Registration Card

2 Unlocking the Scanning Unit

**1** **Gently turn the scanner on its side and unlock the scanner (🔓).**

➡ **Caution!** Be sure to unlock the scanner before plugging in the USB interface cable. Operating the scanner while in the locked position may damage the equipment.
3 Connecting the Scanner

Note: Before you begin, make sure you've turned on the computer and have quit all applications.
1 **Locate the USB symbol on your computer and scanner. Connect the supplied USB interface cable to the computer's USB port.**

USB Symbol
Note: Multiple USB ports may be located on the front, side, or back of your computer.
PC Connection

Macintosh Connection

2 **Connect the other end of the USB interface cable to the scanner's USB port.**

3 **Attach the Film Adapter Unit (FAU) connector cable to the FAU connector on the scanner's rear panel.**
FAU Cable and Connector

4 **Connect the AC adapter to the scanner.**

5 **Turn on your computer.**

6 • **For Windows setup, go to Step 4 .**

• **For Macintosh setup, skip to Step 6 .**

❶ When you see this dialog box, insert the Software Solutions CD-ROM. Click Next.
Note: If you don't see this dialog box or accidentally close it, unplug the USB cable and then reconnect it.
❷ Select **"Search for the best driver..."**. Click Next.
❸ Select CD-ROM drive. Click Next.

❹ Click Next.

❺ Click Finish.

❻ When you see this dialog box, click Install the Software.

❼ Click Start Installation.

❽ Follow the on-screen instructions.
❾ Restart your computer.

Step 1: Placing the Image

❶ Open the document cover.

❷ Place your picture face down on the glass of your scanner. Line up the top of your image with the arrow on the scanner bed.

❸ Close the document cover.

## Step 2: Scanning the Image

❶ Press the scanner's Start button.

❷ Select Scan and Save the Image. Click Next.

❸ Click Next.

❹ Select Expert Scanning Click Next.

5 Click the Preview button.

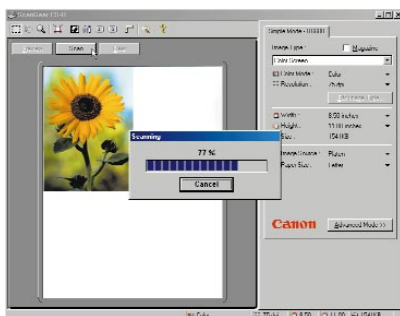

6 Use the mouse to draw a box around the portion of the image you want to scan.

7 Click the Scan button. [Scan]

8 To scan another image, or to scan the current image at a different resolution, repeat Steps 1 - 7.

Step 2: Viewing Scanned Images

1 Double-click each of the following:
  a. My Computer on the desktop
  b. C: drive icon
  c. My Documents folder
  d. My Pictures folder
  e. Save0001 file

2 The Windows Paint program opens and displays the scanned image.

3 • For film scanning operation, go to Step 8.

  • For scanner tips, go to Step 9.

---

6 Installing the Scanner Software for Macintosh®

1 Insert the Software Solutions CD-ROM into your CD-ROM drive.

Note: If the CanoScan Setup Utility does not start automatically, double-click the CD-ROM icon, then the Setup icon.

2 Click the Install the Software button.

3 Click the Start Installation button.

4 Finish the installation by following the on-screen instructions.

**5** After all applications have installed successfully, click the Quit button.
**6** When prompted, restart your computer.

Step 1: Placing the Image

❶ Open the document cover.

❷ Place your picture face down on the glass of your scanner. Line up the top of your image with the arrow on the scanner bed.

❸ Close the document cover.

## Step 2: Scanning the Image

❶ Press the scanner's Start button.

❷ Select Scan and Open the Image in Toolbox editor. Click Next.

❸ Select Expert Scanning. Click Next.

❹ Click the Preview button.

❺ Use the mouse to draw a box around the portion of the image you want to scan.

❻ Slide the Resolution bar to:
- 200 dpi—for an inkjet printer
- 72 dpi—for e-mail or Web

❼ Click the Scan button.

❽ In the File menu, select Save.

❾ To scan another image, or to scan the current image at a different resolution, repeat Steps 1 - 8.
8 Scanning Film

**1** Remove the protective sheet from the Film Adapter Unit.

2 Open the clip on the film guide by inserting a fingertip in the indent and pressing inward while gently lifting it up.
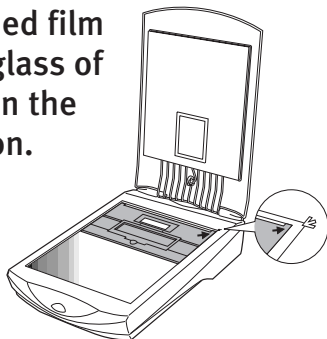

3 Place the film face down in the film guide's groove.

4 Align the tabs on the clip with the corresponding indent in the film guide and press gently inward on the clip while pushing them down into place.
5 Place the loaded film guide on the glass of your scanner in the correct position.

6 Close the document cover.

7 Press the Film Scan Start button and follow the on-screen instructions.

9 Registering, Getting Help and Accessing Manuals

1 Register your product via the Web at: www.ccsi.canon.com/register
