Symbols Used in This Document

⚠️ **Warning**
Instructions that, if ignored, could result in death, serious personal injury, or property damage caused by incorrect operation of the equipment. These must be observed for safe operation.

⚠️ **Caution**
Instructions that, if ignored, could result in personal injury or property damage caused by incorrect operation of the equipment. These must be observed for safe operation.

👉🏾👉🏾**Important**
Instructions including important information that must be observed to avoid damage and injury or improper use of the product. Be sure to read these instructions.

👉🏾👉🏾**Note**
Instructions including notes for operation and additional explanations.

👉🏾**Basics**
Instructions explaining basic operations of your product.

👉🏾👉🏾**Note**
- Icons may vary depending on your product.
Touch-enabled Device Users (Windows)

For touch actions, you need to replace "right-click" in this document with the action set on the operating system. For example, if the action is set to "press and hold" on your operating system, replace "right-click" with "press and hold."
Trademarks and Licenses

• Microsoft is a registered trademark of Microsoft Corporation.
• Windows is a trademark or registered trademark of Microsoft Corporation in the U.S. and/or other countries.
• Windows Vista is a trademark or registered trademark of Microsoft Corporation in the U.S. and/or other countries.
• Internet Explorer is a trademark or registered trademark of Microsoft Corporation in the U.S. and/or other countries.
• Mac, Mac OS, macOS, OS X, AirPort, App Store, AirPrint, the AirPrint logo, Safari, Bonjour, iPad, iPhone and iPod touch are trademarks of Apple Inc., registered in the U.S. and other countries.
• iOS is a trademark or registered trademark of Cisco in the U.S. and other countries and is used under license.
• Google Cloud Print, Google Chrome, Chrome OS, Chromebook, Android, Google Drive, Google Apps and Google Analytics are either registered trademarks or trademarks of Google Inc. Google Play and Google Play Logo are trademarks of Google LLC.
• Adobe, Acrobat, Flash, Photoshop, Photoshop Elements, Lightroom, Adobe RGB and Adobe RGB (1998) are either registered trademarks or trademarks of Adobe Systems Incorporated in the United States and/or other countries.
• Bluetooth is a trademark of Bluetooth SIG, Inc., U.S.A. and licensed to Canon Inc.
• Autodesk and AutoCAD are registered trademarks or trademarks of Autodesk, Inc., and/or its subsidiaries and/or affiliates in the USA and/or other countries.

Note

• The formal name of Windows Vista is Microsoft Windows Vista operating system.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.
2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:
   1. You must give any other recipients of the Work or Derivative Works a copy of this License; and
   2. You must cause any modified files to carry prominent notices stating that You changed the files; and
   3. You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and
   4. If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement You may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.
7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

The FreeType Project LICENSE
----------------------------

2006-Jan-27

Copyright 1996-2002, 2006 by

David Turner, Robert Wilhelm, and Werner Lemberg

Introduction

==========
The FreeType Project is distributed in several archive packages; some of them may contain, in addition to the FreeType font engine, various tools and contributions which rely on, or relate to, the FreeType Project.

This license applies to all files found in such packages, and which do not fall under their own explicit license. The license affects thus the FreeType font engine, the test programs, documentation and makefiles, at the very least.

This license was inspired by the BSD, Artistic, and IJG (Independent JPEG Group) licenses, which all encourage inclusion and use of free software in commercial and freeware products alike. As a consequence, its main points are that:

- We don't promise that this software works. However, we will be interested in any kind of bug reports. (`as is' distribution)
- You can use this software for whatever you want, in parts or full form, without having to pay us. (`royalty-free' usage)
- You may not pretend that you wrote this software. If you use it, or only parts of it, in a program, you must acknowledge somewhere in your documentation that you have used the FreeType code. (`credits')

We specifically permit and encourage the inclusion of this software, with or without modifications, in commercial products.

We disclaim all warranties covering The FreeType Project and assume no liability related to The FreeType Project.

Finally, many people asked us for a preferred form for a credit/disclaimer to use in compliance with this license. We thus encourage you to use the following text:

```none
Portions of this software are copyright © <year> The FreeType Project (www.freetype.org). All rights reserved.
```  
Please replace <year> with the value from the FreeType version you actually use.

Legal Terms
------------

0. Definitions
--------------

Throughout this license, the terms `package', `FreeType Project', and `FreeType archive' refer to the set of files originally distributed by the authors (David Turner, Robert Wilhelm, and Werner Lemberg) as the `FreeType Project', be they named as alpha, beta or final release.

`You' refers to the licensee, or person using the project, where `using' is a generic term including compiling the project's source code as well as linking it to form a `program' or `executable'.

This program is referred to as `a program using the FreeType engine'.

This license applies to all files distributed in the original FreeType Project, including all source code, binaries and documentation, unless otherwise stated in the file in its original, unmodified form as distributed in the original archive.

If you are unsure whether or not a particular file is covered by this license, you must contact us to verify this.
The FreeType Project is copyright (C) 1996-2000 by David Turner, Robert Wilhelm, and Werner Lemberg. All rights reserved except as specified below.

1. No Warranty

-------------

THE FREETYPE PROJECT IS PROVIDED `AS IS' WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. IN NO EVENT WILL ANY OF THE AUTHORS OR COPYRIGHT HOLDERS BE LIABLE FOR ANY DAMAGES CAUSED BY THE USE OR THE INABILITY TO USE, OF THE FREETYPE PROJECT.

2. Redistribution

-------------

This license grants a worldwide, royalty-free, perpetual and irrevocable right and license to use, execute, perform, compile, display, copy, create derivative works of, distribute and sublicense the FreeType Project (in both source and object code forms) and derivative works thereof for any purpose; and to authorize others to exercise some or all of the rights granted herein, subject to the following conditions:

o Redistribution of source code must retain this license file ('FTL.TXT') unaltered; any additions, deletions or changes to the original files must be clearly indicated in accompanying documentation. The copyright notices of the unaltered, original files must be preserved in all copies of source files.

o Redistribution in binary form must provide a disclaimer that states that the software is based in part of the work of the FreeType Team, in the distribution documentation. We also encourage you to put an URL to the FreeType web page in your documentation, though this isn't mandatory.

These conditions apply to any software derived from or based on the FreeType Project, not just the unmodified files. If you use our work, you must acknowledge us. However, no fee need be paid to us.

3. Advertising

-------------

Neither the FreeType authors and contributors nor you shall use the name of the other for commercial, advertising, or promotional purposes without specific prior written permission.

We suggest, but do not require, that you use one or more of the following phrases to refer to this software in your documentation or advertising materials: 'FreeType Project', 'FreeType Engine', 'FreeType library', or 'FreeType Distribution'.

As you have not signed this license, you are not required to accept it. However, as the FreeType Project is copyrighted material, only this license, or another one contracted with the authors, grants you the right to use, distribute, and modify it.

Therefore, by using, distributing, or modifying the FreeType Project, you indicate that you understand and accept all the terms of this license.

4. Contacts

-------------

There are two mailing lists related to FreeType:

o freetype@nongnu.org
Discusses general use and applications of FreeType, as well as future and wanted additions to the library and distribution.

If you are looking for support, start in this list if you haven't found anything to help you in the documentation.

- freetype-devel@nongnu.org

Discusses bugs, as well as engine internals, design issues, specific licenses, porting, etc.

Our home page can be found at

http://www.freetype.org

--- end of FTL.TXT ---

The TWAIN Toolkit is distributed as is. The developer and distributors of the TWAIN Toolkit expressly disclaim all implied, express or statutory warranties including, without limitation, the implied warranties of merchantability, noninfringement of third party rights and fitness for a particular purpose. Neither the developers nor the distributors will be liable for damages, whether direct, indirect, special, incidental, or consequential, as a result of the reproduction, modification, distribution or other use of the TWAIN Toolkit.

The following applies only to products supporting Wi-Fi.

(c) 2009-2013 by Jeff Mott. All rights reserved.

Redistribution and use in source and binary forms, with or without modification, are permitted provided that the following conditions are met:

* Redistributions of source code must retain the above copyright notice, this list of conditions, and the following disclaimer.
* Redistributions in binary form must reproduce the above copyright notice, this list of conditions, and the following disclaimer in the documentation or other materials provided with the distribution.
* Neither the name CryptoJS nor the names of its contributors may be used to endorse or promote products derived from this software without specific prior written permission.

THIS SOFTWARE IS PROVIDED BY THE COPYRIGHT HOLDERS AND CONTRIBUTORS "AS IS," AND ANY EXPRESS OR IMPLIED WARRANTIES, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE DISCLAIMED. IN NO EVENT SHALL THE COPYRIGHT HOLDER OR CONTRIBUTORS BE LIABLE FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING, BUT NOT LIMITED TO, PROCUREMENT OF SUBSTITUTE GOODS OR SERVICES; LOSS OF USE, DATA, OR PROFITS; OR BUSINESS INTERRUPTION) HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY WAY OUT OF THE USE OF THIS SOFTWARE, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGE.
Basic Operation

- Printing Photos from a Computer
- Printing Photos from a Smartphone/Tablet
- Copying
Printing Photos from a Computer

This section describes how to print photos with Easy-PhotoPrint Editor.

1. Open rear tray cover (A). Pull straight up and fold back paper support (B).

2. Open the feed slot cover (C).

3. Slide right paper guide (D) to open both paper guides.

4. Load photo paper in portrait orientation WITH PRINT SIDE FACING UP.
5. Slide right paper guide (D) to align with both sides of paper stack.

6. Close feed slot cover (C) gently.

After closing the feed slot cover, the paper setting confirmation screen for the rear tray appears on the touch screen.
7. If page size and media type on touch screen match size and type of paper loaded in rear tray, select **Yes**.

If not, select **Change** to change the settings in accordance with the size and type of the loaded paper.

![Current rear tray setting.
Please confirm.](image)

8. Open operation panel (E), pull out paper output tray (F) and paper output support (G), and then open output tray extension (H).

Be sure to open the operation panel before printing. If the operation panel is close, the printer does not start printing.

![Open operation panel (E), pull out paper output tray (F) and paper output support (G), and then open output tray extension (H).](image)

9. Start Easy-PhotoPrint Editor.

**For Windows:**

The procedure below is for a computer running the Windows 10 operating system.

From the **Start** menu, select (*All apps >*) **Canon Utilities > Easy-PhotoPrint Editor**.

**For macOS:**

From the **Go** menu in **Finder**, select **Application** and double-click the **Canon Utilities** folder, the **Easy-PhotoPrint Editor** folder, and then the **Easy-PhotoPrint Editor** icon.

10. Click **Photos** icon (I).
11. Click **Browse (J)** in **From computer**: and select folder with photos you want to print.

12. Click photos **(K)** you want to print and select **Open (L)**.

**For Windows:**
To select two or more photos at a time, click photos while pressing the Ctrl key.

**For macOS:**
To select two or more photos at a time, click photos while pressing the command key.

13. Specify number of copies and other options under **Print Settings (M)**.
For Windows:
Specify the number of copies, your model name, the paper size, and other options.

For macOS:
Specify the number of copies, the paper size, and other options.

**Note**
- Selecting **Same No. of each photo** enables you to specify the number of copies for all photos with a single setting.
- Selecting **Same No. of each photo** disables the number-of-copies setting specified for each photo. When unchecked, the previous settings for each copy are re-enabled. ▼ for specifying the number of copies is also re-enabled.

**For Windows:**
Click Print (N).

**For macOS:**
Click Next. When the Print dialog appears, specify your model name, paper, and other options, and then click Print.

**Note**
- Easy-PhotoPrint Editor lets you easily create and print original collages, cards, or calendars using your favorite photos.

⇒ Easy-PhotoPrint Editor Guide
Printing Photos from a Smartphone/Tablet

This section describes how to print photos with Canon PRINT Inkjet/SELPHY.
For details on how to download Canon PRINT Inkjet/SELPHY, see below.

Print Easily from a Smartphone or Tablet with Canon PRINT Inkjet/SELPHY

1. Open rear tray cover (A). Pull straight up and fold back paper support (B).

2. Open the feed slot cover (C).

3. Slide right paper guide (D) to open both paper guides.

4. Load photo paper in portrait orientation WITH PRINT SIDE FACING UP.
5. Slide right paper guide (D) to align with both sides of paper stack.

6. Close feed slot cover (C) gently.

After closing the feed slot cover, the paper setting confirmation screen for the rear tray appears on the touch screen.
7. If page size and media type on touch screen match size and type of paper loaded in rear tray, select Yes.

If not, select Change to change the settings in accordance with the size and type of the loaded paper.

8. Open operation panel (E), pull out paper output tray (F) and paper output support (G), and then open output tray extension (H).

Be sure to open the operation panel before printing. If the operation panel is close, the printer does not start printing.

9. Start (Canon PRINT Inkjet/SELPHY) from your smartphone/tablet.

10. Select Photo Print on Canon PRINT Inkjet/SELPHY.

The list of photos saved on your smartphone/tablet is displayed.

11. Select a photo.

You can also select multiple photos at once.

12. Specify the number of copies, paper size, etc.

13. Select Print.
This section describes how to load originals and copy them to plain paper loaded in the cassette.

1. Pull out the cassette (A) from the printer.

2. Remove the cassette cover (B).

3. Slide paper guides (C) in front and (D) on right to open guides.

4. Load plain paper in portrait orientation WITH PRINT SIDE FACING DOWN.
5. Align paper guides (C) in front and (D) on right with paper length and width.

6. Mount cassette cover (B) and insert cassette into printer.
After inserting the cassette into the printer, the paper setting confirmation screen for the cassette appears on the touch screen.

7. If page size on touch screen matches size of paper loaded in cassette, select **Yes**.
   If not, select **Change** to change the setting in accordance with the size of the loaded paper.

8. Open operation panel (E), pull out paper output tray (F) and paper output support (G), and then open output tray extension (H).
   Be sure to open the operation panel before printing. If the operation panel is close, the printer does not start printing.

9. Press **HOME** button (I).

10. Select **Copy** (J).
11. Select **Standard copy**.

12. Open document cover (K).

13. Load original WITH SIDE TO COPY FACING DOWN and align it with alignment mark (L).

15. Check paper settings and press **Black** button (M) or **Color** button (N).

**Important**

- Do not open the document cover until copying is complete.

**Note**

- Your printer is equipped with many other convenient copy features.
Network

Available Connection Methods

The following connection methods are available on the printer.

• **Wireless Connection**
  Connect the printer and devices (e.g. computer/smartphone/tablet) using a wireless router.

  If you have a wireless router, we recommend you use one for wireless connection.

  ◦ Connection methods vary depending on the wireless router type.
  ◦ You can change network settings such as the network name (SSID) and security protocol on the printer.
  ◦ When the connection between a device and a wireless router is completed and 📱 (Wi-Fi icon) is displayed in the device's screen, you can connect the device to the printer using the wireless router.

• **Wireless Direct**
  Connect the printer and devices (e.g. computer/smartphone/tablet) without using a wireless router.

  ◦ While you are using the printer with Wireless Direct, Internet connection from the printer becomes unavailable. In that case, web services for the printer cannot be used.
  ◦ If you connect a device connected to the Internet via a wireless router to the printer that is in the Wireless Direct, the connection between the device and wireless router will be disabled. In that case, the connection of the device may switch to a mobile data connection automatically depending on your device. Transmission fees for connecting to the Internet using a mobile data connection apply.
  ◦ In the Wireless Direct, you can connect up to five devices at the same time. If you try to connect a sixth device while five devices are already connected, an error will appear. If an error appears, disconnect a device you do not use and configure settings again.
  ◦ Network settings such as the network name (SSID) and security protocol are specified automatically.

**Note**

• You can connect the printer and computer using a USB cable (USB connection). Prepare a USB cable. For details, see [Connects to Another Computer via LAN/Changes from USB to LAN Connection](#).

Network Connection Settings/Setup

Perform connection setup for the printer and computer/smartphone/tablet.

For more on setup procedure, click here.
Changing Network Settings

See below for changing connection settings for the printer and computer/smartphone/tablet.

• To change network connection method:
  ➤ Reconfiguration Method of Wi-Fi Connection
  ➤ Changing the Connection Mode

• To add computer/smartphone/tablet to the printer:
  ➤ Connects to Another Computer via LAN/Changes from USB to LAN Connection

• To use Wireless Direct temporarily:
  ➤ Printing/Scanning with Wireless Direct

IJ Network Device Setup Utility

IJ Network Device Setup Utility checks or diagnoses the settings of the printer and those of computer and restores the status of them if anything is wrong with network connection. Select either link below to download IJ Network Device Setup Utility.

➤ Checking Printer Connection Status Using IJ Network Device Setup Utility

• Performing/Changing Network Settings (Windows)
  For Windows, you can perform network settings using IJ Network Device Setup Utility.
  ➤ IJ Network Device Setup Utility (Windows)

• Diagnosing and Repairing Network Settings (Windows/macOS)
  You can diagnose or repair network settings using IJ Network Device Setup Utility.
  ◦ For Windows:
    ➤ IJ Network Device Setup Utility (Windows)
  ◦ For macOS:
    ➤ IJ Network Device Setup Utility (macOS)

Network Connection Tips

See below for tips on using the printer via network connection.

➤ Network Connection Tips
  ➤ Handling Printer Configuration using the Web Browser

Troubleshooting

See Network Settings and Common Problems for troubleshooting on network connection.

Notice/Restriction

See below for details.

• Restrictions on network settings:
  ➤ Restrictions

• Notices when printing using web service:
  ➤ Notice for Web Service Printing
Restrictions

When connecting another device while a device (such as a computer) is already connected to the printer, connect it using the same connection method as the connected device.
If you connect using a different connection method, the connection to the device in use will be disabled.

Connect via wireless router

- You cannot establish a printer with wireless and wired connections at the same time.
- Make sure your device and the wireless router are connected. For details on checking these settings, see the manual supplied with the wireless router or contact its manufacturer.
As for a device already connected to the printer without using a wireless router, reconnect it via a wireless router.
- Configuration, router functions, setup procedures and security settings of wireless routers vary depending on the system environment. For details, see the manual for your wireless router or contact its manufacturer.
- This printer does not support IEEE802.11ac. IEEE802.11a and IEEE802.11n (5 GHz) may not be supported depending on the country or region you live in. Check if your device supports IEEE802.11n, IEEE802.11g, IEEE802.11b or IEEE802.11a.
- If your device is set to the "IEEE802.11n only" mode, WEP or TKIP cannot be used as a security protocol. Change the security protocol for your device to something other than WEP and TKIP or change the setting to something other than "IEEE802.11n only."
The connection between your device and the wireless router will be temporarily disabled while the setting is changed. Do not proceed to the next screen of this guide until setup is complete.
- For office use, consult your network administrator.
- Note that if you connect to a network with no security protection, your personal information could be disclosed to a third party.

Wireless Direct

Important

- If a device is connected to the Internet via a wireless router, and you then connect it to a printer in Wireless Direct mode, the existing connection between the device and wireless router will be disabled. In that case, the connection of the device may switch to a mobile data connection automatically depending on your device. When you connect to the Internet using a mobile data connection, charges may apply depending on your contract.
  - When you connect a device and the printer using Wireless Direct, the connection information will be saved to Wi-Fi settings. The device may be connected to the printer automatically even after disconnecting it or connecting it to another wireless router.
  - To prevent automatic connection to the printer in Wireless Direct mode, change the connection mode after using the printer, or set not to connect automatically in the Wi-Fi settings of the device.
For details on checking or changing the wireless router settings, see the wireless router manual or contact its manufacturer.
If you connect a device and the printer using Wireless Direct, Internet connection may become unavailable depending on your environment. In that case, web services for the printer cannot be used.

In Wireless Direct mode, you can connect up to five devices at the same time. If you try to connect a sixth device while five devices are already connected, an error will appear. If an error appears, disconnect a device that does not use the printer, then configure settings again.

Devices connected to the printer using Wireless Direct cannot communicate with each other.

Firmware updates for the printer are not available while using Wireless Direct.

When a device has been connected to the printer without using a wireless router and you want to set it up again using the same connection method, disconnect it first. Disable the connection between the device and printer in the Wi-Fi setting screen.
Network Connection Tips

- Default Network Settings
- Detect Same Printer Name
- Connects to Another Computer via LAN/Changes from USB to LAN Connection
- Printing Network Settings
- Reconfiguration Method of Wi-Fi Connection
# Default Network Settings

</table>

("XX" represents alphanumeric characters.)

* Default value depends on printer. To check value, use operation panel.

[LAN settings](#)
*1 "ab" is specified at random and "XX" represents last two digits of printer's MAC address. (The value is specified when the printer is turned on for the first time.)

*2 The password is specified automatically when the printer is turned on for the first time.
Detect Same Printer Name

When the printer is detected during setup, plural printers with the same name may appear on the results screen.

Select a printer with checking the printer settings against those on detection result screen.

- For Windows:
  Check the printer's MAC address or serial to select the correct printer from the results.

- For macOS:
  The printer names appear with the MAC address added at the end or as the printer name specified by Bonjour.
  Check identifiers such as the MAC address, the printer name specified by Bonjour, and the printer’s serial number to select the printer from among those that appear.

Note

- Serial number may not appear on result screen.

Check the printer's MAC address and the serial number by one of the following methods.

- Display on the touch screen.
  MAC address
    ➤ LAN settings
  Serial number
    ➤ System information

- Print the network settings.
  ➤ Printing Network Settings
Connects to Another Computer via LAN/Changes from USB to LAN Connection

- **For Windows:**
- **For macOS:**

**For Windows:**
To add a computer to connect to the printer on a LAN or to change from USB to LAN connection, perform setup using the Setup CD-ROM or from the web page.

**For macOS:**
To connect an additional computer to the printer via LAN, or to change from USB to LAN connection, perform setup from the web page.
Printing Network Settings

Use the operation panel to print the printer's current network settings.

**Important**
- The network settings printout contains important information about your network. Handle it with care.

1. Check that printer is turned on, and display HOME screen.
   If the HOME screen is not displayed, touch the HOME button.

2. **Load three sheets of A4 or Letter-sized plain paper.**

3. Select "**Network status**" on the touch screen.

4. **Select Print details.**

5. Check message and select **Yes**.

6. Check message and select **ON** or **OFF**.
   The printer starts printing the network setting information.

The following information on the printer's network setting is printed out. (Some setting values are not displayed depending on the printer settings.)

("XX" represents alphanumeric characters.)
Reconfiguration Method of Wi-Fi Connection

Follow either procedure below to change Wi-Fi connection method (infrastructure or Wireless Direct).

• For Windows:
  ◦ Redo setup using the Setup CD-ROM or from the web page.
  ◦ Perform settings on the **Network Settings** screen on IJ Network Device Setup Utility.

**Important**

- Before you perform settings using IJ Network Device Setup Utility, turn on Easy wireless connect mode on the printer following the procedure below.

1. Check that printer is turned on.

2. Select (Wireless connect).
   ➤ Using the Operation Panel

3. Select Yes on the displayed screen.
   Follow instructions on your smartphone or tablet.

4. If message saying setup is completed appears, select OK.

• For macOS:

  Redo setup from the web page.
IJ Network Device Setup Utility (macOS)

- IJ Network Device Setup Utility
- Starting Up IJ Network Device Setup Utility
- Diagnosing and Repairing Network Settings
- List of Models Which Does Not Support Diagnosis and Repair Function
IJ Network Device Setup Utility

If anything is wrong with connection, IJ Network Device Setup Utility diagnoses the settings of the printer and those of computer on which it is installed. In addition, IJ Network Device Setup Utility restores the status of the printer and computer.

Important

- To use the printer over LAN, make sure you have the equipment necessary for the connection type, such as a wireless router or a LAN cable.
- When you install IJ Network Device Setup Utility, disable block function of firewall.
Starting Up IJ Network Device Setup Utility

Start up **Launchpad**, select **Canon Utilities**, and then select IJ Network Device Setup Utility.

When you start up IJ Network Device Setup Utility, the screen below appears.

Enter the password specified for your computer and select **Install Helper**. IJ Network Device Setup Utility starts diagnosis and repair of network.

- ➔ **Diagnosing and Repairing Network Settings**
Diagnosing and Repairing Network Settings

IJ Network Device Setup Utility diagnoses and repairs computer settings or connection between the computer and printer when a problem (e.g. cannot print from a printer on the network) occurs.

**Important**

- Some models do not support diagnosis and repair function.

  For details:

  ➤ [List of Models Which Does Not Support Diagnosis and Repair Function](#)

IJ Network Device Setup Utility starts checking the computer settings when it starts up. Perform operations following the instructions on the screen.

**Note**

- This function checks the following items:
  - whether the computer is connected to the router
  - whether the printer can be detected on the network
  - whether the signal strength or communication level is sufficient (when using Wi-Fi)
  - whether the printer port setting matches with the network setting
List of Models Which Does Not Support Diagnosis and Repair Function

The following models do not support "Diagnose and Repair" function of IJ Network Device Setup Utility.

- G4000 series
- PRO-500 series

Handling Paper, Originals, Ink Tanks, etc.

- Loading Paper
- Loading Originals
- Replacing Ink Tanks
Loading Paper

- Paper Sources
- Loading Paper in the Rear Tray
- Loading Paper in the Cassette
- Loading Envelopes in Rear Tray
Paper Sources

The printer has two paper sources for feeding paper, the rear tray (A) and cassette (B).

You can load all supported paper on the rear tray.

- Supported Media Types

You can load A4, B5, A5, or Letter-sized plain paper in the cassette.

Note

- When printing, select the correct page size and media type. If you select the wrong page size or media type, the printer may feed paper from the wrong paper source or may not print with the proper print quality.

For details on how to load paper in each paper source, see below.

- Loading Paper in the Rear Tray
- Loading Paper in the Cassette
- Loading Envelopes in Rear Tray
Loading Paper in the Rear Tray

You can load plain paper or photo paper.
You can also load envelopes on the rear tray.

Loading Envelopes in Rear Tray

Important

• If you cut plain paper to a size of 5” x 7” (13 x 18 cm) or smaller to perform a trial print, it may cause a paper jam.

Note

• We recommend Canon genuine photo paper for printing photos.
  For details on the Canon genuine paper, see Supported Media Types.
• You can use general copy paper or Canon Red Label Superior WOP111/Canon Océ Office Colour Paper SAT213.
  For the page size and paper weight you can use for this printer, see Supported Media Types.

1. Prepare paper.

   Align the edges of paper. If paper is curled, flatten it.

   ![Align the edges of paper. If paper is curled, flatten it.]

   Note

   • Align the edges of paper neatly before loading. Loading paper without aligning the edges may cause paper jams.
   • If paper is curled, hold the curled corners and gently bend them in the opposite direction until the paper becomes completely flat.
     For details on how to flatten curled paper, see Check3 in Paper Is Smudged / Printed Surface Is Scratched.
   • When using Photo Paper Plus Semi-gloss SG-201, even if the sheet is curled, load one sheet at a time as it is. If you roll up this paper to flatten, this may cause cracks on the surface of the paper and reduce the print quality.

2. Open rear tray cover (A). Pull straight up and fold back paper support (B).
3. Open the feed slot cover (C).

4. Slide right paper guide (D) to open both paper guides.

5. Load paper stack in portrait orientation WITH PRINT SIDE FACING UP.
6. Slide right paper guide (D) to align with both sides of paper stack.
   Do not slide the paper guides too hard against the paper. The paper may not be fed properly.

---

**Important**

- Always load paper in portrait orientation (E). Loading paper in landscape orientation (F) can cause paper jams.

---

**Note**

- Do not load sheets of paper higher than the load limit mark (G).
7. Close feed slot cover (C) gently.

**Important**

- If the feed slot cover is open, paper cannot be fed. Be sure to close the feed slot cover.

After closing the feed slot cover, the paper setting confirmation screen for the rear tray appears on the touch screen.

8. If page size and media type on touch screen match size and type of paper loaded in rear tray, select **Yes**.

   If not, select **Change** to change the settings in accordance with the size and type of the loaded paper.
9. Open operation panel (H), pull out paper output tray (I) and paper output support (J), and then open output tray extension (K).

Be sure to open the operation panel before printing. If the operation panel is close, the printer does not start printing.

Note

• There are various types of paper, such as paper with a special surface coating for printing photos at optimal quality and paper suitable for documents. Each media type has specific preset settings (how ink is used and sprayed, distance from nozzles, etc.), that allow you to print to that type with optimal image quality. The wrong paper settings may cause poor printout color quality or scratches on the printed surface. If you notice blurring or uneven colors, increase the print quality setting and try printing again.

• To prevent incorrect printing, this printer has a function that detects whether the settings for the paper loaded on the rear tray matches the paper settings. Before printing, make print settings in accordance with the paper settings. When this function is enabled, an error message is displayed if these settings do not match to prevent incorrect printing. When this error message is displayed, check and correct the paper settings.
Loading Paper in the Cassette

You can load A4, B5, A5, or Letter-sized plain paper in the cassette.

**Note**

- In the cassette, be sure to load only plain paper.
- You can use general copy paper or Canon Red Label Superior WOP111/Canon Océ Office Colour Paper SAT213.

For the page size and paper weight you can use for this printer, see [Supported Media Types](#).

1. Prepare paper.

   Align the edges of paper. If paper is curled, flatten it.

   ![Aligning paper](image)

   **Note**

   - Align the edges of paper neatly before loading. Loading paper without aligning the edges may cause paper jams.
   - If paper is curled, hold the curled corners and gently bend them in the opposite direction until the paper becomes completely flat.

   For details on how to flatten curled paper, see [Check3 in Paper Is Smudged / Printed Surface Is Scratched](#).

2. Pull out the cassette (A) from the printer.

3. Remove the cassette cover (B).
4. Slide paper guides (C) in front and (D) on right to open guides.

5. Load paper stack in portrait orientation WITH PRINT SIDE FACING DOWN, and place it in center of cassette.

**Important**

- Always load paper in portrait orientation (E). Loading paper in landscape orientation (F) can cause paper jams.

**Note**

- Align the paper stack with the edge of the cassette as shown in the figure below. If the paper stack is in contact with the protrusion (G), the paper may not be fed properly.
6. Slide front paper guide (C) to align it with paper stack.
   Align paper guide with where it clicks into place.

7. Slide right paper guide (D) to align it with paper stack.
   Do not slide the paper guide too hard against the paper. The paper may not be fed properly.

**Note**

- Do not load sheets of paper higher than the load limit mark (H).
- Keep the paper stack height below the tabs (I) of the paper guides.
8. Mount cassette cover (B) and insert cassette into printer.

Push the cassette into the printer until it stops.

After inserting the cassette into the printer, the paper setting confirmation screen for the cassette appears on the touch screen.

9. If page size on touch screen matches size of paper loaded in cassette, select Yes.

If not, select Change to change the setting in accordance with the size of the loaded paper.

10. Open operation panel (J), pull out paper output tray (K) and paper output support (L), and then open output tray extension (M).

Be sure to open the operation panel before printing. If the operation panel is close, the printer does not start printing.
**Note**

- To prevent incorrect printing, this printer has a function that detects whether the settings for the paper loaded in the cassette matches the paper settings. Before printing, make print settings in accordance with the paper settings. When this function is enabled, an error message is displayed if these settings do not match to prevent incorrect printing. When this error message is displayed, check and correct the paper settings.

- When the cassette is pulled out, it automatically extends. To shorten the extended cassette, push it in while pulling lever (N).
Loading Envelopes in Rear Tray

You can load Envelope DL and Envelope Com 10 on the rear tray.

The address is automatically rotated and printed according to the envelope's direction by specifying with the printer driver properly.

**Important**

- Printing of envelopes from the operation panel or from a PictBridge (Wi-Fi) compliant device is not supported.

- Do not use the following envelopes. They could jam in the printer or cause the printer to malfunction.
  - Envelopes with an embossed or treated surface
  - Envelopes with a double flap
  - Envelopes whose gummed flaps are already moistened and adhesive

1. Prepare envelopes.
   - Press down on all four corners and edges of the envelopes to flatten them.

   ![Flatten Envelopes]

   - If the envelopes are curled, hold the opposite corners and gently twist them in the opposite direction.

   ![Twist Envelopes]

   - If the corner of the envelope flap is folded, flatten it.

   - Use a pen to press the leading edge in the inserting direction flat and sharpen the crease.

![Fold and Press Envelope]

The figures above show a side view of the leading edge of the envelope.

**Important**

- The envelopes may jam in the printer if they are not flat or the edges are not aligned. Make sure that no curl or puff exceeds 0.12 inch (3 mm).

2. Open rear tray cover (A). Pull straight up and fold back paper support (B).
3. Open the feed slot cover (C).

4. Slide right paper guide (D) to open both paper guides.

5. Load envelopes in portrait orientation WITH PRINT SIDE FACING UP.
   
   Up to 10 envelopes can be loaded at once.
   
   Fold flap of the envelope and load the envelope in portrait orientation with the address side facing up.

6. Slide right paper guide (D) to align with both sides of envelopes.
Do not slide the paper guides too hard against the envelopes. The envelopes may not be fed properly.

**Note**

- Do not load envelopes higher than the load limit mark (E).

7. Close feed slot cover (C) gently.

**Important**

- If the feed slot cover is open, paper cannot be fed. Be sure to close the feed slot cover.
After closing the feed slot cover, the paper setting confirmation screen for the rear tray appears on the touch screen.

8. If page size and media type shown on touch screen match size and type of envelopes loaded in rear tray, select Yes.

If not, select Change to change the settings in accordance with the size and type of the loaded envelopes.

9. Open operation panel (F), pull out paper output tray (G) and paper output support (H), and open output tray extension (I).

Be sure to open the operation panel before printing. If the operation panel is close, the printer does not start printing.
Note

- To prevent incorrect printing, this printer has a function that detects whether the settings for the paper loaded on the rear tray matches the paper settings. Before printing, make print settings in accordance with the paper settings. When this function is enabled, an error message is displayed if these settings do not match to prevent incorrect printing. When this error message is displayed, check and correct the paper settings.
Loading Originals

- Loading Originals on Platen
- Loading Based on Use
- Supported Originals
- How to Detach / Attach the Document Cover
1. Open the document cover.

2. Load original WITH SIDE TO SCAN FACING DOWN on platen.

   ➜ Loading Based on Use
   ➜ Supported Originals

---

**Important**

- Be sure to observe the following when loading the original on the platen.
  Failure to observe the following may cause the scanner to malfunction or the platen glass to break.
  - Do not place any objects weighing 4.4 lb (2.0 kg) or more on the platen glass.
  - Do not put any pressure of 4.4 lb (2.0 kg) or more on the platen glass, such as pressing down the original.

3. Close the document cover gently.
Important

• After loading the original on the platen, be sure to close the document cover before starting to copy or scan.
## Loading Based on Use

Load the original in the correct position according to the function to use. If you do not load the original correctly, it may not be scanned properly.

### Note

- For details on how to scan from the computer and how to load originals, see below.
  - For Windows:
    - ![Scanning from Computer (Windows)](#)
  - For macOS:
    - ![Scanning from Computer (macOS)](#)
Loading the Original to Be Aligned with the alignment mark

Place the original WITH THE SIDE TO SCAN FACING DOWN on the platen and align it with the alignment mark. Portions placed on the diagonally striped area cannot be scanned.

Important

- The printer cannot scan the striped area (A) (0.04 inch (1 mm) from the edges of the platen glass).

Loading Only One Original in Center of Platen

Place the original WITH THE SIDE TO SCAN FACING DOWN, with 0.40 inch (1 cm) or more space between the edges (diagonally striped area) of the platen. Portions placed on the diagonally striped area cannot be scanned.
Loading Two or More Originals on Platen

Place the originals WITH THE SIDE TO SCAN FACING DOWN. Allow 0.40 inch (1 cm) or more space between the edges (diagonally striped area) of the platen and the originals, and between the originals. Portions placed on the diagonally striped area cannot be scanned.

You can place up to 12 items.

B: More than 0.40 inch (1 cm)

Note

- The Skew Correction function automatically compensates for the originals placed at an angle of up to approximately 10 degrees. Slanted photos with a long edge of 7.1 inches (180 mm) or more cannot be corrected.
- Non-rectangular or irregular shaped photos (such as cut out photos) may not be scanned properly.

</table>

### Note

- When loading a thick original such as a book on the platen, you can load it by removing the document cover from the printer.

  ➤ [How to Detach / Attach the Document Cover](#)
How to Detach / Attach the Document Cover

Detaching the document cover:
Hold up the document cover in portrait orientation and then tip it back.

Attaching the document cover:
Fit both hinges (A) of the document cover into the holder (B) and insert both hinges of the document cover vertically as illustrated below.
Replacing Ink Tanks

- Replacing Ink Tanks
- Checking Ink Status on the Touch Screen
- Ink Tips
Replacing Ink Tanks

When remaining ink cautions or errors occur, the message will appear on the touch screen to inform you of the error. In this state, the printer cannot print or scan. Take appropriate action according to the message.

- **An Error Occurs**

- **Note**
  - If print results become faint or white streaks appear despite sufficient ink levels, see Maintenance Procedure.
  - For precautionary notes on handling ink tanks, see Notes on ink tanks.

Replacing Procedure

When you need to replace an ink tank, follow the procedure below.

1. **Check that printer is turned on.**

2. Open the scanning unit / cover.
   
The print head holder moves to the replacement position.

   ![Image of printer with scanning unit open]

- **Caution**
  - Do not hold the print head holder to stop or move it forcibly. Do not touch the print head holder until it stops completely.

- **Important**
  - Do not touch the metallic parts or other parts inside the printer.
  - If the scanning unit / cover is left open for more than 10 minutes, the print head holder moves to the right. In this case, close and reopen the scanning unit / cover.

3. **Remove the ink tank where the ink runs out.**
   
   Push the tab (A) and lift the ink tank to remove.
Important

- Do not touch other parts besides the ink tanks.
- Handle the ink tank carefully to avoid staining of clothing or the surrounding area.
- Discard the empty ink tank according to the local laws and regulations regarding disposal of consumables.

Note

- Do not remove two or more ink tanks at the same time. Be sure to replace ink tanks one by one when replacing two or more ink tanks.

4. Take a new ink tank out of its package, remove the orange tape (B) completely, then remove the protective film (C) completely.

Important

- Handle an ink tank carefully. Do not drop or apply excessive pressure to it.
- If the orange tape remains on the Y-shape air hole (D), ink may splash or the printer may not print properly.
5. Hold the ink tank with the orange protective cap (E) pointing up while being careful not to block the Y-shape air hole (D).

![Image of ink tank and protective cap]

6. Lift up the tab on the orange protective cap (E) to remove it off GENTLY.

![Image of protective cap being removed]

**Important**
- Do not push the sides of the ink tank. If you push the sides of the ink tank with the Y-shape air hole (D) blocked, ink may splash.
- Do not touch the inside of the orange protective cap (E) or the open ink port (F). The ink may stain your hands if you touch them.
- Do not reattach the protective cap (E) once you have removed it. Discard it according to the local laws and regulations regarding disposal of consumables.

7. Insert the front end of the ink tank into the print head at a slant.

Make sure that the position of the ink tank matches the label.
8. Press on the top of the ink tank until the ink tank snaps firmly into place.

Important

• You cannot print if the ink tank is installed in the wrong position. Be sure to install the ink tank in the correct position according to the label on the print head holder.

• You cannot print unless all the ink tanks are installed. Be sure to install all the ink tanks.

9. Close the scanning unit / cover.

To close the scanning unit / cover, hold it up once, then take it down gently.
**Caution**

- When closing the scanning unit / cover, be careful not to get your fingers caught.

**Note**

- If the error message appears after the scanning unit / cover is closed, take appropriate action.
  
  ➤ *An Error Occurs*

- When you start printing after replacing the ink tank, the printer starts cleaning the print head automatically. Do not perform any other operations until the printer completes the cleaning of the print head.

- If the print head is out of alignment, as indicated by misaligned printed ruled lines or similar symptoms, *align the print head*.

- The printer may make noise during operation.

**Notes on ink tanks**

**Important**

- If you remove an ink tank, replace it immediately. Do not leave the printer with the ink tank removed.

- Use a new ink tank for replacement. Installing a used ink tank may cause the nozzles to clog. Furthermore, with such an ink tank, the printer will not be able to inform you when to replace the ink tank properly.

- Once an ink tank has been installed, do not remove it from the printer and leave it out in the open. This will cause the ink tank to dry out, and the printer may not operate properly when it is reinstalled. To maintain optimal printing quality, use an ink tank within six months of first use.

**Note**

- Color ink may be consumed even when printing a black-and-white document or when black-and-white printing is specified. Every ink is also consumed in the standard cleaning and deep cleaning of the print head, which may be necessary to maintain the performance of the printer.

  When an ink tank is out of ink, replace it immediately with a new one.

  ➤ *Ink Tips*
Checking Ink Status on the Touch Screen

1. Make sure that the power is turned on, and display the HOME screen.
   If the HOME screen is not displayed, press the HOME button to display it.

2. Select \( \text{(Hint)} \) on HOME screen.
   - Using the Operation Panel
   The hint menu screen will appear.

3. Select \( \text{Estimated ink levels} \).
   A symbol appears in the area A if there is any information about the remaining ink level.

   Example: \( \text{!!!} \)
   The ink is running low. Prepare a new ink tank.
   The resulting print quality may not be satisfactory, if printing is continued under this condition.

   **Note**
   - The above screen shows estimated ink levels.
   - To access the ink purchasing site, select Order ink now on this screen and display the QR code.
     Cost of connecting to Internet is to be born by the customer.
   - Selecting Ink number displays the Ink number screen for checking ink numbers.
   - You can also check the ink status on a screen of the touch screen displayed while printing.
   - You can also check the ink status on the computer screen.
     - For Windows:
       - Checking Ink Status from Your Computer
     - For macOS:
       - Checking Ink Status from Your Computer
Ink Tips

How is ink used for various purposes other than printing?

Ink may be used for purposes other than printing.

When you use the Canon printer for the first time after you install the bundled ink tanks, the printer consumes a small amount of ink in the amount to enable printing by filling the nozzles of the Print Head with ink. For this reason, the number of sheets that can be printed with the first ink tanks is fewer than the succeeding ink tanks.

The printing costs described in the brochures or websites are based on the consumption data from not the first ink tank /ink cartridge but the succeeding ink tank /ink cartridge.

Ink is sometimes used to maintain the optimal printing quality.

To keep printer's performance, Canon printer performs cleaning automatically according to its condition. When the printer performs cleaning, a small amount of ink is consumed. In this case, all colors of ink may be consumed.

[Cleaning function]

The cleaning function helps the printer to suck air bubbles or ink itself from the nozzle and thus prevents print quality degradation or nozzle clogging.

Does black-and-white printing use color ink?

Black-and-white printing may use ink other than black ink depending on the type of printing paper or the settings of the printer driver. So, color ink is consumed even when printing in black-and-white.

Why does the printer have two black ink tanks?

There are two kinds of black ink in the printer: dye ink (BK) and pigment ink (PGBK).

The dye ink is used mainly for printing photos, illustration, etc., and the pigment ink is used for text-based documents. Each has different purposes so that even if one runs out, another will not be used instead. If either of them runs out, the ink tank replacement is required.

These two inks are automatically used depending on the type of printing paper or the settings of the printer driver. You cannot change the usage of these inks yourself.
If Printing Is Faint or Uneven

- Maintenance Procedure
- Printing the Nozzle Check Pattern
- Examining the Nozzle Check Pattern
- Cleaning the Print Head
- Deep Print Head Cleaning
- Aligning the Print Head
Maintenance Procedure

If print results are blurred, colors are not printed correctly, or print results are unsatisfactory (e.g. misaligned printed ruled lines), perform the maintenance procedure below.

**Important**

- Do not rinse or wipe the print head and ink tank. This can cause trouble with the print head and ink tank.

**Note**

- Make sure that the orange protective tape does not remain on the ink tank.

- Check the ink status.
  - Checking Ink Status on the Touch Screen

- For Windows, increasing the print quality in the printer driver settings may improve the print result.
  - Changing the Print Quality and Correcting Image Data

**When the Print Results Are Blurred or Uneven:**

**Step1** Print the nozzle check pattern.

From the printer
  - Printing the Nozzle Check Pattern

From the computer
  - For Windows:
    - Printing a Nozzle Check Pattern
  - For macOS:
    - Printing a Nozzle Check Pattern

**Step2** Examine the nozzle check pattern.

If there are missing lines or horizontal white streaks in the pattern:
Step3: Clean the print head.

From the printer

⇒ Cleaning the Print Head

From the computer

• For Windows:
  ⇒ Cleaning the Print Heads
• For macOS:
  ⇒ Cleaning the Print Heads

After cleaning the print head, print and examine the nozzle check pattern: ⇒ Step1

If the problem is not resolved after performing from step 1 to step 3 twice:

Step4: Clean the print head deeply.

From the printer

⇒ Deep Print Head Cleaning

From the computer

• For Windows:
  ⇒ Cleaning the Print Heads
• For macOS:
  ⇒ Cleaning the Print Heads

Note

• When you have performed the procedure until step 4 and the problem has not been resolved, turn off the power and clean the print head deeply again after 24 hours.

  If the problem is still not resolved, the print head may be damaged. Contact your nearest Canon service center to request a repair.

When the Print Results Are Not Even such as the Ruled Lines Are Misaligned:

Step: Align the print head.

From the printer

⇒ Aligning the Print Head

From the computer

• For Windows:
  ⇒ Adjusting Print Head Position Manually
• For macOS:
Adjusting Print Head Position
Printing the Nozzle Check Pattern

Print the nozzle check pattern to determine whether the ink ejects properly from the print head nozzle.

Note

• If the remaining ink level is low, the nozzle check pattern will not be printed correctly. Replace the ink tank whose ink is low.

You need to prepare: a sheet of A4 or Letter-sized plain paper

1. Check that printer is turned on.

2. Load a sheet of A4 or Letter-sized plain paper in the cassette.

   After inserting the cassette into the printer, the paper setting confirmation screen appears on the touch screen. If the page size shown on the touch screen is A4 or Letter, select Yes. If not, select Change and change the page size to A4 or Letter.

   ![Current cassette setting. Please confirm.]

   - A4
   - Plain paper

   - Change
   - Yes

   Note

   • Be sure to load paper in the cassette. If you load paper on the rear tray, the nozzle check pattern is not printed.

3. Open the operation panel, then pull out the paper output tray.

4. Select (Setup) on HOME screen.

   ➤ Using the Operation Panel

   The setup menu screen will appear.

5. Select Maintenance.

   The Maintenance screen will appear.

6. Select Print nozzle check pattern.
The confirmation screen will appear.

7. **Select Yes.**
   The nozzle check pattern will be printed and two pattern confirmation screens will appear on the touch screen.

8. **Examine the nozzle check pattern.**
Examining the Nozzle Check Pattern

Examine the nozzle check pattern, and clean the print head if necessary.

1. Check if there are missing lines in the pattern C or horizontal white streaks in the pattern D.

   A: No missing lines/No horizontal white streaks
   B: Lines are missing/Horizontal white streaks are present

2. Select the pattern that is closer to the printed nozzle check pattern on the confirmation screen.

   For A (no missing lines or no horizontal white streaks) in both the pattern C and pattern D:
   The cleaning is not required. Select All A, confirm the message, then select OK.
   The screen will return to the Maintenance screen.

   For B (lines are missing or horizontal white streaks are present) in the pattern C or pattern D, or in both patterns:
   The cleaning is required. Select Also B, then select Yes on the cleaning confirmation screen.
The printer starts cleaning the print head.

- Cleaning the Print Head

If the pattern D or any color in the pattern C is not printed:

| : | : | : | : |

(Example: Magenta pattern is not printed)

The cleaning is required. Select Also B, then select Yes on the cleaning confirmation screen.

The printer starts cleaning the print head.

- Cleaning the Print Head
Cleaning the Print Head

Clean the print head if lines are missing or if horizontal white streaks are present in the printed nozzle check pattern. Cleaning unclogs the nozzles and restores the print head condition. Cleaning the print head consumes ink, so clean the print head only when necessary.

You need to prepare: a sheet of A4 or Letter-sized plain paper

1. Check that printer is turned on.

2. Load a sheet of A4 or Letter-sized plain paper in the cassette.

   After inserting the cassette into the printer, the paper setting confirmation screen appears on the touch screen. If the page size shown on the touch screen is A4 or Letter, select Yes. If not, select Change and change the page size to A4 or Letter.

3. Open the operation panel, then pull out the paper output tray.

4. Select (Setup) on HOME screen.  
   → Using the Operation Panel
   The setup menu screen will appear.

5. Select Maintenance.
   The Maintenance screen will appear.

6. Select Cleaning.
7. **Select Yes.**

The printer starts cleaning the print head.

Do not perform any other operations until the printer completes the cleaning of the print head. This takes about 1 minute.

The pattern print confirmation screen will appear.

8. **Select Yes.**

The nozzle check pattern will be printed.

9. **Examine the nozzle check pattern.**

**Note**

- If the problem is not resolved after cleaning the print head twice, *[clean the print head deeply]*.
Deep Print Head Cleaning

If print quality does not improve by the standard cleaning of the print head, clean the print head deeply. Cleaning the print head deeply consumes more ink than the standard cleaning of the print head, so clean the print head deeply only when necessary.

You need to prepare: a sheet of A4 or Letter-sized plain paper

1. Check that printer is turned on.

2. Load a sheet of A4 or Letter-sized plain paper in the cassette.

   After inserting the cassette into the printer, the paper setting confirmation screen appears on the touch screen. If the page size shown on the touch screen is A4 or Letter, select Yes. If not, select Change and change the page size to A4 or Letter.

   ![Current cassette setting. Please confirm.](image)

   ![Change Yes](image)

   **Note**

   • Be sure to load paper in the cassette. If you load paper on the rear tray, the nozzle check pattern is not printed.

3. Open the operation panel, then pull out the paper output tray.

4. Select (Setup) on HOME screen.

   ➤ Using the Operation Panel

   The setup menu screen will appear.

5. Select Maintenance.

   The Maintenance screen will appear.

7. **Select Yes.**

The printer starts cleaning the print head deeply.

Do not perform any other operations until the printer completes the deep cleaning of the print head. This takes about 1 to 2 minutes.

The pattern print confirmation screen will appear.

8. **Select Yes.**

The nozzle check pattern will be printed.

9. **When the completion message appears, select OK.**

10. **Examine the nozzle check pattern.**

If a particular color is not printed properly, replace the ink tank of that color.

If the problem is not resolved, turn off the power and clean the print head deeply again after 24 hours.

If the problem is still not resolved, the print head may be damaged. Contact your nearest Canon service center to request a repair.
Aligning the Print Head

If printed ruled lines are misaligned or print results are otherwise unsatisfactory, adjust the print head position.

**Note**

- If the remaining ink level is low, the print head alignment sheet will not be printed correctly.
  
  Replace the ink tank whose ink is low.

You need to prepare: a sheet of A4 or Letter-sized plain paper

1. **Check that printer is turned on.**

2. **Load a sheet of A4 or Letter-sized plain paper in the cassette.**

   After inserting the cassette into the printer, the paper setting confirmation screen appears on the touch screen. If the page size shown on the touch screen is **A4** or **Letter**, select **Yes**. If not, select **Change** and change the page size to **A4** or **Letter**.

![Current cassette setting. Please confirm.](image)

   - **A4**
   - **Plain paper**

   ![Change Yes](image)

   **Note**

   - Be sure to load paper in the cassette. If you load paper on the rear tray, the print head alignment sheet is not printed.

3. **Open the operation panel, then pull out the paper output tray.**

4. **Select (Setup) on HOME screen.**

   ➤ **Using the Operation Panel**

   The setup menu screen will appear.

5. **Select **Maintenance**.**

   The **Maintenance** screen will appear.

6. **Select **Auto head alignment**.**
The confirmation screen will appear.

7. Confirm the message, then select Yes.

The print head alignment sheet will be printed.

---

The print head alignment sheet will be printed.

---

**Important**

- Do not touch any printed part on the print head alignment sheet. If the sheet is stained or wrinkled, it may not be scanned properly.

8. Check message and place print head alignment sheet on platen.

Place the print head alignment sheet WITH THE PRINTED SIDE FACING DOWN and align the mark on the upper left corner of the sheet with the alignment mark 🖼.
9. Close the document cover gently, then select OK.

The printer starts scanning the print head alignment sheet, and the print head position will be adjusted automatically.

**Important**

- Do not open the document cover or move the print head alignment sheet on the platen until adjusting the print head position is complete.
- If the error message appears on the touch screen, select OK to release the error, then take appropriate action.

  ➔ An Error Occurs

10. When the completion message appears, select OK.

Remove the print head alignment sheet on the platen.

**Note**

- For Windows, when the print results are still not satisfactory after adjusting the print head position as described above, adjust the print head position manually from the computer.

  ➔ Adjusting Print Head Position Manually

- To print and check the current head position adjustment values, select **Print the head alignment value** on the **Maintenance** screen.
Performing Maintenance Functions from Your Computer (macOS)

- Opening Remote UI for Maintenance
- Cleaning the Print Heads
- Adjusting Print Head Position
- Checking Ink Status from Your Computer
Opening Remote UI for Maintenance

You can perform maintenance of printer and change the settings from a Remote UI. The following is the procedure to open a Remote UI.

1. Open **System Preferences**, and select **Printers & Scanners**

2. Select your model from the printer list, and click **Options & Supplies...**

3. Click **Show Printer Webpage...** in **General** tab

   Remote UI starts.

   **Note**

   - The password may have to be entered after Remote UI starts. In such a case, enter the password and click **OK**. In case you do not know the password, click **About password and cookies**.

Related Topics

- Printing a Nozzle Check Pattern
- Managing the Printer Power
- Changing the Printer Operation Mode
- Reducing the Printer Noise
Cleaning the Print Heads

The print head cleaning function allows you to clear up clogged print head nozzle. Perform print head cleaning if printing is faint or a specific color fails to print, even though there is enough ink.

Cleaning

1. Select **Utilities** from **Remote UI**

2. Click **Cleaning**

   Before running the cleaning, check the following items:
   - Check whether the printer is on and open the printer's scanning unit / cover.
   - Check the following items for each ink. Then, if necessary, perform **Cleaning**.
     - Is there ink remaining in the tank?
     - Did you push in the ink tank completely until you heard a clicking sound?
     - If the orange tape is there, has it been peeled off completely?
       Any remaining tape will hinder ink output.
     - Did you install the ink tanks in their correct positions?

3. Execute cleaning

   Click **Yes**.

   Print head cleaning starts.

4. Complete cleaning

   Next, the message for nozzle check pattern printing is displayed.

5. Check the results

   To check whether the print quality has improved, click **Yes**. To cancel the check process, click **No**.

   If cleaning the head once does not resolve the print head problem, clean it once more.

**Important**

- **Cleaning** consumes a small amount of ink.
  Cleaning the print head frequently will rapidly deplete your printer's ink supply. Consequently, perform cleaning only when necessary.

Deep cleaning

**Deep cleaning** is more thorough than cleaning. Perform deep cleaning when two **Cleaning** attempts do not resolve the print head problem.

1. Select **Utilities** from **Remote UI**
2. Click **Deep cleaning**

Before running the deep cleaning, check the following items:

Check whether the printer is on and open the printer’s scanning unit / cover.

Check the following items for each ink. Then, if necessary, perform **Deep cleaning**.

- **Is there ink remaining in the tank?**
- Did you push in the ink tank completely until you heard a clicking sound?
- If the orange tape is there, has it been peeled off completely?
- Any remaining tape will hinder ink output.
- Did you install the ink tanks in their correct positions?

3. Execute deep cleaning

Click **Yes**.

Print head deep cleaning starts.

4. Complete deep cleaning

Next, the message for nozzle check pattern printing is displayed.

5. Check the results

To check whether the print quality has improved, click **Yes**. To cancel the check process, click **No**.

### Important

- **Deep cleaning** consumes a larger amount of ink than **Cleaning**.
  
Cleaning the print head frequently will rapidly deplete your printer’s ink supply. Consequently, perform cleaning only when necessary.

### Note

- If there is no sign of improvement after **Deep cleaning**, turn off the printer, wait 24 hours, and then perform **Deep cleaning** again. If there is still no sign of improvement, the ink may have run out or the print head may be worn. For details on the remedial action to be taken, see "**Ink Does Not Come Out**."

### Related Topic

- Printing a Nozzle Check Pattern
Adjusting Print Head Position

Any error in the print head installation position can cause color and line shifts. Adjusting the print head position improves print results.

Auto head alignment

1. Select Utilities from Remote UI

2. Click Auto head alignment
   A message appears.

3. Load paper in printer
   In the cassette, load 1 sheet of plain A4-sized or Letter-sized paper.

4. Run head position adjustment
   Check that the printer power is on, and then click Yes.
   Head alignment starts. Proceed with the operations in accordance with the messages on the screen.

>>> Important
   • Do not open the scanning unit / cover while printing is in progress; otherwise, printing will stop.

>>> Note
   • You can print and check the current settings by clicking on Print the head alignment value.
Checking Ink Status from Your Computer

You can check the detailed information such as the remaining ink level and the ink tank types of your model.

If you select **Printer status** from **Remote UI**, the ink status appears as an illustration.

**Estimated ink levels**
You can check the types and levels of ink.
When ink levels are running low or an error occurs because there is no ink, a notification icon will appear.

**Ink number**
You can look up the correct ink tank for your printer.

**Note**
- To check the ink status, you can also display the pop-up menu of the Print dialog and select **Supply Levels**.
Cleaning

- Cleaning Exterior Surfaces
- Cleaning Platen and Document Cover
- Cleaning Paper Feed Rollers
- Cleaning Inside the Printer (Bottom Plate Cleaning)
- Cleaning Cassette Pads
Cleaning Paper Feed Rollers

If the paper feed roller is dirty or paper powder is attached to it, paper may not be fed properly. In this case, clean the paper feed roller. Cleaning will wear out the paper feed roller, so perform this only when necessary.

You need to prepare: three sheets of A4 or Letter-sized plain paper

1. Check that printer is turned on.

2. Select (Setup) on HOME screen.

   ➤ Using the Operation Panel

   The setup menu screen will appear.

3. Select Maintenance.

   The Maintenance screen will appear.

4. Select Roller cleaning.

   The confirmation screen will appear.

5. Select Yes.

6. Select Rear tray or Cassette to clean the paper feed roller.

7. Follow the message to remove any paper from the paper source.

   If you clean the paper feed roller of cassette, remove any paper from the cassette, then push it back.

8. Select OK.

   The paper feed roller will rotate as it is cleaned without paper.
9. Make sure that the paper feed roller has stopped rotating, then follow the message to load the three sheets of A4 or Letter-sized plain paper.

10. Open the operation panel, then pull out the paper output tray.

11. Select OK.

   The printer starts cleaning. The cleaning will be complete when the paper is ejected.

12. When the completion message appears, select OK.

If the problem is not resolved after cleaning the paper feed roller, contact your nearest Canon service center to request a repair.
Cleaning Inside the Printer (Bottom Plate Cleaning)

Remove stains from the inside of the printer. If the inside of the printer becomes dirty, printed paper may get dirty, so we recommend performing cleaning regularly.

You need to prepare: a sheet of A4 or Letter-sized plain paper*

* Be sure to use a new piece of paper.

1. Check that printer is turned on.

2. Select (Setup) on HOME screen.

   ➔ Using the Operation Panel

   The setup menu screen will appear.

3. Select Maintenance.

   The Maintenance screen will appear.

4. Select Bottom plate cleaning.

   The confirmation screen will appear.

5. Select Yes.

6. Follow the message to remove any paper from the cassette, then select OK.

7. Fold a single sheet of A4 or Letter-sized plain paper in half widthwise, then unfold the paper.

8. Fold one side of the opened paper in another half, aligning the edge with the center crease, unfold the paper, then select OK.
9. Load only this sheet of paper in the cassette with the ridges of the creases facing up and
the edge of the half with no crease facing to the far side.

10. Mount cassette cover (A) and insert cassette into printer.

11. Open the operation panel, then pull out the paper output tray.

12. Select OK.
   The paper cleans the inside of the printer as it feeds through the printer.
   Check the folded parts of the ejected paper. If they are smudged with ink, perform Bottom Plate Cleaning
   again.

13. When the completion message appears, select OK.

   **Note**
   • When performing Bottom Plate Cleaning again, be sure to use a new piece of paper.
If the problem is not resolved after performing cleaning again, the protrusions inside the printer may be stained. Wipe off any ink from the protrusions using a cotton swab or the like.

**Important**

- Be sure to turn off the power and unplug the power cord before cleaning the printer.

Safety Precautions

This manual contains important notices and safety precautions about your printer.

Do not use the printer in ways other than described in the accompanying manuals, as this may result in fire, electric shock or other unexpected accidents.

Safety standard marks and declarations are only valid for the supported voltages and frequencies in the applicable countries or regions.

**Warning**

- Users with cardiac pacemakers:
  
  This product emits a low-level magnetic flux. If you feel abnormalities, please move away from the product and consult your doctor.

- Do not use the printer in the following cases:
  
  Stop use immediately, unplug the printer and call your local service representative to request repair.
  
  - Metal objects or liquids are spilt inside the printer.
  - The printer emits smoke, strange odors, or makes unusual noises.
  - The power cord or plug overheat or are broken, bent or damaged in any way.

- Failure to adhere to the following may result in fire, electric shock, or injury:
  
  - Do not place product close to the flammable solvents such as alcohol or thinner.
  - Do not open or modify the printer.
  - Use only the power cord/cables that came with your printer. Do not use these cables with other devices.
  - Do not plug in to voltages or frequencies other than those specified.
  - Plug the power cord into the socket completely.
  - Do not plug in or unplug the power cord with wet hands.
  - Do not damage the power cord by twisting, bundling, tying, pulling or excessively bending it.
  - Do not place heavy objects on the power cord.
  - Do not connect multiple power cords to a single electrical outlet. Do not use multiple extension cords.
  - Do not leave the printer plugged in during lightning storms.
  - Always unplug the power cord and cables when cleaning. Do not use flammable sprays or liquids such as alcohol or thinners for cleaning.
  - Unplug the power cord once a month to check that it is not overheating, rusted, bent, scratched, split, or otherwise damaged.

**Caution**

- Do not put your hands inside the printer while printing.
- Do not touch the print head or other metal parts immediately after printing.
- Ink
  
  - Keep ink out of reach of children.
  - If ink is accidentally licked or swallowed, rinse out your mouth and drink one or two glasses of water. If irritation or discomfort occurs, obtain medical advice immediately.
• In case ink gets in contact with eyes, rinse with water immediately. In case ink gets in contact with skin, wash with soap and water immediately. If irritation to eyes or skin persists, obtain medical advice immediately.

• Moving the printer
  • Do not hold the printer by the cassette. Hold the printer by its sides and carry it with both hands.

---

**General Notices**

**Choosing a Location**

Refer to "Specifications" in the Online manual for details on operating environment.

• Do not install the printer in a location that is unstable or subject to excessive vibration.
• Do not install the printer in locations that get very hot (direct sunlight, or close to a heating source), very humid or dusty locations, or outdoors.
• Do not place the printer on a thick rug or carpet.
• Do not place the printer flush against a wall.

**Power Supply**

• Keep the area around the power outlet clear at all times so you can easily unplug the power cord if necessary.
• Never remove the plug by pulling on the cord.

**General Notices**

• Do not tilt the printer, stand it on end, or turn it upside down. This may cause ink to leak.
• Do not place anything on top of the printer. Be especially careful to avoid metal objects such as paper clips and staples, and containers holding flammable liquids such as alcohol or thinner.
• Do not apply excessive pressure when placing large objects on the platen glass.
• Do not attempt to open, disassemble or modify the ink tanks. Ink may leak and damage your printer.
• Do not throw print heads or ink tanks in the fire.
Users in the U.S.A.

FCC Notice (U.S.A. Only)
For 120V, 60Hz model
Model Number: K10482 (Contains FCC Approved WLAN Module K30365, FCC Approved Bluetooth K30375)

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Use of a shielded cable is required to comply with Class B limits in Subpart B of Part 15 of the FCC Rules. Do not make any changes or modifications to the equipment unless otherwise specified in the manual. If such changes or modifications should be made, you could be required to stop operation of the equipment.

FCC ID:AZDK30365, AZDK30375

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate equipment.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

The equipment complies with FCC radiation exposure limits for at uncontrolled equipment. This equipment should be installed and operated with minimum distance at least 20cm between the radiator and persons body (excluding extremities: hands, wrists, feet and ankles) and must not be colocated or operated with any other antenna or transmitter.

Interference

Do not use the printer around medical equipment or other electronic devices. Signals from the printer may interfere with the correct operation of these devices.
Only for European Union and EEA (Norway, Iceland and Liechtenstein)

This symbol indicates that this product is not to be disposed of with your household waste, according to the WEEE Directive (2012/19/EU) and national legislation. This product should be handed over to a designated collection point, e.g., on an authorized one-for-one basis when you buy a new similar product or to an authorized collection site for recycling waste electrical and electronic equipment (EEE). Improper handling of this type of waste could have a possible negative impact on the environment and human health due to potentially hazardous substances that are generally associated with EEE. At the same time, your cooperation in the correct disposal of this product will contribute to the effective usage of natural resources. For more information about where you can drop off your waste equipment for recycling, please contact your local city office, waste authority, approved WEEE scheme or your household waste disposal service. For more information regarding return and recycling of WEEE products, please visit www.canon-europe.com/weee.

Nur für Europäische Union und EWR (Norwegen, Island und Liechtenstein)

Union Européenne, Norvège, Islande et Liechtenstein uniquement.
Ce symbole indique que ce produit ne doit pas être jeté avec les ordures ménagères, conformément à la directive DEEE (2012/19/UE) et à la réglementation de votre pays. Ce produit doit être confié au distributeur à chaque fois que vous achetez un produit neuf similaire, ou à un point de collecte mis en place par les collectivités locales pour le recyclage des Déchets des Équipements Électriques et Électroniques (DEEE). Le traitement inapproprié de ce type de déchet risque d'avoir des répercussions sur l'environnement et la santé humaine, du fait de la présence de substances potentiellement dangereuses généralement associées aux équipements électriques et électroniques. Parallèlement, votre entière coopération dans le cadre de la mise au rebut correcte de ce produit favorisera une meilleure utilisation des ressources naturelles. Pour plus d'informations sur les points de collecte des équipements à recycler, contactez vos services municipaux, les autorités locales compétentes, le plan DEEE approuvé ou le service d'enlèvement des ordures ménagères. Pour plus d'informations sur le retour et le recyclage des produits DEEE, consultez le site: www.canon-europe.com/weee.

**Uitsluitend bestemd voor de Europese Unie en EER (Noorwegen, IJsland en Liechtenstein)**

Dit symbool geeft aan dat dit product in overeenstemming met de AEEA-richtlijn (2012/19/EU) en de nationale wetgeving niet mag worden afgevoerd met het huishoudelijk afval. Dit product moet worden ingeleverd bij een aangewezen, geautoriseerd inzamelpunt, bijvoorbeeld wanneer u een nieuw gelijksoortig product aanschaft, of bij een geautoriseerd inzamelpunt voor hergebruik van elektrische en elektronische apparatuur (EEA). Een onjuiste afvoer van dit type afval kan leiden tot negatieve effecten op het milieu en de volksgezondheid als gevolg van potentieel gevaarlijke stoffen die veel voorkomen in elektrische en elektronische apparatuur (EEA). Bovendien werkt u door een juiste afvoer van dit product mee aan het effectieve gebruik van natuurlijke hulpbronnen. Voor meer informatie over waar u uw afgedankte apparatuur kunt inleveren voor recycling kunt u contact opnemen met het gemeentehuis in uw woonplaats, de reinigingsdienst, of het afvalverwerkingsbedrijf. U kunt ook het schema voor de afvoer van afgedankte elektrische en elektronische apparatuur (EEA) raadplegen. Ga voor meer informatie over het inzamelen en recyclen van afgedankte elektrische en elektronische apparatuur naar www.canon-europe.com/weee.

**Sólo para la Unión Europea y el Área Económica Europea (Noruega, Islandia y Liechtenstein)**

Este símbolo indica que este producto no debe desecharse con los desperdicios domésticos, de acuerdo con la directiva RAEE (2012/19/UE) y con la legislación nacional. Este producto debe entregarse en uno de los puntos de recogida designados, como por ejemplo, entregándolo en el lugar de venta al comprar un producto similar o depositándolo en un lugar de recogida autorizado para el reciclado de residuos de aparatos eléctricos y electrónicos (RAEE). La manipulación inapropiada de este tipo de desechos podría tener un impacto negativo en el entorno y la salud humana, debido a las sustancias potencialmente
peligrosas que normalmente están asociadas con los RAEE. Al mismo tiempo, su cooperación a la hora
de desechar correctamente este producto contribuirá a la utilización eficaz de los recursos naturales. Para
más información sobre cómo puede eliminar el equipo para su reciclado, póngase en contacto con las
autoridades locales, con las autoridades encargadas de los desechos, con un sistema de gestión RAEE
autorizado o con el servicio de recogida de basuras doméstico. Si desea más información acerca de la
devolución y reciclado de RAEE, visite la web www.canon-europe.com/weee.

Només per a la Unió Europea i a l’Espai Econòmic Europeu (Noruega, Islàndia i Liechtenstein)

Aquest símbol indica que aquest producte no s'ha de llençar a les escombraries de la llar, d'acord amb la
Directiva RAEE (2012/19/UE) i la legislació nacional. Aquest producte s'hauria de lliurar en un dels punts
de recollida designats, com per exemple, intercanviant-lo un per un en comprar un producte similar o
lliurant-lo en un lloc de recollida autoritzat per al reciclatge de residus d'aparells elèctrics i electrònics
(AEE). La manipulació inadeguada d'aquest tipus de residus podria tenir un impacte negatiu en l'entorn i
en la salut humana, a causa de les substàncies potencialment perilloses que normalment estan
associades als AEE. Així mateix, la vostra cooperació a l'hora de llençar correctament aquest producte
contribuirà a la utilització efectiva dels recursos naturals. Per a més informació sobre els punts on podeu
lliurar aquest producte per procedir al seu reciclatge, adreça'-vos a la vostra oficina municipal, a les
autoritats encarregades dels residus, al pla de residus homologat per la RAEE o a l'airell de recollida de
deixalles domèstiques de la vostra localitat. Per a més informació sobre la devolució i el reciclatge de
productes RAEE, visiteu www.canon-europe.com/weee.

Solo per Unione Europea e SEE (Norvegia, Islanda e Liechtenstein)

Questo simbolo indica che il prodotto deve essere oggetto di raccolta separata in conformità alla Direttiva
RAEE (2012/19/UE) e alla normativa locale vigente. Il prodotto deve essere smaltito presso un centro di
raccolta differenziata, un distributore autorizzato che applichi il principio dell"uno contro uno", ovvero del
ritiro della vecchia apparecchiatura elettrica al momento dell'acquisto di una nuova, o un impianto
autorizzato al riconcangiamento dei rifiuti di apparecchiature elettriche ed elettroniche. La gestione impropria di
questo tipo di rifiuti può avere un impatto negativo sull'ambiente e sulla salute umana causato dalle
sostanze potenzialmente pericolose che potrebbero essere contenute nelle apparecchiature elettriche ed
elettroniche. Un corretto smaltimento di tali prodotti contribuirà inoltre a un uso efficace delle risorse
naturali ed eviterà di incorrere nelle sanzioni amministrative di cui all'art. 255 e successivi del Decreto
Legislativo n. 152/06. Per ulteriori informazioni sullo smaltimento e il recupero dei Rifiuti di
Apparecchiature Elettriche ed Elettroniche, consultare la Direttiva RAEE, rivolgersi alle autorità
competenti, oppure visitare il sito www.canon-europe.com/weee.
Apenas para a União Europeia e AEE (Noruega, Islândia e Liechtenstein)

Este símbolo indica que o produto não deve ser colocado no lixo doméstico, de acordo com a Directiva REEE (2012/19/UE) e a legislação nacional. Este produto deverá ser colocado num ponto de recolha designado, por exemplo, num local próprio autorizado quando adquirir um produto semelhante novo ou num local de recolha autorizado para reciclar resíduos de equipamentos eléctricos e electrónicos (EEE). O tratamento inadequado deste tipo de resíduo poderá causar um impacto negativo no ambiente e na saúde humana devido às substâncias potencialmente perigosas normalmente associadas aos equipamentos eléctricos e electrónicos. Simultaneamente, a sua cooperação no tratamento correcto deste produto contribuirá para a utilização eficaz dos recursos naturais. Para mais informações sobre os locais onde o equipamento poderá ser reciclado, contacte os serviços locais, a autoridade responsável pelos resíduos, o esquema REEE aprovado ou o serviço de tratamento de lixo doméstico. Para mais informações sobre a devolução e reciclagem de produtos REEE, vá a www.canon-europe.com/weee.

Endast för Europeiska unionen och EES (Norge, Island och Liechtenstein)

Pouze Evropská unie a EHP (Norsko, Island a Lichtenštejnsko)

Tento symbol znamená, že podle směrnice o OEEZ (2012/19/EU) a podle vnitrostátních právních předpisů nemá být tento výrobek likvidován s odpadem z domácností. Tento výrobek má být vrácen do sběrného místa, např. v rámci autorizovaného systému odběru jednoho výrobku za jeden nově prodaný podobný výrobek nebo v autorizovaném sběrném místě pro recyklaci odpadních elektrických a elektronických zařízení (OEEZ). Nevhodné nakládání s tímto druhem odpadu by mohlo mít negativní dopad na životní prostředí a lidské zdraví, protože elektrická a elektronická zařízení zpravidla obsahují potenciálně nebezpečné látky. Vaše spolupráce na správné likvidaci tohoto výrobku současně napomůže efektivnímu využívání přírodních zdrojů. Další informace o místech sběru vašeho odpadního zařízení k recyklaci vám sdělí místní úřad vaší obce, správní orgán vykonávající dozor nad likvidací odpadu, sběrny OEEZ nebo služba pro odvoz komunálního odpadu. Další informace týkající se vracení a recyklace OEEZ naleznete na adrese www.canon-europe.com/weee.

Csak az Európai Unió és az EGT (Norvégia, Izland és Liechtenstein) országaiban
Ez a szimbólum azt jelzi, hogy a helyi törvények és a WEEE-irányelv (2012/19/EU) szerint a termék nem kezelhető háztartási hulladékként. A terméket a kijelölt nyilvános gyűjtőpontokon kell leadni, például hasonló cserekészülék vásárlásakor, illetve bármelyik, elektromos és elektronikai berendezésekből származó hulladék (WEEE) átvétélére feljogosított gyűjtőponton. Az ilyen jellegű hulladékok a nem megfelelő kezelés esetén a bennük található veszélyes anyagok révén ártalmakat okozhatnak a környezetre és az emberek egészségére. Továbbá, a termékből származó hulladék megfelelő kezelésével a természeti nyersanyagok hatékonyabb hasznosításához. A berendezésekből származó, újrahasznosítható hulladékok elhelyezésére vonatkozó úgyhatározat és támogatásért forduljon a helyi önkormányzathoz, a közterület fenntartó vállalathoz, a háztartási hulladék begyűjtését végző vállalathoz, illetve a hivatalos WEEE-képviselethez.

Tylko dla krajów Unii Europejskiej oraz EOG (Norwegia, Islandia i Liechtenstein)

Ten symbol oznacza, że zgodnie z dyrektywą WEEE dotyczącą zużytego sprzętu elektrycznego i elektronicznego (2012/19/UE) oraz przepisami lokalnymi nie należy wyrzucać tego produktu razem z odpadami gospodarstwa domowego. Produkt należy przekazać do wyznaczonego punktu gromadzenia odpadów, np. firmy, od której kupowany jest nowy, podobny produkt lub do autoryzowanego punktu gromadzenia zużytego sprzętu elektrycznego i elektronicznego w celu poddania go recyklingowi. Usuwanie tego typu odpadów w nieodpowiedni sposób może mieć negatywny wpływ na otoczenie i zdrowie innych osób ze względu na niebezpieczne substancje stosowane w takim sprzęcie. Jednocześnie pozbycie się zużytego sprzętu w zalecany sposób przyczynia się do właściwego wykorzystania zasobów naturalnych. Aby uzyskać więcej informacji na temat punktów, do których można dostarczyć sprzęt do recyklingu, prosimy skontaktować się z lokalnym urzędem miasta, zakadem utylizacji odpadów, skorzystać z instrukcji zatwierdzonej dyrektywą WEEE lub skontaktować się z przedsiębiorstwem zajmującym się wywozem odpadów domowych. Więcej informacji o zwracaniu i recyklingu zużytego sprzętu elektrycznego i elektronicznego znajduje się w witrynie www.canon-europe.com/weee.

Platí len pre štáty Európskej únie a EHP (Nórsko, Island a Lichtenštajnsko)

Tento symbol znamená, že podľa Smernice 2012/19/EÚ o odpade z elektrických a elektronických zariadení (OEEZ) a podľa platnej legislatívy Slovenskej republiky sa tento produkt nesmie likvidovať spolu s komunálnym odpadom. Produkt je potrebné odovzdať do určenej zberne, napr. prostredníctvom výmeny za kúpu nového podobného produktu, alebo na autorizované zberné miesto, ktoré spracúva odpad z elektrických a elektronických zariadení (EEZ). Nesprávna manipulácia s takýmto typom odpadu môže mať negatívny vplyv na životné prostredie a ľudské zdravie, pretože elektrické a elektronické zariadenia obsahujú potenciálne nebezpečné látky. Spoluprácou na správnej likvidácii produktu prispejte.
k účinnému využívaniu prírodných zdrojov. Ďalšie informácie o mieste recyklácie opotrebovaných zariadení získate od miestneho úradu, úradu životného prostredia, zo schváleného plánu OEEZ alebo od spoločnosti, ktorá zaútočí likvidáciu komunálneho odpadu. Viac informácií nájdete aj na webovej stránke: www.canon-europe.com/weee.

Üksnes Euroopa Liit ja EMP (Norra, Island ja Liechtenstein)

Tikai Eiropas Savienībai un EEZ (Norvēģijai, Islandei un Lihtenšteinai)

Šis simbols norāda, ka atbilstoši ES Direktīvai (2012/19/ES) par elektrisko un elektronisko iekārtu atkritumiem (EEIA) un vietējiem tiesību aktiem no šī izstrādājuma nedrikst atbrīvoties, izmetot to kopā ar sadzīves atkritumiem. Šis izstrādājums ir jānodod piemērotā savākšanas vieta, piemēram, apstiprinātā veikalā, kad iegādājas dažādu izstrādes vietas un elektriskajās un elektroniskajās iekārtās. Nepareiza šāda veida atkritumu apsaimniekošana var apdraudēt vidi un cilvēka veselību tādējā veidā, kā arī elektroaparatu industriju efektivitāti. Lai saņemtu pilnīgu informāciju par vietām, kur izlietotu iekārtu var nodot pārstrādei, sazinieties ar vietējo valdību, atkritumu slēgšanas dienestu vai sadzīves atkritumu apsaimniekošanas iestādi. Lai saņemtu plašāku informāciju par elektrisko un elektronisko iekārtu atbrīvošanos, atkarību pieprasījiet tālāk informāciju www.canon-europe.com/weee.

Tik Europos Sąjungai ir EEE (Norvegijai, Islandijai ir Lichtenšteinui)

Šis ženklas reiškia, kad gaminto negalima išmesti su buitinėmis atliekomis, kaip yra nustatyta Direktyvoje (2012/19/ES) ir nacionaliniuose teisė aktuose dėl EEĮ atliekų tvarkymo. Šį gamini reikia atiduoti į tam skirtą surinkimo punktą, pvz., pagal patvirtintą keitimo sistemą, kai perkamas panašus gaminys, arba j

Samo za Evropsko unijo in EGP (Norveška, Islandija in Lihtenštajn)

Ta simbol pomeni, da tega izdelka v skladu z directivo OEEO (2012/19/EU) in državno zakonodajo ne smete odvreči v gospodinjske odpadke. Ta izdelek morate odložiti na ustrezno zbiralno mesto, na primer pri pooblaščenem prodajalcu, ko kupite podoben nov izdelek ali na zbiralno mesto za recikliranje električne in elektronske opreme. Neprimerno ravnanje s takšnimi odpadki lahko negativno vpliva na okolje in človekovo zdravje zaradi nevarnih snovi, ki so povezane z električno in elektronsko opremo. S pravilno odstranitvijo izdelka hkrati prispevate tudi k učinkovitim bitovim virov. Če želite več informacij o tem, kje lahko odložite odpadno opremo za recikliranje, pokličite občinski urad, komunalno podjetje ali službo, ki skrbi za odstranjevanje odpadkov, ali si ogledajte načrt OEEO. Če želite več informacij o vračanju in recikliranju izdelkov v skladu z directivo OEEO, obiščite www.canon-europe.com/weee.

Само за Европейския съюз и ЕИП (Норвегия, Исландия и Лихтенщайн)

Този символ показва, че този продукт не трябва да се изхвърля заедно с битовите отпадъци, съгласно Директивата за ИУЕЕО (2012/19/ЕC) и Вашето национално законодателство. Този продукт трябва да бъде предаден в предназначен за целта пункт за събиране, например на база размена, когато купувате нов подобен продукт, или в одобрен събиращен пункт за рециклиране на излязло от употреба електрическо и електронно оборудване (ИУЕЕО). Неправилното третиране на този тип отпадъци може да доведе до евентуални отрицателни последствия за околната среда и човешкото здраве поради потенциално опасни вещества, които обикновено са свързани с ЕЕО. В същото време Вашето съдействие за правилното изхвърляне на този продукт ще допринесе за ефективното използване на природните ресурси. Повече информация относно местата, където може да предавате излязло от употреба оборудване за рециклиране, може да получите от местните власти, от органа, отговорен за отпадъците и от одобрена система за излязло от употреба ЕЕО или от Вашата местна служба за битови отпадъци. За повече информация относно връщането и рециклирането на продукти от излязло от употреба ЕЕО посетете www.canon-europe.com/weee.
Doar pentru Uniunea Europeană și EEA (Norvegia, Islanda și Liechtenstein)

Acest simbol indică faptul că acest produs nu trebuie aruncat o dată cu reziduurile menajere, în conformitate cu Directiva DEEE (Directiva privind deşeurile de echipamente electrice și electronice) (2012/19/UE) și legile naționale. Acest produs trebuie transportat la un punct de colectare special, de exemplu un centru care preia produsele vechi atunci când achiziționați un produs nou similar, sau la un punct de colectare autorizat pentru reciclarea deșeurilor provenite de la echipamentele electrice și electronice (EEE). Mânuirea necorespunzătoare a acestor tipuri de deşeuri poate avea un impact negativ asupra mediului înconjurător și sănătății indivizilor, din cauza substanțelor potențial nocive care sunt în general asociate cu EEE. În același timp, cooperarea dvs. la reciclarea corectă a acestui produs va contribui la utilizarea efectivă a resurselor naturale. Pentru mai multe informații privind locurile de reciclare a deșeurilor provenite de la echipamente, contactați biroul primăriei locale, autoritatea responsabilă cu colectarea deșeurilor, schema DEEE aprobată sau serviciul de colectare a deșeurilor menajere. Pentru mai multe informații privind returnarea și reciclarea produselor DEEE, vizitați www.canon-europe.com/weee.

Samo za Europsku uniju i EEZ (Norveška, Island i Lihtenštajn)

Ovaj simbol pokazuje da se ovaj proizvod ne smije odlagati s kućnim otpadom sukladno WEEE Direktivi (2012/19/EC) i vašem nacionalnom zakonu. Ovaj proizvod je potrebno predirati na posebno mjesto za sakupljanje otpada, npr. na ovlašteno mjesto gdje možete zamijeniti staro za novo ukoliko kupujete novi sličan proizvod ili na ovlašteno mjesto za sakupljanje rabljene električne i elektroničke opreme (EEE) za recikliranje. Nepropisno rukovanje ovom vrstom otpada može imati negativan učinak na okolinu i zdravlje ljudi zbog supstanci koje su potencijalno opasne za zdravlje, a općenito se povezuju s EEE. Istovremeno, vaša će suradnja kroz propisno odlaganje ovog proizvoda doprinijeti efektivnoj uporabi prirodnih resursa. Za više informacija o tome gdje možete odložiti svoj otpad za recikliranje obratite se vašem lokalnom gradskom uredu, komunalnoj službi, odobrenom WEEE programu ili službi za odlaganje kućnog otpada. Ostale informacije o vraćanju i recikliranju WEEE proizvoda potražite na www.canon-europe.com/weee.

Korisnici u Srbiji

Ovaj simbol označava da ovaj proizvod ne sme da se odlaže sa ostalim kućnim otpadom, u skladu sa WEEE Direktivom (2012/19/EU) i nacionalnim zakonima. Ovaj proizvod treba predati određenom centru za prikupljanje, npr. na osnovi "jedan-za-jedan" kada kupujete sličan novi proizvod, ili ovlašćenom centru za prikupljanje za reciklažu istrošene električne i elektroničke opreme (EEE). Nepravilno rukovanje ovom
Handling Precautions

➤ Canceling Print Jobs
➤ Legal Restrictions on Scanning/Copying
➤ Printer Handling Precautions
➤ Transporting Your Printer
➤ When Repairing, Lending, or Disposing of the Printer
➤ Keeping Print Quality High
Legal Restrictions on Scanning/Copying

Scanning, printing, copying, or modifying copies of the following may be punishable under law. This list is non-exhaustive. When in doubt, check with a local legal representative.

- Paper money
- Money orders
- Certificates of deposit
- Postage stamps (canceled or uncanceled)
- Identification badges or insignia
- Selective service or draft papers
- Checks or drafts issued by governmental agencies
- Motor vehicle licenses and certificates of title
- Traveler’s checks
- Food stamps
- Passports
- Immigration papers
- Internal revenue stamps (canceled or uncanceled)
- Bonds or other certificates of indebtedness
- Stock certificates
- Copyrighted works or works of art, without the owner’s consent
Printer Handling Precautions

Do not place any object on the document cover!

Do not place any object on the document cover. It will fall into the rear tray when the document cover is opened and cause the printer to malfunction. Also, place the printer where objects will not fall on it.
Transporting Your Printer

When relocating the printer for changing your living place or repairing it, make sure of the following.

**Important**

- Pack the printer in a sturdy box so that it is placed with its bottom facing down, using sufficient protective material to ensure safe transport.

- With the print head and ink tank left installed in the printer, press the ON button to turn off the power. This allows the printer to automatically cap the print head, thus preventing it from drying.

- After packing, do not tilt the box containing the printer or turn it on its side or upside down. Doing so may cause the ink to leak during transport and cause damage to the printer.

- When a shipping agent is handling transport of the printer, have its box marked "THIS SIDE UP" to keep the printer with its bottom facing down. Mark also with "FRAGILE" or "HANDLE WITH CARE".

1. Turn the printer off.

2. Check that ON lamp is off and **unplug power cord**.

   **Important**

   - Do not unplug the printer while the ON lamp is lit or flashing, as it may cause malfunction or damage to the printer, making the printer unable to print.

3. Retract the paper output tray and the output tray extension.

4. Close the operation panel, paper support, and the rear tray cover.

5. Shorten cassette.

6. Unplug the printer cable from the computer and from the printer, then unplug the power cord from the printer.

7. Use adhesive tape to secure all the covers on the printer to keep them from opening during transportation. Then pack the printer in the plastic bag.
8. Attach the protective material to the printer when packing the printer in the box.
When Repairing, Lending, or Disposing of the Printer

If you have entered personal data, passwords and/or other security settings on the printer, such information may be stored in the printer.

When sending the printer for repair, lending or transferring the printer to another person, or disposing of the printer, please be sure to follow the steps below in order to delete such information and prevent third parties from accessing it.

• Select (Setup) on HOME screen and select Device settings > Reset settings > Reset all > Yes.
Keeping Print Quality High

The key to printing with the optimal printing quality is to prevent the print head from drying or clogging. Always observe the following rules for optimal printing quality.

Note

• Depending on the type of paper, ink may blur if you trace the printed area with a highlight pen or paint-stick, or bleed if water or sweat comes in contact with the printed area.

Never unplug the power cord until the power is turned off!

If you press the ON button to turn off the power, the printer caps the print head (nozzles) automatically to prevent from drying. If you unplug the power cord from the wall outlet before the ON lamp is turned off, the print head will not be capped properly and this will cause drying or clogging.

When unplugging the power cord, check that the ON lamp is not lit.

Print periodically!

Just as the tip of a felt pen becomes dry and unusable if it has not been used for a long time, even if it is capped, the print head too, may become dried or clogged if the printer has not been used for a long time. We recommend you to use the printer at least once a month.
Main Components and Their Use

- Main Components
- Power Supply
- Using the Operation Panel
Main Components

- Front View
- Rear View
- Inside View
- Operation Panel
A: Operation Panel
Use to change the settings of the printer or to operate it.

⇒ Operation Panel

B: Platen
Load an original here.

C: Document Cover
Open to load an original on the platen.

D: Cassette
Load A4, B5, A5, or Letter-sized plain paper into the cassette, and insert it into the printer.

⇒ Loading Paper in the Cassette

E: Paper Guides
Align with right/left/front sides of the paper stack.

F: Cassette Cover
Detach to load paper in the cassette.

G: Paper Output Tray
Printed paper is ejected. Pull out it before printing.

H: Paper Output Support
Extend to support ejected paper.
I: Output Tray Extension
Open to support ejected paper.

J: Feed Slot Cover
Prevents anything from falling into the feed slot.
Open it to slide the paper guides, and close it before printing.

K: Rear Tray
Load paper here. Two or more sheets of the same size and type of paper can be loaded at the same time, and fed automatically one sheet at a time.

- Loading Paper in the Rear Tray
- Loading Envelopes in Rear Tray

L: Paper Support
Extend to load paper in the rear tray.

M: Rear Tray Cover
Open to load paper in the rear tray.

N: Paper Guides
Align with both sides of the paper stack.
A: USB Port
   Plug in the USB cable to connect the printer with a computer.

B: Power Cord Connector
   Plug in the supplied power cord.

C: Transport Unit Cover
   Open when removing jammed paper.

D: Rear Cover
   Detach when removing jammed paper.

**Important**

- Do not touch the metal casing.
- Do not plug in or unplug the USB cable while the printer is printing or scanning with the computer. This can cause trouble.
Inside View

A: Scanning Unit / Cover
Scans originals. Also, lift and open it to replace an ink tank or to remove jammed paper inside the printer.

B: Print Head Holder
The print head is pre-installed.

Note
For details on replacing an ink tank, see Replacing Ink Tanks.
Operation Panel

A: ON button/ON lamp
   Turns the power on or off. Lights after flashing when the power is turned on. Before turning on the
   power, make sure that the document cover is closed.

B: HOME button
   Used to display the HOME screen.
   ➤ Using the Operation Panel

C: Touch Screen
   Displays messages, menu items, and the operational status. Directly touch the screen lightly with your
   finger tip to select a menu item or displayed button.
   ➤ Basic Operation of the touch screen

D: Black button
   Starts black & white copying, scanning, etc.

E: Color button
   Starts color copying, scanning, etc.

F: Stop button
   Cancels operation when print, copy, or scan job is in progress.

G: Back button
   Returns the touch screen to the previous screen.
Power Supply

- Checking that Power Is On
- Turning the Printer On and Off
- Checking the Power Plug/Power Cord
- Unplugging the Printer
Checking that Power Is On

The **ON** lamp is lit when the printer is turned on.

Even if the touch screen is off, if the **ON** lamp is lit, the printer is on.

**Note**

- It may take a while for the printer to start printing immediately after you turn on the printer.
- The touch screen display will turn off if the printer is not operated for about 10 minutes. To restore the display, touch the touch screen. The print operation from a computer can also restore the display.
Turning the Printer On and Off

Turning on the printer

1. Press the ON button to turn on the printer.

The ON lamp flashes and then remains lit.

- Confirming that the Power Is On

Note

- It may take a while for the printer to start printing immediately after you turn on the printer.
- If an error message is displayed on the touch screen, see An Error Occurs.
- You can set the printer to automatically turn on when a print or scan operation is performed from a computer connected by USB cable or wireless network. This feature is set to off by default.

From the printer

- ECO settings

From the computer

- For Windows:
  - Managing the Printer Power
- For macOS:
  - Managing the Printer Power

Turning off the printer

1. Press the ON button to turn off the printer.

When the ON lamp stops flashing, the printer is turned off.
**Important**

- When you unplug the power cord after turning off the printer, be sure to confirm that the ON lamp is off.

**Note**

- You can set the printer to automatically turn off when no operations are performed or no print jobs are sent to the printer for a certain interval. This feature is set to on by default.

  From the printer
  -> **ECO settings**

  From the computer
  - For Windows:
    -> Managing the Printer Power
  - For macOS:
    -> Managing the Printer Power
Checking the Power Plug/Power Cord

Unplug the power cord once a month to confirm that the power plug/power cord does not have anything unusual described below.

• The power plug/power cord is hot.
• The power plug/power cord is rusty.
• The power plug/power cord is bent.
• The power plug/power cord is worn.
• The power plug/power cord is split.

⚠️ Caution

• If you find anything unusual with the power plug/power cord described above, unplug the power cord and call for service. Using the printer with one of the unusual conditions above may cause a fire or an electric shock.
Unplugging the Printer

To unplug the power cord, follow the procedure below.

**Important**

- When you unplug the power cord, press the ON button, then confirm that the ON lamp is off. Unplugging the power cord while the ON lamp is lit or flashing may cause drying or clogging of the print head and print quality may be reduced.

1. Press the ON button to turn the printer off.

![ON button](image)

2. Confirm that the ON lamp is off.

![ON lamp](image)

3. Unplug the power cord.

![Power cord](image)

The specification of the power cord differs depending on the country or region of use.
Using the Operation Panel

The operation panel consists of the touch screen (A) and buttons (B).

Touch the HOME screen on the touch screen with your finger tip to select menus for copying, scanning, and other functions.

➤ Operations on the HOME Screen

A: Touch Screen

➤ Basic Operation of the touch screen

B: Buttons on the operation panel

Basic Operation of the touch screen

Touch the touch screen lightly with your finger tip or move your finger to access various functions or settings.

➤➤ Important

- When operating the touch screen, make sure to avoid the followings, which may cause the printer to malfunction or damage the printer.
  - Strongly pressing the touch screen.
  - Pressing the touch screen with other than your finger (especially with sharpened tips, such as on ballpoint pens, pencils, or nails).
  - Touching the touch screen with wet or dirty hands.
  - Placing any objects on the touch screen.
  - Do not attach a protective sheet on the touch screen. Removing it may damage the touch screen.

Tap

Touch lightly with your finger tip and immediately release.

Use to select an item or photo on the screen.
Touch

Touch lightly with your finger tip.

To move forward (or go back) menus or photos continuously, keep touching the forward (or back) mark.

Flick

Flick your finger on the screen up, down, left, or right.

Use to switch menus or move forward or backward through photos.

Drag

While lightly touching the screen, move your finger up, down, left, or right.

Use to view lists of items or move sliders.
Operations on the HOME Screen

Display the menu screen or the settings screen from the HOME screen.

C: Basic menu
Select to copy or scan using the operation panel. After selecting a basic menu, the particular menus are displayed.

D: Network
Displays the current network status. Select to display the basic network information or to change the network settings.

The icon differs depending on the network of use or the network status.

Wi-Fi is enabled and the printer is connected to the wireless router.

Note
- Depending on the signal state, the icon will change.

(Signal strength: 81 % or more): You can use the printer over Wi-Fi without any problems.

(Signal strength: 51 % or more): The problem such as the printer cannot print may occur according to the network status. We recommend placing the printer near the wireless router.
Wi-Fi is enabled but the printer is not connected to the wireless router.

Wireless Direct is enabled.

Wi-Fi is disabled.

E: Wireless connect
Select to connect the printer to a smartphone/tablet over Wi-Fi through Easy wireless connect or via Bluetooth.

Tap this button to display a confirmation screen for starting a connection. Touch and hold this button to switch to the standby mode for Easy wireless connect or Bluetooth connection.

- Easy wireless connect
- Bluetooth settings

F: Setup
Displays the printer's setting menus or the maintenance menus.

When there is an update notification or information from PIXMA/MAXIFY Cloud Link, NEW appears on this button.

- Firmware update
- Using PIXMA/MAXIFY Cloud Link

G: Hint
Displays quick guides about such procedures as loading paper and troubleshooting and such information as estimated ink level and system information.
Changing Settings

- Changing Printer Settings from Your Computer (Windows)
- Changing Printer Settings from Your Computer (macOS)
- Changing Settings from Operation Panel
Changing Printer Settings from Your Computer (macOS)

- Managing the Printer Power
- Changing the Printer Operation Mode
Managing the Printer Power

Printer power supply is operated from Remote UI.

Energy saving settings

Energy saving settings allow you to set Auto power off and Auto power on.

Auto power off is the function wherein the printer automatically turns itself off, when data is not sent or the printer remains inactive for a certain period.

The Auto power on function automatically turns on the printer when data is received.

1. Selecting Device settings from Remote UI

2. Click Energy saving settings

3. Complete the following settings:

   Auto power off
   Specify the time from the list. Printer automatically turns itself off, when data is not sent within the specified time or the printer has remained inactive.

   Auto power on
   When you check this check box, the printer automatically turns itself on when data is sent.

4. Apply the settings

   Click OK.
   The printer will operate with the changed settings hereafter.
Changing the Printer Operation Mode

If necessary, switch between various modes of printer operation.

1. Check whether the printer is on and select **Device settings** from **Remote UI**

2. If necessary, complete the following settings:

   **Print settings - Prevent paper abrasion**
   - The printer can increase the gap between the print head and the paper during high-density printing to prevent paper abrasion.
   - Check this check box to prevent paper abrasion.

   **Custom settings - Detect paper setting mismatch**
   - If the check box is deselected, at the time of printing from PC, you can continue to print without the message display even if the paper settings set in the Print dialog differs from the paper information registered to the printer.

   **Ink drying wait time**
   - You can set the length of the printer rest time until printing of the next page begins. The wait time becomes longer as the value set in the list increases, and shorter as the value decreases.
   - If the paper gets stained because the next page is ejected before the ink on the printed page dries, increase the ink drying wait time.
   - Reducing the ink drying wait time speeds up printing.

3. Apply the settings

   - Click **OK**.

   The printer operates with the modified settings hereafter.
Changing Settings from Operation Panel

- Changing Settings from Operation Panel
- Setting Items on Operation Panel

  - System information
Changing Settings from Operation Panel

This section describes the procedure to change the settings in the Device settings screen, taking the steps to specify Extended copy amount as an example.

1. **Check that printer is turned on.**

2. Select (Setup) on the HOME screen.
   - Using the Operation Panel

3. Select **Device settings**.
   - The Device settings screen is displayed.

4. Select a setting item to adjust.

        | Device settings          |
        |-------------------------|
        | Print settings          |
        | LAN settings            |
        | Bluetooth settings      |
        | PictBridge settings     |

   - The setting screen for the selected item is displayed.

5. Select a setting item.

        | Print settings          |
        |-------------------------|
        | Prevent paper abrasion  |
        | Extended copy amount   |
        | Auto photo fix setting  |
        | Adjust horizontal print position |

6. Select a setting to specify.
For more on setting items on the operation panel:

➤ **Setting Items on Operation Panel**
Setting Items on Operation Panel

- PictBridge settings
- Feed settings

Items for Maintenance/Management
- LAN settings
- Firmware update
- Reset setting
- System information
Print settings

• Prevent paper abrasion

Use this setting only if the print surface becomes smudged.

**Important**

- Be sure to set this back to **OFF** after printing since it may result in lower printing speed or lower print quality.

• Extended copy amount

Selects the amount of image that extends off the paper when printing in borderless (full).

Slight cropping may occur at the edges since the copied image is enlarged to fill the whole page. You can change the width to be cropped from the borders of the original image as needed.

**Important**

- This setting can be applied under the following conditions:
  - Performing borderless copying
  - **Borderless** is selected for **Border** when copying printed photos

**Note**

- If printouts contain margins even though you are printing in Borderless, specifying **Extended amount: Large** for this setting may help solve the problem.

• Auto photo fix setting

When **ON** is selected, you can select whether to print photos using the Exif information recorded in the image files when **Default** or **On** is selected in printing with a PictBridge (Wi-Fi) compliant device.

* When **Default** is selected for the print setting on the PictBridge (Wi-Fi) compliant device, select **Auto photo fix** for **Photo fix** in **PictBridge settings**.

• Adjust horizontal print position

Adjusts the print position when the left/right margins are not aligned.

You can adjust the left/right margins in increments of 0.01 inch/0.1 mm between -0.12 inch/-3 mm and +0.12 inch/+3 mm centered on the horizontal center of the paper.

**Important**

- For Letter-sized or Legal-sized paper, you can adjust the left/right margins between -0.06 inch/-1.5 mm and +0.06 inch/+1.5 mm even if you specify the value over 0.06 inch/1.5 mm.
**LAN settings**

- **Wi-Fi**
- **Wireless Direct**

**Wi-Fi**

When **Wi-Fi** is selected in the **LAN settings** screen, the network settings information of the printer when it is connected by Wi-Fi appears in the **Wi-Fi setting list** screen.

To print the LAN settings, select **Print details** in the **LAN settings** screen and select **Yes**.

**Printing Network Settings**

- **Important**

  - The network settings printout contains important information about your network. Handle it with care.

The following setting items are displayed. (Some setting items are not displayed depending on the printer settings.)

<table>
<thead>
<tr>
<th>Items</th>
<th>Setting</th>
</tr>
</thead>
<tbody>
<tr>
<td>Connection</td>
<td>Enabled (connected)/ Enabled (disconnected)/ Disabled</td>

</table>

("XX" represents alphanumeric characters.)

If **Settings** is selected in the **Wi-Fi setting list** screen, the following settings are available.

- **Enable/disable Wi-Fi**
  
    Enables/disables Wi-Fi.
• Wi-Fi setup

Selects the setup method for Wi-Fi connection.

○ Easy wireless connect

Select if you specify the settings of the access point information to the printer directly from a device (e.g. smartphone, or tablet) without operating the wireless router. Follow the on-screen instructions of the connecting device for the setup procedure.

○ Manual connect

Select when you perform settings for Wi-Fi manually using the operation panel of the printer.

○ WPS (Push button method)

Select when you perform settings for Wi-Fi using a wireless router supporting a Wi-Fi Protected Setup (WPS) push button method. Follow the on-screen instructions during setup.

○ Other connection types

■ Manual connect (adv.)

Select when you perform settings for Wi-Fi manually. You can specify multiple WEP keys.

■ WPS (PIN code method)

Select when you perform settings for Wi-Fi using a wireless router supporting a Wi-Fi Protected Setup (WPS) PIN code method. Follow the on-screen instructions during setup.

• Advanced setup

For details on each setting item:

⇒ Advanced setup

---

Wireless Direct

When Wireless Direct is selected in the LAN settings screen, the network settings information of the printer when it is connected by the Wireless Direct appears in the Wireless Direct setting list screen.

To print the LAN settings, select Print details in the LAN settings screen and select Yes.

⇒ Printing Network Settings

Important

• The network settings printout contains important information about your network. Handle it with care.

The following setting items are displayed. (Some setting items are not displayed depending on the printer settings.)

Note

• To show or hide the password, select Show password/Hide password in the Wireless Direct setting list screen.

("XX" represents alphanumeric characters.)

If Settings is selected in the Wireless Direct setting list screen, the following settings are available.

- **Enable/disable Wireless Direct**
  Enables/disables Wireless Direct.

- **Change SSID/device name**
  Changes the identifier (SSID/the printer's name displayed on a Wi-Fi Direct compatible device) for Wireless Direct.

- **Change password**
  Changes the password for Wireless Direct.

- **Connection request confirmation**
  Selecting Yes displays the confirmation screen when a Wi-Fi Direct compatible device is connecting the printer.

- **Advanced setup**
  For details on each setting item:
  
  ➤ Advanced setup

### Advanced setup

- **Set printer name**
  Specifies the printer name. You can use up to 15 characters for the name.

  ➤ Note
  - You cannot use the same printer name as that already used for other LAN connected devices.
• You cannot use a hyphen for the initial or last character of the printer name.

• **TCP/IP settings**
  Performs IPv4 or IPv6 setting.

• **WSD setting**
  Setting items when you use WSD (one of the network protocols supported in Windows).
  ◦ **Enable/disable WSD**
    Selects whether WSD is enabled or disabled.
    
    ▶ **Note**
    • When this setting is enabled, the printer icon is displayed on the Network Explorer in Windows.
  
  ◦ **Optimize inbound WSD**
    Selecting Enable allows you to receive the WSD printing data faster.
  
  ◦ **WSD scan from this device**
    Selecting Enable allows you to transfer the scanned data to the computer using WSD. To transfer the scanned data, press the Color button.
    
    ▶ **Note**
    • When you forward the scanned data to the computer searched using WSD, you cannot select the document type.

  ◦ **Timeout setting**
    Specifies the timeout length.

• **Bonjour settings**
  Setting items for LAN using Bonjour for macOS.
  ◦ **Enable/disable Bonjour**
    Selecting Enable allows you to use Bonjour to perform the network settings.
  
  ◦ **Service name**
    Specifies the Bonjour service name. You can use up to 48 characters for the name.
    
    ▶ **Note**
    • You cannot use the same service name as that already used for other LAN connected devices.

• **LPR protocol setting**
  Enables/disables the LPR setting.

• **RAW protocol**
  Enables/disables RAW printing.

• **LLMNR**
Enables/disables LLMNR (Link-Local Multicast Name Resolution). Selecting **Enable** allows the printer to detect printer’s IP address from the printer name without a DNS server.

- **IPP settings**
  Selecting **Enable** allows you to print via the network with the IPP protocol.

- **PictBridge communication**
  Setting items for printing from a PictBridge (Wi-Fi) compliant device.
    - **Enable/disable communication**
      Selecting **Enable** allows you to print from a PictBridge (Wi-Fi) compliant device.
    - **Timeout setting**
      Specifies the timeout length.

- **IPsec settings**
  Selecting **Enable** allows you to specify the IPsec security.
Other device settings

• **Sound control**
  Selects the volume.
  ◦ **Keypad volume**
    Selects the beep volume when tapping the touch screen or pressing the buttons on the operation panel.
  ◦ **Alarm volume**
    Selects the alarm volume.

• **Energy saving settings**
  Allows you to turn on/off the printer automatically to save electricity.
  ◦ **Auto power off**
    Specifies the length of time to turn off the printer automatically when no operation is made or no printing data is sent to the printer.
  ◦ **Auto power on**
    Selecting ON enables the printer to turn on automatically when a scanning command from a computer or printing data is sent to the printer.

**Note**

- You can also select this setting by selecting (Setup) on the HOME screen, selecting **ECO**, and then selecting **Energy saving settings**.

**Important**

- Depending on the type of original or the state of the document cover, forgetting to remove the original may not be detected.
Language selection

Changes the language for the messages and menus on the touch screen.
**Firmware update**

You can update the firmware of the printer, check the firmware version, or perform settings of a notification screen, a DNS server and a proxy server.

**Important**

- When you use this function, make sure the printer is connected to the Internet.

**Note**

- Only **Check current version** is available when **Enable** is selected for **Enable/disable Wi-Fi** of **Wi-Fi in LAN settings**.

- **Install update**

  Performs the firmware update of the printer. If you select **Yes**, the firmware update starts. Follow the on-screen instructions to perform update.

  **Note**

  - If the firmware update is not complete, check the following and take an appropriate action.
    - Check the network settings such as a wireless router.
    - If **Cannot connect to the server** is displayed on the touch screen, select **OK** and try again after a while.

- **Check current version**

  You can check the current firmware version.

- **Update notification setting**

  When **Yes** is selected and the firmware update is available, the screen to inform you of the firmware update is displayed on the touch screen.

- **DNS server setup**

  Performs settings for a DNS server. Select **Auto setup** or **Manual setup**. If you select **Manual setup**, follow the display on the touch screen to perform settings.

- **Proxy server setup**

  Performs settings for a proxy server. Follow the display on the touch screen to perform settings.
Reset setting

You can set the settings back to the default.

- **Web service setup only**
  Sets the Web service settings back to the default.

- **LAN settings only**
  Sets the LAN settings back to the default.

- **Settings only**
  Sets the settings such as the paper size or media type back to the default.

- **Reset all**
  Sets all settings you made to the printer back to the default. The administrator password specified by Remote UI or IJ Network Device Setup Utility reverts to the default setting.

**Note**

- You cannot set the following setting items back to the default:
  - The language displayed on the touch screen
  - The current position of the print head
  - CSR (Certificate Signing Request) for encryption method (SSL/TLS) setting
Feed settings

By registering the paper size and the media type loaded on the rear tray or in the cassette, you can prevent the printer from misprinting by displaying the message before printing starts when the paper size or the media type of the loaded paper differs from the print settings.

For details:

➡️ **Paper Settings**

### Note

- For more on the proper combination of paper settings you can specify by the printer driver (Windows) or on the touch screen:
  - Paper Settings on the Printer Driver and the Printer (Media Type)
  - Paper Settings on the Printer Driver and the Printer (Paper Size)

- **Rear tray paper settings**
  Registers the paper size and the media type you load on the rear tray.

- **Cassette paper settings**
  Registers the paper size and the media type you load in the cassette.

### Note

- Plain paper can only be loaded in the cassette.

- **Detect paper setting mismatch**

  If you select **Enable**, the printer detects whether the paper size and the media type are identical with those registered in **Feed settings**. If printing starts with the settings that do not match, an error message is displayed on the touch screen.

### Note

- When **Disable** is selected, the settings in **Feed settings** is disabled.
**Web service setup**

Select this setting item from **Web service setup** in (Setup).

- **Web service usage registration/Web service usage cancellation**
  Registers/Cancels Web service usage to use the printer device information to/from PIXMA/MAXIFY Cloud Link.

- **Web service connection setup**
  The following setting items are available.
  - **Google Cloud Print setup**
    Registers/Deletes the printer to/from Google Cloud Print.
  - **IJ Cloud Printing Center setup**
    Registers/Deletes the printer to/from Canon Inkjet Cloud Printing Center.
  - **Check Web service setup**
    Make sure whether the printer is registered to Google Cloud Print or Canon Inkjet Cloud Printing Center.

- **DNS server setup**
  Performs settings for a DNS server. Select **Auto setup** or **Manual setup**. If you select **Manual setup**, follow the display on the touch screen to perform settings.

- **Proxy server setup**
  Performs settings for a proxy server. Follow the display on the touch screen to perform settings.
ECO settings

This setting allows you to use automatic duplex printing as a default to save paper and to turn on/off the printer automatically to save electricity.

- Using Power Saving Function
- Using Duplex Printing

Using Power Saving Function

Follow the procedure below to use power saving function.

1. **Check that printer is turned on.**

2. Select (Setup) on the HOME screen.

   - Using the Operation Panel

3. Select ECO.

4. Select **Energy saving settings.**

5. Check on-screen instructions and select **Next.**

6. Specify settings as necessary.

   - **Auto power off** 240 min.
   - **Auto power on** OFF

   A: Specify the length of time to turn the printer off automatically when no operation is made or no printing data is sent to the printer.
   
   B: Selecting **ON** enables the printer to turn on automatically when a scanning command from a computer or printing data is sent to the printer.

Using Duplex Printing

Follow the procedure below to use duplex printing.
1. Check that printer is turned on.

2. Select (Setup) on the HOME screen.

   ➡ Using the Operation Panel

3. Select ECO.

4. Select Two-sided printing setting.

5. Specify settings as necessary.

   ![Image of setting options]

   A: Select two-sided copying as a default.
   B: Select two-sided printing of template forms on the printer as a default.

   **Note**

   • When duplex printing is selected, the icon is displayed on the setting items for duplex printing on each print settings screen.
Quiet setting

Enables this function on the printer if you want to reduce the operating noise, such as when printing at night. Follow the procedure below to perform setting.

1. **Check that printer is turned on.**

2. Select (Setup) on the HOME screen.
   
   ➤ Using the Operation Panel

3. Select **Quiet setting**.

4. Select **Use quiet mode**.

The confirmation screen is displayed and the icon appears as the **Quiet setting** menu icon. Activate this setting to reduce the operating noise while printing is in progress.

**Important**

- Operating speed is reduced compared to when **Do not use quiet mode** is selected.
- This function may not be so effective depending on the printer's setting. Furthermore, certain noise, such as when the printer is preparing for printing, is not reduced.

**Note**

- You can set the quiet mode from the operation panel of the printer or the printer driver. No matter how you set the quiet mode, the mode is applied when you perform operations from the operation panel of the printer or printing and scanning from the computer.
- For Windows, you can set the quiet mode from ScanGear (scanner driver).
System information

To display this menu, select System information in (Hint).

• **Current version**
  Displays the current firmware version.

• **Printer name**
  Displays the printer name currently specified.

• **Serial number**
  Displays the printer serial number.

• **MAC address (Wi-Fi)**
  Displays the MAC address for Wi-Fi.

• **Root cert. thumbprint (SHA-1)**
  Shows the root certification thumbprint (SHA-1) of the printer.

  ▶ Note
  • If the password is set to the printer, the password may be requested.

• **Root cert. thumbprint (SHA-256)**
  Shows the root certification thumbprint (SHA-256) of the printer.

  ▶ Note
  • If the password is set to the printer, the password may be requested.

- Internet connection or CD-ROM drive is required to install the software for Windows.
- Internet connection is required to use Easy-WebPrint EX and/or Easy-PhotoPrint Editor and all the user's guide.
- Easy-WebPrint EX: Internet Explorer 8, 9, 10 and 11 (for Windows) is required.
- Windows: Some functions may not be available with Windows Media Center.
- Windows: The TWAIN driver (ScanGear) is based on the TWAIN 1.9 Specification and requires the Data Source Manager bundled with the operating system.
- macOS: For macOS, an internet connection is required during software installation.
- In an in-house network environment, the 5222 port must be open. Contact the network administrator for details.

Information in this manual is subject to change without notice.
Information about Paper

- Supported Media Types
  - Paper Load Limit

- Unsupported Media Types

- Handling Paper

- Print Area
Supported Media Types

For best results, choose paper designed for how you are printing. A variety of paper for documents as well as photos or illustrations is available from Canon. Use genuine Canon paper to print important photos, when possible.

Media Types

Genuine Canon paper

Note

- For warnings on use of the non-printable side, see each product's usage information.
- For details on page sizes and media types, access the Canon website.
- Genuine Canon paper is not available in some countries or regions. Note that in the United States, Canon paper is not sold by model number. Instead, purchase paper by name.

Paper for printing documents:

- Canon Red Label Superior <WOP111>
- Canon Océ Office Colour Paper <SAT213>
- High Resolution Paper <HR-101N>*1

Paper for printing photos:

- Photo Paper Pro Platinum <PT-101>
- Glossy Photo Paper "Everyday Use" <GP-501>
- Photo Paper Glossy <GP-701>
- Photo Paper Plus Glossy II <PP-201/PP-301>
- Photo Paper Pro Luster <LU-101>
- Photo Paper Plus Semi-gloss <SG-201>
- Matte Photo Paper <MP-101>

Paper other than genuine Canon paper

- Plain Paper (including recycled paper)
- Envelopes*1
- T-Shirt Transfers*1
- Greeting Card*1
- Card Stock*1

*1 Printing to this paper from the operation panel or from a PictBridge (Wi-Fi) compliant device is not supported.

➤ Paper Load Limit
➤ Paper Settings on the Printer Driver and the Printer (Media Type) (Windows)
Note

- When printing photos saved on a PictBridge (Wi-Fi) compliant device, you must specify the page size and media type.

Printing from Digital Camera

Page Sizes

You can use the following page sizes.

Note

- Page sizes and media types the printer supports differ depending on the OS you are using.

Standard sizes:

- Letter
- Legal
- A5
- A4
- B5
- KG/4"x6" (10x15)
- 5"x7" (13x18cm)
- 7"x10" (18x25cm)
- 8"x10" (20x25cm)
- L (89x127mm)
- 2L (127x178mm)
- Square 4"
- Square 5"
- Hagaki
- Hagaki 2
- Envelope Com 10
- Envelope DL
- Nagagata 3
- Nagagata 4
- Yougata 4
- Yougata 6
- Card 2.17"x3.58"

Special sizes

Special page sizes must be within the following limits:
• rear tray
  ◦ Minimum size: 2.17 x 3.51 inches (55.0 x 89.0 mm)
  ◦ Maximum size: 8.50 x 26.61 inches (215.9 x 676.0 mm)

• cassette
  ◦ Minimum size: 5.83 x 8.27 inches (148.0 x 210.0 mm)
  ◦ Maximum size: 8.50 x 11.69 inches (215.9 x 297.0 mm)

### Paper Weight

You can use paper in the following weight range.

• 17 to 28 lb (64 to 105 g /m²) (plain paper other than genuine Canon paper)
## Paper Load Limit

### Genuine Canon Paper

Paper for printing documents:

*1 Normal feeding at maximum capacity may not be possible with some types of paper, or under very high or low temperature or humidity. In this case, load half the amount of paper or less.

*2 Feeding from a loaded stack of paper may leave marks on the printed side or prevent efficient feeding. In this case, load one sheet at a time.

*3 For best results in continuous printing, remove printed paper or envelopes from the paper output tray to avoid smearing or discoloration.
Unsupported Media Types

Do not use the following types of paper. Using such paper will cause not only unsatisfactory results, but also the printer to jam or malfunction.

- Folded, curled, or wrinkled paper
- Damp paper
- Paper that is too thin (weighing less than 17 lb (64 g /m²))
- Paper that is too thick (plain paper weighing more than 28 lb (105 g /m²), except for Canon genuine paper)
- Paper thinner than a postcard, including plain paper or notepad paper cut to a small size (when printing on paper smaller than A5)
- Picture postcards
- Postcards
- Envelopes with a double flap
- Envelopes with an embossed or treated surface
- Envelopes whose gummed flaps are already moistened and adhesive
- Any type of paper with holes
- Paper that is not rectangular
- Paper bound with staples or glue
- Paper with an adhesive surface on the back such as label seal
- Paper decorated with glitter, etc.
Handling Paper

• Be careful not to rub or scratch the surfaces of any types of paper when handling.

• Hold the paper as closely as possible to its edges and try not to touch the printing surface. The print quality may be degraded if the printing surface is smudged with sweat or oil that comes from your hands.

• Do not touch the printed surface until the ink is dried. Even when the ink is dried, be careful not to touch the printed surface as much as possible when handling. Due to the nature of the pigment ink, the ink on the printed surface may be removed when being rubbed or scratched.

• Take out only the necessary number of paper from the package, just before printing.

• To avoid curling, when you do not print, put unused paper back into the package and keep it on a level surface. And also, store it avoiding heat, humidity, and direct sunlight.

Printing

This printer is compatible with the macOS standard printing system (AirPrint). You can start printing right away after connecting this printer to your Mac without installing any special software.

Checking Your Environment

First, check your environment.

- **AirPrint Operation Environment**
  - Mac running the latest version of OS

- **Requirement**
  - The Mac and the printer must be connected by one of the following methods:
    - Connected to the same network over a LAN
    - Connected directly without wireless router (Direct Connection)
    - Connected by USB

Print from a Mac

1. **Check that printer is turned on**

   **Note**
   - If **Auto power on** is enabled, printer automatically turns itself on when receiving a print job.

2. **Load paper** in printer

3. Select paper size and paper type from printer
   
   Register the set paper size and paper type on the printer operation panel. For instructions, see "Paper Settings."

4. Start printing from your application software
   
   The Print dialog opens.

5. **Select printer**
   
   Select your model from the **Printer** list in the Print dialog.
6. Check print settings

Set items such as **Paper Size** to the appropriate size, as well as **Feed From** and **Media Type** from **Media & Quality** of the pop-up menu.

Select **Auto Select** for **Media Type**.

Remove the **Two-Sided** check mark if you are not printing on both sides of the paper.

**Note**

- Click **Show Details** to switch the setup window to the detailed display.

**Important**

- An error may occur if the paper size set in the print dialog is different from the paper size set on the printer. Select the correct items on the print dialog and the printer that correspond to the paper being printed.
If printing in A4, A5, JIS B5, or US Letter, set the desired feed position (Main Tray or Rear Tray) from Feed From of the print dialog. If Auto Select is selected in Feed From, the feed position differs depending on Media Type. If Media Type is set to plain paper, it is fed from the cassette (main tray). If set to other types of paper, it is fed from the rear tray.

• If printing paper such as photo paper and postcards that cannot be printed on both sides, uncheck the Two-Sided checkbox.

**Note**

• Use the Print dialog to set general print settings such as the layout and the print sequence. For information about print settings, refer to macOS help.

7. Click Print

The printer prints according to the specified settings.

**Note**

• It can take the Wi-Fi a few minutes to get connected after the printer turns on. Print after checking that the printer is connected to the network.
• You cannot print if Bonjour settings of printer are disabled. Check LAN settings of printer and enable Bonjour settings.
• Refer to "Cannot Print Using AirPrint" for printing problems.
• The display of the settings screen may differ depending on the application software you are using.

## Printing of Envelopes

For printing on the envelope from Mac, refer to the following.

<table>
<thead>
<tr>
<th>Print result image</th>
<th>Orientation of print data</th>
<th>Orientation of loading envelope</th>
</tr>
</thead>
<tbody>
<tr>
<td><img src="image1" alt="Print result image" /></td>
<td><img src="image2" alt="Orientation of print data" /></td>
<td><img src="image3" alt="Orientation of loading envelope" /></td>
</tr>
</tbody>
</table>

The print data is rotated by 180 degrees against the print result image. Load the envelope in vertically with the address side facing up so that the folded flap of the envelope will be faced down on the right side.
Printing on Postcards

This section describes the procedure for printing on postcards.

1. **Load postcards** in printer

2. **Select paper size and paper type from the printer**
   
   Register **Hagaki** for paper size from the printer operation panel.
   
   Also, register **Hagaki**, **IJ Hagaki**, or **Hagaki K** for paper type, according to your purpose. When you print on the address side, register **Hagaki**.

3. **Select Paper Size and Media Type from the print dialog**
   
   Select **Postcard** or **Postcard Borderless** for **Paper Size** from the print dialog. When you print on the address side, select **Postcard**.
   
   Select **Auto Select** for **Media Type** from the print dialog.

4. **Important**
   
   - This printer cannot print on postcards that have photos or stickers attached.

4. **Uncheck Two-Sided**
Important

- Two-sided printing is not possible for postcards, so remove the Two-Sided check mark. If you print with the Two-Sided check mark on, the printing result may not be as you intended.
- You will get cleaner printing if you print the message side first and then print the address side.

5. Click Print

The printer prints according to the specified settings.
Adding Printer

Procedure for adding printer to your Mac is explained.

To re-add a printer that was deleted, open System Preferences -> Printers & Scanners, click + next to the printer list, and then perform the procedure described below.

If your printer is connected via USB, and you connect the USB cable to a Mac, the printer is automatically added. The below procedure is not necessary in this case.

1. Check whether Default is selected in the displayed dialog

   Note
   • It may take a little time for the name of your printer to appear.

2. Select the printer

   Select the printer listed as Bonjour Multifunction.

   Note
   • Check the following if printer does not appear.
     • Printer is on
     • Firewall function of the security software is off
     • Printer is either connected to the wireless router or directly connected to the PC (Direct Connection)

3. Select Secure AirPrint from Use

4. Click Add

   The printer is added to your Mac.
How to Open Printer Settings Screen

The settings screen of the printer can be displayed from your application software.

Opening the Page Setup Dialog

Use this procedure to set the page (paper) settings before printing.

1. Select **Page Setup...** from the **File** menu of the application software
   
The Page Setup dialog opens.

Opening the Print Dialog

Use this procedure to set the print settings before printing.

1. Select **Print...** from the **File** menu of the application software
   
The Print dialog opens.
Displaying the Printing Status Screen

Check the print progress according to the following procedure:

1. Launch the printing status screen
   - If the print data has been sent to the printer
     The printing status screen opens automatically. To display the printing status screen, click the printer icon displayed on the Dock.
   - If the print data has not been sent to the printer
     Open **System Preferences**, and select **Printers & Scanners**.
     To display the printing status screen, select the name of your printer model from the printer list, and then click **Open Print Queue**.

2. Check the printing status
   You can check the name of the file being printed or ready for being printed.

   ![Image of the Printing Status Screen]

   - **Delete**: Deletes the specified print job.
   - **Stop**: Stops printing the specified document.
   - **Resume**: Resumes printing the specified document.
   - **Pause**: Stops printing all documents.
     Displayed only when printing of all documents is being stopped, and resumes printing all documents.

   **Important**
   - If an error occurs, an error message will appear on the printing progress confirmation screen.
   - The content of the error message may differ depending on the OS version.
   - The printer part names in the error message may differ from what is listed in this manual.
   - If the content of the error message is difficult to understand, check the error message displayed on the printer operation panel.
Deleting the Undesired Print Job

If the printer does not start printing, canceled or failed print job data may be remaining. Delete unnecessary print jobs from the print status check screen.

1. Open **System Preferences**, and select **Printers & Scanners**

2. Select your model, and then click **Open Print Queue**...
   
   The print status check screen appears.

3. Select the unnecessary print job and click **(Delete)**
   
   The selected print jobs will be deleted.
Removing Printer That Is No Longer Required from List of Printers

The printer that is no longer in use can be removed from the list of printers. Before removing the printer, remove the cable connecting the printer and PC.

You cannot remove the printer if not logged in as the administrator. For information about an administrative user, see Users & Groups from System Preferences.

1. Open System Preferences, and select Printers & Scanners

2. Delete printer from list of printers
   
   Select the printer you wish to remove from the list of printers and click -.

   Click Delete Printer when the confirmation message appears.
Printing Using a Web Service

- Using PIXMA/MAXIFY Cloud Link
- Printing with Google Cloud Print
Printing from Smartphone/Tablet

- Printing from iPhone/iPad/iPod touch (iOS)
- Printing from Smartphone/Tablet (Android)
- Printing from Windows 10 Mobile Device
- Printing/Scanning with Wireless Direct
Printing/Scanning with Wireless Direct

You can connect devices (e.g. smartphone, or tablet) to the printer by two methods below.

- Wireless connection (connecting devices via a wireless router)
- Direct wireless connection (connecting devices using Wireless Direct)

This section describes Wireless Direct, which allows you to print or scan by connecting the devices to the printer directly.

Follow the procedure below to use Wireless Direct.

1. Preparing the printer.
   - Changing Printer Setting to Use Wireless Direct

2. Preparing a device to connect to the printer.
   - Changing Settings of a Device and Connecting It to the Printer

   - Printing/Scanning with Wireless Direct

Important

- You can connect up to 5 devices to the printer at the same time.
- Check the usage restrictions and switch the printer to the Wireless Direct.

Changing Printer Setting to Use Wireless Direct

1. Check that printer is turned on.

2. Select (Setup) on HOME screen.
   - Using the Operation Panel

4. Select LAN settings.

5. Select Wireless Direct.
   - The Wireless Direct setting list screen appears.

7. Select Enable/disable Wireless Direct.
8. Select ON.

The Wireless Direct is enabled and a device can be connected to the printer wirelessly.

**Note**
- To show the password, select **Show password**. To hide the password, select **Hide password**.
- The **Wireless Direct setting list** screen shows settings for when using the printer with Wireless Direct.
  
  Devices detect the printer by **Network (SSID)/device name** shown on the screen.
- The password is required when connecting a device to the printer. Depending on the device you are using, no password is required.
- When you connect a Wi-Fi Direct compatible device to the printer, select the device name displayed on the touch screen from your device.
- The identifier (SSID) and the security setting are specified automatically. To update them, see below.
  
  ➤ *Changing Wireless Direct Setting*

### Changing Settings of a Device and Connecting It to the Printer

1. Turn on Wi-Fi function on your device.

   Enable "Wi-Fi" on your device's "Setting" menu.

   For more on turning on Wi-Fi function, see your device's instruction manual.

2. Select "DIRECT-XXXX-TS6200series" ("X" represents alphanumeric characters) from list displayed on your device.

**Note**
- If "DIRECT-XXXX-TS6200series" does not appear on the list, Wireless Direct is not enabled.

  See **Changing Printer Setting to Use Wireless Direct** to enable Wireless Direct.

3. Enter password.

   Your device is connected to the printer.

**Note**
- Check the password for the Wireless Direct.

  Check by one of the following methods.
  - Display on the touch screen.
    
    ➤ *LAN settings*
  - Print the network settings.
    
    ➤ *Printing Network Settings*
• Depending on the device you are using, entering the password is required to connect a device to the printer via Wi-Fi. Enter the password specified for the printer.

• If your Wi-Fi Direct compatible device is set to prioritize using Wi-Fi Direct and it is connecting to the printer, the printer displays a confirmation screen asking if you allow the device to connect to the printer.

Make sure the name on the touch screen is the same as that of your wireless communication device and select Yes.

## Printing/Scanning with Wireless Direct

Connect a device and the printer and start printing/scanning.

### Note

- For more on printing or scanning from a device via Wi-Fi, refer to the device's or application's instruction manual.

- You can print/scan from your smartphone or tablet by installing Canon PRINT Inkjet/SELPHY. Download it from App Store and Google Play.

  - For iOS
  - For Android

## Changing Wireless Direct Setting

Change the settings for the Wireless Direct following the procedure below.

1. **Check that printer is turned on.**

2. Select (Setup) on the HOME screen.

   - Using the Operation Panel

3. Select **Device settings.**

4. Select **LAN settings.**

   The **LAN settings** screen appears.

   ### Note

   - To print network settings, select **Print details in the LAN settings** screen.

5. Select **Wireless Direct.**

   The **Wireless Direct setting list** screen appears. You can check the current Wireless Direct settings.
6. Select **Settings**.

7. Select a setting item.

<table>
<thead>
<tr>
<th>Wireless Direct settings</th>
</tr>
</thead>
<tbody>
<tr>
<td>Enable/disable Wireless Direct</td>
</tr>
<tr>
<td>Change SSID/device name</td>
</tr>
<tr>
<td>Change password</td>
</tr>
<tr>
<td>Advanced</td>
</tr>
</tbody>
</table>

- **Change SSID/device name**

  Change the identifier (SSID) for Wireless Direct.

  The identifier (SSID) is the printer's name (device name) displayed on a Wi-Fi Direct compatible device.

  Follow the procedure below to change the identifier (SSID).

  1. Select the entry field.
  2. Enter the identifier (SSID) (up to 32 characters) and select **OK**.
  3. Select **OK**.

    Selecting **OK** finishes specifying the identifier (SSID).

    Selecting **Auto update** displays the confirmation screen. To update the identifier (SSID) and the password, select **Yes**. You can check the updated identifier (SSID)/password on the **Wireless Direct setting list** screen.

- **Change password**

  Change the password for Wireless Direct.

  ◦ Selecting **Change manually** displays the entry field.

    Follow the procedure below to change the password.

    1. Select the entry field.
    2. Enter the password (up to 10 characters) and select **OK**.
    3. Select **OK**.

    Selecting **OK** finishes specifying the password.

    ◦ Selecting **Auto update** displays the confirmation screen. To update the identifier (SSID) and the password, select **Yes**. You can check the updated identifier (SSID)/password on the **Wireless Direct setting list** screen.

- **Connection request confirmation**

  Change the confirmation screen setting when a Wi-Fi Direct compatible device is connecting to the printer.

  If you want the printer to display the screen to inform you a Wi-Fi Direct compatible device is connecting to the printer, select **Yes**.
8. Press **HOME** button.

The HOME screen is displayed.

**Note**

- If you change the Wireless Direct setting of the printer, also change the wireless router setting of the device.
Paper Settings

By registering the paper size and the media type loaded on the rear tray or in the cassette, you can prevent the printer from misprinting by displaying the message before printing starts when the paper size or the media type of the loaded paper differs from the print settings.

Note

- The default display setting is different between when you print or copy from the operation panel of the printer, when you print from Smartphone/tablet, when you print from Windows, and when you print from macOS.

  ⇒ Default Setting for Displaying the Message which Prevents Misprinting

After loading paper:

- When you close the feed slot cover:

  The screen to register the rear tray paper information is displayed.

  ![Screen to register rear tray paper information]

  Current rear tray setting. Please confirm.

  A4
  Plain paper

  Change  Yes

  If the page size on the touch screen matches the size of the paper loaded in the rear tray, select Yes. If not, select Change to change the setting in accordance with the size of the loaded paper.
• When you insert the cassette:

The screen to register the cassette paper information is displayed.

![Current cassette setting. Please confirm.](image)

If the page size on the touch screen matches the size of the paper loaded in the cassette, select **Yes**.

If not, select **Change** to change the setting in accordance with the size of the loaded paper.

* You can load only plain paper in the cassette.

### Important

• For more on the proper combination of paper settings you can specify by the printer driver (Windows) or on the touch screen:

  ➤ Paper Settings on the Printer Driver and the Printer (Media Type)
  ➤ Paper Settings on the Printer Driver and the Printer (Paper Size)

### When the paper settings for printing/copying are different from the paper information registered to the printer:

**Ex:**

• Paper settings for printing/copying: A5

• Paper information registered to the printer: A4
When you start printing/copying, a message is displayed and the paper setting specified for printing/copying is shown under the message.

Check the message and select **Next**. When the screen to select the operation is displayed, select one of the operations below.

**Note**

• Depending on the setting, the choices below may not be displayed.

**Print with the loaded paper.**

Select if you want to print/copy on the paper loaded without changing the paper settings.

For example, when the paper setting for printing/copying is A5 and the paper information registered to the printer is A4, the printer starts printing/copying on the paper loaded in the rear tray or in the cassette without changing the paper size setting for printing/copying.

**Replace the paper and print**

Select if you want to print after replacing the paper of the rear tray or the cassette.

For example, when the paper size setting for printing/copying is A5 and the paper information registered to the printer is A4, you load A5 sized paper in the rear tray or in the cassette before you start printing/copying.

The paper information registration screen is displayed after replacing the paper. Register the paper information according to the paper that you loaded.

**Note**

• If you do not know what paper information to register to the printer, press the **Back** button when the screen to select the operation is displayed.
For more on the proper combination of paper settings you can specify by the printer driver (Windows) or on the touch screen:

- Paper Settings on the Printer Driver and the Printer (Media Type)
- Paper Settings on the Printer Driver and the Printer (Paper Size)

**Cancel**

Cancels printing.

Select when you change the paper settings specified for printing/copying. Change the paper settings and try printing/copying again.

---

### Default Setting for Displaying the Message which Prevents Misprinting

- **When you print/copy using the operation panel of the printer or when you print from smartphone/tablet:**
  
  The message which prevents misprinting is enabled by default.
  
  To change the setting:
  
  ➡️ Feed settings

- **When you print from Windows:**
  
  The message which prevents misprinting is disabled by default.
  
  To change the setting:
  
  ➡️ Changing the Printer Operation Mode

- **When you print from macOS:**
  
  The message which prevents misprinting is enabled by default.
  
  To change the setting:
  
  ➡️ Changing the Printer Operation Mode

---

### Important

- **When the message which prevents misprinting is disabled:**
  
  The printer starts printing/copying even though the paper settings for printing/copying and the paper information registered to the printer are different.
Copying

Making Copies Basics

Reducing/Enlarging Copies

Two-Sided Copying

Special Copy Menu

Copying Using Smartphone or Tablet
Making Copies

This section describes the procedure to copy with Standard copy.

1. Check that printer is turned on.

2. Load paper.

3. Select Copy on the HOME screen.

   Using the Operation Panel

   The Copy standby screen is displayed.

5. Load original on platen.

6. Specify settings as necessary.

   A: The copy layout is displayed.

   Switch the layout from (single-sided), (2-on-1), (two-sided).

   B: Specify the number of copies.
Tap  or  to specify the number of copies.

If you keep touching here, the number scrolls by 10.

You can also flick the number to specify.

C: Display the print setting items.

For more on the setting items:

⇒ Setting Items for Copying

D: Specify the page size and the media type.

<table>
<thead>
<tr>
<th>B5</th>
<th>1</th>
</tr>
</thead>
<tbody>
<tr>
<td>A5</td>
<td></td>
</tr>
<tr>
<td>A4</td>
<td></td>
</tr>
<tr>
<td>Letter</td>
<td></td>
</tr>
<tr>
<td>KG/4”x6”(10x15)</td>
<td></td>
</tr>
</tbody>
</table>

7. Press Color button for color copying, or Black button for black & white copying.

The printer starts copying.

Remove the original on the platen after copying is complete.

⇒⇒ Important

• Do not open the document cover or remove the original from the platen until scanning is completed.

⇒⇒ Note

• To cancel copying, press the Stop button.

Adding Copying Job (Reserve copy)

You can add the copying job while printing (Reserve copy).

The screen below is displayed when you can add the copying job.

Copying...
Place another document and press  to copy successively.

Left: 1 0

M BK Y PC BK C
Load the original on the platen and press the same button (the **Color** button or the **Black** button) as the one which you previously pressed.

**Important**

- When you load the original on the platen, move the document cover gently.

**Note**

- When **Print qlty** (print quality) is set **High**, you cannot add the copying job.
- When you add the copying job, the number of copies or the settings such as the page size or media type cannot be changed.
- If you press the **Stop** button while reserve copying is in progress, the screen to select the method to cancel copying is displayed. If you select **Cancel all reservations**, you can cancel copying all scanned data. If you select **Cancel the last reservation**, you can cancel the last copying job.
- If you set a document of too many pages to add the copying job, **Cannot add more copy jobs. Please wait a while and redo the operation.** may appear on the touch screen. Select **OK** and wait a while, and then try copying again.
- If **Failed to reserve the copy job. Start over from the beginning.** appears on the touch screen when scanning, select **OK** and press the **Stop** button to cancel copying. After that, copy the documents that have not been finished copying.
Setting Items for Copying

You can change the copy settings such as magnification and intensity.

Print Settings Screen

Note

- For more on the print settings screen or the setting item for Photo copy, see Copying Photos.

The following screen is displayed by selecting Settings in the Copy standby screen.

Example in Standard copy:

![Preview Screen Example]

- Intensity: Standard
- Magnif.: Same size
- Paper src: Auto
- Page size: A4

Preview

When Preview is displayed on the print settings screen, selecting Preview allows you to preview an image of the printout on the preview screen.

![Preview Example]

For details, see below.

- Displaying Preview Screen

Setting Items

Flick to display setting items and select the setting item to display the settings. Select to specify the setting.

Note

- Depending on the copy menu, some setting items cannot be selected. This section describes the setting items in Standard copy.
The setting item which cannot be selected is displayed grayed out.
For more on the setting items for Photo copy, see Copying Photos.

- Some settings cannot be specified in combination with the setting of other setting item or the copy menu. If the setting which cannot be specified in combination is selected, ! appears on the touch screen. In this case, select ! on the upper left on the touch screen to check the message and change the setting.
- The settings of the page size, media type, etc. are retained even if the printer is turned off.
- When copying starts in the copy menu that is not available with the specified setting, The specified function is not available with current settings. is displayed on the touch screen. Change the setting, following the on-screen instructions.

Following setting items can be changed.

- **Intensity**
  Specify the intensity.

  ![Intensity Setting Diagram]

  A: Select to activate/deactivate automatic intensity adjustment.

  When **ON** is selected, the intensity is adjusted automatically according to the originals loaded on the platen.

  B: Drag to specify the intensity.

- **Magnif.** (Magnification)
  Specify the reduction/enlargement method.

  ➤ Reducing/Enlarging Copies

- **Paper src**
  Select a paper source (Rear tray/Cassette/Auto) where paper is loaded.

  ➤ Note
  - When **Auto** is selected, paper is fed from the paper source where the paper that matches the paper settings (page size and media type) is loaded.

- **Page size**
  Select the page size of the loaded paper.

- **Type** (Media type)
  Select the media type of the loaded paper.
• **Print qty** (Print quality)
Adjust print quality according to the original.

➤➤➤ **Important**

- If you use Draft with Type set to Plain paper and the quality is not as good as expected, select Standard or High for Print qty and try copying again.
- Select High for Print qty to copy in grayscale. Grayscale renders tones in a range of grays instead of black or white.

• **Layout**
Select the layout.

➤ Copying Two Pages onto Single Page
➤ Copying Four Pages onto Single Page

• **2-sided Print Setting**
Select whether to perform two-sided copying.

➤ Two-Sided Copying
Scanning

  - Positioning Originals (Scanning from Computer)
Scanning According to Item Type or Purpose (IJ Scan Utility Lite)

- IJ Scan Utility Lite Features
- Scanning Easily (Auto Scan) Basics
- Scanning Documents and Photos

Important

- Available functions and settings vary depending on your scanner or printer.
IJ Scan Utility Lite Features

Use IJ Scan Utility Lite to scan and save documents, photos, or other items at one time by simply clicking the corresponding icon.

![IJ Scan Utility Lite Interface]

**Important**

- The displayed items and available functions vary depending on your scanner or printer.

**Multiple Scanning Modes**

* Auto allows for one click scanning with default settings for various items. *Document* will sharpen text in a document or magazine for better readability, and *Photo* is best suited for scanning photos.

**Note**

- For details on the IJ Scan Utility Lite main screen, see IJ Scan Utility Lite Main Screen.

**Save Scanned Images Automatically**

Scanned images are automatically saved to a preset folder. The folder can be changed as needed.

**Note**

- The default save folder is the *Pictures* folder.
- For how to specify a folder, see Settings Dialog.

**Application Integration**

Scanned images can be sent to other applications. For example, display scanned images in your favorite graphics application, attach them to e-mails, or extract text from images.
**Note**

- To set the applications to integrate with, see Settings Dialog.
Scanning Easily (Auto Scan)

Auto Scan allows for automatic detection of the type of the item placed on the platen or ADF (Auto Document Feeder).

**Important**

- This function is not supported depending on your model.
- The following types of items may not be scanned correctly. In that case, adjust the cropping frames (selection boxes; scan areas) in the screen displayed by clicking **Driver** in the IJ Scan Utility Lite main screen, and then scan again.
  - Photos with a whitish background
  - Items printed on white paper, hand-written text, business cards, and other unclear items
  - Thin items
  - Thick items
- When scanning two or more documents from the ADF, place documents of the same size.

1. Check that scanner or printer is turned on.

2. Place items on platen or ADF.
   - **Positioning Originals (Scanning from Computer)**

3. Start IJ Scan Utility Lite.

4. Click **Auto**.

   ![IJ Scan Utility Lite](image)

   Scanning starts.

**Note**

- To cancel the scan, click **Cancel**.
- Use the **Settings (Auto Scan)** dialog to set where to save the scanned images and to make advanced scan settings.
- To scan a specific item type, see the following pages.
  - **Scanning Documents and Photos**
  - **Scanning with Favorite Settings**
Scanning Multiple Documents at One Time from the ADF (Auto Document Feeder)
Scanning Documents and Photos

Scan items placed on the platen with settings suitable for documents or photos.
Save documents in formats such as PDF and JPEG, and photos in formats such as JPEG and TIFF.

1. Place the item on the platen.
   - Positioning Originals (Scanning from Computer)

2. Start IJ Scan Utility Lite.

3. To specify the paper size, resolution, PDF settings, etc., click Settings..., and then set each item in the Settings dialog.
   - **Note**
     - Once settings are made in the Settings dialog, the same settings can be used for scanning from the next time.
     - In the Settings dialog, specify image processing settings such as slant correction, set where to save the scanned images, and more, as needed.

   When setting is completed, click OK.

4. Click **Document** or **Photo**.

   Scanning starts.

   - **Note**
     - To cancel the scan, click Cancel.
Scanning Tips

- Positioning Originals (Scanning from Computer)
Positioning Originals (Scanning from Computer)

This section describes how to load originals on the platen or ADF (Auto Document Feeder) for scanning. If items are not placed correctly they may not be scanned correctly.

**Important**

- Be sure to observe the following when loading the original on the platen. Failure to observe the following may cause the scanner to malfunction or the platen glass to break.
  - Do not place any objects weighing 4.4 lb (2.0 kg) or more on the platen glass.
  - Do not put any pressure of 4.4 lb (2.0 kg) or more on the platen glass, such as pressing down the original.
- Close the document cover when scanning.
- Do not touch the operation panel buttons or LCD (Liquid Crystal Display) when opening/closing the document cover. May result in unintended operation.

Placing Items (Platen)

Place items as described below to scan by detecting the item type and size automatically.

**Important**

- Depending on your model, the function to scan by automatically detecting the item type and size does not appear.
- When scanning by specifying the paper size, align an upper corner of the item with the corner at the arrow (alignment mark) of the platen.
- Photos that have been cut to irregular shapes and items smaller than 1.2 inches (3 cm) square cannot be cropped accurately when scanning.
- Reflective disc labels may not be scanned as expected.
- If scanned by detecting the item type and size automatically, the response may differ. In that case, adjust the cropping frame (selection box) manually.

<table>
<thead>
<tr>
<th>Photos, Postcards, Business Cards, and BD/DVD/CD</th>
<th>Magazines, Newspapers, and Documents</th>
</tr>
</thead>
<tbody>
<tr>
<td>![Photo], ![Postcard], ![Business Card], ![BD/DVD/CD]</td>
<td>![Magazine], ![Newspaper], ![Document]</td>
</tr>
</tbody>
</table>

**Single item:**

Place the item face-down on the platen, with 0.4 inch (1 cm) or more space between the edges (diagonally striped area) of the platen and the item. Portions placed on the diagonally striped area cannot be scanned.
**Important**

- Large items (such as A4 size photos) that cannot be placed away from the edges/arrow (alignment mark) of the platen may be saved as PDF files. To save in a format other than PDF, scan by specifying the data format.

**Multiple items:**

Allow 0.4 inch (1 cm) or more space between the edges (diagonally striped area) of the platen and items, and between items. Portions placed on the diagonally striped area cannot be scanned.

**Note**

- In IJ Scan Utility Lite, place up to 12 items.
- Positions of slanted items (10 degrees or less) are corrected automatically.

---

**Placing Documents (ADF (Auto Document Feeder))**

**Important**

- Do not leave thick items on the platen when scanning from the ADF. May result in paper jam.
- Place and align documents of the same size when scanning two or more documents.
- For supported document sizes when scanning from the ADF, click Home to return to the top page of the Online Manual for your model and search for "Supported Originals."
1. Make sure any original has been removed from platen.

2. Open document tray (A).

3. Slide the paper guides (B) all the way out.

4. Load document with side to scan facing up in document tray.
   Insert the document until it stops.

5. Adjust document guide (B) to match width of document.
   Do not slide the document guide too hard against the document. The document may not be fed properly.

**Note**

- When scanning duplex documents, place the front sides facing up. They will not be scanned correctly if placed the other way around.

- Cannot Find Printer on Check Printer Settings Screen During Wi-Fi Setup (Windows)-Checking Wireless Router Settings
Cannot Find Printer on Check Printer Settings Screen During Wi-Fi Setup (Windows)-Checking Power Status

Are printer and network device (router, etc.) turned on?

Make sure the printer is turned on.

⇒ Checking that Power Is On

Make sure network device (router, etc.) is turned on.

If printer or network device is off:

Turn on printer or network device.

It may take a while for the printer and network device to become ready for use once they are turned on. Wait a while after turning on the printer or network device, and then click Redetect on the Check Printer Settings screen to redetect the printer.

If the printer is found, follow the instructions on the screen to continue to set up network communication.

If printer and network device are on:

If the network devices are on, turn them off and on again.

If above does not solve the problem:

⇒ Cannot Find Printer on Check Printer Settings Screen During Wi-Fi Setup (Windows)-Checking PC Network Connection
Can you view any web pages on your computer?

Make sure the computer and network device (router, etc.) are configured and the computer is connected to the network.

If you cannot view any web pages:

Click **Cancel** on the **Check Printer Settings** screen to cancel to set up the network communication. After that, configure the computer and network device.

For the procedures, refer to the instruction manuals supplied with the computer and network device, or contact their manufacturers.

If you can view web pages after configuring the computer and network device, try to set up the network communication from the beginning.

If above does not solve the problem:

➤ **Cannot Find Printer on Check Printer Settings Screen During Wi-Fi Setup (Windows)-Checking Printer's Wi-Fi Settings**
Cannot Find Printer on Check Printer Settings Screen During Wi-Fi Setup (Windows)-Checking Printer's Wi-Fi Settings

Is printer set to allow wireless communication?

Make sure the or icon is displayed on the touch screen.

If icon is not displayed:

The printer is not set to allow wireless communication. Turn on wireless communication on the printer.

If icon is displayed:

- Cannot Find Printer on Check Printer Settings Screen During Wi-Fi Setup (Windows)-Checking Wi-Fi Environment
Cannot Find Printer on Check Printer Settings Screen During Wi-Fi Setup (Windows)-Checking Wi-Fi Environment

Is the printer connected to the wireless router?
Use the icon on the touch screen to make sure the printer is connected to the wireless router.

If is displayed:

- Check wireless router configuration.

  After checking the wireless router setting, make sure the printer is not placed far away from the wireless router.

  The printer can be up to 50 m (164 ft) from the wireless router indoors. Make sure the printer is close enough to the wireless router to be used.

  Place the printer and wireless router where there are no obstacles between them. Wireless communication between different rooms or floors is generally poor. Wireless communication can be impeded by building materials containing metal or concrete. If the printer cannot communicate with the computer over a Wi-Fi due to a wall, place the printer and the computer in the same room.

  In addition, if a device like a microwave oven that emits radio waves of the same frequency bandwidth as a wireless router is nearby, it may cause interference. Place the wireless router as far away from interference sources as possible.

  Note

  - Though an antenna is attached to most wireless routers, note that some of them have it inside.

  - Check wireless router setting.

    The printer and wireless router should be connected using 2.4 GHz bandwidth. Make sure the wireless router for the printer's destination is configured to use 2.4 GHz bandwidth.
Important

• Note that some wireless routers distinguish network names (SSIDs) by the last alphanumeric character according to their bandwidth (2.4 GHz or 5 GHz) or purpose (for computer or game machine).

Check the network name (SSID) of the wireless router for the printer on the touch screen.

Select (Setup) icon, Device settings, LAN settings, and Wi-Fi, and then check Network name (SSID).

Note

• You can also check Network name (SSID) by selecting the icon on the lower left and selecting Wi-Fi.

For details, see the instruction manual supplied with the wireless router or contact the manufacturer.

After taking measures above, click Redetect on the Check Printer Settings screen to redetect the printer.

If the printer is found, follow the instructions on the screen to continue to set up network communication.

If the printer cannot be detected, the printer is not connected to the wireless router. Connect the printer to the wireless router.

After connecting the printer to the wireless router, set up the network communication from the beginning.

If is displayed:

⇒ Cannot Find Printer on Check Printer Settings Screen During Wi-Fi Setup (Windows)-Checking Printer’s IP Address
Cannot Find Printer on Check Printer Settings Screen During Wi-Fi Setup (Windows)-Checking Printer's IP Address

Is printer's IP address specified correctly?

If printer's IP address is not specified correctly, the printer may not be found. Make sure whether printer's IP address is not used for another device.

To check the printer's IP address, print out the network settings information or use the operation panel to display it.

- Display on the touch screen.
  - LAN settings
  - Print the network settings.
    - Printing Network Settings

If the IP address is not specified correctly:

See If an error screen appears: and specify the IP address.

If the IP address is specified correctly:

- Cannot Find Printer on Check Printer Settings Screen During Wi-Fi Setup (Windows)-Checking Security Software Settings
Cannot Find Printer on Check Printer Settings Screen During Wi-Fi Setup (Windows)-Checking Security Software Settings

Disable block in firewall function temporarily.

The firewall of your security software or operation system for computer may limit communication between the printer and your computer. Check the firewall setting of your security software or operation system or the message shown on your computer and disable block temporarily.

If firewall interferes with setup:

• If message appears:
  If a message appears warning that Canon software is attempting to access the network, set the security software to allow access.
  
  After allowing the software to access, click Redetect on the Check Printer Settings screen to redetect the printer.
  
  If the printer is found, follow the instructions on the screen to continue to set up network communication.

• If no message appears:
  Cancel the setup, and then set the security software to allow Canon software to access the network.
  
  The file Setup.exe or Setup64.exe in the win > Driver > DrvSetup folder on the Setup CD-ROM
  
  After setting the security software, redo the network communication setup from the beginning.
  
  After setup is completed, enable firewall.

Note

  • For more on firewall settings of your operating system or security software, see instruction manual or contact its manufacturer.

If above does not solve the problem:

  ➔ Cannot Find Printer on Check Printer Settings Screen During Wi-Fi Setup (Windows)-Checking Wireless Router Settings
Cannot Find Printer on Check Printer Settings Screen During Wi-Fi Setup (Windows)-Checking Wireless Router Settings

Check wireless router settings.

Check wireless router network connection settings, such as IP address filtering, MAC address filtering, encryption key, and DHCP function.

Make sure the same radio channel is assigned to the printer and the wireless router.

To check the settings of the wireless router, see the instruction manual supplied with the wireless router or contact the manufacturer.

In addition, make sure the wireless router you are using is configured to use 2.4 GHz bandwidth.

Important

- Depending on the wireless router, note that different network name (SSID) is assigned for a bandwidth (2.4 GHz or 5 GHz) or its usage (for PC or game machine) using alphanumeric characters at the end of network name (SSID).

After checking the wireless router settings, click Redetect on the Check Printer Settings screen to redetect the printer.

If the printer is found, follow the instructions on the screen to continue to set up network communication.
Cannot Proceed beyond Printer Connection Screen

If you cannot proceed beyond the Printer Connection screen, check the following.

**Check1** Make sure USB cable is securely plugged in to printer and computer.

Connect the printer and the computer using a USB cable as the illustration below. The USB port is located at the back of the printer.

> **Important**
>
> • Connect the "Type-B" terminal to the printer with the notched side facing UP. For details, refer to the instruction manual supplied with the USB cable.

**Check2** Follow procedure below to connect printer and computer again.

> **Important**
>
> • For macOS, make sure the lock icon is on the lower left of the Printers & Scanners screen.
>
> If the icon (locked) is displayed, click the icon to unlock. (The administrator name and the password are necessary to unlock.)

1. Unplug USB cable from printer and computer and connect it again.
2. Make sure no printer operation is in progress and turn off.
3. Turn on printer.

**Check3** If you cannot resolve problem, follow procedure below to reinstall MP Drivers.

• For Windows:

1. Click Cancel.
2. Click Back to Top on Setup Canceled screen.
3. Click Exit on Start Setup screen and finish setup.
4. Turn off printer.

5. Restart computer.

6. Make sure you have no application software running.

7. Perform setup on web page.

   **Note**
   - You can use the Setup CD-ROM to redo setup.

   • For macOS:

   1. Click **Next**.
      
      The screen telling you that installation has not been completed appears.

   2. Click **No**.
      
      The screen to select application software to install appears.

   3. Click **Back to Top**.

   4. Click **Exit** on **Start Setup** screen.

   5. Turn off printer.

   6. Restart computer.

   7. Make sure you have no application software running.

   8. Perform setup on web page.
Cannot Find Printer while Using Wi-Fi

**Check1** Make sure printer is turned on.
If not, make sure the printer is securely plugged in and press **ON** button to turn on.
The **ON** lamp flashes while the printer is initializing. Wait until the **ON** lamp stops flashing and remains lit.

**Check2** Check the **(Network status)** icon on the touch screen.
If the **icon** is displayed, or only the **icon** is displayed, wireless LAN is disabled.
Select **LAN settings > Wi-Fi > Settings** in this order, and select **Enable** for **Enable/disable Wi-Fi**.
If the **icon** is displayed, see Check 3 or later checking items to make sure whether printer setup is complete or the settings of wireless router to connect are correct.

**Check3** Make sure printer setup is complete on the computer.
If it is not, perform setup.
- For Windows:
  Perform setup using the Setup CD-ROM or from the web page.
- For macOS:
  Perform setup from the web page.

**Note**
- IJ Network Device Setup Utility allows you to diagnose and repair the network status. Download it from the web page.
  - For Windows
  - For macOS

**Check4** Make sure printer and wireless router network settings match.
Make sure the network settings of the printer (e.g. network name (SSID) or network key (password), etc.) are identical with those of the wireless router.
To check the settings of the wireless router, refer to the instruction manual provided with it or contact its manufacturer.
Note

- Use 2.4 GHz frequency band to connect to a wireless router. Match the network name (SSID) set for the printer with that for 2.4 GHz frequency band of the wireless router.

To check the network name (SSID) set for the printer, print out the network setting information.

⇒ Printing Network Settings

Note

- IJ Network Device Setup Utility allows you to diagnose and repair the network status.

Select the link below to download IJ Network Device Setup Utility and install it.

⇒ Checking Printer Connection Status Using IJ Network Device Setup Utility

See below for starting up IJ Network Device Setup Utility.

- For Windows:
  ⇒ Starting Up IJ Network Device Setup Utility

- For macOS:
  ⇒ Starting Up IJ Network Device Setup Utility

Check5 Make sure the printer is not placed too far away from the wireless router.

If the distance between the printer and wireless router is too far, wireless communication becomes poor. Place the printer and wireless router close to each other.

Note

- Though an antenna is attached to most wireless routers, note that some of them have it inside.

Check6 Make sure wireless signal is strong. Monitor signal strength and move printer and wireless router as necessary.

Place the printer and wireless router where there are no obstacles between them. Wireless communication between different rooms or floors is generally poor. Wireless communication can be impeded by building materials containing metal or concrete. If the printer cannot communicate with the computer over a Wi-Fi due to a wall, place the printer and the computer in the same room.

In addition, if a device like a microwave oven that emits radio waves of the same frequency bandwidth as a wireless router is nearby, it may cause interference. Place the wireless router as far away from interference sources as possible.

Check the signal strength on the touch screen.

⇒ Using the Operation Panel

Note

- IJ Network Device Setup Utility allows you to diagnose and repair the network status.

Select the link below to download IJ Network Device Setup Utility and install it.

⇒ Checking Printer Connection Status Using IJ Network Device Setup Utility

See below for starting up IJ Network Device Setup Utility.

- For Windows:
Starting Up IJ Network Device Setup Utility

• For macOS:

Starting Up IJ Network Device Setup Utility

Check7  Make sure the computer is connected to the wireless router.

For more on how to check the computer settings or connection status, see your computer instruction manual or contact its manufacturer.

Note

• If you use a smartphone or tablet, make sure the Wi-Fi is enabled on the device.

Check8  Make sure Enable bidirectional support is selected in the Ports sheet of the properties dialog box of the printer driver. (Windows)

If not, select it to enable bidirectional support.

Check9  Make sure security software's firewall is off.

If your security software's firewall is on, a message may appear warning you that Canon software is attempting to access the network. If this warning message appears, set security software to always allow access.

If you are using any programs that switch between network environments, check their settings. Some programs use a firewall by default.

Check10  If printer is connected to an AirPort Base Station via LAN, make sure you use alphanumeric characters for network name (SSID). (macOS)

If the problem is not resolved, redo setup.

• For Windows:

  Perform setup using the Setup CD-ROM or from the web page.

• For macOS:

  Perform setup from the web page.
Network Connection Problems

- Printer Suddenly Stopped Working for Some Reason
- Network Key (Password) Unknown
- Printer Cannot Be Used After Replacing Wireless Router or Changed Router Settings
Printer Suddenly Stopped Working for Some Reason

- Cannot Connect to a Printer after Network Configuration Changes
- Cannot Connect to a Printer via Wireless LAN (Wi-Fi)
- Cannot Connect to a Printer through Wireless Direct
- Cannot Print/Scan through Network

**Q** Cannot Connect to a Printer after Network Configuration Changes

**A**

It may take a while for the computer to obtain an IP address, or you may need to restart your computer. Make sure the computer has obtained a valid IP address, and try again to find the printer.

**Q** Cannot Connect to a Printer via Wireless LAN (Wi-Fi)

**A**

Check 1

Check the power status of printer, network devices (e.g. wireless router), and smartphone/tablet.

- Turn on the printer or devices.
- If the power is already turned on, cycle the power switch.
- It may be necessary to resolve wireless router problems (e.g. update interval of a key, problems of DHCP update interval, energy saving mode, etc.) or to update the wireless router firmware.

For details, contact the manufacturer of your wireless router.

Check 2

Can you view any web pages on your computer?

Make sure your computer is connected to the wireless router properly.

For more on checking computer settings or connection status, see the instruction manual supplied with the computer or contact the manufacturer.

Check 3

Is the printer connected to the wireless router?

Use the icon on the touch screen to check the connection status between the printer and wireless router. If the icon is not displayed, Wi-Fi is disabled. Turn on wireless communication on the printer.

Check 4

Make sure the printer and wireless router network settings match.

Make sure the network settings of the printer (e.g. network name (SSID) or network key (password), etc.) are identical with those of the wireless router.
To check the settings of the wireless router, refer to the instruction manual provided with it or contact its manufacturer.

**Note**

- Use 2.4 GHz frequency band to connect to a wireless router. Match the network name (SSID) set for the printer with that for 2.4 GHz frequency band of the wireless router.

To check the current network settings of the printer, print out the network setting information.

**Printing Network Settings**

**Note**

- IJ Network Device Setup Utility allows you to diagnose and repair the network status.

Select the link below to download IJ Network Device Setup Utility and install it.

**Checking Printer Connection Status Using IJ Network Device Setup Utility**

See below for starting up IJ Network Device Setup Utility.

- For Windows:
  
  **Starting Up IJ Network Device Setup Utility**

- For macOS:
  
  **Starting Up IJ Network Device Setup Utility**

**Check 5** Make sure the printer is not placed too far away from the wireless router.

If the distance between the printer and wireless router is too far, wireless communication becomes poor. Place the printer and wireless router close to each other.

**Note**

- Though an antenna is attached to most wireless routers, note that some of them have it inside.

**Check 6** Make sure wireless signal is strong. Monitor signal status and move printer and wireless router as necessary.

Place the printer and wireless router where there are no obstacles between them. Wireless communication between different rooms or floors is generally poor. Wireless communication can be impeded by building materials containing metal or concrete. If the printer cannot communicate with the computer over a Wi-Fi due to a wall, place the printer and the computer in the same room.

In addition, if a device like a microwave oven that emits radio waves of the same frequency bandwidth as a wireless router is nearby, it may cause interference. Place the wireless router as far away from interference sources as possible.

Check the signal strength on the touch screen.

**Using the Operation Panel**

**Note**

- IJ Network Device Setup Utility allows you to diagnose and repair the network status.

Select the link below to download IJ Network Device Setup Utility and install it.

**Checking Printer Connection Status Using IJ Network Device Setup Utility**
See below for starting up IJ Network Device Setup Utility.

- For Windows:
  ➤ Starting Up IJ Network Device Setup Utility

- For macOS:
  ➤ Starting Up IJ Network Device Setup Utility

**Check7** Make sure of the Wi-Fi channel numbers used for your computer.

You need to have the same Wi-Fi channel number that you are using for the wireless router as your computer. It is normally set in the way that you can use all the Wi-Fi channels. However, when the channels that you are using are restricted, the Wi-Fi channels do not match.

See the instruction manual provided with your computer and check the Wi-Fi channel number available for your computer.

**Check8** Make sure channel set on wireless router is a usable channel as confirmed in Check 7.

If it is not, change the channel set on the wireless router.

**Check9** Make sure security software's firewall is off.

If your security software's firewall is on, a message may appear warning you that Canon software is attempting to access the network. If this warning message appears, set security software to always allow access.

If you are using any programs that switch between network environments, check their settings. Some programs use a firewall by default.

**Check10** If printer is connected to an AirPort Base Station via LAN, make sure you use alphanumeric characters for network name (SSID). (macOS)

If the problem is not resolved, redo setup.

- For Windows:
  Perform setup using the Setup CD-ROM or from the web page.

- For macOS:
  Perform setup from the web page.

- **Positioning:**
  Make sure there are no obstacles between the printer and the wireless router.

---

**Q** Cannot Connect to a Printer through Wireless Direct

**A**

**Check1** Check the power status of printer and other devices (smartphone or tablet).
Turn on the printer or devices.

If the power is already turned on, cycle the power switch.

**Check2** Is the icon displayed on the touch screen?

If not, Wireless Direct is disabled. Turn on Wireless Direct.

**Check3** Check the settings of your device (smartphone/tablet).

Make sure Wi-Fi is enabled on your device.

For details, refer to your device's instruction manual.

**Check4** Make sure printer is selected as connection for device (e.g. smartphone or tablet).

Select the network name (SSID) for Wireless Direct specified for the printer as the connection destination for devices.

Check the destination on your device.

For details, refer to your device's instruction manual or visit the manufacturer's website.

To check the network name (SSID) for Wireless Direct specified for the printer, display it using the operation panel of the printer or print out the network setting information of the printer.

- Display on the touch screen.
  - [LAN settings](#)
- Print the network settings.
  - [Printing Network Settings](#)

**Check5** Have you entered the proper password specified for the Wireless Direct?

To check the password specified for the printer, display it using the operation panel of the printer or print out the network setting information of the printer.

- Display on the touch screen.
  - [LAN settings](#)
- Print the network settings.
  - [Printing Network Settings](#)

**Check6** Make sure the printer is not placed too far away from the device.

If the distance between the printer and device is too far, wireless communication becomes poor. Place the printer and device close to each other.

**Check7** Make sure 5 devices are already connected.

Wireless Direct does not allow more than 5 devices to be connected.
Cannot Print/Scan through Network

Check1  Make sure the computer is connected to the wireless router.

For more on how to check the computer settings or connection status, see your computer instruction manual or contact its manufacturer.

Check2  If MP Drivers are not installed, install them. (Windows)

Install the MP Drivers using the Setup CD-ROM or install them from the Canon website.

Check3  Make sure wireless router does not restrict which computers can access it.

For more on connecting to and setting up your wireless router, see the wireless router instruction manual or contact its manufacturer.

Note

- To check the MAC address or IP address of your computer, see Checking Computer IP Address or MAC Address.
Network Key (Password) Unknown

- WPA/WPA2 or WEP Key Set for Wireless Router Unknown, Cannot Connect
- Setting an Encryption Key

**Q** WPA/WPA2 or WEP Key Set for Wireless Router Unknown, Cannot Connect

**A**

For more on setting up a wireless router, see the instruction manual provided with the wireless router or contact its manufacturer. Make sure your computer can communicate with the wireless router.

---

**Note**

- IJ Network Device Setup Utility allows you to diagnose and repair the network status.

  Select the link below to download IJ Network Device Setup Utility and install it.

See below for starting up IJ Network Device Setup Utility.

- For Windows:
  - Starting Up IJ Network Device Setup Utility

- For macOS:
  - Starting Up IJ Network Device Setup Utility
Selecting WPA, WPA2, or WPA/WPA2 is recommended for security reason. If your wireless router is compatible with WPA/WPA2, you can also use WPA2 or WPA.

**Using WPA/WPA2 (Windows)**

The authentication method, Wi-Fi password, and dynamic encryption type must be identical among the wireless router, the printer, and your computer.

Enter the Wi-Fi password configured on the wireless router.

Either TKIP (basic encryption) or AES (secure encryption) is selected automatically as the dynamic encryption method.

For details, see If WPA/WPA2 Details Screen Appears.

### Note

- This printer supports WPA/WPA2-PSK (WPA/WPA2-Personal) and WPA2-PSK (WPA2-Personal).

**Using WEP**

The length or format of the Wi-Fi password and authentication method must be identical among the wireless router, the printer, and your computer.

To communicate with a wireless router that generates a password automatically, you must set the printer to use the password generated by the wireless router.

- For Windows:

  When the **WEP Details** screen appears after you click **Search...** on the **Network Settings (Wi-Fi)** screen in IJ Network Device Setup Utility, follow the on-screen instructions to set the password length, format, and the password to use.

  For details, see If WEP Details Screen Appears.

### Note

- If the printer is connected to an AirPort Base Station via LAN:

  If the printer is connected to an AirPort Base Station via a LAN, check the settings in **Wireless Security of AirPort Utility**.

  - Select **64 bit** if **WEP 40 bit** is selected for password length in AirPort Base Station.
  - Select **1** for the password to use. Otherwise, computer will not be able to communicate with printer via the wireless router.
Printer Cannot Be Used After Replacing Wireless Router or Changed Router Settings

When you replace a wireless router, redo the network setup for the printer according to the replaced one.

- For Windows:
  Perform setup using the Setup CD-ROM or from the web page.
- For macOS:
  Perform setup from the web page.

Note
- IJ Network Device Setup Utility allows you to diagnose and repair the network status.
  Select the link below to download IJ Network Device Setup Utility and install it.
  → Checking Printer Connection Status Using IJ Network Device Setup Utility
  See below for starting up IJ Network Device Setup Utility.
  - For Windows:
    → Starting Up IJ Network Device Setup Utility
  - For macOS:
    → Starting Up IJ Network Device Setup Utility

If this does not solve the problem, see below.

→ Cannot Communicate with Printer After Enabling MAC/IP Address Filtering or Encryption Key on Wireless Router
→ With Encryption On, Cannot Communicate with Printer After Changing Encryption Type at Wireless Router

Cannot Communicate with Printer After Enabling MAC/IP Address Filtering or Encryption Key on Wireless Router

Check1 Check wireless router setting.

To check the wireless router setting, see the instruction manual provided with the wireless router or contact its manufacturer. Make sure the computer and the wireless router can communicate with each other under this setting.
Check2 If filtering MAC addresses or IP addresses at wireless router, check that MAC addresses or IP addresses for computer, network device, and printer are registered.

Check3 If using WPA/WPA2 key or a password, make sure encryption key for computer, network device, and printer matches key set for wireless router.

The length or format of the Wi-Fi password and authentication method must be identical among the wireless router, the printer, and your computer.

For details, see Setting an Encryption Key.

Q With Encryption On, Cannot Communicate with Printer After Changing Encryption Type at Wireless Router

A If you change the encryption type for the printer and it subsequently cannot communicate with the computer, make sure the encryption type for the computer and the wireless router matches the type set for the printer.

→ Cannot Communicate with Printer After Enabling MAC/IP Address Filtering or Encryption Key on Wireless Router
Other Network Problems

- Checking Network Information
- Restoring to Factory Defaults
Checking Network Information

- Checking Printer IP Address or MAC Address
- Checking Computer IP Address or MAC Address
- Checking Communication Between the Computer, the Printer, and the Wireless Router
- Checking Network Setting Information

Checking Printer IP Address or MAC Address

To check the printer’s IP Address or MAC address, print out the network settings information or use the operation panel to display it.

- Display on the touch screen.
  - LAN settings
- Print the network settings.
  - Printing Network Settings

For Windows, you can check the network setting information on the computer screen.

- Canon IJ Network Device Setup Utility Screen

Checking Computer IP Address or MAC Address

To check the IP Address or MAC address of your computer, follow the instructions below.

- For Windows:
  1. Select Command Prompt as shown below.
     In Windows 10, right-click Start and select Command Prompt.
     In Windows 8.1, select Command Prompt from the Start screen. If Command Prompt is not displayed on the Start screen, select the Search charm and search for “Command Prompt”.
     In Windows 7, click Start > All Programs > Accessories > Command Prompt.
  2. Enter "ipconfig/all" and press Enter.
     The IP address and MAC address of your computer appear. If your computer is not connected to a network, the IP address does not appear.
- For macOS:
  1. Select System Preferences from Apple menu, and then click Network.
2. Make sure network interface used by computer is selected, and then click **Advanced**. Make sure **Wi-Fi** is selected as network interface.

3. Click **TCP/IP** to check the IP address, or click **Hardware** to check the MAC address.

---

**Checking Communication Between the Computer, the Printer, and the Wireless Router**

Perform a ping test to check if communication is taking place.

- **For Windows:**

1. Select **Command Prompt** as shown below.
   - In Windows 10, right-click **Start** and select **Command Prompt**.
   - In Windows 8.1, select **Command Prompt** from the **Start** screen. If **Command Prompt** is not displayed on the **Start** screen, select the **Search** charm and search for "**Command Prompt**".
   - In Windows 7, click **Start** > **All Programs** > **Accessories** > **Command Prompt**.

2. Type the ping command and press **Enter**.
   - The ping command is as follows: `ping XXX.XXX.XXX.XXX`
   - "XXX.XXX.XXX.XXX" is the IP address of the target device.
   - If communication is taking place, a message like the one shown below appears.
     
     ```
     Reply from XXX.XXX.XXX.XXX: bytes=32 time=10ms TTL=255
     ```
   - If **Request timed out** appears, communication is not taking place.

- **For macOS:**

1. Start **Network Utility** as shown below.
   - Select **Computer** from **Go** menu of Finder, double-click **Macintosh HD** > **System** > **Library** > **CoreServices** > **Applications** > **Network Utility**.

2. Click **Ping**.

3. Make sure **Send only XX pings** (XX are numbers) is selected.

4. Enter IP address of target printer or target wireless router in **Enter the network address to ping**.

5. Click **Ping**.
"XXX.XXX.XXX.XXX" is the IP address of the target device.

A message such as the following appears.

64 bytes from XXX.XXX.XXX.XXX: icmp_seq=0 ttl=64 time=3.394 ms
64 bytes from XXX.XXX.XXX.XXX: icmp_seq=1 ttl=64 time=1.786 ms
64 bytes from XXX.XXX.XXX.XXX: icmp_seq=2 ttl=64 time=1.739 ms

--- XXX.XXX.XXX.XXX ping statistics ---
3 packets transmitted, 3 packets received, 0% packet loss

If packet loss is 100%, communication is not taking place. Otherwise, computer is communicating with target device.

Checking Network Setting Information

To check the printer’s network settings information, print out the network settings information or use the operation panel to display it.

• Display on the touch screen.
  ➤ LAN settings

• Print the network settings.
  ➤ Printing Network Settings
Restoring to Factory Defaults

Important

- For Windows:
  Initialization erases all network settings on the printer, making printing or scanning operation from a computer over a network impossible. To use the printer over a network again after restoring it to the factory defaults, redo setup using the Setup CD-ROM or from the web page.

- For macOS:
  Initialization erases all network settings on the printer, making printing or scanning operation from a computer over a network impossible. To use the printer over a network again after restoring it to the factory defaults, redo setup from the web page.

Initialize the network setting using the printer’s operation panel.

> Reset setting
Problems while Printing/Scanning from Smartphone/Tablet

- Cannot Print/Scan from Smartphone/Tablet
Cannot Print/Scan from Smartphone/Tablet

If you cannot print/scan from your smartphone/tablet, it is possible that your smartphone/tablet cannot communicate with the printer.

Check the cause of your problem according to the connection method.

- **Cannot Communicate with Printer over Wireless LAN**
- **Cannot Communicate with Printer while It Is in Wireless Direct**

**Note**

- For problems on printing with other connection methods or more on performing settings of each connection method:
  - Using PIXMA/MAXIFY Cloud Link
  - Printing with Google Cloud Print
  - Printing from iOS Device (AirPrint)

**Cannot Communicate with Printer over Wireless LAN**

If your smartphone/tablet cannot communicate with the printer, check the following.

**Check1** Check the power status of printer, network devices (e.g. wireless router), and smartphone/tablet.

- Turn on the printer or devices.
- If the power is already turned on, cycle the power switch.
- It may be necessary to resolve wireless router problems (e.g. update interval of a key, problems of DHCP update interval, energy saving mode, etc.) or to update the wireless router firmware.

For details, contact the manufacturer of your wireless router.

**Check2** Check the settings of your device (smartphone/tablet).

Make sure Wi-Fi is enabled on your device.

For details, refer to your device's instruction manual.

**Check3** Is the printer connected to the wireless router?

Use the icon on the touch screen to check the connection status between the printer and wireless router. If the icon is not displayed, Wi-Fi is disabled. Turn on wireless communication on the printer.

**Check4** Are network settings of printer identical with those of wireless router?

Make sure the network settings of the printer (e.g. network name (SSID) or network key (password), etc.) are identical with those of the wireless router.
To check the settings of the wireless router, refer to the instruction manual provided with it or contact its manufacturer.

To check the current network settings of the printer, print out the network setting information.

- **Printing Network Settings**

**Note**
- IJ Network Device Setup Utility allows you to diagnose and repair the network status.
  
  Select the link below to download IJ Network Device Setup Utility and install it.
  
  - Checking Printer Connection Status Using IJ Network Device Setup Utility

See below for starting up IJ Network Device Setup Utility.

- For Windows:
  
  - Starting Up IJ Network Device Setup Utility

- For macOS:
  
  - Starting Up IJ Network Device Setup Utility

**Check5** Are network settings of your smartphone/tablet identical with those of wireless router?

Make sure the network settings of the printer (e.g. network name (SSID) or network key (password), etc.) are identical with those of the wireless router.

To check the settings of your smartphone/tablet, refer to the instruction manual provided with it.

If the network settings of your smartphone/tablet are not identical with those of the wireless router, change the network settings of it to match with those of the wireless router.

**Check6** Make sure the printer is not placed too far away from the wireless router.

If the distance between the printer and wireless router is too far, wireless communication becomes poor. Place the printer and wireless router close to each other.

**Note**
- Though an antenna is attached to most wireless routers, note that some of them have it inside.

**Check7** Make sure wireless signal is strong. Monitor signal status and move printer and wireless router as necessary.

Place the printer and wireless router where there are no obstacles between them. Wireless communication between different rooms or floors is generally poor. Wireless communication can be impeded by building materials containing metal or concrete. If the printer cannot communicate with the computer over a Wi-Fi due to a wall, place the printer and the computer in the same room.

In addition, if a device like a microwave oven that emits radio waves of the same frequency bandwidth as a wireless router is nearby, it may cause interference. Place the wireless router as far away from interference sources as possible.

Check the signal strength on the touch screen.

- **Using the Operation Panel**
Note

- IJ Network Device Setup Utility allows you to diagnose and repair the network status.
- Select the link below to download IJ Network Device Setup Utility and install it.
  - Checking Printer Connection Status Using IJ Network Device Setup Utility

See below for starting up IJ Network Device Setup Utility.

- For Windows:
  - Starting Up IJ Network Device Setup Utility
- For macOS:
  - Starting Up IJ Network Device Setup Utility

---

Q Cannot Communicate with Printer while It Is in Wireless Direct

A

If your smartphone/tablet cannot communicate with the printer in the Wireless Direct, check the following.

Check1

Check the power status of printer and other devices (smartphone or tablet).

Turn on the printer or devices.

If the power is already turned on, cycle the power switch.

Check2

Is the icon displayed on the touch screen?

If not, Wireless Direct is disabled. Turn on Wireless Direct.

Check3

Check the settings of your device (smartphone/tablet).

Make sure Wi-Fi is enabled on your device.

For details, refer to your device’s instruction manual.

Check4

Make sure printer is selected as connection for device (e.g. smartphone or tablet).

Select the network name (SSID) for Wireless Direct specified for the printer as the connection destination for devices.

Check the destination on your device.

For details, refer to your device's instruction manual or visit the manufacturer's website.

To check the network name (SSID) for Wireless Direct specified for the printer, display it using the operation panel of the printer or print out the network setting information of the printer.

- Display on the touch screen.
  - LAN settings
- Print the network settings.
Printing Network Settings

Check 5 Have you entered the proper password specified for the Wireless Direct?

To check the password specified for the printer, display it using the operation panel of the printer or print out the network setting information of the printer.

- Display on the touch screen.
  - LAN settings
- Print the network settings.
  - Printing Network Settings

Check 6 Make sure the printer is not placed too far away from the device.

If the distance between the printer and device is too far, wireless communication becomes poor. Place the printer and device close to each other.

Check 7 Make sure 5 devices are already connected.

Wireless Direct does not allow more than 5 devices to be connected.
Printing Problems

- Printer Does Not Print
- Ink Does Not Come Out
- Paper Does Not Feed Properly/"No Paper" Error
- Printout Results Are Unsatisfactory
**Printer Does Not Print**

**Check1** Make sure printer is turned on.

If not, make sure the printer is securely plugged in and press **ON** button to turn on.

The **ON** lamp flashes while the printer is initializing. Wait until the **ON** lamp stops flashing and remains lit.

**Note**
- If you are printing large data such as photos or other graphics, printing may take longer to start. The **ON** lamp flashes while the computer is processing data and sending it to the printer. Wait until printing starts.

**Check2** Make sure printer is properly connected to computer.

If you are using a USB cable, make sure it is securely connected to both the printer and the computer. When the USB cable is securely plugged in, check the following:

- If you are using a relay device such as a USB hub, disconnect it, connect the printer directly to the computer, and retry the printing. If printing starts normally, there is a problem with the relay device. Contact the vendor of the relay device.
- There could also be a problem with the USB cable. Replace the USB cable and retry the printing.

If you use the printer over a LAN, make sure the printer is correctly set up for network use.

**Note**
- IJ Network Device Setup Utility allows you to diagnose and repair the network status. Download it from the web page.
  - For Windows
  - For macOS

**Check3** Make sure paper settings match information set for rear tray or cassette.

If the paper settings do not match the information set for the rear tray or the cassette, an error message appears on the touch screen. Follow the instructions on the touch screen to solve the problem.

**Note**
- You can select whether the message which prevents misprinting is displayed.
  - To change the message view setting when printing or copying using the printer's operation panel:
    - **Feed settings**
  - To change the message view setting when printing using the printer driver:
    - **Changing the Printer Operation Mode (Windows)**
Checking the Printer Operation Mode (macOS)

**Check 4** If printing from a computer, delete jobs stuck in print queue.

- For Windows:
  
  Deleting the Undesired Print Job

- For macOS:
  
  Deleting the Undesired Print Job

**Check 5** Is your printer's printer driver selected when printing?

The printer will not print properly if you are using a printer driver for a different printer.

- For Windows:
  
  Make sure "Canon XXX series" (where "XXX" is your printer's name) is selected in the Print dialog box.

  **Note**

  - If multiple printers are registered to your computer, select Set as Default Printer for a printer to make the one selected by default.

- For macOS:
  
  Make sure your printer's name is selected in Printer in the Print dialog.

  **Note**

  - If multiple printers are registered to your computer, select Set as Default Printer from System Preferences > Printers & Scanners for a printer to make the one selected by default.

**Check 6** Are you trying to print a large data file? (Windows)

If you are trying to print a large file, it takes a long time to start printing.

If the printer does not start printing after a certain period of time, select On for Prevention of Print Data Loss.

For details, refer to Page Setup Tab Description.

**Important**

- Selecting On for Prevention of Print Data Loss may reduce print quality.
- After printing is completed, select Off for Prevention of Print Data Loss.

**Check 7** If printing from a computer, restart the computer.

Restart the computer and try printing again.
Ink Does Not Come Out

Check1 Make sure of the estimated ink levels in the ink tanks.
Check the ink status on the touch screen.
  ➔ Checking Ink Status on the Touch Screen

Check2 Are the orange tape and plastic wrap still on the ink tank?
Make sure all the protective plastic wrap is peeled off to expose the Y-vent area, as shown below (A).
If the orange tape remains on the ink tank (B), peel it off.

Check3 Are the print head nozzles clogged?
Print the nozzle check pattern to determine whether the ink ejects properly from the print head nozzles.
For details on printing the nozzle check pattern, print head cleaning, and print head deep cleaning, see If Printing Is Faint or Uneven.

• If nozzle check pattern is not printed correctly:
  Check if the ink tank for the problem color is empty.
  If the ink tank is not empty, perform print head cleaning and try printing the nozzle check pattern again.
• If problem is not resolved after performing print head cleaning twice:
  Perform print head deep cleaning.
  If the problem is not resolved after performing print head deep cleaning, turn off the printer and perform print head deep cleaning again 24 hours later.
• If problem is not resolved after performing print head deep cleaning twice:
  If print head deep cleaning does not resolve the problem, the print head may be damaged. Contact your nearest Canon service center to request a repair.
Paper Does Not Feed Properly/"No Paper" Error

Check1 Make sure paper is loaded.

- Loading Paper

Check2 When loading paper, consider the following.

- When loading two or more sheets of paper, align the edges of the sheets before loading the paper.
- When loading two or more sheets of paper, make sure the paper stack does not exceed the paper load limit.

However, paper may not feed correctly at the maximum capacity, depending on the type of paper or environmental conditions (very high or low temperature and humidity). In such cases, reduce the amount of paper you load at a time to less than half of the paper load limit.

- Always load the paper in portrait orientation, regardless of the printing orientation.
- When you load the paper on the rear tray, place the print side facing UP and align the right and left paper guides with the paper stack.

- Loading Paper

- In the cassette, be sure to load only plain paper.

- When you load the paper on the cassette, place the print side facing DOWN and align the right/left/front paper guides with the paper stack.

- Loading Paper

Check3 Is paper too thick or curled?

- Unsupported Media Types

Check4 When loading envelopes, consider the following.

When printing on envelopes, see Loading Envelopes in Rear Tray, and prepare the envelopes before printing.

Once you have prepared the envelopes, load them in portrait orientation. If the envelopes are placed in landscape orientation, they will not feed properly.

Check5 Make sure media type and paper size settings match with loaded paper.

Check6 Make sure that there are not any foreign objects in the rear tray.
If the paper tears in the rear tray, see List of Support Code for Error (Paper Jams) to remove it.

If there are any foreign objects in the rear tray, be sure to turn off the printer, unplug it from the power supply, then remove the foreign object.

Note

• If the feed slot cover is opened, close it slowly.

Check7 Clean paper feed roller.
  ➞ Cleaning Paper Feed Rollers

Note

• Cleaning the paper feed roller abrades it, so do this only when necessary.

Check8 If two or more sheets of paper feed from cassette at once, clean inside of cassette.
  ➞ Cleaning Cassette Pads

Check9 Are transport unit cover and rear cover attached properly?
  See Rear View for the positions of the transport unit cover and the rear cover.

If the measures above do not solve the problem, contact your nearest Canon service center to request a repair.
Printout Results Are Unsatisfactory

If the print results are unsatisfactory due to white streaks, misaligned/distorted lines, or uneven colors, check the paper and print quality settings first.

**Check1** Do page size and media type settings match size and type of loaded paper?

If these settings do not match, it is not possible to obtain the proper result.

If you are printing a photograph or an illustration, an incorrect paper type setting may reduce the quality of the printout color.

Also, if you print with an incorrect paper type setting, the printed surface may be scratched.

In borderless printing, uneven coloring may occur depending on the combination of the paper type setting and the loaded paper.

The method for checking the paper and print quality settings differs depending on what you are using your printer for.

- **Copying**
  
  Check the settings using the operation panel.

  ➤ Setting Items for Copying

- **Printing from your computer**

  Check the settings using the printer driver.

  ➤ Basic Printing Setup

- **Printing from a PictBridge (Wi-Fi) compliant device**

  Check the settings on your PictBridge (Wi-Fi) compliant device or using the operation panel.

  ➤ PictBridge (Wi-Fi) Print Settings
  ➤ PictBridge settings

- **Printing from your smartphone/tablet using Canon PRINT Inkjet/SELPHY**

  Check the settings on Canon PRINT Inkjet/SELPHY.

  ➤ Print Easily from a Smartphone or Tablet with Canon PRINT Inkjet/SELPHY

**Check2** Make sure appropriate print quality is selected (see list above).

Select a print quality suited to the paper and to what you are printing. If you notice blurs or uneven colors, increase the print quality setting and retry the printing.

**Note**

- When printing from a PictBridge (Wi-Fi) compliant device, set the print quality setting using the operation panel.

  This setting cannot be made on the PictBridge (Wi-Fi) compliant device.
Check3 If problem is not resolved, check also the sections below.

See also the sections below:

- Printouts Are Blank/Blurry or Fuzzy/Inaccurate or Bleeding Colors/Streaks or Lines
- Lines Are Misaligned/Distorted
- Paper Is Smudged / Printed Surface Is Scratched
- Vertical Line Next to Image
- Cannot Complete Printing
- Part of Page Is Not Printed (Windows)
- Lines Incomplete or Missing (Windows)
- Images Incomplete or Missing (Windows)
- Ink Blots / Paper Curl
- Back of Paper Is Smudged
- Uneven or Streaked Colors
Printouts Are Blank/Blurry or Fuzzy/Inaccurate or Bleeding Colors/ Streaks or Lines

Printing Is Blurry

Colors Are Wrong
White Streaks Appear

Check1 Check paper and print quality settings.

- Printout Results Are Unsatisfactory

Check2 Check status of ink tanks. Replace ink tank if ink has run out.

- Replacing Ink Tanks

Check3 Are the orange tape and plastic wrap still on the ink tank?
Make sure all the protective plastic wrap is peeled off to expose the Y-vent area, as shown below (A).
If the orange tape remains on the ink tank (B), peel it off.

Check4 Are the print head nozzles clogged?
Print the nozzle check pattern to determine whether the ink ejects properly from the print head nozzles.
For details on printing the nozzle check pattern, print head cleaning, and print head deep cleaning, see If Printing Is Faint or Uneven.

- If nozzle check pattern is not printed correctly:
  Check if the ink tank for the problem color is empty.
  If the ink tank is not empty, perform print head cleaning and try printing the nozzle check pattern again.
- If problem is not resolved after performing print head cleaning twice:
Perform print head deep cleaning.
If the problem is not resolved after performing print head deep cleaning, turn off the printer and perform print head deep cleaning again 24 hours later.

• If problem is not resolved after performing print head deep cleaning twice:
If print head deep cleaning does not resolve the problem, the print head may be damaged. Contact your nearest Canon service center to request a repair.

Check5 When using paper with one printable surface, check the correct printable side of the paper.
Printing on the wrong side of such paper may cause unclear prints or prints with reduced quality.
When you load paper on the rear tray, load paper with the printable side facing up. When you load paper in the cassette, load paper with the printable side facing down.
Refer to the instruction manual supplied with the paper for detailed information on the printable side.

• When copying, see also the sections below:

Check6 Is platen glass dirty?
Clean the platen glass.
⇒ Cleaning Platen and Document Cover

Check7 Make sure original is properly loaded on platen.
When you load the original on the platen, load it with the side to be copied facing down.
⇒ Loading Originals

Check8 Is copy source a printed paper by printer?
If you use a printout done by this printer as the original, print quality may be reduced depending on the condition of the original.
Print from the printer directly, or reprint from the computer if you can reprint from it.
Lines Are Misaligned/Distorted

Check1  Check paper and print quality settings.

- **Printout Results Are Unsatisfactory**

Check2  Perform print head alignment.

If printed lines are misaligned/distorted or print results are otherwise unsatisfactory, adjust the print head position.

- **Aligning the Print Head**

**Note**

- If the problem is not resolved after performing the print head alignment, perform print head alignment manually from your computer.
  - For Windows:
    - **Adjusting Print Head Position Manually**
  - For macOS:
    - **Adjusting Print Head Position**

Check3  Increase print quality and try printing again.

Increasing the print quality using the operation panel or the printer driver may improve the print result.
Paper Is Smudged / Printed Surface Is Scratched

- **Paper Is Smudged**

![Smudged Edges](image1.png) ![Smudged Surface](image2.png)

- **Printed Surface Is Scratched**

Check1: Check paper and print quality settings.
- Printout Results Are Unsatisfactory

Check2: Check paper type.
Make sure you are using the right paper for what you are printing.
- Supported Media Types

Check3: Correct curl before loading paper.
When using Photo Paper Plus Semi-gloss, even if the sheet is curled, load one sheet at a time as it is. Rolling this paper in the opposite direction to flatten it may crack the paper surface and reduce the print quality.
We recommend putting unused paper back into the package and storing it flat.

- **Plain Paper**
  Turn the paper over and reload it to print on the other side.

- **Other Paper such as envelope**
  If the paper corners curl more than 0.1 inch / 3 mm (A) in height, the paper may smudge or may not feed properly. Follow the instructions below to correct the paper curl.
1. Roll up paper in opposite direction to paper curl as shown below.

2. Check that paper is now flat.
   
   We recommend printing curl-corrected paper one sheet at a time.

**Note**

- Depending on paper type, the paper may smudge or may not feed properly even if it is not curled inward. Follow the instructions below to curl the paper outward up to 0.1 inch / 3 mm (B) in height before printing. This may improve the print result.

(C) Print side

We recommend feeding paper that has been curled outward one sheet at a time.

**Check4** Set printer to prevent paper abrasion.

Adjusting the setting to prevent paper abrasion will widen the clearance between the print head and the paper. If you notice abrasion even with the media type set correctly to match the paper, set the printer to prevent paper abrasion using the operation panel or the computer. This may reduce the print speed.

* Once you have finished printing, undo this setting. Otherwise, it will apply to subsequent print jobs.

- From operation panel

  Press the HOME button, select (Setup) icon, Settings, Device settings, and Print settings, and then set Prevent paper abrasion to ON.

  ➡️ Changing Settings from Operation Panel

- From computer

  - For Windows:
1. Check that printer is turned on.

2. Open Canon IJ Printer Assistant Tool.
   - Maintenance Tab Description

3. Select **Select Printer...** and select printer you are using from pulldown menu and select **OK**.

4. Select **Custom Settings**.

5. Select **Prevent paper abrasion** check box and click **OK**.
   - For macOS:
     Adjust the setting to prevent paper abrasion from Remote UI.
     - **Opening Remote UI for Maintenance**

   - **Check5** If intensity is set high, reduce intensity setting and try printing again.

     If you are printing with a high intensity setting on plain paper, the paper may absorb too much ink and become wavy, causing paper abrasion.
     - Printing from your computer (Windows)
       Check the intensity setting in the printer driver.
       - **Adjusting Intensity**
     - Copying
       - **Setting Items for Copying**

   - **Check6** Is platen glass dirty?

     Clean the platen glass.
     - **Cleaning Platen and Document Cover**

   - **Check7** Is paper feed roller dirty?

     Clean paper feed roller.
     - **Cleaning Paper Feed Rollers**

   - **Note**
     - Cleaning the paper feed roller abrades it, so do this only when necessary.

   - **Check8** Is inside of printer dirty?

     During duplex printing, ink may stain the inside of the printer, smudging the printout.
     Perform bottom plate cleaning to clean inside of printer.
     - **Cleaning Inside the Printer (Bottom Plate Cleaning)**
**Note**

- To prevent staining inside the printer, be sure to set the correct paper size.

**Check9** Set longer ink drying time.

This allows the printed surface to dry, preventing smudges and scratches.

- For Windows:
  1. Check that printer is turned on.
  2. Open Canon IJ Printer Assistant Tool.
     - Maintenance Tab Description
  3. Select **Select Printer...** and select printer you are using from pulldown menu and select **OK**.
  4. Select **Custom Settings**.
  5. Drag **Ink Drying Wait Time** slide bar to set the wait time and click **OK**.
  6. Check message and click **OK**.

- For macOS:
  Set the waiting time using Remote UI.
  - Changing the Printer Operation Mode
Vertical Line Next to Image

Check

Is loaded paper size correct?

If the loaded paper is larger than the size you specified, a vertical line may appear in the margin. Set the paper size to match the loaded paper.

Note

• The direction of the vertical line pattern may vary depending on the image data or the print setting.

• This printer performs automatic cleaning when necessary to keep printouts clean. A small amount of ink is ejected for cleaning. Although the ink is normally ejected onto the ink absorber at the outer edge of the paper, it may get onto the paper if the loaded paper is larger than the set size.
Scanning Problems (macOS)

- Scanning Problems
Scanning Problems

- Scanner Does Not Work
- Scanner Driver Does Not Start
Scanner Does Not Work

Check 1: Check that your scanner or printer is turned on.

Check 2: With network connection, check the connection status and reconnect as needed.

Check 3: With USB connection, connect the USB cable to a different USB port on the computer.

Check 4: If the USB cable is connected to a USB hub, remove it from the USB hub and connect it to a USB port on the computer.

Check 5: Restart the computer.

Check 6: To scan from the printer’s operation panel with USB connection, click Scan-from-Operation-Panel Settings in the Settings (General Settings) dialog, and then check that the following checkboxes are selected.

- Your scanner or printer
- Enables scanning from the operation panel
Scanner Driver Does Not Start

Check 1  Make sure the application software supports AirPrint.

Check 2  Select your scanner or printer on the application's menu.

Note  The operation may differ depending on the application.

Check 3  Scan and save images with IJ Scan Utility Lite and open the files in your application.
Mechanical Problems

- Printer Does Not Turn On
- Printer Turns Off Unexpectedly or Repeatedly
- USB Connection Problems
- Cannot Communicate with Printer via USB
- Wrong Language Appears in Touch Screen
Printer Does Not Turn On

Press ON button.

Make sure power plug is securely connected to printer, and then turn on again.

Unplug printer, leave it for at least 2 minutes, and then plug it back in and turn on again.

If this does not solve the problem, contact your nearest Canon service center to request a repair.
Printer Turns Off Unexpectedly or Repeatedly

Check

If printer is set to turn off automatically after a certain time, disable this setting.

If you have set the printer to turn off automatically after a specified time, the power will shut off by itself once that time has elapsed.

• To disable the setting from the operation panel:

1. Check that printer is turned on.

2. Select (Setup) on Home screen.

3. Select ECO.

5. Check displayed message and select Next.

6. Select Auto power off.

7. Select Never.

8. Select OK.

   The setting is disabled.

• To disable the setting from the computer:

For Windows, use Canon IJ Printer Assistant Tool or ScanGear (scanner driver) to disable the setting.

Follow the procedure below to disable the setting using Canon IJ Printer Assistant Tool.

1. Open Canon IJ Printer Assistant Tool.

   ➔ Maintenance Tab Description

2. Select Select Printer... and select printer you are using from pulldown menu and select OK.

4. Select **Disable** for **Auto Power Off**.

5. Select **OK**.

6. Select **OK** on the displayed screen.
   The setting to shut off the power automatically is disabled.

**Note**

- Refer to below to disable the setting from ScanGear (scanner driver).
  ➞ Scanner Tab
USB Connection Problems

Q Printing or Scanning is Slow/Hi-Speed USB Connection Does Not Work/"This device can perform faster" Message Appears (Windows)

A If your system environment does not support Hi-Speed USB, the printer operates at the slower speed of USB 1.1. In this case, the printer works properly but printing or scanning speed may slow down due to the communication speed.

Check Check following to make sure your system environment supports Hi-Speed USB connection.

- Does the USB port on your computer support Hi-Speed USB connection?
- Does the USB cable or the USB hub support Hi-Speed USB connection?
  Be sure to use a certified Hi-Speed USB cable. We recommend that the USB cable be no longer than 10 feet / 3 meters or so.
- Is the Hi-Speed USB driver working properly on your computer?
  Make sure the latest Hi-Speed USB driver is working properly and obtain and install the latest version of the Hi-Speed USB driver for your computer, if necessary.

Important

- For more information, contact the manufacturer of your computer, USB cable, or USB hub.
Cannot Communicate with Printer via USB

Check1  Make sure printer is turned on.

Check2  Connect USB cable properly.

As the illustration below, the USB port is at the back of the printer.

-----

Important

• Connect the "Type-B" terminal to the printer with the notched side facing UP. For details, refer to the instruction manual supplied with the USB cable.

Check3  Make sure Enable bidirectional support is selected in the Ports sheet of the properties dialog box of the printer driver. (Windows)

If not, select it to enable bidirectional support.

  ➔ Opening Printer Driver's Setup Screen
Wrong Language Appears in Touch Screen

Follow the instructions below to select your language.

1. Press **HOME** button and wait a little.

2. Select (Setup) icon.
   - Using the Operation Panel

3. Select 🔄.

4. Select sixth setting item from top.

5. Select a language for touch screen.

6. Select button on lower left.
Installation and Download Problems

- Failed to MP Drivers Installation (Windows)
- Updating MP Drivers in Network Environment (Windows)
Failed to MP Drivers Installation (Windows)

• If installation does not start when you insert Setup CD-ROM:

Follow the instructions below to start the installation.

1. Make the following settings.
   ◦ In Windows 10, click Start > File Explorer, and then click This PC from list on left.
   ◦ In Windows 8.1, select Explorer icon in Taskbar on Desktop, and then select This PC from list on left.
   ◦ In Windows 7, click Start, and then click Computer.

2. Double-click the CD-ROM icon in the window that appears.
   If the contents of the CD-ROM appear, double-click MSETUP4.EXE.
   If you cannot install the MP Drivers with the Setup CD-ROM, install them from the Canon website.

Note

• If the CD-ROM icon does not appear, try the following:
   • Remove the CD-ROM from your computer and reinser it.
   • Restart your computer.

If the icon still does not appear, try a different disc and see if it appears. If it does, there is a problem with the Setup CD-ROM. Contact your nearest Canon service center to request a repair.
• If you cannot get past the Printer Connection screen:

  ![Printer Connection Screen](image)

  **Cannot Proceed beyond Printer Connection Screen**

• Other cases:
  
  Reinstall the MP Drivers.
  
  If the MP Drivers were not installed correctly, uninstall the MP Drivers, restart your computer, and then reinstall the MP Drivers.

  **Deleting the Unnecessary MP Drivers**

  Reinstall the MP Drivers with the Setup CD-ROM or install them from the Canon website.

  **Note**

  • If the installer was stopped due to a Windows error, Windows operation may be unstable, and you may not be able to install the drivers. Restart your computer and then reinstall the drivers.
Updating MP Drivers in Network Environment (Windows)

Download the latest MP Drivers.

Download the latest MP Drivers for your model on the download page of the Canon website. Uninstall the existing MP Drivers and follow the installation instructions to install the latest MP Drivers that you downloaded. In the connection method selection screen, select **Use the printer with Wi-Fi connection**. The printer is detected automatically in the network.

Make sure the printer was found, and install the MP Drivers following the on-screen instructions.

**Note**

- The network settings on the printer are not affected, so the printer can be used on the network without redoing settings.
Errors and Messages

- An Error Occurs
- Message (Support Code) Appears
An Error Occurs

If an error occurs in printing, for example if the paper runs out or jams, a troubleshooting message appears automatically. Take the appropriate action described in the message.

When an error occurs, a message appears on the computer, or an error code appears on the printer. For some errors, a support code (error number) appears on the computer screen.

When a Support Code and a message are displayed on the computer screen (Windows):

When a Support Code and a message are displayed on the printer (touch screen):

For details on how to resolve errors, see List of Support Code for Error.

Note

- For details on how to resolve errors without Support Codes, see Message (Support Code) Appears.
Message (Support Code) Appears

This section describes some of the errors and messages that may appear.

Note

• A support code (error number) is displayed on the computer for some errors. For details on errors that have support code, see List of Support Code for Error.

If a message appears on the touch screen, see below.

Message Appears on Touch Screen

If a message appears on the computer, see below.

Error Regarding Automatic Duplex Printing Is Displayed
Error Regarding Power Cord Being Unplugged Is Displayed (Windows)
Writing Error/Output Error/Communication Error (Windows)
Other Error Messages (Windows)

Q Message Appears on Touch Screen

A

Check the message and take an appropriate action.

• Power was not turned off correctly the last time. Press the button when turning power off.

  The printer may have been unplugged while the power was still on.

  Select OK on the touch screen.

  Note

  • See Unplugging the Printer to unplug the printer correctly.

• Cannot connect to the server. Please wait a while and try again.

  The printer cannot connect to the server due to a communication error.

  Select OK on the touch screen and try again after a while.

Q Error Regarding Automatic Duplex Printing Is Displayed

A

Check See Automatic Duplex Printing Problems and take the appropriate action.
**Q** Error Regarding Power Cord Being Unplugged Is Displayed (Windows)

**A**

The printer may have been unplugged while it was on.  
Check the error message that appears on the computer and click **OK**.  
The printer starts printing.  
See [Unplugging the Printer](#) for unplugging the power cord.

**Q** Writing Error/Output Error/Communication Error (Windows)

**A**

**Check1** If the **ON** lamp is off, make sure printer is plugged in and turn on.  
The **ON** lamp flashes while the printer is initializing. Wait until the **ON** lamp stops flashing and remains lit.  

**Check2** Make sure printer is properly connected to computer.  
If you are using a USB cable, make sure it is securely connected to both the printer and the computer. When the USB cable is securely plugged in, check the following:

- If you are using a relay device such as a USB hub, disconnect it, connect the printer directly to the computer, and retry the printing. If printing starts normally, there is a problem with the relay device. Contact the vendor of the relay device.
- There could also be a problem with the USB cable. Replace the USB cable and retry the printing.

If you use the printer over a LAN, make sure the printer is correctly set up for network use.

**Check3** Make sure MP Drivers are installed correctly.  
Uninstall the MP Drivers following the procedure described in Deleting the Unnecessary MP Drivers and reinstall them from the Setup CD-ROM or the Canon website.

**Check4** When printer is connected to your computer with a USB cable, check device status from your computer.  
Follow the procedure below to check the device status.

1. Select **Control Panel > Programs > Programs and Features**.

   **Note**
   - If the **User Account Control** screen appears, select **Continue**.

2. Double-click **Universal Serial Bus controllers** and **USB Printing Support**.  
   If **USB Printing Support Properties** screen does not appear, make sure the printer is correctly connected to the computer.

   **Check2** Make sure printer is properly connected to computer.
3. Click **General** tab and check for a device problem.
   If a device error is shown, see Windows Help to resolve it.

---

**Other Error Messages (Windows)**

**Check**

If an error message appears outside printer status monitor, check the following:

- **"Could not spool successfully due to insufficient disk space"**
  
  Delete any unnecessary files to increase the amount of free space on the disk.

- **"Could not spool successfully due to insufficient memory"**
  
  Close other applications to increase the available memory.

  If you still cannot print, restart your computer and retry the printing.

- **"Printer driver could not be found"**
  
  Uninstall the MP Drivers following the procedure described in Deleting the Unnecessary MP Drivers and reinstall them from the Setup CD-ROM or the Canon website.

- **"Could not print Application name - File name"**
  
  Try printing again once the current job is complete.
### List of Support Code for Error

Support code appears on the touch screen and your computer screen when errors occur.

A "support code" is an error number, and appears along with an error message.

When an error occurs, check the support code displayed on the touch screen and computer screen and take the appropriate action in response.

#### Support Code Appears on Touch Screen and Computer Screen

For paper jam support codes, see also List of Support Code for Error (Paper Jams).
List of Support Code for Error (Paper Jams)

If paper jams, remove it following the appropriate procedure as shown below.

- If you can see the jammed paper at the paper output slot or the rear tray:
  - 1300

- If you cannot see the jammed paper at the paper output slot or the rear tray:
  - If the paper fed from the cassette is jammed:
    - 1303
  - If the paper is jammed when performing automatic duplex printing:
    - 1304
  - If the paper is jammed as the printer pulled in the printed paper:
    - 1313
  - If the paper tears and you cannot remove it from the paper output slot or if the paper is jammed inside the printer:
    - Paper Is Jammed inside Printer

- Cases other than above:
  - Other Cases
1300

Cause
Paper is jammed when feeding paper from rear tray.

What to Do
If the paper fed from the rear tray is jammed, remove the jammed paper from the paper output slot or from the rear tray following the instructions below.

1. Slowly pull out paper, either from paper output slot or from rear tray, whichever is easier.
   Hold the paper with both hands, and pull it out slowly so as not to tear it.

   ![Image of printer with paper output slot and rear tray]

   **Note**
   - If you cannot pull out the paper, turn the printer back on without pulling forcibly. The paper may be ejected automatically.
   - If paper becomes jammed during printing and you need to turn off the printer to remove it, press the **Stop** button to stop the printing before you turn off the printer.
   - If the paper tears and you cannot remove the jammed paper from the paper output slot or the rear tray, remove the paper from inside the printer.
     - [Paper Is Jammed inside Printer](#)
   - If you cannot pull the paper out from the paper output slot or from the rear tray, try to pull the paper out from the rear side of the printer.
     - [Removing Jammed Paper from Rear Side](#)

2. Reload paper and select **OK** on printer's touch screen.
   The printer resumes printing. Reprint the page you were printing if it was not printed properly due to the paper jam.
   If you turned off the printer in step 1, the print data that was sent to the printer is erased. Redo the printing.
Note

- When reloading the paper, make sure you are using suitable paper and loading it correctly.
- We recommend using paper sizes other than A5 to print documents with photos or graphics. A5 paper may curl and jam as it leaves the printer.

If the measures above do not solve the problem, contact your nearest Canon service center to request a repair.
1303

Cause
Paper is jammed when feeding paper from cassette.

What to Do

1. Remove jammed paper.
   • If the paper is jammed at the paper output slot:
     ➔ 1300
   • If the paper is jammed inside the printer:
     ➔ Paper Is Jammed inside Printer
   • If the paper is jammed at the feeder of the cassette:
     Pull out the cassette, and then remove the paper slowly with both hands.

   • If none of the above is applied, see Removing Jammed Paper from Rear Side to open the rear cover and to remove the paper.

2. Load paper in cassette properly.
   ➔ Loading Paper in the Cassette

3. Perform printing or copying again.
Cause

Paper is jammed when performing automatic duplex printing.

What to Do

1. Remove jammed paper.
   • If the paper is jammed at the paper output slot:
     ➤ 1300
   • If the paper is jammed inside the printer:
     ➤ Paper Is Jammed inside Printer
   • If the paper is jammed at the feeder of the cassette:
     Pull out the cassette, and then remove the paper slowly with both hands.
   • If none of the above is applied, see Removing Jammed Paper from Rear Side to open the rear cover and to remove the paper.

2. Load paper properly.
   ➤ Loading Paper in the Cassette
   ➤ Loading Paper in the Rear Tray

3. Perform printing or copying again.
Cause
Paper is jammed as printer pulled in printed paper.

What to Do
If the paper is jammed as the printer pulled in the printed paper, try to remove the paper from the following locations.

- Paper output slot
  ➤ 1300
- Inside of the printer
  ➤ Paper Is Jammed inside Printer

If the measures above do not solve the problem, see Removing Jammed Paper from Rear Side to open the rear cover and to remove the paper.
Paper Is Jammed inside Printer

If the jammed paper tears and you cannot remove the paper from the paper output slot, or if the jammed paper remains inside the printer, remove the paper following the instructions below.

**Note**

- If paper becomes jammed during printing and you need to turn off the printer to remove it, press the Stop button to stop the printing before you turn off the printer.

1. Turn off printer and unplug it.

2. Open scanning unit / cover.

![Image of printer]

**Important**

- Do not touch white belt (A).

If you soil or scratch this part by touching it with paper or your hand, it could damage the printer.

3. Check if jammed paper is under print head holder.

   If the jammed paper is under the print head holder, move the print head holder to the far right or left, whichever makes it easier to remove the paper.

   When moving the print head holder, hold the top of the print head holder and slide it slowly to the far right or left.
4. Hold jammed paper firmly in both hands.

If the paper is rolled up, pull it out.

5. Slowly pull out paper, so as not to tear it.

Pull out the paper at an angle of about 45 degrees.
6. Make sure all jammed paper is removed.

If the paper tears when you pull out it, a bit of paper may remain in the printer. Check the following and remove any remaining paper.

- Any paper left under the print head holder?
- Any small bits of paper left in the printer?
- Any paper left in the left and right empty spaces (B) in the printer?

7. Close scanning unit / cover.

To close the scanning unit / cover, hold it up once, and then take it down gently.

All jobs in the print queue are canceled. Redo the printing.

Note

- When reloading the paper, make sure you are using suitable paper and loading it correctly. If a paper jam message appears on the touch screen or on your computer screen when you resume printing after removing all the jammed paper, there may be some paper still inside the printer. Check the printer again for any remaining bits of paper.

If the measures above do not solve the problem, contact your nearest Canon service center to request a repair.
Removing Jammed Paper from Rear Side

Note

- If paper becomes jammed during printing and you need to turn off the printer to remove it, press the Stop button to stop the printing before you turn off the printer.

1. Rotate printer so that rear side of printer faces toward you.

2. Open rear tray cover and then pull up paper support.

3. Detach rear cover.

Pull out the rear cover.
4. Slowly pull out paper.

Note

- Do not touch the inner parts of the printer.

If you were not able to remove the paper in this step, detach the transport unit cover and remove the paper by following these steps.

1. Detach transport unit cover.

   Lift up the transport unit cover and pull out it.
2. Slowly pull out paper.

**Note**
- Do not touch the inner parts of the printer.

3. Make sure all jammed paper is removed.

4. Attach transport unit cover.

   Insert the transport unit cover slowly all the way into printer and take down the transport unit cover.
5. Attach rear cover.

Insert the projections of the right side of the rear cover into the printer, and then push the left side of the rear cover until it is closed completely.

If the measures above do not solve the problem, contact your nearest Canon service center to request a repair.
1000

Cause
Possible causes include the following.

- There is no paper in the rear tray.
- Paper is not loaded in the rear tray properly.

What to Do
Take the corresponding actions below.

- Load paper in the rear tray.
- Align the paper guides with the both edges of the paper when you load paper in the rear tray.

- Set paper information for the paper in the rear tray.

⇒ [Loading Paper in the Rear Tray](#)

After carrying out the above measures, select OK on the touch screen.

Important

- Be sure to close the feed slot cover after loading paper in the rear tray. If the feed slot cover is open, paper cannot be fed.

Note

- After loading paper in the rear tray, the screen for setting rear tray paper information appears. Set paper information for the paper in the rear tray.
- To cancel printing, press the printer's Stop button.
1003

**Cause**
Possible causes include the following.
- There is no paper in the cassette.
- Paper is not loaded in the cassette properly.

**What to Do**
Take the corresponding actions below.
- Load paper in the cassette.
- Align the paper guides with the both edges of the paper when you load paper in the cassette.
- Set paper information for the paper in the cassette.

> Loading Paper in the Cassette

After carrying out the above measures, select **OK** on the touch screen.

**Note**
- Once the cassette is inserted, the screen for setting cassette paper information appears. Set paper information for the paper in the cassette.
- The loadable paper differs depending on the paper source.
  - The loadable paper in the cassette is A4, Letter, A5, or B5 size plain paper.
- To cancel printing, press the printer’s **Stop** button.
1200

**Cause**
Scanning unit / cover is open.

**What to Do**
Close the scanning unit / cover and wait for a while.
Do not close it while you are replacing an ink tank.
1401

If this does not solve the problem, contact your nearest Canon service center to request a repair.
Ink may have run out.

Replacing the ink tank is recommended.

If printing is in progress and you want to continue printing, tap OK on the printer with the ink tank installed. Then printing can continue. Replacing the ink tank is recommended after the printing. The printer may be damaged if printing is continued under the ink out condition.
1660

Cause
The ink tank cannot be recognized.

What to Do
Printing cannot be performed because the ink tank is not installed or is not compatible with this printer. Check the ink tank.
If you want to cancel printing, press the printer's Stop button.
Cause
The ink has run out.

What to Do
Replace the ink tank and close the scanning unit / cover.
Printing under the current condition may damage the printer.
If you want to continue printing in this condition, you need to disable the function for detecting the remaining ink level. Press and hold the printer's Stop button for at least 5 seconds, and then release it.
With this operation, disabling the function for detecting the remaining ink level is memorized. Please be advised that Canon shall not be liable for any malfunction or trouble which may be caused by continuation of printing under the ink out condition.

Note
- If the function for detecting the remaining ink level is disabled, the ink tank is displayed in white on the touch screen when the current estimated ink level is checked.
Cause
Printer detected ink out condition.

What to Do
Replace the ink tank and close the scanning unit / cover.
An ink tank that was once empty is installed.
Printing under the ink out condition may damage the printer.
If you want to continue printing, you need to disable the function for detecting the remaining ink level. To disable this function, press and hold the printer's Stop button for at least 5 seconds, and then release it.
With this operation, disabling the function for detecting the remaining ink level is memorized. Please be advised that Canon shall not be liable for any malfunction or trouble caused by continuation of printing under the ink out condition or by using refilled ink tanks.

Note
- If the function for detecting the remaining ink level is disabled, the ink tank is displayed in white on the touch screen when the current estimated ink level is checked.
1700

Cause
Ink absorber is almost full.

What to Do
Select **OK** on the touch screen to continue printing. Contact your nearest Canon service center to request a repair.

Note
- In the case of warnings or errors caused by remaining ink levels, the printer cannot print or scan.
1890

Cause
Tape for securing print head holder during transportation may still be attached.

What to Do
Open the scanning unit / cover and make sure the tape for securing the print head holder during transportation has been removed.
If the tape is still there, remove it and close the scanning unit / cover.

If this does not solve the problem, contact your nearest Canon service center to request a repair.
2110

Cause

Paper settings for printing or copying do not match cassette paper information set on printer.

Note

• See below for the correct correspondence between paper settings made on the printer driver or on the touch screen.
  ➔ Paper Settings on the Printer Driver and the Printer (Media Type) (Windows)
  ➔ Paper Settings on the Printer Driver and the Printer (Paper Size) (Windows)

• For copying, make the copy paper settings to match cassette paper information set on the printer.
• See below for details on cassette paper information set on the printer.
  ➔ Paper Settings

If the print or copy paper settings do not match cassette paper information set on the printer, as shown below, a message appears on the touch screen.

• Print settings specified on the printer driver:
  Paper size: A5
  Media type: Plain paper

• Cassette paper information set on the printer:
  Paper size: A4
  Media type: Plain paper

What to Do

Select Next on the touch screen to display the screen below.
Select the appropriate action.

**Note**
- Depending on settings, some of the options below may not appear.

**Print with the loaded paper.**
Select this option to print or copy onto the paper in the cassette without changing the paper settings.

For example, if the print or copy paper setting is A5, and cassette paper information is set to A4, the A5 size setting is used to print or copy onto the paper in the cassette.

**Replace the paper and print**
Select this option to print after changing the paper in the cassette.

For example, if the print or copy paper setting is A5, and cassette paper information is set to A4, change the paper in the cassette to A5 paper and proceed with printing or copying.

Once you have inserted the cassette after changing the paper, the screen for setting cassette paper information appears. Set paper information for the paper in the cassette.

**Note**
- If you do not know what paper information to set, press the Back button. The previous screen appears, showing the paper size and media type. Check the paper settings and set them as cassette paper information.
- See below for the correct correspondence between paper settings made on the printer driver or on the touch screen.

  ➔ Paper Settings on the Printer Driver and the Printer (Media Type) (Windows)
  ➔ Paper Settings on the Printer Driver and the Printer (Paper Size) (Windows)

**Cancel print**
Cancels printing.

Select this option when you want to change the print or copy paper settings. Change the paper settings and retry printing.

**Note**
- To suppress the misprint prevention message, change the setting as described below. When you suppress the message, the printer uses the paper settings for printing or copying onto the paper in the cassette regardless of whether or not the paper matches these settings.
  - To change the message view setting when printing or copying using the operation panel of the printer:
Feed settings

- To change the message view setting when printing using the printer driver:
  - Changing the Printer Operation Mode (Windows)
  - Changing the Printer Operation Mode (macOS)
Cause
Scanning print head alignment sheet failed.

What to Do
Select OK on the printer’s touch screen and check the following.
• Make sure the print head alignment sheet is set in the correct position and orientation on the platen.
• Make sure the platen and the print head alignment sheet are not dirty.
• Make sure the loaded paper is correct.
    For print head alignment, load A4 or Letter-sized plain paper.
• Make sure the print head nozzle is not clogged.
    Check the print head condition by printing the nozzle check pattern.
After checking the above, start over auto print head alignment from the beginning.
If the error is still not resolved, try manual print head alignment.
2901

**Cause**

Print head alignment pattern has been printed and printer is waiting to scan sheet.

**What to Do**

Scan the printed alignment pattern.

1. Load print head alignment sheet on platen.
   
   Place the printed side down and align the mark  in the upper left corner of the sheet with the alignment mark  

2. Slowly close the document cover and select OK on printer’s touch screen.
   
   The printer starts scanning the print head alignment sheet, and automatically adjusts the print head position.
4103

**Cause**
Cannot perform printing with current print settings.

**What to Do**
Press the printer’s **Stop** button to cancel printing.
Then change the print settings and retry printing.
5011

Cause
Printer error has occurred.

What to Do
Turn off printer and unplug it.
Plug in the printer again and turn it back on.
If this does not solve the problem, contact your nearest Canon service center to request a repair.
5012

Cause
Printer error has occurred.

What to Do
Turn off printer and unplug it.
Plug in the printer again and turn it back on.
If this does not solve the problem, contact your nearest Canon service center to request a repair.
5100

**Cause**
Printer error has occurred.

**What to Do**
Cancel printing and turn off the printer.
Check the following:

- Make sure print head holder motion is not impeded by tapes for securing the print head holder during transportation, jammed paper, etc.
  
  Remove any impediment.

- Make sure the ink tanks are properly installed.

  Press ink tanks until they click into place.

Turn the printer back on.

If this does not solve the problem, contact your nearest Canon service center to request a repair.

**Important**
- When clearing an impediment to print head holder motion, be careful not to touch white belt (A).

If you soil or scratch this part by touching it with paper or your hand, it could damage the printer.
5200

Cause
Printer error has occurred.

What to Do
Turn off printer and unplug it.
After a while, plug in the printer again and turn it back on.
If this does not solve the problem, contact your nearest Canon service center to request a repair.
5B00

Cause
Printer error has occurred.

What to Do
Contact your nearest Canon service center to request a repair.

Note
• In the case of warnings or errors caused by remaining ink levels, the printer cannot print or scan.
6000

Cause
Printer error has occurred.

What to Do
If the paper is jammed, remove it depending on the jammed location and cause.

⇒ List of Support Code for Error (Paper Jams)

Turn off printer and unplug it.
Plug in the printer again and turn it back on.
If this does not solve the problem, contact your nearest Canon service center to request a repair.
Cause

Printer error has occurred.

What to Do

Cancel printing and turn off the printer.

Check the following:

• Make sure print head holder motion is not impeded by tapes for securing the print head holder during transportation, jammed paper, etc.
  
  Remove any impediment.

• Make sure the ink tanks are properly installed.
  
  Press ink tanks until they click into place.

Turn the printer back on.

If this does not solve the problem, contact your nearest Canon service center to request a repair.

Important

• When clearing an impediment to print head holder motion, be careful not to touch white belt (A).

If you soil or scratch this part by touching it with paper or your hand, it could damage the printer.
