Before use, make sure the following items are included in the package. If anything is missing, contact your camera dealer.

- Camera
- Battery Pack NB-10L (with terminal cover)
- Battery Charger CB-2LCE/CB-2LC
- Neck Strap NS-DC11
- Lens Cap (with cord)
- DIGITAL CAMERA Solution Disk
- Getting Started (this guide)
- Power cord also included

Install PDF manuals and software from the included DIGITAL CAMERA Solution Disk. Note that Adobe Reader is required to view the PDF manuals.

Insert the included DIGITAL CAMERA Solution Disk in the computer’s CD-ROM drive and follow the installation instructions.

After installation, you can access the Camera User Guide by double-clicking the desktop shortcut icon.

For software instructions, refer to the Camera User Guide or the ImageBrowser EX Help.

The following memory cards (sold separately) can be used, regardless of capacity.
- SD memory cards* 1
- SDHC memory cards* 1
- SDXC memory cards* 1
- Eye-Fi cards 1
- Eye-Fi cards* 1

* Conforms to SD specifications. However, not all memory cards have been verified to work with the camera.

This product is not guaranteed to support Eye-Fi card functions (including wireless transfer). In case of an issue with an Eye-Fi card, please check with the card manufacturer. Also note that an approval from Eye-Fi is required to use Eye-Fi cards in many countries or regions. Without approval, use of the card is not permitted. If it is unclear whether the card has been approved for use in the area, please check with the card manufacturer.

Remove the battery cover and insert the battery in the charger.

- After aligning the marks on the battery charger, insert the battery by pushing it in (i) and down (j).

Battery chargers with a plug:
Flip out the plug and plug the charger into a power outlet. The lamp turns orange.

Battery chargers with a power cord:
Connect the power cord to the battery charger, and then plug the other end into a power outlet.

When charging is finished, the lamp turns green. Remove the battery.

- Press the < button.

Browse through your images.

- To view the previous or next image, press the < or > buttons or turn the < dial.

- Movies are identified by a [ ] button. To play movies, go to step 9-3.
Safety Precautions

- Before using the product, please ensure that you read the safety precautions described below. Always ensure that the product is used correctly.

  - The safety precautions noted on the following pages are intended to prevent injuries to yourself and other persons, or damage to the equipment.

  

  **Warning**
  Denotes the possibility of serious injury or death.

  - Do not trigger the flash in close proximity to people's eyes.
  - Exposure to the intense light produced by the flash could damage eyesight. In particular, remain at least 1 meter (39 inches) away from infants when using the flash.
  - Store this equipment out of the reach of children and infants.
  - Strap: Putting the strap around a child's neck could result in asphyxiation.
  - Date/time battery (if removable): Dangerous if swallowed. If this occurs, contact a doctor immediately.
  - Use only recommended power sources.
  - Do not attempt to disassemble, alter, or apply heat to the product.
  - Avoid dropping or subjecting the product to severe impacts.
  - To avoid the risk of injury, do not touch the interior of the product if it has been dropped or otherwise damaged.
  - Stop using the product immediately if it emits smoke, a strange smell, or otherwise behaves abnormally.
  - Do not use organic solvents such as alcohol, benzine, or thinner to clean the product.
  - Do not let the product come into contact with water (e.g. sea water) or other liquids.
  - Do not allow liquids or foreign objects to enter the camera.
  - This may cause the product to malfunction.
  - This could result in electrical shock or fire.
  - If liquids or foreign objects come into contact with the camera interior, immediately turn the camera off and remove the battery/batteries.
  - If the battery charger (for cameras that use one) becomes wet, unplug it from the outlet and consult your camera distributor or a Canon Customer Support Help Desk.
  - If the battery/batteries is/are left inside the camera, damage caused by leakage may occur.
  - If your camera uses multiple batteries, note the following precautions.
  - Do not insert the batteries with the + and – terminals reversed.
  - Do not trigger the flash in close proximity to people's eyes.

  **Caution**
  Denotes the possibility of injury.

  - When holding the camera by the strap, be careful not to bang it, subject it to strong impacts or shocks, or let it get caught on other objects.
  - Be careful not to bump or push strongly on the lens. This could lead to injury or damage to the camera.
  - Be careful not to subject the screen to strong impacts. If the screen cracks, injury may result from the broken fragments.
  - When using the flash, be careful not to cover it with your fingers or clothing.
  - This could result in burns or damage to the flash.
  - Avoid using, placing or storing the product in the following places:
    - Places subject to strong sunlight
    - Places subject to temperatures above 40 °C (104 °F)
    - Humid or dusty areas
  - These could cause leakage, overheating or an explosion of the battery/batteries resulting in electrical shock, fire, burns or other injuries.
  - High temperatures may deform the product.
  - The slideshow transition effects may cause discomfort when viewed for prolonged periods.
  - When using optional lenses, lens filters, or filter adapters (if applicable), be sure to attach these accessories firmly.
  - If the camera is used over an extended period, it may become warm. This does not indicate damage.

  **Caution**
  Denotes the possibility of damage to the equipment.

  - Do not aim the camera at bright light sources (such as the sun on a clear day).
  - Do so may damage the image sensor.
  - When using the camera on a beach or at a windy location, be careful not to allow dust or sand to enter the camera.
  - On cameras that raise and lower the flash automatically, do not push the flash down or pry it open.
  - This may cause the product to malfunction.
  - In regular use, small amounts of smoke may be emitted from the flash.
  - This is due to the high intensity of the flash burning dust and foreign materials stuck to the front of the unit. Please use a cotton swab to remove dirt, dust or other foreign matter from the flash to prevent heat build-up and damage to the unit.
  - Remove and store the battery/batteries when you are not using the camera.
  - If the battery/batteries is/are left inside the camera, damage caused by leakage may occur.
  - If your camera uses a battery and battery charger, note the following precautions.
    - Unplug the battery charger from the power outlet after charging is complete, or when you are not using it.
    - Do not place anything, such as cloth, on top of the battery charger while it is charging.
  - Leave the unit plugged in for a long period of time may cause it to overheat and distort, resulting in fire.
  - Do not place the battery near pets.
  - Pets baring the battery could cause leakage, overheating or explosion, resulting in fire or damage.
  - If your camera uses multiple batteries, note the following precautions.
    - Do not charge batteries of different types at the same time, or use older batteries together with newer batteries.
    - Do not insert the batteries with the + and – terminals reversed.
  - This may cause the product to malfunction.
  - When putting the camera in your bag, ensure that hard objects do not come into contact with the screen. Also close the screen (so that it faces the camera body), if your camera has a screen that closes.
  - Do not attach any hard objects to the camera.
  - Doing so may cause malfunctions or damage the screen.

Use of genuine Canon accessories is recommended. This product is designed to achieve excellent performance when used with genuine Canon accessories. Canon shall not be liable for any damage to this product and/or accidents such as fire, etc., caused by the malfunction of non-genuine Canon accessories (e.g., a leakage and/or explosion of a battery pack). Please note that this warranty does not apply to repairs arising out of the malfunction of non-genuine Canon accessories, although you may request such repairs on a chargeable basis.
