Warning

Instructions that, if ignored, could result in death, serious personal injury, or property damage caused by incorrect operation of the equipment. These must be observed for safe operation.

Caution

Instructions that, if ignored, could result in personal injury or property damage caused by incorrect operation of the equipment. These must be observed for safe operation.

Important

Instructions including important information that must be observed to avoid damage and injury or improper use of the product. Be sure to read these instructions.

Note

Instructions including notes for operation and additional explanations.

Basics

Instructions explaining basic operations of your product.

Note

- Icons may vary depending on your product.

Touch-enabled Device Users (Windows)

For touch actions, you need to replace "right-click" in this document with the action set on the operating system. For example, if the action is set to "press and hold" on your operating system, replace "right-click" with "press and hold."

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.
3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.
4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:
 1. You must give any other recipients of the Work or Derivative Works a copy of this License; and
 2. You must cause any modified files to carry prominent notices stating that You changed the files; and

3. You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and
4. If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.
6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.
7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.
8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.
9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any

such warranty or additional liability.

The FreeType Project LICENSE

2006-Jan-27

Copyright 1996-2002, 2006 by

David Turner, Robert Wilhelm, and Werner Lemberg

Introduction

=====

The FreeType Project is distributed in several archive packages; some of them may contain, in addition to the FreeType font engine, various tools and contributions which rely on, or relate to, the FreeType Project.

This license applies to all files found in such packages, and which do not fall under their own explicit license. The license affects thus the FreeType font engine, the test programs, documentation and makefiles, at the very least.

This license was inspired by the BSD, Artistic, and IJG (Independent JPEG Group) licenses, which all encourage inclusion and use of free software in commercial and freeware products alike. As a consequence, its main points are that:

- o We don't promise that this software works. However, we will be interested in any kind of bug reports. (``as is'` distribution)
- o You can use this software for whatever you want, in parts or full form, without having to pay us. (``royalty-free'` usage)
- o You may not pretend that you wrote this software. If you use it, or only parts of it, in a program, you must acknowledge somewhere in your documentation that you have used the FreeType code. (``credits'`)

We specifically permit and encourage the inclusion of this software, with or without modifications, in commercial products.

We disclaim all warranties covering The FreeType Project and assume no liability related to The FreeType Project.

Finally, many people asked us for a preferred form for a credit/disclaimer to use in compliance with this license. We thus encourage you to use the following text:

""

Portions of this software are copyright © <year> The FreeType Project (www.freetype.org). All rights reserved.

""

Please replace <year> with the value from the FreeType version you actually use.

Legal Terms

=====

0. Definitions

Throughout this license, the terms `package`, `FreeType Project`, and `FreeType archive` refer to the set of files originally distributed by the authors (David Turner, Robert Wilhelm, and Werner Lemberg) as the `FreeType Project`, be they named as alpha, beta or final release.

`You' refers to the licensee, or person using the project, where `using' is a generic term including compiling the project's source code as well as linking it to form a `program' or `executable'.

This program is referred to as `a program using the FreeType engine'.

This license applies to all files distributed in the original FreeType Project, including all source code, binaries and documentation, unless otherwise stated in the file in its original, unmodified form as distributed in the original archive.

If you are unsure whether or not a particular file is covered by this license, you must contact us to verify this.

The FreeType Project is copyright (C) 1996-2000 by David Turner, Robert Wilhelm, and Werner Lemberg. All rights reserved except as specified below.

1. No Warranty

THE FREETYPE PROJECT IS PROVIDED `AS IS' WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. IN NO EVENT WILL ANY OF THE AUTHORS OR COPYRIGHT HOLDERS BE LIABLE FOR ANY DAMAGES CAUSED BY THE USE OR THE INABILITY TO USE, OF THE FREETYPE PROJECT.

2. Redistribution

This license grants a worldwide, royalty-free, perpetual and irrevocable right and license to use, execute, perform, compile, display, copy, create derivative works of, distribute and sublicense the FreeType Project

(in both source and object code forms) and derivative works thereof for any purpose; and to authorize others to exercise some or all of the rights granted herein, subject to the following conditions:

- o Redistribution of source code must retain this license file ('FTL.TXT') unaltered; any additions, deletions or changes to the original files must be clearly indicated in accompanying documentation. The copyright notices of the unaltered, original files must be preserved in all copies of source files.

- o Redistribution in binary form must provide a disclaimer that states that the software is based in part of the work of the FreeType Team, in the distribution documentation. We also encourage you to put an URL to the FreeType web page in your documentation, though this isn't mandatory.

These conditions apply to any software derived from or based on the FreeType Project, not just the unmodified files. If you use our work, you must acknowledge us. However, no fee need be paid to us.

3. Advertising

Neither the FreeType authors and contributors nor you shall use the name of the other for commercial, advertising, or promotional purposes without specific prior written permission.

We suggest, but do not require, that you use one or more of the following phrases to refer to this software in your documentation or advertising materials: 'FreeType Project', 'FreeType Engine', 'FreeType library', or 'FreeType Distribution'.

As you have not signed this license, you are not required to accept it. However, as the FreeType Project is copyrighted material, only this license, or another one contracted with the authors, grants you the right to use, distribute, and modify it.

Therefore, by using, distributing, or modifying the FreeType Project, you indicate that you understand and accept all the terms of this license.

4. Contacts

There are two mailing lists related to FreeType:

- o freetype@nongnu.org

Discusses general use and applications of FreeType, as well as future and wanted additions to the library and distribution.

If you are looking for support, start in this list if you haven't found anything to help you in the documentation.

- o freetype-devel@nongnu.org

Discusses bugs, as well as engine internals, design issues, specific licenses, porting, etc.

Our home page can be found at

<http://www.freetype.org>

--- end of FTL.TXT ---

The TWAIN Toolkit is distributed as is. The developer and distributors of the TWAIN Toolkit expressly disclaim all implied, express or statutory warranties including, without limitation, the implied warranties of merchantability, noninfringement of third party rights and fitness for a particular purpose. Neither the

developers nor the distributors will be liable for damages, whether direct, indirect, special, incidental, or consequential, as a result of the reproduction, modification, distribution or other use of the TWAIN Toolkit.

Easy Understanding Network Connections

What is Wireless Connection

Connect the printer and devices (e.g. computer/smartphone/tablet) using a wireless router.

If you have a wireless router, we recommend you use one for wireless connection.

- Connection methods vary depending on the wireless router type.
- You can change network settings such as the network name (SSID) and security protocol on the printer.
- When the connection between a device and a wireless router is completed and  (Wi-Fi icon) is displayed in the device's screen, you can connect the device to the printer using the wireless router.

What is Wireless Direct Connection

Connect the printer and devices (e.g. computer/smartphone/tablet) without using a wireless router.

- While you are using the printer with Wireless Direct, Internet connection from the printer becomes unavailable. In that case, web services for the printer cannot be used.
- If you connect a device connected to the Internet via a wireless router to the printer that is in the Wireless Direct, the connection between the device and wireless router will be disabled. In that case, the connection of the device may switch to a mobile data connection automatically depending on your device. Transmission fees for connecting to the Internet using a mobile data connection apply.
- In the Wireless Direct, you can connect up to five devices at the same time. If you try to connect a sixth device while five devices are already connected, an error will appear. If an error appears, disconnect a device you do not use and configure settings again.
- Network settings such as the network name (SSID) and security protocol are specified automatically.

➔ [Connecting with Wireless Direct](#)

What is Wired Connection

Connect the printer and hub/router using a LAN cable. To make a wired connection on a model that supports wired connection, prepare a LAN cable.

USB Connection (Reference)

➤➤ Note

- You can connect the printer and computer using a USB cable (USB connection). Prepare a USB cable. For details, see [Switching Printer's Connection to Network or Devices](#).

Network Connection Settings/Setup

Perform connection setup for the printer and computer/smartphone/tablet.

For more on setup procedure, see the web page.

Connecting with Wireless Direct

➔ [Connecting with Wireless Direct](#)

Changing Network Settings

See below for changing connection settings for the printer and computer/smartphone/tablet.

- To change network connection method:
 - ➔ [Switching Printer's Connection to Network or Devices](#)
 - ➔ Changing the Connection Mode
- To add computer/smartphone/tablet to the printer:
 - ➔ [Switching Printer's Connection to Network or Devices](#)

Wi-Fi Connection Assistant

Wi-Fi Connection Assistant checks or diagnoses the settings of the printer and those of computer and restores the status of them if anything is wrong with network connection. Select either link below to download Wi-Fi Connection Assistant.

➔ Checking Printer Connection Status Using Wi-Fi Connection Assistant

- Performing/Changing Network Settings (Windows)

For Windows, you can perform network settings using Wi-Fi Connection Assistant.

➔ [Wi-Fi Connection Assistant \(Windows\)](#)

- Diagnosing and Repairing Network Settings (Windows/macOS)

You can diagnose or repair network settings using Wi-Fi Connection Assistant.

- **For Windows:**

➔ [Wi-Fi Connection Assistant \(Windows\)](#)

- **For macOS:**

➔ [Wi-Fi Connection Assistant \(macOS\)](#)

Network Connection Tips

See below for tips on using the printer via network connection.

- ➔ [Network Connection Tips \(Windows/macOS\)](#)
- ➔ Handling Printer Configuration Using the Web Browser
- ➔ Countermeasures against Unauthorized Access

Troubleshooting

See [Network FAQ](#) for troubleshooting on network connection.

Notice/Restriction

See below for details.

- Restrictions on network settings:

➡ [Restrictions](#)

- Notices when printing using web service:
 - ➡ Notice for Web Service Printing

Restrictions

When connecting another device while a device (such as a computer) is already connected to the printer, connect it using the same connection method as the connected device.

If you connect using a different connection method, the connection to the device in use will be disabled. However, you can use a Wi-Fi connection and Wireless Direct at the same time.

For restrictions, see the following.

Connect via wireless router

- You cannot use the printer over Wi-Fi and wired connections at the same time.
- Make sure your device and the wireless router are connected. For details on checking these settings, see the manual supplied with the wireless router or contact its manufacturer.
As for a device already connected to the printer without using a wireless router, reconnect it via a wireless router.
- Configuration, router functions, setup procedures and security settings of wireless routers vary depending on the system environment. For details, see the manual for your wireless router or contact its manufacturer.
- Depending on your country or region, this printer does not support wireless networking standards using the 5 GHz band.
- If the current channel bandwidth setting on your device does not include 20 MHz, TKIP cannot be used for a security protocol. Change the setting to something that includes 20 MHz. For improved security, we recommend that you set to AES together with WPA2 or higher security.
The connection between your device and the wireless router will be temporarily disabled while the setting is changed. Do not proceed to the next screen of this guide until setup is complete.
- When connecting to Wi-Fi outdoors, do not connect to a 5 GHz network (SSID).
The 5 GHz band available for use with the printer includes the channels that are allowed for indoor use only, depending on your country or region.
For details on the 5 GHz network (SSID) of your wireless router, see the manual supplied with the wireless router, or contact its manufacturer.
- For office use, especially when connecting with IEEE802.1X/EAP (WPA/WPA2/WPA3 Enterprise), consult your network administrator.
- Note that if you connect to a network with no security protection, your personal information could be disclosed to a third party.

Wireless Direct

»» Important

- If a device is connected to the Internet via a wireless router, and you then connect it to a printer in Wireless Direct mode, the existing connection between the device and wireless router will be disabled. In that case, the connection of the device may switch to a mobile data connection automatically depending on your device. When you connect to the Internet using a mobile data connection, charges may apply depending on your contract.

- When you connect a device and the printer using Wireless Direct, the connection information will be saved to Wi-Fi settings. The device may be connected to the printer automatically even after disconnecting it or connecting it to another wireless router.
- To prevent automatic connection to the printer in Wireless Direct mode, change the connection mode after using the printer, or set not to connect automatically in the Wi-Fi settings of the device.

For details on changing the settings of your device, see the manual supplied with the device or contact its manufacturer.

- If you connect a device and the printer using Wireless Direct, Internet connection may become unavailable depending on your environment. In that case, web services for the printer cannot be used.
- In Wireless Direct mode, you can connect up to five devices at the same time. If you try to connect a sixth device while five devices are already connected, an error will appear.
If an error appears, disconnect a device that does not use the printer, and then redo the settings.
- Devices connected to the printer using Wireless Direct cannot communicate with each other.
- When a device has been connected to the printer without using a wireless router and you want to set it up again using the same connection method, disconnect it first. Disable the connection between the device and printer in the Wi-Fi setting screen.

Connection Using a Wired Network

- You cannot use the printer over Wi-Fi and wired connections at the same time.
- When using a router, connect the printer and computer to the LAN side (same network segment).

Network Connection Tips (Windows/macOS)

- **Detect Same Printer Name**
- **Switching Printer's Connection to Network or Devices**
- **Setting Up IEEE802.1X/EAP (WPA/WPA2/WPA3 Enterprise)**

Detect Same Printer Name

When the printer is detected during setup, plural printers with the same name may appear on the results screen.

Select a printer with checking the printer settings against those on detection result screen.

- **For Windows:**

Check the printer's MAC address or serial to select the correct printer from the results.

- **For macOS:**

The printer names appear with the MAC address added at the end or as the printer name specified by Bonjour.

Check identifiers such as the MAC address, the printer name specified by Bonjour, and the printer's serial number to select the printer from among those that appear.

▶▶▶ Note

- Serial number may not appear on result screen.

To check the printer's MAC address and the serial number, print out the network settings information.

➡ [Printing Network Settings](#)

▶▶▶ Note

- Some models allow you to check the serial number on the LCD.

➡ [System information](#)

Switching Printer's Connection to Network or Devices

Check the following items when connecting a newly added computer to the LAN environment to the printer, changing the connection method from USB to LAN, or changing the wireless LAN (Wi-Fi) connection method.

- ➔ [Connects to Another Computer via LAN/Changes from USB to LAN Connection](#)
- ➔ [Switching LAN Connection Method](#)
- ➔ [Reconfiguration Method of Wi-Fi Connection](#)

Connects to Another Computer via LAN/Changes from USB to LAN Connection

To connect an additional computer to the printer via LAN, or to change from USB to LAN connection, refer to Setup Guide to setup.

Switching LAN Connection Method

If you want to switch the connection method (wired LAN or Wi-Fi) when the printer is used with a LAN connection, check the following item.

- **For Windows:**

- Refer to Setup Guide to setup.
- Enable Wi-Fi (Windows) or wired LAN on the printer's operation panel, and then configure the settings in the **Network Settings** screen of Wi-Fi Connection Assistant.

For details on the configuration, see the following.

- ➔ [Performing/Changing Wi-Fi Settings](#)
- ➔ [Performing/Changing Wired LAN Connection \(Ethernet Cable\) Settings](#)

- **For macOS:**

- Refer to Setup Guide to setup.

Reconfiguration Method of Wi-Fi Connection

- **If you want to switch to Wireless Direct when using the printer with Wi-Fi connection:**

Wireless Direct and wireless LAN connection (Wi-Fi) can be used together, but only at 2.4GHz.

- ➔ [Connecting with Wireless Direct](#)

- **Switching to a Wi-Fi connection when using the printer Wireless Direct:**

If you connect the printer to your computer or smartphone via a Wi-Fi router for the first time to print, or if you want to change the connection frequency between the printer and the Wi-Fi router, perform the setup.

- **For Windows:**

Refer to Setup Guide and redo setup.

- **For macOS:**

Refer to Setup Guide and redo setup.

Setting Up IEEE802.1X/EAP (WPA/WPA2/WPA3 Enterprise)

Overview

If you are using a switch/access point (authenticator) with IEEE802.1X/EAP, you can connect this printer to a wired LAN or Wi-Fi.

▶▶▶ Note

- The information on this page is intended for network administrators.

Setup Flow

1. Prepare the equipment.

- IEEE802.1X/EAP compliant switch/access point (Authenticator)
- Authentication (Radius) server

2. Configure settings for the authentication (Radius) server and authenticator.

Set up the authentication (Radius) server and authenticator in advance.

▶▶▶ Note

- For the settings of the authentication (Radius) server and IEEE802.1X/EAP switch/access point (Authenticator), refer to the respective instruction manuals.

3. Configure Remote UI.

Remote UI is used to configure printer security settings.

See below for an overview of Remote UI.

- ➔ [Configuration Changes / Display Printer Status Using Web Browser](#)

This web page will guide you through the configuration using Wireless Direct.

Refer to the following to connect via Wireless Direct.

- ➔ [Connecting with Wireless Direct](#)

▶▶▶ Important

- When setting using the wired LAN or infrastructure (wireless connection), configure the network settings so that you can temporarily connect to the network in the respective mode.
- There is **IEEE802.1X/EAP settings** in the security item of the Remote UI menu.

4. On Remote UI, select **Security > IEEE802.1X/EAP settings**.

5. Select **Authentication**.

- **Login name (up to 96 characters)**

The login name to connect to the authentication server.

»» Important

- If you select **Verify Authentication Server Name**, you must set the authentication server name.
- If you select **Verify authentication server certificates**, you must register the certificate authority (CA) certificate in advance.

6. Select **Authentication**.

Select **PEAP**, **EAP-TTLS** or **EAP-TLS**.

7. Set **Authentication**.

Set the data required for PEAP, EAP-TTLS, or EAP-TLS authentication.

You must have a certificate authority (CA) certificate registered to verify certificates sent from the authentication server (server certificates).

- **PEAP:**

Set the user name and password that will be used for client authentication.

Normally, select **Verify authentication server certificates**.

- **EAP-TLS:**

You must have a client authentication certificate registered.

Normally, select **Verify authentication server certificates**.

- **EAP-TTLS:**

Select **MSCHAPv2** or **PAP** as the authentication protocol.

Set the user name and password that will be used for client authentication.

8. Save your settings.

Select **OK** to save the IEEE802.1X/EAP settings.

9. Register the certificate authority (CA) certificate.

Select **CA certificate** > **Upload CA certificate** and upload (register) the CA certificate (X.509 DER format).

A maximum of five certificates can be registered.

10. Register key and certificate.

When EAP-TLS is selected:

Select **Key and certificate settings** > **Upload key and certificate** and upload (register) the client certificate (X.509 DER format).

»» Note

- If you choose **PEAP** or **EAP-TTLS**, you do not need to do this.

11. Set up **Weak encryption restriction**.

Select **Restrict**.

12. Set up **Weak certificate restriction**.

Select **Restrict**.

13. Select **Enable/disable IEEE802.1X/EAP** to enable IEEE802.1X/EAP

Select **OK** and save the settings to enable IEEE802.1X/EAP.

»» Note

- You can enable or disable IEEE802.1X/EAP on the operation panel.
Note that the advanced IEEE802.1X/EAP settings are not available on the operation panel.

14. Connect to IEEE802.1X/EAP switch (Authenticator) or IEEE802.1X/EAP access point.

When IEEE802.1X/EAP is enabled, it is possible to search for SSIDs of IEEE802.1X/EAP access points in **Manual setup** on the operation panel.

Select the SSID of the IEEE802.1X/EAP access point to connect.

For a wired LAN, connect the LAN cable to the IEEE802.1X/EAP switch.

If You Cannot Connect

If you are unable to connect to the IEEE802.1X/EAP switch (Authenticator) or access point, please redo the settings from step 3 above.

»» Important

- Wireless Direct is disabled when you connect to an IEEE802.1X/EAP access point. When using the Remote UI, enable Wireless Direct from the operation panel settings and connect again using Wireless Direct.

»» Note

- Select  (Setup) on HOME screen and select **Printer settings > LAN settings > Wi-Fi > Manual setup > IEEE802.1X/EAP settings > Last authentication result** to help troubleshoot.
 - If **User management settings** is enabled, the user selection screen is displayed before the HOME screen is displayed.
 - 1. Check that the wireless router is turned on is displayed when the switch/access point may not be turned on.
 - 2. If the error cannot be identified, such as multiple problems occurring, An unexpected error has occurred. is displayed.

3. If a connection processing problem or encryption-authentication mismatch is detected, Failed to connect to the wireless router <See manual> is displayed.
4. If you see a message other than the above, follow the instructions.

Wi-Fi Connection Assistant (Windows)

- **Wi-Fi Connection Assistant**
- **Starting Up Wi-Fi Connection Assistant**
- **Diagnosing and Repairing Network Settings**
- **Performing/Changing Network Settings**
- **List of Models Which Does Not Support Diagnosis and Repair Function**
- **List of Models Which Does Not Support IPv6 Configuration via USB Connection**

➤➤ Important

- Available functions and settings vary depending on your printer.

Wi-Fi Connection Assistant

Wi-Fi Connection Assistant allows you to diagnose or repair the network status, and to perform printer settings on network.

Use Wi-Fi Connection Assistant for:

- Searching printers on network and performing initial network setup for detected printers
- Performing initial network setup by connecting the printer and computer using a USB cable (Not available for some models)
- Changing printer network settings
- Diagnosing the settings of the printer and those of computer on which Wi-Fi Connection Assistant is installed if anything is wrong with connection. In addition, Wi-Fi Connection Assistant repairs the status of the printer and computer (Not available for some models).

»» Important

- Depending on the printer you are using, an administrator password is already specified for the printer at the time of purchase. When you change the network settings, authentication by the administrator password is required.

For details:

➡ Administrator Password

For improving security, we recommend to change the administrator password.

➡ Change Administrator Password

- To use the printer over LAN, make sure you have the equipment necessary for the connection type, such as a wireless router or a LAN cable.
- When you install Wi-Fi Connection Assistant, disable block function of firewall.
- Do not change network settings using Wi-Fi Connection Assistant while printing is in progress.

Starting Up Wi-Fi Connection Assistant

Start up Wi-Fi Connection Assistant as shown below.

In Windows 11, from  (Start button) on the taskbar, select **All apps > Canon Utilities > Wi-Fi Connection Assistant**.

▶▶▶ Note

- In Windows 10, select **Start > (All apps >) > Canon Utilities > Wi-Fi Connection Assistant**.
- In Windows 7, click **Start** and select **All Programs, Canon Utilities, Wi-Fi Connection Assistant**, and then **Wi-Fi Connection Assistant**.

When you start up Wi-Fi Connection Assistant, a message appears. Check the message and select **Yes**. The screen below appears.

Select **Diagnose and Repair** or **Printer Network Setup** on the displayed screen.

- If you select **Diagnose and Repair**:
 - ➔ [Diagnosing and Repairing Network Settings](#)
- If you select **Printer Network Setup**:
 - ➔ [Performing/Changing Network Settings](#)

Diagnosing and Repairing Network Settings

Wi-Fi Connection Assistant diagnoses and repairs computer settings or connection between the computer and printer when a problem (e.g. cannot print from a printer on the network) occurs.

▶▶▶ Important

- Some models do not support diagnosis and repair function.

For details:

➡ [List of Models Which Does Not Support Diagnosis and Repair Function](#)

Follow the procedure below.

1. [Start up Wi-Fi Connection Assistant.](#)
2. Check the displayed message and select **Yes**.
3. Select **Diagnose and Repair** on the displayed screen.

Perform operations following the instructions on the screen.

▶▶▶ Note

- This function checks the following items:
 - whether the computer is connected to the router
 - whether a web page on the Internet can be viewed
 - whether the printer can be detected on the network
 - whether the signal strength or communication level is sufficient (when using Wi-Fi)
 - whether the printer port setting matches with the network setting

Performing/Changing Network Settings

- **Canon Wi-Fi Connection Assistant Screen**
- **Performing Network Settings**

Canon Wi-Fi Connection Assistant Screen

- ➔ [Items on Canon Wi-Fi Connection Assistant Screen](#)
- ➔ [Menus on Canon Wi-Fi Connection Assistant Screen](#)
- ➔ [Items on Canon Wi-Fi Connection Assistant Screen Toolbar](#)

Items on Canon Wi-Fi Connection Assistant Screen

The screen below appears when you start up Wi-Fi Connection Assistant and select **Printer Network Setup**. Detected printers are listed on the screen and the items below are shown.

A: Product Name

Displays the product name of detected printer. The icon below appears on the left if the printer cannot be used.

 : Appears when the printer requires setup or has not been configured.

 : Appears when the IP address is duplicated to another printer.

 : Appears when you cannot communicate with the printer.

▶▶▶ Note

- If a printer you want to use is not detected, try to set the criteria for printer search.
 - ➔ [Setting Criteria for Printer Search/Searching Specific Printer](#)
- Right-clicking a printer displays setting items or items to confirm.

B: Serial Number (Last 5 Digits)

Displays the last five digits of printer's serial number.

C: Status

Displays the printer status as shown below.

- **Available**
Indicates the printer is available.
- **Setup Completed**

Appears after performing network setup and clicking **Set** to close the window.

- **Requires Setup**

Indicates the printer is required to perform Wi-Fi setup.

➔ [Performing/Changing Wi-Fi Settings](#)

- **Not Set**

Indicates the printer cannot be used on network, or IPv6 is disabled. Specify an IP address or enable IPv6 on **Network Settings...**

➔ [Performing/Changing Wi-Fi Settings](#)

- **IP Address Overlap**

Indicates the IP address is duplicated to another printer.

- **Unknown**

Indicates the printer recognized as **Available** in the past cannot be used currently.

➤➤➤ **Note**

- If **USB** is selected from the pulldown menu on the toolbar, nothing is displayed.

D: IP Address

Displays the printer IP address. Nothing is displayed if the printer status is **Requires Setup**.

➤➤➤ **Note**

- If **USB** is selected from the pulldown menu on the toolbar, "-" is displayed.

E: Location

Displays the printer location if it is registered. Nothing is displayed if the printer status is **Requires Setup**.

➤➤➤ **Note**

- If **USB** is selected from the pulldown menu on the toolbar, nothing is displayed.

➔ [Assigning Printer Information](#)

F: Connection Method

Displays printer connection method (wired LAN, Wi-Fi, or USB).

➤➤➤ **Note**

- If **USB** is selected from the pulldown menu on the toolbar, **USB** is displayed.
- If the printer supports both of the LAN connection methods, the printer is recognized as two printers and they are displayed separately. (The same numbers are displayed on **Serial Number (Last 5 Digits)**.)
- If the printer does not support wired LAN, wired LAN is not displayed.
- If you are using Wi-Fi Connection Assistant on the computer which does not support Wi-Fi, Wi-Fi is not displayed.

G: Setting Method

Displays printer setting method.

- **Auto**

Appears if the printer is used by IP address specified automatically.

- **Manual**

Appears if the printer is used by IP address specified manually.

»»» **Note**

- If **USB** is selected from the pulldown menu on the toolbar, "-" is displayed.

H: MAC Address

Displays the MAC address of the detected printer.

»»» **Note**

- If **USB** is selected from the pulldown menu on the toolbar, "-" is displayed.

I: Device Name

Displays the printer device name if it is registered.

»»» **Note**

- If **USB** is selected from the pulldown menu on the toolbar, nothing is displayed.
- The printer with **Requires Setup** displayed on **Status** is not displayed.

➔ [Assigning Printer Information](#)

J: IPv6

On appears when an IPv6 address is assigned for the printer.

»»» **Note**

- If **USB** is selected from the pulldown menu on the toolbar, "-" is displayed.

K: Displays the printer status and operation guides.

Selecting a printer from the printer list displays its current status and what to do next.

Items on Canon Wi-Fi Connection Assistant Screen Toolbar

This section describes items on **Canon Wi-Fi Connection Assistant** Screen toolbar.

A: Perform wired or Wi-Fi setup.

➤➤➤ Note

- This item has the same function as **Network Settings...** in the **Printer Settings** menu.

B: Redetects printers.

➤➤➤ Note

- This item has the same function as **Update** in the **View** menu.

C: Stops detecting printers.

➤➤➤ Note

- This item has the same function as **Cancel** in the **View** menu.

D: Switches the printer list. (IPv4, IPv6, or USB printers)

➤➤➤ Note

- This item has the same function as **Switch View** in the **View** menu.
- You can also display the USB connected printer list. (Not available for some models.) In this case, select **USB**.

E: Displays this guide.

➤➤➤ Note

- This item has the same function as **Online Manual** in the **Help** menu.

Performing Network Settings

- **Performing/Changing Wired LAN Connection (Ethernet Cable) Settings**
- **Performing/Changing Wi-Fi Settings**
- **Assigning Printer Information**

Performing/Changing Wired LAN Connection (Ethernet Cable) Settings

Follow the procedure below to perform/change wired LAN settings.

▶▶▶ Note

- For some models, you can perform network setup for a USB connected printer using Wi-Fi Connection Assistant. Select **USB** on **Switch View** under the **View** menu to display printers for which you can perform setup.

1. [Start up Wi-Fi Connection Assistant.](#)

2. Check the displayed message and select **Yes**.

3. Select **Printer Network Setup** on the displayed screen.

Detected printers are listed.

4. Select printer to perform/change settings from printer list.

Select the printer with **Wired LAN** displayed on **Connection Method** and **Available** displayed on **Status** to perform settings.

You can perform settings for a printer with **Available** not displayed on **Status** via USB connection.

To perform setup for a USB connected printer, select **USB** from the pulldown menu on the toolbar and select the printer to perform/change settings.

5. Select **Network Settings...** on **Printer Settings** menu.

The **Confirm Printer Password** screen appears.

For more on the password, refer to Administrator Password.

▶▶▶ Note

- Clicking the  icon allows you to perform/change settings.
- If you select a USB connected printer on step 4, the screen below appears after the **Confirm Printer Password** screen appears

Select **Wired LAN** and click **OK**.

6. Enter password and click **OK**.

The **Network Settings** screen appears.

7. Perform/change settings.

You can switch the screen between IPv4 and IPv6. Click the tab to switch the protocol.

- IPv4 settings

A: Use IPv4 address

Always selected. (displayed in a gray out state)

B: Get IP address automatically

Select this option to use an IP address automatically assigned by a DHCP server. DHCP server functionality must be enabled on your router.

C: Use next IP address

Select this option if no DHCP server functionality is available in your setup where you use the printer, or you want to use a fixed IP address.

Enter the IP address, subnet mask, and default gateway.

- IPv6 settings

▶▶▶ Note

- If you select a USB connected printer on step 4, you cannot perform IPv6 settings depending on the printer you are using.

For details, see [List of Models Which Does Not Support IPv6 Configuration via USB Connection](#).

A: Use IPv6 address

Select when you use the printer with IPv6 environment.

B: Use Stateless Address:

Select when you use an IP address assigned automatically. Use a router compatible with IPv6.

➤➤➤ Note

- This setting item is not available depending on the printer you are using.

C: Use Manual Address:

Select this option if no DHCP server functionality is available in your setup where you use the printer, or you want to use a fixed IP address.

Enter the IP address and IP address prefix length.

➤➤➤ Note

- This setting item is not available depending on the printer you are using.

D: Use DHCPv6:

Select when you obtain an IP address using DHCPv6.

➤➤➤ Note

- This setting item is not available depending on the printer you are using.

8. Click Set.

Performing/Changing Wi-Fi Settings

Follow the procedure below to perform/change Wi-Fi settings.

►► Important

- Enable Easy wireless connect (Cableless setup) before performing printer setup. (Not required if you change the IP address.) For details, search for "NR049" on your printer's online manual and see the page shown.
- If you plan to use a printer over Wi-Fi, make sure you perform security settings for the Wi-Fi network.

►► Note

- For some models, you can perform network setup for a USB connected printer using Wi-Fi Connection Assistant. Select **USB** on **Switch View** under the **View** menu to display printers.

1. [Start up Wi-Fi Connection Assistant.](#)

2. Check the displayed message and select **Yes**.

3. Select **Printer Network Setup** on the displayed screen.

Detected printers are listed.

4. Select printer to perform/change settings from printer list.

Select the printer with **Wi-Fi** displayed on **Connection Method** and **Available** or **Requires Setup** displayed on **Status** to perform settings.

You can perform settings for a printer with **Available** or **Requires Setup** not displayed on **Status** via USB connection.

To perform setup for a USB connected printer, select **USB** from the pulldown menu on the toolbar and select the printer to perform/change settings.

5. Select **Network Settings...** on **Printer Settings** menu.

The **Confirm Printer Password** screen appears.

For more on the password, refer to Administrator Password.

►► Note

- Clicking the  icon allows you to perform/change settings.
- If you select a USB connected printer on step 4 and the selected printer is compatible with wired LAN, the screen below appears after the **Confirm Printer Password** screen appears

Select **Wi-Fi** and click **OK**.

6. Enter password and click **OK**.

The **Network Settings** screen appears.

7. Perform/change settings.

You can switch the screen between IPv4 and IPv6. Click the tab to switch the protocol.

- IPv4/IPv6 settings

A: Network Type:

Select the Wi-Fi mode.

- **Infrastructure**

Connects the printer to the Wi-Fi with a wireless router.

- **Direct**

Connects the printer to wireless communication devices (smartphone or tablet) without a wireless router.

▶▶▶ Note

- If Wi-Fi is enabled on the computer and if you select a USB connected printer on step 4, you can select **Direct** depending on the printer you are using.
- If **Direct** is selected, all items are displayed in a gray out status and you cannot perform any settings.

In addition, you cannot connect to Internet from your computer depending on your operating environment.

B: Network Name (SSID):

The network name (SSID) of the Wi-Fi currently used is displayed.

The network name (SSID) for Wireless Direct appears while in Wireless Direct.

C: Search...

The **Detected Wireless Routers** screen is displayed to select a wireless router to connect to. For a wireless router already connected to the computer, **Available** is displayed on **Communication Status**.

If you select a wireless router with **Not Connected** on **Communication Status** from the list, clicking **Set** displays the WPA/WPA2 or WEP setting screen for a wireless router.

- ➔ If WEP Details Screen Appears
- ➔ If WPA/WPA2 Details Screen Appears

D: Encryption Type:

Displays the encryption method used over the Wi-Fi.

- IPv4 settings

▶▶▶ Note

- The setting items below are available only when **Infrastructure** is selected for **Network Type**:

If **Direct** is selected, all items are displayed in a gray out status and you cannot perform any settings.

A: Use IPv4 address

Always selected. (displayed in a gray out state)

B: Get IP address automatically

Select this option to use an IP address automatically assigned by a DHCP server. DHCP server functionality must be enabled on your wireless router.

C: Use next IP address

Select this option if no DHCP server functionality is available in your setup where you use the printer, or you want to use a fixed IP address.

Enter the IP address, subnet mask, and default gateway.

- IPv6 settings

▶▶▶ Note

- If you select a USB connected printer on step 4, you cannot perform IPv6 settings depending on the printer you are using.

For details, see [List of Models Which Does Not Support IPv6 Configuration via USB Connection](#).

- The setting items below are available only when **Infrastructure** is selected for **Network Type**:

If **Direct** is selected, all items are displayed in a gray out status and you cannot perform any settings.

A: Use IPv6 address

Select when you use the printer with IPv6 environment.

B: Use Stateless Address:

Select when you use an IP address assigned automatically. Use a router compatible with IPv6.

▶▶▶ Note

- This setting item is not available depending on the printer you are using.

C: Use Manual Address:

Select this option if no DHCP server functionality is available in your setup where you use the printer, or you want to use a fixed IP address.

Enter the IP address and IP address prefix length.

▶▶▶ Note

- This setting item is not available depending on the printer you are using.

D: Use DHCPv6:

Select when you obtain an IP address using DHCPv6.

▶▶ Note

- This setting item is not available depending on the printer you are using.

8. Click Set.

Assigning Printer Information

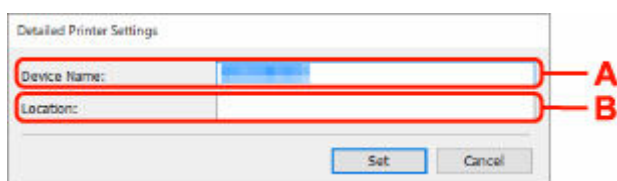

Follow the procedure below to assign/change printer location name or device name.

The names appear on **Device Name:** and **Location:** on the **Canon Wi-Fi Connection Assistant** screen.

▶▶▶ Note

- If **USB** is selected from the pulldown menu on the toolbar, this setting item is not available.

1. [Start up Wi-Fi Connection Assistant.](#)
2. Check the displayed message and select **Yes**.
3. Select **Printer Network Setup** on the displayed screen.
Detected printers are listed.
4. Select printer to assign location name and device name.
Select the printer with **Available** displayed on **Status**.
5. Select **Detailed Printer Settings...** on **Printer Settings** menu.
The **Confirm Printer Password** screen appears.
For more on the password, refer to Administrator Password.
6. Enter password and click **OK**.
The **Detailed Printer Settings** screen appears.
7. Perform/change settings.

The screenshot shows a dialog box titled "Detailed Printer Settings". It contains two text input fields. The first field is labeled "Device Name:" and the second is labeled "Location:". Red rectangular boxes are drawn around each of these input fields. Red lines extend from the right side of these boxes to the letters "A" and "B" respectively. Below the input fields are two buttons: "Set" and "Cancel".

The setting items below are available.

A: Device Name:

Assigns the device name.

B: Location:

Assigns the location name.

8. Click **Set**.

List of Models Which Does Not Support Diagnosis and Repair Function

Wi-Fi Connection Assistant (macOS)

- **Wi-Fi Connection Assistant**
- **Starting Up Wi-Fi Connection Assistant**
- **Diagnosing and Repairing Network Settings**
- **List of Models Which Does Not Support Diagnosis and Repair Function**

➤➤ Important

- Available functions and settings vary depending on your printer.

Wi-Fi Connection Assistant

If anything is wrong with connection, Wi-Fi Connection Assistant diagnoses the settings of the printer and those of computer on which it is installed. In addition, Wi-Fi Connection Assistant restores the status of the printer and computer.

»» Important

- To use the printer over LAN, make sure you have the equipment necessary for the connection type, such as a wireless router or a LAN cable.
- When you install Wi-Fi Connection Assistant, disable block function of firewall.

Starting Up Wi-Fi Connection Assistant

Start up **Launchpad**, select **Canon Utilities**, and then select Wi-Fi Connection Assistant.

When you start up Wi-Fi Connection Assistant, the screen below appears.

Enter the password specified for your computer and select **Install Helper**. Wi-Fi Connection Assistant starts diagnosis and repair of network.

➔ [Diagnosing and Repairing Network Settings](#)

Diagnosing and Repairing Network Settings

Wi-Fi Connection Assistant diagnoses and repairs computer settings or connection between the computer and printer when a problem (e.g. cannot print from a printer on the network) occurs.

▶▶▶ Important

- Some models do not support diagnosis and repair function.

For details:

- ➔ [List of Models Which Does Not Support Diagnosis and Repair Function](#)

Wi-Fi Connection Assistant starts checking the computer settings when it starts up. Perform operations following the instructions on the screen.

▶▶▶ Note

- This function checks the following items:
 - whether the computer is connected to the router
 - whether the printer can be detected on the network
 - whether the signal strength or communication level is sufficient (when using Wi-Fi)
 - whether the printer port setting matches with the network setting

List of Models Which Does Not Support Diagnosis and Repair Function

The following models does not support "Diagnose and Repair" function of Wi-Fi Connection Assistant.

Handling Paper, Originals, Ink Tanks, etc.

- **Loading Paper**
- **Loading Originals**
- **Refilling Ink Tanks**

Loading Paper

- **Paper Sources**
- **Loading Photo Paper / Plain Paper in Rear Tray**
- **Loading Plain Paper in Cassette**
- **Loading Envelopes in Rear Tray**
- **Loading Paperboard in Rear Flat Tray**

Paper Sources

The printer has three paper sources for feeding paper, the rear tray, cassette, and rear flat tray. With the plain paper loaded in a cassette, you can also load paper on the rear tray or rear flat tray to make prints.

- ➔ [Rear tray](#)
- ➔ [Cassette](#)
- ➔ [Rear Flat Tray](#)

Rear tray

You can load all supported paper such as photo paper and plain paper on the rear tray.

- ➔ [Loading Photo Paper / Plain Paper in Rear Tray](#)
- ➔ [Loading Envelopes in Rear Tray](#)

Cassette

You can load A4, B5, A5, Letter-sized or Executive plain paper in the cassette.

➔ [Loading Plain Paper in Cassette](#)

Rear Flat Tray

The rear flat tray is located at the rear of a printer.

You can load A4, B5, letter-sized paperboard in the cassette.

➔ [Loading Paperboard in Rear Flat Tray](#)

▶▶▶ Note

- For details on paper that can be used in this printer:
 - ➔ [Supported Media Types](#)
- Your model used may differ from a product series name when you gain access to this manual from a QR code. Select a product name from the link below when you want to refer to the manual of your model.
 - ➔ [Paper Sources](#)

Loading Photo Paper / Plain Paper in Rear Tray

You can load photo paper or plain paper.

You can also load envelopes on the rear tray.

➔ [Loading Envelopes in Rear Tray](#)

1. Prepare paper.

Align the edges of paper. If paper is curled, flatten it.

»» Note

- Align the edges of paper neatly before loading. Loading paper without aligning the edges may cause paper jams.
- If paper is curled, hold the curled corners and gently bend them in the opposite direction until the paper becomes completely flat.

For more details on handling curled paper, see **Check 3** in [Paper Is Smudged/Printed Surface Is Scratched/Ink Blots/Paper Curl](#).

- When using Photo Paper Plus Semi-gloss SG-201, even if the sheet is curled, load one sheet at a time as it is. If you roll up this paper to flatten, this may cause cracks on the surface of the paper and reduce the print quality.

2. Open the rear tray cover (A) and then pull up the paper support (B).

»» Note

- Load long-length paper without pulling out the paper support.

- Check that the tip of paper comes up against the inner part of a feed slot when you load long-length paper. Depending on the weight of the paper, the leading edge may rise and printing may be shifted. Make sure that the leading edge of the paper does not rise, such as by holding the part that protrudes from the rear tray.

3. Slide right paper guide (C) to open both paper guides.

4. Load paper stack in portrait orientation WITH THE PRINT SIDE FACING UP.

After loading the paper, the paper setting confirmation screen for the rear tray appears on the touch screen.

»» Important

- Always load paper in portrait orientation (D). Loading paper in landscape orientation (E) can cause paper jams.

5. Move the right paper guide and adjust the guides to both edges of the paper stack.
Do not slide the paper guides too tightly against the paper. The paper may not be fed properly.

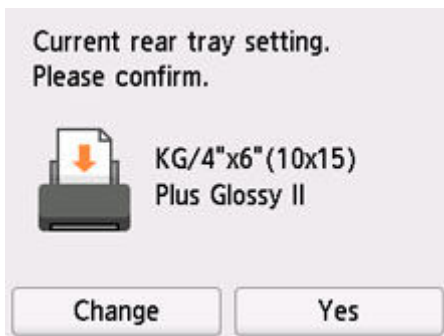

»» Note

- Do not load sheets of paper higher than the load limit mark (F).

6. If page size and media type on touch screen match size and type of paper loaded in rear tray, select **Yes**.

If not, select **Change** to change the settings in accordance with the size and type of the loaded paper.

▶▶▶ Note

- See [Check paper replacement](#) when you want to hide the screen for confirming the setting of paper.

7. Pull out a paper output tray (G).

►► Note

- There are various types of paper, such as paper with a special surface coating for printing photos at optimal quality and paper suitable for documents. Each media type has specific preset settings (how ink is used and sprayed, distance from nozzles, etc.), that allow you to print to that type with optimal image quality. The wrong paper settings may cause poor printout color quality or scratches on the printed surface. If you notice blurring or uneven colors, increase the print quality setting and try printing again.
- To prevent incorrect printing, this printer has a function that detects whether the settings for the paper loaded on the rear tray matches the paper settings. Before printing, make print settings in accordance with the paper settings. When this function is enabled, an error message is displayed if these settings do not match to prevent incorrect printing. When this error message is displayed, check and correct the paper settings.
- When printing on long-length paper, support the output paper with your hands or use the printer in a place where the paper does not fall. If the paper falls, the printed side may become dirty or scratched. Also, when supporting the paper with hands, be sure not to pull the paper forcefully while printing.

Loading Plain Paper in Cassette

You can load A4, B5, A5, Letter-sized or Executive plain paper in the cassette.

1. Prepare paper.

Align the edges of paper. If paper is curled, flatten it.

▶▶▶ Note

- Align the edges of paper neatly before loading. Loading paper without aligning the edges may cause paper jams.
- If paper is curled, hold the curled corners and gently bend them in the opposite direction until the paper becomes completely flat.

For more details on handling curled paper, see **Check 3** in [Paper Is Smudged/Printed Surface Is Scratched/Ink Blots/Paper Curl](#).

2. Pull out the cassette (A) from the printer.

3. Slide paper guides (B) in front and (C) on right to open guides.

4. Load paper stack in portrait orientation WITH THE PRINT SIDE FACING DOWN, and place it in center of cassette.

»» Important

- Always load paper in portrait orientation (D). Loading paper in landscape orientation (E) can cause paper jams.

»» Note

- Align the paper stack with the edge of the cassette.
If the paper stack is in contact with the protrusion (F), the paper may not be fed properly.

5. Move the front paper guide and adjust the guide to edge of the paper stack.

Align paper guide with where it clicks into place.

6. Move the right paper guide and adjust the guides to edges of the paper stack.

Do not slide the paper guide too tightly against the paper. The paper may not be fed properly.

▶▶▶ Note

- Do not load sheets of paper higher than the load limit mark (G).

7. Insert cassette into printer.

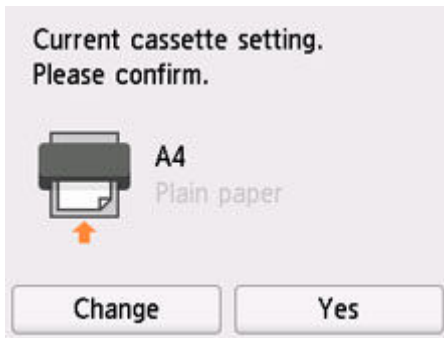

Push the cassette into the printer until it stops.

After inserting the cassette into the printer, the paper setting confirmation screen for the cassette appears on the touch screen.

8. If page size on touch screen matches size of paper loaded in cassette, select **Yes.**

If not, select **Change** to change the setting in accordance with the size of the loaded paper.

9. Pull out a paper output tray (H).

▶▶▶ Note

- To prevent incorrect printing, this printer has a function that detects whether the settings for the paper loaded in the cassette matches the paper settings. Before printing, make print settings in accordance with the paper settings. When this function is enabled, an error message is displayed if these settings do not match to prevent incorrect printing. When this error message is displayed, check and correct the paper settings.

Loading Envelopes in Rear Tray

You can load envelopes on the rear tray.

The address is automatically rotated and printed according to the envelope's direction by specifying with the printer driver properly.

Important

- Do not use the following envelopes. They could jam in the printer or cause the printer to malfunction.
 - Envelopes with an embossed or treated surface
 - Envelopes with a double flap
 - Envelopes whose gummed flaps are already moistened and adhesive

1. Prepare envelopes.

- Press down on all four corners and edges of the envelopes to flatten them.

- If the envelopes are curled, hold the opposite corners and gently twist them in the opposite direction.

- If the corner of the envelope flap is folded, flatten it.
- Use a pen to press the leading edge in the inserting direction flat and sharpen the crease.

The figures above show a side view of the leading edge of the envelope.

Important

- The envelopes may jam in the printer if they are not flat or the edges are not aligned. Make sure that no curl or puff exceeds 0.12 in. (3 mm).

2. Open the rear tray cover (A) and then pull up the paper support (B).

3. Slide right paper guide (C) to open both paper guides.

4. Load envelopes in portrait orientation WITH THE PRINT SIDE FACING UP.

Up to 10 envelopes can be loaded at once.

Fold flap of the envelope and load the envelope in portrait orientation with the address side facing up.

After loading the envelopes, the paper setting confirmation screen for the rear tray appears on the touch screen.

5. Move the right paper guide and adjust the guides to both edges of the envelopes.

Do not slide the paper guides too tightly against the envelopes. The envelopes may not be fed properly.

►►► **Note**

- Do not load envelopes higher than the load limit mark (D).

6. If page size and media type shown on touch screen match size and type of envelopes loaded in rear tray, select **Yes**.

If not, select **Change** to change the settings in accordance with the size and type of the loaded envelopes.

▶▶▶ Note

- See [Check paper replacement](#) when you want to hide the screen for confirming the setting of paper.

7. Pull out a paper output tray (E).

▶▶▶ Note

- To prevent incorrect printing, this printer has a function that detects whether the settings for the paper loaded on the rear tray matches the paper settings. Before printing, make print settings in accordance with the paper settings. When this function is enabled, an error message is displayed if these settings do not match to prevent incorrect printing. When this error message is displayed, check and correct the paper settings.

Loading Paperboard in Rear Flat Tray

Load A4, B5, and letter-sized paperboard on the rear flat tray.

►► Note

- See [Supported Media Types](#) for the weight of paper that can be used in the rear flat tray.

1. Prepare paper.

If paper is curled, flatten it.

►► Note

- If paper is curled, hold the curled corners and gently bend them in the opposite direction until the paper becomes completely flat.

For more details on handling curled paper, see **Check 3** in [Paper Is Smudged/Printed Surface Is Scratched/Ink Blots/Paper Curl](#).

2. Open rear flat tray (A).

3. Pull out the paper support (B) and slide the left paper guide (C).

4. Load paper in portrait orientation on the tray WITH THE PRINT SIDE FACING UP.

Load only one sheet of paper, making sure that the front edge of the paper is still visible. Do not insert paper into the printer.

»» Important

- Always load paper in portrait orientation (D). Loading paper in landscape orientation (E) can cause paper jams.

5. Move the left paper guide and adjust the guides to both edges of the paper.

Do not slide the paper guides too tightly against the paper. The paper may not be fed properly.

6. Push the paper into the printer until the line (F) on the paper support is visible.

►►► **Note**

- If you pushed the paper past the line on the paper support, slowly pull out the paper to the line.

7. Pull out a paper output tray (G).

Loading Originals

- **Where to Load Originals**
- **Loading Originals on Platen**
- **Loading Documents in the ADF (Auto Document Feeder)**
- **Loading Based on Use**
- **Supported Originals**

Where to Load Originals

The printer has two positions to load originals: platen and ADF (Auto Document Feeder).

Select the position to load the original according to the size, type, or usage.

▶▶▶ Note

- For details on the supported originals, see below.

➔ [Supported Originals](#)

Loading Documents, Photos, or Book on Platen

Loading Two or More Sheets of Document of the Same Size and Thickness in the ADF

You can also load a sheet of document in the ADF.

▶▶ Note

- To scan the original at optimum quality, load it on the platen.

Loading Originals on Platen

1. Open the document cover (A).

2. Load original WITH THE SIDE TO SCAN FACING DOWN on platen.

➔ [Loading Based on Use](#)

➔ [Supported Originals](#)

►► Important

- Be sure to observe the following when loading the original on the platen. Failure to observe the following may cause the scanner to malfunction or the platen glass to break.
 - Do not place any objects weighing 4.4 lb (2.0 kg) or more on the platen glass.
 - Do not put any pressure of 4.4 lb (2.0 kg) or more on the platen glass, such as pressing down the original.

3. Close the document cover gently.

»» Important

- After loading the original on the platen, be sure to close the document cover before starting to copy or scan.

Loading Documents in the ADF (Auto Document Feeder)

Important

- Be careful not to let anything get inside the document output slot. It may cause damage.

Note

- To scan a document at optimum quality, load it on the platen.
- The double-sided original cannot be scanned automatically with ADF.

1. Make sure any original has been removed from platen.
2. Open document tray (A).

3. Slide the document guide (B) all the way out.

4. Insert document WITH THE SIDE TO SCAN FACING UP in document tray, until you hear a beep sound.

Insert the document until it stops.

▶▶▶ Note

- For details on the supported originals, see below.

➔ [Supported Originals](#)

5. Adjust document guide to match width of document.

Do not slide the document guide too tightly against the document. The document may not be fed properly.

Loading Based on Use

Load the original in the correct position according to the function to use. If you do not load the original correctly, it may not be scanned properly.

Originals	Function	How to Load
Magazines, Newspapers, and Documents	Copying or Faxing	➔ Loading the Original to Be Aligned with the alignment mark
	Scanning by specifying a standard size (A4, Letter, etc.) If you scan using the operation panel, select Document or Photo for Doc.type in Scan and specify a standard size (A4, Letter, etc.) for Scan size to scan originals.	
Photos, Postcards, Business Cards, and Disc (BD/DVD/CD)	Scanning only one original If you scan using the operation panel, follow the operation below. <ul style="list-style-type: none"> • Select Photo for Doc.type in Scan and specify Auto scan for Scan size to scan originals. 	➔ Loading Only One Original in Center of Platen
	Scanning two or more originals If you scan using the operation panel, follow the operation below. <ul style="list-style-type: none"> • Select Photo for Doc.type in Scan and specify Auto multi scan for Scan size to scan two or more originals. 	➔ Loading Two or More Originals on Platen

Loading the Original to Be Aligned with the alignment mark

Place the original WITH THE SIDE TO SCAN FACING DOWN on the platen and align it with the alignment mark . Portions placed on the diagonally striped area cannot be scanned.

►►► Important

- The printer cannot scan the striped area (A) (0.04 in. (1 mm) from the edges of the platen glass).

Loading Only One Original in Center of Platen

Place the original WITH THE SIDE TO SCAN FACING DOWN, with 0.40 in. (1 cm) or more space between the edges (diagonally striped area) of the platen. Portions placed on the diagonally striped area cannot be scanned.

Loading Two or More Originals on Platen

Place the originals WITH THE SIDE TO SCAN FACING DOWN. Allow 0.40 in. (1 cm) or more space between the edges (diagonally striped area) of the platen and the originals, and between the originals. Portions placed on the diagonally striped area cannot be scanned.

You can place up to 12 items.

B: More than 0.40 in. (1 cm)

»» Note

- The Skew Correction function automatically compensates for the originals placed at an angle of up to approximately 10 degrees. Slanted photos with a long edge of 7.1 in. (180 mm) or more cannot be corrected.
- Non-rectangular or irregular shaped photos (such as cut out photos) may not be scanned properly.

Supported Originals

Platen

Item	Details
Types of originals	Text document, magazine, or newspaper Printed photo, postcard, business card, or disc (BD/DVD/CD, etc.) Documents that are not suitable for the ADF
Size (width x height)	Max. 8.5 x 11.7 in. (216 x 297 mm)
Quantity	One or more sheets*
Thickness	Max. 0.2 in. (5 mm)

* Two or more originals can be loaded on the platen depending on the selected function.

➔ [Loading Based on Use](#)

In the ADF (Auto Document Feeder)

Item	Details
Kind of original	Plain-paper documents with multiple pages of the same size, thickness, and weight
Size	A4, Letter, Legal Max. 8.5 x 14.0 in. (216 x 356 mm) Min. 8.3 x 11.0 in. (210 x 280 mm)
Quantity	A4/Letter: Max. 35 sheets (20 lb (75 g /m ²) paper), up to 0.14 in. (3.5 mm) high Legal: Max. 5 sheets (20 lb (75 g /m ²) paper), up to 0.02 in. (0.5 mm) high Other sizes: 1 sheet
Thickness	0.003 to 0.005 in. (0.07 to 0.13 mm)
Weight	16.0 to 25.3 lb (60 to 95 g /m ²)

➤➤➤ Note

- Make sure any liquids on documents, such as glue, ink, or correction fluid are dry before loading.
Do not load glued documents in the ADF, even if the glue is dry, because this may cause paper jams.
- Remove all staples, paper clips, or other fasteners before feeding documents.
- Load Legal-sized documents in the ADF.
- Do not load these kinds of documents in the ADF, which may cause paper jams.
 - Wrinkled or creased documents
 - Curled documents
 - Torn documents
 - Documents with holes

- Glued documents
- Documents with sticky notes
- Documents on carbon paper
- Documents on coated paper
- Documents on onion skin or other thin paper
- Photos or excessively thick documents

Refilling Ink Tanks

- [Refilling Ink Tanks](#)
- [Checking Ink Level](#)
- [Ink Tips](#)

Refilling Ink Tanks

When remaining ink cautions or errors occur, the message will appear on the touch screen to inform you of the error. In this state, the printer cannot print. Check the remaining ink level with the ink tank indicator on the front of the printer. If the ink level is near the lower limit line (A), refill the ink tank.

►► Note

- If print results become faint or streaks appear despite sufficient ink levels, see [Maintenance Procedure](#).
- For precautionary notes on handling ink bottles, see [Notes on ink bottles](#).

Refilling Procedure

When you refill ink tanks, follow the steps below.

►► Important

- Please ensure the printer remains flat after initial setup and is NOT turned upside down or on its side, as ink in the printer may leak.

1. [Check that printer is turned on.](#)
2. Open the scanning unit / cover (B).

▶▶ Important

- Do not touch tubes or other parts inside the printer. This can cause trouble with the printer.

3. Open the tank cap (C) of the ink tank to be refilled.

- D: Yellow
- E: Magenta
- F: Cyan
- G: Black

▶▶ Important

- Carefully open the tank cap of the ink tank. Ink on the inside of the tank cap may spatter when opening it.

4. Hold the ink bottle upright and gently twist the bottle cap (H) to remove.

»» Important

- Do not shake the ink bottle. Ink may spatter when opening the cap.

5. Refill the ink tank.

Aligning the ink bottle's tip with the ink tank's inlet (I), slowly stand the bottle upside down, and push the bottle into the inlet.

The ink tank is refilled. Support the bottle with your hand so that it does not fall.

»» Important

- Make sure that each color of ink tanks is filled with corresponding color of ink bottles.
- If ink is not injected into the ink tank, slowly remove and insert the ink bottle.
- Make sure to refill the ink tank with ink up to the upper limit line (J) on the ink tank.

6. Once ink reaches the upper limit line, remove the ink bottle from the inlet.

Hold up the ink bottle slightly and remove the bottle from the inlet while slowly tilting it.

▶▶▶ Important

- Do not leave ink bottles in ink tanks.
- Close the bottle cap of the ink bottle securely and store the ink bottle upright.

7. Close the tank cap of the ink tank.

Make sure the tank cap is completely inserted.

8. Close the scanning unit / cover.

To close the scanning unit / cover, lift it up slightly and then lower it gently.

Notes on ink bottles

►► Important

- Keep out of reach of children.
- Do not drink ink.
- If ink is accidentally licked or swallowed, rinse out your mouth or drink one or two glasses of water and obtain medical advice immediately. If ink gets into your eyes, flush them with water right away, and obtain medical advice immediately.
- If ink gets on your skin, wash the area with soap and water immediately. If irritation to your skin persists, obtain medical advice immediately.
- When you store ink bottles, close bottle caps completely and place bottles in standing position. If the ink bottles are laid down, ink may leak.
- When refilling ink tanks, take sufficient care to prevent ink from splattering onto surroundings.
- Ink may stain clothes or other belongings permanently. Washing may not remove ink stains.
- Do not use ink bottles and ink contained therein except to refill tanks of printers specified by Canon.
- Do not leave ink bottles in areas exposed to high temperature, such as near fire or a heater or in a car. Bottles may warp and cause ink leakage or ink may become poor quality.
- Do not subject ink bottles to impacts. Ink bottles may be damaged or bottle caps may come off by such impact, and ink may leak.
- Do not transfer ink to other containers. This may result in accidental ingestion, inappropriate use, or poor ink quality.
- Do not mix ink with water or other ink. This may damage the printer.
- Once an ink bottle has been opened, do not leave it with bottle cap off. Ink will dry out, possibly preventing proper operation of the printer when an ink tank is refilled using this bottle.
- To obtain optimum print quality, we recommend to refill the ink tank with ink up to the upper limit line at least once a year.

►► Note

- Color ink may be consumed even when printing a black-and-white document or when black-and-white printing is specified. Every ink is also consumed in the standard cleaning and deep cleaning of the print head, which may be necessary to maintain the performance of the printer.

When ink runs low, promptly refill it.

➔ [Ink Tips](#)

Checking Ink Level

Check ink level with the ink tank indicator on the front of the printer.

When ink reaches the upper limit line (A), ink is full.

When ink is near the lower limit line (B), ink is running low. Refill the ink tank.

▶▶▶ Note

- To check the remaining ink level, visually inspect the remaining ink in the ink tank.

▶▶▶ Note

- If a remaining ink error occurs, the error message appears on the touch screen.
 - ➔ [When Error Occurred](#)
- To ensure you receive premium print quality and to help protect your print head, a certain amount of ink remains in the ink tank when the printer indicates to refill the ink tank. The estimated page yields of the ink bottle do not include this amount.
- Ink flows from the ink tanks to the inside of the printer. Ink may seem to run out fast due to this procedure when you start using the printer or after transporting it.

Ink Tips

How is ink used for various purposes other than printing?

Ink may be used for purposes other than printing.

During initial setup, some of the ink from the bundled ink bottles is used to fill the print head's nozzles to ensure the printer is print-ready.

Therefore, the page yield of the initial bundled set of ink bottles is lower than that of the subsequent sets of bottles.

To keep printer's performance, Canon printer performs cleaning automatically according to its condition. When the printer performs cleaning, a small amount of ink is consumed. In this case, all colors of ink may be consumed.

[Cleaning function]

The cleaning function helps the printer to suck air bubbles or ink itself from the nozzle and thus prevents print quality degradation or nozzle clogging.

▶▶▶ Important

- The used ink is ejected into the maintenance cartridge. When the maintenance cartridge becomes full, replacement is necessary. If a message is displayed indicating that the maintenance cartridge is nearly full, replace the maintenance cartridge as soon as possible.

➔ [Replacing the Maintenance Cartridge](#)

Does black-and-white printing use color ink?

Black-and-white printing may use ink other than black ink depending on the type of printing paper or the settings of the printer driver. So, color ink is consumed even when printing in black-and-white.

Similarly, color inks are also consumed along with black ink during print head cleaning when Black is specified for cleaning.

If Printing Is Faint or Uneven

- **Maintenance Procedure**
- **Printing the Nozzle Check Pattern**
- **Examining the Nozzle Check Pattern**
- **Cleaning the Print Head**
- **Deep Print Head Cleaning**
- **Aligning the Print Head**
- **Aligning the Print Head Manually**

Maintenance Procedure

If print results are blurred, colors are not printed correctly, or print results are unsatisfactory (e.g. misaligned printed ruled lines), perform the maintenance procedure below.

▶▶▶ Important

- Do not rinse or wipe the print head. This can cause trouble with the print head.

▶▶▶ Note

- Check if ink remains in the ink tanks.
 - ➔ [Checking Ink Level](#)
- For Windows, increasing the print quality in the printer driver settings may improve the print result.
 - ➔ [Set Media Type, Quality, etc. \(Media/Quality Tab\)](#)

When the Print Results Are Blurred or Uneven:

Step 1 Print the nozzle check pattern.

From the printer

- ➔ [Printing the Nozzle Check Pattern](#)

From the computer

- For Windows:
 - ➔ [Printing a Nozzle Check Pattern](#)
- For macOS:
 - ➔ [Printing a Nozzle Check Pattern](#)

Step 2 [Examine the nozzle check pattern.](#)

If there are missing lines or horizontal streaks in the pattern:

Step 3 Clean the print head.

From the printer

- ➔ [Cleaning the Print Head](#)

From the computer

- For Windows:
 - ➔ [Cleaning the Print Heads](#)
- For macOS:
 - ➔ [Cleaning the Print Heads](#)

After cleaning the print head, print and examine the nozzle check pattern: ➔ [Step 1](#)

If the problem is not resolved after performing from step 1 to step 3 twice:

|| Step 4 | Clean the print head deeply.

From the printer

- ➔ [Deep Print Head Cleaning](#)

From the computer

- For Windows:
 - ➔ [Cleaning the Print Heads](#)
- For macOS:
 - ➔ [Cleaning the Print Heads](#)

After deep print head cleaning, print and examine the nozzle check pattern: ➔ [Step 1](#)

When you have performed the procedure until step 4 and the problem has not been resolved, turn off the power and clean the print head deeply again after 24 hours. Do not unplug the power cord when turning off the power.

If the problem is still not resolved, replace ink in print head.

➔➔➔ Important

- Replace ink in print head consumes a great amount of ink. Frequent replace ink in print head can rapidly consume ink, so replace ink in print head only when necessary.
- Be sure to check the remaining ink level before replacing ink in print head.

- ➔ [Replace Ink in Print Head](#)

If the symptom still persists, the print head may be defective. Contact Canon to request a repair.

When the Print Results Are Not Even such as the Ruled Lines Are Misaligned:

|| Step | Align the print head.

From the printer

- ➔ [Aligning the Print Head](#)

From the computer

- For Windows:
 - ➔ [Adjusting Print Head Position Automatically](#)
- For macOS:
 - ➔ [Adjusting Print Head Position](#)

Printing the Nozzle Check Pattern

Print the nozzle check pattern to determine whether the ink ejects properly from the print head nozzle.

»» Note

- If the remaining ink level is low, the nozzle check pattern will not be printed correctly. [Refill the ink tanks](#) whose ink is low.

You need to prepare: a sheet of A4 or Letter-sized plain paper

1. [Check that printer is turned on.](#)
2. Load a sheet of A4 or Letter-sized plain paper in the cassette.
➔ [Loading Plain Paper in Cassette](#)

3. Select  (Setup) on HOME screen.

➔ [Using Touch Screen](#)

The setup menu screen will appear.

4. Select  **Maintenance**.

The **Maintenance** screen will appear.

5. Select **Nozzle Check**.

The confirmation screen will appear.

6. Select **Yes**.

The nozzle check pattern will be printed and two pattern confirmation screens will appear on the touch screen.

7. [Examine the nozzle check pattern.](#)

Examining the Nozzle Check Pattern

Examine the nozzle check pattern, and clean the print head if necessary.

1. Check if there are missing lines in the pattern C or horizontal streaks in the pattern D.

A: No missing lines/No horizontal streaks

B: Lines are missing/Horizontal streaks are present

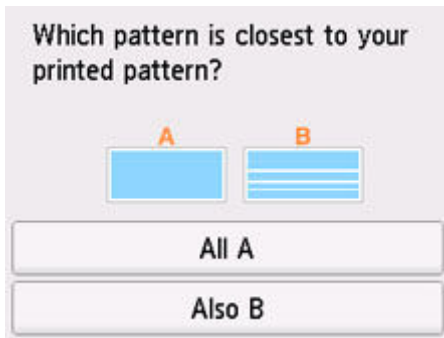

2. Select the pattern that is closer to the printed nozzle check pattern on the confirmation screen.

Which pattern is closest to your printed pattern?

A B

All A

Also B

For A (no missing lines or no horizontal streaks) in both the pattern C and pattern D:

The cleaning is not required. Select **All A**, confirm the message, then select **OK**.

The screen will return to the **Maintenance** screen.

For B (lines are missing or horizontal streaks are present) in the pattern C or pattern D, or in both patterns:

The cleaning is required. Select **Also B**, then select **Yes** on the cleaning confirmation screen.

The printer starts cleaning the print head.

➔ [Cleaning the Print Head](#)

If the pattern C or any color in the pattern D is not printed:

(Example: Magenta pattern is not printed)

The cleaning is required. Select **Also B**, then select **Yes** on the cleaning confirmation screen.

The printer starts cleaning the print head.

➔ [Cleaning the Print Head](#)

Cleaning the Print Head

Clean the print head if lines are missing or if horizontal streaks are present in the printed nozzle check pattern. Cleaning unclogs the nozzles and restores the print head condition. Cleaning the print head consumes ink, so clean the print head only when necessary.

»» Important

- When performing the print head cleaning, check the free space in the maintenance cartridge. If there is not enough free space, [replace with the new maintenance cartridge](#). In the case of shortage of free space in the maintenance cartridge, a message is displayed and the cleaning cannot be performed.

You need to prepare: a sheet of A4 or Letter-sized plain paper

1. [Check that printer is turned on.](#)
2. Load a sheet of A4 or Letter-sized plain paper in the cassette.

➔ [Loading Plain Paper in Cassette](#)

3. Select  (Setup) on HOME screen.

➔ [Using Touch Screen](#)

The setup menu screen will appear.

4. Select  **Maintenance**.

The **Maintenance** screen will appear.

5. Select **Cleaning**.

The confirmation screen will appear.

6. Select **Yes**.

The printer starts cleaning the print head.

Do not perform any other operations until the printer completes the cleaning of the print head. This takes about 2 minutes.

The pattern print confirmation screen will appear.

7. Select Yes.

The nozzle check pattern will be printed.

8. [Examine the nozzle check pattern.](#)

▶▶ Note

- If the problem is not resolved after cleaning the print head twice, [clean the print head deeply.](#)

Deep Print Head Cleaning

If print quality does not improve by the standard cleaning of the print head, clean the print head deeply. Cleaning the print head deeply consumes more ink than the standard cleaning of the print head, so clean the print head deeply only when necessary.

»» Important

- When performing the print head deep cleaning, check the free space in the maintenance cartridge. If there is not enough free space, [replace with the new maintenance cartridge](#). In the case of shortage of free space in the maintenance cartridge, a message is displayed and the cleaning cannot be performed.

You need to prepare: a sheet of A4 or Letter-sized plain paper

1. [Check that printer is turned on.](#)
2. Load a sheet of A4 or Letter-sized plain paper in the cassette.

➔ [Loading Plain Paper in Cassette](#)

3. Select  (Setup) on HOME screen.

➔ [Using Touch Screen](#)

The setup menu screen will appear.

4. Select  **Maintenance**.

The **Maintenance** screen will appear.

5. Select **Deep Cleaning**.

The confirmation screen will appear.

6. Select **Yes**.

The printer starts cleaning the print head deeply.

Do not perform any other operations until the printer completes the deep cleaning of the print head. This takes about 3 to 4 minutes.

The pattern print confirmation screen will appear.

7. Select **Yes.**

The nozzle check pattern will be printed.

8. When the completion message appears, select **OK.**

9. [Examine the nozzle check pattern](#).

If the problem is not resolved, turn off the power and clean the print head deeply again after 24 hours. Do not unplug the power cord when turning off the power.

Aligning the Print Head

If printed ruled lines are misaligned or print results are otherwise unsatisfactory, adjust the print head position.

▶▶▶ Note

- If the remaining ink level is low, the print head alignment sheet will not be printed correctly.
If the remaining ink level is low, [refill ink tanks](#).
- If ink runs out as the print head alignment sheet is printed, an error message appears on the touch screen.

➔ [When Error Occurred](#)

You need to prepare: a sheet of A4 or Letter-sized plain paper

1. [Check that printer is turned on.](#)
2. Load a sheet of A4 or Letter-sized plain paper in cassette.
➔ [Loading Plain Paper in Cassette](#)

3. Select  (Setup) on HOME screen.

➔ [Using Touch Screen](#)

The setup menu screen will appear.

4. Select  **Maintenance**.

The **Maintenance** screen will appear.

5. Select **Print Head Alignment - Auto**.

The confirmation screen will appear.

6. Confirm the message, then select **Yes**.

The print head alignment sheet is printed, and the print head is aligned automatically.

This takes about 1 to 2 minutes.

▶▶▶ Note

- If automatic print head alignment fails, an error message appears on the touch screen.
 - ➔ [When Error Occurred](#)

7. When the completion message appears, select **OK**.

▶▶▶ Note

- If the print results are still not satisfactory after adjusting the print head position as described above, [adjust the print head position manually](#).
 - For Windows:
You can also align the print head manually from a computer.
 - ➔ [Adjusting Print Head Position Manually](#)
- To print and check the current head position adjustment values, select **Print the Head Alignment Value** on the **Maintenance** screen.

Aligning the Print Head Manually

Try aligning the print head manually after automatic print head alignment if printing results are not as expected, as when printed ruled lines are misaligned.

You need to prepare: two sheets of A4 or Letter-sized plain paper

1. [Check that printer is turned on.](#)
2. Load two sheets of A4 or Letter-sized plain paper in cassette.
➔ [Loading Plain Paper in Cassette](#)

3. Select  (Setup) on HOME screen.
➔ [Using Touch Screen](#)

The setup menu screen will appear.

4. Select  **Maintenance**.

The **Maintenance** screen will appear.

5. Select **Print Head Alignment - Manual**.

The confirmation screen will appear.

▶▶▶ Note

- To print and check the current head position alignment values, select **Print the Head Alignment Value**.

6. Check message and select **Yes**.
The print head alignment pattern will be printed.
7. When **Did the patterns print correctly?** appears, make sure pattern was printed correctly, and if so, select **Yes**.

8. Check message and select **Next**.

The input screen for head position alignment values is displayed.

9. Examine first patterns and select **A**. In column A, find pattern in which stripes are least noticeable, and then select the number of that pattern.

►►► **Note**

- If all patterns look different, choose the pattern in which vertical stripes are least noticeable.

Subtle vertical stripes

Noticeable vertical stripes

- If all patterns look different, choose the pattern in which horizontal stripes are least noticeable.

Subtle horizontal stripes

Noticeable horizontal stripes

10. Repeat these steps until you have finished entering pattern numbers for columns B to N, and then select **OK**.

11. Check message and select **OK**.

The second set of patterns is printed.

12. Examine second patterns and select **O**. In column O, find pattern in which stripes are least noticeable, and then select the number of that pattern.

13. Repeat these steps until you have finished entering pattern numbers for columns P to U, and then select **OK**.

14. When confirmation message appears, select **OK**.

Performing Maintenance Functions from Your Computer (macOS)

- **Opening Remote UI for Maintenance**
- **Cleaning the Print Heads**
- **Adjusting Print Head Position**

Opening Remote UI for Maintenance

You can perform maintenance of printer and change the settings from a Remote UI. The following is the procedure to open a Remote UI.

1. Open **System Preferences**, and select **Printers & Scanners**
2. Select your model from the printer list, and click **Options & Supplies...**
3. Click **Show Printer Webpage...** in **General** tab

Remote UI starts.

▶▶▶ Note

- The password may have to be entered after Remote UI starts. In such a case, enter the password and click **OK**. In case you do not know the password, see "Passwords and cookies."

Related Topics

- ➔ [Cleaning the Print Heads](#)
- ➔ [Adjusting Print Head Position](#)
- ➔ [Printing a Nozzle Check Pattern](#)
- ➔ [Managing the Printer Power](#)
- ➔ [Changing the Printer Operation Mode](#)
- ➔ [Reducing the Printer Noise](#)

Cleaning the Print Heads

The print head Cleaning and Deep Cleaning functions allow you to clear up clogged print head nozzles. Perform print head Cleaning if printing results are not satisfactory or if a specific color fails to print, even though there is enough ink.

Before performing any operation, [confirm that the maintenance cartridge has enough available space](#).

Cleaning

1. Select **Utilities** from [Remote UI](#)

2. Click **Cleaning**

Before performing Cleaning, check that the printer power is on.

Check the following. Then, if necessary, perform Cleaning.

- [Is there ink remaining?](#)

3. Perform Cleaning

Click **Yes**.

Print head Cleaning starts.

4. Complete Cleaning

Next, the message for Nozzle Check pattern printing is displayed.

5. Check the results

To check whether the print quality has improved, click **Yes**. To cancel the check process, click **No**.

If cleaning the head once does not resolve the print head problem, clean it once more.

»» Important

- **Cleaning** consumes a small amount of ink. Cleaning the print head frequently will rapidly deplete your printer's ink supply. Perform Cleaning only when necessary.

Deep Cleaning

Deep Cleaning is more thorough than Cleaning. Perform Deep Cleaning when two **Cleaning** attempts do not resolve the print head problem.

1. Select **Utilities** from [Remote UI](#)

2. Click **Deep Cleaning**

Before performing Deep Cleaning, check that the printer power is on.

Check the following. Then, if necessary, perform Deep Cleaning.

- [Is there ink remaining?](#)

3. Perform Deep Cleaning

Click **Yes**.

Print head Deep Cleaning starts.

4. Complete Deep Cleaning

Next, the message for Nozzle Check pattern printing is displayed.

5. Check the results

To check whether the print quality has improved, click **Yes**. To cancel the check process, click **No**.

Important

- **Deep Cleaning** consumes a larger amount of ink than **Cleaning**.
Cleaning the print head frequently will rapidly deplete your printer's ink supply. Perform Deep Cleaning only when necessary.

Related Topic

- ➔ [Printing a Nozzle Check Pattern](#)

Adjusting Print Head Position

Any error in the print head installation position can cause color and line shifts. Adjusting the print head position improves print results.

Print Head Alignment - Auto

1. Select **Utilities** from [Remote UI](#)
2. Click **Print Head Alignment - Auto**

A message appears.

3. Load paper in printer

Load one sheet of A4 size or Letter size plain paper into the cassette.

4. Run head position adjustment

Check that the printer power is on, and then click **Yes**.

Head alignment starts. Proceed with the operations in accordance with the messages on the screen.

▶▶ Important

- Do not open the scanning unit / cover while printing is in progress; otherwise, printing will stop.

▶▶ Note

- You can print and check the current settings by clicking on **Print the head alignment value**.

Cleaning

- **Cleaning Exterior Surfaces**
- **Cleaning Platen and Document Cover**
- **Cleaning the ADF (Auto Document Feeder)**
- **Cleaning Paper Feed Rollers**
- **Cleaning Inside the Printer (Bottom Plate Cleaning)**
- **Cleaning Cassette Pads**

Cleaning Paper Feed Rollers

If a paper feed roller is dirty or paper powder is attached to it, paper may not be fed properly. In this case, perform Roller Cleaning. Cleaning will cause wear on rollers, so perform this only when necessary.

You need to prepare: three sheets of A4 or Letter-sized plain paper

1. [Check that printer is turned on.](#)

2. Select  (Setup) on HOME screen.

➔ [Using Touch Screen](#)

The setup menu screen will appear.

3. Select  **Maintenance.**

The **Maintenance** screen will appear.

4. Select **Roller Cleaning.**

The confirmation screen will appear.

5. Select **Yes.**
6. Select the paper source to use for cleaning.
7. Follow the message to remove any paper from the paper source.
If you clean the paper feed roller of cassette, remove any paper from the cassette, then push it back.
8. Select **OK.**
The paper feed rollers will rotate as they are cleaned without paper.
9. Make sure that the paper feed roller has stopped rotating, then follow the message to load the three sheets of A4 or Letter-sized plain paper in the paper feed point where the paper feed roller is being cleaned.

- ➔ [Loading Photo Paper / Plain Paper in Rear Tray](#)
- ➔ [Loading Plain Paper in Cassette](#)

10. Select OK.

The printer starts cleaning. The cleaning will be complete when the paper is ejected.

11. When the completion message appears, select OK.

If the problem is still not resolved with the operation described above, follow the operation below.

1. Turn off the power and then unplug the power cord.
2. Open the scanning unit / cover.
3. While rotating the paper feed roller (A) located inside the rear tray more than two full turns, wipe it with a well wrung out damp cloth.

Do not touch the roller with your fingers. Paper feeding performance may be degraded.

If the problem is not resolved after cleaning, contact Canon to request a repair.

Cleaning Inside the Printer (Bottom Plate Cleaning)

Remove stains from the inside of the printer. If the inside of the printer becomes dirty, printed paper may get dirty, so we recommend performing cleaning regularly.

You need to prepare: a sheet of A4 or Letter-sized plain paper*

* Be sure to use a new piece of paper.

1. [Check that printer is turned on.](#)

2. Select  (Setup) on HOME screen.

➔ [Using Touch Screen](#)

The setup menu screen will appear.

3. Select  **Maintenance**.

The **Maintenance** screen will appear.

4. Select **Bottom Plate Cleaning**.

The confirmation screen will appear.

5. Select **Yes**.
6. Follow the message to remove any paper from the rear tray, then select **OK**.
7. Fold a single sheet of A4 or Letter-sized plain paper in half widthwise, unfold the paper, then select **OK**.
8. Load only this sheet of paper on the rear tray with the open side facing you.

9. Pull out a paper output tray (A).

10. Select **OK**.

The paper cleans the inside of the printer as it feeds through the printer.

Check the folded parts of the ejected paper. If they are smudged with ink, perform Bottom Plate Cleaning again.

11. When the completion message appears, select **OK**.

»» **Note**

- When performing Bottom Plate Cleaning again, be sure to use a new piece of paper.

If the problem is not resolved after performing cleaning again, the protrusions inside the printer may be stained. Wipe off any ink from the protrusions using a cotton swab or the like.

▶▶ Important

- Be sure to turn off the power and unplug the power cord before cleaning the printer.
 - The power cannot be turned off while the printer is sending or receiving a fax, or when unsent faxes are stored in the printer's memory. Make sure the printer has finished sending or receiving faxes before turning it off.
 - Remember that faxes cannot be sent or received while the printer is off.

Replacing the Maintenance Cartridge

In case of cautions or errors concerning the maintenance cartridge, an error message will appear on the touch screen to inform you of the error. Take appropriate action as prompted by the message.

➔ [When Error Occurred](#)

▶▶▶ Important

- If a message is displayed indicating that the maintenance cartridge is nearly full, replace the maintenance cartridge as soon as possible. If the maintenance cartridge becomes full, an error message is displayed and the printer stops working until the cartridge is replaced with a new one.
- Do not touch the terminal (A) of the maintenance cartridge.

- Do not turn off the printer during replacement of the maintenance cartridge.

▶▶▶ Note

- Use a maintenance cartridge with the model number below.

Maintenance Cartridge MC-G03

1. Prepare a new maintenance cartridge.

Remove the maintenance cartridge and the attached plastic bag from the package.

2. Open the scanning unit / cover (B).

Check the position of the maintenance cartridge (C).

Important

- Do not touch tubes or other parts inside the printer. This can cause trouble with the printer.
- Do not put your hands inside the printer, as ink may adhere to your hands.

3. Slide the maintenance cartridge until the  mark on the maintenance cartridge is aligned with the  mark on the printer.

4. Lift the maintenance cartridge and remove it.

Important

- Do not drop the removed maintenance cartridge as ink may spill.
Do not place the removed maintenance cartridge on a desk or other surface, as there may be ink on the bottom of the cartridge.
- To prevent ink from leaking, do not tilt the removed maintenance cartridge or turn it upside down.

- Put the used one immediately into the plastic bag that came with the new maintenance cartridge and seal the bag by tying the opening tightly to prevent the ink from leaking.

5. Insert a new maintenance cartridge.

- 6. Slide the maintenance cartridge until the ► mark on the maintenance cartridge is aligned with the 🔒 mark on the printer.**

7. Close the scanning unit / cover.

To close the scanning unit / cover, lift it up slightly and then lower it gently.

Checking Maintenance Cartridge Status on Touch Screen

1. [Check that printer is turned on.](#)

2. Select  (Hint) on HOME screen.

➔ [Using Touch Screen](#)

The hint menu screen will appear.

3. Select  **Maintenance cart. info..**

A symbol appears in the area A if there is any information about the used space of the maintenance cartridge.

 The maintenance cartridge is almost full. Replace the maintenance cartridge as soon as possible.

»» Note

- The above screen shows estimated used space.
 - Selecting **View model no.** displays the **Maintenance cartridge model no.** screen for checking maintenance cartridge number.
 - To replace the maintenance cartridge, select **Replace**.

Safety Precautions

Safety Precautions

- This manual contains important notices and safety precautions about your printer.

Do not use the printer in ways other than described in the accompanying manuals, as this may result in fire, electric shock or other unexpected accidents.

Safety standard marks and declarations are only valid for the supported voltages and frequencies in the applicable countries or regions.

Warning

- Users with cardiac pacemakers:

This product emits a low-level magnetic flux. If you feel abnormalities, please move away from the product and consult your doctor.

- Do not use the printer in the following cases:

Stop use immediately, unplug the printer and call your local service representative to request repair.

- Metal objects or liquids are spilt inside the printer.
 - The printer emits smoke, strange odors, or makes unusual noises.
 - The power cord or plug overheat or are broken, bent or damaged in any way.
- Failure to adhere to the following may result in fire, electric shock, or injury:
 - Do not place product close to the flammable solvents such as alcohol or thinner.
 - Do not open or modify the printer.
 - Use only the power cord/cables that came with your printer. Do not use these cables with other devices.
 - Do not plug in to voltages or frequencies other than those specified.
 - Plug the power cord into the socket completely.
 - Do not plug in or unplug the power cord with wet hands.
 - Do not damage the power cord or other cables by twisting, bundling, tying, pulling or excessively bending them.
 - Do not place heavy objects on the power cord.
 - Do not connect multiple power cords to a single electrical outlet. Do not use multiple extension cords.
 - Do not leave the printer plugged in during lightning storms.
 - Always unplug the power cord and cables when cleaning. Do not use flammable sprays or liquids such as alcohol or thinners for cleaning.
 - Unplug the power cord once a month to check that it is not overheating, rusted, bent, scratched, split, or otherwise damaged.

Caution

- Do not put your hands inside the printer while printing.
- Do not touch the metal parts of the print head immediately after printing.
- Do not touch moving parts indicated by the sticker shown here. Some models may not have these parts.

Moving parts

Keep body parts away from moving parts. Keep body parts out of the motion path.

- Ink bottles

- Keep out of reach of children.

- Do not drink ink.

If ink is accidentally licked or swallowed, rinse out your mouth or drink one or two glasses of water and obtain medical advice immediately.

If ink gets into your eyes, flush them with water right away, and obtain medical advice immediately.

- If ink gets on your skin, wash the area with soap and water immediately. If irritation to your skin persists, obtain medical advice immediately.

- When you store ink bottles, close bottle caps completely and place bottles in standing position. If the ink bottles are laid down, ink may leak.

- When refilling ink tanks, take sufficient care to prevent ink from spattering onto surroundings.

- Ink may stain clothes or other belongings permanently. Washing may not remove ink stains.

- Do not leave ink bottles in areas exposed to high temperature, such as near fire or a heater or in a car. Bottles may warp and cause ink leakage or ink may become poor quality.

- Do not subject ink bottles to impacts. Ink bottles may be damaged or bottle caps may come off by such impact, and ink may leak.

- Do not transfer ink to other containers. This may result in accidental ingestion, inappropriate use, or poor ink quality.

- Moving the printer

- Hold the printer by its sides and carry it with both hands.

General Notices

Choosing a Location

Refer to "[Specifications](#)" in the Online manual for details on operating environment.

- Do not install the printer in a location that is unstable or subject to excessive vibration.
- Do not install the printer in locations that get very hot (direct sunlight, or close to a heating source), very humid or dusty locations, or outdoors.
- Do not place the printer on a thick rug or carpet.
- Do not place the printer flush against a wall.

Power Supply

- Keep the area around the power outlet clear at all times so you can easily unplug the power cord if necessary.
- Never remove the plug by pulling on the cord.

General Notices

- Do not tilt the printer, stand it on end, or turn it upside down. This may cause ink to leak.
- Do not place anything on top of the printer. Be especially careful to avoid metal objects such as paper clips and staples, and containers holding flammable liquids such as alcohol or thinner.
- Be sure to observe the following when loading the original on the platen. Failure to observe the following may cause the scanner to malfunction or the platen glass to break.
 - Do not place any objects weighing 4.4 lb (2.0 kg) or more on the platen glass.
 - Do not put any pressure of 4.4 lb (2.0 kg) or more on the platen glass, such as pressing down the original.
- Modifying or dismantling the print head or ink bottles, such as by putting holes in them, could cause the ink to leak out and cause a malfunction. We recommend that you do not modify or dismantle them.

- Do not put the print head or ink bottles into a fire.

IMPORTANT SAFETY INSTRUCTIONS

SAVE THESE INSTRUCTIONS

When using your telephone equipment, basic safety precautions should always be followed to reduce the risk of fire, electric shock and injury to persons, including the following:

1. Do not use this product near water, for example, near a bath tub, wash bowl, kitchen sink or laundry tub, in a wet basement or near a swimming pool.
2. Avoid using this product during an electrical storm. There may be a remote risk of electric shock from lightning.
3. Do not use this product to report a gas leak in the vicinity of the leak.

"CAUTION - To reduce the risk of fire, use only No. 26 AWG or larger telecommunication line cord."

IMPORTANTES MESURES DE SÉCURITÉ

CONSERVER CES INSTRUCTIONS

Certaines mesures de sécurité doivent être prises pendant l'utilisation de matériel téléphonique afin de réduire les risques d'incendie, de choc électrique et de blessures.

En voici quelquesunes :

1. Ne pas utiliser l'appareil près de l'eau, p.ex., près d'une baignoire, d'un lavabo, d'un évier de cuisine, d'un bac à laver, dans un sous-sol humide ou près d'une piscine.
2. Éviter d'utiliser l'appareil pendant un orage électrique. Ceci peut présenter un risque de choc électrique causé par la foudre.
3. Ne pas utiliser l'appareil pour signaler une fuite de gaz s'il est situé près de la fuite.

"ATTENTION - Pour réduire les risques d'incendie, utiliser uniquement des conducteurs de télécommunications 26 AWG au de section supérieure."

Users in the U.S.A.

FCC Notice (U.S.A. Only)

For 120V, 60Hz model

Model Number: K10552 (Contains FCC Approved WLAN Module K30387)

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the

equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Use of a shielded cable is required to comply with Class B limits in Subpart B of Part 15 of the FCC Rules.

Do not make any changes or modifications to the equipment unless otherwise specified in the manual. If such changes or modifications should be made, you could be required to stop operation of the equipment.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate equipment.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

The equipment complies with FCC radiation exposure limits for uncontrolled equipment. This equipment should be installed and operated with minimum distance at least 20cm between the radiator and persons body (excluding extremities: hands, wrists, feet and ankles) and must not be colocated or operated with any other antenna or transmitter.

Canon U.S.A., Inc.
One Canon Park
Melville, New York 11747
1-800-652-2666

Interference

Do not use the printer around medical equipment or other electronic devices. Signals from the printer may interfere with the correct operation of these devices.

Pre-Installation Requirements

Order Information

When ordering service from the telephone company for this equipment, the following may be required.

Universal Service Order Code (USOC): RJ11C

The Facility Interface Code (FIC): 02LS2

Service Order Code (SOC): 9.0F

Connection of the Equipment

This equipment complies with Part 68 of the FCC rules and the requirements adopted by the ACTA.

A label on this equipment contains, among other information, a product identifier in the format US:AAAEQ##TXXXX. If requested, this number must be provided to the telephone company.

The REN is used to determine the number of devices that may be connected to a telephone line.

Excessive RENs on a telephone line may result in the devices not ringing in response to an incoming call. In most but not all areas, the sum of RENs should not exceed five (5.0). To be certain of the number of devices that may be connected to a line, as determined by the total RENs, contact the local telephone company. The REN for this product is part of the product identifier that has the format US:AAAEQ##TXXXX. The digits represented by ## are the REN without a decimal point (e.g., 03 is a REN of 0.3).

A plug and jack used to connect this equipment to the premises wiring and telephone network must comply with the applicable FCC Part 68 rules and requirements adopted by the ACTA. A compliant telephone cord and modular plug is provided with this product. It is designed to be connected to a compatible modular jack that is also compliant. See installation instructions for details.

Connection to party lines is subjected to state tariffs. Contact the state public utility commission, public service commission or corporation commission for information.

If your home has specially wired alarm equipment connected to the telephone line, ensure the installation of this equipment does not disable your alarm equipment. If you have questions about what will disable alarm equipment, consult your telephone company or a qualified installer.

In Case of Equipment Malfunction

Should any malfunction occur which cannot be corrected by the procedures described in the Online Manual, disconnect the equipment from the telephone line cable, turn off the power and disconnect the power cord. The telephone line cable should not be reconnected or the main power switch turned ON until the problem is completely resolved. Users should contact their local authorized Canon Facsimile Service Dealer for the servicing of equipment.

Information regarding Authorized Service Facility locations can be obtained by calling the Canon Customer Center.

Rights of the Telephone Company

If this equipment causes harm to the telephone network, the telephone company may temporarily disconnect service. The telephone company also retains the right to make changes in facilities and services that may affect the operation of this equipment. When such changes are necessary, the telephone company is required to give adequate prior notice to the user. However, if advance notice is not possible, the telephone company will notify the customer as soon as possible. Also, the customer will be advised of his/her right to file a complaint with the FCC if he/she believes it is necessary.

Warning

The Telephone Consumer Protection Act of 1991 makes it unlawful for any person to use a computer or other electronic device to send any message via a telephone FAX machine unless such message clearly contains in a margin at the top or bottom of each transmitted page, or on the first page of the transmission, the date and time it is sent and an identification of the business or other entity, or other individual sending the message and the telephone number of the sending machine or such business, other entity, or individual.

In order to program this information into your FAX machine, you should complete the procedure to register your name, unit's telephone number, time, and date. Refer to the Online Manual.

WEEE

Only for the United Kingdom

These symbols indicate that this product is not to be disposed of with your household waste, according to the UK Waste Electrical and Electronic Equipment Regulations and the UK Batteries and Accumulators Regulations. If a chemical symbol is printed beneath the symbol shown above, in accordance with the UK Batteries and Accumulators Regulations, this indicates that a heavy metal (Hg = Mercury, Cd = Cadmium, Pb = Lead) is present in this battery or accumulator at a concentration above an applicable threshold specified in the UK Batteries and Accumulators Regulations. This product should be handed over to a designated collection point, e.g., on an authorized one-for-one basis when you buy a new similar product or to an authorized collection site for recycling waste electrical and electronic equipment (EEE) and batteries and accumulators. Improper handling of this type of waste could have a possible impact on the environment and human health due to potentially hazardous substances that are generally associated with EEE. Your cooperation in the correct disposal of this product will contribute to the effective usage of natural resources. For more information about the recycling of this product, please contact your local city office, waste authority, approved scheme or your household waste disposal service or visit www.canon-europe.com/sustainability/approach/.

Only for European Union and EEA (Norway, Iceland and Liechtenstein)

These symbols indicate that this product is not to be disposed of with your household waste, according to the WEEE Directive (2012/19/EU), the Battery Directive (2006/66/EC) and/or national legislation implementing those Directives. If a chemical symbol is printed beneath the symbol shown above, in accordance with the Battery Directive, this indicates that a heavy metal (Hg = Mercury, Cd = Cadmium, Pb = Lead) is present in this battery or accumulator at a concentration above an applicable threshold specified in the Battery Directive. This product should be handed over to a designated collection point, e.g., on an authorized one-for-one basis when you buy a new similar product or to an authorized collection site for recycling waste electrical and electronic equipment (EEE) and batteries and accumulators. Improper handling of this type of waste could have a possible impact on the environment and human health due to potentially hazardous substances that are generally associated with EEE. Your cooperation in the correct disposal of this product will contribute to the effective usage of natural resources. For more information about the recycling of this product, please contact your local city office, waste authority, approved scheme or your household waste disposal service or visit www.canon-europe.com/weee, or www.canon-europe.com/battery.

Nur für Europäische Union und EWR (Norwegen, Island und Liechtenstein)

Diese Symbole weisen darauf hin, dass dieses Produkt gemäß WEEE-Richtlinie (2012/19/EU; Richtlinie über Elektro- und Elektronik-Altgeräte), Batterien-Richtlinie (2006/66/EG) und nationalen Gesetzen zur Umsetzung dieser Richtlinien nicht über den Hausmüll entsorgt werden darf. Falls sich unter dem oben abgebildeten Symbol ein chemisches Symbol befindet, bedeutet dies gemäß der Batterien-Richtlinie, dass in dieser Batterie oder diesem Akkumulator ein Schwermetall (Hg = Quecksilber, Cd = Cadmium, Pb = Blei) in einer Konzentration vorhanden ist, die über einem in der Batterien-Richtlinie angegebenen Grenzwert liegt. Dieses Produkt muss bei einer dafür vorgesehenen Sammelstelle abgegeben werden. Dies kann z. B. durch Rückgabe beim Kauf eines neuen ähnlichen Produkts oder durch Abgabe bei einer autorisierten Sammelstelle für die Wiederaufbereitung von Elektro- und Elektronik-Altgeräten sowie Batterien und Akkumulatoren geschehen. Der unsachgemäße Umgang mit Altgeräten kann aufgrund potenziell gefährlicher Stoffe, die generell mit Elektro- und Elektronik-Altgeräten in Verbindung stehen, negative Auswirkungen auf die Umwelt und die menschliche Gesundheit haben. Durch Ihre Mitarbeit bei der umweltgerechten Entsorgung dieses Produkts tragen Sie zu einer effektiven Nutzung natürlicher Ressourcen bei. Um weitere Informationen über die Wiederverwertung dieses Produkts zu erhalten, wenden Sie sich an Ihre Stadtverwaltung, den öffentlich-rechtlichen Entsorgungsträger, eine autorisierte Stelle für die Entsorgung von Elektro- und Elektronik-Altgeräten oder Ihr örtliches Entsorgungsunternehmen oder besuchen Sie www.canon-europe.com/weee, oder www.canon-europe.com/battery.

Zusatzinformationen für Deutschland:

Dieses Produkt kann durch Rückgabe an den Händler unter den in der Verordnung des Elektro- und Elektronikgerätegesetzes beschriebenen Bedingungen abgegeben werden.

Als Endbenutzer und Besitzer von Elektro- oder Elektronikgeräten sind Sie verpflichtet:

- diese einer vom unsortierten Siedlungsabfall getrennten Erfassung zuzuführen,
- Altbatterien und Altakkumulatoren, die nicht vom Altgerät umschlossen sind, sowie Lampen, die zerstörungsfrei aus dem Altgerät entnommen werden können, vor der Abgabe an einer Erfassungsstelle vom Altgerät zerstörungsfrei zu trennen,
- personenbezogener Daten auf den Altgeräten vor der Entsorgung zu löschen.

Die Bedeutung von dem Symbol der durchgestrichenen Abfalltonne auf Rädern finden Sie oben in dieser Beschreibung.

Die Vertreiber von Elektro- oder Elektronikgeräten haben die Pflicht zur unentgeltlichen Rücknahme von Altgeräten. Die Vertreiber haben die Endnutzer über die von ihnen geschaffenen Möglichkeiten der Rückgabe von Altgeräten zu informieren.

Union Européenne, Norvège, Islande et Liechtenstein uniquement.

Ces symboles indiquent que ce produit ne doit pas être mis au rebut avec les ordures ménagères, comme le spécifient la Directive européenne DEEE (2012/19/UE), la Directive européenne relative à l'élimination des piles et des accumulateurs usagés (2006/66/CE) et les lois en vigueur dans votre pays appliquant ces directives. Si un symbole de toxicité chimique est imprimé sous le symbole illustré ci-dessus conformément à la Directive relative aux piles et aux accumulateurs, il indique la présence d'un métal lourd (Hg = mercure, Cd = cadmium, Pb = plomb) dans la pile ou l'accumulateur à une concentration supérieure au seuil applicable spécifié par la Directive. Ce produit doit être confié au distributeur à chaque fois que vous achetez un produit neuf similaire, ou à un point de collecte mis en place par les collectivités locales pour le recyclage des Déchets des Équipements Électriques et Électroniques (DEEE). Le traitement inapproprié de ce type de déchet risque d'avoir des répercussions sur l'environnement et la santé humaine, du fait de la présence de substances potentiellement dangereuses généralement associées aux équipements électriques et électroniques. Votre entière coopération dans le cadre de la mise au rebut correcte de ce produit favorisera une meilleure utilisation des ressources naturelles. Pour plus d'informations sur le recyclage de ce produit, contactez vos services municipaux, votre éco-organisme ou les autorités locales compétentes, ou consultez le site www.canon-europe.com/weee, ou www.canon-europe.com/battery.

Uitsluitend bestemd voor de Europese Unie en EER (Noorwegen, IJsland en Liechtenstein)

Met deze symbolen wordt aangegeven dat dit product in overeenstemming met de AEEA-richtlijn (2012/19/EU), de richtlijn 2006/66/EG betreffende batterijen en accu's en/of de plaatselijk geldende wetgeving waarin deze richtlijnen zijn geïmplementeerd, niet bij het normale huisvuil mag worden weggegooid. Indien onder het hierboven getoonde symbool een chemisch symbool gedrukt staat, geeft dit in overeenstemming met de richtlijn betreffende batterijen en accu's aan dat deze batterij of accu een zwaar metaal bevat (Hg = kwik, Cd = cadmium, Pb = lood) waarvan de concentratie de toepasselijke drempelwaarde in overeenstemming met de genoemde richtlijn overschrijdt. Dit product dient te worden ingeleverd bij een hiervoor aangewezen inzamelpunt, bijv. door dit in te leveren bij een hiertoe erkend verkooppunt bij aankoop van een gelijksoortig product, of bij een officiële inzameldienst voor de recycling van elektrische en elektronische apparatuur (EEA) en batterijen en accu's. Door de potentieel gevaarlijke stoffen die gewoonlijk gepaard gaan met EEA, kan onjuiste verwerking van dit type afval mogelijk nadelige gevolgen hebben voor het milieu en de menselijke gezondheid. Uw medewerking bij het op juiste wijze weggooiden van dit product draagt bij tot effectief gebruik van natuurlijke hulpbronnen. Voor verdere informatie over recycling van dit product kunt u contact opnemen met uw plaatselijke gemeente, afvaldienst, officiële dienst voor klein chemisch afval of afvalstortplaats, of kunt u terecht op www.canon-europe.com/weee, of www.canon-europe.com/battery.

Sólo para la Unión Europea y el Área Económica Europea (Noruega, Islandia y Liechtenstein)

Estos iconos indican que este producto no debe desecharse con los residuos domésticos de acuerdo con la Directiva sobre RAEE (2012/19/UE) y la Directiva sobre Pilas y Acumuladores (2006/66/CE) y/o la legislación nacional. Si aparece un símbolo químico bajo este icono, de acuerdo con la Directiva sobre Pilas y Acumuladores, significa que la pila o el acumulador contiene metales pesados (Hg = Mercurio, Cd = Cadmio, Pb = Plomo) en una concentración superior al límite especificado en dicha directiva. Este producto deberá entregarse en un punto de recogida designado, por ejemplo, entregándolo en el lugar de venta al adquirir un producto nuevo similar o en un centro autorizado para la recogida de residuos de aparatos eléctricos y electrónicos (RAEE), baterías y acumuladores. La gestión incorrecta de este tipo de residuos puede afectar al medio ambiente y a la salud humana debido a las sustancias potencialmente nocivas que suelen contener estos aparatos. Su cooperación en la correcta eliminación de este producto contribuirá al correcto aprovechamiento de los recursos naturales. Los usuarios tienen derecho a devolver pilas, acumuladores o baterías usados sin coste alguno. El precio de venta de pilas, acumuladores y baterías incluye el coste de la gestión medioambiental de su desecho, y no es necesario mostrar la cuantía de dicho coste en la información y la factura suministradas a los usuarios finales. Si desea más información sobre el reciclado de este producto, póngase en contacto con su municipio, el servicio o el organismo encargado de la gestión de residuos domésticos o visite www.canon-europe.com/weee, o www.canon-europe.com/battery.

Només per a la Unió Europea i a l'Espai Econòmic Europeu (Noruega, Islàndia i Liechtenstein)

Aquests símbols indiquen que aquest producte no s'ha de llençar amb les escombraries de la llar, d'acord amb la RAEE (2012/19/UE), la Directiva relativa a piles i acumuladors (2006/66/CE) i la legislació nacional que implementi aquestes directives. Si al costat d'aquest símbol hi apareix imprès un símbol químic, segons especifica la Directiva relativa a piles i acumuladors, significa que la bateria o l'acumulador conté un metall pesant (Hg = mercuri, Cd = cadmi, Pb = plom) en una concentració superior al límit aplicable especificat en la Directiva. Aquest producte s'hauria de lliurar en un dels punts de recollida designats, com per exemple, intercanviant un per un en comprar un producte similar o lliurant-lo en un lloc de recollida autoritzat per al reciclatge de residus d'aparells elèctrics i electrònics (RAEE) i piles i acumuladors. La manipulació inadequada d'aquest tipus de residus podria tenir un impacte negatiu en l'entorn i en la salut humana, a causa de les substàncies potencialment perilloses que normalment estan associades a l'RAEE. La vostra cooperació a l'hora de rebutjar correctament aquest producte contribuirà a la utilització efectiva dels recursos naturals. Els usuaris tenen dret a retornar les bateries o els acumuladors usats sense cap càrrec. El preu de venda de les bateries i els acumuladors inclou el cost de la gestió ambiental dels residus i no es necessari mostrar l'import d'aquest cost en aquest fullet o en la factura que es lliuri a l'usuari final. Per a més informació sobre el reciclatge d'aquest producte, contacteu

amb l'oficina municipal, les autoritats encarregades dels residus, el pla de residus homologat o el servei de recollida d'escombraries domèstiques de la vostra localitat o visiteu www.canon-europe.com/weee, o www.canon-europe.com/battery.

Solo per Unione Europea e SEE (Norvegia, Islanda e Liechtenstein)

Questi simboli indicano che il prodotto non può essere smaltito con i rifiuti domestici, ai sensi della Direttiva RAEE (2012/19/UE), della Direttiva sulle Batterie (2006/66/CE) e/o delle leggi nazionali che attuano tali Direttive. Se sotto il simbolo indicato sopra è riportato un simbolo chimico, in osservanza della Direttiva sulle batterie, tale simbolo indica la presenza di un metallo pesante (Hg = Mercurio, Cd = Cadmio, Pb = Piombo) nella batteria o nell'accumulatore con un livello di concentrazione superiore a una soglia applicabile specificata nella Direttiva sulle batterie. Il prodotto deve essere conferito a un punto di raccolta designato, ad esempio il rivenditore in caso di acquisto di un nuovo prodotto simile oppure un centro di raccolta autorizzato per il riciclaggio di rifiuti di apparecchiature elettriche ed elettroniche (RAEE) nonché di batterie e accumulatori. Un trattamento improprio di questo tipo di rifiuti può avere conseguenze negative sull'ambiente e sulla salute umana a causa delle sostanze potenzialmente nocive solitamente contenute in tali rifiuti. La collaborazione dell'utente per il corretto smaltimento di questo prodotto contribuirà a un utilizzo efficace delle risorse naturali ed eviterà di incorrere in sanzioni amministrative ai sensi dell'art. 255 e successivi del Decreto Legislativo n. 152/06. Per ulteriori informazioni sul riciclaggio di questo prodotto, contattare le autorità locali, l'ente responsabile della raccolta dei rifiuti, un rivenditore autorizzato o il servizio di raccolta dei rifiuti domestici, oppure visitare il sito www.canon-europe.com/weee, o www.canon-europe.com/battery.

Apenas para a União Europeia e AEE (Noruega, Islândia e Liechtenstein)

Estes símbolos indicam que este produto não deve ser eliminado juntamente com o seu lixo doméstico, segundo a Diretiva REEE de 2012/19/UE, a Diretiva de Baterias (2006/66/CE) e/ou a sua legislação nacional que transponha estas Diretivas. Se houver um símbolo químico impresso como mostrado abaixo, de acordo com a Diretiva de Baterias, isto indica que um metal pesado (Hg = Mercúrio, Cd = Cádmio, Pb = Chumbo) está presente nesta pilha ou acumulador, numa concentração acima de um limite aplicável especificado na Diretiva. Este produto deve ser entregue num ponto de recolha designado, por exemplo num local autorizado de troca quando compra um equipamento novo idêntico, ou num local de recolha autorizado para reciclar equipamento elétrico e eletrónico (EEE) em fim de vida, bem como pilhas e baterias. O tratamento inadequado deste tipo de resíduos pode ter um impacto negativo no ambiente e na saúde humana, devido a substâncias potencialmente perigosas que estão associadas com equipamentos do tipo EEE. A sua cooperação no tratamento correto deste produto irá contribuir para a utilização mais eficaz dos recursos naturais. Para obter mais informações acerca de como reciclar este produto, por favor contacte as suas autoridades locais responsáveis pela matéria, serviço

de recolha aprovado para pilhas e baterias ou serviço de recolha de resíduos sólidos domésticos da sua municipalidade, ou visite www.canon-europe.com/weee, ou www.canon-europe.com/battery.

Gælder kun i Europæiske Union og EØS (Norge, Island og Liechtenstein)

Disse symboler betyder, at produktet ikke må bortskaffes sammen med dagrenovation i henhold til WEEE-direktivet (2012/19/EU), batteridirektivet (2006/66/EF) og/eller den lokale lovgivning, som disse direktiver er gennemført i. Hvis der i overensstemmelse med batteridirektivet er trykt et kemisk symbol under det symbol, der er vist ovenfor, betyder det, at batteriet eller akkumulatoren indeholder tungmetaller (Hg = kviksølv, Cd = cadmium, Pb = bly) i en koncentration, som ligger over de grænseværdier, der er beskrevet i batteridirektivet. Produktet skal afleveres på et godkendt indsamlingssted, f.eks. i overensstemmelse med en godkendt én-til-én-procedure, når du indkøber et nyt tilsvarende produkt, eller på et godkendt indsamlingssted for elektronikaffald samt for batterier og akkumulatore. Forkert håndtering af denne type affald kan medføre negative konsekvenser for miljøet og menneskers helbred på grund af de potentielt sundhedsskadelige stoffer, der generelt kan forefindes i elektrisk og elektronisk udstyr. Når du foretager korrekt bortskaffelse af produktet, bidrager du til effektiv brug af naturressourcerne. Kontakt din kommune, den lokale affaldsmyndighed, det lokale affaldsanlæg, eller besøg www.canon-europe.com/weee, eller www.canon-europe.com/battery for at få flere oplysninger om genbrug af dette produkt.

Μόνο για την Ευρωπαϊκή Ένωση και τον ΕΟΧ (Νορβηγία, Ισλανδία και Λιχτενστάιν)

Αυτά τα σύμβολα υποδεικνύουν ότι αυτό το προϊόν δεν πρέπει να απορρίπτεται μαζί με τα οικιακά απορρίμματα, σύμφωνα με την Οδηγία για τα Απόβλητα Ηλεκτρικού και Ηλεκτρονικού Εξοπλισμού (ΑΗΗΕ) (2012/19/ΕΕ), την Οδηγία για τις Ηλεκτρικές Στήλες (2006/66/ΕΚ) ή/και την εθνική νομοθεσία που εφαρμόζει τις Οδηγίες εκείνες. Εάν κάποιο χημικό σύμβολο είναι τυπωμένο κάτω από το σύμβολο που φαίνεται παραπάνω, σύμφωνα με την Οδηγία για τις Ηλεκτρικές Στήλες, υποδηλώνει ότι κάποιο βαρύ μέταλλο (Hg = Υδράργυρος, Cd = Κάδμιο, Pb = Μόλυβδος) υπάρχει στην μπαταρία ή τον συσσωρευτή σε συγκέντρωση μεγαλύτερη από το ισχύον επίπεδο που καθορίζεται στην Οδηγία για τις Ηλεκτρικές Στήλες. Αυτό το προϊόν πρέπει να παραδίδεται σε καθορισμένο σημείο συλλογής, π.χ. σε μια εξουσιοδοτημένη βάση ανταλλαγής όταν αγοράζετε ένα νέο παρόμοιο προϊόν ή σε μια εξουσιοδοτημένη θέση συλλογής για την ανακύκλωση των αποβλήτων ηλεκτρικού και ηλεκτρονικού εξοπλισμού (ΗΗΕ) και των ηλεκτρικών στηλών και συσσωρευτών. Ο ακατάλληλος χειρισμός αυτού του τύπου αποβλήτων μπορεί να έχει αρνητικό αντίκτυπο στο περιβάλλον και την υγεία του ανθρώπου, λόγω δυνητικά επικίνδυνων ουσιών που γενικά συνδέονται με τον ΗΗΕ. Η συνεργασία σας για τη σωστή απόρριψη αυτού του προϊόντος θα συμβάλει στην αποτελεσματική χρήση των φυσικών πόρων. Για περισσότερες πληροφορίες σχετικά με ανακύκλωση αυτού του προϊόντος, επικοινωνήστε με το τοπικό γραφείο της πόλης σας, την υπηρεσία

απορριμμάτων, το εγκεκριμένο σχήμα ή την υπηρεσία απόρριψης οικιακών αποβλήτων ή επισκεφθείτε τη διεύθυνση www.canon-europe.com/weee ή www.canon-europe.com/battery.

Gjelder kun den europeiske union og EØS (Norge, Island og Liechtenstein)

Disse symbolene indikerer at dette produktet ikke skal kastes sammen med husholdningsavfall, i henhold til WEEE-direktivet (2012/19/EU), batteridirektivet (2006/66/EF) og/eller nasjonal lov som har implementert disse direktivene. Hvis et kjemisk symbol vises under symbolet vist ovenfor, i samsvar med batteridirektivet, indikerer dette at et tungmetall (Hg = kvikksølv, Cd = kadmium, Pb = bly) finnes i batteriet eller akkumulatoren i en konsentrasjon over en gjeldende øvre grense som er spesifisert i batteridirektivet. Produktet må leveres til et dertil egnet innsamlingspunkt, det vil si på en autorisert en-til-en-basis når en kjøper et nytt lignende produkt, eller til et autorisert innsamlingssted for resirkulering av avfall fra elektrisk og elektronisk utstyr (EE-utstyr) og batterier og akkumulatorene. Feil håndtering av denne typen avfall kan være miljø- og helseskadelig på grunn av potensielt skadelige stoffer som ofte brukes i EE-utstyr. Din innsats for korrekt avhending av produktet vil bidra til effektiv bruk av naturressurser. Du kan få mer informasjon om resirkulering av dette produktet ved å kontakte lokale myndigheter, avfallsadministrasjonen, et godkjent program eller husholdningens renovasjonsselskap, eller gå til www.canon-europe.com/weee, eller www.canon-europe.com/battery.

Vain Euroopan unionin sekä ETA:n (Norja, Islanti ja Liechtenstein) alueelle.

Nämä tunnukset osoittavat, että sähkö- ja elektroniikkalaiteromua koskeva direktiivi (SER-direktiivi, 2012/19/EU), paristoista ja akuista annettu direktiivi (2006/66/EY) sekä kansallinen lainsäädäntö kieltävät tuotteen hävittämisen talousjätteen mukana. Jos yllä olevan symbolin alapuolelle on paristodirektiivin mukaisesti painettu kemiallisen aineen tunnus, kyseinen paristo tai akku sisältää raskasmetalleja (Hg = elohopea, Cd = kadmium, Pb = lyijy) enemmän kuin paristodirektiivin salliman määrän. Tuote on vietävä asianmukaiseen keräyspisteeseen, esimerkiksi kodinkoneliikkeeseen uutta vastaavaa tuotetta ostettaessa tai viralliseen sähkö- ja elektroniikkalaiteromun tai paristojen ja akkujen keräyspisteeseen. Sähkö- ja elektroniikkalaiteromun virheellinen käsittely voi vahingoittaa ympäristöä ja ihmisten terveyttä, koska laitteet saattavat sisältää ympäristölle ja terveydelle haitallisia aineita. Tuotteen asianmukainen hävittäminen säästää myös luonnonvaroja. Jos haluat lisätietoja tämän tuotteen kierrätyksestä, ota yhteys kunnan jätehuoltoviranomaisiin tai käyttämäsi jätehuoltoyhtiöön tai käy osoitteessa www.canon-europe.com/weee, tai www.canon-europe.com/battery.

Endast för Europeiska unionen och EES (Norge, Island och Liechtenstein)

De här symbolerna visar att produkten inte får sorteras och slängas som hushållsavfall enligt WEEE-direktivet (2012/19/EU), batteridirektivet (2006/66/EG) och/eller nationell lagstiftning som implementerar dessa direktiv. Om en kemisk symbol förekommer under ovanstående symbol innebär detta enligt Batteridirektivet att en tungmetall (Hg = Kvicksilver, Cd = Kadmium, Pb = Bly) förekommer i batteriet eller ackumulatorn med en koncentration som överstiger tillämplig gräns som anges i Batteridirektivet. Produkten ska lämnas in på en avsedd insamlingsplats, t.ex. på en återvinningsstation auktoriserad att hantera elektrisk och elektronisk utrustning (EE-utrustning) samt batterier och ackumulatörer eller hos handlare som är auktoriserade att byta in varor då nya, motsvarande köps (en mot en). Olämplig hantering av avfall av den här typen kan ha negativ inverkan på miljön och människors hälsa på grund av de potentiellt farliga ämnen som kan återfinnas i elektrisk och elektronisk utrustning. Din medverkan till en korrekt avfallshantering av produkten bidrar till effektiv användning av naturresurserna. Om du vill ha mer information om var du kan lämna in den här produkten, kontakta ditt lokala kommunkontor, berörd myndighet eller företag för avfallshantering eller se www.canon-europe.com/weee, eller www.canon-europe.com/battery.

Pouze Evropská unie a EHP (Norsko, Island a Lichtenštejnsko)

Tento symbol znamená, že podle směrnice OEEZ (2012/19/EU), směrnice o bateriích (2006/66/ES) a/ nebo podle vnitrostátních právních prováděcích předpisů k těmto směrnici nemá být tento výrobek likvidován s odpadem z domácností. Je-li v souladu s požadavky směrnice o bateriích vytištěna pod výše uvedeným symbolem chemická značka, udává, že tato baterie nebo akumulátor obsahuje těžké kovy (Hg = rtuť, Cd = kadmium, Pb = olovo) v koncentraci vyšší, než je příslušná hodnota předepsaná směrnici. Tento výrobek má být vrácen do určeného sběrného místa, např. v rámci autorizovaného systému odběru jednoho výrobku za jeden nově prodaný podobný výrobek, nebo do autorizovaného sběrného místa pro recyklaci odpadních elektrických a elektronických zařízení (OEEZ), baterií a akumulátorů. Nevhodné nakládání s tímto druhem odpadu by mohlo mít negativní dopad na životní prostředí a lidské zdraví, protože elektrická a elektronická zařízení zpravidla obsahují potenciálně nebezpečné látky. Vaše spolupráce na správné likvidaci tohoto výrobku napomůže efektivnímu využívání přírodních zdrojů. Chcete-li získat podrobné informace týkající se recyklace tohoto výrobku, obraťte se prosím na místní úřad, orgán pro nakládání s odpady, schválený systém nakládání s odpady či společnost zajišťující likvidaci domovního odpadu, nebo navštivte webové stránky www.canon-europe.com/weee nebo www.canon-europe.com/battery.

Csak az Európai Unió és az EGT (Norvégia, Izland és Liechtenstein) országaiban

Ezek a szimbólumok azt jelzik, hogy a termék hulladékkezelése a háztartási hulladéktól különválasztva, az elektromos és elektronikus berendezések hulladékairól (WEEE) szóló (2012/19/EU) irányelvnek és az elemekről és akkumulátorokról, valamint a hulladék elemekről és akkumulátorokról szóló (2006/66/EK) irányelvnek megfelelően és/vagy ezen irányelveknek megfelelő helyi előírások szerint történik.

Amennyiben a fent feltüntetett szimbólum alatt egy vegyjel is szerepel, az elemekről és akkumulátorokról szóló irányelvben foglaltak értelmében ez azt jelzi, hogy az elem vagy az akkumulátor az irányelvben meghatározott határértéknél nagyobb mennyiségben tartalmaz nehézfémet (Hg = higany, Cd = kadmium, Pb = ólom). E terméket az arra kijelölt gyűjtőhelyre kell juttatni – pl. hasonló termék vásárlásakor a régi becserélésére vonatkozó hivatalos program keretében, vagy az elektromos és elektronikus berendezések (EEE) hulladékainak gyűjtésére, valamint a hulladék elemek és hulladék akkumulátorok gyűjtésére kijelölt hivatalos gyűjtőhelyre. Az ilyen jellegű hulladékok nem előírászerű kezelése az elektromos és elektronikus berendezésekhez (EEE) általánosan kapcsolható potenciálisan veszélyes anyagok révén hatással lehet a környezetre és az egészségre. E termék megfelelő leselejtezésével Ön is hozzájárul a természeti források hatékony használatához. A termék újrahasznosítását illetően informálódjon a helyi polgármesteri hivatalnál, a helyi közterület-fenntartó vállalatnál, a hivatalos hulladéklerakó telephelyen vagy a háztartási hulladék begyűjtését végző szolgáltatónál, illetve látogasson el a www.canon-europe.com/weee, vagy www.canon-europe.com/battery internetes oldalra.

Tylko dla krajów Unii Europejskiej oraz EOG (Norwegia, Islandia i Liechtenstein)

Te symbole oznaczają, że produkt nie należy wyrzucać razem z odpadami gospodarstwa domowego, zgodnie z dyrektywą WEEE w sprawie zużytego sprzętu elektrycznego i elektronicznego (2012/19/UE) lub dyrektywą w sprawie baterii (2006/66/WE) bądź przepisami krajowymi wdrażającymi te dyrektywy.

Jeśli pod powyższym symbolem znajduje się symbol chemiczny, zgodnie z dyrektywą w sprawie baterii oznacza to, że bateria lub akumulator zawiera metal ciężki (Hg = rtęć, Cd = kadm, Pb = ołów) w stężeniu przekraczającym odpowiedni poziom określony w dyrektywie w sprawie baterii.

Użytkownicy baterii i akumulatorów mają obowiązek korzystać z dostępnego programu zwrotu, recyklingu i utylizacji baterii oraz akumulatorów. Niewłaściwe postępowanie z tego typu odpadami może mieć wpływ na środowisko i zdrowie ludzi ze względu na substancje potencjalnie niebezpieczne, związane ze zużytym sprzętem elektrycznym i elektronicznym. Państwa współpraca w zakresie właściwej utylizacji tego produktu przyczyni się do efektywnego wykorzystania zasobów naturalnych. W celu uzyskania informacji o sposobie recyklingu tego produktu prosimy o kontakt z właściwym urzędem miejskim lub zakładem gospodarki komunalnej bądź zapraszamy na stronę www.canon-europe.com/weee, lub www.canon-europe.com/battery.

Platí len pre štáty Európskej únie a EHP (Nórsko, Island a Lichtenštajnsko)

Tieto symboly označujú, že podľa Smernice o odpade z elektrických a elektronických zariadení (OEEZ) 2012/19/EÚ, Smernice o batériách (2006/66/ES) a podľa platnej legislatívy Slovenskej republiky sa tento produkt nesmie likvidovať spolu s komunálnym odpadom. Ak je chemická značka vytlačena pod vyššie uvedeným symbolom, znamená to, že táto batéria alebo akumulátor obsahuje ťažký kov (Hg = ortuť, Cd = kadmium, Pb = olovo) v koncentrácii vyššej, ako je príslušná povolená hodnota stanovená v Smernici o batériách. Produkt je potrebné odovzdať do určenej zberne, napr. prostredníctvom výmeny za kúpu nového podobného produktu, alebo na autorizované zberné miesto, ktoré spracúva odpad z elektrických a elektronických zariadení (EEZ), batérií a akumulátorov. Nesprávna manipulácia s takýmto typom odpadu môže mať negatívny vplyv na životné prostredie a ľudské zdravie, pretože elektrické a elektronické zariadenia obsahujú potenciálne nebezpečné látky. Spoluprácou na správnej likvidácii tohto produktu prispějete k účinnému využívaniu prírodných zdrojov. Ďalšie informácie o recyklácii tohto produktu získate od miestneho úradu, úradu životného prostredia, zo schváleného plánu OEEZ alebo od spoločnosti, ktorá zaisťuje likvidáciu komunálneho odpadu. Viac informácií nájdete aj na webovej stránke: www.canon-europe.com/weee, alebo www.canon-europe.com/battery.

Üksnes Euroopa Liit ja EMP (Norra, Island ja Liechtenstein)

Antud sümbolid viitavad sellele, et vastavalt elektri- ja elektroonikaseadmete jäätmeid käsitlevale direktiivile (2012/19/EL), patareisid ja akusid ning patarei- ja akujäätmeid käsitlevale direktiivile (2006/66/EÜ) ja/või nimetatud direktiive rakendavatele riiklikele õigusaktidele ei või seda toodet koos olmejäätmetega ära visata. Kui keemiline sümbol on trükitud eespool toodud sümboli alla, siis tähendab see, et antud patareis või akus leiduva raskemetalli (Hg = elavhõbe, Cd = kaadmium, Pb = plii) kontsentratsioonitase on kõrgem kui patareisid ja akusid ning patarei- ja akujäätmeid käsitlevas direktiivis sätestatud piirmäär. Antud tootest tekkinud jäätmed tuleb anda vastavasse kogumispunkti, nt müügipunkti, mis on volitatud üks ühe vastu vahetama, kui ostate uue sarnase toote, või vastavasse elektri- ja elektroonikaseadmete jäätmete ning patareide ja akude ümbertöötlemiseks mõeldud kogumispunkti. Antud liiki jäätmete vale käitlemine võib kahjustada keskkonda ja inimeste tervist elektri- ja elektroonikajäätmetes tavaliselt leiduvate potentsiaalselt ohtlike ainete tõttu. Antud tootest tekkinud jäätmete nõuetekohase kõrvaldamisega aitate kasutada loodusvarasid efektiivselt. Täiendava teabe saamiseks elektri- ja elektroonikaseadmetest tekkinud jäätmete ning patarei- ja akujäätmete tagastamise ja ümbertöötlemise kohta võtke ühendust kohaliku omavalitsusega, asjakohase valitsusasutusega, asjakohase tootjavastutusorganisatsiooniga või olmejäätmete käitlejaga. Lisateavet leitate ka Interneti-leheküljelt www.canon-europe.com/weee või www.canon-europe.com/battery.

Tikai Eiropas Savienībai un EEZ (Norvēģijai, Islandei un Lihtenšteinai)

Šie simboli norāda, ka atbilstoši ES Direktīvai (2012/19/ES) par elektrisko un elektronisko iekārtu atkritumiem (EEIA), Direktīvai (2006/66/EK) par baterijām un akumulatoriem, un akumulatoru atkritumiem, ar ko atceļ Direktīvu 91/157/EEK, un vietējiem tiesību aktiem šo izstrādājumu nedrīkst izmest kopā ar sadzīves atkritumiem. Ja zem iepriekš norādītā simbola ir uzdrukāts ķīmiskais simbols, saskaņā ar direktīvu par baterijām un akumulatoriem tas nozīmē, ka šīs baterijas vai akumulatori satur smagos metālus (Hg = dzīvsudrabs, Cd = kadmījs, Pb = svins) un to koncentrācijas līmenis pārsniedz direktīvā par baterijām un akumulatoriem minēto piemērojamo sliekšni. Šis izstrādājums ir jānodod piemērotā savākšanas vietā, piemēram, apstiprinātā veikalā, kur iegādājaties līdzīgu jaunu produktu un atstājat veco, vai apstiprinātā vietā izlietotu elektrisko un elektronisko iekārtu un bateriju un akumulatoru pārstrādei. Nepareiza šāda veida atkritumu apsaimniekošana var apdraudēt vidi un cilvēka veselību tādu iespējami bīstamu vielu dēļ, kas parasti ir elektriskajās un elektroniskajās iekārtās. Jūsu atbalsts pareizā šāda veida atkritumu apsaimniekošanā sekmēs efektīvu dabas resursu izmantošanu. Lai saņemtu pilnīgāku informāciju par šāda veida izstrādājumu nodošanu otrreizējai pārstrādei, sazinieties ar vietējo pašvaldību, atkritumu savākšanas atbildīgo dienestu, pilnvaroto organizāciju vai iestādi, kas veic sadzīves atkritumu apsaimniekošanu, vai apmeklējiet tīmekļa vietni www.canon-europe.com/weee, vai www.canon-europe.com/battery.

Tik Europos Sąjungai ir EEE (Norvegijai, Islandijai ir Lichtenšteinui)

Šie simbolie reiškia, kad šio gaminių negalima išmesti į buitines atliekas, kaip reikalaujama WEEE Direktyvoje (2012/19/ES) ir Baterijų direktyvoje (2006/66/EB) ir (ar) jūsų šalies nacionaliniuose įstatymuose, kuriais šios Direktyvos yra įgyvendinamos. Jeigu cheminio ženklo simbolis yra nurodytas žemiau šio ženklo, tai reiškia, kad vadovaujantis Baterijų direktyvą, baterijų ar akumuliatorių sudėtyje yra sunkiųjų metalų (Hg = gyvsidabris, Cd = kadmio, Pb = švino), kurių koncentracija viršija Baterijų direktyvoje nurodytas leistinas ribas. Šį gaminį reikia pristatyti į specialųjį surinkimo punktą, pavyzdžiui, mainais, kai jūs perkate naują panašų gaminį, arba į specialiąją surinkimo vietą, kurioje perdirbamos elektrinės ir elektroninės įrangos atliekos bei naudotos baterijos ir akumuliatoriai. Dėl netinkamo šio tipo atliekų tvarkymo gali nukentėti aplinka ir iškilti grėsmė žmogaus sveikatai dėl galimai kenksmingų medžiagų, iš esmės susijusių su elektrine ir elektronine įranga. Bendradarbiaudami ir teisingai utilizuodami šiuos gaminius, jūs padėsite efektyviai naudoti gamtinius išteklius. Daugiau informacijos apie gaminių perdirbimą jums gali suteikti vietinis biuras, atliekų tvarkymo bendrovė, sertifikuoti organai ar buitinių atliekų surinkimo įmonės. Taip pat siūloma apsilankyti interneto svetainėje www.canon-europe.com/weee, arba www.canon-europe.com/battery.

Samo za Evropsko unijo in EGP (Norveška, Islandija in Lihtenštajn)

Ti simboli pomenijo, da tega izdelka skladno z Direktivo OEEO (2012/19/EU), Direktivo 2006/66/ES in/ali nacionalno zakonodajo, ki uvaja ti direktivi, ne smete odlagati z nesortiranimi gospodinjskimi odpadki. Če je pod zgoraj prikazanim simbolom natisnjen kemijski simbol, to v skladu z Direktivo pomeni, da je v tej bateriji ali akumulatorju prisotna težka kovina (Hg = živo srebro, Cd = kadmij, Pb = svinec), in sicer v koncentraciji, ki je nad relevantno mejno vrednostjo, določeno v Direktivi. Ta izdelek je potrebno odnesti na izbrano zbirno mesto, t. j. pooblaščenega trgovino, kjer ob nakupu novega (podobnega) izdelka vrnete starega, ali na pooblaščenega zbirno mesto za ponovno uporabo odpadne električne in elektronske opreme (EEO) ter baterij in akumulatorjev. Neustrezno ravnanje s to vrsto odpadkov lahko negativno vpliva na okolje in človeško zdravje zaradi potencialno nevarnih snovi, ki so pogosto povezane z EEO. Vaše sodelovanje pri pravilnem odlaganju tega izdelka predstavlja pomemben prispevek k smotni izrabi naravnih virov. Za več informacij o ponovni uporabi tega izdelka se obrnite na lokalni mestni urad, pristojno službo za odpadke, predstavnika pooblaščenega programa za obdelavo odpadkov ali na lokalno komunalno. Lahko pa tudi obiščete našo spletno stran www.canon-europe.com/weee, ali www.canon-europe.com/battery.

Само за Европейския съюз и ЕИП (Норвегия, Islandия и Лихтенщайн)

Тези символи показват, че този продукт не трябва да се изхвърля заедно с битовите отпадъци съгласно Директивата за ИУЕЕО (2012/19/ЕС), Директивата за батерии (2006/66/ЕО) и/или Вашето национално законодателство, прилагащо тези Директиви. Ако под показания горе символ е отпечатан символ за химически елемент, съгласно разпоредбите на Директивата за батерии, този втори символ означава наличието на тежък метал (Hg = живак, Cd = кадмий, Pb = олово) в батерията или акумулатора в концентрация над указаната граница за съответния елемент в Директивата. Този продукт трябва да бъде предаден в предназначен за целта пункт за събиране, например на база размяна, когато купувате нов подобен продукт, или в одобрен събирателен пункт за рециклиране на излязло от употреба електрическо и електронно оборудване (ИУЕЕО), батерии и акумулатори. Неправилното третиране на този тип отпадъци може да доведе до евентуални отрицателни последици за околната среда и човешкото здраве поради потенциално опасните вещества, които обикновено са свързани с ЕЕО. В същото време Вашето съдействие за правилното изхвърляне на този продукт ще допринесе за ефективното използване на природните ресурси. За повече информация относно това къде можете да предадете за рециклиране на този продукт, моля свържете се с Вашите местни власти, с органа, отговорен за отпадъците, с одобрената система за ИУЕЕО или с Вашата местна служба за битови отпадъци, или посетете www.canon-europe.com/weee, или www.canon-europe.com/battery.

Doar pentru Uniunea Europeană și EEA (Norvegia, Islanda și Liechtenstein)

Aceste simboluri indică faptul că acest produs nu trebuie aruncat împreună cu deșeurile menajere, în conformitate cu Directiva DEEE (2012/19/UE), Directiva referitoare la baterii (2006/66/CE) și/sau legile dvs. naționale ce implementează aceste Directive. Dacă un simbol chimic este imprimat sub simbolul de mai sus, în conformitate cu Directiva referitoare la baterii, acest simbol indică prezența în baterie sau acumulator a unui metal greu (Hg = Mercur, Cd = Cadmiu, Pb = Plumb) într-o concentrație mai mare decât pragul admis specificat în Directiva referitoare la baterii. Acest produs trebuie înmănat punctului de colectare adecvat, ex: printr-un schimb autorizat unu la unu atunci când cumpărați un produs nou similar sau la un loc de colectare autorizat pentru reciclarea reziduurilor de echipament electric și electronic (EEE) și baterii și acumulatori. Administrarea neadecvată a acestui tip de deșeuri, ar putea avea un impact asupra mediului și asupra sănătății umane datorită substanțelor cu potențial de risc care sunt în general asociate cu EEE. Cooperarea dvs. în direcția reciclării corecte a acestui produs va contribui la o utilizare eficientă a resurselor naturale. Pentru mai multe informații despre reciclarea acestui produs, vă rugăm să contactați biroul dvs. local, autoritățile responsabile cu deșeurile, schema aprobată sau serviciul dvs. responsabil cu deșeurile menajere sau vizitați-ne la www.canon-europe.com/weee, sau www.canon-europe.com/battery.

Samo za Europsku uniju i EEA (Norveška, Island i Lihtenštajn)

Oznaka pokazuje da se ovaj proizvod ne smije odlagati s komunalnim i ostalim vrstama otpada, u skladu s direktivom WEEE (2012/19/EC), Direktivom o baterijama (2006/66/EC) i Pravilnikom o gospodarenju otpadnim baterijama i akumulatorima te Pravilnikom o gospodarenju otpadnim električnim i elektroničkim uređajima i opremom. Ako je ispod prethodno prikazane oznake otisnut kemijski simbol, u skladu s Direktivom o baterijama, to znači da se u ovoj bateriji ili akumulatoru nalazi teški metal (Hg = živa, Cd = kadmij, Pb = olovo) i da je njegova koncentracija iznad razine propisane u Direktivi o baterijama. Ovaj bi proizvod trebalo predati ovlaštenom skupljaču EE otpada ili prodavatelju koji je dužan preuzeti otpadni proizvod po sistemu jedan za jedan, ukoliko isti odgovara vrsti te je obavljao primarne funkcije kao i isporučena EE oprema. Otpadne baterije i akumulatori predaju se ovlaštenom skupljaču otpadnih baterija ili akumulatora ili prodavatelju bez naknade i obveze kupnje za krajnjeg korisnika. Neodgovarajuće rukovanje ovom vrstom otpada može utjecati na okoliš i ljudsko zdravlje zbog potencijalno opasnih supstanci koje se najčešće nalaze na takvim mjestima. Vaša suradnja u pravilnom zbrinjavanju ovog proizvoda pridonijet će djelotvornom iskorištavanju prirodnih resursa. Dodatne informacije o recikliranju ovog proizvoda zatražite od svog lokalnog gradskog ureda, službe za zbrinjavanje otpada, odobrenog programa ili komunalne službe za uklanjanje otpada ili pak na stranicama www.canon-europe.com/weee ili www.canon-europe.com/battery.

Korisnici u Srbiji

Ovaj simbol označava da ovaj proizvod ne sme da se odlaže sa ostalim kućnim otpadom, u skladu sa WEEE Direktivom (2012/19/EU), Direktivom o baterijama (2006/66/EC) i nacionalnim zakonima. Ukoliko je ispod gore navedenog simbola odštampan hemijski simbol, u skladu sa Direktivom o baterijama, ovaj simbol označava da su u ovoj bateriji ili akumulatoru prisutni teški metali (Hg – živa, Cd – kadmijum, Pb - olovo) u koncentracijama koje premašuju prihvatljivi prag naveden u Direktivi o baterijama. Ovaj proizvod treba predati određenom centru za prikupljanje, npr. po principu „jedan-za-jedan“ kada kupujete sličan novi proizvod, ili ovlašćenom centru za prikupljanje za reciklažu istrošene električne i elektronske opreme (EEE), baterija i akumulatora. Nepravilno rukovanje ovom vrstom otpada može imati negativne posledice po životnu sredinu i ljudsko zdravlje usled potencijalno opasnih materijala koji se uglavnom vezuju za EEE. Vaša saradnja na ispravnom odlaganju ovog proizvoda će doprineti efikasnom korišćenju prirodnih resursa. Više informacija o tome kako možete da recikirate ovaj proizvod potražite od lokalnih gradskih vlasti, komunalne službe, odobrenog plana reciklaže ili servisa za odlaganje kućnog otpada, ili posetite stranicu www.canon-europe.com/weee, ili www.canon-europe.com/battery.

Handling Precautions

- **Canceling Print Jobs**
- **Legal Restrictions on Scanning/Copying**
- **Printer Handling Precautions**
- **Transporting Your Printer**
- **When Repairing, Lending, or Disposing of the Printer**
- **Keeping Print Quality High**

Legal Restrictions on Scanning/Copying

Scanning, printing, copying, or modifying copies of the following may be punishable under law.

This list is non-exhaustive. When in doubt, check with a local legal representative.

- Paper money
- Money orders
- Certificates of deposit
- Postage stamps (canceled or uncanceled)
- Identification badges or insignia
- Selective service or draft papers
- Checks or drafts issued by governmental agencies
- Motor vehicle licenses and certificates of title
- Traveler's checks
- Food stamps
- Passports
- Immigration papers
- Internal revenue stamps (canceled or uncanceled)
- Bonds or other certificates of indebtedness
- Stock certificates
- Copyrighted works or works of art, without the owner's consent

Printer Handling Precautions

Be careful not to let anything get inside the document output slot. It may cause damage.

Transporting Your Printer

When relocating the printer for changing your living place, make sure of the following.

»» Important

- You cannot take ink out of ink tanks.
- Check if the tank cap is completely inserted.
- Prepare for transporting the printer with the print head attached. This allows the printer to automatically cap the print head, thus preventing it from drying.
- Do not remove the print head. Ink may leak.
- If ink stains the inside of the printer, wipe them using a soft cloth dampened with water.
- When transporting the printer, pack the printer in a plastic bag so that ink does not leak.
- Pack the printer in a sturdy box so that it is placed with its bottom facing down, using sufficient protective material to ensure safe transport.
- Do not tilt the printer. Ink may leak.
- When a shipping agent is handling transport of the printer, have its box marked "THIS SIDE UP" to keep the printer with its bottom facing down. Mark also with "FRAGILE" or "HANDLE WITH CARE".

- Please handle with care and ensure the box remains flat and NOT turned upside down or on its side, as the printer may be damaged and ink in the printer may leak.

1. Select  (Setup) on HOME screen.

➔ [Using Touch Screen](#)

The setup menu screen will appear.

2. Select  **Maintenance**.

The **Maintenance** screen will appear.

3. Select Transport mode.

4. Confirm the message, then select **Yes.**

The mode is shifted to the transfer mode.

When it is completed, the power is turned off automatically.

5. Check that **ON lamp is off and [unplug power cord](#).**

»» Important

- Do not unplug the printer while the **ON** lamp is lit or flashing, as it may cause malfunction or damage to the printer, making the printer unable to print.

6. Retract paper output tray.

7. Retract paper support, then close the rear tray cover.

8. Unplug the printer cable from the computer and from the printer, then unplug the power cord from the printer.

9. Use adhesive tape to secure all the covers on the printer to keep them from opening during transportation. Then pack the printer in the plastic bag.

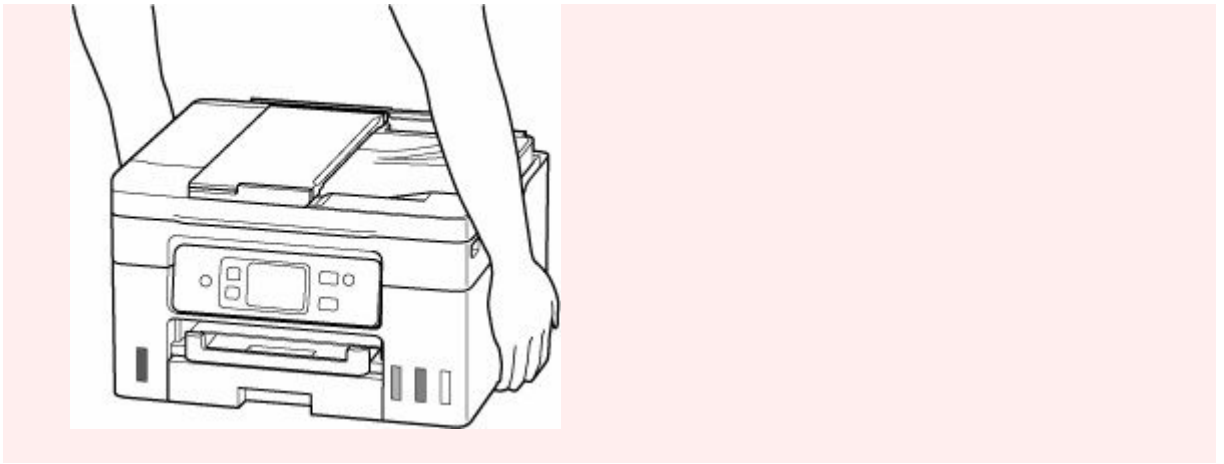

Close and seal the opening of the bag with an object such as tape so as not to leak ink.

10. Attach the protective material to the printer when packing the printer in the box.

»» Important

- Carry the printer without putting your hands on the cassette. If you hold the cassette when carrying, the cassette may come off from the printer.

When Repairing, Lending, or Disposing of the Printer

If you have entered personal data, passwords and/or other security settings on the printer, such information may be stored in the printer.

To keep your personal information safe, please be sure to reset all printer settings when sending the printer for repair, lending or transferring the printer to another person, or disposing of the printer.

➔ [Reset settings](#)

For printers with fax capabilities, user information and speed dial numbers can be backed up to a computer by utilizing the Speed Dial Utility2 software before resetting the printer or deleting data. Backed up data can be restored to the repaired printer or another Canon printer.

➔ [Registering Recipients Using Speed Dial Utility2 \(Windows\)](#)

➔ [Registering Recipients Using Speed Dial Utility2 \(macOS\)](#)

Keeping Print Quality High

The key to printing with the optimal printing quality is to prevent the print head from drying or clogging. Always observe the following rules for optimal printing quality.

▶▶▶ Note

- Depending on the type of paper, ink may blur if you trace the printed area with a highlight pen or paint-stick, or bleed if water or sweat comes in contact with the printed area.

Never unplug the power cord until the power is turned off!

If you press the **ON** button to turn off the power, the printer caps the print head (nozzles) automatically to prevent from drying. If you unplug the power cord from the wall outlet before the **ON** lamp is turned off, the print head will not be capped properly and this will cause drying or clogging.

When [unplugging the power cord](#), check that the **ON** lamp is not lit.

Print periodically!

Just as the tip of a felt pen becomes dry and unusable if it has not been used for a long time, even if it is capped, the print head too, may become dried or clogged if the printer has not been used for a long time. We recommend you to use the printer at least once a month.

Main Components and Their Use

- **Main Components**
- **Power Supply**
- **Using Touch Screen**

Main Components

- **Front View**
- **Rear View**
- **Inside View**
- **Operation Panel**

Front View

A: Paper Support

Extend to load paper in the rear tray.

B: Rear Tray Cover

Open to load paper in the rear tray.

C: Rear Tray

Two or more sheets of the same size and type of paper can be loaded at the same time, and fed automatically one sheet at a time.

- ➔ [Loading Photo Paper / Plain Paper in Rear Tray](#)
- ➔ [Loading Envelopes in Rear Tray](#)

D: Paper Guides

Align with both sides of the paper stack.

E: Cassette

Load A4, B5, A5, Letter-sized or Executive plain paper into the cassette, and insert it into the printer.

- ➔ [Loading Plain Paper in Cassette](#)

F: Paper Guides

Align with right/left/front sides of the paper stack.

G: Paper Output Tray

Printed paper is ejected. Pull out it before printing.

H: Operation Panel

Use to change the settings of the printer or to operate it.

- ➔ [Operation Panel](#)

I: ADF (Auto Document Feeder)

Load a document here. The documents loaded in the document tray are scanned automatically one sheet at a time.

➔ [Loading Documents in the ADF \(Auto Document Feeder\)](#)

J: Document Feeder Cover

Open when clearing jammed documents.

K: Document Tray

Open to load a document in the ADF. You can load two or more sheets of document of the same size and thickness. Load the document with the side you want to scan facing up.

L: Document Output Slot

Documents scanned from the ADF are delivered here.

M: Document Guide

Adjust this guide to match the width of document in the ADF.

N: Document Cover

Open to load an original on the platen.

O: Platen

Load an original here.

Rear View

A: USB Port

Plug in the USB cable to connect the printer with a computer.

B: Wired LAN Connector

Plug in the LAN cable to connect the printer to a LAN.

C: External Device Jack

Connect an external device such as telephone or answering device.

D: Telephone Line Jack

Connect the telephone line.

E: Power Cord Connector

Plug in the supplied power cord.

F: Transport Unit Cover

Detach when removing jammed paper.

G: Transport Unit

Open when removing jammed paper.

H: Rear Flat Tray

Load A4, B5, and letter-sized paperboard on this tray.

I: Paper Support

Pull out the rear flat tray toward you when loading paper on a rear flat tray.

J: Paper Guides

Align with both sides of the paper stack.

▶▶ Important

- Do not touch the metal casing.
- Do not plug in or unplug the USB cable or LAN cable while the printer is printing or scanning with the computer. This can cause trouble.

Inside View

A: Scanning Unit / Cover

Scans originals. Open to refill ink tanks and to remove jammed paper.

B: Tank Caps

Open to refill ink tanks.

C: Ink Tanks

The black ink tank is on the left, and the color ink tanks (cyan, magenta, and yellow) are on the right.

If any ink levels are low, refill the low tanks.

➔ [Refilling Ink Tanks](#)

D: Upper Limit Line

Indicates the maximum capacity of the ink.

E: Single Dot

Indicates the amount of ink required when replacing ink in print head.

F: Lower Limit Line

Indicates the lower limit of the sufficient amount of ink to print. Refill the ink tank before the amount of ink is below this line.

G: Ink Valve Lever

Operate when transporting a printer.

➔ [Repairing Your Printer](#)

H: Maintenance Cartridge

Absorbs ink used for cleaning.

➡ [Replacing the Maintenance Cartridge](#)

I: Print Head Holder

The print head is pre-installed.

Operation Panel

A: ON button

Turns the power on or off. Before turning on the power, make sure that the document cover is closed.

➔ [Turning the Printer On and Off](#)

B: ON lamp

Lights after flashing when the power is turned on.

C: HOME button

Used to display the HOME screen.

➔ [Using Touch Screen](#)

D: Touch Screen

Displays messages, menu items, and operating status. Touch the screen lightly with your finger to select a menu item or button.

➔ [Using Touch Screen](#)

E: Black button

Starts black & white copying, scanning, faxing, etc.

F: Color button

Starts color copying, scanning, faxing, etc.

G: Stop button

Cancels operation when print, copy, scan, or fax transmission/reception job is in progress.

H: Alarm lamp

Lights or flashes when an error occurs.

I: FAX Memory lamp

Lights when there are received or unsent documents stored in the printer's memory.

J: Back button

Returns to the previous screen.

Power Supply

- **Checking that Power Is On**
- **Turning the Printer On and Off**
- **Unplugging the Printer**

Checking that Power Is On

The **ON** lamp is lit when the printer is turned on.

Even if the touch screen is off, if the **ON** lamp is lit, the printer is on.

»» Note

- It may take a while for the printer to start printing immediately after you turn on the printer.
- The touch screen display will turn off if the printer is not operated for about 5 minutes. To restore the display, touch the touch screen. The display is also activated again when a fax is received or an original is printed from a computer.

Turning the Printer On and Off

Turning on the printer

Press the **ON** button to turn on the printer.

The **ON** lamp flashes and then remains lit.

➔ [Checking that Power Is On](#)

▶▶▶ Note

- It may take a while for the printer to start printing immediately after you turn on the printer.
- If an error message is displayed on the touch screen, see [When Error Occurred](#).
- You can set the printer to automatically turn on when a print or scan operation is performed from a computer connected by USB cable or via network. This feature is set to off by default.

From the printer

➔ [ECO settings](#)

From the computer

– For Windows:

➔ [Managing the Printer Power](#)

– For macOS:

➔ [Managing the Printer Power](#)

Turning off the printer

Press the **ON** button to turn off the printer.

When the **ON** lamp stops flashing, the printer is turned off.

►► Important

- When you [unplug the power cord](#) after turning off the printer, be sure to confirm that the **ON** lamp is off.

►► Note

- You can set the printer to automatically turn off when no operations are performed or no print jobs are sent to the printer for a certain interval. This feature is set to on by default.

Unplugging the Printer

To unplug the power cord, follow the procedure below.

▶▶▶ Important

- When you unplug the power cord, press the **ON** button, then confirm that the **ON** lamp is off. Unplugging the power cord while the **ON** lamp is lit or flashing may cause drying or clogging of the print head and print quality may be reduced.

1. Press the **ON** button to turn the printer off.

2. Confirm that the **ON** lamp is off.

3. Unplug the power cord.

The specification of the power cord differs depending on the country or region of use.

Using Touch Screen

The HOME screen on the touch screen appears when the printer is turned on.

Touch the HOME screen on the touch screen with your finger tip to select menus for copying, scanning, and other functions.

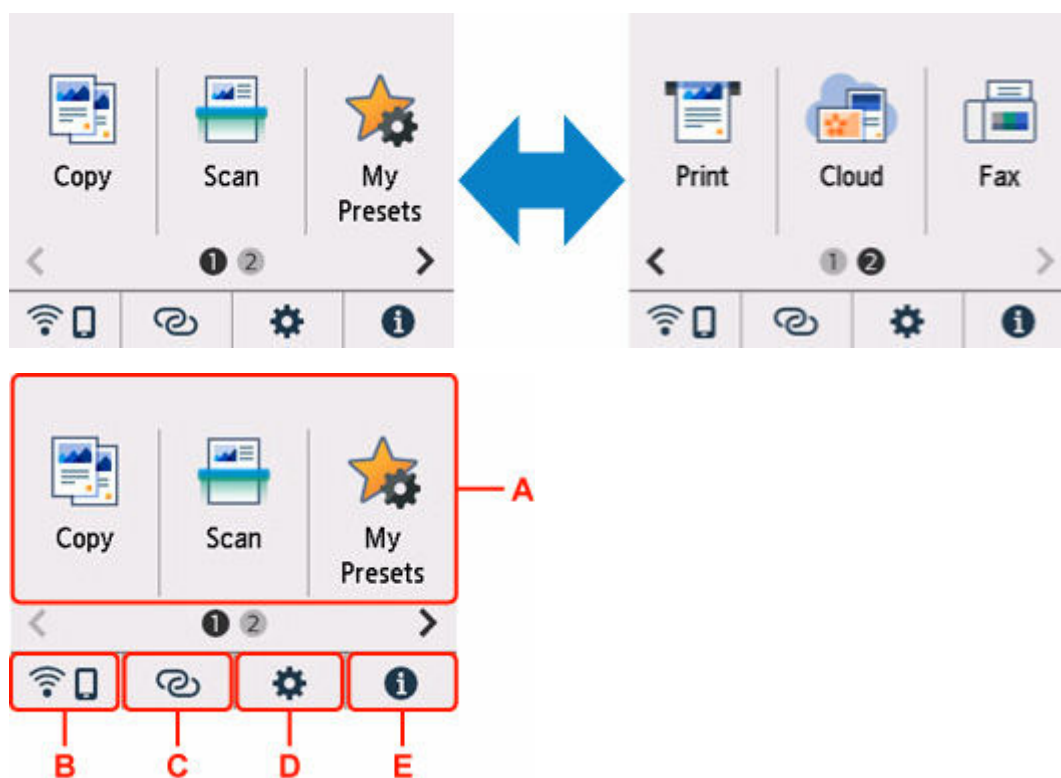

➔ [HOME Screen](#)

➔ [Basic Operation of the touch screen](#)

HOME Screen

The HOME screen consists of the two screens.

The screen can be switched by flicking left or right.

A: Basic menu

Select to copy or scan using the operation panel.

B: Network

Displays the current network status. Select to display the basic network information or to change the network settings.

The icon differs depending on the network of use or the network status.

Wi-Fi is enabled and the printer is connected to the wireless router.

▶▶▶ Note

- Depending on the signal state, the icon will change.

(Signal strength: 81 % or more): You can use the printer over Wi-Fi without any problems.

(Signal strength: 51 % or more): The problem such as the printer cannot print may occur according to the network status. We recommend placing the printer near the wireless router.

(Signal strength: 50 % or less): The problem such as the printer cannot print may occur. Place the printer near the wireless router.

Wi-Fi is enabled but the printer is not connected to the wireless router.

Wireless Direct is enabled.

Network is disabled.

C: Wireless connect

Select to connect the printer to a smartphone/tablet over Wi-Fi through Easy wireless connect.

Tap to display a confirmation screen for starting a connection.

➔ Easy wireless connect

The printer has been already put into the standby mode for easy wireless connect and smartphone

when a  is displayed.

D: Setup

Displays the printer's setting menus or the maintenance menus.

(NEW) appears when there is an information from PIXMA/MAXIFY Cloud Link.

➔ Using PIXMA/MAXIFY Cloud Link

E: Hint

Displays quick guides about such procedures as loading paper and troubleshooting and such information as estimated ink level and system information.

If you set **Notification settings** to Enable,  (NEW) is displayed when notification is sent to Canon.

➔ [Notification settings](#)

▶▶▶ Note

- For details on how to change settings, refer to [Changing Settings from Operation Panel](#).

Basic Operation of the touch screen

Touch the touch screen lightly with your finger tip or move your finger to access various functions or settings.

▶▶▶ Important

- When operating the touch screen, make sure to avoid the followings, which may cause the printer to malfunction or damage the printer.
 - Strongly pressing the touch screen.
 - Pressing the touch screen with other than your finger (especially with sharpened tips, such as on ballpoint pens, pencils, or nails).
 - Touching the touch screen with wet or dirty hands.
 - Placing any objects on the touch screen.
- Do not attach a protective sheet on the touch screen. Removing it may damage the touch screen.

Tap

Touch lightly with your finger tip and immediately release.

Use to select an item or photo on the screen.

Touch

Touch lightly with your finger tip.

To move forward (or go back) menus or photos continuously, keep touching the forward (or back) mark.

Flick

Flick your finger on the screen up, down, left, or right.

Use to switch menus or move forward or backward through photos.

Drag

While lightly touching the screen, move your finger up, down, left, or right.

Use to view lists of items or move sliders.

Changing Settings

- **Changing Printer Settings from Your Computer (Windows)**
- **Changing Printer Settings from Your Computer (macOS)**
- **Changing Settings from Operation Panel**
- **Handling Printer Configuration Using the Web Browser**

Changing Printer Settings from Your Computer (Windows)

- **Changing the Print Options**
- **Managing the Printer Power**
- **Changing the Printer Operation Mode**

Changing the Print Options

You can change the detailed printer driver settings for print data that is sent from an application software.

Check this check box if part of the image data is cut off, the paper source during printing differs from the driver settings, or printing fails.

1. Open the [printer driver setup window](#)
2. Click **Print Options...** on the **Page Setup** tab

The **Print Options** dialog box opens.

3. Change the individual settings

If necessary, change the setting of each item, and then click **OK**.

The **Page Setup** tab is displayed again.

Managing the Printer Power

This function allows you to manage the printer power from the Canon IJ Printer Assistant Tool.

Power Off

The **Power Off** function turns off the printer. When you use this function, you will not be able to turn the printer on from the Canon IJ Printer Assistant Tool.

1. Open Canon IJ Printer Assistant Tool

2. Perform power off

Click **Power Off**. When the confirmation message appears, click **OK**.

The printer power switches off.

Important

- You cannot receive faxes when the printer is switched off.

Auto Power

Auto Power allows you to set **Auto Power On** and **Auto Power Off**.

The **Auto Power On** function automatically turns on the printer when data is received.

The **Auto Power Off** function automatically turns off the printer when there are no operations from the printer driver or the printer for a specified period of time.

1. Open the Canon IJ Printer Assistant Tool

2. Check that the printer is on and then click **Auto Power**

The **Auto Power Settings** dialog box will open.

Note

- If the printer is off or if communication between the printer and the computer is disabled, an error message may appear because the computer cannot collect the printer status. If this happens, click **OK** to display the most recent settings specified on your computer.

3. If necessary, complete the following settings:

Auto Power On

Select the auto-power on setting.

Select **Disable** to prevent the auto-power on feature from functioning.

Check that the printer is on, and then click **OK** to change the printer settings.

Select **Enable** to turn the printer on automatically when print data is sent to it.

Auto Power Off

Specify the time from the list. When this time lapses without any operations from the printer driver or the printer, the printer is turned off automatically.

4. Apply the settings

Click **OK**. When the confirmation message appears, click **OK**.

The setting is enabled after this. When you want to disable this function, select **Disable** from the list according to the same procedure.

▶▶ Note

- When the printer is turned off, the Canon IJ Status Monitor message varies depending on the **Auto Power On** setting.
When the setting is **Enable**, "Printer is standing by" is displayed. When the setting is **Disable**, "Printer is offline" is displayed.

▶▶ Important

- When you use the printer by connecting it to a telephone line via a modular cable, you can set **Auto Power Off** but the power will not be turned off automatically.

Changing the Printer Operation Mode

If necessary, switch between various modes of printer operation.

If you want to change printer settings, open one of the following two Custom Settings Tab, and configure settings.

- [Custom Settings in the Maintenance Tab](#)
- [Custom Settings in Canon IJ Printer Assistant Tool](#)

For functions related to print settings, go to **Custom Settings** in the **Maintenance** Tab. For other settings, go to **Custom Settings** in Canon IJ Printer Assistant Tool.

Custom Settings in the Maintenance Tab

1. Open the **Maintenance** Tab
2. Check that the printer power is on, and click **Custom Settings**

The [Custom Settings dialog box](#) opens.

▶▶▶ Note

- If the printer is off or if communication between the printer and the computer is disabled, an error message may appear because the computer cannot collect the printer status. If this happens, click **OK** to display the most recent settings specified on your computer.

3. Configure settings

If necessary, switch between various modes of printer operation.

4. Apply the settings

Click **OK** and when the confirmation message appears, click **OK**.

The printer operates with the modified settings hereafter.

Custom Settings in Canon IJ Printer Assistant Tool

1. Open the Canon IJ Printer Assistant Tool
2. Check that the printer is on and then click **Custom Settings**

The **Custom Settings** dialog box opens.

▶▶▶ Note

- If the printer is off or if communication between the printer and the computer is disabled, an error message may appear because the computer cannot collect the printer status. If this happens, click **OK** to display the most recent settings specified on your computer.

3. Configure settings

If necessary, switch between various modes of printer operation.

4. Apply the settings

Click **OK** and when the confirmation message appears, click **OK**.

The printer operates with the modified settings hereafter.

Changing Printer Settings from Your Computer (macOS)

- **Managing the Printer Power**
- **Changing the Printer Operation Mode**

Managing the Printer Power

Printer power supply is operated from Remote UI.

Power control settings

Power control settings allow you to set Auto power off and Auto power on.

Auto power off is the function wherein the printer automatically turns itself off, when data is not sent or the printer remains inactive for a certain period.

The Auto power on function automatically turns on the printer when data is received.

1. Selecting **Printer settings** from [Remote UI](#)
2. Click **Power control settings**
3. Select **Use auto power control**, and then click **OK**
4. Check the displayed message and click **OK**
5. Complete the following settings:

Auto power off

Specify the time from the list. Printer automatically turns itself off, when data is not sent within the specified time or the printer has remained inactive.

Auto power on

When you check this check box, the printer automatically turns itself on when data is sent.

6. Apply the settings

Click **OK**.

The printer will operate with the changed settings hereafter.

Changing the Printer Operation Mode

If necessary, switch between various modes of printer operation.

1. Check whether the printer is on and select **Printer settings** from [Remote UI](#)

2. If necessary, complete the following settings:

Print settings - Prevent paper abrasion

The printer can increase the gap between the print head and the paper during high-density printing to prevent paper abrasion.

Check this check box to prevent paper abrasion.

Custom settings - Detect paper setting mismatch

If the check box is deselected, at the time of printing from PC, you can continue to print without the message display even if the paper settings set in the Print dialog differs from the paper information registered to the printer.

Ink drying wait time

You can set the length of the printer rest time until printing of the next page begins. The wait time becomes longer as the value set in the list increases, and shorter as the value decreases.

If the paper gets stained because the next page is ejected before the ink on the printed page dries, increase the ink drying wait time.

3. Apply the settings

Click **OK**.

The printer operates with the modified settings hereafter.

Changing Settings from Operation Panel

- **Job management**
- **Registering Favorite Settings (My Presets)**
- **Checking the Total Number of Uses of Printer**

Changing Settings from Operation Panel

This section describes the procedure to change the settings, taking the steps to specify prevent abrasion as an example.

1. [Check that printer is turned on.](#)

2. Select (Setup) on the HOME screen.

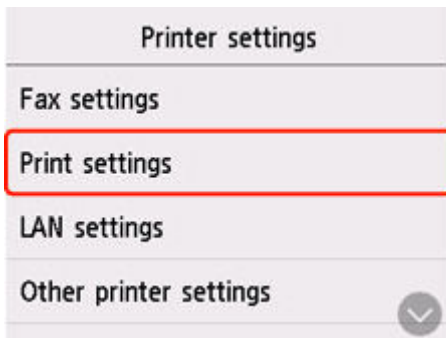

➔ [Using Touch Screen](#)

3. Select **Printer settings**.

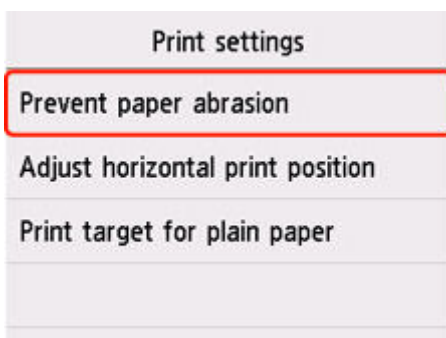

The **Printer settings** screen is displayed.

4. Select a setting item to adjust.

The setting screen for the selected item is displayed.

5. Select a setting item.

6. Select a setting to specify.

For more on setting items on the operation panel:

➔ [Setting Items on Operation Panel](#)

Setting Items on Operation Panel

▶▶▶ Note

- The administrator password may be required to change the settings of some setting items.

- ➔ [Firmware update](#)
- ➔ [Administrator password settings](#)
- ➔ [User management settings](#)
- ➔ [Reset settings](#)
- ➔ [System information](#)
- ➔ [Job management](#)
- ➔ [Checking the Total Number of Uses of Printer](#)

Fax settings

Select this setting item from **Printer settings** in  (Setup).

Important

- The administrator password may be required to change the settings.

- ➔ [Fax user settings](#)
- ➔ [Advanced fax settings](#)
- ➔ [Auto print settings](#)
- ➔ [Auto save setting](#)
- ➔ [Security control](#)
- ➔ [Easy setup](#)

Note

- Before changing the settings, you can confirm the current settings by printing USER'S DATA LIST.
 - ➔ Summary of Reports and Lists

Fax user settings

• User information settings

Registers your name and fax/telephone number printed on sent faxes.

- ➔ [Registering User Information](#)

• Telephone line type (Country or region other than China)

Selects the telephone line type setting for the printer.

- ➔ [Setting Telephone Line Type](#)

Note

- This setting may not be available depending on the country or region.

• Telephone line auto selection (China only)

If you select **ON**, the telephone line type is selected automatically.

If you select **OFF**, you can select the telephone line type manually.

- ➔ [Setting Telephone Line Type](#)

Advanced fax settings

• Error reduction setting (VoIP)

If you select **Reduce**, it may be possible to reduce the incidence of communication errors when connecting to internet line such as IP phone.

▶▶▶ Note

- When **Reduce** is selected, V.34 (Super G3) can not be used. Communication time generally becomes longer than when communicating with V.34 (super G3).
- This setting has priority even if you select **33600 bps** for **TX start speed** or **RX start speed**.

• **Auto redial**

Enables/disables automatic redialing.

If you select **ON**, you can specify the maximum number of redial attempts and the length of time the printer waits between redial attempts.

• **Dial tone detect**

Avoids mistransmission when reception and transmission occur at the same time.

If you select **ON**, the printer transmits the fax after confirming the dial tone.

▶▶▶ Note

- This setting may not be available depending on the country or region.

• **Pause time settings**

Sets the length of pause time for each when you enter "P" (pause).

• **TTI position**

Selects the printing position of the sender information (outside or inside the image area).

• **Remote RX**

Enables/disables remote reception.

If you select **ON**, you can specify the remote reception ID.

➡ Remote Reception

• **Color transmission**

When faxing color documents using the ADF, selects whether to convert them into black & white data if the recipient's fax device does not support color faxing.

If you select **Disconnect**, the printer does not send color documents when the recipient's fax device does not support color faxing.

• **RX image reduction**

Enables/disables automatic reduction of incoming faxes so that they fit in the selected paper.

If you select **ON**, you can select the image reduction direction.

• **Adv. communication settings**

◦ **ECM TX**

Selects whether to send faxes in Error Correction Mode (ECM).

➡ Transmission/Reception of Faxes Using ECM

◦ **ECM RX**

Selects whether to receive faxes in Error Correction Mode (ECM).

➔ [Transmission/Reception of Faxes Using ECM](#)

- **TX start speed**

Selects the fax transmission speed.

The fax transmission start speed will be faster as the value is bigger.

When the telephone line condition or connection is poor, selecting a lower transmission start speed may solve transmission problems.

- **RX start speed**

Selects the fax reception speed.

The fax reception start speed will be faster as the value is bigger.

When the telephone line condition or connection is poor, selecting a lower reception start speed may solve reception problems.

Auto print settings

- **Received documents**

Selects whether to print the received fax automatically when receiving a fax.

If you select **Do not print**, the received fax is stored in the printer's memory.

For details on the received fax stored in the printer's memory:

➔ [Document Stored in Printer's Memory](#)

- **Activity report**

Selects whether to print ACTIVITY REPORT automatically.

If you select **Print**, the printer prints ACTIVITY REPORT for the 20 histories of sent and received faxes automatically.

For details on the procedure to print ACTIVITY REPORT manually:

➔ [Summary of Reports and Lists](#)

- **TX report**

Selects whether to print TX REPORT/ERROR TX REPORT automatically after sending a fax.

If you print the report, select **Print error only** or **Print for each TX**.

If you select **Print error only** or **Print for each TX**, you can specify the print setting that the first page of the fax is printed along with the report.

- **RX report**

Selects whether to print RX REPORT automatically after receiving a fax.

If you print RX REPORT, select **Print error only** or **Print for each RX**.

Auto save setting

Set whether to forward the received faxes automatically to the shared folder of a computer.

- ➔ Forwarding Received Faxes Automatically to Shared Folder on Computer

Security control

- **Fax number re-entry**

If you select **ON**, you can set the printer to send faxes after entering the number twice. By using this setting, you can avoid the mistransmission of faxes.

- ➔ Preventing Mistransmission of Faxes

- **Check RX fax information**

If you select **ON**, the printer checks whether the recipient's fax device information matches the dialed number. If it matches the number, the printer starts to send faxes.

- ➔ Preventing Mistransmission of Faxes

- **Hook key setting**

If you select **Enable**, you can use the on hook dial function.

- **Fax reception reject**

If you select **ON**, the printer rejects the reception of faxes with no sender information or faxes from specific senders.

- ➔ Rejecting Fax Reception

- **Caller rejection**

If you subscribe to the Caller ID service, the printer detects the sender's Caller ID. If the sender's ID matches the condition specified in this setting, the printer rejects the phone call or fax reception from the sender.

If you select **Yes** on the subscribing confirmation screen, you can specify the settings of rejection.

- ➔ Using Caller ID Service to Reject Calls

▶▶▶ Note

- This setting may not be supported depending on the country or region. Contact your telephone company to confirm whether it provides this service.

Easy setup

The printer must be set up depending on your telephone line and use of the faxing function. Follow the procedure according to the instructions on the touch screen.

▶▶▶ Note

- You can specify the setup setting individually or the advanced setting.

For details on how to specify the setting:

Print settings

Select this setting item from **Printer settings** in (Setup).

- **Prevent paper abrasion**

Use this setting only if the print surface becomes smudged.

▶▶▶ **Important**

- Be sure to set this back to **OFF** after printing since it may result in lower printing speed or lower print quality.

- **Adjust horizontal print position**

Adjusts the print position when the left/right margins are not aligned.

You can adjust the left/right margins in increments of 0.004 in. (0.1 mm) between -0.12 in. (-3 mm) and +0.12 in. (+3 mm) centered on the horizontal center of the paper.

▶▶▶ **Important**

- When using A4/Letter sized paper, the amount of adjustment that can be made is limited. You cannot make adjustments greater than this limit.

- **Print target for plain paper**

Select **Text only** or **Text and photos** for plain paper printing.

▶▶▶ **Note**

- As print results, if you are conscious of unevenness or textures of granularity, select **Text and photos**.

LAN settings

Select this setting item from **Printer settings** in  (Setup).

Important

- The administrator password may be required to change the settings.

- ➔ [Wi-Fi](#)
- ➔ [Wireless Direct](#)
- ➔ [Wired LAN](#)

To print the network settings, select **Print details** and select **Yes**.

- ➔ [Printing Network Settings](#)

Important

- The network settings printout contains important information about your network. Handle it with care.

Wi-Fi

- 2.4GHz/5GHz Switch**

Select a frequency.

- Wi-Fi setting list**

The network settings information of the printer appears when it is connected by Wi-Fi. (Some setting items are not displayed depending on the printer settings.)

Items	Setting
Connection	Enabled (connected)/Enabled (disconnected)/Disable
Network name (SSID)	XXXXXXXXXXXXXXXXXX XXXXXXXXXXXXXXXXXX
Frequency	2.4 GHz/5 GHz
Wi-Fi security	Inactive/WPA-PSK(TKIP)/WPA-PSK(AES)/WPA2-PSK(TKIP)/WPA2-PSK(AES)/WPA3-SAE(AES)
Signal strength (%)	XXX
IPv4 address	XXX. XXX. XXX. XXX
IPv4 subnet mask	XXX. XXX. XXX. XXX
IPv4 default gateway	XXX. XXX. XXX. XXX
IPv6 link-local address	XXXX: XXXX: XXXX: XXXX: XXXX: XXXX: XXXX: XXXX
MAC address (Wi-Fi)	XX:XX:XX:XX:XX:XX
Printer name	XXXXXXXXXXXXXXXXXX

Bonjour service name	XXXXXXXXXXXXXXXX XXXXXXXXXXXXXXXX XXXXXXXXXXXXXXXX XXXXXXXXXXXXXXXX
-----------------------------	--

("XX" represents alphanumeric characters.)

- **Enable/disable Wi-Fi**

Enables/disables Wi-Fi.

- **Wi-Fi setup**

Selects the setup method for Wi-Fi connection.

- **Easy wireless connect**

Select if you specify the settings of the access point information to the printer directly from a device (e.g. smartphone, or tablet) without operating the wireless router. Follow the on-screen instructions of the connecting device for the setup procedure.

- **Manual connect**

Select when you perform settings for Wi-Fi manually using the operation panel of the printer.

- **WPS (Push button method)**

Select when you perform settings for Wi-Fi using a wireless router supporting a Wi-Fi Protected Setup (WPS) push button method. Follow the on-screen instructions during setup.

- **Other connection types**

- **WPS (PIN code method)**

Select when you perform settings for Wi-Fi using a wireless router supporting a Wi-Fi Protected Setup (WPS) PIN code method. Follow the on-screen instructions during setup.

- **Advanced**

For details on each setting item:

➔ [Advanced setup](#)

Wireless Direct

- **Wireless Direct setting list**

The network settings information of the printer appears when it is connected by the wireless direct. (Some setting items are not displayed depending on the printer settings.)

Items	Setting
Connection	Enable/Disable
Network name (SSID)	DIRECT-XXXXXXXXXX XXXXXXXXXXXXXXXXXXXX
Password	XXXXXXXXXX
Frequency	2.4 GHz/5 GHz
Wi-Fi security	WPA2-PSK(AES)

No. of printers connected now	XX/XX
IPv4 address	XXX. XXX. XXX. XXX
IPv4 subnet mask	XXX. XXX. XXX. XXX
IPv4 default gateway	XXX. XXX. XXX. XXX
IPv6 link-local address	XXXX: XXXX: XXXX: XXXX: XXXX: XXXX: XXXX: XXXX
MAC address (Wi-Fi)	XX:XX:XX:XX:XX:XX
Printer name	XXXXXXXXXXXXXXXXXX
Bonjour service name	XXXXXXXXXXXXXXXXXX XXXXXXXXXXXXXXXXXX XXXXXXXXXXXXXXXXXX XXXXXXXXXXXXXXXXXX

("XX" represents alphanumeric characters.)

- **Connect to smartphone**

Enables to connect the smartphone to the printer by reading the QR code displayed on the touch screen with the smartphone, or also by manually obtaining the network name and password.

- **Enable/disable Wireless Direct**

Enables/disables Wireless Direct.

- **Change network name (SSID)**

Changes the identifier (SSID/the printer's name displayed on a Wi-Fi Direct compatible device) for Wireless Direct.

- **Change password**

Changes the password for Wireless Direct.

- **Connection request confirmation**

Selecting **ON** displays the confirmation screen when a Wi-Fi Direct compatible device is connecting the printer.

- **Advanced**

For details on each setting item:

➔ [Advanced setup](#)

Wired LAN

- **Wired LAN setting list**

The network settings information of the printer appears when it is connected by wired LAN. (Some setting items are not displayed depending on the printer settings.)

Items	Setting
Connection	Enabled (connected)/Enabled (disconnected)/Disable

IPv4 address	XXX. XXX. XXX. XXX
IPv4 subnet mask	XXX. XXX. XXX. XXX
IPv4 default gateway	XXX. XXX. XXX. XXX
IPv6 link-local address	XXXX: XXXX: XXXX: XXXX: XXXX: XXXX: XXXX: XXXX
MAC address (Wired LAN)	XX:XX:XX:XX:XX:XX
Printer name	XXXXXXXXXXXXXXXXXX
Bonjour service name	XXXXXXXXXXXXXXXXXX XXXXXXXXXXXXXXXXXX XXXXXXXXXXXXXXXXXX XXXXXXXXXXXXXXXXXX

("XX" represents alphanumeric characters.)

- **Enable/disable Wired LAN**

Enables/disables wired LAN.

- **Advanced**

For details on each setting item:

➔ [Advanced setup](#)

Advanced setup

- **Set printer name**

Specifies the printer name. You can use up to 15 characters for the name.

➤➤➤ Note

- You cannot use the same printer name as that already used for other LAN connected devices.
- You cannot use a hyphen for the initial or last character of the printer name.

- **TCP/IP settings**

Performs IPv4 or IPv6 setting.

- **WSD settings**

Setting items when you use WSD (one of the network protocols supported in Windows).

- **Enable/disable WSD**

Selects whether WSD is enabled or disabled.

➤➤➤ Note

- When this setting is enabled, the printer icon is displayed on the Network Explorer in Windows.

- **Optimize inbound WSD**

Selecting **Enable** allows you to receive the WSD printing data faster.

- **WSD scan from this printer**

Selecting **Enable** allows you to transfer the scanned data to the computer using WSD. To transfer the scanned data, press **Color** button.

▶▶▶ **Note**

- When you forward the scanned data to the computer searched using WSD, you cannot select the document type.

- **Timeout settings**

Specifies the timeout length.

- **Bonjour settings**

Setting items when you use Bonjour.

- **Enable/disable Bonjour**

Selecting **Enable** allows you to use Bonjour to perform the network settings.

- **Service name**

Specifies the Bonjour service name. You can use up to 48 characters for the name.

▶▶▶ **Note**

- You cannot use the same service name as that already used for other LAN connected devices.

- **LPR protocol settings**

Enables/disables the LPR setting.

- **RAW protocol**

Enables/disables RAW printing.

- **LLMNR**

Enables/disables LLMNR (Link-Local Multicast Name Resolution). Selecting **Enable** allows the printer to detect printer's IP address from the printer name without a DNS server.

- **IPP settings**

Selecting **Enable** allows you to print via the network with the IPP protocol.

- **Wi-Fi DRX settings**

Selecting **Enable** allows you to activate discontinuous reception when using Wi-Fi (discontinuous reception).

▶▶▶ **Note**

- Depending on the Wi-Fi router used, discontinuous reception may not be activated even though **Enable** is selected.
- Discontinuous reception is enabled only while the printer is on standby. (The touch screen is in the screen saver mode.)

- **Wired LAN DRX settings**

Selecting **Enable** allows you to activate discontinuous reception when the printer is connected to a device compatible with wired LAN. The discontinuous reception can reduce power consumption.

- **IPsec settings**

Selecting **Enable** allows you to specify the IPsec security.

- **IEEE802.1X/EAP settings**

Setting item when you use IEEE802.1X/EAP (WPA/WPA2 Enterprise).

- **Enable/disable**

Enables/disables IEEE802.1X/EAP.

- **Search for EAP router**

Searches switch/access point of IEEE802.1X/EAP and display it.

- **Last authentication result**

Displays the latest authentication result of IEEE802.1X/EAP setting.

Other printer settings

Select this setting item from **Printer settings** in  (Setup).

»» Important

- The administrator password may be required to change the settings.

- **Date/time settings**

Sets the current date and time.

➔ [Setting Sender Information](#)

- **Date display format**

Selects the date display format.

- **Daylight saving time setting**

Enables/disables the summer time setting. If you select **ON**, you can select additional sub-settings. This setting may not be available depending on the country or region.

- **Start date/time**

Sets the date and time that summer time starts.

Month: Specify the month.

Week: Specify the week.

DOW: Specify the day of the week.

The screen to set the shift time to start summer time will be displayed after specifying the items above and selecting **OK**.

After specifying the shift time and selecting **OK**, you can specify the end date/time.

- **End date/time**

Sets the date and time that summer time ends.

Month: Specify the month.

Week: Specify the week.

DOW: Specify the day of the week.

The screen to set the shift time to end summer time will be displayed after specifying the items above and selecting **OK**.

Specify the shift time and select **OK**.

- **Sound control**

Selects the volume.

- **Keypad volume**

Selects the beep volume when pressing the touch screen or the buttons on the operation panel.

- **Alarm volume**

Selects the alarm volume.

- **Line monitor volume**

Selects the line monitor volume.

- **Offhook alarm**

Selects the alarm volume when the phone receiver is not put on the hook properly.

- **Country or region**

Selects the country or region where you are using the printer.

▶▶▶ Note

- This setting may not be available depending on the country or region.

- **Power control**

Allows you to turn on/off the printer automatically to save electricity. In addition, you can specify the time and day to turn it on/off.

- **Use auto power control**

Specifies the length of time to turn off the printer automatically when no operation is made or no printing data is sent to the printer. In addition, you can allow the printer to turn on automatically when a scanning command from a computer or printing data is sent to the printer.

- **Use scheduling**

Specifies the time to turn on/off the printer automatically for each day of the week.

- **Do not use power control**

Disables the function to turn on/off the printer automatically.

- **Time zone**

Specifies the time zone according to a country or region you live in.

Specifying the time zone to the printer allows you to display the correct time an e-mail was sent from the main unit on your mail software.

- **Original removal reminder**

Selects whether the printer will display the reminder screen in case you forget to remove the original from the platen after scanning.

▶▶▶ Important

- Depending on the type of original or the state of the document cover, forgetting to remove the original may not be detected.

- **Keyboard settings**

Set the keyboard.

Select **Full keyboard** to select the keyboard layout from the following three types.

- **QWERTY**
- **QWERTZ**

- **AZERTY**

- **Ink level monitor**

- **Reset ink level count**

When adding the ink to the upper limit with the ink remained in the ink tank, reset the ink residual amount count to 100%.

- **Force ink tank selection**

You can specify the ink to use.

- **All ink tanks**

Use both color ink and black ink.

- **Black only**

Use only black ink.

▶▶▶ Note

- When any of the inks reached the lower limit line, printing and copying are disabled.

- **Fixed print quality**

Specifies print quality when printing on plain paper.

- **Screen lock settings**

Lock the screen to prevent the panel operation by someone other than the administrator.

- **Notification settings**

All notification screens are not displayed if you select **No**.

Rearrange home screen icons

You can rearrange the icons on the home screen to an easy-to-use order.

1. [Check that printer is turned on.](#)

2. Select  **Setup** on the HOME screen.

➔ [Using Touch Screen](#)

The setup menu screen will appear.

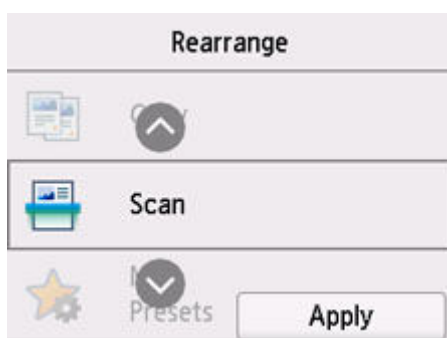

3. Select  **Printer settings**.

The **Printer settings** screen is displayed.

4. Select **Rearrange home screen icons**.

The list of function displayed on the home screen is displayed.

5. Select the function that you want to change the order, then tap  or .

6. Select **Apply**.

The list is displayed in the order the function was changed.

7. Select **Exit**.

Language selection

Select this setting item from **Printer settings** in  (Setup).

Changes the language for the messages and menus on the touch screen.

»» Important

- The administrator password may be required to change the settings.

Japanese / English / German / French / Italian / Spanish / Portuguese / Dutch / Danish / Norwegian / Swedish / Finnish / Russian / Ukrainian / Polish / Czech / Slovene / Hungarian / Slovak / Croatian / Romanian / Bulgarian / Turkish / Greek / Estonian / Latvian / Lithuanian / Simplified Chinese / Korean / Traditional Chinese / Thai / Indonesian / Vietnamese

Firmware update

Select this setting item from **Printer settings** in  (Setup).

You can update the firmware of the printer, check the firmware version, or perform settings of a notification screen, a DNS server and a proxy server.

»» Important

- The administrator password may be required to change the settings.
- When you use this function, make sure the printer is connected to the Internet.
- Do not turn off the power of a printer while firmware is being updated.

• Install update

Performs the firmware update of the printer. If you select **Yes**, the firmware update starts. Follow the on-screen instructions to perform update.

• Check current version

You can check the current firmware version.

• Update notification settings

You can set the printer to display the firmware update information on the touch screen when the firmware update is available.

When **Idle/Power off** is selected, the printer informs you of the update during idle and the update information also appears when you press the **ON** button.

• Auto update settings

Select **ON** to automatically update the firmware to the latest version.

• DNS server setup

Performs settings for a DNS server. Select **Auto setup** or **Manual setup**. If you select **Manual setup**, follow the display on the touch screen to perform settings.

• Proxy server setup

Performs settings for a proxy server. Follow the display on the touch screen to perform settings.

Administrator password settings

The administrator password can be set or canceled.

»» Important

- The administrator password of the printer is set by default. It is set in the serial number of the printer which consists of 9 characters (the first 4 characters are alphabet and the latter 5 characters are number) and is indicated on the seal on the device.
- The administrator password may be required to change the settings.

1. [Check that printer is turned on.](#)

2. Select **Setup** on the HOME screen.

➔ [Using Touch Screen](#)

3. Select **Printer settings**.

The **Printer settings** screen is displayed.

4. Select **Administrator password settings**.

5. If the authentication screen for an administrator password is displayed, enter a password, then select **OK**.

When the administrator password is not set, the registration confirmation message is displayed. Select **Yes**. The message is displayed again. Then, select **OK** and proceed to step 7.

6. Select **Change administrator password**.

When you do not set the administrator password, select **Remove administrator password**. Select **Yes** in the displayed screen. The message is displayed again. Then, select **OK**.

7. Select the effective range of the administrator password.

Remote UI and other tools

To change the setting using the remote UI or a certain software, the administrator password needs to be entered.

LCD, Remote UI, and other tools

To change the setting using the operation panel of this printer, remote UI or a certain software, the administrator password needs to be entered.

8. Enter the administrator password.

Enter the password using 4 to 32 alphanumeric characters and symbols.

Important

- From a security point of view, it is recommended to set the password of 8 characters or more in combination of alphanumeric characters and symbols.

9. Select **Apply**.

10. Enter the administrator password again.

11. Select **Apply**.

The administrator password is available.

Note

- When the administrator password is canceled or the effective range of the administrator password is set to **Remote UI and other tools**, the user management is disabled.

User management settings

The administrator makes settings to manage users.

»» Important

- The administrator password may be required to change the settings.

1. [Check that printer is turned on.](#)

2. Select **Setup** on the HOME screen.

➔ [Using Touch Screen](#)

The setup menu screen will appear.

3. Select **Printer settings**.

The **Printer settings** screen is displayed.

4. Select **User management settings**.

Enable/disable user management

Set the valid/invalid of the administration of the user registered by the remote UI.

1. Select **ON**.
2. Select **Log in**.

Auto logout time

When the operation is not performed by the registered user, set the time to log out automatically.

Select **Auto logout time**, and set the time.

Reset settings

Select this setting item from **Printer settings** in  (Setup).

You can set the settings back to the default.

▶▶▶ Important

- The administrator password may be required to change the settings.

- **Web service setup only**

Sets the Web service settings back to the default.

- **LAN settings only**

Sets the LAN settings back to the default.

- **Telephone number only**

Deletes all registered telephone/fax numbers.

- **Settings only**

Returns the settings such as the paper size, media type, or other setting items back to the default. The LAN settings and the telephone/fax number are not returned back to the default.

- **E-mail address book entries only**

Deletes all registered e-mail addresses.

- **Fax settings only**

Returns all fax settings back to the default. Disconnect the telephone line from the printer before you return this setting item back to the default.

- **Reset all**

Sets all settings you made to the printer back to the default. The administrator password specified by Remote UI or Wi-Fi Connection Assistant reverts to the default setting. All faxes stored in the printer's memory are also deleted.

▶▶▶ Note

- You cannot set the following setting items back to the default:
 - The language displayed on the touch screen
 - The current position of the print head
 - The country or region selected for **Country or region**
 - The cumulative usage count of copy, scan, fax, etc. registered in **Usage stats**.
 - CSR (Certificate Signing Request) for encryption method (SSL/TLS) setting

Feed settings

Select this setting item from (Setup).

»» Note

- By registering the paper size and the media type, the message can be displayed before printing starts when the paper size or the media type of the loaded paper differs from the paper settings.

➔ [Paper Settings](#)

- **Rear tray paper settings**

Registers the paper size and the media type you load on the rear tray.

- **Cassette paper settings**

Registers the paper size you load in the cassette.

- **Detect paper setting mismatch**

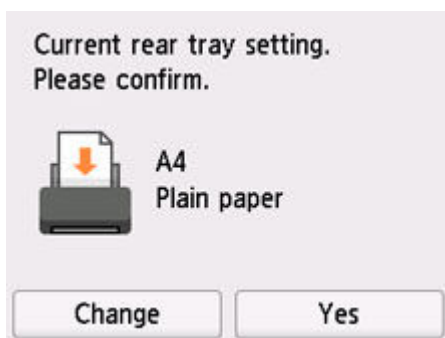

If you select **Enable**, the printer detects whether the paper size and the media type are identical with those registered in **Feed settings**. If printing starts with the settings that do not match, an error message is displayed on the touch screen.

»» Note

- When **Disable** is selected, the settings in **Feed settings** is disabled.

- **Check paper replacement**

If you select **ON**, the printer detects the paper replacement. A screen for confirming the setting of paper is displayed.

»» Note

- A screen for confirming the setting of paper is not displayed if you select **OFF**. Set the size and type of paper properly in **Rear tray paper settings** or **Cassette paper settings** when making prints.
- For AirPrint of iOS/iPadOS, paper may be printed based on the paper size set during paper loading. It is recommended to set to **ON** when making prints using an AirPrint function.

Web service setup

Select this item from (Setup).

»» Important

- The administrator password may be required to change the settings.

- **Web service usage registration/Web service usage cancellation**

Registers/Deletes Web service usage to use the printer device information to/from PIXMA/MAXIFY Cloud Link.

- **Web service connection setup**

The following setting items are available.

- **IJ Cloud Printing Center setup**

Registers/Deletes the printer to/from Canon Inkjet Cloud Printing Center and sets the history saving.

- **Check Web service setup**

Make sure whether the printer is registered to Canon Inkjet Cloud Printing Center.

- **Issue registration code**

In order to link the web service and printer, obtain the registration code from the service origin.

- **DNS server setup**

Performs settings for a DNS server. Select **Auto setup** or **Manual setup**. If you select **Manual setup**, follow the display on the touch screen to perform settings.

- **Proxy server setup**

Performs settings for a proxy server. Follow the display on the touch screen to perform settings.

ECO settings

This setting allows you to use automatic duplex printing as a default to save paper and to turn on/off the printer automatically to save electricity.

»» Important

- The administrator password may be required to change the settings.

➔ [Using Power Saving Function](#)

➔ [Using Duplex Printing](#)

Using Power Saving Function

Follow the procedure below to use power saving function.

1. [Check that printer is turned on.](#)

2. Select  (Setup) on the HOME screen.

➔ [Using Touch Screen](#)

3. Select  **ECO**.

4. Select **Power control**.

5. Select **Use auto power control**.

6. Specify settings as necessary.

A: Specify the length of time to turn the printer off automatically when no operation is made or no printing data is sent to the printer.

B: Selecting **ON** enables the printer to turn on automatically when a scanning command from a computer or printing data is sent to the printer.

»» Note

- Selecting **Use scheduling** allows you to set time and day to turn on/off the power automatically.

- Selecting **Do not use power control** disables all settings of the power control and scheduling.

Using Duplex Printing

Follow the procedure below to use duplex printing.

1. [Check that printer is turned on.](#)

2. Select  (Setup) on the HOME screen.

➔ [Using Touch Screen](#)

3. Select  **ECO**.

4. Select **Two-sided print settings**.

5. Specify settings as necessary.

C: Select two-sided copying as a default.

D: Select two-sided printing of sent/received faxes, reports, or lists as a default.

E: Select two-sided printing of template forms on the printer as a default.

Quiet setting

Enables this function on the printer if you want to reduce the operating noise, such as when printing at night. In addition, you can specify the time range to reduce the operating noise.

▶▶▶ Important

- The administrator password may be required to change the settings.
- Set the current date and time in advance.
 - ➔ [Setting Sender Information](#)

Follow the procedure below to perform setting.

1. [Check that printer is turned on.](#)

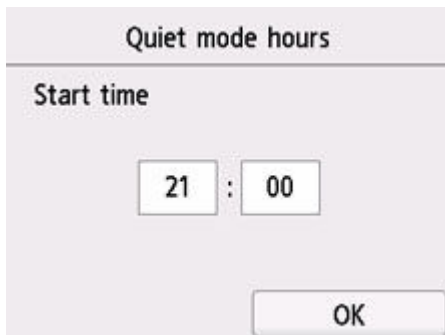

2. Select (Setup) on the HOME screen.

➔ [Using Touch Screen](#)

3. Select **Quiet setting.**

4. Select **ON** or **Use during specified hours.**

- When **ON** is selected:
You can reduce the operating noise while printing is in progress.
- When **Use during specified hours** is selected:
The screen to specify starting/ending time is displayed.

Tap Time and specify **Start time**.

Specify **End time** in the same procedure, and select **OK**.

You can reduce the operating noise during the specified time.

The confirmation screen is displayed and the  icon appears as the **Quiet setting** menu icon.

»» Important

- Operating speed is reduced compared to when **OFF** is selected.
- This function may not be so effective depending on the printer's setting. Furthermore, certain noise, such as when the printer is preparing for printing, is not reduced.

System information

Select this item from (Hint).

- **Current version**
Displays the current firmware version.
- **Printer name**
Displays the printer name currently specified.
- **Serial number**
Displays the printer serial number.
- **MAC address (Wi-Fi)**
Displays the MAC address for Wi-Fi.
- **MAC address (Wired LAN)**
Displays the MAC address for wired LAN.
- **Root cert. thumbprint (SHA-1)**
Shows the root certification thumbprint (SHA-1) of the printer.
- **Root cert. thumbprint (SHA-256)**
Shows the root certification thumbprint (SHA-256) of the printer.

Job management

Select this item from (Hint).

»» Important

- The administrator password may be required to change the settings.
- **Display job history**
Displays the job history of **Print from/Copy/Communication log**.
- **Print job history**
Prints the job history of **Print from/Copy/Communication log**.
- **Restrict job history access**
This is the menu for the developer.

Registering Favorite Settings (My Presets)

You can register the favorite copying, scanning, or faxing settings and call them up from the HOME screen.

You can register up to 20 settings.

- ➔ [Registering the Setting](#)
- ➔ [Calling Up the Registered Setting](#)
- ➔ [Editing/Deleting the Registered setting](#)

Registering the Setting

Select **Save profile** on each standby screen or on the screen displayed after the settings are specified.

Copy standby screen

Scan standby screen

Fax transmission standby screen

When the confirmation screen of **Save profile** is displayed, select **Yes**.

When the screen to enter the name of the setting is displayed, enter the name and select **Register**.

Calling Up the Registered Setting

Follow the procedure below to call up the registered setting.

1. [Check that printer is turned on.](#)

2. Select **My Presets** on the HOME screen.

➔ [Using Touch Screen](#)

3. Select setting you want to call up.

Editing/Deleting the Registered setting

Follow the procedure below to edit or delete the registered setting.

1. [Check that printer is turned on.](#)

2. Select **My Presets** on the HOME screen.

➔ [Using Touch Screen](#)

3. Select **Edit/delete**.

You can change the order or name of the registered settings and delete the settings.

- To change the order of the registered settings

1. Select **Rearrange**.
2. Select setting you want to move.

3. Tap  or  to move selected setting.

4. Select **Apply**.

5. Select **Exit**.

- To change the name of the registered settings

1. Select **Rename**.
2. Select setting you want to rename.
3. Enter new name and tap **OK**.
4. Select **Exit**.

- To delete the registered settings

1. Select **Delete**.
2. Select setting you want to delete.
3. Select **Yes** on displayed screen.

4. Select **Exit**.

Checking the Total Number of Uses of Printer

You can check the total number of uses of the printer (e.g. the total number of printing, copying, sending/receiving faxes, or scanning).

1. [Check that printer is turned on.](#)

2. Select  (Hint) on HOME screen.

➔ [Using Touch Screen](#)

The hint menu screen will appear.

3. Select  **Usage stats.**

4. Select item to check.

Total sheets used on the device

Displays the total number of printing.

No. of sheets used for copying

Displays the total number of copying.

No. of sheets used for fax

Displays the total number of received or printed faxes.

Sheets used for other functions

Displays the total number of printing other than copying or faxing.

Number of fax sheets sent

Displays the total number of sent faxes.

Number of sheets scanned

Displays the total number of scanning.

Print usage statistics

The total number of uses of printer can be printed and checked.

▶▶▶ Note

- The record of the total number of uses is not reverted even if the printer is reverted back to the default by **Reset settings** in **Printer settings**.

Specifications

General Specifications

Interface	<p>USB port: Hi-Speed USB *</p> <p>Network port: Wired LAN: 100BASE-TX / 10BASE-T Wi-Fi: IEEE802.11n / IEEE802.11g / IEEE802.11b / IEEE802.11a / IEEE802.11ac</p> <p>* A computer that complies with Hi-Speed USB standard is required. Since the Hi-Speed USB interface is fully upwardly compatible with USB 1.1, it can be used at USB 1.1.</p> <p>USB and the network can be used at the same time. Wi-Fi and wired LAN cannot be used at the same time.</p>
Operating environment	<p>Temperature: 41 to 95 °F (5 to 35 °C) Humidity: 10 to 90 % RH (no condensation)</p> <p>* The performance of the printer may be reduced under certain temperature and humidity conditions. Recommended conditions: Temperature: 59 to 86 °F (15 to 30 °C) Humidity: 10 to 80 % RH (no condensation)</p> <p>* For the temperature and humidity conditions of papers such as photo paper, refer to the paper's packaging or the supplied instructions.</p>
Storage environment	<p>Temperature: 32 to 104 °F (0 to 40 °C) Humidity: 5 to 95 % RH (no condensation)</p>
Power supply	<p>AC 100-240 V, 50/60 Hz (The supplied power cord is only for the country or region you purchased.)</p>
Power consumption	<p>Printing (Copy): 20 W or less *1 Standby (minimum): 0.9 W or less *1*2 Standby (all ports connected): 1.4 W or less OFF: 0.1 W or less</p> <p>*1 USB connection to a PC *2 The wait time for standby cannot be changed.</p>
External dimensions (W x D x H)	<p>Approx. 15.8 x 16.4 x 9.9 in. (Approx. 399 x 417 x 251 mm) * With the Cassette and trays retracted.</p>
Weight	<p>Approx. 20.9 lb (Approx. 9.5 kg)</p>

* With the Print Head installed.

Scan Specifications

Scanner driver	Windows: TWAIN 1.9 Specification, WIA
Maximum scanning size	Platen: A4/Letter, 8.5 x 11.7 in. (216 x 297 mm) ADF: A4/Letter/Legal, 8.5 x 15.7 in. (216 x 399 mm)
Optical resolution (horizontal x vertical)	1200 x 2400 dpi * * Optical Resolution represents the maximum sampling rate based on ISO 14473.
Gradation (Input / Output)	Gray: 16 bit/8 bit Color: RGB each 16 bit/8 bit

Fax Specifications

Minimum System Requirements

Conform to the operating system's requirements when higher than those given here.

Windows

Operating System	Windows 11, Windows 10, Windows 8.1, Windows 7 SP1 Note: Operation can only be guaranteed on a PC with pre-installed operating system. Printer driver and IJ Printer Assistant Tool support the following OS: Windows Server 2008 R2 SP1, Windows Server 2012 R2, Windows Server 2016, Windows Server 2019 and Windows Server 2022
Amount of hard disk space required for installing the driver	1.5 GB or more The necessary amount of hard disk space may be changed without notice.

macOS

Operating System	macOS Mojave 10.14.6 - macOS Monterey 12
-------------------------	--

Other Supported OS

iOS/iPadOS, Android, Chrome OS Some functions may not be available with the supported OS. Refer to the Canon web site for details.

Information in this manual is subject to change without notice.

Information about Paper

- **Supported Media Types**
 - Paper Load Limit
- **Unsupported Media Types**
- **Handling Paper**
- **Print Area**

Supported Media Types

For best results, choose paper designed for how you are printing. A variety of paper for documents as well as photos or illustrations is available from Canon. Use genuine Canon paper to print important photos, when possible.

- ➔ [Media Types](#)
- ➔ [Page Sizes](#)
- ➔ [Paper Weight](#)

Media Types

Genuine Canon paper

▶▶▶ Note

- For warnings on use of the non-printable side, see each product's usage information.
- Page sizes and media types differ depending on the country or region where the paper is sold. For details on page sizes and media types, access the Canon website.
- Genuine Canon paper is not available in some countries or regions. Note that in the United States, Canon paper is not sold by model number. Instead, purchase paper by name.

Paper for printing documents:

- Canon Red Label Superior <WOP111>
- Canon Océ Office Colour Paper <SAT213>
- High Resolution Paper <HR-101N>

Paper for printing photos:

- Glossy Photo Paper "Everyday Use" <GP-501/GP-508>
- Photo Paper Glossy <GP-701>
- Photo Paper Plus Glossy II <PP-201/PP-208/PP-301>
- Photo Paper Pro Luster <LU-101>
- Photo Paper Plus Semi-gloss <SG-201>
- Matte Photo Paper <MP-101>

Paper for making original goods:

- Photo Stickers (16 stickers per sheet) <PS-108>
- Photo Stickers (Free Cutting) <PS-208>
- Photo Stickers (Variety Pack) <PS-808>
- Restickable Photo Paper <RP-101>
- Removable Photo Stickers <PS-308R>
- Magnetic Photo Paper <MG-101/PS-508>
- **Light Fabric Iron-on Transfers** <LF-101>

- **Double sided Matte Paper** <MP-101D>

Paper other than genuine Canon paper

- Plain Paper (including recycled paper)
- Envelopes
- ➔ [Paper Load Limit](#)
- ➔ [Paper Settings on the Printer Driver and the Printer \(Media Type\)](#) (Windows)

Page Sizes

You can use the following page sizes.

▶▶ Note

- Page sizes and media types the printer supports differ depending on the OS you are using.

Standard sizes:

- Letter
- Legal
- Executive
- A6
- A5
- A4
- B5
- B-Oficio
- M-Oficio
- Foolscap
- Legal(India)
- KG/4"x6"(10x15)
- 5"x7"(13x18cm)
- 7"x10"(18x25cm)
- 8"x10"(20x25cm)
- L(89x127mm)
- 2L(127x178mm)
- Square 5"
- Hagaki
- Hagaki 2
- Envelope Com 10
- Envelope DL

- Nagagata 3
- Nagagata 4
- Yougata 4
- Yougata 6
- Envelope C5
- Envelope Monarch
- Card 2.17"x3.58"

Special sizes

- Minimum size: 2.17 x 3.58 in. (55.0 x 91.0 mm)
- Maximum size: 8.50 x 47.24 in. (216.0 x 1200.0 mm) *

* When **Height of Page Size** is set to a value exceeding 26.61 in. (676 mm), **Media Type** is set to **Plain Paper**.

Paper Weight

You can use paper in the following weight range.

- Rear Tray/Cassette
Plain paper: From 17 to 28 lb (64 to 105 g /m²)
- Rear Flat Tray
Plain paper: From 80 to 139 lb (300 to 523 g /m²)

Paper Load Limit

This section shows the paper load limits of the rear tray, the cassette, and the paper output tray.

➔ [Paper Load Limits of Rear Tray and Cassette](#)

➔ [Paper Load Limit of Paper Output Tray](#)

▶▶▶ Note

- Page sizes and media types differ depending on the country or region where the paper is sold. For details on page sizes and media types, access the Canon website.

Paper Load Limits of Rear Tray and Cassette

Genuine Canon Paper

Paper for printing documents:

Media Name <Model No.>	Rear Tray	Cassette
Canon Red Label Superior <WOP111>	Approx. 100 sheets	Approx. 250 sheets
Canon Océ Office Colour Paper <SAT213>	Approx. 80 sheets	Approx. 200 sheets
High Resolution Paper <HR-101N> ^{*1}	Approx. 80 sheets	N/A

Paper for printing photos:

Media Name <Model No.>	Rear Tray
Glossy Photo Paper "Everyday Use" <GP-501/ GP-508> ^{*2}	A4, Letter, 5"x7"(13x18cm), 8"x10"(20x25cm), 2L(127x178mm): 10 sheets
Photo Paper Glossy <GP-701> ^{*2}	KG/4"x6"(10x15), L(89x127mm), Square 5", Hagaki: 20 sheets
Photo Paper Plus Glossy II <PP-201/PP-208/PP-301> ^{*2}	
Photo Paper Pro Luster <LU-101> ^{*2}	
Photo Paper Plus Semi-gloss <SG-201> ^{*2}	
Matte Photo Paper <MP-101>	

Paper for making original goods:

Media Name <Model No.>	Rear Tray
Photo Stickers (16 stickers per sheet) <PS-108>	1 sheet
Photo Stickers (Free Cutting) <PS-208>	
Photo Stickers (Variety Pack) <PS-808>	
Restickable Photo Paper <RP-101>	
Removable Photo Stickers <PS-308R>	
Magnetic Photo Paper <MG-101/PS-508>	
Light Fabric Iron-on Transfers <LF-101>	
Double sided Matte Paper <MP-101D>	

Paper other than Genuine Canon Paper

Common Name	Rear Tray	Cassette
Plain Paper (including recycled paper)*1	Approx. 100 sheets (Legal, B-Oficio, M-Oficio, Foolscap, Legal(India): 10 sheets)	Approx. 250 sheets
Envelopes	10 envelopes	N/A

*1 Normal feeding at maximum capacity may not be possible with some types of paper, or under very high or low temperature or humidity. In this case, load half the amount of paper or less.

*2 Feeding from a loaded stack of paper may leave marks on the printed side or prevent efficient feeding. In this case, load one sheet at a time.

Paper Load Limit of Paper Output Tray

Genuine Canon Paper

Paper for printing documents:

Media Name <Model No.>	Paper Output Tray
Canon Red Label Superior <WOP111> Canon Océ Office Colour Paper <SAT213>	Approx. 75 sheets
High Resolution Paper <HR-101N>	Approx. 65 sheets

Paper other than Genuine Canon Paper

Common Name	Paper Output Tray
Plain Paper (including recycled paper)	Approx. 75 sheets (Legal: 10 sheets)

When continuing printing with paper other than the above, we recommend removing already printed paper from the paper output tray to avoid smearing or discoloration.

Unsupported Media Types

Do not use the following types of paper. Using such paper will cause not only unsatisfactory results, but also the printer to jam or malfunction.

- Folded, curled, or wrinkled paper
- Damp paper
- Paper thinner than a postcard, including plain paper or notepad paper cut to a small size (when printing on paper smaller than A5)
- Picture postcards
- Postcards affixed with photos or stickers
- Envelopes with a double flap
- Envelopes with an embossed or treated surface
- Envelopes whose gummed flaps are already moistened and adhesive
- Any type of paper with holes
- Paper that is not rectangular
- Paper bound with staples or glue
- Paper with an adhesive surface on the back such as label seal
- Paper decorated with glitter, etc.

Handling Paper

- Be careful not to rub or scratch the surfaces of any types of paper when handling.
- Hold the paper as closely as possible to its edges and try not to touch the printing surface. The print quality may be degraded if the printing surface is smudged with sweat or oil that comes from your hands.
- Do not touch the printed surface until the ink is dried. Even when the ink is dried, be careful not to touch the printed surface as much as possible when handling. Due to the nature of the pigment ink, the ink on the printed surface may be removed when being rubbed or scratched.
- Take out only the necessary number of paper from the package, just before printing.
- To avoid curling, when you do not print, put unused paper back into the package and keep it on a level surface. And also, store it avoiding heat, humidity, and direct sunlight.

Economy Mode

By setting **Print qlty** to **Economy**, the consumption of ink can be reduced. More printing is available compared with when **Print qlty** is set to **Standard**.

- **Number of printable sheets (A4 plain paper)**

Number of printable sheets per pigment black ink bottle

Standard mode: 6,000 sheets

Economy mode: 9,000 sheets

Number of printable sheets per pigment color ink bottle

Standard mode: 14,000 sheets

Economy mode: 21,000 sheets

- **Measurement conditions**

- Measurement images:

Color printing: A4 color document ISO/IEC24712

- Measurement method:

Canon original

- Paper type:

Plain paper

- Print driver setting:

Setting to the default for plain paper (setting **Quality** to **Economy**).

*The number of printable sheets is calculated based on the ink bottle filled from the second time on, instead of the ink bottle filled when the printer is used for the first time.

Printing

Printing from Computer

Printing from Smartphone/Tablet

Printing Using Operation Panel

Using PIXMA/MAXIFY Cloud Link

Paper Settings

Printing from Computer

- **Printing from Application Software (Windows Printer Driver)**
- **Printing from Application Software (macOS AirPrint)**
- **Printing Using Canon Application Software**
- **Printing from Chrome OS**

Printing from Application Software (Windows Printer Driver)

- **Basic Printing Setup** 📌 **Basic**
- **Main Controls (Basic Settings Tab)**
- **Set Media Type, Quality, etc. (Media/Quality Tab)**
- **Set the Layout of Printed Documents (Page Setup Tab)**
- **Overview of the Printer Driver**
- **Updating the Driver**

Basic Printing Setup

In the [Basic Settings tab](#), you can print in various ways according to your purpose.

1. [Check that printer is turned on](#)
2. Open [printer driver's setup screen](#)
3. Select Profile (A)

Select the print settings according to your purpose in **Profiles** on the **Basic Settings** tab.
If you select a print setting, **Paper Size** and **Media Type** will change automatically.

►►► Note

- When the paper size to be printed is selected from **Printer Paper Size**, the zoom level is automatically set according to the selected paper size.
To select a zoom level of your choice, add a checkmark to **Zoom** and enter a number.

4. Select Media Type (B) According to Requirements
5. [Set Paper](#)
6. Click **OK**

»» Note

- For details about the paper information to be registered to the printer driver and on the printer, see the following:
 - [Paper Settings on the Printer Driver and the Printer \(Media Type\)](#)
 - [Paper Settings on the Printer Driver and the Printer \(Paper Size\)](#)

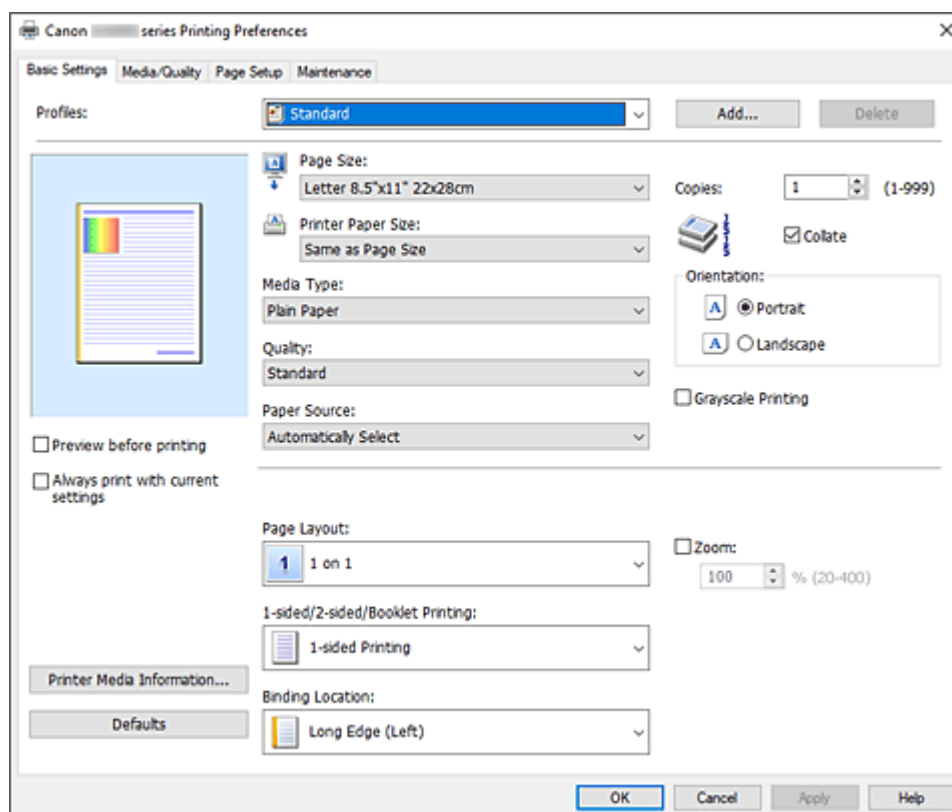

Main Controls (Basic Settings Tab)

- **Basic Settings Tab Description**
- **Paper Settings on the Printer Driver and the Printer (Media Type)**
- **Paper Settings on the Printer Driver and the Printer (Paper Size)**

Basic Settings Tab Description

The **Basic Settings** tab is for registering commonly used print settings. When you select a registered setting, the printer automatically switches to the preset items.

- [Profiles](#)
- [Settings Preview](#)
- [Preview before printing](#)
- [Always print with current settings](#)
- [Page Size](#)
- [Printer Paper Size](#)
- [Media Type](#)
- [Quality](#)
- [Paper Source](#)
- [Copies](#)
- [Collate](#)
- [Orientation](#)
- [Grayscale Printing](#)
- [Page Layout](#)
- [Zoom](#)
- [1-sided/2-sided/Booklet Printing](#)
- [Binding Location](#)

Profiles

The names and icons of frequently used printing profiles are registered. When you select a printing profile according to the purpose of the document, settings that match the purpose are applied.

You can also change a printing profile and register it under a new name. You can delete the registered printing profile.

Standard

These are the factory settings.

If **Page Size**, **Orientation**, and **Copies** were set from the application software, those settings have priority.

Business Document

Select this setting when printing a general document.

If **Page Size**, **Orientation**, and **Copies** were set from the application software, those settings have priority.

Paper Saving

Select this setting to save paper when printing a general document. **Page Layout** is set to **2 on 1**, and **1-sided/2-sided/Booklet Printing** is set to **2-sided Printing**.

If **Page Size**, **Orientation**, and **Copies** were set from the application software, those settings have priority.

Photo Printing

If you select this setting when printing a photo, the photo paper and photo size generally used are set.

If **Orientation** and **Copies** were set from the application software, those settings have priority.

Envelope

If you select this setting for printing an envelope, **Media Type** is set automatically to **Envelope**. In the **Envelope Size Setting** dialog box, select the size of the envelope to be used.

Greeting Card

When selected for printing a greeting card, the **Media Type** is automatically set to **Inkjet Greeting Card**. **Quality** will be set to **High**.

▶▶▶ Note

- You cannot change the order of print settings.

Add...

Displays the [Add to Profiles dialog box](#).

Click this button when you want to save the information that you set on the **Basic Settings**, **Media/Quality**, and **Page Setup** tabs to **Profiles**.

Delete

Deletes a registered printing profile.

Select the name of the setting to be deleted from **Profiles**, and click **Delete**. When a confirmation message is displayed, click **OK** to delete the specified printing profile.

▶▶▶ Note

- Printing profiles that are registered in the initial settings cannot be deleted.

Settings Preview

The paper illustration shows how the original will be laid out on a sheet of paper.

You can check an overall image of the layout.

Preview before printing

Shows what the print result will look like before you actually print the data.

Check this check box to display a preview before printing.

Uncheck this check box if you do not want to display a preview.

Always print with current settings

Prints documents with the current settings starting from the next print execution.

When you select this function and then close the [printer driver setup window](#), the information that you set on the **Basic Settings**, **Media/Quality**, and **Page Setup** tabs are saved and printing with the same settings is possible starting from the next print execution.

►► Important

- If you log on with a different user name, the settings that were set when this function was enabled are not reflected in the print settings.
- If a setting was specified on the application software, it has priority.

Page Size

Selects a page size.

Ensure that you select the same page size as you selected within the application.

If you select **Custom...**, the [Custom Paper Size dialog box](#) opens and allows you to specify any vertical and horizontal dimensions for the paper size.

Printer Paper Size

Selects the size of paper actually loaded into the printer.

Normally, it will appear as **Same as Page Size**, and the document is printed with no scaling.

If you select a paper size that is smaller than the **Page Size**, the document size will be reduced. If you select a paper size that is larger, the document size will be enlarged.

Also if you select **Custom...**, the [Custom Paper Size dialog box](#) opens and allows you to specify any vertical and horizontal dimensions for the paper size.

Media Type

Selects a type of printing paper.

Select a media type that matches the paper that is loaded in the printer. This ensures that printing is carried out properly for the specified paper.

Quality

Selects your desired printing quality.

Select one of the following to set the print quality level that is appropriate for the purpose.

High

Gives priority to print quality over printing speed.

Standard

Prints with average speed and quality.

Economy

Reduces the amount of ink used when printing.

►► Note

- Selecting **Economy** in **Quality** reduces ink consumption. This means that you can print more than if you have **Standard** selected.
For details on Economy Mode, see "[Economy Mode](#)."

Paper Source

Shows the source from which paper is supplied.

You may be able to switch the paper source with the printer driver.

Automatically Select

Based on the paper settings in the printer driver and the paper information registered on the printer, the printer automatically determines the paper source and feeds paper.

Rear Tray

Paper is always supplied from the rear tray.

Cassette

Paper is always supplied from the cassette.

Rear Flat Tray

Paper is always supplied from the rear flat tray.

»» Important

- Depending on the media type and size, the **Paper Source** settings that can be selected may differ.

Copies

Specifies the number of copies you want to print. You can specify a value from 1 to 999.

»» Important

- When the application software that you used to create the document has the same function, specify the settings on the printer driver. However, if the print results are not acceptable, specify the function settings on the application software.

Collate

Check this check box to group together the pages of each copy when you want to print multiple copies. Uncheck this check box when you want to print with all pages of the same page number grouped together.

»» Important

- When the application software that you used to create the document has the same function, give priority to the printer driver settings. However, if the print results are not acceptable, specify the function settings on the application software. When you specify the number of copies and the printing order with both the application and this printer driver, the number of copies may be multiplied numbers of the two settings or the specified printing order may not be enabled.

Orientation

Selects the printing orientation.

If the application used to create your document has a similar function, select the same orientation that you selected in that application.

Portrait

Prints the document so that its top and bottom positions are unchanged relative to the paper feed direction. This is the default setting.

Landscape

Prints the document by rotating it 90 degrees relative to the paper feed direction.

You can change the rotation direction by going to the [Maintenance tab](#), opening the **Custom Settings** dialog box, and then using **Rotate 90 degrees left when orientation is [Landscape]** check box.

To rotate the document 90 degrees to the left when printing, select the **Rotate 90 degrees left when orientation is [Landscape]** check box.

Grayscale Printing

This function converts the data to monochrome data when printing your document.

Page Layout

Selects the size of the document you want to print and the type of printing.

1 on 1 to 16 on 1

Multiple pages of document can be printed on one sheet of paper.

To change the page order, click **Preferences...** In the [Page Layout Printing dialog box](#) that appears, specify **Page Order**.

Poster (1 x 2) to Poster (4 x 4)

This function enables you to enlarge the image data and divide the enlarged data into several pages to be printed. You can also glue together these sheets of paper to create large printed matter, such as a poster.

Preferences...

Opens the [Poster Printing dialog box](#).

Click this button to set details on tiling/poster printing.

Zoom

Specifies an enlargement or reduction ratio for the document you want to print.

1-sided/2-sided/Booklet Printing

1-sided Printing

Select when performing single-sided printing.

2-sided Printing

Select when performing duplex printing.

Automatic

Selects whether duplex printing is to be performed automatically or manually.

To perform duplex printing manually, uncheck this check box.

Booklet Printing

The booklet printing function allows you to print data for a booklet. Data is printed on both sides of the paper. This type of printing ensures that pages can be collated properly, in page number order, when the printed sheets are folded and stapled at the center.

Automatic

Selects whether duplex printing is to be performed automatically or manually.

To perform duplex printing manually, uncheck this check box.

Preferences...

Opens the [Booklet Printing dialog box](#).

Click this button to set details on booklet printing.

Binding Location

Selects the stapling margin position. The printer analyzes the **Orientation** and **Page Layout** settings, and automatically selects the best stapling margin position. Check **Binding Location**, and select from the list to change it.

To specify the width of the binding margin, set it from the **Page Setup** tab.

Printer Media Information...

Displays [Printer Media Information dialog box](#).

You can check the printer settings and apply the checked settings to the printer driver.

Defaults

Restores all the settings you have changed to their default values.

Click this button to return all settings on the **Basic Settings**, **Media/Quality**, and **Page Setup** tabs to their default values (factory settings).

Add to Profiles dialog box

This dialog box allows you to save the information that you set on the **Basic Settings**, **Media/Quality**, and **Page Setup** tabs and add the information to the **Profiles** list on the **Basic Settings** tab.

Name

Enter the name for the printing profile you wish to save.

Up to 255 characters can be entered.

The name appears, with its associated icon, in the **Profiles** list on the **Basic Settings** tab.

Options...

Opens the [Add to Profiles dialog box](#).

Changes the details of printing profile to be saved.

Add to Profiles dialog box

Select the icons of the printing profiles to be registered to **Profiles**, and change the items to be saved in the printing profiles.

Icon

Select the icon for the printing profile you wish to save.

The selected icon appears, with its name, in the **Profiles** list on the **Basic Settings** tab.

Save the paper size setting

Saves the paper size to the printing profile in **Profiles**.

To apply the saved paper size when the printing profile is selected, check this check box.

If this check box is unchecked, the paper size is not saved, and consequently the paper size setting is not applied when the printing profile is selected. Instead the printer prints with the paper size specified with the application software.

Save the orientation setting

Saves the **Orientation** to the printing profile in **Profiles**.

To apply the saved print orientation when the printing profile is selected, check this check box.

If this check box is unchecked, the print orientation is not saved, and consequently the **Orientation** setting is not applied when the printing profile is selected. Instead the printer prints with the print orientation specified with the application software.

Save the copies setting

Saves the **Copies** setting to the printing profile in **Profiles**.

To apply the saved copies setting when the printing profile is selected, check this check box.

If this check box is unchecked, the copies setting is not saved, and consequently the **Copies** setting is not applied when the printing profile is selected. Instead the printer prints with the copies setting specified with the application software.

Custom Paper Size dialog box

This dialog box allows you to specify the size (width and height) of the custom paper.

Units

Select the unit for entering a user-defined paper size.

Paper Size

Specifies the **Width** and the **Height** of the custom paper. Measurement is shown according to the units specified in **Units**.

Page Layout Printing dialog box

This dialog box allows you to select the number of document pages to be placed on one sheet of paper, the page order, and whether a page border line is to be printed around each document page. The settings specified in this dialog box can be confirmed in the settings preview on the printer driver.

Page Order

Specifies the document orientation to be printed on a sheet of paper.

Page Border

Prints a page border line around each document page. Check this check box to print the page border line.

Poster Printing dialog box

This dialog box allows you to select the size of the image to be printed. You can also make settings for cut lines and paste markers which are convenient for pasting together the pages into a poster.

The settings specified in this dialog box can be confirmed in the settings preview on the printer driver.

Print "Cut/Paste" in margins

Specifies whether to print the words "Cut" and "Paste" in the margins. These words serve as guidelines for pasting together the pages into a poster. Check this check box to print the words.

▶▶▶ Note

- Depending on the environment of the printer driver you are using, this function may not be available.

Print "Cut/Paste" lines in margins

Specifies whether to print cut lines that serve as guidelines for pasting together the pages into a poster. Check this check box to print the cut lines.

Print page range

Specifies the printing range. Select **All** under normal circumstances.

Select **Pages** to specify a specific page or range.

▶▶▶ Note

- If some of the pages have not been printed well, specify the pages that do not need to be printed by clicking them in the settings preview of the **Page Setup** tab. Only the pages shown on the screen will be printed this time.

Booklet Printing dialog box

This dialog box allows you to set how to bind the document as a booklet. Printing only on one side and printing a page border, can also be set in this dialog box.

The settings specified in this dialog box can be confirmed in the settings preview on the printer driver.

Preview Icon

Shows the settings made on the **Booklet Printing** dialog box.

You can check what the document will look like when printed as a booklet.

Margin for stapling

Specifies which side of the booklet is to be stapled.

Insert blank page

Selects whether to print the document on one side or both sides of the booklet.

Check this check box to print the document on one side of the booklet and select the side to be left blank from the list.

Margin

Specifies the width of the stapling margin.

The specified width becomes the stapling margin from the center of the sheet.

Page Border

Prints a page border line around each document page.

Check this check box to print the page border line.

Printer Media Information dialog box

This dialog box allows you to check the printer settings and apply the checked settings to the printer driver.

Paper Source

Check the setting or select a new paper source.

Media Type

Displays the **Media Type** that is currently set on the printer.

To apply the displayed setting to the printer driver, click **Set**.

Page Size

Displays the **Page Size** that is currently set on the printer.

To apply the displayed setting to the printer driver, click **Set**.

Paper Settings on the Printer Driver and the Printer (Media Type)

When you use this printer, selecting a media type and [paper size](#) that matches the print purpose will help you achieve the best print results.

Depending on the media type you are using, specify the media type settings on the printer driver or the printer's operation panel as described below.

Canon genuine papers (Document Printing)

Media name <Model No.>	Media Type in the printer driver	Paper information registered on the printer

Printing on Postcards

1. [Load postcard](#) on the printer

2. Open the [printer driver setup window](#)

3. Select commonly used settings

Display the **Basic Settings** tab, and for **Profiles**, select **Standard**.

4. Select the paper size

For **Printer Paper Size**, select **Hagaki 100x148mm** or **Hagaki 2 200x148mm**.

▶▶▶ Important

- Return postcards can be used only when you print them from the computer.
- When printing a return postcard, always set the paper size to **Hagaki 2 200x148mm** from your application software or the printer driver.
- Do not fold the return postcard. If a crease is formed, the printer will not be able to feed the postcard properly, and this condition will cause line shifts or a paper jam.

5. Select the media type

Select the Hagaki you want to use from **Hagaki** in **Media Type**.

▶▶▶ Important

- This printer cannot print on postcards that have photos or stickers attached.
- When printing on each side of a postcard separately, you will get cleaner printing if you print the message side first and then print the address side.
- The paper settings on the printer driver are different, depending on whether you are printing on the address side or the message side.
For details about the paper information to be registered to the printer driver and on the printer, see the following:
 - [Paper Settings on the Printer Driver and the Printer \(Media Type\)](#)
 - [Paper Settings on the Printer Driver and the Printer \(Paper Size\)](#)

6. Set the print orientation

To print the address horizontally, set **Orientation** to **Landscape**.

7. Select the print quality

For **Quality**, select the quality according to your purpose.

8. Click **OK**

When you perform printing, the data will be printed onto the postcard.

Setting Up Envelope Printing

1. [Load envelope](#) on the printer

2. Open the [printer driver setup window](#)

3. Select the media type

Select **Envelope** from **Profiles** on the **Basic Settings** tab.

4. Select the paper size

When the **Envelope Size Setting** dialog box is displayed, select the envelope size you want to use, and then click **OK**.

5. Set the orientation

To print the addressee horizontally, select **Landscape** for **Orientation**.

▶▶▶ Note

- If **Envelope Com 10**, **Envelope DL**, **Yougata 4 4.13"x9.25"**, **Yougata 6 3.86"x7.48"**, **Envelope C5**, or **Envelope Monarch 3.88"x7.5" 98.4x190.5mm** is selected for **Printer Paper Size**, the printer rotates the paper 90 degrees to the left to print, regardless of the **Rotate 90 degrees left when orientation is [Landscape]** setting for **Custom Settings** in the [Maintenance tab](#).

6. Select the print quality

For **Quality**, select the quality according to your purpose.

7. Click **OK**

When you perform print, the information is printed on the envelope.

▶▶▶ Important

- When you perform envelope printing, guide messages are displayed. To hide the guide messages, check the **Do not show this message again** check box. To show the guide again, click the **View Printer Status** button on the **Maintenance** tab, and start the Canon IJ Status Monitor. Then click **Envelope Printing** from **Display Guide Message** of the **Option** menu to enable the setting.

Registering a Frequently Used Printing Profile

You can register the frequently used printing profile to **Profiles** on the **Basic Settings** tab. Unnecessary printing profiles can be deleted at any time.

Registering a Printing Profile

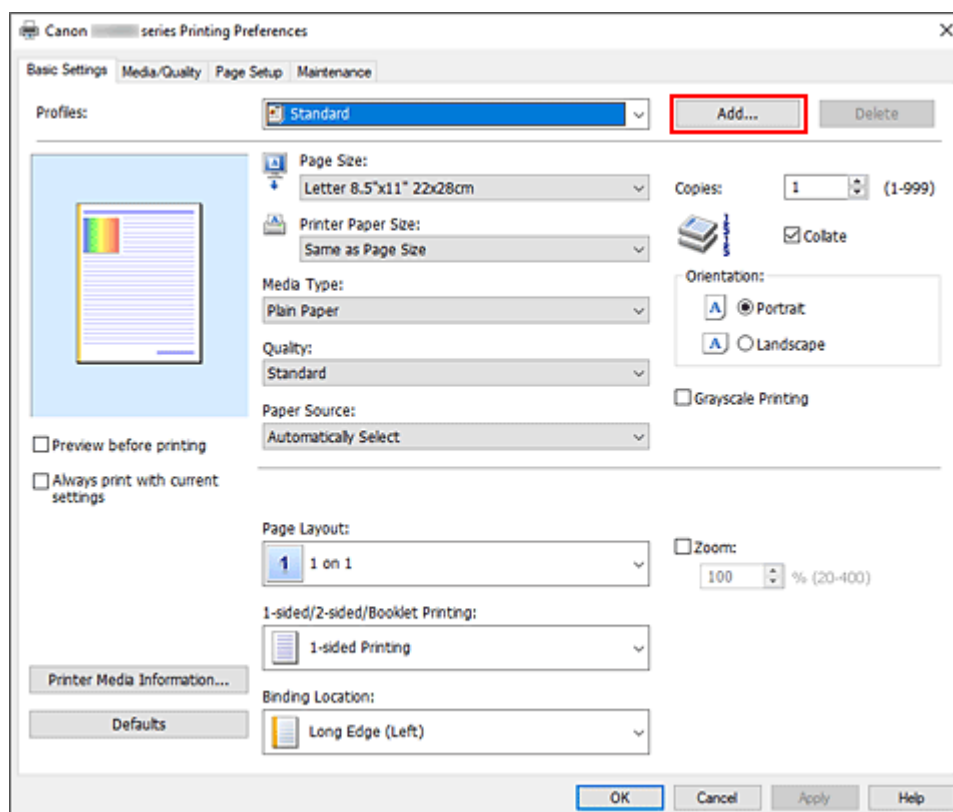

1. Open the [printer driver setup window](#)

2. Set the necessary items

From **Profiles** on the **Basic Settings** tab, select the printing profile to be used and if necessary, change each of the settings.

You can also register necessary items on the **Media/Quality** and **Page Setup** tabs.

3. Click **Add...**

The **Add to Profiles** dialog box opens.

4. Save the settings

Enter a name for the print settings to register in the **Name** field. If necessary, click **Options...**, set the items, and then click **OK**.

In the **Add to Profiles** dialog box, click **OK** to save the print settings and return to the **Basic Settings** tab.

The name and icon are displayed in **Profiles**.

▶▶▶ Important

- To save the page size, orientation, and number of copies that was set in each sheet, click **Options...**, and check each item.

▶▶▶ Note

- When you re-install the printer driver or upgrade the printer driver version, the print settings that are already registered will be deleted from **Profiles**.
Registered print settings cannot be saved and preserved. If a profile is deleted, register the print settings again.

Deleting Unnecessary Printing Profile

1. Select the printing profile to be deleted

Select the printing profile you want to delete from the **Profiles** list on the **Basic Settings** tab.

2. Delete the printing profile

Click **Delete**. When the confirmation message appears, click **OK**.

The selected printing profile is deleted from the **Profiles** list.

▶▶▶ Note

- Printing profiles that are registered in the initial settings cannot be deleted.

Set Media Type, Quality, etc. (Media/Quality Tab)

- ▶ **Media/Quality Tab Description**
- ▶ **Adjust Colors**
- ▶ **Specifying Color Correction**
 - Optimal Photo Printing of Image Data
 - Adjusting Colors with the Printer Driver
 - Printing with ICC Profiles

Media/Quality Tab Description

The **Media/Quality** tab allows you to create a basic print setup in accordance with the media type. You can also adjust the print quality and color tones.

- [Settings Preview](#)
- [Media Type](#)
- [Paper Source](#)
- [Quality](#)
- [Color/Intensity](#)
- [Grayscale Printing](#)
- [Preview before printing](#)

Settings Preview

The paper illustration shows how the original will be laid out on a sheet of paper.

You can check an overall image of the layout.

The printer illustration shows how to load paper to match the printer driver settings.

Check whether the printer is set up correctly by looking at the illustration before you start printing.

Media Type

Selects a type of printing paper.

Select a media type that matches the paper that is loaded in the printer. This ensures that printing is carried out properly for the specified paper.

Paper Source

Shows the source from which paper is supplied.

You may be able to switch the paper source with the printer driver.

Automatically Select

Based on the paper settings in the printer driver and the paper information registered on the printer, the printer automatically determines the paper source and feeds paper.

Rear Tray

Paper is always supplied from the rear tray.

Cassette

Paper is always supplied from the cassette.

Rear Flat Tray

Paper is always supplied from the rear flat tray.

►►► Important

- Depending on the media type and size, the **Paper Source** settings that can be selected may differ.

Quality

Selects your desired printing quality.

Select one of the following to set the print quality level that is appropriate for the purpose.

►►► Important

- Depending on the **Media Type** settings, the same print results may be produced even if the **Quality** is changed.

High

Gives priority to print quality over printing speed.

Standard

Prints with average speed and quality.

Economy

Reduces the amount of ink used when printing.

►►► Note

- Selecting **Economy** in **Quality** reduces ink consumption. This means that you can print more than if you have **Standard** selected.
For details on Economy Mode, see "[Economy Mode](#)."

Color/Intensity

Selects color adjustment method.

Auto

Cyan, Magenta, Yellow, Brightness, Contrast, and so on are adjusted automatically.

Manual

Select when you set the individual settings such as **Cyan, Magenta, Yellow, Brightness, Contrast**, etc. and **Color Correction** method.

Set...

Select **Manual** for **Color/Intensity** to enable this button.

In the **Manual Color Adjustment** dialog box, you can adjust individual color settings such as **Cyan, Magenta, Yellow, Brightness**, and **Contrast** on the [Color Adjustment tab](#), and select the **Color Correction** method on the [Matching tab](#).

»» Note

- If you want to use an ICC profile to adjust colors, use the **Manual Color Adjustment** dialog box to set the profile.

Grayscale Printing

This function converts the data to monochrome data when printing your document.
Check this check box to print a color document in monochrome.

Preview before printing

Shows what the print result will look like before you actually print the data.
Check this check box to display a preview before printing.

Defaults

Restores all the settings you have changed to their default values.
Clicking this button restores all the settings on the current screen to their default values (factory settings).

Color Adjustment Tab

This tab allows you to adjust the color balance by changing the settings of the **Cyan, Magenta, Yellow, Brightness**, and **Contrast** options.

Preview

Shows the effect of color adjustment.
The color and brightness change when each item is adjusted.

»» Note

- The graphic is in monochrome when the **Grayscale Printing** check box is checked.

View Color Pattern

Displays a pattern for checking color changes produced by color adjustment.
If you want to display the preview image with a color pattern, check this check box.

Cyan / Magenta / Yellow

Adjusts the strengths of **Cyan, Magenta, and Yellow**.
Moving the slider to the right makes a color stronger, and moving the slider to the left makes a color weaker.
You can also directly enter a value linked to the slider. Enter a value in the range from -50 to 50.
This adjustment changes the relative amount of ink of each color used, which alters the total color balance of the document. Use your application if you want to change the total color balance significantly. Use the printer driver only if you want to adjust the color balance slightly.

Brightness

Adjusts the brightness of your print. You cannot change the levels of pure white and black. However, the brightness of the colors between white and black can be changed. Moving the slider to the right brightens (dilutes) the colors, and moving the slider to the left darkens (intensifies) the colors. You can also directly enter brightness values that are linked to the slider bar. Enter a value in the range from -50 to 50.

Contrast

Adjusts the contrast between light and dark in the image to be printed.
Moving the slider to the right increases the contrast, moving the slider to the left decreases the

contrast.

You can also directly enter a value linked to the slider. Enter a value in the range from -50 to 50.

Matching Tab

Allows you to select the method for adjusting colors to match the type of document to be printed.

Color Correction

Allows you to select **Driver Matching**, **ICM**, or **None** to match the purpose of the print operation.

Driver Matching

With Canon Digital Photo Color, you can print sRGB data with color tints that most people prefer.

ICM

Adjusts the colors by using an ICC profile when printing.

Important

- If the application software is set so that ICM is disabled, **ICM** is unavailable for **Color Correction** and the printer may not be able to print the image data properly.

None

Disables color adjustment with the printer driver. Select this value when you are specifying an individually created printing ICC profile in an application software to print data.

Set the Layout of Printed Documents (Page Setup Tab)

- **Page Setup Tab Description**
- **Setting the Number of Copies and Printing Order**

Page Setup Tab Description

The **Page Setup** tab allows you to determine how a document is to be arranged on the paper. Also, this tab allows you to set the number of copies and the order of printing. If the application which created the document has a similar function, set them with the application.

- [Settings Preview](#)
- [Page Size](#)
- [Printer Paper Size](#)
- [Copies](#)
- [Print from Last Page](#)
- [Collate](#)
- [Orientation](#)
- [Rotate 180 degrees](#)
- [Page Layout](#)
- [Zoom](#)
- [1-sided/2-sided/Booklet Printing](#)
- [Binding Location](#)
- [Specify Margin](#)
- [Print Options](#)
- [Stamp/Background](#)

Settings Preview

The paper illustration shows how the original will be laid out on a sheet of paper.

You can check an overall image of the layout.

The printer illustration shows how to load paper to match the printer driver settings.

Check whether the printer is set up correctly by looking at the illustration before you start printing.

Page Size

Selects a page size.

Ensure that you select the same page size as you selected within the application.

If you select **Custom...**, the [Custom Paper Size dialog box](#) opens and allows you to specify any vertical and horizontal dimensions for the paper size.

Printer Paper Size

Selects the size of paper actually loaded into the printer.

The default setting is **Same as Page Size** to perform normal-sized printing.

If you select a paper size that is smaller than the **Page Size**, the document size will be reduced. If you select a paper size that is larger, the document size will be enlarged.

Also if you select **Custom...**, the [Custom Paper Size dialog box](#) opens and allows you to specify any vertical and horizontal dimensions for the paper size.

Copies

Specifies the number of copies you want to print. You can specify a value from 1 to 999.

»»» Important

- If the application used to create your document has a similar function, specify the number of copies with the application without specifying it here.

Print from Last Page

Check this check box when you want to print from the last page in order. If you do this, you do not need to sort the pages into their correct order after printing.

Uncheck this check box to print your document in normal order, starting from the first page.

Collate

Check this check box to group together the pages of each copy when you want to print multiple copies. Uncheck this check box when you want to print with all pages of the same page number grouped together.

»»» Important

- When the application software that you used to create the document has the same function, give priority to the printer driver settings. However, if the print results are not acceptable, specify the function settings on the application software. When you specify the number of copies and the printing order with both the application and this printer driver, the number of copies may be multiplied numbers of the two settings or the specified printing order may not be enabled.

Orientation

Selects the printing orientation.

If the application used to create your document has a similar function, select the same orientation that you selected in that application.

Portrait

Prints the document so that its top and bottom positions are unchanged relative to the paper feed direction. This is the default setting.

Landscape

Prints the document by rotating it 90 degrees relative to the paper feed direction.

You can change the rotation direction by going to the [Maintenance tab](#), opening the **Custom Settings** dialog box, and then using **Rotate 90 degrees left when orientation is [Landscape]** check box.

To rotate the document 90 degrees to the left when printing, select the **Rotate 90 degrees left when orientation is [Landscape]** check box.

Rotate 180 degrees

Prints the document by rotating it 180 degrees against the paper feed direction.

The width of print area and the amount of extension that are configured in other application software will be reversed vertically and horizontally.

Page Layout

Selects the size of the document you want to print and the type of printing.

1 on 1 to 16 on 1

Multiple pages of document can be printed on one sheet of paper. To change the page order, click **Preferences...** In the [Page Layout Printing dialog box](#) that appears, specify **Page Order**.

Poster (1 x 2) to Poster (4 x 4)

This function enables you to enlarge the image data and divide the enlarged data into several pages to be printed.

You can also glue together these sheets of paper to create large printed matter, such as a poster.

Preferences...

Opens the [Poster Printing dialog box](#).

Click this button to set details on tiling/poster printing.

Zoom

Specifies an enlargement or reduction ratio for the document you want to print.

1-sided/2-sided/Booklet Printing

1-sided Printing

Select when performing single-sided printing.

2-sided Printing

Select when performing duplex printing.

Automatic

Selects whether duplex printing is to be performed automatically or manually.

To perform duplex printing manually, uncheck this check box.

Booklet Printing

The booklet printing function allows you to print data for a booklet. Data is printed on both sides of the paper. This type of printing ensures that pages can be collated properly, in page number order, when the printed sheets are folded and stapled at the center.

Automatic

Selects whether duplex printing is to be performed automatically or manually.

To perform duplex printing manually, uncheck this check box.

Preferences...

[Opens the Booklet Printing dialog box](#). Click this button to set details on booklet printing.

Binding Location

Selects the stapling margin position.

The printer analyzes the **Orientation** and **Page Layout** settings, and automatically selects the best stapling margin position. Check **Binding Location**, and select from the list to change it. To specify the width of the binding margin, set it from the **Page Setup** tab.

Specify Margin...

[Opens the Specify Margin dialog box](#). You can specify the width of the margin.

Print Options...

Opens the [Print Options dialog box](#).

Changes detailed printer driver settings for print data that is sent from applications.

Stamp/Background...

Opens the [Stamp/Background dialog box](#).

The **Stamp** function allows you to print a stamp text or a bitmap over or behind document data. It also allows you to print date, time and user name. The **Background** function allows you to print a light illustration behind the document data.

Depending on the environment, **Stamp** and **Background** may not be available.

Defaults

Restores all the settings you have changed to their default values.

Clicking this button restores all the settings on the current screen to their default values (factory settings).

Custom Paper Size dialog box

This dialog box allows you to specify the size (width and height) of the custom paper.

Units

Select the unit for entering a user-defined paper size.

Paper Size

Specifies the **Width** and the **Height** of the custom paper. Measurement is shown according to the units specified in **Units**.

Page Layout Printing dialog box

This dialog box allows you to select the number of document pages to be placed on one sheet of paper, the page order, and whether a page border line is to be printed around each document page.

The settings specified in this dialog box can be confirmed in the settings preview on the printer driver.

Page Order

Specifies the document orientation to be printed on a sheet of paper.

Page Border

Prints a page border line around each document page.

Check this check box to print the page border line.

Poster Printing dialog box

This dialog box allows you to select the size of the image to be printed. You can also make settings for cut lines and paste markers which are convenient for pasting together the pages into a poster.

The settings specified in this dialog box can be confirmed in the settings preview on the printer driver.

Print "Cut/Paste" in margins

Specifies whether to print the words "Cut" and "Paste" in the margins. These words serve as guidelines for pasting together the pages into a poster.

Check this check box to print the words.

»»» Note

- Depending on the environment of the printer driver you are using, this function may not be available.

Print "Cut/Paste" lines in margins

Specifies whether to print cut lines that serve as guidelines for pasting together the pages into a poster.

Check this check box to print the cut lines.

Print page range

Specifies the printing range. Select **All** under normal circumstances.

Select **Pages** to specify a specific page or range.

»»» Note

- If some of the pages have not been printed well, specify the pages that do not need to be printed by clicking them in the settings preview of the **Page Setup** tab. Only the pages shown on the screen will be printed this time.

Booklet Printing dialog box

This dialog box allows you to set how to bind the document as a booklet. Printing only on one side and printing a page border, can also be set in this dialog box.

The settings specified in this dialog box can be confirmed in the settings preview on the printer driver.

Preview Icon

Shows the settings made on the **Booklet Printing** dialog box.

You can check what the document will look like when printed as a booklet.

Margin for stapling

Specifies which side of the booklet is to be stapled.

Insert blank page

Selects whether to print the document on one side or both sides of the booklet.

Check this check box to print the document on one side of the booklet and select the side to be left blank from the list.

Margin

Specifies the width of the stapling margin.

The specified width becomes the stapling margin from the center of the sheet.

Page Border

Prints a page border line around each document page.

Check this check box to print the page border line.

Specify Margin dialog box

This dialog box allows you to specify the margin width for the side to be stapled. If a document does not fit on one page, the document is reduced when printed.

Margin

Specifies the width of the stapling margin.

The width of the side specified by **Binding Location** becomes the stapling margin.

Print Options dialog box

Makes changes to print data that is sent to the printer.

Depending on the environment, this function may not be available.

Disable ICM required from the application software

Disables the ICM function required from the application software.

When an application software uses Windows ICM to print data, unexpected colors may be produced or the printing speed may decrease. If these problems occur, checking this check box may resolve the problems.

▶▶▶ Important

- Uncheck this check box under normal circumstances.
- This function does not work when **ICM** is selected for **Color Correction** on the **Matching** tab of the **Manual Color Adjustment** dialog box.

Disable the color profile setting of the application software

Checking this check box disables information in the color profile that was set on the application software.

When the information in the color profile set on the application software is output to the printer driver, the print result may contain unexpected colors. If this happens, checking this check box may resolve the problem.

▶▶▶ Important

- Uncheck this check box under normal circumstances.
- Even when this check box is checked, only some of the information in the color profile is disabled, and the color profile can still be used for printing.

Disable the paper source setting of the application software

Disables the paper feed method that is set by the application.

With some applications such as Microsoft Word, the data may be printed with a feed method that differs from the printer driver setting. In this case, check this function.

▶▶▶ Important

- When this function is enabled, normally the paper feeding method cannot be changed from the Canon IJ Preview.

Ungroup Papers

Sets the display method of **Media Type**, **Page Size**, and **Printer Paper Size**.

To display the items separately, select the check box.

To display the items as a group, clear the check box.

Do not allow application software to compress print data

Compression of the application software print data is prohibited.

If the print result has missing image data or unintended colors, selecting this check box may improve the condition.

»»» Important

- Uncheck this check box under normal circumstances.

Print after creating print data by page

The print data is created in page units, and printing starts after the processing of one page of print data is complete.

If a printed document contains unintended results such as streaks, selecting this check box may improve the results.

»»» Important

- Uncheck this check box under normal circumstances.

Print barcodes clearly

If you add a checkmark, it might solve readability issues with barcodes.

»»» Important

- 2D barcodes are not supported.
- Print speed might become slower.
- The desired effectiveness might not be achieved.

Improve bleeding and thickened black text/lines (plain paper)

If you add a checkmark, it may improve blurring in text and lines when printing on plain paper.

Prevention of Print Data Loss

You can reduce the size of the print data that was created with the application software and then print the data.

Depending on the application software being used, the image data may be cut off or may not be printed properly. In such cases, select **On**. If you will not be using this function, select **Off**.

»»» Important

- When using this function, the print quality may drop depending on the print data.

Unit of Print Data Processing

Selects the processing unit of the print data to be sent to the printer.

Select **Recommended** under normal circumstances.

»»» Important

- A large amount of memory may be used for certain settings.
Do not change the setting if your computer has a small amount of memory.

Specify print start position

Select this to make fine adjustments to the print start position.

Click **Set...** to display the **Print Start Position** dialog box and configure the print start position.

Stamp/Background dialog box

Depending on the environment, **Stamp** and **Background** may not be available.

The **Stamp/Background** dialog box allows you to print a stamp and/or background over or behind the document pages. In addition to the pre-registered ones, you can register and use your original stamp or background.

Stamp

Stamp printing is a function that prints a stamp over a document.

Check this check box and select a title from the list to print a stamp.

Define Stamp...

Opens the [Stamp Settings dialog box](#).

You can check the details of a selected stamp or save a new stamp.

Place stamp over text

Sets how the stamp is to be printed over the document.

Check the **Stamp** check box to enable this.

Check this check box to print a stamp over the printed document page. The printed data may be hidden behind the stamp.

Uncheck this check box to print the document data over the stamp. The printed data will not be hidden behind the stamp. However, the sections of the stamp that are overlapped by the document may be hidden.

Stamp first page only

Selects whether the stamp is to be printed on the first page only or on all pages when the document has two or more pages.

Check the **Stamp** check box to enable this.

Check this check box to print a stamp on the first page only.

Background

Background printing is a function that allows you to print an illustration or a similar object (bitmap) behind the document.

Check this check box to print a background and select a title from the list.

Select Background...

Opens the [Background Settings dialog box](#).

You can register a bitmap as a background, and change layout method and intensity of the selected background.

Background first page only

Selects whether to print the background on the first page only or print on all pages when the document has two or more pages.

Check the **Background** check box to enable this.

Check this check box to print a background on the first page only.

Stamp Tab

The Stamp tab allows you to set the text and bitmap file (.bmp) to be used for a stamp.

Preview Window

Shows the status of the stamp configured in each tab.

Stamp Type

Specifies the stamp type.

Select **Text** to create a stamp with characters. Select **Bitmap** to create with a bitmap file. Select **Date/Time/User Name** to display the creation date/time and user name of the printed document.

The setting items in the **Stamp** tab change depending on the selected type.

- For **Text** registration, the characters must already be entered in **Stamp Text**. If necessary, change the **TrueType Font**, **Style**, **Size**, and **Outline** settings. You can select the color of the stamp by clicking **Select Color....**
- For **Bitmap**, click **Select File...** and select the bitmap file (.bmp) to be used. If necessary, change the settings of the **Size** and **Transparent white area**.
- For **Date/Time/User Name**, the creation date/time and user name of the printed object are displayed in **Stamp Text**. If necessary, change the settings of **TrueType Font**, **Style**, **Size**, and **Outline**. You can select the color of the stamp by clicking **Select Color....**

When **Stamp Type** is **Text** or **Date/Time/User Name**

Stamp Text

Specifies the stamp text string.

Up to 64 characters can be entered.

For **Date/Time/User Name**, the creation date/time and user name of the printed object are displayed in **Stamp Text**.

TrueType Font

Selects the font for the stamp text string.

Style

Selects the font style for the stamp text string.

Size

Selects the font size for the stamp text string.

Outline

Selects a frame that encloses the stamp text string.

If a large font size is selected for **Size**, characters may extend outside of the stamp border.

Color/Select Color...

Shows the current color for the stamp.

To select a different color, click **Select Color...** to open the **Color** dialog box, and select or create a color you wish to use as a stamp.

When **Stamp Type** is **Bitmap**

File

Specifies the name of the bitmap file to be used as the stamp.

Select File...

Opens the dialog box to open a file.

Click this button to select a bitmap file to be used as a stamp.

Size

Adjusts the size of the bitmap file to be used as a stamp.

Moving the slider to the right increases the size, moving the slider to the left decreases the size.

Transparent white area

Specifies whether to make white-filled areas of the bitmap transparent.

Check this check box to make white-filled areas of the bitmap transparent.

►►► Note

- Click **Defaults** to set **Stamp Type** to text, **Stamp Text** to blank, **TrueType Font** to Arial, **Style** to Regular, **Size** to 36 points, **Outline** unchecked, and **Color** to gray with the RGB values (192, 192, 192).

Placement Tab

The Placement tab allows you to set the position where the stamp is to be printed.

Preview Window

Shows the status of the stamp configured in each tab.

Position

Specifies the stamp position on the page.

Selecting **Custom** from the list allows you to enter values for the **X-Position** and **Y-Position** coordinates directly.

You can also change the stamp position by dragging the stamp in the preview window.

Rotation

Specifies the angle of rotation for the stamp. The angle can be set by entering the number of degrees.

Negative values rotate the stamp clockwise.

►►► Note

- **Rotation** is enabled only when **Text** or **Date/Time/User Name** is selected for **Stamp Type** on the **Stamp** tab.

►►► Note

- Click **Defaults** to set the stamp position to **Center** and the rotation to "0."

Save settings Tab

The **Save settings** tab allows you to register a new stamp or delete an unnecessary stamp.

Title

Enter the title to save the stamp you created.

Up to 64 characters can be entered.

►►► Note

- Spaces, tabs, and returns cannot be entered at the beginning or end of a title.

Stamps

Shows a list of saved stamp titles.

Specify a title to display the corresponding stamp in **Title**.

Save/Save overwrite

Saves the stamp.

Enter a title in **Title**, and then click this button.

Delete

Deletes an unnecessary stamp.

Specify the title of an unnecessary stamp from the **Stamps** list, and click this button.

Background Tab

The Background tab allows you to select a bitmap file (.bmp) to be used as a background or determine how to print the selected background.

Preview Window

Shows the status of the bitmap set on the **Background** tab.

File

Specifies the name of the bitmap file to be used as the background.

Select File...

Opens the dialog box to open a file.

Click this button to select a bitmap file (.bmp) to be used as the background.

Layout Method

Specifies how the background image is to be placed on the paper.

When **Custom** is selected, you can set coordinates for **X-Position** and **Y-Position**.

You can also change the background position by dragging the image in the preview window.

Intensity

Adjusts the intensity of the bitmap to be used as a background.

Moving the slider to the right increases the intensity, and moving the slider to the left decreases the intensity. To print the background at the original bitmap intensity, move the slider to the rightmost position.

►►► Note

- Depending on the environment, this function may not be available.
- Click **Defaults** to set **File** to blank, **Layout Method** to **Fill page**, and the **Intensity** slider to the middle.

Save settings Tab

The **Save settings** tab allows you to register a new background or delete an unnecessary background.

Title

Enter the title to save the background image you specified.

Up to 64 characters can be entered.

►►► Note

- Spaces, tabs, and returns cannot be entered at the beginning or end of a title.

Backgrounds

Shows a list of registered background titles.

Specify a title to display the corresponding background in **Title**.

Save/Save overwrite

Saves the image data as a background.

After inserting the **Title**, click this button.

Delete

Deletes an unnecessary background.

Specify the title of an unnecessary background from the **Backgrounds** list, and then click this button.

Setting the Number of Copies and Printing Order

You can also set the number of copies on the **Basic Settings** tab.

1. Open the [printer driver setup window](#)

2. Specify the number of copies to be printed

For **Copies** on the **Page Setup** tab, specify the number of copies to be printed.

3. Specify the print order

Check the **Print from Last Page** check box when you want to print from the last page in order, and uncheck the check box when you want to print from the first page.

Check the **Collate** check box when you are printing multiple copies of a document and want to print out all pages in each copy together. Uncheck this check box when you want to print all pages with the same page number together.

• **Print from Last Page:** / **Collate:**

• **Print from Last Page:** / **Collate:**

• **Print from Last Page:** / **Collate:**

• **Print from Last Page:** / **Collate:**

4. Click **OK**

When you perform print, the specified number of copies will be printed with the specified printing order.

»» Important

- When the application software that you used to create the document has the same function, specify the settings on the printer driver. However, if the print results are not acceptable, specify the function settings on the application software. When you specify the number of copies and the printing order with both the application software and this printer driver, the number of copies may be multiplied numbers of the two settings or the specified printing order may not be enabled.

»» Note

- By setting both **Print from Last Page** and **Collate**, you can perform printing so that papers are collated one by one starting from the last page.

Page Layout Printing

The page layout printing function allows you to print more than one page image on a single sheet of paper.

1. Open the [printer driver setup window](#)

2. Set page layout printing

Select a page layout number from **1 on 1** to **16 on 1** from the **Page Layout** list on the **Page Setup** tab. The current settings are displayed in the settings preview on the left side of the printer driver.

3. Select the print paper size

Select the size of the paper loaded in the printer from the **Printer Paper Size** list.

4. Set the number of pages to be printed on one sheet and the page order

If necessary, click **Preferences...**, specify the following settings in the **Page Layout Printing** dialog box, and click **OK**.

Page Order

To change the page arrangement order, select a placement method from the list.

Page Border

To print a page border around each document page, check this check box.

5. Complete the setup

Click **OK** on the **Page Setup** tab.

When you perform print, the specified number of pages will be arranged on each sheet of paper in the specified order.

Duplex Printing

You can also set duplex printing in the **Basic Settings** tab.

Performing Automatic Duplex Printing

You can perform the duplex printing without having to turn over the paper.

1. Open the [printer driver setup window](#)

2. Set automatic duplex printing

Select **2-sided Printing** for **1-sided/2-sided/Booklet Printing** on the **Page Setup** tab. Confirm that **Automatic** is checked.

3. Select the layout

Select the layout you want to use from the **Page Layout** list.

4. Specify the side to be stapled

The best **Binding Location** is selected automatically from the **Orientation** and **Page Layout** settings. To change the setting, select another stapling side from the **Binding Location** list.

5. Set the margin width

If necessary, click **Specify Margin...** and set the margin width, and then click **OK**.

6. Complete the setup

Click **OK** on the **Page Setup** tab.

When you perform print, duplex printing will be started.

Performing Duplex Printing Manually

You can perform the duplex printing manually.

1. Open the [printer driver setup window](#)

2. Set duplex printing

Select **2-sided Printing** from **1-sided/2-sided/Booklet Printing** on the **Page Setup** tab. Uncheck the **Automatic** check box.

3. Select the layout

Select the layout you want to use from the **Page Layout** list.

4. Specify the side to be stapled

The best **Binding Location** is selected automatically from the **Orientation** and **Page Layout** settings. To change the setting, select another stapling side from the **Binding Location** list.

5. Set the margin width

If necessary, click **Specify Margin...** and set the margin width, and then click **OK**.

6. Complete the setup

Click **OK** on the **Page Setup** tab.

When you perform print, the document is first printed on one side of a sheet of paper. After one side is printed, reload the paper correctly according to the message.

Then tap **Start print** on the printer operation panel to print the opposite side.

Important

- Automatic duplex printing can be performed only when one of the following paper sizes is selected from **Page Size** on the **Page Setup** tab.
 - **Letter 8.5"x11" 22x28cm, A4**
- After printing the front page, there is an ink drying wait time before starting to print the back page (Operation stops temporarily). Do not touch the paper during this time. You can change the ink drying wait time at **Custom Settings** in the Canon IJ Printer Assistant Tool.

Overview of the Printer Driver

- **Canon IJ Printer Driver**
 - Opening Printer Driver's Setup Screen
- **Canon IJ Status Monitor**
- **Instructions for Use (Printer Driver)**

Canon IJ Printer Driver

The Canon IJ printer driver (simply called printer driver below) is software that you install onto your computer so that it can communicate with the printer.

The printer driver converts the print data created by your application software into data that your printer can understand, and sends the converted data to the printer.

Because different models support different print data formats, you need a printer driver for the specific model you are using.

Installing the Printer Driver

To install the printer driver, install the driver from the Setup CD-ROM or our website.

Specifying the Printer Driver

To specify the printer driver, open the **Print** dialog box of the application software you are using, and select "Canon XXX" (where "XXX" is your model name).

Displaying the Manual from the Printer Driver

To display the description of a setup tab from the printer driver's setup screen, click **Help** on that tab.

Opening Printer Driver's Setup Screen

You can display the printer driver's setup screen from your application software or by clicking the printer icon.

Displaying the Printer Driver's Setup Screen from Your Application Software

Perform this procedure to set up the print settings during printing.

1. Select print command from application software

The **Print** command can generally be found in the **File** menu.

2. Select your printer model, and click **Preferences** (or **Properties**)

The printer driver's setup screen appears.

▶▶▶ Note

- Depending on the application software you are using, the command and menu names, and the number of steps may vary. For details, refer to the operating instructions of your application software.

Displaying the Printer Driver's Setup Screen by Clicking the Printer Icon

From the setup screen you can perform printer maintenance operations such as print head cleaning, or set print settings to be shared by all application software.

1. Select **Control Panel -> Hardware and Sound -> Devices and Printers**

2. Right-click the icon of your model. When the menu appears, select **Printing preferences**

The printer driver's setup screen appears.

▶▶▶ Important

- Opening the printer driver setup window through **Printer properties** displays such tabs regarding the Windows functions as the **Ports** (or **Advanced**) tab. Those tabs do not appear when opening through **Printing preferences** or application software. For tabs regarding Windows functions, refer to the user's manual for the Windows.

Canon IJ Status Monitor

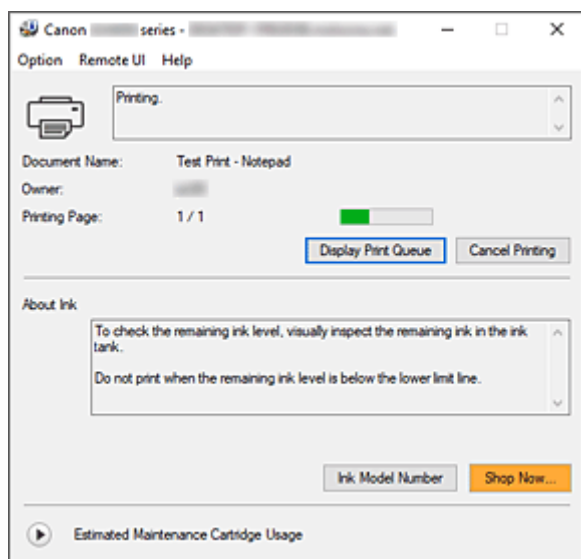

The Canon IJ Status Monitor displays the printer status and the printing progress. The printer status is shown by the icons and messages in the status monitor.

Launching the Canon IJ Status Monitor

The Canon IJ Status Monitor launches automatically when print data is sent to the printer. When launched, the Canon IJ Status Monitor appears as a button on the task bar.

Click the button of the status monitor displayed on the task bar. The Canon IJ Status Monitor appears.

Note

- To open the Canon IJ Status Monitor when the printer is not printing, open the [printer driver setup window](#) and click **View Printer Status** on the **Maintenance** tab.
- The information displayed on the Canon IJ Status Monitor may differ depending on the country or region where you are using your printer.

When Errors Occur

The Canon IJ Status Monitor is automatically displayed if an error occurs (e.g., if the printer runs out of paper or if the ink is low).

In such cases, take the appropriate action as described.

➔ [Canon IJ Status Monitor Description](#)

Instructions for Use (Printer Driver)

This printer driver is subject to the following restrictions. Keep the following points in mind when using the printer driver.

Restrictions on the Printer Driver

- Depending on the document type to be printed, the paper feed method specified in the printer driver may not operate correctly.
If this happens, open the [printer driver setup window](#) from the **Print** dialog box of the application software, and check the setting in the **Paper Source** field on the **Media/Quality** tab.
- With some applications, the **Copies** setting in the **Page Setup** tab of the printer driver may not be enabled.
In this case, use the copies setting in the **Print** dialog box of the application software.
- If the selected **Language** in the **About** dialog box of the **Maintenance** tab does not match the operating system interface language, the printer driver setup window may not be displayed properly.
- Do not change the **Advanced** tab items of the printer properties. If you change any of the items, you will not be able to use the following functions correctly.
Also, if **Print to file** is selected in the **Print** dialog box of the application software and with applications that prohibit EMF spooling, the following functions will not operate.
 - **Preview before printing** on the **Media/Quality** tab
 - **Prevention of Print Data Loss** in the **Print Options** dialog box on the **Page Setup** tab
 - **Automatic** when **2-sided Printing** is selected from **1-sided/2-sided/Booklet Printing** on the **Page Setup** tab
 - **Booklet Printing** in **1-sided/2-sided/Booklet Printing** on the **Page Setup** tab
 - **Print from Last Page, Collate, Specify Margin...**, and **Stamp/Background...** on the **Page Setup** tab
- Since the resolution in the preview display differs from the printing resolution, text and lines in the preview display may appear different from the actual print result.
- With some applications, the printing is divided into multiple print jobs.
To cancel printing, delete all divided print jobs.
- If image data is not printed correctly, display the **Print Options** dialog box from the **Page Setup** tab and change the setting of **Disable ICM required from the application software**. This may solve the problem.
- If you are using a model that has a card slot, the card slot of the printer may become inaccessible. In such cases, restart the printer or turn it off and reconnect the USB cable.

Points to Note About Applications with Restrictions

- There are following restrictions in Microsoft Word (Microsoft Corporation).
 - When Microsoft Word has the same printing functions as the printer driver, use Word to specify them.
 - When a setting from **2 on 1** to **16 on 1** or **Zoom** is used for **Page Layout** on the **Page Setup** tab of the printer driver, the document may not print normally in certain versions of Word.

- When **Page Size** in Word is set to "XXX Enlarge/Reduce," the document may not print normally in certain versions of Word.

If this happens, follow the procedure below.

1. Open Word's **Print** dialog box.
 2. Open the [printer driver setup window](#), and on the **Page Setup** tab, set **Page Size** to the same paper size that you specified in Word.
 3. Set **Booklet Printing** in **Page Layout** or **1-sided/2-sided/Booklet Printing** according to your requirements.
 4. Click OK to close the window.
 5. Without starting printing, close the **Print** dialog box.
 6. Open Word's **Print** dialog box again.
 7. Open the printer driver setup window and click **OK**.
 8. Start printing.
- If bitmap printing is enabled in Adobe Illustrator (Adobe Incorporated), printing may take time or some data may not be printed. Print after unchecking the **Bitmap Printing** check box in the **Print** dialog box.

Maintenance Tab Description

The **Maintenance** tab allows you to start the Canon IJ Printer Assistant Tool or check the status of the printer.

Maintenance and Preferences

Canon IJ Printer Assistant Tool is started.

You can perform printer maintenance or change the settings of the printer.

Custom Settings

Opens the [Custom Settings dialog box](#).

Perform this function to change the settings of this printer.

▶▶▶ Note

- If the printer is off or if communication between the printer and the computer is disabled, an error message may appear because the computer cannot collect the printer status. If this happens, click **OK** to display the most recent settings specified on your computer.

View Printer Status

Starts the Canon IJ Status Monitor.

Perform this function when you want to check the printer status and how a print job is proceeding.

About

Opens the [About dialog box](#).

The version of the printer driver, plus a copyright notice, can be checked.

In addition, the language to be used can be switched.

Custom Settings dialog box

When you click **Custom Settings**, the **Custom Settings** dialog box is displayed.

If necessary, switch between various modes of printer operation.

Rotate 90 degrees left when orientation is [Landscape]

On the **Page Setup** tab, you can change the rotation direction of the **Landscape** in the **Orientation**.

To rotate the print data 90 degrees to the right during printing, uncheck this check box.

►►► Important

- Do not change this setting while the print job is displayed in the print wait list. Otherwise, characters may be omitted or the layout may become corrupt.

►►► Note

- If **Envelope Com 10**, **Envelope DL**, **Yougata 4 4.13"x9.25"**, **Yougata 6 3.86"x7.48"**, **Envelope C5**, or **Envelope Monarch 3.88"x7.5" 98.4x190.5mm** is selected for **Page Size** on the **Page Setup** tab, the printer rotates the paper 90 degrees to the left to print, regardless of the **Rotate 90 degrees left when orientation is [Landscape]** setting.

Do not detect mismatched paper settings when printing from a computer

When you print documents from your computer, the paper settings in the printer driver and the paper information registered on the printer do not match, this setting disables the message display and allows you to continue printing.

To disable detection of paper setting mismatches, check this check box.

About dialog box

When you click **About**, the **About** dialog box is displayed.

This dialog box displays the version, copyright, and module list of the printer driver. You can select the language to be used and switch the language displayed in the setup window.

Modules

Lists the printer driver modules.

Language

Specifies the language you wish to use in the [printer driver setup window](#).

►►► Important

- If the font for displaying the language of your choice is not installed in your system, the characters will be garbled.

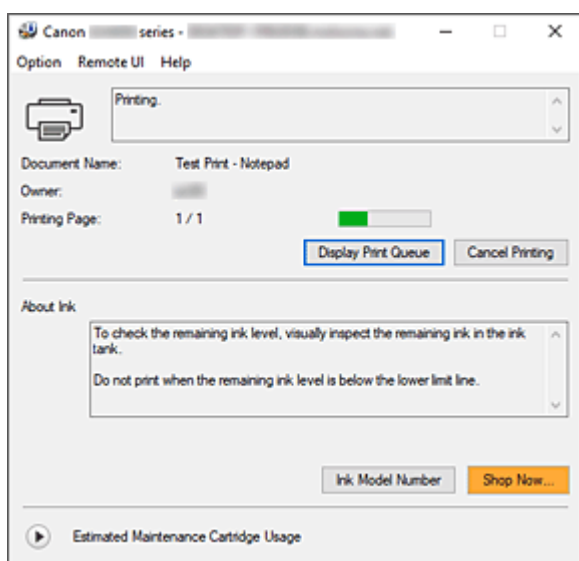

Allow Google Analytics to send information

To stop sending information, uncheck this check box.

The check box appears only if a user with administrator privileges is logged on. If information is not provided, the check box will not appear.

Canon IJ Status Monitor Description

The Canon IJ Status Monitor displays the printer status and the printing progress. The printer status is shown by the icons and messages in the status monitor.

Features of the Canon IJ Status Monitor

The Canon IJ Status Monitor has the following functions:

Onscreen display of printer status

The status monitor displays the printer status in real-time.

You can check the progress of each document to be printed (print job).

Display of error content and correction procedure

The status monitor displays information on any errors that occur on the printer.

You can then immediately check what sort of action to perform.

Overview of the Canon IJ Status Monitor

The Canon IJ Status Monitor displays icons and messages related to printer status and ink.

During printing, you can check information about the document being printed and the print progress.

If an error occurs, the status monitor displays the error content and instructions on how to correct the error. Follow the message instructions.

Printer

Canon IJ Status Monitor shows an icon when a warning or error occurs to the printer.

: There is a warning.

: There has been an operator error.

: There is a notice about something other than a warning or an error.

: There has been an error which requires a service.

Document Name

Name of the document being printed.

Owner

Owner's name of the document being printed.

Printing Page

Page number of current page and the total page count.

Display Print Queue

The print queue, which controls the current document and documents waiting to be printed.

Cancel Printing

Cancels printing.

About Ink

Displays messages about ink.

Ink Model Number

You can look up the correct ink model number for your printer.

Estimated Maintenance Cartridge Usage

Displays icons to report that the available space in the maintenance cartridge is low or the cartridge is full.

Click  (the disclosure triangle) to display a pictorial representation of the estimated usage amount in the maintenance cartridge.

Option Menu

If a printer message appears, select **Enable Status Monitor** to start the Canon IJ Status Monitor.

Select **Enable Status Monitor** to use the following commands:

Always Display Current Job

Displays the Canon IJ Status Monitor whenever a document is being printed.

Always Display on Top

Displays the Canon IJ Status Monitor in front of other windows.

Display Guide Message

Displays guide messages for complicated paper setting operations.

Envelope Printing

Displays a guide message when envelope printing starts.

To hide this guide message, select the **Do not show this message again** check box.

To display the guide message again, open the **Option** menu, select **Display Guide Message**, click **Envelope Printing**, and enable this setting.

Display Warning Automatically**When a Maintenance Cartridge Warning Occurs**

When a maintenance cartridge remaining space warning occurs, the Canon IJ status monitor starts automatically and appears in front of all other windows.

Start when Windows is Started

Automatically starts the Canon IJ Status Monitor when Windows is started.

Remote UI menu

You are able to open the printer's Remote User Interface.

You are able to check the printer status and run maintenance functions on the printer when connected to and using it through a network.

»» Note

- When the printer is being used via USB connection **Remote UI** will not display.

Printer Information

Allows you check detailed information, such as the printer status, the print progress, and remaining ink levels.

Maintenance

Allows you to run printer maintenance and change printer settings.

Download Security Certificate

Displays the **For secure communication** window.

This window allows you to download the route certificate, register it to the browser, and disable warning displays.

Help Menu

Select this menu to display Help information for the Canon IJ Status Monitor including version and copyright information.

Updating the Driver

Drivers include a printer driver and MP Drivers. The MP Drivers include a printer driver, ScanGear (scanner driver), and fax driver.

By updating the Driver to the latest version of the Driver, unresolved problems may be solved.

»»» Important

- Check the following if you want to install or delete drivers.
 - Log on as a user who has the administrator account.
 - Terminate all running applications.

- [Installing the Driver](#)
- [Deleting the Unnecessary Driver](#)

Installing the Driver

1. Turn on the printer

2. Start the installer

Double-click the icon of the downloaded file.
The installation program starts.

3. Install the driver

Take the appropriate action as described on the screen.

4. Complete the installation

Click **Exit**.

Depending on the environment you are using, a message prompting you to restart the computer may be displayed. To complete the installation properly, restart the computer.

»»» Important

- You can download the driver for free, but any Internet access charges incurred are your responsibility.

Deleting the Unnecessary Driver

The printer driver which you no longer use can be deleted.

1. Start the uninstaller

Select **Control Panel -> Programs -> Programs and Features**.

From the program list, select "Canon XXX MP Drivers" (where "XXX" is your model name) and then click Uninstall.

The confirmation window for uninstalling the model appears.

2. Perform the uninstaller

Click **Start**. When the confirmation message appears, click **Yes**.

When all the files have been deleted, click **Complete**.

The deletion of the Driver is complete.

Printing from Application Software (macOS AirPrint)

- **Printing** 📄 **Basic**
- **Printing on Postcards**
- **Adding Printer**
- **How to Open Printer Settings Screen**
- **Displaying the Printing Status Screen**
- **Deleting the Undesired Print Job**
- **Removing Printer That Is No Longer Required from List of Printers**

Printing

This printer is compatible with the macOS standard printing system (AirPrint). You can start printing right away after connecting this printer to your Mac without installing any special software.

Checking Your Environment

First, check your environment.

- AirPrint Operation Environment
 - Mac running the latest version of OS
- Requirement
 - The Mac and the printer must be connected by one of the following methods:
 - Connected to the same network over a **LAN**
 - Connected directly without wireless router (Direct Connection)
 - Connected by USB

Print from a Mac

1. [Check that printer is turned on](#)

▶▶▶ Note

- If **Auto power on** is enabled, printer automatically turns itself on when receiving a print job.

2. [Load paper](#) in printer
3. Select paper size and paper type from printer
 - Register the set paper size and paper type on the printer operation panel.
 - For instructions, see "[Paper Settings](#)."
4. Start printing from your application software
 - The Print dialog opens.
5. Select printer
 - Select your model from the **Printer** list in the Print dialog.

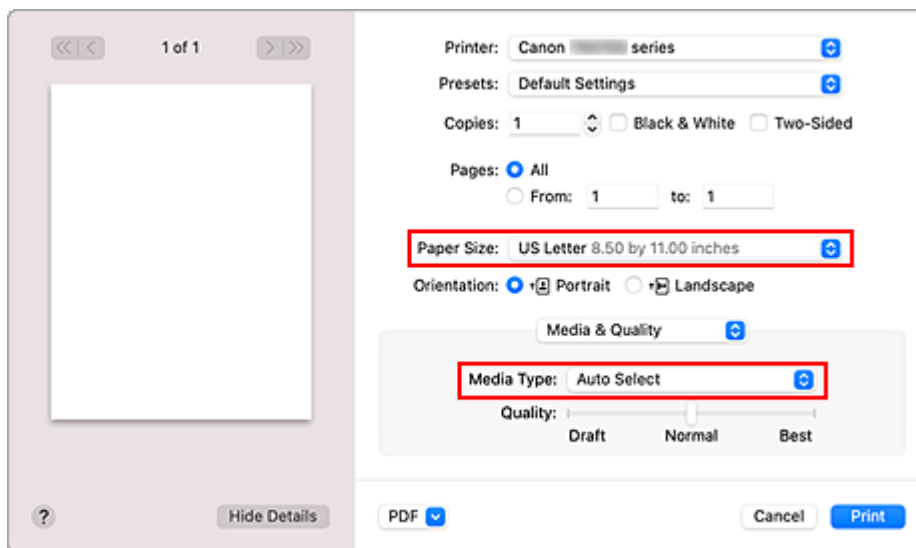

»» Note

- Click **Show Details** to switch the setup window to the detailed display.

6. Check print settings

Set items such as **Paper Size** to the appropriate size, as well as **Feed from** and **Media Type** from **Media & Quality** of the pop-up menu.

Remove the **Two-Sided** check mark if you are not printing on both sides of the paper.

»» Important

- An error may occur if the paper size set in the print dialog is different from the paper size registered on the printer. Select the correct items on the print dialog and the printer that correspond to the paper being printed.
- If you selected **Auto Select** in **Feed from**, the feed position will be different. Only **A4**, **A5**, **JIS B5**, **Executive**, and **US Letter** plain paper can be fed from the cassette (main tray).
- If printing paper such as photo paper and postcards that cannot be printed on both sides, uncheck the **Two-Sided** checkbox.

▶▶▶ Note

- Use the Print dialog to set general print settings such as the layout and the print sequence. For information about print settings, refer to macOS help.

7. Click **Print**

The printer prints according to the specified settings.

▶▶▶ Important

- If you are performing large-format printing, make sure that there is plenty of remaining ink.
- If you set a custom paper size in **Paper Size** and set it to a length longer than the specified length, the data will be printed with the "Media Type: Plain Paper, Print Quality: Standard" setting.

▶▶▶ Note

- It can take the Wi-Fi a few minutes to get connected after the printer turns on. Print after checking that the printer is connected to the network.
- You cannot print if Bonjour settings of printer are disabled. Check **LAN** settings of printer and enable Bonjour settings.
- Refer to "Cannot Print Using AirPrint" for printing problems.
- The display of the settings screen may differ depending on the application software you are using.

Printing of Envelopes

For printing on the envelope from Mac, refer to the following.

Print result image	Orientation of print data	Orientation of loading envelope
	 <p>The print data is rotated by 180 degrees against the print result image.</p>	 <p>Load the envelope in vertically with the address side facing up so that the folded flap of the envelope will be faced down on the right side.</p>

Printing on Postcards

This section describes the procedure for printing on postcards.

1. [Load postcards](#) in printer

2. Select paper size and paper type from the printer

Register **Hagaki** for paper size from the printer operation panel.

Also, register **Ink Jet Hagaki**, **Hagaki K**, or **Hagaki** for paper type, according to your purpose. When you print on the address side, register **Hagaki**.

3. Select **Paper Size** and **Media Type** from the print dialog

Select **Postcard** for **Paper Size** from the print dialog.

Select the Hagaki you want to use for **Media Type** from the print dialog.

▶▶▶ Important

- This printer cannot print on postcards that have photos or stickers attached.

4. Uncheck **Two-Sided**

▶▶▶ Important

- Two-sided printing is not possible for postcards, so remove the **Two-Sided** check mark. If you print with the **Two-Sided** check mark on, the printing result may not be as you intended.
- You will get cleaner printing if you print the message side first and then print the address side.

5. Click **Print**

The printer prints according to the specified settings.

Adding Printer

This section describes the procedure for adding a printer to your Mac.

To re-add a printer that was deleted, open **System Preferences** -> **Printers & Scanners**, click **+** next to the printer list, and then perform the procedure described below.

If your printer is connected via USB, and you connect the USB cable to a Mac, the printer is automatically added. The below procedure is not necessary in this case.

1. Check whether **Default** is selected in the displayed dialog

▶▶▶ Note

- It may take a little time for your printer to appear.

2. Select the printer

Select the printer listed as **Bonjour Multifunction**.

▶▶▶ Note

- Check the following if printer does not appear.
 - Printer is on
 - Firewall function of the security software is off
 - In case of Wi-Fi connection: Printer is either connected to the wireless router or directly connected to the PC (Direct Connection)
 - In case of wired **LAN** connection: Printer is connected to the network device via **LAN** cable

3. Select your printer or **Secure AirPrint** from **Use**

4. Click **Add**

The printer is added to your Mac.

How to Open Printer Settings Screen

The settings screen of the printer can be displayed from your application software.

Opening the Page Setup Dialog

Use this procedure to set the page (paper) settings before printing.

1. Select **Page Setup...** from the **File** menu of the application software

The Page Setup dialog opens.

Opening the Print Dialog

Use this procedure to set the print settings before printing.

1. Select **Print...** from the **File** menu of the application software

The Print dialog opens.

Displaying the Printing Status Screen

Check the print progress according to the following procedure:

1. Launch the printing status screen

- If the print data has been sent to the printer
The printing status screen opens automatically. To display the printing status screen, click the printer icon displayed on the Dock.
- If the print data has not been sent to the printer
Open **System Preferences**, and select **Printers & Scanners**.
To display the printing status screen, select your printer model from the printer list, and then click **Open Print Queue...**

2. Check the printing status

You can check the name of the file being printed or ready for being printed.

-  Deletes the specified print job.
-  Stops printing the specified document.
-  Resumes printing the specified document.
-  Stops printing all documents.
-  Displayed only when printing of all documents is being stopped, and resumes printing all documents.

Important

- If an error occurs, an error message will appear on the printing progress confirmation screen.
- The content of the error message may differ depending on the OS version.
- The printer part names in the error message may differ from what is listed in this manual.
- If the content of the error message is difficult to understand, check the error message displayed on the printer operation panel.

Deleting the Undesired Print Job

If the printer does not start printing, canceled or failed print job data may be remaining. Delete unnecessary print jobs from the print status check screen.

1. Open **System Preferences, and select **Printers & Scanners****

2. Select your model, and then click **Open Print Queue...**

The print status check screen appears.

3. Select the unnecessary print job and click  (Delete)

The selected print jobs will be deleted.

Removing Printer That Is No Longer Required from List of Printers

The printer that is no longer in use can be removed from the list of printers. Before removing the printer, remove the cable connecting the printer and PC.

You cannot remove the printer if you are not logged on as the administrator. For information about an administrative user, see **Users & Groups** from **System Preferences**.

1. Open **System Preferences**, and select **Printers & Scanners**

2. Delete printer from list of printers

Select the printer you wish to remove from the list of printers and click -.

Click **Delete Printer** when the confirmation message appears.

- ▶ **Printing from Smartphone/Tablet (Android)**

Paper Settings

By registering the paper size and the media type, the message is displayed before printing starts when the paper size or the media type of the loaded paper differs from the paper settings.

After loading paper

- When you loading paper in the rear tray

The screen to register the rear tray paper information is displayed.

If the page size on the touch screen matches the size of the paper loaded in the rear tray, select **Yes**.

If not, select **Change** to change the setting in accordance with the size of the loaded paper.

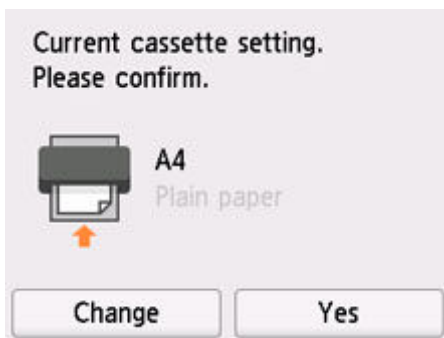

▶▶▶ Note

- See [Check paper replacement](#) when you want to hide the screen for confirming the setting of paper.

- **When you insert the cassette**

The screen to register the cassette paper information is displayed.

If the page size on the touch screen matches the size of the paper loaded in the cassette, select **Yes**.

If not, select **Change** to change the setting in accordance with the size of the loaded paper.

▶▶▶ Note

- For more on the proper combination of paper settings you can specify by the printer driver (Windows) or on the touch screen:
 - ➔ [Paper Settings on the Printer Driver and the Printer \(Media Type\)](#)
 - ➔ [Paper Settings on the Printer Driver and the Printer \(Paper Size\)](#)

When the paper settings for printing/copying are different from the paper information registered to the printer

Ex:

- Paper settings for printing/copying: A5
- Paper information registered to the printer: A4

When you start printing/copying, a message is displayed.

Check the message and select **Next**, and then choose one of the following.

Print with the loaded paper.

Select if you want to print/copy on the paper loaded without changing the paper settings.

For example, when the paper setting for printing/copying is A5 and the paper information registered to the printer is A4, the printer starts printing/copying on the paper loaded in the rear tray or in the cassette without changing the paper size setting for printing/copying.

Replace the paper and print

Select if you want to print after replacing the paper of the rear tray or the cassette.

For example, when the paper size setting for printing/copying is A5 and the paper information registered to the printer is A4, you load A5 sized paper in the rear tray or in the cassette before you start printing/copying.

The paper information registration screen is displayed after replacing the paper. Register the paper information according to the paper that you loaded.

Cancel print

Cancels printing.

Select when you change the paper settings specified for printing/copying. Change the paper settings and try printing/copying again.

Copying

Making Copies Basics

Reducing/Enlarging Copies

Two-Sided Copying

Collated Copying

Special Copy Menu

Making Copies

This section describes the basic procedure to perform standard copying.

1. [Check that printer is turned on.](#)

2. [Load paper.](#)

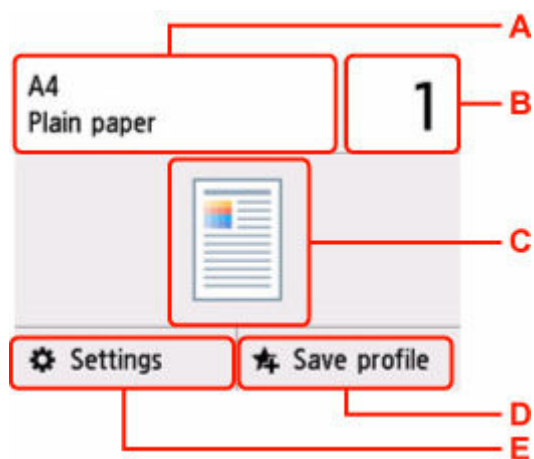

3. Select  **Copy** on the HOME screen.

➔ [Using Touch Screen](#)

The Copy standby screen is displayed.

4. [Load original on platen or in ADF \(Auto Document Feeder\).](#)

5. Specify settings as necessary.

A: Specify the page size and the media type.

B: Specify the number of copies.

Select the numbers to specify the number of copies.

C: The scanning method and copy layout are displayed.

Switch the scanning method from the ADF and layout (single-sided/two-sided).

D: Select to register the current scan settings as a custom setting.

➔ [Registering Favorite Settings \(My Presets\)](#)

E: Display the print setting items.

For more on the setting items:

➔ [Setting Items for Copying](#)

6. Press the **Black** button or the **Color** button.

The printer starts copying.

Remove the original on the platen or from the document output slot after copying is complete.

▶▶▶ Important

- Do not open the document cover or remove the original from the platen until scanning is completed.
- If you load the original in the ADF, do not move the original until copying is complete.

Adding Copying Job (Reserve copy)

If you load the original on the platen, you can add the copying job while printing (Reserve copy).

The message is displayed when you can add the copying job.

Load the original on the platen and select the same button (**Black** button or **Color** button) as the one which you previously pressed.

▶▶ Note

- When **Print qlty** (print quality) is set **High**, you cannot add the copying job.
- If you press **Stop** button while reserve copying is in progress, the screen to select the method to cancel copying is displayed. If you select **Cancel all reservations**, you can cancel copying all scanned data. If you select **Cancel the last reservation**, you can cancel the last copying job.
- If you set a document of too many pages to add the copying job, **Cannot add more copy jobs. Please wait a while and try again.** may appear on the touch screen. Select **OK** and wait a while, and then try copying again.
- If **Failed to reserve the copy job. Start over from the beginning.** appears on the touch screen when scanning, select **OK** and press **Stop** button to cancel copying. After that, copy the documents that have not been finished copying.

Setting Items for Copying

You can change the copy settings such as magnification and intensity.

Print Settings Screen

The print settings screen is displayed by selecting **Settings** in the Copy standby screen.

Preview

When **Preview** is displayed on the print settings screen, selecting **Preview** allows you to preview an image of the printout on the preview screen.

For details, see below.

➔ Displaying Preview Screen

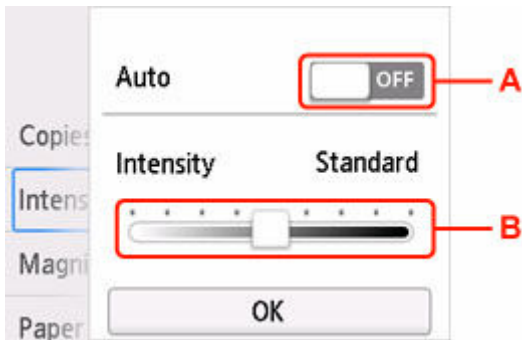

Setting Items

Flick to display setting items and select the setting item to display the settings. Select to specify the setting.

Following setting items can be changed.

- **Intensity**

Specify the intensity.

A: Select to activate/deactivate automatic intensity adjustment.

When **ON** is selected, the intensity is adjusted automatically according to the originals loaded on the platen.

B: Drag to specify the intensity.

- **Magnif.**

Specify the reduction/enlargement method.

- ➔ Reducing/Enlarging Copies

- **Paper src**

Select a paper source.

- **Page size**

Select the page size.

- **Type**

Select the media type.

- **Print qlty**

Specify the print quality.

▶▶▶ Important

- Select **High** for **Print qlty** to copy in grayscale. Grayscale renders tones in a range of grays instead of black or white.

- **Layout**

Select the layout.

- ➔ Copying Two Pages onto Single Page
- ➔ Copying Four Pages onto Single Page

- **ADF duplex scan**

Select whether to perform duplex scanning from the ADF (Auto Document Feeder).

- ➔ Two-Sided Copying

- **2-sidedPrintSetting**

Select whether to perform two-sided copying.

- ➔ Two-Sided Copying

- **Collate**

Select whether to obtain sorted printouts when making multiple copies of a multi-paged original.

➔ Collated Copying

- **Frame erase copy**

When copying thick originals such as books, you can make a copy without black margins around the image and gutter shadows.

➔ Copying Thick Originals Such as Books

- **ID card copy**

You can copy both sides of a card sized original such as an ID card onto a single sheet of paper.

➔ Copying ID Card to Fit onto Single Page

- Available functions and settings vary depending on your scanner or printer.

Scanning According to Item Type or Purpose (IJ Scan Utility)

- **IJ Scan Utility Features**
- **Scanning Easily (Auto Scan)**
- **Scanning Documents and Photos**
- **Creating/Editing PDF Files**
 - Setting Passwords for PDF Files
 - Editing Password-Protected PDF Files

IJ Scan Utility Features

Use IJ Scan Utility to scan and save documents, photos, or other items at one time by simply clicking the corresponding icon.

▶▶ Important

- Available functions, the displayed items, and available settings vary depending on your model.

Multiple Scanning Modes

Auto allows for one click scanning with default settings for various items. **Document** will sharpen text in a document or magazine for better readability, and **Photo** is best suited for scanning photos.

▶▶ Note

- For details on the IJ Scan Utility main screen, see IJ Scan Utility Main Screen.

Save Scanned Images Automatically

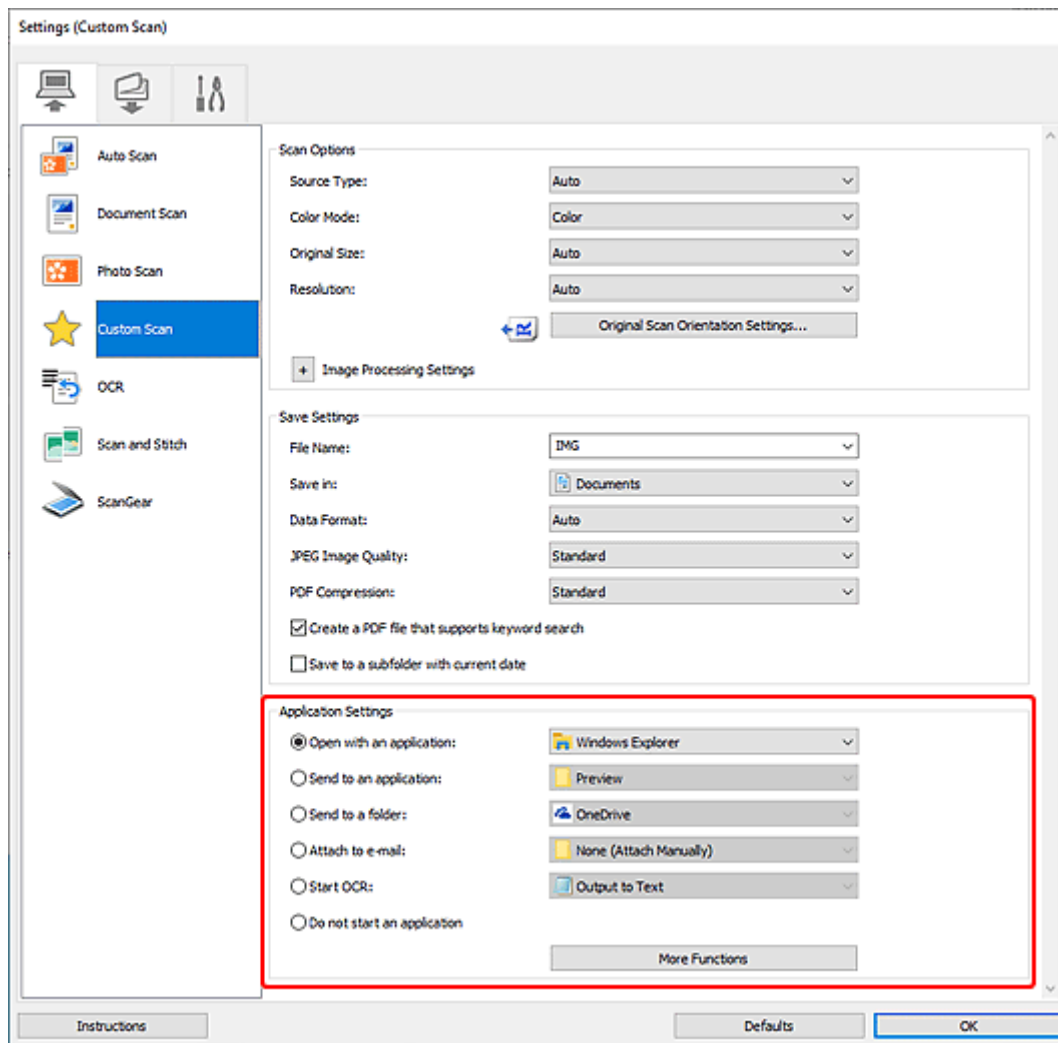

Scanned images are automatically saved to a preset folder. The folder can be changed as needed.

▶▶ Note

- The default save folders are as follows.
 - **Windows 11/Windows 10/Windows 8.1:**
Documents folder
 - **Windows 7:**
My Documents folder
- To change folder, see Settings Dialog Box.

Application Integration

Scanned images can be sent to other applications. For example, display scanned images in your favorite graphics application, attach them to e-mails, or extract text from images.

►►► Note

- To set the applications to integrate with, see Settings Dialog Box.

Scanning Easily (Auto Scan)

Auto Scan allows for automatic detection of the type of the item placed on the platen or ADF (Auto Document Feeder).

»» Important

- This function is not supported depending on your model.
- The following types of items may not be scanned correctly. In that case, adjust the cropping frames (scan areas) in whole image view of ScanGear (scanner driver), and then scan again.
 - Photos with a whitish background
 - Items printed on white paper, hand-written text, business cards, and other unclear items
 - Thin items
 - Thick items
- When scanning two or more documents from the ADF, place documents of the same size.

1. Make sure scanner or printer is turned on.

2. Place items on platen or ADF.

➔ [Positioning Originals \(Scanning from Computer\)](#)

3. Start IJ Scan Utility.

4. Click  **Auto** in the IJ Scan Utility main screen.

Scanning starts.

»» Note

- To cancel the scan, click **Cancel**.
- Use the Settings (Scanning from a Computer) dialog box displayed by clicking  **Settings...** to set where to save the scanned images and to make advanced scan settings.
- To scan a specific item type, see the following pages.
 - ➔ [Scanning Documents and Photos](#)
 - ➔ Scanning with Favorite Settings
 - ➔ Scanning Multiple Documents at One Time from the ADF (Auto Document Feeder)

Scanning Documents and Photos

Scan items placed on the platen with settings suitable for documents or photos.

Save documents in formats such as PDF and JPEG, and photos in formats such as JPEG and TIFF.

1. Place the item on the platen.

➔ [Positioning Originals \(Scanning from Computer\)](#)

2. Start IJ Scan Utility.

3. To specify the paper size, resolution, PDF settings, etc., click  **Settings...**, and then set each item in the Settings (Scanning from a Computer) dialog box.

▶▶▶ Note

- Once settings are made in the Settings dialog box, the same settings can be used for scanning from the next time.
- In the Settings dialog box, specify image processing settings such as slant correction and outline emphasis, set the destination of the scanned images, and more, as needed.

When setting is completed, click **OK**.

4. Click  **Document** or  **Photo** in the IJ Scan Utility main screen.

Scanning starts.

▶▶▶ Note

- To cancel the scan, click **Cancel**.

Creating/Editing PDF Files

You can create PDF files by scanning items placed on the platen or ADF (Auto Document Feeder). Add, delete, rearrange pages or make other edits in the created PDF files.

▶▶▶ Important

- You can create or edit up to 100 pages of a PDF file at one time.
- Only PDF files created or edited in IJ Scan Utility or IJ PDF Editor are supported. PDF files created or edited in other applications are not supported.

▶▶▶ Note

- You can also create PDF files from images saved on a computer.
- Selectable file formats are PDF, JPEG, TIFF, and PNG.
- Images whose number of pixels in the vertical or horizontal direction is 10501 or more cannot be used.
- When you select a password-protected PDF file, you must enter the password.

➔ Editing Password-Protected PDF Files

1. Place items on platen or ADF.

2. Start IJ Scan Utility.

3. Click  **PDF Editor** in the IJ Scan Utility main screen.

IJ PDF Editor starts.

4. To specify the paper size, resolution, and other settings, click **Settings...** from the **File** menu, and then set each item in the Settings (Scanning from a Computer) dialog box.

▶▶▶ Note

- Once settings are made in the Settings dialog box, the same settings can be used for scanning from the next time.
- In the Settings dialog box, specify image processing settings such as slant correction and outline emphasis.

When setting is completed, click **OK**.

5. Click  (Scan) on Toolbar.

Scanning starts.

▶▶▶ Note

- To open a file saved on the computer, click **Open...** from the **File** menu, and then select the file you want to edit.
- You can switch the view with the Toolbar buttons. For details, see PDF Edit Screen.

6. Add pages as needed.

When scanning and adding more items:

Place items, and then click  (Scan) on the Toolbar.

When adding existing images or PDF files:

Click  (Add Page) on the Toolbar. After the **Open** dialog box appears, select the image(s) or PDF file(s) you want to add, and then click **Open**.

»»» Note

- You can also add images or PDF files from **Add Page from Saved Data...** in the **File** menu.

7. Edit pages as needed.

When changing page order:

Click the page you want to move, and then click  (Page Up) or  (Page Down) on the Toolbar to change the page order. You can also change the page order by dragging and dropping a page to the target location.

When deleting pages:

Click the page you want to delete, and then click  (Delete Page) on the Toolbar.

»»» Note

- These buttons appear when two or more pages have been created.

8. Select **Save As...** in **File** menu.

The **Save** dialog box appears.

9. Specify save settings.

»»» Important

- The following items cannot be set for images whose resolution is outside the range of 75 dpi to 600 dpi or whose number of pixels in the vertical or horizontal direction is between 10201 pixels and 10500 pixels.
 - **PDF Compression**
 - **Create a PDF file that supports keyword search**
 - **Correct slanted text originals**
 - **Detect the orientation of text original and rotate image**

File Name

Enter a file name for the PDF file to be saved. When two or more pages have been created and you are saving each page separately, a sequential number is appended to the file names.

Save in

Set the folder in which to save PDF files. To change the folder, click **Browse...**, and then specify the destination folder.

Save to a subfolder with current date

Select this checkbox to create a current date folder in the folder specified in **Save in** and save created or edited PDF files in it. The folder will be created with a name such as "20XX_01_01" (Year_Month_Date).

If this checkbox is not selected, files are saved directly in the folder specified in **Save in**.

File Type

Select the file format for saving PDF files.

PDF

Save each page as a separate PDF file.

PDF (Multiple Pages)

Save multiple pages in one PDF file.

▶▶▶ Note

- **PDF (Multiple Pages)** appears when two or more pages have been created.

PDF Compression

Select the compression type for saving.

Standard

It is recommended that you normally select this setting.

High

Compresses the file size when saving. This will reduce the load on your network and server.

▶▶▶ Important

- If you save PDF files with high compression repeatedly, images may degrade.

Create a PDF file that supports keyword search

Select this checkbox to convert text in images into text data and create PDF files that support keyword search.

Correct slanted text originals

Select this checkbox to detect the document orientation based on the text in images and correct the angle (within the range of -0.1 to -10 degrees or +0.1 to +10 degrees) for creating PDF files.

▶▶▶ Important

- The following types of image may not be corrected properly since the text cannot be detected correctly.
 - Images in which the text lines are inclined more than 10 degrees or the angles vary by line
 - Images containing both vertical and horizontal text
 - Images with extremely large or small fonts
 - Images with small amount of text
 - Images containing figures/images
 - Hand-written images

Detect the orientation of text original and rotate image

Select this checkbox to detect the page orientation based on the text in images and automatically rotate the images to the correct orientation for creating PDF files.

»» Important

- This function is available only for images (text documents) containing languages that can be selected from **Document Language** in the **Settings (General Settings)** dialog box of IJ Scan Utility. This function is not available depending on the language in the image.
- The page orientation of the following types of image may not be detected since the text cannot be detected correctly.
 - Images with small amount of text
 - Images containing text whose font size is outside the range of 8 points to 48 points
 - Images containing special fonts, effects, italics, or hand-written text
 - Images with patterned backgrounds

Set up password security

Select this checkbox to display the **Password Security Settings** dialog box for setting a password for opening the created PDF file or a password for printing/editing it.

»» Important

- When a password-protected PDF file is edited, the passwords will be deleted. Reset the passwords.
 - ➔ Setting Passwords for PDF Files

10. Click **Save**.

The PDF file is saved.

»» Note

- When a password-protected PDF file is edited, the passwords will be deleted. Reset the passwords in the **Save** dialog box.
 - ➔ Setting Passwords for PDF Files
- To overwrite a saved file, click  (Save) on the Toolbar.

Scanning Using Application Software (ScanGear)

- [What Is ScanGear \(Scanner Driver\)?](#)
- [Starting ScanGear \(Scanner Driver\)](#)
- [Scanning in Basic Mode](#)
- [ScanGear \(Scanner Driver\) Screens](#)
- [General Notes \(Scanner Driver\)](#)

➤➤ Important

- Available functions and settings vary depending on your scanner or printer.

What Is ScanGear (Scanner Driver)?

ScanGear (scanner driver) is software required for scanning documents. Use the software to specify the output size, image corrections, and other settings.

ScanGear can be started from IJ Scan Utility or applications that are compatible with the standard TWAIN interface. (ScanGear is a TWAIN-compatible driver.)

Features

Specify the document type, output size, and other settings when scanning documents and preview scan results. Make various correction settings or finely adjust the brightness, contrast, and other parameters to scan in a specific color tone.

Screens

There are two modes: Basic Mode and Advanced Mode.

Switch modes with the tabs on the upper right of the screen.

Note

- ScanGear starts in the last used mode.
- Settings are not retained when you switch modes.

Basic Mode

Use the **Basic Mode** tab to scan easily by following three simple on-screen steps (1 , 2 , and 3).

Advanced Mode

Use the **Advanced Mode** tab to scan by specifying the color mode, output resolution, image brightness, color tone, and other settings.

Starting ScanGear (Scanner Driver)

Use ScanGear (scanner driver) to make image corrections and color adjustments when scanning. Start ScanGear from IJ Scan Utility or other applications.

▶▶▶ Note

- If you have more than one scanner or have a network compatible model and changed the connection from USB connection to network connection, set up the network environment.

Starting from IJ Scan Utility

1. Start IJ Scan Utility.
For how to start it, see Starting IJ Scan Utility.
2. In IJ Scan Utility main screen, click ScanGear.
The ScanGear screen appears.

Starting from Application

The procedure varies depending on the application. For details, see the application's manual.

1. Start application.
2. On application's menu, select machine.

▶▶▶ Note

- A machine connected over a network, will have "Network" displayed after the product name.

3. Scan document.
The ScanGear screen appears.

Scanning in Basic Mode

Use the **Basic Mode** tab to scan easily by following these simple on-screen steps.

To scan multiple documents at one time from the Platen, see [Scanning Multiple Documents at One Time with ScanGear \(Scanner Driver\)](#).

When scanning from the ADF (Auto Document Feeder), preview is not available.

Important

- The following types of documents may not be scanned correctly. In that case, click  (Thumbnail) on the Toolbar to switch to whole image view and scan.
 - Photos with a whitish background
 - Documents printed on white paper, hand-written text, business cards, and other unclear documents
 - Thin documents
 - Thick documents
- The following types of documents cannot be scanned correctly.
 - Documents smaller than 1.2 inches (3 cm) square
 - Photos that have been cut to irregular shapes

Note

- Both sides of a two sided document can be scanned simultaneously on models with ADF duplex scanning support.

1. Place document on machine's Platen or ADF, and then start ScanGear (scanner driver).

- ➔ Positioning Originals (Scanning from Computer)
- ➔ [Starting ScanGear \(Scanner Driver\)](#)

2. Set **Select Source** to match your document.

▶▶▶ Important

- Some applications do not support continuous scanning from the ADF. For details, see the application's manual.

▶▶▶ Note

- To scan magazines containing many color photos, select **Magazine (Color)**.

3. Click **Preview**.

Preview image appears in the Preview area.

▶▶▶ Important

- **Preview** is not available when scanning from the ADF.

▶▶▶ Note

- Colors are adjusted based on the document type selected in **Select Source**.

4. Set **Destination**.

▶▶▶ Note

- Skip ahead to Step 7 if an ADF option is selected in **Select Source**.

5. Set **Output Size**.

Output size options vary with the selected **Destination**.

6. Adjust cropping frames (scan areas) as needed.

Adjust the size and position of the cropping frames on the preview image.

- ➔ Adjusting Cropping Frames (ScanGear)

7. Set **Image corrections** as needed.

8. Click **Scan**.

Scanning starts.

▶▶▶ Note

- Click  (Information) to display a dialog box showing the document type and other details of the current scan settings.
- How ScanGear behaves after scanning is complete can be set from **Status of ScanGear dialog after scanning** on the **Scan** tab of the **Preferences** dialog box.

ScanGear (Scanner Driver) Screens

- **Basic Mode Tab**
- **Advanced Mode Tab**
- **Preferences Dialog Box**

Basic Mode Tab

Use the **Basic Mode** tab to scan easily by following these simple on-screen steps.

This section describes the settings and functions available on the **Basic Mode** tab.

- ➔ [\(1\) Settings and Operation Buttons](#)
- ➔ [\(2\) Toolbar](#)
- ➔ [\(3\) Preview Area](#)

➤➤➤ Note

- The displayed items vary by document type and view.
- Preview is not available when scanning from the ADF (Auto Document Feeder).

(1) Settings and Operation Buttons

Select Source

Photo (Color)

Scan color photos.

Magazine (Color)

Scan color magazines.

Document (Color)

Scan documents in color.

Document (Grayscale)

Scan documents in black and white.

Document (Color) ADF Simplex

Scan documents from the ADF in color.

Document (Grayscale) ADF Simplex

Scan documents from the ADF in black and white.

Document (Color) ADF Duplex (only for models supporting ADF duplex scanning)

Scan both sides of documents from the ADF in color.

Document (Grayscale) ADF Duplex (only for models supporting ADF duplex scanning)

Scan both sides of documents from the ADF in black and white.

Important

- Some applications do not support continuous scanning from the ADF. For details, see the application's manual.

Note

- When you select a document type, the unsharp mask function will be active.
- When you select an option other than the ADF types, the image adjustment function which adjusts images based on the document type will also be active.
- When you select **Magazine (Color)**, the descreen function will be active.

Display Preview Image

Preview

Performs a trial scan.

Note

- When using the machine for the first time, scanner calibration starts automatically. Wait a while until the preview image appears.

Destination

Select what you want to do with the scanned image.

Print

Select this to print the scanned image on a printer.

Image display

Select this to view the scanned image on a monitor.

OCR

Select this to use the scanned image with OCR software.

"OCR software" is software that converts text scanned as an image into text data that can be edited in word processors and other programs.

Output Size

Select an output size.

Output size options vary by the item selected in **Destination**.

Flexible

Adjust the cropping frames (scan areas) freely.

In thumbnail view:

Drag the mouse over a thumbnail to display a cropping frame. When a cropping frame is displayed, the portion within the cropping frame will be scanned. When no cropping frame is displayed, each frame is scanned individually.

In whole image view:

When no cropping frame is displayed, the entire Preview area will be scanned. When a cropping frame is displayed, the portion within the cropping frame will be scanned.

Paper Size (such as L or A4)

Select an output paper size. The portion within the cropping frame will be scanned at the size of the selected paper size. Drag the cropping frame to enlarge/reduce it while maintaining the aspect ratio.

Monitor Size (such as 1024 x 768 pixels)

Select an output size in pixels. A cropping frame of the selected monitor size will appear and the portion within the cropping frame will be scanned. Drag the cropping frame to enlarge/reduce it while maintaining the aspect ratio.

Add/Delete...

Displays the **Add/Delete the Output Size** dialog box for specifying custom output sizes. This option can be selected when **Destination** is **Print** or **Image display**.

In the **Add/Delete the Output Size** dialog box, multiple output sizes can be specified and then saved at one time. Saved items will be registered to the **Output Size** list and can be selected, along with the predefined items.

Adding:

Enter **Output Size Name**, **Width**, and **Height**, and then click **Add**. For **Unit**, select **inches** or **mm** if **Destination** is **Print**; if it is **Image display**, only **pixels** can be selected. The name of the added size appears in **Output Size List**. Click **Save** to save the items listed in **Output Size List**.

Deleting:

Select the output size you want to delete in **Output Size List**, and then click **Delete**. Click **Save** to save the items listed in **Output Size List**.

►►► Important

- Predefined output sizes such as **A4** and **1024 x 768 pixels** cannot be deleted.

►►► Note

- Save up to 10 items.
- An error message appears when you enter a value outside the setting range. Enter a value within the setting range.

►►► Note

- For details on whether or how the cropping frame initially appears on a preview image, see **Cropping Frame on Previewed Images** in **Preview** tab of **Preferences** Dialog Box.

Invert aspect ratio

Available when **Output Size** is set to anything but **Flexible**.

Click this button to rotate the cropping frame. Click again to return it to the original orientation.

Adjust cropping frames

Adjust the scan area within the Preview area.

If an area is not specified, the document will be scanned at the document size (Auto Crop). If an area is specified, only the portion in the cropping frame will be scanned.

- ➔ Adjusting Cropping Frames (ScanGear)

Image corrections

Correct the image to be scanned.

►►► Important

- **Apply Auto Document Fix** and **Correct fading** are available when **Recommended** is selected on the **Color Settings** tab of the **Preferences** dialog box.

►►► Note

- Available functions vary by the document type selected in **Select Source**.

Apply Auto Document Fix

Sharpens text in a document or magazine for better readability.

►►► Important

- Scanning may take longer than usual when this checkbox is selected.
- The color tone may change from the source image due to corrections. In that case, deselect the checkbox and scan.
- Correction may not be applied properly if the scan area is too small.

Correct fading

Corrects photos that have faded with time or have a colorcast.

Correct gutter shadow

Corrects shadows that appear between pages when scanning open booklets.

▶▶▶ Important

- Be sure to see **Gutter Shadow Correction** for precautions and other information on using this function.

Color Pattern...

Adjust the image's overall color. Correct colors that have faded due to colorcast or other reasons and reproduce natural colors while previewing color changes.

➔ Adjusting Colors Using a Color Pattern

▶▶▶ Important

- This setting is not available when **Color Matching** is selected on the **Color Settings** tab of the **Preferences** dialog box.

Scan Image

Scan

Starts scanning.

▶▶▶ Note

- When scanning starts, the progress appears. To cancel the scan, click **Cancel**.

Preferences...

Displays the **Preferences** dialog box for making scan/preview settings.

Close

Closes ScanGear (scanner driver).

(2) Toolbar

Adjust or rotate preview images. The buttons displayed on the Toolbar vary by view.

In thumbnail view:

In whole image view:

Switches the view in the Preview area.

➔ [\(3\) Preview Area](#)

Rotates the preview image 90 degrees counter-clockwise.

- The result will be reflected in the scanned image.

- The image returns to its original state when you preview again.

(Rotate Right)

Rotates the preview image 90 degrees clockwise.

- The result will be reflected in the scanned image.
- The image returns to its original state when you preview again.

(Auto Crop)

Displays and adjusts the cropping frame automatically to the size of the document displayed in the Preview area. The scan area is reduced every time you click this button if there are croppable areas within the cropping frame.

(Check All Frames)

Available when two or more frames are displayed.

Selects the checkboxes of the images in thumbnail view.

(Uncheck All Frames)

Available when two or more frames are displayed.

Deselects the checkboxes of the images in thumbnail view.

(Select All Frames)

Available when two or more frames are displayed.

Selects the images in thumbnail view and outlines them in blue.

(Select All Cropping Frames)

Available when two or more cropping frames are specified.

Turns the cropping frames into thick broken lines and applies the settings to all of them.

(Remove Cropping Frame)

Removes the selected cropping frame.

(Information)

Displays the version of ScanGear, along with the document type and other details of the current scan settings.

(Open Guide)

Opens this page.

(3) Preview Area

This is where a trial image appears after you click **Preview**. The results of image corrections, color adjustments, and other settings made in [\(1\) Settings and Operation Buttons](#) are also reflected.

When  (Thumbnail) is displayed on Toolbar:

Cropping frames are specified according to the document size, and thumbnails of scanned images appear. Only the images with the checkbox selected will be scanned.

►► Note

- When multiple images are previewed, different outlines indicate different selection status.
 - Focus Frame (thick blue outline): The displayed settings will be applied.
 - Selected Frame (thin blue outline): The settings will be applied to the Focus Frame and Selected Frames simultaneously. To select multiple images, click them while pressing the Ctrl key.
 - Unselected (no outline): The settings will not be applied.
- Double-click a frame to enlarge the image. Click   (Frame Advance) at the bottom of the screen to display the previous or next frame. Double-click the enlarged frame again to return it to its original state.

When  (Whole Image) is displayed on Toolbar:

Items on the Platen are scanned and appear as a single image. All portions in the cropping frames will be scanned.

▶▶ Note

- Create cropping frame(s) on the displayed image. In thumbnail view, one cropping frame can be created per image. In whole image view, multiple cropping frames can be created.
 - ➔ [Adjusting Cropping Frames \(ScanGear\)](#)

Related Topic

- ➔ [Scanning in Basic Mode](#)

Advanced Mode Tab

This mode allows you to make advanced scan settings such as the color mode, output resolution, image brightness, and color tone.

This section describes the settings and functions available on the **Advanced Mode** tab.

- ➔ (1) [Settings and Operation Buttons](#)
- ➔ (2) [Toolbar](#)
- ➔ (3) [Preview Area](#)

►►► Important

- The displayed items vary depending on your model, document type, and view.
- The preview function is not available when scanning from the ADF (Auto Document Feeder).

(1) Settings and Operation Buttons

Favorite Settings

You can name and save a group of settings (Input Settings, Output Settings, Image Settings, and Color Adjustment Buttons) on the **Advanced Mode** tab, and load it as required. It is convenient to save a group of settings if you will be using it repeatedly. You can also use this to reload the default settings.

Select **Add/Delete...** from the pull-down menu to open the **Add/Delete Favorite Settings** dialog box.

Enter **Setting Name** and click **Add**; the name appears in **Favorite Settings List**.

When you click **Save**, the item appears in the **Favorite Settings** list and can be selected, along with the predefined items.

To delete an item, select it in **Favorite Settings List** and click **Delete**. Click **Save** to save the settings displayed in **Favorite Settings List**.

▶▶▶ Note

- You can set **Add/Delete...** in **Favorite Settings** after preview.
- Save up to 10 items.

Input Settings

Specify the input settings such as the document type and size.

Output Settings

Specify the output settings such as the output resolution and size.

Image Settings

Enable/disable various image correction functions.

Color Adjustment Buttons

Fine corrections to the image brightness and color tones can be made including adjustments to the image's overall brightness or contrast and adjustments to its highlight and shadow values (histogram) or balance (tone curve).

Zoom

Zooms in on a frame, or zooms in on the image in the area specified with a cropping frame (scan area). When zoomed in, **Zoom** changes to **Undo**. Click **Undo** to return the display to its non-magnified state.

In thumbnail view:

When multiple images are displayed in thumbnail view, clicking this button zooms in on the selected frame. Click  (Frame Advance) at the bottom of the screen to display the previous or next frame.

▶▶▶ Note

- You can also zoom in on an image by double-clicking the frame. Double-click the enlarged frame again to return it to its original state.

In whole image view:

Rescans the image in the area specified with a cropping frame at higher magnification.

»» Note

- **Zoom** rescans the document and displays high-resolution image in Preview.
-  (Enlarge/Reduce) on the Toolbar zooms in on the preview image quickly. However, the resolution of the displayed image will be low.

Preview

Performs a trial scan.

Scan

Starts scanning.

»» Note

- When scanning starts, the progress appears. To cancel the scan, click **Cancel**.
- When scanning is completed, a dialog box prompting you to select the next action may appear. Follow the prompt to complete. For details, see **Status of ScanGear dialog after scanning** in **Scan** tab of **Preferences** dialog box.
- It will take time to process the images if the total size of the scanned images exceeds a certain size. In that case, a warning message appears; it is recommended that you reduce the total size. To continue, scan in whole image view.

Preferences...

Displays the **Preferences** dialog box for making scan/preview settings.

Close

Closes ScanGear (scanner driver).

(2) Toolbar

Adjust or rotate preview images. The buttons displayed on the Toolbar vary by view.

In thumbnail view:

In whole image view:

 **(Thumbnail)** /  **(Whole Image)**

Switches the view in the Preview area.

➔ [\(3\) Preview Area](#)

 **(Clear)**

Deletes the preview image from the Preview area.

It also resets the Toolbar and color adjustment settings.

 **(Crop)**

Allows you to specify the scan area by dragging the mouse.

 **(Move Image)**

Allows you to drag the image until the part you want to see is displayed when an image enlarged in the Preview area does not fit in the screen. You can also move the image using the scroll bars.

 **(Enlarge/Reduce)**

Allows you to zoom in on the Preview area by clicking the image. Right-click the image to zoom out.

 **(Rotate Left)**

Rotates the preview image 90 degrees counter-clockwise.

- The result will be reflected in the scanned image.
- The image returns to its original state when you preview again.

 **(Rotate Right)**

Rotates the preview image 90 degrees clockwise.

- The result will be reflected in the scanned image.
- The image returns to its original state when you preview again.

 **(Auto Crop)**

Displays and adjusts the cropping frame automatically to the size of the document displayed in the Preview area. The scan area is reduced every time you click this button if there are croppable areas within the cropping frame.

 **(Check All Frames)**

Available when two or more frames are displayed.

Selects the checkboxes of the images in thumbnail view.

(Uncheck All Frames)

Available when two or more frames are displayed.

Deselects the checkboxes of the images in thumbnail view.

(Select All Frames)

Available when two or more frames are displayed.

Selects the images in thumbnail view and outlines them in blue.

(Select All Cropping Frames)

Available when two or more cropping frames are specified.

Turns the cropping frames into thick broken lines and applies the settings to all of them.

(Remove Cropping Frame)

Removes the selected cropping frame.

(Information)

Displays the version of ScanGear, along with the document type and other details of the current scan settings.

(Open Guide)

Opens this page.

(3) Preview Area

This is where a trial image appears after you click **Preview**. The results of image corrections, color adjustments, and other settings made in [\(1\) Settings and Operation Buttons](#) are also reflected.

When  (Thumbnail) is displayed on Toolbar:

Cropping frames are specified according to the document size, and thumbnails of scanned images appear. Only the images with the checkbox selected will be scanned.

►► Note

- When multiple images are previewed, different outlines indicate different selection status.
 - Focus Frame (thick blue outline): The displayed settings will be applied.
 - Selected Frame (thin blue outline): The settings will be applied to the Focus Frame and Selected Frames simultaneously. To select multiple images, click them while pressing the Ctrl key.
 - Unselected (no outline): The settings will not be applied.

When (Whole Image) is displayed on Toolbar:

Items on the Platen are scanned and appear as a single image. All portions in the cropping frames will be scanned.

►► Note

- Create cropping frame(s) on the displayed image. In thumbnail view, one cropping frame can be created per image. In whole image view, multiple cropping frames can be created.

- ➔ Scanning Multiple Documents from the ADF (Auto Document Feeder) in Advanced Mode

General Notes (Scanner Driver)

ScanGear (scanner driver) is subject to the following restrictions. Keep these points in mind when using it.

Scanner Driver Restrictions

- When using the NTFS file system, the TWAIN data source may not be invoked. This is because the TWAIN module cannot be written to the winnt folder for security reasons. Contact the computer's administrator for help.
- Some computers (including laptops) connected to the machine may not resume correctly from standby mode. In that case, restart the computer.
- Do not connect two or more scanners or multifunction printers with scanner function to the same computer simultaneously. If multiple scanning devices are connected, you cannot scan from the operation panel or scanner buttons of the machine and also may experience errors while accessing the devices.
- Calibration may take time if the machine is connected via USB 1.1.
- Scanning may fail if the computer has resumed from sleep or standby mode. In that case, follow these steps and scan again.

If your model has no power button, perform Step 2 only.

1. Turn off the machine.
2. Exit ScanGear, then disconnect the USB cable from the computer and reconnect it.
3. Turn on the machine.

If scanning still fails, restart the computer.

- ScanGear cannot be opened in multiple applications at the same time. Within an application, ScanGear cannot be opened for the second time when it is already open.
- Be sure to close the ScanGear window before closing the application.
- When using a network compatible model by connecting to a network, the machine cannot be accessed from multiple computers at the same time.
- When using a network compatible model by connecting to a network, scanning takes longer than usual.
- Make sure that you have adequate disk space available when scanning large images at high resolutions. For example, at least 300 MB of free space is required to scan an A4 document at 600 dpi in full-color.
- ScanGear and WIA driver cannot be used at the same time.
- Do not enter the computer into sleep or hibernate state during scanning.

Applications with Restrictions on Use

- Some applications may not display the TWAIN user interface. In that case, refer to the application's manual and change the settings accordingly.
- Some applications do not support continuous scanning of multiple documents. In some cases, only the first scanned image is accepted, or multiple images are scanned as one image. For such applications, do not scan multiple documents from the ADF (Auto Document Feeder).
- To import scanned images into Microsoft Office 2000, first save them using IJ Scan Utility, then import the saved files from the **Insert** menu.

- When scanning Platen size images into Microsoft Office 2003 (Word, Excel, PowerPoint, etc.), click **Custom Insert** in the **Insert Picture from Scanner or Camera** screen. Otherwise, images may not be scanned correctly.
- When scanning images into Microsoft Office 2007/Microsoft Office 2010 (Word, Excel, PowerPoint, etc.), use Microsoft Clip Organizer.
- Images may not be scanned correctly in some applications. In that case, increase the operating system's virtual memory and retry.
- When image size is too large (such as when scanning large images at high resolution), your computer may not respond or the progress bar may remain at 0 % depending on the application. In that case, cancel the action (for example by clicking **Cancel** on the progress bar), then increase the operating system's virtual memory or reduce the image size/resolution and retry. Alternatively, scan the image via IJ Scan Utility first, then save and import it into the application.

Scanning Tips

- **Positioning Originals (Scanning from Computer)**
- **Network Scan Settings**
 - IJ Network Scanner Selector EX2 Menu and Setting Screen

Positioning Originals (Scanning from Computer)

This section describes how to load originals on the platen or ADF (Auto Document Feeder) for scanning. If items are not placed correctly they may not be scanned correctly.

Important

- Be sure to observe the following when loading the original on the platen. Failure to observe the following may cause the scanner to malfunction or the platen glass to break.
 - Do not place any objects weighing 4.4 lb (2.0 kg) or more on the platen glass.
 - Do not put any pressure of 4.4 lb (2.0 kg) or more on the platen glass, such as pressing down the original.
- Close the document cover when scanning.
- Do not touch the operation panel buttons or LCD (Liquid Crystal Display) when opening/closing the document cover. May result in unintended operation.

➔ [Placing Items \(Platen\)](#)

➔ [Placing Documents \(ADF \(Auto Document Feeder\)\)](#)

Placing Items (Platen)

Place items as described below to scan by detecting the item type and size automatically.

Important

- Depending on your model, the function to scan by automatically detecting the item type and size does not appear.
- When scanning by specifying the paper size in IJ Scan Utility or ScanGear (scanner driver), align an upper corner of the item with the corner at the arrow (alignment mark) of the platen.
- Photos that have been cut to irregular shapes and items smaller than 1.2 inches (3 cm) square cannot be cropped accurately when scanning.
- Reflective disc labels may not be scanned as expected.
- If scanned by detecting the item type and size automatically, the response may differ. In that case, adjust the cropping frame (scan area) manually.

Photos, Postcards, Business Cards, and BD/DVD/CD	Magazines, Newspapers, and Documents
<div data-bbox="220 1608 724 1733" data-label="Image"> </div> <p data-bbox="188 1787 328 1816">Single item:</p> <p data-bbox="188 1839 1094 1935">Place the item face-down on the platen, with 0.4 inch (1 cm) or more space between the edges (diagonally striped area) of the platen and the item. Portions placed on the diagonally striped area cannot be scanned.</p>	<div data-bbox="1161 1599 1378 1675" data-label="Image"> </div> <p data-bbox="1110 1709 1430 1984">Place the item face-down on the platen and align an upper corner of the item with the corner at the arrow (alignment mark) of the platen. Portions placed on the diagonally striped area cannot be scanned.</p>

Important

- Large items (such as A4 size photos) that cannot be placed away from the edges/arrow (alignment mark) of the platen may be saved as PDF files. To save in a format other than PDF, scan by specifying the data format.

Multiple items:

Allow 0.4 inch (1 cm) or more space between the edges (diagonally striped area) of the platen and items, and between items. Portions placed on the diagonally striped area cannot be scanned.

A : 0.4 inch (1 cm) or more

Note

- Place up to 12 items.
- Positions of slanted items (10 degrees or less) are corrected automatically.

Important

- For the portions in which items cannot be scanned, see Loading Originals.

Placing Documents (ADF (Auto Document Feeder))

Important

- Be careful not to let anything get inside the document output slot. It may cause damage.
- Place and align documents of the same size when scanning two or more documents.
- For supported document sizes when scanning from the ADF, see Supported Originals.

Note

- To scan a document at optimum quality, load it on the platen.

1. Make sure any original has been removed from platen.

2. Open document tray (A).

3. Slide the document guide (B) all the way out.

▶▶▶ Note

- The location and number of document guides may vary depending on your model.

4. Load document with side to scan facing up in document tray.

Insert the document until it stops.

5. Adjust document guide to match width of document.

Do not slide the document guide too hard against the document. The document may not be fed properly.

»» Note

- When scanning duplex documents, place the front sides facing up. They will not be scanned correctly if placed the other way around.

Network Scan Settings

You can connect your scanner or printer to a network to share it among multiple computers or scan images into a specified computer.

▶▶▶ Important

- Multiple users cannot scan at the same time.

▶▶▶ Note

- Complete the network settings of your scanner or printer beforehand by following the instructions on our website.
- With network connection, scanning takes longer than USB connection.

Complete the following settings to enable scanning over a network.

Specifying Your Scanner or Printer

Use IJ Network Scanner Selector EX to specify the scanner you want to use. By specifying the scanner, you can scan over a network from your computer or the operation panel.

▶▶▶ Important

- If the product you want to use is changed with IJ Network Scanner Selector EX, the product used for scanning with IJ Scan Utility changes as well. The product for scanning from the operation panel also changes.

If your scanner or printer is not selected in IJ Scan Utility, check that it is selected with IJ Network Scanner Selector EX.

Refer to "IJ Network Scanner Selector EX2 Menu and Setting Screen" for details.

- To scan from the operation panel, specify your scanner or printer with IJ Network Scanner Selector EX beforehand.

1. Check that IJ Network Scanner Selector EX is running.

If IJ Network Scanner Selector EX is running,  (IJ Network Scanner Selector EX2) appears in the notification area on the desktop. Click  to check the hidden icons as well.

▶▶▶ Note

- If the icon is not displayed in the notification area on the desktop, follow the procedure below to start.

- **Windows 11/Windows 10:**

From the **Start** menu, click (**All apps >**) **Canon Utilities > IJ Network Scanner Selector EX2**.

- **Windows 8.1:**

Click **IJ Network Scanner Selector EX2** on the Start screen.

If **IJ Network Scanner Selector EX2** is not displayed on the Start screen, select the **Search** charm, then search for "IJ Network Scanner Selector EX2".

– **Windows 7:**

From the **Start** menu, click **All Programs > Canon Utilities > IJ Network Scanner Selector EX2 > IJ Network Scanner Selector EX2**.

The icon appears in the notification area on the desktop, and the Scan-from-PC Settings screen appears. In that case, skip ahead to Step 3.

2. In the notification area on the desktop, right-click  (IJ Network Scanner Selector EX2), then select **Settings...**

The Scan-from-PC Settings screen appears.

3. Select your scanner or printer from **Scanners**.

Normally, the MAC address of your scanner or printer is already selected after the network setup. In that case, you do not need to select it again.

Important

- If multiple scanners exist on the network, multiple model names appear. In that case, you can select one scanner per model.

4. Click **OK**.

Note

- The scanner selected in the Scan-from-PC Settings screen will be automatically selected in the Scan-from-Operation-Panel Settings screen as well.

Setting for Scanning with IJ Scan Utility

To scan from IJ Scan Utility using a scanner or printer connected to a network, specify your scanner or printer with IJ Network Scanner Selector EX, then follow the steps below to change the connection status between it and the computer.

1. Start IJ Scan Utility.
2. Select "Canon XXX series Network" (where "XXX" is the model name) for **Scanner**.

3. Click  **Settings...** to use another scanner connected to a network.

4. Click  (General Settings), then click **Select** in **Product Name**.

The Scan-from-PC Settings screen of IJ Network Scanner Selector EX appears.

Select the scanner you want to use and click **OK**.

5. In the **Settings (General Settings)** dialog box, click **OK**.

The IJ Scan Utility main screen reappears. You can scan via a network connection.

Setting for Scanning from the Operation Panel

You can make the setting for scanning from the operation panel.

Important

- Set IJ Scan Utility to use your scanner or printer via a network connection beforehand.

➔ [Setting for Scanning with IJ Scan Utility](#)

1. Check that IJ Network Scanner Selector EX is running.

If IJ Network Scanner Selector EX is running,  (IJ Network Scanner Selector EX2) appears in the notification area on the desktop. Click  to check the hidden icons as well.

Note

- If the icon is not displayed in the notification area on the desktop, follow the procedure below to start.

- **Windows 11/Windows 10:**

From the **Start** menu, click (**All apps >**) **Canon Utilities > IJ Network Scanner Selector EX2**.

- **Windows 8.1:**

Click **IJ Network Scanner Selector EX2** on the Start screen.

If **IJ Network Scanner Selector EX2** is not displayed on the Start screen, select the **Search** charm, then search for "IJ Network Scanner Selector EX2".

- **Windows 7:**

From the **Start** menu, click **All Programs > Canon Utilities > IJ Network Scanner Selector EX2 > IJ Network Scanner Selector EX2**.

The icon appears in the notification area on the desktop, and the Scan-from-PC Settings screen appears. In that case, skip ahead to Step 3.

2. In the notification area on the desktop, right-click  (IJ Network Scanner Selector EX2), then select **Settings...**

The Scan-from-PC Settings screen appears.

3. Click **Scan-from-Operation-Panel Settings**.

The Scan-from-Operation-Panel Settings screen appears.

4. Select your scanner or printer from **Scanners** and click **OK**.

Select the MAC address of your scanner or printer.

▶▶▶ Note

- When multiple scanners are connected via a network, you can select up to three scanners.

5. In the Scan-from-PC Settings screen, click **OK**.

▶▶▶ Note

- If your scanner or printer does not appear, check the following, click **OK** to close the screen, then reopen it and try selecting again.
 - MP Drivers is installed
 - Network settings of your scanner or printer is completed after installing the MP Drivers
 - Network communication between your scanner or printer and computer is enabled

If the problem is still not solved, see [Network Communication Problems](#).

Scanning in macOS

► Scanning According to Item Type or Purpose (IJ Scan Utility Lite)

- IJ Scan Utility Lite Features
- Scanning Easily (Auto Scan)
- Scanning Documents and Photos

► Scanning Tips

- Positioning Originals (Scanning from Computer)

►► Important

- Available functions and settings vary depending on your scanner or printer.

Scanning According to Item Type or Purpose (IJ Scan Utility Lite)

- ▶ **IJ Scan Utility Lite Features**
- ▶ **Scanning Easily (Auto Scan)**
- ▶ **Scanning Documents and Photos**

▶▶▶ Important

- Available functions and settings vary depending on your scanner or printer.

IJ Scan Utility Lite Features

Use IJ Scan Utility Lite to scan and save documents, photos, or other items at one time by simply clicking the corresponding icon.

▶▶▶ Important

- The displayed items and available functions vary depending on your scanner or printer.

Multiple Scanning Modes

Auto allows for one click scanning with default settings for various items. **Document** will sharpen text in a document or magazine for better readability, and **Photo** is best suited for scanning photos.

▶▶▶ Note

- For details on the IJ Scan Utility Lite main screen, see IJ Scan Utility Lite Main Screen.

Save Scanned Images Automatically

Scanned images are automatically saved to a preset folder. The folder can be changed as needed.

▶▶▶ Note

- The default save folder is the **Pictures** folder.
- For how to specify a folder, see Settings Dialog.

Application Integration

Scanned images can be sent to other applications. For example, display scanned images in your favorite graphics application, attach them to e-mails, or extract text from images.

➤➤ Note

- To set the applications to integrate with, see Settings Dialog.

Scanning Easily (Auto Scan)

Auto Scan allows for automatic detection of the type of the item placed on the platen or ADF (Auto Document Feeder).

►► Important

- This function is not supported depending on your model.
- The following types of items may not be scanned correctly. In that case, adjust the cropping frames (selection boxes; scan areas) in the screen displayed by clicking **Driver** in the IJ Scan Utility Lite main screen, and then scan again.
 - Photos with a whitish background
 - Items printed on white paper, hand-written text, business cards, and other unclear items
 - Thin items
 - Thick items
- When scanning two or more documents from the ADF, place documents of the same size.

1. Check that scanner or printer is turned on.

2. Place items on platen or ADF.

➔ [Positioning Originals \(Scanning from Computer\)](#)

3. Start IJ Scan Utility Lite.

4. Click  **Auto** in the IJ Scan Utility Lite main screen.

Scanning starts.

►► Note

- To cancel the scan, click **Cancel**.
- Use the Settings (Scanning from a Computer) dialog to set where to save the scanned images and to make advanced scan settings.
- To scan a specific item type, see the following pages.
 - ➔ [Scanning Documents and Photos](#)
 - ➔ Scanning with Favorite Settings
 - ➔ Scanning Multiple Documents at One Time from the ADF (Auto Document Feeder)

Scanning Documents and Photos

Scan items placed on the platen with settings suitable for documents or photos.

Save documents in formats such as PDF and JPEG, and photos in formats such as JPEG and TIFF.

1. Place the item on the platen.

➔ [Positioning Originals \(Scanning from Computer\)](#)

2. Start IJ Scan Utility Lite.

3. To specify the paper size, resolution, PDF settings, etc., click **Settings...**, and then set each item in the Settings dialog.

▶▶▶ Note

- Once settings are made in the Settings dialog, the same settings can be used for scanning from the next time.
- In the Settings dialog, specify image processing settings such as slant correction, set where to save the scanned images, and more, as needed.

When setting is completed, click **OK**.

4. Click  **Document** or  **Photo** in the IJ Scan Utility Lite main screen.

Scanning starts.

▶▶▶ Note

- To cancel the scan, click **Cancel**.

Scanning Tips

- **Positioning Originals (Scanning from Computer)**

Positioning Originals (Scanning from Computer)

This section describes how to load originals on the platen or ADF (Auto Document Feeder) for scanning. If items are not placed correctly they may not be scanned correctly.

Important

- Be sure to observe the following when loading the original on the platen. Failure to observe the following may cause the scanner to malfunction or the platen glass to break.
 - Do not place any objects weighing 4.4 lb (2.0 kg) or more on the platen glass.
 - Do not put any pressure of 4.4 lb (2.0 kg) or more on the platen glass, such as pressing down the original.
- Close the document cover when scanning.
- Do not touch the operation panel buttons or LCD (Liquid Crystal Display) when opening/closing the document cover. May result in unintended operation.
- When using a personal scanner in the upright position, the item type may not be detected automatically. In that case, specify the item type in IJ Scan Utility Lite and scan.

➔ [Placing Items \(Platen\)](#)

➔ [Placing Documents \(ADF \(Auto Document Feeder\)\)](#)

➔ [Placing Items \(When Using Stand\)](#)

Placing Items (Platen)

Place items as described below to scan by detecting the item type and size automatically.

Important

- Depending on your model, the function to scan by automatically detecting the item type and size does not appear.
- When scanning by specifying the paper size, align an upper corner of the item with the corner at the arrow (alignment mark) of the platen.
- Photos that have been cut to irregular shapes and items smaller than 1.2 inches (3 cm) square cannot be cropped accurately when scanning.
- Reflective disc labels may not be scanned as expected.
- If scanned by detecting the item type and size automatically, the response may differ. In that case, adjust the cropping frame (selection box) manually.

Photos, Postcards, Business Cards, and BD/DVD/CD	Magazines, Newspapers, and Documents
	 <p>Place the item face-down on the platen and align an upper corner of the item with the corner at the arrow (alignment mark) of the platen. Portions placed on</p>

Single item:

Place the item face-down on the platen, with 0.4 inch (1 cm) or more space between the edges (diagonally striped area) of the platen and the item. Portions placed on the diagonally striped area cannot be scanned.

Important

- Large items (such as A4 size photos) that cannot be placed away from the edges/arrow (alignment mark) of the platen may be saved as PDF files. To save in a format other than PDF, scan by specifying the data format.

Multiple items:

Allow 0.4 inch (1 cm) or more space between the edges (diagonally striped area) of the platen and items, and between items. Portions placed on the diagonally striped area cannot be scanned.

A : 0.4 inch (1 cm) or more

Note

- In IJ Scan Utility Lite, place up to 12 items.
- Positions of slanted items (10 degrees or less) are corrected automatically.

the diagonally striped area cannot be scanned.

Important

• Inkjet All-In-One printer:

For the portions in which items cannot be scanned, see Loading Originals.

• Personal scanner:

For the portions in which items cannot be scanned, see Items You Can Place & How to Place Items.

Placing Documents (ADF (Auto Document Feeder))

Important

- Do not leave thick items on the platen when scanning from the ADF. May result in paper jam.
- Place and align documents of the same size when scanning two or more documents.
- For supported document sizes when scanning from the ADF, see Supported Originals.

1. Make sure any original has been removed from platen.
2. Open document tray (A).

3. Slide the document guide (B) all the way out.

▶▶▶ Note

- The location and number of document guides may vary depending on your model.

4. Load document with side to scan facing up in document tray.

Insert the document until it stops.

5. Adjust document guide to match width of document.

Do not slide the document guide too hard against the document. The document may not be fed properly.

►► Note

- When scanning duplex documents, place the front sides facing up. They will not be scanned correctly if placed the other way around.

Placing Items (When Using Stand)

1. Place item on platen.

1. Open the document cover.
2. Place the item with the side to scan facing the platen, and then align it with the alignment mark.

►► Important

- If you open the document cover wide, the scanner may fall over.
- Portions placed over (A) (0.094 inch (2.4 mm) from the left edge of the platen) or (B) (0.106 inch (2.7 mm) from the front edge) cannot be scanned.

2. Gently close document cover.

While scanning, hold the document cover gently with your hand to keep it closed.

▶▶ Important

- Keep these points in mind when using the scanner in the upright position.
 - Do not subject the scanner to vibration during operation. The correct image results may not be obtained (for example, images may blur).
 - The item type may not be detected automatically. In that case, specify the item type in IJ Scan Utility Lite and scan.

Faxing

Preparing for Faxing

Registering Recipients

Sending Faxes Using Operation Panel of Printer

Sending Faxes from Computer (Windows)

Sending Faxes from Computer (Mac OS)

Receiving Faxes

Other Useful Fax Functions

Preparing for Faxing

Connect the printer to the telephone line and set up the printer before using the faxing functions. Then specify the basic setting such as sender information, date/time, and daylight saving time.

▶▶▶ Important

- If the Power Disconnects:

If there is a power failure or the printer is accidentally unplugged the power cord and the printer is turned off during the printer setup or after making each setting, the settings will be as follows.

- The settings for user information, directory and date/time will be retained.

If the power disconnects, the following will apply:

- You will not be able to send or receive faxes, make copies, or scan originals.
- When you are connecting the telephone, whether or not you can use it depends upon your telephone line or telephone.

Setting Up Printer

The printer must be set up depending on your telephone line and use of the faxing function.

All Setup

FAX Setup Guide

Individual Setup

|| Step 1 | [Connecting Telephone Line](#)

|| Step 2 | [Setting Telephone Line Type](#)

|| Step 3 | [Setting Receive Mode](#)

|| Step 4 | [Setting Sender Information](#)

▶▶▶ Note

- You can set the fax setting according to the instruction on the touch screen.

➔ [Easy setup](#)

If you set up according to the instruction on the touch screen, the receive mode is set to **TEL priority mode** or **Fax only mode**. To receive faxes with **DRPD** or **Network switch**, change the receive mode.

➔ [Setting Receive Mode](#)

Connecting Telephone Line

The connection method differs depending on your telephone line.

- If you connect the printer to wall telephone line directly/If you connect the printer with the xDSL splitter:
 - ➔ [Basic Connection \(Connecting with General Telephone line\)](#)
- If you connect the printer to another line such as an xDSL:
 - ➔ [Connecting Various Lines](#)

If the connection is incorrect, the printer cannot send/receive faxes. Connect the printer correctly.

▶▶▶ Important

- Do not connect fax devices and/or telephones in parallel (US and Canada only).

If two or more fax devices and/or telephones are connected in parallel, the following problems may occur and the printer may not operate properly.

- If you pick up the handset of the telephone that is connected in parallel during fax transmission or reception, the fax image may be corrupted or a communication error may occur.
- Such services as Caller ID, etc. may not operate properly on the telephone.

If you cannot avoid parallel connections, set the receive mode to **TEL priority mode**, understanding that the above problems may occur. You will only be able to receive faxes manually.

Basic Connection (Connecting with General Telephone line)

Make sure that the printer is turned off, connect one end of supplied telephone line cable to the telephone line jack near the "LINE" mark of the printer, then connect the other end to the telephone line jack on the wall or to the telephone line jack of the xDSL splitter.

When you connect the telephone to the printer, make sure that the printer is turned off, connect one end of the modular cable to the external device jack near the "EXT." mark of the printer, then connect the other end to the telephone line jack of the telephone.

►► Important

- Be sure to connect the telephone line before the printer is turned on.
If you connect the telephone line when the printer is turned on, turn the printer off and unplug the power cord. Wait for 1 minute then connect the telephone line and power plug.

►► Note

- Refer to [Rear View](#) for the position of the telephone line jack and the external device jack.
- Before connecting a telephone or answering machine, remove the Telephone connector cap.
- **For users in the UK:**
If the connector of the external device cannot be connected to the jack on the printer, you will need to purchase a B.T. adapter to connect as follows:
Attach the B.T. adapter to the modular cable connecting the external device, then connect the B.T. adapter to the external device jack.

Connecting Various Lines

This section introduces how to connect various lines.

These are examples and could not be guaranteed to suit every connecting condition. For details, refer to the instruction manual supplied with the network device (control devices such as an xDSL (Digital Subscriber Line) modem or terminal adapter) you are connecting to this printer.

►► Note

- xDSL is the generic term for the high speed digital communication technology with telephone line such as ADSL/HDSL/SDSL/VDSL.

• **Connecting to an Internet Telephone**

- A: Digital Subscriber Line
- B: xDSL modem (splitter may not be built-in to the modem)
- C: Broadband router compatible with Internet Telephone
- D: Computer
- E: Telephone or answering machine
- F: WAN (Wide Area Network) port
- G: LAN (Local Area Network) port
- H: TEL port
- I: LINE port

* Port configurations and names may vary depending on the product.

►►► **Note**

- When connecting to the xDSL line, select the same line type as you are subscribing to in **Telephone line type**.

➔ [Setting Telephone Line Type](#)

• **Connecting to an xDSL**

- A: Analog Subscriber Line
- B: xDSL modem (splitter may not be built-in to the modem)
- C: Computer
- D: Telephone or answering machine

►►► **Important**

- When the splitter is not built-in to the xDSL modem, do not branch the telephone line before the splitter (wall side). And also, do not connect splitters in parallel. The printer may not be able to operate properly.

►►► **Note**

- When connecting to the xDSL line, select the same line type as you are subscribing to in **Telephone line type**.

- **Connecting to an ISDN Line**

For details on ISDN (Integrated Service Digital Network) connection and settings, refer to the manuals supplied with your terminal adapter or dial-up router.

Setting Telephone Line Type

Before using your printer, make sure you set the correct telephone line type for your telephone line. If you are unsure of your telephone line type, contact your telephone company. For xDSL or ISDN connections, contact the telephone company or service provider to confirm your line type.

Important

- **For users in China:**

After plugging the power cord and turning on the printer, the telephone line type is selected automatically. However, if the printer is connected to the control device such as an xDSL modem or terminal adapter, the telephone line type may not be selected correctly.

In this case, set the line type manually.

For details on how to set the Telephone line type manually in China:

➔ [Setting the Telephone Line Type Manually in China](#)

Note

- **Telephone line type** will not appear in countries or regions where **Rotary pulse** is not supported.
- You can print USER'S DATA LIST to check the current setting.
 - ➔ [Summary of Reports and Lists](#)

5. Select **Fax user settings**.

6. Select **Telephone line type**.

7. Select a telephone line type.

Rotary pulse

Select when your telephone line type is pulse dialing.

Touch tone

Select when your telephone line type is tone dialing.

Setting the Telephone Line Type Manually in China

This section describes the procedure to set the telephone line type manually in China.

1. [Check that printer is turned on.](#)

2. Select **Setup** on the HOME screen.

➔ [Using Touch Screen](#)

3. Select **Printer settings**.

4. Select **Fax settings**.

5. Select **Fax user settings**.

6. Select **Telephone line auto selection**.

The current telephone line type is displayed.

7. Check current telephone line type, and then select **OK**.

▶▶▶ Note

- If you do not need to change the telephone line type, press the **HOME** button to return to the HOME screen.

8. Select **OFF**.

9. Select a telephone line type.

Telephone line type
<input type="radio"/> Rotary pulse
<input checked="" type="radio"/> Touch tone

Rotary pulse

Select when your telephone line type is pulse dialing.

Touch tone

Select when your telephone line type is tone dialing.

Setting Receive Mode

Set the receiving operation (receiving mode).

For details on how to set the receive mode:

➔ [Setting Receive Mode](#)

You can select the appropriate mode.

For details on the selectable receive mode:

➔ [About Receive Mode](#)

For details on the advanced settings of the receive mode:

➔ [Advanced Settings of Receive Mode](#)

▶▶▶ Note

- The receiving operation procedure varies depending on the selected receive mode.

For details on receiving method depending on each receive mode:

➔ [Receiving Faxes](#)

- If you want to use a single telephone line for faxes and voice calls, you need to connect a telephone or an answering machine to the external device jack of this printer.

For details on how to connect the telephone or the answering machine to the printer:

➔ [Basic Connection \(Connecting with General Telephone line\)](#)

Setting Receive Mode

This section describes the procedure to select the receive mode.

1. [Check that printer is turned on.](#)

2. Select **Fax** on the HOME screen.

➔ [Using Touch Screen](#)

3. Select **Function list**.

The **Function list** screen is displayed.

4. Select **Receive mode settings**.

5. Select a receive mode, and then select **OK**.

▶▶▶ Note

- By selecting **Advanced**, you can specify the advanced settings of each receive mode.

For details on the advanced settings of the receive mode:

➔ [Advanced Settings of Receive Mode](#)

- For details on the receive mode:
 - ➔ [About Receive Mode](#)
- **DRPD** is available only in the US and Canada.
- **Network switch** may not be available depending on the country or region.
- Refer to [Receiving Faxes](#) for information on receiving faxes or the procedure for each receive mode.

About Receive Mode

You can select the receive mode suitable for your fax use conditions: whether you use a dedicated line for fax, etc.

- **Fax only mode**

Select when not receiving voice calls.

Receiving operation:

1. When a fax incomes, the printer will receive the fax automatically.

- **TEL priority mode**

Select when mainly receiving voice calls (with a telephone or answering machine connected to the printer).

Receiving operation:

1. When a call incomes, the telephone will ring.
2. Pick up the handset.

If the call is a voice call, talk on the telephone.

If the call is a fax, hang up the handset after the printer starts receiving the fax.

▶▶▶ Note

- The telephone may not ring when a call incomes even if it is connected to the printer, depending on the type or settings of the telephone.

- **DRPD or Network switch**

Select when receiving voice calls (with a telephone or answering machine connected to the printer) and subscribing to a ring pattern detection service provided by your telephone company.

Receiving operation:

1. When a call incomes, the telephone will ring.
2. The printer detects a fax call by the fax ring pattern.

If the call is a fax, the printer will receive the fax automatically.

If the printer does not detect the fax ring pattern, the telephone will continue ringing.

►► Note

- The telephone may not ring when a call comes even if it is connected to the printers, depending on the type or settings of the telephone.

Advanced Settings of Receive Mode

You can specify the advanced settings of each receive mode.

- **Advanced setting in Fax only mode**

You can specify the following setting item.

- **Ring count**

You can specify the number of times the external device rings when incoming.

Specify the number of times and select **OK**.

- **Advanced setting in TEL priority mode**

You can specify the following setting items.

- **Manual/auto switch: ON/Manual/auto switch: OFF**

If you select **Manual/auto switch: ON**, the printer automatically receives faxes after the external device rings a specified length of time.

You can specify the length of time until automatic reception is started.

- **RX start time**

You can specify the length of time until automatic reception is started when **Manual/auto switch: ON** is selected. Specify the length of time and select **OK**.

- **User-friendly RX: ON/User-friendly RX: OFF**

If you select **User-friendly RX: ON**, the printer automatically switches from telephone calling to fax reception by detecting the fax signal (CNG signal) when you lift the handset of the telephone or the answering device answers. When you have an answering device connected to the printer, select **User-friendly RX: ON** to switch to fax reception automatically after the answering device answers.

If you select **User-friendly RX: OFF**, the printer does not switch from telephone calling to fax reception automatically even if the printer detects the fax signal (CNG signal). Select **User-friendly RX: OFF** if you want the printer not to switch automatically during a call.

►► Note

- If you subscribe to Duplex Ringing service in Hong Kong, the number of times the external device rings specified with **Ring count** in **Fax only mode** is available in **TEL priority mode**.

If you want to specify the number of times the external device rings in **TEL priority mode**, select **Fax only mode** on the **Receive mode settings** screen, specify the number of times the external device rings with **Ring count**, and then switch to **TEL priority mode** in **Receive mode settings**.

- If you subscribe to Duplex Ringing service in Hong Kong, we recommend that you select **Manual/auto switch: OFF**.

- **Advanced setting in DRPD**

You can specify the following setting items.

- **Ring pattern (Normal ring/Double ring/Short-short-long/Short-long-short)**

Sets the distinctive ring pattern of a call that the printer assumes is a fax call.

If you subscribe to a DRPD service, set the ring pattern to match the pattern assigned by your telephone company.

➔ [Setting DRPD Ring Pattern \(US and Canada only\)](#)

- **Ring count**

You can specify the number of times the external device rings when incoming.

Specify the number of time and select **OK**.

- **Advanced setting in Network switch**

You can specify the following setting item.

- **Ring count**

You can specify the number of times the external device rings when incoming.

Specify the number of time and select **OK**.

Setting the DRPD Ring Pattern (US and Canada only)

If you have subscribed to a Distinctive Ring Pattern Detection (DRPD) service provided by your telephone company, your telephone company will assign two or more telephone numbers with distinctive ring patterns to your single telephone line, allowing you to have different numbers for fax calls and voice calls using only one telephone line. Your printer will automatically monitor the ring pattern, and will automatically receive the fax if the ring pattern is a fax call.

To use DRPD, follow the procedure below to set the fax ring pattern that matches the pattern assigned by your telephone company.

▶▶▶ Note

- Contact your local telephone company for detailed information on this service.

1. [Check that printer is turned on.](#)

2. Select **Fax** on the HOME screen.

➔ [Using Touch Screen](#)

3. Select **Function list**.

The **Function list** screen is displayed.

4. Select **Receive mode settings**.

5. Select **DRPD**.
6. Select **Advanced**.
7. Select ring pattern that your telephone company assigned to your fax number.

8. Specify number of time and select **OK**.
9. Select **OK**.

The **Function list** screen is displayed.

Setting Sender Information

You can set the sender information such as date/time, unit name, and unit fax/telephone number.

- ➔ [About Sender Information](#)
- ➔ [Setting Date and Time](#)
- ➔ [Setting Daylight Saving Time \(Summer Time\)](#)
- ➔ [Registering User Information](#)

About Sender Information

If the unit name and unit fax/telephone number are registered, they are printed with date and time as sender information on the recipient's fax.

A: Date and time of transmission

B: Unit fax/telephone number

C: Unit name

D: The registered recipient's name is printed when sending faxes.

E: Page number

➤➤➤ Note

- You can print USER'S DATA LIST to confirm the sender information you have registered.
 - ➔ [Summary of Reports and Lists](#)
- When sending faxes in black & white, you can select whether to print the sender information inside or outside the image area.

Specify the setting on **TTI position** in **Advanced fax settings** under **Fax settings**.

- ➔ [Advanced fax settings](#)

- You can select the date print format from three formats: **YYYY/MM/DD**, **MM/DD/YYYY**, and **DD/MM/YYYY**.

Select the date print format on **Date display format** under **Other printer settings**.

- ➔ [Other printer settings](#)

Setting Date and Time

This section describes the procedure to set the date and time.

1. [Check that printer is turned on.](#)

2. Select  **Setup** on the HOME screen.

➔ [Using Touch Screen](#)

3. Select  **Printer settings**.

4. Select **Other printer settings**.

5. Select **Date/time settings**.

6. Set date.

1. Select a setting item to change.

2. Select number to enter.

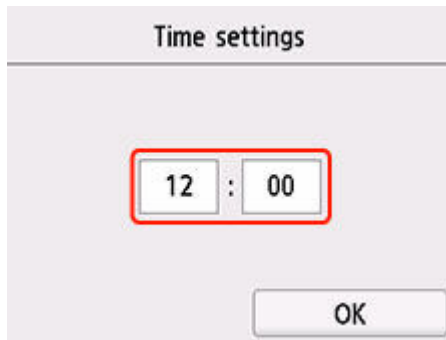

Enter only the last two digits of the year.

3. Select **OK**.

4. Select **OK** again when all settings are completed.

7. Set time.

1. Select a setting item to change.

2. Select number to enter.

Enter the date and time in 24-hour format.

3. Select **OK**.
4. Select **OK** again when all settings are completed.

Setting Daylight Saving Time (Summer Time)

Some countries adopt the daylight saving time (summer time) system that shifts the clock time forward at certain periods of the year.

You can set your printer to automatically change the time by registering the date and time that daylight saving time (summer time) begins and ends.

►► Important

- Not all the latest information of all countries or regions is applied for **Daylight saving time setting** by default. You need to change the default setting according to the latest information of your country or region.

►► Note

- This setting may not be available depending on the country or region.

1. [Check that printer is turned on.](#)

2. Select **Setup** on the HOME screen.

➔ [Using Touch Screen](#)

3. Select **Printer settings**.

4. Select **Other printer settings**.

5. Select **Daylight saving time setting**.

6. Select **ON**.

To disable summer time, select **OFF**.

7. Set date and time when summer time starts.

1. Set date when summer time starts.

Select a setting item to change, and then specify the setting. Select **OK** again when all settings are completed.

Start date/time	
Month	March
Week	Last week
DOW	Sunday
<input type="button" value="OK"/>	

2. Set time (in 24-hour format) when summer time starts.

Select a setting item to change, and then specify the setting. Select **OK** again when all settings are completed.

Start date/time	
Set shift time	
<input type="text" value="06"/>	: <input type="text" value="00"/>
<input type="button" value="OK"/>	

8. Set date and time when summer time ends.

1. Set date when summer time ends.

Select a setting item to change, and then specify the setting. Select **OK** again when all settings are completed.

End date/time	
Month	October
Week	Last week
DOW	Sunday
OK	

2. Set time (in 24-hour format) when summer time ends.

Select a setting item to change, and then specify the setting. Select **OK** again when all settings are completed.

End date/time	
Set shift time	
07	: 00
OK	

Registering User Information

This section describes the procedure to register the user information.

▶▶▶ Note

- Before sending a fax, be sure to enter your name and fax/telephone number in **Unit name** and **Unit TEL** on the **User information settings** screen (for US only).

1. [Check that printer is turned on.](#)

2. Select  **Setup** on the HOME screen.

➔ [Using Touch Screen](#)

3. Select  **Printer settings**.

4. Select **Fax settings**.

5. Select **Fax user settings**.

6. Select **User information settings**.

The screen to register the unit name and the unit fax/telephone number is displayed.

- **Registering Recipients Using Speed Dial Utility2 (Windows)**
- **Registering Recipients Using Speed Dial Utility2 (macOS)**

Registering Recipients Using Operation Panel of Printer

Registering recipients in the printer's directory in advance allows you to dial fax/telephone numbers simply.

The following methods to register are available:

- Recipient registration

Registering the recipient's fax/telephone number and name allows you to send a fax by selecting a registered recipient in the printer directory.

➡ [Registering Fax/Telephone Number of Recipients](#)

- Group dial registration

You can combine two or more recipients registered in advance into a group. You can send the same document to all the registered recipients in the group.

➡ [Registering Recipients in Group Dial](#)

You can register up to 100 recipients in total of individual recipients and group dials.

▶▶▶ Note

- To change the registered information of the recipient or the group dial, see [Changing Registered Information](#).
- To delete the registered information of the recipient or the group dial, see [Deleting Registered Information](#).
- To print a list of the recipient's fax/telephone numbers and names registered, see [Printing List of Registered Destinations](#).
- You can register, change, or delete the registered information of the recipient or the group dial using Speed Dial Utility on the computer.
 - For Windows:

The Fax standby screen is displayed.

3. Select **Function list**.

The **Function list** screen is displayed.

4. Select **TEL number registration**.

5. Select **Directory registration**.

6. Select a recipient or a group dial to change.

7. Change registered information.

- To change an individual recipient:

1. Select **Edit recipient**.

The registered information screen of the selected recipient is displayed.

2. Select entry field of name or entry field of fax/telephone numbers.

The each edit screen is displayed.

3. Change name or fax/telephone numbers.

4. Select **OK**.

The touch screen returns to the registered information screen.

5. Select **Register**.

- To change a group dial:

1. Select **Edit group dial**.

The registered information screen of the group dial is displayed.

2. To change group name, select entry field of name.

When edit screen of group name is displayed, change the group name, and then select **OK**.

3. To add member, select **Add member**.

When the printer's directory is displayed, select the recipient you want to add.

4. To delete member, select recipient on list.

When the confirmation screen is displayed, select **Yes** to delete the recipient from the group dial.

5. Select **Complete** to finalize changing.

Deleting Registered Information

To delete information registered for recipient and group dial, follow the procedure below.

1. [Check that printer is turned on.](#)

2. Select **Fax** on the HOME screen.

➔ [Using Touch Screen](#)

The Fax standby screen is displayed.

3. Select **Function list**.

The **Function list** screen is displayed.

4. Select **TEL number registration**.

5. Select **Directory registration**.

6. Select a recipient or a group dial to delete.

7. Delete registered information.

- To delete an individual recipient:
 1. Select **Delete recipient**.
 2. When confirmation screen is displayed, select **Yes** to delete.
- To delete a group dial:
 1. Select **Delete group dial**.
 2. When confirmation screen is displayed, select **Yes** to delete.

Printing List of Registered Destinations

You can print a list of the fax/telephone numbers and can keep it near the printer to refer to when dialing.

1. [Check that printer is turned on.](#)

2. [Load paper.](#)

3. Select **Fax** on the HOME screen.

➡ [Using Touch Screen](#)

The Fax standby screen is displayed.

4. Select **Function list**.

The **Function list** screen is displayed.

5. Select **Print reports/lists**.

6. Select **Directory list**.

7. Select an item to print.

- If you selected **Recipient**:

The confirmation screen asking if you print the list alphabetically by name is displayed.

If you select **Yes**: Prints RECIPIENT TELEPHONE NUMBER LIST in alphabetical order.

If you select **No**: Prints RECIPIENT TELEPHONE NUMBER LIST in the order of the ID number.

- If you selected **Group dial**:

The printing confirmation screen is displayed. Select **Yes** to print GROUP DIAL TELEPHONE NO. LIST.

Registering Recipients Using Speed Dial Utility2 (Windows)

About Speed Dial Utility2

Speed Dial Utility2 is a utility for forwarding the telephone directory registered on the printer to a computer and registering/changing it on the computer. In addition, you can register the telephone directory edited on the computer to the printer. You can also save them on the computer as a backup.

For safety reasons, it is recommended that you backup the registered data on the computer using Speed Dial Utility2.

Starting Up Speed Dial Utility2

▶▶ Important

- Before starting up Speed Dial Utility2, make sure that the printer is connected to the computer correctly.
- Do not plug in or unplug any cables while the printer is in operation, or when the computer is in sleep or standby mode.
- If your printer is compatible with LAN connection, make sure that the printer is connected to the computer with LAN connection to use Speed Dial Utility2 via LAN connection.
- The password entry screen may appear during startup or operation. If it appears, enter the administrator password, and then click **OK**. If you do not know the administrator password, contact the administrator of the printer.

Follow the procedure below to start up Speed Dial Utility2.

1. Make sure printer is turned on.

2. Start up Speed Dial Utility2.

- For Windows 10, click **Start** button and select **All apps, Canon Utilities**, and then **Speed Dial Utility2**.
- For Windows 8.1 or Windows 8, select **Speed Dial Utility2** on the **Start** screen to start Speed Dial Utility2. If **Speed Dial Utility2** is not displayed on the **Start** screen, select the **Search** charm, and then search for "Speed Dial Utility2".
- For Windows 7 or Windows Vista, click **Start** and select **All programs, Canon Utilities, Speed Dial Utility2**, and then **Speed Dial Utility2**.

Speed Dial Utility2 starts up.

▶▶ Note

- You can also start up Speed Dial Utility2 from Quick Utility Toolbox.

Speed Dial Utility2 Dialog box

The following items are on the **Speed Dial Utility2** dialog box.

1. Printer Name:

Selects the printer for editing the telephone directory using Speed Dial Utility2.

Behind printer name, printer's MAC address is displayed.

▶▶▶ Note

- For checking printer's MAC address, refer to "Checking Network Information" for your model from Home of the Online Manual.
- For printer that supports both wireless LAN connection and wired LAN connection, MAC address of wired LAN connection is displayed regardless of the connection method.

2. Display Printer Settings

Loads the telephone directory registered on the printer that selected for **Printer Name**: into Speed Dial Utility2.

3. Setting Item List:

Selects a setting item for editing. Choose one item from **TEL Number Registration**, **User Information Setting**, and **Rejected Number Setting**.

4. Registered information list

Displays the registered information selected for **Setting Item List**:

Note

- By clicking on the item name, you can sort the display order.

5. Edit.../Select All/Delete

Edits the item that selected for **Setting Item List:**, or deletes the item, or selects all the items.

When multiple items on the registered information list are selected, you cannot use the **Edit...** button.

6. Load from PC...

Displays the telephone directory saved on the computer.

7. Instructions

Displays this guide.

8. Exit

Quits Speed Dial Utility2. Information registered or edited using Speed Dial Utility2 is neither saved on the computer nor registered on the printer.

9. Save to PC...

Saves the telephone directory edited using Speed Dial Utility2 on the computer.

10. Register to Printer

Registers the telephone directory edited using Speed Dial Utility2 to the printer.

Saving Registered Telephone Directory on Printer to Your Computer

Follow the procedure below to save the telephone directory (includes recipients' name, recipients' fax/telephone number, group dial, user's name, user's fax/telephone number, and rejected numbers) that registered on the printer to the computer.

1. [Start up Speed Dial Utility2.](#)
2. Select a printer from **Printer Name:** list box, and then click **Display Printer Settings.**
3. Click **Save to PC....**
4. Enter file name on displayed screen, and then click **Save.**

▶▶▶ Note

- The data of the telephone directory (RSD file, *.rsd) can be imported to other printer.
 - ➡ [Registering Telephone Directory Has been Saved on Your Computer to Printer](#)

Registering a Fax/telephone Number Using Speed Dial Utility2

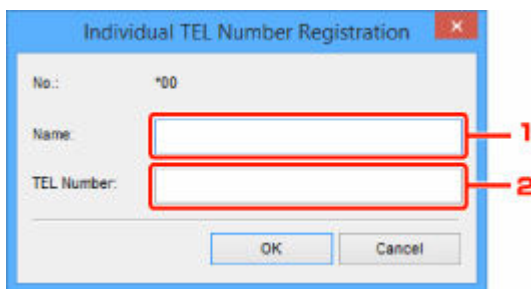

Follow the procedure below to register fax/telephone numbers.

▶▶▶ Note

Before you register fax/telephone numbers using Speed Dial Utility2, make sure that no fax operations are in progress.

1. [Start up Speed Dial Utility2.](#)
2. Select a printer from **Printer Name:** list box, and then click **Display Printer Settings.**
3. Click **TEL Number Registration** from **Setting Item List:**
The list of registered fax/telephone numbers is displayed.
4. Select an unoccupied code from list, and then click **Edit....**
The **Individual or Group Selection** dialog box is displayed.
5. Click **Register individual TEL number** or **Register group dial**, and then click **Next....**

- If **Register individual TEL number** is selected:

1. Enter name.
2. Enter fax/telephone number.

- If **Register group dial** is selected:

1. Enter group name.
2. Select a code you want to add to group dial, and then click **Add >>**.

➤➤➤ Note

- You can only add the numbers that have already been registered.

6. Click **OK**.

To continue registering fax/telephone numbers or a group dial, repeat steps 4 to 6.

- To save the registered information on the computer.

1. Click **Save to PC...**
2. Enter file name on displayed screen, and then click **Save**.

- To register the registered information to the printer:

1. Click **Register to Printer**.
2. When message appears, check it and click **OK**.

The information is registered to the printer.

Changing a Fax/telephone Number Using Speed Dial Utility2

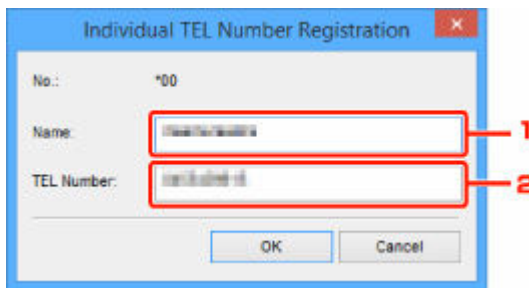

Follow the procedure below to change fax/telephone numbers.

▶▶▶ Note

- Before you change fax/telephone numbers using Speed Dial Utility2, make sure that no fax operations are in progress.

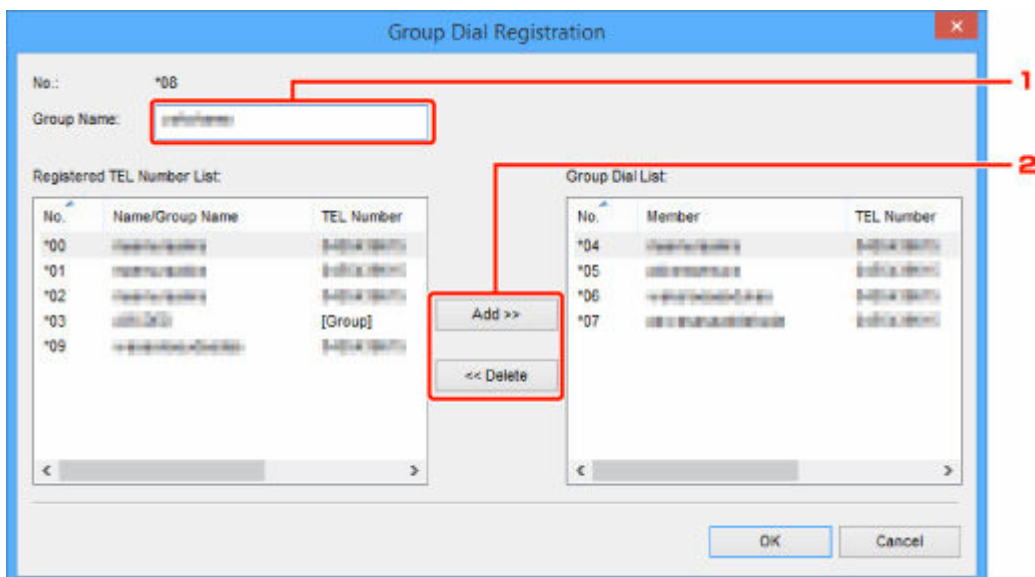

1. [Start up Speed Dial Utility2.](#)
2. Select a printer from **Printer Name:** list box, and then click **Display Printer Settings.**
3. Click **TEL Number Registration** from **Setting Item List:**.
The list of registered fax/telephone numbers is displayed.
4. Select a code to change from list, and then click **Edit....**

- If an individual fax/telephone number is selected:

1. Enter a new name.
2. Enter a new fax/telephone number.

- If a group dial is selected:

No.	Name/Group Name	TEL Number
*00	Haeil/Seoul	02-1234-5678
*01	Haeil/Seoul	02-1234-5678
*02	Haeil/Seoul	02-1234-5678
*03	Seoul/Seoul	[Group]
*09	Haeil/Seoul	02-1234-5678

No.	Member	TEL Number
*04	Haeil/Seoul	02-1234-5678
*05	Haeil/Seoul	02-1234-5678
*06	Haeil/Seoul	02-1234-5678
*07	Haeil/Seoul	02-1234-5678

1. Enter a new group name.

2. Add or delete a member to/from group dial.

To add a member:

Select a code to add to group dial, and then click **Add >>**.

To delete a member:

Select a code to delete from group dial, and then click **<< Delete**.

5. Click OK.

To continue changing fax/telephone numbers or group dials, repeat steps 4 and 5.

- To save the edited information on the computer.

1. Click **Save to PC...**

2. Enter file name on displayed screen, and then click **Save**.

- To register the edited information to the printer:

1. Click **Register to Printer**.

2. When message appears, check it and click **OK**.

The information is registered to the printer.

Deleting a Fax/telephone Number Using Speed Dial Utility2

Follow the procedure below to delete fax/telephone numbers.

▶▶▶ Note

- Before you delete fax/telephone numbers using Speed Dial Utility2, make sure that no fax operations are in progress.

1. [Start up Speed Dial Utility2.](#)
2. Select a printer from **Printer Name:** list box, and then click **Display Printer Settings.**
3. Click **TEL Number Registration** from **Setting Item List:**.
The list of registered fax/telephone numbers is displayed.
4. Select a code to delete from list, and then click **Delete.**

▶▶▶ Note

- To delete all fax/telephone numbers on the list, click **Select All**, and then **Delete.**

5. When confirmation screen appears, click **OK.**

The selected fax/telephone number is deleted.

To continue deleting fax/telephone numbers, repeat steps 4 and 5.

- To save the edited information on the computer.
 1. Click **Save to PC....**
 2. Enter file name on the displayed screen, and then click **Save.**
- To register the edited information to the printer:
 1. Click **Register to Printer.**
 2. When message appears, check it and click **OK.**

The information is registered to the printer.

Changing Sender Information Using Speed Dial Utility2

Follow the procedure below to change the user's name or fax/telephone number.

1. [Start up Speed Dial Utility2.](#)
2. Select a printer from **Printer Name:** list box, and then click **Display Printer Settings.**
3. Click **User Information Setting** from **Setting Item List:**.
The user's information is displayed.
4. Select an item to change, and then click **Edit....**
The **User Information** dialog box is displayed.
5. Enter new user's name on **User Name** and new fax/telephone number in **TEL Number**, and then click **OK.**
 - To save the edited information on the computer:
 1. Click **Save to PC....**
 2. Enter file name on displayed screen, and then click **Save.**
 - To register the edited information to the printer:
 1. Click **Register to Printer.**
 2. When message appears, check it and click **OK.**
The information is registered to the printer.

Registering/Changing Rejected Number Using Speed Dial Utility2

Follow the procedure below to register, change, or delete rejected numbers.

1. [Start up Speed Dial Utility2.](#)
2. Select a printer from **Printer Name:** list box, and then click **Display Printer Settings.**
3. Click **Rejected Number Setting** from **Setting Item List:**.

The list of rejected numbers is displayed.

- To register a rejected number:
 1. Select an unoccupied code from list, and then click **Edit...**
 2. Enter fax/telephone number in **Rejected Number** dialog box, and then click **OK.**
- To change a rejected number:
 1. Select a code to change from list, and then click **Edit...**
 2. Enter fax/telephone number in **Rejected Number** dialog box, and then click **OK.**
- To delete a rejected number:
 1. Select a code to delete from list, and then click **Delete.**

The selected fax/telephone number is deleted.

▶▶▶ Note

- To delete all fax/telephone numbers on the list, click **Select All**, and then **Delete.**

Registering Telephone Directory Has been Saved on Your Computer to Printer

You can load the data of the telephone directory (RSD file, *.rsd) and register it to your printer.

The data of the telephone directory (RSD file, *.rsd) that is exported from other printer can be loaded and registered to your printer.

▶▶▶ Note

- In Speed Dial Utility2, the data of the telephone directory (RSD file, *.rsd) that is exported using Speed Dial Utility can be loaded.

1. [Start up Speed Dial Utility2.](#)
2. Select a printer from **Printer Name:** list box, and then click **Display Printer Settings.**
3. Click **Load from PC....**
4. Select a data of telephone directory (RSD file, *.rsd) to register to your printer.
5. Click **Open** on dialog box.

The selected telephone directory is displayed.

▶▶▶ Note

- If you select the data of the telephone directory (RSD file, *.rsd) that is exported from other printer, the confirmation message appears. Click **OK.**

6. Click **Register to Printer.**

The telephone directory that has been saved on the computer is registered to your printer.

Registering Recipients Using Speed Dial Utility2 (Mac OS)

About Speed Dial Utility2

Speed Dial Utility2 is a utility for forwarding the telephone directory registered on the printer to a computer and registering/changing it on the computer. In addition, you can register the telephone directory edited on the computer to the printer. You can also save them on the computer as a backup.

For safety reasons, it is recommended that you backup the registered data on the computer using Speed Dial Utility2.

Starting Up Speed Dial Utility2

▶▶▶ Important

- Before starting up Speed Dial Utility2, make sure that the printer is connected to the computer correctly.
- Do not plug in or unplug any cables while the printer is in operation, or when the computer is in sleep or standby mode.
- If your printer is compatible with LAN connection, make sure that the printer is connected to the computer with LAN connection to use Speed Dial Utility2 via LAN connection.
- The password entry screen may appear during startup or operation. If it appears, enter the administrator password, and then click **OK**. If you do not know the administrator password, contact the administrator of the printer.

Follow the procedure below to start up Speed Dial Utility2.

1. Select **Applications** on **Go** menu of Finder.
2. Double-click **Canon Utilities** folder.
3. Double-click **Speed Dial Utility2** folder.
4. Double-click **Speed Dial Utility2**.

Speed Dial Utility2 starts up.

▶▶▶ Note

- You can also start up Speed Dial Utility2 from Quick Utility Toolbox.

Speed Dial Utility2 Dialog

The following items are on the **Speed Dial Utility2** dialog.

1. Printer Name:

Selects the printer for editing the telephone directory using Speed Dial Utility2.

Behind printer name, printer's MAC address is displayed.

▶▶▶ Note

- For checking printer's MAC address, refer to "Checking Network Information" for your model from Home of the Online Manual.
- For printer that supports both wireless LAN connection and wired LAN connection, MAC address of wired LAN connection is displayed regardless of the connection method.

2. Display Printer Settings

Loads the telephone directory registered on the printer that selected for **Printer Name**: into Speed Dial Utility2.

3. Setting Item List:

Selects a setting item for editing. Choose one item from **TEL Number Registration**, **User Information Setting**, and **Rejected Number Setting**.

4. Registered information list

Displays the registered information selected for **Setting Item List**.

Note

- By clicking on the item name, you can sort the display order.

5. Edit.../Select All/Delete

Edits the item that selected for **Setting Item List:**, or deletes the item, or selects all the items.

When multiple items on the registered information list are selected, you cannot use the **Edit...** button.

6. Load from PC...

Displays the telephone directory saved on the computer.

7. Instructions

Displays this guide.

8. Exit

Quits Speed Dial Utility2. Information registered or edited using Speed Dial Utility2 is neither saved on the computer nor registered on the printer.

9. Save to PC...

Saves the telephone directory edited using Speed Dial Utility2 on the computer.

10. Register to Printer

Registers the telephone directory edited using Speed Dial Utility2 to the printer.

Saving Registered Telephone Directory on Printer to Your Computer

Follow the procedure below to save the telephone directory (includes recipients' name, recipients' fax/telephone number, group dial, user's name, user's fax/telephone number, and rejected numbers) that registered on the printer to the computer.

1. [Start up Speed Dial Utility2.](#)
2. Select a printer from **Printer Name:** list box, and then click **Display Printer Settings.**
3. Click **Save to PC....**
4. Enter file name on displayed screen, and then click **Save.**

▶▶▶ Note

- The data of the telephone directory (RSD file, *.rsd) can be imported to other printer.
 - ➡ [Registering Telephone Directory Has been Saved on Your Computer to Printer](#)

Registering a Fax/telephone Number Using Speed Dial Utility2

Follow the procedure below to register fax/telephone numbers.

»» Note

Before you register fax/telephone numbers using Speed Dial Utility2, make sure that no fax operations are in progress.

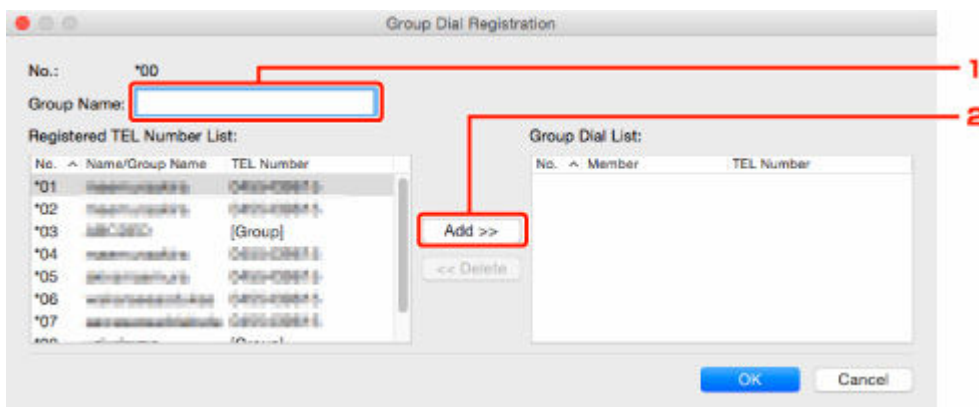

1. [Start up Speed Dial Utility2.](#)
2. Select a printer from **Printer Name:** list box, and then click **Display Printer Settings.**
3. Click **TEL Number Registration** from **Setting Item List:**.
The list of registered fax/telephone numbers is displayed.
4. Select an unoccupied code from list, and then click **Edit...**.
The **Individual or Group Selection** dialog is displayed.
5. Click **Register individual TEL number** or **Register group dial**, and then click **Next...**

- If **Register individual TEL number** is selected:

1. Enter name.
2. Enter fax/telephone number.

- If **Register group dial** is selected:

1. Enter group name.
2. Select a code you want to add to group dial, and then click **Add >>**.

»» Note

- You can only add the numbers that have already been registered.

6. Click OK.

To continue registering fax/telephone numbers or a group dial, repeat steps 4 to 6.

- To save the registered information on the computer.
 1. Click **Save to PC...**
 2. Enter file name on displayed screen, and then click **Save**.
- To register the registered information to the printer:
 1. Click **Register to Printer**.
 2. When message appears, check it and click **OK**.

The information is registered to the printer.

Changing a Fax/telephone Number Using Speed Dial Utility2

Follow the procedure below to change fax/telephone numbers.

»» Note

- Before you change fax/telephone numbers using Speed Dial Utility2, make sure that no fax operations are in progress.

1. [Start up Speed Dial Utility2.](#)

2. Select a printer from **Printer Name:** list box, and then click **Display Printer Settings.**

3. Click **TEL Number Registration** from **Setting Item List:**.

The list of registered fax/telephone numbers is displayed.

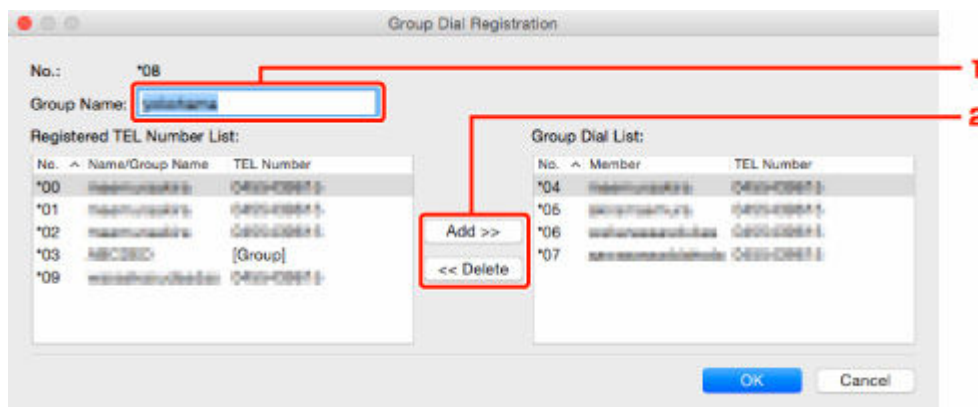

4. Select a code to change from list, and then click **Edit...**

- If an individual fax/telephone number is selected:

1. Enter a new name.
2. Enter a new fax/telephone number.

- If a group dial is selected:

1. Enter a new group name.
2. Add or delete a member to/from group dial.

To add a member:

Select a code to add to group dial, and then click **Add >>**.

To delete a member:

Select a code to delete from group dial, and then click **<< Delete**.

5. Click OK.

To continue changing fax/telephone numbers or group dials, repeat steps 4 and 5.

- To save the edited information on the computer.
 1. Click **Save to PC....**
 2. Enter file name on displayed screen, and then click **Save**.
- To register the edited information to the printer:
 1. Click **Register to Printer**.
 2. When message appears, check it and click **OK**.

The information is registered to the printer.

Deleting a Fax/telephone Number Using Speed Dial Utility2

Follow the procedure below to delete fax/telephone numbers.

▶▶▶ Note

- Before you delete fax/telephone numbers using Speed Dial Utility2, make sure that no fax operations are in progress.

1. [Start up Speed Dial Utility2.](#)
2. Select a printer from **Printer Name:** list box, and then click **Display Printer Settings.**
3. Click **TEL Number Registration** from **Setting Item List:**.
The list of registered fax/telephone numbers is displayed.
4. Select a code to delete from list, and then click **Delete.**

▶▶▶ Note

- To delete all fax/telephone numbers on the list, click **Select All**, and then **Delete.**

5. When confirmation screen appears, click **OK.**

The selected fax/telephone number is deleted.

To continue deleting fax/telephone numbers, repeat steps 4 and 5.

- To save the edited information on the computer.
 1. Click **Save to PC....**
 2. Enter file name on the displayed screen, and then click **Save.**
- To register the edited information to the printer:
 1. Click **Register to Printer.**
 2. When message appears, check it and click **OK.**
The information is registered to the printer.

Changing Sender Information Using Speed Dial Utility2

Follow the procedure below to change the user's name or fax/telephone number.

1. [Start up Speed Dial Utility2.](#)
2. Select a printer from **Printer Name:** list box, and then click **Display Printer Settings.**
3. Click **User Information Setting** from **Setting Item List:**.
The user's information is displayed.
4. Select an item to change, and then click **Edit....**
The **User Information** dialog is displayed.
5. Enter new user's name on **User Name** and new fax/telephone number in **TEL Number**, and then click **OK.**
 - To save the edited information on the computer:
 1. Click **Save to PC....**
 2. Enter file name on displayed screen, and then click **Save.**
 - To register the edited information to the printer:
 1. Click **Register to Printer.**
 2. When message appears, check it and click **OK.**
The information is registered to the printer.

Registering/Changing Rejected Number Using Speed Dial Utility2

Follow the procedure below to register, change, or delete rejected numbers.

1. [Start up Speed Dial Utility2.](#)
2. Select a printer from **Printer Name:** list box, and then click **Display Printer Settings.**
3. Click **Rejected Number Setting** from **Setting Item List:**.

The list of rejected numbers is displayed.

- To register a rejected number:
 1. Select an unoccupied code from list, and then click **Edit...**
 2. Enter fax/telephone number in **Rejected Number** dialog, and then click **OK.**
- To change a rejected number:
 1. Select a code to change from list, and then click **Edit...**
 2. Enter fax/telephone number in **Rejected Number** dialog, and then click **OK.**
- To delete a rejected number:
 1. Select a code to delete from list, and then click **Delete.**

The selected fax/telephone number is deleted.

▶▶▶ Note

- To delete all fax/telephone numbers on the list, click **Select All**, and then **Delete.**

Registering Telephone Directory Has been Saved on Your Computer to Printer

You can load the data of the telephone directory (RSD file, *.rsd) and register it to your printer.

The data of the telephone directory (RSD file, *.rsd) that is exported from other printer can be loaded and registered to your printer.

»» Note

- In Speed Dial Utility2, the data of the telephone directory (RSD file, *.rsd) that is exported using Speed Dial Utility can be loaded.

1. [Start up Speed Dial Utility2.](#)
2. Select a printer from **Printer Name:** list box, and then click **Display Printer Settings.**
3. Click **Load from PC....**
4. Select a data of telephone directory (RSD file, *.rsd) to register to your printer.
5. Click **Open** on dialog.

The selected telephone directory is displayed.

»» Note

- If you select the data of the telephone directory (RSD file, *.rsd) that is exported from other printer, the confirmation message appears. Click **OK.**

6. Click **Register to Printer.**

The telephone directory that has been saved on the computer is registered to your printer.

Sending Faxes Using Operation Panel of Printer

- **Sending Faxes by Entering Fax/Telephone Number** 📌 **Basic**
- **Resending Faxes (Redialing Busy Number)**
- **Setting Items for Sending Faxes**

Sending Faxes by Entering Fax/Telephone Number

This section describes dialing and sending faxes directly by entering the fax/telephone numbers.

»» Important

- It may be possible that faxes will reach unintended recipients due to the misdialing or incorrect registration of fax/telephone numbers. When you send important documents, we recommend that you send them after speaking on the telephone.

➔ [Sending Fax after Speaking on Telephone](#)

1. [Check that printer is turned on.](#)
2. [Load original on platen or in ADF \(Auto Document Feeder\).](#)

3. Select  **Fax** on the HOME screen.

➔ [Using Touch Screen](#)

The Fax standby screen is displayed.

A: The receive mode selected currently is displayed.

B: The date and time are displayed.

C: Select to send faxes with the on hook dial function.

➔ [Using On Hook Dial Function](#)

D: Select to send faxes with redialing.

➔ [Resending Faxes \(Redialing Busy Number\)](#)

E: You can use the each fax function and change the setting for the fax.

F: The current state is displayed.

G: You can change the settings for sending a fax.

➔ [Setting Items for Sending Faxes](#)

H: You can select a registered fax/telephone number.

➔ [Sending Fax to Registered Recipient](#)

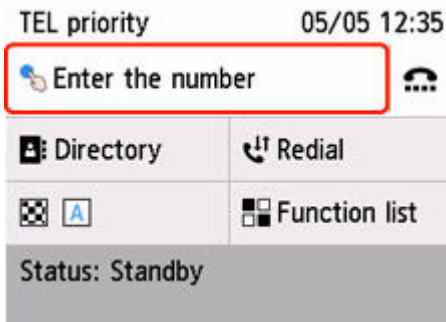

I: Select to display the screen to enter the fax/telephone numbers.

▶▶▶ Note

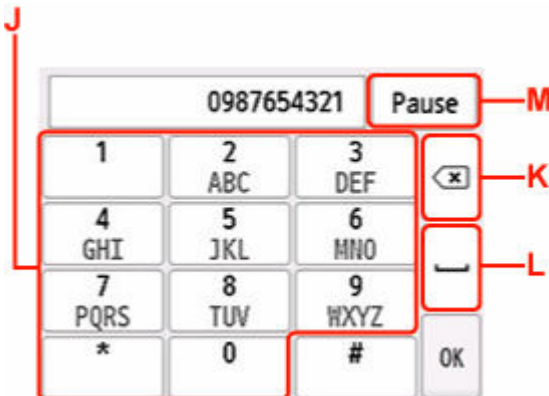

- If you have not set up the printer for sending/receiving faxes yet, the message for setup is displayed on the touch screen when you select **Fax** on the HOME screen for the first time. When you set up for faxing, follow the procedure according to the instructions on the touch screen.

4. Dial recipient's fax/telephone number.

1. Select entry field of fax/telephone numbers.

2. Enter fax/telephone number.

J: Enters the number.

K: Deletes the entered number.

L: Enters a blank space.

M: Enters a pause "P".

3. Select **OK**.

The touch screen returns to the Fax standby screen.

▶▶▶ Note

- Select **Save profile** to register the current settings as a custom menu.
➔ [Registering Favorite Settings \(My Presets\)](#)

5. Press the **Black** button or the **Color** button.

The printer starts scanning the document.

▶▶▶ Important

- Color transmission is available only when the recipient's fax device supports color faxing.
- Do not open the document cover until scanning is completed.

6. Start sending.

• If you load the document in the ADF:

The printer scans the document automatically and starts sending the fax.

▶▶▶ Note

- If documents remain in the ADF after the **Stop** button is pressed while scanning is in progress, **Originals in ADF. Remove any originals from the document tray and tap [OK].** is displayed on the touch screen. By selecting **OK**, the remaining documents are automatically ejected.

• If you load the document on the platen:

After scanning the document, the confirmation screen asking you if you load the next document is displayed.

To send the scanned document, select **Send now** to start sending it.

To send two or more pages, follow the message to load the next page, and select **Scan**. After scanning all pages, select **Send now** to start sending.

▶▶▶ Note

- When your printer is connected to a PBX (Private Branch Exchange) system, refer to the operating instructions of the system for details on dialing the recipient's fax/telephone number.
- In case the printer was not able to send a fax, such as when the recipient's line was busy, it has the function to automatically redial the number after a specified interval. Automatic redialing is enabled by default.

➡ [Automatic Redialing](#)

- Unsent documents, such as those pending redial, are stored in the printer's memory. They are not stored in the case of a sending error.

➡ [Document Stored in Printer's Memory](#)

- Do not unplug the power cord until all documents are sent.

Resending Faxes (Redialing Busy Number)

There are two methods of redialing: Automatic redialing and Manual redialing.

• Automatic Redialing

If you send a document and the recipient's line is busy, the printer will redial the number after a specified interval.

Enable and specify the automatic redialing setting on **Auto redial** in **Advanced fax settings** under **Fax settings**.

➔ [Advanced fax settings](#)

»» Note

- To cancel automatic redialing, delete the unsent fax from the printer's memory while the printer is on-standby for a redial operation. For details, see [Deleting Document in Printer's Memory](#).

• Manual Redialing

You can redial to the recipients dialed by entering the fax/telephone numbers.

➔ [Manual Redialing](#)

»» Important

- It may be possible that faxes will reach unintended recipients due to the misdialing or incorrect registration of fax/telephone numbers. When you send important documents, we recommend that you send them after speaking on the telephone.

➔ [Sending Fax after Speaking on Telephone](#)

»» Note

- Automatic redialing is enabled by default.
- For details on the basic sending operations:

➔ [Sending Faxes by Entering Fax/Telephone Number](#)

Manual Redialing

Follow the procedure below for manual redialing.

1. [Check that printer is turned on.](#)
2. [Load original on platen or in ADF \(Auto Document Feeder\).](#)

3. Select  **Fax** on the HOME screen.

➔ [Using Touch Screen](#)

The Fax standby screen is displayed.

4. Change send settings as necessary.

➔ [Setting Items for Sending Faxes](#)

5. Select **Redial**.

The **Redial** screen is displayed.

6. Select a recipient's number to redial.

7. Press the **Black** button or the **Color** button.

➤➤➤ Important

- Color transmission is available only when the recipient's fax device supports color faxing.

➤➤➤ Note

- For manual redialing, the printer memorizes up to 10 recent recipients dialed by entering the fax/telephone numbers. Note that the printer does not memorize any recipients dialed using the redial function or selecting from the directory.
- If documents remain in the ADF after the **Stop** button is pressed while scanning is in progress, **Originals in ADF. Remove any originals from the document tray and tap [OK].** is displayed on the touch screen. By selecting **OK**, the remaining documents are automatically ejected.

Setting Items for Sending Faxes

You can change the send settings such as the scan contrast or the scan resolution on the Fax standby screen.

Select to change the send settings.

- **ScanRes.**

The following settings of the scan resolution are selectable.

Standard

Suitable for text-only documents.

Fine

Suitable for fine-print documents.

Extra fine

Suitable for detailed illustration or fine-print quality documents.

If the recipient's fax device is not compatible with **Extra fine** (300 x 300 dpi), the fax will be sent in the **Standard** or **Fine** resolution.

Photo

Suitable for photographs.

▶▶▶ **Note**

- When sending a color fax, documents are always scanned in the same resolution (200 x 200 dpi). The image quality (compression rate) is determined by which scan resolution is selected, except that **Extra fine** and **Photo** provide the same image quality.

- **Contrast**

Select a setting of the scan contrast from **Lower**, **Standard**, and **Higher**.

The touch screen returns to the Fax standby screen when you finish specifying the setting and selecting **OK**.

Sending Faxes from Computer (Windows)

- **Sending a FAX (Fax Driver)  Basic**
- **Creating an Address Book (Fax Driver)**
- **Edit or Remove a Recipient from an Address Book (Fax Driver)**
- **Search for a Recipient in an Address Book (Fax Driver)**
- **Cannot Send Faxes from Computer**
- **How to Open the Setting Screen of the Fax Driver**
- **General Notes (Fax Driver)**

Sending a FAX (Fax Driver)

You can send faxes using the fax driver from applications that support document printing.

►►► Note

- Only black and white transmission is supported.

1. Make sure that the machine is turned on.
2. Open the document you want to fax with an application (such as Notepad), and then click the Print command. (The command is **Print...** on the **File** menu.)
3. In **Select Printer** or **Name** in the **Print** dialog box, select **Canon XXX series FAX** (where "XXX" is the model name).
4. Click **Print** or **OK**.

* **Print** dialog box in Notepad

►►► Note

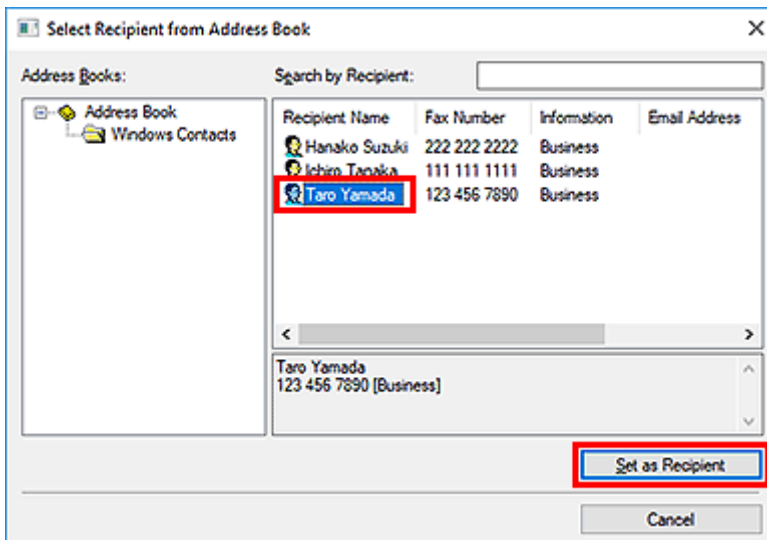

- Click **Preferences** or **Properties** in the **Print** dialog box to open the print settings dialog box of the fax driver in which you can set the paper size and print orientation. For details on how to open the print settings dialog box of the fax driver, see "[How to Open the Setting Screen of the Fax Driver.](#)"

5. Click **Open Address Book...** in **Set Recipient** in the **Send Fax** dialog box.

6. Select a recipient from **Recipient Name** in the **Select Recipient from Address Book** dialog box, then click **Set as Recipient**.

The selected recipient is reflected in **Recipient** in the **Send Fax** dialog box.

Important

- You cannot specify a recipient if there is no recipient registered in the address book. Register the recipient in the address book and reopen the address book.
For details on how to register recipients in the address book, see "[Creating an Address Book \(Fax Driver\)](#)."
- If the recipient's fax/telephone number is entered incorrectly or the registered fax/telephone number is incorrect, the fax may be sent to an unexpected recipient. When sending an important fax, it is recommended that you send it after confirming the entered information and recipient's status.

Note

- You can also specify **Recipient** by entering the **Recipient Name** and **Fax Number** in **Direct Entry** in the **Send Fax** dialog box and then clicking **Set as Recipient**.

- For details on valid characters, see "[General Notes \(Fax Driver\)](#)."
 - You can send faxes even if only the **Fax Number** is entered.
 - You can register the recipient you entered to the address book by clicking **Add to Address Book...** For details on how to register recipients in the address book, see "[Creating an Address Book \(Fax Driver\)](#)."
- Add the outside line access number before the fax number as needed.
(Example: When the outside line access number is "0" and the fax number is "XXX-XXXX", enter "0XXX-XXXX".)

7. Click **Transmit**.

When a confirmation message is displayed, click **OK**.

»» Important

- If you cannot send a fax due to line failure or other problem, see "[Cannot Send Faxes from Computer](#)."

Canceling Transmission

If you click **Transmit** in the **Send Fax** dialog box, the printer icon is displayed in the taskbar. Double-click this icon to display the list of fax jobs awaiting transmission or being sent.

Right-clicking a job and selecting **Cancel** stops transmission.

Creating an Address Book (Fax Driver)

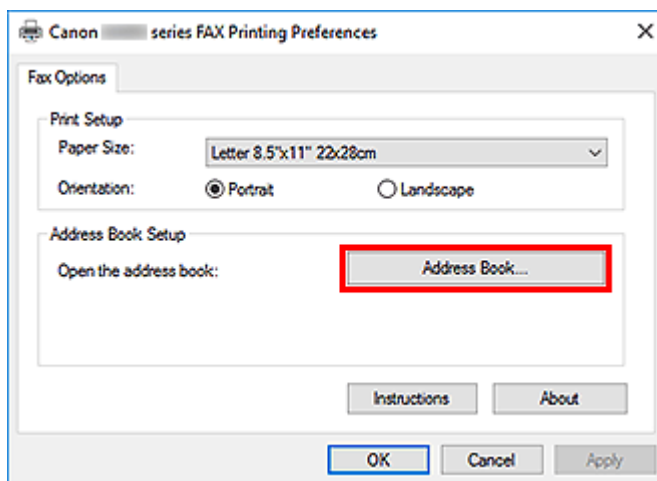

By using the address book, you can send a fax by simply specifying a recipient from it.

You can register the recipient's name, fax number and other information in the address book.

Registering a recipient (WAB contact) in the address book

You can register an individual recipient (Contact) in the address book.

1. [Open the print settings dialog box of the fax driver.](#)
2. Click **Address Book...** in the displayed dialog box.

Note

- Once an individual recipient (Contact) is registered in the address book folder (Windows Contacts) as an address book file (.contact file), it can be used in multiple applications. However, you cannot change the address book you use, as only one address book can be created per user.

Follow the steps below to open Windows Contacts.

— **Windows 10:**

Search for "Contacts" from **Search** box.

— **Windows 8.1/Windows 8:**

Select the **Search** charm, then search for "Contacts".

— **Windows 7/Windows Vista:**

Select **XXXX (user name)** from the **Start** menu, then double-click **Contacts**.

3. In the **Address Book** dialog box, click **New....**

4. Select **Contact** in the **New Entry** dialog box, then click **OK**.

➤➤➤ **Note**

- For faxing, you can only specify the **Contact** (one recipient). You cannot specify a **Distribution List**.

5. On **Name and E-mail** tab of Properties dialog box, enter **First** and **Last**.

The recipient's name will be printed at the top of the fax received by the recipient.

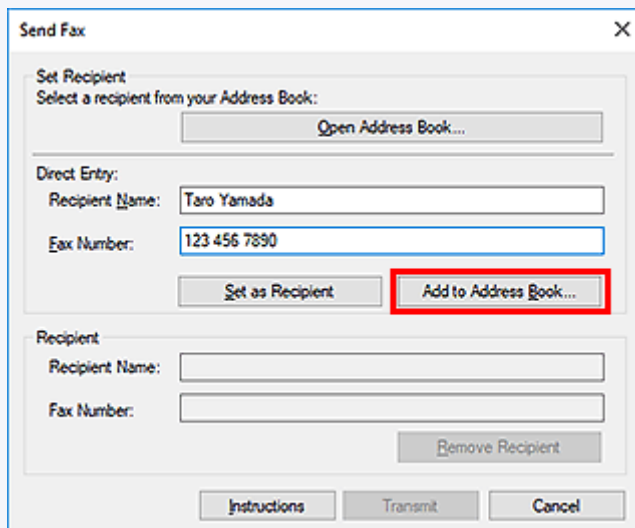

6. Enter the fax number on the **Home** or **Work** tab, then click **OK**.

An individual recipient (Contact) is registered in the address book.

➤➤➤ Note

- You can also register a recipient by clicking the **Add to Address Book...** button on the **Send Fax** dialog box after entering the recipient.

- Add the outside line access number before the fax number as needed.

(Example: When the outside line access number is "0" and the fax number is "XXX-XXXX", enter "0XXX-XXXX".)

- If you upgrade from Windows XP to Windows Vista, the address book you created in Windows XP may not be reflected in Windows Vista. In this case, open the address book in the following procedure and reflect the information to a new address book.

1. Select **Control Panel > Appearance and Personalization > Folder Options**.

2. Click the **View** tab of the **Folder Options** dialog box, select **Show hidden files and folders** in **Advanced settings**, then click **OK**.
3. From the **Start** menu, select **XXXX (user name)**, then double-click **AppData > Roaming > Canon > MP5** to open the folder.
4. Double-click the ".wab" file.

The address book will be reflected in Windows Vista automatically.

Edit or Remove a Recipient from an Address Book (Fax Driver)

You can change the recipients' names, fax numbers and other information, or delete recipients registered in the address book.

Editing Recipients in an address book

1. [Open the print settings dialog box of the fax driver.](#)
2. Click **Address Book...** in the displayed dialog box.

3. Select the recipient you want to edit from the **Address Book** dialog box, then click **Properties...**

4. Change information as needed on the Properties dialog box, then click **OK**.

Removing Recipients from an address book

1. [Open the print settings dialog box of the fax driver.](#)
2. Click **Address Book...** in the displayed dialog box.

3. Select the recipient you want to delete from the **Address Book** dialog box, then click **Delete**.

4. When a confirmation message is displayed, click **Yes**.

Search for a Recipient in an Address Book (Fax Driver)

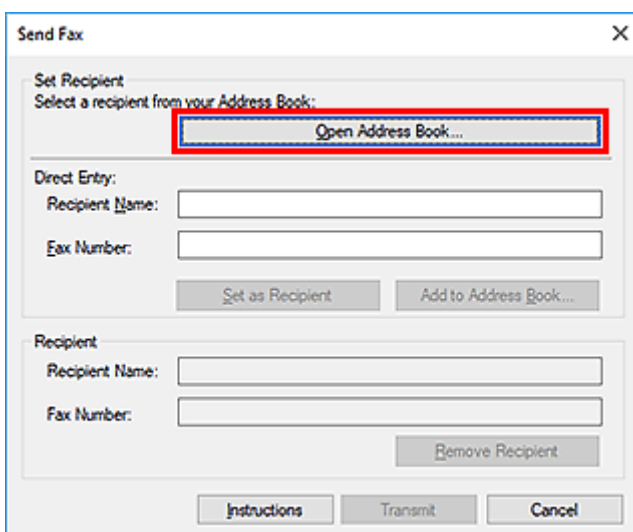

You can search for recipients registered in the address book by name.

1. Open the document you want to fax with an application (such as Notepad), and then click the Print command. (The command is **Print...** on the **File** menu.)
2. In **Select Printer** or **Name** in the **Print** dialog box, select **Canon XXX series FAX** (where "XXX" is the model name).
3. Click **Print** or **OK**.

* **Print** dialog box in Notepad

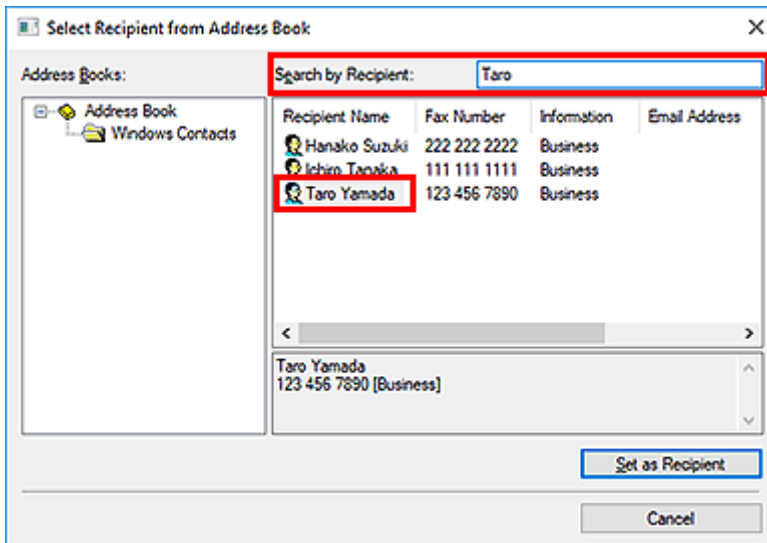

4. Click **Open Address Book...** in **Set Recipient** in the **Send Fax** dialog box.

5. Enter the name of the recipient you want to search for in **Search by Recipient** in the **Select Recipient from Address Book** dialog box.

If the entered name is found, the recipient will be displayed in the contact list with its name selected.

While the name is selected, click **Set as Recipient** to enter it as the recipient.

▶▶▶ Important

- You cannot search by criteria other than name.

Cannot Send Faxes from Computer

Check 1 Is the power turned on?

You cannot send faxes if the power is turned off. Press the **ON** button to turn the power on.

If you disconnected the power cord without turning off the power (one of the buttons on the operation panel is lit), reconnecting it turns on the power.

If you disconnected the power cord after pressing the **ON** button to turn off the power (no buttons on the operation panel are lit), reconnect it, then press the **ON** button to turn on the power.

If the power was turned off due to power failure, etc., the power is automatically turned on when the power failure is resolved.

▶▶▶ Important

- Confirm that all lamps on the operation panel are off before unplugging the power cord, then unplug the power cord.

If a power failure occurs or you unplug the power cord, all faxes stored in the machine's memory are deleted.

▶▶▶ Note

- If the faxes stored in the machine's memory are deleted by a power failure or unplugging the power cord, the list of the faxes deleted from the machine's memory will be printed after turning the machine on.

Check 2 Is a document being sent from memory or a fax being received into memory?

When the message for the transmission/reception is displayed on the machine's LCD (Liquid Crystal Display) monitor, a fax is being sent from/received into machine's memory. Wait until the transmission/reception is complete.

Check 3 Is the telephone line type set correctly?

Check the telephone line type setting and change it as necessary.

Check 4 Is **Dial tone detect** set to **ON**?

Resend the fax after a while.

If you still cannot send the fax, select **OFF** for **Dial tone detect** in **Advanced FAX settings** under **FAX settings**.

Check 5 Is the recipient's fax number correct?

Check the recipient's fax number, then send the document again.

➔ [Sending a FAX \(Fax Driver\)](#)

»» Note

- For details on how to change the recipients registered in the address book, see "[Edit or Remove a Recipient from an Address Book \(Fax Driver\)](#)."

Check 6 Does an error occur during transmission?

Check if a message is displayed in the computer screen.

If displayed, check the message, then resolve the error.

Check 7 Does a printer error occur?

Check if a message is displayed on the LCD monitor.

If a support code is displayed, see "Support Code List" for your model from Home of the Online Manual.

If no support code is displayed, see "A Message Is Displayed" for your model from Home of the Online Manual.

If you are in a hurry, press the **Stop** button to close the message, then send the fax.

Check 8 Is the telephone line connected correctly?

Reconnect the telephone line cable to the telephone line jack.

If the telephone line is connected correctly, then there is a problem with your telephone line. Contact your telephone company and the manufacturer of your terminal adapter or telephone adapter.

How to Open the Setting Screen of the Fax Driver

The following explains how to display the print settings dialog box or the Properties dialog box of the fax driver from your application or from the fax/printer icon.

Opening the Print Settings Dialog Box of the Fax Driver from an Application

1. Click the Print command in the application.

In general, you can open the **Print** dialog box by selecting Print from the File menu.

2. Select "your model name," then click **Preferences** (or **Properties**).

The print settings dialog box of the fax driver appears.

Opening the Print Settings Dialog Box of the Fax Driver from the Fax/Printer Icon

- Windows 10/Windows 8.1/Windows 8/Windows 7:

1. Select **Control Panel > Hardware and Sound > Devices and Printers**.
2. Right-click the **Canon XXX series** icon or **Canon XXX series FAX** icon and select **Printing Preferences**, then **Canon XXX series FAX**. (Where "XXX" is the model name.)

- Windows Vista:

1. Select **Control Panel > Hardware and Sound > Printers**.
2. Right-click the **Canon XXX series FAX** icon (where "XXX" is the model name) and select **Printing Preferences....**

Opening the Properties Dialog Box of the Fax Driver from the Fax/Printer Icon

- Windows 10/Windows 8.1/Windows 8/Windows 7:

1. Select **Control Panel > Hardware and Sound > Devices and Printers**.
2. Right-click the **Canon XXX series** icon or **Canon XXX series FAX** icon and select **Printer Properties**, then **Canon XXX series FAX**. (Where "XXX" is the model name.)

- **Windows Vista:**

- 1. Select Control Panel > Hardware and Sound > Printers.**
- 2. Right-click the Canon XXX series FAX icon (where "XXX" is the model name) and select Properties.**

General Notes (Fax Driver)

This fax driver is subject to the following restrictions.

Keep the following points in mind when using the fax driver.

- The fax driver may not work correctly when sending a Microsoft Excel 2002 document as a fax with the **Allow A4/Letter Paper Resizing** option checked in Microsoft Excel 2002. Follow the instructions below to solve the problem:

1. Click **Options...** from the **Tools** menu.
2. Uncheck the **Allow A4/Letter Paper Resizing** option on the **International** tab.

- When using a network compatible printer, you cannot send faxes from multiple computers at the same time. If you try to send a fax from a computer while a fax is being sent from another computer, a message appears and your fax cannot be sent.

Make sure that a fax is not being sent from another computer.

- If you assign the fax driver to the Bluetooth port, you cannot send a fax from the computer.
- You can use the following characters for **Fax Number**:

Character	Explanation
0 - 9 * #	For use in telephone and fax numbers.
, p	To place a pause between numbers.
P	To place a pause at the end of a sequence of numbers.
T	Numbers after the T will be sent as a tone signal.
+ - (), space	To make the number easier to read. You cannot insert a space at the front of a number.

*You cannot use ".", "R", "M", or "E".

- You can enter the following number of characters in **Recipient Name** and **Fax Number**.

Recipient Name: Up to 16 characters

Fax Number: Up to 60 characters

* The number of characters you can enter differs in some regions.

- The fax driver does not work correctly if you uncheck the **Enable printer pooling** option on the **Ports** tab of the **Canon XXX series FAX Properties** dialog box (where "XXX" is the model name). Check that the option is checked.

For details on how to open the **Canon XXX series FAX Properties** dialog box, see "[Opening the Properties Dialog Box of the Fax Driver from the Fax/Printer Icon.](#)"

Sending Faxes from Computer (Mac OS)

- **Sending Faxes Using AirPrint**
- **General Notes (Fax Transmission Using AirPrint)**

Sending Faxes Using AirPrint

You can send faxes from a printer using AirPrint.

To send faxes, add your printer to your computer.

Checking Environment

First, check your environment.

- **AirPrint operation environment**

A computer running Mac OS.

▶▶▶ Note

- For supported operating system versions, click Home to return to the top page of the Online Manual for your model and search for "Specifications."

- **Requirement**

The computer and your printer must be connected correctly.

Adding Printer to Computer

1. Open **System Preferences** and select **Printers & Scanners (Print & Scan)**.
2. Click **+** to display printer list.
3. Select printer model name with **Bonjour Multifunction** displayed.

▶▶▶ Note

- If the printer does not appear, check the following.
 - The printer is turned on.
 - The firewall function of the security software is off.
 - The printer is connected to the access point or directly connected to the computer.
- If using the printer with USB connection, select **USB Multifunction**.

4. Select **Secure AirPrint** or **AirPrint** from **Use**.

5. Click **Add**.

Sending Fax

▶▶▶ Note

- Only black and white transmission is supported.

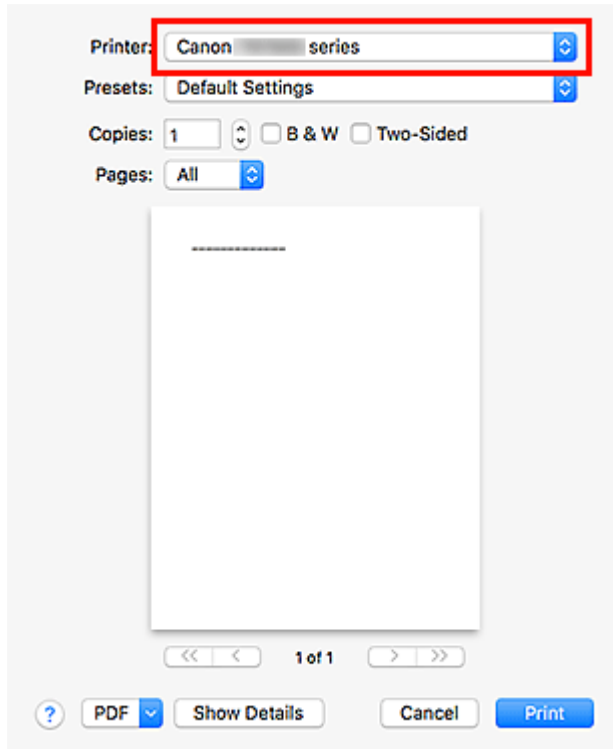

1. Make sure printer is on.

2. In application, open document to fax.

3. Open Print dialog.

To open the Print dialog, you typically select Print... from the File menu of your application software.

4. Select **Canon XXX series - Fax** (where "XXX" is the model name) from **Printer** list.

5. Specify fax paper settings as needed.

6. Enter fax/telephone numbers in **To**.

If you specify a dialing prefix, enter the code in **Dialing Prefix** and specify the cover page settings as needed.

7. Click **Fax**.

The number is dialed automatically and the fax is sent.

▶▶▶ **Note**

- To cancel sending the fax, press the printer's **Stop** button.

Automatic Redialing

If the fax could not be sent (for example, when the recipient was busy), the number is redialed automatically according to the automatic redialing setting of the printer.

You can enable or disable automatic redialing. If you enable automatic redialing, you can specify the maximum number of redial attempts and the length of time the printer waits between redial attempts.

▶▶▶ **Note**

- To cancel automatic redialing, wait until redialing starts, and then press the printer's **Stop** button.
- For more details, click Home to return to the top page of the Online Manual for your model and search for "FAX settings."

General Notes (Fax Transmission Using AirPrint)

Sending faxes is subject to the following restrictions.

- Enter the characters in **To** and **Dialing Prefix** so that the total number of characters is within 40 characters.
- You can use the following characters for **To**:

Character	Explanation
0 - 9 * #	For use in telephone and fax numbers.
+ space	To make the number easier to read. You cannot insert a space at the front of a number.

- You can use the following characters for **Dialing Prefix**:

Character	Explanation
0 - 9 * #	For use in telephone and fax numbers.
p	To place a pause between numbers.
T	Numbers after the T will be sent as a tone signal.
+ space	To make the number easier to read. You cannot insert a space at the front of a number.

Receiving Faxes

- **Receiving Faxes**
- **Changing Paper Settings**
- **Memory Reception**

Receiving Faxes

This section describes the preparation necessary for receiving a fax and how to receive a fax.

Preparing for Receiving Fax

Prepare for receiving a fax according to the following procedure.

1. [Check that printer is turned on.](#)

2. Select **Fax** on the HOME screen.

➔ [Using Touch Screen](#)

The Fax standby screen is displayed.

3. Check receive mode setting.

Check the receive mode setting displayed on the Fax standby screen.

▶▶▶ Note

- For details on how to change the receive mode:

➔ [Setting Receive Mode](#)

4. [Load paper.](#)

Load the sheets of plain paper.

5. Specify paper settings as necessary.

➔ [Changing Paper Settings](#)

This completes the preparation for receiving fax.

When a fax is received, it is printed on the loaded paper automatically.

Receiving Fax

Depending on the selected receive mode, the receive operation varies.

▶▶▶ Note

- For details on the receive mode:
 - ➔ [Setting Receive Mode](#)
- You can specify the advanced settings of each receive mode.
For details on the advanced settings of the receive mode:
 - ➔ [Advanced Settings of Receive Mode](#)
- The received faxes are automatically printed during default setting of the printer. The faxes are stored in the printer's memory when they could not be printed.
 - ➔ [Memory Reception](#)
- When receiving a fax, you can forward received faxes to the shared folder on the computer as PDF files automatically.
 - ➔ [Forwarding Document in Printer's Memory to Shared Folder on Computer](#)

When TEL priority mode is selected:

- **When the call is a fax:**

The telephone will ring when a call comes.

Pick up the handset. If you hear the fax tone, wait for at least 5 seconds after it stops, and then hang up the handset.

The printer will receive the fax.

▶▶▶ Note

- If the printer will not switch to fax reception, select **Fax** again on the HOME screen, and then press **Black** button or the **Color** button to receive the fax.
- To receive a fax without picking up the handset, select **Manual/auto switch: ON** in **Advanced**. **RX start time** allows you to specify the number of seconds until the printer switches to fax reception.

- If you have subscribed to Duplex Ringing service in Hong Kong, the telephone will ring a specified number of times when there is an incoming call with a fax distinctive ring pattern. Then, the printer will switch to fax reception automatically without the handset being picked up. The number of times to ring the telephone until switching to fax reception can be changed.
- Set the printer to enable you to initiate fax reception from a connected telephone (remote reception).

➔ Remote Reception

- **When the answering device is connected to the printer:**

- If the answering device is set to the answering mode, select **User-friendly RX: ON** in **Advanced**. If the call is a fax, the printer will receive the fax automatically.
- If the answering mode is turned off on the answering device, pick up the handset. If you hear the fax tone, wait for at least 5 seconds after it stops, and then hang up the handset.
- If **Manual/auto switch: ON** is selected in **Advanced**, set **RX start time** to longer than the time before the answering device starts playing the answering message. After making this setting, we recommend that you call the answering device using a mobile phone, etc. to confirm that messages are recorded successfully in the answering device.
- Set your answering device to answering mode and adjust it as follows:
 - The entire message should be no longer than 15 seconds.
 - In the message, tell your callers how to send a fax.

- **When the call is a voice call:**

The telephone will ring when a call comes in.

Pick up the handset, and talk on the telephone.

➤➤ **Note**

- If the printer unexpectedly switches to fax reception during telephone calls, select **User-friendly RX: OFF** in **Advanced**.
- If **Manual/auto switch: ON** is selected in **Advanced**, you must answer an incoming call by picking up the handset within the time specified in **RX start time**. Otherwise the printer will switch to fax reception.

When Fax only mode is selected:

- **When the call is a fax:**

The printer will receive the fax automatically.

▶▶▶ Note

- If a telephone is connected to the printer, the telephone will ring when a call comes.
- You can change the number of times to ring the telephone with **Ring count** in **Advanced**.

When DRPD or Network switch is selected:

- **When the call is a fax:**

The telephone will ring when a call comes.

The printer will receive the fax automatically when the fax ring pattern is detected.

▶▶▶ Note

- You can change the number of times to ring the telephone.
 - ➔ [Advanced Settings of Receive Mode](#)

- **When the call is a voice call:**

The telephone will ring when a call comes.

When the printer does not detect the fax ring pattern, the telephone will continue ringing.

Pick up the handset, and talk on the telephone.

▶▶▶ Note

- To use this feature, you need to subscribe to a compatible service provided by your telephone company.

- **For DRPD**

You need to select the appropriate ring pattern on the printer.

➔ [Setting DRPD Ring Pattern \(US and Canada only\)](#)

- **For Network switch**

The name of this service varies depending on the country or region. This setting may not be also available depending on the country or region.

Changing Paper Settings

This printer prints received faxes to paper loaded in the printer beforehand. You can use the operation panel to change the paper settings for printing faxes. Make sure that the settings are appropriate for the loaded paper.

▶▶▶ Important

- If the size of loaded paper is different from that specified in the paper size setting, **Check the page size and tap [OK].** are displayed on the touch screen.

If no paper is loaded, or paper has run out while printing is in progress, the error message for no paper is displayed on the touch screen.

After checking the contents of the touch screen, load paper and select **OK**.

You can also press the **Stop** button to close the message and print the stored documents in the printer's memory later.

➔ [Printing Document in Printer's Memory](#)

▶▶▶ Note

- If the sender sends a document that is larger than Letter-size or Legal-size, such as 11 x 17 inches, the sender's device may send the fax automatically reduced in size or divided, or send only a part of the original.

1. [Check that printer is turned on.](#)

2. Select **Fax** on the HOME screen.

➔ [Using Touch Screen](#)

The Fax standby screen is displayed.

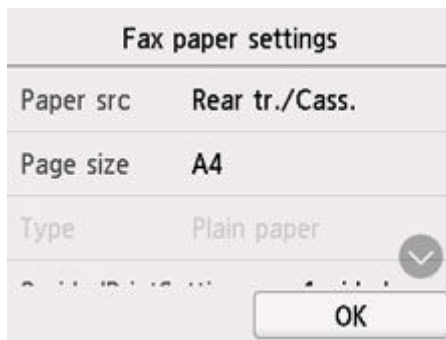

3. Select **Function list**.

The **Function list** screen is displayed.

4. Select **Fax paper settings**.

The **Fax paper settings** screen is displayed.

5. Specify settings.

Paper src

Select a paper source.

➤➤ Note

- When **Rear tr./Cass.** is selected, paper is fed from the paper source where the paper that matches the paper settings (page size and media type) is loaded.

Page size

Select the page size.

Type

The paper type is set to **Plain paper**.

2-sidedPrintSetting

Select two-sided printing or single-sided printing.

Two sided printing is available for black & white faxes. Color faxes are printed on the single-side of paper regardless of this setting.

After **2-sided** is selected for **2-sidedPrintSetting**, select stapling side.

➤➤ Note

- When **Page size** is set to **A4** or **Letter**, the received faxes are printed on the two-sides of paper.

6. Select **OK**.

Memory Reception

The printer prints the received fax automatically by default. And furthermore, the printer stores the received fax in its memory. When the faxes are stored in the printer's memory, the **FAX Memory** lamp is lit or flashes.

In the following conditions, the received fax is not printed automatically, only is stored in the printer's memory. Then **Fax received. Saved in memory.** is displayed at the Fax standby screen.

- **When Do not print is selected for Received documents in Auto print settings under Fax settings**

- **An error has occurred on the printer:**

If you select **Print** for **Received documents** in **Auto print settings** under **Fax settings**, a received fax will be printed automatically. However, if any of the following errors occurs, the received fax will not be printed. It will instead be stored in the printer's memory.

When the error is resolved, the fax stored in the printer's memory is printed automatically.

- Paper has run out:

Load paper, then select **OK**.

- A different size of paper from that specified by **Page size** in **Fax paper settings** is loaded:

Load the same size of paper as that specified by **Page size** in **Fax paper settings**, and then select **OK**.

- The amount of remaining ink is insufficient to print a fax:

Refill ink tanks.

➔ [Refilling Ink Tanks](#)

- The maintenance cartridge is full:

Replace the maintenance cartridge.

➔ [Replacing the Maintenance Cartridge](#)

- **You pressed the Stop button to cancel printing of a fax:**

Press **HOME** button and select **Fax** to resume printing of the fax.

▶▶▶ Important

- When the printer's memory is full, the faxes stored latest overwrite those stored earliest. However, the unprinted faxes are not overwritten.
- If the printer's memory is full with the unprinted faxes, the printer cannot receive the faxes. Check the **FAX Memory** lamp regularly, print the faxes, or forward them to the shared folder of a computer and delete them from the printer's memory.

➔ [Document Stored in Printer's Memory](#)

▶▶▶ Note

- The printer can store up to max. 250 pages* (max. 30 documents) of faxes in the printer's memory.

* When using ITU-T No.1 chart (Standard mode)

- If the printer's memory becomes full during memory reception, only pages which already have been received are stored in the memory. Print the received faxes stored in the printer's memory or forward them to the shared folder of a computer, and then delete them from the printer's memory and have the sender resend the faxes.
 - ➔ [Document Stored in Printer's Memory](#)
- We recommend you check printed pages immediately after faxes are received. If a fax remains in the printer's memory, you can reprint it after refilling the ink tank.

Other Useful Fax Functions

- **Document Stored in Printer's Memory**

Document Stored in Printer's Memory

The faxes will be stored in the printer's memory automatically when they are received. However, printer's memory has an upper limit on the number of faxes or subjects it can contain. When the printer's memory is full, faxes stored latest will overwrite those stored earliest.

By default, the received faxes will be printed automatically after they are received.

In the following cases, the received faxes are not printed. The unprinted faxes are not overwritten even if the printer receives the faxes anew.

- Paper has run out.
- A different size of paper from that specified by **Page size** in **Fax paper settings** is loaded.
- **Do not print** is selected for **Received documents** in **Auto print settings** under **Fax settings**.
- You pressed the **Stop** button to cancel printing of a received fax.
- The amount of remaining ink is insufficient to print a fax.
- The maintenance cartridge is full.

If the printer's memory is full with the unprinted faxes, the printer cannot receive the faxes. Check the **FAX Memory** lamp regularly, print the faxes, or forward them to the shared folder of a computer and delete them from the printer's memory.

➔ [Printing Document in Printer's Memory](#)

➔ [Forwarding Document in Printer's Memory to Shared Folder on Computer](#)

➔ [Deleting Document in Printer's Memory](#)

▶▶▶ Note

- The printer can store up to max. 250 pages* (max. 30 documents) of faxes in the printer's memory.
 - * When using ITU-T No.1 chart (Standard mode)
- When confirming, printing, or deleting a document stored in the printer's memory, you specify it by its transaction number. If you do not know the transaction number for your target document, print the list of documents (MEMORY LIST) first.

For details on how to print MEMORY LIST, see [Printing Document in Printer's Memory](#).
- We recommend you check printed pages immediately after faxes are received. If a fax remains in the printer's memory, you can reprint it after refilling the ink tank.

About FAX Memory lamp

The **FAX Memory** lamp lights, flashes, or is off depending on the faxes stored in the printer's memory.

OFF: Faxes are not stored in the printer's memory.

Lights: Printed fax is stored in the printer's memory.

Flashes: During reception or unprinted fax is stored in the printer's memory.

▶▶ Note

- When **Do not print** is selected for **Received documents** in **Auto print settings**, the **FAX Memory** lamp lights even if the unprinted fax is stored in the printer's memory.

Printing Document in Printer's Memory

You can print a specified document in the printer's memory or print all the received documents in its memory at a time.

When printing a specified document, you specify it by its transaction number. If you do not know the transaction number for your target document, print the list of documents (MEMORY LIST) first.

1. [Check that printer is turned on.](#)

2. [Load paper.](#)

3. Select  **Fax** on the HOME screen.

➔ [Using Touch Screen](#)

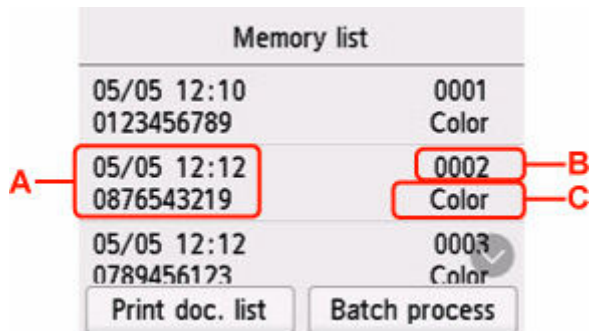

The Fax standby screen is displayed.

4. Select **Function list**.

The **Function list** screen is displayed.

5. Select **Memory reference**.

The memory list is displayed.

Memory list	
05/05 12:10 0123456789	0001 Color
A — 05/05 12:12 0876543219	0002 — B Color — C
05/05 12:12 0789456123	0003 Color
Print doc. list	Batch process

A: Date and time of transaction and fax/telephone number

B: Transaction number (TX/RX NO.)

A transaction number from "0001" to "4999" indicates a document being sent.

A transaction number from "5001" to "9999" indicates a document being received.

C: **Color** is displayed for color transmission/reception. Nothing is displayed for black & white transmission/reception.

▶▶▶ Note

- If no document is stored in the printer's memory, **There is no document in memory.** is displayed. Select **OK** to return to the previous screen.

6. Select a print menu.

- To print the memory list (MEMORY LIST):

You can print a list of the documents in the printer's memory by selecting **Print doc. list**.

When the print confirmation screen is displayed, select **Yes**. The printing starts.

MEMORY LIST shows the transaction number of the unsent or unprinted fax (TX/RX NO.), transaction mode, recipient's number, and the date and time of the transaction.

A transaction number from "0001" to "4999" on MEMORY LIST indicates a document being sent. A transaction number from "5001" to "9999" on MEMORY LIST indicates a document being received.

- To specify a document to print:

Select a document to print on the **Memory list** screen, select **Print specified document**.

»» Note

- If the specified document is not stored in the printer's memory, **There is no document that can be printed.** is displayed. Select **OK** to return to the previous screen.

The confirmation screen to select whether to print only the first page of the document is displayed.

If you select **Yes**, only the first page of the document will be printed. The document is still stored in the printer's memory.

If you select **No**, all pages of the document will be printed. The screen to confirm whether to delete the printed document in the printer's memory is displayed after printing.

- To print all the received documents stored in the printer's memory:

Select **Batch process**, and then select **Print all RX documents**.

When the print confirmation screen is displayed, select **Yes**. All the documents in the printer's memory are printed.

Each time a document is printed, the screen to confirm whether to delete the printed document in the printer's memory is displayed.

If you select **Yes**, the printed document in the printer's memory is deleted.

Deleting Document in Printer's Memory

You can delete a specified document in the printer's memory or delete all the documents in its memory at a time.

▶▶▶ Note

- When deleting a specified document, you specify it by its transaction number. If you do not know the transaction number for your target document, print the list of documents (MEMORY LIST) first.

➔ [Printing Document in Printer's Memory](#)

1. [Check that printer is turned on.](#)

2. Select **Fax** on the HOME screen.

➔ [Using Touch Screen](#)

The Fax standby screen is displayed.

3. Select **Function list**.

The **Function list** screen is displayed.

4. Select **Memory reference**.

The memory list is displayed.

A screenshot of the printer's 'Memory list' screen. The screen displays a table with two columns: transaction details (date, time, and number) and document details (transaction number and status). The second row is highlighted with a red box labeled 'A'. The transaction number '0002' in the second row is highlighted with a red box labeled 'B'. The status 'Color' in the second row is highlighted with a red box labeled 'C'. At the bottom of the screen, there are two buttons: 'Print doc. list' and 'Batch process'.

Memory list	
05/05 12:10 0123456789	0001 Color

05/05 12:12 0789456173	0003 Color

A: Date and time of transaction and fax/telephone number

B: Transaction number (TX/RX NO.)

A transaction number from "0001" to "4999" indicates a document being sent.

A transaction number from "5001" to "9999" indicates a document being received.

C: **Color** is displayed for color transmission/reception. Nothing is displayed for black & white transmission/reception.

▶▶▶ Note

- If no document is stored in the printer's memory, **There is no document in memory.** is displayed. Select **OK** to return to the previous screen.

5. Select a delete menu.

- To specify a document to delete:

Select a document to delete on the **Memory list** screen, select **Delete specified doc..**

▶▶▶ Note

- If the specified document is not stored in the printer's memory, **There is no document that can be deleted.** is displayed. Select **OK** to return to the previous screen.

The confirmation screen is displayed.

If you select **Yes**, the specified document is deleted from printer's memory.

- To delete all documents stored in the printer's memory:

Select **Batch process**, and then select **Delete all documents.**

The confirmation screen is displayed.

If you select **Yes**, all documents are deleted from printer's memory.

Forwarding Document in Printer's Memory to Shared Folder on Computer

You can forward the received faxes stored in the printer's memory to the shared folder on the computer as PDF files using the operation panel of the printer.

You can forward a specified document in the printer's memory to the shared folder on the computer or forward all the documents in its memory to the shared folder on the computer at a time.

▶▶▶ Important

- Do not disconnect the printer with the computer when the printer forwards received faxes to the shared folder on the computer.
- We assume no responsibility for damage to or loss of data for whatever reason even within the warranty period.

▶▶▶ Note

- Register the destination folder using Quick Utility Toolbox in advance.
For details on how to register the destination folder:
 - For Windows:
 - ➔ [Destination Folder Settings](#)
 - For Mac OS:
 - ➔ [Destination Folder Settings](#)
- When forwarding a specified document, you specify it by its transaction number. If you do not know the transaction number for your target document, print the list of documents (MEMORY LIST) first.
 - ➔ [Printing Document in Printer's Memory](#)
- After forwarding the fax in the printer's memory to the shared folder on the computer, the fax is still stored in the printer's memory.
For details on how to delete the fax in the printer's memory, see [Deleting Document in Printer's Memory](#).

1. [Check that printer is turned on.](#)
2. Make sure that printer is connected with destination computer.

3. Select **Fax** on the HOME screen.

➔ [Using Touch Screen](#)

The Fax standby screen is displayed.

4. Select **Function list**.

The **Function list** screen is displayed.

5. Select **Memory reference**.

The memory list is displayed.

Memory list	
05/05 12:10 0123456789	0001 Color
A — 05/05 12:12 0876543219	0002 — B Color — C
05/05 12:12 0789456123	0003 Color

Print doc. list Batch process

A: Date and time of transaction and fax/telephone number

B: Transaction number (TX/RX NO.)

A transaction number from "0001" to "4999" indicates a document being sent.

A transaction number from "5001" to "9999" indicates a document being received.

C: **Color** is displayed for color transmission/reception. Nothing is displayed for black & white transmission/reception.

▶▶▶ Note

- If no document is stored in the printer's memory, **There is no document in memory.** is displayed. Select **OK** to return to the previous screen.

6. Select a forward menu.

- To specify a document to forward to the shared folder on the computer:

Select a document to forward on the **Memory list** screen, select **Save specified document**.

▶▶▶ Note

- If the specified document is not stored in the printer's memory, **There is no document that can be forwarded.** is displayed. Select **OK** to return to the previous screen.

Select **Destination folder** as the destination.

Select a destination folder to forward the specified document to the shared folder on the computer.

▶▶▶ Note

- When you specify a PIN code for a registered folder, a screen asking you to enter a PIN code is displayed. Entering the PIN code allows you to assign the shared folder as the destination.

- To forward all the received documents stored in the printer's memory to the shared folder on the computer:

Select **Batch process**, and then select **Save all RX documents**.

Select **Destination folder** as the destination.

Select a destination folder to forward all documents to the shared folder on the computer.

»» Note

- When you specify a PIN code for a registered folder, a screen asking you to enter a PIN code is displayed. Entering the PIN code allows you to assign the shared folder as the destination.

»» Note

- You can forward up to 250 pages of fax as one PDF file.
- You can forward up to 2000 PDF files on the shared folder on the computer.
- Faxes are forwarded according to the order of the transaction number when **Save all RX documents** is selected.
- If the printer is disconnected with the computer or if the writing error occurs on the computer while forwarding faxes is in progress, the error message is displayed on the touch screen. Select **OK** to dismiss the error.
- The faxes forwarded to the shared folder are named with the serial number from FAX_0001 (file extension: PDF).

Problems while Using Printer

- ➔ Message Appears on Computer During Setup
- ➔ [Cannot Find Printer on Network](#) (Windows/macOS)

Network Communication Problems

- **Cannot Find Printer on Network (Windows/macOS)**
- **Wireless Router Problems**
- **Printer Settings/Smartphone/Tablet Troubles for Network**

Cannot Find Printer on Network (Windows/macOS)

- **Cannot Find Printer on Network**
- **Cannot Proceed Beyond Printer Connection Screen (Cannot Find Printer Connected via USB)**
- **Searching Printer by IP Address or Host Name During Setup**

Cannot Find Printer on Network

In the following cases, set up the printer again.

- When you buy a new computer or wireless router
- When you change the settings on your wireless router
- When the connection method (Wi-Fi / USB) of the printer is changed

For more on the setup procedure;

➔ Set Up

▶▶▶ Important

- When you forget the administrator password of the printer, contact your nearest Canon service center.

In Other Cases Than Above:

If the printer suddenly stops working, even though you have not changed the settings of the device or network to which it is connected, or if you cannot find the printer during the setup process, check and solve the problem, using Wi-Fi Connection Assistant. After the condition improves, redo the setup of the printer.

Wi-Fi Connection Assistant is a powerful solution tool for network problems.

|| Step1 [Check Basic Items for Network.](#)

|| Step2 [Solve Problems, Using Wi-Fi Connection Assistant.](#)

|| Step3 [If the Solution Tool Does Not Solve the Problem.](#)

Step1 : Check Basic Items for Network.

Check1 Check power status.

Check your printer and the network device (wireless router, etc.) are turned on.

If you are in the process of setting up, interrupt it and check if the wireless router (modem) is turned on and then check if the printer is turned on.

1. Check if network device such as router is turned on.

If network devices are not turned on, turn on the power. If the network devices are on, turn them off and on again.

It may take a while for the network device to become ready for use once they are turned on.

Proceed once the network device such as router is ready for use.

2. Check if printer is turned on

If printer is not turned on, turn on the power. If the printer is on, turn it off and on again.

Proceed once you complete checking the power status above.

Check2 Check PC network connection.

If your computer and network devices (wireless router, etc.) are fully configured, your computer is ready to connect to the network.

1. Check the settings of the network device (wireless router, etc.).

Connect to the Internet and see if you can browse any web page. If you cannot view web pages on your computer, check wireless router network connection settings, such as IP address filtering, MAC address filtering, and DHCP function.

To check the network name (SSID) of the wireless router the printer is connected to, print the network settings.

➔ [Printing Network Settings](#)

➤➤➤ Note

- Depending on the wireless router, note that different network name (SSID) is assigned for a bandwidth (2.4 GHz or 5 GHz) or its usage (for PC or game machine), using alphanumeric characters at the end of network name (SSID).
- For more on checking the settings of the wireless router, refer to the instruction manual supplied with the wireless router or contact the manufacturer.

If you use an encryption key, specify it for the network name (SSID) you are using. For details, see [Setting an Encryption Key](#).

2. Check PC network connection.

For the procedures, refer to the instruction manual supplied with the computer, or contact the manufacturer.

Once you complete setting up the wireless router and your computer, configure the settings on your computer in order to view web pages, using the information of the wireless router.

Proceed once you complete checking the network connection above.

Check3 Check printer's network settings.

➔ [For Wi-Fi](#)

➔ [For Wired LAN](#)

For Wi-Fi

Make sure the icon is displayed on the lower left of the touch screen.

If **Wi-Fi icon with a red X** icon is displayed.

icon indicates that the wireless router and the printer are not connected. Check the setting of printer. Reconsider the location of the wireless router and the printer in the next check.

If **Easy wireless connect icon** icon is displayed.

"Easy wireless connect" is waiting for setup. Connect a device to the printer with the application on computer, smartphone or tablet.

If only **Wi-Fi icon with a red X** or **Mobile device icon** icon is displayed.

The printer is not set to use Wi-Fi.

Select **Gear icon** (Setup) on HOME screen > **Printer settings** > **LAN settings** > **Wi-Fi** in this order, and select **Enable** for **Enable/disable Wi-Fi**.

For Wired LAN

1. Check the power and LAN cable.

When the printer cannot be found on the setup screen, using LAN connection setup, make sure that all the network devices are connected to the router and the hub via LAN cables and that all the devices are turned on.

- **If LAN cable is not connected:**

Connect the router, hub, computer and printer via LAN cables.

Make sure the printer is turned on.

➡ [Power Supply](#)

Make sure the printer, the router and the hub are turned on.

- **If LAN cable is connected, and printer and network device are off:**

Turn on printer and network device.

- **If LAN cable is connected, and printer and network device are on:**

Turn them off and on again.

▶▶▶ Note

- Some devices require a couple of minutes after being turned on to become ready for use. Wait until all devices are ready before proceeding.

2. Check printer's wired LAN settings.

Make sure  icon is displayed on the touch screen when  (HOME) icon is selected.

- **If icon is not displayed:**

The printer is not set to use wired communication. Enable Wired LAN from the printer settings.

Select  (Setup) on HOME screen, select **Printer settings > LAN settings > Wired LAN > Enable/disable Wired LAN** in this order and select **Enable**.

Check4 Check location of wireless router.

Make sure the printer is not placed too far away from the wireless router.

The printer can be up 50 m (164 ft.) from the wireless router indoors if unobstructed. Make sure the printer is close enough to the wireless router to be used.

Place the printer and wireless router where there are no obstacles between them. Wireless communication between different rooms or floors is generally poor. Wireless communication can be impeded by building materials containing metal or concrete. If the printer cannot communicate with the computer over a Wi-Fi due to a wall, place the printer and the computer in the same room.

In addition, if a device like a microwave oven that emits radio waves of the same frequency bandwidth as a wireless router is nearby, it may cause interference. Place the wireless router as far away from interference sources as possible.

Step2 : Solve Problems, Using Wi-Fi Connection Assistant.

Diagnose and repair the network connections using Wi-Fi Connection Assistant.

Download Wi-Fi Connection Assistant from the below page, and install it on your computer.

- ➔ **Checking Printer Connection Status Using Wi-Fi Connection Assistant**

Refer to below in regard to starting up Wi-Fi Connection Assistant.

- **For Windows:**

- ➔ [Starting Up Wi-Fi Connection Assistant](#)

- **For macOS:**

- ➔ [Starting Up Wi-Fi Connection Assistant](#)

Step3 : If the Solution Tool Does Not Solve the Problem.

Check1 Make sure security software's firewall is off.

If your security software's firewall is on, a message may appear warning you that Canon software is attempting to access the network. If this warning message appears, set security software to always allow access.

If you are using any programs that switch between network environments, check their settings. Some programs use a firewall by default.

Check2 If printer is connected to AirPort Base Station via LAN, make sure you use alphanumeric characters for network name (SSID). (macOS)

Check3 Solve network troubles with the printer's diagnostic functions.

See below.

➡ [Solve Network Troubles with The Printer's Diagnostic Functions](#)

Cannot Proceed Beyond Printer Connection Screen (Cannot Find Printer Connected via USB)

If you cannot proceed beyond the **Printer Connection** screen, check the following.

Check1 Make sure USB cable is securely plugged in to printer and computer.

Connect the printer and the computer using a USB cable as the illustration below. The USB port is located at the back of the printer.

▶▶▶ Important

- Check the orientation of the "Type-B" connector and connect to the printer. For details, refer to the instruction manual supplied with the USB cable.

Check2 Follow procedure below to connect printer and computer again.

▶▶▶ Important

- For macOS, make sure the lock icon is on the lower left of the **Printers & Scanners** screen.
If the  icon (locked) is displayed, click the icon to unlock. (The administrator name and the password are necessary to unlock.)

1. Unplug USB cable from printer and computer and connect it again.
2. Make sure no printer operation is in progress and turn off.
3. Turn on printer.

Check3 Follow the steps below to install MP Drivers (Printer Driver) again.

1. Download the latest MP Drivers (Printer Driver).
2. Turn off printer.
3. Restart computer.

After restarting, install the latest MP Drivers (Printer Driver) downloaded in step 1.

Important

- When installing the MP Drivers (Printer Driver), make sure you select the correct printer name.
- For Windows:
To restart your computer, choose **Restart** instead of **Shut down**.

Wireless Router Problems

- **Network Key (Password) Unknown**
- **Checking Wireless Router SSID/Key**
- **Printer Cannot Be Used After Replacing Wireless Router or Changed Router Settings**
- **WPS (Router Button) Connection**
- **Privacy Separator/SSID Separator/Network Separation Function**

Network Key (Password) Unknown

Use the Wi-Fi Connection Assistant to diagnose and repair network status.

Select the link below to download Wi-Fi Connection Assistant and install it.

- ➔ [Checking Printer Connection Status Using Wi-Fi Connection Assistant](#)

See below for starting up Wi-Fi Connection Assistant

- **For Windows:**

- ➔ [Starting Up Wi-Fi Connection Assistant](#)

- **For macOS:**

- ➔ [Starting Up Wi-Fi Connection Assistant](#)

If the problem persists after diagnosis and repair with Wi-Fi Connection Assistant, check the following items.

- ➔ [WPA/WPA2/WPA3 Key Set for Wireless Router Unknown, Cannot Connect](#)
- ➔ [Setting an Encryption Key](#)

WPA/WPA2/WPA3 Key Set for Wireless Router Unknown, Cannot Connect

For more on setting up a wireless router, see the instruction manual provided with the wireless router or contact its manufacturer. Make sure your computer can communicate with the wireless router.

Setting an Encryption Key

Select the encryption containing WPA2.

Note

- The factory default of wireless router supporting WPA3 may be set to WPA3.

Make sure your computer can communicate with the wireless router using the settings you have selected. For more on setting up a wireless router, see the instruction manual provided with the wireless router or contact its manufacturer.

- **Using WPA2/WPA3 (Windows)**

The authentication method, Wi-Fi password, and dynamic encryption type must be identical among the wireless router, the printer, and your computer.

Enter the Wi-Fi password configured on the wireless router.

Either TKIP (basic encryption) or AES (secure encryption) is selected automatically as the dynamic encryption method.

For details, see [If WPA/WPA2 Details Screen Appears](#).

▶▶ Note

- This printer supports the following.
 - WPA-PSK (WPA-Personal)
 - WPA2-PSK (WPA2-Personal)
 - WPA3-SAE (WPA3-Personal)
- Some printers support IEEE802.1X/EAP (WPA/WPA2/WPA3 Enterprise). To configure IEEE802.1X/EAP (WPA/WPA2/WPA3 Enterprise), you also need to configure the authentication (Radius) server.

Contact the network administrator for more information.
- This web page contains information about several models. Depending on the specifications of the printer you are using, some of the features described (scanner/copy, etc.) may not apply.

For details about the functions of your printer, see [Specifications](#).

Printer Cannot Be Used After Replacing Wireless Router or Changed Router Settings

When you replace a wireless router, redo the network setup for the printer according to the replaced one. Refer to Setup Guide to setup.

▶▶▶ Note

- Wi-Fi Connection Assistant allows you to diagnose and repair the network status.

Select the link below to download Wi-Fi Connection Assistant and install it.

- ➔ [Checking Printer Connection Status Using Wi-Fi Connection Assistant](#)

See below for starting up Wi-Fi Connection Assistant.

- **For Windows:**

- ➔ [Starting Up Wi-Fi Connection Assistant](#)

- **For macOS:**

- ➔ [Starting Up Wi-Fi Connection Assistant](#)

If this does not solve the problem, see below.

- ➔ [Cannot Communicate with Printer After Enabling MAC/IP Address Filtering or Encryption Key on Wireless Router](#)
- ➔ [With Encryption On, Cannot Communicate with Printer After Changing Encryption Type at Wireless Router](#)

Cannot Communicate with Printer After Enabling MAC/IP Address Filtering or Encryption Key on Wireless Router

Check1 Check wireless router setting.

To check the wireless router setting, see the instruction manual provided with the wireless router or contact its manufacturer. Make sure the computer and the wireless router can communicate with each other under this setting.

Check2 If filtering MAC addresses or IP addresses at wireless router, check that MAC addresses or IP addresses for computer, network device, and printer are registered.

Check3 If using WPA/WPA2/WPA3 key or a password, make sure encryption key for computer, network device, and printer matches key set for wireless router.

The length or format of the Wi-Fi password and authentication method must be identical among the wireless router, the printer, and your computer.

For details, see [Setting an Encryption Key](#).

▶▶▶ Note

- Some printers support IEEE802.1X/EAP (WPA/WPA2/WPA3 Enterprise). To configure IEEE802.1X/EAP (WPA/WPA2/WPA3 Enterprise), you also need to configure the authentication (Radius) server.

Contact the network administrator for more information.

- This web page contains information about several models. Depending on the specifications of the printer you are using, some of the features described (scanner/copy, etc.) may not apply.

For details about the functions of your printer, see [Specifications](#).

Q With Encryption On, Cannot Communicate with Printer After Changing Encryption Type at Wireless Router

A

If the printer cannot communicate with the computer after you change the encryption type for the wireless router, make sure the encryption type and passkey or password for the computer matches that of the wireless router.

- ➔ [Cannot Communicate with Printer After Enabling MAC/IP Address Filtering or Encryption Key on Wireless Router](#)

Printer Settings/Smartphone/Tablet Troubles for Network

- **Solve Network Troubles with The Printer's Diagnostic Functions**
- **Checking Network Information of Printer**
- **Checking Status Code**
- **Printing Network Settings**
- **Restoring Printer's LAN Settings to Defaults**
- **Default Network Settings**
- **Connecting with Wireless Direct**

Solve Network Troubles with The Printer's Diagnostic Functions

- If the printer and wireless router are connected or the printer and computer are connected by USB cable but you cannot print:
 - ➔ [Change to Offline \(Windows\)](#)
- In other cases than above:
 - ➔ [Cannot Find Printer on Network/Cannot Print](#)
 - ➔ [Cannot Connect to Printer through Wireless Direct](#)

Cannot Find Printer on Network/Cannot Print

Printing Out Network Settings Information:

▶▶▶ Note

-  **Wi-Fi** indicates descriptions related to Wi-Fi.
-  **LAN** indicates descriptions related to wired LAN.

Follow the procedure below to print out the network settings information.

Step1 Check that printer and wireless router are turned on.

Turn the wireless router back on.

Wait about five minutes and then turn the printer back on.

Step2 Check your devices (e.g. computer/smartphone/tablet) are connected to Internet.

Make sure that devices and the wireless router are connected to via Wi-Fi or wired LAN, and that the Internet can be used without problems.

Step3  **Wi-Fi** Make sure the printer's Wi-Fi setting is enabled and the  icon is displayed.

 **LAN** Make sure the printer's wired LAN setting is enabled and the  icon is displayed.

Step4  **Wi-Fi** Move the printer and device (computer/smartphone/tablet) closer to the wireless router.

Wireless communication quality deteriorates if the printer or devices are too far from the wireless router.

 **LAN** Make sure the LAN cable is inserted.

Try reconnecting the LAN cable to the printer and wireless router.

Step 5 Print out network settings information

Print out the network settings information on your printer.

➔ [Printing Network Settings](#)

Note

- For troubleshooting IEEE802.1X/EAP (WPA/WPA2/WPA3 Enterprise), refer to the following.

➔ [Setting Up IEEE802.1X/EAP \(WPA/WPA2/WPA3 Enterprise\)](#)

Checking Printed Network Settings Information:

From the printed network settings information, check the entries in item "2-2"

C-0

 **Wi-Fi**  **LAN** It is connected correctly. If, nevertheless, the printer is not found on the network or printing is not possible, check the following items.

Note

- If codes other than "C-0" are displayed at the same time in the item "2-2" see also the correspondence of the other codes.

Check 1

Check that security software's firewall is off.

A message may appear warning you that Canon software is attempting to access the network. If this warning message appears, set the security software to always allow access.

Quit the security software and make sure that the printer is recognized and ready to use. If so, the cause is the firewall setting. Change the firewall settings so that the printer is recognized and ready to use. For details, contact the manufacturer of the security software.

If you are using any programs that switch between network environments, check their settings. Some programs use a firewall by default.

Check 2

Does network name (SSID) of printer match network name (SSID) setting of wireless router that communicates?

Check the "3-2-6" item in the printed network settings information and the network name (SSID) of the wireless router you want to connect to. If they are not matched, check the SSID and password of the wireless router you want to connect to, and then setup manually.

Check 3

Is privacy separator, SSID separator, or Network separation function enabled on wireless router?

If it is enabled, disable these functions before performing the setup. To check the settings of the wireless router, refer to the instruction manual provided with it or contact its manufacturer.

Check4

If MP Drivers (Printer Driver) are not installed, install them. (Windows)

Install the MP Drivers (Printer Driver).

➔ Set Up

C-1

The printer's Wi-Fi setting is disabled. (You can also check if the Wi-Fi icon  does not appear on the printer's screen.)

Enable the Wi-Fi setting in the printer's settings screen.

Wired LAN setting is disabled. (The  icon representing the wired LAN is not displayed on the touch screen.)

Enable the wired LAN setting from the operation panel.

C-2

Wired LAN setting is disabled. Make sure the printer and wireless router are connected via LAN cable.

If the LAN cable is disconnected, connect it correctly.

If your LAN cable is connected to the WAN port of the wireless router, connect it to the LAN port of the wireless router.

C-3

No IP address is assigned. (You can also check that the item "3-2-12" in the printed network settings information is blank.)

Check the following items.

Check1

Is printer set to obtain an IP address automatically, or is wireless router requesting manual addressing?

Refer to the wireless router's manual to enable DHCP (auto-acquisition) settings on the wireless router or to set a valid IP address on the printer.

Check2

When you set printer's IP address manually, correct IP address may not be set.

Check the network name (SSID) and the password of the wireless router you want to connect to, the IP address applicable range, and then enter the appropriate IP address on the printer side. If you are unsure, set the printer's IP address to automatic (DHCP).

C-5

Unable to connect to the specified network. Check the following items.

Check1

Check status of printer and network device (e.g. wireless router) and your computer/smartphone/tablet.

Communication with a wireless router must be tuned to either the 2.4 GHz or 5 GHz frequency band. The network name (SSID) of the 2.4 GHz frequency band and the network name (SSID) of the 5 GHz frequency band cannot be used in combination.

Check the network name (SSID) set for the printer, and match it with the network name (SSID) of the correct frequency band of the Wi-Fi router.

Check2

Password on your wireless router may not match password you entered.

Passwords are case sensitive.

Enter the password correctly.

Check3

Monitor signal status and move printer and wireless router as necessary.

- Place the printer and wireless router where there are no obstacles between them. Wireless communication between different rooms or floors is generally poor.
- Wireless communication can be impeded by building materials containing metal or concrete. If the printer cannot communicate with the computer over a Wi-Fi due to a wall, place the printer and the computer in the same room.
- After changing the installation location, print out the network settings information again and check the status of the signal. Compare with the value in section "3-2-1" in the printed network settings information to determine the installation location.

Check4

Check wireless channel number of Wi-Fi you are using on computer.

Make sure that the wireless channel number on the wireless router is included in the wireless channel number you checked. If the wireless channel number set for the wireless router is not included, change the wireless channel number of the wireless router.

Check5

In case of Wi-Fi connection, check if computer that can be accessed by wireless router is restricted.

The wireless router settings may be limiting the number of devices that can be connected at the same time. Remove or relax the restrictions.

To check the settings of the wireless router, refer to the instruction manual provided with it or contact its manufacturer.

➤➤➤ Note

- To check the MAC address or IP address of your computer, see [Checking Computer IP Address or MAC Address](#).

Check6

If problem occurs only when wireless router is in energy-saving mode, turn off energy-saving mode of wireless router.

If the problem seems to occur suddenly, it may be resolved by updating the wireless router firmware (e.g. update interval of a key, problems of DHCP update interval, etc.). For details, refer to the wireless router's instruction manual.

Check7

If printer is connected to AirPort Base Station via LAN, make sure you use alphanumeric characters for network name (SSID). (macOS)

C-4

No default gateway is set.

When you set the IP address of the printer manually, enter a valid default gateway IP address. If you don't know the default gateway, set the IP address to automatic.

C-7

There may be a problem with the signal.

Check the following items.

Check

Monitor signal status and move printer and wireless router as necessary.

- Place the printer and wireless router where there are no obstacles between them. Wireless communication between different rooms or floors is generally poor.
- Wireless communication can be impeded by building materials containing metal or concrete. If the printer cannot communicate with the computer over a Wi-Fi due to a wall, place the printer and the computer in the same room.
- After changing the installation location, print out the network settings information again and check the status of the signal. Compare with the value in section "3-2-1" in the printed network settings information and place the printer in the location with a higher value.

▶▶▶ Note

- In some cases, "C-7" and "C-9" are displayed at the same time. In that case, refer to both items.

C-8

Too many clients are connected.

Wireless Direct does not allow more than 5 devices to be connected.

If you want to connect additional devices to the printer, unplug any devices that are not in use before adding them.

C-9

The noise level is high and does not differ from the signal level due to various devices other than the printer.

- If devices (microwave oven, external hard disk drive, and other USB 3.0 devices) that emit radio waves of the same frequency bandwidth as a wireless router is nearby, it may cause interference. Place the printer and the wireless router as far away from interference sources as possible.

- After you change the location of the printer, check the signal quality. Compare the value of "3-2-2" in the network settings information and place the printer in the location with a higher value.

»» Note

- In some cases, "C-7" and "C-9" are displayed at the same time. In that case, refer to both items.

C-10

 No IP address is assigned by the wireless router.

Check the following items.

Check1  Password on your wireless router may not match password you entered.

Passwords are case sensitive.

Enter the password correctly.

Check2  Set up printer again and reconnect to Wi-Fi.

Check3  Check DHCP on wireless router. If DHCP is off, set it on.

To check the settings of the wireless router, refer to the instruction manual provided with it or contact its manufacturer.

C-11

 The network name (SSID) remains the default value (The network name (SSID) has not been set). Check the network name (SSID) of the wireless router.

Verify the network name (SSID) and password of the wireless router you want to connect to, and then set it up manually.

»» Note

- Wi-Fi Connection Assistant allows you to diagnose and repair the network status.

Select the link below to download Wi-Fi Connection Assistant and install it.

➔ [Checking Printer Connection Status Using Wi-Fi Connection Assistant](#)

See below for starting up Wi-Fi Connection Assistant.

— **For Windows:**

➔ [Starting Up Wi-Fi Connection Assistant](#)

— **For macOS:**

➔ [Starting Up Wi-Fi Connection Assistant](#)

Cannot Connect to Printer through Wireless Direct

Check1 Check power status of printer and other devices (e.g. computer/smartphone/tablet).

Turn on the printer or devices.

If the power is already turned on, cycle the power switch.

Check2 Check settings of your device (e.g. computer/smartphone/tablet).

Make sure Wi-Fi is enabled on your device.

For details, refer to the device's instruction manual.

Check3 Print out network settings information.

See "Step1" to "Step5" in [Cannot Find Printer on Network/Cannot Printing](#).

In the printed network settings information, check if the item "2-2" is not "C-8". If this is the case, the number of connected printers is too many.

Wireless Direct does not allow more than 5 devices to be connected.

When you want to connect additional devices, disconnect any devices that are not in use before adding them.

Check4 Check that printer is selected as connection for various devices (e.g. computer/smartphone/tablet).

Select the network name (SSID) for Wireless Direct specified for the printer as the connection destination for devices.

Check the destination on your device.

For details, refer to your device's instruction manual or visit the manufacturer's website.

To check the network name (SSID) for Wireless Direct specified for the printer, display it using the operation panel of the printer or print out the network settings information of the printer.

- Display on the touch screen.
 - ➔ [LAN settings](#)
- Print the network settings.
 - ➔ [Printing Network Settings](#)

Check5 Check that Wireless Direct password set for printer is entered correctly.

To check the password specified for the printer, display it using the operation panel of the printer or print out the network settings information of the printer.

- Display on the touch screen.
 - ➔ [LAN settings](#)
- Print the network settings.

➔ [Printing Network Settings](#)

Check6 Check that printer is not placed too far away from device.

If the distance between the printer and the device is too far, wireless communication becomes poor. Place the printer and the device close to each other.

▶▶▶ **Note**

- Wireless Direct is set to disabled when you connect to and use an EAP router. Also, if you set Wireless Direct to enable in this case, the wireless LAN (Wi-Fi) will be set to **Disable**.
- When using IEEE802.1X/EAP (WPA/WPA2/WPA3 Enterprise), enable the **Administrator mode** so that the Wireless Direct settings cannot be changed.

Checking Network Information of Printer

- ➔ [Checking Printer IP Address or MAC Address](#)
- ➔ [Checking Computer IP Address or MAC Address](#)
- ➔ [Checking Communication Between the Computer, the Printer, and the Wireless Router](#)
- ➔ [Checking Network Setting Information](#)

Checking Printer IP Address or MAC Address

To check the printer's IP Address or MAC address, print out the network settings information or use the operation panel to display it.

- Display on the touch screen.

➔ [LAN settings](#)

- Print the network settings.

➔ [Printing Network Settings](#)

For Windows, you can check the network setting information on the computer screen.

➔ [Canon Wi-Fi Connection Assistant Screen](#)

Checking Computer IP Address or MAC Address

To check the IP Address or MAC address of your computer, follow the instructions below.

- **For Windows:**

1. Select **Command Prompt** from **Start**.

2. Enter "ipconfig/all" and press **Enter**.

The IP address and MAC address of your computer appear. If your computer is not connected to a network, the IP address does not appear.

- **For macOS:**

1. Select **System Preferences** from Apple menu, and then click **Network**.

2. Make sure network interface used by computer is selected, and then click **Advanced**.

Make sure **Wi-Fi** is selected as network interface.

3. Click **TCP/IP** to check the IP address, or click **Hardware** to check the MAC address.

Checking Communication Between the Computer, the Printer, and the Wireless Router

A

Perform a ping test to check if communication is taking place.

- **For Windows:**

1. Select **Command Prompt** from **Start**.

2. Type the ping command and press **Enter**.

The ping command is as follows: ping XXX.XXX.XXX.XXX

"XXX.XXX.XXX.XXX" is the IP address of the target device.

If communication is taking place, a message like the one shown below appears.

Reply from XXX.XXX.XXX.XXX: bytes=32 time=10ms TTL=255

If **Request timed out** appears, communication is not taking place.

- **For macOS:**

1. Start **Network Utility** as shown below.

Select **Computer** from **Go** menu of Finder, double-click **Macintosh HD > System > Library > CoreServices > Applications > Network Utility**.

2. Click **Ping**.

3. Make sure **Send only XX pings** (XX are numbers) is selected.

4. Enter IP address of target printer or target wireless router in **Enter the network address to ping**.

5. Click **Ping**.

"XXX.XXX.XXX.XXX" is the IP address of the target device.

A message such as the following appears.

64 bytes from XXX.XXX.XXX.XXX: icmp_seq=0 ttl=64 time=3.394 ms

64 bytes from XXX.XXX.XXX.XXX: icmp_seq=1 ttl=64 time=1.786 ms

64 bytes from XXX.XXX.XXX.XXX: icmp_seq=2 ttl=64 time=1.739 ms

--- XXX.XXX.XXX.XXX ping statistics ---

3 packets transmitted, 3 packets received, 0% packet loss

If "100% packet loss" appears, communication is not taking place. Otherwise, computer is communicating with target device.

Checking Network Setting Information

A

To check the printer's network settings information, display it using the operation panel of the printer or print it out.

Display on the touch screen.

➔ [LAN settings](#)

Print the network settings.

➔ [Printing Network Settings](#)

Printing Network Settings

Use the operation panel to print the printer's current network settings.

▶▶▶ Important

- The network settings printout contains important information about your network. Handle it with care.

1. Check that printer is turned on.
2. [Load three or more sheets of A4 or Letter-sized plain paper.](#)

3. Select  (Setup) on HOME screen.

▶▶▶ Note

- If **User management settings** is enabled, the user selection screen is displayed before the HOME screen is displayed.

4. Select **Printer settings**.
5. Select **LAN settings**.
6. Select **Print details**.
7. Check message and select **Yes**.
8. When the confirmation screen for printing passwords appears, select **ON** or **OFF**.

The printer starts printing the network setting information.

The following information on the printer's network setting is printed out. (Some setting values are not displayed depending on the printer settings.)

Item Number	Item	Description	Setting
1	Product Information	Product information	–
1-1	Product Name	Product name	XXXXXXXX
1-2	ROM Version	ROM version	XXXXXXXX

("XX" represents alphanumeric characters.)

Restoring Printer's LAN Settings to Defaults

»» Important

- Initialization erases all network settings on the printer, making printing/scanning/faxing operation from a computer over a network impossible. To use the printer over a network again after restoring it to the factory defaults, refer to Setup Guide and redo setup.
- If **User management settings** is enabled or **LCD, Remote UI, and other tools** is set as the scope for the administrator password, the administrator password must be entered.

Initialize the network setting using the printer's operation panel.

➔ [Reset settings](#)

Default Network Settings

LAN Connection Defaults

Item	Default
Enable/disable Wired LAN	Disable
Network name (SSID)	BJNPSETUP
Wi-Fi security	Disable
IP address (IPv4)	Auto setup
IP address (IPv6)	Auto setup
Set printer name*	XXXXXXXXXXXX
Enable/disable IPv6	Enable
Enable/disable WSD	Enable
Timeout setting (WSD)	15 minutes
Enable/disable Bonjour	Enable
Bonjour service name	Canon GX4000 series
LPR protocol settings	Enable
RAW protocol	Enable
LLMNR	Enable
Wi-Fi DRX settings	Enable
Wired LAN DRX settings	Enable
2.4GHz/5GHz Switch	2.4GHz

("XX" represents alphanumeric characters.)

* Default value depends on printer. To check value, use operation panel.

➔ [LAN settings](#)

Wireless Direct Defaults

Item	Default
Network name (SSID)	DIRECT-abXX-GX4000series *1
Password	YYYYYYYYYYY *2
Security method	WPA2-PSK (AES)
Connection request confirmation	Displayed

*1 "ab" is specified at random and "XX" represents last two digits of printer's MAC address. (The value is specified when the printer is turned on for the first time.)

*2 The password is specified automatically when the printer is turned on for the first time.

Connecting with Wireless Direct

You can connect devices (e.g. computer, smartphone, or tablet) to the printer by two methods below.

- Wireless connection (connecting devices via a wireless router)
- Direct wireless connection (connecting devices directly without a wireless router)

This section describes Wireless Direct, which allows you to print by connecting the devices to the printer directly.

- **Connecting**
 - ➔ [Connecting a smartphone/tablet/computer to the printer](#)
- **Changing settings**
 - ➔ [Changing Wireless Direct Setting](#)

▶▶▶ Important

- You can connect up to 5 devices to the printer at the same time with Wireless Direct.
- Check the usage restrictions and connect the printer to the Wireless Direct.
 - ➔ [Restrictions](#)
- Some printers support IEEE802.1X/EAP (WPA/WPA2/WPA3 Enterprise). If you enable Wireless Direct while IEEE802.1X/EAP (WPA/WPA2/WPA3 Enterprise) is enabled, IEEE802.1X/EAP (WPA/WPA2/WPA3 Enterprise) is disabled.

When IEEE802.1X/EAP (WPA/WPA2/WPA3 Enterprise) is enabled, enable **Administrator mode** so that the Wireless Direct settings cannot be changed.

Connecting a smartphone/tablet/computer to the printer

1. Enable Wi-Fi function on smartphone/tablet/computer.

Enable Wi-Fi in the Settings menu on your smartphone/tablet/computer.

For instructions on enabling the Wi-Fi function, refer to the instruction manual for your smartphone/tablet/computer.

2. Select  (Setup) on HOME screen.

▶▶▶ Note

- If **User management settings** is enabled, the user selection screen is displayed before the HOME screen is displayed.

3. Select **Printer settings**.
4. Select **LAN settings**.
5. Select **Wireless Direct**.
6. Select **Connect to smartphone**.
7. To connect with an iPhone/iPad, select **iPhone/iPad**. To connect with an Android device, select **Android device**. To connect with a non-iPhone/iPad, select **Others**.

- **iPhone/iPad**

1. Select **QR Code**.
2. Scan the displayed QR code with the iPhone/iPad standard camera app.

The iPhone/iPad is connected to the printer.

»» Note

- If the QR code cannot be read, select  (Back) in the screen displayed QR code and connect the printer from **Connect to smartphone > Others**.

- **Android device**

1. Select **QR Code**.
2. Scan the displayed QR code with the Android device in one of the following ways.
 - Select network and Wi-Fi on the setting of Android device. Select **QR code** icon to the right of the **Add network** at the bottom of the list of Wi-Fi connections and scan the QR code.
 - Scan the displayed QR code with the Android standard camera app.
 - Scan the displayed QR code with a QR code reading app.

The Android device is connected to the printer.

»» Note

- Wireless Direct using QR code can be used with Android 5.0 or later.
- It is available in Android 10 or later to scan QR code from setting and read QR code with the Android standard camera.
- Depending on the smartphone/tablet, QR code may not be readable.
- If the QR code cannot be read, select  (Back) in the screen displayed QR code and connect the printer from **Connect to smartphone > Others**.

- **Others**

1. Select **Next**.

Network name (SSID) and **Password** are displayed.

▶▶▶ Note

- To show the password, select **Show password**. To hide the password, select **Hide password**.
- The password is required when connecting smartphone/tablet/computer to the printer.

2. Select "DIRECT-XXXX-GX4000series" ("X" represents alphanumeric characters) on your smartphone/tablet/computer.
3. Enter **Password** on smartphone/tablet/computer.

The smartphone/tablet/computer is connected to the printer.

▶▶▶ Note

- If the printer is set to display a confirmation screen in **Connection request confirmation** of [Changing Wireless Direct Setting](#), when the wireless direct compatible device connects to the printer, a confirmation screen asking for permission to connect is displayed on the printer touch screen.

Make sure the name on the touch screen is the same as that of your wireless communication device and select **Yes**.

You can print from your smartphone or tablet by installing Canon PRINT Inkjet/SELPHY. Download it from App Store and Google Play.

➔ For iOS device

➔ For Android device

Changing Wireless Direct Setting

Change the settings for the Wireless Direct following the procedure below.

▶▶▶ Note

- To change the Wireless Direct settings, you need to enable Wireless Direct in advance.

1. Make sure the printer is turned on.

2. Select  on HOME screen and select **Printer settings**.

▶▶▶ Note

- If **User management settings** is enabled, the user selection screen is displayed before the HOME screen is displayed.

3. Select **LAN settings**.

4. Select **Wireless Direct**.

▶▶▶ Note

- To change the Wireless Direct settings, it is necessary to be enabled for Wireless Direct before.

Select **Enable/disable Wireless Direct** on the menu screen displayed when selecting **Wireless Direct** and enable Wireless Direct.

5. Select a setting item.

Scroll down if necessary.

- **See settings**

The setting values for using the printer with Wireless Direct are displayed.

- **Change network name (SSID)**

Change the identifier (SSID) for Wireless Direct.

The identifier (SSID) is the printer's name (device name) displayed on a Wi-Fi Direct compatible device.

Follow the procedure below to change the identifier (SSID).

- To set manually

1. Select the displayed identifier (SSID).
2. Change using the keyboard that appears.
3. When you have finished making changes, select **OK**.

- To set automatically

1. Select **Auto update**.
2. Select **Yes**.

You can check the updated setting.

▶▶▶ Note

- To show the password, select **Show password**. To hide the password, select **Hide password**.

- **Change password**

Change the password for Wireless Direct.

- To set manually.

1. Select **Change manually**.
2. Select the displayed password.
3. Enter the new password (10 characters).

Change using the keyboard that appears.

4. When you have finished making changes, select **OK**.

- To set automatically

1. Select **Auto update**.
2. Select **Yes**.

You can check the updated setting.

»» Note

- To show the password, select **Show password**. To hide the password, select **Hide password**.

- **Connection request confirmation**

Change the confirmation screen setting when a Wi-Fi Direct compatible device is connecting to the printer.

If you want the printer to display the screen to inform you a Wi-Fi Direct compatible device is connecting to the printer, select **ON**.

»» Important

- To prevent an unauthorized access, we recommend you should select the setting to display the confirmation screen.

»» Note

- If you change the Wireless Direct setting of the printer, also change the wireless router setting of the device.

Problems While Printing (Scanning) from Smartphone/Tablet

- **Cannot Print (Scan) from Smartphone/Tablet**

Cannot Print (Scan) from Smartphone/Tablet

If you cannot Print (Scan) from your smartphone/tablet, it is possible that your smartphone/tablet cannot communicate with the printer.

Check the cause of your problem according to the connection method.

➔ [Cannot Communicate with Printer via Wi-Fi](#)

➔ [Cannot Communicate with Printer while It Is in Wireless Direct](#)

▶▶▶ Note

- For problems on printing with other connection methods or more on performing settings of each connection method:
 - ➔ Using PIXMA/MAXIFY Cloud Link
 - ➔ Printing from iOS Device (AirPrint)

Q Cannot Communicate with Printer via Wi-Fi

A

If your smartphone/tablet cannot communicate with the printer, check the following.

Check1 Check power status of printer, network devices (e.g. wireless router), and your smartphone/tablet.

- Turn on the printer or your device.
- If the power is already turned on, cycle the power switch.
- It may be necessary to resolve wireless router problems (e.g. update interval of a key, problems of DHCP update interval, energy saving mode) or to update the wireless router firmware.

For details, contact the manufacturer of your wireless router.

Check2 Check settings of your smartphone/tablet.

Make sure Wi-Fi is enabled on your device.

For details, refer to your device's instruction manual.

Check3 Is printer connected to wireless router?

- Use the icon on the lower left of the touch screen to check the connection status between the printer and wireless router.

If the  icon is not displayed, Wi-Fi is disabled. Turn on wireless communication on the printer.

- Make sure the network settings of the printer (e.g. network name (SSID) or network key (password), etc.) are identical with those of the wireless router.

To check the settings of the wireless router, refer to the instruction manual provided with it or contact its manufacturer.

To check the current network settings of the printer, print out the network settings information or use the operation panel to display it.

- Display on the touch screen.

➡ [LAN settings](#)

- Print the network settings.

➡ [Printing Network Settings](#)

▶▶▶ Note

- If you have a computer, Wi-Fi Connection Assistant allows you to diagnose and repair the network status.

Select the link below to download Wi-Fi Connection Assistant and install it.

➡ [Checking Printer Connection Status Using Wi-Fi Connection Assistant](#)

See below for starting up Wi-Fi Connection Assistant.

— **For Windows:**

➡ [Starting Up Wi-Fi Connection Assistant](#)

— **For macOS:**

➡ [Starting Up Wi-Fi Connection Assistant](#)

Check4 Are network settings of your smartphone/tablet identical with those of wireless router?

Make sure the network settings of the printer (e.g. network name (SSID) or network key password) are identical with those of the wireless router.

To check the settings of your smartphone/tablet, refer to the instruction manual provided with it.

If the network settings of your smartphone/tablet are not identical with those of the wireless router, change the network settings of it to match with those of the wireless router.

Check5 Check that printer is not placed too far away from wireless router.

If the distance between the printer and wireless router is too far, wireless communication becomes poor. Place the printer and wireless router close to each other.

Check6 Check that wireless signal is strong. Monitor signal status and move printer and wireless router as necessary.

Place the printer and wireless router where there are no obstacles between them. Wireless communication between different rooms or floors is generally poor. Wireless communication can be impeded by building materials containing metal or concrete. If the printer cannot communicate with the computer over a Wi-Fi due to a wall, place the printer and the computer in the same room.

In addition, if a device like a microwave oven that emits radio waves of the same frequency bandwidth as a wireless router is nearby, it may cause interference. Place the wireless router as far away from interference sources as possible.

Check the signal strength on the touch screen.

➡ [Using Touch Screen](#)

Cannot Communicate with Printer while It Is in Wireless Direct

If your smartphone/tablet cannot communicate with the printer in the Wireless Direct, check the following.

Check1 Check power status of printer and device (e.g. smartphone/tablet).

Turn on the printer or your device.

If the power is already turned on, cycle the power switch.

Check2 Check if the icon is displayed on the touch screen of the printer.

If it is not displayed, Wireless Direct is disabled. Please turn on the Wireless Direct.

Check3 Check settings of device (e.g. smartphone/tablet).

Make sure Wi-Fi is enabled on your device.

For details, refer to your device's instruction manual.

Check4 Check that printer is selected as connection for devices (e.g. smartphone/tablet).

Select the network name (SSID) for Wireless Direct specified for the printer as the connection destination for devices.

Check the destination on your device.

For details, refer to your device's instruction manual or visit the manufacturer's website.

To check the network name (SSID) for Wireless Direct specified for the printer, print out the network settings information or use the operation panel to display it.

- Display on the touch screen.
 - ➔ [LAN settings](#)
- Print the network settings.
 - ➔ [Printing Network Settings](#)

Check5 Check that wireless direct password set for printer is entered correctly.

To check the password specified for the printer, print out the network settings information or use the operation panel to display it.

- Display on the touch screen.
 - ➔ [LAN settings](#)
- Print the network settings.
 - ➔ [Printing Network Settings](#)

Check6 Check that printer is not placed too far away from devices.

If the distance between the printer and devices is too far, wireless communication becomes poor. Place the printer and devices close to each other.

Check7 Check that 5 devices are already connected.

Wireless Direct does not allow more than 5 devices to be connected.

▶▶▶ Note

- Some printers support IEEE802.1X/EAP (WPA/WPA2/WPA3 Enterprise). Note that when IEEE802.1X/EAP (WPA/WPA2/WPA3 Enterprise) is set to **Enable**, Wireless Direct is set to **Disable**.
- Depending on the specifications of the printer you are using, some of the features described (scanner/copy, etc.) may not apply.

For details about the functions of your printer, see [Specifications](#).

Printing Problems

- **Printer Does Not Print**
- **Printer Does Not Pick Up or Feed the Paper/"No Paper" Error**
- **Printout (Copy) Results Are Unsatisfactory**
- **Change to Offline (Windows)**

Printer Does Not Print

Check1 Make sure printer is turned on.

If not, make sure the printer is securely plugged in and press **ON** button to turn on.

The **ON** lamp flashes while the printer is initializing. Wait until the **ON** lamp stops flashing and remains lit.

▶▶▶ Note

- If you are printing large data such as photos or other graphics, printing may take longer to start. The **ON** lamp flashes while the computer is processing data and sending it to the printer. Wait until printing starts.

Check2 Make sure that the cassette is correctly inserted.

If there is an object under the printer, the cassette cannot be correctly inserted and paper may not be correctly fed.

Make sure there are no objects under the printer and push the cassette flatly into the printer until it stops.

➔ [Loading Plain Paper in Cassette](#)

Check3 Make sure printer is properly connected to computer.

If you are using a USB cable, make sure it is securely connected to both the printer and the computer. When the USB cable is securely plugged in, check the following:

- If you are using a relay device such as a USB hub, disconnect it, connect the printer directly to the computer, and retry the printing. If printing starts normally, there is a problem with the relay device. Contact the vendor of the relay device.
- There could also be a problem with the USB cable. Replace the USB cable and retry the printing.

If you use the printer with a network connection, make sure the printer is correctly set up for network use.

➔ [Cannot Find Printer on Network](#) (Windows/macOS)

▶▶▶ Note

- Wi-Fi Connection Assistant allows you to diagnose and repair the network status.

Select the link below to download Wi-Fi Connection Assistant and install it.

➔ [Checking Printer Connection Status Using Wi-Fi Connection Assistant](#)

See below for starting up Wi-Fi Connection Assistant.

— **For Windows:**

➔ [Starting Up Wi-Fi Connection Assistant](#)

– For macOS:

➔ [Starting Up Wi-Fi Connection Assistant](#)

Check4 Make sure paper settings match information set for rear tray, cassette or rear flat tray.

If the paper settings do not match the information set for the rear tray, cassette or rear flat tray, an error message appears on the touch screen. Follow the instructions on the touch screen to solve the problem.

▶▶▶ Note

- You can select whether the message which prevents misprinting is displayed.
 - To change the message view setting when printing using the printer's operation panel:
 - ➔ [Feed settings](#)
 - To change the message view setting when printing using the printer driver:
 - ➔ [Changing the Printer Operation Mode](#) (Windows)
 - ➔ [Changing the Printer Operation Mode](#) (macOS)

Check5 If printing from a computer, delete unnecessary print jobs.

- **For Windows:**

- ➔ Deleting the Undesired Print Job

- **For macOS:**

- ➔ [Deleting the Undesired Print Job](#)

Check6 Is your printer's printer driver selected when printing?

The printer will not print properly if you are using a printer driver for a different printer.

- **For Windows:**

Make sure "Canon XXX series" (where "XXX" is your printer's name) is selected in the Print dialog box.

▶▶▶ Note

- If multiple printers are registered to your computer, set your printer as default printer to make the one selected by default.
 - ➔ Default Printer Keeps Changing (Windows)

- **For macOS:**

Make sure your printer's name is selected in **Printer** in the Print dialog.

▶▶▶ Note

- If multiple printers are registered to your computer, select **Set as Default Printer** from **System Preferences > Printers & Scanners** for a printer to make the one selected by default.

Check7 Are you trying to print a large data file? (Windows)

If you are trying to print a large data file, it takes a long time to start printing.

If the printer does not start printing after a certain period of time, select **On** for **Prevention of Print Data Loss** on the **Print Options** dialog box.

For details, refer to [Page Setup Tab Description](#).

▶▶ Important

- Selecting **On** for **Prevention of Print Data Loss** may reduce print quality.
- After printing is completed, select **Off** for **Prevention of Print Data Loss**.

Check8 If printing from your computer, restart the computer.

Restart the computer and try printing again.

▶▶ Important

- For Windows:
To restart your computer, choose **Restart** instead of **Shut down**.

Printer Does Not Pick Up or Feed the Paper/"No Paper" Error

Check1 Make sure paper is loaded in the specified rear tray, cassette or rear flat tray.

➔ [Loading Paper](#)

Check2 When loading paper, consider the following.

- When loading two or more sheets of paper, align the edges of the sheets before loading the paper.
- When loading two or more sheets of paper, make sure the paper stack does not exceed the paper load limit.

However, paper may not feed correctly at the maximum capacity, depending on the type of paper or environmental conditions (very high or low temperature and humidity). In such cases, reduce the amount of paper you load at a time to less than half of the paper load limit.

- Always load the paper in portrait orientation, regardless of the printing orientation.
- When you load the paper on the rear tray, place the print side facing UP and align the right and left paper guides with the paper stack.

➔ [Loading Paper](#)

- In the cassette, be sure to load only plain paper.
- When you load the paper on the cassette, place the print side facing DOWN and align the right/left/front paper guides with the paper stack.

➔ [Loading Paper](#)

Check3 Is paper too thick or curled?

➔ [Unsupported Media Types](#)

Check4 When loading envelopes, consider the following.

When printing on envelopes, see [Loading Envelopes in Rear Tray](#), and prepare the envelopes before printing.

Once you have prepared the envelopes, load them in portrait orientation. If the envelopes are placed in landscape orientation, they will not feed properly.

Check5 Make sure media type and paper size settings match with loaded paper.

Check6 Make sure that there are not any foreign objects in the rear tray.

If the paper tears in the rear tray, see [What to Do When Paper Is Jammed](#) to remove it.

If a foreign object is inside the rear tray, remove it according to the following procedure.

1. Turn off the power of the printer and disconnect the power plug from the outlet.

2. Fold one A4 sheet in half and insert it horizontally into the rear tray.

Insert the paper so that your hand does not directly touch the part in the center of the rear tray when removing the foreign object.

3. Remove foreign object by hand with paper inserted.

Put your hand between the paper you inserted and the rear tray to remove the foreign object.

4. Remove the folded paper inserted in step 2.

▶▶▶ Important

- Do not tilt the printer or do not it upside down. Doing so may cause the ink to leak.

Check7 Clean Paper Feed Roller.

➔ [Cleaning Paper Feed Rollers](#)

▶▶▶ Note

- Cleaning the paper feed roller abrades it, so do this only when necessary.

Check8 If two or more sheets of paper feed from cassette at once, clean inside of cassette.

➔ [Cleaning Cassette Pads](#)

Check9 Are transport unit attached properly?

See [Rear View](#) for the positions of the transport unit.

If the measures above do not solve the problem, contact your nearest Canon service center to request a repair.

▶▶▶ Important

- Do not tilt the printer when moving it since the ink may leak out.
- When transporting the printer for repairing it, see [Repairing Your Printer](#).

Printout (Copy) Results Are Unsatisfactory

If the print results are unsatisfactory due to white streaks, misaligned/distorted lines, or uneven colors, check the paper and print quality settings first.

Check1 Make sure that **Print target for plain paper** is set to **Text and photos**.

Select  (Setup) on HOME screen, select **Printer settings > Print settings**, and make sure that **Print target for plain paper** is set to **Text and photos**.

If **Print target for plain paper** is set to **Text only**, change it to **Text and photos**.

▶▶▶ Note

- If **User management settings** is enabled, the user selection screen is displayed before the HOME screen is displayed.

Check2 Do page size and media type settings match size and type of loaded paper?

If these settings do not match, it is not possible to obtain the proper result.

If you are printing a photograph or an illustration, an incorrect paper type setting may reduce the quality of the printout color.

Also, if you print with an incorrect paper type setting, the printed surface may be scratched.

The method for checking the paper and print quality settings differs depending on what you are using your printer for.

- **Printing from printer**

Check the settings using the touch screen.

➔ [Setting Items for Copying](#)

- **Printing from your computer**

Check the settings using the printer driver.

➔ [Basic Printing Setup](#)

- **Printing from your smartphone/tablet using Canon PRINT Inkjet/SELPHY**

Check the settings on Canon PRINT Inkjet/SELPHY.

➔ [Print Photos from Your Smartphone](#)

Check3 Make sure appropriate print quality is selected (see list above).

Select a print quality suited to the paper and to what you are printing. If you notice blurs or uneven colors, increase the print quality setting and retry the printing.

Check4 If problem is not resolved, click on illustration that corresponds to problem.

▶▶▶ Note

- Depending on the specifications of the printer you are using, some of the features described (scanner/copy, etc.) may not apply.

For details about the functions of your printer, see [Specifications](#).

Ink Does Not Come Out/Blurry or Fuzzy/Inaccurate or Bleeding Colors/Streaks

Ink Does Not Come Out

Blurry or Fuzzy

Inaccurate or Bleeding Colors

Streaks

▶▶▶ Note

- If printouts are blank, black does not print, is faint, or has a blue or red tint, refer to this web page.

Check1 Check paper and print quality settings.

➔ [Printout \(Copy\) Results Are Unsatisfactory](#)

Check2 Are the print head nozzles clogged?

Print the nozzle check pattern to determine whether the ink ejects properly from the print head nozzles.

Step1 Print the nozzle check pattern.

After printing the nozzle check pattern, examine the pattern.

- From the printer
 - ➔ [Printing the Nozzle Check Pattern](#)
- From the computer
 - **For Windows:**
 - ➔ Printing a Nozzle Check Pattern
 - **For macOS:**
 - ➔ Printing a Nozzle Check Pattern

If the pattern is not printed correctly, go to the next step.

Step2 Clean the print head.

After cleaning the print head, print the nozzle check pattern and check the result.

- From the printer

➡ [Cleaning the Print Head](#)

- From the computer
 - **For Windows:**
 - ➡ Clean the print head
 - **For macOS:**
 - ➡ [Clean the print head](#)

If it still does not improve, go to the next step.

Step3 Clean the print head again.

After cleaning the print head again, print the nozzle check pattern and check the result.

If it still does not improve, go to the next step.

Step4 Clean the print head deeply.

After cleaning the print head deeply, print the nozzle check pattern and check the result.

- From the printer
 - ➡ [Deep Print Head Cleaning](#)
- From the computer
 - **For Windows:**
 - ➡ Clean the print head deeply
 - **For macOS:**
 - ➡ [Clean the print head deeply](#)

If it does not improve, turn off the printer, wait for more than 24 hours without unplugging the power supply, and go to the next step.

Step5 Clean the print head deeply again.

After cleaning the print head deeply again, print the nozzle check pattern and check the result.

For details on printing the nozzle check pattern, print head cleaning, and print head deep cleaning, see [If Printing Is Faint or Uneven](#).

Check3 When using paper with one printable surface, check the correct printable side of the paper.

Printing on the wrong side of such paper may cause unclear prints or prints with reduced quality.

When you load paper on the rear tray or rear flat tray, load paper with the printable side facing up. When you load paper in the cassette, load paper with the printable side facing down.

Refer to the instruction manual supplied with the paper for detailed information on the printable side.

- **When copying, see also the sections below:**

Check4 Is platen glass or glass of ADF dirty?

Clean the platen glass or the glass of ADF.

- ➡ Cleaning Platen and Document Cover
- ➡ Cleaning the ADF (Auto Document Feeder)

Note

- If the glass of ADF is dirty, black streaks appear on the paper as shown below.

Check5 Make sure original is properly loaded on platen or ADF.

When you load the original on the platen, load it with the side to be copied facing down.

When you load the original on the ADF, load it with the side to be copied facing up.

➔ [Loading Originals](#)

Check6 Is copy source a printed paper by printer?

If you use a printout done by this printer as the original, print quality may be reduced depending on the condition of the original.

Print from the printer directly, or reprint from the computer if you can reprint from it.

Check7 If the ink still does not come out.

➔ Replace Ink in Print Head

➤➤➤ Note

- Although some air may enter the ink tube, it is not a malfunction. No problem if the nozzle check pattern is printed correctly.

Printed in Black and White

If the ink used by the printer is set to **Black only**, printouts from a computer etc. will be printed in black and white.

To print in color, select  (Setup) on HOME screen, select **Printer settings** > **Other printer settings**, and set **Force ink tank selection** to **All ink tanks**.

»» Note

- If **User management settings** is enabled, the user selection screen is displayed before the HOME screen is displayed.
- If you print from the printer's operation panel, the printer prints in color, regardless of the ink settings used by the printer.

Lines Are Misaligned/Distorted

▶▶▶ Note

- For the case of misaligned or distortion, refer to this web page.

Check1 Check paper and print quality settings.

➔ [Printout \(Copy\) Results Are Unsatisfactory](#)

Check2 Perform print head alignment.

If printed lines are misaligned/distorted or print results are otherwise unsatisfactory, adjust the print head position.

➔ [Aligning the Print Head](#)

▶▶▶ Note

- If the problem is not resolved after performing the print head alignment, perform print head alignment manually.

➔ [Aligning the Print Head Manually](#)

Check3 Increase print quality and try printing again.

Increasing the print quality using operation panel or from computer may improve the print result.

Paper Is Smudged/Printed Surface Is Scratched/Ink Blots/Paper Curl

Check1 Check paper and print quality settings.

➔ [Printout \(Copy\) Results Are Unsatisfactory](#)

Check2 Check paper type.

Make sure you are using the right paper for what you are printing. To print data with high color saturation such as photographs or images with dark colors, we recommend that you use Photo Paper Plus Glossy II or other Canon specialty paper.

➔ [Supported Media Types](#)

Check3 Correct curl before loading paper.

When using Photo Paper Plus Semi-gloss, even if the sheet is curled, load one sheet at a time as it is. Rolling this paper in the opposite direction to flatten it may crack the paper surface and reduce the print quality.

We recommend putting unused paper back into the package and storing it flat.

- **Plain Paper**

Turn the paper over and reload it to print on the other side.

- **Other Paper such as envelope**

If the paper corners curl more than 0.1 in. / 3 mm (A) in height, the paper may smudge or may not feed properly. Follow the instructions below to correct the paper curl.

1. Roll up paper in opposite direction to paper curl as shown below.

2. Check that paper is now flat.

We recommend printing curl-corrected paper one sheet at a time.

►►► Note

- Depending on paper type, the paper may smudge or may not feed properly even if it is not curled inward. Follow the instructions below to curl the paper outward up to 0.1 in. / 3 mm (C) in height before printing. This may improve the print result.

(B) Print side

We recommend feeding paper that has been curled outward one sheet at a time.

Check4 Set printer to prevent paper abrasion.

Adjusting the setting to prevent paper abrasion will widen the clearance between the print head and the paper. If you notice abrasion even with the media type set correctly to match the paper, set the printer to prevent paper abrasion using the operation panel or the computer.

This may reduce the print speed.

* Once you have finished printing, undo this setting. Otherwise, it will apply to subsequent print jobs.

Select (Setup) on HOME screen, select **Printer settings** > **Print settings** in this order, and then set **Prevent paper abrasion** to **ON**.

➔ [Changing Settings from Operation Panel](#)

►►► Note

- If **User management settings** is enabled, the user selection screen is displayed before the HOME screen is displayed.

Check5 If ink bleeds, make sure that **Improve bleeding and thickened black text/lines (plain paper)** is checked. (Windows)

It may be possible to improve the bleeding of characters and lines when printing on plain paper.

Set it at **Print Options** dialogbox on **Page Setup** sheet in the printer driver.

Restore the setting after printing.

➔ [Print Options dialog box](#)

Check6 If brightness is set low, increase brightness setting and try printing again.

If you are printing with a low brightness setting on plain paper, the paper may absorb too much ink and become wavy, causing paper abrasion.

- Printing from your computer (Windows)

Check the brightness setting in the printer driver.

➔ [Adjusting Brightness](#)

Check7 Is platen glass dirty?

Clean the platen glass.

➔ [Cleaning Platen and Document Cover](#)

Check8 Is paper feed roller dirty?

Clean paper feed roller.

➔ [Cleaning Paper Feed Rollers](#)

▶▶▶ Note

- Cleaning the paper feed roller abrades it, so do this only when necessary.

Check9 Is inside of printer dirty?

During duplex printing, ink may stain the inside of the printer, smudging the printout.

Perform bottom plate cleaning to clean inside of printer.

➔ [Cleaning Inside the Printer \(Bottom Plate Cleaning\)](#)

▶▶▶ Note

- To prevent staining inside the printer, be sure to set the correct paper size.

Check10 Set longer ink drying time.

This allows the printed surface to dry, preventing smudges and scratches.

- **For Windows:**

Set the waiting time using Canon IJ Printer Assistant Tool.

➔ [Changing the Printer Operation Mode](#)

- **For macOS:**

Set the waiting time using Remote UI.

➡ [Opening Remote UI for Maintenance](#)

Images Incomplete/Cannot Complete Printing

If the printing of photos, images, stops in the middle of printing and cannot be printed to the end, check the following items.

Check1 Select setting not to compress printing data. (Windows)

If you select the setting not to compress the printing data with an application software you are using, the printing result may be improved.

Click **Print Options** on **Page Setup** sheet of the printer driver. Select the **Do not allow application software to compress print data** check box and click **OK**.

Important

- Clear the check box once printing is complete.

Check2 Are you trying to print a large data file? (Windows)

If you are trying to print a large data file, printing may not be performed properly due to missing print data.

Select **On** for **Prevention of Print Data Loss** on the **Print Options** dialog box of the printer driver.

For details, refer to [Page Setup Tab Description](#).

Important

- Selecting **On** for **Prevention of Print Data Loss** may reduce print quality.
- After printing is completed, select **Off** for **Prevention of Print Data Loss**.

Check3 Your hard disk may not have sufficient free space to store job.

Delete unnecessary files to free up disk space.

Lines Incomplete or Missing (Windows)

	Tokyo	London
Jan.	12,000	10,500
Feb.	11,500	10,800
Mar.	13,800	12,800
Apr.	12,000	10,500
May.	11,500	10,800
June	13,800	12,800

Check1 Are you using Page Layout Printing or Binding Margin function?

When the Page Layout Printing or Binding margin function is in use, thin lines may not be printed. Try thickening the lines in the document.

Check2 Are you trying to print a large data file? (Windows)

If you are trying to print a large data file, printing may not be performed properly due to missing print data.

Select **On** for **Prevention of Print Data Loss** on the **Print Options** dialog box of the printer driver.

For details, refer to [Page Setup Tab Description](#).

Important

- Selecting **On** for **Prevention of Print Data Loss** may reduce print quality.
- After printing is completed, select **Off** for **Prevention of Print Data Loss**.

Back of Paper Is Smudged

Check1 Check paper and print quality settings.

➔ [Printout \(Copy\) Results Are Unsatisfactory](#)

Check2 Perform bottom plate cleaning to clean inside of printer.

➔ [Cleaning Inside the Printer \(Bottom Plate Cleaning\)](#)

▶▶▶ Note

- During duplex printing, or too much printing, ink may stain the inside of the printer.

Uneven or Streaked Colors

Check1 Increase print quality and try printing again.

Increasing the print quality using the operation panel or the printer driver may improve the print result.

Check2 Perform print head alignment.

➔ [Aligning the Print Head](#)

▶▶▶ Note

- For Windows, if the problem is not resolved after performing the print head alignment, perform print head alignment manually.

➔ [Aligning the Print Head Manually](#)

Change to Offline (Windows)

If the printer cannot communicate with the computer, an error message "Offline" may be displayed when printing. To bring the printer back online, try the following.

1. Check the connection (USB/Wi-Fi/Wired LAN).

For USB connection:

Make sure that the USB-connected printer is recognized by the computer.

For Wi-Fi/Wired LAN connections:

Make sure that  or  icon appears on the printer's touch screen.

2. Turn off printer and then turn it on again.

Confirm that the offline mode has been disabled. If the printer is still offline, proceed to the next step.

3. Check the name of the printer driver.

Check the names of the printer and printer driver match and set the using printer as default.

➔ Default Printer Keeps Changing (Windows)

Confirm that the offline mode has been disabled. If the printer is still offline, proceed to the next step.

4. Make sure that printer is not set to **Use Printer Offline** mode.

For Windows 11:

Press the Windows key and I key together, then click Version information in the System dialog to display System version.

If the version is 22H2 or later proceed to the next step. If it is 21H2 check the following.

Select **Start** >  **Settings** > **Bluetooth & devices** > **Printers & scanners**. Select your printer and select **Open print queue**. Under **Printer**, make sure that **Use Printer Offline** is not selected.

➤➤➤ Note

• **For Windows 10:**

Select **Start** >  **Settings** > **Devices** > **Printers & scanners**. Select your printer and select **Open queue**. Under **Printer**, make sure that **Use Printer Offline** is not selected.

- **For Windows 8/Windows 8.1:**

From the **Control Panel**, select **View devices and printers** or **Devices and Printers**. Select your printer from **Printers**, then select **See what's printing** from the toolbar. Under **Printer**, make sure that **Use Printer Offline** is not selected.

Confirm that the offline mode has been disabled. If the printer is still offline, proceed to the next step.

5. For Wi-Fi/Wired LAN connections, use Wi-Fi Connection Assistant to change settings.

Diagnose and repair the network connections using Wi-Fi Connection Assistant.

Download Wi-Fi Connection Assistant from the below page, and install it on your computer.

➡ [Checking Printer Connection Status Using Wi-Fi Connection Assistant](#)

Refer to below in regard to starting up Wi-Fi Connection Assistant.

➡ [Starting Up Wi-Fi Connection Assistant](#)

Confirm that the offline mode has been disabled. If the printer is still offline, proceed to the next step.

6. Uninstall printer driver and reinstall printer driver.

If your printer driver version is old or not installed correctly, you may not be able to print.

Confirm that the offline mode has been disabled. If the printer is still offline, proceed to the next step.

7. Restart computer.

The computer may be unstable for some reason. Restart the computer and try to print.

▶▶▶ Important

- When restarting the computer, choose **Restart** instead of **Shut down**.

Scanning Problems (Windows)

- [Scanning Problems](#)

Scanning Problems

- **Scanner Does Not Work**
- **ScanGear (Scanner Driver) Does Not Start**

Scanner Does Not Work

Check 1 Make sure that your scanner or printer is turned on.

Check 2 Check for any printer errors.

For messages, see When Error Occurred.

Check 3 Connect the USB cable to a different USB port on the computer.

Check 4 If the USB cable is connected to a USB hub, remove it from the USB hub and connect it to a USB port on the computer.

Check 5 With network connection, check the connection status and reconnect as needed.

➔ [Network Scan Settings](#)

Check 6 Restart the computer.

Check 7 Reinstall MP Drivers from the Setup CD-ROM or our website.

ScanGear (Scanner Driver) Does Not Start

Check 1 Make sure MP Drivers is installed.

If not installed, install MP Drivers from the Setup CD-ROM or our website.

Check 2 Select your scanner or printer on the application's menu.

▶▶▶ Important

- If your scanner or printer name is displayed multiple times, select the one that does not include WIA.

▶▶▶ Note

- The operation may differ depending on the application.
- Use the WIA driver when scanning from a WIA-compliant application.
 - ➔ Scanning with WIA Driver

Check 3 Make sure that the application supports TWAIN.

You cannot start ScanGear (scanner driver) from applications not supporting TWAIN.

Check 4 Scan and save images with IJ Scan Utility and open the files in your application.

Scanning Problems (macOS)

- [Scanning Problems](#)

Scanning Problems

- **Scanner Does Not Work**
- **Scanner Driver Does Not Start**

Scanner Does Not Work

Check 1 Check that your scanner or printer is turned on.

Check 2 Check for any printer errors.

For messages, see *When Error Occurred*.

Check 3 With network connection, check the connection status and reconnect as needed.

Check 4 With USB connection, connect the USB cable to a different USB port on the computer.

Check 5 If the USB cable is connected to a USB hub, remove it from the USB hub and connect it to a USB port on the computer.

Check 6 Restart the computer.

Check 7 To scan from the printer's operation panel with USB connection, click **Scan-from-Operation-Panel Settings** in the **Settings (General Settings)** dialog, and then check that the following checkboxes are selected.

- Your scanner or printer
- **Enables scanning from the operation panel**

Scanner Driver Does Not Start

Check 1 Make sure the application software supports AirPrint.

Check 2 Select your scanner or printer on the application's menu.

▶▶▶ Note

- The operation may differ depending on the application.

Check 3 Scan and save images with IJ Scan Utility Lite and open the files in your application.

Check 4 Your scanner may be locked. (Personal scanners only)

If IJ Scan Utility Lite or the application is running, exit it. Slide the scanner lock switch to the release position (), then reconnect the USB cable.

Faxing Problems

- **Problems Sending Faxes**
- **Problems Receiving Faxes/Cannot Print a Fax**
- **Telephone Problems**
- **Poor Quality Fax Received**
- **Fax Is Indistinctly Sent**
- **Cannot Set Shared Folder on Computer as Destination Folder**

Problems Sending Faxes

- ▶ **Cannot Send a Fax**
- ▶ **Errors Often Occur When Send a Fax**
- ▶ **Cannot Perform Sequential Broadcasting by Redialing, or Cannot Dial by Entering Numbers**

Cannot Send a Fax

- ➔ [Cannot send a fax to all destinations](#)
- ➔ [Cannot send a fax to a specific destination](#)

Cannot send a fax to any destination

Answer

If you cannot send a fax, check the following items.

Check1 Check that the telephone line is connected correctly.

- Reconnect the telephone line cable to the telephone line jack (), and plug the other end into the telephone wall jack or telephone jack.
 - ➔ [Connecting Telephone Line](#)
- If "**Telephone line is in use.**" is displayed on the screen, the line is being used by the attached phone. Please check back later.
- If you do not hear the normal telephone line sound (dial tone) from the printer when you touch the hook key, the telephone line connection may be incorrect or there may be a problem with the telephone line. Check that the connection method of the telephone line is correct, and contact your telephone company and the manufacturer of your terminal adapter.
- If "**Hook key is disabled.**" is displayed when you touch the hook key, select **Fax settings > Security control > Hook key setting** and then select **Enable**.
 - ➔ [Fax settings](#)

Check2 Is the telephone line type set correctly, if only sending a fax is not possible?

Check the telephone line type setting and change it as necessary.

- ➔ [Setting Telephone Line Type](#)

Check3 Is **Dial tone detect** set to **ON**?

Select **Fax settings > Advanced fax settings > Dial tone detect** and then select **OFF**.

- ➔ [Fax settings](#)

Check4 Is the fax/telephone number registered correctly in printer's directory?

Check the recipient's fax/telephone number, correct the fax/telephone number registered in the printer's directory, and then send the document again.

- ➔ [Changing Registered Information](#)

Check5 Is printer's memory full?

Delete contents in memory, and then send the fax again.

- ➔ [Document Stored in Printer's Memory](#)

Check6 Is document loaded properly?

Remove the document, and then reload it on the platen or in the ADF.

- ➔ [Loading Originals](#)

Check7 Does a printer error occur?

If an error message is displayed on the touch screen, check the cause.

For messages, refer to [Message Is Displayed](#).

Select  (Stop) and if the message is closed, you can send the fax.

Cannot send a fax to a specific destination

A

If you cannot send a fax to a specific destination, check the following items.

Check1 Check if the **Check RX fax information** setting is not set to **ON**.

Set **Check RX fax information** in **Security control of Fax settings** to **OFF**.

- ➔ Preventing Mistransmission of Faxes

Check2 Check if the fax can be sent manually.

If you do not hear the fax sound of the other device from the printer after dialing, the dialed phone number is incorrect or the destination is set to receive the fax manually.

If you can send the fax, check the registered fax phone number.

- ➔ Sending Fax after Speaking on Telephone

If the registered phone number is correct, add P (pause) with the # key at the very end of the registered phone number.

- ➔ Sending Fax to Registered Recipient

Errors Often Occur When Send a Fax

Check Check telephone line condition or connection.

If errors occur frequently when using an Internet telephone, it is possible that they can be reduced by selecting **Reduce** for **Error reduction setting (VoIP)** on **Advanced fax settings** under **Fax settings**.

For details, see **Error reduction setting (VoIP)**.

➔ [Fax settings](#)

▶▶▶ Note

- If selecting **Reduce** does not reduce errors, select **Do not reduce**.

In addition, when using an Internet telephone, it is possible that errors occur more often if **4800 bps** or **9600 bps** is selected for **TX start speed**. Select **14400 bps** or **33600 bps**.

If the telephone line or connection is poor when using a general telephone, reducing the transmission start speed may correct the error.

Reduce the transmission start speed on **TX start speed** in **Adv. communication settings** in **Advanced fax settings** under **Fax settings**.

➔ [Fax settings](#)

Problems Receiving Faxes/Cannot Print a Fax

- ▶ **Cannot Print a Fax/"Fax received. Saved in memory." Appears**
- ▶ **Printer Does Not Switch Automatically Between Voice and Fax Calls**
- ▶ **Cannot Receive a Fax/Cannot Receive a Color Fax**
- ▶ **Errors Often Occur When Received a Fax**

Cannot Print a Fax/"Fax received. Saved in memory." Appears

Check1 Is a different size of paper from that specified by **Page size** in **Fax paper settings** loaded?

If a different size of paper from that specified by **Page size** is loaded for printing faxes, the received faxes will not be printed and will be stored in the printer's memory (Memory Reception). Load the same size of paper as that specified by **Page size**, then select **OK**.

Check2 Is paper loaded?

If paper is not loaded, received faxes will be stored in the printer's memory without being printed (Memory Reception). Select **Fax**, Load paper, and then select **OK**.

Check3 Make sure there is enough ink left to print.

If there is not enough ink left to print, received faxes will be stored in the printer's memory without being printed (Memory Reception). Printing starts automatically after replacing the ink tank.

➔ [Document Stored in Printer's Memory](#)

Check4 Is **User management settings** set to enable and are fax received documents set to not automatically print?

When **User management settings** is enabled and fax received documents are set to not automatically print, the administrator and general users with **Memory reference** permission can print the fax received document from **Memory reference**.

Print it manually from **Fax > Function list > Memory reference**. If a password is set, the administrator needs to enter the password.

The General users who are not permitted to use **Memory reference** of **User management settings** cannot print from **Memory reference**. When a standard user selects **Memory reference**, the screen will display **This function is restricted**. and will return to the **Function list**.

Telephone Problems

- **Cannot Dial**
- **Telephone Disconnects During a Call**

Cannot Dial

Check1 Is telephone line cable connected correctly?

Check that the telephone line cable is connected correctly.

➔ [Connecting Telephone Line](#)

Check2 Is telephone line type of printer or external device set correctly?

Check the telephone line type setting and change it as necessary.

➔ [Setting Telephone Line Type](#)

Telephone Disconnects During a Call

Check Is telephone line cable or telephone (or a peripheral device such as an external telephone, an answering device, or a computer modem) connected correctly?

Check that the telephone line cable and the telephone (or a peripheral device such as an external telephone, an answering device, or a computer modem) are connected correctly.

➔ [Connecting Telephone Line](#)

Poor Quality Fax Received

Check1 Check scan settings of sender's fax device.

Ask the sender to adjust the scan settings of the fax device.

Check2 Is **ECM RX** set to **OFF**?

Select **ON** for **ECM RX** in **Adv. communication settings** in **Advanced fax settings** under **Fax settings**.

If **ECM RX** is enabled, the sender's fax device resends the fax after correcting errors automatically.

➔ [Fax settings](#)

Check3 Is sender's original document or scanning area of sender's fax device dirty?

The image quality of the fax is mainly determined by the sender's fax device. Contact the sender and ask the sender to check whether the scanning area of the fax device is dirty.

Check4 Is ECM transmission/reception enabled although the line/connection is poor, or is the sender's fax device compatible with ECM?

- Select **ON** for **ECM RX** in **Adv. communication settings** in **Advanced fax settings** under **Fax settings**.

➔ [Fax settings](#)

- Contact the sender and ask the sender to check whether the fax device is set to enable ECM transmission.

If the sender's or recipient's fax device is not compatible with ECM, the fax will be sent/received without automatic error correction.

- Reduce the reception start speed on **RX start speed** in **Adv. communication settings** in **Advanced fax settings** under **Fax settings**.

➔ [Fax settings](#)

Check5 Did you confirm paper and print quality settings?

➔ [Printout \(Copy\) Results Are Unsatisfactory](#)

Mechanical Problems

- **Printer Does Not Turn On**
- **Printer Turns Off Unexpectedly or Repeatedly**
- **USB Connection Problems**
- **Switching Printer's Connection to Network or Devices**
- **Wrong Language Appears in LCD**

Printer Does Not Turn On

Check1 Press **ON** button.

→ [Power Supply](#)

Check2 Make sure power plug is securely connected to printer, and then turn on again.

Check3 Unplug printer, leave it for at least 2 minutes, and then plug it back in and turn on again.

If this does not solve the problem, contact your nearest Canon service center to request a repair.

Printer Turns Off Unexpectedly or Repeatedly

Check If printer is set to turn off automatically after a certain time, disable this setting.

If you have set the printer to turn off automatically after a specified time, the power will shut off by itself once that time has elapsed.

1. Check that printer is turned on.

2. Select  (**Setup**) on HOME screen.

»» Note

- If **User management settings** is enabled, the user selection screen is displayed before the HOME screen is displayed.

3. Select **ECO**.

4. Select **Power control**.

5. Select **Use auto power control**.

6. Select **Auto power off**.

7. Select **Never**.

The setting to shut off the power automatically is disabled.

»» Note

- You can use the scheduling function of the Remote UI to turn the printer on or off at a specified time.

USB Connection Problems

If the printer connected to the computer via USB is not recognized, check the following items.

➔ [USB Connection Not Recognized](#)

The following problems may occur even though the USB connection is recognized.

- Printing (scanning) is slow.
- Hi-Speed USB connection does not work.
- A message such as "**This device can perform faster**" appears. (Windows)

If the above is the case, check the following.

➔ [USB Connection Does Not Work Properly](#)

➤➤➤ **Note**

- If your system environment does not support Hi-Speed USB, the printer operates at the slower speed of Full-Speed or Low-Speed. In this case, the printer works properly but printing (scanning) speed may slow down due to the communication speed.

USB Connection Not Recognized

Check1 Check that printer is turned on.

Check2 Unplug the USB cable from the printer and the computer, and then connect it again.

As the illustration below, the USB port is at the back of the printer.

➤➤➤ **Important**

- Check the orientation of the "Type-B" connector and connect to the printer. For details, refer to the instruction manual supplied with the USB cable.

Check3 Check that **Enable bidirectional support** is selected in **Ports** sheet of **Printer properties** dialog box. (Windows)

If not, select it to enable bidirectional support.

➔ [Opening Printer Driver's Setup Screen](#)

USB Connection Does Not Work Properly

Check Check following to make sure your system environment supports Hi-Speed USB connection.

- The types of USB cables that can be used differ depending on your printer. Check the shape of the USB cable connection of the printer.

➔ [What Is USB Cable?](#)

- Does the USB port on your computer support Hi-Speed USB connection?
- Does the USB cable or the USB hub support Hi-Speed USB connection?

Be sure to use a certified Hi-Speed USB cable. We recommend that the USB cable be no longer than 10 feet / 3 meters or so.

- Is the Hi-Speed USB driver working properly on your computer?

Make sure the latest Hi-Speed USB driver is working properly and install the latest version of the Hi-Speed USB driver for your computer, if necessary.

Important

- For more information, contact the manufacturer of your computer, USB cable, or USB hub.

Wrong Language Appears in LCD

Follow the instructions below to select your language.

1. Select the HOME button.

2. Select  (**Setup**).

➔ [Using Touch Screen](#)

▶▶▶ Note

- If **User management settings** is enabled, the user selection screen is displayed before the HOME screen is displayed.

3. Select .

4. Select sixth setting item from top.
5. Select a language for touch screen.
6. Select button on lower left.

The desired language appears on the LCD.

Installation and Download Problems

- **Failed to MP Drivers (Printer Driver) Installation (Windows)**
- **Cannot Proceed Beyond Printer Connection Screen (Cannot Find Printer Connected via USB)**
- **Updating MP Drivers (Printer Driver) in Network Environment (Windows)**
- **Disable Function to Send Usage Information of Printer**

Failed to MP Drivers (Printer Driver) Installation (Windows)

If the MP Drivers (Printer Driver) were not installed correctly, make sure that all **Windows Updates** have been applied. If all **Windows Updates** have not been applied, apply all **Windows Updates**.

After confirming **Windows Update**, perform the following operations to install the MP Drivers (Printer Driver).

1. Open screen to uninstall MP Drivers (Printer Driver).

For Windows 11:

Select **Settings > Apps**.

Select **Apps & features**.

For Windows 10:

Select **Settings > Apps**.

For Windows 8.1 / Windows 7:

Select **Control Panel > Programs and Features**.

2. Check if there is "**Canon XXX series Driver**" or "**Canon XXX series Printer Driver**" you want to install in list.

"XXX" is the model name.

3. If you find MP Drivers (Printer Driver) for printer you want to install, uninstall it.

If not found, proceed to the next step.

4. Restart computer.

After restarting, install the latest MP Drivers (Printer Driver).

»»» Important

- For Windows:

To restart your computer, choose **Restart** instead of **Shut down**.

Cannot Proceed Beyond Printer Connection Screen (Cannot Find Printer Connected via USB)

If you cannot proceed beyond the **Printer Connection** screen, check the following.

Check1 Make sure USB cable is securely plugged in to printer and computer.

Connect the printer and the computer using a USB cable as the illustration below. The USB port is located at the back of the printer.

▶▶▶ Important

- Check the orientation of the "Type-B" connector and connect to the printer. For details, refer to the instruction manual supplied with the USB cable.

Check2 Follow procedure below to connect printer and computer again.

▶▶▶ Important

- For macOS, make sure the lock icon is on the lower left of the **Printers & Scanners** screen.
If the  icon (locked) is displayed, click the icon to unlock. (The administrator name and the password are necessary to unlock.)

1. Unplug USB cable from printer and computer and connect it again.
2. Make sure no printer operation is in progress and turn off.
3. Turn on printer.

Check3 Follow the steps below to install MP Drivers (Printer Driver) again.

1. Download the latest MP Drivers (Printer Driver).
2. Turn off printer.
3. Restart computer.

After restarting, install the latest MP Drivers (Printer Driver) downloaded in step 1.

Important

- When installing the MP Drivers (Printer Driver), make sure you select the correct printer name.
- For Windows:
To restart your computer, choose **Restart** instead of **Shut down**.

Updating MP Drivers (Printer Driver) in Network Environment (Windows)

Download the latest MP Drivers (Printer Driver) in advance.

Download the latest MP Drivers (Printer Driver) for your model on the download page of the Canon website.

After the download is completed, overwrite and install the new version of the MP Drivers (Printer Driver) according to the specified installation procedure.

Note

- The network settings on the printer are not affected, so the printer can be used on the network without redoing settings.

Errors and Messages

- **When Error Occurred**
- **Message Is Displayed**
- **Message for Faxing Is Displayed on Fax Standby Screen**

When Error Occurred

If an error occurs while printing, for example, if the paper runs out or jams, a troubleshooting message is displayed automatically. For some errors, a support code (error number) is also displayed.

Take the appropriate action described in the message.

When a Support Code and a Message are displayed on the Computer Screen (Windows):

Canon [series] series - [model] [model] [model]

Support Code: 1000

The paper set for printing is not loaded.
Media Type : Plain Paper
Page Size : A4
Paper Source: Rear Tray

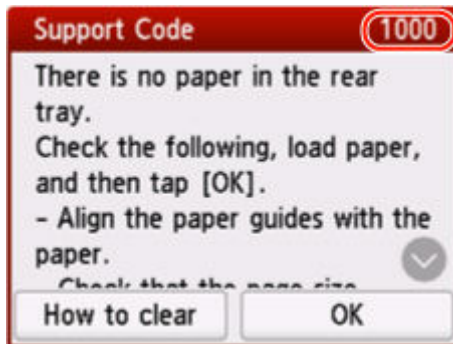

To print with different settings click [Cancel Printing] to cancel printing.
Then, check the settings above on the printer properties screen, and try printing again.

1. Load paper into the rear tray.
2. Tap [OK] on the printer.

If Error Persists

Cancel Printing

When a Support Code and a Message are displayed on the Printer's Touch Screen:

For details on how to resolve errors with Support Codes, see [List of Support Codes for Printer Errors](#).

For details on how to resolve errors without Support Codes, see [Message Is Displayed](#).

Message Is Displayed

This section describes some of the messages.

If a message is displayed on the printer's touch screen, see below.

➔ [Message Is Displayed on Printer's Touch Screen](#)

If a message is displayed on the computer, see below.

➔ [Error Regarding Automatic Duplex Printing Is Displayed](#)

➔ [Error Regarding Power Cord Being Unplugged Is Displayed \(Windows\)](#)

➔ [Writing Error/Output Error/Communication Error \(Windows\)](#)

➔ [Other Error Messages \(Windows\)](#)

Message Is Displayed on Printer's Touch Screen

Check the message and take appropriate action.

- **Power was not turned off correctly the last time. Press the  button when turning power off.**

The printer may have been unplugged while the power was still on.

Select **OK** on the printer's touch screen to cancel the error.

See [Unplugging the Printer](#) to unplug the printer correctly.

- **Cannot connect to the server. Please wait a while and try again.**

The printer cannot connect to the server due to a communication error.

Select **OK** on the printer's touch screen to cancel the error and try again after a while.

- **Check the page size and tap [OK].**

The size of the loaded paper is different from the paper size set in **Fax paper settings**.

Select **OK** on the printer's touch screen to cancel the error.

Select **Function list** in **Fax**, check **Page size**, **Type** and **Paper src** in **Fax paper settings**, and then reload the paper accordingly.

- **Replace the receiver.**

The handset is not placed in the handset cradle correctly.

Replace the handset correctly.

▶▶▶ Note

- See Message for Faxing Is Displayed on Fax Standby Screen for the message displayed on the fax standby screen.

Error Regarding Automatic Duplex Printing Is Displayed

Check See Automatic Duplex Printing Problems and take the appropriate action.

Error Regarding Power Cord Being Unplugged Is Displayed (Windows)

The printer may have been unplugged while it was on.

Check the error message displayed on the computer and click **OK**.

The printer starts printing.

See [Unplugging the Printer](#) to unplug the printer correctly.

Writing Error/Output Error/Communication Error (Windows)

Check 1 If the **ON** lamp is off, make sure printer is plugged in and turn on.

The **ON** lamp flashes while the printer is initializing. Wait until the **ON** lamp stops flashing and remains lit.

Check 2 Make sure printer is properly connected to computer.

If you are using a USB cable, make sure it is securely connected to both the printer and the computer. When the USB cable is securely plugged in, check the following:

- If you are using a relay device such as a USB hub, disconnect it, connect the printer directly to the computer, and retry the printing. If printing starts normally, there is a problem with the relay device. Contact the vendor of the relay device.
- There could also be a problem with the USB cable. Replace the USB cable and retry the printing.

If you use the printer over a LAN, make sure the printer is correctly set up for network use.

Check 3 Make sure MP Drivers are installed correctly.

Refer to [Updating the Driver](#) to uninstall unnecessary drivers and install the latest drivers.

Check 4 When printer is connected to your computer with a USB cable, check device status from your computer.

Follow the procedure below to check the device status.

1. Select **Control Panel > Hardware and Sound > Device Manager**.

▶▶▶ Note

- If the **User Account Control** screen is displayed, select **Yes**.

2. Open **USB Printing Support Properties**.

Double-click **Universal Serial Bus controllers** and **USB Printing Support**.

▶▶▶ Note

- If the **USB Printing Support Properties** screen is not displayed, make sure the printer is correctly connected to the computer.

➔ **Check 2** [Make sure printer is properly connected to computer](#).

3. Click **General** tab and check for a device problem.

If a device error is shown, see Windows Help to resolve it.

Other Error Messages (Windows)

Check

If an error message is displayed somewhere other than printer status monitor, check the following:

- **"Could not spool successfully due to insufficient disk space"**

Delete any unnecessary files to increase the amount of free space on the disk.

- **"Could not spool successfully due to insufficient memory"**

Close other applications to increase the available memory.

If you still cannot print, restart your computer and retry the printing.

- **"Printer driver could not be found"**

Refer to [Updating the Driver](#) to uninstall unnecessary drivers and install the latest drivers.

- **"Could not print Application name - File name"**

Try printing again once the current job is complete.

List of Support Codes for Printer Errors

Support codes are displayed on the printer's touch screen and your computer screen when errors occur.

A "support code" is an error number, and is displayed along with an error message.

When an error occurs, check the support code and take the appropriate action in response.

Support Codes Displayed on Printer's Touch Screen and Computer Screen

▶▶▶ Note

- If no support code is displayed but the paper is not fed or output normally, see What to Do If Paper Is Not Fed/Output Normally.

What to Do When Paper Is Jammed

If a paper jam occurs during printing (when the support code 1300/1303/1304/1313 is displayed), follow the procedure below.

▶▶▶ Note

- If the paper is not jammed (no support code displayed) but the paper is not fed or output normally, see [What to Do If Paper Is Not Fed/Output Normally](#).
- If the document is jammed in the ADF (Auto Document Feeder), see [What to Do When Document is Jammed in ADF \(Auto Document Feeder\) \(2801\)](#).

▶▶▶ Important

- When checking the paper output slot / feed slot or removing any foreign objects, do not turn the printer upside down or tilt it. The ink may leak out.

Check 1 Did you try to print on a small paper size such as **4"x6" 10x15cm** or **Card** size?

➔ [What to Do When Small Paper Sizes Are Jammed](#)

Check 2 Did you try to print from the rear flat tray (A)?

➔ [Removing Jammed Paper through Feed Slot of Rear Flat Tray](#)

Check 3 Is the jammed paper visible in the paper output slot (B)?

➔ [Removing Jammed Paper through Paper Output Slot](#)

Check 4 Are there any foreign objects in the feed slot of the rear tray (C)?

➔ What to Do If Paper Is Not Fed/Output Normally

Check 5 Is the jammed paper visible in the feed slot of the rear tray (C)?

Remove any paper other than the jammed paper on the rear tray, and then check if the jammed paper is visible in the feed slot of the rear tray.

➔ [Removing Jammed Paper through Feed Slot of Rear Tray](#)

Check 6 Is the jammed paper visible in the feed slot of the cassette (D)?

Retract the paper output tray, and then check if the jammed paper is visible in the feed slot of the cassette.

➔ [Removing Jammed Paper through Feed Slot of Cassette](#)

Check 7 If the jammed paper is not visible in the paper output slot or the feed slot.

➔ [Removing Jammed Paper inside Printer](#)

Removing Jammed Paper through Feed Slot of Rear Flat Tray

1. Press printer's **Stop** button.
2. Hold jammed paper firmly with both hands and pull it out slowly.
Slowly pull out the paper so as not to tear it.

3. Redo printing.
All jobs in the print queue are canceled. Redo the printing.

»» Important

- An error occurs if you load paper before the printer's touch screen displays "Load a sheet of paperboard.". An error also occurs if the paper is not loaded in the correct position.

Refer to [Loading Paperboard in Rear Flat Tray](#) and follow the messages displayed on the printer's touch screen.

If the measures above do not solve the problem, contact your nearest Canon service center to request a repair.

»» Important

- Do not tilt the printer when moving it since the ink may leak out.
- When transporting the printer for repairing it, see [Repairing Your Printer](#).

Removing Jammed Paper through Paper Output Slot

1. Hold jammed paper firmly with both hands and pull it out slowly.

Slowly pull out the paper so as not to tear it.

»» Note

- If you cannot pull out the paper, turn the printer back on without pulling forcibly. The paper may be ejected automatically.

The printer cannot be turned off while it is sending or receiving a fax, or when the received fax or the unsent fax is stored in the printer's memory. Make sure that all faxes have been sent and received, press the printer's **Stop** button to stop printing, and then turn off the printer.

- If the paper cannot be pulled out or is torn, open the printer's scanning unit / cover and remove jammed paper inside the printer.

➡ [Removing Jammed Paper inside Printer](#)

2. Select **OK** on printer's touch screen.

The printer resumes printing. Reprint the page you were printing if it was not printed properly due to the paper jam.

If you turned off the printer in step 1, all jobs in the print queue are canceled. Redo the printing.

▶▶▶ Note

- When reloading the paper, make sure you are using suitable paper and loading it correctly.
- We recommend using paper sizes other than A5 to print documents with photos or graphics. A5 paper may curl and jam as it leaves the printer.

If the measures above do not solve the problem, a bit of paper may remain in the printer. See [Removing Jammed Paper inside Printer](#).

Removing Jammed Paper through Feed Slot of Rear Tray

1. Hold jammed paper firmly with both hands and pull it out slowly.

Slowly pull out the paper so as not to tear it.

▶▶▶ Note

- If the paper cannot be pulled out or is torn, refer to the following page to detach the transport unit and then pull out the jammed paper from the feed slot of the rear tray.
 - ➔ [Removing Jammed Paper from Rear Side](#)

2. Load paper in rear tray.

- ➔ [Loading Photo Paper / Plain Paper in Rear Tray](#)
- ➔ [Loading Envelopes in Rear Tray](#)

▶▶▶ Note

- Make sure you are using suitable paper and loading it correctly.
- We recommend using paper sizes other than A5 to print documents with photos or graphics. A5 paper may curl and jam as it leaves the printer.

3. Select **OK** on printer's touch screen.

The printer resumes printing. Reprint the page you were printing if it was not printed properly due to the paper jam.

If the measures above do not solve the problem, a bit of paper may remain in the printer. See [Removing Jammed Paper inside Printer](#).

Removing Jammed Paper through Feed Slot of Cassette

1. Hold jammed paper firmly with both hands and pull it out slowly.

Slowly pull out the paper so as not to tear it.

▶▶▶ Note

- If the paper cannot be pulled out or is torn, detach the transport unit cover and remove the jammed paper from the rear side.

➔ [Removing Jammed Paper from Rear Side](#)

2. Load paper in cassette.

➔ [Loading Plain Paper in Cassette](#)

▶▶▶ Note

- The loadable paper in the cassette is A4, Letter, A5, B5 or Executive size plain paper.

3. Select **OK** on printer's touch screen.

The printer resumes printing. Reprint the page you were printing if it was not printed properly due to the paper jam.

If the measures above do not solve the problem, a bit of paper may remain in the printer. See [Removing Jammed Paper inside Printer](#).

Removing Jammed Paper inside Printer

►► Important

- The printer cannot be turned off while it is sending or receiving a fax, or when the received fax or the unsent fax is stored in the printer's memory. Make sure that all faxes have been sent and received, press the printer's **Stop** button to stop printing, and then turn off the printer.

1. Press printer's **Stop** button.
2. Turn off printer and unplug it.
3. Open scanning unit / cover.

►► Important

- Do not touch the clear film (A), white belt (B), or tubes (C).

If you soil or scratch this part by touching it with paper or your hand, it could damage the printer.

4. Check if jammed paper is under print head holder.

If the jammed paper is under the print head holder, move the print head holder to the far right or left, whichever makes it easier to remove the paper.

When moving the print head holder, hold the print head holder and slide it slowly to the far right or left.

5. Hold jammed paper firmly with both hands.

If the paper is rolled up, pull it out and grasp the edges of the paper.

6. Slowly pull out jammed paper so as not to tear it.

Pull out the paper at an angle of about 45 degrees.

7. Make sure all jammed paper is removed.

If the paper tears when you pull out it, a bit of paper may remain in the printer. Check the following and remove any remaining paper.

- Any paper left under the print head holder?
- Any small bits of paper left in the printer?
- Any paper left in the left and right empty spaces (D) in the printer?

8. Close scanning unit / cover.

To close the scanning unit / cover, lift it up slightly and then lower it gently.

9. Plug printer back in and turn printer back on.

10. Load paper.

- ➔ [Loading Photo Paper / Plain Paper in Rear Tray](#)
- ➔ [Loading Envelopes in Rear Tray](#)
- ➔ [Loading Plain Paper in Cassette](#)

▶▶▶ **Note**

- Make sure you are using suitable paper and loading it correctly.
- We recommend using paper sizes other than A5 to print documents with photos or graphics. A5 paper may curl and jam as it leaves the printer.

11. Redo printing.

All jobs in the print queue are canceled. Redo the printing.

If the measures above do not solve the problem, see [Removing Jammed Paper from Rear Side](#).

Removing Jammed Paper from Rear Side

Important

- The printer cannot be turned off while it is sending or receiving a fax, or when the received fax or the unsent fax is stored in the printer's memory. Make sure that all faxes have been sent and received, press the printer's **Stop** button to stop printing, and then turn off the printer.

1. Press printer's **Stop** button.
2. Turn off printer and unplug it.
3. Retract paper support and paper output tray.
4. Turn printer so that rear side of printer faces toward you.

Important

- When changing the orientation of the printer, do not turn the printer upside down or tilt it. The ink may leak out.

5. Detach transport unit cover.
Pull out the transport unit cover.

6. Hold jammed paper firmly with both hands and pull it out slowly.

If the paper is rolled up, pull it out and grasp the edges of the paper.

▶▶ Note

- Do not touch the inner parts of the printer.

If you are unable to remove the jammed paper, follow the steps below to detach the transport unit and then remove the paper.

1. Detach transport unit.

Lift up the transport unit and pull it out.

2. Slowly pull out jammed paper.

▶▶▶ **Note**

- Do not touch the inner parts of the printer.

3. Make sure all jammed paper is removed.

4. If parts (A) are raised, tip them toward you.

▶▶▶ **Important**

- If you replace the transport unit without lowering parts (A) toward you, it could damage the printer.

5. Replace transport unit.

Insert the transport unit until it reaches the back of the printer.

7. Attach transport unit cover.

Insert the projections of the right side of the transport unit cover into the printer, and then push the left side of the transport unit cover until it is closed completely.

8. Plug printer back in and turn printer back on.

9. Load paper.

- ➔ [Loading Photo Paper / Plain Paper in Rear Tray](#)
- ➔ [Loading Envelopes in Rear Tray](#)
- ➔ [Loading Plain Paper in Cassette](#)

▶▶▶ **Note**

- Make sure you are using suitable paper and loading it correctly.
- We recommend using paper sizes other than A5 to print documents with photos or graphics. A5 paper may curl and jam as it leaves the printer.

10. Redo printing.

All jobs in the print queue are canceled. Redo the printing.

▶▶▶ **Note**

- If the 1300 error recurs, check the feed slot of the rear tray again. If a foreign object is in the rear tray, refer to **Check 1** in What to Do If Paper Is Not Fed/Output Normally and take appropriate action.

If the measures above do not solve the problem, contact your nearest Canon service center to request a repair.

»» Important

- Do not tilt the printer when moving it since the ink may leak out.
- When transporting the printer for repairing it, see [Repairing Your Printer](#).

Cause

Possible causes include the following.

- There is no paper in the rear tray.
- Paper is not loaded in the rear tray properly.
- There are any foreign objects in the rear tray.

What to Do

- After loading the paper in the rear tray correctly, follow the messages displayed on the printer's touch screen.
 - ➔ [Loading Photo Paper / Plain Paper in Rear Tray](#)
 - ➔ [Loading Envelopes in Rear Tray](#)
- If a foreign object is in the rear tray, refer to **Check 1** in What to Do If Paper Is Not Fed/Output Normally and take appropriate action.

1003

Cause

Possible causes include the following.

- There is no paper in the cassette.
- Paper is not loaded in the cassette properly.

What to Do

After loading the paper in the cassette correctly, follow the messages displayed on the printer's touch screen.

➔ [Loading Plain Paper in Cassette](#)

▶▶▶ Note

- This error may occur if the transport unit is not installed correctly. Refer to the following page to check the transport unit.

➔ [Removing Jammed Paper from Rear Side](#)

1200

Cause

Scanning unit / cover is open.

What to Do

Close the scanning unit / cover and wait for a while.

Make sure to close the scanning unit / cover after refilling ink or other operations.

1401

Cause

Print head may be damaged.

What to Do

Turn off the printer and turn it back on.

If this does not solve the problem, contact your nearest Canon service center to request a repair.

»» Important

- Do not tilt the printer when moving it since the ink may leak out.
- When transporting the printer for repairing it, see [Repairing Your Printer](#).

1496

Cause

The maintenance cartridge cannot be recognized.

The maintenance cartridge may not be installed properly or may not be compatible with this printer.

What to Do

Remove the maintenance cartridge, and then reinstall it correctly.

Refer to [Replacing the Maintenance Cartridge](#) for details on removing and installing the maintenance cartridge.

1723

Cause

The maintenance cartridge is not installed.

What to Do

Install the maintenance cartridge.

Refer to [Replacing the Maintenance Cartridge](#) for details on installing the maintenance cartridge.

1724

Cause

The currently installed maintenance cartridge cannot be used.

This printer cannot use maintenance cartridges that have been installed in other printers.

What to Do

Replace with a new maintenance cartridge.

➔ [Replacing the Maintenance Cartridge](#)

1725

Cause

The maintenance cartridge cannot be recognized.

The maintenance cartridge may not be installed properly or may not be compatible with this printer.

What to Do

Remove the maintenance cartridge, and then reinstall it correctly.

Refer to [Replacing the Maintenance Cartridge](#) for details on removing and installing the maintenance cartridge.

1726

Cause

The maintenance cartridge is full.

What to Do

Replace the maintenance cartridge.

➔ [Replacing the Maintenance Cartridge](#)

The condition of the maintenance cartridge when this error is displayed will depend on where and how the printer is used.

When this message is displayed, you must replace the maintenance cartridge.

1727

Cause

The maintenance cartridge is almost full.

What to Do

The printer will not be able to print with a full maintenance cartridge.

Tap the printer's **OK** button to cancel the error and then prepare a new maintenance cartridge.

For details on the maintenance cartridge, see [Replacing the Maintenance Cartridge](#).

Cassette Is Not Installed (1876)

Cause

Possible causes include the following.

- The cassette is not installed.
- The cassette is not pushed all the way into the printer.

What to Do

After loading the paper in the cassette and installing the cassette in the printer, and then follow the messages displayed on the printer's touch screen.

»» Important

- Align the paper guides of the cassette with both edges of the paper.

Push the cassette all the way into the printer.

Load the paper correctly and install the cassette correctly, referring to [Loading Plain Paper in Cassette](#).

2110

Cause

An incompatible print setting combination has been specified for the paper loaded in the cassette.

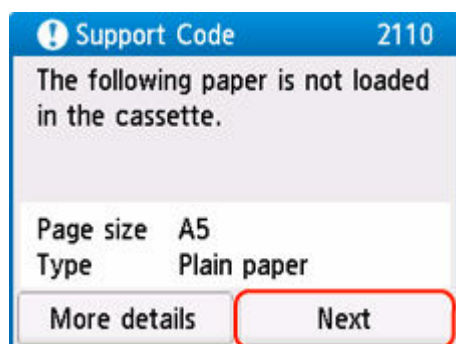

Note

- [To disable notifications for this error, disable the function to detect paper setting mismatch.](#)

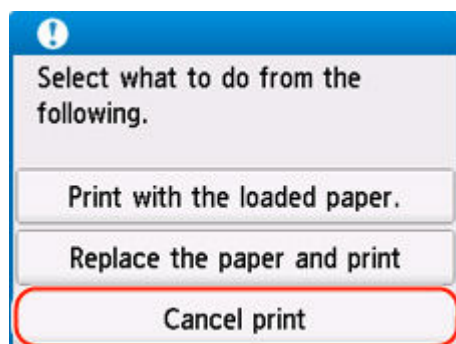

What to Do

To specify the appropriate print settings for the paper loaded in the cassette and retry printing/copying, follow the steps below.

1. Select **Next**.

2. Select **Cancel print**.

3. Reinstall cassette into printer.

4. Check paper information (paper size and media type).

The paper information is used to specify the print settings in step 5.

Check the paper information (paper size and media type) and select **Yes**.

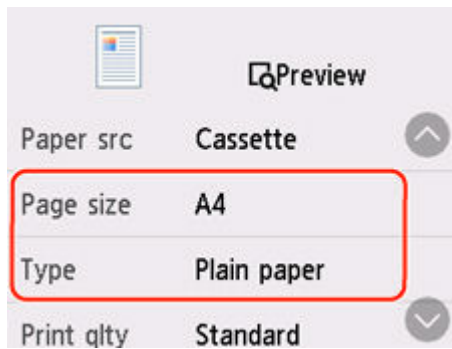

5. Specify paper information (paper size and media type).

- When copying:

1. Select Settings.

2. Specify paper information (paper size and media type) that you checked in step 4.

▶▶▶ Note

- For the proper combination of paper size and media type, see below.
 - ➔ [Paper Settings on the Printer Driver and the Printer \(Paper Size\)](#)
 - ➔ [Paper Settings on the Printer Driver and the Printer \(Media Type\)](#)

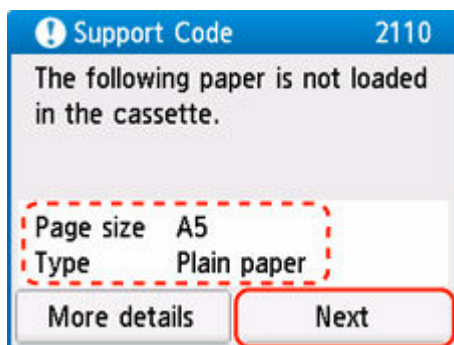

6. Press printer's **Color** button or **Black** button.

Other Measures

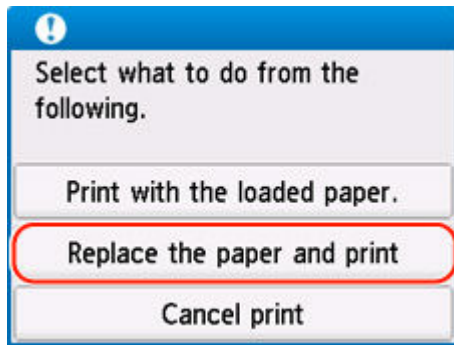

Load paper specified in print settings

To replace the paper in the cassette with paper suitable for the print settings and continue printing/copying, follow the steps below.

1. Check print settings, and select **Next**.

2. Select **Replace the paper and print**.

3. Load paper specified in print settings into cassette.

4. Register paper information (paper size and media type) in printer.

Select **Change** and register the paper information (paper size and media type) of the paper loaded in the cassette to the printer correctly.

Print without changing paper and print settings

For example, to continue printing/copying with a mismatch between the paper loaded in the cassette and the paper information registered in the printer, follow the steps below.

»» Important

- The printed result may not be the intended color or size.

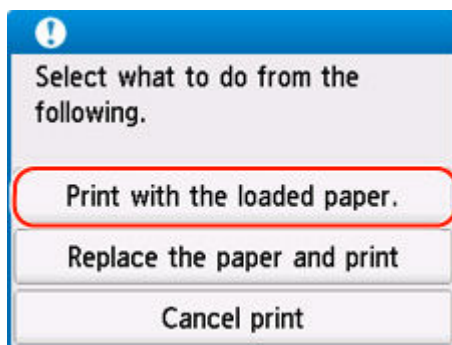

1. Select **Next**.

2. Select **Print with the loaded paper..**

»» Note

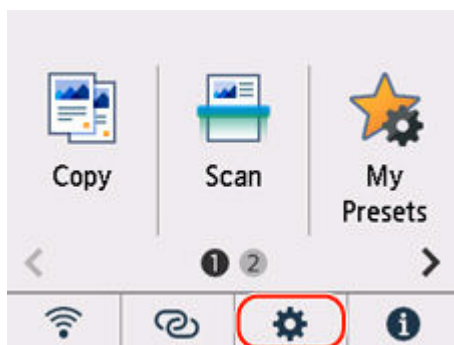

- Depending on your printer's settings, **Print with the loaded paper.** may not be displayed.

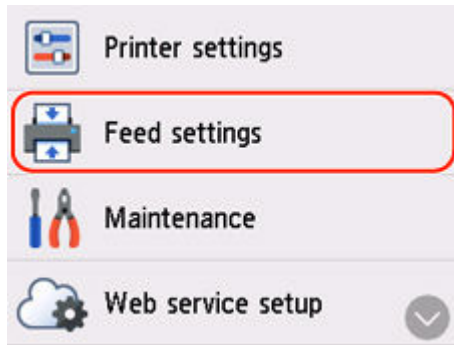

Disable notifications for 2110 error

To disable the function to detect paper setting mismatch, follow the steps below.

1. Select  (**Setup**) on printer's **HOME** screen.

2. Select **Feed settings**.

3. Select **Detect paper setting mismatch**.

4. Select **Disable**.

2113

Cause

The print settings specified at the start of printing/copying are not suitable for either the paper loaded in the rear tray or the paper loaded in the cassette.

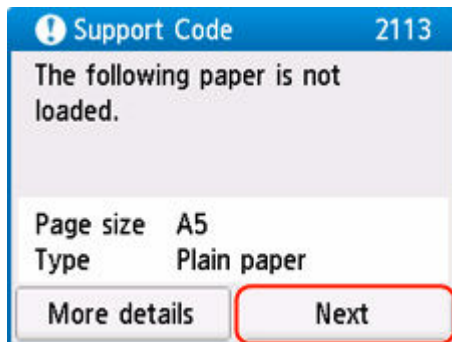

Note

- [To disable notifications for this error, disable the function to detect paper setting mismatch.](#)

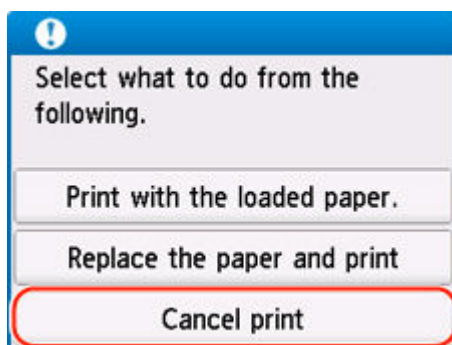

What to Do

To specify the appropriate print settings for the paper loaded in the printer and retry printing/copying, follow the steps below.

1. Select **Next**.

2. Select **Cancel print**.

3. Reload paper used for printing/copying.

- When using paper from the rear tray:

- When using paper from the cassette:

4. Check paper information (paper size and media type).

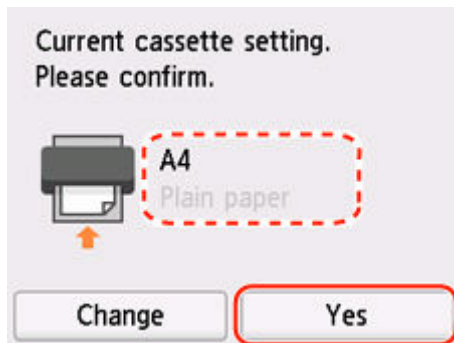

The paper information is used to specify the print settings in step 5.

- When using paper from the rear tray:

Check the paper information (paper size and media type) and select **Yes**.

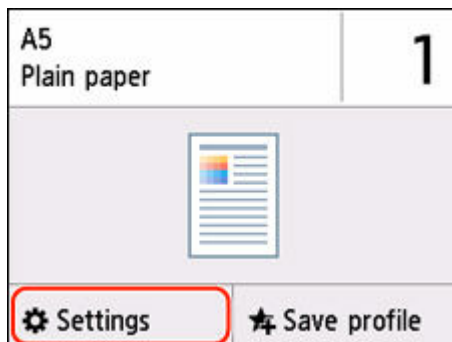

- When using paper from the cassette:
Check the paper information (paper size and media type) and select **Yes**.

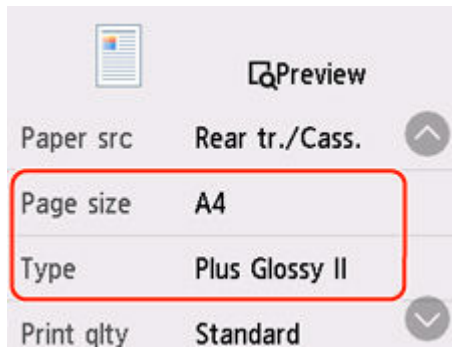

5. Specify paper information (paper size and media type).

- When copying:

1. Select Settings.

- 2. Specify paper information (paper size and media type) that you checked in step 4.**

➤➤➤ Note

- For the proper combination of paper size and media type, see below.
 - ➔ [Paper Settings on the Printer Driver and the Printer \(Paper Size\)](#)
 - ➔ [Paper Settings on the Printer Driver and the Printer \(Media Type\)](#)

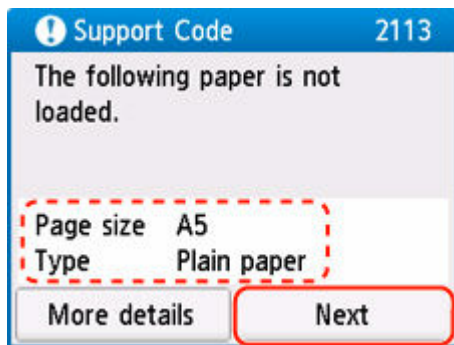

6. Press printer's **Color** button or **Black** button.

Other Measures

Load paper specified in print settings

To replace the paper in the rear tray / cassette with paper suitable for the print settings and continue printing/copying, follow the steps below.

1. Check print settings, and select **Next**.

2. Select **Replace the paper and print**.

3. Load paper specified in print settings into rear tray / cassette.

- When changing the paper in the rear tray:

- When changing the paper in the cassette:

4. Register paper information (paper size and media type) in printer.

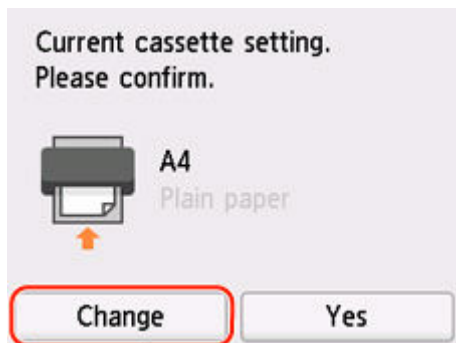

- When the paper in the rear tray is changed:

Select **Change** and register the paper information (paper size and media type) of the paper loaded in the rear tray to the printer correctly.

- When the paper in the cassette is changed:

Select **Change** and register the paper information (paper size and media type) of the paper loaded in the cassette to the printer correctly.

Print without changing paper and print settings

For example, to continue printing/copying with a mismatch between the paper loaded in the rear tray and the paper information registered in the printer, follow the steps below.

»»» Important

- The printed result may not be the intended color or size.

1. Select **Next**.

2. Select **Print with the loaded paper..**

»»» Note

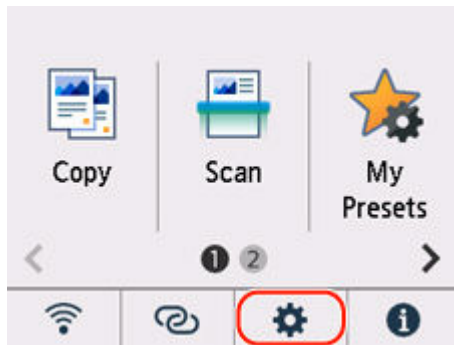

- Depending on your printer's settings, **Print with the loaded paper.** may not be displayed.

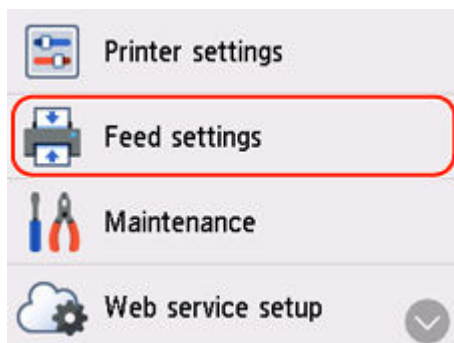

Disable notifications for 2113 error

To disable the function to detect paper setting mismatch, follow the steps below.

1. Select  (**Setup**) on printer's **HOME** screen.

2. Select **Feed settings**.

3. Select **Detect paper setting mismatch**.

Feed settings
Rear tray paper settings
Cassette paper settings
Detect paper setting mismatch
Check paper replacement

4. Select **Disable**.

Select whether to check the paper setting status before printing starts.

Enable

Disable

2114

Cause

An incompatible print setting combination has been specified for the paper loaded in the rear tray.

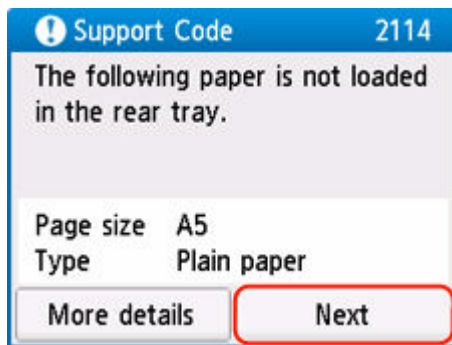

Note

- [To disable notifications for this error, disable the function to detect paper setting mismatch.](#)

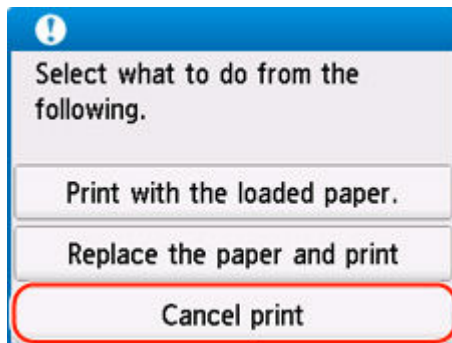

What to Do

To specify the appropriate print settings for the paper loaded in the rear tray and retry printing/copying, follow the steps below.

1. Select **Next**.

2. Select **Cancel print**.

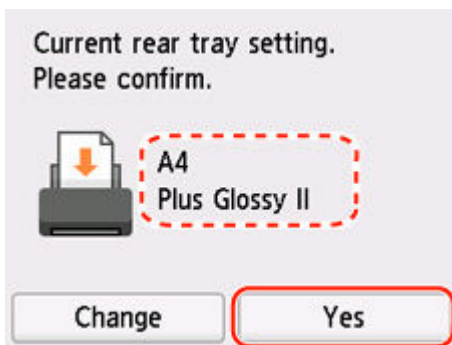

3. Reload paper in rear tray.

4. Check paper information (paper size and media type).

The paper information is used to specify the print settings in step 5.

Check the paper information (paper size and media type) and select **Yes**.

5. Specify paper information (paper size and media type).

- When copying:

1. Select Settings.

2. Specify paper information (paper size and media type) that you checked in step 4.

Other Measures

Load paper specified in print settings

To replace the paper in the rear tray with paper suitable for the print settings and continue printing/copying, follow the steps below.

1. Check print settings, and select **Next**.

2. Select **Replace the paper and print**.

3. Load paper specified in print settings into rear tray.

4. Register paper information (paper size and media type) in printer.

Select **Change** and register the paper information (paper size and media type) of the paper loaded in the rear tray to the printer correctly.

Print without changing paper and print settings

For example, to continue printing/copying with a mismatch between the paper loaded in the rear tray and the paper information registered in the printer, follow the steps below.

»» Important

- The printed result may not be the intended color or size.

1. Select **Next**.

2. Select **Print with the loaded paper..**

»» Note

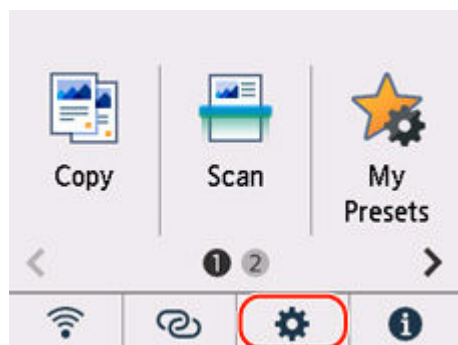

- Depending on your printer's settings, **Print with the loaded paper.** may not be displayed.

Disable notifications for 2114 error

To disable the function to detect paper setting mismatch, follow the steps below.

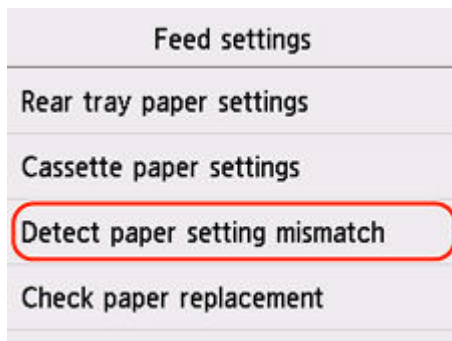

1. Select  (**Setup**) on printer's **HOME** screen.

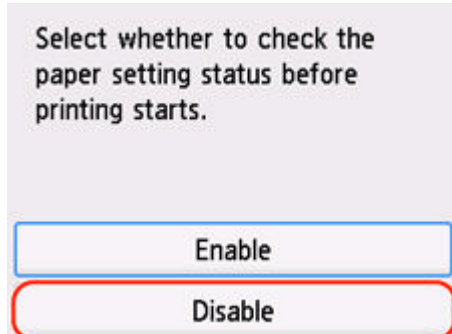

2. Select **Feed settings**.

3. Select **Detect paper setting mismatch**.

4. Select **Disable**.

2200

Cause

An internal part will need replacing soon.

What to Do

Select **OK** on the printer's touch screen to cancel the error.

You cannot replace the internal parts of the printer yourself. Contact your nearest Canon service center to request a repair as soon as possible.

►► Important

- Do not tilt the printer when moving it since the ink may leak out.
- When transporting the printer for repair, see [Repairing Your Printer](#).

3252

Cause

The maintenance cartridge is almost full.

What to Do

The printer will not be able to print with a full maintenance cartridge.

Tap the printer's **OK** button to clear the error message.

4103

Cause

Cannot perform printing with current print settings.

What to Do

Press the printer's **Stop** button to cancel printing.

Change the print settings specified when printing and retry printing.

Cause

Printer error has occurred.

What to Do

Cancel printing and turn off the printer.

Check the following:

- Make sure print head holder motion is not impeded by protective material, jammed paper, etc.
Remove any impediment.

Important

- When clearing an impediment to print head holder motion, be careful not to touch clear film (A), white belt (B), or tubes (C).

If you soil or scratch this part by touching it with paper or your hand, it could damage the printer.

Turn the printer back on.

If this does not solve the problem, contact your nearest Canon service center to request a repair.

Important

- Do not tilt the printer when moving it since the ink may leak out.
- When transporting the printer for repairing it, see [Repairing Your Printer](#).

5200

Cause

Printer error has occurred.

What to Do

1. Turn off printer and unplug it.
2. Wait about 10 minutes and then plug in printer again and turn it back on.
3. Perform **Replace Ink in Print Head**.

➡ Replace Ink in Print Head

If the error recurs after taking the above actions, contact your nearest Canon service center to request a repair.

▶▶ Important

- Do not tilt the printer when moving it since the ink may leak out.
- When transporting the printer for repairing it, see [Repairing Your Printer](#).

6000

Cause

Printer error has occurred.

What to Do

Turn off the printer and unplug it.

Plug in the printer again and turn it back on.

If this does not solve the problem, contact your nearest Canon service center to request a repair.

▶▶ Important

- Do not tilt the printer when moving it since the ink may leak out.
- When transporting the printer for repairing it, see [Repairing Your Printer](#).
