78J7-000

This manual should be read in conjunction with the User's Guide. This manual describes added functions and other changes for Platform Version Ver. 3.11 or later.

■ Checking The Version

Depending on the model, you may not be able to apply the latest Platform Version. Use the procedure below to check the version before reading this manual.

- 1 Press  (Counter/Device Information) or the [Counter/Device Information] key.
- 2 Press <Device Info./Other> ▶ <Check Device Configuration>.
- 3 Check the version in <Platform Version>.

■ How to Read This Manual

The meanings of the icons and other symbols used in this manual are explained below. Markings and screens not explained here are as described in the User's Guide.

Supported Versions

The icons below indicate supported versions in the explanations of additions or changes resulting from firmware updates.

3.12-

Supported in Platform Version Ver. 3.12 or later

3.11-

Supported in Platform Version Ver. 3.11 or later

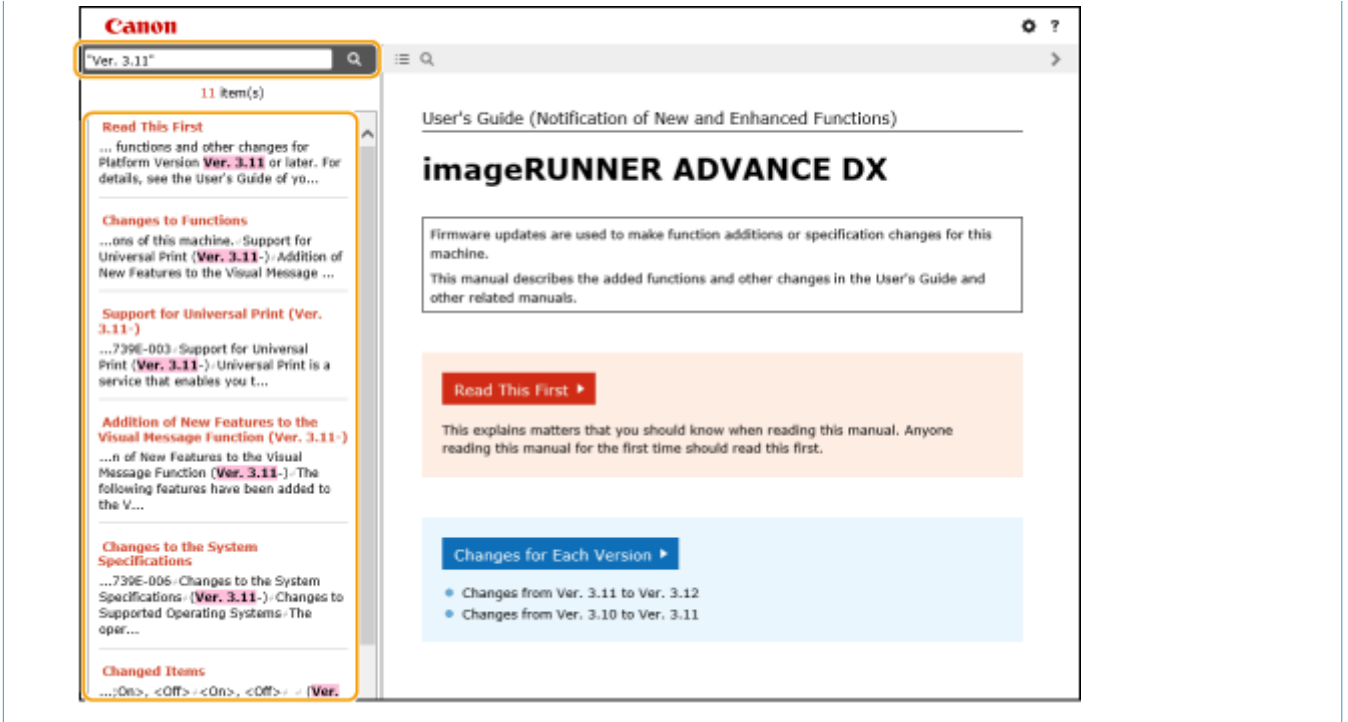

Searching Listings for Supported Versions

Search list page

- Allows you to search pages that list all the changes in each version. ▶ **Changes for Each Version(P. 43)** .

Search by keyword

- Searching by entering the version as a keyword (e.g. "Ver. 3.11") displays a list of pages that include that keyword. You can then search through the listed pages.

Supported Models

The icons below indicate information that is limited to certain supported models. Some machines may not be available, depending on the country or region.

All color models

imageRUNNER ADVANCE DX C7780i / C7770i / C7765i

imageRUNNER ADVANCE DX C5760i / C5750i / C5740i / C5735i

Changes to Functions

78J7-002

This section describes the changes that apply to the functions of this machine.

- ▶ **Support for Universal Print (Ver. 3.11-)(P. 7)**
- ▶ **Addition of New Features to the Visual Message Function (Ver. 3.11-)(P. 14)**
- ▶ **Changes to the <Home> Screen(P. 16)**
- ▶ **Changes to Destination Registration(P. 17)**
- ▶ **Changes to Server Information Registration(P. 18)**
- ▶ **Changes to Networks(P. 19)**
- ▶ **Changes to System Specifications(P. 20)**

Support for Universal Print 3.11-

78J7-003

Universal Print is a service that enables you to print documents via the Microsoft cloud. Universal Print drivers are included as a standard feature in Windows 10, so there is no need to install printer drivers for each computer. This also eliminates the need for printer servers, thereby enabling cost reductions and reducing the workload on network administrators.

Conditions of Use

To use Universal Print, you must first register as a Microsoft 365 service user and use the Azure Active Directory Service.

Required Settings

Administrator settings

Use the Remote UI to register this machine in Azure Active Directory. [▶Registering This Machine in Azure Active Directory\(P. 8\)](#)

User settings

Configure your computer so that Universal Print can be used. [▶Configuring a Printer Registered in Azure Active Directory on the Computer\(P. 10\)](#)

NOTE

When a proxy server is used

- To use Universal Print via a proxy server, you must also configure the proxy settings on your computer.

Associating Users and Universal Print Jobs

You can associate Universal Print jobs with users authenticated through User Authentication. You can still use Universal Print without configuring these settings. [▶Configuring the Universal Print User Settings\(P. 11\)](#)

Printing with Universal Print

See the Microsoft website for information on printing with Universal Print.

IMPORTANT

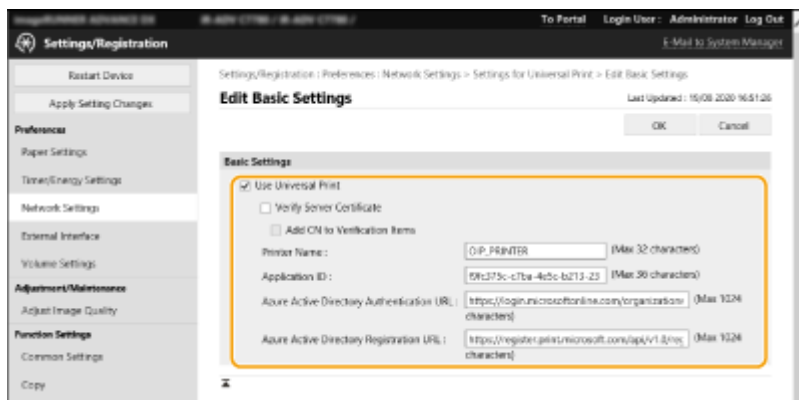

- In some operating systems, print errors or problems with the print results may occur. See Universal Print Troubleshooting on the Microsoft website for information on the compatibility of your operating system.

NOTE

- Universal Print cannot be used with an imagePASS connection.
- Universal Print cannot be used with communication over a sub line.
- If Forced Hold printing is enabled, Universal Print jobs will run as specified in the <Forced Hold> settings.

Registering This Machine in Azure Active Directory

- 1 Start the Remote UI.
- 2 Click [Settings/Registration] on the portal page.
- 3 Click [Network Settings] ► [Settings for Universal Print].
- 4 Click [Edit...] for [Basic Settings].
- 5 Select the [Use Universal Print from Microsoft] checkbox and enter the printer name in the [Printer Name] field.

- To verify the server certificate sent from the server, select the [Verify Server Certificate] checkbox.
- To add CN (Common Name) to the items to be verified, select the [Add CN to Verification Items] checkbox.
- Change the [Application ID], [Azure Active Directory Authentication URL] or [Azure Active Directory Registration URL] settings according to your cloud environment.

- 6 Click [OK].
- 7 Click [Register...] in [Registration Status].
- 8 Wait a few seconds, and then click ↻.

9 Click the URL link displayed for [URL for Registration].

10 Follow the instructions on the screen to register the machine.

11 Wait a few minutes, and then click ↻ in the Remote UI screen.

⇒ Once registration is completed, [Registered] appears in [Registration Status].

12 View the Universal Print management screen of Azure Active Directory in your web browser.

13 Select the registered machine and click [Share Printer].

- To change the name displayed on the computer, enter the new name in [Printer Share Name], and then click [Share Printer].

⇒ [Printer shared.] appears at the top right of the screen.

14 Click [Members], and then click [Add].

15 Select the members and groups who will use the registered printer from the list.

- The selected members and groups will be able to use the printer.

■ To Delete a Registered Printer

1 Start the Remote UI.

2 Click [Settings/Registration] on the portal page.

3 Click [Network Settings] ▶ [Settings for Universal Print].

- 4** Click [Registration Status] for [Unregister].
- 5** Click [OK].
- 6** View the Azure Active Directory device management screen in your web browser.
- 7** Select the model to be deleted and click [Delete].

Configuring a Printer Registered in Azure Active Directory on the Computer

- 1** Click [Start] > [Settings] > [Accounts].
- 2** Click [Access work or school] > [Connect].
- 3** Follow the on-screen instructions to sign in to your Microsoft 365 account.
- 4** Click [Home] > [Devices].
- 5** Click [Printers & scanners] > [Add a printer or scanner].
- 6** Select a registered printer from the list.

Configuring the Universal Print User Settings

78J7-004

Configure these settings if you want to manage users authenticated through User Authentication and their associated Universal Print jobs. Universal Print can still be run without configuring these settings.

- 🔗 **Set by the User(P. 11)**
- 🔗 **Set by the Administrator(P. 11)**
- 🔗 **Set by the Administrator Using a CSV File(P. 12)**

Set by the User

- 1 Start the Remote UI.**
- 2 Click [Settings/Registration] on the portal page.**
- 3 Click [User Management] ▶ [Authentication Management].**
- 4 Enter [User Name for Universal Print:] in [Information for Universal Print].**
 - In [User Name for Universal Print:], enter the email address or phone number used in the Microsoft 365 account.

Set by the Administrator

- 1 Start the Remote UI.**
- 2 Click [Settings/Registration] on the portal page.**
- 3 Click [User Management] ▶ [Authentication Management].**
- 4 Click [Edit...] for the user to be set.**

NOTE:

If the Universal Print user is not registered

- Click [Add User] and register the user information. When registering the user information, enter the [User Name for Universal Print:] in [Information for Universal Print].

- 5 Enter [User Name for Universal Print:] in [Information for Universal Print].**

- In [User Name for Universal Print:], enter the email address or phone number used in the Microsoft 365 account.

6 Click [Update].

Set by the Administrator Using a CSV File

You can associate User Authentication users with a Microsoft 365 account by editing a CSV file.

1 Start the Remote UI.

2 Click [Settings/Registration] on the portal page.

3 Click [User Management] ► [Authentication Management] ► [Settings for Universal Print].

4 Click [Start Exporting].

- If there is no user information that is associated with a Microsoft 365 account, you cannot configure the settings using a CSV file. Click [Add Association...], add the associated user and then click [Start Exporting].

5 Editing the exported CSV file

- Enter a registered user name in "mcp_uid".
- In "azureaccount_name", enter the email address or phone number used in the Microsoft 365 account.

6 Click [Import...] and specify the file edited in step 5.

7 Click [Start Importing].

NOTE

- If the authentication method is set to [Picture Login] and [User Registration Method:] is set to [Register Automatically When Job Is Received], the following information is registered as the user information for a job executed by the Microsoft 365 account called "user1@example.com".
 - Settings registered in the user database
User name: user1@example.com
 - Universal Print settings
User name: user1
Microsoft 365 account: example.com
 - Information displayed on the login screen for Picture Login
user1
example.com

Setting <Allow Use of @ in User Name> to <On> enables you to register "user1@example.com" as the user name.

- When printing, select "user1@example.com" on the control panel to log in ► select <Print> ► execute printing.

Addition of New Features to the Visual Message Function

3.11-

78J7-005

The following features have been added to the Visual Message function.

- ▶ **Hiding Error Message Screens(P. 14)**
- ▶ **Setting Exception Addresses Where a Proxy Server Is Not Used(P. 14)**

Hiding Error Message Screens

Up until now, error message screens appeared if content was not displayed for some reason. However, you can specify that error message screens not appear.

- 1 Start the Remote UI.**
- 2 Click [Settings/Registration] on the portal page.**
- 3 Click [License/Other] ▶ [Visual Message Settings] ▶ [Display Settings].**
- 4 In [Content to Display When an Error Occurs], select [Do not display an error message or Visual Message content].**

- 5 Click [OK].**

Setting Exception Addresses Where a Proxy Server Is Not Used

Specify the proxy settings in the Visual Message function to match the settings in <Proxy Settings>. If a proxy is set, the specified content may not appear. In this case, you can set an exception address so that the proxy server is not used.

- 1 Start the Remote UI.**

2 Click [Settings/Registration] on the portal page.

3 Click [License/Other] ► [Visual Message Settings] ► [Proxy Settings].

4 In [Address Without Using Proxy], enter the addresses for which a proxy server will not be used.

- You can specify multiple addresses separated by a comma (,).
- You can specify up to 255 characters (ASCII code only).

5 Click [OK].

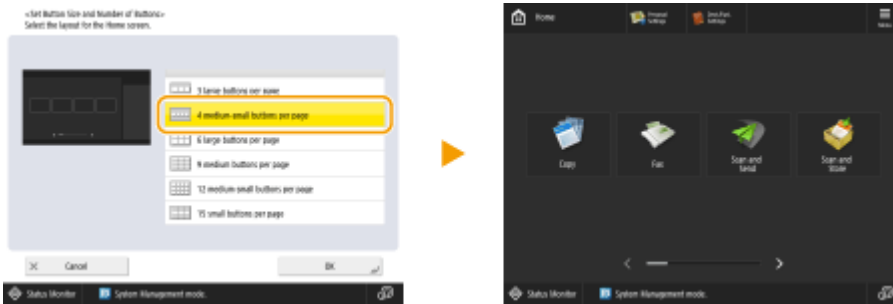

Changes to the <Home> Screen

78J7-006

3.12-

■ Addition of <4 medium-small buttons per page> in <Menu> ▶ <Home Screen Layout Settings>

More options have been added for the number and size of the buttons displayed per screen.

NOTE

- When you use this setting, <Comment> is no longer displayed when you register Personal Buttons/Shared Buttons.

■ Addition of Shortcut Button Displays for Functions

The shortcut buttons displayed in each function screen also appear in the <Home> screen. You can register frequently used functions to quickly access functions you frequently use without having to scroll the screen.

NOTE

- Depending on the model, when the optional Upright Control Panels installed, shortcut buttons do not appear when the timeline is displayed in the <Home> screen.

Changes to Destination Registration

78J7-007

3.12-

■ Renaming of Items Displayed in the One-Touch Button Registration Screen

When you register a destination for a one-touch button or register a new destination, some of the items displayed in the operation panel and remote UI screen are renamed.

- **Control Panel**

Current name	New name
<One-Touch Name>	<One-Touch Button Name>

- **Remote UI**

Current name	New name
[Button Name]	[One-Touch Button Name]
[One-Touch Name]	[One-Touch Button Name]

Changes to Server Information Registration

78J7-008

3.12-

■ Support for Specifying Domains in IP Addresses When Configuring Active Directory Server Authentication

When you are specifying the Active Directory domain manually, you can now specify an IPv4 address instead of a host name. Access the Active Directory server by entering the host name or IPv4 address.

The screenshot displays the 'Add Domain' configuration page within the 'Authentication Management' interface. The page title is 'Add Domain' and it includes a breadcrumb trail: 'Authentication Management > Preferences > Server Settings > Add Server Settings > Active Directory Management > Add Domain'. The page contains several input fields and buttons:

- Domain Name:** Input field with a maximum length of 64 characters.
- NetBIOS Name:** Input field with a maximum length of 15 characters.
- Primary Host Name (or IP Address):** Input field with a maximum length of 64 characters, highlighted with a yellow box.
- Secondary Host Name (or IP Address):** Input field with a maximum length of 64 characters.
- User Name:** Input field with a maximum length of 20 characters.
- Password:** Input field with a maximum length of 127 characters.
- Attribute to Set for Login Account:** Input field with a maximum length of 127 characters.

Buttons for 'Test Connection', 'Add', and 'Cancel' are located at the top right of the form area.

Changes to Networks

78J7-009

3.12-

■ Support for Using Color Network ScanGear 2 via Sub Line

Previously you could only use "Color Network ScanGear 2" on the main line, but now you can use it on a sub line also.

Changes to System Specifications

78J7-00A

3.11-

■ Changes to Supported Operating Systems

The operating systems (OS) that support the various functions have changed as shown below.

Pull Scan

Compatible OS	Windows 8.1/Windows 10/Windows Server 2012/Windows Server 2012 R2/Windows Server 2016

Color

NOTE

- Depending on the model, <PS> appears when the optional PS Printer Kit is installed.

 (Settings/Registration) ▶ <Function Settings> ▶ <Printer> ▶ <Printer Settings> ▶ <Custom Settings> ▶ <PS>

 (Settings/Registration) ▶ <Function Settings> ▶ <Printer> ▶ <Printer Settings> ▶ <Custom Settings> ▶ <PDF>

Black graphics created using RGB or CMYK can now be printed using just a single toner color (K (Black)).

<On>

Graphics are printed using only (K (black)) toner. There is no drift of color toner into the area surrounding the printed graphics.

<Off>

Graphics are printed according to the settings in the selected Output Profile. Because graphics are printed using 4 colors, colors may drift into the area surrounding the graphics.

■ Settings/Registration Table

For details on how to view the Settings/Registration Table, see "Settings/Registration" ▶ "Settings/Registration Table" in the "User's Guide".

Changes to Settings/Registration

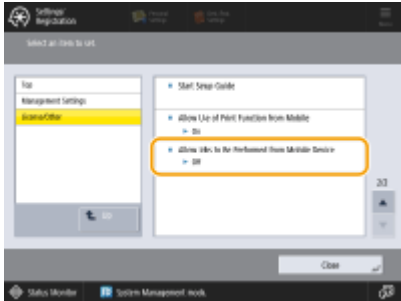

Item	Setting Description	DeviceAdmin	NetworkAdmin	Can be set in Remote UI	Device Information Delivery Available	Import All Function	Name of Item When Exporting with the Remote UI

3.11-

 ▶ <Function Settings> ▶ <Print> ▶ <Enable Auto Print Function When Logging In>

Changing this setting from <Off> to <On> automatically sets <Auto Print User Jobs When Logging In> to <On> for all users. This means that users' own jobs will automatically be printed when they log in, without them having to change any settings.

Changes to Messages

Changes to Messages 34

Changes to Messages

78J7-00K

Changes to messages that appear on the screen of the machine or in a remote UI are shown below.

New and Additional Messages

3.11-

Universal Print: A server communication error occurred.

The machine is not connected to the network correctly.

- Check the machine and network settings, and try connecting again.

Could not communicate because a server error occurred.

- Check whether the server is operating normally.

Communication with the server is blocked due to firewall settings.

- Configure the firewall settings to allow communication.

Universal Print: Could not authenticate with server.

An error has occurred during server authentication.

- Restart the machine. If the message still appears after restarting the machine, make a note of the message and contact your dealer or service representative.

Universal Print: The certificate has expired.

The expiration date of the certificate has expired.

- Delete this machine from Azure Active Directory and the computer, re-register the machine, and then update the certificate.

Universal Print: An internal error occurred.

The printer stopped operating normally due to an unknown problem.

- Restart the machine. If the message still appears after restarting the machine, make a note of the message and contact your dealer or service representative.

Universal Print: The printer is not registered.

This machine was deleted from Azure Active Directory and could not be communicated with.

- Re-register this machine in Azure Active Directory.

Basic Operations ▶ Setting Sounds

The description in "Adjusting the Volume for Sending/Receiving Faxes" has been changed.

You can adjust the volume of the communication sounds during fax transmission and the sound produced for the fax sending/receiving result. You can also set whether to sound a tone indicating the result of Fax Memory Lock sending/receiving.

Basic Operations ▶ Setting Sounds

The description of **a** <Alarm Volume> and **b** <Monitor Volume> in Step 2 of "Adjusting the Volume for Sending/Receiving Faxes" has been changed.

a <Alarm Volume>

Adjust the volume of the tone that sounds when the sending or receiving faxes is complete (except when printing received faxes) and the volume of the tone that sounds when a fax is canceled or ends due to an error. To mute the sound, press  several times to set the volume to the far left.

b <Monitor Volume>

Adjust the volume of the following tones. To mute the sound, press  several times to set the volume to the far left.

- The tone that sounds when sending faxes
- The tone that sounds when printing of a received fax is complete, and the tone that sounds when a fax ends due to an error

Linking with Mobile Devices ▶ Utilizing the Machine through Applications

The description of Chrome OS has been added.

■ Printing from Chrome OS

You can perform printing from Chrome OS without downloading a dedicated application or installing a driver. To print with the machine, it is necessary to enable Mopria®.

Confirming Mopria® settings

Log in to the Remote UI with Administrator privileges ▶ [Settings/Registration] ▶ [Network Settings] ▶ [Mopria Settings] ▶ select the [Use Mopria] check box ▶ [OK]

IMPORTANT

- If you enable the Mopria® setting, <Use Network Link Scan> also changes to <On>.
- To use the Mopria® scan service, <Use Network Link Scan> must be set to <On>.

Printing

1 Before printing, make sure that the machine is turned ON and connected to a Chromebook.

- For information on checking the connection status, see "Setting up the Network Environment" in the "User's Guide."
- See the Chromebook Help page (<https://support.google.com/chromebook/answer/7225252>) for more information on printing.

NOTE

- You can also connect the machine to a Chromebook using a USB cable. See the Chromebook website (<https://support.google.com/chromebook/answer/7225252>) for information on the connection procedure.

IMPORTANT

- Printing from Chrome OS may not be available, depending on your country or region.

Appendix ▶ MEAP ▶ Managing MEAP Applications

The description in "[MEAP Application Management]" of step 3 has been changed (description of the bottom row of the table under the second bullet point changed).

[Installed]	The MEAP application has been installed, but it is not ready for use. Even if you restart the machine after stopping the use of the MEAP application, [Installed] is displayed.
[Started]	The MEAP application is ready for use.
[Stopped]	The MEAP application is not ready for use.
[Starting]	The MEAP application is starting.
[Stopping]	The MEAP application is stopping.

Appendix ▶ System Specifications ▶ System Environment

Mail server software has changed (the fifth and sixth bullet points changed).

Compatible mail forwarding server software	<ul style="list-style-type: none"> • Microsoft Exchange Server 2010 • Microsoft Exchange Server 2013 • Microsoft Exchange Server 2016 • Microsoft Exchange Server 2019 • Sendmail 8.14.7 • Qpopper 4.1.0
Compatible mail receiving server software	<ul style="list-style-type: none"> • Microsoft Exchange Server 2010 • Microsoft Exchange Server 2013

	<ul style="list-style-type: none"> • Microsoft Exchange Server 2016 • Microsoft Exchange Server 2019 • Sendmail 8.14.7 • Qpopper 4.1.0
--	--

Color

Appendix ▶ System Specifications ▶ Printer Functions

The description in "Functions That Can Be Used with Each Page Description Language and File Format" has been changed (description of the second annotation changed).

*2 You can set this only to [Black & White].

8700

Introduction (About the Machine) ▶ Hardware Specifications ▶ Document Insertion Unit-N

The description of "Installation Space Including the Main Unit" has been changed.

Installation Space Including the Main Unit (W x D)	2,076 mm x 817 mm (When the Booklet Finisher-W PRO is attached and the auxiliary tray is extended)
--	--

Introduction (About the Machine) ▶ Hardware Specifications ▶ Staple Finisher-AC/Booklet Finisher-AC

The description of "No Collating/Collate/Group" in "Capacity Per Tray (Tray B)" has been changed.

Capacity Per Tray (Tray B)	<p style="text-align: center;">No Collating/Collate/Group</p> <ul style="list-style-type: none"> • A4, B5, A5R, A5, A6R, LTR, STMTR, EXEC, and 16K: 250 sheets (or 47 mm in height) • 330 mm x 483 mm *1 , 320 mm x 450 mm (SRA3) *1 , 305 mm x 457 mm *1 , A3, B4, A4R, B5R, 11" x 17", LGL, LTRR, 8K, and 16KR: 125 sheets (or 24 mm in height)

- ▶ **Changes from Ver. 3.10 to Ver. 3.11(P. 45)**

Changes from Ver. 3.11 to Ver. 3.12

78J7-00R

The changes in Platform Version Ver. 3.12 are listed below. The functions and settings listed here may not be available on some models. For details, see the descriptions in the links in each change.

▶Changes to Functions(P. 44)

▶Changes to Settings/Registration(P. 44)

Changes to Functions

- Renaming of items displayed in the <Home> screen
 - ▶Changes to the <Home> Screen(P. 16)
- Renaming of items displayed in the one-touch button registration screen
 - ▶Changes to Destination Registration(P. 17)
- Support for specifying domains in IP addresses when configuring Active Directory server authentication
 - ▶Changes to Server Information Registration(P. 18)
- Support for using Color Network ScanGear 2 via a sub line
 - ▶Changes to Networks(P. 19)
- Change to specifications (Send functions/Printer functions/Storage space functions/System environment/Network environment)
 - ▶Changes to System Specifications(P. 20)

Changes to Settings/Registration

- <Default Paper Feed Source> added
 - ▶<Default Paper Feed Source> (Ver. 3.12-)(P. 28)
- <Pure Black Graphics> added
 - ▶<Pure Black Graphics> (Ver. 3.12-)(P. 29)
- <Allow Jobs to Be Performed from Mobile Device> added
 - ▶<Allow Jobs to Be Performed from Mobile Device> (Ver. 3.12-)(P. 31)
- <Change Default Display for Picture Login Screen> setting added
 - ▶Changed Items(P. 32)
- Default setting for <Select Option When Connecting Memory Media> changed
 - ▶Changed Items(P. 32)

Changes from Ver. 3.10 to Ver. 3.11

78J7-00S

The changes in Platform Version Ver. 3.11 are listed below. The functions and settings listed here may not be available on some models. For details, see the descriptions in the links in each change.

- ▶ **Changes to Functions(P. 45)**
- ▶ **Changes to Settings/Registration(P. 45)**
- ▶ **Changes to Messages(P. 45)**

Changes to Functions

- Support for Universal Print
 - ▶ **Support for Universal Print (Ver. 3.11-)(P. 7)**
- New functions added to the Visual Message function
 - ▶ **Addition of New Features to the Visual Message Function (Ver. 3.11-)(P. 14)**
- Changes to Supported Operating Systems
 - ▶ **Changes to System Specifications(P. 20)**

Changes to Settings/Registration

- Change to the description for configuring <Enable Auto Print Function When Logging In>.
 - ▶ **Changed Items(P. 32)**

Changes to Messages

- Messages for Universal Print added
 - ▶ **New and Additional Messages(P. 34)**

Third Party Software

See the HTML manual for information on third-party software for each version. You can view the HTML manual from the online manual site (<https://oip.manual.canon/>).

This Font Software is licensed under the SIL Open Font License, Version 1.1.

This license is copied below, and is also available with a FAQ at: <http://scripts.sil.org/OFL>

SIL OPEN FONT LICENSE Version 1.1 - 26 February 2007

PREAMBLE

The goals of the Open Font License (OFL) are to stimulate worldwide development of collaborative font projects, to support the font creation efforts of academic and linguistic communities, and to provide a free and open framework in which fonts may be shared and improved in partnership with others.

The OFL allows the licensed fonts to be used, studied, modified and redistributed freely as long as they are not sold by themselves. The fonts, including any derivative works, can be bundled, embedded, redistributed and/or sold with any software provided that any reserved names are not used by derivative works. The fonts and derivatives, however, cannot be released under any other type of license. The requirement for fonts to remain under this license does not apply to any document created using the fonts or their derivatives.

DEFINITIONS

"Font Software" refers to the set of files released by the Copyright Holder(s) under this license and clearly marked as such. This may include source files, build scripts and documentation.

"Reserved Font Name" refers to any names specified as such after the copyright statement(s).

"Original Version" refers to the collection of Font Software components as distributed by the Copyright Holder(s).

"Modified Version" refers to any derivative made by adding to, deleting, or substituting -- in part or in whole -- any of the components of the Original Version, by changing formats or by porting the Font Software to a new environment.

"Author" refers to any designer, engineer, programmer, technical writer or other person who contributed to the Font Software.

PERMISSION & CONDITIONS

Permission is hereby granted, free of charge, to any person obtaining a copy of the Font Software, to use, study, copy, merge, embed, modify, redistribute, and sell modified and unmodified copies of the Font Software, subject to the following conditions:

- 1) Neither the Font Software nor any of its individual components, in Original or Modified Versions, may be sold by itself.
- 2) Original or Modified Versions of the Font Software may be bundled, redistributed and/or sold with any software, provided that each copy contains the above copyright notice and this license. These can be included either as stand-alone text files, human-readable headers or in the appropriate machine-readable metadata fields within text or binary files as long as those fields can be easily viewed by the user.
- 3) No Modified Version of the Font Software may use the Reserved Font Name(s) unless explicit written permission is granted by the corresponding Copyright Holder. This restriction only applies to the primary font name as presented to the users.
- 4) The name(s) of the Copyright Holder(s) or the Author(s) of the Font Software shall not be used to promote, endorse or advertise any Modified Version, except to acknowledge the contribution(s) of the Copyright Holder(s) and the Author(s) or with their explicit written permission.
- 5) The Font Software, modified or unmodified, in part or in whole, must be distributed entirely under this license, and must not be distributed under any other license. The requirement for fonts to remain under this license does not apply to any document created using the Font Software.

TERMINATION

This license becomes null and void if any of the above conditions are not met.

DISCLAIMER

THE FONT SOFTWARE IS PROVIDED "AS IS", WITHOUT WARRANTY OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO ANY WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE AND NONINFRINGEMENT OF COPYRIGHT, PATENT, TRADEMARK, OR OTHER RIGHT. IN NO EVENT SHALL THE COPYRIGHT HOLDER BE LIABLE FOR ANY CLAIM, DAMAGES OR OTHER LIABILITY, INCLUDING ANY GENERAL, SPECIAL, INDIRECT, INCIDENTAL, OR CONSEQUENTIAL DAMAGES, WHETHER IN AN ACTION OF CONTRACT, TORT OR OTHERWISE, ARISING FROM, OUT OF THE USE OR INABILITY TO USE THE FONT SOFTWARE OR FROM OTHER DEALINGS IN THE FONT SOFTWARE.
