Getting Started 2

2

You can connect the printer to a PC/smartphone/tablet and install software.

Have you finished all the steps in the **Getting Started 1**? Please read this manual after completing the printer setup in the **Getting Started 1**.

Proceed to connect printer to

PC

Smartphone or Tablet

PC (Windows/Mac OS)

1. Download setup file.

1 Access the following URL in your web browser.

<http://canon.com/ijsetup>

Windows PC users: you can also open the file from the setup CD-ROM.

The screen in 3 will appear when you open the file from the CD-ROM. Perform the remaining steps in the same way as on the website.

2 Click **Set Up**.

3 Select the region where you purchased the product.

4 Select your product.

5 Click **Connecting to Computer, Smartphone or Tablet**.

6 Select your operating system.

7 Click **Download** to download the setup file.

* If a download security warning appears, allow your web browser to continue downloading.

Click Download on the computer to which you want to connect the printer.

Download

8 Open the downloaded file and click **Start Setup**.

9 Follow the on-screen instructions to proceed the setup.

Smartphone/Tablet (iOS/Android)

1. Install Canon PRINT Inkjet/SELPHY to your smartphone/tablet.

iOS : Search "Canon PRINT" in App Store.

Android : Search "Canon PRINT" in Google Play.

Or access the website by scanning the code on the right.

* This procedure is described based on Canon PRINT Inkjet/SELPHY 2.1.0. In other versions, follow the application instructions to complete the setup.

2. Check your network configuration.

Turn on Wi-Fi on your smartphone or tablet before you start.

iOS

• Using wireless router

A

• Not using/having wireless router
(Connecting printer to device via wireless LAN connection directly)

B

Android

C

Proceed to right side. >>>

A iOS Using wireless router

1 Tap **Settings** on the home screen.

2 Tap **Canon_ij_XXXX** on the Wi-Fi setting.

If **Canon_ij_XXXX** does not appear on the list, see NOTE to setup the printer and wait until **Canon_ij_XXXX** appears. XXXX varies depending on your printer.

3 Tap **PRINT** which was installed.

The extended survey screen appears on the first startup.

4 Tap the printer icon on the top left of the screen.

5 Tap **Register Printer**.

6 Tap **Printer Setup**.

7 Tap **Connect via wireless router (recommended)**.

8 Tap **OK**.

9 Select the SSID of your wireless router connected to your device.

10 When a password entry screen appears, enter the password for your wireless router and tap **OK**.

11 Wait for a while until the printer is detected.

If the printer is not detected and the **Alarm** lamp is lit on the printer, press the **Color** or **Black** button and start over from 1.

12 When the printer is detected, tap your printer's model name.

13 Enter the printer name as needed and tap **OK**.

14 When the printer information appears on the screen, the setup is complete.

B iOS Not using/having wireless router

1 Tap **Settings** on the home screen.

2 Tap **Canon_ij_XXXX** on the Wi-Fi setting.

If **Canon_ij_XXXX** does not appear on the list, see NOTE to setup the printer and wait until **Canon_ij_XXXX** appears. XXXX varies depending on your printer.

3 Tap **PRINT** which was installed.

The extended survey screen appears on the first startup.

4 Tap the printer icon on the top left of the screen.

5 Tap **Register Printer**.

6 Tap **Printer Setup**.

7 Tap **Direct Connection**.

8 Tap **OK**.

9 Check the SSID and password and tap **Copy Password**.

10 Tap **Settings** on the home screen.

11 Tap the same SSID as checked in 9.

12 Paste the password and tap **Join**.

13 Tap **PRINT**.

14 Tap **Done**.

C Android

1 Tap **PRINT** which was installed.

The license agreement screen appears on the first startup.

2 Tap **Yes**.

If the screen in 2 does not appear, see NOTE to setup the printer and wait until the screen appears.

3 Follow the on-screen instruction.

If none of these screens appears, see "If **Select Router** screen appears".

Make sure the SSID of the desired wireless router appears and tap **Yes**.

Tap **Yes**.

Enter the password of the wireless router and tap **OK**.

Tap **OK**.

4 Wait for a while until the printer is detected.

5 When the printer is detected, tap your printer's model name.

6 Enter the printer name as needed and tap **OK**.

7 When the printer information appears on the screen, the setup is complete.

If **Select Router** screen appears:

Do the following if this screen appears.

- When the SSID of the desired wireless router appears, tap it. Make sure your device is connected to the same SSID.
- If the SSID of the desired wireless router does not appear or you are not sure, tap **If no target wireless router**.

Using Google Cloud Print

Do the following to use Google Cloud Print.

1 Press the **Stop** button on the printer.

2 Connect the printer to your network.

3 Register the printer to Google Cloud Print.

NOTE

iOS If **Canon_ij_XXXX** does not appear:

Android If a message saying "Printer is not registered. Perform printer setup?" does not appear at Canon PRINT Inkjet/SELPHY startup:

Do the following on the printer.

1 Press and hold down the **Wi-Fi** button (A) on the printer until the **ON** lamp (B) starts flashing.

2 Press the **Color** button (C) and then the **Wi-Fi** button (A).

3 Make sure the **Wi-Fi** lamp (D) is flashing fast and the **ON** lamp (B) is lit.

Démarrage 2

2

Vous pouvez connecter l'imprimante à un PC, à un smartphone ou à une tablette et installer le logiciel.

Avez-vous effectué toutes les étapes du document Démarrage 1 ?
Veuillez lire ce manuel après avoir procédé à la configuration de l'imprimante comme décrit dans le document Démarrage 1.

PC (Windows/Mac OS)

1. Téléchargez le fichier de configuration.

- Accédez à l'URL suivante à partir de votre navigateur Web.
<http://canon.com/ijsetup>
 - Cliquez sur **Configuration**.
 - Sélectionnez la région d'achat du produit.
 - Sélectionnez votre produit.
 - Cliquez sur **Connexion à un ordinateur, un smartphone ou une tablette**.
 - Sélectionnez votre système d'exploitation.
 - Cliquez sur **Télécharger** pour télécharger le fichier de configuration.
- * Si un avertissement de sécurité lié au téléchargement apparaît, autorisez le navigateur Web à poursuivre l'opération.

Utilisateurs de PC Windows : vous pouvez également ouvrir le fichier à partir du CD-ROM d'installation.

L'écran de l'étape 3 apparaît lorsque vous ouvrez le fichier à partir du CD-ROM d'installation. Procédez aux étapes restantes de la même manière que sur le site Web.

Smartphone ou tablette (iOS/Android)

1. Installez Canon PRINT Inkjet/SELPHY sur votre smartphone ou votre tablette.

- iOS** : Recherchez « Canon PRINT » dans App Store.
- Android** : Recherchez « Canon PRINT » dans Google Play.

Vous pouvez également accéder au site Web en numérisant le code de droite.

* Cette procédure est décrite pour Canon PRINT Inkjet/SELPHY 2.1.0. Dans des versions différentes, suivez les instructions relatives à l'application pour procéder à la configuration.

2. Vérifiez votre configuration réseau.

Activez la fonction Wi-Fi sur votre smartphone ou votre tablette avant de commencer.

iOS

- Avec un routeur sans fil

- Sans routeur sans fil (Connexion directe de l'imprimante au périphérique via une connexion réseau sans fil)

Android

- * Si vous connectez directement votre périphérique à l'imprimante via une connexion réseau sans fil, vous risquez de ne plus pouvoir accéder à Internet à partir de ce périphérique ou de devoir payer des frais de connexion Internet.

►►► Passez à la partie de droite. ►►►

A iOS Utilisation du routeur sans fil

B iOS Sans routeur sans fil

C Android

Utilisation de Google Cloud Print

Procédez comme suit pour utiliser Google Cloud Print.

- Appuyez sur le bouton **Arrêt (Stop)** de l'imprimante.
- Connectez l'imprimante à votre réseau.

Enregistrez l'imprimante dans Google Cloud Print.

REMARQUE

iOS Si **Canon_ij_XXXX** n'apparaît pas :

Android Si le message « **L'imprimante n'est pas enregistrée. Configurer l'imprimante ?** » n'apparaît pas au démarrage de Canon PRINT Inkjet/SELPHY :

Effectuez les opérations suivantes sur l'imprimante.
