 5 Press ▲ or ▼ to select **Auto Detect**, and then press the **OK** button.
- 6 Press ▲ or ▼ to select **Off**, and then press the **OK** button.
The display reverts to the **Ethernet Driver** menu.
- 7 Press ▲ or ▼ to select **Comm.Mode**, and then press the **OK** button.
- 8 Press ▲ or ▼ to select the communication mode, and then press the **OK** button.
The display reverts to the **Ethernet Driver** menu.
- 9 Press ▲ or ▼ to select **Ethernet Type**, and then press the **OK** button.
- 10 Press ▲ or ▼ to select the Ethernet type, and then press the **OK** button.
The display reverts to the **Ethernet Driver** menu.
- 11 Press ▲ or ▼ to select **Spanning Tree**, and then press the **OK** button.
- 12 Press ▲ or ▼ to enable or disable spanning tree support, and then press the **OK** button.
The display reverts to the **Ethernet Driver** menu.
- 13 Press the **Menu** button.
After the confirmation message is displayed, press the **OK** button.
The new settings will take effect after the printer restarts.

- Communication can also be configured on the **Network** page in RemoteUI.

Note

Email Notification When Printing is Finished or Errors Occur

The printer can notify you of the printer status by email. Even when you are away from the printer, you can know when printing is finished or if errors occur. Receive notification via email on your mobile phone or at your computer.

Use the **imagePROGRAF Status Monitor** (Windows) function to set up email recipients and message timing. Besides being informed of finished print jobs or errors, you can also complete settings for email notification when service is needed or it's time to replace consumables. For detailed instructions, see "Specifying Printer-Related Information." →P.524

Note

- For details on email notification using **imagePROGRAF Status Monitor** (in Windows), refer to the **imagePROGRAF Status Monitor** help.
- Mail server authentication is only supported with **imagePROGRAF Status Monitor**.

Initializing the Network Settings

Use RemoteUI to restore the network settings to the default values as follows.

Important

- Initializing the network settings will also restore the default value of the printer's IP address. As a result, the RemoteUI page cannot be displayed in the web browser after this procedure.
- For instructions on reconfiguring the IP address, see "Configuring the IP Address on the Printer." →P.505
- For details on RemoteUI, see "Using RemoteUI." →P.503

1 Start the web browser and enter the following URL in the **Location** (or **Address**) box to display the RemoteUI page.

http://printer IP address or name/

Example: http://xxx.xxx.xxx.xxx/

2 Select **Administrator Mode** and click **Login**.

Note

- If a password has been set on the printer, enter the password.

3 Click **Network** in the **Device Manager** menu at left to display the **Network** page.

4 Click **Reset to Default settings** in the lower-right corner of the **Network Interface** group.

5 After confirming the message, click **OK** to restore the network settings to the default values.

Note

- You can also use **imagePROGRAF Device Setup Utility** or the Control Panel to restore the default network settings.

Device Setup Utility (Windows)

imagePROGRAF Device Setup Utility	527
Installing imagePROGRAF Device Setup Utility	527
Configuring the IP Address Using imagePROGRAF Device Setup Utility	527

imagePROGRAF Device Setup Utility

imagePROGRAF Device Setup Utility is a utility to establish communication between the printer and your computer by completing relevant settings. After the printer is installed, for example, you can use **imagePROGRAF Device Setup Utility** to complete the network settings initially.

- Starting **imagePROGRAF Device Setup Utility** will show a list of printers found on the network. In this list, select the printer (specifically, the printer's MAC address) that you want to set up, and then configure the basic settings from your computer, such as the printer's IP address and the network frame type.
- You can see which printers are online in the network by checking the printer list. Communication between your computer and these printers is possible.

- We recommend that your network or printer administrator complete the setup work using **imagePROGRAF Device Setup Utility**.
- For details, refer to the **imagePROGRAF Device Setup Utility** help.

Installing imagePROGRAF Device Setup Utility

Install **imagePROGRAF Device Setup Utility** from the User Software CD-ROM provided with the printer as follows:

- 1 Insert the User Software CD-ROM in the CD-ROM drive.
- 2 On the **Setup Menu** window, click **Install Individual Software**.
- 3 Click **Install** in **imagePROGRAF Device Setup Utility**.
- 4 Follow the instructions on the screen to proceed with the installation.

Configuring the IP Address Using imagePROGRAF Device Setup Utility

On a computer running Windows, you can use **imagePROGRAF Device Setup Utility** provided with the printer to configure the printer's IP address. This topic describes how to configure the IP address using **imagePROGRAF Device Setup Utility**.

- To configure network settings, you must be logged in with administrative rights such as **Administrator** account. We recommend that your network administrator configure the network settings.

- For instructions on installing **imagePROGRAF Device Setup Utility**, see "Installing imagePROGRAF Device Setup Utility." → P.527

When specifying an IPv4 IP address

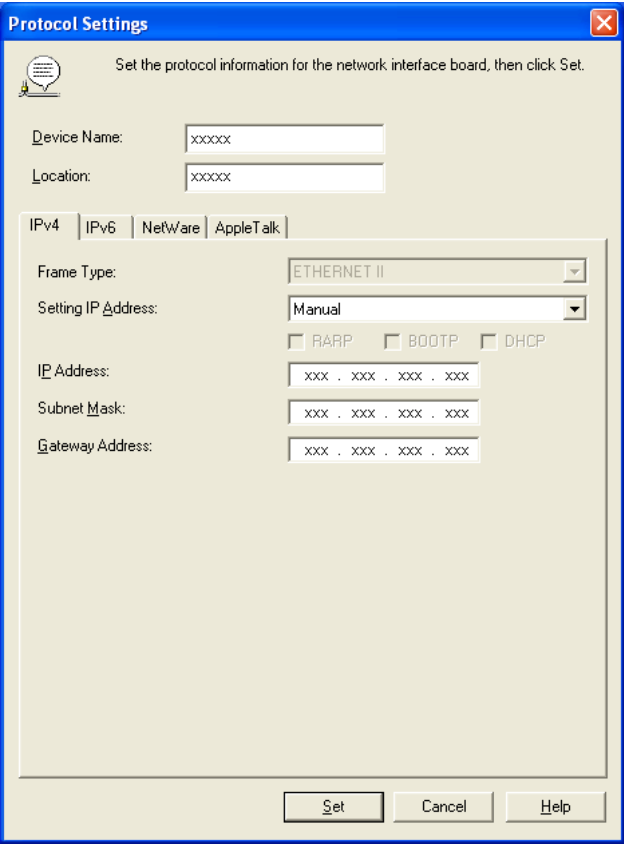

1 Start **imagePROGRAF Device Setup Utility** from the **start** menu.

2 In the **Device Name** list displayed, select the printer to configure.

3 Choose **Protocol Settings** from the **Printer** menu.

4 Select the **IPv4** tab.

5 In the **Setting IP Address** list, choose **Manual**.

6 Enter the IP address assigned to the printer and click the **Set** button.

7 Click **OK** after the **Confirmation** message is displayed.

8 Exit **imagePROGRAF Device Setup Utility**.

Note

- To configure the IP address automatically, choose **Auto** in the **Setting IP Address** list and select **DHCP**, **BOOTP**, or **RARP**.
- You can also specify the subnet mask and default gateway.

When specifying an IPv6 IP address

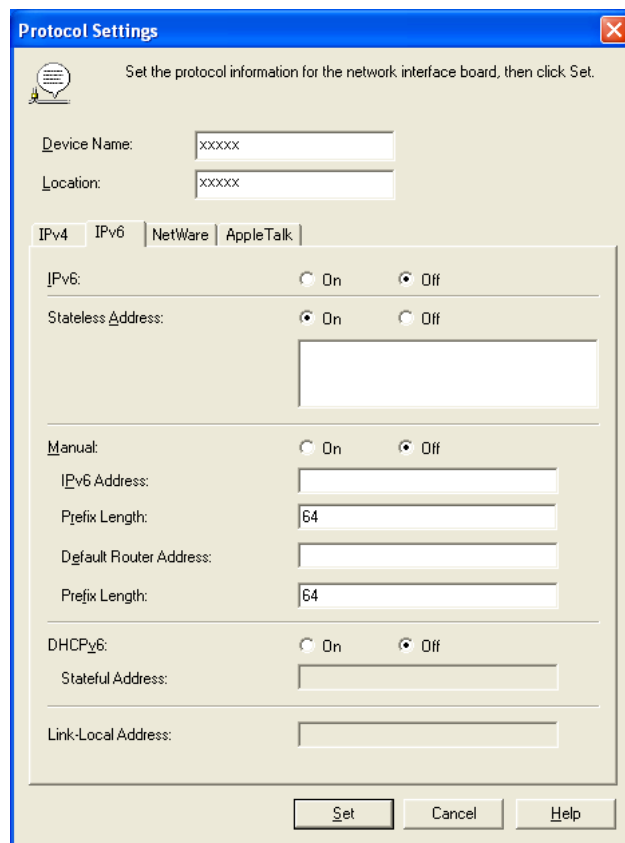

- 1 Start **imagePROGRAF Device Setup Utility** from the **start** menu.

- 2 In the **Device Name** list displayed, select the printer to configure.

- 3 Choose **Protocol Settings** from the **Printer** menu.

- 4 Select the **IPv6** tab.

- 5 In **IPv6**, select **On**.

- 6 When there is an IPv6-compatible router in the network environment, select **On** in **Stateless Address**. Additionally, when there is an DHCPv6-compatible server in the network environment, select **On** in **DHCPv6**.

Note

- When there is no IPv6-compatible router or DHCPv6-compatible server, select **On** in **Manual** and enter the **IPv6 Address** and **Prefix Length**.

- 7 Click **Set**.

- 8 Click **OK** after the **Confirmation** message is displayed.

- 9 Exit **imagePROGRAF Device Setup Utility**.

Job Management Using imagePROGRAF Status Monitor 533

The Features of imagePROGRAF Status Monitor

imagePROGRAF Status Monitor is a utility for checking the printer status and managing print jobs. Two screens are available in imagePROGRAF Status Monitor : **Printer List** shows a list of printers, and **Status Monitor** shows details for each printer.

- You can view a list of the printers for which printer drivers have been installed on your computer, printers connected to your computer, and printers found on the network.
- If a printer error occurs, you can investigate the corrective action immediately.
- Printer status can be checked in real time on a computer monitor.
- Displays the ink level of every color in the printer. An icon and warning message will notify you when ink levels are low.
- The type of paper loaded in each media source is identified. You can also check to see if paper has run out.
- This way, the utility enables you to check printer information and take care of printer maintenance for optimal printing results.
- You can also set up automatic email notification of any printer problems or errors to email addresses you designate in advance.

- You can use the Accounting Manager to collect the print job logs for the printers and check information such as the printing costs.
For details of the Accounting Manager, see "Accounting Manager." →P.536
- 

Note

 - For details, refer to the imagePROGRAF Status Monitor help.

Job Management Using imagePROGRAF Status Monitor

You can use the **Job** sheet in imagePROGRAF Status Monitor for operations such as pausing and canceling print jobs.

- **Pausing/Resuming Print Jobs**
Selecting a print job and clicking the **Pause** button pauses printing of the selected job.
To resume printing of a paused print job, select the print job and click the **Resume** button.

Note

 - Once all the print data for a print job has been sent to the printer, the job can no longer be paused/resumed.
- **Canceling Print Jobs**
Selecting a print job and clicking the **Cancel Job** button cancels printing of the selected job.

Note

 - You cannot cancel other users' print jobs.

Printmonitor (Mac OS)

The Features of imagePROGRAF Printmonitor 534

Job Management Using imagePROGRAF Printmonitor 535

The Features of imagePROGRAF Printmonitor

imagePROGRAF Printmonitor is a utility for checking the printer status and managing print jobs.

- Printer status can be checked in real time on a computer monitor.
- You can check the status of print jobs, cancel jobs, and manage them as needed.
- If a printer error occurs, you can investigate the corrective action immediately.
- You can also set up automatic email notification of any printer problems or errors to email addresses you designate in advance.

Note

- If the status of the desired printer is not shown in imagePROGRAF Printmonitor, select the printer again as follows.
 1. Make sure the printer is on and connected to the network or to a local port.
 2. In the **Printer** menu, select the name of the desired printer. After the printer is detected, the printer status is shown.
 3. If information about the printer is not shown in step 2, choose **Search Printer** in the **Printer** menu. Printer names listed in the **Printer** menu are updated with the printers that are now detected.
 4. In the **Printer** menu, select the name of the desired printer. After the printer is detected, the printer status is shown.

Job Management Using imagePROGRAF Printmonitor

You can use the **Driver** Panel in imagePROGRAF Printmonitor for operations such as pausing and canceling print jobs.

• Pausing/Resuming Print Jobs

Selecting a print job and clicking the  button pauses printing of the selected job.

To resume printing of a paused print job, select the print job and click the  button.

Note

- Once all the print data for a print job has been sent to the printer, the job can no longer be paused/resumed.

• Canceling Print Jobs

Selecting a print job and clicking the  button cancels printing of the selected job.

Note

- You cannot cancel other users' print jobs.

Showing the Total Amount of Ink and Paper Consumed	548

Accounting Manager

The Accounting Manager stores the printer's print job logs so that you can use the information for checking printing costs, etc.

The benefits of using the Accounting Manager are outlined below.

- **Print Job Log Collection**
This allows you to check which documents were printed from each printer, who printed them and when.
- **Calculation of the Total Pages Used and the Total Cost**
This allows you to use the collected print job logs to calculate totals for items such as the number of pages printed, the amount of paper used and the printing costs incurred.
- **Regular Data Acquisition for Print Jobs**
Job logs can be automatically collected periodically.
- **Exporting Print Job Data**
This allows you to export collected print job data as a CSV file.

Important

- The Accounting Manager in Status Monitor displays approximate estimates of the amount of paper consumed and the ink consumed per job. Canon cannot guarantee the accuracy of these estimates. These estimates will also vary depending on the conditions of printer use.
- Print job log collection is not performed when **Set./Adj. Menu -> System Setup -> Show Job Log** of the control panel is **Off**. However,
 - even if **Show Job Log** is set to **Off**, regularly acquired jobs that already have been retrieved at that time are displayed.
 - When **Show Job Log** has been set to **On** again, all jobs within the printer at that time are displayed.

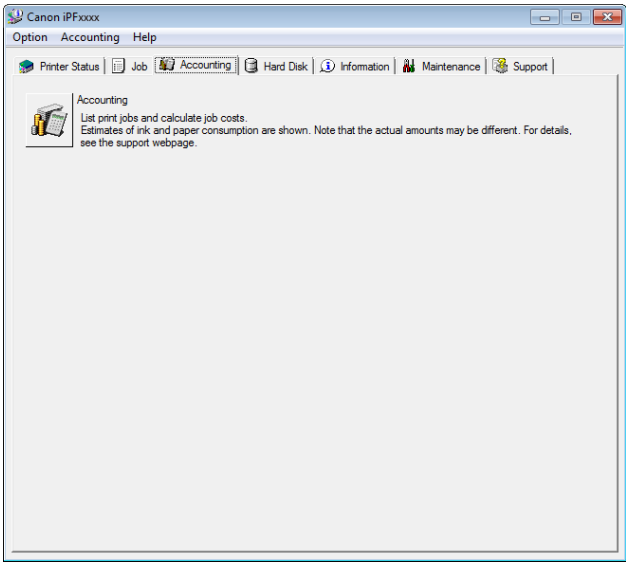

Launching the Accounting Manager

The procedure for launching the Accounting Manager is shown below.

1

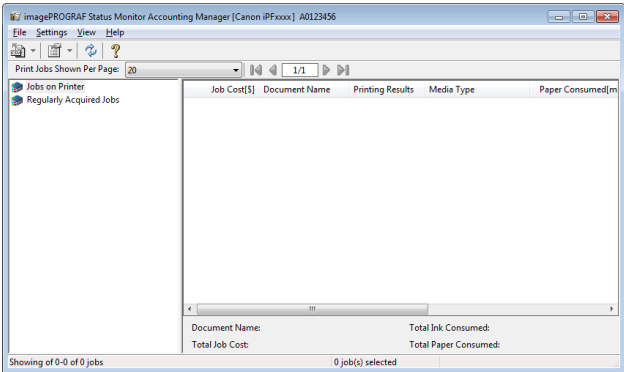

Open the imagePROGRAF Status Monitor window.

- 2
- Select **Accounting** in the **Accounting** menu.
Or, open the **Accounting** sheet and click the **Accounting** button.

Accounting Manager Main Window

The Accounting Manager main window consists of a title bar, menu bar, toolbars, listed job selection area, job list area, totals area and status bar.

Title Bar

This displays the printer model, its serial number and the port number it is using.

Menu Bar

Allows you to select the menu options required for operation.

Toolbars

Provide tool buttons and pull-down menus for the main operations.

- You can opt to either show or hide the toolbars in the **View** menu.

Note

Listed Job Selection Area

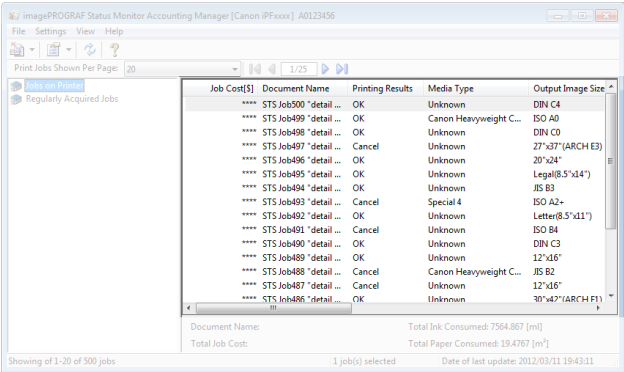

You can use this area to select which job log is displayed.
If you are using regular data acquisition, this area allows you to view the collective job logs for each specified period.

For more information on how to select the job logs displayed, see "Switching Between Displaying Jobs on Printer and Regularly Acquired Jobs." →P.546

Job List Area

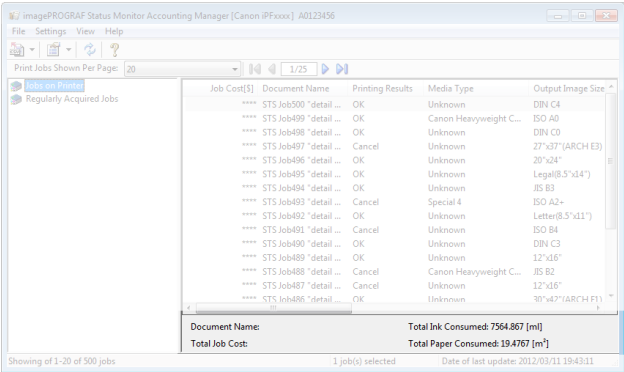

This area lists the details of acquired jobs.
Displays a list of the jobs in the printers or periodically acquired jobs. (See "Job List Area.") →P.539

You can change the items that are displayed and the display order using the **Advanced Display Settings** dialog box. The **Advanced Display Settings** dialog box can be displayed by selecting **Advanced Display Settings** from the **Show** menu.

Totals Area

Displays the total costs for the selected job and the amounts of paper and ink consumed.

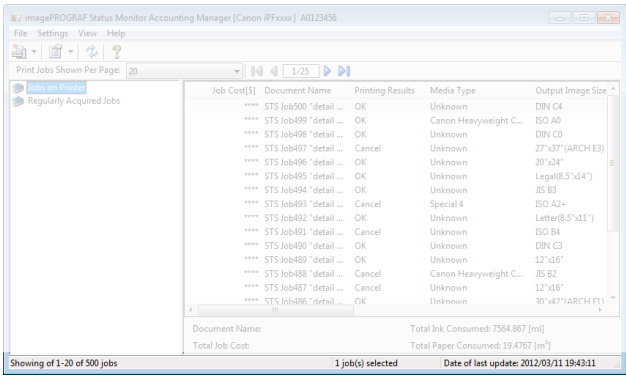

- If you are viewing regularly acquired print jobs, selecting a period on the left side of the window displays the total costs for that period and the amounts of paper and ink consumed.

• **Status Bar**

Displays messages and other information.

Job List Area

The job items and details that can be displayed in the job list area are as follows.

• **No.**

The job serial number.

• **Job Cost**

The cost of printing.

- If the ink and paper unit costs are not set, **** is displayed.

• **Document Name**

This is the name of the printed document.

• **Printing Results**

OK is displayed when the print process was executed, and **Cancel** is displayed if the print process was not executed.

• **Media Type**

This is the type of paper used in printing.

• **Output Image Size**

The size of the image used for printing.

- If the job has multiple pages, the size of the last page is displayed.

• **Paper Consumed**

The area of paper used for printing.

- The **Paper Consumed** may differ from the product of **Paper Width** and **Paper Length**.

• **Paper Width**

The width of paper used for printing.

- If the job has multiple pages, the width of the last page is displayed.

• Paper Length

The length of paper used for printing.

• Ink Consumed

The amount of ink used for printing.

• Owner

The sender of the job.

• Print Job Start Time/Print Time

The time when printing started and the time taken to print.

• Number of Pages

The number of pages printed.

• Roll Paper Width

The width of roll paper used for printing.

• Paper Cost

The cost of paper used for printing.

- If the paper unit cost is not set, **** is displayed.

• Total Ink Cost

The total value of the cost of ink used for printing.

- If the ink unit cost is not set, **** is displayed.

• Total of Other Costs

The total value of costs other than paper and ink.

• Ink Cost Details

The cost of each ink color.

• Ink Consumption Details

The amount of each color of ink used.

Accounting Manager Basic Procedures

The first time you use the Accounting Manager, use the following procedures to configure the settings.

1

Configure unit costs, including the costs of ink and paper.

For details of the unit cost settings, see "Configuring Unit Costs in Accounting Manager." →P.541

2

Set options such as the units displayed.

For details of the unit settings, see "Configuring Units and Display Settings in Accounting Manager." →P.545

3

If you are using Regular Data Acquisition, configure the Regular Data Acquisition settings.

For details of the Regular Data Acquisition settings, see "Automatically Acquiring Print Job Logs at Regular Intervals." →P.545

- 4
- Specify the jobs to be listed.

For details of how to select the job logs displayed, see "Switching Between Displaying Jobs on Printer and Regularly Acquired Jobs." →P.546

This displays the required print job logs and lists the details.

Configuring Unit Costs in Accounting Manager

Select **Unit Costs** in the **Settings** menu to open the **Unit Costs** dialog box. Configure the unit cost settings in this dialog box.

When you select a job and then open the **Unit Costs** dialog box, items with unit costs that have not yet been configured for that job are shown highlighted.

- Setting the Unit Cost for Ink →P.541
- Setting the Unit Cost for Paper →P.542
- Setting the Unit Cost for Items Other Than Ink and Paper →P.544

Setting the Unit Cost for Ink

Open the **Ink** sheet. Set the unit cost for ink in this sheet.

Unit Costs

Ink

Overwrite

OK Cancel Help

To set the same unit cost for all the inks

- 1
- Select the **Use same price for all ink** checkbox.
- 2
- Enter the **Tank Capacity** and corresponding **Price**.
- 3
- Click the **OK** button.

- Your settings are not applied until you click the **OK** button.

Important

To set different unit costs for each ink color

- 1
- Select the ink color to be costed.
- 2
- Enter the **Tank Capacity** and corresponding **Price**.
- 3
- Click the **Overwrite** button.
- 4
- Repeat steps 1 to 3 for all the inks.
- 5
- Click the **OK** button.

- Your settings are not applied until you click the **OK** button.

Important

Setting the Unit Cost for Paper

Opens the **Paper** sheet. This sheet is used to configure the unit cost of paper.

Unit Costs

Ink

Paper

Other

Price List:

Media Type	Roll Paper ...	Width[mm]	Length[m]
------------	----------------	-----------	-----------

Delete

Paper Unit Cost Settings

Media Type: Plain Paper

Width: mm Roll Paper Width Settings...

Length: m

Price: \$

Add Overwrite

OK Cancel Help

Setting Standard Prices

- 1
- Select the media type in **Media Type**.
- 2
- Enter the **Width** and **Length** of the paper, as well as the **Price** for the area of the configured width x height.

3 Click the **Add** button. To change the unit cost of a media type that has already been configured, click the **Overwrite** button.

4 Click the **OK** button.

Important

- The settings are not applied until you click the **OK** button.

Specifying Price by Roll Paper

1 Select the media type in **Media Type**.

2 Click the **Roll Paper Width Settings** button to display the **Roll Paper Width Settings** dialog box.

3 Enter the **Roll Paper Width** and **Length** of the paper, as well as the **Price** for the configured length.

4 Click the **Add** button to return to the **Paper** sheet.

5 To change the unit cost of a media type that has already been configured, click the **Overwrite** button.

6 Click the **OK** button.

Important

- If you do not set the standard prices, you cannot set the price for each roll paper.
- If the **Roll Paper Width** is set to the same value as the **Width** of the paper configured in the standard prices, the cost is calculated using the price configured in the **Roll Paper Width Settings** dialog box.
- The settings are not applied until you click the **OK** button.

Setting the Unit Cost for Items Other Than Ink and Paper

Open the **Other** sheet. Use this sheet to set any price for items other than inks and paper.

- 1** Enter any name in the **Name** field.
- 2** Enter a value in **Unit Cost**.
- 3** Use **Allocated** to specify whether the costs are allocated as being incurred by the print job.
- 4** Click the **Add** button. To change the unit cost for a media type you have already set, click the **Overwrite** button.
- 5** Click the **OK** button.

Important

- Your settings are not applied until you click the **OK** button.

Note

- You can set unit costs for up to 5 items.

Configuring Units and Display Settings in Accounting Manager

Select **Units and Display** in the **Settings** menu to open the **Units and Display** dialog box. Use this dialog box to configure the display settings.

The 'Units and Display' dialog box is shown with the following settings:

- Date Display Format: YYYY/MM/DD
- Currency Unit: \$ (Three characters or less)
- 1000 Separator: None
- Decimal Symbol: . (Period)
- Ink level: ml
- Paper Width: mm
- Paper Length: m
- Area Display Format: m²

Buttons: OK, Cancel, Help

- **Date Display Format**

Use this option to select the display format for dates. "YYYY" indicates the year, "MM" the month and "DD" the day.

- **Currency Unit**

Enter the currency unit. Enter a text string up to 3 characters long.

- **1000 Separator**

Use this option to select the symbol used as a separator in numbers. The symbol is inserted every 3 digits.

- **Decimal Symbol**

Use this option to select the symbol used as a decimal point.

- **Ink Consumed**

Use this option to select the unit used for ink consumption.

- **Paper Width**

Use this to select the unit used for paper width.

- **Paper Length**

Use this to select the unit used for paper length.

- **Area Display Format**

Use this to select the unit used for paper area.

Automatically Acquiring Print Job Logs at Regular Intervals

This feature collects print job logs from the printer at regular intervals and saves the logs on your computer.

1 Select **Regular Data Acquisition** in the **Settings** menu.

2 Select **Acquire print job logs regularly**.

3 Click the **OK** button to close the dialog box.

- Print job log collection is not performed when **Set./Adj. Menu -> System Setup -> Show Job Log** of the control panel is **Off**. However, even if **Show Job Log** is set to **Off**, regularly acquired jobs that already have been retrieved at that time are displayed.

- Immediately after you configure Regular Data Acquisition, no print jobs are displayed. Wait a few moments and then select **Refresh** in the **View** menu to display the print jobs.
- A maximum of 10,000 records are saved in a print job log. If this number is exceeded, jobs are deleted from the log starting from the oldest record. To save old data, it is recommended that you export the data as a CSV file. For details of how to export print job logs as CSV files, see "Exporting Print Job Data as a CSV File." [→P.546](#)

Canceling Regular Print Job Log Acquisition

You can use this procedure to cancel the regular acquisition of print job logs from printers.

- 1** Select **Regular Data Acquisition** in the **Settings** menu.
- 2** Uncheck the **Acquire print job logs regularly** option.
- 3** Click the **OK** button to close the dialog box.

Switching Between Displaying Jobs on Printer and Regularly Acquired Jobs

The print job logs displayed by the Status Monitor Accounting Manager contain two types of job: Jobs on Printer and Regularly Acquired Jobs. You can select whether to display Jobs on Printer or Regularly Acquired Jobs in the Listed Job Selection Area on the left side of the window.

• Jobs on Printer

This shows a list of the print jobs currently held on printers. You can change the number of jobs displayed per page using the **Print Jobs Shown Per Page** setting in the **View** menu or the toolbar. You can skip to a particular page using the **Go to** option in the **View** menu or the toolbar.

- For printers with built-in hard disks, you can view up to 500 print jobs per printer.
- For printers without built-in hard disks, you can view up to 32 print jobs per printer. However, only 10 jobs can be displayed if the printer is switched off.

• Regularly Acquired Jobs

This shows a list of regularly acquired print jobs. To view all the jobs in a set period, specify the period using **Calculate Total for Period** and then **Starting Date** (or **Starting Day of Week** or **Starting Month**) in the **View** menu or the toolbar. For example, to view monthly job logs starting on the 1st of each month, set **Calculate Total for Period** to **Monthly** and set **Starting Date** to **1**.

- Up to 10,000 regularly acquired jobs are displayed for each printer.

Exporting Print Job Data as a CSV File

You can export the collected print job data in the form of a CSV file by selecting **Export Job Cost Data** in the **File** menu.

- You can also select **Export Job Cost Data** using the icon in the toolbar.

Print Job Management
Accounting (Windows)

- **Selected Jobs**

Exports the data for the selected print jobs in the job list as a CSV file.

Note

- You can select multiple jobs by holding down the Shift key or Ctrl key as you click the job names.

- **Listed Jobs**

Exports the data for the print jobs currently displayed in the list as a CSV file.

Displaying Job Properties or Period Properties

You can display the **Job properties** dialog box or **Period Properties** dialog box to check detailed cost information and other items.

The **Job properties** dialog box displays detailed information about the selected job.

The **Period Properties** dialog box displays detailed information within the **Regularly Acquired Jobs** period.

- Displaying the **Job properties** Dialog Box

Select a job from the job list, and then select **Show Job Properties** from **Job properties** in the **File** menu. You can also select multiple jobs at once.

Note

- You can also display the dialog box by selecting a job, right-clicking it, and then selecting **Show Job Properties**, or by using the icon in the toolbar.

- Displaying the **Period Properties** Dialog Box

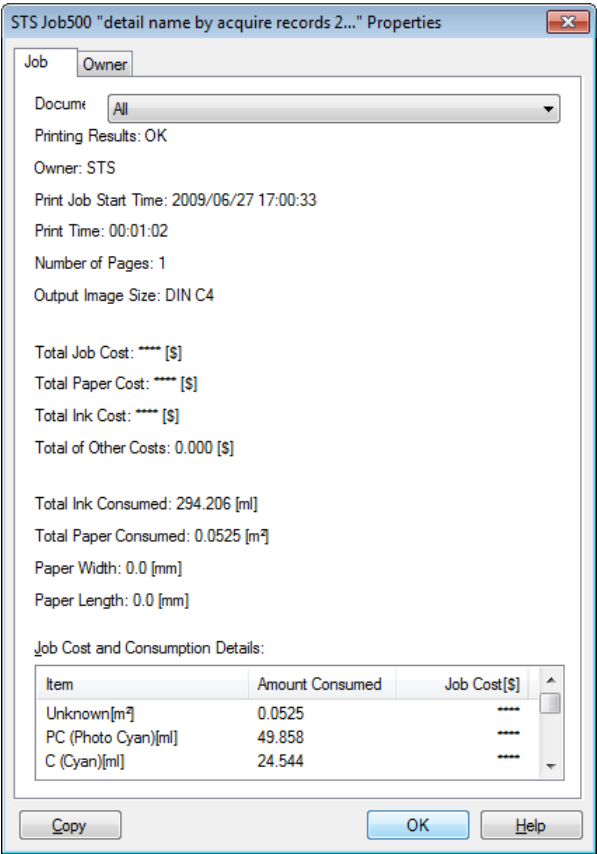

Select a period from the **Regularly Acquired Jobs** list, and then select **Show Period Properties** from **Job properties** in the **File** menu. You can also select multiple periods at once.

Note

- You can also display the dialog box by selecting and right-clicking a period and then selecting **Show Period Properties**, or by using the icon in the toolbar.

• Components of the **Job properties** Dialog Box/**Period Properties** Dialog Box

- **Job tab**
Displays detailed information about the selected job. You can display detailed information about each job by selecting the corresponding **Document Name**.
- **Owner tab**
You can display detailed information about each owner by selecting the corresponding **Owner**.
- **Copy button**
Click this button to copy the displayed text information to the clipboard.

Showing, Saving and Loading Selected Unit Cost Data

- **Show Unit Cost Data**
Select **Show Unit Cost Data** in the **File** menu to open the **Unit Cost Data** dialog box. This lists the unit costs for items such as the selected ink and paper.
You can copy text-based information in this dialog box to the clipboard by clicking the **Copy** button.
- **Save Unit Cost Data**
Select a destination folder using **Save Unit Cost Data** in the **File** menu. The unit cost data for items such as the selected ink and paper is saved as a file.
- **Load Unit Cost Data**
Selecting **Load Unit Cost Data** in the **File** menu loads saved unit cost data.

Showing the Total Amount of Ink and Paper Consumed

Select **Show Ink and Paper Consumed** in the **File** menu to open the **Show Ink and Paper Consumed** dialog box. This lists the total amounts of ink and paper consumed by the printer so far.
You can copy text-based information in this dialog box to the clipboard by clicking the **Copy** button.

- Up to 7 types of media are listed in order of the amount consumed. The total consumption for other media types is shown as **Other**.

Adjusting the Printhead

Adjusting the Printhead	552
Automatic Adjustment to Straighten Lines and Colors	552
Manual Adjustment to Straighten Lines and Colors	554
Adjustment When Installing the Printhead	555
Troubleshooting Paper Abrasion and Blurry Images	556

Adjusting the Printhead

If printed documents are affected by the following problems, try adjusting the printhead.

- **Printing is faint or affected by banding in different colors**
Execute **Nozzle Check** in the Control Panel menu to check for printhead nozzle clogging.
For instructions, see "Checking for Nozzle Clogging." →P.576
- **Printed vertical lines are warped or colors are out of alignment**
Execute **Head Posi. Adj.** in the Control Panel menu to adjust the printhead position.
 - Normally, execute **Standard**.
(See "Automatic Adjustment to Straighten Lines and Colors.") →P.552
 - When printing on special paper, or if printing is not improved after **Standard**, try **Manual**.
(See "Manual Adjustment to Straighten Lines and Colors.") →P.554

 **Note**
 - In the next case, execute **Initial adjustmt.**
(See "Adjustment When Installing the Printhead.") →P.555
 - If adjusting the printhead position has not been performed such as due to an error during initial setup
 - If **Rep.P.head Print** in the Control Panel menu is set to **Off** and adjusting the printhead position has not been performed when replacing the printhead
- **Paper rubs against the printhead, or image edges are blurred**
Selecting **Head Height** in the Control Panel menu and changing the printhead height may improve the situation.
(See "Troubleshooting Paper Abrasion and Blurry Images.") →P.556

Automatic Adjustment to Straighten Lines and Colors

If vertical lines in printed documents are warped or colors are out of alignment, execute **Head Posi. Adj.**. The printer will print and read a test pattern, and the Printhead position will be adjusted automatically.
There are two modes for automatic Printhead adjustment: **Standard** and **Simple**.

- **Standard**
Execute if vertical lines in printed material are warped or colors are out of alignment.
Furthermore, if **Simple** does not improve printing, try **Standard**.
- **Simple**
Executes simple adjustment in a short time.
Execute this when frequently adjusting the printhead, such as during daily inspection.

- This function is not available with Tracing Paper, Translucent Matte Film, or Clear Film.
- If adjustment is not possible as expected using special media, try another type of paper, or try **Manual** adjustment. (See "Manual Adjustment to Straighten Lines and Colors.") →P.554

- Because the results of adjustment vary depending on the type of paper used for adjustment, use the same type of paper as you will use for printing.
- If **Standard** does not improve printing, try adjusting the printhead manually. (See "Manual Adjustment to Straighten Lines and Colors.") →P.554
- If the printhead position was not adjusted during initial setup or when the printhead was replaced, execute **Initial adjustment**. (See "Adjustment When Installing the Printhead.") →P.555

Items to Prepare

When Using Rolls	An unused roll at least 254.0 mm (10.00 in) wide
When Using Sheets	Standard : Two sheets of unused paper, A4/Letter size (or one sheet when using A3 or larger) Simple : One sheet of unused paper, A4/Letter size

Perform adjustment as follows.

1

Load paper.

- **Loading Rolls on the Roll Holder** →P.363
- **Loading Rolls in the Printer** →P.365
- **Loading Sheets in the Feed Slot** →P.388

- Always make sure the loaded paper matches the type of paper specified on the printer. Adjustment cannot be completed correctly unless the loaded paper matches the settings.

2

On the **Tab Selection screen** of the Control Panel, press ◀ or ▶ to select the Settings/Adj. tab ().

- If the **Tab Selection screen** is not displayed, press the **Menu** button.

- 3

Press the **OK** button.
The **Set./Adj. Menu** is displayed.
- 4

Press ▲ or ▼ to select **Adjust Printer**, and then press the **OK** button.
- 5

Press ▲ or ▼ to select **Head Posi. Adj.**, and then press the **OK** button.

- 6 Press ▲ or ▼ to select **Standard** or **Simple**, and then press the **OK** button.
A test pattern is printed for adjustment.
Adjustment is now finished if you have printed on a roll.
- 7 If you are printing on cut sheets, a confirmation message is displayed on the Display Screen asking you whether to continue printing.
Press the **OK** button and follow the instructions on the Display Screen.

Manual Adjustment to Straighten Lines and Colors

If printed vertical lines are warped or colors are out of alignment, execute **Head Posi. Adj.** to adjust the Printhead alignment.
Normally, execute **Standard**.
(See "Automatic Adjustment to Straighten Lines and Colors.") →P.552
However, when printing on special paper, or if printing is not improved after **Standard**, try **Manual**.
Manual adjustment requires you to examine the printed test pattern and enter an adjustment value.

Note

- We recommend using the type of paper you use most often for adjustment.
- If the printhead position was not adjusted during initial setup or when the printhead was replaced, execute **Initial adjustment**.
(See "Adjustment When Installing the Printhead.") →P.555

Items to Prepare

When Using Rolls	An unused roll at least 254.0 mm (10.00 in) wide
When Using Sheets	Two sheets of unused paper of at least A4/Letter size (or one sheet when using A2 or larger)

Perform adjustment as follows.

- 1 Load paper.
 - Loading Rolls on the Roll Holder →P.363
 - Loading Rolls in the Printer →P.365
 - Loading Sheets in the Feed Slot →P.388
- 

Important

 - Always make sure the loaded paper matches the type of paper specified on the printer. Adjustment cannot be completed correctly unless the loaded paper matches the settings.
- 2 On the **Tab Selection screen** of the Control Panel, press ◀ or ▶ to select the Settings/Adj. tab ().

Note

- If the **Tab Selection screen** is not displayed, press the **Menu** button.

- 3** Press the **OK** button.
The **Set./Adj. Menu** is displayed.
- 4** Press **▲** or **▼** to select **Adjust Printer**, and then press the **OK** button.
- 5** Press **▲** or **▼** to select **Head Posi. Adj.**, and then press the **OK** button.
- 6** Press **▲** or **▼** to select **Other**, and then press the **OK** button.
- 7** Press **▲** or **▼** to select **Manual**, and then press the **OK** button.
A test pattern is printed for adjustment.

- **Manual** may be unavailable in some cases, even if it is displayed in the menu.
If so, execute **Standard** once.
(See "Automatic Adjustment to Straighten Lines and Colors.") → P.552

- 8** Press **▲** or **▼** to select **D**, and then press the **OK** button.
- 9** Press **▲** or **▼** to select **D-1**, and then press the **OK** button.
- 10** Examine adjustment test pattern **D-1** and determine the number with straight lines.

- If two patterns seem equally good and you cannot decide which one is better, choose an intermediate value.
For example, choose 11 if you cannot decide whether pattern 10 or 12 is better.

- 11** Press **▲** or **▼** to select the pattern number you have decided, and then press the **OK** button.
- 12** Repeat steps 9–11 to specify the adjustment value for **D-2** to **D-23**.
Note that **D-6**, **D-12**, **D-18**, and **D-24** cannot be configured.
- 13** Press the **Back** button.
- 14** Press **▲** or **▼** to select **Register Setting**, and then press the **OK** button.
- 15** Press **▲** or **▼** to select **Yes**, and then press the **OK** button.
The adjustment value is now registered, and adjustment is complete.

Adjustment When Installing the Printhead

Printhead position adjustment is executed when the printhead is first installed.
This adjustment should be executed in the following situations.

- If adjusting the printhead position has not been performed such as due to an error during initial setup
- If **Rep.P.head Print** in the Control Panel menu is set to **Off** and adjusting the printhead position has not been performed when replacing the printhead

- We recommend that the same paper as the paper included with the printer is used for this adjustment.

Note

Items to Prepare

When Using Rolls	An unused roll at least 254.0 mm (10.00 in) wide
When Using Sheets	Three sheets of unused paper of at least A4/Letter size (or one sheet when using A3 or larger)

Perform adjustment as follows.

1

Load paper.

- Loading Rolls on the Roll Holder →P.363
- Loading Rolls in the Printer →P.365
- Loading Sheets in the Feed Slot →P.388

Important

- Always make sure the loaded paper matches the type of paper specified on the printer. Adjustment cannot be completed correctly unless the loaded paper matches the settings.

2

On the **Tab Selection screen** of the Control Panel, press ◀ or ▶ to select the **Settings/Adj. tab** ().

Note

- If the **Tab Selection screen** is not displayed, press the **Menu** button.

3

Press the **OK** button.
The **Set./Adj. Menu** is displayed.

4

Press ▲ or ▼ to select **Adjust Printer**, and then press the **OK** button.

5

Press ▲ or ▼ to select **Head Posi. Adj.**, and then press the **OK** button.

6

Press ▲ or ▼ to select **Other**, and then press the **OK** button.

7

Press ▲ or ▼ to select **Initial adjustmt**, and then press the **OK** button.
A test pattern is printed for adjustment.
Adjustment is now finished if you have printed on a roll.

8

If you are printing on sheets, a confirmation message is displayed requesting you to continue printing. Press the **OK** button and follow the instructions.

Troubleshooting Paper Abrasion and Blurry Images

The Printhead height setting affects printing quality.

Specifying a low Printhead height makes images clearer and enhances printing quality but may cause paper to rub against the Printhead.

On the other hand, specifying a high Printhead height will prevent paper from rubbing against the Printhead but may reduce the printing quality.

Important

- Paper rubbing against or becoming caught on the Printhead may jam or result in printed documents that are soiled.

Note

- Raise or lower the printhead, depending on the nature of the problem.
(See "Paper rubs against the printhead.") → P.622
(See "The edges of the paper are dirty.") → P.623
(See "Image edges are blurred or white banding occurs.") → P.626

1 On the **Tab Selection screen** of the Control Panel, press ◀ or ▶ to select the Paper tab ().

Note

- If the **Tab Selection screen** is not displayed, press the **Menu** button.

2 Press the **OK** button.
The **Paper Menu** is displayed.

3 Press ▲ or ▼ to select **Paper Details**, and then press the **OK** button.

4 Press ▲ or ▼ to select the type of paper, and then press the **OK** button.

Note

- When **Head Height** is set to **Automatic**, the setting value selected for the previous print job is displayed (to the right of **Automatic**) once you select the type of paper currently supplied. However, the value is cleared when the printer is turned off or the paper is replaced.

5 Press ▲ or ▼ to select **Head Height**, and then press the **OK** button.

6 Press ▲ or ▼ to select the desired setting value, and then press the **OK** button.

Note

- Using **Automatic** will ensure that the printer adjusts the Printhead height to the optimal level before printing, accounting for the ambient temperature and humidity. When a setting other than **Automatic** is used, that value will always be applied.
- Depending on the type of paper, some setting values may not be available.

Adjusting the feed amount

Adjusting the Feed Amount	558
Selecting a Feed Amount Adjustment Method	558
Automatic Banding Adjustment	559
Manual Banding Adjustment	560
Fine-Tuning the Paper Feed Amount	562
Adjusting Line Length	563
Adjusting Color on the Trailing Edge of Sheets	564
Adjusting the Vacuum Strength	565

Adjusting the Feed Amount

If printed documents are affected by the following problems, try adjusting the feed amount.

- Banding in different colors
- Line length is not accurate in the direction paper is fed

To adjust the feed amount, do the following, in this order.

- 1
- Depending on the issue, adjust **Adj. Priority** to suit the particular type of paper.
(See "Selecting a Feed Amount Adjustment Method.") →P.558
- 2
- Execute **Adj. Quality** or **Adjust Length**, depending on the selection in **Adj. Priority**.
(See "Automatic Banding Adjustment.") →P.559
(See "Manual Banding Adjustment.") →P.560
(See "Adjusting Line Length.") →P.563
- 3
- After executing **Adj. Quality**, execute **Adj. Fine Feed** for further adjustment as needed.
(See "Fine-Tuning the Paper Feed Amount.") →P.562

Selecting a Feed Amount Adjustment Method

There are two methods of adjusting the paper feed amount, **Print Quality** and **Print Length**, either of which will be applied during printing.
Since the method that is applied during printing is determined from the value of the **Adj. Priority** setting, configure the **Adj. Priority** to match the print target.

- **Print Quality**: Adjusts the feed amount to reduce banding across the sheet in printed documents.
Adj. Quality settings are applied. When **Adj. Fine Feed** is executed, the **Adj. Fine Feed** settings are applied in addition to the **Adj. Quality** settings.
- **Print Length**: Adjusts the feed amount for better accuracy of lines in printed documents.
The settings of **A:High** or **B:Standard/Draft** in **Adjust Length** are applied.
- **Automatic**: **Print Quality** or **Print Length** is selected, depending on **Print Priority** as selected in the printer driver at the time of printing.

• Either **A:High** or **B:Standard/Draft** in the **Adjust Length** menu is applied, depending on printer driver settings at the time of printing.

Follow these steps to configure the settings.

- 1
- Load the paper.
- Loading Rolls on the Roll Holder →P.363
 - Loading Rolls in the Printer →P.365

- Loading Sheets in the Feed Slot →P.388

- 2** On the **Tab Selection screen** of the Control Panel, press ◀ or ▶ to select the Settings/Adj. tab ().

Note

- If the **Tab Selection screen** is not displayed, press the **Menu** button.

- 3** Press the **OK** button.
The **Set./Adj. Menu** is displayed.
- 4** Press ▲ or ▼ to select **Adjust Printer**, and then press the **OK** button.
- 5** Press ▲ or ▼ to select **Feed Priority**, and then press the **OK** button.
- 6** Press ▲ or ▼ to select **Adj. Priority**, and then press the **OK** button.
- 7** Press ▲ or ▼ to select **Automatic**, **Print Quality**, or **Print Length**, and then press the **OK** button.

Automatic Banding Adjustment

If printed images are affected by banding in different colors across the sheet, execute **Adj. Quality** for automatic adjustment of the paper feed amount.

There are two modes of automatic adjustment to correct banding: **Auto(GenuinePpr)** and **Auto(OtherPaper)**. In either mode, the printer prints and reads a test pattern for automatic adjustment of the feed amount.

- **Auto(GenuinePpr)**
Use this mode with paper identified in the **Paper Reference Guide**.
(See "Types of Paper.") →P.352
- **Auto(OtherPaper)**
Use this mode with paper not in the **Paper Reference Guide**, or if **Auto(GenuinePpr)** does not eliminate banding.
(See "Types of Paper.") →P.352

Important

- Adjustment is not possible with **Auto(GenuinePpr)** and **Auto(OtherPaper)** when using highly transparent media. In this case, use **Manual** adjustment.
(See "Manual Banding Adjustment.") →P.560

Note

- We recommend executing the adjustment if you have changed the paper type or paper size.
- Always check the **Adj. Priority** values before using **Auto(GenuinePpr)** or **Auto(OtherPaper)**.
(See "Selecting a Feed Amount Adjustment Method.") →P.558
- If additional fine-tuning is necessary after **Auto(GenuinePpr)** and **Auto(OtherPaper)**, execute **Adj. Fine Feed**.
(See "Fine-Tuning the Paper Feed Amount.") →P.562
- Use **Adjust Length** to ensure that lines in CAD drawings are printed at exactly the right length.
(See "Adjusting Line Length.") →P.563
- This may take some time, depending on the type of paper.

Items to Prepare

When Using Rolls	An unused roll at least 254.0 mm (10.00 in) wide
When Using Sheets	Auto(GenuinePpr) : One sheet of unused paper, A4/Letter size Auto(OtherPaper) : Two sheets of unused paper of at least A4/Letter size (or one sheet when using A2 or larger)

Perform adjustment as follows.

- 1

Load the paper.

 - Loading Rolls on the Roll Holder →P.363
 - Loading Rolls in the Printer →P.365
 - Loading Sheets in the Feed Slot →P.388

Always make sure the loaded paper matches the type of paper specified in the settings. Adjustment cannot be completed correctly unless the loaded paper matches the settings.
- 2

On the **Tab Selection screen** of the Control Panel, press ◀ or ▶ to select the Settings/Adj. tab ().

If the **Tab Selection screen** is not displayed, press the **Menu** button.
- 3

Press the **OK** button.
The **Set./Adj. Menu** is displayed.
- 4

Press ▲ or ▼ to select **Adjust Printer**, and then press the **OK** button.
- 5

Press ▲ or ▼ to select **Feed Priority**, and then press the **OK** button.
- 6

Press ▲ or ▼ to select **Adj. Quality**, and then press the **OK** button.
- 7

Press ▲ or ▼ to select **Auto(GenuinePpr)** or **Auto(OtherPaper)**, and then press the **OK** button.
A test pattern is printed for adjustment.
Adjustment is now finished if you have printed on a roll or a sheet of A2 size or larger.
- 8

If you are printing on sheets smaller than A2 size for **Auto(OtherPaper)**, a confirmation message is shown on the Display Screen requesting you to continue printing.
Press the **OK** button and follow the instructions on the Display Screen.

Manual Banding Adjustment

If printed images are affected by banding in different colors, execute **Adj. Quality** for adjustment of the paper feed amount.

Use **Manual** adjustment with highly transparent media or other paper for which **Auto(GenuinePpr)** or **Auto(OtherPaper)** cannot be used.

(See "Automatic Banding Adjustment.") →P.559

Manual adjustment requires you to enter an adjustment value after a test pattern is printed.

Note

- We recommend executing the adjustment if you have changed the paper type or paper size.
- Always check the **Adj. Priority** values before using **Manual** adjustment.
(See "Selecting a Feed Amount Adjustment Method.") →P.558
- If additional fine-tuning is necessary after **Manual** adjustment, use **Adj. Fine Feed**
(See "Fine-Tuning the Paper Feed Amount.") →P.562
- Use **Adjust Length** to ensure that lines in CAD drawings are printed at exactly the right length.
(See "Adjusting Line Length.") →P.563

Paper to Prepare

When Using Rolls	An unused roll at least 254.0 mm (10.00 in) wide
When Using Sheets	Two sheets of unused paper of at least A4/Letter size

Perform adjustment as follows.

1

Load the paper.

- Loading Rolls on the Roll Holder →P.363
- Loading Rolls in the Printer →P.365
- Loading Sheets in the Feed Slot →P.388

Important

- Always make sure the loaded paper matches the type of paper specified. Adjustment cannot be completed correctly unless the loaded paper matches the settings.

2

On the **Tab Selection screen** of the Control Panel, press ◀ or ▶ to select the **Settings/Adj. tab** ().

Note

- If the **Tab Selection screen** is not displayed, press the **Menu** button.

3

Press the **OK** button.
The **Set./Adj. Menu** is displayed.

4

Press ▲ or ▼ to select **Adjust Printer**, and then press the **OK** button.

5

Press ▲ or ▼ to select **Feed Priority**, and then press the **OK** button.

6

Press ▲ or ▼ to select **Adj. Quality**, and then press the **OK** button.

7

Press ▲ or ▼ to select **Manual**, and then press the **OK** button.
Test pattern A is printed for manual adjustment.

Note

- When printing on sheets, follow the instructions on the Display Screen and remove the sheet.

- 8** Examine test pattern A for adjustment. Determine the pattern in which banding is least noticeable.

Note

- If banding seems least noticeable in two patterns but you cannot decide which one is better, choose an intermediate value.
For example, choose 11 if you cannot decide whether pattern 10 or 12 is better.

- 9** Press **▲** or **▼** to select the pattern number you have decided, and then press the **OK** button. Test pattern B is printed for adjustment.

Note

- If you printed test pattern A on a sheet, follow the instructions on the Display Screen and use another sheet of the same type of paper. Additionally, after test pattern B is printed, follow the instructions on the Display Screen and remove the sheet.

- 10** Examine test pattern B for adjustment. Determine the pattern in which banding is least noticeable.

- 11** Press **▲** or **▼** to select the pattern number you have decided, and then press the **OK** button. The adjustment value is now registered, and adjustment is complete.

Fine-Tuning the Paper Feed Amount

If the contrast is uneven or banding in different colors appears at 50 mm (2.0 in) intervals in printed documents, try executing **Adj. Fine Feed** during printing to fine-tune the feed amount.

Note

- The **Adj. Fine Feed** menu is only displayed during printing. Additionally, it is displayed when you have selected **Automatic** or **Print Quality** in **Adj. Priority** in **Feed Priority**. (See "Menu Settings.") → P.474
- Always execute **Adj. Quality** before **Adj. Fine Feed**. Once you execute **Adj. Quality**, the **Adj. Fine Feed** value will revert to 0. (See "Automatic Banding Adjustment.") → P.559
(See "Manual Banding Adjustment.") → P.560

Perform adjustment as follows.

- 1** On the **Tab Selection screen** of the Control Panel, press **◀** or **▶** to select the Settings/Adj. tab ().

Note

- If the **Tab Selection screen** is not displayed, press the **Menu** button.

- 2** Press the **OK** button. The **Set./Adj. Menu** is displayed.

- 3** Press **▲** or **▼** to select **Adj. Fine Feed**, and then press the **OK** button.

- 4
- Press ▲ or ▼ to select a setting value in the range -5 to 5, and then press the **OK** button.
At this time, if banding in dark colors appears, select a setting value in the range 1 to 5, and if banding in light colors appears, select a setting value in the range -1 to -5.

Adjusting Line Length

To ensure that lines in CAD drawings are printed at exactly the right length, use **Adjust Length** to adjust the amount that paper is advanced.
There are two options in **Adjust Length** : **AdjustmentPrint** and **Change Settings**.

- **AdjustmentPrint**
After a test pattern is printed, you will measure the discrepancy based on the results of printing.
 - **Change Settings**
No test pattern is printed. Instead, you will measure a document already printed to determine the discrepancy.
- Additionally, two modes are available in both **AdjustmentPrint** and **Change Settings** : **A:High** or **B:Standard/Draft**. Choose the mode that suits your particular printing application.
- **A:High**
This setting is applied when **Highest quality** or **High** is selected in **Print Quality** in the printer driver.
 - **B:Standard/Draft**
This setting is applied when **Standard** or **Fast** is selected in **Print Quality** in the printer driver.

Note

- We recommend executing the adjustment if you have changed the paper type or paper size.
- Always check the **Adj. Priority** values before using **Adjust Length**. (See "Selecting a Feed Amount Adjustment Method.") →P.558

Paper to Prepare

When Using Rolls	<ul style="list-style-type: none">• An unused roll at least 254.0 mm (10.00 in) wide• High-precision ruler
When Using Sheets	<ul style="list-style-type: none">• One sheet of unused paper of at least A4/Letter size• High-precision ruler

Perform adjustment as follows.

- 1
- Load the paper.
- **Loading Rolls on the Roll Holder** →P.363
 - **Loading Rolls in the Printer** →P.365
 - **Loading Sheets in the Feed Slot** →P.388
- **Important**
 - Always make sure the loaded paper matches the type of paper specified. Adjustment cannot be completed correctly unless the loaded paper matches the settings.
- 2
- On the **Tab Selection screen** of the Control Panel, press ◀ or ▶ to select the **Settings/Adj. tab** ().

Note

- If the **Tab Selection screen** is not displayed, press the **Menu** button.

- 3 Press the **OK** button.
The **Set./Adj. Menu** is displayed.
- 4 Press **▲** or **▼** to select **Adjust Printer**, and then press the **OK** button.
- 5 Press **▲** or **▼** to select **Feed Priority**, and then press the **OK** button.
- 6 Press **▲** or **▼** to select **Adjust Length**, and then press the **OK** button.
- 7 Press **▲** or **▼** to select **AdjustmentPrint** or **Change Settings**, and then press the **OK** button.
When you select **AdjustmentPrint**, a test pattern is printed for you to measure the scale and calculate the discrepancy. The scale bar prints **Millimeter** in 50 mm increments and **Inch** in 1-inch increments.

Note

- A test pattern is printed in black when you choose **A:High** or in magenta if you choose **B:Standard/Draft**.
- To cancel printing the test pattern for adjustment, hold down the **Stop** button. When "**Stop printing?**" is displayed, press **▲** or **▼** to select **Yes**, and then press the **OK** button.

- 8 Press **▲** or **▼** to enter the amount of discrepancy, and then press the **OK** button.
If the scale is shorter than the actual size, use a positive setting value. If it is longer, use a negative value.
The feed amount can be adjusted in 0.02% increments.

Adjusting Color on the Trailing Edge of Sheets

If printed sheets are affected by banding in different colors by the trailing edge (about 20–30 mm (0.8–1.2 in) from the edge), try adjusting the feed amount of the trailing edge of sheets.

Important

- This adjustment is only possible when feeding paper from the Top Paper Feed Slot that can be set up with a margin on the trailing edge of 3 mm (0.12 in). Paper that does not allow a margin of 3 mm on the trailing edge is automatically ejected, and the adjustment is not available.

Note

- We recommend using the type of paper you use most often for adjustment.
- For banding in different colors over the entire printed area of sheets or rolls (not only at the trailing edge of sheets), try adjusting the overall feed amount. (See "Automatic Banding Adjustment.") [→P.559](#)

Items to Prepare

Sheets	One sheet of unused paper of at least A4/Letter size
--------	--

Perform adjustment as follows.

- 1 Load the paper.

- **Loading Sheets in the Feed Slot** [→P.388](#)

Important

- Always make sure the loaded paper matches the type of paper specified in the settings. Adjustment cannot be completed correctly unless the loaded paper matches the settings.

- 2** On the **Tab Selection screen** of the Control Panel, press ◀ or ▶ to select the **Settings/Adj. tab** ().

Note

- If the **Tab Selection screen** is not displayed, press the **Menu** button.

- 3** Press the **OK** button.
The **Set./Adj. Menu** is displayed.

- 4** Press ▲ or ▼ to select **Adjust Printer**, and then press the **OK** button.

- 5** Press ▲ or ▼ to select **Adj Far Ed Feed**, and then press the **OK** button.

- 6** Press ▲ or ▼ to select **Yes**, and then press the **OK** button.
A test pattern is printed for adjustment.

C1 is displayed on the Control Panel.

- 7** Examine test pattern **C1**. Determine the pattern in which banding is least noticeable. Press ▲ or ▼ to select this pattern number, and then press the **OK** button.
C2 is displayed on the Control Panel.

- 8** Examine test pattern **C2**. Again, determine the pattern in which banding is least noticeable. Press ▲ or ▼ to select this pattern number, and then press the **OK** button.
The adjustment value is now registered, and adjustment is complete.

Note

- If streaks seem least noticeable in two patterns but you cannot decide which one is better, choose an intermediate value. For example, choose 17 if you cannot decide whether pattern 16 or 18 is better.

Adjusting the Vacuum Strength

When printing on heavyweight paper or paper that curls or wrinkles easily, if the Printhead rubs against paper, adjusting the level of suction against paper on the Platen may improve results.

Important

- Paper rubbing against or becoming caught on the Printhead may jam or result in printed documents that are soiled.

- 1 On the **Tab Selection screen** of the Control Panel, press ◀ or ▶ to select the Paper tab ().

Note

- If the **Tab Selection screen** is not displayed, press the **Menu** button.

- 2 Press the **OK** button.
The **Paper Menu** is displayed.

- 3 Press ▲ or ▼ to select **Paper Details**, and then press the **OK** button.

- 4 Press ▲ or ▼ to select the type of paper, and then press the **OK** button.

Note

- When **VacuumStrngth** is set to **Automatic**, the setting value selected for the previous print job is displayed (to the right of **Automatic**) once you select the type of paper currently supplied. However, the value is cleared when the printer is turned off or the paper is replaced.

- 5 Press ▲ or ▼ to select **VacuumStrngth**, and then press the **OK** button.

- 6 Press ▲ or ▼ to select the desired setting value, and then press the **OK** button.

Checking Ink Tank Levels 574

When to Replace Ink Tanks 575

Ink Tanks

When purchasing, check the Model number.

Shape	Colors	Model number	Ink Type	Capacity
	Matte black	PFI-106 MBK	Pigment ink	130 ml (4.4 fl oz)
	Black	PFI-106 BK		
	Cyan	PFI-106 C		
	Magenta	PFI-106 M		
	Yellow	PFI-106 Y		
	Red	PFI-106 R		

Shape	Colors	Model number	Ink Type	Capacity
	Matte black	PFI-206 MBK	Pigment ink	300 ml (10.2 fl oz)
	Black	PFI-206 BK		
	Cyan	PFI-206 C		
	Magenta	PFI-206 M		
	Yellow	PFI-206 Y		
	Red	PFI-206 R		

• For instructions on Ink Tank replacement, see "Replacing Ink Tanks." →P.568

Note

Replacing Ink Tanks

Compatible ink tanks

For information on the compatible ink tanks for this printer, see "Ink Tanks." →P.568
Replacement ink tanks in 130 ml (4.4 fl oz) and 300 ml (10.2 fl oz) capacities are supported.

• Depending on the color, you can also use ink tanks of different capacities.

Note

Precautions when handling ink tanks

Take the following precautions when handling ink tanks.

Caution

- For safety, keep ink tanks out of the reach of children.
- If ink is accidentally ingested, contact a physician immediately.

Important

- There may be ink around the ink supply section of ink tanks you removed. Handle ink tanks carefully during replacement. The ink may stain clothing.
- Do not install used ink tanks in another model of printer. This will prevent correct ink level detection, which may damage the printer or cause other problems.
- We recommend using up an Ink Tank in the course of printing within six months after breaking the seal. Printing quality may be affected if you use older ink tanks.
- Do not leave the printer without ink tanks installed for extended periods (a month or more). Residual ink may become clogged inside the printer and affect printing quality.

Confirm the message

When the ink level becomes low, a message is displayed on the Display Screen.

According to the message, replace the ink tank or prepare a new ink tank. (See "When to Replace Ink Tanks.") → P.575

If a message requests you to replace an Ink Tank, press the **OK** button. In this case, you can skip the step **Access the menu for ink tank replacement**. Follow the instructions in **Remove the ink tanks**.

Important

- Do not remove an Ink Tank during initialization immediately after turning on the printer, or during printhead cleaning. Ink may leak out.

Note

- Ink Tank replacement is possible even during printing, when print jobs are being canceled, or when paper is being advanced.

Access the menu for Ink Tank replacement

1

On the **Tab Selection screen** of the Control Panel, press ◀ or ▶ to select the Ink tab ().

- If the **Tab Selection screen** is not displayed, press the **Menu** button.

Note

2

Press the **OK** button.
The **Ink Menu** is displayed.

3

Press **▲** or **▼** to select **Rep. Ink Tank**, and then press the **OK** button.
A message on the Display Screen requests you to open the Ink Tank Cover. Remove the Ink Tank at this point.

Remove the Ink Tanks

1

Open the Ink Tank Cover and check the ink lamps.
Ink lamps flash when there is little ink left.

**2**

Press the tip of the Ink Tank Lock Lever of the color for replacement horizontally and lift the Ink Tank Lock Lever to open it.

- 3** Hold the Ink Tank by the grips and remove it. Press the **OK** button.

Important

- If there is still ink in the Ink Tank you removed, store it with the ink holes (a) facing up. Otherwise, ink may leak and cause stains. Put the Ink Tank in a plastic bag and seal it.

Note

- Dispose of used ink tanks according to local regulations.

Installing Ink Tanks

- 1** Before opening the pouch, gently agitate the Ink Tank seven or eight times. Agitate the ink in the Ink Tank by slowly rotating the Ink Tank upside-down and right side up repeatedly.

Important

- After installing an ink tank, do not remove and shake it. Doing so may cause the ink to leak out.
- If you do not agitate the Ink Tank, the ink may settle, which may affect printing quality.

2

Open the pouch and remove the Ink Tank.

Important

- Never touch the ink holes or electrical contacts. This may cause stains, damage the Ink Tank, and affect printing quality.

3

Press the **OK** button and install the Ink Tank into the holder as shown, with the ink holes facing down.

Important

- Ink tanks cannot be installed in the holder if the color or orientation is incorrect. If the Ink Tank does not fit in the holder, do not force it in. Check the Ink Tank serial number, the Ink Color Label, the color of the Ink Tank, and the orientation of the Ink Tank before reinstalling it. Forcing the Ink Tank into the holder may damage the printer.

- 4** Push the Ink Tank Lock Lever closed until it clicks into place.

Important

- Do not push the Ink Tank in by hand. Forcing the Ink Tank into the holder may damage the printer.
- If a 130 ml (4.4 fl oz) ink tank is installed facing the wrong direction, the rotating part of the Ink Tank Lock Lever come out of place. If this happens, open the Ink Tank Lock Lever to return it to the proper position.

5

Make sure the Ink Lamp is lit in red.

Note

- If the Ink Lamp is not lit, reinstall the tank.

6

Close the Ink Tank Cover.

Checking Ink Tank Levels

On the Display Screen, you can check how much ink is left in the ink tanks.

To check remaining Ink Tank levels, access the **Tab Selection screen** on the Control Panel and press ◀ or ▶ to select the Ink tab ().

Note

- If the **Tab Selection screen** is not displayed, press the **Menu** button.
- If an error has occurred and the **Tab Selection screen** cannot be displayed, display **Ink Info** as follows.

1. Press the **OK** button to display **Printer Info**.
2. Press the ▲ or ▼ button to select **Ink Info**.
3. Press the **OK** button.

The remaining ink levels shown on the Display Screen correspond to the inks identified by the Color Label on the bottom of the Display Screen.

These symbols may be displayed above the ink level: ! if ink is low, ✕ if no ink is left, and ? if you have deactivated ink level detection.

The remaining ink level is indicated as shown below.

If the Display Screen indicates to replace the Ink Tank, replace the Ink Tank. If a message is displayed indicating to check the remaining ink levels, or after tasks that consume a lot of ink such as large-format printing or head cleaning, check the remaining levels and replace Ink Tank as needed. (See "Replacing Ink Tanks.") →P.568

When to Replace Ink Tanks

Replace or prepare to replace ink tanks in the following situations.

If a message for checking the ink is shown on the Display Screen

When there is little ink left, the **Message Lamp** is lit and "Not much ink is left." is shown on the Display Screen. You can continue to print, but prepare to replace the Ink Tank. (See "Checking Ink Tank Levels.") →P.574

Before print jobs and maintenance that consume a lot of ink

If little ink is left, there may not be enough for large-format printing, head cleaning, and maintenance, which require a lot of ink. Replace or prepare to replace the Ink Tank.

If a message for ink replacement is shown on the Display Screen

When ink runs out, the **Message Lamp** flashes, a message regarding Ink Tank replacement is shown on the Display Screen, and printing is disabled. Replace the Ink Tank at this point.

Printheads

Printhead	576
Checking for Nozzle Clogging	576
Cleaning the Printhead	577
Replacing the Printhead	578

Printhead

When purchasing, check the Model number.

Shape	Model number
	PF-05

- For instructions on replacing the Printhead, see "Replacing the Printhead." →P.578

Checking for Nozzle Clogging

If printing is faint or affected by banding in different colors, make sure the Printhead nozzles are clear by printing a test pattern to check the nozzles.

- By default, nozzles are checked at fixed intervals.
Configure the settings on the Control Panel menu in **Nozzle Check**.
(See "Menu Settings.") →P.474

Paper to Prepare

When Using Rolls	An unused roll at least 254.0 mm (10.00 in) wide
When Using Sheets	One sheet of unused paper of at least A4/Letter size

1 Load paper.

- Loading Rolls on the Roll Holder →P.363
- Loading Rolls in the Printer →P.365
- Loading Sheets in the Feed Slot →P.388

2 On the **Tab Selection screen** of the Control Panel, press ◀ or ▶ to select the Settings/Adj. tab ().

- If the **Tab Selection** screen is not displayed, press the **Menu** button.

3

Press the **OK** button.
The **Set./Adj. Menu** is displayed.

4

Press **▲** or **▼** to select **Test Print**, and then press the **OK** button.

5

Press **▲** or **▼** to select **Nozzle Check**, and then press the **OK** button.
The printer now prints a test pattern for checking the nozzles.

6

Check the printing results.
If the horizontal lines are not faint or incomplete, the nozzles are clear.

If some sections of the horizontal lines are faint or incomplete, the nozzles for those colors are clogged.

If horizontal lines are faint or incomplete, follow the steps below and check again for nozzle clogging.

1. Clean the Printhead. (See "Cleaning the Printhead.") →P.577
2. Print a test pattern to check the nozzles.

- If you repeat these steps several times but the horizontal lines are still faint or incomplete, the Printhead may have reached the end of its useful life. Contact your Canon dealer for assistance.

Cleaning the Printhead

If printing is faint, cleaning the Printhead may improve results.

Choose one of two Printhead cleaning modes (**Head Cleaning A** or **Head Cleaning B**), depending on the problem to resolve.

• Head Cleaning A

Use this mode if printing is faint or contains foreign substances. This method of cleaning consumes the least amount of ink.

It takes about three minutes to complete.

• Head Cleaning B

Use this mode if no ink is ejected at all, or if **Head Cleaning A** does not solve the problem.

It takes about three minutes to complete.

Important

- Do not remove the Maintenance Cartridge or ink tanks during either **Head Cleaning A** or **Head Cleaning B**. Ink may leak or an error may occur.
- If printing does not improve even if you execute **Head Cleaning B**, try repeating **Head Cleaning B** once or twice. If this still does not improve printing, the Printhead may have reached the end of its useful life. Contact your Canon dealer for assistance.

- By default, nozzles are checked at fixed intervals.
Configure the settings on the Control Panel menu in **Nozzle Check**.
(See "Menu Settings.") →P.474

Perform cleaning as follows.

- 1 On the **Tab Selection screen** of the Control Panel, press ◀ or ▶ to select the Settings/Adj. tab ().

Note

- If the **Tab Selection screen** is not displayed, press the **Menu** button.

- 2 Press the **OK** button.
The **Set./Adj. Menu** is displayed.
- 3 Press ▲ or ▼ to select **Maintenance**, and then press the **OK** button.
- 4 Press ▲ or ▼ to select **Head Cleaning**, and then press the **OK** button.
- 5 Press ▲ or ▼ to select **Head Cleaning A** or **Head Cleaning B**, and then press the **OK** button.
Head cleaning is now executed.
- 6 Print a test pattern to check the nozzles, and determine whether cleaning has cleared the nozzles. (See "Checking for Nozzle Clogging.") →P.576

Replacing the Printhead

When to replace the Printhead

Replace the Printhead in the following situations.

- If the printing quality does not improve even after two cycles of **Head Cleaning B** from the printer menu
- If the Display Screen indicates "**Open top cover and replace the printhead.**"
- If your Canon dealer has advised you to replace the Printhead

Compatible printheads

For information on compatible printheads, see "**Printhead.**" →P.576

Precautions when handling the Printhead

Take the following precautions when handling the Printhead.

Caution

- For safety, keep the Printhead out of the reach of children.
- If ink is accidentally ingested, contact a physician immediately.
- Do not touch the Printhead immediately after printing. The Printhead becomes extremely hot, and there is a risk of burns.

Important

- There may be ink around the nozzles of the Printhead you remove. Handle the Printhead carefully during replacement. The ink may stain clothing.
- Do not open the Printhead pouch until immediately before installation. After removing the Printhead from the pouch, install it right away. If the Printhead is left after the pouch is opened, the nozzles may dry out, which may affect printing quality.

Access the menu for Printhead replacement

Caution

- When replacing the Printhead immediately after printing, wait a few minutes before replacing it. The metal parts of the Printhead become hot during printing, and there is a risk of burns from touching these parts.

Important

- Your hands may become dirty during Printhead replacement. Use the gloves provided with the new Printhead for replacement.

Note

- Prepare a new Ink Tank when ink levels are low.

- When the remaining capacity of Maintenance cartridge is low, prepare a new Maintenance cartridge.

1

On the **Tab Selection screen** of the Control Panel, press ◀ or ▶ to select the Settings/Adj. tab ().

Note

- If the **Tab Selection screen** is not displayed, press the **Menu** button.

2

Press the **OK** button.
The **Set./Adj. Menu** is displayed.

3

Press ▲ or ▼ to select **Maintenance**, and then press the **OK** button.

4

Press ▲ or ▼ to select **Replace P.head**, and then press the **OK** button.
The ink begins to be drawn in, and instructions appear on the Display Screen after this has finished.
It takes about three minutes to complete.

Replace the Printhead

1

Open the Top Cover.
Instructions are now shown on the Display Screen regarding Printhead replacement.

2

If the Printhead Fixer Cover or Printhead Fixer Lever is dirty, use a damp cloth that you have wrung out completely to wipe it clean.

**Important**

- Do not touch the Linear Scale (a) or Carriage Shaft (b). This may stain your hands and damage the printer.

- Never touch the metal contacts of the Carriage. This may damage the printer.

- 3** Pull the Printhead Fixer Lever forward all the way to open it completely.

- 4** Pull up the Printhead Fixer Cover to open it completely.

- 5** Remove the Printhead and press the **OK** button.

Note

- Dispose of the used Printhead in accordance with local regulations.

- 6** Holding the new Printhead by the grips (a), remove it from the pouch.

Important

- When handling the Printhead, always hold it by the grips (a). Never touch the nozzles (b) or metal contacts (c). This may damage the Printhead and affect printing quality.
- Never touch the ink supply section (d). This may cause printing problems.

- 7** While firmly holding the Printhead you have removed, use your other hand to remove the orange Protective Part (a). Squeeze the grips (c) of Protective Part (b) and pull it down to remove it.

Important

- The inside surface of the Protective Part (a) and Protective Part (b) is coated with ink to protect the nozzles. Be careful not to touch these surfaces when removing the caps.
- The Printhead contains ink to protect the nozzles. We recommend removing Protective Part (b) as you hold it over the Printhead package or safely out of the way to avoid spilling ink and staining your clothes or the surrounding area. If ink accidentally spills, wipe off the ink with a dry cloth.
- If you need to put a Printhead somewhere temporarily before installation, do not keep the nozzles and metal contacts facing down. If the nozzles or metal contacts are damaged, it may affect the printing quality.
- Do not reattach the removed Protective Part. Dispose of these materials in accordance with local regulations.

- 8** With the nozzles facing down and the metal contacts toward the back, insert the Printhead into the Carriage. Carefully push the printhead firmly into the Carriage, ensuring that the nozzles and metal contacts do not touch the carriage.

- 9** Pull the Printhead Fixer Cover down toward the front to lock the Printhead in place.

- 10** Push the Printhead Fixer Lever toward the back of the printer until it clicks.

11**Close the Top Cover.**

Ink now fills the system. It takes about nine minutes to complete.

**Important**

- While ink is being filled, definitely do not remove the Ink Tank or Maintenance Cartridge. Ink may leak out.

**Note**

- The procedure is now finished if you have set **Rep.P.head Print** to **Off** in the Control Panel menu. In this case, execute the **Initial adjustmt of Head Posi. Adj.** from the Control Panel menu. (See "Adjustment When Installing the Printhead.") → P.555

12

Follow the instructions on the Display Screen to advance the paper.

After the paper is advanced the **Initial adjustmt of Head Posi. Adj.** will be executed automatically.

Maintenance Cartridge

Maintenance Cartridge	585
Replacing the Maintenance Cartridge	585
Checking the Remaining Maintenance Cartridge Capacity	590
When to Replace the Maintenance Cartridge	590

Maintenance Cartridge

When purchasing, check the Model number.

Shape	Model number
	MC-16

• For instructions on replacing the Maintenance Cartridge, see "Replacing the Maintenance Cartridge." →P.585

Replacing the Maintenance Cartridge

Compatible maintenance cartridges

For information on compatible maintenance cartridges, see "Maintenance Cartridge." →P.585

Precautions when handling the Maintenance Cartridge

Take the following precautions when handling the Maintenance Cartridge.

Caution

- For safety, keep the Maintenance Cartridge out of the reach of children.
- If ink is accidentally ingested, contact a physician immediately.

Important

- Do not remove the Maintenance Cartridge except to replace it. Ink may leak out.
- Do not remove an Maintenance Cartridge during initialization immediately after turning on the printer, during Print-head cleaning, while ink is being drawn out, or during initialization immediately after replacing the Maintenance Cartridge.
The Maintenance Cartridge may become damaged or ink may leak out.
- To prevent ink from leaking from a used Maintenance Cartridge, avoid dropping the cartridge or storing it at an angle. Otherwise, ink may leak and cause stains.
- Ink adheres to the top of the Maintenance Cartridge after it has been used. Handle the Maintenance Cartridge carefully during replacement. The ink may stain clothing.

Confirm the message

When the Maintenance Cartridge is almost empty, a message is shown on the Display Screen. According to the message, replace the Maintenance Cartridge or prepare a new Maintenance Cartridge. (See "When to Replace the Maintenance Cartridge.") →P.590

If a message is displayed requesting Maintenance Cartridge replacement, you can skip the step **Access the menu for Maintenance Cartridge replacement**. Follow the instructions in **Replace the Maintenance Cartridge**.

Access the menu for Maintenance Cartridge replacement

- 1 On the **Tab Selection screen** of the Control Panel, press ◀ or ▶ to select the Settings/Adj. tab (⚙).

 • If the **Tab Selection screen** is not displayed, press the **Menu** button.
Note

- 2 Press the **OK** button.
The **Set./Adj. Menu** is displayed.
- 3 Press ▲ or ▼ to select **Maintenance**, and then press the **OK** button.
- 4 Press ▲ or ▼ to select **Repl. maint cart**, and then press the **OK** button.

Replace the Maintenance Cartridge

- 1 Open the box of the new Maintenance Cartridge and remove the plastic bag and packaging material. Holding the handles (a) on both sides, pull out the cartridge.

Important

- Never touch the metal contacts (a). This may damage the Maintenance Cartridge.

- 2 Remove the Ejection Guide.

- 3** Pull out the used Maintenance Cartridge by the grip (a). Holding the cartridge by the handles (b) on both sides, keep the cartridge level as you remove it.

Important

- Used maintenance cartridges are heavy. Always grasp the cartridge firmly and keep the cartridge level during removal and storage. If you drop a used Maintenance Cartridge or store it at an angle, ink may leak and cause stains.
- The remaining Maintenance Cartridge capacity is recorded on each printer. Do not install a used Maintenance Cartridge in another printer.

- 4** Keep the used Maintenance Cartridge level as you put it in the plastic bag that was in the box, as shown.

- 5** Expel excess air from the plastic bag as you seal the zipper. Fold the bag in half.

- 6** Put the used Maintenance Cartridge and packaging material in the box, just as the new Maintenance Cartridge was originally packaged, and store the used cartridge keeping it level.

- Always put the used Maintenance Cartridge back in the box and store the box on a flat surface. Otherwise, ink may leak and cause stains.

- 7** Holding the handles (a) on both sides of the new Maintenance Cartridge, insert it completely, keeping it level. The printer now initializes the Maintenance Cartridge.

- Do not remove the Maintenance Cartridge during initialization immediately after replacing the Maintenance Cartridge. The Maintenance Cartridge may become damaged.

- 8** Hold the Ejection Guide on both sides by the near end. Aligning the Ejection Guide with the guides (a), insert it into the printer until it locks in place.

Note

- If you did not perform the operation in **Access the menu for Maintenance Cartridge replacement**, this is the end of the procedure and you do not need to press the **OK** key in the next step.

9

Press the **OK** button.

Checking the Remaining Maintenance Cartridge Capacity

The Maintenance Cartridge absorbs excess ink from borderless printing, printhead cleaning, and other processes. You can confirm the remaining capacity of the Maintenance Cartridge by checking the Maintenance Cartridge capacity shown on the Display Screen.

To check remaining Maintenance Cartridge capacity, access the **Tab Selection screen** on the Control Panel and press ◀ or ▶ to select the Settings/Adj. tab ().

Note

- If the **Tab Selection screen** is not displayed, press the **Menu** button.

If the Display Screen indicates to replace the Maintenance Cartridge, replace the Maintenance Cartridge. If a message is displayed indicating to check the remaining capacity of the Maintenance Cartridge, or before tasks that deplete much of the capacity such as head cleaning or preparations to move the printer, check the remaining Maintenance Cartridge capacity and prepare a new Maintenance Cartridge as needed. (See "Replacing the Maintenance Cartridge.") →P.585

When to Replace the Maintenance Cartridge

Replace or prepare to replace the Maintenance Cartridge in the following situations.

If a message for checking the Maintenance Cartridge is shown on the Display Screen

When the Maintenance Cartridge is almost full, the **Message Lamp** is lit and "**The level is low**" is shown on the Display Screen. You can continue to print, but check the remaining Maintenance Cartridge capacity and prepare to replace the Maintenance Cartridge with a new one. (See "Checking the Remaining Maintenance Cartridge Capacity.") →P.590

When much of the Maintenance Cartridge capacity is depleted

Printhead cleaning, Printhead replacement, and preparations to transfer the printer deplete much of the Maintenance Cartridge capacity. (In particular, preparing to move the printer depletes a lot of the capacity.)

Check the remaining Maintenance Cartridge capacity before this maintenance and replace the Maintenance Cartridge if necessary.

If a message for the Maintenance Cartridge replacement is shown on the Display Screen

When the Maintenance Cartridge is almost empty, the **Message Lamp** lights, a message to replace the Maintenance Cartridge is displayed on the Display Screen, and you cannot print. Replace the Maintenance Cartridge with a new one.

Cleaning the Printer

Cleaning the Printer Exterior	592
Cleaning Inside the Top Cover	592
Cleaning the Paper Retainer	595
Cleaning the Printhead	577

Cleaning the Printer Exterior

Clean the printer regularly to maintain better printing quality and help prevent problems. About once a month, clean the printer exterior.

1 Turn the printer off. (See "Turning the Printer On and Off.") ➔P.17

2 Unplug the power cord from the outlet.

- Always turn off the printer and unplug the power cord before cleaning or maintenance. Accidentally leaving the printer on poses a risk of injury if you touch moving parts inside the printer.

3 Using a damp cloth that you have wrung out completely, wipe the exterior surfaces of the printer. Dry the surfaces with a dry cloth.

- Never use flammable solvents such as alcohol, benzene, or thinner. If these substances come into contact with electrical components inside the printer, there is a risk of fire or electrical shock.

- If the Ejection Guide is dirty, it may soil the edge of the paper when the paper is cut. We recommend cleaning the Ejection Guide even if it does not appear dirty, because it may actually be covered with paper dust.

4 Plug the power cord into the outlet.

Cleaning Inside the Top Cover

Clean inside the Top Cover about once a month to maintain better printing quality and help prevent problems. Also clean inside the Top Cover in the following situations to ensure optimal operation.

- If the printed surface or the underside of paper is dirty after printing
- After you have used up a roll
- After borderless printing
- After printing on small paper
- After printing on paper that generates a lot of cutting debris
- If you have replaced the roll
- After printing on paper that generates a lot of paper dust
- If the message **"Blue platen switch is dirty."** is displayed

Important

- If the Platen inside the Top Cover becomes dirty, it may soil the underside of paper. We recommend cleaning the Platen after borderless printing or printing on small paper.
- If the Ejection Guide is dirty, it may soil the edge of the paper when the paper is cut. We recommend cleaning the Ejection Guide even if it does not appear dirty, because it may actually be covered with paper dust.

1

On the **Tab Selection screen** of the Control Panel, press ◀ or ▶ to select the Settings/Adj. tab ().

Note

- If the **Tab Selection screen** is not displayed, press the **Menu** button.

2

Press the **OK** button.
The **Set./Adj. Menu** is displayed.

3

Press ▲ or ▼ to select **Maintenance**, and then press the **OK** button.

4

Press ▲ or ▼ to select **Clean Platen**, and then press the **OK** button.
A message on the Display Screen requests you to open the Top Cover.

5

Open the Top Cover.

- 6** If paper dust has accumulated in the Vacuum holes (a) on the Platen or in the Borderless Printing Ink Grooves (b), use the Cleaning Brush (c), provided with the printer, to wipe it away.

Note

- If the Cleaning Brush is dirty, rinse it in water.

- 7** Using a damp cloth that you have wrung out completely, wipe inside the Top Cover to clean it. Wipe away any ink residue on the Platen(a) as a whole, on the Paper Retainer(b), Borderless Printing Ink Grooves(c), and blue Switch(d).

Warning

- Never use flammable solvents such as alcohol, benzene, or thinner. If these substances come into contact with electrical components inside the printer, there is a risk of fire or electrical shock.

Important

- Do not use a dry cloth to wipe inside the Top Cover. This may create a static charge, which may attract dust and affect the printing quality.
- Do not touch the Linear Scale (a) or Carriage Shaft (b). This may stain your hands and damage the printer.

8

Close the Top Cover.

Cleaning the Paper Retainer

Clean the Paper Retainer about once a month to maintain better printing quality and help prevent problems. Also clean the Paper Retainer in the following situations to ensure optimal operation.

- If the printed surface or the underside of paper is dirty after printing
- After printing on small paper

Important

- During cleaning, use paper that does not generate much cutting dust, such as Plain Paper. It may affect printing quality if you use film or other media that are more likely to generate debris when cut, or that have a surface finish that may come off.

1

Turn the printer off. (See "Turning the Printer On and Off.") →P.17

2

Unplug the power cord from the outlet.

Caution

- Always turn off the printer and unplug the power cord before cleaning or maintenance. Accidentally leaving the printer on poses a risk of injury if you touch moving parts inside the printer.

3

Remove the Roll Feed Unit. (See "Removing the Roll Feed Unit.") →P.385

- 4** Fold a sheet of Plain Paper two or three times (a) and insert it under the Paper Retainer (b) from behind the printer to wipe the entire surface of the Paper Retainer clean.

- 5** Attach the Roll Feed Unit. (See "Installing the Roll Feed Unit.") →P.386

- 6** Plug the power cord into the outlet.

Other Maintenance

Carrying the Printer	597
Preparing to Transfer the Printer	600
Reinstalling the Printer	604
Updating the Firmware	607

Carrying the Printer

This section describes how to carry the printer or move the printer while mounted on the optional stand mainly within the same building.

- 

Important
- When carrying the printer or moving the printer while mounted on the stand, do not tilt the printer. The ink may spill internally and stain the surroundings.
- 

Note
- When transporting the printer, operations such as drawing out the ink are required. Execute preparations for transporting when transporting the printer.
(See "Preparing to Transfer the Printer.") →P.600
 - For details information on the operation, see the Setup Guide included with the printer or options.

Carrying the Printer Removed From the Stand

- 1

Move the Locking Caster switch on the Stand to ON to lock the Stand.

- 2

Turn the printer off.
(See "Turning the Printer On and Off.") →P.17

- 3

Unplug the power cord from the outlet.

- Always turn off the printer and unplug the power cord before cleaning or maintenance. Accidentally leaving the printer on poses a risk of injury if you touch moving parts inside the printer.

- 4

Disconnect the power cord and interface cable from the printer.

5 Remove the securing bolts using the Allen wrench.

6 Remove the printer from the Stand and carry the printer.

Caution

- Moving the printer requires at least three people, holding it on both sides and from behind. Be careful to avoid back strain and other injuries.
- When moving the printer, firmly grasp the Carrying Handles under each side and in back. The printer may be unsteady if you hold it at other positions, which poses a risk of injury from dropping the printer.

Move with the printer still mounted on the Stand

- 1 Move the Locking Caster switch on the Stand to ON to lock the Stand.

- 2 Turn the printer off.
(See "Turning the Printer On and Off.") → P.17

- 3 Unplug the power cord from the outlet.

Caution

- Always turn off the printer and unplug the power cord before cleaning or maintenance. Accidentally leaving the printer on poses a risk of injury if you touch moving parts inside the printer.

- 4 Disconnect the power cord and interface cable from the printer.

- 5 Move the Locking Caster switch on the Stand to OFF to unlock and move the printer.

Important

- When moving the Stand, always unlock by moving the Locking Caster switch to OFF. Moving the Stand with the Locking Caster locked may scratch the floor.

6 Move the Locking Caster switch on the Stand to ON to lock the Stand.

7 Connect the power cord to the Power Supply Connector on the back of the printer.

8 Connect the interface cable to the printer.

9 Plug the power cord into the outlet.

10 Connect the interface cable to the computer or network.

Preparing to Transfer the Printer

To protect the internal parts in transit, always follow these steps before transferring the printer to a new location.

Important

- Avoid tilting the printer excessively during transit. This may cause ink in the printer to leak and cause stains. If it is necessary to tilt the printer in transit, contact your Canon dealer.

Note

- Depending on the state of the printer, part replacement may be necessary when preparing to transfer the printer (that is, when you execute the printer menu item to prepare for transfer).
- This work is not necessary when carrying the printer or moving it while mounted on the optional stand. When carrying the printer, always have three or more people securely hold the Carrying Handles in the left and right sides of the base and keep the printer level.

Items to Prepare

Setup Guide	Used for reference when packing the printer
Packaging material	Used to pack the printer
New Maintenance Cartridge (1)	Used to draw in ink

Remove paper

1 Remove the paper.

- Rolls (See "Removing the Roll from the Printer.") →P.370
- Sheets (See "Removing Sheets.") →P.390

Access the **Prep.MovePrinter** menu

1 If the Display Screen shows a message instructing you to replace the Maintenance Cartridge, replace the Maintenance Cartridge.
(See "Replacing the Maintenance Cartridge.") →P.585

- 2** On the **Tab Selection screen** of the Control Panel, press ◀ or ▶ to select the **Settings/Adj. tab** ().

Note

- If the **Tab Selection screen** is not displayed, press the **Menu** button.

- 3** Press the **OK** button.
 The **Set./Adj. Menu** is displayed.

- 4** Press ▲ or ▼ to select **Prep.MovePrinter**, and then press the **OK** button.
 Displays the confirmation screen.

- 5** Press ▲ or ▼ to select **Yes**, and then press the **OK** button.
 Once preparations are finished, a message on the Display Screen requests you to open the Ink Tank Cover.

Important

- If consumables must be replaced, the message "**Consumables must be replaced. Call for service.**" is shown on the Display Screen and preparation is not possible. If this message is displayed, press the **OK** button and contact your Canon dealer for assistance.

Remove the Ink Tank

- 1** Open the Ink Tank Cover.

- 2** Lift the ink tank lock levers and remove all ink tanks. Put the ink tanks in a plastic bag and seal it.

Important

- Store the ink tanks you removed with the ink holes (a) facing up. Otherwise, ink may leak and cause stains.

- 3** Close all ink tank lock levers, and then close the Ink Tank Cover. At this point, ink is drawn out from inside the tubes.

Important

- Do not remove the Maintenance Cartridge unless a replacement message appears. Removing the Maintenance Cartridge while the ink is being drawn in may cause the ink to leak out.

- 4** When the process is finished, "**Completed! Turn Power Off!!**" is displayed. Press the **Power** button and turn off the printer.

Pack the printer

Refer to the Setup Guide for details on packing the printer and installing it after transfer.

- 1** Disconnect the power cord and interface cable.

Important

- Unplug the power cord once the power is turned off. Unplugging the printer before it is off and moving it may cause damage. If you accidentally unplug the printer before turning it off, plug it in again, reinstall the ink tank, and perform the procedure again.

- 2** Open the Top Cover.

- 3** Pinch the Belt together, insert it between the Belt Stopper, and affix the Belt Stopper to the Carriage Shaft.

Important

- Do not touch the Linear Scale (a) or Carriage Shaft (b). This may stain your hands and damage the printer.

Note

- Here, the Belt Stopper is the one that was removed and stored after initial installation.

4

Close the Top Cover.

5

If any options are attached to the printer, remove them from the printer and pack them.

6

Tape down printer covers to secure them, in the reverse order of tape removal during installation.

7

Repack the Roll Holder, Holder Stopper, and printer in shipping materials, and then package them in a shipping box.

Reinstalling the Printer

The basic workflow for reinstalling the printer is as follows.
For detailed instructions, see the Setup Guide.

Assemble the stand (optional)

- 1 If you are using the optional Stand, assemble the Stand by referring to the Printer Stand Setup Guide included with the Stand.

- The Stand must be assembled by at least two people on a flat surface. Attempting assembly by yourself poses a risk of injury or bending the Stand.
- When assembling the Stand, lock the casters. In addition, always unlock the casters before moving the assembled Stand. Attempting to move the stand when the casters are locked poses a risk of injury or damage to the location site.

Install the printer

- 1 Install the printer on a table or other flat surface.
If you will use the printer on an optional Stand, assemble the Stand before mounting the printer on it, and then secure it with the Main Unit Securing Bolts.

**Caution**

- Moving the printer requires at least three people. Be careful to avoid back strain and other injuries.
- When moving the printer, firmly grasp the Carrying Handles. The printer may be unsteady if you hold it at other positions, which poses a risk of injury from dropping the printer.

**2**

Remove tape and packaging material attached to the printer. Also open the Top Cover and remove stoppers and spacers inside the printer.

**3**

Connect the power cord to the Power Supply Connector on the back of the printer.

**4**

Plug the power cord into the outlet.

5

Press the **Power** button to turn the printer on.

**6**

Open the Ink Tank Cover and install the ink tanks.

7

Install the software.

Note that the driver installation procedure varies depending on the type of connection.

- When the printer is connected to a network (via TCP/IP), the printer's IP address may be changed if you reinstall the printer.
In this case, be sure to reconfigure the printer's IP address.

8

Load the Roll Media on the Roll Holder.

(See "Loading Rolls on the Roll Holder.") → P.363

9

Load the Roll Media in the printer.

(See "Loading Rolls in the Printer.") → P.365

Updating the Firmware

Update the printer firmware to take advantage of new and improved printer functions.

Confirming the firmware version

1

On the **Tab Selection screen** of the Control Panel, press ◀ or ▶ to select the Settings/Adj. tab ().

Note

- If the **Tab Selection screen** is not displayed, press the **Menu** button.

2

Press the **OK** button.The **Set./Adj. Menu** is displayed.

3

Press ▲ or ▼ to select **Printer Info**, and then press the **OK** button.

4

Press ▲ or ▼ to select **System Info**, and then press the **OK** button.
The firmware version is displayed.

Updating the Firmware

To obtain the latest firmware, visit the Canon website. If the firmware available online is newer than the installed firmware, update the printer firmware. For details on downloading and updating the firmware, visit the Canon website.

Frequently Asked Questions

Frequently Asked Questions

This section presents frequently asked questions and answers. To view more detailed explanations, click the hyperlinks in the answer column.

Question	Answer
I want to easily create vertical or horizontal banners.	You can print originals that are in landscape (or portrait) orientation automatically enlarged to fit the roll width. This is an easy way to create vertical or horizontal banners. (See "Printing Vertical or Horizontal Banners (Large-Format Printing).") →P.88
Does this printer support sub-ink tank system?	This printer supports sub-ink tank system. Even if an ink tank becomes empty during printing, since a certain amount of ink always is stored in a sub-ink tank, you can replace the ink tank while printing. (See "Replacing Ink Tanks.") →P.568
I want to know how to configure roll cutting.	You can select the cutting method by the setting of the printer driver and the setting of the printer. To cut rolls automatically after printing, set Cutting Mode of the printer to Automatic and Automatic Cutting of the printer driver to Yes . When using paper for which ink adhesion takes time or the print surface is easily scratched, we recommend that you set the Cutting Mode setting of the printer to Eject . (See "Specifying the Cutting Method for Rolls.") →P.376 (See "Cutting Roll Paper After Printing.") →P.144
I want to configure so that the roll is cut automatically after waiting for the ink to dry.	In the printer driver, you can set the time for waiting until the ink dries. Also, you can set likewise on the printer. (See "Specifying the Ink Drying Time for Rolls.") →P.374 (See "Menu Structure.") →P.469
How do I print without borders?	When printing on rolls, you can perform borderless printing by configuring the printer driver. (when printing on cut sheets, you cannot perform borderless printing) (See "Borderless Printing on Paper of Equivalent Size.") →P.77 (See "Borderless Printing by Resizing Originals to Fit the Roll Width.") →P.81 (See "Borderless Printing at Actual Size.") →P.70
I want to know the paper types that can be used in this printer.	Concerning the paper that can be used in this printer, refer to the imagePROGRAF home page or the Paper Reference Guide . (See "Displaying the Paper Reference Guide.") →P.356
The paper type that I want to print is not displayed on the Display Screen.	When using newly released paper, paper information must be registered on the printer and the printer driver. Download the new version of Media Information File from the imagePROGRAF website and install it. (See "Updating paper information.") →P.359
Can I perform duplex printing?	This printer cannot perform duplex printing. If you use the Folded Duplex function in the Free Layout of Windows software, you can print two pages one-sided, fold them at the center and suspend them to substitute for duplex printing. (See "Prints using Folded Duplex (Windows).") →P.215
I want to perform enlargement printing.	With the printer driver, you can specify the ratio matching the document with the paper size and width and perform enlargement printing or reduction printing. (See "Resizing Originals to Match the Paper Size.") →P.54 (See "Resizing Originals to Fit the Roll Width.") →P.56 (See "Resizing Originals by Entering a Scaling Value.") →P.60

Problems Regarding Paper

Clearing Jammed Roll Paper	611
Clearing a Jammed Sheet, Fed Manually	614
Clearing Jammed Paper (Paper Feed Slot)	616
Roll paper cannot be inserted into the paper feed slot	617
Cannot load sheets	618
Paper is not cut neatly	618
Paper is not cut	618
Depression on the leading edge is left	618
Margins are wide	618

Clearing Jammed Roll Paper

If paper from a roll becomes jammed, "**Paper jam**" is shown on the Display Screen of the Control Panel. Remove the jammed paper as follows.

Important

- For instructions on removing scraps from the paper feed slot after clearing jammed roll paper, see "Clearing Jammed Paper (Paper Feed Slot)." →P.616

1 Open the Roll Feed Unit Cover. Use commercially available scissors or the like to cut the paper of the loaded roll.

Caution

- When cutting paper, be careful to avoid injury or damage to the printer.

Note

- If it is difficult to perform operations from the front of the printer, perform operations from the back of the printer.

2 Press the **OK** button.

3 Remove the jammed paper.

- If paper is jammed inside the Top Cover

1. Open the Top Cover and move the Carriage all the way to the end in the opposite direction from the jam.

Important

- Do not move the Carriage over jammed paper. This may damage the Printhead.

Note

- If the leading edge of the roll jams in the carriage such as when the paper curls strongly, you may be able to avoid paper jamming by setting the roll cutting method to Manual and setting the detection of paper leading edge to **Do not perform**. (See "Specifying the Cutting Method for Rolls.") → P.376

2. Clear any jammed paper from inside the Top Cover.
After removing the paper, make sure there are no other scraps of paper in the printer.
3. Close the Top Cover.

Important

- Do not touch the Linear Scale (a) or Carriage Shaft (b). This may stain your hands and damage the printer.

- If paper from a roll is jammed by the Paper Feed Slot

- Open the Roll Feed Unit Cover.
- Remove the jammed paper from the Paper Feed Slot.
After removing the paper, make sure there are no other scraps of paper in the printer.
If paper is jammed deep in the Paper Feed Slot, remove the roll feed unit, and then clear the paper jam. (See "Clearing Jammed Paper (Paper Feed Slot).") → P.616

Note

- If it is difficult to perform operations from the front of the printer, perform operations from the back of the printer.

- If the paper is jammed by the Ejection Guide
Remove the jammed paper from the Output Tray.
After removing the paper, make sure there are no other scraps of paper in the printer.

- 4** Press the **OK** button.

Clearing a Jammed Sheet, Fed Manually

If a sheet you have fed manually becomes jammed, "**Paper jam**" is shown on the Display Screen of the Control Panel. Remove the jammed paper as follows.

- 1** Press the **OK** button.

- 2** Remove the jammed paper.

- If paper is jammed inside the Top Cover

1. Open the Top Cover and manually move the Carriage to the side.

Important

- Do not move the Carriage over jammed paper. This may damage the Printhead.

2. Clear any jammed paper from inside the Top Cover.
After removing the paper, make sure there are no other scraps of paper in the printer.
3. Close the Top Cover.

- Do not touch the Linear Scale (a) or Carriage Shaft (b). This may stain your hands and damage the printer.

- If the paper is jammed by the Paper Feed Slot of the Top Paper Feed Slot

Remove the jammed paper from the Paper Feed Slot.

After removing the paper, make sure there are no other scraps of paper in the printer.

If paper is jammed deep in the Paper Feed Slot, remove the roll feed unit, and then clear the paper jam. (See "Clearing Jammed Paper (Paper Feed Slot).") →P.616

- If it is difficult to perform operations from the front of the printer, perform operations from the back of the printer.

- If the paper is jammed by the Ejection Guide
Remove the jammed paper from the Output Tray.
After removing the paper, make sure there are no other scraps of paper in the printer.

- 3 Press the **OK** button.

Clearing Jammed Paper (Paper Feed Slot)

Follow these steps to Clear any jammed paper deep in the Paper Feed Slot →P.616 or to Remove scraps left in the Paper Feed Slot →P.617 .

Clear any jammed paper deep in the Paper Feed Slot

If paper is jammed deep in the Paper Feed Slot, remove the Roll Feed Unit and clear the paper jam as follows.

- 1 Turn the printer off before removing the Roll Feed Unit from the printer. (See "Removing the Roll Feed Unit.") →P.385

- 2 Remove the jammed paper from the Paper Feed Slot.

- 3 Attach the Roll Feed Unit to the printer. (See "Installing the Roll Feed Unit.") →P.386

Remove scraps left in the Paper Feed Slot

Follow these steps to remove any scraps left in the Paper Feed Slot after you clear jammed sheets or roll paper.

- 1
- On the **Tab Selection screen** of the Control Panel, press ◀ or ▶ to select  (Settings/Adj. tab).

Note

• If the **Tab Selection screen** is not displayed, press the **Menu** button.

- 2
- Press the **OK** button.
Set./Adj. Menu is displayed.
- 3
- Press ▲ or ▼ to select **Maintenance**, and then press the **OK** button.
- 4
- Press ▲ or ▼ to select **Clear remain pcs**, and then press the **OK** button.
- 5
- Open the Top Cover.
- 6
- Fold an A4 sheet lengthwise four times and insert it through the gap of the Back Cover. Push the scrap out toward the Platen.

- 7
- Remove the scrap when it is pushed out onto the Platen.
- 8
- If any scraps remain inside the paper feed slot, repeat steps 6 and 7.
- 9
- Close the Top Cover.

Note

• If "**Press OK and remove any remaining fragments of paper.**" is displayed after the message "**Please Wait..**", fragments of paper may remain that have not been cleared away. Press **OK** and repeat the procedure from step 5 to clear away all of the paper fragments from the paper feed slot.

Roll paper cannot be inserted into the paper feed slot

Cause	Corrective Action
The roll paper is warped.	Straighten out curls and reload the roll.
Paper is jammed by the paper feed slot.	Remove the jammed paper. (See "Clearing Jammed Roll Paper.") →P611 (See "Clearing a Jammed Sheet, Fed Manually.") →P614
After a roll was advanced, the paper was manually pulled out by force, closing the Paper Feed Slot.	Remove the roll and open the paper feed slot. (See "Removing the Roll from the Printer.") →P.370

Cannot load sheets

Cause	Corrective Action
The paper source selection is incorrect.	Press the Load button and select the paper source.

Paper is not cut neatly

Cause	Corrective Action
The paper is bent or curled at the cut position.	Straighten out any curling by the edges of the paper.
Paper rises by the ends of the cut position before it is cut.	Reload the paper correctly.
You are using paper that cannot be cut with the Cutter Unit.	Specify Manual in Cutting Mode in the Control Panel menu and use scissors or a cutting tool to cut the roll after printing. (See "Specifying the Cutting Method for Rolls.") →P.376
Cut Speed is not configured correctly in the Control Panel menu.	Change the Cut Speed setting in the Control Panel menu. (See "Menu Structure.") →P.469
During cutting, printed documents fall out at an angle.	In the Control Panel menu, set Cutting Mode to Eject . Hold documents after printing, as they are cut. (See "Specifying the Cutting Method for Rolls.") →P.376

Paper is not cut

Cause	Corrective Action
The printed document became caught on a foreign object by the Output Tray, which lifted the document. The Cutter passed under the paper.	Remove the foreign object by the Output Tray to enable the printer to eject the printed document, keeping it level.
In the printer driver, No or Print Cut Guideline is specified in Automatic Cutting .	Specify Yes in Automatic Cutting in the printer driver.
In the Control Panel menu, Cutting Mode is set to Eject or Manual .	If the Cutting Mode is Eject , press the Cut button to cut the paper. If the Cutting Mode is Manual , cut rolls with scissors or the like.

Depression on the leading edge is left

Cause	Corrective Action
Keeping a roll in the printer for a long time without printing on it may leave a depression on the leading edge.	When printing quality is most important, we recommend setting TrimEdge Reload to On or Automatic so that the paper edge is automatically cut before printing. (See "Menu Structure.") →P.469

Margins are wide

Cause	Corrective Action
Rolls are advanced a specific amount before cutting to prevent problems with cutting and paper ejection.	This operation is normal.
When Cutting Mode in the Control Panel menu was set to Manual , you selected Do not perform in response to the "Perform the detection of paper leading edge?" message.	Set Cutting Mode to Manual again, and select Perform(recommend) when the "Perform the detection of paper leading edge?" message is displayed. Note that when you select Perform(recommend) , if the paper is strongly curled, the Printhead may rub against the leading edge of the paper when the printing starts. (See "Specifying the Cutting Method for Rolls.") →P.376

Printing does not start

The Data lamp on the Control Panel does not light up	619
The printer does not respond even if print jobs are sent	619
Ink Filling.. is displayed	619
The display screen indicates Agitating... ..	619

The Data lamp on the Control Panel does not light up

Cause	Corrective Action
The printer is not on.	Make sure the power cord is securely plugged in, all the way. Press the Power button to turn on the printer.
The target printer was not selected when printing.	<ul style="list-style-type: none">• In Windows, select the printer by clicking Select Printer or Printer in the printing dialog box and try printing again.• In Mac OS, open the dialog box of the printer driver, select the printer from the list of Printer, and try printing again.
The print job is paused.	<ul style="list-style-type: none">• In Windows, restart the print job as follows.<ol style="list-style-type: none">1. Select the printer icon in the Printers and Faxes (or Printers) window.2. Clear Pause Printing in the File menu to restart the print job.• In Mac OS, restart the print job as follows.<ol style="list-style-type: none">1. Click Print & Scan (or Print & Fax).2. Select the printer, and then Resume Printer (or Resume) in the Printers menu to restart the print job.

The printer does not respond even if print jobs are sent

Cause	Corrective Action
In the Control Panel menu, Pause Print is On .	Set Pause Print to Off . (See "Pausing Printing.") ➔ P.29

Ink Filling.. is displayed

Cause	Corrective Action
The printer was forced off during operation.	Wait until the system has been filled with ink.

The display screen indicates Agitating...

Cause	Corrective Action
Ink agitation is in progress.	Please wait until ink agitation is finished. The time for agitation varies depending on how long the printer has been off. (Between about 30 seconds and two minutes.)

The printer stops during a print job

An error message is shown on the Display Screen	620
The printer ejects blank, unprinted paper	620

An error message is shown on the Display Screen

Cause	Corrective Action
The last portion of roll paper was used during a print job, and paper could not be advanced because the trailing edge is taped to the roll.	Remove the used roll and insert a new roll. (See "Removing the Roll from the Printer.") →P.370 (See "Removing Rolls From the Roll Holder.") →P.372 (See "Loading and Printing on Rolls.") →P.18

The printer ejects blank, unprinted paper

Cause	Corrective Action
The leading edge of the roll paper was cut to straighten it.	The leading edge of rolls may be cut to straighten it if Trim Edge First is set to a value other than Off in the Control Panel menu. (See "Cutting the Leading Edge of Roll Paper Automatically.") →P.382
The Printhead nozzles are clogged.	Print a test pattern to check the nozzles and make sure the Printhead is in good condition for printing. (See "Checking for Nozzle Clogging.") →P.576
A print job was received from an incompatible printer driver.	Use the correct imagePROGRAF printer driver for the printer and try printing again.
The printer is damaged.	Contact your Canon dealer for assistance.

Problems with the printing quality

Printing is faint	621
Paper rubs against the printhead	622
The edges of the paper are dirty	623
The surface of the paper is dirty	623
The back side of the paper is dirty	623
Immediately after borderless printing, the trailing edge margin is soiled during regular printing	624
Printed colors are inaccurate	624
Banding in different colors occurs	624
Colors in printed images are uneven	625
Image edges are blurred or white banding occurs	626
Setting the Blue Switch on the Platen	626
The contrast becomes uneven during printing	629
The length of printed images is inaccurate in the feeding direction	629
Images are printed crooked	629
Documents are printed in monochrome	629
Line thickness is not uniform	629
Lines or colors are misaligned	630
Borders appear in borderless printing	630

Printing is faint

Cause	Corrective Action
You may be printing on the wrong side of the paper.	Print on the printing surface.
The Printhead nozzles are clogged.	<p>Print a test pattern to check the nozzles and see if they are clogged. (See "Checking for Nozzle Clogging.") →P.576</p> <p>To check for nozzles after printing, set Frequency in Nozzle Check in the Control Panel menu to a setting other than Off. Furthermore, to have a warning displayed depending on the result of the nozzle check, set Warning in Nozzle Check in the Control Panel menu to On. Note that when Warning is set to On, printing may stop depending on the content of the warning. (See "Menu Settings.") →P.474</p>
Because the printer was left without ink tanks installed for some time, ink has become clogged in the ink supply system.	After the ink tanks have been installed for 24 hours, run Head Cleaning B from the Control Panel. (See "Cleaning the Printhead.") →P.577
Paper is jammed inside the Top Cover.	<p>Follow the steps below to remove the jammed piece of paper inside the Top Cover.</p> <ol style="list-style-type: none"> 1. Open the Top Cover and make sure the Carriage is not over the Platen. 2. Remove any scraps of paper inside the Top Cover. (See "Clearing Jammed Roll Paper.") →P.611 (See "Clearing a Jammed Sheet, Fed Manually.") →P.614 3. Close the Top Cover.
The ink was not dry when paper was cut.	Specify a longer drying period in the Control Panel menu, in Paper Details > Roll DryingTime . (See "Menu Settings.") →P.474

Cause	Corrective Action
Printing may be faint if Print Quality in Advanced Settings in the printer driver is set to Standard or Fast .	In Advanced Settings of the printer driver, choose Highest quality or High in Print Quality . Printing in Fast or Standard mode is faster and consumes less ink than in Highest quality or High modes, but the printing quality is lower. (See "Giving Priority to Particular Graphic Elements and Colors for Printing.") →P.47
You are printing on paper that tends to generate dust when cut.	In the Control Panel menu, set CutDustReduct. in Paper Details to On . (See "Reducing Dust from Cutting Rolls.") →P.384

Paper rubs against the printhead

Cause	Corrective Action
The type of paper specified in the printer driver does not match the type loaded in the printer.	Load paper of the same type as you have specified in the printer driver. (See "Loading Rolls in the Printer.") →P.365 (See "Loading Sheets in the Feed Slot.") →P.388 Make sure the same type of paper is specified in the printer driver as you have loaded in the printer. 1. Press the Stop button and stop printing. 2. Change the type of paper in the printer driver and try printing again.
Paper has been loaded incorrectly, causing it to wrinkle.	Reload the paper. (See "Loading Rolls in the Printer.") →P.365 (See "Loading Sheets in the Feed Slot.") →P.388
The Printhead is set too low in the Control Panel menu.	In the Control Panel menu, set Head Height to Automatic . (See "Troubleshooting Paper Abrasion and Blurry Images.") →P.556
You are printing on heavyweight paper or paper that curls or wrinkles easily after absorbing ink.	For paper-based media such as Heavyweight Coated Paper, set the VacuumStrngth to Strong or Strongest in the Control Panel menu. If the paper still rubs against the printhead, set the Head Height in the Control Panel menu to a higher value than the current setting. (See "Adjusting the Vacuum Strength.") →P.565 (See "Troubleshooting Paper Abrasion and Blurry Images.") →P.556 For film-based media such as Tracing Paper, set the VacuumStrngth to Standard , Strong or Strongest in the Control Panel menu. If the paper still rubs against the printhead, set the Head Height in the Control Panel menu to a higher value than the current setting. (See "Adjusting the Vacuum Strength.") →P.565 (See "Troubleshooting Paper Abrasion and Blurry Images.") →P.556 When printing on paper 0.1 mm (0.004 in) thick or less, choose a VacuumStrngth setting of Weakest in the Control Panel menu. If rubbing still occurs, in the Control Panel menu, use a higher Head Height setting. (See "Adjusting the Vacuum Strength.") →P.565 (See "Troubleshooting Paper Abrasion and Blurry Images.") →P.556 If edges of the paper curl and become soiled when printing on rolls of glossy photo paper, in Paper Detailed Settings in the printer driver, set Near End Margin to 20mm .
When you have loaded paper, the paper you have loaded does not match the type selected on the Control Panel.	Be sure to select the correct type of paper in the Control Panel menu when loading paper. (See "Loading Rolls in the Printer.") →P.365 (See "Loading Sheets in the Feed Slot.") →P.388
Since the leading edge of the paper curls strongly or ripples, the leading edge of the paper rubs against the printhead.	Set Cutting Mode to Manual on the Control Panel menu, and select Do not perform for the paper leading edge detection setting. (See "Specifying the Cutting Method for Rolls.") →P.376 (See "Keeping Track of the Amount of Roll Paper Left.") →P.373

The edges of the paper are dirty

Cause	Corrective Action
The Platen has become dirty after borderless printing or printing on small paper.	Open the Top Cover and clean the Platen. (See "Cleaning Inside the Top Cover.") →P.592
The type of paper as specified on the printer does not match the type specified in the printer driver.	Make sure the same type of paper is specified on the printer as in the printer driver. (See "Changing the Type of Paper.") →P.368 Make sure the same paper type is specified in the printer driver as on the printer. 1. Press the Stop button and stop printing. 2. Change the type of paper in the printer driver and try printing again.
The paper is wrinkled or warped.	Straighten out the wrinkles or curls and reload the paper. Do not use paper that has been printed on previously. (See "Loading Rolls in the Printer.") →P.365 (See "Loading Sheets in the Feed Slot.") →P.388
A cut line is printed because CutDustReduct. is On in the Control Panel menu to reduce cutting dust.	If this function is not needed, set CutDustReduct. to Off in the Control Panel menu. (See "Menu Settings.") →P.474
The Printhead is set too low in the Control Panel menu.	In the Control Panel menu, set Head Height to Automatic . (See "Troubleshooting Paper Abrasion and Blurry Images.") →P.556
You are printing on heavyweight paper or paper that curls or wrinkles easily after absorbing ink.	For paper-based media such as Heavyweight Coated Paper, set the VacuumStrngth to Strong or Strongest in the Control Panel menu. If the paper still rubs against the printhead, set the Head Height in the Control Panel menu to a higher value than the current setting. (See "Adjusting the Vacuum Strength.") →P.565 (See "Troubleshooting Paper Abrasion and Blurry Images.") →P.556 For film-based media such as Tracing Paper, set the VacuumStrngth to Standard , Strong or Strongest in the Control Panel menu. If the paper still rubs against the printhead, set the Head Height in the Control Panel menu to a higher value than the current setting. (See "Adjusting the Vacuum Strength.") →P.565 (See "Troubleshooting Paper Abrasion and Blurry Images.") →P.556
The Ejection Guide is soiled.	Clean the Ejection Guide. (See "Cleaning the Printer Exterior.") →P.592

The surface of the paper is dirty

Cause	Corrective Action
The Paper Retainer is soiled.	Clean the Paper Retainer. (See "Cleaning Inside the Top Cover.") →P.592
You are using a paper that does not dry easily.	In the Control Panel menu, set Roll DryingTime to at least 1 min. (See "Menu Settings.") →P.474 When paper that does not dry easily is used for printing, it may curl during printing and touch the Output Tray. In this case, in the Control Panel menu, complete the settings for Dry time and Area in Scan Wait Time . However, note that printing will now take longer. (See "Menu Settings.") →P.474

The back side of the paper is dirty

Cause	Corrective Action
The Platen has become dirty after borderless printing or printing on small paper.	Open the Top Cover and clean the Platen. (See "Cleaning Inside the Top Cover.") →P.592
The Platen suction is too strong.	In the Control Panel menu, reduce the level of VacuumStrngth .

Cause	Corrective Action
The Platen suction is too strong.	(See "Adjusting the Vacuum Strength.") →P.565
BordlessOversize is set to Standard in the Control Panel menu.	Set BordlessOversize to Little in the Control Panel menu. (See "Menu Settings.") →P.474

Immediately after borderless printing, the trailing edge margin is soiled during regular printing

Cause	Corrective Action
Depending on your printing environment, after borderless printing in which the leading and trailing edge of the roll is cut automatically, any ink adhering to the cutter unit may rub off on the next printed document.	Follow these steps to change the Between Pages setting of Drying Time to a value between about 30 seconds and 3 minutes before trying borderless printing again. <ol style="list-style-type: none"> On the Main sheet of the printer driver, click Advanced Settings by Media Type. Select an ink drying time in the list for the Between Pages setting of Drying Time.

Printed colors are inaccurate

Cause	Corrective Action
Color adjustment has not been activated in the Advanced Settings of the printer driver.	In the Advanced Settings of the printer driver, access Color Settings in Color Mode to adjust colors. (See "Main Sheet (Windows).") →P.160 (See "Main Pane (Mac OS).") →P.273
Colors have not been adjusted on the computer or monitor.	Refer to the computer and monitor documentation to adjust the colors. Adjust the settings of the color management software, referring to the software documentation as needed.
The Printhead nozzles are clogged.	Print a test pattern to check the nozzles and see if they are clogged. (See "Checking for Nozzle Clogging.") →P.576
In the Windows printer driver, Application Color Matching Priority is not selected.	Click Special Settings on the Layout sheet of the printer driver and select Application Color Matching Priority in the dialog box. (See "Layout Sheet (Windows).") →P.174
Color may change slightly even on the same model of printer if you use a different version of the firmware or printer driver, or when you print under different settings or in a different printing environment.	Follow these steps to prepare the printing environment. <ol style="list-style-type: none"> Use the same version of firmware or printer driver. (See "Updating the Firmware.") →P.607 Specify the same value for all settings items.

Banding in different colors occurs

Cause	Corrective Action
The paper feed amount is out of adjustment.	Adjust the feed amount. (See "Adjusting the Feed Amount.") →P.558 If printed sheets are affected by banding in different colors by the trailing edge (about 20–30 mm (0.8–1.2 in) from the edge), try adjusting the feed amount of the trailing edge of sheets. (See "Adjusting Color on the Trailing Edge of Sheets.") →P.564
Printing does not proceed smoothly because print jobs are interrupted during transmission.	Exit other applications and cancel other print jobs.
In the Control Panel menu, Adj. Priority is set to Print Length .	Setting Adj. Priority to Print Quality in the Control Panel menu and adjusting the feed amount may improve results. (See "Adjusting the Feed Amount.") →P.558
The Printhead is out of alignment.	Adjust the Printhead alignment.

Cause	Corrective Action
The Printhead is out of alignment.	(See "Automatic Adjustment to Straighten Lines and Colors.") →P.552
The Printhead nozzles are clogged.	<p>Print a test pattern to check the nozzles and see if they are clogged. (See "Checking for Nozzle Clogging.") →P.576</p> <p>To check for nozzles after printing, set Frequency in Nozzle Check in the Control Panel menu to a setting other than Off. Furthermore, to have a warning displayed depending on the result of the nozzle check, set Warning in Nozzle Check in the Control Panel menu to On. Note that when Warning is set to On, printing may stop depending on the content of the warning. (See "Menu Settings.") →P.474</p>
Streaks may occur if you set the Print Quality too low.	<p>Choose a higher level of Print Quality in the Advanced Settings of the printer driver and try printing again. Printing in Fast or Standard mode is faster and consumes less ink than in Highest quality or High modes, but the printing quality is lower. (See "Giving Priority to Particular Graphic Elements and Colors for Printing.") →P.47</p>
The type of paper specified in the printer driver does not match the type loaded in the printer.	<p>Load paper of the same type as you have specified in the printer driver. (See "Loading Rolls in the Printer.") →P.365 (See "Loading Sheets in the Feed Slot.") →P.388</p> <p>Make sure the same type of paper is specified in the printer driver as you have loaded in the printer.</p> <ol style="list-style-type: none"> 1. Press the Stop button and stop printing. 2. Change the type of paper in the printer driver and try printing again.

Colors in printed images are uneven

Cause	Corrective Action
Line Drawing/Text is selected when printing images in many solid colors.	In Print Priority in the Advanced Settings of the printer driver, choose Image .
You are printing on paper that curls easily.	<p>Printed colors may appear uneven on the leading edge of paper that is susceptible to curling. Select a stronger level in Vacuum Strength in the Control Panel menu to increase suction against the paper, or specify a leading margin of 20 mm (0.79 in) or more. (See "Adjusting the Vacuum Strength.") →P.565</p>
Printed colors may be uneven if you set the Print Quality too low.	<p>Choose a higher level of Print Quality in the Advanced Settings of the printer driver. Printing in Fast or Standard mode is faster and consumes less ink than in Highest quality or High modes, but the printing quality is lower. (See "Giving Priority to Particular Graphic Elements and Colors for Printing.") →P.47</p>
Color may be uneven between dark and light image areas.	Select Unidirectional Printing in the Advanced Settings of the printer driver.
When borderless printing is used, the edge of the paper is cut during printing. Thus, ink density may be slightly uneven at the leading edges.	<p>Specify No in Automatic Cutting in the printer driver before printing. In this case, the paper can be printed without borders on the left and right sides only. Cut the printed document ejected from the printer, and then use scissors or a cutting tool to cut away the edges on the top and bottom.</p> <p>Choose a higher level of Print Quality in the Advanced Settings of the printer driver. (See "Giving Priority to Particular Graphic Elements and Colors for Printing.") →P.47</p>
The Printhead is out of alignment.	<p>Adjust the Printhead alignment. (See "Automatic Adjustment to Straighten Lines and Colors.") →P.552</p>
Allowing printed documents to dry on top of each other may cause uneven colors.	To avoid uneven colors, we recommend drying each sheet separately.
Density may be uneven if you use Glossy Paper or Coated Paper.	In Advanced Settings of the printer driver, choose Highest quality or High in Print Quality .

Cause	Corrective Action
The type of paper specified in the printer driver does not match the type loaded in the printer.	Load paper of the same type as you have specified in the printer driver. (See "Loading Rolls in the Printer.") → P.365 (See "Loading Sheets in the Feed Slot.") → P.388
	Make sure the same type of paper is specified in the printer driver as you have loaded in the printer. 1. Press the Stop button and stop printing. 2. Change the type of paper in the printer driver and try printing again.
Scan Wait Time > Area in the Control Panel menu is set to Leading edge .	When Scan Wait Time > Area is set to Leading edge , colors may be uneven 110–140 mm from the leading edge. (The position varies depending on the Print Quality setting.) In this case, select Scan Wait Time > Area > Entire area . However, note that printing will now take longer. (See "Menu Settings.") → P.474

Image edges are blurred or white banding occurs

Cause	Corrective Action
The Platen suction is too strong.	In the Control Panel menu, reduce the level of VacuumStrngth . (See "Adjusting the Vacuum Strength.") → P.565
	Close the blue Switch on the platen so that it matches the paper size. (See "Setting the Blue Switch on the Platen.") → P.626
Incorrect Printhead alignment value.	In the Control Panel menu, set Head Height to a lower height. (See "Troubleshooting Paper Abrasion and Blurry Images.") → P.556
The type of paper specified in the printer driver does not match the type loaded in the printer.	Load paper of the same type as you have specified in the printer driver. (See "Loading Rolls in the Printer.") → P.365 (See "Loading Sheets in the Feed Slot.") → P.388
	Make sure the same type of paper is specified in the printer driver as you have loaded in the printer. 1. Press the Stop button and stop printing. 2. Change the type of paper in the printer driver and try printing again.

Setting the Blue Switch on the Platen

If printed documents exhibit the following symptoms, adjust the setting of the blue Switch on the Platen.

- Image edges are blurred
- Image edges are affected by white banding

Important

- Always set all of the blue Switches on the Platen to the ● side for borderless printing. If the Switch are not set correctly, the print quality may deteriorate.

1 Remove any loaded paper that will not be used.

- Rolls (See "Removing the Roll from the Printer.") → P.370
- Sheet (See "Removing Sheets.") → P.390

2 Open the Top Cover.**3** Remove the Cleaning Brush (a).**4** Using the back of the Cleaning Brush, move the first Switch to the side opposite ●.

5 Refer to the following table to confirm the number on the Platen (a) that corresponds to the size of paper for printing.

Number	Dimensions	Paper Size
2	254 mm (10 in) or 257 mm	10"x12" / 10"x15" / 8"x10" / JIS B4
3	355 mm (14 in)	14"x17" / Legal (8.5"x14")
4	406 mm (16 in), 420 mm, or 432 mm (17 in)	16"x20" / 12"x16" / ISO A2 / ISO A3 / ISO A2+ / 17"x22"(ANSI C) / 14"x17"
5	515 mm (20 in)	JIS B2 / 20"x30" / JIS B3
6	610 mm (24 in)	ISO A1 / ISO A2 / 24"x36" (ARCH D) / 20"x24" / 18"x24" (ARCH C)

6 Using the back of the Cleaning Brush, move the Switch to the side opposite ●, corresponding to the size of the paper for printing.
In this case, note that you will move the switch in the opposite direction from the direction in step 4.

- The Switch only moves number 1 and the number that matches the paper size. Set all of the switches where the number does not match the paper size in switches number 2 and higher to the ● side.

7 Close the Top Cover.

The contrast becomes uneven during printing

Cause	Corrective Action
The paper feed amount is out of adjustment.	Adjust the feed amount. (See "Adjusting the Feed Amount.") → P.558
The type of paper specified in the printer driver does not match the type loaded in the printer.	Load paper of the same type as you have specified in the printer driver. (See "Loading Rolls in the Printer.") → P.365 (See "Loading Sheets in the Feed Slot.") → P.388 Make sure the same type of paper is specified in the printer driver as you have loaded in the printer. 1. Press the Stop button and stop printing. 2. Change the type of paper in the printer driver and try printing again.

The length of printed images is inaccurate in the feeding direction

Cause	Corrective Action
In the Control Panel menu, Adj. Priority is set to Print Quality .	Set Adj. Priority to Print Length in the Control Panel menu, and then execute Adjust Length . (See "Adjusting the Feed Amount.") → P.558
The type of paper specified in the printer driver does not match the type loaded in the printer.	Load paper of the same type as you have specified in the printer driver. (See "Loading Rolls in the Printer.") → P.365 (See "Loading Sheets in the Feed Slot.") → P.388 Make sure the same type of paper is specified in the printer driver as you have loaded in the printer. 1. Press the Stop button and stop printing. 2. Change the type of paper in the printer driver and try printing again.

Images are printed crooked

Cause	Corrective Action
In the Control Panel menu, Skew Check Lv. is set to Loose or Off .	In the Control Panel menu, set Skew Check Lv. to High Accuracy or Standard .
Roll paper is loaded askew.	If there is a gap between the roll paper and roll holder, reload the roll. (See "Loading Rolls on the Roll Holder.") → P.363 (See "Loading Rolls in the Printer.") → P.365

Documents are printed in monochrome

Cause	Corrective Action
Monochrome is set in Color Mode in the Advanced Settings of the printer driver.	In the Advanced Settings of the printer driver, specify Color in Color Mode and try printing again.
The Printhead nozzles are clogged.	Print a test pattern to check the color ink nozzles and see if they are clogged. (See "Checking for Nozzle Clogging.") → P.576

Line thickness is not uniform

Cause	Corrective Action
In the Special Settings dialog box of the Windows printer driver, Fast Graphic Process is selected.	Access the printer driver Properties dialog box from Print in the File menu of the source application, and follow these steps to print. 1. Clear the option Open Preview When Print Job Starts on the Main sheet. 2. Clear the option Page Layout on the Layout sheet.

Cause	Corrective Action
In the Special Settings dialog box of the Windows printer driver, Fast Graphic Process is selected.	3. Click the Special Settings button on the Layout sheet to display the Special Settings dialog box, and then clear the option Fast Graphic Process .
The blue Switch on the platen is set incorrectly.	Move the Switch numbered corresponding to the size of paper for printing opposite to the • position. (See "Setting the Blue Switch on the Platen.") →P.626
The type of paper specified in the printer driver does not match the type loaded in the printer.	Load paper of the same type as you have specified in the printer driver. (See "Loading Rolls in the Printer.") →P.365 (See "Loading Sheets in the Feed Slot.") →P.388
	Make sure the same type of paper is specified in the printer driver as you have loaded in the printer. 1. Press the Stop button and stop printing. 2. Change the type of paper in the printer driver and try printing again.
Incorrect Printhead alignment value.	In the Control Panel menu, use a lower Head Height setting. (See "Troubleshooting Paper Abrasion and Blurry Images.") →P.556

Lines or colors are misaligned

Cause	Corrective Action
The Printhead is not being aligned correctly.	Adjust the Printhead alignment. (See "Automatic Adjustment to Straighten Lines and Colors.") →P.552 (See "Manual Adjustment to Straighten Lines and Colors.") →P.554
	In the Control Panel menu, use a lower Head Height setting. (See "Troubleshooting Paper Abrasion and Blurry Images.") →P.556
The type of paper specified in the printer driver does not match the type loaded in the printer.	Load paper of the same type as you have specified in the printer driver. (See "Loading Rolls in the Printer.") →P.365 (See "Loading Sheets in the Feed Slot.") →P.388
	Make sure the same type of paper is specified in the printer driver as you have loaded in the printer. 1. Press the Stop button and stop printing. 2. Change the type of paper in the printer driver and try printing again.

Borders appear in borderless printing

Cause	Corrective Action
When executing borderless printing on A1 (594 mm) or A2 (420 mm) rolls, the Spacer for Borderless Printing was not attached to the Roll Holder.	For borderless printing on A1 (594 mm) or A2 (420 mm) rolls, attach the included Spacer for Borderless Printing to the Roll Holder. (See "Loading Rolls on the Roll Holder.") →P.363
The paper selected for borderless printing at actual size was wider than the actual page size.	For borderless printing at actual size, use roll paper that has the same width as the actual page size. (See "Borderless Printing at Actual Size.") →P.70
The printing image data has margins.	Check that the printing image data does not have any objects like crop marks and transparent objects.
Margins are configured in the application software you are using.	Check that no margins are configured in the application software you are using.
BorderlessOversize is set to Little in the Control Panel menu.	Set BorderlessOversize to Standard in the Control Panel menu. (See "Menu Settings.") →P.474

Cannot print over a network

Cannot connect the printer to the network	631
Cannot print over a TCP/IP network	631
Cannot print over a NetWare network	631
Cannot print over AppleTalk or Bonjour networks	632

Cannot connect the printer to the network

Cause	Corrective Action
The Ethernet cable is not connected correctly to the printer's Ethernet port.	<ol style="list-style-type: none"> 1. Make sure the printer is connected to the network with the correct Ethernet cable, and then turn the printer on. For instructions on connecting the cable, refer to the Setup Guide. 2. Make sure the Link indicator is lit. The Link indicator is green if the printer is connected via 100 Base-TX and orange if connected via 10Base-T. If the Link indicator is not lit, check the following points. <ul style="list-style-type: none"> • Make sure the hub is on. • Make sure the end of the Ethernet cable is connected correctly. Insert the Ethernet cable until it clicks and locks in place. • Make sure there is no problem with the Ethernet cable. If there is any problem, replace the Ethernet cable. • Check the communication mode with the hub. Although the printer normally detects the hub communication mode and transmission rate automatically (in auto negotiation mode), sometimes the hub settings cannot be detected. In this case, configure the connection method manually, specifying the communication mode in use. (See "Configuring the Communication Mode Manually.") →P.525

Cannot print over a TCP/IP network

Cause	Corrective Action
The printer's IP address is not configured correctly.	Make sure the printer's IP address is configured correctly. (See "Configuring the IP Address Using imagePROGRAF Device Setup Utility.") →P.527 (See "Configuring the IP Address Using the Printer Control Panel.") →P.505
The printer's TCP/IP network settings are not configured correctly.	Make sure the printer's TCP/IP network settings are configured correctly. (See "Configuring the Printer's TCP/IP Network Settings With RemoteUI.") →P.509
The computer you are trying to print from is not configured correctly.	Make sure the computer's TCP/IP network settings are configured correctly. (See "Configuring the Printer Driver Destination (Windows).") →P.508 (See "Configuring the Destination in TCP/IP Networks (Mac OS).") →P.521

Cannot print over a NetWare network

Cause	Corrective Action
The printer's NetWare settings are not configured correctly.	Make sure the printer's NetWare settings are configured correctly. In particular, make sure a valid frame type is selected. (See "Configuring the Printer's NetWare Network Settings With RemoteUI.") →P.518
The computer you are trying to print from is not configured correctly.	Make sure the computer's NetWare settings are configured correctly. (See "Configuring NetWare Network Settings.") →P.513
The NetWare server and services are not configured correctly.	Check the following points. <ol style="list-style-type: none"> 1. Make sure the NetWare file server is running.

Cause	Corrective Action
The NetWare server and services are not configured correctly.	<div><div>2.</div>Make sure there is enough free disk space on the NetWare file server. Insufficient disk space may prevent you from processing large print jobs.</div> <div><div>3.</div>Start NWADMIN or PCONSOLE and confirm that the print service is configured correctly and the print queue is available.</div> <div><div>4.</div>If data transmission to a printer on another subnet fails, deactivate NCP burst mode in that printer's network protocol settings.</div> <div><div>5.</div>If the printer is used in queue server mode, specify Other/Unknown as the printer type.</div>

Cannot print over AppleTalk or Bonjour networks

Cause	Corrective Action
The AppleTalk protocol is not enabled on the printer.	Activate AppleTalk on the printer. (See "Configuring the Printer's AppleTalk Network Settings.") →P.523
The computer you are trying to print from is not configured correctly.	Make sure the computer's AppleTalk settings are configured correctly. (See "Configuring the Destination for AppleTalk Networks (Mac OS).") →P.521 (See "Configuring the Destination for Bonjour Network (Mac OS).") →P.521
The computer and printer are not on the same network.	Due to the nature of Bonjour, you cannot print if the printer is on another network behind a router. Make sure the computer and printer are on the same network. For information about network settings, ask your network administrator.

Installation problems

Removing Installed Printer Drivers

Follow these steps to remove installed printer drivers and utilities.

Removing printer drivers (Windows)

Remove the printer driver as follows.

- The following procedure is for Windows 7. The method of removing printer drivers varies depending on the version of Windows.

- 1 From the Windows **start** menu, select **All Programs > Canon Printer Uninstaller > imagePROGRAF Printer Driver Uninstaller** to display the **Delete Printer** window.
- 2 Select the printer in the list and click **Delete**.
- 3 Click **Yes** after the **Warning** message is displayed.
- 4 Make sure that the printer has been removed from the list, and then click **Exit**.

Removing imagePROGRAF Status Monitor (Windows)

Remove imagePROGRAF Status Monitor as follows.

- The following procedure is for Windows 7. The method of removing printer drivers varies depending on the version of Windows.

- 1 Select **Control Panel** from the **start** menu.
- 2 Select **Uninstall a program**.

 - If the **User Account Control** dialog box is displayed, click **Yes**.
- 3 Select **imagePROGRAF Status Monitor**, and then click the **Uninstall** button.

Removing imagePROGRAF Device Setup Utility (Windows)

Remove imagePROGRAF Device Setup Utility as follows.

- The following procedure is for Windows 7. The method of removing printer drivers varies depending on the version of Windows.

- 1 Select **Control Panel** from the **start** menu.
- 2 Select **Uninstall a program**.

 - If the **User Account Control** dialog box is displayed, click **Yes**.
- 3 Select **imagePROGRAF Device Setup Utility**, and then click the **Uninstall** button.

Other problems

The printer does not go on	634
If the Printer Makes a Strange Sound	634
Messages advising to check the maintenance cartridge are not cleared	634
The printer consumes a lot of ink	634
Ink Level Detection	635

The printer does not go on

Cause	Corrective Action
The printer is unplugged.	Plug the power cord into the outlet, and then turn on the printer.
The specified voltage is not supplied.	Check the voltage of the outlet and breaker. (See "Specifications.") → P.660

If the Printer Makes a Strange Sound

Cause	Corrective Action
The printer makes a sound during operation.	<p>The following sounds do not indicate a problem with the printer.</p> <ul style="list-style-type: none"> There is a sound of suction from the Platen. To prevent paper from rising, paper is held against the Platen by suction from Vacuum holes under it. Roll paper makes a fluttering sound during printing. There may be a fluttering sound when large paper is advanced. You suddenly hear the sound of cleaning operations. At regular intervals, for printer maintenance, cleaning operations will begin automatically, even if the printer is in Sleep mode. You suddenly hear the sound of ink agitation. At regular intervals, to ensure optimal printing quality, the ink is agitated automatically, even if the printer is in Sleep mode. The ink is also agitated automatically under the following conditions. Note that other operations are not possible while "Agitating..." is displayed on the control panel. <ul style="list-style-type: none"> After the printer is turned on After data transmission After ink tank replacement <p>In other cases, contact your Canon dealer.</p>

Messages advising to check the maintenance cartridge are not cleared

Cause	Corrective Action
The printer has not detected the new Maintenance Cartridge that was used to replace the old one.	Remove the new Maintenance Cartridge you have just installed and insert it again firmly. (See "Replacing the Maintenance Cartridge.") → P.585

The printer consumes a lot of ink

Cause	Corrective Action
Many full-page color images are printed.	In print jobs such as photos, images are filled with color. This consumes a lot of ink. This does not indicate a problem with the printer.

Cause	Corrective Action
Head Cleaning B in the Control Panel menu is executed frequently.	Head Cleaning B in the Control Panel menu consumes a lot of ink. This does not indicate a problem with the printer. Unless the printer has been moved or stored for a long period or you are troubleshooting Printhead problems, we recommend not performing Head Cleaning B , to the extent possible.
You have just finished initial installation, when more ink is consumed to fill the system.	After initial installation or at the first-time use after transfer, ink flows into the system between the Ink Tank and Printhead. Although the amount of remaining ink may drop as a result, it does not indicate a problem.
The Printhead nozzles are clogged.	Check for nozzle clogging. (See "Checking for Nozzle Clogging.") →P.576

Ink Level Detection

Ink level detection will be deactivated if you load ink tanks once emptied.

Ink level detection

Ink tanks specified for this printer feature an ink level detection function to prevent the ink from running out during printing, which prevents printer damage. (See "Ink Tanks.") →P.568
This function will not work correctly if you use refill ink tanks. As a result, printing stops. Thus, before using refill ink tanks, you must cancel the ink level detection.
Printing with the ink level detection canceled may lead to printer damage and printing problems. Canon Inc. is not liable for any damage that may occur as a result of refilling ink.

- After ink level detection has been released, this function cannot be reactivated for currently loaded Ink Tank. To use ink level detection again, replace the Ink Tank with new ones specified for use with the printer.
- Repeatedly removing and inserting an Ink Tank may damage the connection between the Ink Tank and the printer, which may cause ink leakage from the Ink Tank and damage the printer.

Releasing ink level detection

1 On the Display Screen, a message indicates that the ink level cannot be detected. After checking the message, press the ► button.

2 Press ▲ or ▼ to select **Information**, and then press the **OK** button.

3

A confirmation message is shown on the Display Screen about releasing ink level detection. After checking the message, press the ► button.

Tank once emptied
is used. Printing
stopped due to ink
level unknown.

**4**

After checking the message, press the ► button.

To continue, you
must release ink
level detection.

**5**

Press ▲ or ▼ to select **Yes**, and then press the **OK** button.

◀ Release?

No

Yes

6

Check the message and press the ► button.

Release ink level
detection after
confirming that ink
is in ink tank.

**7**

Check the message and press the ► button.

Canon is not liable
for damages due to
ink tank filling.

8 Press ▲ or ▼ to select **Yes**, and then press the **OK** button.

◀ Agree?
No
Yes

9 A confirmation message about updating ink information is shown on the Display Screen. After checking the message, press the ► button.

Release ink level detection. Perform after use of ink tank was registered?
►

10 Press ▲ or ▼ to select **Yes**, and then press the **OK** button.

Ink level detection is now released.

◀ Agree?
No
Yes

Paper mismatch

Cause	Corrective Action
You tried to print a test pattern for printer adjustment on several sheets, but sheets of different types or sizes of paper were used.	When printing a test pattern for adjustment, use sheets of the same size and type of paper, in the required quantity. Press ▲ or ▼ to select Change Paper , press the OK button, and replace the paper. (See "Loading and Printing on Sheets.") →P.21 The printer now starts printing the test pattern. Press ▲ or ▼ to select Stop Printing , and then press the OK button.

MediaType Mismatch

Cause	Corrective Action
When Detect Mismatch in the Control Panel menu is set to Pause , the type of paper loaded does not match the type specified in the printer driver.	Follow these steps to ensure the paper type matches on the printer and in the printer driver. 1. Press ▲ or ▼ to select Stop Printing , and then press the OK button. 2. Change the paper type setting in the printer driver to the type loaded in the printer and try printing again. Follow these steps to ensure the paper type matches on the printer and in the printer driver. 1. Press ▲ or ▼ to select Change Paper , and then press the OK button.

Cause	Corrective Action
When Detect Mismatch in the Control Panel menu is set to Pause , the type of paper loaded does not match the type specified in the printer driver.	<ol style="list-style-type: none"> 2. Replace the loaded paper with paper of the type and size you have specified in the printer driver. (See "Loading and Printing on Rolls.") →P.18 (See "Loading and Printing on Sheets.") →P.21 <p>Press ▲ or ▼ to select Print, and then press the OK button to resume printing. However, note that this error may cause paper jams and affect the printing quality.</p>
When Detect Mismatch in the Control Panel menu is set to Warning , the type of paper loaded does not match the type specified in the printer driver.	You can continue to print, but note that this error may cause paper jams or problems in the printing results.

The paper is too small.

Cause	Corrective Action
When Detect Mismatch in the Control Panel menu is set to Pause , paper smaller than the size specified in the printer driver is loaded.	<p>Press ▲ or ▼ to select Print, and then press the OK button to resume printing. However, note that this error may cause paper jams and affect the printing quality.</p> <p>Adjust the paper size setting in the printer driver to match the size loaded in the printer as follows.</p> <ol style="list-style-type: none"> 1. Press ▲ or ▼ to select Stop Printing, and then press the OK button. 2. Change the paper size setting in the printer driver to the size loaded in the printer and try printing again. <p>Replace the loaded paper with paper of a size that matches the size setting in the printer driver as follows.</p> <ol style="list-style-type: none"> 1. Press ▲ or ▼ to select Change Paper, and then press the OK button to stop printing. 2. Replace the loaded paper to match the settings in the printer driver and try printing again. (See "Loading and Printing on Rolls.") →P.18 (See "Loading and Printing on Sheets.") →P.21
When Detect Mismatch in the Control Panel menu is set to Warning , paper smaller than the size specified in the printer driver is loaded.	You can continue to print, but note that this error may cause problems in the printing results.

The paper is too small.

Cause	Corrective Action
A sheet has come out of the printer during printing.	<ol style="list-style-type: none"> 1. Press the OK button and remove the sheet. 2. Confirm the paper size and setting. 3. Reload the paper. (See "Loading Sheets in the Feed Slot.") →P.388
The loaded paper is too small. (When you have attempted to print a test print sheet or other printer status information.)	<p>Replace the roll with a roll 10 inches in width or larger as follows.</p> <ol style="list-style-type: none"> 1. Press ▲ or ▼ to select Change Paper, and then press the OK button. (See "Removing the Roll from the Printer.") →P.370 (See "Removing Rolls From the Roll Holder.") →P.372 2. Replace the roll with a roll 10 inches wide or larger. (See "Loading Rolls on the Roll Holder.") →P.363 (See "Loading Rolls in the Printer.") →P.365 The printer will resume printing. <p>Press ▲ or ▼ to select Stop Printing, and then press the OK button.</p>

PaprWidth Mismatch

Cause	Corrective Action
When Detect Mismatch in the Control Panel menu is set to Pause or Hold Job , the width of the loaded roll does not match the width specified in Fit Roll Paper Width in the printer driver.	Press ▲ or ▼ to select Print , and then press the OK button to resume printing. However, note that this error may cause paper jams and affect the printing quality.
	Press ▲ or ▼ to select Stop Printing , and then press the OK button.
	Follow these steps to replace the roll to match the width specified in the printer driver.
	1. Press ▲ or ▼ to select Change Paper , and then press the OK button. (See "Removing the Roll from the Printer.") →P.370 (See "Removing Rolls From the Roll Holder.") →P.372
	2. Replace with paper of the width configured in the printer driver. (See "Loading Rolls on the Roll Holder.") →P.363 (See "Loading Rolls in the Printer.") →P.365 The printer now starts printing the print job.
	Make sure the roll width selected in the dialog box displayed when you select Fit Roll Paper Width in the printer driver matches the width of the roll loaded in the printer, and then try printing again.

Paper size not detected.

Cause	Corrective Action
Paper has been loaded askew, or warped paper has been loaded.	Press the OK button and reload the paper. (See "Loading Rolls in the Printer.") →P.365 (See "Loading Sheets in the Feed Slot.") →P.388
	If this error recurs after you reload the roll, remove the Roll Holder from the printer, push the roll firmly in until it touches the Roll Holder flange, and reload the Roll Holder in the printer. (See "Loading Rolls on the Roll Holder.") →P.363

Insufficient paper for job

Cause	Corrective Action
<div>The printer has received a print job longer than the amount of roll paper left when ManageRemainRoll in the Control Panel menu is On.</div> <div></div>	Press ▲ or ▼ to select Print , and then press the OK button to resume printing. However, the roll paper may run out during the print job and you may not be able to print all of the document.
	Press ▲ or ▼ to select Change Paper , and then press the OK button. Change the Paper Source of the printer driver, or replace the roll with a roll that has enough paper for the print job, and then print. (See "Removing the Roll from the Printer.") →P.370 (See "Loading Rolls in the Printer.") →P.365
	Press ▲ or ▼ and select Stop Printing or press the Stop button to stop printing.

This paper cannot be used.

Cause	Corrective Action
Paper that is too small for the printer has been loaded.	Press the OK button and load paper of the correct size. (See "Paper Sizes.") →P.352
Paper has been loaded that is too small to print the test pattern for printhead adjustment or nozzle checking.	Press the OK button and load unused paper A4/Letter (vertical) or larger. More than one sheet may be required depending on the adjustment.

Roll printing is selected.

Cause	Corrective Action
You have attempted to print on a roll, but no roll is loaded.	Press ▲ or ▼ to select " Load Roll Paper ", and then press the OK button. Load the roll, and then print. (See "Loading Rolls on the Roll Holder.") →P.363 (See "Loading Rolls in the Printer.") →P.365
	Press ▲ or ▼ and select Stop Printing or press the Stop button to stop printing.

Roll printing is selected, but manual paper is loaded.

Cause	Corrective Action
A print job for rolls was received when a sheet is loaded.	Follow these steps to load and print on a roll. 1. Press ▲ or ▼ to select Eject Paper , press the OK button, and remove the sheet. (See "Removing Sheets.") →P.390 2. Load a new roll. (See "Loading Rolls in the Printer.") →P.365 The printer now starts printing the print job.
	Press ▲ or ▼ to select Stop Printing , and then press the OK button.

The roll is empty.

Cause	Corrective Action
The roll is empty.	Follow these steps to replace the used roll with a new roll of the same type and size. 1. Press the OK button and remove the roll. (See "Removing the Roll from the Printer.") →P.370 (See "Removing Rolls From the Roll Holder.") →P.372 2. Load the new roll. (See "Loading Rolls on the Roll Holder.") →P.363 (See "Loading Rolls in the Printer.") →P.365 3. If no barcode was printed on the roll, specify the type of paper. (See "Changing the Type of Paper.") →P.368 4. When you have selected ManageRemainRoll > On in the control panel menu and a barcode is not printed on the roll, also specify the paper length. (See "Specifying the Paper Length.") →P.369
There is remaining roll paper, but because it could not be advanced, it could not be detected.	The unused portion of the roll is heavy, and this is placing a burden on the printer. It may be helpful to change the printing mode, which will change the paper feed timing. Choose a higher level of Print Quality in the Advanced Settings of the printer driver. (See "Giving Priority to Particular Graphic Elements and Colors for Printing.") →P.47

Roll feed unit error.

Cause	Corrective Action
The Roll Feed Unit is not working.	Turn off the printer, remove the Roll Feed Unit momentarily, and then reinstall it. (See "Removing the Roll Feed Unit.") →P.385 (See "Installing the Roll Feed Unit.") →P.386 If the message is displayed again despite these measures, contact your Canon dealer for assistance.

No Roll Unit.

Cause	Corrective Action
The printer has received a print job, but the Roll Feed Unit is not installed.	Press the Stop button and stop printing. 1. Turn the printer off and install the Roll Feed Unit. 2. Turn the printer on and resend the print job.

Manual printing is selected.

Cause	Corrective Action
You have attempted to print on a sheet, but no sheet is loaded.	Press ▲ or ▼ to select Load Paper , and then press the OK button. Load a sheet, and then print. (See "Loading and Printing on Sheets.") →P.21 Press ▲ or ▼ and select Stop Printing or press the Stop button to stop printing.

Manual printing is selected, but a roll is loaded.

Cause	Corrective Action
A print job for printing on sheets was sent when a roll is loaded.	1. Press ▲ or ▼ to select Remove Roll Paper , and then press the OK button to stop printing. 2. After removing the roll, load and print on a sheet of the type and size of paper you have specified in the printer driver. (See "Removing the Roll from the Printer.") →P.370 (See "Loading and Printing on Sheets.") →P.21 Press ▲ or ▼ to select Stop Printing , and then press the OK button to stop printing.

Paper jam.

Cause	Corrective Action
A paper jam occurred in the printer during printing.	1. For roll paper, cut the paper on the upper side of the {Paper Feed Slot}. 2. Press the OK button. 3. Remove the jammed paper. (See "Clearing Jammed Paper (Paper Feed Slot).") →P.616 (See "Clearing Jammed Roll Paper.") →P.611 (See "Clearing a Jammed Sheet, Fed Manually.") →P.614 4. Load the paper. (See "Loading Rolls in the Printer.") →P.365 (See "Loading Sheets in the Feed Slot.") →P.388

Paper loaded askew.

Cause	Corrective Action
Paper loaded crooked was detected when the paper was advanced.	If Roll Paper is loaded, follow the procedure below. Press the OK button and reload the paper. (See "Loading Rolls in the Printer.") →P.365

Cause	Corrective Action
	<p>If paper is loaded from the Top Paper Feed Slot, follow the procedure below. Remove the paper. Next, use the procedure in Display Screen in Control Panel. (See "Loading Sheets in the Feed Slot.") →P.388</p>
	<p>If this error recurs after you reload the roll, remove the Roll Holder from the printer, push the roll firmly in until it touches the Roll Holder flange, and reload the Roll Holder in the printer. (See "Loading Rolls on the Roll Holder.") →P.363</p>

Important

- To disable this message (if it is displayed repeatedly despite reloading paper, for example), choose **Off** or **Loose** in the **Skew Check Lv.** setting of the printer menu. However, this may cause jams and printing problems because paper may be askew when printed. Also, the Platen may become soiled, which may soil the back of the next document when it is printed.

Paper not aligned with right guide.

Cause	Corrective Action
Skew Check Lv. on the Control Panel menu is set to something other than Off and the paper is not aligned with the guide on the right during loading.	<p>Reload the paper as follows.</p> <ol style="list-style-type: none"> 1. Press the OK button to clear the error. 2. Reload the paper. (See "Loading Rolls in the Printer.") →P.365 (See "Loading Sheets in the Feed Slot.") →P.388

Cannot detect paper

Cause	Corrective Action
The printer could not detect the paper.	<p>Reload the paper as follows.</p> <ol style="list-style-type: none"> 1. Remove the paper and press the OK button. 2. Reload the paper. (See "Loading Sheets in the Feed Slot.") →P.388 (See "Loading Rolls in the Printer.") →P.365

Cannot feed paper.

Cause	Corrective Action
Paper could not be advanced correctly during feeding.	<ol style="list-style-type: none"> 1. Press the OK button. 2. Remove the paper. (See "Clearing Jammed Roll Paper.") →P.611 (See "Clearing a Jammed Sheet, Fed Manually.") →P.614 3. Load the paper. (See "Loading Rolls in the Printer.") →P.365 (See "Loading Sheets in the Feed Slot.") →P.388
Paper could not be advanced correctly during ejection.	<ol style="list-style-type: none"> 1. Press the OK button. 2. Remove the paper. (See "Clearing Jammed Roll Paper.") →P.611

Cause	Corrective Action
Paper could not be advanced correctly during ejection.	(See "Clearing a Jammed Sheet, Fed Manually.") →P.614

Cannot cut paper.

Cause	Corrective Action
There are sheets left on the Ejection Guide.	<ol style="list-style-type: none"> 1. Press the OK button and remove the paper. 2. Load paper. (See "Loading Rolls in the Printer.") →P.365
There is a foreign object by the Output Tray, obstructing the Cutter Unit.	Lift the Top Cover and remove the foreign object.
You are not using the printer under the recommended environmental conditions for the paper.	Use the printer only where the recommended environmental conditions for the paper are met. Note that various environmental conditions are recommended for various types of paper. For details on the recommended environmental conditions, see the Paper Reference Guide . (See "Displaying the Paper Reference Guide.") →P.356
You are using paper that is not compatible with automatic cutting.	<ol style="list-style-type: none"> 1. Specify Manual as the cutting method and use scissors or a cutting tool to cut the roll. (See "Specifying the Cutting Method for Rolls.") →P.376 For information about paper that is compatible with automatic cutting, see the Paper Reference Guide. (See "Displaying the Paper Reference Guide.") →P.356 2. Press the OK button and remove the paper.
In other cases, the Cutter Unit may be damaged.	Contact your Canon dealer for assistance.

End of paper feed.

Cause	Corrective Action
Although an attempt was made to advance the paper manually, it reached the limit position that can be advanced.	Canceling manual advancing. (See "Feeding Roll Paper Manually.") →P.373

Borderless printing not possible.

Cause	Corrective Action
The print job received specifies a type or width of paper that is not compatible with borderless printing.	<p>Follow these steps to change the settings of the print job to enable borderless printing.</p> <ol style="list-style-type: none"> 1. Press ▲ or ▼ to select Stop Printing, and then press the OK button. 2. Make sure the correct printer driver for the printer is selected and try printing again. For information on types of paper compatible with borderless printing, refer to the Paper Reference Guide. (See "Displaying the Paper Reference Guide.") →P.356 <p>Press ▲ or ▼ to select Print With Border, and then press the OK button to continue printing. The document will be printed with a border.</p>
The loaded paper is a size not compatible with borderless printing.	<p>Press ▲ or ▼ to select Stop Printing, and then press the OK button.</p> <p>Replace the paper with paper compatible for borderless printing as follows.</p> <ol style="list-style-type: none"> 1. Press ▲ or ▼ to select Change Paper, and then press the OK button. (See "Removing the Roll from the Printer.") →P.370 (See "Removing Rolls From the Roll Holder.") →P.372 2. Replace the paper with paper compatible for borderless printing. (See "Loading Rolls on the Roll Holder.") →P.363 (See "Loading Rolls in the Printer.") →P.365 The printer now starts printing the print job. For information on types of paper compatible with borderless printing, refer to the Paper Reference Guide.

Cause	Corrective Action
The loaded paper is a size not compatible with borderless printing.	(See "Displaying the Paper Reference Guide.") →P.356
	Press ▲ or ▼ to select Print With Border , and then press the OK button to continue printing. The document will be printed with a border.
The paper is loaded askew.	Press ▲ or ▼ to select Change Paper and straighten the paper so that the edges are between the ink grooves for borderless printing. Insert the roll firmly until it touches the flange of the Roll Holder. For borderless printing on A1 (594 mm or 23.4 in) or A2 (420 mm or 16.5 in) rolls, attach the included Spacer for Borderless Printing to the Roll Holder. (See "Loading Rolls on the Roll Holder.") →P.363
	Select None when you have set Detect Mismatch in the Control Panel menu to Warning . However, note that this error may affect the printing quality.
	Press ▲ or ▼ to select Print With Border , and then press the OK button to continue printing. The document will be printed with a border.
	Press ▲ or ▼ and select Stop Printing or press the Stop button to stop printing.

Roll paper is not securely in contact with roll holder.

Cause	Corrective Action
Skew Check Lv. on the Control Panel menu is set to something other than Off and the roll paper is not placed securely in the Roll Holder during loading.	Follow these steps to reload the roll. 1. Press the OK button and remove the roll holder from the printer. 2. Insert the roll firmly on the Roll Holder until it touches the flange. (See "Loading Rolls on the Roll Holder.") →P.363 3. Load the Roll Holder in the printer.

Messages regarding ink

Ink insufficient.	650
No ink left.	650
Remaining level of the ink cannot be correctly detected. Check ink tank.	650
Cannot detect ink level correctly. Close tank cover.	650
Close Ink Tank Cover	651
Ink tank is empty.	651
Not much ink is left.	651
No ink tank loaded.	651
Check if ink tank is set, and its color and direction.	651
The following ink tanks cannot be recognized.	651
Do not pull out ink tank.	651

Ink insufficient.

Cause	Corrective Action
The ink level is low, so you cannot print, clean the Printhead, or do other operations that require ink. There is not enough ink of the color with ✕ displayed above the remaining ink indicator.	Press the OK button, open the Ink Tank Cover, and replace the Ink Tank for the color that does not have enough ink. (See "Replacing Ink Tanks.") →P.568

No ink left.

Cause	Corrective Action
There is no ink left. There are no ink colors with ✕ displayed above the remaining ink indicator.	Press the OK button, open the Ink Tank Cover, and replace the Ink Tank for the color that is out of ink. (See "Replacing Ink Tanks.") →P.568

Remaining level of the ink cannot be correctly detected. Check ink tank.

Cause	Corrective Action
Ink level detection cannot work correctly if you use refill ink tanks.	The refill ink tank can no longer be used. See the section Ink level detection and take the appropriate action. (See "Ink Level Detection.") →P.635

Cannot detect ink level correctly. Close tank cover.

Cause	Corrective Action
The remaining ink level could not be correctly detected.	Close the Ink Tank Cover. The buzzer stops sounding. Next, "No ink left." is displayed and see "No ink left." →P.650

Close Ink Tank Cover

Cause	Corrective Action
<p>The Ink Tank Cover is open.</p> 	<p>Close the Ink Tank Cover.</p>

Ink tank is empty.

Cause	Corrective Action
<p>There is no ink left in an ink tank. There are no ink colors with ✕ displayed above the remaining ink indicator in the Ink tab top screen. (See "Checking Ink Tank Levels.") → P.574</p>	<p>Open the Ink Tank Cover, and replace the Ink Tank for the color that is out of ink. (See "Replacing Ink Tanks.") → P.568</p>

Not much ink is left.

Cause	Corrective Action
<p>Not much ink is left.</p>	<p>Prepare a new Ink Tank. We recommend replacing the Ink Tank with a new Ink Tank at this point if you plan to print large-format or high-quantity jobs.</p>

No ink tank loaded.

Cause	Corrective Action
<p>There is no Ink Tank of the indicated color in the printer.</p>	<p>Load the Ink Tank. (See "Replacing Ink Tanks.") → P.568</p>

Check if ink tank is set, and its color and direction.

Cause	Corrective Action
<p>There is no Ink Tank of the indicated color in the printer.</p>	<p>Load the Ink Tank. (See "Replacing Ink Tanks.") → P.568</p>
<p>There is a problem with the Ink Tank.</p>	<p>Replace it with a new Ink Tank. (See "Replacing Ink Tanks.") → P.568</p>

The following ink tanks cannot be recognized.

Cause	Corrective Action
<p>An Ink Tank that is incompatible with the printer is loaded.</p>	<p>Load an Ink Tank that is compatible with the printer. (See "Replacing Ink Tanks.") → P.568</p>

Do not pull out ink tank.

Cause	Corrective Action
<p>The Ink Tank was removed using an incorrect procedure.</p>	<p>Install the Ink Tank that was removed. The buzzer stops sounding. Next, replace the Ink Tank using the procedure on the Display Screen in the Control Panel.</p>

Messages regarding printing or adjustment

Cannot print as specified.	652
Cannot adjust printhead.	654
Before borderless printing, move the blue platen switch.	652

Check printed document.	653

Cannot print as specified.

"Replace paper with A4/LTR (vertical) or larger"

Cause	Corrective Action
The loaded paper is too small. (When you have attempted to print a test print sheet or other printer status information.)	<p>Replace the paper with paper of A4/Letter (vertical) size or larger as follows.</p> <ol style="list-style-type: none"> 1. Press ▲ or ▼ to select Change Paper, press the OK button, and remove the paper. (See "Removing Sheets.") →P.390 2. Switch to paper A4/Letter (vertical) or larger. (See "Loading and Printing on Sheets.") →P.21 The printer will resume printing. <p>Press ▲ or ▼ to select Stop Printing, and then press the OK button.</p>

Before borderless printing, move the blue platen switch.

Cause	Corrective Action
The blue Switch on the platen was set to the side opposite ● when a borderless print job was received.	Before borderless printing, set the blue Switch on the platen to the ● side. (See "Setting the Blue Switch on the Platen.") →P.626

Blue platen switch is dirty.

Cause	Corrective Action
The blue Switch on the platen is dirty.	Open the Top Cover and clean the blue Switch on the platen. (See "Cleaning Inside the Top Cover.") →P.592

Move the blue platen switch No.xx to the right. (xx represents a number)

Cause	Corrective Action
The printer has detected that the blue Switch on the platen needed in maintenance during printing is set away from the ● mark.	Set blue platen Switch of the indicated number toward the ● side. (See "Setting the Blue Switch on the Platen.") →P.626

Cannot adjust paper feed.

Cause	Corrective Action
The Printhead nozzles are clogged.	<p>Execute Adj. Quality again, as follows.</p> <ol style="list-style-type: none"> 1. Press the OK button to clear the error. 2. Print a test pattern to check the nozzles. (See "Checking for Nozzle Clogging.") →P.576

Cause	Corrective Action
The Printhead nozzles are clogged.	<div>3. Clean the Printhead if the nozzles are clogged. (See "Cleaning the Printhead.") →P.577</div> <div>4. Execute Adj. Quality again. (See "Automatic Banding Adjustment.") →P.559</div>
Highly transparent film is loaded that cannot be used for automatic feed amount adjustment.	Press the OK button to clear the error, and then adjust the feed amount manually. (See "Manual Banding Adjustment.") →P.560

Check printed document.

Cause	Corrective Action
The Printhead nozzles are becoming clogged.	If printing is faint, clean the Printhead. (See "Cleaning the Printhead.") →P.577

Messages regarding printheads

Cannot adjust printhead.	654
Wrong printhead.	654
Printhead error.	654
Cannot recognize print head.	654
Execute printhead cleaning.	655

Cannot adjust printhead.

Cause	Corrective Action
The Printhead nozzles are clogged.	Execute Head Posi. Adj. again, as follows. <ol style="list-style-type: none"> 1. Press the OK button to clear the error. 2. Print a test pattern to check the nozzles. (See "Checking for Nozzle Clogging.") →P.576 3. Clean the Printhead if the nozzles are clogged. (See "Cleaning the Printhead.") →P.577 4. Execute Head Posi. Adj. again. (See "Automatic Adjustment to Straighten Lines and Colors.") →P.552
The Printhead cannot be aligned; highly transparent film is loaded.	Press the OK button to clear the error. We recommend using a type of paper that you often use, other than film, for Printhead adjustment. (See "Automatic Adjustment to Straighten Lines and Colors.") →P.552

Wrong printhead.

Cause	Corrective Action
An incompatible Printhead has been installed.	Open the Top Cover and replace the Printhead with a new one. (See "Replacing the Printhead.") →P.578

Printhead error.

Cause	Corrective Action
There is a problem with the Printhead.	Follow these steps to replace the Printhead. <ol style="list-style-type: none"> 1. Open the Top Cover. 2. Replace it with a new Printhead. (See "Replacing the Printhead.") →P.578 Follow these steps to replace the Printhead. <ol style="list-style-type: none"> 1. Turn off the printer, wait a while, and then turn it on again. 2. Open the Top Cover. 3. Replace it with a new Printhead. (See "Replacing the Printhead.") →P.578

Cannot recognize print head.

Cause	Corrective Action
No Printhead is installed.	Follow these steps to install the Printhead. <ol style="list-style-type: none"> 1. Open the Top Cover. 2. Install the Printhead. (See "Replacing the Printhead.") →P.578

Cause	Corrective Action
The Printhead cannot be recognized because it is not installed correctly.	Follow these steps to reinstall the Printhead. 1. Open the Top Cover. 2. Reinstall the Printhead. (See "Replacing the Printhead.") →P.578

Execute printhead cleaning.

Cause	Corrective Action
The Printhead nozzles are clogged.	Follow these steps to clean the Printhead. 1. Stop printing by pressing ▲ or ▼ to select Stop Printing . 2. Clean the Printhead. (See "Cleaning the Printhead.") →P.577 If the message is still displayed when printing, replace the Printhead. (See "Replacing the Printhead.") →P.578 Press ▲ or ▼ to select Print , and then press the OK button to resume printing. However, note that this error may affect the printing quality.

GARO Wxxxx (x represents a number)

Cause	Corrective Action
There is a problem with the print job.	Try printing again, using the correct printer driver.
	It is also possible to continue printing in this state. However, you may not be able to obtain the desired printing results.

ERROR Exxx-xxxx (x represents a letter or number)

Cause	Corrective Action
An error requiring service may have occurred. <div><div><div>! ERROR Exxx-xxxx</div><div>Call for service.</div><div>OK: Printer Info.</div></div></div>	Write down the error code and message, turn off the printer, and contact your Canon dealer for assistance.

Hardware error. xxxxxxxx-xxxx (x represents a letter or number)

Cause	Corrective Action
The last portion of roll paper was used during a print job. The paper was not advanced because the trailing edge is taped to the roll.	Turn off the printer and remove the roll from the printer before restoring power.
Fastening tape or the Belt Stopper has not been removed inside the Top Cover.	Turn off the printer, open the Top Cover and remove the tape or the Belt Stopper before restoring power.
An error requiring service may have occurred. <div><div><div>! Hardware error.</div><div>xxxxxxx-xxxx</div><div>Turn off printer, wait, then turn on again.</div><div>OK: Printer Info.</div></div></div>	Turn off the printer and wait at least three seconds before restoring the power. If the message is displayed again, write down the error code and message, turn off the printer, and contact your Canon dealer for assistance.

Prepare for parts replacement.

Cause	Corrective Action
It is almost time to replace consumables for which service is required.	If "Parts replacement time has passed." is displayed, you can continue to use the printer for some time. Contact your Canon dealer for assistance.

Parts replacement time has passed.

Cause	Corrective Action
It is past the recommended time to replace consumables for which service is required.	Contact your Canon dealer for assistance.

Unknown file.

Cause	Corrective Action
Data sent to keep the printer up to date (such as paper information) is in the wrong format.	Check the data. Turn off the printer and wait a while before restoring power, and then resend the data.
You have uploaded firmware for a different model.	Check the firmware version. Turn off the printer and wait a while before restoring power, and then resend the firmware. If the message is displayed again, contact your Canon dealer for assistance.

Multi-sensor error

Cause	Corrective Action
Direct sunlight or strong lighting may be shining on the printer and causing the sensor to malfunction.	Take steps to ensure the printer is not used when exposed to direct sunlight or strong lighting. Turn off the printer and wait at least three seconds before restoring the power.
The performance of a sensor inside the printer may be impaired.	Turn off the printer and wait at least three seconds before restoring the power. If the message is displayed again, contact your Canon dealer for assistance.

Printer Specifications

Specifications	660
Print Area	661

Specifications

Important

- The following values may vary depending on the operating environment.

Printer

Power supply		100–240 V AC (50/60 Hz)	
Power consumption	During operation	100 W max.	
	Sleep mode	5 W max.	
	Off	0.5 W max. (*1)	
Operating noise (*2)	Sound pressure level	During operation	Approx. 49 dB (A)
		Standby	35 dB (A) max.
	Audio power level (during operation)		Approx. 6.4 bels
Operating environment	Temperature	15–30°C (59–86°F)	
	Humidity	10–80%, non-condensing	
Dimensions (W × D × H)	Printer only	1,017×702×344 mm (40.0×27.6×13.5 in)	
	Printer and Stand (When the Output Stacker is not used)	1,017×751×991 mm (40.0×29.6×39.0 in)	
	Printer and Stand (When the Output Stacker is used)	1,017×870×991 mm (40.0×34.3×39.0 in)	
Weight (Not including printheads or ink tanks)	Printer only	Approx. 44 kg (97.0 lb)	
	Printer and Stand	Approx. 54 kg (119.0 lb)	
Space for installation (W × D × H)	Printer only	1,317×1,802×828 mm (51.9×70.9×32.6 in)	
	Printer and Stand	1,317×1,955×1,473 mm (51.9×77.0×58.0 in)	
Related standards	International Energy Star Program, Law on Promoting Green Purchasing/GPN (Japan), Eco Mark (Japan), RoHS		

*1: The printer uses a trace amount of power even when turned off. To stop all power consumption, turn off the printer and unplug the power cord.

*2: Calculation based on ISO 7779. Operating conditions: On the **Main** sheet of the printer driver, **Media Type > Canon Coated Paper, Advanced Settings > Print Priority > Image, and Print Quality > Standard**.

Printing performance

Print method	Bubblejet
Maximum resolution	2400 dpi horizontally (*1) × 1200 dpi vertically
Printhead	PF-05 ×1
Number of nozzles	2,560 per color

*1: Prints with a minimum 1/2400 inch dot pitch between ink droplets.

Memory

Memory	256 MB
--------	--------

Interface

Hi-Speed USB	Format	Internal port
	Mode	Full-speed (12 Mbps), high-speed (480 Mbps), bulk transfer
	Connector	Series B (4-pin)
Ethernet	Format	Internal port
	Specification	IEEE 802.3 10Base-T, IEEE 802.3u 100Base-TX/Auto-Negotiation, IEEE 802.3x Full Duplex
	Protocols	IPX/SPX (Netware 4.2, 5.1, 6.0), SNMP (Canon-MIB compatible), HTTP, TCP/IP (IPv4/IPv6), AppleTalk

Ink

For information on the ink the printer supports, see "Ink Tanks." →P.568

Paper

For information on the types of paper the printer supports, refer to the **Paper Reference Guide**. (See "Displaying the Paper Reference Guide.") →P.356

Paper width	For information on the paper widths the printer supports, see "Paper Sizes." →P.352		
Minimum paper length	Rolls		203.2 mm (8.0 in)
	Sheets	Top Paper Feed Slot	279.4 mm (11.0 in)
Maximum printable length (*1)	Rolls		18 m (19.7 yd)
	Sheets	Top Paper Feed Slot	1,600 mm (63.0 in)
Thickness	Rolls		0.07–0.8 mm (0.0028–0.031 in)
	Sheets	Top Paper Feed Slot	0.07–0.8 mm (0.0028–0.031 in)
Roll maximum outer diameter			150 mm (6 in) or shorter
Supported paper core inner diameter			2 inches / 3 inches
Print area	For details, see "Print Area." →P.661		

*1: Varies depending on the operating system or application.

Print Area

A margin required by the printer is added with respect to the size of paper loaded in the printer. Except in borderless printing, the actual printing area corresponds to the paper size minus the space for this margin.

	Printable Area			Recommended Print Area		
	Top Edge	Bottom Edge	Sides	Top Edge	Bottom Edge	Sides
Sheets	3 mm (0.12 in)	3 mm (0.12 in)	3 mm (0.12 in)	20 mm (0.79 in)	23 mm (0.91 in)	5 mm (0.20 in)
Rolls	0 or 3 mm (0 or 0.12 in)	0 or 3 mm (0 or 0.12 in)	0 or 3 mm (0 or 0.12 in)	20 mm (0.79 in)	5 mm (0.20 in)	5 mm (0.20 in)

Sheets

Printable Area

A margin of 3 mm (0.12 in) on top, 3 mm (0.12 in) on bottom, and 3 mm (0.12 in) on left and right sides is required.

Recommended Print Area

A margin of 20 mm (0.79 in) on top, 23 mm (0.91 in) on bottom, and 5 mm (0.20 in) on left and right sides is required.

Choosing a bottom margin of 3 mm (0.12 in) may distort images by the bottom edge. In this case, select **Paper Source > Manual** and specify a bottom margin of 23 mm (0.91 in).

- Printable area: The area that can be printed.
- Guaranteed Print Area: We recommend printing within this area.
- To print so that your original matches the print area exactly, use an oversized paper size that includes the required margin. (See "Printing on Oversize Paper.") →P.66
- You can choose a bottom margin of 3 mm or 23 mm. Specifying **Paper Source > Manual** in the printer driver leaves a bottom margin of 23 mm (0.91 in). On the other hand, choosing **Manual (3mm margins)** in **Paper Source** sets the bottom margin at 3 mm (0.12 in), which provides a larger area for printing.
- Types of paper are subject to change. For details on types of paper, see the **Paper Reference Guide**. (See "Types of Paper.") →P.352

Rolls

Printable Area

A margin of 3 mm (0.12 in) on all sides is required. During borderless printing, the margin on all sides is 0 mm. For information on paper compatible with borderless printing, see the **Paper Reference Guide**. (See "Types of Paper.") →P.352

Recommended Print Area

A margin of 20 mm (0.79 in) on top, 5 mm (0.20 in) on bottom, and 5 mm (0.20 in) on left and right sides is required.

Specifications
Printer Specifications

- Printable area: The area that can be printed.
- Guaranteed Print Area: We recommend printing within this area.
- To print so that your original matches the print area exactly, use an oversized paper size that includes the required margin. (See "**Printing on Oversize Paper.**") [→ P.66](#)

Safety Precautions

Safety Precautions	666
Legal Notices	668

Safety Precautions

Follow the warnings and precautions below to use the printer safely. Do not perform any operations or procedures other than as described in this manual. Doing so may result in unexpected accidents and can cause a fire or electrical shocks.

Printer location

Warning

- Do not set up the printer in any location exposed to alcohol, thinner, or other volatile liquids. If these substances come into contact with electrical components inside the printer, there is a risk of fire or electrical shock.

Caution

- Never install the printer on an unstable or vibrating surface. If it falls over, this could cause personal injury.
- Never set up the printer in a location that is exposed to high humidity or large amounts of dust, or exposed to direct sunlight, high temperature, or open flame. This could cause a fire or electrical shock. Use the printer location in an environment where temperature and humidity are within the ranges of 15 °C to 30 °C (59 °F to 86 °F) and 10 to 80% RH (with no condensation).
- Never place the printer on a heavy wool or shag carpet. The fibers may enter the printer and cause a fire.
- Keep the area around the power outlet clear of items so that you can disconnect the power cable immediately if the printer starts operating abnormally. In the event of a printer malfunction, remove the power cable from the outlet as soon as possible to prevent fire and electrical shocks.
- Do not install the printer near sources of strong electromagnetic fields, whether equipment that generates such fields or places where such fields occur. This could damage the printer or cause malfunction.

Power Supply

Warning

- Never handle the power cable with wet hands. Doing so may cause electrical shock.
- Insert the power cable securely and completely into the power source. If the power cable is not inserted completely, this could cause a fire or electrical shock.
- Do not use any power cable other than the one provided. This could cause a fire or electrical shock. Never use the power cable with any other electrical device.
- Never cut the power cable or attempt to modify it, and never stretch it or bend it forcefully. Never place a heavy object on the power cable. Damaged sections of the power cable could cause a short circuit and may cause a fire or electrical shock.
- Never connect the power cable to a power strip or any power source shared by other electrical devices. This could cause a fire or electrical shock.
- Never knot the power cable or wrap it around itself. This could cause a fire or electrical shock.
- Periodically disconnect the power cable and use a dry cloth to wipe away dust that has collected on the plug and the area around the power outlet. Leaving the power cable plugged in and not cleaned for a long period, especially in an area subject to dust, oil, and humidity, could cause the insulation material to deteriorate and lead to a fire.

Caution

- Always grip the plug to remove the power cable from the power outlet. Pulling on the power cable could damage the cable and lead to a fire or electrical shock.
- Never use an extension cord. This could cause a fire or electrical shock.
- Never use any power source other than 100–120 / 220–240 V AC. This could cause a fire or electrical shock. The printer operating conditions are described below. Use the printer under the following conditions.
Power supply voltage: 100–120 / 220–240 V AC
Power supply frequency: 50/60 Hz

In an Emergency

Warning

- If the printer emits smoke or strange odors, continuing to use the printer may cause a fire or electrical shock. Switch the printer off immediately and remove the power plug from the power outlet. Contact the nearest service center.

Cleaning the Printer

Warning

- For cleaning, use a cloth dampened in water. Never use flammable solvents such as alcohol, benzene, or thinner. If these substances come into contact with electrical components inside the printer, there is a risk of fire or electrical shock.

Caution

- Always disconnect the power cable from the outlet before cleaning the printer. If the printer is switched on accidentally, moving parts inside the printer may cause personal injuries.

Pacemakers

Warning

- This printer generates a low-level magnetic field. Anyone wearing a pacemaker who experiences discomfort while working around the printer should leave the area. Consult a physician before continuing to work around the printer.

Moving the Printer

Caution

- Moving the printer requires at least three people, holding it on both sides. Be careful to avoid back strain and other injuries.
- When carrying the printer, securely grasp the Carrying Handles on the left and right sides of the base. Holding the printer at other positions is dangerous and poses a risk of injury and damage if the printer is dropped.

Printhead, Ink Tanks, and Maintenance Cartridge

Caution

- Always store consumables in a safe location out of the reach of small children. If a child licks or ingests ink accidentally, seek medical assistance immediately.
- If ink accidentally gets in your eyes, immediately rinse with water.
If ink gets on your skin, immediately clean it off with soap and water.
If irritation persists in your eyes or on your skin, contact a physician immediately.
- Avoid dropping or shaking printheads, ink tanks, and maintenance cartridges. Spilled ink can stain clothing and the work area.
- Never touch the electrical contacts of the Printhead after printing. The contacts become extremely hot and can cause minor burns.

Other

Warning

- Never disassemble the printer or attempt repairs. There are high voltage parts inside the printer that can cause a fire or electrical shock.
- Never use flammable sprays around the printer. The gas of flammable sprays can cause a fire or electrical shock, if it contacts high voltage points inside the printer.
- Never touch the cutting edge of Cutter Unit (a). This could cause personal injury.

Caution

- Never insert your hand into the printer while it is printing. Moving parts inside the printer can cause injuries.
- Never place anything on the printer such as small metal objects (paper clips, staples), liquids, any type of liquid container that contains flammable liquids (alcohol, benzene, etc.). If such objects fall into the printer, this could cause a fire or electrical shock.
- To prevent a fire hazard or dangerous electric shock, if a foreign object falls into or a liquid spills into the printer, press the Power button immediately to switch the printer off, unplug the printer power cable from the outlet, and then call for service. If you continue to use the printer, this could cause a fire or electrical shock.

Important

- Connect the interface cable correctly. To avoid damage, before connection make sure that the shape of the cable connector matches the connection point on the printer.
- During printing, turn on the ventilation system in the room.
- We recommend ensuring ample space for installation.

Legal Notices

FCC Regulations (U.S.A)

Canon Large Format Printer	iPF6400SE
----------------------------	-----------

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Use of shielded cable is required to comply with Class B limits in Subpart B of Part 15 of FCC Rules. Do not make any changes or modifications to the equipment unless otherwise specified in the manual. If such changes or modifications should be made, you could be required to stop operation of the equipment. Canon U.S.A. Inc.
One Canon Park Melville, NY 11747 , U.S.A.
Tel No. 1-800-652-2666

For CA, USA Only

Included battery contains Perchlorate Material - special handling may apply.
See <http://www.dtsc.ca.gov/hazardouswaste/perchlorate/> for detail.

About This User Manual	670

Manuals for this printer

This printer has the following manuals.

Name	Contents	Medium
Setup Guide	Instructions for unpacking and setting up the printer, and for installing the software and electronic manuals.	Printed Manuals
Quick Guide	Contains information such as a guide to exchanging paper, Ink Tank, and Printhead, and cautions for using the product safely.	
Basic Guide	Descriptions of basic printer operations.	Electronic manuals
User's Guide	Detailed instructions for using the printer.	
Paper Reference Guide	This guide describes about the types and specifications of the available media on the printer.	

Setup Guide	Quick Guide	Basic Guide	User's Guide	Paper Reference Guide
				

About This User Manual

• Symbols

The following symbols are used in this user manual to indicate safety information and explanations on restrictions or precautions in use.

	Warning	Indicates warning items for which operating error poses a risk of death or serious injury. To ensure safe use, always follow these warnings.
	Caution	Indicates caution items for which operating error poses a risk of injury. To ensure safe use, always follow these cautions.
	Important	Indicates important information and restrictions that definitely are to be followed during operation. Be sure to read this information to prevent troubles, malfunctions, or damage to equipment or property by operating errors.
	Note	Indicates helpful reference information and supplemental information on particular topics.

• Button names and user interface elements

Key and button names on the control panel and user interface elements in software (such as menus and buttons) are indicated as follows in this user manual.

Control panel buttons	Example: Press the OK button.
Control panel messages	Example: Head Cleaning is displayed.
Software interface items	Example: Click OK .

(menus and buttons)	Example: Click OK .
Keyboard keys	Example: Press the Tab key.

• Cross-reference

Other pages or manuals that provide related information are indicated as follows in this user manual.

Cross-reference in the same user manual	Example: see "Menu Structure." →P.469 Click the link to jump to the corresponding page.
Cross-reference in related manuals	Example: Refer to the Paper Reference Guide.
Other cross-reference	Example: See the printer driver help.

• Figures and software screens

- Figures in this user manual may be different from the actual appearance of the printer in some cases.
- Screens depicted in this user manual for the printer driver or other software may be different from the actual screens because of subsequent updates.

• May we request

- The information in this user manual is subject to change without notice.
- We strive to ensure accuracy of information in this user manual, but if you notice errors or omissions, contact support center.

Disposal of the product

WEEE Directive

European Union (and EEA) only.

These symbols indicate that this product is not to be disposed of with your household waste, according to the WEEE Directive (2002/96/EC), the Battery Directive (2006/66/EC) and/or your national laws implementing those Directives. This product should be handed over to a designated collection point, e.g., on an authorized one-for-one basis when you buy a new similar product or to an authorized collection site for recycling waste electrical and electronic equipment (EEE) and batteries and accumulators. Improper handling of this type of waste could have a possible impact on the environment and human health due to potentially hazardous substances that are generally associated with EEE. Your cooperation in the correct disposal of this product will contribute to the effective usage of natural resources. For more information about the recycling of this product, please contact your local city office, waste authority, approved scheme or your household waste disposal service or visit www.canon-europe.com/environment.

(EEA: Norway, Iceland and Liechtenstein)

Uitsluitend bestemd voor de Europese Unie (en EER).

Met deze symbolen wordt aangegeven dat dit product in overeenstemming met de AEEA-richtlijn (2002/96/EC), de richtlijn 2006/66/EC betreffende batterijen en accu's en/of de plaatselijk geldende wetgeving waarin deze richtlijnen zijn geïmplementeerd, niet bij het normale huisvuil mag worden weggegooid. Dit product dient te worden ingeleverd bij een hiervoor aangewezen inzamelpunt, bijv. door dit in te leveren bij een hiertoe erkend verkooppunt bij aankoop van een gelijksoortig product, of bij een officiële inzameldienst voor de recycling van elektrische en elektronische apparatuur (EEA) en batterijen en accu's. Door de potentiële gevaarlijke stoffen die gewoonlijk gepaard gaan met EEA, kan onjuiste verwerking van dit type afval mogelijk nadelige gevolgen hebben voor het milieu en de menselijke gezondheid. Uw medewerking bij het op juiste wijze weggooien van dit product draagt bij tot effectief gebruik van natuurlijke bronnen. Voor verdere informatie over recycling van dit product kunt u contact opnemen met uw plaatselijke gemeente, afvaldienst, officiële dienst voor klein chemisch afval of afvalstortplaats, of kunt u terecht op www.canon-europe.com/environment.

(EER: Noorwegen, IJsland en Liechtenstein)

Endast för EU (och EEA).

De här symbolerna anger att produkten inte får slängas i hushållssoporna enligt WEEE-direktivet (2002/96/EG), batteridirektivet (2006/66/EG) och/eller nationell lagstiftning som implementerar dessa direktiv. Produkten ska lämnas in på en där för anvisad samlingsplats, t.ex. hos handlare som är auktoriserade att byta in varor då nya, liknande köps (en mot en) eller på en återvinningsstation auktoriserad att hantera elektrisk och elektronisk utrustning (EE-utrustning) samt batterier och ackumulatorer. Olämplig hantering av avfall av den här typen kan ha negativ inverkan på miljön och människors hälsa på grund av de potentiellt farliga ämnen som vanligen återfinns i elektrisk och elektronisk utrustning. Din medverkan till en korrekt avfallshantering av produkten bidrar till effektiv användning av naturresurserna. Om du vill ha mer information om var du kan lämna in den här produkten, kontakta ditt lokala kommunkontor, berörd myndighet eller företag för avfallshantering eller besök www.canon-europe.com/environment.

(EEA: Norge, Island och Liechtenstein)

Pouze Evropská unie (a EHP)

Tento symbol znamená, že podle směrnice o OEEZ (2002/96/ES), směrnice o bateriích (2006/66/ES) a/nebo podle vnitrostátních právních prováděcích předpisů k těmto směrnicím nemá být tento výrobek likvidován s odpadem z domácností. Tento výrobek má být vrácen do určeného sběrného místa, např. v rámci autorizovaného systému odběru jednoho výrobku za jeden nově prodaný podobný výrobek, nebo do autorizovaného sběrného místa pro recyklaci odpadních elektrických a elektronických zařízení (OEEZ) a baterií a akumulátorů. Nevhodné nakládání s tímto druhem odpadu by mohlo mít negativní dopad na životní prostředí a lidské zdraví, protože elektrická a elektronická zařízení zpravidla obsahují potenciálně nebezpečné látky. Vaše spolupráce na správné likvidaci tohoto výrobku napomůže efektivnímu využívání přírodních zdrojů. Chcete-li získat podrobné informace týkající se recyklace tohoto výrobku, obraťte se prosím na místní úřad, orgán pro nakládání s odpady, schválený systém nakládání s odpady či společnost zajišťující likvidaci domovního odpadu nebo navštivte webové stránky www.canon-europe.com/environment.

(EHP: Norsko, Island a Lichtenštejnsko)

Gjelder kun EU (og EØS).

Disse symbolene indikerer at dette produktet ikke skal kastes sammen med husholdningsaffall, i henhold til WEEE-direktivet (2002/96/EF), batteridirektivet (2006/66/EF) og/eller nasjonal lov som har implementert disse direktivene. Produktet må leveres til et dertil egnet innsamlingspunkt, det vil si på en autorisert en-til-en-basis når en kjøper et nytt lignende produkt, eller til et autorisert innsamlingssted for resirkulering av avfall fra elektrisk og elektronisk utstyr (EE-utstyr) og batterier og akkumulatorer. Feil håndtering av denne typen avfall kan være miljø- og helseskadelig på grunn av potensielt skadelige stoffer som ofte brukes i EE-utstyr. Din innsats for korrekt avhending av produktet vil bidra til effektiv bruk av naturressurser. Du kan få mer informasjon om resirkulering av dette produktet ved å kontakte lokale myndigheter, avfallsadministrasjonen, et godkjent program eller husholdningens renovasjonsselskap, eller gå til www.canon-europe.com/environment.

(EØS: Norge, Island og Liechtenstein)

Len Európska únia (a EHP)

Tieto symboly označujú, že podľa smernice o odpade z elektrických a elektronických zariadení (OEEZ) 2002/96/ES, smernice o batériách (2006/66/ES) a/alebo podľa vnútroštátnych právnych predpisov zahŕňajúcich tieto smernice sa tento produkt nesmie likvidovať spolu s domácim odpadom. Tento produkt je potrebné odovzdať do určenej zberne, napr. prostredníctvom výmeny za kúpu nového podobného produktu, alebo do autorizovaného zberného miesta na recykláciu odpadu z elektrických a elektronických zariadení (EEZ) a batérií a akumulátorov. Nesprávna manipulácia s takýmto typom odpadu môže mať negatívny vplyv na životné prostredie a ľudské zdravie, pretože elektrické a elektronické zariadenia obsahujú potenciálne nebezpečné látky. Vašou spoluprácou na správnej likvidácii tohto produktu prispejete k účinnému využívaniu prírodných zdrojov. Ďalšie informácie o recyklácii tohto produktu získate od svojho miestneho úradu, úradu zodpovedného za odpad, zo schváleného plánu o OEEZ alebo od spoločnosti zaisťujúcej likvidáciu domáceho odpadu alebo na webovej stránke www.canon-europe.com/environment.

(EHP: Nórsko, Írsko a Lichtenštajnsko)

Solo per l'Unione Europea e lo Spazio Economico Europeo.

Questi simboli indicano che il prodotto non può essere smaltito con i rifiuti domestici, ai sensi della Direttiva RAEE (2002/96/CE), della Direttiva sulle Batterie (2006/66/CE) e/o delle leggi nazionali che attuano tali Direttive. Il prodotto deve essere conferito a punto di raccolta designato, ad esempio il rivenditore in caso di acquisto di un nuovo prodotto simile oppure un centro di raccolta autorizzato per il riciclaggio di rifiuti di apparecchiature elettriche ed elettroniche (RAEE) nonché di batterie e accumulatori. Un trattamento improprio di questo tipo di rifiuti può avere conseguenze negative sull'ambiente e sulla salute umana a causa delle sostanze potenzialmente nocive solitamente contenute in tali rifiuti. La collaborazione dell'utente per il corretto smaltimento di questo prodotto contribuirà a un utilizzo efficace delle risorse naturali ed eviterà di incorrere in sanzioni amministrative ai sensi dell'art. 50 e successivi del Decreto Legislativo n. 22/97. Per ulteriori informazioni sul riciclaggio di questo prodotto, contattare le autorità locali, l'ente responsabile della raccolta dei rifiuti, un rivenditore autorizzato o il servizio di raccolta dei rifiuti domestici, oppure visitare il sito www.canon-europe.com/environment.

(Spazio Economico Europeo: Norvegia, Islanda e Liechtenstein)

Samo za Evropsko unijo (in Evropski gospodarski prostor).

Ti simboli pomenijo, da tega izdelka skladno z Direktivo OEE0 (2002/96/ES), Direktivo 2006/66/ES in/ali nacionalno zakonodajo, ki uvaja ti direktivi, ne smete odlagati z nesortiranimi gospodinjskimi odpadki. Ta izdelek je treba odnesti na izbrano zbirno mesto, t. j. pooblaščen trgovino, kjer ob nakupu novega (podobnega) izdelka vrnete starega, ali na pooblaščen zbirno mesto za ponovno uporabo odpadne električne in elektronske opreme (EEO) ter baterij in akumulatorjev. Neustrezno ravnanje s to vrsto odpadkov lahko negativno vpliva na okolje in človeško zdravje zaradi potencialno nevarnih snovi, ki so pogosto povezane z EEO. Vaše sodelovanje pri pravilnem odlaganju tega izdelka predstavlja pomemben prispevek k smotni izrabi naravnih virov. Za več informacij o ponovni uporabi tega izdelka se obrnite na lokalni mestni urad, pristojno službo za odpadke, predstavnika pooblaščenega programa za obdelavo odpadkov ali na lokalno komunalno. Lahko pa tudi obiščete našo spletno stran www.canon-europe.com/environment.

(Evropski gospodarski prostor: Norveška, Islandija in Lihtenštajn)

Kizárólag az Európai Unió (valamint az EEA) részére.

Ezek a szimbólumok azt jelzik, hogy a termék hulladékkezelése a háztartási hulladéktól különválasztva, a WEEE - elektromos és elektronikus berendezések hulladékairól szóló (2002/96/EK) irányelvnek és, az elemekről és akkumulátorokról, valamint a hulladékelemekről és -akkumulátorokról szóló (2006/66/EK) irányelvnek megfelelően, és/vagy ezen irányelveknek megfelelő helyi előírások szerint történik. Ezen terméket az arra kijelölt gyűjtőhelyre kell juttatni, pl., hasonló termék vásárlásakor a régi becserélésére vonatkozó hivatalos program keretében, vagy az elektromos és elektronikus berendezések (EEE) hulladékainak gyűjtésére, valamint a hulladékelemek és hulladékakkumulátorok gyűjtésére kijelölt hivatalos gyűjtőhelyre. Az ilyen jellegű hulladékok nem előírászerű kezelése az elektromos és elektronikus berendezésekhez (EEE) általánosan kapcsolható potenciálisan veszélyes anyagok révén hatással lehet a környezetre és az egészségre. Ezen termék megfelelő módon történő eltávolításával Ön is hozzájárul a természeti források hatékony használatához. A termék újrahasznosítását illetően informálódjon a helyi polgármesteri hivatalnál, a helyi közterület-fenntartó vállalatnál, a hivatalos hulladéklerakó telephelyen, vagy a háztartási hulladék begyűjtését végző szolgáltatónál, illetve látogasson el a www.canon-europe.com/environment internetes oldalra.

(EEA : Norvégia, Izland és Liechtenstein)

Apenas para a União Europeia (e AEE)

Estes símbolos indicam que este produto não deve ser eliminado juntamente com o seu lixo doméstico, segundo a Directiva REEE de 2002/96/CE, a Directiva de Baterias (2006/66/CE) e / ou a sua legislação nacional que transponha estas Directivas. Este produto deve ser entregue num ponto de recolha designado, por exemplo num local autorizado de troca quando compra um equipamento novo idêntico, ou num local de recolha autorizado para reciclar equipamento eléctrico e electrónico (EEE) em fim de vida, bem como pilhas e baterias. O tratamento inadequado deste tipo de resíduos pode ter um impacto negativo no ambiente e na saúde humana, devido a substâncias potencialmente perigosas que estão associadas com equipamentos do tipo EEE. A sua cooperação no tratamento correcto deste produto irá contribuir para a utilização mais eficaz dos recursos naturais. Para obter mais informações acerca de como reciclar este produto, por favor contacte as suas autoridades locais responsáveis pela matéria, serviço de recolha aprovado para pilhas e baterias ou serviço de recolha de resíduos sólidos domésticos da sua municipalidade, ou visite www.canon-europe.com/environment.

(AEE: Noruega, Islândia, e Liechtenstein)

Üksnes Euroopa Liit (ja Euroopa Majanduspiirkond).

Antud sümbolid viitavad sellele, et vastavalt WEEE direktiivile (2002/96/EÜ), patareide direktiivile (2006/66/EÜ) ja/või nimetatud direktiive rakendavatele riiklikele õigusaktidele ei või seda toodet visata ära koos majapidamisjätmetega. Antud toode tuleb anda vastavasse kogumispunkti, nt üks ühe vastu, kui ostad uue sarnase toote, või vastavasse elektri- ja elektroonikaseadmete jätmete ning patareide ja akude ümbertöötlemiseks mõeldud kogumispunkti. Antud liiki prügi vale käitlemine võib kahjustada keskkonda ja inimeste tervist elektri- ja elektroonikajätmetes tavaliselt leiduvate potentsiaalselt ohtlike ainete tõttu. Antud toote ettenähtud nõuete kohase kõrvaldamisega aitate efektiivselt kasutada loodusvarasid. Täiendava teabe saamiseks antud toote ringlussevõtu kohta võtke ühendust kohaliku linnavalitsusega, jäätmekäitlejaga, lubatud skeemiga või majapidamisjätmete prügilateenistusega või külastage Interneti-lehekülge www.canon-europe.com/environment.

(Euroopa Majanduspiirkond: Norra, Island ja Liechtenstein)

Paredzēts tikai Eiropas Savienības valstīm (un EVA).

Šie simboli norāda, ka atbilstoši ES direktīvai par izlietotu elektrisku un elektronisku aparāturu (2002/96/EK), direktīvai par baterijām un akumulatoriem (2006/66/EK) un vietējai likumdošanai no šī produkta nedrīkst atbrīvoties, izmetot to kopā ar sadzīves atkritumiem. Šis produkts ir jānodod piemērotā savākšanas punktā, piemēram, autorizētā veikalā, kur iegādājaties līdzīgu jaunu produktu un veco atstājat vietā, vai autorizētā dienestā, kas nodarbojas ar izlietotas elektriskās un elektroniskās aparatūras (waste electrical and electronic equipment — WEEE) atreizēju pārstrādi. Nepareizi apejoties ar šāda veida izlietotu aparāturu, var apdraudēt vidi un cilvēka veselību potenciāli bīstamu vielu dēļ, kas parasti ietilpst elektriskajā un elektroniskajā aparātūrā lietotajos sakausējumos. Turklāt pareiza atbrīvošanās no šī produkta sekmē racionālu dabas resursu izlietojumu. Lai saņemtu plašāku informāciju par vietām, kur izlietotu aparāturu var nodot otrreizējai pārstrādei, sazinieties ar vietējās pašvaldības pārstāvjiem, dienestu, kas atbild par atkritumu savākšanu, pilnvarotu WEEE struktūru vai iestādi, kas veic atbrīvošanos no sadzīves atkritumiem vai apmeklējiet tīmekļa vietni www.canon-europe.com/environment.

(Eiropas Ekonomiskā zona: Norvēģija, Īslande un Lihtenšteina).

Tik Europos Sąjungai (ir Europos Ekonominėi Zonai)

Šie simboliai reiškia, kad šio gaminio negalima išmesti į buitines atliekas, kaip reikalauja WEEE Direktyva (2002/96/EB) ir Baterijų Direktyva (2006/66/EB) ir (ar) jūsų šalies nacionaliniai įstatymai, kuriais šios Direktyvos yra įgyvendinamos. Šį gaminį reikia pristatyti į specialų surinkimo punktą, pavyzdžiui, mainais, kai jūs perkate naują panašų gaminį arba į specialią surinkimo vietą, kuri perdirba elektrinės ir elektroninės įrangos atliekas bei naudotas baterijas ir akumuliatorius. Dėl netinkamo šio tipo atliekų tvarkymo gali nukentėti aplinka bei iškyla grėsmė žmogaus sveikatai dėl potencialiai kenksmingų medžiagų, iš esmės susijusių su elektrine ir elektronine įranga. Bendradarbiaudami teisingai utilizuojant šiuos gaminius, jūs padėsite efektyviai naudoti gamtinius išteklius. Daugiau informacijos apie gaminio perdirbimą jums gali suteikti vietinis biuras, atliekų tvarkymo bendrovė, sertifikuoti organai ar buitinių atliekų surinkimo įmonės. Be to, aplankykite interneto svetainę www.canon-europe.com/environment.

(Europos Ekonominė Zona: Norvegija, Islandija ir Lichtenšteinas)

Union européenne (et Espace économique européen) uniquement.

Ces symboles indiquent que ce produit ne doit pas être mis au rebut avec les ordures ménagères, comme le spécifient la Directive européenne DEEE (2002/96/EC), la Directive européenne relative à l'élimination des piles et des accumulateurs usagés (2006/66/EC) et les lois en vigueur dans votre pays, appliquant ces directives. Ce produit doit être confié à un point de collecte désigné, par exemple, chaque fois que vous achetez un produit similaire neuf, ou à un point de collecte agréé pour le recyclage équipements électriques ou électroniques (EEE) et des piles et accumulateurs. Le traitement inapproprié de ce type de déchet risque d'avoir des répercussions sur l'environnement et la santé humaine, du fait de la présence de substances potentiellement dangereuses généralement associées aux équipements électriques ou électroniques. Votre coopération envers la mise au rebut correcte de ce produit contribuera à l'utilisation efficace des ressources naturelles. Pour de plus amples informations sur le recyclage de ce produit, veuillez contacter vos services municipaux, votre éco-organisme ou les autorités locales. Vous pouvez également vous rendre sur le site www.canon-europe.com/environment.

(Espace économique européen : Norvège, Islande et Liechtenstein)

Tylko kraje Unii Europejskiej (i Europejskiego Obszaru Gospodarczego).

Te symbole oznaczają, że produkt należy wyrzucać oddzielnie od odpadów domowych, zgodnie z dyrektywą WEEE w sprawie zużytego sprzętu elektrycznego i elektronicznego (2002/96/EC) lub dyrektywą w sprawie baterii (2006/66/EC) i/lub przepisami krajowymi, wdrażającymi te dyrektywy. Zużyty sprzęt powinien zostać przekazany do punktu zbiórki sprzętu (EEE), a w przypadku zakupu nowego na zasadzie wymiany jeden do jednego przy zakupie podobnego co do rodzaju produktu. Użytkownicy baterii i akumulatorów mają obowiązek korzystać z dostępnego programu zwrotu, recyklingu i utylizacji baterii i akumulatorów. Niewłaściwe postępowanie z tego typu odpadami może mieć wpływ na środowisko i zdrowie ludzi ze względu na substancje potencjalnie niebezpieczne ogólnie związane ze zużytym sprzętem elektrycznym i elektronicznym. Państwa współpraca w zakresie właściwej utylizacji tego produktu przyczyni się do efektywnego wykorzystania zasobów naturalnych. W celu uzyskania informacji o sposobie recyklingu tego produktu prosimy o kontakt z właściwym urzędem miejskim lub zakładem gospodarki komunalnej lub zapraszamy na stronę www.canon-europe.com/environment.

(Europejski Obszar Gospodarczy: Norwegia, Islandia i Liechtenstein)

Gælder kun i EU (og EØS).

Disse symboler betyder, at produktet ikke må bortskaffes sammen med husholdningsaffald i henhold til WEEE-direktivet (2002/96/EF), batteridirektivet (2006/66/EF) og/eller den lokale lovgivning, som disse direktiver er gennemført i. Produktet skal afleveres på et godkendt indsamlingssted, f.eks. i overensstemmelse med en godkendt én-for-én-procedure, når du indkøber et nyt tilsvarende produkt, eller på et godkendt indsamlingssted for genanvendeligt affald fra elektrisk og elektronisk udstyr samt for batterier og akkumulatorer. Forkert håndtering af denne type affald kan muligvis få negative konsekvenser for miljøet og menneskers helbred på grund af de potentielt sundhedsskadelige substanser, der generelt associeres med elektrisk og elektronisk udstyr. Når du foretager korrekt bortskaffelse af produktet, bidrager dette også til effektiv brug af naturressourcerne. Kontakt din kommune, den lokale affaldsmyndighed, forvalterne af en godkendt affaldsordning eller det lokale affaldsanlæg, eller besøg www.canon-europe.com/environment for at få flere oplysninger om genbrug af dette produkt.

(EØS: Norge, Island og Liechtenstein)

Ευρωπαϊκή Ένωση (και ΕΟΧ) μόνο.

Αυτά τα σύμβολα υποδεικνύουν ότι αυτό το προϊόν δεν πρέπει να απορρίπτεται μαζί με τα οικιακά απορρίμματα, σύμφωνα με την Οδηγία για τα Απόβλητα Ηλεκτρικού και Ηλεκτρονικού Εξοπλισμού (ΑΗΗΕ) (2002/96/ΕΚ), την Οδηγία για τις Ηλεκτρικές Στήλες (2006/66/ΕΚ) ή/και την εθνική νομοθεσία που εφαρμόζει τις Οδηγίες εκείνες. Αυτό το προϊόν πρέπει να παραδίδεται σε καθορισμένο σημείο συλλογής, π.χ. σε μια εξουσιοδοτημένη βάση ανταλλαγής, όταν αγοράζετε ένα νέο παρόμοιο προϊόν ή σε μια εξουσιοδοτημένη θέση συλλογής για την ανακύκλωση των αποβλήτων ηλεκτρικού και ηλεκτρονικού εξοπλισμού (ΗΗΕ) και ηλεκτρικών στηλών και συσσωρευτών. Ο ακατάλληλος χειρισμός αυτού του τύπου αποβλήτων θα μπορούσε να έχει πιθανό αρνητικό αντίκτυπο στο περιβάλλον και την υγεία του ανθρώπου, λόγω δυνητικώς επικίνδυνων ουσιών που γενικά συνδέονται με τον ΗΗΕ. Η συνεργασία σας για τη σωστή απόρριψη αυτού του προϊόντος θα συμβάλει στην αποτελεσματική χρήση των φυσικών πόρων. Για περισσότερες πληροφορίες σχετικά με ανακύκλωση αυτού του προϊόντος, επικοινωνήστε με το τοπικό γραφείο της πόλης σας, την υπηρεσία απορριμμάτων, το εγκεκριμένο σχήμα ή την υπηρεσία απόρριψης οικιακών αποβλήτων ή επισκεφθείτε τη διεύθυνση www.canon-europe.com/environment.

(Ευρωπαϊκός Οικονομικός Χώρος: Νορβηγία, Ισλανδία και Λιχτενστάιν)

Sólo para la Unión Europea (y el Área Económica Europea).

Estos símbolos indican que este producto no debe desecharse con los residuos domésticos de acuerdo con la Directiva sobre RAEE (2002/96/CE) y la Directiva sobre Pilas y Acumuladores (2006/66/CE) y/o la legislación nacional que implemente dichas Directivas. Este producto deberá entregarse en un punto de recogida designado, por ejemplo, en un establecimiento autorizado al adquirir un producto nuevo similar o en un centro autorizado para la recogida de residuos de aparatos eléctricos y electrónicos (RAEE), baterías y acumuladores. La gestión incorrecta de este tipo de residuos puede afectar al medio ambiente y a la salud humana debido a las sustancias potencialmente nocivas que suelen contener estos aparatos. Su cooperación en la correcta eliminación de este producto contribuirá al correcto aprovechamiento de los recursos naturales. Los usuarios tienen derecho a devolver pilas, acumuladores o baterías usados sin coste alguno. El precio de venta de pilas, acumuladores y baterías incluye el coste de la gestión medioambiental de su desecho, y bajo ninguna circunstancia se indicará por separado la cuantía de dicho coste en la información y la factura suministradas a los usuarios finales. Si desea más información sobre el reciclado de este producto, póngase en contacto con el departamento municipal, el servicio o el organismo encargado de la gestión de residuos domésticos o visite www.canon-europe.com/environment.

(Área Económica Europea: Noruega, Islandia y Liechtenstein)

Vain EU- ja EEA-alueelle.

Nämä tunnukset osoittavat, että sähkö- ja elektroniikkalaiteromua koskeva direktiivi (WEEE-direktiivi, 2002/96/EY), paristoista ja akuista annettu direktiivi (2006/66/EY) sekä kansallinen lainsäädäntö kieltävät tuotteen hävittämisen talousjätteen mukana. Tuote on vietävä asianmukaiseen keräyspisteeseen, esimerkiksi kodinkoneliikkeeseen uutta vastaavaa tuotetta ostettaessa tai viralliseen sähkö- ja elektroniikkalaiteromun tai paristojen ja akkujen keräyspisteeseen. Sähkö- ja elektroniikkalaiteromun virheellinen käsittely voi vahingoittaa ympäristöä ja ihmisten terveyttä, koska laitteet saattavat sisältää ympäristölle ja terveydelle haitallisia aineita. Tuotteen asianmukainen hävittäminen säästää samalla luonnonvaroja. Jos haluat lisätietoja tämän tuotteen kierrätyksestä, ota yhteys kunnan jätehuoltoviranomaisiin tai käyttämäsi jätehuolto-yhtiöön tai käy osoitteessa www.canon-europe.com/environment.

(EEA-maat: Norja, Islanti ja Liechtenstein)

Samo za Europsku uniju (i Europski gospodarski prostor).

Oznaka pokazuje da se baterije i akumulatori, korišteni u ovom proizvodu, odlažu odvojeno od kućnog otpada, u skladu s direktivom 2002/96/ EZ-a ("Direktiva") i lokalnim zahtjevima koji primjenjuju te Direktive. Ovaj bi proizvod trebao biti prenesen do određene točke sakupljanja, npr. na neku dozvoljenu bazu u omjeru 1:1 kada kupite novi sličan proizvod, ili na ovlašteno mjesto za sakupljanje istrošene električne i elektronske opreme, (waste electrical and electronic equipment – EEE) baterija i akumulatora. Neodgovarajuće rukovanje ovim tipom otpada može utjecati na okoliš i ljudsko zdravlje zbog potencijalno opasnih supstanci koje se najčešće nalaze uz EEE. Vaša suradnja u pravilnom zbrinjavanju ovog proizvoda doprinijet će efikasnoj uporabi prirodnih resursa. Za više informacija o recikliranju ovog proizvoda, molimo vas da kontaktirate svoj lokalni gradski ured, lokalne vlasti, pogledate odobrenu shemu, kontaktirajte vašu komunalnu službu za uklanjanje radioaktivnog otpada ili posjetite www.canon-europe.com/environment.

(Europski gospodarski prostor: Norveška, Island i Lihtenštajn)

Nur Europäische Union (und EWR)

Diese Symbole weisen darauf hin, dass dieses Produkt gemäß WEEE-Richtlinie 2002/96/EG (Richtlinie über Elektro- und Elektronik-Altgeräte), Batterien-Richtlinie (2006/66/EG) und/oder nationalen Gesetzen zur Umsetzung dieser Richtlinien nicht über den Hausmüll entsorgt werden darf. Dieses Produkt muss bei einer dafür vorgesehenen Sammelstelle abgegeben werden. Dies kann z. B. durch Rückgabe beim Kauf eines neuen ähnlichen Produkts oder durch Abgabe bei einer autorisierten Sammelstelle für die Wiederaufbereitung von Elektro- und Elektronik-Altgeräten sowie Batterien und Akkumulatoren geschehen. Der unsachgemäße Umgang mit Altgeräten kann aufgrund potenziell gefährlicher Stoffe, die häufig in Elektro- und Elektronik-Altgeräten enthalten sind, negative Auswirkungen auf die Umwelt und die menschliche Gesundheit haben. Durch Ihre Mitarbeit bei der sachgemäßen Entsorgung dieses Produkts tragen Sie zu einer effektiven Nutzung natürlicher Ressourcen bei. Um weitere Informationen über die Wiederverwertung dieses Produkts zu erhalten, wenden Sie sich an Ihre Stadtverwaltung, den öffentlich-rechtlichen Entsorgungsträger, eine autorisierte Stelle für die Entsorgung von Elektro- und Elektronik-Altgeräten oder Ihre Müllabfuhr oder besuchen Sie www.canon-europe.com/environment.

(EWR: Norwegen, Island und Liechtenstein)

Только для Европейского Союза (Европейской экономической зоны).

Эти символы указывают, что данный продукт не должен утилизироваться вместе с хозяйственно-бытовыми отходами в соответствии с Директивой WEEE (2002/96/EC), Директивой об аккумуляторах 2006/66/EC и/или законами Вашей страны, осуществляющими данные Директивы. Данное изделие должно быть передано в предназначенный для этого пункт сбора, например, на основе авторизованного обмена «один к одному», когда Вы покупаете подобное новое изделие, или в авторизованное место сбора отходов электрического и электронного оборудования, батарей и аккумуляторов для переработки. Неправильное обращение с отходами подобного типа может иметь влияние на окружающую среду и здоровье человека из-за потенциально опасных для здоровья веществ, которые, как правило, тесно связаны с электрическим и электронным оборудованием. Ваше сотрудничество в области правильной утилизации данного изделия вносит вклад в рациональное использование природных ресурсов. Чтобы узнать больше информации о переработке отходов батарей и аккумуляторов, пожалуйста, обратитесь в местную городскую администрацию, орган по работе с отходами или предприятие по утилизации отходов, или зайдите на www.canon-europe.com/environment.

(Европейская экономическая зона: Норвегия, Исландия и Лихтенштейн)

Només per a la Unió Europea (i EEA)

Aquests símbols indiquen que aquest producte no s'ha de llençar amb les escombraries de la llar, d'acord amb la RAEE (2002/96/EC), la Directiva relativa a piles i acumuladors (2006/66/EC) i la legislació nacional que implementi aquestes directives. Aquest producte s'hauria de lliurar en un dels punts de recollida designats, com per exemple, intercanviant un per un en comprar un producte similar o lliurant-lo en un lloc de recollida autoritzat per al reciclatge de residus d'aparells elèctrics i electrònics (EEE) i piles i acumuladors. La manipulació inadequada d'aquest tipus de residus podria tenir un impacte negatiu en l'entorn i en la salut humana, a causa de les substàncies potencialment perilloses que normalment estan associades a l'EEE. La vostra cooperació a l'hora de rebutjar correctament aquest producte contribuirà a la utilització efectiva dels recursos naturals. Els usuaris tenen dret a retornar les bateries o els acumuladors usats sense cap càrrec. El preu de venda de les bateries i els acumuladors inclou el cost de la gestió ambiental dels residus i, sota cap circumstància, l'import d'aquest cost s'especificarà per separat en aquest fullet o en la factura que es lliuri a l'usuari final. Per a més informació sobre el reciclatge d'aquest producte, contacteu amb l'oficina municipal, les autoritats encarregades dels residus, el pla de residus homologat o el servei de recollida d'escombraries domèstiques de la vostra localitat o visiteu www.canon-europe.com/environment.

(EEA: Noruega, Islàndia i Liechtenstein)

Doar pentru Uniunea Europeană (și EEA).

Aceste simboluri indică faptul că acest produs nu trebuie evacuat împreună cu deșeurile menajere, în conformitate cu Directiva WEEE (2002/96/EC), Directiva referitoare la baterii (2006/66/EC) și/sau legile dvs. naționale ce implementează aceste Directive. Acest produs trebuie înmănat punctului de colectare adecvat, ex: printr-un schimb autorizat unu la unu atunci când cumpărați un produs nou similar sau la un sit de colecție autorizat pentru reciclarea reziduurilor de echipament electric și electronic (EEE) și baterii și acumulatori. Administrarea neadecvată a acestui tip de deșeuri, ar putea avea un impact asupra mediului și asupra sănătății umane datorită substanțelor cu potențial de risc care sunt în general asociate cu EEE. Cooperarea dvs. în direcția evacuării corecte a acestui produs va contribui la o utilizare eficientă a resurselor naturale. Pentru mai multe informații despre reciclarea acestui produs, vă rugăm să contactați biroul dvs. local, autoritățile responsabile cu deșeurile, schema aprobată sau serviciul dvs. responsabil cu deșeurile menajere sau vizitați-ne la www.canon-europe.com/environment.

(EEA: Norvegia, Islanda, Lichtenstein)

Yalnızca Avrupa Birliği (ve AEA).

Bu simgeler, WEEE Direktifi (2002/96/AT), Pil Direktifi (2006/66/AT) ve/veya bu Direktifleri uygulamaya koyan ulusal kanunlarınız uyarınca bu ürünün evsel atıklarınızla birlikte atılmaması gerektiğini gösterir. Bu ürün örneğin, benzer bir yeni ürün aldığınızda yetkili bir değiştirme esaslı toplama noktası veya elektrikli ve elektronik cihazlar (EEE) ile pil ve akü geri dönüşümü için yetkili bir toplama merkezi gibi belirlenmiş bir toplama noktasına götürülmelidir. Bu gibi atıkların gerektiği şekilde işlem görmemesi genel olarak EEE ile bağlantılı olan tehlikeli olabilecek maddeler nedeniyle çevre ve insan sağlığı üzerinde olumsuz etkiye yol açabilir. Bu ürünün düzgün şekilde atılması için işbirliği yapmanız doğal kaynakların verimli şekilde kullanımına katkıda bulunacaktır. Bu ürünün geri dönüşümü hakkında daha fazla bilgi için lütfen belediyeniz, atık merkeziniz, onaylı atık programı veya çöp toplama servisine başvurun ya da www.canon-europe.com/environment adresini ziyaret edin.

(AEA: Norveç, İzlanda ve Lihtenştayn)

Тільки для Європейського Союзу (та Європейської економічної зони).

Ці символи вказують, що даний продукт не повинен утилізуватися разом з господарчо-побутовими відходами згідно Директиви WEEE (2002/96/EC), Директиви про батареї 2006/66/EC та/або законів Вашої країни, що реалізують ці Директиви. Даний виріб повинно бути передано до призначеного приймального пункту, наприклад, на базі авторизованого обміну «один до одного», якщо Ви купуєте подібний новий продукт, або до авторизованого місця збору відходів електричного та електронного обладнання, батарей та акумуляторів для подальшої переробки. Невідповідне обходження з подібними відходами може завдавати впливу на оточуюче середовище і здоров'я людини через присутність потенційно небезпечних речовин, які загалом тісно пов'язані з електричним та електронним обладнанням. Ваша співпраця щодо відповідної утилізації даного виробу робить внесок у раціональне використання природних ресурсів. Будь ласка, зверніться до місцевої адміністрації, органу по роботі з відходами або підприємства по утилізації відходів, щоб дізнатися більше про переробку даного виробу, або зверніться на www.canon-europe.com/environment.

(Європейська економічна зона: Норвегія, Ісландія та Ліхтенштейн)

Само за Европейския съюз (и ЕИП).

Тези символи указват, че този продукт не може да се изхвърля заедно с боклука от вашето домакинство, според Директивата ИУЕЕО (2002/96/EC), Директивата за батерии (2006/66/EC) и/или вашите национални закони, които изпълняват тези Директиви. Този продукт трябва да бъде предаден в обозначен събирателен пункт, т.е. в одобрена база, когато купувате нов подобен продукт или в одобрен събирателен пункт за рециклиране на отпадъци от електрическо и електронно оборудване (ЕЕО), батерии и акумулаторни батерии. Неправилното третиране на този вид отпадъци може да има потенциален вреден ефект върху околната среда и човешкото здраве, поради възможните опасни вещества, с които обикновено се свързва ЕЕО. Вашето съдействие за правилното изхвърляне на този продукт ще допринесе за ефективната употреба на естествените ресурси. За повече информация относно рециклирането на този продукт, моля свържете се с вашия местен офис, с органа, който отговаря за отпадъчните продукти, одобрената програма или учреждението по изхвърляне на боклука на вашето домакинство, или посетете www.canon-europe.com/environment.
