Supplied Toner Cartridge

The average yield of the included toner cartridge is as follows:

Canon Cartridge 128 Starter	Average yield[*1]: 1,000 sheets

[*1] The average yield is based on the "ISO/IEC 19752 Standard"[*2] when printing on A4 paper with the default print density setting.

[*2] "ISO/IEC 19752" is the global standard related to "Method for the determination of toner cartridge yield for monochromatic electrophotographic printers and multi-function devices that contain printer components" issued by ISO (International Organization for Standardization).

The average yield of the replacement toner cartridge varies from that of the supplied toner cartridge.

To purchase replacement toner cartridges, see "Replacement Toner Cartridges," in the ⊕ e-Manual.

User Software CD-ROM

The drivers and software included in the CD-ROM supplied with this machine are as follows:

FAX L Drivers

Printer Driver	You can print from an application to the machine once you install the printer driver on your computer.
Fax Driver	If you install the fax driver on your computer, you can select "Print" from an application, select the Canon fax driver as a printer, and specify the output destination and options. The fax driver converts the data into an image that conforms to standard fax protocols, so that the data can be printed or saved using the recipient's fax machine.

The newest software:

Depending on the operating system you are using, some functions of the driver software included in the CD-ROM may not be usable. The newest software is posted on the Canon web site. Please verify the operating environment etc. and download the appropriate software if required.

Additional Software Programs

Address Book Import/Export Tool	You can import or export the address book entries that are registered to the machine with the Address Book Import/Export Tool. The Address Book Import/Export Tool is in the [AddressBookTool] folder on the User Software CD-ROM.
