NOTE

• In this sheet, illustrations of MP370 are shown.

Setup
 CD-ROM

• A printer cable is not included. You must purchase a USB cable (less than $16^{3}/_{8}$ ft./5 m) to connect your machine to a computer.

Please read these guides.

Connect the power cord.

1 Connect the power cord.

If the message <PUT IN CARTRIDGE> appears, go to procedure 3, "Install the print head."

Install the print head.

- **1** Lift the scan unit until it locks into place.
 - If a protective sheet is on the inner side of the scan unit, remove the protective sheet.

If the paper output tray does not open, press the Open button to open the paper output tray.

- If you open the scan unit while the machine is turned ON, the paper output tray will open.
- **2** Open the inner cover.

2 The print head holder moves to the center. Install here.

3 Raise the lock lever.

Touch only here!

Raise this securely.

4 Prepare the print head.

Remove the protective cap and dispose of it.

5 Insert the print head.

6 Lower the lock lever.

 Lower the lock lever until it locks into place.

Install the ink tanks.

1 Prepare the ink tanks.

Remove the protective cap and dispose of it.

Do not touch!

Swing it upward into place.

3 Close the inner cover 1 and the scan unit 2.

Insert the black ink tank into the right slot. Push it in until it locks into place.

Insert the color ink tank into the left slot.

Load the print media.

2 Lower it into place.

1 Open the multi-purpose tray.

2 Load the print media.

width of the stack.

1 Load the print media with the print side face up.

3 Pull out the tray extension of the paper output tray.

Pull it out until it stops.

Align the print head from the operation panel.

Be sure to align the position of the print head to ensure quality printing.

1 Print the print head position pattern.

- **2** Enter checkmarks in the printed patterns.
 - From column A to column K on the printout, enter checkmarks in the patterns that have the most solid image.

- **3** Align the print head.
 - In column A on the printout, select the pattern that you checked on the printout in step **2**, then press [Set].

Press [+] to increase the number one digit. Press [–] to decrease the number one digit.

4 Repeat step 3 for columns B to K.

You have completed installation and alignment.

If you are connecting the machine to a computer for use, see 7, 8 and 9 for instructions on installing the software.

Install the MP Drivers.

The MP Drivers must be installed on the hard disk of your computer in order to print from or scan images to the computer. In addition to installing the MP Drivers, install the MP Toolbox. Use the MP Toolbox to attach scanned images to e-mail and store them.

- For detailed system requirements, see page 64 of the User's Guide.
- When installing the software in Windows 2000, you must have Service Pack 1 or later version installed.
- When installing the software in Windows 2000, you must log on as Administrator or have Administrator privileges.
- When installing the software in Windows XP, you must log on as Administrator privileges.
- If you have an earlier version of the MultiPASS Suite software installed on your computer, uninstall this version before installing the new version. For instructions on uninstallation, see the guides for that version of MultiPASS Suite.
- On your computer, close any open software applications, including virus checkers, in advance.

For details, see the instruction guide for each software application (or consult the system administrator).

• If using the machine with USB 2.0 Hi-Speed mode, you must connect it to a computer standard-equipped with a USB 2.0 Hi-Speed interface.

Prepare the Setup CD-ROM (Installation preparation)

The setup program should automatically run. If the setup program does not automatically run, click [My Computer], then double-click [setup.exe] or [setup] on the Setup CD-ROM.

If the following screen appears:

The USB cable is connected.

- Perform the following steps.
- 1. Disconnect the USB cable.
- 2. Click [Cancel].

1 Install the MP Drivers. (Use when printing from PC applications or scanning images.)

2 Install the MP Toolbox. (Use to scan documents and send as e-mail or save as PDF files.)

Follow the on-screen instructions to install the software.
